MINUTES OF THE REGULAR MEETING

of the

BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM

Madison, Wisconsin

Held in the Clarke Smith Room, Room 1820 Van Hise Hall

Friday, July 10, 1987

9:00 a.m.

- President Weinstein presiding -

PRESENT: Regents Clusen, Finlayson, Fish, Flores, Gerrard, Hanson, Hassett, Heckrodt, Lyon, Nicholas, Nikolay, Schenian, Schilling, Vattendahl and Weinstein

ABSENT: Regent Grover

✓ Case, Floyd B.

Resolution in Memory of Floyd B. Case

former VP for Business & Finance,
R3846, pp 1-2

The following statement was made by Regent President Weinstein: "Since our last meeting, cancer claimed another of our colleagues, Floyd Case, Vice President for Business and Finance. Floyd will be sorely missed. He brought to this position an unusual sense of integrity and a deep concern about the issues related to accountability. The regent resolution dealing with management information systems is due in no small measure to his determination that we be willing to change and improve. I have, on our behalf, extended sincerest sympathies to Jolene, the children, and Floyd's entire family.

"I would ask you at this time to join me in a moment of silence in respect for a real friend of education, Floyd Case."

Following the moment of silence, Regent Lyon presented Resolution 3846 and moved its adoption. The motion was seconded by Regent Schenian and carried unanimously.

Resolution 3846: Floyd B. Case came to Wisconsin from the plains of North Dakota, and in the three short years granted him here, made an enduring print on higher education in this state.

A dedicated husband and father, he was an accomplished educational professional, and a dear friend to all of us.

He brought an engaging blend of optimism and good humor to his work and to the assistance he so readily and generously extended to others. He was a man who truly cared. A man who cared about his family, his colleagues, his friends, his work, and the mission of his newly-adopted university system.

Floyd Case was a man of many attributes, but none so pronounced as his dedication to making this world a better place.

Therefore, with this resolution, the Board of Regents of the University of Wisconsin System commemorates the public service of Floyd B. Case, marks the loss of an extremely conscientious and dedicated colleague, and extends deepest sympathy and heartfelt condolences to his wife, Jolene, and sons, Stuart and Phillip.

Approval of Minutes

Upon motion by Regent Schenian, seconded by Regent Nikolay, minutes of the annual meeting of the board held on June 5, 1987, were unanimously approved.

✓ Marnocha, Raymond - appointed ^{System} Acting Trust Officer, p. 2

REPORT OF THE PRESIDENT OF THE BOARD

Appointment of Acting Trust Officer

Regent Lyon nominated Acting Vice President for Business and Finance, Mr. Raymond Marnocha, for the position of Acting Trust Officer, to replace Mr. Case. The nomination was seconded by Regent Nicholas and unanimously carried.

✓ System - Officers - Raymond Marnocha appointed System Acting Trust Officer, p. 2

Report of Regent Representative on the Educational Communications Board

Noting that regent representation on the ECB had been added by the Legislature only two years previously, Regent Clusen reported on legislative

Educational Communications Board - Report of Regent Clusen as

Regent Representative on ECB; support for continued representation
Board of Regents Meeting 7/10/87 3

on ECB, R 3847, pp 2-3

actions this year to discontinue the position. The proposal of the Joint Finance Committee to terminate the position as of July 1, 1987, had been amended in the Senate and the Assembly to provide for a sunset of the position in two years. This was among the provisions the UW System was asking the Governor to veto. Expressing appreciation to Presidents Weinstein and Shaw and to Vice President Bornstein for supporting continuance of the position, Regent Clusen observed that regent representation on the ECB was of particular value, given university involvement with ECB in public radio/television and two campus teleproduction centers. The UW System budget included funding for operation of the teleproduction centers at UW-Green Bay and UW-Stout, as well as for WHA-TV.

Clusen, Ruth - Report as Regent Representative to Educational Communications Board, PP 2-3

While the ECB had statutory responsibility for providing public broadcasting services to Wisconsin citizens, the Federal Communications Commission had divided authority among several different licensees. The Board of Regents held the license for WHA-TV, ECB held licenses for the five public network stations (Green Bay, Wausau, Madison, Park Falls and La Crosse) and the Milwaukee VTAE District held the license for the public television channels in Milwaukee. For those reasons, as well as the UW System's preeminence in public education, she considered regent and system administration representation on the ECB to be clearly appropriate.

Reporting that the ECB's last meeting was held at UW-Stout, Regent Clusen said that the board was favorably impressed by the campus facilities and hospitality. She hoped meetings could be held at one of the campuses at least once a year. Two new members recently appointed to the ECB by the Governor were Robert Bodden, Director of the Wisconsin Broadcasters' Association, who was the Department of Administration representative, and Charlotte Mathessy, of Fond du Lac, who was to serve as a public member.

At the annual meeting in June, Donald Rosenberg of Wausau, a private education representative, was elected chair of the ECB and Regent Clusen was elected vice-chair.

In conclusion, Regent Clusen noted that, like other agencies, the ECB was experiencing budget problems, including lack of funds for capital equipment, repair and new purchases.

President Weinstein said that he and President Shaw agreed it was important to retain membership on the ECB and would continue to press the case for vetoing the sunset provision.

The following resolution was moved by Regent Fish, seconded by Regent Schenian and unanimously carried:

Resolution 3847: That the Board of Regents supports the continuation of regent representation on the Educational Communications Board.

Regent Committee -

Report on the Ben R. and Ruth M. Lawton Scholarship Fundraising Committee - Report to Board, p. 4

Regent Hanson, co-chairman of the committee, reported that the fundraising effort to date had generated more than a third of the money needed to reach the minimum goal of \$250,000, the income from which would support one student. It was hoped that by next year the goal would be achieved.

Finlayson, Edith -

Last Meeting as a Member of the Board for Regent Edith Finlayson
p. 4

Noting that at a previous meeting the board had formally recognized Regent Finlayson for her service on the board, President Weinstein reported that this would be her last meeting, since a successor had been appointed and she planned to submit her resignation the following week. "I did not want the occasion to go by," he stated, "without simply expressing to her on my own behalf and on behalf of the board, the chancellors and system staff, that you will be missed on this board; your contribution has been monumental. You have set an example for other regents in terms of kindness on the one hand, but toughness of mind on the other. I wanted to tell you that the kind of love and affection you express for the institution, we express to you."

Wisconsin
Presentation of Dairy Task Force Report - Meeting to follow
Board meeting in Van Hise Hall, p. 4

It was announced by President Weinstein that, following the board meeting, the Wisconsin Dairy Task Force would present its report to President Shaw and Secretary Howard Richards, of the Department of Agriculture, Trade and Consumer Protection, with members of the Board of Regents and Board of Agriculture, Trade and Consumer Protection in attendance.

Chancellors -

Resolution of Commendation, UW-Superior Chancellor Karl Meyer, R 3848, pp 4-5

Regent Hanson presented Resolution 3848 and moved its adoption. The motion was seconded by Regent Nikolay and adopted unanimously.

Resolution 3848: Whereas, his 23 years as the chief administrative officer of the University of Wisconsin-Superior established Karl W. Meyer as the senior chancellor of the University of Wisconsin System; and

Whereas, during his tenure the University of Wisconsin-Superior gained recognition as an impressive regional institution offering distinguished service to Wisconsin's Northland; and

- ✓ Meyer, Karl - Resolution of commendation, R 3848, pp 4-5
- ✓ UW-Superior - Staff - Resolution of commendation for retiring Chancellor Karl Meyer, R 3848, pp 4-5

Whereas, his calm and steady direction helped UW-Superior to keep its spirit in an environment often charged with change, and his genuine regard for the well-being of his colleagues and students earned him the admiration and respect of the university community; and

Whereas, this historian, who for more than two decades has helped shape the history of Superior, has decided to retire from his post as chancellor;

Now therefore, be it resolved that the Board of Regents extends its deep appreciation for long and dedicated service to Dr. Karl Meyer and his wife, Margery, and confers upon Chancellor Meyer the title of Chancellor Emeritus, as of his retirement on August 16, 1987.

Chancellor Meyer made the following statement: "I am very happy to acknowledge your kind and generous comments. I might say I feel very comfortable about retiring. I retire with a great deal of pride and satisfaction. Certainly my wife, Margery, and family have given me a great deal of support in the last 23 years, and I would like to acknowledge them too.

"I received any number of questions during the pre-retirement period for which I have developed stock answers, one of them being, how do you explain your longevity of over 23 years? My response has been that, first of all, you do the best you can with as much honesty and integrity as you can, and that provides for a good night's sleep. Second, you maintain your optimism and if you keep hoping that things will improve, they may. And third, you have to find some humor in the things that we do.

"Retirement is a little bit like graduation, I think. It's a transitional period from one phase to another. It's a time for reflection. A lot of things have happened. We have had our ups and downs. But I can tell you that the institution is in good shape. The only thing it needs is more money. It is also a time for looking ahead, and Marge and I plan to do a number of things in our retirement. But we certainly will remember all of you--the many regents that I have served, the many people in administration, my colleagues, the chancellors, and especially our faculty and our students at Superior. We will go out with many happy memories, and we look forward to seeing all of you again. Thanks very much."

✓ Budget -
↳ Observations on the Budget and the Process, pp 5-6

Noting that he had been kept informed on a daily basis by President Shaw and his staff as the budget made its way through the legislative process, President Weinstein observed that for everyone involved there had been weeks of stress and concern about the outcome. Every effort had been made to keep members of the board informed of developments, including most recently President Weinstein's letter to the Governor requesting vetoes of several items.

Stating that the dramatic improvement in the UW System's proposed budget over the past month was the result of great effort put forth by a host of talented and dedicated people, President Weinstein expressed appreciation to them on behalf of the board for a job superbly well done. Noting that the capital budget had been passed intact for the first time in recent years, he recognized Vice President Brown for the tireless efforts and deftness which he lent to this singular achievement.

For the substantial improvements made in the operating budget, Regent Weinstein first thanked the Governor, for understanding and articulating the UW System's needs, and the legislative leaders whose advocacy had been instrumental in making important changes. He then recognized the chancellors and staffs for their outstanding and effective cooperation, as well as members of the Board of Regents for their helpful contacts with legislators, and Regent Vice President Schilling for his assistance and guidance. Noting that involvement of all these groups was coordinated by Vice President Bornstein and his staff, Regent Weinstein expressed appreciation for their professionalism and outstanding achievements, as well as to Executive Vice President Lyall, who met the ongoing demands of system administration business and preparations for regent meetings. Concluding his comments, Regent Weinstein noted that none of this would have occurred without the skillful leadership of President Shaw.

- - -

REPORT OF THE PRESIDENT OF THE SYSTEM

Legislature -
Review of Legislative Matters and the Biennial Budget, pp 6-9

Reporting on highlights of the UW System's biennial budget as passed by the Legislature, President Shaw cited a number of major accomplishments which would benefit students, faculty, and academic support staff, along with extension and economic development efforts statewide. First, the UW System was to receive 341 new faculty positions over the two-year period--almost 90 percent of the number recommended by Governor Thompson in his budget proposal. There were 100.5 of these positions authorized for 1987-88, with the balance funded in the second year of the biennium. He cautioned, however, that progress in adding new class sections would be limited because of deferred reductions in campus instructional budgets due to last year's budget reduction bill. At that time, approximately \$4.1 million from system reserves had been used on a one-time basis to offset the immediate impact of the \$34 million reduction. Nevertheless, the new positions would begin to make a positive difference in providing access to students in high demand areas and in improving educational quality.

One million dollars annually--the full amount recommended by Governor Thompson--was provided for acquisition of library materials and to compensate for increased costs of books and periodicals.

Research and public service efforts were to receive nearly \$2.2 million annually for basic and applied research, for economic development and for telecommunications equipment. In addition, funding had been designated to

xref Budget - (same as above)

initiate a distinguished professorship program. These budget items had been approved in the full amount proposed by the Governor.

Programs designed to assist minorities were targeted to receive significant support with second year approval of a grow-your-own minority faculty program, a minority loan forgiveness program for those interested in going into teacher education, and approval of a need-based pilot minority tuition award program.

The Legislature also provided the full funding recommended by the Governor for special student needs and for hazardous waste material removal, while the UW-Madison registration system, the UW System Administration management information system, teacher education improvements, and a computer-based credit transfer matrix received partial funding, so that major progress could be made in those key support areas.

The budget also authorized the entire building program requested by the Board of Regents.

Important flexibility was provided in key aspects of the Executive Salary Plan and in a number of administrative areas, such as eliminating burdensome position controls for gift, grant and federally-funded positions, providing needed expenditure authority for grant-funded projects, modifying the timing for auxiliary proposals, and permitting carryover and expenditure of tuition and federal indirect funds allotted by the Legislature but not expended in the prior year. These welcome revisions in administrative procedures were the direct result of recommendations by the Flexibility Task Force that was created by former Governor Earl, with the recommendations being endorsed by Governor Thompson.

While the budget included authority for the Board of Regents to close campuses without legislative approval, President Shaw observed that so sensitive a decision was unlikely to be made without significant legislative interest and involvement.

In areas of educational policy, favorable action included extending to UW-Parkside the tuition award program that had been quite successful at UW-Superior in providing out-of-state tuition for students who enrolled in selected disciplines that had room for additional students. UW-Parkside would be cooperating with the Lake County, Illinois, community college to serve students from that institution without any detriment to Wisconsin students.

Stating that these favorable provisions far outweighed those which were not favorable, the president cited a number of remaining concerns, which included restrictions that created separate appropriation lines for research and minority programs, as well as infringements on regent, faculty, academic staff and student governance through provisions that related to the appointment of system officers, the credit transfer issue, tuition policy, and use of electronic mail for communication about issues being debated in the political arena.

Other concerns included provisions that would sunset the regents' seat on the Educational Communications Board, that would eliminate the option of using \$20 million of existing general obligation bonding authority for

telecommunications equipment, and that would have a negative impact on conversion of faculty sick leave benefits upon retirement for the payment of health insurance premiums. Concern about all these issues had been conveyed to Governor Thompson and to key members of his staff, for consideration in exercising his veto prerogatives.

A major and continuing problem was the compensation package for faculty and academic staff. While there was recognition of the state's limited resources, it was clear that the two percent increase provided in the budget would not allow the UW System to keep pace with its competition in the educational marketplace and that the need for catch-up increases might again be on the horizon unless the problem could be resolved in the near future. The president was convinced that the follow-up faculty/staff compensation study requested of the Department of Employment Relations by the Joint Committee on Employment Relations would illustrate this need to the DER, the Governor, and the Legislature in the next two-year period.

In view of the Board of Regent's long-range plan and the priority it placed on educational quality and balancing access with available resources, President Shaw said much pride could be taken that the budget met so many needs and aspirations of the UW System. He thanked the board for its leadership, system staff for their long hours and hard work, the chancellors, faculty and staff for their support and involvement, and the legion of special friends, alumni and organizations who considered the UW System a very special resource that in large part would shape the future of Wisconsin and its citizens.

In closing, President Shaw expressed special gratitude to friends in the executive and legislative branches of state government. "They were accessible. They listened to our case for additional funding. They worked hard on behalf of public higher education. Their individual and collective leadership and support is greatly appreciated. It was a real team effort and I, for one, am pleased to have been associated with such a first-rate team."

Regent Schilling suggested that a resolution from the board might be helpful in discussions with the Governor regarding line-item vetoes.

While he supported the idea, Regent Fish urged that the resolution be worded carefully so the board would not be perceived as unsatisfiable after having been treated well by the Governor and Legislature.

Regent Heckrodt agreed and suggested that the resolution be general, rather than specific, in order to allow for flexibility and to avoid exerting too much pressure after the favorable treatment the UW System had received.

Regent Hanson stated she shared the concern expressed by Regents Fish and Heckrodt.

President Weinstein noted that the Governor wished to know the board's view before he made veto decisions.

In response to a question by Regent Flores, President Shaw reviewed the budget language on VTAE college parallel courses which provided that if a plan were not submitted by September 1988 for designating those offerings as transferable to the UW System, a statutory requirement mandating transferability would become effective. While university groups were already working on these issues and could meet the stated deadline, concern remained that it was not appropriate to legislatively mandate an action which should be decided through educational policy making.

Regent Schilling suggested that the resolution begin by recognizing the generosity of the Governor's original budget proposal and the substantial assistance received from the Legislature. It should be made clear, he added, that the resolution was in response to the Governor's request for the board's views.

Regent Weinstein asked Vice President Bornstein to draft a resolution for consideration later in the meeting (see pp 32-33).

✓ Legislature -

→ Introduction of State Representative Marlin Schneider as an observer, p. 9

President Weinstein welcomed Representative Marlin Schneider, Co-Chair of the Joint Committee on Finance, who had come to observe the meeting.

Thanking Representative Schneider for the support he had given the UW System, President Shaw stated that the Representative had been accessible and supportive of a number of budget items important to the UW System. He also had been helpful in explaining issues to colleagues, including the complicated matter of bonding authority.

✓ UW-Milwaukee - Staff -

→ Introduction of Associate Vice Chancellor, UW-Milwaukee Stikes, p. 9

President Shaw introduced Dr. Charles Stikes, who had been appointed Associate Vice Chancellor of UW-Milwaukee. He was a former university vice president, an expert in human relations, and a scholar in the field of social psychology.

Approval of Nonpersonnel Actions/Informational Items

Regent Heckrodt moved and Regent Schenian seconded Resolution 3849, which was adopted unanimously by the board.

Resolution 3849: That the report of nonpersonnel actions by administrative officers to the Board of Regents and informational items reported for the record (copy on file with the papers of this meeting) be received for the record; and that actions included in the report be approved, ratified and confirmed.

REPORT OF THE EDUCATION COMMITTEE

Vice Chairman Flores presented the report of the committee.

Report of the Executive Vice President

At the committee meeting, Executive Vice President Lyall reported on the following items in place of Vice President Trani, who was to be at the University of London until the middle of the July.

✓ Minutes -> Appointment of Select Committee on the Status of Minority Faculty and Staff, p. 10

President Shaw appointed an 18-member systemwide Select Committee on the Status of Minority Faculty and Staff, with the charge to review the status of Black, American Indian and Hispanic faculty/staff and to advise him on how to improve recruitment and retention of these ethnic and racial groups. The committee, which was to report to the president by May 15, 1988, was formed on the recommendation of the UW System Minority Faculty Conference held last spring.

Scheduled Reports to the Education Committee

Four major reports were scheduled to be presented to the Education Committee early in the fall: an historical summary of minority/disadvantaged activities from merger to the present; the annual report on the status of minorities; the annual report, as requested by the board, of accreditation reviews conducted in UW System institutions during 1986-87; and the vice president's recommendations resulting from the activities of the Strategic Planning in Business Administration Task Force.

✓ Awards -> National Medal of Science Award to UW-Madison Professor R. Byron Bird, p. 10

It was also reported by Dr. Lyall that R. Byron Bird, UW-Madison Vilas Research Professor and Professor of Chemical Engineering, was one of 20 winners of the prestigious National Medal of Science awarded this year. Presenting the award to Professor Bird at a White House ceremony in June, President Reagan said Dr. Bird merited the award not only for his research on kinetic theory and the behavior of plastics, but for his support of foreign language study for engineers and scientists. The committee extended its congratulations to Professor Bird for this award.

✓ Transfers of Credit ->

Implementation of Regent Study Group Resolution 4: Transfer of Credit, including Uniform Acceptance of Associate Degree for General Education Distribution Breadth Requirements, R 38503 PP 10-12

Reviewing the history of this item, Regent Flores reported that, in compliance with provisions of Regent Study Group Resolution 4 (SG 4), President Shaw appointed an ad hoc advisory committee consisting of faculty, academic administrators and students from across the system, to recommend minimum standards for general education requirements for the associate

✓
✓ X ref Credits - (same)
✓ X ref UW Centers - (same)

degree. The proposed recommendations developed by that committee were presented to the board for a first reading in June.

In committee discussion, it was pointed out that this policy was not a guaranteed admissions policy, that students would still have to apply, be admitted as juniors, and meet the same requirements for entry to high-demand majors and programs. Adopting the policy would signal the board's interest in facilitating transfer for center students and concern for transfer problems.

The committee asked to be informed through regular reports on the effect of this policy, its impact on enrollments at the centers and whether transfer problems were, in fact, lessened. Resolution 3850 was then approved unanimously by the committee.

The following resolution was moved by Regent Flores, seconded by Regent Hanson and unanimously adopted by the board:

Resolution 3850: That, upon recommendation of the President of the University of Wisconsin System, the Board of Regents resolves

that the minimum requirements for an associate degree granted by a UW System institution and the minimum University of Wisconsin general education breadth requirements for the associate degree, proposed by the systemwide committee on the transfer of associate degree credit, be accepted as the systemwide policy on general education requirements for the associate degree, effective fall, 1987;

that the goal of Regent Study Group Resolution 4, the provision that a student who has earned an associate degree containing those systemwide requirements from an institution in the UW System, and who transfers to a university of the UW System, will be considered as having fulfilled the general education distribution or breadth requirements of that university, be implemented for fall, 1987;

that each institution shall establish an appeals process by fall, 1987, to assist students experiencing difficulties in the transfer process;

and that a report to the Board of Regents will be made November, 1988, on the effectiveness of the institutional appeals process, with a recommendation whether or not to establish a systemwide faculty appeals committee.

President Weinstein commended the ad hoc committee, faculty, and system administration for their statesmanship in advancing this policy, particularly given the strong feelings which existed about the issue. He observed that the resolution would be helpful in promoting public and

legislative recognition that the UW System was dealing effectively with the credit transfer issue.

Noting that the Education committee also had congratulated and thanked the ad hoc committee, Regent Flores introduced Dr. Sue Andrews of UW Center-Waukesha County, who had chaired that committee.

✓ General Education ~~Matrix~~ Requirements - Chart provided for Edr. Committee, p. 12

The Education Committee was provided with a chart of general education requirements currently in effect at UW System institutions, as requested at the June meeting by Regent Schilling. Executive Vice President Lyall said the chart would serve as a useful benchmark as institutions began to review their general education requirements, as mandated by Regent Study Group Resolution 9.C., for completion by May 1988.

✓ UW-River Falls - Change in academic calendar from quarter to semester system, R 3851, pp 12-13

Academic Calendar Change: UW-River Falls

Regent Flores reported that Chancellor Thibodeau advised the committee of the reasons UW-River Falls was requesting a change in the academic calendar from a quarter system to a semester system, the consultation process followed prior to making this recommendation, and the transition process planned between now and the effective date of the change.

✓ Calendar - Change in UW-River Falls academic calendar from quarter to semester system, R 3851, pp 12-13

Paul J. Uhren, President of the UW-River Falls Student Senate, had sent a letter asking the board to reject the proposal and James Smith, Legislative Affairs Director of United Council and a UW-River Falls graduate, appeared before the committee to support the student position. Mr. Smith stressed the advantages of the quarter system for part-time and nontraditional students and the wider course selection available in a quarter system. In a referendum in which 15 percent of the students voted, 85 percent of those voting opposed the change. With over 80 percent of the faculty and more than 70 percent of the academic staff voting, approximately 54 percent of those who voted favored the change. After discussion, the committee unanimously approved Resolution 3851.

Regent Flores moved and Regent Hanson seconded adoption by the board of the following resolution:

Resolution 3851: That, upon the recommendation of the Chancellor of the University of Wisconsin-River Falls and the President of the University of Wisconsin System, the University of Wisconsin-River Falls be authorized to change its academic calendar from a quarter system to a semester system, effective fall semester of the 1990-1991 academic year.

Regent Schenian stated that he intended to vote for the resolution even though the students opposed it, on the basis that he considered it a campus educational issue which should be decided by faculty and academic staff. He

hoped, however, that student views on such issues would be taken into account.

Regent Hanson pointed out that the change would not go into effect until 1990, which should minimize disruption of course sequences for current students.

Put to the vote, Resolution 3850 was then unanimously adopted.

✓ UW-Extension - Approval of

Amendment to Faculty Policies and Procedures, UW-Extension R 3852, p.13

The Education Committee unanimously approved Resolution 3852 which would amend UW-Extension faculty policies and procedures to incorporate changes in terminology, updating of statutory citations/references, and changes in provisions for participating in faculty governance. The committee was advised that all amendments were consistent with the regents' 1982 reorganization policy.

Adoption by the board of the following resolution was moved by Regent Flores and seconded by Regent Schenian:

Resolution 3852: That, upon the recommendation of the Chancellor of the University of Wisconsin-Extension and the President of the University of Wisconsin System, the Amendments to the Faculty Policies and Procedures of the University Wisconsin-Extension be approved.

In response to a question by Regent Lyon, Chancellor Boyle indicated that only those faculty with full appointments in UW-Extension were eligible to participate in faculty governance at that institution.

Regent Flores added that those who were integrated into other institutions participated in governance in the institutions to which they were assigned.

Put to the vote, Resolution 3852 was adopted unanimously.

✓ Regents - Policy -

Amendment to Board of Regents Policy #78-6 (Board of Visitors), R 3853 ^{EXA} pp 13-15

Reporting committee approval of the proposed amendment, Regent Flores noted that Regent Policy #78-6 dealt with the establishment, composition, and duties of boards of visitors, with one of the guidelines limiting the size of the boards of visitors to 15 members.

The proposed amendment would allow, in special circumstances, that number to be exceeded, with permission of the Board of Regents. The committee cautioned institutions not to expand the size of membership too liberally.

xref ✓ Visitors, Board of - (same)

It was moved by Regent Flores and seconded by Regent Finlayson that the following resolution be adopted by the board:

That, upon recommendation of the President of the University of Wisconsin System, the Board of Regents amends Regent Policy Document #78-6, Board of Visitors Reorganization, Exhibit A, Guideline 3, to read:

"In general, the number of members of an institutional board of visitors should not exceed 15. Where special circumstances warrant, permission of the Board of Regents may be requested to exceed this number."

In response to a question by Regent Fish, President Shaw explained that the issue had arisen because UW-Milwaukee wished to expand membership on its Board of Visitors to 20 because of the size of the metropolitan area and the desire to have more diversity of membership. While expansion would not be necessary in most cases, he felt Milwaukee was an exception for the reasons stated.

Regent Schilling pointed out that several committee members were concerned about the possibility that boards of visitors might become too large to function effectively.

Regent Flores said he voted against the resolution in committee because he was concerned about piecemeal expansion of boards and because he saw no real justification for going beyond 15 members. Although UW-Milwaukee representatives had not spoken at the committee meeting, he was inclined to believe that 15 members could provide adequate diversity in a major metropolitan area.

Regent Clusen felt it was not appropriate for the board to deal with such a matter on a case-by-case basis and that it would be preferable simply to specify an upper limit on the number of members.

Regent Gerrard suggested giving the system president authority to discuss these matters with the chancellors and to act as he saw best.

Regent Hassett commented that, while UW-Milwaukee might have reason to add several members, he doubted that there would be many requests for expansion, since it would be self-defeating to have boards which were too large.

Regent Schenian moved to amend the resolution to replace the word "should" with the word "shall" and the word "may" with the word "must," in order to make it clear that regent approval was required for expansion beyond 15 members. The motion was seconded by Regent Hanson and unanimously carried.

Put to the vote, Resolution 3853, as amended, was adopted, with Regents Fish, Flores and Vattendahl voting "No."

Resolution 3853: That, upon recommendation of the President of the University of Wisconsin System, the Board of Regents amends Regent Policy Document #78-6, Board of Visitors Reorganization, Exhibit A, Guideline 3, to read:

"In general, the number of members of an institutional board of visitors shall not exceed 15. Where special circumstances warrant, permission of the Board of Regents must be requested to exceed this number."

✓ Calendars - Approval of

→ Academic Calendars, 1988-89, EX B, p. 15

In a review of academic year calendars for 1988-89, the Education Committee was advised that the calendars conformed with statutory and regent policy requirements which stipulated that the contractual academic year be nine months or 39 weeks; that there be at least 34 weeks of organized services for students; that the Martin Luther King holiday in January be observed; and that no classes begin before September 1.

✓ Authorizations to Recruit -

→ Authorization to Recruit: Vice Chancellor, UW-Green Bay, R 3854, p 15

Reporting unanimous committee approval of Resolution 3854, Regent Flores said the committee was advised that UW-Green Bay Chancellor David Jowett was resigning and planned to return to his faculty position, effective September 1. Chancellor Outcalt stated his intention to mount a national search for a successor. In the meantime, he expected to bring to campus a retired chief executive to act in an interim capacity.

✓ Key UW-Green Bay - (same)

Regent Flores moved and Regent Hanson seconded the following resolution, which was adopted unanimously by the board:

Resolution 3854: That, upon the recommendation of the Chancellor of the University of Wisconsin-Green Bay and the President of the University of Wisconsin System, the Chancellor be authorized to recruit for a Vice Chancellor to fill a vacancy resulting from the resignation of the incumbent.

✓ Academic Affairs -

→ Introduction of Professor Rex Hieser, Administrative Intern in the Office of Academic Affairs, p. 15

Executive Vice President Lyall introduced to the committee Professor Rex Hieser, who was serving for the summer as an administrative intern in the Office of Academic Affairs. Dr. Hieser was an Associate Professor of Psychology at UW Center-Marquette County.

REPORT OF THE BUSINESS AND FINANCE COMMITTEE

Case, Floyd -

Chairman Lyon presented the committee's report.

→ Expression of Sympathy to the Family of Floyd B. Case *from Business & Finance Committee, p. 16*

On behalf of the committee, Chairman Lyon offered an expression of sympathy to the family of former Vice President for Business and Finance Floyd Case and commended his high quality service to the University System.

System - Officers -

→ Staff Changes in the Office of Business and Finance, p. 16

It was announced by Regent Lyon that Raymond Marnocha, Assistant Vice President for Business and Finance and System Controller, had been named Acting Vice President for Business and Finance. Mr. Marnocha announced that William Brunkow, currently Director of Internal Audit, had been designated Acting Assistant Vice President for Business and Finance, and Deborah Durcan, currently Assistant Controller, had been named Acting Controller.

1987-88 Operating Budget, including Auxiliary Reserves and Rates for Academic Fees/Tuition, Segregated Fees, Room and Board and Parking

The operating budget was considered at a portion of the committee meeting to which all regents were invited. *and fees schedules*

✓ Budget - Approval of 1987-88 operating budget, R 3855, pp 16-19

President Shaw presented the operating budget, which, in a departure from previous years, included auxiliary reserves, rates for academic fees/tuition, segregated fees, room and board, and parking, as well as GPR and outside-funded operations. It was noted by Chairman Lyon that there had been thorough review of all facets of the budget at the committee meeting.

With regard to segregated fees, Adrain Serrano, President of United Council, identified three general concerns that students wished to address in the coming year: use of segregated fees to fund areas that could not be funded through other means; the level of administrative and physical plant chargebacks; and the division between allocatable and non-allocatable fees.

There was a student appeal of one of seven UW-Madison budget decisions regarding segregated university fees, the other six issues in that area having been resolved through negotiations involving the SUFAC Committee, the Acting Chancellor of UW-Madison and President Shaw. The remaining matter to be resolved by the Board of Regents concerned the decision of the Acting Chancellor to include in the budget funding for an electronic ID card checker in the Southeast Recreational Facility at a cost of \$12,700 in segregated fees. Mike Bachhuber, Wisconsin Student Association Shared Governance Director, presented the student point of view to the committee, and Acting Chancellor Cohen presented his interpretation of the statute regarding the role of students in the management of the university. After considerable discussion to clarify the issue, Regent Schenian introduced,

and Regent Flores seconded, a motion to remove the \$12,700 from the budget. That motion failed.

In committee discussion, Regent Fish requested that System Administration prepare a report on the segregated fee process and submit it at a later time to the board.

Resolution 3855 then was approved in committee, with Regent Nikolay voting "No."

Adoption by the board of the following resolution was moved by Regent Lyon and seconded by Regent Clusen:

Resolution 3855: That, upon the recommendation of the President of the University of Wisconsin System, the 1987-88 operating budget including auxiliary reserves and rates for academic fees/tuition, segregated fees, room and board and parking as reflected in the document 1987-88 Operating Budget and Fee Schedules, July 1987 be approved. The 1987-88 amounts are:

GPR	\$ 638,070,370 (37.5%)
<u>Academic Fees</u>	<u>255,246,384 (15.0%)</u>
Total GPR/Fees	893,316,754 (52.5%)
<u>Other</u>	<u>807,406,184 (47.5%)</u>
Total	\$1,700,722,938 (100.0%)

That the President of the University of Wisconsin System is authorized to make necessary adjustments to the budget and fee/tuition rates to reflect the distribution of pay plan salary adjustments, final action on the budget by the Legislature and Governor and final Minnesota fee information.

That the Board of Regents directs the Chancellors to use the new faculty positions for high demand fields to be verified by:

- 1) Chancellors' January, 1987 "Immediate Needs" reports,
- 2) CDR data,
- 3) registration closed sections data,
- 4) accreditation needs and other appropriate special academic considerations.

Regent Weinstein emphasized that most members of the board had been in attendance at the committee meeting and had spent hours reviewing the budget at that time. This day's action constituted formal adoption of a budget which already had received detailed consideration.

If gubernatorial vetoes were to produce a major change in the budget, Regent Schenian inquired as to whether the board would meet again to make necessary changes, and President Weinstein answered in the affirmative, noting however that major changes were not anticipated.

President Shaw added that he would keep the board advised regarding the Governor's vetoes.

Regent Clusen commended Vice President Bornstein and the University Relations staff for their efficiency and promptness in keeping the regents informed of budget development.

It was pointed out by President Weinstein that the consensus of regents at the committee meeting was that there was need to review the matter of student appeals and the process for bringing them to the board.

Regent Schenian stated that he intended to vote for the budget, although as a student member of the board, he was concerned about the tuition increases and had made it known when the board submitted its initial budget request that he did not support the level of increases requested. However, since the Legislature had now acted, he was willing to vote for the budget because he had no recommendation as to what could be done in the absence of the money that was to be raised by tuition increases. Noting that there were many new faculty positions and other initiatives in the budget that would benefit students, he thought the overall result would be that students would see a substantial increase in the quality of their education. Even though they would be paying more, there were additional state monies in the budget to accompany the increased tuition.

On another matter, Regent Schenian felt the appeal by UW-Madison students sought an interpretation of sec. 36.09(5) which was different from what currently existed. Because he did not believe the board could provide the interpretation the students wanted, he predicted that they might well commence a law suit to resolve the matter through the courts.

Stating that he also intended to vote for the budget, Regent Flores noted that he had voted against the board's original request because he felt the proposed tuition increase was too high. While the tuition increase in the budget was lower than originally proposed, it was necessary to compensate by reducing enrollments. Generally, however, he was very pleased with the budget passed by the Legislature.

With regard to the student appeal, Regent Flores thought the issue should have been dealt with more directly than simply decided through approval of the budget, which had the effect of upholding the chancellor's decision. He felt the policy issue concerning segregated fees should be given further consideration in the future.

Regent Fish questioned whether the regents should study the segregated fee rules if they were to be challenged in court.

Because courts tended to look favorably on an administrative agency's interpretation of its own rules, Regent Schilling thought it might behoove the students to let the board consider its interpretation of the rule first, because a suit might otherwise be viewed by the court as premature.

Regent Flores noted that it was not known at this time whether or not a lawsuit actually would be filed. That possibility, he said, should not deter the board from doing what it thought should be done. He considered the principle involved an important one which deserved to be studied.

Regent Lyon observed that the process had been properly followed in development and presentation of the budget.

Put to the vote, Resolution 3855 was adopted, with Regent Nikolay voting "No."

There being no motion to the contrary, Regent Weinstein stated that System Administration would be asked to help the board review the policy on student appeals.

Gifts, Grants, and U.S. Government Contracts

Continuing the report of the Business and Finance Committee, Regent Lyon summarized gifts, grants and contracts for the twelve-month period ending June 30, 1987. The committee was advised that the total of \$352.8 million was \$56.9 million more than received for the same period last year (a 19.2 percent increase). The non-federal share increased 50.5 percent, (\$32.2 million) over a year ago, while the federal share increased 10.6 percent (\$24.7 million) over the same period last year. Primary changes in federal receipts were increases in research (\$16.4 million), instruction (\$1.5 million), and student aid (\$9.2 million). At the request of the committee, the twelve-month reporting period had been changed to correspond with the fiscal year, whereas the period previously terminated one month prior to end of the fiscal year. The activity report this month was inflated by 1987-88 financial aid receipts amounting to \$10.5 million. After adjusting for these receipts, the total and federal increases respectively were \$46.4 million (15.7 percent), and \$14.2 million (6.1 percent).

Adoption by the board of Resolution 3856, which was unanimously approved by the committee, was moved by Regent Lyon and seconded by Regent Schenian.

Resolution 3856: That, upon recommendation of the President of the University of Wisconsin System, the gifts, grants and contracts presented at this meeting (copy on file with the papers of this meeting) be accepted, approved, ratified and confirmed; and that, where signature authority has not been previously delegated, appropriate officers be authorized to sign agreements.

Financial Aid - Status of federal student financial aid, pp 19-20
Referring to comments by campus student aid officers about a drastic decline in federal student aid dollars, Regent Fish pointed out that in the past year the UW System had received more federal funds than ever before in its history, including a substantial increase in student financial aid monies.

At the request of Regent Lyon, Acting Vice President Marnocha explained that the report included some student aid dollars for 1987-88. When these were subtracted, the total figure declined by \$1.12 million, some of which was accounted for by the fact that institutions did not qualify for National

Direct Student Loan monies because of the amounts available from loan repayments.

Regardless of the reporting period, Regent Fish emphasized that student aids were not being cut as some campus officers indicated. He added that it was important to keep in mind that in addition to the student aid funds received each year, pay-backs from previous federal aid also were available to students.

In response to a question by Regent Schenian, Assistant Vice President Jensen reported that total gift, grant and contract receipts were one-to-two percent above the original estimate.

Put to the vote, Resolution 3856 was unanimously adopted.

✓ Requests - Acceptance of Mary M. Troy bequest, R 3857, p. 20

✓ Request of Mary M. Troy Troy, Mary M. - Acceptance of bequest R 3857, p. 20

Upon motion by Regent Lyon, seconded by Regent Schenian, the following resolution, which was unanimously approved by the committee, was unanimously adopted by the board:

Resolution 3857: That the bequest of the late Mary M. Troy, Mauston, Wisconsin, be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the will, and that the Trust Officer or Assistant Trust Officers be authorized to sign receipts and do all things necessary to effect the transfer for the benefit of the McArdle Institute for Cancer Research at University Hospitals.

(The bequest under the will leaves the remainder of the estate as follows:

"I hereby give, devise and bequeath all the rest, residue and remainder of my property of every kind, nature and description, as follows:

(f) One-twentieth (1/20) thereof to the McArdle Institute for Cancer Research at University Hospitals, Madison, Wisconsin."

The University will receive approximately \$89,000.)

✓ Academic Staff -

→ Report of 1986-87 Salary Catch-Up Adjustments for Academic Staff other than Instructional and Research Staff, R 3858, pp 20-21

The committee was advised by Assistant Vice President Jensen that, while the second and third salary catch-up installments for academic staff, effective July 1, 1986 and January 1, 1987, were paid on schedule for Category B staff (instructional and research), adjustments for

administrative, professional and supervisory staff (Category A) were delayed pending development of the legislatively mandated academic staff salary structure and the assignment of new titles. Title assignments were completed in February 1987, and adjustments to these staff were paid on June 30, 1987, at an annualized cost of \$3.4 million GPR/fee funds and \$6 million in all funds. The committee unanimously approved Resolution 3858, the purpose of which was to report these adjustments to state government in response to Section 3053, Chapter 29, Laws of 1985. This was the final action to be taken in initial implementation of the salary catch-up program for academic staff and in completion of Step 1 of the Hayes-Hill program.

The following resolution was adopted unanimously by the board, upon motion by Regent Lyon, seconded by Regent Finlayson:

Resolution 3858: That the report, 1986-87 Salary Catch-Up Adjustments for Academic Staff Other Than Instructional and Research Staff, be accepted for transmittal to state officials in response to Section 3053, Chapter 29, Laws of 1985 on reporting the catch-up adjustments to state government.

✓ Uniform Chart of Accounts - *Development of uniform chart of accounts*
R 3859, p. 21

Regent Lyon reported unanimous committee approval of Resolution 3859, which called for implementation of a uniform chart of accounts by July 1, 1988. The chart of accounts would establish uniform coding for financial information, and the institutions would be required to transmit their information in a prescribed format using electronic readable media. This would require modification of existing software and/or development of new software to crosswalk institution codes into the uniform codes. Implementation of the new coding would enable the UW System to do comparable analyses of costs incurred by instructional departments and to compare support costs.

It was moved by Regent Lyon and seconded by Regent Schenian that the following resolution be adopted by the board:

Resolution 3859: That System Administration develop a uniform chart of accounts to be implemented by July 1, 1988 to which the UW System institutions will be required to crosswalk their financial information. It is expected that the 1988-89 Annual Operating Budget will be developed to facilitate the use of a uniform chart of accounts.

In response to a question by Regent Flores, Regent Weinstein explained the technical term "crosswalk." If a computer code held ten digits and the last three digits were not used, the institutions could be directed to use those three digits for the uniform chart of accounts, so that they would mean the same thing across the entire system. Fortunately, he noted, there was enough room in the UW System coding structure for that to be accomplished.

Put to the vote, Resolution 3859 was then adopted unanimously.

UW-Milwaukee

UW-Milwaukee Proposal to Offer Non-Degree Credit, Pre-College English and Mathematics Courses on Fee Recovery Basis, R3860, pp 22-25

President Shaw presented to the committee a one-year experiment proposed by UW-Milwaukee to offer its non-credit, pre-college English and mathematics courses on a fee recovery basis. While these courses currently were funded from the instructional budget, the relatively large demand for them (142 sections and 3,583 students in 1986-87) in conjunction with budget constraints had limited access and quality of instruction in both the remedial (pre-college) and the regular credit courses of the two departments.

Indicating his belief that the advantages of approving the proposal outweighed the disadvantages, President Shaw advised that the consequences of taking no action included offering fewer classes for students not required to take remedial courses, thereby delaying completion of their studies and causing them additional semesters of expense. Also, fewer students who needed remedial work would be served, extending the time they must spend to earn a degree. There currently was a backlog of students waiting to register for remedial courses, which delayed their entry into the regular course sequence. The proposed initiative would allow the university to serve more students, both those requiring regular classes and those requiring remedial work. Students requiring remedial courses would pay additional fees if they took more than 12 credits per semester, which was the maximum course load recommended by academic counselors for those doing remedial work. However, they would also bring their own graduation dates closer, thus saving money at that point.

Xref

Credits - (same as above, but add "at UW-Milwaukee")

The president emphasized that this program was a one-year experiment which would help in providing students with the requisite skills to be successful in their college careers.

After Chancellor Smith summarized UW-Milwaukee's reasons for making this proposal, Adrian Serrano, of United Council, and Harold Annen, President of the UW-Milwaukee Student Association, presented students' views and supported the experiment.

Xref

Remedial Education - (same as above + add at UW-Milw.)

Following discussion, the committee unanimously approved Resolution 3860.

Adoption by the board of the following resolution was moved by Regent Lyon and seconded by Regent Heckrodt:

Resolution 3860: That for 1987-88 UW-Milwaukee is authorized to assess a fee of \$195 for each pre-college English and Mathematics course per semester offered on a non-credit basis, as a one-year experiment. This fee shall be in addition to the regular fee assessment for any credit courses for which the student may register even if the student is assessed the full-time fee for credit courses. System Administration will conduct an evaluation of the program before the 1988-89 annual budget is approved.

Regent Hassett stated that he intended to vote for the resolution in order to help UW-Milwaukee solve this specific problem. Expressing concern, however, about the whole matter of offering remedial programs at the university level, he asked for a study of how other universities dealt with the problem, and of whether the UW Centers or the VTAE System might be helpful in providing such programs.

Regent Lyon agreed with the need for such a study.

Noting that he had stated as a principal conviction of his own the need to form stronger linkages with the VTAE System and the Department of Public Instruction, President Weinstein referred the matter of remedial programs to the Education Committee for study and recommendation regarding educational policy in this area.

Stating that he shared the concern expressed by Regent Hassett, Regent Flores thought there was need to discuss the role of the UW System in remedial education in relationship to the VTAE role, as well as the impact of the proposal on minority students and on full time students who needed remedial courses. If the program did not need to be implemented immediately, he felt the Education Committee should first have an opportunity to discuss such fundamental issues.

Regent Hanson asked if the number of those not meeting admission requirements exceeded the five percent standard specified in the regents' admission policy.

Stating that the issue was an urgent one, Chancellor Smith said that of 2,677 new freshmen admitted to UW-Milwaukee in 1986-87, 40 percent had placement exam scores which showed the need for remedial work before they could complete courses at the university level. Seventy-five percent of those students were in the upper 50 percent of their high school class, and 80 percent were not minority students.

Expressing agreement with Regent Hassett, Regent Hanson stated her belief that the university should not be in the business of offering remedial programs when there were other alternatives such as the UW Centers and the VTAE System. Inasmuch as students needing remedial work often also were lacking in financial resources, she pointed out that other schools could provide remedial courses at a lower cost than the university.

Noting that Business and Finance Committee members had voiced many of the same concerns, Regent Fish explained that there was an urgent time frame, because the program had to be implemented in the next semester in order to avoid further problems. While the matter had come to the Business and Finance Committee because it involved setting of fees, the committee recognized the educational impact of the issue and asked that it be forwarded to the Education Committee for study. The Regent Study of the Future had addressed the issue of raising standards, he noted, along with the desirability of having remedial work done at a pre-university level.

Regent Fish observed, however, that the immediate problem was in meeting the needs of students who met admission standards but still needed remedial work. The UW-Milwaukee program was a one-year experiment, with courses to be taught by instructors rather than professors, and students were not to be charged additional fees unless they exceeded the recommended 12 credits per semester. In his view, the experiment was worth trying while the Education Committee studied the issue on a systemwide basis.

Stating that he also supported the resolution as a necessary response to an emergency situation, Regent Schilling agreed that the overall matter should be assessed in order to address what clearly was a serious problem which could not be resolved unilaterally by the UW System, the VTAE System or the elementary/secondary schools. Instead, close cooperation would be required to phase out remedial education in the UW System, while perhaps increasing VTAE involvement in such programs and helping elementary/secondary education to alleviate the problem.

Noting that UW institutions had been providing remedial programs for many years, Regent Vattendahl agreed that a study should be done. However, he stressed the urgency of approving the UW-Milwaukee experiment in order to meet the immediate needs of students at that institution for more class sections.

Regent Finlayson expressed her support for the resolution and for the study which had been suggested.

It was noted by Regent Schenian that student representatives at the committee meeting had supported the resolution with reservations as to how the initiative had been developed and how it was going to be implemented.

Regent Clusen stated her concern that the proposal seemed inconsistent with decisions made in the Regent Study of the Future and particularly that it could have an adverse financial impact on those least able to afford a college education. She asked if there was a profile of students who took remedial courses.

In response, Chancellor Smith indicated that the students involved did not fit any particular pattern. In terms of cost, he noted that these students already were being penalized by having to stay in the university a longer period of time in order to graduate.

Regent Weinstein pointed out that taking remedial courses would not advance a student toward graduation since they were not credit courses.

The ability to shift revenue by charging on a fee basis, Chancellor Smith explained, would free base budget money to allow the opening of sections in the array of liberal arts programs for which there was a great pent-up demand. The 9,000 students who currently could not take courses they wanted would then be able to enroll in more such courses, which in turn would generate more revenue. The amount of revenue to be produced would not be known until after the experiment had been conducted.

UW-Milwaukee had shown considerable courage and commitment in proposing an innovative approach to this problem, President Shaw commented, adding that another alternative would have been simply to require students to meet the standards in order to enroll, although that would mean backing away from the responsibility of an urban institution not only to minorities, but to anyone who needed an opportunity to get ahead in life. Another alternative used by many urban institutions would be to accept students as they were, regardless of whether or not they had the skills to succeed. Instead, UW-Milwaukee had decided to require students to reach a certain standard in English and mathematics. Pointing out that this was an unusual position for an urban campus to take, he expressed admiration for the commitment to educational excellence demonstrated by that approach.

Put to the vote, Resolution 3860 was adopted, with Regent Nikolay voting "No."

Report of the Vice President for Business and Finance

Continuing the report of the Business and Finance Committee, Regent Lyon stated that the committee heard the *Fiscal Year 1986-87 Projection Summary Report*, which showed an uncommitted balance of \$1,466,988 for revenue shortfall and other contingencies as of June 30, 1987.

✓ Fees - Report on student fees required during application & admission p. 25

The committee also received a report on three fees students were required to pay during the application and admission process. In addition to a \$10 non-refundable application fee required by law and a refundable deposit of \$75 to reserve residence hall space, there was a \$100 non-refundable admission fee being applied on an experimental basis at UW-Madison and UW-Stevens Point to guarantee admission, the \$100 then being credited toward tuition at the time of registration. It was reported that this fee was in the first year of operation at the two campuses and initially appeared to be helpful in managing enrollment.

✓ Authorization to Recruit

Authorization to Recruit for a Vice President for Business and Finance R 3861 p. 25

Upon motion by Regent Lyon, seconded by Regent Finlayson, Resolution 3861 was unanimously adopted by the board.

Resolution 3861: That the Board of Regents approves the request of the President of the University of Wisconsin System that he be authorized to proceed immediately with the search and selection process for appointing a new Vice President for Business and Finance for the System.

✓ X ref System Officers - (same)

REPORT OF THE PHYSICAL PLANNING AND DEVELOPMENT COMMITTEE

✓ Bldgs & Land -

Chairman Nikolay presented the report of the committee.

UW-Madison: Authority to Bid and Construct Steam, Condensate, and Compressed Air Lines, R 3862, pp 25-26

The committee unanimously approved authority to bid and construct the second phase of a project to repair and replace the steam, condensate and compressed air lines at UW-Madison, which involved work in three areas of the campus, at a total cost of \$1,802,000 from general fund supported borrowing - minimum maintenance allocation. The board had approved phase I of this project in April 1984 at a cost of \$2,343,000, and it was anticipated that the third and final phase, at an estimated cost of \$2,200,000, would be requested in approximately two years.

Upon motion by Regent Nikolay, seconded by Regent Clusen the following resolution was unanimously adopted by the board:

Resolution 3862: That, upon the recommendation of the UW-Madison Acting Chancellor and the President of the University of Wisconsin System, authority be granted to bid and construct the Steam, Condensate and Compressed Air Lines project for an estimated total project cost of \$1,802,000 from the following funding sources:

1985-87 General Fund Supported	
Borrowing-Minimum Maintenance	\$878,000
1987-89 General Fund Supported	
Borrowing-Minimum Maintenance	924,000
	<u>\$1,802,000</u>

UW System: Approval of Increases in Major Project Budgets

Reporting committee approval of Resolutions 3863 and 3864, Regent Nikolay explained that the first involved a program revenue-funded Student Center Plaza enclosure project at UW-Milwaukee, the increase of \$205,000 being required to address conditions which had arisen since construction started in August 1986. The second resolution would increase by \$350,000 the budget of the primary electrical distribution system project at UW-Stevens Point, for a revised total project cost of \$1,122,600. With the project underway, a visual inspection of the primary cable revealed that the insulation was in such poor condition that it needed to be replaced in total, rather than in part.

Resolutions 3863 and 3864 were moved by Regent Nikolay, seconded by Regent Heckrodt and adopted unanimously by the board.

UW-Milw. - Bldg & Land - Authority for budget increase for

Resolution 3863: That, upon the recommendation of the UW-Milwaukee Chancellor and the President of the University of Wisconsin System, authority be granted to increase the budget for the Student Center Plaza Enclosure project by \$205,000, from \$2,580,000 to a revised total project cost of \$2,785,000 from Program Revenues. → R 3863, p. 26

Resolution 3864: That, upon the recommendation of the UW-Stevens Point Chancellor and the President of the University of Wisconsin System, authority be granted to increase the budget of the Primary Electrical Distribution System Repairs project by \$350,000 from \$772,600, to a revised total project cost of \$1,122,600 from General Fund Supported Borrowing - Minimum Maintenance, Health and Safety Allocation.

UW-Stevens Pt. - Bldg & Land - Authority for budget increase in primary electrical distribution repairs, R 3864, p. 26

Bldgs + Land - 2

UW-Madison: Authorization to Increase Scope of Work for Camp Randall Stadium Waterproofing/Structural Modifications

R 3865 p.27

The committee unanimously approved an increase in the scope of work for the Camp Randall Stadium waterproofing and structural modifications project to include Sections M, N, and O and a portion of Section P in the Stadium proper and Sections Y and Z in the Field House seating area, which were seating areas that covered occupied spaces. Currently underway, the project provided for a portion of Section P and Sections O through X to be encased in a multi-layered waterproofing membrane to stop leaks, and structural repairs were also being made. The \$570,000 cost for the additional work was within the previously authorized \$1.3 million budget.

Xref ✓ Camp Randall - (same)

Resolution 3865 was moved by Regent Nikolay, seconded by Regent Heckrodt and adopted unanimously by the board.

Resolution 3865: That, upon the recommendation of the UW-Madison Acting Chancellor and the President of the University of Wisconsin System, approval be granted to increase the scope of work of the Camp Randall Stadium Waterproofing, Resurfacing, and Structural Repairs project within the authorized project budget of \$1,300,000 (\$910,000 General Fund Supported Borrowing-Minimum Maintenance and \$390,000-Program Revenues). The cost of the increased scope is \$570,000, with funding coming from the following sources:

General Obligation Bonding-Minimum	
Maintenance Allocation	\$399,000
Program Revenues	<u>171,000</u>
	\$570,000

UW-Green Bay: Authorization to Demolish Building

Regent Nikolay reported unanimous committee approval to demolish the 50-year-old UW-Green Bay Shorewood Building, which was in extremely poor condition, with a current value estimated at \$10,000. The \$4,000 cost of demolition would come from university operating budget funds.

Upon motion by Regent Nikolay, seconded by Regent Heckrodt, Resolution 3866 was unanimously adopted by the board.

UW-Green Bay - Bldgs + Land - 7

~~Resolution 3866: That, upon the recommendation of the UW-Green Bay Chancellor and the President of the University of Wisconsin System, authority be granted to demolish the Shorewood Building (Facility No. D2002) at a cost of \$4,000 from University Operating Budget funds.~~

R 3866, p.27

UW System: Approval of Projects Funded from All-Agency Allocations

The committee unanimously approved three projects funded largely from all-agency allocations. The first project, for masonry and caulking repairs to ten residence halls at UW-Stevens Point, was to be funded by \$190,800 in program revenues and \$4,200 in minimum maintenance program funds. The second project was for the installation of a campus-wide computerized energy management system at UW Center-Waukesha County, with the estimated cost of \$85,900 coming from the energy conservation allocation. First-year savings from a similar installation at UW Center-Baraboo/Sauk County produced a 2.5-year payback, and similar results were anticipated from this system. The third project was for a \$380,000 increase in the \$501,100 budget for the University of Wisconsin System hazardous waste removal project, which would provide sufficient funds to complete the removal of hazardous wastes that had accumulated over the past several years and had been identified for disposal under the current hazardous waste removal project.

Resolution 3867 was adopted unanimously by the board, upon motion by Regent Nikolay, seconded by Regent Heckrodt.

Resolution 3867: That, upon the recommendation of the University of Wisconsin System Chancellors and the President of the University of Wisconsin System, the following projects be approved and authority granted to plan, bid and construct, at the cost and from the funding sources indicated. The funding sources are summarized as follow:

Program Revenues	\$190,800
General Fund Supported Borrowing -	
Minimum Maintenance Allocation	4,200
Energy Conservation Allocation	85,900
Health, Safety and Environment Allocation	<u>380,000</u>
	\$660,900

✓ UW-Stevens Point - Bldgs + Land - Approval of
 Ten Buildings Masonry Repairs Project, ~~\$195,000~~ → R 3867, p. 28
 (\$190,800 Program revenues and \$4,200 Minimum Maintenance Allocation)

✓ UW Center-Waukesha - Approval of
 Energy Management System Project, ~~\$85,900, General Fund Supported Borrowing - Energy Conservation Allocation~~ → R 3867, p. 28

✓ UW System
 Hazardous Materials Cleanup Completion Funds, ~~\$380,000, General Fund Supported Borrowing - Health, Safety and Environment Allocation~~ for System

campuses, R 3867, p. 28

UW System: Approval of Minor Projects

Chairman Nikolay reported unanimous committee approval of three minor projects, the first being for repair of the UW-Madison Dayton/Charter Street railroad grade crossing and spur line. The estimated total project cost of \$172,000 was to be funded from capital improvement fund earnings - minimum maintenance funds. The second request was for construction at UW-Oshkosh of a Campbell Creek Athletic Service Building, a 1,500 gross square foot, multi-purpose support facility for the track and baseball programs. The cost of \$87,000 would come from program revenues. The third request was for construction of a 4,800 net square foot sheep barn and an attached 4,000 net square foot classroom and animal demonstration building project on the Mann Valley Laboratory Farm at UW-River Falls. When constructed, this facility would mark completion of all structures identified in the 1972 long-range development plan for the farm. The \$226,000 cost was to be funded from general obligation bonding - minor projects allocation.

It was moved by Regent Nikolay and seconded by Regent Schenian that the following resolution be adopted by the board:

Resolution 3868: That, upon the recommendation of the UW-Madison, UW-Oshkosh and UW-River Falls Chancellors and the President of the University of Wisconsin System, the following minor projects be approved and authority granted to plan, bid and construct at the cost and from the funding sources indicated, summarized as follow:

Program Revenues	\$ 87,000
General Obligation Bonding	
- Minimum Maintenance	172,000
General Obligation Bonding	
- Minor Projects Allocation	<u>197,000</u>
	<u>\$456,000</u>

✓ Bldgs + Land - Approval of

UW-Madison

→ Dayton/Charter Streets Railroad Crossing Modifications, \$172,000, General Obligation Bonding - Minimum Maintenance Allocation, R 3868, pp 29-30

✓ UW-Oshkosh - Bldgs + Land - Approval of

→ Campbell Creek Athletic Facility Project, \$87,000, Program Revenues R 3868, pp 29-30

✓ UW-River Falls - Bldgs + Land - Approval of

→ Lew Flock Housing and Animal Demonstration Building, \$226,000, General Fund Supported Borrowing - Minor Projects Allocation R 3868, pp 29-30

In response to a question by Regent Fish, Chancellor Penson affirmed that payment sources for the UW-Oshkosh project would include parking/dormitory revenues, rather than just athletic revenues.

Replying to a question by Regent Flores, Chancellor Thibodeau said the UW-River Falls facility was to be an integral part of teaching in the College of Agriculture. The existing building had become dangerously decrepit, as well as inadequate for teaching.

Put to the vote, Resolution 3868 was adopted unanimously.

Report of the Vice President

Vice President Brown advised the committee that twenty-eight projects had been bid since the June meeting, with prebid budgets totaling \$9,978,790. Five projects were bid at their approved budgets, 12 projects exceeded their approved budgets by a total of \$334,350, and 11 projects were below their approved budgets by a total of \$891,700. The result of the biddings was a net of \$557,350 below the authorized budgets.

ADDITIONAL RESOLUTIONS

✓ Regent Committee - Review of Personnel Action under UWS 6.01 - Report on Regent Committee for Review of Personnel Action under s. UWS 6.01, Wisconsin Administrative Code

Members of the committee were Regents Schilling (Chairman), Flores and Hanson.

Recommendation of committee on UW-Oshkosh Prof. Carl Keen, R 3869, pp 30-31

Chairman Schilling reported that the committee met first on April 17, 1987. After discussing the procedure to be followed and the criteria that could be applied to an appeal under UWS 6.01(5), the committee reviewed the record and discussed in general the merits of the appeal. While no action was taken at the meeting, a consensus developed that the appeal of Professor Keen did not seem to meet the criteria for board review. It also was agreed that the committee should give both Professor Keen and Chancellor Penson a chance to be heard. The committee met again on June 4, 1987, with Professor Keen appearing personally and being represented by Attorney John Williamson. Chancellor Penson also appeared and was accompanied by UW-Oshkosh Attorney Tom Grogon. The committee heard each of the parties describe at some length what they thought the record revealed as to whether or not the Board of Regents should review the matter. Professor Keen then was asked if he preferred the committee to deliberate in open or closed session, and he stated his preference for continuing in open session. After open session discussion, the committee decided to recommend that the board not review the record of this matter.

✓ Admin. Code - Report of Regent Committee for Review of Personnel Action under UW 6.01 for UW-Oshkosh Prof. Carl Keen,

At the request of the chairman, a memorandum was prepared reviewing the procedural history and facts of the case, the criteria applied by the committee and the basis for the decision. The memorandum was circulated to the committee for review, after which it was sent to the parties and all regents.

✓ Keen, Carl - Regent Committee for Review of Personnel Action under UWS 6.01 declines to review personnel case, R 3869, pp 30-31

Regent Schilling expressed appreciation to Regents Flores and Hanson for their participation as members of the committee and to Senior Counsel Hodulik for her capable work in providing staff support to the committee and drafting the decision.

Regent Schenian commended the committee for the thoroughness of its report.

UW-Opfer - Decline of Regent Committee for Review of Personnel Action under UWS 6.01 to grant a review in case of

Resolution 3869 was moved by Regent Schilling, seconded by Regent Schenian and adopted unanimously by the board.

Prof. Carl Keen, R3869, pp 3-31

Resolution 3869: That, based on the recommendation of the Regent Committee for Review of Personnel Action under s. UWS 6.01, Wisconsin Administrative Code, dated July 10, 1987, the Board of Regents declines to exercise its option under s. UWS 6.01(5), Wisconsin Administrative Code, to grant a review on the record of Professor Carl Keen's complaint.

Regent Meetings -

→ Cancellation of August Meetings, R 3870, p. 31

President Weinstein noted that it had been the board's practice to schedule meetings in August but to cancel them if no urgent matter was expected to arise. If an important issue arose, he was prepared to call a special meeting.

Resolution 3870 was moved by Regent Nikolay and seconded by Regent Schenian.

Resolution 3870: That the Board of Regents meeting and regent committee meetings scheduled for August 6 and 7, 1987, be cancelled.

Complimenting the staff of System Administration for the efficient and timely manner in which they had been keeping the regents informed of important developments, Regent Heckrodt requested consideration of bi-monthly meetings of the Board of Regents, thus reducing the number of meetings per year from ten to six. Expressing the belief that such a reduction would result in savings of costs and preparation time, as well as more efficient use of the system and campus personnel, he added that meetings could then be scheduled for two full days, rather than one and one-half days. In addition, special committee meetings could be called as necessary.

Asking that System Administration give the matter serious consideration, President Weinstein noted that the committee chairs also should be consulted and that by-laws, statutes and other relevant requirements should be reviewed.

Put to the vote, Resolution 3870 was adopted unanimously.

Regent Meetings - Request of Regent Heckrodt for bi-monthly meetings, p. 31

UNFINISHED AND ADDITIONAL BUSINESS

Presenting the following resolution, Regent Schilling noted that it had been drafted by Vice President Bornstein in response to discussion earlier in the meeting (see pp 5-9). The resolution first acknowledged the fact that Governor Thompson treated the UW System very favorably in his budget bill and that the Legislature followed through in demonstrating concern about the status and future of higher education. In addition, the resolution responded to the request by the Governor for agencies to offer advice as to vetoes they would like to have considered. The list of proposed vetoes as set forth in the resolution was not intended to be in order of priority.

✓ Legislature - Recommendations of Board to Governor & Legislature

For the purpose of discussion, Regent Fish moved the resolution, and the motion was seconded by Regent Finlayson.

regarding the budget not formally approved, pp 32-33

Whereas, the Legislature of the State of Wisconsin has now passed the state budget and;

Whereas, the Governor of the State of Wisconsin is now reviewing the budget bill prior to enactment of that legislation;

✓ Xref Governor - (same)

Be it resolved:

That the Board of Regents of the University of Wisconsin System extends its sincere appreciation to the executive and legislative branches of state government for according public higher education priority status in their deliberations and for approving important educational initiatives that will provide great benefit to the State of Wisconsin, and;

✓ Xref Budget - (same)

That the Board of Regents of the University of Wisconsin System respectfully requests veto consideration by the Governor and the Legislature of the following provisions related to educational policy and shared governance responsibilities that the board believes do not serve the best interests of the university, its students, faculty, staff or the citizens of Wisconsin:

- o Requiring the implementation of a per credit fee structure;
- o Removing Regents' authority for the appointment of vice presidents;
- o Deleting the Regents' seat on the Educational Communications Board after June 30, 1989;
- o Prohibiting the use of electronic mail communications with the System for lobbying purposes and that directs the Regents to take appropriate action for violations;

- o Altering existing policies for the conversion upon retirement of faculty sick leave benefits for payment of health insurance premiums;
- o Implementing statutory language for the transfer of VTAE college parallel credits should the Regents fail to develop a plan on such transfers by September 1988;
- o Deleting \$20 million of existing General Obligation Bonding authority for the acquisition of voice and data systems by state agencies.

Regent Finlayson expressed her preference for Presidents Weinstein and Shaw to express informally the board's views, rather than for the board to adopt a resolution which might be viewed as overly demanding.

Regent Nicholas agreed that an informal approach would be more effective.

Upon motion by Regent Heckrodt, seconded by Regent Hassett, the resolution was tabled, on a show of hands, with Regents Clusen, Hanson, Schenian and Schilling voting "No."

Regent Weinstein stated his understanding that the vote to table did not indicate opposition to the substance of the resolution but simply meant that the board did not wish to have those views adopted and conveyed in a formal manner. There was concurrence with that assessment.

Regent Hanson added that the only reason for preparing the resolution was to show that the board supported the presentation to be made to the Governor.

Regent Clusen emphasized that, in addition to the veto requests, it was important to express appreciation to the Executive and Legislative branches for their favorable treatment of the UW System.

At 11:40 a.m., the following resolution, moved by Regent Schenian, and seconded by Regent Flores, was unanimously adopted on a roll call vote, with Regents Clusen, Finlayson, Fish, Flores, Gerrard, Hanson, Hassett, Heckrodt, Lyon, Nicholas, Nikolay, Schenian, Schilling, Vattendahl and Weinstein voting "Aye" (15), and no regents voting "No."

Resolution 3871: That the Board of Regents recess into closed session to consider personnel matters, as permitted by s. 19.85(1)(c), *Wis. Stats.*, to consider appointments to the UW-Superior, UW Centers and UW-Milwaukee Boards of Visitors, and to consider naming of a building after a person, as permitted by s. 19.85(1)(f), *Wis. Stats.*, and to confer with legal counsel regarding pending or potential litigation, as permitted by s. 19.85(1)(g), *Wis. Stats.*

CLOSED SESSION ACTIONS

The board arose from closed session at 12:30 p.m. and made the following announcements:

UW-Superior - Bd. of Visitors - Approval of reappointments for

Resolution 3872: That, upon the recommendation of the UW-Superior Chancellor and the President of the University of Wisconsin System, the following reappointments be made to the UW-Superior Board of Visitors:

term ending 7/1/90 to

Joseph E. Boxrucker, ~~for a term ending July 1, 1990~~

Sally J. Larson, ~~for a term ending July 1, 1990~~ and

Charles R. Patrick, ~~for a term ending July 1, 1990~~

new appointments for same terms to

And that the following new appointments be made to the UW-Superior Board of Visitors:

and
Janet H. Murphy ~~for a term ending July 1, 1990~~

David F. Oviatt, ~~for a term ending July 1, 1990~~ R 3872, P. 34

Resolution 3873: That, upon the recommendation of the UW-Milwaukee Chancellor and the President of the University of Wisconsin System, the following reappointments be made to the UW-Milwaukee Board of Visitors:

UW-Milwaukee - Bd. of Visitors - Reappointments for terms ending as indicated for
Carl A. Gee, ~~for a term ending May 1988~~

Ray L. Richardson, ~~for a term ending May 1988~~

Conrad C. Kaminski, ~~for a term ending May 1990~~

Mark F. Vetter, ~~for a term ending May 1990~~ and

Ronald R. Witkowiak, ~~for a term ending May 1990~~, R 3873, P. 34

UW Centers - Board of Visitors - Appointments for terms ending 7/1/89 (tr.)

Resolution 3874: That, upon the recommendation of the UW Centers Chancellor and the President of the University of Wisconsin System, the following appointments be made to the UW Centers Board of Visitors:

Gail L. Fox, ~~for a term ending July 1, 1989~~

Martin L. Koehneke, ~~for a term ending July 1, 1989~~ and

Terrance O. Leigh, ~~for a term ending July 1, 1989~~

R 3874, p. 35

UW Centers - Staff - Appointment of

Resolution 3875: ~~That, upon the recommendation of the Chancellor of the University of Wisconsin Centers and the President of the University of Wisconsin System, Dr. George Newtown be appointed Dean of the University of Wisconsin Center-Marathon County and Associate Professor of English with tenure, effective August 15, 1987, at an annual salary of \$45,000.~~

R 3875, p. 35

UW Centers - Marathon County - (same)

Resolution 3876: That, upon the recommendation of the UW-River Falls Chancellor and the Regent Selection Committee, Dr. Larry M. Albertson be appointed Dean of Education, UW-River Falls, effective August 15, 1987.

UW-River Falls - Staff - Appointment of Dr. Larry M. Albertson as Dean of Edn., R 3876, p. 35

The meeting was adjourned at 12:30 p.m.

Regent Committees - Selec. Comm. for UW-River Falls Dean of Edn.

- Appointment of Dr. Larry M. Albertson as Dean of Edn., effective 8/15/87, R 3876, p. 35

**BOARD OF REGENTS OF THE
UNIVERSITY OF WISCONSIN SYSTEM**

POLICY DOCUMENT 78-6

RESOLUTION # 1698

DATE 7-14-78

SUBJECT: Boards of Visitors Reorganization

Resolution 1698: (Policy--Revised)

That, upon recommendation of the Special Committee, in order to assist and advise the Regents, System President and Chancellors:

1. Boards of Visitors shall be established by Chancellors of the University of Wisconsin-Madison and the University of Wisconsin-Milwaukee, with members of the present Board invited to accept appointment to either of the new boards.

2. Chancellors of other Universities in the UW System are authorized and encouraged (but not required) to establish Boards of Visitors.

3. Chancellors of the UW Center System and UW-Extension are authorized to establish Boards of Visitors, if they deem it appropriate.

That the Board of Regents may establish a Council of Visitors consisting of two members from each of the Boards of Visitors, designated by them, to consider matters of systemwide concern. Expenses related to the functioning of the Council of Visitors shall be supported by System Administration.

That bylaws adopted by the Board of Visitors and the Council of Visitors shall be consistent with recommendations and guidelines contained in the Report of the Special Committee on the Role and Status of the Board of Visitors dated April 14, 1978, and attached to this resolution. (EXHIBIT A)

That previous resolutions relating to the Board of Visitors of the University of Wisconsin System are rescinded.

EXHIBIT A

REPORT OF THE SPECIAL COMMITTEE
ON THE ROLE AND STATUS OF
THE BOARD OF VISITORS

Introduction

At its meeting of June 11, 1977, the Board of Regents tabled the following resolution:

That previous resolutions relating to the establishment, composition and duties of the Board of Visitors be rescinded, and that each Chancellor be authorized to appoint an appropriate Board of Visitors.

At the meeting of the Board of Regents on July 22, President Hales announced that he would appoint a committee to study the role and status of the Board of Visitors and make recommendations for Regent action on the tabled resolution. He appointed Regent David E. Beckwith, chairman; Regent Joyce M. Erdman, Regent Mary M. Walter, Visitor F. Anthony Brewster and Visitor Constance W. Elvehjem.

The committee held its first meeting at 2:30 p.m. Monday, August 15, 1977, at the home of Regent Walter near Baileys Harbor. All members were present. Resource materials which had been provided to the committee members before the meeting included documents relating to the history, bylaws and activities of the Board of Visitors, a May 12, 1977, letter from then Chancellor Edwin Young of UW-Madison to President Bertram McNamara of the Board of Regents proposing changes in the function and organization of the Board of visitors; reactions from several regents to Chancellor Young's letter, an analysis paper prepared by System Administration suggesting alternatives, and reports from Chancellors on citizen advisory boards and university foundations which now exist in the University System.

Other meetings of the committee were held on October 7, 1977, February 16, 1978, and March 16, 1978, in Van Hise Hall in Madison and on April 14, 1978, in the Wisconsin Union in Madison. At the October 7, 1977, meeting the committee approved a proposed report and resolution, which were shared with Chancellors and members of the Board of Visitors. The Chancellors discussed and supported the proposed report and resolution on October 27, 1977. The Board of Visitors on November 13, 1977, discussed the committee's proposals with Regent members of the committee and adopted a resolution asking that the Board of Visitors Study Committee be expanded and give the subject further study. Members of the committee agreed to support the request and on January 11, 1978, Regent President Hales announced the addition of Regent Marilyn M. Fitzgerald and Visitor Dale Clark to the committee.

At the meeting on April 14, 1978, the committee amended the proposed report and resolution to provide for institution Boards of Visitors and a systemwide Council of Visitors composed of representatives of the individual boards.

Recommendations

1. Previous resolutions relating to establishment, composition and duties of the Board of Visitors shall be rescinded.

2. Separate Board of Visitors shall be established for UW-Madison and UW-Milwaukee by Chancellors of those Institutions with members of the present Board of Visitors invited to accept appointment to either of the new boards.
3. Chancellors of the other Universities shall be authorized to establish Boards of Visitors, if the Chancellors deem it appropriate.
4. The Center System and UW-Extension shall be authorized to establish Boards of Visitors, if the Chancellors deem it appropriate.
5. Chancellors shall be authorized to nominate one person for each Board of Visitors position and appointments shall be made by the Board of Regents.
6. Guidelines for establishment, composition, mission and reporting of Boards of Visitors shall be provided by the Board of Regents.
7. The Board of Regents may establish a Council of Visitors consisting of two members from each of the Boards of Visitors, designated by them, to consider matters of systemwide concern. Expenses related to the functioning of the Council of Visitors shall be supported by System Administration.

Guidelines

As the recommendations indicate, members of the committee believe that separate Boards of Visitors are needed at the doctoral universities at Madison and Milwaukee, that separate boards with Board of Visitors/Advisory Board functions are advisable but not essential for each of the other Universities, that Chancellors of the Center System and UW-Extension should be authorized to establish a Board of Visitors for the Center System and a Board of Visitors for Extension if they deem it appropriate to do so, and that representatives from each Board of Visitors may serve on a Council of Visitors to consider systemwide matters.

The committee agreed that there are good reasons why the composition, terms of office, frequency of meetings and responsibilities of Boards of Visitors should vary at different Institutions of the University System. Consequently, Chancellors should have broad discretion in establishment of such boards within the following general guidelines:

1. Existing boards performing Board of Visitor/Advisory Board functions for the entire institution may fulfill the intent of the Regent resolution by having the members nominated by the Chancellor and appointed by the Board of Regents.
2. Institutional Boards of Visitors should be established by the Chancellor under bylaws specifying the size, organization, terms of office, mission and method of selection for nomination to the Regents. Any expenses related to the function of the board should be supported by the Institution.

3. //When a new board is established, the number of members should not exceed 13. If existing boards are reconstituted as Boards of Visitors, their size should be reduced to no more than 13 members as retirements occur.

3. In general, the number of members of an institutional board of visitors shall not exceed 15. Where special circumstances warrant, permission of the Board of Regents must be requested to exceed this number.

4. A Board of Visitors need not supersede or replace other citizen boards serving particular segments or different missions at an Institution of the University of Wisconsin System.

5. The purposes and functions of a Board of Visitors of an institution of the University of Wisconsin System shall be:

1. To become informed about the institution's mission, purposes, achievements and problems.
2. To advise and assist the institution's administration in communicating with faculty, students, prospective students, parents, alumni, government officials and the general public.
3. To suggest to the chancellor ways to improve the institution's services to and relationships with the students, faculty, community and state.
4. At the request of the regents, the system president, the chancellor, or on its own initiative, to conduct inquiries into specific matters and make reports and recommendations to the regents, system president and chancellor.

6. The purposes and functions of a Council of Visitors of the University of Wisconsin System, consisting of representatives of the institutional Board of Visitors, shall be:

1. To provide a forum for discussion of systemwide matters affecting the University System.
2. Upon request of the Board of Regents, or on its own initiative, to make recommendations to the regents.
3. To assist in the process of communication among the university system institutions, the Board of Regents, state government and the general public.

Regent David E. Beckwith, Chairman
Regent Joyce M. Erdman
Regent Mary M. Walter
Regent Marilyn M. Fitzgerald
Visitor F. Anthony Brewster
Visitor Constance W. Elvehjem
Visitor Dale Clark
