Done & Checked

MINUTES OF THE ANNUAL MEETING

of the

BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM

Madison, Wisconsin

Held in the Clarke Smith Room, 1820 Van Hise Hall
Friday, June 10, 1983
8:30 a.m.

- President Beckwith presiding -

PRESENT: Regents Beckwith, Clusen, Conroy, Finlayson, Gerrard, Hanson, Heckrodt, Knowles, Lawton, Nikolay, O'Harrow, Schilling, Veneman and Zirbel

ABSENT: Regents Fish and Grover

Upon motion by Regent Veneman, seconded by Regent Clusen, it was voted that the minutes of the regular meeting of the Board of Regents of the University of Wisconsin System, held on May 6, 1983, be approved as mailed to the members of the Board.

** Regent - Officers - All officers for 1983-84 reelected; Regent Beckwith, President; Regent Knowles, Vice President; Judith Temby, Secretary; Reuben Lorenz, Trust Officer; Robert Wenter, Assistant Secretary; Charles Stathos, Assistant Trust Officer pp 1-2*

REPORT OF THE PRESIDENT OF THE BOARD

The first order of business was election of Board officers for the coming year.

XX ref - (Each person's name & title as reelected - of the Board)

Regent Knowles nominated Regent Beckwith for reelection to the position of President of the Board. The nomination was seconded by Regents Lawton and Veneman, with Regent Lawton stating that in his seven years on the Board he had never seen a president more dedicated and skillful in solving difficult problems. Upon motion by Regent Finlayson, seconded by Regent Veneman, nominations were closed, and Regent Beckwith was reelected unanimously.

Regent Heckrodt nominated Regent Knowles for a second term as Vice President of the Board, and the nomination was seconded by Regent Schilling. There being no further nominations, Regent Knowles was unanimously reelected.

Upon motion by Regent Schilling, seconded by Regent Finlayson, Judith Temby was reelected Secretary of the Board.

It was moved by Regent Veneman, seconded by Regent Finlayson and carried that Reuben Lorenz be reelected Trust Officer.

~~Health Maintenance Org -~~
~~Hospital (HAB)~~ - prospects for joining discussed in report by

Board of Regents meeting 6/10/83

- 2

Regent Knowles nominated Robert Winter for reelection to the office of Assistant Secretary. The nomination was seconded by Regent Clusen and voted.

Charles Stathas was reelected Assistant Trust Officer, upon motion by Regent Knowles, seconded by Regent Veneman.

Higher Educational Aids Board - May 13, 1983, meeting minutes
- included in agenda materials, p. 2

It was noted by President Beckwith that the report of the May 13, 1983, meeting of the Higher Educational Aids Board was included in the agenda materials.

Vocational, Technical & Adult Education Board - Report of Regent Zirbel
VTAE Board President, on tuition increases, new district board members & new programs, p. 2

Reporting as President of the State Board of Vocational, Technical and Adult Education, Regent Zirbel pointed out that tuition for students in that system also was being raised. New district board members had been appointed, and programs had been established to meet changing labor market conditions. At a future meeting, she indicated, she would describe the process for instituting new programs in the VTAE System.

Hospital - Council of Trustees - Report by Regent Lawton, Chairman of the Council of Trustees, on current status of the hospital, p. 2

Regent Lawton, Chairman of the Council of Trustees of the UW Hospital and Clinics, reported that at its June 9 meeting the Council had been informed of a significant decrease in activity at the hospital, a circumstance also faced by many other hospitals in the state. This decline, he added, had not yet had a serious impact on the hospital's fiscal condition. The Council members then discussed the faculty's effort to improve relationships with referring physicians, a program which was considered quite successful and was expected to continue in future years. The remainder of the meeting was devoted to review of prospects for joining a health maintenance organization.

Hospital - Council of Trustees - Appointment to the Council of Eric Hagerup for a term ending 8/1/86, R 2826, p. 2

President Beckwith presented his recommendation and that of Chancellor Shain that Mr. Eric Hagerup, of Milwaukee, be appointed to the Council of Trustees. A Vice President of the First Wisconsin Trust Company, he was a graduate of the UW Law School, a member of the UW Foundation, and had served as President of the Wisconsin Alumni Association.

It was moved by Regent Schilling, seconded by Regent Lawton and unanimously voted that the following resolution be adopted:

Resolution 2826: That Mr. Eric Hagerup, of Milwaukee, be appointed to the Council of Trustees of the UW Hospital and Clinics, to serve for a term ending August 1, 1986.

Noting that he had worked with him both on university matters and in a professional capacity, Regent Schilling added that Mr. Hagerup was an outstanding candidate for membership on the Council.

Hagerup, Eric - Appointed to Council of Trustees of UW Hospital & Clinics for a term ending 8/1/86, R 2826, p. 2

~~Regent Committees - General - Appointment of Regent Lawton~~
~~to Selection Committee for position of Executive Dean, UW Centers~~
~~other members being Regents Gerrard + Zirbel, with~~
Board of Regents meeting 6/10/83
~~Regents Beckwith + Knowles et officio members, p. 3~~
~~Regent Selection Committee + Executive Dean, UW Centers - same~~

The appointment of Regent Lawton to the Regent Selection Committee for the position of Executive Dean of the UW Centers was announced by President Beckwith. Other members were Regent Gerrard and Regent Zirbel, along with Regents Beckwith and Knowles as ex-officio members.

*ref - Regent Lawton - same -

Introducing the topic of compensation for faculty and academic staff, Regent Beckwith remarked that the relationship of the negotiating team with the Department of Employment Relations had been most cordial but not bountiful. President O'Neil, UW-Madison Professor James Skiles and he had spoken directly with the Governor, as well as with DER, and although there was understanding of the seriousness of the faculty salary problem, it was also noted that the state was in the difficult position of having to contend with revenue shortfalls. Observing that a matter of public policy was involved, Regent Beckwith stated that he did not accept the argument that faculty salaries could not be increased appropriately because funds were inadequate. "We don't have money because we don't have more taxes; it's as simple as that. What will be recommended by DER is totally unacceptable to me, and I don't think it's overstatement to say that it could lead to a disaster. Therefore, I think we must work very hard to achieve a better salary package for our faculty." He then presented the following resolution for the Board's consideration:

Whereas, the Board of Regents appointed a negotiating team to seek to gain a compensation plan which would include the components recommended by the Working Group on Faculty and Academic Staff Compensation; and

Whereas, the negotiating team now feels it would be advantageous for the Board of Regents to recommend specific salary adjustments for each year of the biennium;

Therefore, be it resolved that:

The Board of Regents urges the Legislature and Joint Committee on Employment Relations to grant the following compensation plan for faculty and academic staff for the 1983-85 biennium:

1. A 3% salary increase for 1983-84;
2. A 6% salary increase for 1984-85;
3. The state assume the remaining 1% retirement contribution, now paid by faculty and academic staff, beginning in fiscal 1983-84; and
4. The Board of Regents be authorized to allocate the funds appropriate for salary increases, giving consideration to merit recognition, faculty retention, strengthened competitive position and purchasing power adjustment.

While he would vote for the resolution, Regent Veneman said, he would do so with reluctance because it fell far short of correcting the problem.

Regent Lawton agreed that the requested increases would not meet the need, but noted that, in the judgment of the negotiating team, to ask for more might well be counterproductive.

Regent Finlayson asked if it was felt that this recommendation could win approval but that a larger request would fail.

While he did not wish to predict defeat, Regent Beckwith cautioned that it would be extraordinarily difficult to gain acceptance of the proposal, which would cost about \$30 million. It was the team's effort, he continued, to present to the Joint Committee on Employment Relations a recommendation which was responsible and which, at the same time, would be perceived as realistic. In that regard, he did not think a request for 8% in each year of the biennium would receive consideration.

Regent Schilling suggested that it be made clear in the resolution that the proposed amounts represented a compromise, in view of the state's fiscal condition, rather than a request for what actually was needed.

Regents Veneman and Beckwith expressed support for that approach.

It was pointed out by Regent Beckwith that teachers in the public schools were receiving salary increases of 5 to 8%, with some arbitration awards as high as 11%. In Whitefish Bay, the average teacher's salary was to be \$29,400 in the second year of the contract, which was higher than the salary of many associate professors. Referring to testimony the previous day that there were faculty who could make more money by moving to the VTAE System or the public schools, he noted that, while the Legislature used the state's taxing power to raise the monies with which school districts funded salary increases, "they are not taking care of the institution that is most valuable to them and which is part of their responsibility. Something has gone amuck in our public policy when that happens." Furthermore, he added, universities in other midwestern states were predicting faculty salary increases substantially greater than what was likely to be recommended by DER, even though those states were not in better financial circumstances than Wisconsin. He stated that it was necessary to make a concerted effort with the Legislature to reach an understanding, and that he felt strongly that the current situation was not sensible, rational, or defensible.

Regent Heckrodt said he was not comfortable with the figures stated in the resolution and that he would like to see them raised to 4 and 7%. Coupled with the 1% in retirement, that would bring the level up to 5 and 8%, which he felt was more reasonable. "I think if we are going to make a recommendation from the whole Board, we should make a stronger one than we are giving here."

At the recommendation of Regent Beckwith, the matter was set aside until later in the meeting so that the resolution could be redrafted to incorporate the suggestions which had been made.

Board of Regents meeting 6/10/83
XW-Superior - Agreements for clinical training experience in nursing with counties of Minnesota + Wisconsin,

REPORT OF THE PRESIDENT OF THE SYSTEM

R 3827, p. 5

X-ref Educational System of Wis. - same

In asking approval of Resolution 2827, President O'Neil drew attention to the recent signing by UW-Superior of agreements for clinical training experience in nursing with counties both in Minnesota and Wisconsin. The item was of particular interest because it attested to the growth of the nursing program, as well as to cooperation between the two states.

X-ref - Nursing Program - System - same as above (include UW-Superior)

Upon motion by Regent Knowles, seconded by Regent Lawton, the following resolution was adopted unanimously:

Resolution 2827: That the report of non-personnel actions by administrative officers to the Board of Regents and informational items reported for the record (copy on file with the papers of this meeting) be received for the record; and that actions included in the report be approved, ratified and confirmed.

President O'Neil congratulated Regents Beckwith and Knowles on their reelection as President and Vice President of the Board. Noting that they had provided exemplary leadership in a difficult year, he stated that the promise of such continuing leadership, in what would undoubtedly be a demanding year ahead, was a very happy development.

XW-Green Bay - Student Assn. receives President's (System) Award for Student Government, p. 5
XW-Stevens Point - Student Assn. receives special mention by (System) President

It was reported by President O'Neil that the UW-Green Bay Student Association had received this year's President's Award for Student Government on the basis of some unusual and excellent programs. During the seven years the award had been made, it had gone to five different institutions, always as the result of very keen competition. This year, special mention had also been given to the UW-Stevens Point Student Association for its outstanding work in community relations, following the assault upon several Nigerian students in the community last summer.

Concerning two reports expected the following month, President O'Neil said one would relate to the recruitment and retention of minority students, and the other would provide a preliminary response to national commission reports on elementary and secondary educational quality.

X Polk, Robert - Statement by System President regarding retirement as System Assoc. Vice Pres. and Acting Chancellor of UW Centers, pp 5-6

With regard to the impending retirement of Robert Polk, System Associate Vice President and Acting Chancellor of the UW Centers, the President stated: "He is a person of courage and foresight, of conviction and compassion, who has lived through merger and certainly helped this System to emerge from that period through the formative years of the System, and now in these last several years has given a critical sense of hope and direction and mission to the UW Centers. The search for an Executive Dean has been made immeasurably easier by his firm hand on what one would otherwise call 'the reins,' but in deference to his long naval

XW Centers - Chancellor - Statement by System President regarding retirement as Acting Chancellor by Robert Polk, pp 5-6

experience, I should say 'the tiller' or 'the helm.' Much more could, and I think on other occasions will, be said about Bob Polk's exemplary contribution to several of our universities, to the former WSU System and of course to the Office of Academic Affairs, as well as the Centers, since merger. He has always given generously of his wise and firm counsel and has been more than willing to assume for himself the most difficult and demanding assignments. He is quite clearly an irreplaceable colleague. We will miss Bob and Mary Ann in ever so many ways, but we wish them well as they settle into their new environment.

Henry Reuber - statement by system President regarding retirement the following spring, p. 6

President O'Neil then called attention to another milestone, noting that Vice President Reuben Lorenz was to reach retirement age next spring. "He has served the University of Wisconsin and the UW System in several roles, but always with a selfless and genial spirit that has humanized otherwise impersonal, if momentous, fiscal items. Reuben's role has been no less than keeping us both honest and solvent and, in the process, gaining the confidence and even the admiration of the many people to whom he has had to say 'no' over the years. But he has always demurred in ways so gentle as to leave the supplicant feeling that, if only the money were there somewhere, Reuben would be able to meet these needs, and surely the request has been well understood and well received. He has enforced wisely and humanely the policies that any chief business officer must have, with an unusual appreciation of the primacy of the academic mission of a great university. The respect that we all have for Reuben is of course well shared by his colleagues nationally, and those who have served with him these past several years on the Executive Committee of the National Association of State Universities and Land Grant Colleges will miss his counsel as much as we will miss it from this administration."

UW-Stout - Approval of repair of fire damage to Tainter Hall lobby + lounge, R 2825, p 6 + EX. A.

REPORT OF THE EXECUTIVE COMMITTEE

President Beckwith reported that the Executive Committee, meeting by telephone on May 25, 1983, approved a project to repair portions of the Tainter Hall lobby and lounge at UW-Stout that had been damaged by fire on May 1. Explaining it was necessary for the Executive Committee to act so that the project could proceed to the Building Commission in May and thus be completed for the fall semester, he noted that his policy was to convene the Executive Committee only when essential to take action and then only if the matter involved was noncontroversial.

Adoption of the following resolution was moved by Regent Finlayson, seconded by Regent Veneman and unanimously carried:

Resolution 2825: That the action of the Executive Committee on May 25, 1983, be ratified and confirmed.

(Minutes of the May 25, 1983, meeting are attached as EXHIBIT A.)

Board of Regents meeting 6/10/83

Discussion
and reaffirmation of Board's
1977, 1979 & 1981 opposition to
collective bargaining legislation for
faculty + academic
staff, R 2828,
pp 7-15

~~Collective Bargaining~~
REPORT OF THE EDUCATION COMMITTEE

Chairman Schilling presented the Committee's report.

At a portion of the meeting to which all Regents were invited, the issue of collective bargaining for faculty and academic staff was discussed. The Chairman began the meeting by setting forth ground rules for presentation of testimony, including the request that each statement be limited to no more than five minutes in length and the procedure of alternating between supporters and opponents of legislation to permit collective bargaining. He thanked the participants for their compliance with those guidelines, which allowed the discussion to proceed in an orderly manner.

The following individuals appeared in support of the proposed legislation:

Prof. Anatole Beck, Sr. Vice President, Wisconsin Federation of Teachers
Dr. Edward Muzik, Executive Secretary, TAUWF, who read a statement by Prof. Earl Lewis, UW-River Falls
Prof. Ronald Mershart, UW-Superior
Prof. Robert Kimbrough, United Faculty, UW-Madison
Prof. Janet Polansky, UW-Stout
Mr. Larry Morse, Academic Staff, UW-Eau Claire
Prof. Eugene Eisman, UW-Milwaukee
Prof. John Williams, UW-Stout
Dr. Keith Lohman, Academic Staff, UW-Whitewater, who also appeared representing Prof. Richard Schauer, UW-Whitewater
Prof. Marshall Wick, UW-Eau Claire, who circulated a written statement to the Board

The following individuals appeared in opposition to the proposed legislation:

Prof. David Jowett, Chair, UW-Green Bay University Committee
Prof. Byron Barrington, UW Center-Marathon County
Prof. Philip Mounts, UW-Oshkosh
Prof. James Shea, Chair, University Committee, UW-Parkside
Prof. Ronald Pavalko, UW-Parkside
Prof. Dale Scharinger, UW-Whitewater
Prof. Lawrence Baldassaro, Chair, UW-Milwaukee University Committee
Prof. David Berman, Chair, UW-Madison University Committee
Prof. Ted Finman, UW-Madison
Prof. Donald Smith, UW-Madison
Prof. John Klus, UW-Extension
Prof. Robert Taylor, UW-Stevens Point
Mr. Scott Bentley, President, United Council of UW Student Governments

(Copies of the statements presented are on file with the papers of this meeting.)

After the individual presentations were concluded, President O'Neil summarized the opposing position and Professor Marshall Wick summarized the supporting position.

The President's statement included two principal points. First, he noted that last fall he had asked proponents whether they could demonstrate that collective bargaining would make things better—whether instruction would be improved, whether there would be better access to governance, etc. He observed that in comparing the UW System protections for tenure layoffs, for example, to what had happened in the City University of New York and State University of New York systems, both with collective bargaining agreements, the UW System notice procedures were much more generous. Even if collective bargaining did bring about salary improvements (a matter open to debate), he remarked, such gains would likely come at the expense of other UW System budget areas. Secondly, President O'Neil responded to the argument that faculty should be given the option of choosing collective bargaining by stating that the current bill did not offer free choice in that respect, inasmuch as once an institution in a cluster had chosen a bargaining agent, all other cluster institutions must accept that agent if they wished to be in the bargaining unit. In the UW System, President O'Neil added, faculty and administrators are colleagues, not adversaries as in the industrial model, and as colleagues they could address their differences using current procedures.

Professor Wick began his remarks by commenting that adversarial relationships arise from individuals, rather than from collective bargaining, per se. In fact, he did not feel that an adversarial relationship was necessarily detrimental, since many institutions are dependent upon such adversarial positions. Asserting that the Board did not currently have much influence in negotiating salaries and benefits, he pointed out that boards which oversee state agencies with collective bargaining agreements still govern their agencies. While the traditional system of university governance could produce the same benefits as collective bargaining, he held that the system has not been working effectively. He thought it would be unfair to ask whether collective bargaining would improve the System because no one could predict its effects with certainty, but he noted that the deteriorating compensation situation caused collective bargaining proponents to believe that something new must be tried. In conclusion, he asked that the Board not stand in the way of the faculty and academic staff deciding whether or not they wanted collective bargaining.

In response to several questions, Professor Wick argued that the quality of the System would be improved by collective bargaining, that faculty would be more aggressive on their own behalf than the Board in compensation negotiations, and that collective bargaining might serve to separate faculty and academic staff negotiations from those for classified service. He also explained that TAUWF did not support the \$1 million recognition fund because the organization did not believe the amount was sufficient to give merit increases to all who deserved them and that it was potentially divisive.

Introducing discussion at the Board meeting, President Beckwith referred to a number of resolutions drafted for the Board's consideration, which set forth various positions on collective bargaining as a concept, as well as on the currently pending legislation.

Regent Clusen said her preference would be to consider first a resolution which took no position on the issue of collective bargaining, since debate might later reach a point at which adoption of that position would be precluded.

It was moved by Regent Clusen and seconded by Regent Conroy that the following resolution be adopted:

The Board of Regents, having carefully reviewed the question of collective bargaining for faculty and academic staff, takes no position on the appropriateness of collective bargaining for faculty and academic staff or on AB 282 and SB 174.

Indicating that he found that resolution unacceptable, Regent Lawton stated that it was the Board's responsibility to express an opinion on the issue.

Regent Schilling concurred, inasmuch as he did not think it was simply a question of the right to choose; rather, the System would be fundamentally changed by collective bargaining. "For me, it isn't an issue about which the Regents can simply say, 'you work that out with the Legislature yourselves.' Our authority is going to be different; the way matters are processed is going to be different. More frequently, decisions will be made by third parties through the grievance arbitration procedures." Therefore, he stated, the Board had a responsibility to take a position on the issue.

Commending the Education Committee for arranging the presentations made the previous day, Regent Heckrodt observed that the testimony given made it clear that advocates of the legislation were desirous of gaining more than financial benefits from collective bargaining and that it would have a considerable impact on governance as well. That being the case, he did not see how the Board could adopt a neutral stance.

In Regent Clusen's view, those who urged the Board to take no position on collective bargaining had made the most persuasive argument. "I believe that a logical case can be made for letting employees work their will, without any implied pressure from either the Board of Regents or the administration. If we are indeed management, as has been said here so often, then our entering into this argument on one side or the other does put us in the position of attempting to protect our vested interests and our own powers. And I believe that is the way it will be viewed by employees and indeed by the Legislature." Stating that the question was one which should be decided by the Legislature, as elected representatives of the people, she noted that faculty could appear in that forum as they had before the Regents and that members of the Board could appear as individuals and express their opinions as well. The issue was divisive to faculty and to some extent also divisive of the Board of Regents, she added, concluding that it seemed to her best not to intervene in the matter.

Regent Veneman expressed agreement with the position that to remain neutral on this subject would circumvent the Board's responsibility, since a matter of public policy in higher education was involved.

Stating that the issue was one about which she felt strongly, Regent Conroy commented that, in her view, collective bargaining for faculty was clearly a civil rights question—a matter of democracy in the work place. "I have never met a management group, good as many of them are—and I have certainly dealt with those whom I profoundly respect as fine management people, and I certainly include the University System—but I have never met a management group that didn't resist sharing even a little of their power with anyone else, because they feel terribly responsible for making all decisions." Every worker should have some part of governance in their work place, she said, remarking however that when there was veto power in the hands of management, there really was not true democracy. She stated that this very fundamental question was not one to be decided by management, but rather by the people who were experiencing the problem, and that it would be paternalistic for the Board to attempt to decide for faculty what was best for them.

If the faculty decided to engage in collective bargaining, she thought that they could combine the mechanism of bargaining with that of governance, and that it should not be necessary to choose between them or view them as incompatible. "We all know that democracy is not terribly efficient, but it's the best system we have. So I strongly urge us as Regents to recognize we are management and obviously we are going to object to sharing even a shred of power with the group that we manage. But they are not the enemy, nor are we, and we ought to willingly allow that sharing if they wish. That choice should be theirs." If individual Regents had strong feelings of responsibility for speaking on the subject, she added, they could present their views to the Legislature.

Regent Beckwith did not consider collective bargaining to be a neutral issue. He felt that the Board had the responsibility to decide whether it would be beneficial or harmful for the System, and that the public and the Legislature expected the Board to provide counsel about the matter. "We are management. The problem is defining 'we.' All those chancellors, faculty, they are management. You learn that painfully in this process sometimes, when you want to get things done in a quick, efficient, seemingly wise way, and you suddenly realize you don't run this place. They run this place; the faculty does; and they should. Students run this place. We are here because somebody has to be a shield between the faculty and the body politic." The civil rights question related to how the university governed itself, he continued, commenting that if faculty governance were being diminished without substituting collective bargaining, he would agree that it was a very important civil rights and academic freedom question. In the case of collective bargaining, however, he thought there was a clear choice, inasmuch as the Legislature would not be likely to pass a bill that simply added collective bargaining to all the rights presently granted by Chapter 36. And even if such legislation were enacted, he felt the wise counsel was that over time the traditional role of governance would erode, to be replaced by collective bargaining.

The question was put, and the resolution failed on a roll call vote, with Regents Clusen and Conroy voting "Aye" (2) and Regents Beckwith, Finlayson, Gerrard, Hanson, Heckrodt, Knowles, Lawton, Nikolay, O'Harrow, Schilling, Veneman and Zirbel voting "No" (12).

Regent Veneman moved adoption of Resolution 2828 and the motion was seconded by Regent Finlayson.

Resolution 2828: The Board of Regents reaffirms its position taken in 1977, 1979 and 1981 that it does not believe it is in the best interests of the public to enact a collective bargaining law and opposes enactment of legislation enabling the faculty and/or academic staff of the institutions of the UW System to bargain collectively.

Expressing the view that the resolution should refer to the bills pending before the Legislature, Regent Heckrodt suggested that the words "current proposed" be inserted before the word "legislation," and Regent Veneman indicated he would accept that amendment.

Regent Finlayson's preference was to retain the language which referred to all collective bargaining legislation, perhaps with the addition of wording to oppose the present bills.

Regent Hanson felt the Board should vote on the whole concept of collective bargaining for faculty and academic staff, without reference to specific legislation.

It was suggested by Regent Schilling that the Board vote first on the concept and then consider the pending legislation, including whether or not to recommend changes in it.

Regent Heckrodt moved adoption of the amendment he had recommended, and the motion was seconded by Regent Nikolay.

On a voice vote, the proposed amendment failed.

Regent Nikolay then moved the previous question. On a roll call vote, the motion failed, with Regents Clusen, Gerrard, Heckrodt, Nikolay and Zirbel voting "Aye" (5), and Regents Beckwith, Conroy, Finlayson, Hanson, Knowles, Lawton, O'Harrow, Schilling and Veneman voting "No" (9).

Regent Lawton recalled that he had voted on the issue in 1977, 1979 and 1981, always with some discomfort about opposing collective bargaining. This was the first time since 1975 that extensive testimony on the whole subject had been presented, he pointed out, adding that he had been much impressed by the persuasive nature of many of the arguments on both sides. He felt, however, that the case of the opponents was more compelling. Noting that the pending legislation purported to allow limited-scope bargaining, he referred to a minority report of the 1975 task force, signed by Professor Wick, among others, which stated that experience under the National Labor Relations Act had shown that when one side or the other wanted to bargain on a particular issue it was eventually bargained, whether or not to do so was legal under the act. In addition, he observed

that the legislation was written so that only The Association of University of Wisconsin Faculties could be the representative. Secondly, he stated, after expending considerable effort to persuade legislators to retain the faculty recognition fund, he found that TAUWF opposed it. "Unbelievable to me. If they oppose that, what will they do with merit raises across the System in the future? I think it's indicative of a severe illness, and I oppose collective bargaining in this situation with a clear conscience."

Regent Nikolay explained that he had moved the previous question because he did not believe that any member of the Board would change his or her mind at this point. "If we weren't educated yesterday after three-and-a-half hours of information being fed to us, we never will be, no matter what we say here this morning. It seems to me we ought to be ready to vote on the question right now."

Noting that the issue of collective bargaining had been before the Board from time to time for the past ten years, Regent Conroy commented that, like ERA, it would continue to come back, with discussions occupying increasingly more time. "So as a practical matter I would, if I had no other reason, support not dealing with it simply to save us a lot of time and energy, since we won't make the decision anyway. And we have precious little time."

Regent Veneman indicated he had opposed the motion for the previous question because he was uncomfortable with cutting off debate before all views had been expressed. Noting that many opinions had been heard the previous day about weaknesses in governance, he remarked, "No one mentioned that one of the major inhibitors to successful functioning of the System is the overabundance of bureaucratic involvement. Collective bargaining just increases that already excessive burden."

Referring to a document distributed at a previous meeting by Dr. Muzik, Regent Schilling noted its conclusion that in the university setting collective bargaining usually was the result of failures. He thought two varieties of failures in the UW System could be identified. The first was failure by the Legislature to provide adequate money for compensation packages, even though the Board's requests had been reasonable--an economic failure which could cause faculty to turn to collective bargaining. The second, he continued, related to the question of whether governance was failing to work as it should. "I think, quite frankly, collective bargaining doesn't fit our System very well at all. There is such a thing as the industrial model, and that's what collective bargaining has to do with. It has to do with workers that desperately need strength but don't have any role in management. Our faculty does manage a good bit of this System." Pointing out that the Board continually demonstrated its commitment to shared governance, he felt it was necessary to take a hard look at whether governance procedures at the campus level were adequate. There had been testimony the previous day about weaknesses in governance, he noted, adding that the Board needed to address and correct such problems. He urged the Regents to vote for rejection of collective bargaining but emphasized that the price of doing so "ought to be a renewed commitment on our part to, number one, fight as we have in the past for the money that is so desperately needed by our faculty, and, secondly, a renewed vigor in looking at ways in which we are better satisfied that

governance is working. I don't think it is too late to do that. I don't think our faculty is at the last resort stage where the system has to be changed."

Regent Hanson observed that under provisions of Chapter 36, the faculty and the academic staff were supposed to be involved in management. "When you become part of collective bargaining, you are not management. You are managed." While she shared Regent Lawton's discomfort about voting against collective bargaining, she pointed out that many of the complaints presented in the previous day's testimony as reasons for adopting collective bargaining were rather specific in nature. "So I agree with Regent Schilling. I think we can look into the specifics, particularly on the academic staff level, and try and improve the situation on our own." In the long run, she did not believe the System would benefit from collective bargaining.

Stating his support for the resolution, Regent Beckwith emphasized that there were serious questions involved which went beyond simply giving the faculty and staff a choice; rather collective bargaining would bring about fundamental changes in the University System. It was different to consider collective bargaining for one campus than for this type of system, he pointed out, recalling that testimony had been given the previous day on what the impact might be on those campuses that did not choose collective bargaining if others did. He noted that two basic provisions of any bargaining bill related to identification of the management agent and delineation of the scope of bargaining. Predicting that no bill would pass the Legislature that did not make the Department of Employment Relations the management representative, he noted the effect of that would be to remove the Regents as a shield between the university and the political process, not only in the area of compensation, but also with respect to matters such as tenure, promotion, demotion and removal. "That is a fundamental change and a risk that I don't want to see this System take."

As to the scope of bargaining, Regent Beckwith felt that, regardless of what the legislation stated, everything would eventually be put on the table, including promotions, the entire grievance process and tenure in the form of seniority rights. Further, he thought that, before action on the bill was completed, it would be amended to widen the scope of bargaining, which was what had occurred the last time such legislation was considered. "The effect, as I see it, of these two elements—the scope of bargaining and DER as the management agent—means that we will effectively de-merge this System. I think that would be a tragedy. Merger has its problems, but a non-managed, de-merged System would have greater problems."

Finally, he was concerned that collective bargaining would dilute, if not destroy, the opportunity to recognize merit. Noting that the NEA opposed merit increases for mathematics and science teachers and that TAUWF opposed the faculty recognition fund, he suggested that collective bargaining would lead to a general leveling, homogenization and recognition of all faculty in the same manner. While proponents of collective bargaining looked to the public school model for the economic benefits obtained for teachers by their unions, he asked if that model was what the Regents wanted for the University System, noting that many graduates of those schools were not adequately prepared for college. In the area of academic staff, however, he felt the university was vulnerable to the

extent that those employees were not as much a part of the System as they should be. While the governance problem ought to be addressed promptly, he remarked that to adopt collective bargaining for that purpose would be great folly.

Regent Conroy responded that, while she believed in merit as a concept, she had never seen a merit system operate that was not fraught with politics or based on the market value of the individual. Most of those who opposed merit programs, she said, did so for such practical reasons rather than on principle. A merit program to relieve the shortage of outstanding faculty was the labor market concept, she pointed out, noting that if a saturation point was reached in fields where there now were shortages, people in those areas would no longer be in the merit group. "It's a practical world and I don't think academia escapes politics--there are politics everywhere. I would like to believe that things are done fairly, but the reality is that things aren't usually fair. And so it seems to me that if you want what is fair, you have to do something about it yourself, meaning the faculty or the academic staff."

Regent Lawton asked Regent Conroy if she would have joined TAUWF in opposing the million dollar retention fund.

Responding in the negative, Regent Conroy said she felt faculty salaries were much too low. She added, however, that she might argue about how the money was distributed.

Regent Schilling felt Regent Conroy was correct in her comments about the impact of politics and the difference between the ideal and reality. "We are certainly, by comparison to her, naive about collective bargaining. Let's make sure that we are not similarly naive about governance and academic staff." Stating that he would vote against collective bargaining, he reiterated the commitment to address problems which existed in the area of governance.

On a roll call vote, Resolution 2828 was adopted, with Regents Beckwith, Finlayson, Gerrard, Hanson, Heckrodt, Knowles, Lawton, O'Harrow, Schilling, Veneman and Zirbel voting "Aye" (11) and Regents Clusen, Conroy and Nikolay voting "No" (3).

It was suggested by Regent Schilling that the Board consider a resolution recommending provisions which the Regents felt should be included in a collective bargaining bill, in the event that the Legislature decided to proceed with enactment of enabling legislation.

In view of the resolution just adopted, Regent Gerrard thought the Board's position was well stated and that further action was not necessary. Regent Veneman expressed agreement with that opinion.

Noting that in the past the Board had been asked for recommendations with respect to such legislation, Regent Schilling felt there were important questions in that regard which should be addressed by the Regents.

Regent Beckwith recalled that a number of years previously the Board had made recommendations which resulted in what was called in the media "the Regents' bill on collective bargaining." Indicating it was unlikely that the Legislature would act on the matter before fall, he noted there would be opportunity to make suggestions later, if it appeared then that a bill was going to be enacted.

Academic Programs - Annual report on 1982-83 academic program designations, p. 15

Resuming the report of the Education Committee, Regent Schilling stated that the annual report on 1982-83 academic program designations and other changes of status was presented to the Committee by Vice President Lyall, who noted that changes in sub-majors, emphases and concentrations were approved administratively and reported to the Board once a year, while new majors were brought to the Board for approval. The document under consideration was the product of the institutions' cycle of internal program review, which allowed faculty to see work in other disciplines than their own and to judge the overall curricular needs of the institution. In that process, they might recommend that a program be strengthened, renamed, changed, merged or eliminated, these decisions then being submitted to System Administration for final approval. In the year's report, there were six program deletions, no new majors, 31 new minors and 29 program name changes. In response to questions from Committee members, Vice President Lyall explained that provisions were made for students still registered for majors being deleted to allow them to finish their courses. Regent Lawton said it was disturbing that no new majors had been brought forth, a circumstance which in part reflected uncertainty about the budget and enrollment situations. It was noted that some new degree programs were currently under review and were to come before the Board for approval in the fall. Since 1974, a total of 124 majors had been dropped and 98 majors had been added.

Annual 1983-84 Faculty - Report of Faculty promotions, tenure designations, other changes of status, R, 2829, p. 15

The Committee then reviewed the report of faculty promotions, tenure designations and other changes of status. Promotions and tenure designations required approval by the Board, while emeritus designations were conferred by chancellors and reported to the Board for information. There was discussion of the diversity in institutional procedures for granting emeritus status and the variety of ways in which emeritus faculty were recognized and honored.

It was moved by Regent Schilling, seconded by Regent Veneman and unanimously carried that the following resolution be adopted:

Resolution 2829: That, upon the recommendation of the President of the UW System and the respective Chancellors, the 1983-84 promotions in faculty rank, tenure designations and other changes of status reported in the attached materials by institution be approved.

(A listing of these changes is on file with the papers of this meeting.)

Faculty - Appreciation to emeritus faculty & staff, R 2830, p. 16

Upon motion by Regent Schilling, seconded by Regent Zirbel, Resolution 2830 was adopted unanimously.

Resolution 2830: That, for their many years of dedicated service to public higher education in the State of Wisconsin, the Board of Regents expresses its deep appreciation to the members of the faculty and staff who have been granted emeritus status by the Chancellors. Further, the Board of Regents extends to emeritus faculty and staff its best wishes for many productive years ahead.

XUW-Milwaukee - Faculty - Amendments to faculty personnel policies & procedures, (R 2831 p. 16)

Regent Schilling reported that the following amendment to UW-Milwaukee faculty personnel policies and procedures was a technical change, which corrected an oversight made when rules uncoupling tenure and rank decisions were approved.

Adoption of Resolution 2831 was moved by Regent Schilling, seconded by Regent Lawton and unanimously voted.

Resolution 2831: That, upon the recommendation of the President of the University of Wisconsin System and the University of Wisconsin-Milwaukee Chancellor and Faculty Senate, the following amendment to Chapter 5.51(2) of the UW-Milwaukee faculty personnel policies and procedures as required under UWS 2.02 be approved:

Chapter 5.51(2) Strike existing Chapter 5.51(2) and replace it with the following:

- (2) Non-tenured faculty by rank, beginning with professor, and within rank according to length of service in the institution at that rank. If two or more individuals within the department or non-departmentalized school have identical seniority at that time, then the department executive committee shall give each a unique seniority placement based on projected program needs at that time (e.g., the need to maintain diversity of specializations, preserve affirmative action, staff unique programs, etc.). The executive committee may seek the advice of other groups or individuals in formulating its decision. Placement does not become official until approved by the appropriate dean.

X-ref Sexual Harassment - report on sexual harassment educational programs - UW-Milwaukee & Parkside, p. 17

Board of Regents meeting 6/10/83

XUW-Milwaukee - Programs - Report on Sexual Harassment - 17 educational programs, p. 17

The Committee received a report on sexual harassment educational programs developed by UW-Milwaukee and UW-Parkside, the reports of such programs at other institutions having been presented to the Regents the previous year. Committee members expressed satisfaction with the steps taken, and Vice Chancellor Ratner, UW-Parkside, observed that the procedures had been helpful in identifying situations which needed attention.

X ref - UW-Parkside - Programs - same as above

Copies of the three major national reports on restoring excellence to education were circulated for Committee members' reference.

X Academic Staff - Progress reported on information to be gathered for study of faculty & academic staff, p. 17

Chairman Schilling stated that the Committee was given a progress report on development of a tentative outline and method for collection of information for a study of academic staff. Work was proceeding through institutional governance structures to obtain faculty and academic staff advice on the outline, topics for which included the history and background of the academic staff category; a profile of the numbers and diversity of employees with academic staff status; a review of current academic staff policies, rights and benefits; and comparisons of academic staff with faculty and classified staff in matters of job security, access to benefits, and participation in governance. The working outline also was to be distributed to Regents, a number of whom had already shared their suggestions with Vice President Lyall.

In discussion, Committee members stressed their interest in proceeding with the study as quickly as possible and in being certain that all questions of interest to the Board were included in the outline. It was suggested that it might be useful to follow up with a survey of academic staff when the general study outline had been completed. Chancellors asked that normal lines of communication be observed when contacting academic staff or faculty, and noted the diversity of interests between faculty and academic staff, within academic staff, and among academic staff groups from one institution to another.

X ref - Academic Staff & Faculty Study - same as above

Upon motion by Regent Schilling, seconded by Regent Lawton, the following resolution was unanimously adopted:

Resolution 2832: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Madison, the status of James E. Jones, Jr. be changed from Professor, Law School, University of Wisconsin-Madison, to Bascom Professor Law School, University of Wisconsin-Madison, effective immediately with no change in salary. REPORT OF THE BUSINESS AND FINANCE COMMITTEE

Chairman Veneman reported for the Committee.

Presenting an update on the 1983-85 biennial budget, President O'Neil advised the Committee that the proposal of the Joint Committee on Finance was amended by the Senate to add back the \$1 million faculty recognition fund. No other significant change was made, he noted, adding that the Assembly was caucusing that week and the entire budget bill would probably be acted upon by the Assembly the following week.

-

Regent Veneman reported that the Committee reviewed the monthly list of gifts, grants and U.S. government contracts. This being the last report of the fiscal year, the summaries covered a 12-month period. While the total support of almost \$226 million was \$8.8 million more than last year, the federal portion of \$175.6 million was \$2.4 million less and non-federal support of \$50 million was about \$11 million more than the previous year. The month's listing included \$5.5 million in research grants from the National Institutes of Health and \$1.75 million from the National Science Foundation for UW-Madison.

Resolution 2841 was adopted unanimously, upon motion by Regent Veneman, seconded by Regent Hanson.

Resolution 2841: That, upon recommendation of the President of the University of Wisconsin System, the gifts, grants and contracts presented at this meeting (copy on file with the papers of this meeting) be accepted, approved, ratified and confirmed; and that, where signature authority has not been previously delegated, appropriate officers be authorized to sign agreements.

-

Board of Regents meeting 6/10/83

*Requests - UW-Madison: Request of Otilie Eiselmeier - 21
R 2842, p. 21*

The Committee then considered the bequest of the late Otilie Eiselmeier of Milwaukee, Wisconsin. The terms of the last will and testament provided an undivided one-fourth part of the estate to the German Department of the University of the State of Wisconsin. Although there was no record that Otilie Eiselmeier had any university affiliation, her brother, John Eiselmeier, attended the UW-Madison for courses in German during the summer sessions of 1907-1910. The total amount of the estate was not yet known.

*ref - Eiselmeier, Otilie - Request to UW-Madison accepted,
R 2842, p. 21*

It was moved by Regent Veneman, seconded by Regent Clusen and carried unanimously that the following resolution be adopted:

Resolution 2842: That the bequest of the late Otilie Eiselmeier, Milwaukee, Wisconsin, be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the will and that the Trust Officer or Assistant Trust Officer be authorized to sign receipts and do all things necessary to effect the transfer for the benefit of the University of Wisconsin-Madison.

*University of Wisconsin - Extension - Report received on continuing education
see policy for institutional extension programs, p. 21*

Regent Veneman stated that a report on continuing education fee policy for institutional extension programs was presented to the Committee by Vice President Lorenz, who explained that it was prepared in response to a request from the chairs of the State Joint Committee on Audit to report on the implementation of a continuing education fee policy by July 1, 1983. The report had been reviewed by the Legislative Audit Bureau, the System Advisory Committee on Outreach (SACO), vice chancellors and institutional business officers. While it did not set specific course fees, it provided a uniform procedure for determining fees for the continuing education programs offered through the UW institutions. The paper was consistent with the recommendations included in the Report of the Special Regent Committee on Extension. At the suggestion of Regent Beckwith, it was agreed that the report would go forward to the Joint Committee on Audit, but that it should be placed on the Business and Finance Committee agenda for the July meeting so that there could be further review of the matter.

In discussion at the Board meeting, Regent Lawton referred to materials which stated that 75 percent of the costs of programs which provide continuing education for occupational, professional and institutional advancement were supported by fee revenue. Pointing out that many physicians had already been highly subsidized by the state in their educations, he added that they could afford to pay 100 percent of cost for these programs.

It was indicated by Acting Chancellor Boyle that for physicians the support level was close to 100 percent.

ref - fees - same as above

The Committee next considered approval of investment managers. It was noted that, according to Regent by-laws, the full Board must approve action taken by the Business and Finance Committee when hiring investment counsel and that the Committee had done an extensive analysis leading to the selection of the three firms identified in the resolution.

Upon motion by Regent Veneman, seconded by Regent Conroy, Resolution 2843 was unanimously adopted.

Resolution 2843: Pursuant to the authority delegated to the Business and Finance Committee to hire investment counsel with the approval of the Board of Regents under Chapter III, Section 3, of the By-Laws, the Business and Finance Committee has agreed to hire, subject to Board approval, the following investment counsel:

X-ref -
Investment
Counsel?

X) Smith Barney, Harris Upham & Co.
(Balanced Fund Manager);

X) Morgan Stanley Asset Management, Inc.
(Fixed Income Investments); and

X) Heritage Investment Advisors, Inc.
(Equity Investments); R 2843, p. 22

As recommended by the Business and Finance Committee, the Board of Regents of the University of Wisconsin System hereby approves the hiring of the foregoing investment counsel and authorizes the Vice President and Trust Officer of the University of Wisconsin System to sign the necessary agreements with the respective investment counsel.

X- Fees - segregated - Board rate for 1983-84 at UW-Whitewater favorably revised back to 1982-83 level, R 2844, p. 22

It was reported by Regent Veneman that the Committee approved a revised board rate at UW-Whitewater, which had been recommended because food service contractual bids were more favorable than anticipated. The resolution rolled back the rates to the 1982-83 level, providing an academic-year savings in the full board plan of \$72 per student.

Moving the adoption of Resolution 2844, Regent Veneman stated that it was a pleasure to present a resolution which would reduce costs to students. The motion was seconded by Regent Conroy and carried unanimously.

Resolution 2844: That, upon recommendation of the Chancellor of UW-Whitewater and the President of the UW-System, the 1983-84 board rates for UW-Whitewater students be set at \$782 for 19-meal plan, \$732 for 14-meal plan, \$712 for 10-meal plan and \$752 for coupon plan.

X Board of Regents meeting 6/10/83

Health Maintenance Organization

Authentication - 23 given Center for Health Sciences to arrange Health Maintenance Organization guidelines for operation

Dean Arnold Brown, of the UW-Madison Medical School, Gordon Verzon, Superintendent of the Center for Health Sciences, Martin Preizler, Administrator of the Clinical Practice Plans, and Dr. David Kindig, Vice-Chancellor for Health Sciences, joined the Committee to discuss affiliation by the UW-Madison Center for Health Sciences with a health maintenance organization (HMO). Dr. Kindig explained that movement in this area was accelerated by the State of Wisconsin Group Insurance Board's intention to provide full coverage to state employees only at the rates offered by such plans, and that the prospect of state employees having to pay significant out-of-pocket differentials for existing fee-for-service coverage raised the possibility of patients leaving their present providers of care. Because loss of a substantial number of state employees as patients at the Center for Health Sciences would pose a serious threat to teaching programs, he pointed out, it was necessary to seek involvement in an HMO in order to ensure an adequate patient base.

to be presented to Board in July, R 2845 p. 23

Dr. Kindig advised the Committee that it was felt affiliation with an existing HMO would be more appropriate than establishing a totally new program, which would require an insurance license, as well as marketing and specialized financial expertise which were not currently available to the Center. The university was negotiating with several HMOs and expected to sign a letter of intent to affiliate with one or more of them in the very near future. It was pointed out that the HMO must inform the Group Insurance Board by June 15 of its intent to add university providers to the approved list. Rates were to be established during the summer, the new choices would be offered to state employees in the October open-enrollment period, and services under the new mechanism would begin on January 1, 1984. A new non-profit corporation with a board, including the Vice Chancellor for Health Sciences, the Medical School Dean, the Hospital Superintendent, the Chairman of the Clinical Practice Plan, and several clinical departmental chairmen, would be created to administer this program. After discussion, the proposed resolution was revised to incorporate a requirement that guidelines for operation be brought back to the Board for approval at the July meeting.

Regent Veneman moved adoption of the following resolution. The motion, seconded by Regent Finlayson, was unanimously voted.

Resolution 2845: That, upon recommendation of the Chancellor of the UW-Madison and the President of the University of Wisconsin System, the UW-Madison Center for Health Sciences be authorized to enter such arrangements as are necessary and appropriate to provide prepaid health care services to employee groups and individuals through a mechanism such as a Health Maintenance Organization, including contracting with existing organizations and newly-created non-profit corporations formed specifically for that purpose, with the requirement that guidelines for the operation of the program be presented for approval at the July meeting.

X Health Sciences Center for - same entity

In his report to the Committee, Vice President Lorenz indicated that the year-end uncommitted balance was estimated to be approximately \$900,000.

X UW-Whitewater - Bldgs + Land - Authorization for release of advanced land acquisition funds to purchase 1.29 acres of land adjacent to the Fine Arts Bldg. R 2846, p. 24
~~\$150,000 - of~~

REPORT OF THE PHYSICAL PLANNING AND DEVELOPMENT COMMITTEE

The Committee's report was presented by Chairman O'Harrow.

The first agenda item concerned release of \$150,000 of 1983-85 advance land acquisition funds to purchase 1.29 acres of land adjacent to the Fine Arts Building at UW-Whitewater. Always considered an essential part of the Fine Arts Building site, the facility was built around this 1.29-acre lot since the state could not acquire the property at the time the building was being constructed. Appraised in March 1983 at \$130,000, \$138,000 and \$142,000, the owner had given the state first opportunity to purchase the property at an optioned price of \$139,000. If acquired, relocation costs were estimated at a maximum of \$10,000, plus \$1,000 for legal and closing expenses.

Resolution 2846 was adopted unanimously, upon motion by Regent O'Harrow, seconded by Regent Nikolay.

Resolution 2846: That, upon the recommendation of the UW-Whitewater Chancellor and the President of the University of Wisconsin System, authorization be granted to seek the release of \$150,000 of 1983-85 Advance Land Acquisition Funds to purchase 1.29 acres of land at UW-Whitewater.

Regent O'Harrow reported that the Committee considered requests for authority to plan, bid and construct five minor projects, involving UW-Madison, UW-Milwaukee, UW-Green Bay, UW-Parkside and UW-Stout. There were two requests for UW-Madison, the first being the Van Vleck Hall plaza structural repair project at an estimated cost of \$200,000 from GPR-supported borrowing-minimum maintenance/health and safety allocation. Following completion of a consultant's study, it had been determined that damage to date was not as extensive as earlier feared. However, immediate corrective work would be needed to prevent water penetration and resulting deterioration of the metal reinforcements, which could affect the structural integrity of the slab.

The second project was a \$240,000 gift-fund-supported remodeling of UW-Madison's Waisman Center to allow installation of a \$2 million nuclear magnetic resonance imaging facility, a relatively new, but rapidly expanding, technique which allowed noninvasive diagnosis of a number of human diseases. In providing an explanation of this process, Dr. Joseph Sackett (who was to direct the NMR program) and Dr. Arnold Brown, Dean of the UW-Madison Medical School, stated their view that it was essential for

the university's teaching program to include training in this method and also for it to be available for research. The equipment would be purchased from state, gift and hospital program-revenue funds, \$30,000 to the consultant

X UW-Milwaukee - Bldgs & Land - Contribution for to study masonry on the eleven buildings of former Downer complex,
Next the Committee discussed a request for release of \$30,000 of GPR-supported state building trust funds to retain a highly qualified consultant to study and analyze the masonry on the eleven buildings comprising the former Downer complex at UW-Milwaukee. Visual inspection indicated the need for such a comprehensive study, with the results and recommendations to be developed in concept and budget report format and brought back to the Board for future action. *R. 2847, pp. 24-25*

X ref - UW-Milwaukee - same as above
Another project provided for primary electrical switchgear preventive maintenance and critical repair work at UW-Green Bay, UW-Parkside and UW-Madison, at an estimated cost of \$123,000 from GPR-supported capital improvement fund earnings, to test and identify high voltage system deficiencies.

X UW-Stout - Bldgs & Land - \$26,000 project approved for repairs to central heating plant chimney, R 2847, pp. 24-26
The final minor project was for \$26,000 of GPR-capital improvement fund earnings-minimum maintenance/health and safety allocation to repair the Central Heating Plant chimney at UW-Stout.

It was moved by Regent O'Harrow, seconded by Regent Nikolay and unanimously carried that the following resolution be adopted:

Resolution 2847: That, upon the recommendation of the UW-Madison, Milwaukee, Green Bay, Parkside and Stout Chancellors and the President of the University of Wisconsin System, authority be granted to plan, bid and construct the following minor projects, at the costs and from the funding sources indicated:

X Bldgs, UW-Madison - Van Vleck Hall plaza slab structural repair project approved, R 2847, pp 24-25

X ref - Van Vleck Hall - plaza slab structural repair project approved, R, 2847, pp 24-25

UW-Stout

Central Heating Plant Chimney Repair project,
\$26,000 from GPR-Capital Improvement Fund
Earnings-Min. Maint./Health and Safety Allocation

Five leases, two for UW-Madison and three for UW-Extension, were approved by the Committee. The first lease involved 7,081 square feet of space at 333 North Randall Avenue from July 1, 1983, through June 30, 1986, with the first year rate being \$47,304 and increasing to \$48,649 for years two and three. Further authority was requested to lease the remaining 1,235 square feet of second floor office space, under the same terms and conditions as the basic lease, should plans of the lessor to rent this space to another organization not be finalized. This office and storage space had previously been used by University Archives and the School of Veterinary Medicine and was owned by the University of Wisconsin Foundation. The space vacated by the School of Veterinary Medicine would be used to alleviate space shortages being experienced by the College of Engineering and the Department of Computer Sciences.

The second request for UW-Madison was for authority to renew an occupancy and special use permit for 37,532 square feet of space at 502 and 504 North Walnut Street at an annual cost of \$93,800 from GPR-supported operating budget funds. Twenty thousand, six hundred dollars of this amount would revert to the United States Department of Agriculture as a user's fee, and the remaining \$73,200 was to be used by the Forest Products Laboratory to improve and maintain the property. This space would continue to be used by the Department of Preventive Medicine and the Animal Care Unit of the Medical School.

For UW-Extension, there was a lease at 9 North Brooks Street, Madison, covering a period from July 1, 1983, through June 30, 1984, with two six-month extensions. The annual rate for this space, which was used for bulk mail service, remained at \$21,725, with the space to be released upon completion of the Stores-Services Building in the fall of 1984.

The second UW-Extension lease, involving 8,100 square feet of space at 602 State Street at an annual cost of \$72,900 from GPR-supported operating budget funds, was to replace 11,516 square feet of space at One South Park Street when that lease expired at the end of September. The Small Business Development Center (presently in the Park Street space) and the Recreation Resource unit (at 1815 University Avenue) would be moved to the 602 State Street location.

The final lease involved 10,865 assignable square feet of space in a building at 1815 University Avenue from July 1, 1983, through June 30, 1985, at an annual cost of \$101,153 for year one, increasing to \$107,237 in year two, from GPR operating budget funds. The space would house the Wisconsin Geological and Natural History Survey, with other units previously in the building relocated to other facilities.

Upon motion by Regent O'Harrow, seconded by Regent Gerrard, Resolution 2848 was adopted unanimously.

Resolution 2848: That, upon the recommendation of the UW-Madison Chancellor, the UW-Extension Acting Chancellor and the President of the University of Wisconsin System, authority be granted to lease the following space, to be funded from GPR-supported operating budget allocations:

333 North Randall Ave. - Lease of space 7/83 - 6/86 from the University of Wisconsin Foundation, R 2848, pp 26-28

7,081 square feet of office and storage space in a building located at 333 North Randall Avenue, Madison (The University of Wisconsin Foundation, Madison, Lessor), for the period July 1, 1983 through June 30, 1986. The first year annual cost will be \$47,304 (\$8.00 per square foot) increasing to \$48,649 (\$8.25 per square foot) for years two and three. Further authority is granted for lease of the remaining 1,235 square feet of second floor office space (under the same terms and conditions as the basic lease) should plans of the lessor to rent this space to another organization not be finalized.

Regent O'Harrow summarized Committee consideration of authority to seek the release of advance planning funds for construction of several projects at UW-Stevens Point's Treehaven Field Study Station, approval to accept title from the UW-Stevens Point Foundation for the 10-acre parcel on which the station was located, and authority to terminate the special use permit with the U.S. Forest Service at the end of the 1983 College of Natural Resources summer field experience program. Approval of the request would enable UW-Stevens Point to transfer the program from Clam Lake (Ashland County) to the Treehaven station near Tomahawk. This would allow the Department of Health and Social Services' Division of Corrections to utilize the Clam Lake facility as a minimum security correctional institution beginning in September 1983. Prior to beginning negotiations with the Division of Corrections for such use (as authorized by the State Building Commission), the Forest Service had indicated it must receive a specific request from the UW System for termination of the present use permit. Successful negotiations would necessitate the construction of several additional facilities at Treehaven to meet academic and residence facilities needs. In order for any state funds to be utilized for this purpose, title to the ten acres on which the station was located needed to be transferred to the Regents, authority for which was provided in the deed transferring the total 960-acre parcel from the donor to the UW-Stevens Point Foundation. Chancellor Marshall provided additional background on the proposal and on campus actions to allow movement of the Clam Lake program to Treehaven, which was given to the UW-Stevens Point Foundation as a site for the summer camp.

Adoption of the following resolution was moved by Regent O'Harrow, seconded by Regent Nikolay, and unanimously voted:

Resolution 2849: That upon the recommendation of the UW-Stevens Point Chancellor and the President of the University of Wisconsin System, authorization be granted to seek the release of advance planning funds for the following projects (utilizing design-build or fast track construction concepts) at the Treehaven Field Study Station:

UW-Stevens Pt. - Bldg & Land - Authority for release of advanced planning funds for construction of several projects at Treehaven Field Study Station; approval to accept title from UW-St. Pt. Fdn. for 10-acre parcel for the station; & authority to terminate special use permit with U.S. Forest Service, R. 2849, pp 28-29

X-ref. UW-Stevens Point - same as above

<u>Project</u>	<u>Est. Proj. Cost</u>	<u>Advance Planning</u>
Academic Building	\$248,000	\$5,000 GPR-SBTF
48 person Residence Hall	200,000	2,000 Non-GPR PR/Gift
Two 24 person Residence Halls	200,000	4,000 Non-GPR PR/Gift
Sewer/water and Young Center sprinkling system	85,000	2,000 GPR-SBTF

X-reg - U.S. Forest Service - authoriz. to terminate special use permit for U.W. sp use of Chm lake field station

Further, that approval be granted to accept title from the UW-Stevens Point Foundation to the ten acre parcel, the site of the Treehaven Field Study Station, located in Township 35 North, Range 7 East, Town of King, Lincoln County, Wisconsin,

and that authority be granted to terminate the Special Use Permit with the U.S. Forest Service at the conclusion of the 1983 College of Natural Resources' summer field experience program.

X-Seed Farm - Authority to trade 12 Seed Farm acres for 155 acres of farmland west of Madison, to develop Seed Farm properties platted for single family residences

The Committee approved a request from UW-Madison to trade Seed Farm property for 155 acres of farm land west of the city, to develop the Seed Farm properties platted for single family residences, and to sell six lots to the public. There had been preliminary authorizing actions taken by the Board at previous meetings, and the final platting and rezoning were approved by the Madison City Council on May 3, 1983. The farm land to be acquired, which was contiguous to a 255-acre parcel recently obtained as a gift from the Wisconsin Alumni Research Foundation, would ultimately replace the Charmany and Rieder Farms for use by the College of Agricultural and Life Sciences.

to sell 6 lots to the public
R 2850
pp 29-30

X-Reg Bldg & Land - UW - Madison - same

Regent O'Harrow moved adoption of Resolution 2850. The motion was seconded by Regent Heckrodt and carried unanimously.

Resolution 2850: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, authorization be granted to proceed with a trade of approximately twelve acres of the Seed Farm property for approximately one hundred and fifty-five acres of farm property west of the City of Madison, and further

That authority be granted for the University to undertake the necessary development of the single-family residential lots on the Seed Farm property with the costs of the development to be apportioned, and further

R. Mandt Farm - same
Duke & he are it parking directly to Mandt Farm, although land is by consent

That authority be granted for the University to sell to the public the single-family lots not included in the trade.

In the report of the Vice President, it was noted that the listing of contracts included those associated with the Swine Teaching and Research Facility, for which groundbreaking ceremonies took place on May 27. Agenda materials also included the report on System leases with annual costs over \$10,000.

Natural Resources, State Dept. of - notification by DNR, of violation of clean air regulations on several campuses, p. 30

Regent O'Harrow advised that a letter had been received from the Department of Natural Resources concerning violation of clean air regulations on several campuses. It was agreed that copies would be distributed to all Regents.

UW-Whitewater - Resolution setting October 6 + 7, 1983, for Regent meeting at UW-Whitewater, R 2851, p. 30

MISCELLANEOUS RESOLUTIONS

Resolutions 2851 and 2852 were unanimously adopted, upon motion by Regent Gerrard, seconded by Regent Heckrodt.

Resolution 2851: That, at the invitation of Chancellor Connor, the October 6 and 7, 1983, Regent meetings be held at UW-Whitewater.

UW-Milwaukee - Resolution setting May 10 + 11, 1984, for Regent meeting at UW-Milwaukee, R 2852, p. 30

Resolution 2852: That, at the invitation of Chancellor Horton, the May 10 and 11, 1984, Regent meetings be held at UW-Milwaukee.

Regent meetings - October 6 + 7, 1983, meeting set for UW-Whitewater; May 10 + 11, 1984, meeting set for UW-Milwaukee, R 2851 + 2852, p. 30

UNFINISHED BUSINESS

Returning to the subject of compensation for faculty and academic staff, Regent Beckwith suggested that the Board might wish to examine all options if faced with the unhappy prospect of the salary package likely to be recommended by the Department of Employment Relations being the only one the Legislature would accept. One alternative, although a painful one, he said, was to look again at tuition. In that regard, he had asked for an analysis, which would be shared with all Regents, of what the rates would be if it were necessary to raise tuition for the upper level (juniors, seniors, and fifth year students) in order to generate funds for additional salary increases. Before the Board's next meeting, he explained, the compensation issue would be considered by the Joint Committee on Employment Relations, and if a question arose at that time as to what the alternatives

*Fund - Use of raising fees/tuition to provide
funds for salary increase, p 20-36*

were, it was his intention to indicate that the option of a tuition increase would have to be reviewed. His rationale for considering increased tuition for the third, fourth and fifth years was that he felt it would have less impact on access than an across-the-board increase and might even be limited to certain high-cost professional programs which produced high-income jobs, on the theory that those programs led to employment which would facilitate paying back loans at an earlier time and with less hardship. While he hoped the point would not be reached at which such options would have to be seriously considered, he observed that the percentage of instructional cost borne by University of Wisconsin students was substantially smaller than the percentage borne by students at public universities in surrounding states. "That isn't something that we should be anything but proud of, as I see it. But it does indicate that other states have felt it necessary to respond to this refusal of legislators to tax for necessary things by taxing the parents of students or the students themselves." In conclusion, he pointed out that no action would be taken on such a proposal unless the Board decided to proceed in that manner.

Regent Heckrodt inquired about the prospect for obtaining legislative approval of a tuition increase, to which Regent Beckwith replied that there were several hurdles in that route, including the necessity of concurrence by the Joint Finance Committee, as well as by JCOER. As a practical matter, he indicated, approval by the Governor's office also would be needed, in addition to which he felt there would have to be assurance that the funds would be used for faculty salary increases at the Board's discretion and not for any other purpose.

Regent Schilling asked if there was a trend among other universities to increase tuition to close the gap between what legislatures wished to expend for salaries and what the universities needed.

President O'Neil said the answer was in the affirmative, at least in this region. It was found in last year's funding study that Wisconsin's decline in relative ranking on per-student state appropriations was matched by several other states in the region, notably Illinois and Ohio, he recalled, stating however that expenditure levels in those states had slipped much less sharply due to their adoption of large tuition increases, which had resulted in a substantially higher share of total instructional costs being borne by student fees. In a survey two years ago of state universities across the country, he continued, it was discovered that the percentage of instructional costs borne by resident undergraduate students ranged from a low of about 17% in Texas to a high well over 40%.

Regent Beckwith added that current information indicated that in Indiana faculty salary increases would be in the range of 5 or 6% in each year of the biennium, with the student share of instructional costs estimated at 33 to 35%. In Minnesota, it appeared that there would be a 6% salary increase each year, with student cost rates of 32% for the first year and 35% in the second year. At Ohio State, the student share was 44-47%, with an 8% faculty salary increase expected in 1983-84. Comparing tuition amounts in other states to Wisconsin's charge of \$994 in the past academic year, he pointed out that at Indiana it was \$1328, and at Michigan it was about \$2000 for freshmen and \$2212 for junior, senior and graduate students. Michigan State's was \$1688 for freshmen and sophomores, \$1868 for juniors and seniors.

The following resolution was presented by Regent Schilling, who indicated that one question to be addressed was whether or not it should state the percentage increases actually needed, as identified in the study group's report, and then state somewhat lower levels, reflecting recognition of the state's fiscal difficulties.

Whereas, the Board of Regents appointed a negotiating team to seek to gain a compensation plan which would include the components recommended by the Working Group on Faculty and Academic Staff Compensation; and

Whereas, the negotiating team now feels it would be advantageous for the Board of Regents to recommend specific salary adjustments for each year of the biennium; and

Whereas, the Report of the Biennial Working Group on Faculty and Academic Staff Compensation documents continued serious deterioration of salary conditions, further declines in rankings with other peer institutions and other comparable professionals and an alarming number of compensation-induced problems at all the UW institutions; and

Whereas, there is an urgent need to begin to make improvements in the compensation of faculty and academic staff in order to ensure the quality of the UW institutions.

Therefore, be it resolved that:

The Board of Regents urges the Legislature and Joint Committee on Employment Relations to grant no less than the following compensation plan for faculty and academic staff for the 1983-85 biennium:

1. A 3% salary increase for 1983-84;
2. A 6% salary increase for 1984-85;
3. The state assume the remaining 1% retirement contribution, now paid by faculty and academic staff, beginning in fiscal 1983-84; and
4. The Board of Regents be authorized to allocate the funds appropriate for salary increases, giving consideration to merit recognition, faculty retention, strengthened competitive position and purchasing power adjustment.

In response to the concern expressed by Regent Schilling, Regent Beckwith offered a substitute amendment, to replace the third and fourth paragraphs with the following:

Whereas, the Report of the Biennial Working Group on Faculty and Academic Staff Compensation documents serious deterioration of salary conditions and the Regents find that, within the past decade the salaries of faculty and academic staff in the University of Wisconsin System have seriously deteriorated, have not matched increases in the cost of living, have declined with respect to comparable salaries in peer institutions and comparable salaries for professionals in private life, and further find that an alarming number of compensation-induced problems exist at all of the University of Wisconsin institutions; and

Whereas, there is an urgent need to initiate a program to improve faculty and academic staff compensation to reverse declines of the past decade and restore faculty and academic staff salaries to an appropriate level; and

Whereas, although the salary recommendations contained below will not remedy the deterioration of faculty salaries and the other problems associated therewith recited above, the Regents have concluded that in the present budgetary climate, any higher request would likely be rejected out of hand;

Regent Veneman asked if it was felt that the increases suggested in the resolution would receive serious consideration in the Legislature.

Responding in the affirmative, Regent Beckwith observed that increases of 4% in the first year and 7% in the second year might also receive serious attention but that he did not think a request for more than that would be considered.

It was suggested by Regent Veneman that the recommendation therefore be changed to 4% in the first year and 7% in the second.

Regent Beckwith noted that the resolution as written actually would have the effect of providing an additional 1% per year because of the retirement pick-up. The best way to assess the impact of the percentage increases being discussed, he indicated, was to recognize that 3 and 6% increases would cost \$32,623,000 more than what JCOER was expected to consider, while 4 and 7% increases would cost \$43,532,000 more. "In the framework of a \$6 billion budget containing I don't know how many hundred million dollars worth of school aids, that doesn't shock me a bit."

Regent Heckrodt concurred with Regent Veneman's suggestion, adding that he felt it would be a disservice to faculty not to ask for the larger increases.

Pointing out that there was a basic problem which the resolution did not address, Regent Knowles remarked that for the past few years university staff had been treated in much the same way as unionized state employees. "We are going to have to convince the policy makers that the problems of the university are different. Our retention problem is different; our recruitment problem is different. And we have got to get away from somehow lumping all state employees into the same pot. In my opinion, the Legislature today remains unconvinced that our problem is different; the very root of the problem lies there."

Regent Beckwith expressed agreement. "Our experience in these last discussions was that there seems to be a political engine that is running here. We are simply following behind."

Regent Finlayson asked about the impact of the proposed percentage increase on the possibility of raising student fees.

In response, Regent Beckwith explained that the two matters were not coupled, except to the extent that fees would be raised slightly to remain at about 27% of the increased cost, with the remainder coming from general purpose revenues.

Regent Gerrard inquired as to the procedure contemplated in the event that a further tuition increase were to be considered.

While he would not wish to present that alternative to JCOER, Regent Beckwith said, if the question were asked, it would be necessary to respond that all options would be reviewed. He emphasized that there would be no action to recommend a tuition increase unless the Board made a decision to do so. The dynamic, as he saw it, was first to see what happened to the faculty recognition fund; secondly, to see how JCOER responded to the DER recommendation and the Board's proposal; and third, depending on the nature of that response, to consider what the options would be.

It was Regent Gerrard's recommendation that, if the requested salary increase was to be 4 and 7%, the alternative of an additional tuition increase be presented at the same time.

Regent Heckrodt stated the understanding that, if the requested salary increases were approved by JCOER, 27% would be covered by tuition, whereas if such approval were not granted, a greater tuition increase might be proposed to generate additional funds for salaries.

Regent Veneman moved adoption of the substitute amendment offered by Regent Beckwith, with the requested increases in items 1. and 2. being changed from 3% and 6% to 4% and 7%. The motion was seconded by Regent Heckrodt.

Compensation - Recommendations to state government regarding 1983-85 compensation plan for faculty & academic staff, R 2853, pp 3-4 & 30-36

Board of Regents meeting 6/10/83

Regent Schilling inquired about incorporating the concern expressed by Regent Knowles into the resolution. It was suggested by Regents Veneman and Beckwith that the issue be deferred for future discussion.

Put to the vote, the substitute amendment was unanimously adopted.

The question then was put on the main motion, and it was adopted unanimously.

The complete resolution reads as follows:

Resolution 2853: Whereas, the Board of Regents appointed a negotiating team to seek to gain a compensation plan which would include the components recommended by the Working Group on Faculty and Academic Staff Compensation; and

Whereas, the negotiating team now feels it would be advantageous for the Board of Regents to recommend specific salary adjustments for each year of the biennium; and

Whereas, the Report of the Biennial Working Group on Faculty and Academic Staff Compensation documents serious deterioration of salary conditions and the Regents find that, within the past decade the salaries of faculty and academic staff in the University of Wisconsin System have seriously deteriorated, have not matched increases in the cost of living, have declined with respect to comparable salaries in peer institutions and comparable salaries for professionals in private life, and further find that an alarming number of compensation-induced problems exist at all of the University of Wisconsin institutions; and

Whereas, there is an urgent need to initiate a program to improve faculty and academic staff compensation to reverse declines of the past decade and restore faculty and academic staff salaries to an appropriate level; and

Whereas, although the salary recommendations contained below will not remedy the deterioration of faculty salaries and the other problems associated therewith recited above, the Regents have concluded that in the present budgetary climate, any higher request would likely be rejected out of hand;

Accordingly, be it resolved that:

Faculty - Same as above
Budget - Same as above
Legislature - Same as above

The Board of Regents urges the Legislature and Joint Committee on Employment Relations to grant no less than the following compensation plan for faculty and academic staff for the 1983-85 biennium:

1. A 4% salary increase for 1983-84;
2. A 7% salary increase for 1984-85;
3. The state assume the remaining 1% retirement contribution, now paid by faculty and academic staff, beginning in fiscal 1983-84; and
4. The Board of Regents be authorized to allocate the funds appropriated for salary increases, giving consideration to merit recognition, faculty retention, strengthened competitive position and purchasing power adjustment.

At 11:20 a.m., the following resolution, moved by Regent Clusen and seconded by Regent Nikolay, carried on a unanimous roll call vote, with Regents Beckwith, Clusen, Conroy, Finlayson, Gerrard, Hanson, Heckrodt, Knowles, Lawton, Nikolay, O'Harrow, Veneman and Zirbel voting "Aye" (13), and no Regents voting "No."

Resolution 2854: That the Board of Regents recess into closed session to consider personnel matters, as permitted by s. 19.85(1)(c), Wis. Stats., and to consider personal histories, as permitted by s. 19.85(1)(f), Wis. Stats.

CLOSED SESSION ACTIONS

The Board arose from closed session at 12:00 noon, at which time adoption of the following resolutions was announced:

UW-Superior - Visitors - Appointment of

Resolution 2855: That, upon the recommendation of the UW-Superior Chancellor and the President of the University of Wisconsin System, the following persons be appointed to the UW-Superior Board of Visitors for terms ending June 30, 1986:

X reg. Podlesny & Drayna appointed to UW Superior Bd. of Visitors, etc

Mrs. Mary Podlesny, Ashland, *for terms*
Mr. Roger Drayna, Wausau

ending 6/30/86; and

37. NASA, AMES RESEARCH CENTER
MOFFETT FIELD CA
CO-INVESTIGATOR SUPPORT FOR THE GALILEO NET FLUX
RADIOMETER EXPERIMENT
FOR THE PERIOD 05-01-83 THROUGH 04-30-84
AWARD # NAS2-11615
MSN GRAD SPACE SCI&ENG CT (144-T187) 24,904.00
38. NASA, GODDARD SPACE FLIGHT CENTER
GREENBELT, MD
IN SUPPORT OF THE FOLLOWING:
- 1) A SPACE TELESCOPE SCIENTIFIC INVESTIGATION USING
A HIGH SPEED PHOTOMETER
FOR THE PERIOD 03-02-78 THROUGH 01-31-85
AT A TOTAL COST OF \$4,900,710.00
AWARD # NAS5-24487, MOD. 28
MSN GRAD SPACE SCI&ENG CT (144-L324) 100,000.00
- 2) ULTRAVIOLET STUDIES WITH THE IUE SATELLITE
FOR THE PERIOD 06-15-81 THROUGH 10-31-83
AT A TOTAL COST OF \$149,443.00
AWARD # NAG5-186, MOD. 4
MSN L&S ASTRONOMY (144-Q873) 31,599.00
- 3) SOME NEW MATHEMATICAL METHODS FOR VARIATIONAL
OBJECTIVE ANALYSIS OF METEOROLOGICAL INFORMATION
USING SPLINES AND CROSS VALIDATION
FOR THE PERIOD 05-01-83 THROUGH 04-30-84
AWARD # NAG5-316
MSN L&S STATISTICS (144-T131) 97,431.00
39. NASA, MARSHALL SPACE FLIGHT CENTER
HUNTSVILLE, AL
APPLICATIONS OF THE AVE-SESAME DATA SETS TO
MESOSCALE STUDIES
FOR THE PERIOD 05-13-80 THROUGH 11-30-84
AT A TOTAL COST OF \$667,338.00
AWARD # NAS8-33799, MOD. 8
MSN GRAD SPACE SCI&ENG CT (144-P477) 230,394.00
40. NATIONAL SCIENCE FOUNDATION
WASHINGTON, DC
IN SUPPORT OF THE FOLLOWING:
- 1) PUBLIC USE SAMPLE FILES FROM THE 1940 AND 1950
CENSUS OF POPULATION
FOR THE PERIOD 03-01-78 THROUGH 10-31-83
AT A TOTAL COST OF \$6,724,550.00
AWARD # SES-7704135, MOD. 7
MSN L&S SOCIOLOGY (144-L438) 141,002.00
- 2) MOLECULAR BIOLOGY OF CHEMOSENSING IN BACTERIAL
CHEMOTAXIS
FOR THE PERIOD 05-01-79 THROUGH 10-31-84
AT A TOTAL COST OF \$261,000.00
AWARD # PCM-7826573, MOD. 4
MSN AG&LSC BIOCHEMISTRY (144-M870) 55,000.00

MINUTES OF THE EXECUTIVE COMMITTEE MEETING

of the

BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM

Held by telephone conference, originating from
Room 1511 Van Hise Hall
1220 Linden Drive, Madison, Wisconsin
Wednesday, May 25, 1983
7:45 a.m.

- Chairman Beckwith presiding -

Regent Committee Members Participating: Regents Beckwith, Knowles, Lawton,
O'Harrow, Schilling and Veneman

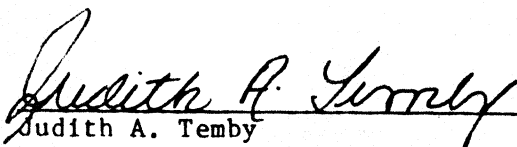

Regent Beckwith stated that the matter before the Committee was a resolution authorizing funds to plan, bid and construct a fire restoration project at UW-Stout.

Providing background information about the request, Vice President Winter noted that the fire occurred on May 1 and that cleaning had been completed on May 9 by the Blackman Mooring Company, of Ft. Worth, Texas, which also had done the cleaning of River Commons and Blackhawk Commons at UW-Oshkosh. The estimate for the construction portion of the project was \$87,300, damage having been confined to a 3,000-square-foot lounge, a server room and an electrical vault. He indicated that the extent of the damage in the vault would not be known until it was cleaned by an electrical contractor and that there might be some contingency items after the contract was let, provision for which was included in the estimate.

Resolution 2825 then was unanimously adopted.

Resolution 2825: That, upon the recommendation of the UW-Stout Chancellor and the President of the University of Wisconsin System, authority be granted to plan, bid and construct a Tainter Hall Lobby/Lounge Fire Restoration Project at UW-Stout at a total estimated project cost of \$87,300 from non-GPR State Self-Funded Property Program (Insurance) Funds.

The meeting was adjourned at 7:50 a.m.

Judith A. Temby

II. CONTRACT CHANGE ORDERS IN EXCESS OF \$30,000.

There are none to report this month.

III. REPORT OF ACTIONS TAKEN (MEMOS OF AGREEMENT).

A. A License Agreement between BMDP Statistical Software, Inc., a California corporation, and the Waisman Center of the University of Wisconsin-Madison covering conversion of BMDP-77 Biomedical Computer Programs on Harris computers operated by the Waisman Center on Mental Retardation and Human Development has been signed by the UW-Madison Vice Chancellor for Administration, March 29, 1983.

C. An agreement between Mr. William O'Brien and the University of Wisconsin-Madison renewing a "Permit for Use of University Land" has been signed by the Vice Chancellor for Administration. Under terms of this agreement, limited use of a University Parking area adjacent to a business operated by Mr. O'Brien is authorized during the days of 1983 home football games. The City and the University have been concerned about patrons of Mr. O'Brien's business interfering with the free flow of pedestrians and vehicular traffic on Monroe Street before and after football games, and this arrangement worked well to alleviate the situation when first implemented for the 1982 football season.

✓ 1954 East Washington Ave - Agreement with Access to Independence Inc., for lease of space, nonpers. item D

D. The agreement between Access to Independence, Inc., and UW-Madison for the organization's continued lease of space in the Annex at 1954 East Washington Avenue has been signed for the 1983-84 fiscal year. The terms of the agreement are the same as those reported in 1982 except for an adjustment in the rate from \$7.48 per square foot to \$7.85 per square foot.

✓ UW-Superior - Agreements by UW-Superior with the St. Louis (Minnesota) & Douglas County (Wisconsin) Health Departments for clinical training for nursing students, nonpers. item E

E. Agreements have been signed on behalf of the Board of Regents by the UW-Superior Chancellor with the St. Louis (Minnesota) and Douglas (Wisconsin) County Health Departments to provide clinical training experience for those students enrolled in the University's nursing program. The agreements establish that there will be no exchange of monies between the University and the Health Departments for services rendered by staff and faculty or facilities provided under it. The terms and conditions will be reviewed each March at which time agreement will be reached regarding renewal for another year. A notice of one year prior to the opening of the next school year will be the minimum time for notifying the University that either county wishes to withdraw all or any portion of their clinical facilities for student practice.
