The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

New suppositories eradicate urethral infection and pain

*The suppository this patient inserted at home
this morning keeps her comfortable all day
and allows her to follow her normal routine*

new—the only antimicrobial urethral suppository

fast—prompt relief of pain and burning

sure—the nitrofurantoin, FURACIN, eradicates most bacteria common to urethral infections

easy—patient inserts suppositories at home

safe—only rare irritation in over 340 reported cases*

proved—"the suppository method of medication has proved its worth"*

PRESCRIBE: for bacterial (granular) urethritis; for topical anesthesia and prophylaxis of infection before and after instrumentation

FORMULA: 0.2% FURACIN (brand of nitrofurazone) and 2% diperoxide-HCl in a water-miscible base. Sealed in foil. Box of 12.

to prevent cross-infection
