The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

**NO COLD WAR
WITH**

Novahistine[®] Elixir

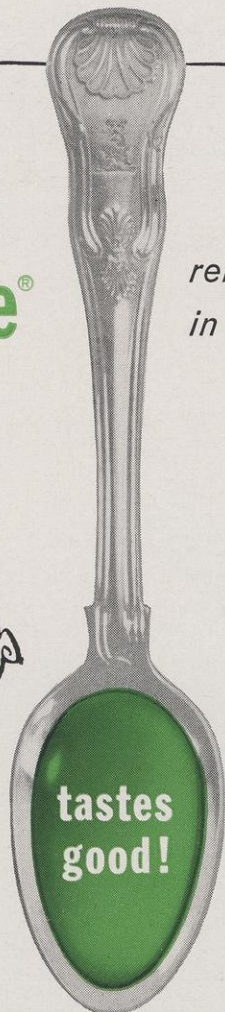

*relieves respiratory congestion
in colds and influenza*

Each 5 cc. teaspoonful of Novahistine Elixir contains: Phenylephrine HCl 5.0 mg., Prophenpyridamine maleate, 12.5 mg.

Truce is called. The fuss and furor which usually takes place with children's medication is eliminated. Children like taking Novahistine Elixir because it tastes good! Mothers appreciate how easy it is to give.

Because Novahistine Elixir is taken orally, it also eliminates the possible misuse of nose drops, sprays and inhalants... avoids the risk of rebound congestion, mucosal damage, and ciliary paralysis.
