The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

*this patient is a new man*

*He slept like a log, awoke full of go. Alert, he is ready to meet the new day with renewed efficiency.*

---

*Last week, this was the patient who complained, "I just can't sleep." His real and imagined problems had become distorted, then unreasonably distressing in those long weary hours when the burden of fatigue was not eased by rest.*
