ZORN'S DIRECTORY

OF THE

City of Sheboygan

1912 - 1913

Street Directory

The city of Sheboygan is divided into two divisions, the North side and the South side, the river being the dividing line.

The streets running north and south have numbers, beginning at the lake, and are called on the north side, North 1st street, North 2nd street, etc.; on the south side, South 6th street, South 7th Streets, etc. The streets running east and west are called avenues. Short streets are called courts or places.

The houses of the city are numbered according to the Philadelphia plan, that is, 100 numbers for each block. On streets running north and south the even numbers are on the west side of the street, and the odd numbers on the east side. On streets running east and west the even numbers are on the north side of the street and the odd numbers on the south side.

For numbering the houses on the streets running east and west, No. 1 is at the shore of Lake Michigan, east of 1st street. Nos. 101 and 102 are always the corners of the street running east and west and 1st street, and 100 numbers are added for each block from the lake. Thus we have on these streets the following numbers:

Between 1st and 2nd street, from 100 upward; between 2nd and 3rd streets, from 200 upward; between 3rd and 4th streets, from 300 upward; between 4th and 5th streets, from 400 upward, and so forth. This plan is the same for the north and the south side.

For numbering the houses on the north side on the streets running north and south, the most southern bend of the river, at 8th street bridge, is taken for a basis and called No. 1; 100 numbers are added for each block north from this point. Thus the intersections of N. 8th street with the following avenues have the following numbers:

Maryland Ave.	101	Niagara Ave.	901
New Jersey Ave.	201	Ontario Ave.	1001
Virginia Ave.	301	Erie Ave.	1101
Jefferson Ave.	401	St. Clair Ave.	1201
Pennsylvania Ave.	501	Michigan Ave.	1301
Center Ave.	601	Huron Ave.	1401
New York Ave.	701	Superior Ave.	1501
Wisconsin Ave.	801		

The same rule applies to all other streets running north and south on the north side.

...VE Y... WITH A... ...TURNISHED ...MBING BY Sievers & Rademacher 1217 N. 8th st. Phone 43

FRANZ ZORN, Sheboygan PUBLISHER OF DIRECTORIES

Commercial Engraving Co. Designers and Engravers SHEBOYGAN, WIS.

For numbering the houses on the south side, on the streets running north and south, the most northern bend of the river, on S. 14th street bridge, is taken for a basis and called No. 1; 100 numbers are added for each block south from this point. Thus the intersections of S. 14th street with the following avenues have the following numbers:

Niagara Ave.	101	New Jersey Ave.	801
Wisconsin Ave.	201	Maryland Ave.	901
New York Ave.	301	Illinois Ave.	1001
Center Ave.	401	Indiana Ave.	1101
Pennsylvania Ave.	501	Kentucky Ave.	1201
Jefferson Ave.	601	Alabama Ave.	1301
Virginia Ave.	701	Georgia Ave.	1401

The same rule applies to all other streets running north and south on the south side.

The following list contains all the streets in the city of Sheboygan in the above speciefid order with the numbers of all houses on the same, indicating whether the head of the family living threin is the owner (o) or a renter (r). The name of the wife is given in parenthsis.

NORTH SIDE

NORTH 1st STREET.

From Hugo Court to Water Works.

1528 Jacoba De Boer (wid. Jacob), Anna.

NORTH 2nd STREET.

From Huron Ave. north to Park Ave.

Left.

1518 Henry Pott, o. (Anna), Arthur.

SHEBOYGAN.

Sheboygan City has an actual population of 27,894, this being from a reliable census made by a representative of the compiler of this directory in a house to house visitation as of date Dec. 1st, 1911. This shows a very considerable increase since the census of 1910 was taken.

The City of Sheboygan is situated 52 miles north of Milwaukee at the mouth of the Sheboygan River, which river has been developed into a splendid harbor, capable of receiving and floating the largest vessels on the lakes. The largest coal docks on Lake Michigan are located here, and Sheboygan is a great coal distributing center. Sheboygan is the County Seat of Sheboygan County, has Railroad connections, North, South and West; has an excellent street and Interurban Railway System reaching Milwaukee, Port Washington, Cedar Grove and Oostburg on the south; Sheboygan Falls, Plymouth, Elkhart Lake and many famous summer resorts west and northwest, having an hourly schedule to these points.

For its population Sheboygan is the most extensive manufacturing city in the state or in the west. It is the center of the chair industry of the country; its six mammoth chair factories employ about 4000 hands and supply the world with chairs. It has the largest enameling works of the country; the largest excelsior works in the state. It supplies a large share of its cheese to the country. Two mammoth tanneries help to shoe the world, and several shoe factories turn out shoes to use up the products of its tanneries. Sheboygan is also noted for its mineral water, immense quantities of which are bottled and exported. Two large breweries supply the needed beverage to the thirsty. Five banks, all of large capital give the necessary aid financially to carry on the immense volume of business of the city and a large share of credit is due them for aid needed at critical times. Sheboygan has a splendid school system, as is evinced by its Central High School and numerous Ward Schools located conveniently in various parts of the city. It owns and operates its own system of water works; has a splendid police and fire system and is supplied with gas and electric light by corporations which give good service to the city. Sheboygan is quite proud of its churches, having 28 houses of Worship some of which are splendid structures. Parochial Schools are not the least of Sheboygan's pride — The Lutherans, Catholics and Hollanders each have large and well attended schools. Two Business Colleges are also located in the city, also offices of the American; Wells, Fargo & Co., and Northern Express Companies. The Western Union and Postal Telegraph Companies do a large business also. The Telephone Co. has a large exchange and by long distance lines and rural lines, reaches all over the country. The city is well supplied with hotels, giving ample accommodation to the traveling public, and ranging in rates to suit the needs of their patrons. — In short, Sheboygan is an up-to-date city with pushing, energetic citizens and the indications are that it will become in the near future one of the great cities of the country.
