ANY "QUIZ KIDS" IN YOUR HOME?

JACK and JILL will help you soften their barrage of "What?", "Why?", "How?", "When?", "What for?", and "Who?".

For here is the perfect child's companion. Stories of people and places, stories of animal and plant life, poems, puzzles, things to make and do, pictorial hikes, and characters like Finnie, the Office Gold-

fish; Boo Boo, the Woods Boy; and Tinker, the Traffic Cop—all these make *Jack and Jill* almost a personal friend to nearly 300,000 bright boys and girls from three to ten.

To please your favorite youngsters and make life more pleasant for you, send for *Jack and Jill* today. You'll always be glad.

hits and misses

THE Board of Regents seems to have pulled a very definite faux pas. An early February broadcast from a Berlin radio station announced that Secretary of the Navy Knox had ordered all universities to "cease teaching". Knox, Berlin said, had commandeered all universities as training schools for navy pilots. And, gosh, here's Wisconsin still going strong with about 10,000 students not knowing that they aren't supposed to be here. . . . Speaking of such things, we overheard a snatch of conversation while going to the Rathskeller for a cup of coffee the other day. There were two young girls standing near the telephone booths. Said the one to the other, "Well, it won't be so bad when all those navy men get here." So apparently those 1,200 navy men who will be on the campus for the next year are going to solve problems other than National Defense. . . . With all the stories of men being drafted these days, Jose Valdes, a freshman in the College of Agriculture, has one that is more unique than the rest. Valdes, a native of Guatemala City, has been drafted into the Guatemalan army and has already left school in order to serve. . . . Naturally much of the Campus activity these days concerns national defense. Just so you can be sure that the students are doing their part, here are a few of the more recent developments. Alpha Kappa Psi, professional commerce fraternity, bought a \$25 defense bond for its treasury. The Union Directorate, governing body of the Memorial Union, dipped into its funds and came up with enough to buy a \$500 bond. The graduating seniors paid their dues with defense stamps. "Union in '42, Reunion in '52" was their campaign slogan. 1,228 volumes were collected by a student committee as their share in the Victory Books drive. Ten cent defense stamps have supplanted the usual fee cards as admissions to the Saturday afternoon dances in the Great Hall. Groups of co-eds have adopted the theme song "Kiss the Boys Goodby" and show up at the Madison induction centers each time a group of draftees leave for camps, helping to serve the boys with coffee and doughnuts and a pretty smile. . . . The annual St. Pat's day feud between the lawyers and engineers blossomed forth as usual. The engineers painted the Law building windows and the lawyers retaliated by tearing down some of the engineers' handiwork on the lower campus.

100% Teamwork

We Americans at last have become sufficiently realistic to know that we must win the war or suffer the terrible consequences which have already befallen weaker nations — that winning is costly, but not nearly as costly as losing.

However, we apparently are not all reconciled to the sacrifices which we as individuals will have to make in order to win the war. Unfortunately, there are some among us still thinking that the richest nation cannot be beaten, as though wealth and past victories would insure victory in this war. Some appear to be entirely willing to "Let George do it" — George being the army, the navy, the President or in fact anyone, except themselves.

Some, and thank God their number and evil influence is diminishing, are intent on "getting theirs" while others are giving their all to win the war. Some of these fellow Americans spend their efforts scheming how to get more than a fair return on their money, more than fair wages for labor, more than fair farm prices, more unfair tax exemptions, more subsidies and more unnecessary "projects" not needed by war. It appears that self-seekers of this type have hampered our war effort more than the Nazis and the Japs.

What a powerful war effort we would promptly develop if everyone of these Americans and every pressure group would lay aside its own selfish aims and place the winning of the war above all else. We would suddenly develop 100% Teamwork — the kind of cooperation which wins games and wins wars. Americans would immediately stop bickering and jockeying for individual and group advantages and would move ahead as a completely united and powerful force in winning this war for freedom and decency.

Wisconsin alumni are serving their nation on the far-flung battlefields: Burma, Bataan Peninsula, Australia, Hawaii, the West Indies, Africa. More than a thousand alumni have sacrificed security, jobs, the comforts of home to serve their country. In the months to come, there will be hundreds more, both men and women, who will take their places in the front lines of this battle of freedom. Some — too many — have already made the supreme sacrifice. These fighting alumni are doing their full share in this big job.

May alumni of the University of Wisconsin also be leaders in trying to achieve 100% Teamwork on the home front.

President

The Wisconsin Alumni Association

Milk = the "Perfect" Food

Your health is vital to our great war effort - know how to be really healthy

FOR 10,000 years mankind has known the value of milk; the earliest evidence showing use of milk by man was in Libyan desert rock paintings 9000 B.C. Desert caves of North Africa unearthed by archaeologists revealed dark skinned humans worshipping a milk cow. In the United States of America, milk was first required in the Plymouth Colony because of the high infant mortality. Today we find man more devoted to the cow than ever before; at present it is more in a utilitarian way, as the world's cow population has grown to 120 million, of which one-fifth will be found in the confines of our own country.

From this massed cow population, 50 billion quarts of milk are produced annually in the United States alone. No other single food can compete with milk because it is nature's most complete dietary article. Yet in spite of the fact that milk is endorsed by nutritionists and highly recommended as the one basic food essential to a balanced nutrition, the consumption of milk in the United States and, as a matter of fact, throughout the world, seriously lags. The average person today, man of the street if you will, is not receiving his proper quota of milk. Statistics on the average annual consumption of dairy products attest to this fact, as the average American consumes 153 quarts of milk, 17 lbs. of butter, 6 lbs. of cheese, and 2 gallons of ice cream. If the above figures could be doubled, a real service to mankind would be performed, the American public would be in a better state of nutrition, and calcium, vitamin A, and riboflavin deficiencies would disappear, other more or less common deficiency diseases would be curtailed, and a substantial number of everyday complaints we hear about, for which the individual believes he needs medication, would be relegated into the category of has-beens.

That this is a real serious problem to the nation cannot be emphasized too strongly. We in Wisconsin have a double appreciation of this paramount problem confronting us because confined within our state is the great-

by
Henry T. Scott, Ph. D.

Director of Biological Research
Wisconsin Alumni Research Foundation

est concentration of the most important unit devoted to the production of an indispensable food that recently has approximated over 6 billion quarts annually for Wisconsin, or 45% more than our nearest competitor, Minnesota.

When it comes to stoking the human machine, many foods can serve the purpose, but milk stands out as different, unique, and exceptional. History has proved time and again that those races whose diets contained generous proportions of dairy and animal products were unusually strong and sturdy, but it has only been in the last few decades that this age-old custom of milk has been put on a sound scientific basis.

Lack of essential food elements in the diet manifests itself in various ways. Certain illnesses as deficiency diseases are all too common, and are due, as the name implies, to deficiencies of elements or factors essential in a well-rounded diet. Inadequate diet lowers bodily resistance, increases susceptibility to infection, and predisposes the individual to a train of conditions that are so insidious they defy recognition.

The factors responsible in most instances, while well recognized by the dietitian and food chemist, are not always appreciated by the housewife, man on the street, or average individual unless he is really food conscious. This is not unusual for the reason that the class of substances apt to be missing or slighted are the intangible vitamin factors. Everyone has heard of them and knows something as to their value and usefulness.

The initiation of studies which were fore-runners to our present day knowledge of the vitamins must be credited to the late Dr. Stephen M. Babcock, whose curiosity knew no limits. It is a fact that he early gained fame

for himself and the University of Wisconsin through the discovery and perfection of the Babcock method for determining butter fat in milk. His quiet, unassuming nature precluded his writing but never interfered with his searching. The vitamin studies for which the University of Wisconsin Department of Biochemistry is world famous received their impetus from Babcock, the Saint of Science, whose real life work even today remains an unwritten treatise.

Inability of the average lay individual to associate some particular characteristic with a certain food by virtue of its high or adequate vitamin content, has precluded, to some extent, the rapid advance of knowledge; however, we are gradually overcoming this defect, but our progress is all too slow. Tardy recognition of these essential vitamin needs and inability to overcome them is in a large measure responsible for the high percentage of young men being rejected for selective service. Astounding, indeed, is the revelation that almost one-third of the youth of our country have physical or mental defects sufficient to bar them from Army service.

Which brings up the next logical question as to what people eat and why. Do they apply the advanced knowledge of nutrition as adequately and universally as they do progress made in other fields of science? When knowledge becomes commercially profitable to the individual, he makes immediate use of it. Individual health is a different proposition, commercially profitable, but in a different sort of way, because there is no such thing as mass production of adequate diets, as applies to airplanes and automobiles. The individual must learn the scientific facts about diet and apply them to himself. There are figures available to show that one-third of our nation is ill fed, but these same figures do not show how much of this unhappy situation is due to economic reasons, and how much to neglect or ignorance.

Man must wean himself away from tradition and custom and learn how to eat his way to better health. Perhaps if we could look at the average individual and

tell him what a state of deficiency existed within him, we would have a valuable yardstick. This would include the state of his body to absorb food, what metabolic processes may increase the need, not only growth and pregnancy but low grade infection and elevated temperature as well. Man should be taught to eat whatever he cares to, but his initial duty is to see that the essentials come first.

No one will deny that the main item in a day's diet should be milk because it fortifies and balances the diet at so many points. One quart of milk has the same energy value as 8 eggs and is composed of upwards of 100 recognized substances.

Subdividing these all important entities, we first consider the protein of milk, which is biologically complete. The sugar of milk, lactose, has been proved to be very superior, as it has nutritive properties not possessed by other sugars. Milk is endowed with eleven fatty acids; the nutritive properties of the fats in milk are, as with the sugar in milk, to be classed as very superior.

Fats in milk carry the all-important fat soluble vitamins A, D, and E, and also permit the proper utilization of sugar in the body. Fats in milk are rapidly absorbed by the body and easily digested.

The research efforts of Wisconsin investigators in demonstrating the superiority of milk proteins and fats have been accumulating for many years and can largely be credited to the biochemists' able work, directed by Professor E. B. Hart.

Having mentioned the fat soluble vitamins, let us consider for a moment where milk stands in relation to the amount that one quart daily supplies.

Vitamin A

The dairy industry has a virtual monopoly on the natural vitamin A available to man in milk, butter, and cheese. From milk alone, we can secure nearly one-half our daily needs; supplemented with butter and cheese, it may supply all of our requirements. Certainly with vegetables, salads, and other foods, our chances of deficiency are slight.

Dr. Stephen M. Babcock,
the "Saint of Science"

Vitamin D

This fat soluble factor which is sparsely distributed in nature is necessary for the proper utilization of the minerals, calcium and phosphorus in which milk so richly abounds. Nature was not so generous in her distribution of this vitamin, although as foods go, milk does contain a small amount. In the past decade, various methods, such as irradiation, yeast feeding, and addition of vitamin D supplements to milk, have provided the means whereby this factor could be satisfactorily incorporated in the milk supply.

Impetus for the development of vitamin D milk resulted following the epoch making discovery by Dr. Harry Steenbock, '08, that foods and pharmaceutical products could be irradiated to create this sunshine factor for controlling calcium metabolism.

Because of the fact that milk is richly endowed with many of the essential nutrients and possesses an abundance of calcium, there is no better carrier for vitamin D in existence at the present time. Furthermore, many research and clinical studies have demonstrated that vitamin D when incorporated in milk is more effective than when administered in other forms. This is probably due to the fact that it is distributed in a more or less perfect emulsion, fed over the course of the day as a regular food, permitting a more complete or economic utilization of the calcium which vitamin D makes available to the blood supply.

Vitamin E

This factor, sometimes referred to as the anti-sterility vitamin, is so well distributed in nature, that we have little to worry about. It is found in a host of foods, such as milk, wheat germ, lettuce, and other leafy material. So far, vitamin E deficiencies have been demonstrated only in laboratory animals. The actual needs in the human still remain to be defined.

Thus we complete the resume of the fat soluble vitamins that we know to be essential; however, another great group of fac-

tors, the water soluble vitamins, remains for consideration. We are hearing a great deal about them these days, and in many localities your baker is making available to you enriched bread, which is designed to bring the level of factors in the vitamin B complex up to whole wheat content, so that the white loaf will supply these needed nutrients.

Perhaps it might be advisable at this juncture to summarize for you the part that the factors (B complex) just referred to play in the nutrition of man.

Vitamin B₁

Lack of this factor does not permit proper digestion and metabolism of sugars. The digestion of carbohydrates stops before it becomes available. You may wonder why during the past few years we have become so conscious of all these things when our forebearers apparently through ignorance, worried not.

The answer is obvious: Our food habits and mode of living have changed with the times; in the Plymouth Colony the yearly consumption of sugar was 5 lbs. per capita. In other words, it was a luxury. Today it is far from a luxury, and the yearly per capita consumption has risen to 112 lbs. In the earlier years, thiamin was more prevalent due to less refinement in food processing and milling. Today it is just the reverse, hence we must see to it that sufficient B₁ is supplied in the diet one way or another. In addition to its necessity in digestion of sugars, vitamin B₁ speeds up digestion, stimulates the appetite, prevents anorexia, and has a guiding influence over the nervous mechanism controlling gastric secretion. In complete absence of this factor, beriberi and polyneuritis develop. One quart of milk supplies about one-fifth of our daily needs; therefore, the diet should be supplemented liberally with cereals and vegetables.

Riboflavin, Vitamin B₂ or G

This factor is widely distributed in nature, but not consumed in sufficient quantities, especially by the poorer classes, to as-

Dr. E. B. Hart who directed the bio-chemical research

sure proper intake, which could easily be remedied by consumption of one quart of milk daily. Liver is a rich source, and flavin is found generally in all vegetables.

Riboflavin is of the nature of an enzyme, presumably present in every living cell, and is concerned with the chemical reactions involved in cell respiration. The cell needs this yellow oxidation enzyme in order to breathe. This factor is extremely necessary in the diet because the animal cannot manufacture it in the body cells, neither can the animal body store this flavin factor, which also is necessary for ester formation with phosphoric acid.

Niacin (Nicotinic Acid)

This was formerly thought to be vitamin B₂ or G, but it was shown through the work of Dr. Elvehjem and associates of The Wisconsin Agricultural Experiment Station to be a separate and distinct entity, capable of preventing the disease pellagra in man and black tongue in dogs. The work of Dr. C. A. Elvehjem, '23, and co-workers on the importance and necessity of the many factors in the vitamin B complex forms a classical chapter in the contribution of the present decade. If all these research papers could be assembled under one head, it would comprise a textbook of imposing proportion. Milk, while not a rich source, supplies about one-fifth of our daily needs on the basis of one quart intake, again a strong argument that regardless of the factor, milk fortifies and balances the diet at many points. This factor may be obtained by supplementing the diet with meat, eggs, and vegetables.

Vitamin C

While no claims have been made for milk as an adequate source of vitamin C, nevertheless it does contribute significant amounts. It is true in processing milk, such as pasteurization, cooling, and aeration, some oxidation takes place which reduces the amount of this factor; however, the good accomplished by pasteurization and the necessary processing which follows so far overshadows the slight loss in C that we much prefer the

Dr. Harry Steenbock, his epoch-making discovery developed Vitamin D milk

product to be 100% safe and rely on the time honored citrus fruits, tomato juice, and vegetables to supply the antiscorbutic factor; however, its presence cannot be overlooked and is another example of the capacity of milk to fortify the diet with another entity of dietary significance.

Minerals

Mineral elements essential in normal nutrition include calcium, phosphorus, iron, copper, manganese, magnesium, sodium, potassium, chlorine, iodine, and cobalt. These inorganic constituents are used by the body for the growth of the skeleton, the development of the soft tissues, and for maintaining normal body fluids.

The importance of minerals in the nutrition of man and animal forms another interesting chapter in the classical experiments of the University's Department of Biochemistry. In fact, the work on the needs for calcium (lime) and phosphorus would be sufficient to singularly identify it. Professor E. B. Hart had long been obsessed with the idea that animals need large amounts of lime, for he believed that it was just as basic for the animal as steel for a skyscraper. In this work he was ably assisted by Professors Steenbock and Humphrey. One of the very early studies in the field, under the aegis of Dr. Steenbock (1913), may be considered as the initial spade work which ten years later resulted in his epoch making discovery that foods could be activated to vitamin D by means of ultraviolet light. The work of these two great biochemists, assisted by Dr. Elvehjem, further unravelled the importance of iron and copper in treatment of nutritional anemia. Dr. Elvehjem furthered this work by an intimate study on the importance of minor inorganic elements in the nutritional picture, and has extensive publications in the scientific literature on such elements as manganese, cobalt, etc. The discovery of the iron-copper therapy in treatment of secondary anemia actually grew out of experimental work designed to further answer the question as to why milk possessed nutritive properties superior to other foods.

In the ash of milk all of the above minerals

Prof. C. A. Elvehjem, one of America's outstanding bio-chemists

are to be found in practically sufficient quantities with the exception of iron, copper, iodine, and magnesium. It is true that some minerals are more important than others. Of all the minerals, calcium and phosphorus rank of first importance so far as milk is concerned. The reason for this is at once apparent because the human skeleton or body framework is 98% calcium phosphate. Furthermore, milk was designed as the major food for growth when mineral structures in the body are being elaborated. Of all the foods available to man or animal, no one single item compares with milk when these entities are being considered.

One quart of milk supplies 1.15 gm. of calcium and 0.9 gm. of phosphorus. Adult man

needs 0.68 grams of calcium and 1.32 grams of phosphorus. Growing children, expectant and nursing women need more. One quart of milk a day assures us of our daily calcium needs and most of our phosphorus needs. Many foods such as meats, cereals, and vegetables supply phosphorus in more or less optimum amounts.

Such is not the case with calcium. If it were possible to take a census of the calcium needs of the average individual today, it could very well reveal that over 50% were actually suffering from a calcium starvation simply because the proper amount of milk is not a part of their daily diet. If it were, this calcium deficiency condition would not exist. Without milk in the diet, it is simply impossible to supply the one-fourth teaspoonful of this mineral which is needed each day. This statement is not based upon theory, assumption, nor guesswork, but is a fact long known and based on analysis of foods and examination of hundreds of diets, which reveal the fact that the average American diet without milk supplies 0.2 mg., one-fifth of our daily needs, unless the salts of this mineral are supplied by means of dicalcium phosphate tablets or wafers.

It is true that vegetables are considered good sources of calcium; however, to obtain the equivalent of 1 quart of milk would require the consumption of one pound per day of spinach or three pounds of string beans. These are good examples. Most other foods contain far less calcium than the ones cited.

Perhaps we are overly optimistic in hoping for the adequate or perfectly balanced diet for everyone. But that is the goal to work towards. Proper nourishment of the human body is the keystone of health. The closer we come to our goal, the more nearly will known deficiencies, and others yet to be defined, be relegated to the category of medical curiosities.

It's a Woman's War, Too

Wisconsin alumnae are doing their share to win this war, like these two

YOU could use the word "busy" to describe Washington, D. C., just now; and you might say Marie Dresden Lane has an interesting job. Both remarks would indicate a decided gift for understatement. Washington surges, rushes, hums in a concerted effort to meet wartime demands. Mrs. Lane—well, it's this way:

Marie Dresden Lane went to Washington, D. C., in 1941 as head of the newly-created Service and Professional Projects, a program that concentrated on training unemployed, out of school girls for jobs. The work projects were varied, all of them aimed to provide sufficient experience to enable girls to obtain jobs on the apprentice level. The project trained hospital aides, clerks, and "quantity cooks". Girls interested in the industrial fields had the opportunity to learn industrial sewing, weaving, crafts or ceramics.

In 1941 the newspapers reported, "This is one of the big jobs of the National Youth Administration." This year the war came to sweep the position into even greater importance. Defense industries needed trained women workers; the war production board issued an "all-out" order; and the Service Projects section took on new character and purpose. "All of our projects," says Mrs. Lane, "are now only those which contribute directly to the war effort." Other projects have been closed or are in the process of liquidation. In the Service training shops, the girls are now learning welding, riveting, bench and precision instrument work. Industries with war contracts absorb these trained workers. The girls graduate from the shops to munition plants, United States arsenals, bag loading plants and airplane manufacture. At the request of hospital and nurses associations the hospital aides project expanded.

Most of you are familiar with the structure of the NYA—an office in each state and area offices in the larger states. There is a woman supervisor of service projects in each state.

The set up is an example of an efficient organization that has adapted itself admirably to the national emergency. Marie Dresden Lane, in Washington, heads the entire training program.

An interesting job? Right now, impressively important are the words for it.

You don't just wake up one morning and find yourself Chief of Service projects. First you work in Milwaukee with the Family Welfare association, then with five other people, set up the first unemployment relief administration in Wisconsin. After a time you work as regional supervisor or social service consultant in the state of Texas, the Rocky Mountain states and the east central states. This gives you some indication of the kind of experience Marie Dresden Lane brought to the Washington position.

WISCONSIN is her native state. She was born in Oshkosh in 1899, received her high school education in Rhinelander, attended Milwaukee State Teachers College, and graduated from the University of Wisconsin in 1923. For four years after her graduation, Marie Dresden was a case worker and district secretary of the Milwaukee Family Welfare association. As early as 1927, she believed that state and federal government had a responsibility toward citizens "beyond the provision of roads and schools." Convinced that, sooner or later, the government would make wide-spread provision to meet unemployment problems, the young social worker joined the staff of the State Public School at Sparta under the supervision of the board of control.

When the first unemployment relief bill was passed, Marie Dresden, armed with her convictions and increasing status as a social worker, asked to work with Arthur Altmeyer and Florence Peterson on the administration of the fund. No one knew much about admin-

istering a relief fund. It had no precedent in or out of the state. Aubrey Williams, Executive

by

Margaret Snyder, '41

Secretary of the Wisconsin state conference of social work, did what he could to assist and advise the fund administration. "But," said Mrs. Lane, "I think many humorous stories could be told of the efforts of four or five people to set up an unemployment relief commission in 71 counties, with very little past experience on the part of the personnel or from other states to guide us." However, it was an effort that caused more benefit than laughter. All the people who worked with Wisconsin county boards and the unemployed of the state are still with the public administration of relief, social security or with the United States labor department.

AFTER Roosevelt instituted the FERA, Marie went to Texas as social service consultant to the Texas unemployment relief administration. The position gave her two things: it initiated her career as a federal relief employe — she's its oldest, in point of service; and she developed a great enthusiasm for the huge state with its 254 counties. To this day she recalls with pleasure the Texas deserts, mountains, sea ports, oil fields and commercial cities. Always the social worker, the large Spanish-American population, the Texas negroes and the tenant farmers aroused her keen interest. According to Marie Dresden Lane, "It's hard to think of any problem in the United States that's not in Texas — but it's a grand state with grand people." Perhaps it was in Texas that Mrs. Lane heard some of the early, pure American folk songs which appeal to her so much.

Her interest in folk songs collection and research had a chance to grow when she left Texas as FERA supervisor of the Rocky Mountain States. In 1935 she married Winthrop D. Lane, penologist, author and editor, and left the Rocky Mountain region and federal relief work for New Jersey and homemaking. These are not years, however, when a worker as capable as Mrs. Lane could easily retire. Eventually, Marie Dresden Lane rejoined the Harry L. Hopkins staff, which

by this time had become the WPA instead of the FERA, as regional supervisor for the east central states.

Her next position was the one she holds now — Chief of the Service Project section, a job of vital importance in the national emergency. It takes executive ability, experience, vision and vitality to handle a position like this. Marie Dresden Lane has them all. As a matter of fact, there seems to be only one weakness in Mrs. Lane's personality . . . an inordinate fondness for detective stories. One thing about the detective story weakness is that plenty of us would shake her hand in enthusiastic agreement with her choice of leisure entertainment.

Better Food - Better Soldiers

THEY say an army marches on its stomach. Under the dietetic guidance of Meryl Pickering Stone, the American army will march on the best fed stomach in the world.

Since December, Mrs. Stone has held the position of food consultant in the Subsistence Branch of the Quartermaster Corps. She's an associate of Mary Barber, food consultant to the Secretary of War. Her special responsibilities include studying army menus, conferring with food authorities, and explaining Army dietetics to various agencies scattered throughout the country.

Her studies of army menus are made firsthand. On her field trips she sits down at army mess tables to eat the food the soldiers eat. When Meryl Stone talks about army menus, you may be sure she knows them as actual food as well as plans for a calorically correct, vitamin-containing diet. She's the kind of dietician whose interest doesn't stop with the preparation of food. "Not only do I like to cook," says she, "but I love to eat. Not fancy foods, but well-prepared everyday foods." There isn't a thing about her new position, Meryl Pickering Stone doesn't like.

MARIE DRESDEN LANE
The war made her job a mighty important one

The aim in army feeding is to furnish plenty to eat, with sufficient variation to provide all the essentials for growth and health. Mrs. Stone has a great respect for the officers responsible for army feeding, and feels that they're men of vision and intelligence. "They're taking full advantage of nutrition research and are in constant touch with new experiments," Mrs. Stone said, "That's why the American army is the best fed in the world."

The faculty members of the cooks and bakers schools may consult Meryl Pickering Stone, too. These schools, set up in army posts and camps in every part of the country, have already graduated some 70,000 cooks for kitchens serving the new army. They offer courses in the theory of cooking with great emphasis on the importance of safe-guarding the vitamin substance in the raw food material issued from the Quartermaster Corps warehouse. Here, too, Mrs. Stone's help, advice and teaching is needed.

To her position as food consultant, she brings enthusiasm and remarkably good training. Mrs. Stone, a member of the American Dietetics Association and the American Home Economics association, feels that this is the most exciting and interesting job she's ever had. Her training in nutrition probably began when, as a child living at Black Earth, Wisconsin, she discovered a taste for puttering in the kitchen. Meryl Pickering was born in Milwaukee but spent most of her childhood in Black Earth, where her father publishes the *Dane County News*.

Her ability to lead was evidenced during those early days at Black Earth, too. It was under her leadership that the members of the 4H club won the Dane county fair prize for a sewing project.

THE Pickering's are a loyal University of Wisconsin family. Meryl graduated in 1934, with a major in Hospital Dietetics; her brother Carroll, '39, is a chemist with Fairbanks-Morse in Beloit; and next fall another brother, having finished the Black Earth high school, will enroll at the university.

The people who knew Meryl Pickering during her four years in Madison speak of her with undeniable pride. In the home economic department they remember her as "an earnest student," "thoroughly reliable", "well-liked" and as a girl "with a good sense of humor." Certainly all of them were delighted because she'd been appointed to the high and important position of food consultant.

MERYL PICKERING STONE
She makes sure our army is the best fed
in the world

When Meryl Pickering was a Junior, she worked for her room and board at the home of Dean and Mrs. I. L. Baldwin. Mrs. Baldwin thought a great deal of her, admired her industry and capabilities. Not long ago, Mrs. Baldwin saw Meryl when she and her husband were living in New York. Mrs. Baldwin was especially pleased to note how accurately and completely Mrs. Stone had fulfilled the promise she'd indicated as a young student of dietetics. Mrs. Stone is poised, the kind of person who inspires your confidence; she has vision and the energy to carry the vision through to realization.

As Meryl impressed Mrs. Baldwin with her ability to recognize opportunities that came her way, so did she impress Dr. Harry Steenbock, professor of Biochemistry. In her senior year, she held an industrial fellowship under Dr. Steenbock. She was president of the Wisconsin chapter of Omicron Nu, home economics honor sorority, and in spite of the fact that she had little time for outside activities, was elected to Mortar Board, the honor society of outstanding college women. Her University record, you see, is nothing to sneeze at.

AT THE University of Michigan hospital, Meryl took her dietician's internship. Those in charge decided that she, like many of the Wisconsin trained dieticians, was tops. She was made a member of the hospital staff, in charge of the food service for private patients.
(See "Woman's War," page 286)

It's Reunion Time Again

Fourteen alumni classes make plans for Memorial Day reunion festivities

THE horrendous effects of the treacherous blow at Pearl Harbor cast a cloak of indecision over the plans of fourteen classes to participate in class reunions this year. Madison representatives of the classes met early in January to give studied consideration to the advisability of going through with their preliminary plans for the affairs. The decision of the group was unanimous that class reunions should be held this year, a bit curtailed in scope of activity, perhaps, but nevertheless full of the usual *gemuetlichkeit* which characterizes these occasions.

And so, it is with great pleasure and hopes that the Alumni Association announces the 1942 Class Reunions, to be held on the campus on May 29, 30 and 31. These new dates are in accord with the revision of the University calendar, which set June 1 as Commencement day.

Full and detailed plans of the entire reunion weekend will be published in the next edition of *The Badger Quarterly*, and in the Commencement invitation, which will be mailed to all alumni early in May. It suffices to say that there will be activities in which all can participate on Friday, Saturday and Sunday of the reunion weekend.

The Class of 1892 heads the list of reuniting classes, coming back to celebrate its 50th anniversary of graduation. The members of '92, together with all alumni of classes preceding that year, will be guests of the University at the second annual meeting of the Half Century club on Saturday, May 30.

The Class of 1917 will take the runner-up position in honor, but will undoubtedly cap-

ture first in attendance. The class has already made several mailings to its members and anticipates a grand turn-out.

THE classes of 1897, 1902, 1907, 1912 will also come back under the five-year plans which they have adhered to for years. Fred H. Clausen, Fred Leiser, Jerry Coe and William Aberg, respectively, are in charge of the plans for these classes. 1922, under the leadership of Guy Sundt, will celebrate its 20th anniversary. 1924, 1925, 1926, and 1927 will band together under the Dix plan for a weekend of reminiscing about the halcyon days of the mid-Twenties. 1932 will celebrate its second five-year reunion, and 1937 will come back to the campus as a group for the first time since its graduation five years ago.

Members of all the reuniting classes will receive detailed information of their class plans in special letters which will be sent to them during the next few weeks.

The Alumni Association hopes that as many alumni as possible will return for the 1942 reunions. These are precarious days. The years to come may change our mode of living appreciably. Let us all take this opportunity to renew those friendships of campus days. Let us all take this weekend to refresh ourselves so that we can return to our important job of winning the war with renewed vigor and determination.

For the younger classes the 1942 reunions will afford many an opportunity to renew campus acquaintances before being called to active duty with the armed forces. Many of the alumni located in camps close to Madison are expected to come back. A good turnout will make this a happy reunion.

When 1917 held their reunion picnic at the Conlon's in 1937

The 1942 Broadcast

STYMIED in its plans for a nation-wide radio program because of the uncertainties of broadcasts due to the stringencies of the current war, the Alumni Association turned to the Wisconsin State network to celebrate the Annual University Founders' Day this year. Fourteen stations carried the full hour program which emanated from the Wisconsin Union theater on the night of February 11.

The theme of the entire broadcast was the University's part in this World War II. Messages from the alumni were brought to the microphone by Association President A. J. Goedjen and Capt. Franklin L. Orth, '28, Infantry, who has been stationed at the reception center at Camp Grant.

President Dykstra; Dean Chris Christensen of the College of Agriculture; Dean William S. Middleton of the Medical School; Col. H. H. Lewis, Commandant of the University R.O.T.C.; Lt. Robert Storey and Lt. Frank Glassow, instructors in the University R.O.T.C.; Clifford Bates, instructor in the University's C.A.A. pilot training course; John Berge, secretary of the Alumni Association; and a trio of student actors from Station WHA, Mary Jo Peterson, who appeared on a recent Fred Allen show, Peggy Bolger,

Those who made the Founders' Day broadcast a success. Back row: John Berge, Dean Middleton, Clifford Bates, Lt. Storey, Lt. Glassow, Gerald Bartell. Bottom row: A. J. Goedjen, Col. Lewis, President Dykstra, Irene Bird Bland, Capt. Orth

and Bob Dick, presented the varied activities of the University designed to aid in the great American effort for an all-out war.

Gerald Bartell, production director for WHA, announced the program and was in charge of production. The musical numbers were under the direction of Prof. Ray Dvorak, director of the University bands. Featured soloist, who dedicated her number to the alumni serving in the armed forces, was Irene Bird Bland, who was a guest soloist on the General Electric "Hour of Charm" program over NBC last fall.

Alumni clubs and informal alumni groups over the entire state tuned in on the broadcast as a part of their Founders' Day program. Clubs in cities beyond the area served by the network had their meetings especially arranged to stress the University's part in this war.

As the audience saw the 1942 Founders' Day Broadcast

Official Marine Corps Photo

To Our Fighting Badgers Everywhere

WE are proud of you Wisconsin men and women, proud of each of you now serving with the nation's armed forces. We know that you are accepting your new duties with a zest and a patriotism which is but a magnification of the Wisconsin spirit you knew on the campus. We know that you are fully cognizant of the importance of the task that lies ahead of you. We know that no matter what your assignment may be, you will perform your duty with the consummate skill, daring, and distinction of your predecessors of the famed Iron Brigade of '61 and the 32nd Division of World War I.

We're proud, too, to know that Wisconsin alumni are serving on every major battle front and in every branch of the combatant and non-combatant services.

We here on the campus are mobilizing our every effort to be of greatest possible service to you and to the nation's vast war program. On these pages you will read of some of the many defense programs being carried out on the Hill. Others are in the process of preparation. Still greater ones will follow in the months to come.

Those of us back home think of you often. We wonder where you are, how you are, how we can better serve you. Remember always that your University, your Alumni Association, your campus friends are ever anxious to do all in their power to be of greatest assistance to you. We appreciate the sacrifices you are making, the immensity of your task, and the courage with which you are facing your toughest assignment.

Wisconsin is proud of each and every one of you.

THE WISCONSIN ALUMNI ASSOCIATION.

Badgers in the Service

WE ARE proud to present additions and corrections to the growing list of Wisconsin men and women who are serving in the Nation's mighty armed forces. Because of the rightful and stringent censorship rulings applicable to the divulging of information regarding troop movements, many of the complete addresses have been omitted from his list. If you wish to write to your former classmates, the Alumni Association will be pleased to forward you information, if possible, of their correct address. We urge you again to let us know of any friends, relatives or acquaintances who have been called to duty so that we may add them to our list and send to them the free services to which they are entitled.—THE EDITORS.

1900

Col. Lewis MOORE has closed up his consulting engineering business for the duration and is now in the Corps of Engineers engaged in staff duty in the New England area.

1902

Master Sergeant Bertram F. ADAMS has been with the 202nd C. A. (AA) Regiment National Guard ever since November, 1924. After 16 years of service he is with his old regiment on active duty at Ft. Lewis, Wash.

1904

Col. Paul A. SCHULE is in the Army Medical Corps, stationed at Walter Reed General Hospital, Washington, D. C.

1907

Col. Harry G. MONTGOMERY is serving at Hickam Field, Honolulu, T. H.

1910

Col. Francis K. NEWCOMER is with the Corps of Engineers, 201 Artillery Post, Ft. Sam Houston, Tex.

1913

Maj. Alvin R. LAMB is with the Hawaiian department of the Army. His address is 1477 Alencastre St., Honolulu, T. H.

1914

Lt. Col. Edwin W. GRIMMER, is with the 1st Infantry. . . . Col. C. J. OTJEN is commanding officer at the Reception Center,

Camp Grant, Ill.

1915

Clarence C. FENN, Antigo, was recently promoted to Colonel. He has been ordered over seas. He was formerly on duty in the Secretary of War's office.

1917

Col. Wm. J. BLECKWENN, Madison, is commanding officer at Camp Shelby, Miss. . . . Lt. Col. Arthur W. HOWSON, 108th Engineers, says he is "plenty busy down in the sunny south". He is at Camp Forrest. . . . Capt. Isador W. MENDELSON is with the Corps of Engineers at the Schenectady General Depot, Schenectady, N. Y. . . . Maj. Paul D. MEYERS is now with the 59th Observation Group, Ft. Dix, N. J. . . . Maj. Raymond E. PORTER is Air Officer with the 6th Corps Area HQ, in Chicago.

1919

Lt. Col. Joseph A. HOLLY is on duty with HQ Armored Force, Ft. Knox, Ky. . . . Lt. Col. Leo B. LEVENICK is with HQ 34th Inf. Div., APO 1001, c/o PM, New York. . . . Lloyd LEHRBAS was made a Lt. Col. in the army and is assigned to the staff of Gen. MacArthur at the AEF headquarters in Australia. *Time* magazine recently stated that MacArthur greeted Lehrbas, on the former's arrival in Australia, with, "Hello Larry, you old soak. What are you doing here? I'll see you later."

1920

Lt. Col. Charles T. SKOW is at MacDill Field, Tampa, Fla. . . . Maj. Ralph L. YOUNGREN, Army Air Force, is with the War Dept., Washington, D. C.

1921

Among the officers on Gen. MacArthur's staff who made the perilous flight from the Philippines to Australia was Lt. Col. Joe SHERR, '21. Col. Sherr has been assistant signal officer on MacArthur's staff ever since 1940. Sherr joined the army immediately after his graduation in 1921. An interesting experience of his, in light of the present conflict, occurred in 1933 when he was attached to the American embassy in Tokio. While driving around the outskirts of Tokio, Sherr,

then a 1st lieutenant, was arrested on suspicion of being an American spy who was investigating the Japanese munitions plants. The situation was satisfactorily cleared up and Sherr was released. One of the reasons for the suspicions of the Japs was the fact that Sherr had received his degree at Wisconsin in electrical engineering and was, therefore, in good position to spy upon the industrial plants of Japan. While a student at Wisconsin Sherr was active in the R.O.T.C. and was athletic editor of the 1920 Badger. . . . 1st Lt. Herbert J. SCHMIEGE, QMC., Ft. Warren, Wy. Schmiege resigned his post as alderman in Madison when he was called to active duty.

1922

Lt. Col. Tyler D. BARNEY is on duty with the Headquarters of the 32nd Infantry Division.

1923

Clinton W. DAVIES has been promoted to Lt. Col. in the Army Air Corps, at Maxwell Field. . . . Maj. John M. RAE can be reached at 604 E. Woodbine St., Chevy Chase, Md.

1924

Col. Frederick C. T. JOHN is with the 32nd Division Artillery Headquarters, Camp Livingston. . . . Capt. Kenneth L. MUIR, Corps of Engineers, is assistant to the constructing quartermaster at Camp Chaffee near Ft. Smith, with duties of Plant Protection, Safety and Sanitation Officer.

1925

Capt. Robert R. FISHER, formerly of Oregon, Wis., has been appointed assistant bomber commander for the Fourth Bomber Squadron at San Francisco, in addition to his duties as commanding officer of the 410th Signal Aviation Corps. . . . Dr. James W. FERRIS, Army Air Corps, is in the office of the Surgeon, HQ, 3rd Intereceptor Command, Drew Field. . . . Burnetta KUEHLTHAU, West Bend, Wis., a nurse, says in a letter recently received from Corregidor in Manila Bay that "things were not too bad". Nurse

Kuehlthau fled from Manila just six days before the Japanese marched in. She also said, "If we have to stay too long, food may be a problem, but so far we have done very well." . . . Maj. Wm. H. MacDONALD, HQ 4th Bomber Command, San Francisco, Calif. . . . Douglas T. PREHN is at the USN Submarine Repair Unit No. 2, US Submarine Base, New London, Conn. . . . Capt. Vincent A. THIEMANN is on active duty in the office of the undersecretary of war.

1926

Maj. Max N. CIZON is in the Adjutant General's Office, 6th Corps Area Headquarters, Chicago. . . . Earl N. JACOBSON can be reached CSK, USNR, USS Kitty Hawk, c/o PM, San Francisco, Calif. . . . Lt. Col. Anselm M. KEEFE is with the 135th Medical Reg. at Camp Shelby. . . . Capt. Robert H. PADDOCK is an instructor at the Air Corps Advanced Training School at Kelly Field. . . . Lt. Col. William M. STOREY has been transferred from the 32nd Division to the 28th.

1927

Sgt. Fred H. STEMM, who was a Haresfoot star in school, is now stationed with the Medical Detachment, Ft. Sheridan, Ill. . . . Maj. Franklyn W. Clarke is plans and training officer and assistant to the commandant of the University R.O.T.C.

1928

Master Sergeant John M. FOGELBERG is on duty with the 1st Chemical Co., Edgewood Arsenal, Md. . . . 1st Lt. Hugh F. MACKIN, 34th Bn. SCRTC. is at Camp Crowder, Mo.

1929

Francis X. "Bo" CUISINIER is chief petty officer at Norfolk Navy Yard. He has been assigned work under Gene Tunney in the conditioning program of the Navy. . . . Maj. Everett L. LOCHEN is with the 64th Coast Artillery, Medical Corps, in the Territory of Hawaii. . . . Capt. Lewis C. MAGNUSEN is with the Army Air Corps at San Antonio, Tex. . . . Lt. Comm. George A. PARKINSON,

If he is in the
Army - Navy - Air Corps

Send his correct service address
to the Alumni Association offices.
He will appreciate receiving the
ALUMNUS, the Badger Quarterly,
and the special Victory Letters.

We must have his correct address
to help him.

Send Us His Correct
"Service Address"

USS St. Augustine, c/o PM, New York. . . . Capt. Robert L. WAFFLE is assigned to the Station Hospital, Ft. Sheridan.

1930

L. Thomas ELLINGSOHN, Edgerton, is with the Medical Det., 18th C.A., at Ft. Stevens, Ore. . . . Dr. Archie H. TAX, Milwaukee, has been promoted to the rank of major. He is assigned to the medical detachment of the Sixth armored infantry regiment of the 1st armored div., Ft. Knox, Ky. . . . 1st Lt. Theodore D. TIEMANN, Madison, has assumed his duties in the signal corps at Ft. Monmouth, N. J.

1931

Capt. Walter H. BRUMMUND is on the staff of the commanding officer at Midland Army Flying School, Midland, Tex. . . . George R. CASEY, HQ Co. 4th Army, Presidio of San Francisco. . . . Capt. John I. H. EALES, Ft. Leavenworth, is with the 107th QM Command & General Staff School. . . . Lt. Elmer F. GAHNZ, Sig. Corp., 557 S.A.W. Bn., Ft. Lawton. . . . Capt. Melvin F. HUTH is in the Medical Corps, Camp Grant. . . . Capt. James H. MACKIN, HQ, 135th Med. Reg., Camp Shelby. . . . Lt. Bernard R. PORTER, Madison, a reserve officer, has been called to active duty and is at Camp Robinson. . . . Capt. Richard P. STAEFFLER is army inspector of Ordnance, Arkansas Ordnance Plant. . . . Capt. A. Allen SVERDLIN is in the Medical Corps, located in Milwaukee. . . . John A. JARVIS is an expert in industrial and vocational education in a new teacher training dept. at Ft. Knox, Ky.

1932

1st Lt. Robert F. DAVIES and William H. VAN NATTA are both at Ft. Benning, with staff and faculty. . . . PFC Russell J. FOSSE, Pioneer Co., 602nd Tank Destroyer Bn., Ft. Sam Houston. . . . Dr. Paul P. GOODMAN is a Captain in the Medical corp. . . . 1st Lt. Chas. E. HINKSON, HQ 32nd Div., APO 32, Camp Livingston. . . . 1st Lt. Lawrence H.

Former boxing champion George Stupar is with the Ordnance Corps

KINGSBURY, Fitzsimons Hospital, Denver, Colo. . . . 2nd Lt. Robert E. KOMMERS, Base QM, Geiger Field, Wash. . . . Maj. Marc J. MUSSER is with the 135th Med. Reg., Camp Shelby. . . . Pfc. Robert J. RAYOME, Co. F. 19th Engrs., Los Angeles. . . . Lt. Theodore G. SCHIRMAYER is in command of a mine sweeper. US Naval Operating Base, Cuba. . . . Lt. Harrison F. THRAPP is in the USNR, Cuba. . . . Theodore RACHEFF is with the Merrimac Powder Plant. He is living at Reedsburg, Wis.

1933

1st Lt. Kenneth D. HANNAN, HQ & Serv. Co., 102 Medical Reg., Ft. Ord. . . . David O. KLAUSMEYER, USA Aeronautic Equipment, lives at 2400 Koa Ave., Honolulu, T. H. . . . 1st Lt. Charles A. PEERENBOOM, 54th Pursuit Group, Harding Field. . . . Capt. Donald C. SHARPE, Medical Corps, Ft. Leonard Wood. . . . Pvt. Freeman G. SPRINGER, 303rd Tech. School Sq., Flight A, Keesler Field. . . . Capt. Lester F. WEBER, 202nd Coast Artillery, Ft. Lewis, Wash. . . . Arnold DAMMEN, a 1st Lt. in the infantry, is at Camp Grant. . . . Ben. J. AXEL, Sheboygan, was promoted to Captain at Ft. Jackson, S. Car. . . . Merlin J. DEGUIRE, Racine, was promoted to major in the army ordnance dept. He was assigned to the staff of the chief of ordnance in Washington, D. C. . . . Lucian S. HANKS, Madison, is in the 126th Observation air squadron.

1934

Lt. John E. FERRIS is in the office of the Quartermaster, HQ Air Corps Basic Flying School, Randolph Field. . . . Capt. Lawrence N. GABERT, Co. G. 135th Med. Reg., Camp Shelby. . . . Capt. Allan S. HIRSCH is serving in the USA Field Artillery. Stationed at Ft. Sill. . . . Capt. Charles M. HUEY, HQ, 8th Corps Area, Ft. Sam Houston. . . . Kenneth J. JOHNSON, USA Air Corps, 566 Tech. School Squad, Flight B, Jefferson Barracks. . . . Pfc. Gerald C. KINDSCHI, Madison, is with HQ Co. 107, Ft. Devens. . . . Lt.

Howard F. KUEHL, Naval Air Station, Seattle. . . 1st Lt. Malcolm E. LEIN is with the US Engineer office, Mo. river division, at Kansas City. . . 1st Lt. John D. McCONAHAY, Milwaukee, is now on duty as Finance officer, WAFS, Waco. . . 1st Lt. Gordon V. NELSON, 135th Med. Reg., Camp Shelby. . . Capt. Carl H. NUESSE, Infantry School, Academic Dept., Ft. Benning. . . Joseph J. PEOT, University ROTC instructor, has been appointed Captain in the USA. . . 1st Lt. Melvin STEHR, Casual Center, Ft. Mason.

1935

Lt. Leroy C. ARNDT, 754th GHQ Tank Bn., c/o PM, San Francisco. . . 1st Lt. Edward A. BACHHUBER is in the Medical Corps, Station Hospital, Ft. Sill. . . 1st Lt. James J. BOGART, 494 Spring St., Atlanta, Ga. . . Alton L. CARDINAL, HQ Btry., 2nd Bn., 142 F. A., Camp Bowie, Tex. . . Dr. Theodore W. DASLER, Madison, has been assigned to the Pearl Harbor navy base. . . Lt. Calvin T. DOUDNA is in the US Navy. He can be reached at 1315 Sacramento St., Vallejo, Calif. . . Herman C. HAAS, Battery D-54 Training Bn., Camp Callan. . . Ensign Harris LaCHAPELLE, Green Bay, is an inspector of naval aircraft at Akron, O. . . 1st Lt. Wallace C. LIBERTY, 83rd Inf. Tng. Bn., Camp Roberts, Calif. . . 1st Lt. Marden S. PIERSON, 16th Training Bn., Camp Wheeler. . . Lt. Sverre ROANG, 85th Armored Ren. Bn., 5th Armored Div., Camp Cooke. . . Capt. Oscar G. MOLAND, 64th Med. Reg., Camp Bowie, Tex. . . William O. SCHILLING, Officers Training School, Ft. Benning. . . Capt. William R. WENDT,

First Marine Brig. Iceland, c/o NY Postmaster. . . Dr. John DOOLITTLE, Madison, is in active duty with the army medical corps at Atlanta, Ga.

1936

T/Sgt. Edmund B. BAILEY, HQ & HQ Battery, FARC, Camp Roberts. . . Lt. Charles T. BANKS, Base Signal Officer Army Air Base, Orlando. . . Capt. Hervey W. DIETRICH, 12th Cavalry, resides at 2021 Crescend Dr., El Paso, Tex. . . 1st Lt. John C. FENNO, 127th Inf., Camp Livingston, La. . . Lt. William HAIGHT, Madison, has been assigned to overseas service in Iceland. . . 2nd Lt. Irvin H. HARTMAN, QM School, Camp Lee, Va. . . Carroll O. HEFFERNAN, Sparta, is in the Coast Guard Service. . . J. Everett HENRY, city engineer for Wheeling, W. Va., was called to active duty with the zone construction quartermaster at Columbus, O. . . Lt. Charles J. SIMANDL is in active service in the 3rd Naval Dist. at NY. . . Captain Ronald E. HOBBS, 6th Inf. Training Reg., Camp Croft. . . Ensign Earl W. MELVILLE is with the USNR in Washington. . . 1st Lt. Lyle C. MOLSTAD, Corps of Engineers, Pittsburg, Kans. . . Lt. Charles E. RICHARDSON has been promoted to first lieutenant in the chemical warfare service at Edgewood Arsenal, Md. . . 1st Lt. RODERICK is Aircraft Warning Regional Signal Officer, with the 3rd Interceptor Command at Tampa, Fla. . . Lt. John L. SHIPMAN can be reached at 209 E. Laurel, San Antonio, Tex. . . Capt. Orrin SWENSON, Stoughton, flight surgeon with the Army air corps, is now at Cairo, Egypt. . . Lt. Ralph H. VOGEL, Madison, has been promoted to Captain. He has been on duty in the quartermaster general's office in Washington. . . Capt. Philip M. WILKINSON, 135th Med. Reg., Camp Shelby. . . SGT. Harlan ALTHEN was in luck when glamorous Madeleine Carroll visited Ft. Geo. G. Meade on the weekend of March 20; he was ordered to shadow her from dawn to darkness. He interviewed her for the camp paper, and at the Officers' dance (where he was the only enlisted man present) he managed to dance with her five times. Harlan is now in the Public Relations Office of the camp and has been approved for an officers' candidate school. . . Howard BARRY, USS Hobson, c/o Receiving Ship, Charleston, S. C. . . James J. CALDWELL, formerly instructor in the Mechanics Department at the University, is now a 1st Lt. in the Signal Corps, stationed at Fort Knox, Kentucky.

"Chuck" Fenske gets some good wishes from his former coach, Tom Jones

1937

Robert E. BANDOW, 27th Tech. School Sq., Jefferson Barracks, Mo. . . . Edward CROKER, Naval Aviation Reserve, Glenview. . . . Walter N. HUNT, US Marine Corps, San Diego. . . . Frank LOPP, HQ & HQ Sq., 73rd Observ. Grp., Goodman Field, Ft. Knox, Ky. . . . Corp. William NEIDNER, Co. B, 97th Inf., Ft. Lewis, Wash. . . . George SAVINSKE, US Naval Reserve Aviation Base, Glenview. . . . James E. STRAUS, Madison, is on Corregidor. . . . Grant W. VAUGHAN is at Sloan Field, Tex. . . . Theodore BAST, Madison, is stationed in the US Army at Ft. Slocum, N. Y.

Board Candidates Announced

IN ACCORDANCE with Section 2, Article IV of the Constitution of the Alumni Association, the Nominating committee is pleased to present the list of candidates selected for the ten positions on the Board of Directors which will become vacant this year.

At this time, the Nominating committee wishes to call the attention of the membership to the fact that in addition to the thirty directors-at-large, there are three directors selected annually by the members of the three alumni clubs having more than 400 members, and one director selected annually by the members of the Senior Class. These directors are selected by the groups involved and the Nominating

committee, quite properly, has no voice in their selection.

Ballots will be mailed to all paid-up members of the Association in a few weeks, and election results will be made public at the Association's annual meeting on Alumni Day, May 30.

Respectfully submitted,

ERNEST M. RICE, '08, *chairman*, LAWRENCE MADLAND, '35, CHARLES L. BYRON, '08, HELEN ZEPP, '27, JERRY DONOHUE, '07, HARRY ADAMS, '00, MRS. V. MELOCHE, '18, GUY SUNDT, '22.

For term ending, June 1945

(Ten to be elected)

GEORGE L. EKERN, '28, Lake Bluff, Ill.

Associate, Ekern, Meyers & Matthias; Past President, Chicago Alumni Club; Member, Chicago, Illinois, and American Bar Assns.; Life Member, Wisconsin Alumni Association; Life Member, The Wisconsin Union.

PHILIP H. FALK, '21, M. A. '28, Ph. D. '35, Madison Superintendent of Schools, Madison; Past President, Southern Wisconsin Teachers Assn.; Former chairman, Wisconsin Alumni Teachers; Member, Madison "W" Club; 2nd Vice-president, Wisconsin Alumni Assn.

MAX E. FRIEDMANN, '12, Milwaukee.

Pres. & Gen. Mgr., Ed. Schuster & Co., Inc.; Member, Board of Directors, National Retail Dry Goods Assn.; Secy.-Treas., Wis. Retail Dry Goods Assn.; Member, State Advisory Comm., Wis. Citizens' Military Training Camp Assn.; Trustee and Vice-pres., Citizens' Bureau of Milwaukee; Director, Milwaukee Association of Commerce; Exec. Comm., the United Community War Funds Comm. of Milwaukee; Trustee, Milwaukee Art Institute; Advisory Council, Milwaukee Alumni Club.

ALBERT J. GOEDJEN, '07, Green Bay.

Vice-pres. & Mgr., Wis. Public Service Corp.; Vice-pres. and Gen. Mgr., Menominee & Marinette Light and Traction Co.; President, Wisconsin Alumni Association; Past Pres., Wisconsin Utilities Assn.; Past Pres., Nicolet Area Council, Boy Scouts; Silver Beaver Award, Boy Scouts; President, Class of 1907.

DR. GUNNAR GUNDERSEN, '17, La Crosse.

M. D., College of Physicians and Surgeons, Columbia University, '20; Member, Gundersen Clinic, La Crosse; Former member, University Board of Regents; President, Wisconsin State Medical Society.

C. ABNER HENDEE, '13, Milwaukee.

Budget and construction program engineer, Wisconsin Telephone Co.; Past President, Milwaukee Alumni Club; Treasurer, Milwaukee Alumni Club; Member, American Legion; Member, Military Order of the World War.

CLAUDE S. HOLLOWAY, '05, Evanston, Ill.

Superintendent, Illinois Bell Telephone Co.; Past President, Chicago Alumni Club; Member, Board of Directors, Chicago Alumni Club.

FRANK O. HOLT, '07, Madison.

Dean, Extension Division, University of Wisconsin; Treasurer, Wisconsin Alumni Association; Chairman, Life Membership Fund; Chairman, Student Relations and Awards Committee; Chairman, University Committee on Public Relations; Chairman, University Committee on Cooperation with High Schools.

AL M. KESSENICH, '16, Minneapolis.

Life Insurance Underwriter; Varsity Football and Basketball; Member and Past President, Minneapolis

Alumni Club; Delta Upsilon.

R. T. JOHNSTONE, JR., '26, Detroit.

Manager, Life Insurance Co.; Marsh & McLennan; Past president, Detroit Alumni Club; Delta Kappa Epsilon.

MRS. RICHARD E. KRUG (LUCILLE RANSOM), '37, Milwaukee.

Member, Board of Directors, Milwaukee County League of Women Voters; Chairman, Program Committee, 1941 Milwaukee Citizenship Day Committee; Delta Delta Delta, Mortar Board, Phi Kappa Phi, Phi Beta Kappa.

LOWELL A. LEONARD, '17, Chicago.

Law Department, Gunthrop Warren Ptg. Co.; Past president and present director, Chicago Alumni Club; Member, Union League Club of Chicago; former director, Wisconsin Alumni Association; John Marshall Law School, '22; 1st Lt., 40th Inf., World War I.

CAPT. FRANKLIN L. ORTH, '28, LL. B. '31, Camp Grant.

Captain, Infantry, Army of the United States; Attorney-at-Law, Orth & Orth; Associate, Sheridan Farwell & Morrison, Inc., Investment Counsel, Chicago; Past President, Milwaukee Alumni Club; Past Member, Board of Governors, Wis. Bar Assn.; Past Member, Board of Education, Whitefish Bay, Wis.; Past Chairman, National Defense Comm., Milwaukee County; Vice-president, Wisconsin Crew Corporation; "W" Club, Iron Cross.

HARLAN B. ROGERS, '09, Portage.

Attorney, Rogers & Rogers; "W" winner in baseball, football and basketball; Donor of Rogers Scholarship; Past President, Wisconsin State Bar Assn.; Beta Theta Pi, Iron Cross.

DR. RALPH SPROULE, '16, Milwaukee.

Physician; President, Wisconsin State Medical Society, 1941-42; Past director, Milwaukee Alumni Club; Past President, Milwaukee County Medical Society; Past President, Milwaukee Academy of Medicine; Member, staff of Milwaukee Hospital, Milwaukee Children's Hospital, Columbia Hospital, Johnston Emergency Hospital.

DR. H. M. STANG, '16, Eau Claire.

Physician and Surgeon; M. D., Harvard, 1919; Member, American College of Surgeons; Diplomate of American Board of Urology; Former member, Council of Wisconsin State Medical Society; Executive member, American Urological Society; Member, county, state and American Medical societies; Member, Midelfart Clinic, Eau Claire.

MRS. MARSHALL B. WOOD (MARGARET DALE), '28, Rockford, Ill.

Board member, Family Welfare Assn.; Member, Rockford Woman's Club; Alpha Kappa Delta; A. A. U. W.; Member, Rockford Alumni Club.

University

Sixteen Added to Who's Who List SIXTEEN University faculty members this year achieved mention in "Who's Who" for the first time, according to a list released by the editors of the publication for 1942-43. They are:

Prof. Homer Adkins, chemistry department.
Edward P. Alexander, superintendent, Wisconsin State Historical Society.

Prof. C. A. Elvehjem, biochemistry department.

Dr. Joseph W. Gale, professor of surgery.
Louise T. Greeley, dean of women.

Prof. Einar I. Haugen, Scandinavian department.

Prof. William B. Hesseltine, history department.

Dean Frank O. Holt of the extension division.

Prof. Rudolph Langer, mathematics department.

Dr. Frederic E. Mohs, instructor in surgery and associate in cancer research at McArdle Institute.

Prof. Ricardo B. Quintana, English department.

Prof. Hans H. Reese, neuropsychiatrist and Wisconsin Psychiatric Institute member.

Dr. E. L. Sevringhaus, professor of medicine and consultant in clinical chemistry, Wisconsin Psychiatric Institute.

Prof. A. L. Tatum, pharmacology department.

Prof. Emil Truog, soils department.

Prof. Eliseo Vivas, philosophy department.

Activities Taxes Help Defense FROM October to January, student sponsored activities in the Wisconsin Union have turned in \$3,685 in taxes for Uncle Sam's war chest. Movies sponsored by the Union, Prom, 770 club, the Union concert series, and the Union Theater plays have yielded the taxes. In addition, in the month of January \$275 worth of defense savings stamps were sold.

Co-eds Learn First Aid DETERMINED to do their part in home defense, 465 University co-eds are learning standard Red Cross first aid methods in a special course set up under the direction of Dr. Helen D. Denniston, associate professor of physical education. Instruction is given in everyday terms, and the course is divided into 15 lessons of two hours each. Thorough instruction is given in the care of a person after a serious accident, and part of each class period is devoted to demonstration and practice in bandaging and stretcher work.

Entrance Needs Get Revision UNIVERSITY entrance requirements have been revised by faculty action to make the basic academic standards needed for admission into the University more flexible.

Working with a special committee of state secondary schoolmen, a faculty committee revised the requirements. A total of 16 units of high school studies is still required, but the number of units needed in mandatory studies has been lowered from ten to nine, making possible a wider selection of studies from which such units may be obtained by the high school student.

Under the new regulations, mathematics is required of students enrolling in technical courses, but they may enroll in other fields without mathematical preparation.

Students Plan War Memorial PLANS for a Student War Memorial to be established at the end of the war have been formed on the campus, and a committee has been set up to collect funds for the purpose.

Helen Baldwin, Madison junior, and Ray Hilsenhoff, student financial adviser, are in charge of collections. First major contribution will come from the 1942 Military Ball, according to chairman of the affair.

The funds collected will be used for some

Activities

educational project in international relations studies, the project to be selected when the war ends. At that time, according to plans now in effect, a student-faculty-alumni committee will direct disposition of the Memorial fund.

Navy Trains 1,200 Sailors on Campus AS NAVY blue colored the campus April 1, the University welcomed the first 300 of 1,200 United States Navy men who will train on the campus in a radio code and communications school established by the Navy and the University.

The program began April 1, and on the first of each following month until July, an additional 300 trainees will be enrolled in the the school. Men from the four naval training stations in the nation will be sent to the Badger campus for specialized work in radio code and communications.

Under the contract with the Navy, the University will furnish all teachers and space for teaching, plus offices and laboratories. The men will also be housed and fed by the University. The contract with the Navy runs for 15 months, ending June 30, 1943, but may be continued after that time.

The Navy will send officers to the campus to handle discipline and keep records of the students. Each student will be enrolled in the school for four months, with the University staff teaching theory, translation of codes, and operation of code machines and typewriters.

The first contingent of 300 trainees is housed in the short course dormitories. With the cooperation of state officials, it is hoped that dormitories under Camp Randall stadium will be ready for the second contingent of men arriving May 1, and the regents have voted \$75,000 for the completion of the rooms there. Men coming into the school June 1 and July 1 will be housed in Tripp and Adams halls along the lake shore in the men's dormitory section.

Prof. Helen White Wins Laetare Medal THE Laetare medal, highest annual award to a member of the Catholic laity in the United States, was awarded to Miss Helen C. White, Ph. D. '24, a member of the Department of English at the University. Miss White received the medal at special services at the University of Notre Dame last month.

In announcing the award, which has been made annually since 1883, Father Hugh O'Donnell, president of Notre Dame, commended Miss White both for her literary work and "the devout Catholic life which she has achieved and which she admirably exemplifies through her talented mind and heart." Miss White is the 13th woman to receive the award.

The purpose of the medal is to single out for reward and encouragement a life devoted to the things of the mind and the spirit. It derives its inspiration from the Golden Rose, awarded each year on Laetare Sunday (the fourth Sunday in Lent) by the Pope to a layman.

Among Miss White's books are "The Mysticism of William Blake", "English Devotional Literature", "A Watch in the Night", "Not Built with Hands", "The Metaphysical Poets", and "To the End of the World."

To Coordinate Lake Studies A COMMITTEE headed by Prof. Lowell E. Noland of the zoology department has been set up to develop a method of coordinating lake and stream research at the University with that done by the state conservation department and board of health. The committee would also bring into the picture the lake research done by Emeritus President E. A. Birge and Prof. Chancey Juday.

War Efforts Bring 45 Course Changes ESPECIALLY designed to help students participate immediately in phases of America's war effort, 45 new or modified

courses are being taught in the University this semester. Offered in five different colleges and departments of the University, the subjects include 22 special courses designed to meet specific war needs.

Translation of French diplomatic, military, and mechanical terms, elementary military German, aircraft power plant principles, first aid, life saving, and physical fitness are some of the new subjects being offered to aid undergraduates to prepare for war service.

The Colleges of Letters and Science, Agriculture, and Engineering, the Law School, and the departments of physical education for men and for women are presenting the new studies. In addition, courses offered before the declaration of war, such as navigation, surveying, mapping, iron and steel analysis, meat production, and livestock feeding, have been modified to fit new demands brought on by war.

Campus Calendar Shortened for '42 FROM three weeks to a month have been cut from University calendars for 1942-43 and 1943-44 by University faculty action early in February. The action was in line with a December action of the faculty cutting three weeks' time from the calendar of the present semester to release students earlier for national service or work on farms or in defense industries. Commencement day has been moved up from June 22 to June 1 this year.

Shortening the school year does not subtract from actual teaching and class work periods, but saves time by reducing the length of vacation periods and examination and registration periods.

Scientists Work to "Tag" Atoms MAKING substances radioactive by bombarding them with neutrons at terrific speed, University scientists for many months have been studying and experimenting with processes for production and application of "radioactive tracers" made in the electrostatic generator housed in the physics department laboratories.

In their experiments

thus far, the scientists have given radium-like qualities to cobalt, nickel, copper, phosphorus, and bromine. Once the elements are tagged by radioactivity, they are turned over to other men for research purposes. Because of their radioactivity the elements serve as "tracers" which can be followed through plants, animals or reactions. Thus far the radioactive substances have been used in experiments, in anatomy, biology, chemistry, physics, and cancer research laboratories.

The men who have been devoting outside-the-classroom time to producing the substances and applying them in experiments are Dr. J. L. McKibben and David Frisch of the physics department; Prof. N. F. Hall, Truman Kohman, Dr. Enoch Johnson, Dr. John E. Willard, Edward G. Bohlman, Leslie B. Seely, W. U. Day, and Almy D. Coggeshall of the chemistry department; Dr. Paul Neilson of the anatomy department; Prof. B. M. Duggar and Dr. Herbert Dutton of the biology department; and Dr. H. P. Rusch of the cancer research laboratory.

Kadushin Leaves Hillel Foundation RABBI MAX KADUSHIN, director of Hillel foundation and advisor to University Jewish students for the past eleven years, will leave Madison late in May to become principal of the Hebrew high school in New York City.

Rabbi Kadushin came to Madison from Chicago in 1931. In New York he will direct activities of the largest institution of its kind in the country. The school has 1,000 students and branches in all boroughs of New York.

Popular House Mother Dies MRS. MARGARET MAHONEY, who operated a rooming house near the campus for many years, died in her home in February. Born at Fox Lake, Miss Mahoney was a graduate of Milwaukee Downer college. She was a public school teacher for many years, and later worked in the capitol. In addition to operating the rooming house

Miss Helen White, winner of the 1942 Laetare medal

in the 500 block of N. Lake street for co-eds, Miss Mahoney built and managed an apartment building in the city. She was a well-known philanthropist and together with her sister she presented their former home on Lake Monona to the Norbertine Fathers for a novitiate to educate young men for the priesthood.

Summer Session COURSES adapted to needs of teachers and civilians in wartime will be offered by the University's 44th annual summer session beginning June 29, 1942, according to a preliminary announcement from Dean Scott H. Goodnight's office.

The military science department, which has never before offered summer courses, will present "Our Army" and "U. S. Signal Communications" as preparation for military or other defense service.

Preparation of teachers will still be the major function of the summer session. The general session for both undergraduates and graduates will open June 29 and continue for six weeks, ending August 7. Special courses for graduates, eight weeks in length, begin June 29 and end August 21. The Law school opens its new 14 week session June 1 and closes Sept. 5

Fowlkes Accepts Government Post JOHN GUY FOWLKES, of the University's School of Education, has been appointed a special assistant in the U. S. Office of Education. On leave from his position as Professor of Education, Dr. Fowlkes has already worked on many Office of Education projects. In his new position, Dr. Fowlkes will assist in forming and executing plans, policies, and programs designed to advance both defense and regular education activities. One major activity he will undertake is development of a long-range planning program for education. This will involve organization of an Office of Education planning committee.

War Credits to be Granted Students A "WAR CREDITS" system to aid Wisconsin students entering the armed forces complete work for their degrees is now in effect at the University after approval by the faculty in a special February meeting. The plan is similar to that put into effect 25 years ago

Lt. Dalton swears in the third unit of the Flying Badgers while Gov. Heil looks on

during World War I, and was recommended by the faculty administrative committee and given advance approval by the regents.

Briefly, under the system, for three months or more of service in the nation's armed forces as privates or non-commissioned officers, Wisconsin students will be entitled to 10 credits of electives and as commissioned officers to 15 elective credits towards their degrees. The plan also provides that the Civil Pilot training course given at present for the training of officers will be accepted as extension courses equal in credit to advanced ROTC courses given at the University.

Economic Journal Returns to Campus THE JOURNAL of Land and Public Utility Economics will again be published here at the University, where it was founded by Prof. Richard T. Ely in 1924. When Prof. Ely went to Northwestern he took the quarterly journal with him and it was published there.

Miss Mary Amend is the new managing editor of the publication. Editors are Prof. George Wehrwein on land economics, and Prof. Martin O. Glaeser on public utilities. Other editors are Prof. Don Lescohier, chairman of the department of economics, and Prof. Asher Hobson, chairman of the department of agricultural economics.

University Ranks 8th in Enrollment THE University of Wisconsin is the eighth largest in the country in enrollment and the fifth largest in the Big Ten, according to a statistical report compiled recently. The University of California on its Berkeley campus has the greatest number of students of

college grade, a record it has held for some years. Enrollment at California is 13,968. That of Wisconsin is 10,545. The first 10 schools in order of their enrollment are: California, Minnesota, Columbia, Illinois, Ohio State, New York University, Michigan, Wisconsin, Texas, and the University of Washington.

Navy Inducts Third Unit of Flying Badgers

AS TRAINING planes droned above the state capitol, Wisconsin's third Flying Badger naval squadron took the oath of induction into the United States Navy February 24 in Gov. Heil's reception room.

About 60 persons, including immediate families of the 25 Badger students taking the oath, gathered in the room to hear Gov. Heil and Lt. P. S. Dalton of the naval cadet selection board praise the squadron.

"The citizens of this region may well regard today's induction of the third Flying Badger squadron with particular pride, for today the University of Wisconsin becomes the first school in this recruiting area to send three full squadrons into the naval air force," Lt. Dalton declared.

The squadron included:

William J. Barr, Madison; William P. Brannon, Madison; Everett J. Coleman, New London; Robert F. Curtin, Wausau; Curtis W. Jensen, Arlington, S. D.; Peter P. Patterson, Gordon Samuelson, and Richard W. Summers, Madison; John P. Van Altena, Hauer, Wis.;

Wallace P. Barlow, Monticello; George F. Bowers, Robert W. Lachenmaier, Kenneth C. Mainzer, and Earl May, Milwaukee; Edward A. Crocker, Eagle River; Harry H. Harter, Marshfield; Robert L. Dudley, Wausau; Malcolm R. Loesch, Montrose, Colo.; George M. Leubke, Winneconne, Wis.; Franklin Moore, Robert M. Negen-dank, and George Savinske, Oshkosh; Wilfred J. Zelenski, Kenosha; and Eugene L. Andreae, Long Island, N. Y.

Other Badger units will be organized during the coming semesters.

Student-Faculty Group Studies War

AWARE of the need for mature interpretation of the war, the Student Defense council has scheduled a series of student-faculty wartime lectures to help determine campus attitude on major war issues.

Meetings will be divided into three parts, opening with a half hour lecture on some phase of the war by a professor. This will be followed by division of the audience into three rooms with each group directed by a faculty representative chosen by the lecturer and a student discussion leader. In these meetings questions arising during the lecture will be cleared up, and then the audience will again assemble for a short informal discussion.

First to Greet Freshman Class

IN THE last 18 years, Miss Belle Alexander has entered 34,000 students into the University of Wisconsin.

She is freshman admissions secretary on the Hill, and she is the only person in the University registration organization to come into contact, either personally or by record, with every freshman who enters the University. Since 1923 she has been doing the job which last year gave her 7,500 high school transcripts to examine.

The first registrar the University ever had was the late W. D. Hastings, for whom Miss Alexander worked from 1918 to 1922. One day he called her into his office.

"I'm going away for a little while," he said. "You'll have to do my work."

Mr. Hastings never came back. After his death Miss Alexander handled three freshman classes by herself until a new registrar was appointed. Then she continued to handle the new students, despite the fact that her official title through all those 23 years has been "secretary to the registrar."

Not all of the applicants enroll in the University, but their entrance qualifications must be thoroughly checked by Miss Alexander no matter the eventual decision.

John Guy Fowlkes takes over important education position in Washington

Assemblyman Gives School Socialized Medicine Library

A COLLECTION of books dealing with socialized medicine, one of the best in the country, has been turned over to the University by Wisconsin Assemblyman A. J. Biemiller of Milwaukee. The Assemblyman is an exponent of socialized medicine. He has given the University all his pamphlets, magazines and newspaper articles, and current laws on the subject.

Modern Icelandic Now in Curriculum

TO HELP furnish translators for possible service in Iceland, the Scandinavian department this term is offering a new course in Modern Icelandic. The 12 students enrolled in the course may be called to serve the U. S. government as official translators. Prof. Einar Haugen, head of the Scandinavian department, is teaching the course. A native Icelander, August Sveinbjornson, freshman chemistry student who arrived here last September, is helping the class with native vocabulary.

Mathews Teaches Anti-sabotage Training Course

TRAINING students for scientific detection of saboteurs, the University chemistry department is including anti-sabotage work in its course on criminal detection this semester. Prof. J. H. Mathews, an expert in crime detection, is in charge. Emphasis will be placed on methods for tracing sabotage and saboteurs. Lecture material includes bombs and explosives, truth-serum and lie-detector texts, and identification of guns, bullets and shells, and blood identification.

Robert Lampman Wins Frankenburger Prize

ROBERT J. LAMPMAN an L & S senior from Plover, Wis., won the annual Frankenburger Oratorical contest last month, with a speech presenting American youth's need for an ideal for which to fight. As a tangible reward for his oratory, Lampman was awarded \$100 in defense stamps by the Wisconsin Alumni Association. Dean Frank O. Holt, treasurer of the Association, made the presentation.

By virtue of his winning the Frankenburger contest, Lampman will represent the University in the Northern Oratorical League contest which will be held at Northwestern University on May 1.

Charles G. Arps, second place winner, will

Students are learning anti-sabotage measures from Prof. J. H. Mathews

represent the University in the Delta Sigma Rho contest later this month. Arps spoke on "Discovering Your Own America." Jack Murphy, third place winner, spoke on "Democracy Surrendered."

Geology Faculty Prepares Books

SEVERAL books are being prepared by members of the faculty of the Geology Department, including the work written by Dr. R. C. Emmons, Ph. D. '24, now being published by the Geological Society of America. Dr. Emmons' book on the Universal Stage embodies research in applied crystal optics which he has developed in the last several years.

Dr. Emmons and his assistants, Robert Gates, '41, and Edmund Clabaugh, are now making a complete study of feldspar, the most common mineral on earth, with the idea of using this as a clue in a further study of mineral deposits. The research is made possible by a grant from the Wisconsin Alumni Research Foundation and another grant from the Geological Society of America for a chemical analysis of materials thus far prepared.

The first book of its kind on mining geology is now being prepared by Dr. Hugh McKinstrey and will be published sometime this summer. The book is not intended as a text in economic geology, but is to cover the practical

Prof. Lloyd Noland heads committee for coordinating lake studies

methods of applying geology in mining. A general paleontological study involving the geology of western Texas is nearing completion by Dr. N. D. Newell and his assistants, Keith Young and Bernhard Kummel, '41. This book-size paper is to be part of a symposium to be published by the American Association of Petroleum Geologists.

A book on physical geology by Dr. Newell and Dr. W. H. Twenhofel, chairman of the department, will be ready for publication next winter. The book is intended for an elementary course in geology. Recently completed is a book on optical mineralogy by Dr. A. N. Winchell. Professors Stanley Tyler, '28, and Twenhofel are the authors of a book on *Methods of Study of Sediments*, recently published by McGraw-Hill Company.

Prof. Twenhofel on Geologist Program

DR. W. H. TWENHOFEL will attend the annual meetings of the American Association of Petroleum Geologists in Denver on April 22 to 24, and will present a paper on the "Rate of Deposition of Sediments: A major factor connected with alteration of sediments after deposition". Dr. Twenhofel is chairman of the research committee of the Society of Economic Paleontologists and Mineralogists and a member of the research committee of the American Association of Petroleum Geologists. Dr. Twenhofel will also appear on a symposium of speakers on the teaching of sedimentation.

Geology Museum Serves Many Ways OVER 300 schools in Wisconsin have been served this year with educational material from the University Geological Museum. Requests have been for mimeographed circulars, supplementing school texts, and for illustrated articles on geological subjects, such as fossil animals and trees, and rocks and minerals. Several hundred children have visited the museum during the winter.

New exhibits in the museum during the near future will be an American bison now being mounted at the Milwaukee Museum, and a volcano diorama, prepared by Fred Wilhelm, departmental staff artist. The volcano is an actual model and erupts for three minutes, illustrating lava flow. It is probably the only diorama of its kind in the country, although the museum on the island of Martinique does have a small reproduction of the volcano Stromboli in Italy.

Faculty Establishes Divisional Plan To Aid Teaching

A PLAN to establish a divisional organization of the University faculty, which would be set up in addition to the present college and departmental organization, was approved by the faculty recently. The faculty voted also that in 1945 the University committee shall make a report on the operation of the plan and shall make a recommendation on its continuance after that time.

A divisional organization of the faculty has been in effect in the Graduate school for 26 years, since 1916, and this extends it to the under-graduate level. The new divisional set-up does not replace the present college and departmental administrative organization of the University in any way, but it may act in an advisory capacity only. *

The divisional organization as approved by the faculty provides for the following four faculty divisions: The Division of Biological Sciences; the Division of Humanities; the Division of Physical Sciences; and the Division of Social Studies. All departments of the University will be represented in one of these divisions, with each division to have a chairman and executive committee.

Main purpose of extending the divisional set-up to the University's staff at the under-graduate level is to provide for greater correlation of the University's work in both teaching and science research among the various departments. Such correlation of work is now being carried out to a great extent among departments and divisions of the University, but

it is felt that further correlation and cooperation among departments will result from such a divisional set-up, as it already has in the Graduate School.

“Keep ’em Laughing” HARESFOOT’S 1942 ‘42 Haresfoot Show show, “Keep ’Em Laughin’”, which goes on its annual tour of the state, April 23, will lack none of the spice or the originality associated with a Haresfoot production.

Fred Doerflinger, president of Haresfoot, announces that this year’s costumes are the most elaborate of any Haresfoot show that has been put on since the twenties, when Haresfoot was nationally recognized for its colorful productions.

The Haresfoot show is being directed this year by Leo Kehl, president of the Dance Masters of America. He has been directing the Haresfoot dancing chorus for a decade, but this year is supervising the entire show. Music for the 1942 show is again being directed by Richard Toellner, who was widely acclaimed for his work with last year’s orchestra.

The Haresfoot Club will be celebrating 44 years of show history when this year’s production opens in Sheboygan. Green Bay, Chicago, Milwaukee, Rockford, and Madison are also included in the 1942 itinerary. A special performance for service men will be presented in one of the large theaters at Camp Grant, near Rockford, Illinois.

A TEXTBOOK presenting a systematic treatment of the fundamental processes involved in gaseous conduction and electronics, interpreting the underlying phenomena on which the properties of all types of gaseous conduction devices depend, has been published by Frederick W. Maxfield, of the United States Naval Ordnance laboratory, on leave from the University, and R. Ralph Benedict, assistant professor of electrical engineering here.

Prof. W. H. Twenhofel, to speak at Denver petroleum meet

Senior Competes in Radio Prize Debate

MELVIN W. ECKE, senior from Sheboygan, has been chosen to represent the University in the National Intercollegiate Radio Prize Debate, sponsored by the American Economic Foundation, on the question, “Does Youth Have a Fair Opportunity Under Our American System of Economic Enterprise?” Ecke is a member of the varsity debate squad, president of the University YMCA and of the Forensic Board.

Contestants from a large number of colleges and universities will file briefs on the question. Judges will award sixteen prizes of \$50 each: eight for affirmative briefs and eight for the negative. These sixteen contestants will compete in a series of radio debates culminating in a selection of four speakers to appear in a nationwide radio debate on May 10. A first prize of \$1,000 and a second prize of \$500 will be awarded to winners of first and second places in this event.

Take Part in Pan-American Discussion Plan

THE University will be represented by a delegation of eight student speakers in the National Extempore-Discussion Contest on Inter-American Affairs, sponsored by the Division of Inter-American Affairs of the United States Department of State. A faculty committee, consisting of Professors J. H. Herriott and John H. Engle-

kirk of the Department of Spanish, Earl S. Pomeroy of the Department of History, Leo Waibel of the Department of Geography, and H. L. Ewbank, Department of Speech, is selecting and training the Wisconsin speakers for the State Conference at Ripon College, March 14. Two winners from each of seven states will come to Madison for a conference on Pan-American Day, April 14. The best speaker from each of the seven districts will go to Washington for a nationwide broadcast on May 14 and will tour South America during the summer of 1942 as goodwill representatives of the De-

After 39 years of service, Prof. George C. Humphrey takes a rest

partment of State. The best speeches will be translated into Spanish and Portuguese for distribution among schools in the other Americas.

Walker Wins Geology Prize THOMAS WALKER, '40, was one of the winners in the third national student prize contest recently conducted by the American Institute of Mining and Metallurgical Engineers. Mr. Walker, whose paper was entitled "The Wisconsin Road Material Survey", is now doing graduate work in geology at Washington University, St. Louis, Mo.

Other graduate winner in the contest was David L. Ellis, for his paper on "Surface Protection of Steels by the Use of Cast Iron Borings". Mr. Ellis is now in Washington, where he is a lieutenant in the navy.

The Regents

Board Approves Book Publishing ACTING at their March meeting, the Board of Regents approved publication of "The Religious Availability of Whitehead's God," by Prof. S. L. Ely of the philosophy department, after withholding permission since December.

Persons who favored immediate publication of the book had charged that the board was "restricting academic freedom," and newspaper comment had been frequent. At the December board meeting it was suggested that publication be delayed, for fear of exciting a religious controversy by publishing the book.

The March decision recommended allowing Comptroller A. W. Peterson to sign all future business agreements for books which the faculty may approve.

TB Sanatorium Offered School MORNINGSIDE SANATORIUM, a \$100,000 plant near Madison, has been offered to the University, Pres. C. A. Dykstra told the regents at their March meeting. The offer includes transfer of all property, buildings, and equipment situated in the town of Blooming Grove. The property includes 25 acres of land and five cottages for housing about 55 patients. The sanatorium was built in 1918 by the Madison Anti-Tuberculosis association. Pres. Dykstra explained that the directors have offered the institution to the University in the belief that under the University's Medical school the sanatorium might be used for tuberculosis surgery and nursing home for TB patients.

Three Granted Honor Degrees THREE leaders in art, diplomacy, and education will receive honorary degrees at the University's 89th annual commencement in the Field House June 1, as a result of approval by the regents of faculty nominations in March. The recipients of degrees will be:

Miss Georgia O'Keeffe, New York, a native of Sun Prairie, Wis., who has become known as an artist and teacher of art. She will receive a degree of doctor of literature.

Dr. Hu Shih, Washington, D. C., ambassador from China to the United States, who will receive the degree of doctor of laws.

Prof. Edgar E. Robinson, '08, historian and teacher at Stanford University, Palo Alto, Cal., who will be presented with the honorary degree of doctor of laws. Prof. Robinson is a native of Oconomowoc, Wis.

Glover Given Walnut Gavel AT ONE of their recent meetings the regents indulged in a little "extra curricular" activity and when it was all over President A. J. Glover, Fort Atkinson, had a shiny new Wisconsin walnut gavel with which to enforce order.

Dean Chris L. Christensen, of the College of Agriculture, presented the gavel, which was carved and designed by Prof. Walter Row-

lands. On it is a silver plate with Glover's name and title.

"One of the essentials in a democracy is freedom of speech", Christensen explained, "And for speech in an orderly way, the chairman needs a gavel."

Board Asks for Additional Funds THE Board voted at its February session to ask the state emergency board for a \$7,800 additional appropriation for the University psychiatric institute. The extra funds are needed because of unexpected expense involved in making laboratory tests in connection with men drafted in Wisconsin under the selected service act.

President Dykstra told the board during the meeting that the OPM has refused the University priorities for the steel for a new antenna tower for radio station WHA, operated by the University. The same problem is holding up construction of the new short course dormitories. Both will probably have to wait until the end of the war.

Thirty resignations and 60 staff additions were approved in February by the board. The changes were mainly in departmental assistants. The board also approved plans for a \$33,000 addition to the Genetics building with a finance committee recommendation that "construction start when and if funds are available."

Gifts and grants totaling \$7,140 were accepted by the board at its February meeting. The bequests included \$3,000 from the estate of Katherine Allen, Madison, and \$2,000 from the estate of Elizabeth Boyd, Milwaukee. The Allen gift will be used for student loans, preferably graduate students. The Boyd bequest will be used for cancer research.

Reserve Funds Buy \$20,000 Defense Bonds THE regents have authorized transfer of \$20,000 reserve funds of the Wisconsin Alumni Research foundation to purchase United States Defense bonds.

The money comes from unused balances of WARF grants made last year and saved for some University scientists now off the campus. Interest from the bonds will be devoted to WARF purposes.

The regents also accepted \$13,020 in gifts, most of them for research.

BURR W. PHILLIPS, professor of social studies, was elected a director of the National Council for the Social Studies recently.

Potato growers look to Prof. Gus Rieman for improved crops

Agriculture by staff members

AGRICULTURAL alumni who took Agronomy I in the days when inimitable George B. Mortimer ran the "show" — he called it that — will remember many of his stories and wisecracks.

One of his standing jokes, though, now has been out of date for a decade. The farmer's hired man doesn't quit any more when there's barley to shock. Not since farmers throughout Wisconsin and many other states began growing Pedigree 38 barless barley, an easy-to-handle variety that out-yields competition. B. D. Leith, '11, developed it at the Wisconsin Agricultural Experiment Station.

And what are Wisconsin's agronomists doing now? Why, they're breeding a better barley, for one thing — barley that may out-mode Pedigree 38 by offering better malting quality, higher yields, and resistance to practically all the important diseases barley is heir to.

Badger plant breeders, you see, have something in common with fighting plane designers who begin work on a better model even before its predecessor gets into production! That's one reason Wisconsin farmers now lead in the

battle of food production, predicted to "win the war and write the peace."

Wisconsin crops men — agronomists, geneticists, plant pathologists and horticulturists — have changed its crops picture during the past 10 or 15 years, and will change it even more during the next decade. Let's first look into some of the developments that have come already, then peek around the corner at what's coming.

Latest crop marvel to come off the scientific assembly line is the phenomenal Vieland oats, developed by H. L. Shands and B. D. Leith from a cross originally made by the United States Department of Agriculture.

On 285 farms in 52 Wisconsin counties, Vieland averaged 69 bushels to the acre in 1941, compared with a measly 42 bushels for other varieties on the same farms!

Granary Smash-Hit FARMERS laid their money on the line for Vieland seed this year — did it so eagerly that by February 1 there wasn't another kernel to be had. By next year there should be enough Vieland seed to plant all of Wisconsin's oat acreage.

Hybrid corn — the crop with the tricky breeding, that made oldsters shake their heads a decade ago — is a smashing success. Practically all the crop now is hybrid in Wisconsin's better corn-growing areas, and for the state as a whole the percentage of hybrid corn runs above 75.

Wisconsin hybrids generally out-yield open-pollinated corn by 15 to 25 per cent. They resist diseases and lodging. Demand for them is so lively that one-third of the hybrid seed

produced in Wisconsin goes outside the state.

Grains, then, have had a pretty thorough overhauling. Of course Wisconsin has put out other improved, disease-resistant crop varieties, too — for example, canning peas by E. J. Delwiche, '06, cabbage by J. C. Walker, '14, and tobacco by James Johnson, '09.

Coming Events AND the next decade — what will it bring? Still better grains, yes — but the way things are shaping up, hay and pasture crops are about to steal the show for a while.

Before long Wisconsin will have alfalfa that's resistant to bacterial wilt disease and to cold — two alfalfa-killers that cost farmers millions of dollars a year. R. A. Brink is designing the new-model crop.

Non-bitter sweet clover is coming. In pasture it'll be more popular with cows, while in the form of hay or silage it won't poison livestock the way present varieties sometimes do. W. K. Smith is handling this job.

Henry Ahlgren has the problem of Sudan grass poisoning about licked. Some of his new strains are so low in prussic acid that they won't injure livestock under any conditions. To appreciate what a boon that will be, bear in mind that Sudan grass — the best of all emergency pasture crops — has been on the way out in recent years, simply because farmers are so worried about its treacherous way of killing livestock now and then.

Darkhorse Favorites WHEREAS outstandingly better alfalfa, sweet clover and Sudan grass are practical certainties, improved bluegrass and brome grass are still in the "iffy" stage. But some of the pet specimens Hank Ahlgren, '31, and D. C. Smith have out in the grass nursery are different enough from commercial strains to make a fellow's eyes pop, so it won't be surprising if they make something of them. Brome grass, by the way, right now is enjoying a bull market because it's drought-resistant and "teams" exceptionally well with alfalfa.

Hybrid sweet corn for Wisconsin's booming canning industry isn't in the clear yet. But New Zealander Norman Neal, field marshal in the campaign to produce hybrid field corn, is on the job. We're fairly safe in reasoning that "we did it before and we can do it again."

The College of Agriculture looks to Byron C. Jorns for its fancy art work

The Wisconsin potato industry — biggest cash-crop business in the state — is ailing because we have no varieties that combine scab resistance, good cooking quality and high yields under our conditions. Gus Rieman, M. S. '27, formerly top plant breeder for the world's largest vegetable seed company, has set out to right that condition. If you want to know what he's in for — well, the history of potato breeding shows that anyone who can produce an outstanding new variety in less than 15 years is a grade-A wizard.

No Overnight Phenomena Here

FIFTEEN years? Too bad — that figure may crush some romantic notions about agricultural research. Let me assure you that new crops and farming methods of Wisconsin caliber are *not* the result of armchair inspiration springing full-blown to the minds of college professors relaxing in contemplative meditation between classes.

On the contrary, better crops develop from years of laborious experimentation — of planting and harvesting, or weighing and measuring, cross-breeding, testing and selection.

One example: In the Sudan grass study, 6,000 samples of grass were tested for prussic acid in 1940 alone — and the project has been underway for nine years. It's not surprising that it took a lot of work to breed poison-free Sudan grass, since even scientists said it couldn't be done — but now Wisconsin has done it.

Because thorough-going research does require a great deal of faculty supervision, graduate assistant labor and various facilities and supplies, Wisconsin research workers commonly experience a sense of frustration at their inability to do all the work that cries to be done. That's particularly true in war-time, when trained assistants leave for military service and the costs of many items go skyrocketing.

Unfinished Business

LET'S cite in closing, just one tantalizing example. Bear in mind that many authorities believe

one of the greatest agricultural needs of the Middle West is a high-quality legume that will thrive without being babied so expensively as alfalfa must be. The South has such a legume in lespedeza. It looks as though New York may be finding one in bird's-foot trefoil, a native legume.

Not long ago Norman Fassett, of the Wisconsin botany department, published a scholarly work classifying some 80 legume species native to this state. They thrive in woods, along roads and streams, in many areas where the ground has never been plowed.

Among those 80 little-known legumes, are there some which — if their virtues only were known — would make bonanza farm crops capable of putting many a struggling Mid-Western farmer on his feet, or reviving many a decadent small town in the poor-soil districts? Some day, perhaps, science will furnish the answer.—By NIEMEN HOVELAND, '35.

U. W. Scientists Praise Cheese

FOOD in capsule form will never supplant cheese in the national diet.

That's what Walter V. Price and Catherine J. Personius, University food experts said in the February issue of *The Wisconsin Medical Journal*. "Great Britain can import only such foods as carry greatly concentrated protein energy and vitamins because every pound of food shipped across treacherous waters must be loaded with health and nourishment", said

The new experimental barn on the Hill Farm where the battle of "toughies" vs. "softies" is in progress

the authors in appraising the value of Wisconsin cheese in the winning of the war.

Wisconsin's leadership in the dairy field is emphasized in the article by the picture of the first dairy school at Madison, the first institution of its kind in America.

The interview of Professor Price and Miss Personius constitutes the second in a series of articles currently being published by *The Wisconsin Medical Journal* on the importance of the products of the Wisconsin farm in the national debt.

Humphrey Resigns After 39 Years GEORGE C. HUMPHREY, whose services to the dairymen of the state have covered nearly four decades and spanned the three administrations of the College of Agriculture, has asked to be relieved at the end of the present school year of his teaching, extension, and research responsibilities.

Humphrey was invited in 1903, by the late Dean William A. Henry, to join the animal husbandry staff of the University, succeeding W. L. Carlyle, since made manager of the western Canadian ranch owned by the former Prince of Wales. Throughout the administrations of Dean Henry, Dean H. L. Russell, and Dean Chris L. Christensen, Humphrey continued to serve the stockmen of the state.

In his work as a teacher it has often been claimed that Humphrey has influenced thousands of Wisconsin farm boys helping them to see more clearly the dignity and importance of livestock husbandry as a basis for permanent agriculture.

Associates Honor "Andy" Wright FOR 27 years, Professor "Andy" Wright, M. S. '15, has been serving the farmers of Wisconsin, working one time on the improvement of hemp, another on bettering sorghum, and still again on hybrid corn.

That's why hybrid seed producers from many sections of Wisconsin gathered in Madison recently to pay tribute to him and to recognize the 27 years of service which he has given to the University.

As a member of the agronomy department, Wright has been active many years in the field of plant breeding. He has perfected the plan of seed certification for use in Wisconsin and is credited with the development of the widely known Wisconsin bin dryer for seed corn.

Wright's seed certification plan has given Wisconsin hybrid corn an international reputation for quality, and is fast being adopted

by other states to protect the integrity of hybrid seed. He also was praised for his perfection of a seed corn grader now in use, and for his work with the hemp fiber industry in the state.

To Avoid Confusion, It's Niacin Now NICOTINIC acid has been renamed — just to avoid confusion. From now on it will be known as "niacin." Nicotinic acid is, of course, the vitamin which prevents pellagra — and the discovery of its ability to control pellagra was based on research work at the University, which revealed that it would cure black-tongue in dogs, a disease comparable to pellagra in humans. The vitamin was given its new name by a committee composed of C. A. Elvehjem, '23, of the University, and two other scientists.

The name "niacin" is being substituted for nicotinic acid on the recommendation of the food and nutrition board of the National Research Council — and is designed to avoid confusion between the terms "nicotinic acid" and "nicotine."

Quack Grass Fight Gets Helpful Aid FARMERS can be more certain that the brome grass seed they buy will not be contaminated with quack, since Alvin Schwendiman, Ph. D. '40, an agronomist at the University, carried out an investigation to determine how quack grass seed may be distinguished from some other kinds that look a great deal like it.

This problem was graying the hair of seed inspectors. On one hand, they have the responsibility of protecting farmers by condemning seed lots that contain quack. On the other, they have a responsibility to seedsmen — they must not condemn seed contaminated only with harmless wheat grass, whose seed looks like that of quack.

Swendiman has decided that probably the most reliable single character — though not 100 per cent certain — is the appearance of the rachilla. Under a magnifying glass the rachilla of quack seed appears to have parallel sides and its hairs are few, short, and stout; that of western wheat grass shows divergent sides and numerous stout, long hairs; and the rachilla of slender wheat grass is variable in size and shape, with many long, slender hairs.

Six Rural Leaders' Service Recognized SIX rural leaders — one woman and five men — were honored at this year's Farm and

Home Week at the College of Agriculture. They were: Mrs. George Alberts, Marathon county; Winfred Edward Bishop, Trempealeau county; Ira Ernest Inman, Rock county; Harry Orville Wells, Grant county; John David Jones, Jr., Racine county; and Howard Edward Babcock, Ithaca, New York.

Mrs. Alberts has been able to enlist, in the interest of community projects, the services of those about her; has realized the importance of everyday living of artistry, neighborliness, and productive practices; and has radiated a constructive influence in every group of which she is a part.

Mr. Wells has given executive skill and has had sympathetic understanding of the problems involved in the administration of state, regional, and federal programs for agriculture.

By the application of scientific principles Mr. Bishop has restored the lost fertility of a once run-down farm; has possessed pioneer qualities of courage and foresight, determination, and thoroughness; and has applied these zealously to the tasks of farming and the duties of rural living.

Mr. Inman has done much to improve and develop the Brown Swiss breed of dairy cattle, making it an efficient tool for the improvement of dairying and the betterment of rural living; has won the respect and admiration of stockmen throughout the world; and has employed inborn qualities of organization, direction, and leadership to advance farming and farm life.

As a farmer, executive, citizen, and statesman Mr. Jones has served Wisconsin farmers efficiently; has brought to public responsibility exceptional executive ability and unsurpassed leadership; and throughout his public service has seen clearly the needs of farming and while seeking to advance the industry, has at the same time, sought steadily to serve the interests of the public.

Mr. Babcock has made outstanding contributions to rural life through his leadership and service in cooperative distribution and

Feeding time in one of the College's many barns

marketing, in farm organizations, in agricultural education, in public service; and has repeatedly blazed trails for others to follow and then has had the unusual foresight to challenge his associates to carry on the established enterprise while he applied himself to new and unsolved problems.

For 34 years the University has been honoring men of the field and furrow, and women of the home and community who have been unselfishly seeking to improve farming and better homemaking. In all, 145 have been honored since this noteworthy custom was first started.

Grant to Aid Vitamin Study

NEW strains of obscure B vitamin factors whose importance in human nutrition is suspected following recent disclosure of their value in diets of animals, will now be expanded at the University. This added support to the University's program of nutrition research is made possible by a grant of \$2,200 from Swift and Company of Chicago.

Two newer members of the vitamin B group, biotin and an unnamed substance termed the norite eluate factor, from the process by which it is isolated, will be studied by E. B. Hart and C. A. Elvehjem of the biochemistry department. Both substances are found in liver, kidney, and yeast.

Hart is known as one of the deans of the modern school of biochemistry. World-wide honors have been accorded Elvehjem, one of his associates, for outstanding work in discovering that nicotinic acid, recently renamed niacin, is the specific for prevention or cure of pellagra.

Commerce

by F. H. Elwell, director

THE Fifth Conference on Banking under the joint auspices of the State Banking Department, the Wisconsin Bankers Association

and the School of Commerce is to be held on April 7th, in the Memorial Union. From four hundred to five hundred bankers from all over the state are expected to attend the meeting. The central theme of the Conference is to be "The Banker in the Present Emergency."

Historical Documents Needed for Library THE School of Commerce wants to begin the establishment of a library dealing with the early business units of Wisconsin. Such items as business papers, documents, books of records and accounts, minute books, etc., together with articles relating to the establishment and development of Wisconsin business units will be particularly welcome. They will be stored in a special section of the proposed Commerce departmental library. We will appreciate hearing from any alumnus who has such records or knows of them.

Commissions for Commerce Alumni COMMERCE alumni, between the ages of thirty-one and forty-five, who would be interested in receiving commissions in a certain Service are urged to write Coach Harry Stuhlreher at the Armory in Madison as to the nature of the work, requirements, etc.

New Significance to Commerce Banquet THE annual Commerce banquet, serving as a send-off for the Commerce seniors, will be held on Wednesday evening, April 8th, in the Memorial Union. Mr. Guy Sackett, vice-president of Mason and Hanger, architect engineers, and manager in charge of construction of the Badger Ordnance Works at Merrimac, will be the chief speaker. With

practically every man in the senior class going into Service, this year's senior banquet takes on added significance. For the first time in the history of the Commerce School a co-ed is going to act as toast-mistress. Miss Jean Salzman will officiate on this occasion.

The Office Mailbag Always Overflows THE Commerce Letter sent monthly to men in the Service continues to bring letters of appreciation from all parts of the world. Talk about the famous Commerce spirit — it seems to be alive and effective!

Letters continue to come in from alumni and business men supporting our proposal to have the School of Commerce established as a separate administrative unit of the University.

Engineering

THE Fifth Annual Foundry Conference of Wisconsin was held in Milwaukee, February 26 and 27. Prof. J. F. Oesterle of the Mining and Metallurgy department and H. S. Waldron of Milwaukee were co-chairmen. Dean F. Ellis Johnson gave the welcoming address. President C. A. Dykstra and Brigadier General Henry J. Reilly were the luncheon speakers.

The conference was divided into four sections: gray iron, malleable, steel, and non-ferrous so that each man could hear the latest developments in his particular field. Each of the four meetings of each section was begun by an informal talk on a certain foundry development and was followed by an open forum.

Carl Joseph, Metallurgist with General Motors, discussed the increased use of Armasteel in ordnance work. This material, which is pearlitic malleable iron, has replaced some forgings for certain machine gun parts because it is cast to closer dimensions, requires much less machining, and is easier to obtain. Before automobile production was halted, Armasteel was used in camshafts and rocker arms because of its excellent hardenability and was being successfully substituted for aluminum in the pistons.

Engineering Librarian Ernest Volk who has served the students for nearly thirty-two years

One of the outstanding contributions available to the steel foundry was the 1,000,000 volt portable x-ray machine. Its enormous penetrability speeds up inspection work by giving better radiographs with very short exposures. There has also been a pronounced substitution of steel castings for forgings. There were 800 steel castings in one large tank during the past year. Due to the war the steel foundries have undergone an enormous expansion and are swamped with ordnance work while the malleable and gray iron foundries have only a small portion of the military work.

Prof. "Jimmie" Watson, '02, is completing 38 years of service

from the laboratory, thus keeping the delicate microscopic equipment free from dust and grit.

The space left in the Chemical Engineering building has made it possible to build several laboratories for graduate research, an office, and a large recitation room.

News JAMES J. CADWELL, formerly instructor in the Mechanics Department and more recently stationed at the Forest Products Laboratory, is now a First Lieutenant in the Signal Corps, stationed at Fort Knox,

ASCE Convention Comes to Campus THE First Annual Regional Conference of the American Society of Civil Engineers will be held May 1 and 2 at the University. The schools coming here for the Conference include: Marquette University, Michigan School of Mines, Northwestern Institute of Technology, University of Minnesota, Illinois Institute of Technology, University of Illinois, Purdue University, and Rose Polytechnic Institute. On Friday afternoon, May 1, there will be a symposium on bomb-proof construction. This will be followed by a banquet and dance in the evening at the Union. Student papers will be read Saturday morning.

Chemical Engineering Expansion Announced DUE to a grant from the Wisconsin Alumni Research Foundation, the Chemical Engineering Department has been enabled to conduct some research under the direction of Professor Hougen. Space was not immediately available at the Chemical Engineering building, and for this reason the Metallography laboratory has been moved to the Mining and Metallurgy building. The space it now occupies was formerly the museum.

The new room in the Mining and Metallurgy building is of great improvement over the old. The laboratory will accommodate four more students each period. The grinding and polishing of samples is done in rooms separate

Kentucky. Prof. E. R. Maurer has been spending the last two months in California visiting relatives and friends and expects to return to Madison before the first of April. Prof. R. J. Roark attended the school for instruction on construction of bomb-proof shelters and similar structures which was held in New York University during the latter part of February; he reported this session to be a very intensive training period. Prof. M. O. Withey attended the Convention of the American Concrete Institute in Chicago during the week of February 17 and presided at the Research Session on the morning of February 9. At this session he presented a paper by Prof. K. F. Wendt and Dr. G. W. Washa on the properties of lightweight concrete. Carl B. Rowe, of the Class of 1941, was appointed instructor in Mechanics in February.

"Miners" Stage Informal Reunion AN INFORMAL reunion of mining and metallurgy graduates took place at the annual meeting of the American Society for Metals at Philadelphia late last fall. These informal gatherings are the result of the work of Prof. J. F. Oesterle, '13, who annually attends these conferences and who felt that Wisconsin alumni should have the opportunity of getting together during the convention.

Present at the 1941 gathering, in addition to Prof. Oesterle, were D. B. Oakley, '40, Bethlehem Steel Co.; Rolland H. Soll, '22, Emseo Derrick & Equipment Co., Los Angeles; Richard B. Kropf, M. S. '35, Copper-

weld Steel Co., Warren, Ohio; P. T. Stroup, Ph. D., '29, Aluminum Company of America, New Kensington, Pa.; H. L. Grange, '38, Research Laboratories Division, G. M. Corp., Detroit; R. A. Grange, '35, U. S. Steel Corp., Kearny, New Jersey; and Carl E. Swartz, M. S. '24, Ph. D. '26, Cleveland Graphite Bronze Company, Cleveland.

Extension Division

by Louis Bridgman, editor

THE accelerated sweep of the World War, which for some time had changed vitally the Wisconsin campus picture, found the Extension Division in the winter and spring months engaged in still newer function associated with the national effort, for which its facilities were especially adapted. Previous defense activities of major character centering in the Extension Division have included civilian pilot training and the organization and supervision of state classes in the government program of Engineering, Science, and Management Defense Training.

In February and March the federal government entrusted to this department these additional large-scale educational projects:

(1) Administration of instruction in the government program of naval radio code and communications, to be known as "Naval Training School (Radio) of the University of Wisconsin;"

(2) Administration of the Army Institute of Correspondence Work, to be established at the University in conjunction with the U. S. Army, for the educational needs of soldiers serving in army camps and expeditionary forces.

(3) Establishment on the campus in cooperation with the State Council of Defense, of a Key Information Center, to disseminate knowledge of state and federal services available to the civilian effort and to facilitate educational programs for its accomplishment.

Campus is Navy's for the Duration THE Navy project, of large magnitude, involves the housing, feeding, and instruction by the University of successive complements of men, of a total of 1,200 at one time, from four naval training stations. Under its contract with the government, covering 15 months ending July 30, 1943, the University has

placed at the service of the Navy abundant campus facilities — dormitory, refectory, classroom and laboratory, recreation — and the Extension Division has accepted the administration of the teaching program in close collaboration with officials from the Navy Department.

For the University, Dean F. O. Holt has assigned Prof. John Lester Miller, of the Social Science staff of the Extension Division, to be director of instruction for the naval training school. C. F. Oakley, of Milton College, has been appointed as supervisor of radio communications instruction. For the Navy, Lieut. Elmer H. Schubert, Great Lakes, is the officer-in-charge.

Administration of the entire project is to be centered in Winslow house, Adams hall, while the administration of instruction is established in the Extension building with Prof. Miller in charge. University officials have provided classroom facilities in the newly completed Stadium quarters, to be known as the Naval Radio building. Rooms in the Mechanical Engineering and other buildings also will be used. Barracks space temporarily will be utilized in the Short Course dormitory, and thereafter in the Naval Radio building and in Adams and Tripp halls, men's dormitories.

The first 300 enlistees were received April 2. Further quotas are due monthly until, in July and thereafter, a continuing enrollment of 1,200 service men in naval uniform will be occupying the capacious living quarters assigned to them and adding new zest to campus life.

Each student will spend four months in specialized communications training. The course of study embraces theory, translation of codes, operation of code machines and typewriters, and a thorough program of physical education provided by the University's department of physical education. Instruction began on April 6.

The Army Comes to the Campus AFTER careful scrutiny of the possibilities, nationally, the federal government in March selected the University of Wisconsin as the location for the Army Institute of Correspondence Work, only agency of the kind to be sponsored by the army, to provide educational training through correspondence courses for service men in camps and expeditionary forces.

In conjunction with the University Extension Division, the institute is designed to offer to thousands of soldiers from states other

than Wisconsin the means for special training, wherever stationed, calculated to equip them better for meeting the needs of the hour. (Wisconsin men in the armed forces already have been provided for under their state's subsidy offering University correspondence courses without cost.)

Students enrolling in the Army Institute will share the cost of courses with the Army on a 50-50 basis.

The University will provide the teaching staff and assistance in developing any needed training in the techniques of correspondence instruction, and will furnish office space. The Army will furnish the administrative and clerical staffs. Eventually, it is forecast, the Army will be in a position to develop a correspondence-study school of its own, built upon the foundations on which home-study courses of University standards have long met the special educational needs of hundreds of thousands in civil life.

Wisconsin's subsidy for her own service men continued to meet the warm approval of zealous service men at widely separated posts, some as remote as Alaska and Iceland. From June, 1941, to March 1, 1942, 655 service men from Wisconsin enrolled for extension courses paid for by the state. All Wisconsin counties except nine were represented by these students. Largest county enrollments were: Milwaukee, 198; Dane, 59; Racine, 26; Winnebago, 25; Rock, 21; Kenosha, 20.

U. W. is Hub of New Information Center

AT THE request of the United States Office of Education, the University has accepted responsibility for setting up a Key Information Center, in cooperation with the State Council of Defense, to serve as a clearing house of knowledge on the war effort. For the Extension Division, Dean Holt assigned Prof. L. H. Adolfson, lecturer in political science, long active in forum leadership throughout the state, as officer in charge.

Among the major objectives planned are the establishment on the campus of a war information library from which any citizens may obtain authoritative printed materials as well as useful ideas, suggestions for speakers, and other aids of which they may stand in local need. Other information outlets planned include the following:

Establishment of regional institutes to afford public discussion of needs in all areas;

Exhibits of a large variety of materials furnishing ideas for local adaptation;

Enlarged use of the loan package library service of the Extension Division for dispensing war information and suggestions for meeting local problems.

Consideration is being given to possible ways of serving the whole state effectively, and a complete program of procedure is included in the plans.

Defense Courses Enroll Thousands ANOTHER Extension-operated project of enlarging scope in the national defense program is the government's educational enterprise, Engineering, Science, and Management Defense Training, designed to train the largest possible number of persons in the shortest possible time for the nation's emergency needs. By the middle of March, 81 classes in technical and business branches, organized by the Extension Division, were in operation in 22

300 of the Navy Code School men will be housed in the new Stadium Dormitories after completion on May 1

The men who got the Navy code school under way: Lt. Schubert, Prof. J. L. Miller, Ensign Ross and Ensign Nelson

defense-industry centers in Wisconsin, and five others were considered certain of Washington approval. Altogether, 26 cities in 24 counties were represented in this series of defense classes, which enrolled 2,455 workers from 562 industries. Sixty-three instructors were employed.

Among the subjects taught are industrial safety engineering, fundamentals of radio, time and motion study, applied descriptive geometry for defense industries, Diesel engineering, engineering sketching, blueprint reading, machine shop methods for design departments, refrigeration, practical metallurgy, physical metallurgy, plant protection for defense industries, technical photography, psychology of industrial relationships, cost accounting, personnel management, and industrial accounting fundamentals. All are offered tuition-free.

Purpose of the course in safety engineering is to train key employes in a knowledge of plant practices to secure the maximum of war materials production, with especial attention to the prevention of industrial accidents and illness. Sixteen classes in 15 cities enrolled more than 350 workers.

The type and importance of the cooperating plants are indicated by: Fairbanks, Morse and Co., Beloit; Waukesha Motors, Waukesha; Manitowoc Shipbuilding Co., Manitowoc; Four Wheel Drive Co., Clintonville; Trane Co., La Crosse.

The radio program is designed to qualify a large number of men and women throughout the state to become radio technicians to meet pressing demands of the army, the navy, and the radio industry, particularly for the success of the war effort. Thirty classes organized in 19 cities enrolled 940 students.

All ESMDDT classes in the above category are

exclusive of courses of similar character offered at the Milwaukee Extension Center and at the College of Engineering at Madison.

The state-federal program in these fields has enjoyed the cooperation of many of the state's colleges, including Beloit, Lawrence, St. Norbert's, Milton, Eau Claire, La Crosse, Oshkosh and Stevens Point. Local facilities also have been offered by 15 vocational schools and three high schools.

For the Extension Division Prof. H. E. Pulver serves as educational supervisor for the courses in technical fields, and Prof. L. F. Brumm as supervisor for courses in the business field.

Pilot Output at New Figure

AGAIN the University devoted its resources to the national needs when, with the second semester, the Extension Division embarked upon a new pilot training program in the government's effort to recruit larger manpower for the air service. Fifty new trainees — all University students — were launched upon the initial phase of flight knowledge; 30 others, students in previous flight courses, began advanced training. These brought the University's flight enrollments since 1939 to 520. They are Wisconsin's contribution to the national program in connection with educational institutions which in three years has qualified 60,000 students to hold civilian pilot certificates.

Trainees must pledge to engage in pilot training activities as instructors or in army or navy service for the duration.

To the advantage of flight students the government and the University have made numerous rule changes. Age limits have been lowered from 19 to 18; the restriction limiting enrollment to single men has been lifted in cases where dependents of married men have means of support; and costs have been substantially reduced, with the government absorbing most of them. Meeting greatest student approval, doubtless, is the recent action of the University in granting academic credit for CPT courses. Three credits now are allowed for the elementary course and five for the secondary, with the allowance retroactive to benefit students who began training in 1939 and in succeeding programs.

In addition to the campus program, the Extension Division is exercising supervision of

similar courses in connection with the Milwaukee Extension Center and with the state teachers' colleges at La Crosse and Oshkosh.

Milwaukee Center

by Irene Bozak, ass't. recorder

EDWARD A. HOLST, who received his Ph. D. degree from the University in February, 1942, was recently appointed chairman of defense courses at the University of Wisconsin in Milwaukee.

Over three hundred applicants for the Intensive Radio Technician Training Course were interviewed by Mr. Holst. Four sections of the course, accommodating over one hundred applicants, were started in March. Walther Richter, consulting engineer, planned the radio course. Lecturers in the course are: A. E. Erikson, John K. Jacobson, Justin A. Deubel, and Raymond Suchy. In charge of the laboratory work are Charles Sturtzen and Eugene Limpel.

THEODORE W. BAUER, who has been with the Extension Division since he received his Ph. D. from the University in 1935, has taken over the duties of Assistant Coordinator of the C.P.T. program at the Milwaukee Center. Earl Bell who formerly held the position is now with the Forest Products Laboratory at Madison.

According to Mr. Bauer, plans are being made to greatly increase the C.P.T. program at the Milwaukee Center in line with the government's recent announcement of proposed expansion.

THE Social Committee at the Milwaukee Center is making plans for an informal dinner and social evening on May 23rd to honor Dr. Charles M. Purin who has been director of the University of Wisconsin in Milwaukee for the last fifteen years and who plans to retire from active academic service at the close of the present school year.

PROF. ARNE SKAUG of the University economics department, on request of the Norwegian government, is organizing the New York office and details of a sickness and disability insurance plan for the 25,000 sailors in the Norwegian navy.

Home Economics

by Miss Frances Zuill, director

A NUTRITION institute for home economics women in business was held in the Home Economics Building March 23 to 27. Home service advisers from all parts of the State were in attendance to learn about the national and state nutrition programs and the ways in which women in business can cooperate in the program. During the five day session these women were also given instruction in the various aspects of nutrition including a survey of nutrition principles, new methods of cookery to preserve vitamins and minerals, food demonstrations to show the preparations of products that should be used more commonly in the present emergency, evaluation of nutrition materials to be put into the hands of homemakers, and the like. Speakers included, beside members of the home economics and home economics extension staffs, Dr. Edgar Gordon from the Medical School, Mr. Robert Bray from the Animal Husbandry Department, and Mrs. Vera Elwood, Home Service Director for the Milwaukee Electric Power Company.

Regional Nutrition Conferences Planned **T**HE State Nutrition Committee will hold a series of six regional conferences in the State. These conferences will be patterned after the Refresher Course in Nutrition which was held on the campus in February. The purpose of the conferences is to stimulate interest in nutrition as an important factor in health of individuals and families, and to provide accurate up to date nutrition information that is needed in providing adequately for the everyday food needs. The cooperation of home economists who are engaged in homemaking or any professional phase of the work in the various parts of the State where these meetings will be held will be needed to make these conferences a success.

Home Economics Alumnae Doings **B**EULAH COON, '18, agent for Studies and Research in Home Economics Education of the United States Office of Education, spent the week of March 10 in the Home Economics Department conducting a series of conferences with the home economics faculty on curriculum problems.

HOME Economics graduates from the University are planning to gather for a dinner during the meeting of the American Home Economics Association in Boston, June 22 to 26. Miss Isabel McGovern, '31, is the local chairman for the dinner. Miss McGovern, who is connected with Lever Brothers, was a recent visitor on the University campus.

MRS. (ANTONE) MARJORIE HOVIE ANDERSON, '41, who was recently married, writes us that she has secured a position as menu clerk for the army at Ft. Lewis in Washington. Mrs. Anderson's husband, who is a corporal in the army, is also stationed in Ft. Lewis.

Journalism

THE annual Wisconsin Daily Newspaper League-School of Journalism conference was held at the Memorial Union March 22. The Display Advertising Managers association of Wisconsin and the Wisconsin Classified Managers association participated in the gathering.

Joseph Deglman, sales-promotion manager of the Boston Store, Milwaukee, was the featured speaker at the luncheon meeting and Robert L. Schless, classified advertising manager of the Chicago *Herald-American* was guest speaker at the evening program.

The classified and display advertising managers were welcomed at the luncheon by Prof. Grant M. Hyde of the School of Journalism. James E. Olson, president of Sigma Delta Chi, welcomed the students present.

Tex Reynolds, Racine *Journal Times* columnist, was toastmaster at the evening dinner meeting, and Sidney H. Bliss, president of Wisconsin Daily Newspaper League, was official welcomer.

Bronze plaques were awarded during the dinner for the best advertisements classified in seven groups. George Westrich, president of the Wisconsin

Classified Managers association, distributed awards for the best classified advertisements, and A. C. Nequette, Beloit *News* advertising manager, presented the display awards. Judges in the contest were: Ralph Timmons, of Ralph Timmons, Inc., Madison advertising agency; R. L. Kulzick of R. L. Kulzick, Inc., Madison, general advertising; and E. B. Petersen, instructor in the School of Commerce of the University.

Co-chairman of the conference were Prof. Frank Thayer and Dale D. Karstaedt, Racine *Journal-Times*, president of the Display Advertising Managers association.

Matrix Diners Hear of Far Eastern Problems

VANYA OAKES, Far Eastern correspondent who returned to the United States shortly before the Pearl Harbor disaster, was the Matrix Table speaker at the Memorial Union on March 17. In discussing "What Next in the Far East?", Miss Oakes had as her authority nine years' experience as a correspondent in that part of the world.

The 1942 Matrix banquet was the most successful of all in the 17-year series; 642 women were guests. Toastmistress was Mrs. M. R. Irwin, lecturer in nutrition at the University. The town response was given by Miss Mary Andersen, president of the local chapter of A.A.U.W., and Miss Betty Biart, president of W.S.G.A. represented the students.

Dean Louise Troxell Greeley was a special guest. Arrangements were in charge of Miss Charlotte Dahl, president of Theta Sigma Phi, national honorary journalism sorority sponsoring Matrix, and Prof. Helen M. Patterson, faculty and alumna adviser of the Beta chapter.

Labor relations, draft advice, teaching law keep Prof. Nate Feinsinger busy

WRITTEN in popular American idiom from manuscripts translated from Scandinavian of 500 and more years ago is a limited edition book, "Voyages to Vinland," prepared by Prof. Einar Haugen of the University Norse department. Only 350 copies were made.

Descendant of Mohammed Gridiron Dinner Speaker DR. SYUD HOSSAIN, British-Indian newspaper editor

and a descendant of Mohammed, was the main speaker at the 18th Annual Sigma Delta Chi Gridiron banquet at the Memorial Union on March 23. Other speakers were Dr. Edwin Moll, general secretary of the Board of Foreign Missions of the United Lutheran church, and Prof. Ben F. Rusy of the College of Agriculture. The Gridiron show, "The Return of Hella," was directed by Fred Doerflinger, president of Haresfoot, and included Warren Jollymore, Charles Hanson, James Demetral, Robert Kosak, and a number of the students. Music was furnished by the Radio Fireman's band.

Dr. Hossain was well qualified to describe inside impressions on the present South Pacific crisis, having been former editor of the Allahabd *Independent* and the Bombay *Daily Chronicle* in India for six years. He was born in Calcutta, India, and educated at Oxford, Cambridge, and Lincoln's Inn, London. At one time he wrote for the London *Daily Mail*. He is author of the book, "Gandhi: Saint and Statesman."

The executive Gridiron committee in charge of banquet arrangements consisted of: James E. Olson, Richland Center, president of Sigma Delta Chi; Don Anderson, publisher of the *Wisconsin State Journal*; and Prof. Frank Thayer, faculty adviser of Sigma Delta Chi.

Thirteen men, chosen for outstanding service to their communities or to Sigma Delta Chi, were honored at the banquet as members of the 1942 Honorary Gridiron club sponsored by the professional journalism fraternity. The men chosen were:

Don Anderson, publisher of the *Wisconsin State Journal*; William T. Evjue, editor of the *Capital Times*; Walter Frautsechi, vice-president of the Democrat Printing company; Lloyd K. Garrison, Dean of the Law School; Lieut. Col. George Griffiths, United States Army; Joseph Horner, Jr., business manager of the *Green Bay Press-Gazette*; Prof. Grant

Dean Lloyd K. Garrison continues his work as a referee of labor relations for the national labor board

M. Hyde, director of the School of Journalism; Clinton F. Karsteadt, co-publisher of the *Beloit Daily News*; Dr. Edwin Moll; Charles D. Owens, supervisor of the Memorial Union; Judge Roy H. Proctor of the superior court; Justice Marvin B. Rosenberry, chief justice of the Wisconsin Supreme court; and Joe Rothschild, Baron Brothers' department store.

Miss Mabel Bauer, secretary of the School of Journalism, was made honorary president of the Ladies' Auxiliary of Sigma Delta Chi in recognition of her services to the fraternity since the founding of the Gridiron club.

Seniors Get Practical Publishing Suggestions ELMER T. HOWSON, '06,

vice president of the Simmons-Boardman Publishing Corporation and western editor of *Railway Age*, was the guest of the School of Journalism on March 5 and 6. He spoke on "Specialized Publications" before Prof. Frank Thayer's class in Trade and Technical Journalism and was the guest of Sigma Delta Chi at an evening forum at the Memorial Union. Mr. Howson also spoke before Prof. R. R. Aurner's class in Problems in National Advertising. On Friday, March 6 he addressed the seniors in the College of Engineering.

Law School

by John Stedman, assoc. prof.

THE chief news in the Law School is, of course, the war. Directly or indirectly it has resulted in a number of readjustments. In an attempt to keep the Law School attuned to the changing legal problems, about five new courses or adaptations of old courses have been introduced into the curriculum.

Professor Page is giving a course on Military Law, assisted by Professor Rundell and Major Franklin Clarke. Professors Page and Feinsinger are giving a course on Government Wartime Contracts. Professor Brown is giving a course on Administrative Law as it relates to the war program. Professor Stedman, in conjunction with Professor Earley of the Economics Department, is conducting a seminar on the Emergency Price Control Act. In addition to these, a rather extensive collaborative joint economic and law course on Industrial Personnel Management is being conducted by three members of the law faculty, Professors Garrison, Feinsinger and Rice, and three members of the economic faculty, Professors Witte, Perlman, and Lescohier. This panel has been ably assisted by several factory personnel managers who have cooperated by lecturing to the students and discussing the problems they have met with.

The nurses dormitory

Summer Session Course Revised ALSO, to keep apace with the "stepping up" process characteristic of education generally, the Law School is undertaking a summer school of fourteen weeks, beginning on June 1, with an option to students to take seven weeks only. The longer summer session enables students to take a full semester's work in the summer instead of only a third of a year, as has previously been the case. The courses which will be given in summer school are as follows:

First Year:

Civil Procedure
Law in Society
Criminal Law
Property

Second and Third Year:

Business Organizations I
Federal Corporations
Municipal Corporations
Trusts
Trade Regulation in Wartime
Defense Laws and Their Administration
Constitutional Law
Domestic Relations
Future Interests
Servitudes

Faculty Serves in Defense Activities

SEVERAL members of the faculty are now engaged in either full time or part time defense activities for the federal government.

Professor Charles Bunn was appointed Special Assistant to the Secretary of State in Washington last fall and is specializing in Lend-Lease problems. He expects to be back with us next fall. Within the past month Professor J. H. Beuscher and Willard Hurst have entered government service. The former is with the rationing division of the Office of Price Administration, and the latter is with the legal department of the Board of Economic Warfare.

Dean Lloyd K. Garrison continues as referee of labor relations at the Allis-Chalmers Company and is also an Associate Member of the National War Labor Board. Professor Feinsinger is a mediator on the staff of the National War Labor Board, having previously served as a special agent of the earlier War Labor Board. His services in mediating the

labor relations of the Minneapolis Honeywell Company, begun under the old Board, are being continued under the present one. In addition he is now serving from time to time on mediation or arbitration panels of the Board. He is also managing to keep up with his courses in the Law School and with his administrative work for the University in handling draft problems of students and members of the faculty. Professor Rice has returned to the Law School from his work with the National Mediation Board in Washington, where he had been during the first semester.

Enrollment Drops, Post-war Problems LAW SCHOOL enrollment has continued to decrease as a result of the induction into the armed services of many of our students. The enrollment in September, 1941, was 284, a decrease of 103 over September, 1940. The enrollment in the second semester was 244.

Serious thought is being given to planning for the inevitable post-war problems which will confront all law schools. These involve especially the task of educating the law men who are physically mature but educationally immature and the task of adapting the law school curriculum to the changes which our war and post-war society will probably make in the lawyer's job. This calls for a re-examination and critical appraisal of our existing methods of teaching, subject matter, and emphases. Any thoughts or suggestions that anyone has along these lines will be gratefully received.

Burr Jones Room Dedication Held ON DECEMBER 16, a simple ceremony was held dedicating the Burr Jones Room in the new law library. The ceremony included a reception sponsored by the Law School Association, followed by a dedication ceremony of the Burr Jones Room and a discussion by John Steuart Curry of his partially completed mural typifying the Emancipation Proclamation. Those who attended, in addition to the Law School faculty, were various members of student organizations, Justices of the Supreme Court and their wives, the Clerk of the Supreme Court, Mrs. Burr Jones, her daughter, Mrs. Walter Smith, and her granddaughters, Miss Olive Smith and Mrs. Walter Ela. Mr. Walter Hammond of Kenosha, President of the State Bar Association, was invited to attend as a representative of that Association but was not able to be here. Dean Garrison gave the dedication speech.

Tennessee medic graduates heard Dr. W. J. Meek in December

Medical School

by Wm. S. Middleton, M. D., dean

AT ITS March meeting the Board of Regents appointed a committee to consider the significant offer of the Morningside Sanatorium from its board of directors, which numbers as its members Dr. W. D. Frost, Mrs. Catherine Head Coleman, Dr. Thomas W. Tormey, Mrs. Louis W. Claude, Laurence W. Hall.

This institution for the care of tuberculous patients is located on a slightly wooded tract of twenty-five acres, five miles southeast of Madison. Founded through the munificence of the late Dr. Charles H. Vilas, regent of the University from 1916 to 1920, its medical supervision was for many years under the late Dr. Louis R. Head, '82. After Dr. Head's death in 1933, Dr. W. D. Frost took the responsibility for the superintendency of the Sanatorium and has continued in this relation to the present time. Dr. W. H. Oatway, Jr., and Dr. Helen A. Dickie of the Medical School are now responsible for its medical supervision.

The physical facilities of the Morningside Sanatorium, coupled with its proximity to Madison, offer an excellent opportunity for coordinate effort between this institution and the Wisconsin General Hospital.

Construction Completed on Poliomyelitis Lab

THE construction of the new Poliomyelitis Laboratory near the Serum Laboratory on the Agricultural campus has been completed through the generous support granted by the Wisconsin Alumni Research Foundation. A grant-in-aid for a coordinate study of the influence of nutrition on poliomyelitis from The National Foundation for Infantile Paralysis, Inc. (\$62,500 over a five year period) would have been lost by default, had not the Wisconsin Alumni Research Foundation underwritten the construction of the Laboratory. For the first time, monkeys and other experimental animals for this study can be accommodated in adequate quarters. This research project under the supervision of Dr. P. F. Clark of the Department of Medical Bacteriology and Dr. C. A. Elvehjem of the Department of Biochemistry in Agriculture is being conducted by Dr. A. F. Rasmussen, Jr., and Dr. H. A. Waisman.

Medical Faculty News Notes

DR. W. J. MEEK, Assistant Dean of the Medical School, delivered the Commencement address to the graduating class of the University of Tennessee Medical School in December.

Dr. R. M. Waters gave the Mayo Foundation Lecture on "The Evolution of Anesthesia" at Rochester, Minnesota. A superb treatise on "Endotracheal Anaesthesia" by Dr. N. A. Gillespie has appeared from the University of Wisconsin Press.

School of Music

by Wayne Hugoboom, grad ass't.

A CONDENSED and shortened War Emergency Clinic for Wisconsin high school students was announced recently by Prof. Leon L. Iltis, director of the annual summer clinic for young state musicians. Because of the emergency, it was decided to eliminate the clinic entirely and the annual \$3500 appropriation was withheld. On advice of the State Department of Education and the conference of the School of Music faculty, it was agreed to hold a short clinic from June 15 to June 24 to continue the excellent work of the Clinic among high school students.

It was the consensus that the shortening of the time for the clinic might give the boys and girls attending a chance to combine some musical training at the University with activities in agricultural and industrial defense protection.

No outside staff will be employed this year and the faculty members have generously donated their services to the clinic, which will be held just prior to the beginning of the Summer Session. The All-State Band will be directed by Prof. Raymond F. Dvorak, the All-State Orchestra by Director Carl Bricken, and the All-State Chorus by Prof. Paul G. Jones. A drastic reduction of fees makes it possible for many more students to attend this

year's event, Mr. Iltis announces, with the tuition fee lowered to \$5.00 and \$17.00 for room and board for the ten days of concentrated study afforded by the Clinic.

High Praise for Sunday Programs

A SALUTE is in order to the Sunday Music Hour Series as one of the most comprehensive and best programs of the year. Their popularity and appeal has been manifested by full houses for most concerts and an overflow attendance of from two to four hundred on several occasions. The credit is due School of Music Director Carl Bricken, who has collaborated this year with the Wisconsin Union Music Committee, headed by Pierce

"Let's Draw" broadcasts prove that children can be taught to draw by radio instruction

Nelson, to present the series which is free to University students.

The Sunday series was opened by pianist Gunnar Johansen and has included two concerts by the famed Pro Arte Quartet, the University Band, the Symphony Orchestra, the University Chorus and the Choral Guild. Other features included Paul Leyssae, narrator, appearing with the orchestra in *Peter and the Wolf*; John Jacob Niles, tenor; Mildred Kaeser, dance recitalist; Orchesis, and the Music School faculty concerts.

The Orchestra and Professor Johansen appeared recently in a reading of the Tschaiakowsky Piano Concerto. On Sunday, March 15, Laurent Halleux, second violinist with the Pro Arte, presented a beautiful performance of the Beethoven D major Violin Concerto with the Orchestra. The latter also appeared in the Beethoven Second Symphony. The Pro Arte Quartet appeared the second time on the series March 22.

As a special Easter feature the University Orchestra and Chorus presented the Bach "St. Mathew Passion". Among soloists in the performance was David Machtel, '41, who is now studying in New York City.

On May 17, at the close of Spring Festival week, the Orchestra, under the able baton of Prof. Carl Bricken, will make their final appearance playing the Mendelsohn Scotch Symphony. Soloist will be Antonio Brosa, first violinist with the Pro Arte Quartet, who will play the Brahms Violin Concerto in D Major.

This year's program has presented more concerts than in the past few years and is as varied as former programs but, with more reliance on talent available from the School of Music and its resident artists, the presentation of a more closely related program was made possible. Our compliments to Mr. Bricken, the School of Music and the Union Music Committee for their splendid work.

Campus Audience Paid Compliment

IN A CONVERSATION during the recent appearance of the Minneapolis Symphony at

Prof. Philo Buck forgets his literature classes to conduct radio forums

the Union Theatre, the famed conductor, Dmitri Mitropoulos, told Director Carl Bricken that outside of Minneapolis, both he and his men felt that Madison was the most exciting and challenging audience to whom they had played. It is evident that the culture and appreciation of an intelligent audience can be felt by the performers themselves and such a compliment from the Minneapolis organization is encouraging. Mr. Mitropoulos was lavish in his praise of the artistic work being done here by the Pro Arte Quartet and Mr. Johansen and credited the

high standard of music here to the efforts of the School of Music.

Nursing

by Christina Murray, director

THE funds made available by the United States Public Health Service for scholarships have affected materially the registration in the Public Health Nursing Course this semester. Twenty-five graduate nurses are enrolled, five of whom will receive the degree of Bachelor of Science (Hygiene) in June.

The first three graduates of this course which was started in 1939 have been appointed to positions in Wisconsin by the State Board of Health. Miss Charlotte Freng, '41, and Miss Marjorie McGrath, '41, have been working as assistant public health nurses and carrying on a generalized program with emphasis on maternal and child health in Vernon and St. Croix counties. In January Miss Freng was appointed county nurse by the Vernon County Board to fill the vacancy created by the resignation of the county nurse. Mrs. Myrtle Midthun Cadwell, a graduate of the Madison General Hospital, completed the work for the degree of Bachelor of Science (Hygiene) with a major in public health nursing at the end of the first semester. She has

Jose Iturbi thrilled Union concert goes during April

been assigned to the area which will house the workers employed by the Badger Ordnance Plant at Merrimac, to take part in a general public health nursing program with emphasis on the control of communicable diseases.

Several other graduates of the School of Nursing have taken their public health work at other universities. Of these, three are employed by the State Board of Health, Miss Mary Miller and Miss Elva J. Waters as assistant public health nurses in Crawford and Dane counties and Miss Ethel Hunsader as county nurse in the Marathon Co. Health Unit.

Considerable interest has been shown by the inactive graduate nurses throughout the state in the Refresher Course which will be given at the Wisconsin General Hospital beginning April the sixth. Twenty-seven applications have been received for this course which will be of two months duration, one month of theory and ward practice in medical nursing and one month in surgical nursing. This course has been inaugurated to help meet the demand for trained nurses in the national emergency.

Radio . . . WHA

by Harold Engel, ass't. director

"THE boundaries of the state shall be the boundaries of the campus" is being exemplified by radio once more as three courses

are being broadcast by the University station directly from the class-rooms and shared with the many listeners who are eager for an opportunity to participate in stimulating classes "on the Hill".

Prof. Chester Easum's course in modern European history is on the air each Monday, Wednesday, and Friday morning at 11:00 o'clock. During these uncertain times it provides a better understanding of the backgrounds for the present world struggle.

"Ideologies As Weapons" by Prof. Howard Becker of the Sociology department, is broadcast on Tuesday and Thursday mornings at 11:00 o'clock. It takes up the story of the movements and forces at work on both sides in the war.

A new course instituted this semester is presented by the Political Science department under the supervision of Prof. John Gaus and is on the air on Tuesday and Thursday afternoons at 4:30 o'clock. Specialists in a number of fields act as guest lecturers to round out the course. Among those included are Prof. William Beard, J. H. Early, William Ebenstein, Asher Hobson, Walter Heller, F. A. Ogg, Llewellyn Pfankuchen, H. G. Skilling, Harold Stoke, Edwin Witte and President C. A. Dykstra.

Listener responses received by WHA indicate a real appreciation of the opportunity to attend these University classes by radio. Many who follow the broadcasts are Wisconsin graduates or former students who consider it a sort of "postgraduate" training, without the formality of examinations or formal credit.

Station Goes All-out in Defense Broadcasts WHA HAD its birth in 1917 in the stormy days of World I and is carrying on in the present crisis with a potent array of Defense-War-Victory programs. A survey for the month of March shows sixteen hours devoted to such features, or approximately one-fifth of the seventy-five hours weekly the station is on the air.

Among the WHA produced programs are "Civilians in Service" (Cooperation with Wisconsin Council of Defense), "How Can I Help?", "Heritage of Humanity", "Youth Faces War", "Meet Our American Allies", "Dear Folks", and "Story of America". Three special University courses are shared with Wisconsin citizens in broadcasts directly from the classroom: "Current European History", "Ideologies as Weapons", and "Government and War".

WHA is known as "the oldest station in the nation" by virtue of continuous operation by the University of the broadcasting station from the days of the first telephonic broadcasts in 1917 under the call 9XM, through the first World War when the station cooperated with the Navy Department. In that 1918 emergency most other wireless transmitters were ordered dismantled as a precautionary measure.

National Morale Aided by Weekly Broadcasts SOMETHING different in morale programs is "Heritage of Humanity", broadcast each week by WHA. It packs a strong "defense" punch while recalling and exploring the basic truths by which civilized men live and society carries on.

Included are such fundamentals as the dignity of man, the decency of work, belief in a higher power, the value of friendship, the love between man and woman, the value of home and family, the need for beauty and the need of challenge. The shows are highly entertaining and embody innovations in writing and production which make them unusual.

Romance Koopman, WHA staff writer, is author of the series which is produced by the WHA Players under the direction of Gerald Bartell.

Sunday Forums Prove Popular FORMER Wisconsin students are enjoying the University Forum broadcasts over WHA on Sunday afternoon for the opportunity it provides for them to hear again some of the professors they knew when they were on the campus. Among those already heard are John Hicks, Paul Knaplund and Philo M. Buck, Jr. The broadcast originates in the Rosewood Room of the Memorial Union with a small group of guests present to join in the discussion period following the talk. These programs are broadcast over the University station at 3:30 o'clock on Sunday afternoons with Walter Kay, '40, as master of ceremonies.

Station Now on Regular Sunday Hours Schedule WHA HAS expanded its broadcasting day to a schedule of 11½ hours on week-days and 6 hours on Sundays, or 75 hours per week during the month of March. As the days lengthen and sunset is later this may be increased to take in the desired early evening hours.

Among the Sunday programs are these:
Backgrounds of Today's Events (Fac-

- ulty commentary)
- Books I Like (Prof. Walter Agard, Greek)
- Varsity Out (Alumni program)
- Encore (Selected week-day program repeated)
- University Forum (authority as speaker, audience present)
- Wisconsin Industry at War (Dramatizations of industry's role today)

In addition WHA features good music such as University concerts and featured recorded work.

State Defense Industries Highlighted in Broadcasts "WISCONSIN Industry at War" was a stirring series of broadcasts over the University station which gave listeners a new understanding of the part which machines, workmen and factories are playing in the victory effort. The School of Commerce in cooperation with the Wisconsin Manufacturers Association and the State Chamber of Commerce arranged for these programs over WHA.

Starting February 1 the program each week spot-lighted one of the following: Gisholt Machine Company, Allis-Chalmers, Fairbanks-Morse, Kohler, Kearney and Trecker, and the Heil Company.

The broadcasts were written by Joyce Jaeger, WHA script editor, and produced by an all-student cast of WHA Players under the direction of Gerald Bartell.

Magazines Highlight "Let's Draw" Program COMPLIMENTARY to Wisconsin is the fact that two of the nation's leading art-education magazines the same month ran illustrated feature stories on the art broadcasts of the Wisconsin School of the Air over state stations WHA and WLBL. The January 1942 issues of *Design* and *School Arts* both give prominence to the "Let's Draw" programs planned by James A. Schwalbach, of Whitewater State Teachers College.

"Vitamin A(rt)" by Clifton Gayne of the University of Minnesota, in *Design* hails the program as bringing "inspiration and assistance to a yearly total of over thirty thousand school children", and reproduces several of the drawings by young listeners. "Let's Draw", in *School Arts*, is Mr. Schwalbach's own story of how the program evolved and is presented. It is illustrated by four student drawings.

The fact that art is being taught through the auditory sense, without the help of the visual, is considered a significant development

Sgt. Webb checks some of the student's targets while Capt. Peot, instructor, looks on

in the teaching technique. It makes the services of a trained art educator available to even the smallest of rural schools by radio.

Mr. Schwalbach started his radio work over station WHA while he was a graduate student and continued it "by remote control" during the years he taught in Milwaukee Washington High School. At Whitewater State Teachers College a part of his time is devoted to experimentation and evaluation in radio education.

The Theatre

by Mrs. Fannie T. Taylor

THREE student written, acted, and directed plays were given premiere performances in the Play Circle of the Wisconsin Union in February under the co-sponsorship of the Wisconsin Union theater committee and the Wisconsin Players.

The plays were written in Prof. Ronald E. Mitchell's playwriting class, and included "Tea is for Teacher" by Kirk Denmark, directed by Charles Paterson; "Last Harbor," written by Margo Baer and directed by Warren Rosenheim; and "Katie and the Monk" written by Margaret Snyder and directed by Neola Lee.

The annual one-act play contest, sponsored each spring by the Wisconsin Players, was recently announced by Nancy Partridge, president of the Wisconsin branch of the National Collegiate Players. The three best plays, selected from the entries will be produced in the Play Circle May 8 and 9. The best play will

be given a cash award of \$25. Plays will be judged by members of the speech and English departments, Prof. Mitchell, Samuel Rogers and Maurice Shudofsky.

Wisconsin Players THE Wis-
Close with Comedies consin Play-
ers' last two productions in the Union theater will be the musical show, "Knickerbocker Holiday," by Maxwell Anderson with music by Kurt Weill, and the Kaufman and Hart comedy, "George Washington Slept Here."

"Knickerbocker Holiday" will be staged April 8 through April 11, with the original New York settings, obtained last summer for the theater as permanent property. Set in little

old New York in the days of peg-legged Peter Stuyvesant, "Knickerbocker Holiday" is one of the most colorful of musical shows. J. Russell Lane is directing, assisted by Frederick A. Buerki and Richard Church, musical director.

Final Movie Time THE final
Bookings Announced Time
"e" bookings for the spring season in the Wisconsin Union Play Circle will include the following foreign and American films, according to Herbert Stone, chairman of the Music committee. They will run each Saturday, Sunday, and Monday from April 11 through June 1. "The Merry Wives of Windsor," "Pastor Hall," "The King," "The Hamilton Woman," "Schubert's Serenade," "It Happened One Night," "Kosciuszko," "The Lion has Wings."

Mitchell Wins PROF. RONALD E.
New Play Honor MITCHELL,
of the speech department, recently won his second top prize for a full-length play in nationwide competition. Judges in the Johns Hopkins university playshop contest gave Mitchell's "Set it in Troy" first prize among plays for the college theater.

The judges were Theodore Fuchs of Northwestern, Milton Smith of Columbia, and Bryllison Fagin of Johns Hopkins. Mitchell's "No Boots in Bed," which won the Stanford Play contest in 1940, was produced by Wisconsin Players last summer.

Music Hour Marks THE 150th Sun-
150th Free Program day Music hour
presented in the Wisconsin Union theater

March 15 marked the climax of 12 years of regular Sunday concerts offered free of charge by the Union Music committee to students on the campus. The University of Wisconsin Symphony orchestra, under the direction of Carl Bricken, were featured, with Laurent Halleux, violinist of the Pro Arte quartet as soloist.

The Sunday Music hours have been given weekly during the past winter under the chairmanship of Pierce Nelson of the Music committee. The School of Music has co-sponsored the programs this year.

The Wisconsin Union

by Porter Butts, director

WHILE student house committees in the Wisconsin Union have found many ways to make their activities of added significance in the campus war effort, the basic Union program goes forward almost unchanged on the premise that what was sound in the training of students and in the recreational well-being of the campus in peace time is even more valuable in time of war, according to the student directorate, Union planning board.

Special attention is being given to war time problems and needs. Among these are minimizing of the use of any supplies or materials needed in the war effort, which has led even to the omission of sugar cookies at the free coffee hours; a re-orientation of the forum committee to deal specifically with war aims and peace aims, and the provision of every possible form of recreation and social gathering within the building to make it unnecessary for students to use cars, gasoline and tires.

The Gallery committee has turned its former cash awards into defense bonds, the library committee has sponsored the "Books for Victory" campaign on the campus, and the Commons committee has been conducting a "Thought for Food" campaign to focus attention on good nutrition. Recently the students have been asked to show a defense stamp for admission to the Saturday afternoon "mat" dances.

Rooms in the Union have been given over to the Student War Council headquarters, to a typing-

instruction project, and to knitting and sewing projects. Kitchenettes are being used by students to make candy and cookies for men in camp.

Defense saving stamps have been sold over the main desk at a rate of \$100 a week. Recently the Union directorate invested \$500 of its reserve in defense saving bonds. By donating halls and services it aided the Red Cross benefit dance which raised \$300.

The Hoofers, Union outing club, has provided ski instructors for a new ROTC ski patrol on the campus. The Activities Bureau has taken the responsibility of interviewing student volunteers, registering them for service and assigning work projects.

Union Undertakes Canning Program

AS AN effort to combat rising food costs, the Wisconsin Union kitchen staff will undertake the canning of 8,000 half-gallon jars of fruits and vegetables, during the spring and summer seasons. Peaches, pears, cherries, apple sauce, tomatoes, catsup, chili sauce, grape juice, strawberry jam, peach preserves, and other items which have sky-rocketed in price and are becoming difficult to get because of army buying, will be canned.

Self-sealing glass jars, requiring no rubber rings, will be used. The program will conserve cans and rubber, releasing commercial products for the armed forces, and will hold down prices to students, it is said. It will also keep the kitchen staff employed throughout the summer months when the University is not operating, thus keeping the staff intact.

A camouflaged machine gun nest on the shores of Lake Mendota. Can you spot the four men in the crew?

Just Singing the Blues Away **I**NFORMAL community sings for students have recently been organized in the Union as an antidote for war blues. Sponsored by the student Music committee, these "Tuesday Sing Times," are held every Tuesday evening from 7 to 7:30 in the main lounge. Professors E. B. Gordon, Raymond F. Dvorak, and Paul Jones of the School of Music direct the group, and students are invited to drop in and out as they please.

Union Opened to Naval Trainees **A** GENERAL recreation program for the 1200 enlisted men being sent by the Navy to the campus for training in radio communications beginning April 1, will be provided by the Wisconsin Union, it has been announced. The trainees will be considered student members of the Union while they are in residence on the campus, and will be given all privileges that other University students enjoy.

Billiard Teams Top Competitors **T**HE Wisconsin Union billiard team topped all collegiate competitors in the national straight rail billiard tournament Feb. 13, winning both the team and individual championships.

The box score: Wisconsin, 279; Indiana, 247; Michigan, 237; Florida, 201; Buffalo, 140; Cornell, 123.

David Vig of Wisconsin was high individual scorer of the tournament with 71 points, followed by M. Hayes of Michigan with 63 and Wendell Aldrich of Indiana with 61.

Wisconsin's three-cushion billiard team placed third in the national intercollegiate tournament March 13, missing second place by one point.

The final team score: Buffalo, 100; Michigan, 87; Wisconsin, 86; Indiana, 64; Purdue, 59; Cornell, 58; Kansas, 57; Cincinnati, 52; Florida, 41; Minnesota, 40.

Robert Holmes and DeVern Vig of Wisconsin placed second and third among the high scoring individual players, with scores of 26 and 23 respectively.

Engineers span the Yahara with a pontoon bridge. Top to bottom: Floating the first "bay", half way across, the job is complete

Membership Total Passes 19,000 Mark

THE number of subscribers to the Memorial Union Building fund, organized in 1919 to build the University's war memorial, has now passed the 19,000 mark.

The figure was announced in the quarterly report made by Porter Butts, director of the fund-raising campaign since 1926, to the Memorial Union Building committee headed by F. H. Clausen of Horicon, former president of the board of regents.

In addition to the 19,172 subscribers to the fund, 2,311 students have become Union life members through the payment of Union fees, so that 21,483 people are either subscribers or life members of the Union — one out of every five who ever attended the university from the time of its founding 93 years ago until the present time.

A total of \$1,055,402 has been collected in cash during the history of the campaign and turned over to the regents to build and equip the Union, said to be the largest sum raised by popular subscription at any college for a union building.

New subscriptions to the fund are still coming in at the rate of \$100 to \$300 per month, largely from senior and graduate students.

Students to Learn Faculty Members

TAKING another step in its program to further student-faculty relations, the Union Council started recently to develop a "Faculty Portrait Collection" as a means of giving students and others a better chance to know key Wisconsin faculty members. The portraits will be in photograph form.

"So many times," Robert Lampman, Union president, said in announcing the plan, "students go through four years at the University and know few faculty members, even to recognize on the Hill, other than the instructors of their own classes. We hope that the display of these portraits in the Union, perhaps two or three at a time along with brief biographical notes, can be a contribution both to the personalization of the University's work and to the cultivation of pride in what our Wisconsin men and women are doing.

Included in the collection will be photographs of all

professors and associate professors who have served on the legal faculty for 15 years, together with the present deans and directors of schools and divisions. Additions to the collection will be made annually as more faculty men and women complete 15 years as members of the legal faculty. The "legal" faculty includes assistant professors and above.

R. O. T. C.

NOT so many years ago, most students referred to that massive, red brick building on Langdon street as the Gym, but today more and more students and townspeople are calling it by its rightful name, the Armory. Reason for this change is the increased importance of the University R.O.T.C. in the nation's war endeavors. The Corps today is the largest it has ever been. There are approximately 100 senior cadets now in training who are scheduled to receive their commissions in the Army and who will be ordered to active duty following commencement on June 1.

The Armory is a veritable bee-hive of activity. Classes are scheduled from 8 in the morning and activity continues far into the night. Avid cadets, realizing their good fortune, are availing themselves of the instruction offered and are fitting themselves to become leaders in both the Army and later civil life.

Recognizing the very broad scope of activity necessitated by total warfare, Col.

WISCONSIN'S GREAT BOXING TEAM

Top row: Coach Walsh, Makris, Miller, John, Stauffacher, Ellis, Edgar, Coach Woodward. Bottom row: Gibson, Crandall, Collentine, Capt. Rankin, Lutz, Jolleymore, Terris

The new backfield coach, Howard Odell, meets his high-scoring fullback, Pat Harder

Herbert H. Lewis, Inf., Professor of Military Science and Tactics, has worked out a plan together with Maj. Franklin W. Clarke, '28, Inf., Director of Training, whereby officer personnel of the department is aiding 12 other University departments in military courses adopted to war time needs. Other extra-curricular courses are being presented to non-R.O.T.C. students, co-eds, Madison male and female civilians, and members of the Madison police department. These courses are designed to further training in Civilian National Defense. Among these recently innovated courses are Army Public Relations, Military Map Interpreting, Military Law, Demolitions, Aerial Photography, Camouflage, Rifle Marksmanship, International Morse Code, and Radio Communications, Procedure, and Cryptography.

Spring Sunshine Stops Ski Patrol

THE far-famed Ski Patrol has brought to conclusion a most successful season. Starting from scratch and with no experienced or qualified skiers, the Wisconsin Hoofers, through their most generous efforts, have developed a training cadre within the patrol, which will make possible individual instruction next season. The patrol participated in maneuvers on the campus and made several trips to outlying areas where the terrain was more suited to combat problems.

Practice Winter and Summer Camouflage

THE camouflaging of six ten-acre plots in the University arboretum has begun through the joint efforts of Capt. John O. Neighbors, Corps of Engineers, and Pro-

fessors Varnum, Aust and Moulton. This project will include areas known as front lines, rear positions, artillery emplacements and a small air port complete with buildings, hangar, field, and approaches. Models and contour maps designed to scale are now in the making.

A thorough going problem of camouflaging was completed during the winter months when a machine gun squad donned white coveralls, draped their gun with white cloth and just about completely blended themselves with the snow-covered landscape along the lake shore. The effectiveness of this "white-out" can be seen in the accompanying picture.

Engineers Span the Yahara River

UNDER simulated battle conditions, denim-clad engineer cadets recently spanned the Yahara river with a sturdy pontoon bridge in less than half an hour in a practice maneuver. Making their initial crossing in a small row-boat to secure the guide cable, the students launched four "bays" across the stream. Each "H" shaped section was secured to the succeeding one. Rope hand-rails were fastened to the sides of the completed bridge and the entire structure thrown open to traffic. The problem was under the supervision of Lt. Peterson, Corps of Engineers.

Seniors Analyze Current Strategy

INCLUDED in the infantry training of senior cadets is the analyzing of war maps. General Operations Maps are posted daily by cadet officers, from information available as to the latest war developments on all fronts. From this data, the strategy employed in the tactics of warring armies is studied. Cadets, from time to time, are required to present a five-minute talk covering the current developments on all fronts. The gains and set-backs of the various nations are evaluated from a tactical and economic standpoint and presented to the class.

Fraternities Learn Rifle Marksmanship

SEVENTEEN fraternities have accepted training in rifle marksmanship, thus bringing into being, the University's newest intra-mural activity. The training is in charge of Capt. Joseph J. Peot, Signal Corps, officer in charge of the rifle range. Capt. Peot

is a former member of the University rifle and pistol teams. The new \$10,000 rifle range, located in the recently completed addition to the University stadium, is used for this instruction and for the running of the matches.

Large Enrollments in Code Classes

UNDER the direction of Lt. Franklyn A. Glassow, Signal Corps, instruction in Army Radio Communications is being given to non-R.O.T.C. students, co-eds, Madison male and female civilians and members of the Madison police force. A large code-room has been completed on the top floor of the Armory, where the running track used to be located. It is one of the largest in the country and is completely equipped with the latest designed radio equipment. All classes are completely filled and there is a sizable waiting list. The Four Lakes Amateur Radio club of Madison is assisting with the project.

Included in the course are three main subjects:

1. The International Morse Code used by radio-telegraph operators;
2. Army procedure for handling radio and telegraph messages;
3. Military cryptography, the art of writing and translating messages in codes.

Memorial Fund to Profit from Military Ball

OF GREATEST interest to the student body as a whole is the fact that the initial contribution to the new Student War Memorial Fund will be from the annual Military Ball, to be held in the Memorial Union on April 10. An added feature of this year's Ball will be the visit of a group of members of the Women's Royal Naval Service, WRENS, English girls stationed in Washington, D. C., who have accepted the Haresfoot club's invitation to the campus at that time.

Varsity Athletics

by Fred Baxter, sports ass't

ALL hail the champions! Year after year the Badger boxing team meets the best competition that they can find. Every season the Cardinal

mittmen continue to add to their great record even though every school on their schedule "guns" for Wisconsin.

This year the Badgers have added another laurel wreath to their already long list of major accomplishments. On March 26-28 the Wisconsin boxers invaded the Deep South and showed the southern gentlemen and the college boxing world at large just how the ring sport is conducted.

The John Walsh coached men took four out of eight titles in a foreign ring!

This job far surpasses the record set by any squad in the history of intercollegiate boxing. Yes, the 1939 Wisconsin team took one-half the titles available, but sceptics have always pointed to the fact that the 1939 NCAA meet was held in the Badgers' own home ring that year; and with the home folks to back them up, the Wisconsin men might have had some breaks in regard to decisions. But this year's crop of Cardinal men did it in Baton Rouge, La., to end all questions as to their position in college boxing.

The Wisconsin men winning national titles were:

Captain Gene Rankin who now ranks as one of the two men who have ever won three NCAA championships. The Badger leader first took the 135 pound blue ribbon in 1939 when he boxed his way through what was probably the most talented list of candidates who have ever entered one weight class at the same time. After staying out of competition for a year, Rankin won his second cup at State College, Pennsylvania, last season and gave a repeat performance this year.

Warren Jollymore climaxed three years of

Wisconsin's national champions: Capt. Rankin, Jollymore, Lutz, Makris

Crew Coach Allan Walz looks forward to the Adams Cup and the Poughkeepsie regattas

being close to the championship by finally taking the 145 pound title. Jollymore has always been one of the niftiest men ever to represent the Cardinal, but tough luck has dogged him in previous national tournaments. This year he not only came through to take the national title, but he also won the John S. LaRowe trophy for being the best competitor and sportsman in the meet.

Cliff Lutz took the 155 pounds title the hard way. Lutz and Jollymore have had a great battle for the last two years to see who would be the Wisconsin 145 pounder. Last year Lutz won the all-school tourney but illness forced him out of the dual meet season. This past February he was shaded by a hair's breath by Jollymore, but he still represented Wisconsin at 145 pounds in two of the first three fights. Then Coach Walsh tried the acid test.

The team had been weak in the 155 pound division all season and the Badger coach asked a lad who had never weighed a pound or two over 145 to move up a notch. This Lutz did without a kick. The net result — two straight dual match wins and a national championship. And don't forget that he gave away from seven to ten pounds every time out.

Another product of the Walsh system of coaching is George Makris who now owns the NCAA light heavyweight championship. Makris' chief claim to athletic fame before

this boxing season has been his work as a guard with Harry Stuhldreher's gridders. However, it has been well known around the Armory for some time that the Rhinelander Greek possessed a great competitive spirit and a love of tough going, so no one was surprised when he reported to the ring squad at the end of last fall's football campaign.

However, people were mildly surprised when he began to box in a talented perplexing fashion with his port sided stance. However, Makris refused to be surprised himself and swept through the dual meet season with only one defeat. Incidentally, he erased this loss when he defeated his only conqueror in the finals of the NCAA.

Owners of a consecutive dual meet win streak of thirteen, these Badgers are not one bit superstitious. They like to win their honors the hard way. Every time out they think that they can not be beat. And they have lived up to their thoughts all except four times since 1933.

Prior to their invasion of the NCAA tournament, the Badger boxers had pounded out four straight victories to run their current win streak to the amazing total of 14. Miami University of Florida and Penn State were defeated by identical scores, $7\frac{1}{2}$ — $1\frac{1}{2}$. Michigan State was shut out by an 8—0 score. The University of Virginia was defeated on its home ring by a margin of $4\frac{1}{2}$ — $3\frac{1}{2}$ and the strong Southwestern Louisiana Institute was sent back home on the short end of a 5—3 beating.

At the time of this writing, only Washington State remains on the schedule. If the Walshmen can conquer the westerners, they will have completed their seventh undefeated season. In nine full seasons of boxing, they have lost only four matches!

Of the present squad, only Capt. Gene Rankin, 135, and Warren Jollymore, 145, will be lost through graduation. Jollymore is joining the air corps at the end of this month.

That Man Kotz— Ace Record Smasher

WITH basketball historians and statisticians busily engaged in research and compilations, the latest reports of their research credit John Kotz, Wisconsin's one-hand push shot artist, with eight records as a result of his great scoring efforts of the cage season just completed.

The Rhinelander junior has definitely established his claim on the following new marks:

1. A new Big Ten scoring record for the season with 242 points in 15 games.

2. A new game average of 16.1 points. This surpasses the all-time average of 188 points established by Chuck Carney of Illinois in 1920 when one player was allowed to shoot all the free throws for his team. It also eclipses the modern mark of 184 points in 12 games established by Jewell Young of Purdue in 1938.

3. A new Big Ten record of 95 field goals in one season, an average of 6-1/3 baskets per game. Young scored 69 baskets in 1938 to hold the old record game average of 5 3/4 baskets per game.

4. A new field house record for points scored in a Western Conference contest with 31 points registered against Iowa in the final game. The old field house conference scoring record was 27 points established by Jim Hull of Ohio State.

5. A tie with George Glamack of North Carolina for the most points ever scored in an intercollegiate contest in the field house. Kotz also holds the high school scoring record in the field house with 28 points.

6. A new record for season's scoring by a Wisconsin player with 325 points in 21 games. Gene Englund held the old record established last season with 304 points in 23 games.

7. A new record for all-time Big Ten scoring by a Wisconsin player with 356 points in two seasons. He must score only 110 points next year to set a new conference record for three year scoring.

8. His 31 points stand as the best game individual scoring effort for the 1941-42 season.

For activities like those listed above Mr. Kotz made quite a dent in the nation's supply of precious metal. He made every all-conference team that was picked. Any of the Badgers' opponents of the season who elected an all-opponent team chose the Rhinelander flash at one of the forwards. *Pic Magazine* awarded him a watch for being listed on their all-American combination as the only unanimous choice in the nation. He made it two in a row for Wisconsin by being elected to receive the Most Valuable Player Award for Big

Ten basketeers. Gene Englund won the award last year.

John Kotz is a lad that every true Badger should be proud of. He is the kind of a boy that makes America what it is. He can not be beaten as a competitor, artist at his trade, friend, or gentleman.

However, basketball is still a five man game and there were several other men who had a lot to do with seeing that the Badgers lost only seven of the games on their tough 21 contest schedule. Such stalwarts as guards Fred Rehm, Ed Scheiwe, and Bob Alwin; centers Ray Patterson, Warren Schrage and Harlo Scott; and forwards Charley Epperson, Walter Lautenbach, and Bob Sullivan all contributed a great deal.

The Cardinal men lost their championship standing of last year to an up-and-coming sophomore Illinois combination. However, even the most biased Illini will admit that things might have been different if the Badgers had not lost their three opening Big Ten contests. From there on they dropped only two of the remaining conference games and at the end of the season they were the "hottest" combination in the Big Ten, knocking off Ohio State, Iowa, Minnesota, and dropping to two-point loss to Illinois.

Service Teams Boost Football to Ten Games

AT LAST the Badger follower's dream will be realized! Athletic director and head football coach Harry Stuhldreher announced the revised 1942 gridiron schedule for Wisconsin two weeks ago and the Cardinal gridiron warriors will make a total of ten public appearances.

The 1942 list of games is by far the toughest and most lengthy schedule that Wisconsin teams have ever undertaken and Stuhldreher's students are really headed for a season of hard work. In the ten contests not one breather makes its appearance. Every opponent will be a high powered well oiled football machine. There is not one Saturday that the Badgers can say, "We can let up on this one and prepare for next week."

Capt. Bill Williams holds the Big Ten pole vault championship

Marquette will be replaced as the traditional season's opener by Camp Grant on Sept. 19. Although the Rockford, Ill., camp is not as famous as some of the other camps for its athletic squads, the authorities have led the Badgers to believe that by the time next fall rolls around, there will be an extremely healthy and able group of soldiers to uphold the honors of their transient home.

Notre Dame was high on the list of the best teams of the nation in 1941. Frank Leahy led the Irish to an undefeated season for the first time since the death of the great Rockne. Many of the kingpins of that successful combination are still around South Bend and still ready to strut their stuff for the Ramblers.

This contest will be held on September 26 in Camp Randall, which is also the sight of the Camp Grant fracas.

The third straight home appearance will involve the entertaining of the Badgers' old rivals, Marquette. The Hilltoppers, under newly hired Coach Tom Stidham, came out to Madison last fall with an underdog combination, but before dusk had arrived that Saturday evening, the Milwaukee lads had walked off with a 28-7 win. The Cardinal men did not like this one bit and they will really be ready to go all out in their revenge achieving activities.

A newcomer to Camp Randall but famous throughout the gridiron world, Missouri is the next opponent listed. All they accomplished last fall was a trip to the Sugar Bowl and a ranking among the first ten teams in the nation. Coach Don Faurot will not be a particularly unhappy man at graduation exercises this spring as most of the Tigers who really carried the mail in 1941 will be back for further activity in '42. No, this Oct. 10 contest can hardly be classed as an easy one.

Harry Stuhldreher and his Badgers must be patriotic souls or they never would have done it. They took on the Oct. 17 job of battling the Great Lakes Naval Training Station eleven in Soldiers Field. Now, in their endeavors

**Champion Warren Jollymore won
NCAA boxing award**

to get the right sort of fellows to aid in the tough job of rubbing out the Japs, the Great Lakes recruiting officers have sort of been sold on the idea that maybe gridders were just the type of men they needed. Hence by next fall the station will be able to present a lineup that will come close to being completely All-American, or a reasonable facsimile thereof.

The Badgers will continue their traveling ways the following Saturday, Oct. 24, by journeying down into the Wabash country to encounter the always difficult Purdue trusties. Ranking high in the list of all-time great Wisconsin wins is the 14-13 job that they accomplished over the Boilermakers in 1940 on the last

play of the game. This still rankles in the chest of every loyal son of old Purdue and they think that next fall will be the right time for revenge. No letup here.

For years there has been a rumor floating around Big Ten circles that if some coach could ever get the mass of football ability available at Ohio State moving, woe be to the rest of the boys. A young fellow by the name of Paul Brown really got things in action last fall and with his system now firmly entrenched, the Buckeyes are going to continue to get tougher and tougher. They will be the other team on Camp Randall on Oct. 31.

The following Saturday the Badgers will take a train ride to Iowa City to battle the always difficult Hawkeyes whose Coach Eddie Anderson loves to beat his fellow Irish alumnus, Harry Stuhldreher. There are rumors that the genial dentist has again located a passer with the abilities of the great Nile Kinnick, so do not feel sorry for the Hawkeyes this fall. They will be able to take care of themselves.

In line with playing the easiest games toward the end of the season the Badgers' Nov. 14 opponent will be Northwestern at Dyche Stadium. The Wildcats and the Badgers for the past seven years have been playing ball games the likes of which are not seen on

common gridirons. Whenever these two combinations trod the same turf, caution sneaks out the rear entrance. Touchdowns are cheap, but thrills, while coming more often, compose some of the best memories of each season.

We may be at war, but there is one football game that will not be called off next fall if the Axis troupes are just the other side of Middleton. This is the Wisconsin-Minnesota classic which will be staged in Camp Randall on Nov. 21. Perennial powers of the Northland and kings of all they survey in most football games, the Gophers still have quite a right to expect more than their share of wins next season, despite the loss of ace fundamentalist, Coach Bernie Bierman. So they can take care of their hopes all right.

Yes, you are right, Mr. Alumnus, this is quite a load; but the Badgers have already gone to work on preparation for their Gargantuan task. The freshmen have been hard at work in the Stock Pavilion since early in February. On March 23 they were joined by all the upperclassmen not out for other sports as the workouts moved back to Camp Randall. Stuhldreher still possesses quite a few tools and raw materials to weld the 1942 edition into a going outfit. Graduation hit us very little. Whether or not Uncle Sam will be bossing a few of the Badgers who did so well last fall is another question, but the Badger coach does not feel he will have to be ashamed of what he will have to offer. Speedup of the times will require speedup of relaxation, if such is not a paradox. However, for relaxation of the exciting kind we recommend any one of the ten games on the 1942 Wisconsin football schedule.

Tracksters Win 3 Championships

WHILE their dual meet record was somewhat below par, marred by defeats at the hands of Marquette and Minnesota, Coach Tom Jones' trackmen saved their annual surprise performances for the Big Ten indoor meet in which they finished an unexpected fifth. They were paced in the conference meet endeavors by shot putter Bob Beierle, high jumper Gil Hertz, and pole vaulter Bill Williams, all of whom got at least a share of the blue ribbon.

Wrestlers Lose Only Two Meets

LIGHT heavyweight Captain John Roberts led the Badgers to their most successful wrestling season of recent years which saw the loss of only two dual meets. Coach George Martin has conceived the idea of staging his

wrestling shows immediately after basketball games, when it is possible; and the sport has grown in interest by leaps and bounds among Wisconsin students. Roberts crowned his seasons' accomplishments by taking the Big Ten title at his weight.

Coach Joe Steinauer's swimmers and Coach A. L. Masley's fencing teams had only mediocre seasons. The swimmers were able to achieve only one win in their conference dual meet season. The fencers split even in their six bout season. However, Captain Freeman Mann was one of the best saber men in Big Ten circles.

Spring Sports Outlook Good

THE spring sports season comes rolling in on us now with only a bit of curtailment due to war conditions. The shortening of the spring semester has caused some revision of schedules, but all the Wisconsin spring sports squads will still see a great deal of activity. Already out on Camp Randall are the trackmen and the baseball team. Joe Steinauer has his golfers practicing putting on every blade of green grass he can locate. Coach Carl Sangor sees improvement for his tennis squad, but the happiest of all the coaches with schedules coming up is crew coach Al Walz.

Walz has scheduled his Wisconsin oarsmen for an appearance in the Adams Cup Race in Boston on May 16. This marks the first time that the Badgers have ever been invited to compete in this race. Of course, they will be entered in the Poughkeepsie classic. Walz will use the members of his second place freshmen crew last year as a nucleus for this year's boat and he really believes that the Cardinal is set for big things on the sweeps.

1930 Cage Team Holds Reunion

THERE was an unexpected reunion of the 1930 basketball team in Chicago when Wisconsin trounced the Northwestern squad in the Chicago Coliseum on January 17. All members except Carl Matthusen showed up for the get-together.

Present were Maury Farber, Bob Poser, Johnny Paul, Ed Chmielewski, and Bud Foster. This was the first time since the team won the Conference championship in 1930 that the members of this great squad have gotten together.

Foster is, of course, coaching at Wisconsin. Ed Chmielewski, known to all as "Chimmy", is working in Chicago. John Paul is with the bank at Milton, Wis.; Bob Poser is a doctor in Columbus, Wis.; and Maury Farber is working in Chicago.

Calvin F. SCHWENKER has been re-elected president of the Union Trust co., Madison.

nineteen twelve

30th Anniversary Reunion May 30th

LOUIS A. HENKE, assistant director of the experimental station at the University of Hawaii where he has been for 25 years, has been working for the past two years at building up the Hawaiian agricultural system to the point where it would be self-sufficient in times such as these. Here are a few excerpts from a letter written home Dec. 21: "We have had two extremely busy weeks (since the Pearl Harbor attack). Every night a complete blackout — and these blackouts really are perfect. This is martial law and violators of regulations are quickly and severely punished. I am grateful for martial law these days. There can be no half-way measures. From 6 p. m. on, we are in complete darkness, groping our way around the house. We have now blackened out one bedroom where we can have light. For the most part we sit around the radio which has a blanket

thrown over it to keep even the little radio light from showing. There is absolutely no fear or hysteria here. Civilian gasoline is limited to 10 gallons a month. No social life, but we have had too much social life anyway." . . . Katharine LENROOT, chief of the federal children's bureau, spoke at a regional conference of state boards of health at Cincinnati in February. . . . Water Supt. Leon A. SMITH, Madison, has recovered from an emergency operation after being stricken ill suddenly at his office. . . . Prof. Grant M. HYDE, director of the School of Journalism, was named to the rolls of Sigma Delta Chi's 1942 Honorary Gridiron club for outstanding service to the University chapter of this professional journalism fraternity. . . . Philip H. PORTER, chief counsel for the state public service commission and a member of the commission staff for 20 years, has resigned his position to enter private legal practice in Madison with Atty. Claude J. JASPER, '28, a former colleague of his on the commission staff. . . . Col. Fred R. ZIMMERMAN is in charge of the tank and combat vehicle program for the Chicago ordnance district. . . . Victor FEIT was elected president of the St. Paul Wisconsin Alumni club for the coming year.

nineteen thirteen

department of endocrinology. . . . Paul R. ALFONSI, former Wisconsin assemblyman, will be a candidate for Congress in the 10th congressional district. . . . Katherine BRUSSE is doing Red Cross work in Montclair, N. J. . . . Boyd G. ANDERSON is with the Navy department as assistant engineer in structural design, Washington, D. C.

nineteen thirty-seven

Come back for '37's first reunion,
May 30th

PAUL HAWKINS walked into Kihwa, China, one January morning with one of the most exciting tales to come out of the war. Hawkins, a bank clerk in Shanghai when he learned that we were at war with the Japanese, made a journey of 200 airline miles from Shanghai, through Japanese-occupied China to Kihwa, alone, aided by Chinese peasants, villagers, and guerrillas with whom he carried on a dumb-show conversation since he knew very little Chinese. On many occasions he was within gun-shot of the Japs, but managed to escape uninjured. After a bath and clean clothes, he was ready to join the American army; he holds a second lieutenant's commission in the reserve. . . . Alex GABY is the author of "Pure and Simple", a short story appearing in a January issue of the SATURDAY EVENING POST. Gaby, since his graduation, has been a free-lance writer, reporter, dishwasher, cab driver, salesman, and theater usher. . . . Willard WATERMAN has the lead role of John Fairchild in "Stepmother" which is now on the road. . . . Phoebe F. HAYES is now a junior librarian in the U. S. Bureau of the Budget, Washington, D. C. . . . Grace FLEISCHAUER Fonstad and her husband, Clifford, are now located at Adams, Wis. . . . Roger ELMER has assumed the law practice of John GERMANN, Jr., '33, in Monroe, Wis. . . . Robert L. GREENHALGH is assistant district attorney of Sauk county, Wis., with private practice in Baraboo, Wis. . . . Ruth MORTER has an exhibit of her water colors and oil paintings on display at her Milwaukee home. . . . John BRICKHOUSE has opened a law office in Sun Prairie and will move there, commuting to Madison to retain his connection with the firm of Field & Rikkers here. . . . Don H. KUTCHERA began work Feb. 1 with Allis Chalmers Co., Milwaukee, as design engineer on a special project. . . . Edward G. BRUNS is principal inspector for the constructing quartermaster at Camp Shelby, Miss.

nineteen thirty-eight

ROBERT M. NEAL, "Bob" to his "J" school students, has left South Hall for the news editorship of the WISCONSIN STATE JOURNAL. He succeeds Hugo AUTZ, '34. . . .

La-Follette, '19. . . . Douglas E. SCHNEIBLE is junior hydraulic engineer with the hydraulics laboratory of the National Bureau of Standards in Washington, D. C. . . . Stanley HAUKEDAHL has a traffic officer's position with the Wis. state motor patrol. . . . Robert R. PAUNACK is an auditor with the U. S. Engineers in Trinidad, B. W. I. . . . Lewis L. SHEERAR is an engineer with the Wisconsin Valley Improvement Association at Wausau, Wis. . . . Atty. Walter COLE, Platteville, is a candidate for city attorney. . . . Arthur F. SPERLING has a position in the bridge department of the New York Central Railroad in the Chicago office as structural engineer. . . . Martin B. WENDT is at Sabine Pass, Tex., as construction engineer on a naval base.

nineteen thirty-nine

MARY BETTY TURNER has returned from what began as a leisurely vacation in the Hawaiian islands, but developed into a surprise session of blackouts and bombs. She said that on the morning of Dec. 8, when the attack began, people on the island thought it was just a little more intensive war practice, and kept right on swimming or eating or whatever they had been doing. Even when the radio announced it was a Japanese attack, they refused to take it seriously. On the way home, in a camouflaged ship, the passengers had to wear life preservers continually and sleep fully-clothed. . . . John W. JENKINS has been added to the staff of the Wis. State Historical society as assistant curator. He will be in charge of the monthly exhibitions. . . . Mrs. Robert E. STEARNS was elected president of the Theta Sigma Phi alumnae chapter in Madison. . . . Howie WEISS is one of the vice-presidents of the Milwaukee "W" club. . . . William KOMMERS is back in Madison, working as an engineer at the U. S. Forest Products laboratory, living with his parents, Prof. and Mrs. J. B. Kommers, 1930 Regent st. . . . Helen JULIAN Hawkins, wife of Paul HAWKINS, '37, whose escape from Jap-occupied China is chronicled in the '37 news, is living in Berkeley, Calif., doing Red Cross work, taking charge of Girl Scout troops, and working on Civilian Defense. . . . John REEDAL has been appointed to the field staff of the American Jersey Cattle club with headquarters in New York City. . . . Walter RENNEBOHM coached his Hillsboro high school team to the Juneau County League basketball championship. This is the first year of Rennebohm's coaching and the first time in history that Hillsboro took the championship. . . . Mahlon J. PLUMB is in the office of the New York Central Railroad in Chicago. . . . William H. TAMM is a junior engineer with

the U. S. Engineer office in Norfolk, Va. . . . Ted B. PRAWDZIK is living at 121 Adams st., Carquinez Heights, Vallejo, Calif. . . . Walter BIETILA leaped 179 feet to win the International Ski Jumping championship at Battle Creek, Mich., in February. . . . He is attending a three-months training course at Lewis institute, Chicago. . . . Vern W. TENNEY has left Lockheed Aircraft Corp. to serve as water waste inspector in some western corps area.

Milwaukee

AMONG the ever-growing number of alumni clubs devoting a large share of their efforts to the raising of scholarship or loan funds is the Milwaukee alumni club.

Prior to June, 1940, the Milwaukee club had made three loans of \$50, \$100 and \$35. Beginning with the school year 1940-41, the club's scholarship committee adopted a plan of offering \$25 a semester to juniors and seniors from Milwaukee county at the University and continuing to make emergency loans of other amounts under special circumstances. Since that time the committee has approved six loans of amounts varying from \$25 to \$100.

The Milwaukee club is conducting an intensive campaign to increase the funds available for this purpose. One of the means provided for alumni to make contributions is to include at least a dollar contribution to the fund along with their \$1 check for dues.

Wisconsin Rapids

PROF. W. H. TWENHOFEL, chairman of the geology department at the University, was the featured speaker at a joint meeting of the Wisconsin Rapids alumni club and the A. A. U. W. of that city on January 13. Prof. Twenhofel spoke about the geological history of the state of Wisconsin, sketching the developments from 500,000,000 years ago to the present. He was introduced by Richard Brazeau, '37, president of the alumni group.

DEFENSE BONDS BUY BOMBERS

BEFORE Pearl Harbor, four - engine bombers were just a phrase to most of us. Unless we lived near a bomber factory or an Army, Navy, or Marine Base, we probably never saw one.

But after Pearl Harbor, and the gallant defense of our other Western outposts, every American's blood tingled at the mention of the name. The big bomber had "come alive." Today, everyone pays these giants of the skyways the attention they deserve.

We need more four-engine bombers to protect those brave Americans who guard our Nation's outposts. We need more four-engine bombers to carry the fight to the invader's home shores.

We need those big bombers and we're going to get them. Right now, as you read this, these "big guns on wings" are coming off the line in ever-increasing quantities. They take lots of material — enough aluminum, for example, to produce 60,000 quart cooking pans. And they cost a lot of money — but how can money be better spent than to save our peace and security?

We, at home, must back up America's fighting men with fighting dollars. Every time we buy an \$18.75 Defense Bond or a 10-cent Defense Stamp we lend our Government the money to buy another vital part for a new four-engine bomber.

- 1934 Eleanor Allen, Trempealeau, to Kermit A. DEMERSE, Black Creek, on Mar. 11.
- 1934 Vivian E. ARCHIE, Waterloo, to Willis x '41 W. MATHEWS, Tillamook, Ore., on Feb. 20. At home at 1422 Mound St. Mr. Mathews is teaching zoology at the University while studying for his Ph. D.
- x '34 Lucile Gerl, to John N. REDDIN, both of Manitowoc, on Jan. 7.
- 1934 Vera McDOWELL, Montello, to Arthur H. Miller, on Dec. 26. At home at Huntly, Ill.
- 1934 Mary Bell LEACH, Milwaukee, to Dr. Stanley Fahlstrom, Chicago, on Feb. 14. At home at 73 Cedar St., Chicago.
- 1935 Josephine NEWMAN, Chicago, to George B. Krug, on Oct. 11.
- 1935 Margaret Littel, to John O. PHARO, both of Madison, on Nov. 29. At home at 1304 Regent St. Mr. Pharo is secretary-treasurer of the Pharo Heating Co.
- 1935 Dorothy Brown, Detroit, to Lewis J. STAIR, Jr., Brodhead, on Oct. 25. At home at 4836 Springle Ave., Detroit, where Mr. Stair is employed by the Ford Motor Co.
- 1935 Lillian VAN EDIG, Middleton, to Donald J. Harrington, Madison, on Nov. 8. At home in Madison.
- ex '35 Dorothy Parent, Menominee, to Norman G. PRONOLD, Spring Green, on Dec. 26. At home at 1833 Wisconsin St. Mr. Pronold is a commercial teacher at Marinette high school.
- 1935 Jean CHARTERS, Columbus, O., to Charles A. Graham, Chicago, on Dec. 27. At home in Chicago.

Wisconsin Medical Prexy

IN 1841, SEVEN years before Wisconsin became a state, a group of pioneer doctors banded together, formed the Wisconsin Medical society. This year the organization is celebrating its 100th anniversary.

At its helm during the past year has been Dr. Ralph P. Sproule, '16, Milwaukee. At 45, he was the youngest president the society had known, served it staunchly, energetically. A fearless defender of the profession's historic independence, he led Wisconsin medics in opposing political encroachment and state-controlled schemes of socialized medicine. And as a devoted advocate of daylight-saving time, he worked steadily for repeal of the Wisconsin law forbidding local time changes.

Before his term as state president, Doctor Sproule served as president of the Milwaukee County Medical society and as president of the Milwaukee Academy of Medicine is the only man to have held all three offices. He also has figured prominently in medical committees on insurance and was a member of the county society's board of directors.

A Milwaukee native, he returned to his home town in 1921, has practised there ever since. He is a member of the American Medical Association, the American College of Surgeons and numerous other professional groups. He is certified by the American Board of Otolaryngology and is a licentiate in the American Board of Rhinology.

- x '35 Harriet E. HAAS, Ripon, to Kenith Hull, Longmont, Colo., on Feb. 18. At home in Oroya, Peru, where Mr. Hull is chief chemist at the laboratories at Cerro de Pasca copper smelters.
- x '35 Jean GARLICK, Milwaukee, to James C. Bolton, Joliet, Ill., on Jan. 23. At home in Milwaukee.
- 1935 Helen Huhn, Milwaukee, to Sverre ROANG, Stoughton, on Jan. 10. Lt. Roang was inducted into the army in April, 1941.
- x '35 M. Virginia LANCASTER, Madison, to Robert D. Sullivan, Minneapolis, on Jan. 24. At home at 1180 Grand Ave., St. Paul, Minn.
- 1935 Helen Jaskzowiak, Bismarck, N. D., to Charles H. WING, on Jan. 4. Mr. Wing is employed in the department of the interior in Billings, Mont.
- 1935 Dolores Wolters, to Harold C. TRESTER, both of Milwaukee. Mr. Trester has a civil service post with the U. S. Engineering corps, at Macon, Ga.
- 1936 Elaine Raettig, to Burton E. HOFFMANN, both of Oshkosh, on Nov. 29. Mr. Hoffmann is district attorney of Marquette Co. At home in Montello.
- ex '36 Nancy Darrell, Baltimore, Md., to John P. BOWMAN, Madison, on Dec. 13. At home in Frederick, Md., where Lt. Bowman is stationed with the 104th Observation Squadron.
- 1936 Mary McCARTHY, to John J. ENSLEY, 1941 both of Superior, on Dec. 27. At home in Chippewa Falls.
- ex '36 Jane Edwards, Morganton, to Ray P.

BLEDSON, La Crosse, on Dec. 27. Mr. Bledson has a position in the engineering department of Sears & Roebuck, Kewanee.

- 1936 Charlotte LAMBOLEY, Waunakee, to S. Barry McGee, III, Grand Rapids, Mich., on Aug. 26. Mrs. McGee has been engaged in physio-therapy work with crippled children.
- 1936 Janet Blumer, Neenah, to Robert N. DeWILDE, on Feb. 7. At home at 917 Higgins Ave., Neenah, where both Mr. and Mrs. DeWilde are employed by the Kimberly-Clark corp.
- 1936 Charlotte HURD, formerly of Madison, to Harold C. Fullaway, E. Orange, N. J., on Dec. 26. Mrs. Fullaway is employed at the Greenwich Savings Bank, N. Y.
- x '36 Evelyn Neuman, Beaver Dam, to Joseph A. HARRINGTON, Madison, on Feb. 14. Mr. Harrington is employed by Madison Kipp corp.
- 1936 Aleen Kuhlman, Stillwater, Okla., to Daniel David NUSBAUM, Park Falls, on Feb. 15. Mr. Nusbaum is a member of the Dairy College faculty at the University.
- 1936 Mollie Klevens, Madison, to Herbert S. KUPPERMAN, Newark, N. J., on Feb. 10. Mr. Kupperman is a research assistant in zoology at the University.
- 1936 Naomi YOLTON, Madison, to Dr. Edwin Knight, Randall, Minn., on Jan. 1.
- x '36 Mary Anna THEOBALD, Oconomowoc, to Pedro Torres Calderon, Lima, on Jan. 6.
- 1937 Esther STOKSTAD, to Odvar HAUG, ex '38 both of Stoughton, on Nov. 6. Mrs. Haug has been vocal music director in the Tomah schools. Lt. Haug is stationed at Camp Custer, Mich.
- 1937 Elaine MINER, formerly of Madison, to Robert Smith, Grand Rapids, Mich., on Sept. 27. At home at 401 Michigan ave., Grand Rapids, Mich.
- 1937 Doris Saemann, Waldo, to Edward V. DAVEY, Sheboygan, on Nov. 28. At home at 640 Delaware Ave., Detroit, Mich., where Mr. Davey is associated with the Travelers Ins. Co.
- ex '37 Doris HILMERS, to Richard J. MUENZNER, both of Milwaukee, on Dec. 6. At home in Alexandria, La., where Dr. Muenzner is a 1st Lt. with the Medical Detachment at Camp Livingston.
- 1937 Marian Carey, Salinas, Calif., to John H. PATTISON, Madison, on Dec. 10. Mr. Pattison is in the Army, stationed at Ft. Ord, Calif.
- 1937 Romana RYAN, Appleton, to Edward A. BACHHUBER, Mayville, on Oct. 18. Lt. Bachhuber is with the medical corps, Ft. Sill, Okla.

Ferries Army Planes

A CURLY-HAIRED youngster, fresh out of the University, is one of the four women in the country who are ferrying planes from factories to undisclosed Army posts. She is Marcia Courtney, '40, first girl to win her license under the Civil Aeronautics Administration program at the University.

Marcia took her preliminary training like all other CAA students in a program directed by the Extension Division. She was taught her flying technique at the Municipal airport and soloed after 11 hours of instruction. She was one of two co-eds to take the advanced pilot training course at the University when such courses were open to women.

Her flying instructions crowded Marcia's time so when she was a student that she was unable to complete six elective credits needed for her degree. By the recent action of the faculty and regents, however, Marcia will receive credit for her flying hours and will be granted her regular degree.

- 1937 Geraldine Barr, Glen Haven, to Leo W. ROETHE, Fennimore, on Nov. 14. At home in Ft. Atkinson where Mr. Roethe is advertising representative of HOARD'S DAIRYMAN, national dairy magazine.
- 1937 Ruth Nee, Beloit, to John G. WADDELL, Evansville, on Oct. 25. Dr. Waddell is resident physician at St. Mary's hospital, Madison.
- 1937 Katherine House, Nashville, Tenn., to Lt. Wallace T. DREW, formerly of Rothschild, Wis., on Jan. 26. Lt. Drew is stationed at Ft. Leonard Wood, Mo., with the 30th Engineer Training Battalion.
- ex '37 Virginia Dwyer, Omaha, to James F. FLEMING, Baraboo, on Dec. 27. Mr. Fleming is an announcer with the Columbia Broadcasting Co. At home at 84 Rockledge Rd., Bronxville, N. Y.
- ex '37 Teresa Finn, Washington, D. C., to James D. MADDEN, Madison, on Dec. 25. Sgt. Madden is located at Pine Camp, N. Y.
- 1937 Kathryn SPIELMANN, Park Ridge, Ill., to Frederick L. Talcott, Des Plaines, on May 30, 1940.
- ex '37 Esther Johnson, Blanchardville, to Stewart D. LOCKE, Frankfort, Ind., on Dec. 27. Mr. Locke is employed in the laboratory of the Carnegie Steel Co. in Gary, Ind.
- 1937 Stella Campolo, Pittsburgh, to Maurice P. SCHULTE, Marshfield, on Dec. 27. Mr. Schulte is a member of the faculty of Duquesne University, Pittsburgh.
- 1937 Lois M. Ruud, to Leon E. EDMAN, both of Madison, on Jan. 17. At home in Alvin, Texas, where Mr. Edman is physiotherapy technician at the Station hospital at Camp Wallace.
- 1937 Joanne Wyman, Newtonville, Mass., to Joseph W. BROOKS, formerly of Milwaukee, on Feb. 6. At home at 24 Chauncey St., Cambridge, Mass.
- x '37 Rosemary DUDLEY, Madison, to William H. Clark, New York City, on Feb. 14. Mrs. Clark has her own interior decorating studio at 38 E. 57th St., New York. At home at 106 E. 56th St., New York City.
- 1937 Amy CHISHOLM, Madison, to Lt. x '36 Frederick A. VOIGT, Sheboygan, on Feb. 14. At home at 2029 Park Rd. NW, Washington, D. C. Lt. Voigt is with the war department in Washington.
- x '37 Lillian A. Ienatsch, Monroe, to Everett H. Huffman, on Jan. 7. Corp. Huffman is stationed at Camp Livingston.
- 1937 Alice HAYDEN, La Crosse, to Robert C. STOREY, Madison, on March 1. Lt. Storey is stationed at Camp Claiborne.
- 1937 Marion HUTCHINSON, Chicago, to Harold H. WARNER, Plymouth, on March 6. Lt. Warner is at Morrison Field.
- 1937 Margaret BIRCH, Milwaukee, to James 1932 M. JOHNSTON, on Jan. 31. Mr. Johnston is city editor of the Waukesha DAILY FREEMAN.
- x '37 Grace Gilbert, Palmyra, to Clarence W. ANDERSON, Whitewater, on Feb. 28.
- 1937 Kathryn Comach, Akron, O., to Robert C. BEARDSLEY, on Jan. 2. Mr. Beardsley is a resident surgeon at the Akron City hospital.
- x '37 Frances J. RUSH, Minneapolis, Minn., to George Barry, Verona, on Jan. 10. At home at 933 W. Johnson St.
- 1937 Mary Lamal, Ashland, to F. Willis PARROTT, Mason City, Ia., on Feb. 2. At home at 507 E. Main St., Ottawa, Ill.
- 1937 Irene Blum, Sauk City, to James F. WILDNER, Superior, on Feb. 1. At home in Madison.

U. S. Archivist

BY APPOINTMENT of President Roosevelt, Solon J. Buck, '04, became Archivist of the United States on September 18, 1941. In his new position Mr. Buck is responsible for the administration, not only of The National Archives, but also the recently established Franklin D. Roosevelt Library at Hyde Park. Prior to this appointment, Mr. Buck had served successively as Director of Publications and Director of Research and Publications of The National Archives.

The National Archives, which was established by Congress in 1934, now has custody of more than 340,000 cubic feet of records of the Federal government, including records of the Senate, all ten executive departments, five federal courts, and 62 other Federal agencies. It is operated by a staff of about 400 people. In recent months the staff has been extremely busy helping other agencies to make available space badly needed for war work by transferring noncurrent records to the National Archives Building or disposing of them as "useless papers".

A still more important phase of the work of the Archives staff is that of being a "memory of the government", by making available the records of past activities or providing information from them for government officials who need to draw upon the experience of their predecessors with defense and wartime problems.

Outside the National Archives but still within the Government, Mr. Buck serves as a member of the Committee on the Conservation of Cultural Resources, a branch of the National Resources Planning Board. His non-governmental activities include service as treasurer of the American Historical Association, vice-president of the Society of American Archivists, member of the Council of the Economic History Society, and member of the Committee of the Social Science Research Council on the Control of Social Data.

- 1937 Ruth E. Schulz, Milwaukee, to Henry A. VOGEL, La Crosse, on Feb. 28.
- 1937 Marion Rosenthal, Aurora, Ill., to Theodore WIEDENBECK, Aurora, on February 14. Mr. Wiedenbeck had been an instructor in the East Aurora high school until recently, when he joined the U. S. Naval Reserve and was detailed to Norfolk Navy yard for special training.
- 1938 Jean MATHEWS, to Charles C. WATSON, both of Madison, on Dec. 14. At home in Midland, Mich. Mr. Watson is employed by the Universal Oil Products Co. of Chicago.
- ex '38 Grayce Bilter, Appleton, to Harold C. STRUEBING, Brillion, on Nov. 29. At home at 2417 N. 33rd St., Milwaukee. Mr. Struebing is erection mechanic at the Rex Chain Belt Co.
- 1938 Joyce O'NEIL, Madison, to Glenn W. ex '38 KNUDTSON, De Forest, on Nov. 27.
- 1938 Nancy MacLeish, Santa Monica, Calif., to Paul J. REINSCH, formerly of Madison, on Oct. 4. Dr. Reinsch is interning at the California hospital in Los Angeles. At home at 1707 Morton Walk.
- 1938 Pearl Robbin, Los Angeles, to Clarence J. BECKER, Milwaukee, on Dec. 11. At home at 4455 N. Oakland Ave., Apt. 304. Mr. Becker is Secretary of the Wis. Wholesale Market, Inc.
- 1938 Marie TEITGEN, to M/Sgt. Lee L. Lambert, both of Milwaukee, on Dec. 27. At home at Alexandria, La.
- 1938 Arlene Peterson, Wisconsin Dells, to William A. ALLEN, Prairie du Chien, on Dec. 26. Mr. Allen is teaching in Wayne University, Detroit.
- 1938 Betty BOTZ, Berlin, to Harry M. FOS- x '44 BINDER, Fennimore, on Dec. 27. At home in Green Bay where Mr. Fosbinder is regional inspector for the Recreational-Works Administration.
- 1938 Grace KNILANS, Delavan, to John R. Krause, Two Rivers, on Dec. 27. At home at 1251 Rutledge St., Madison.
- 1938 LaVerne Wetzel, Sheboygan, to Arthur C. LARSEN, Racine, on Dec. 20. At home at 1213 N. 12th St., Sheboygan. Mr. Larsen is a teacher in the Sheboygan Vocational School.
- 1938 Jane Bundy, Roosevelt, Tex., to Wright F. HALLFRISCH, Milwaukee, on Dec. 6. Mr. Hallfrisch is stationed at San Antonio, Tex.
- 1938 Charlotte DANA, Clinton, Ia., to David S. Letts, Washington, D. C., on Dec. 29. At home at 2480 Sixteenth St., Washington, D. C., where Mr. Letts is an attorney.
- 1938 Isabel Hoffman, Lancaster, to Robert J. CONOHAN, Madison, on Jan. 7.
- x '38 Della Garfoot, Cross Plains, to Carlos L. BOWAR, on Feb. 14. Lt. Bowar is stationed at McChord Field.
- 1938 Dorothy GANT, Madison, to Eliseo VIVAS, on Jan. 31. Mr. Vivas is professor of philosophy at the University. At home at 1907 Keyes Ave.
- 1938 Aletha Jones, to Edward C. GADOW, both of Madison, on Dec. 31. Mr. Gadow has been associated with Duerst & Steele Produce Co.
- 1938 Virginia Mallon, Manitowoc, to Gordon L. RANDOLPH, Milwaukee, on Jan. 31. Mr. Randolph is a member of the editorial staff of the Milwaukee JOURNAL.
- x '38 Barbara Martin, Dickeyville, Md., to Matthew L. LEGLER, Monroe, on March 10. Capt. Legler is with Co. E., Ft. Custer, Mich.
- 1938 Joyce McGinley, Madison, to Louis A. KREGEL, on Dec. 31. At home at 3937 Junius St., Dallas, Tex. Dr. Kregel is resident surgeon at Baylor hospital, Dallas.
- 1938 Mary KIMBERLY, Oshkosh, to Lt. John Mackie, on Feb. 21. At home at San Antonio.
- 1938 Barbara E. Johnson, to Ogden S. JOHNSON, Madison, on March 6. Mr. Johnson is employed at the Gisholt Machine Co.

Hollywood Bound

THE movies are luring another Wisconsin graduate to Hollywood. Eric Brotherson, '33, once a Haresfoot hooper known as Don Brotherson, plans to follow the footsteps of Fredric March who went from Madison to Hollywood by way of Broadway.

Two film companies are bidding for a contract with Brotherson. His performance with Gertrude Lawrence in "Ladies in the Dark", announced in the November issue of the ALUMNUS, won him the title of "Mr. Tall, Dark and Handsome" on Broadway. Don—or Eric—does not plan to go to Hollywood until after "Ladies in the Dark" closes its second successful season on Broadway about June 1. He expects to spend the summer months on the movie lots and then return to his role in the musical fantasy when it goes on tour in the fall.

Incidentally, the war has broken up the Haresfoot quartet that used to gather for dinner, at an automat off Times Square. Brotherson misses the "bull sessions". Dick Abert, '33, is now a private attached to the 1st Army headquarters at Governor's Island; Kendall "Bud" Clark, '33, who appeared in more than 20 Broadway productions, is at Fort Bragg, N. C.; and Ewell Tompkins, '33, known professionally as Tom Ewell, lost his job as comedian recently when the operetta "Sunny River" closed. So he hasn't shown up lately.

- 1938 Elinor Schroeder, to Ralph J. KUTCHERA, both of Wisconsin Rapids, on Feb. 28. At home at 341 Oak St.
- 1938 C. Leota WOODS, Sparta, to Raymond J. x '38 MILLER, Green Bay, on March 7. Lt. Miller is in the army signal corps.
- 1939 Amy Cutts, Unity, to Frederick J. MCINTYRE, Baraboo, on Oct. 4.
- 1939 Katherine Smith, Niagara Falls, to John L. NELSON, Beloit, on Nov. 15. At home in Niagara Falls, N. Y., where Mr. Nelson is associated with the B. F. Goodrich co. in the chemical division.
- 1939 Janet R. NICKOLL, Milwaukee, to Victor Jay, on Oct. 20. At home in Milwaukee.
- 1939 Cordell Emley, Adell, to Roger I. BRUECKBAUER, Sheboygan, on Nov. 29. At home at 421 Washington Ct., Sheboygan. Mr. Brueckbauer is employed in the purchasing department of the Kohler Co.
- 1939 Dorothy Casey, Simpsonville, Ky., to Russell S. PELTON, Waupaca, on Dec. 20. At home in Louisville.
- 1939 Ruth TENSFELDT, Jefferson, to John N. ex '39 BAUCH, Milwaukee, on Dec. 20. Corp. Bauch is stationed at Camp Grant, Ill.
- 1939 Martha Meginnis, Chicago, to Harold A. JOHNSON, Lancaster, on Dec. 20. Mr. Johnson is with HQ Co. 132 Inf., Camp Forrest, Tenn.
- ex '39 Florence Cooke, to Philip G. PAULSON, both of Superior, on Oct. 25. At home at 1423 Fairview Av., Rockford, Ill.
- 1939 Anne COCHRANE, Chevy Chase, Md., to 1940 A. Jan PEEKE, Fond du Lac, on Oct. 4. Mr. Peeke is employed by the Federal Trades Comm., Washington, D. C.
- ex '39 Helen PERKINS, Pardeeville, to Frank Traube, Chicago, on Nov. 16. At home in Manitowish, where Mr. Traube will manage the Little Bohemia Lodge.
- ex '39 Elizabeth Cairney, Chicago, to Charles J. ROLLIS, McFarland, on Oct. 4. At home at 1110 N. Marshall St., Milwaukee, where Mr. Rollis is employed in the engineer's office of the war department.
- 1939 Elaine Bourgeois, Two Rivers, to Richard E. STREU, on Nov. 20. At home at 628 Doty St., Green Bay. Mr. Streu is a pharmacist at the Schweger Drug Store, Green Bay.
- 1939 Harriette C. WRIGHT, Madison, to Richard S. BEAL, Cohasset, Mass., on Oct. 25. At home in Cambridge, Mass., where Mr. Beal is on the staff of Tufts college in Medford.
- 1939 Betty Mason, to Robert C. RING, both of Madison, on Dec. 27.
- 1939 Alice OWENS, Wild Rose, to Jules F. Wachs, Milwaukee, on Dec. 27. At home at 4627 W. Melvina St., Milwaukee.
- 1939 Katherine Fitzgerald, to Norman H. MARTIN, both of Oshkosh, on Dec. 25. Corp. Martin is in the Army, stationed in Milwaukee.
- ex '39 Louise MURDOCK, Brodhead, to William 1938 T. CHADWICK, Monroe, on Dec. 24. Mr. Chadwick is at Chanute Field.
- ex '39 Lydia RYAN, Madison, to Louis A. 1936 RAVITZ, Worcester, Mass., on Dec. 25.
- ex '39 Dolores Strupp, Hewitt, to S/Sgt. John L. SCHUBERT, Marshfield, on Dec. 24. Sgt. Schubert is at Camp Livingston, La.
- 1939 Leigh Krahn, Oconto Falls, to George A. BEHNKE, Oshkosh, on Dec. 25.
- ex '39 Helen CONROY, to Clarence B. LIND- 1939 QUIST, both of Superior, on Dec. 29. Mrs. Lindquist has been teaching in the public schools of Sparta. Mr. Lindquist is a professor of math at the U. S. Naval academy, Annapolis.

Pine-tree Bankers

HAVE you ever heard of "pine-tree bankers"? We hadn't until someone showed us a READER'S DIGEST article that we had missed somewhere back in 1939. It appears that two Wisconsin men, Leslie K. Pomeroy, '19, and Eugene P. Connor, '18, are the originators of this unique plan whereby Southern forests are being preserved and new promise is held for increased prosperity in the southern states.

The two men had worked together in lumbering companies and at the Forest Products laboratory following their graduation. They liked lumbering but despaired at the wanton destruction of forests that went with it. With borrowed money they purchased a logging mill in Wilmar, Arkansas, and set to work to operate and to preach their theory of "sustained yield."

Briefly their plan is this. Cut only such amounts as will not impair the continued growth of the woodland, keeping the amount of usable timber on a sustained level. They toured the countryside expounding their idea. They acted as "bankers" for the farmers nearby. They told the farmers how much timber should be cut, when it should be cut, and how the job should be done. The idea caught hold quickly. Now instead of slashing through an entire woodland plot, destroying its use for years to come, the two men manage the wooded areas for the farmer, cutting only a certain quota of trees each time, and making certain that the forest lands stay on a profitable level at all times.

Farmers receive the current market prices from their "bankers". All they have to do is to "clip the coupons" as it were when ever they decide they would like their lumber cut.

The idea has extended far beyond the lumber company of Pomeroy and Connor. Today there are a host of "pine-tree bankers" in the south providing the farmers with a steady income from permanent forests.

- 1939 Betty Kelly, Escanaba, to Donald L. DOBSON, Beloit, on Dec. 27. At home at 331½ Euclid Ave., Beloit.
- 1939 Sophia Hibler, to Edward M. SOSTARICH, both of Milwaukee, in February.
- 1939 Barbara WATERS, Madison, to Ray E. Pfeifer, Kenmore, N. Y., on Feb. 7.
- x '39 Marian Siebensohn, to Oscar S. RIEBEN, both of Omro, in February.
- 1939 Evangeline Brue, Hollandale, to Reinhardt W. DUCHOW, Oconomowoc, on Feb. 15. At home at 528 N. 19th St., Milwaukee.
- 1939 Mary Reich, to Patrick S. COONEY, New London, on Feb. 14. Mr. Cooney is employed in the treasury department, Washington, D. C.
- 1939 Jane Leicht, West Salem, to Charles D. GELATT, La Crosse, on March 6. At home at 521 Losey Blvd. N., La Crosse, where Mr. Gelatt is associated with the Northern Engraving Co.
- x '39 Ruthe Atkins, Madison, to William W. GARROTT, Frankfort, Ind., on March 7. At home at 330 N. Carroll St., Madison.
- 1939 Grace SAXE, Ashland, to Irving Wine, Denver, Colo., on Jan. 25. At home in Detroit.
- x '39 Doris Weber, Evansville, to Paul R. SCHUMACHER, Footville, on Jan. 1.
- 1939 Betty Jane Addie, Milton, to Burton J. ANDERSON, Batternut, on Dec. 22.
- x '39 Mary Johnson, Neshkoro, to Howell L. ROBERTS, Oak Park, Ill., on Feb. 7. Mr. Roberts is a food chemist. At home in Maywood, Ill.
- x '39 Virginia RITZINGER, to Duncan B.
- x '42 MARSH, both of Madison, on Jan. 31. At home at 516 Wisconsin Ave., Madison.
- x '39 Margaret Joost, Jacksonville, Fla., to Wm. H. PIPKORN, Oshkosh, on Feb. 11. Ensign Pipkorn is stationed at the naval air station, Jacksonville, Fla.
- 1939 Alice Munson, Madison, to Miles B. SMITH, Beloit, on March 7. After June Mr. Smith will interne in Cleveland.
- 1939 Ellen Lathers, to Sgt. Donald F. LANPHEAR, both of Beloit, on Feb. 7. At home at 637 Harrison Ave., Louisville.
- 1939 Harriette Thompson, Wrightsville, Ga., to Stephen C. KALAGIAN, Cudahy, on Jan. 10. Mr. Kalagian is with the Public Relations Dept., U. S. Naval Air Station, Jacksonville, Fla.
- 1939 Rhoda Grings, to Carl F. VELGUTH, both of Milwaukee, on Feb. 14.
- 1939 Ruth WHITE, Wauwatosa, to Allen H. LEISK, Milwaukee, on Jan. 10.
- 1939 Virginia Miller, to Norman C. UECKER, both of Milwaukee, on Dec. 27.
- 1939 Gratia WITTER, Madison, to Richard
- 1941 M. FENNO, Wauwatosa, on Feb. 21. At home in Madison.
- 1939 Patricia David, to Donald J. STERLINSKE, Beaver Dam, on Jan. 14. 1st Lt. Sterlinske is stationed at Ft. Benning, Ga.
- 1940 Lois MERKLEY, Neenah, to Charles E.
- 1939 SCHMIDT, Sheboygan, on Nov. 15. Dr. Schmidt is interning at Milwaukee hospital.
- ex '40 Maxie Webb, to Roy G. COLSON, Denmark, on Nov. 9.
- ex '40 Holly Walker, Portland, Ore., to Albert W. DRAVES, Milwaukee, on Dec. 14. Ensign Draves had been stationed at Pearl Harbor. At home temporarily in San Diego.
- 1940 Elizabeth MARCH, Madison, to Charles
- ex '39 H. LANGE, Janesville, on Dec. 21. At home at 312½ S. Stanford St., Albuquerque, N. Mex., where Mr. Lange has a teaching fellowship at the U. of New Mexico.
- 1940 Helen COLLENTINE, Milwaukee, to
- ex '44 Russ C. FOSS, Wauwatosa, on Dec. 20. At home at 4573 W. Blue Mound Rd.
- 1940 Geraldine STORANDT, Sparta, to John
- 1944 K. FULTON, Madison, on Dec. 7. At home at 209½ N. Mills St. Mr. Fulton is a student at the University.
- 1940 Neva Montgomery, Aberdeen, S. D., to Gerald H. VAN WINTER, Washington, D. C. on Nov. 24. At home in Portland. Mr. Van Winter is a junior soil surveyor for the federal soil conservation service.

Russia's Ural Arsenal

JOHN SCOTT, '33, turned his back on the University in 1930 and decided to see the world. His wanderings took him eventually to Russia. There he obtained work in a large industrial plant at Magnitogorski in 1932. He married a Russian girl, settled down to his factory job and did foreign correspondent work for London newspapers on the side.

Back in America after no end of visa difficulties in getting out of Russia, he has written down his observations of the great industrial system of the Ural mountain areas of Russia. A recent article of his appeared in BARRON'S FINANCIAL WEEKLY and was condensed for re-publication in the January edition of READERS DIGEST.

Enlightening and encouraging were Scott's recounting of the superhuman tasks which costs the Russians millions of dollars and thousands of lives but which gave them an industrial area far from the battlefield and safe for some years to come. Scott describes the building of complete new towns, the transportation of entire industries and communities from one location to another, the construction of tremendous factories for munitions and industrial goods—Russia's arsenal for the prolonged war which she envisioned years ago.

- ex '40 Ann C. Raunk, Monroe, to John H. FIGI, on Nov. 20. At home at 1506 9th St., Monroe.
- 1940 Fern Baumgardt, to Karl W. REULING, both of Wausau, on Oct. 11. Lt. Reuling is a member of the 2nd Signal Armored Bn., at Camp Polk, La.
- 1940 Sarah SMITH, Tulsa, Okla., to Robert
- 1940 H. KAEMS, Sheboygan, on Oct. 27. At home at 15 W. 17th St., Tulsa.
- ex '40 Mary L. TORMEY, to Robert J. CON-
- ex '43 NOR, both of Madison, on Oct. 25. At home in Madison.
- 1940 Louise MEAGHER, Madison, to Harold E. Frye, St. Joseph, Mo., on Dec. 29. At home in Chicago.
- 1940 Kathleen MARLOWE, to Lyle J. McKillip, both of Madison, on Jan. 6. At home in Madison, S. Dak.
- 1940 Mildred Levy, to Roger I. BENDER, both of Milwaukee, on Dec. 29. At home in Madison, where Mr. Bender is attending the University.
- ex '40 Marian NIEBUHR, Madison, to Lawrence Dike, Shullsburg, on Dec. 25. At home in Shullsburg.
- ex '40 Dorothy Kilbourne, Sheboygan Falls, to Charles F. SCHULZ, Sheboygan, on Dec. 25. At home at 275 Laurel Ave., Highland Park, Ill.
- 1940 Helen TREWARTHA, Cuba City, to Charles E. DeWitt, Platteville, on Dec. 27. At home in Odessa, Tex. Mr. DeWitt is an engineer with the Shell Oil Co.
- ex '40 Margaret WOJTA, Fond du Lac, to Hector Van BUSKIRK, Estevan, Canada, on Dec. 27. Mr. Van Buskirk is a petroleum geophysicist with the North West Oil Co., at Calgary, Alberta, Canada.
- 1940 Ruth BRASURE, Hartford, to Paul
- 1941 BJERKE, Falls Creek, on Dec. 27.
- 1940 Margaret GOETSCH, Merrill, to William
- ex '39 G. SCHMIDT, Milwaukee, on Dec. 18. Lt. Schmidt is stationed at Pine Camp.
- 1940 Dorothy Gillis, Bangor, to Albert J. LARSEN, West Salem, on Dec. 27. Mr. Larsen is science and music instructor in the high school at Big Fork, Minn.
- 1940 Virginia Czyzewski, to Henry C. GRONKIEWICZ, both of Milwaukee, on Feb. 14. Mr. Gronkiewicz is affiliated with the United States Employment Service in Racine.
- x '40 Mary DUNLAP, Waukesha, to H. Keith Frey, Milwaukee, on Jan. 30. At home at 1712 N. Prospect Ave., Milwaukee.
- 1940 Dorothy DAKE, Mayville, to Ernst W. Hesse, Jr., Sheboygan, on Dec. 8. Mr. Hesse is an accountant for the state agriculture dept., Madison.
- 1940 F. Marion CNARE, Madison, to John M. Barrows, III, Beaver Dam, on Feb. 21. At home in Beaver Dam. Mrs. Barrows has been an instructor in speech correction in Green Bay schools.
- x '40 Betty Smith, to Roland R. BULTMAN, Green Bay, on Feb. 7. Mr. Bultman is a chemist for the National Starch Products Co., New York City.
- 1940 Jean Eichinger, to Robert F. HOLTZ, both of Milwaukee, on March 7. At home at 210 E. Maple Ave., Merchantville, N. J.
- 1940 Lois SENTY, to Robert C. WENGER, 1939 both of Monroe, on Dec. 28. Sgt. Wenger is stationed at Camp Shelby, Miss.
- 1940 Dorothy Fritsch, to Paul E. BAU, both of Milwaukee, on Dec. 31. At home at 1128 N. 27th St.
- x '40 Jeanne RUDOLF, Columbus, to George
- x '39 W. WEBER, West Allis, on Jan. 17. Lt. Weber is at Jefferson Barracks.
- 1940 Marjorie PUGH, to Arthur R. JANES, x '37 both of Racine, on Feb. 12.
- x '40 Jean Dyksterhouse, to Robert F. PLOTT, both of Green Bay, on Feb. 14.
- 1940 Ruth MORRISON, to Howard H. MOSS, 1936 both of Janesville, on Feb. 12. At home at 474 N. Pearl St.
- x '40 Lucille Storandt, to Ralph C. MILLER, West Salem, on Jan. 17.
- 1940 Marjorie Peterson, to Oscar T. LEVERENZ, both of Milwaukee, on Jan. 17.
- 1940 Ethelyn Bayes, to Donald G. KAUFFMAN, both of Hillsboro, on Feb. 22. Lt. Kauffman is a member of the 54th Pursuit Squadron at Pine Field.
- 1940 Margaret WARD, Avalon, to Russell M. Maynard, Monmouth, Ill., on Dec. 31. Mrs. Maynard is associated with the Family Welfare agency in Milwaukee. Mr. Maynard is serving his internship in Lutheran Deaconess hospital, Chicago.
- 1940 Dorothe TRUMMER, Madison, to Booth Chilcutt, San Diego, Calif., on Feb. 14. Mrs. Chilcutt has been a commercial artist.

On MacArthur's Staff

LLOYD LEHRBAS, '18, ace foreign correspondent for the Associated Press, has been commissioned a lieutenant colonel in the Army and departed late last month for Australia where he has been detailed to the public relations post on General MacArthur's staff. Lehrbas, a lieutenant in World War I, won honorable mention by the Pulitzer prize committee in 1939 for his dispatches on the bombing of Warsaw.

After a thrilling escape from Poland, he covered developments in France. On returning to this country, he was assigned to the state department in Washington. He travelled with Prime Minister Churchill on the latter's recent visit to Canada and the United States.

- 1940 Eleanor TORGERSON, Hayward, to Joseph G. GROSCH, Cudahy, on Dec. 5. Lt. Grosch is stationed at Ft. Lawton, Wash.
- 1940 Charlotte Rosenow, to Carlyle F. STURM, both of Stevens Point, on Dec. 31. At home at 288 4th Ave., E. Orange, N. J.
- 1941 Mary-Ellen SILVERSTONE, St. Louis, Mo., to Jack OPPENHEIMER, Crest-

- wood N. Y., on June 29. At home at 246 Park St., Apt. 23, New Haven, Conn.
- 1941 Jean McCAMMOND, Madison, to Colin R. LOVELL, Fairmont, Minn., on Dec. 22. Mrs. Lovell is an English teacher in the Crandon High School. Mr. Lovell is in the Army, stationed at Ft. Bragg, N. C.
- 1941 Dorothy McGRATH, to William J. GRA-ex '40 HAM, both of Milwaukee, on Oct. 25. At home in Jacksonville, Fla.
- 1941 Janice NEIPERT, Ft. Atkinson, to IR-1939 WIN R. HEDGES, Madison, on Oct. 26. At home at 2827 28th St., NW., Washington, D. C.
- ex '41 Janet E. NEWTON, to Robert L. MARS-ex '43 DEN, both of Madison, on Oct. 11. Mr. Marsden is employed by the Phillips Petroleum Co. At home at 2314 Keyes Ave.

- 1941 Patricia EILERS, Wausau, to Edward ex '42 G. SHAW, Milwaukee, on Dec. 20. At home in Madison.
- ex '41 Gladys G. GAY, to Hyland D. Sutherland, both of Madison, on Dec. 14. At home at 106 S. Hancock St. Mrs. Sutherland is engaged in private duty nursing.
- 1941 Kathryn BEAVIN, Richland Center, to 1941 Gilbert L. TERMAN, Columbia City, Ind., on Dec. 20.
- 1941 Inez KUCKUK, Shawano, to Arvin M. 1939 MINTZLAFF, Cedarburg, on Dec. 2. At home in Madison.
- ex '41 Marge NICKLES, to John F. Baumann, both of Madison, on Dec. 20. At home at 317 S. Oak Park Ave., Oak Park, Ill.
- 1941 Virginia B. SMITH, Brodhead, to Wil-1941 liam P. DIXON, Springfield, Ill., on Aug. 31. Mr. Dixon is an engineer at the National Enameling & Stamping Co. At home at 6116 Crescent St., St. Louis, Mo.
- 1941 Lorraine Siekert, to Jack E. THOMAS, both of Milwaukee, on Dec. 13. At home at 512 N. Henry St., Madison, where Mr. Thomas is attending the University.
- 1941 Marion YOUNG, Reeseville, to Stanley Yerges, on Nov. 29.
- 1941 Jeanette Topp, Clintonville, to Raleigh BARLOWE, Madison, on Oct. 4. At home at 304 Breese Terrace, Madison, where Mr. Barlowe is a research assistant in agricultural economics.
- 1941 Phyllis SAPP, Evanston, to Francis H. 1941 SCHIFFER, Madison, on Oct. 15. Mr. Schiffer is on active duty in the Army with the 41st Engineers.
- 1941 Harriet L. SCHROEDER, Wauwatosa, to ex '41 H. Kendig EATON, Westfield, N. Y., on Nov. 22.

Still at It

ANOTHER chapter is being written in the eventful life of Malcolm P. Hanson, '24, first operator of the University radio station and one of the founders of WHA, according to his belated New Year's greeting received from London by the station. He is now a ranking officer in the United States Navy and assigned to communications work.

At the time of the first world war Hanson was deeply engrossed in wireless experiments. He worked with the late Prof. E. M. Terry, of the physics department, in developing telephonic transmission in addition to dot-and-dash messages. Their successful sending of music early in 1917, and the subsequent continual maintenance of the transmitter which later became WHA, is the basis for the slogan now used, "oldest station in the nation."

Hanson left the University to join the navy during the war. In the service he was able to continue his radio work. After the war he returned and in 1920 became the first regular operator of 9XM, which later received the call letters WHA.

From Wisconsin he again went into naval radio work, specializing in short-wave transmission. Among his assignments was that of outfitting Admiral Byrd's ship for his North-Pole expedition. Hanson stowed away on the ship as it left the United States for Norway on the first leg of the voyage. He did it, he explained, to be able to complete the installation because the naval travel authorization had not come through. The job was done by the time they reached Europe, and Hanson was sent back to America with a friendly rebuke for having "violated" rules.

When Admiral Byrd was outfitting his 1929 South Pole expedition he sought out Malcolm Hanson for his chief communications engineer. He was put in charge of the vital life-line which connected that expedition with the rest of the world and spent fourteen months in the Antarctic handling transmitters and receiving equipment on the ice and in the air.

Since then he has been stationed at Anacostia, D. C., Naval Air Station in charge of short wave plane communications. His work has taken him from coast to coast on test flights. The nature of his work in London is not divulged, but it is known that he is now a high ranking officer in the navy and is working with communications.

- ex '41 Myrtle Kennedy, to Leo. J. SCHULTE, both of Marshfield, on Nov. 20. At home at 310 W. Fifth St., Marshfield.
- 1941 Elizabeth WALKER, Columbus, to William B. SMITH, Madison, on Nov. 9. At home at 125 W. Doty St., Madison. Mr. Smith is a law student at the University and is employed at the STATE JOURNAL.
- ex '41 Mildred KLEMAN, Beaver Dam, to Max 1940 G. HENSEL, Weyauwega, on July 19, 1941. 2nd Lt. Hensel is with the 2nd Inf., Reg. HQ., U. S. A.
- 1941 Barnita DONKLE, Ft. Atkinson, to Wayland J. HAYES, Nashville, Tenn., on Feb. 1. Mrs. Hayes is employed in the advertising dept. of the WISCONSIN STATE JOURNAL. Mr. Hayes is attending the University.
- ex '41 Mary SPOHN, to Robert O. KAHLENBERG, 1937 both of Madison, on Dec. 27. At home at 343 Woodland Circle, Madison. Mr. Kahlenberg is associated with the Wis. Hybrid Assn.
- 1941 Rose NORMAN, Manitowoc, to Clarence J. Kriesa, Two Rivers, on Dec. 26. Mrs. Kriesa has been teaching home economics at the Delavan high school. At home in Kaukauna, Wis.
- 1941 Dorothy EARLEYWINE, to William R. 1940 SULLIVAN, both of Madison, on Dec. 25. At home at 818 Terry Pl. Mr. Sullivan is a graduate student and an assistant in biochemistry at the University.
- 1941 Elizabeth CATLIN, Appleton, to Lt. Harry S. KAUL, Markesan, on Dec. 27. At home at Spartanburg, S. C., where Lt. Kaul is stationed at Camp Croft.
- 1941 Jane NELSON, Kaukauna, to Richard 1940 H. BER, Neenah, on Jan. 10. Lt. Ber is assistant commanding officer at Scott Field.
- 1941 Ann MARTIN, Boscobel, to Rheinold Fox, Sun Prairie, on Dec. 30. Mrs. Fox is teaching in the Muscoda high school, and Mr. Fox is instructor in the Sun Prairie high school.
- ex '41 Doris Sandberg, Cambridge, to Dr. Edward J. MCGINNIS, Darlington, on Jan. 1. At home in Kewanee.
- ex '41 Jean VAN NESS, Waukesha, to James O. Hawkins, on Sept. 20. Mrs. Hawkins is employed by the Mead Public Library at Sheboygan.
- 1941 Lois HAGEN, Westby, to Lloyd C. 1940 JOHNSON, Madison, on Dec. 24. Mrs. Johnson is employed by the United Press in Chicago.
- 1941 Mary Steinberg, to John W. HENDERSON, both of Wauwatosa, on Dec. 2. Mr. Henderson is with the medical corps at Camp Hulen.
- ex '41 Lydia Nickos, Milwaukee, to Francis M. 1940 ACHEN, Madison, on Dec. 27. At home at 204 W. 2nd St., Belvidere, Ill.
- 1941 Ann EARLE, St. Petersburg, Fla., to 1939 William H. POLLARD, Beloit, on Dec. 25. Mrs. Pollard is in charge of the bacteriological and chemical dept. of Scanlon Lab., Madison. Mr. Pollard is attending the University. At home at 1218 Spring St.
- 1941 Doris LOWE, Wild Rose, to Roman N. 1939 ELLER, Milwaukee, on Nov. 29. At home at 1643 N. 12th St., Milwaukee.
- 1941 Margaret MOCK, to Harley L. KRESSIN, 1942 both of Kenosha, on Feb. 8. Both Mr. and Mrs. Kressin are students at the University.
- 1941 Winifred Root, Green Bay, to David F. MACHTEL, Madison, in Feb. Mr. Machtel has appeared in numerous radio, opera, concert and oratorio performances at the University. At home at 414 W. 120th St., New York City.
- 1941 Marian M. ETTER, to Robert G. Rote, both of Monroe, on Feb. 6. At home in Monroe.
- x '41 Marie Koenig, Three Lakes, to Daniel V. DODGE, Antigo, on Feb. 15. At home at 201 N. Randall Ave.
- 1941 Elizabeth DAVIS, Madison, to John P. x '39 WAGNER, Milwaukee, on Feb. 28. At home at 1720 E. Capitol Dr., Milwaukee.
- 1941 Beth Rygg, Kellogg, Idaho, to Lynn K. BRUNN, Mellette, S. Dak., on March 6. At home at 1210 Vilas Ave., Madison, where Mr. Brunn is a graduate student in entomology at the University.
- x '41 Virginia BRAY, Madison, to Robert H. x '41 WOOD, Eau Claire, on March 6. At home at 1520 E. 2nd St., Long Beach, Calif. Lt. Wood is with the ferry command of the U. S. air corps.

Heads Motorcycle Co.

WHEN Bill Davidson graduated from the University in 1928, he went to work as an apprentice in the rapidly growing Harley-Davidson motorcycle plant in Milwaukee. In 1929, he and some of the other boys in the plant organized more than one gypsy tour on the motorcycles they helped to make. The boys drove about 8,000 miles that summer, goggled, grinning, leather-coated "good will" agents.

But those things are in the past. Early last month, William H. Davidson, '28, was named president of the Harley-Davidson Motor Co., to succeed his uncle the late Walter Davidson. Bill had succeeded his father as vice-president when the latter died in 1937. Two years ago he was elected a director of the American Motorcycle association. The new president of the company can still mount a motorcycle and put it through fancier maneuvers than most riders can.

- x '41 Lucille Kroell, Chicago, to Jess D. BOGART, Lake Geneva, on Feb. 28. At home in Milwaukee.
- 1941 Jeanette Smith, to Herman E. BIRR, Milwaukee, on Feb. 28. At home in Bronxville, N. Y.
- 1941 Dorothy HOEHN, to Robert A. SMITH, 1940 both of West Allis, on Feb. 14. Mrs. Smith has been teaching in Sheboygan.
- 1941 Ruth GUMBLE, Albion, to Charles L. 1945 LAVERY, Madison, on Jan. 1. Mr. Lavery is attending the University.
- 1941 Marie GRUMANN, to Russell C. GOED-
x '41 JEN, both of Two Rivers, on Feb. 14. Mrs. Goedjen is teaching in the high school at South Milwaukee. Ensign Goedjen is in the U. S. Naval Reserve.
- 1941 Muriel GLICKMAN, to Alan Fogel, both of Green Bay, on Dec. 28. At home at 633 Pine St.
- x '41 Nelle GANSEN, Chicago Hts., Ill., to 1940 Melford W. CLAYTON, Lime Ridge, on Feb. 27. Mrs. Clayton is instructor of English and history in the Lime Ridge high school. Mr. Clayton is agriculture instructor in the same school.
- x '41 Lillian Borsting, Portland, Ore., to Robert G. EIRING, Eagle, in Feb. At home in Portland.
- x '41 Berniece L. RUNSTROM, to Frederic W. 1940 REICHARDT, both of Madison, on Feb. 12. Mr. Reichardt is a medical student at the University.
- 1941 Mary Jane SATTLER, Monkton, Md., to 1938 John O. NEIGHBOURS, Baltimore, Md., on Feb. 7. Lt. Neighbours is chief of the engineering unit of the University ROTC.
- x '41 Doris Watson, to Albert V. SALO, both of Lake Geneva, on Feb. 2. At home in Madison.
- x '41 Carmen Costillo, to Arnold E. SCHAEFER, Madison, on Jan. 24. Lt. Schaefer is in the army medical center, Washington. At home at 4701 Kansas Ave. NW.
- x '41 Edith SCHLEY, to Daniel L. Long, both of Milwaukee, on Feb. 14. At home at 3825 N. Oakland Ave.
- 1941 Charlotte ADAMS, Eagle River, to Robert P. YEOMANS, Watertown, on March 7. At home near Quantico, Va., where Lt. Yeomans is attending an artillery school.
- 1941 Marian Manhardt, to Edwin B. BARTLETT, both of Milwaukee, on Feb. 21. At home at 1915 N. Prospect Ave., Milwaukee.
- x '41 Betty Hall, to Peter REGIS, both of Milwaukee, on Feb. 2. At home at 5323 W. Vliet St.
- x '41 Elizabeth Schluter, Madison, to Stephen J. PHILLIPS, Reedsburg, on Jan. 31. At home at 214 State St.
- 1941 Elizabeth NORRIS, Madison, to Philip 1941 DRESSLER, New York, on Jan. 24.
- 1941 Sigrid ZACHARIASEN, to William H. 1940 MORRISSEY, both of Milwaukee, on Feb. 28. At home at 933 W. Johnson, Madison.
- 1941 Doris YAFFE, Madison, to I. Michael x '40 FRISCH, Cleveland, O., on March 1. At home in Madison.
- x '41 Mary Elizabeth TOMLINSON, Milton, Pa. to Dr. Norton N. Humphrey, Brandon, on Jan. 31. At home in Salt Lake City, Utah.
- x '41 Virginia SPALDING, Wauwatosa, to x '42 Peter M. WENDT, Milwaukee, on Jan. 13.
- x '41 Evelyn SPENCER, Madison, to Merrill 1938 A. MILLETT, on Feb. 14. Mr. Millett is a chemist at the Forest Products laboratory.
- x '41 Kathryn SNYDER, Madison, to Karl Ruff, on March 10. At home at 133 Lathrop, Madison.

- ex '42 Lorraine E. EICHSTEDT, to George F. 1940 BREM, both of Milwaukee, on Nov. 29.
- ex '42 Phyllis PETERSON, Green Bay, to P. ex '40 Andree KRUEGER, Fond du Lac, on Dec. 22. At home at 213 N. Francis St., Madison.
- ex '42 Jane MUNSON, to Harvey J. LE DAIN, 1940 both of Milwaukee, on Dec. 25. At home in Massillon, O.
- 1942 Audrey Osterhaus, Plainfield, to Arlie R. DENT, Almond, on Dec. 27. At home at 314 N. Broom St., Madison, where Mr. Dent is a student at the University.
- ex '42 Jean Rioux, to Lester F. RENTMEESTER, both of Green Bay, on Nov. 20. At home at 1265 Porlier St., Green Bay. Mr. Rentmeester is employed by the Guardian Life Ins. Agency.
- 1942 Marion H. Krueger, Madison, to Clarence O. SCHWENGEL, Pt. Washington, on Oct. 19. At home at 348 W. Mifflin

Ad Man of 1941

NAMED "Industrial Advertising Man of the Year", Edwin L. Andrew, '16, received his latest honor at a recent meeting of the Cleveland Advertising club. Andrew received a certificate from the publisher of INDUSTRIAL MARKETING, whose experts chose him for the award.

'41's top advertising man is credited with coining "imagineering" as a word to denote plans of American technology and industry in the post-war world. He was chosen by the "copy chasers" of INDUSTRIAL MARKETING on the basis of a campaign he conducted for the Aluminum Company of America. This was the second time the honor has been bestowed upon him.

Andrew is vice president of Fuller & Smith & Ross, Inc., a Cleveland advertising agency.

- St. Mr. Schwengel is a senior at the University and an assistant in coaching the Wisconsin crew.
- ex '42 Bernice SOMMER, Sterling, Ill., to L. T. Mortensen, on Oct. 4. At home in Oak Park, Ill.
- ex '42 Lauretta Bean, to Robert W. WAGNER, both of Wisconsin Rapids, on Oct. 3. At home at 411½ 7th St., S., Wisconsin Rapids, where Mr. Wagner is employed by the Consolidated Water Power & Paper Co.
- ex '42 Alice Haukohl, to Jerome H. WIRTH, both of Milwaukee, on Oct. 4. At home at 4001 N. Prospect Ave.
- ex '42 Jean Carey, Madison, to Joseph E. ZWASKA, Auburndale, on Oct. 11. At home at 449 W. Johnson St., Madison.
- ex '42 Winifred WARNE, Madison, to Robert 1939 J. PARENT, on Dec. 27. At home at Apt. 338, 420 Memorial Dr., Cambridge, Mass., where Lt. Parent is with the Signal Corps at Cruft Lab., Harvard U.
- x '42 Hermion Florey, Beloit, to Donald D. COCHRANE, Madison, on Dec. 25. At home at 414 N. Brown St., Madison.
- x '42 Barbara Banach, to Bruce J. WALTERS, both of Madison, on Dec. 27. At home at 522 N. Pinckney.
- x '42 Sara Ramsey, to Vincent L. MADSEN, both of Madison, on Jan. 1. At home in Chicago.
- x '42 Genevieve R. TOLLEFSEN, Madison, to x '41 Wm. G. LEAVITT, Leigh, Nebr., on Dec. 27. Mrs. Leavitt is secretary in the dept. of mathematics at the University.
- x '42 Marian Zweifel, to Harold J. TRUMPY, both of Monroe, on Dec. 21. At home on a farm at Clarno Corners, Monroe.
- x '42 Charlotte KIMMEL, to Oswald F. Jaeger, both of Milwaukee, on Jan. 3. At home at 2962 N. 90th St., Milwaukee.
- 1942 Irene BIRD, Green Lake, to Robert O. 1942 BLAND, Ripon, on Jan. 31. At home in Madison.
- x '42 Joyce W. BROWN, Plymouth, to Lt. Albert L. Petermann, Milwaukee, on Jan. 6. At home in Weatherford, Tex.
- x '42 Carlene Woody, to John G. GUNNING, both of Oshkosh, on Jan. 31. Mr. Gunning is state supervisor of the state radio station. At home at 409 Stanley St., Stevens Point.
- x '42 Emma Brandt, Poynette, to Wilmer G. GARTMAN, Fish Creek, on Jan. 16. 2nd Lt. Gartman is stationed at Luke Field, Ariz.
- x '42 Helen ETZKIN, Wausau, to Burnard Frank, Madison, on March 8. At home in Madison.
- x '42 (Betty) Fern ESCHLIMAN, Massillon, x '41 O., to Lowell D. ASHBY, Lincoln, Nebr., on Jan. 30. At home in Washington, D. C.
- x '42 Eileen Hildebrandt, Gary, Ind., to (Clayton) Dale ROTH, Mosinee, on Jan. 3. At home at 720 Delaware St., Gary, Ind., where Mr. Roth is in the accounting dept. of the Carnegie Steel co.
- 1942 Mary Schiro, Madison, to Lyle E. BULL, Racine, on March 7. At home at 935 Regent St. Mr. Bull is attending the University.
- x '42 June Olson, to Roland W. SCHLUETER, both of Madison, on Feb. 21. At home in Madison, where Mr. Schluter is employed in the office of the Oscar Mayer Co.
- 1942 Elsa E. ADAMS, Frederick, Okla., to Harvey R. Puckett, Richmond, Va., on Feb. 21. Mr. Puckett is an instructor in mechanical engineering at the University.
- x '42 Helen Wagner, Waukesha, to Wallace W. POPP, Almond, on Feb. 7. At home at 2027 W. Wells St., Milwaukee. Mr. Popp is employed at the Harley-Davidson co.
- x '42 Eleanor Lang, Kalamazoo, to John B.

"Black Light" Inventor

ONE of the nation's most dramatic, and yet unsung, pieces of defense equipment, and one which is exclusively Uncle Sam's is "Black Light". It's the ingenious discovery of William Garstang, '30, an electrical engineer in Indianapolis. Every type of American fighting plane must be equipped with it.

Instrument flying at night has long been a problem in Army aeronautics. Even though the pilot doesn't use his instruments all the time, there must be adequate illumination for him to read them. With the growing number of instruments on the plane panels, the tiny lights illuminating them cast too great a glare in the cockpit. This glare prevented the pilot from observing things outside of his plane and also revealed the cockpit to those searching the plane in the black of night. It was similar to the position of the motorist who is "blacked out" by the glare of approaching headlights. The Army Air Corps wanted the pilot to be in a position to read the instruments and also to see out. The Army got what it wanted when Garstang developed his "Black Light".

This light is a blue fluorescent electric light, projected in a lamp through a black Corning glass filter. It generates near ultraviolet rays. The job of illuminating the dials is completed after painting the numerals with a phosphorescent paint, the best medium to pick up the violet rays. The black glass filter takes out the visible light, in other words the light that can be seen by the naked eye, but allows the invisible light, the ultra violet, to pass through, thus providing adequate lighting for the dials but casting no glare within the cockpit.

- OLSON, Wisconsin Dells, on March 7. At home at 311 Woodward Ave., where Mr. Olson is attending Western Mich. College.
- 1942 Betty T. NELSON, Madison, to John G. BAKER, Evansville, in March. Mr. Baker is vice-president of the Baker Mfg. Co. At home in Madison.
- x '42 Jeanne LYONS, Brooklyn, N. Y., to William A. BARTH, La Crosse, on Feb. 21. Mr. Barth is attending the University.
- x '42 Naomi KERNES, Chicago, to Michell BARKAS, Brooklyn, N. Y., on Jan. 30. At home in Chicago.
- x '42 Margaret Hornseth, Waukesha, to William N. WRIGHT, on Oct. 31. Mr. Wright is a student at the University.
- x '42 Jean L. WELKE, Milwaukee, to Arnold P. Bowman, Jr., Saxton, Mo., on Feb. 7. At home in Albany, Ga.
- x '42 Annie Cox, Albany, Ga., to James M. THORP, on Feb. 4. At home at 808 N. Jefferson St., Albany, Ga.
- x '42 Annabella Lauson, New Holstein, to William A. SYLVESTER, West Salem, on Jan. 10. Mr. Sylvester is an X-ray technician at the Milw. Children's hospital.
- x '42 Lorayne Jenson, Deerfield, to Charles A. SMYTHE, Madison, in Dec. Mr. Smythe is employed at the Madison post office.
- x '42 Dorothy Hunkins, Waukesha, to Erwin H. SIEGRIST, Hilbert, on Feb. 28. Mr. Siegrist is employed at the Allis-Chalmers co. plant in Waukesha.
- ex '43 Betty MORRISON, to John L. RAHM-ex '41 LOW, both of Madison, on Oct. 11. Lt. Rahmlow is stationed at Ft. Custer, Mich.
- ex '43 Margaret SNYDER, Lodi, to Joseph Gallagher, Madison, on Dec. 16. At home at 2201 Oakridge Ave., Madison.
- ex '43 Dorothy PINGEL, Bonduel, to Donald C. Van Vuren, on Nov. 8. At home in Bonduel.
- ex '43 Elizabeth RODERICK, Evansville, to 1941 Theodore R. MATTHEWS, Platteville, on Nov. 27. At home in Clarinda, Ia.
- ex '43 Bernita THOMPSON, Madison, to Ar-ex '41 thur P. BECKER, Milwaukee, on Nov. 20. At home at 606 N. Frances St., Madison.
- ex '43 Alice Schuman, Watertown, to Hilmer F. UTTECH, on Nov. 1. At home in Watertown.
- ex '43 Ruth M. VINGER, Argyle, to Raymond 1941 A. ERICKSON, Whitehall, on Oct. 24. At home at 4315 Ocean Dr., Manhattan Beach, Calif. Mr. Erickson is doing research work for the Standard Oil Co. of Calif.
- x '43 Margery STAFFORD, Madison, to Paul x '43 FREMONT-SMITH, Cambridge, Mass., on Dec. 31. At home at 516 Wisconsin Ave., Madison.

- x '43 Gloria BOCANER, Wisconsin Rapids, to Milt Schneider, Milwaukee, on Jan. 31. At home in Milwaukee.
- x '43 Alma HANISEE, Winnetka, Ill., to Rob- 1939 ert E. PETRIE, Milwaukee, on Jan. 28.

From Farm to Fame

A BRIEF item in Betty Cass' column in THE WISCONSIN STATE JOURNAL during January uncovered a veritable Horatio Alger story concerning the life of Dr. Deno F. O'Connor, '15. The original story concerned his service in Russia during World War I. The resulting information, however, disclosed the fact that Dr. O'Connor is one of the top-ranking eye-ear-nose-and-throat surgeons in the nation.

Take all the basic elements of a success story—poor and large family, farm background, an insatiable thirst for knowledge, an ever burning goal, an indomitable will to succeed—and you have the early life story of Dr. O'Connor.

So famous has Dr. O'Connor become that celebrities are constantly trekking across the continent to Chicago to have his skillful hands perform their necessary operations. Among these, his friends say, have been Rudy Vallee, Cardinal Mundelein, Babe Ruth, Martinelli, Sophie Tucker, Dick Powell, Morton Downey, Jean Harlow, Walter Hagen, Al Smith, and countless others. Not so very long ago he flew across the Atlantic to operate on John McCormack, the great Irish tenor.

Martinelli and Dick Powell have both made special recordings of favorite songs for him (Dick Powell's being "On Wisconsin"), and other grateful notables have done similar things to show their appreciation for "the strapping, big, red-haired doctor" who was once a farm boy in Wisconsin.

- Lt. Petrie is at the officers training school at Ft. Benning.
- x '43 Ruth Deschler, to Franklin J. FUMAL, both of Appleton, on Feb. 14. At home at 516 W. Lawrence St.
- x '43 Marjorie Corry, to Frank P. ROBERTS, both of Madison, on Jan. 3. At home at 307 S. Brooks St. Mr. Roberts is employed at the Oscar Mayer Co.
- x '43 Kathryn Wenger, Monroe, to Howard P. OLSEN, Madison, on Jan. 22. At home at 48 Nassau Rd., Princeton, N. J. Lt. Olsen is with the 216th observation sq. at Ft. Dix.
- x '43 Martha MORROW, Kenosha, to Lt. Jack K. Shepard, Detroit, on Feb. 18. At home at 1627 8th Ave. W., Seattle, Wash.

- '45 Sharleen Feuling, Sun Prairie, to Don E. ZENTNER, Wauwatosa, on Feb. 5. At

Blasts Radio Tradition

ENERGETIC Howard Teichmann, '38, former impressario of the Haresfoot club, is the man behind one of America's key wartime radio shows. Only 26 and less than four years out of the University, he is the author of "They Live Forever", the Columbia Broadcasting System's vivid Sunday night program immortalizing the American heroes who are giving their lives in Burma, the Philippines, and on the seas.

The program is attracting tremendous listener response. It is stark radio drama. No punches are pulled. It is the only radio program on which the government permits the reading of casualty lists. Not all listeners can take the realism, but the applause outnumbers the criticisms by a 10-1 ratio.

"They Live Forever" is Teichmann's own idea. Detailed by Columbia to do the script for a "patriotic" show, Teichmann rebelled at the idea of another variety show—guest stars, name bands, gags, and a little patriotic flourish. His idea for "They Live Forever" was accepted, much to his surprise, and the program has been scoring a smashing success ever since.

Teichmann's "bread and butter" is now an early morning program, "Stories America Loves", a five-a-week series, dramatizing some of the best known novels of our era. Thus far, "Dodsworth", "The Virginian", and "So Big" have been aired—a far-cry from the usual soap opera variety of programs designed to interest the housewife doing her morning chores.

home at 142 Dunning St. Mr. Zentner is employed by the Celon Co., Madison.

Births

- 1924 To Maj. and Mrs. Louis B. RUTTE, Delafield, a daughter, on Aug. 20, 1941.
- 1926 To Mr. and Mrs. Charles KADING, (Josephine NELSON, '27), Watertown, a son, on Feb. 4.
- 1927 To Mr. and Mrs. Simon HORWITZ, Oshkosh, a daughter, on Jan. 20.
- 1928 To Mr. and Mrs. Irving LUECK, (Esther M. VOLCKMANN, '27), Rochester, N. Y., a son, on Dec. 6, 1941.
- 1929 To Mr. and Mrs. Leo J. KLINGER, Cedar Rapids, Ia., a son, on Feb. 11.
- 1930 To Mr. and Mrs. Leo G. Schmelzer, (Bernice ROWE), Madison, a daughter, on Feb. 23.
- 1930 To Dr. and Mrs. Clair N. SAWYER, (Orphelia CHECK, '25), New York, a son, on Oct. 28, 1941. Dr. Sawyer is an assistant professor of Sanitary Chemistry at New York U.
- 1931 To Mr. and Mrs. Leon PERSSION, (Mary SYLVESTER, '40), Milwaukee, a daughter, on Dec. 23. Mr. Perssion is concert manager for the Pro Arte quartet and a member of the University music school faculty.
- 1932 To Mr. and Mrs. Maynard REIERSON, (Mildred WEBB, '32), Neenah, a daughter, on Jan. 24.
- 1932 To Dr. and Mrs. Hart E. Van Riper, (Mary Virginia SMITH), Silver Springs, Md., a son, Jan. 28.
- 1934 To Mr. and Mrs. Rudolph REGEZ, (Beatrice DONNER, '37), Monroe, a son, on Feb. 4.
- 1934 To Mr. and Mrs. Harold L. LAUTZ, (Lissetta GRAVES, '35), Rhinelander, a son, on Jan. 20.
- 1934 To Mr. and Mrs. Arthur CUISINIER, Prairie du Sac, a son, on Nov. 29, 1941.
- 1935 To Mr. and Mrs. Alfred GOLDEN, (June BAKER, '35), Washington, a son, on Oct. 18, 1941.
- 1937 To Mr. and Mrs. Logan J. SWINEHART, (May-Jean GRIDLEY, '41), Rockford, Ill., a daughter, on Aug. 17.
- 1937 To Dr. and Mrs. Marvin F. GREIBER, Normandale, a daughter, on Feb. 26.
- 1938 To Mr. and Mrs. John GOLEMGESKE, Brooklyn, N. Y., a daughter, on Aug. 6, 1941.
- 1939 To Mr. and Mrs. John J. HUPPLER, (Elizabeth EBBOTT, '39), Niagara Falls, N. Y., a daughter, in January.
- 1939 To Lt. and Mrs. Stanley HERRLING, (Florence EIGHMY, '38), Hattiesburg, Miss., a son, on Jan. 28.
- 1939 To Mr. and Mrs. Robert FADNER, Sun Prairie, a daughter, on Oct. 22, 1941.
- 1940 To Mr. and Mrs. Albert L. PRESTON, (Mary Jane CLARK, '40), Buffalo, a son, on Jan. 10.
- 1940 To Mr. and Mrs. Vincent CIBIK, Fennimore, a son, on Jan. 1. Mr. Cibik is coach at Fennimore high school.
- 1941 To Mr. and Mrs. Henry G. HELMSTETER, Madison, a son, on March 1.

Escapes Jap Traps

ON THE night of December 7, when he heard that the Japanese had attacked Pearl Harbor, Paul S. Hawkins, '37, left Shanghai, where he had been stationed with a branch of the National City Bank of New York, and headed inland, hoping to avoid capture and reach the city of Kinhwa in Chekiang Province. His proposed journey measured only 150 airplane miles, but it was more than a month later when he finally reached his destination.

He hurried out of Shanghai on one of his saddle horses, aided by the blanket of night. He abandoned the horse the next day and joined a band of Chinese guerilla fighters. Dressing in the fashion of a coolie, living and eating with the Chinese, swimming more than 20 streams, hiding out by day and travelling by night, young Hawkins reached his goal. When last heard from, he planned to go on to Chunking and offer his services to the American Military mission there.

Hawkins is the son of Horatio B. Hawkins, '05, and lived in China until he enrolled in the University. He returned to China with George B. Read, '37, to join the National City Bank staff. According to last reports, Read is well and receiving good treatment from the Japanese who now control all of Shanghai.

Deaths

- 1876 Charles L. HUBBS, Lake Mills, editor and publisher of the Lake Mills LEADER for 52 years, died Jan. 19. He had been superintendent of schools at Lake Mills and also superintendent of Jefferson county schools.
- 1876 Mrs. Frank W. HOYT (Mary CLARK), Madison, died Jan. 4. Mrs. Hoyt was widely known in church, social, and artistic circles in Madison. Her husband was former president of the First National Bank.
- 1878 Mrs. Homer W. BINGHAM, (Addie LUDLOW), Denver, Colo., died Feb. 4. She had made her home in Denver for 45 years and during that time occupied an important position in society, club and philanthropic affairs.

- 1879 Carlton MERRILL, Green Bay, who had presided in the Brown county court since shortly after the Spanish-American war, died Oct. 28. He was a lawyer in Green Bay until 1902 when he was appointed county judge.
- 1882 William P. COLLINS, Racine, practicing physician for 37 years, died Feb. 7. He had served as a U. S. medical examiner during the first World War, and at one time was chief of staff at St. Mary's hospital in Racine.
- 1882 Lucy GAY, Madison, emeritus professor of romance languages, who served on the faculty of the University for 50 years prior to her retirement in 1932, died March 24. Through her extensive writings, research and teaching, she gained national recognition as a scholar of old French and French philology.
- 1882 Mrs. Charles A. WILKIN, (Sarah Chambers, Denver, Colo., died in January.
- 1889 Annie A. NUNNS, Madison, assistant superintendent of the State Historical society of Wisconsin, died Jan. 5. Her career began in 1889 when she was appointed library assistant.
- 1893 George H. DAUBNER, Waukesha, died Dec. 28. He had served as city attorney, justice of the peace, alderman and member of the school board.
- 1894 Otto C. LAABS, Milwaukee druggist, died Feb. 6. In 1898 he opened an apothecary shop in Milwaukee. It was recognized by the medical fraternity as one of the most modern and had what many old physicians called the "professional atmosphere" of a scientific laboratory.
- 1895 Michael E. TIERNEY, Westport, died Jan. 11. He served as justice of the peace in Westport township for 45 years.
- 1895 Willis C. COOK, former U. S. minister to Venezuela, died Jan. 5, in New York. He had been publisher of the Sioux Falls (S. D.) DAILY PRESS, and was a South Dakota state senator from 1905 to 1909.
- 1896 Thomas S. THOMPSON, Mt. Horeb, died Jan. 29. He was superintendent of schools for western Dane county for 27 years.
- 1898 Mrs. George S. LOVE (Anna NORMAN), Greens Farms, Conn., died Dec. 15. Before her marriage and until 1926 she taught in the Waukesha public schools.
- 1899 William KITTLE, Washington, D. C., died Jan. 18. He was appointed secretary of the Wis. state normal school regents' board in 1905 and resigned in 1927. Mr. Kittle spent 18 months in London studying manuscripts and historical records before settling in Washington where he began work on a series of monographs on the Elizabethan period in literature.
- 1899 Mrs. Paul V. BACON (Elizabeth KEECH), Wellesley Hills, Mass., formerly of Waupun, died Dec. 17.
- 1901 Byron T. GIFFORD, died in Feb. at his home at Washington Court House, O. He was a consulting engineer and had had offices in Madison for many years.
- 1902 Waldemar C. WEHE, Milwaukee attorney and former member of the Milwaukee common council and school board, died Dec. 10.
- 1902 Mrs. May F. ATWOOD, (Edith FOSTER), Hurley, died Feb. 5. She was a music instructor in the Hurley school system for several years.
- 1903 Augustus M. TOURTELLOTTE, La Crosse, died Jan. 8. He had been in business in Valier, Mont., Williams, Mont., Newport, Wash., and in La Crosse.
- 1903 James F. DOUGHERTY, Wisconsin Dells, died Feb. 7. He had practiced law for 35 years, during the last 10 of which his son had been in partnership with him.
- 1905 Mrs. Carl JONES, (Letta FULLER), Boscobel, died Feb. 11. Prior to her marriage in 1913, she taught in Boscobel high school.
- 1906 Thomas E. VAN METER, Moline, Ill., died Jan. 30. He was in charge of the central employment office of Deere & Co. At Wisconsin, he had been a member of the varsity crew.
- 1907 Thomas A. SANDERSON, Sturgeon Bay, specialist in Marine law, died Feb. 25. He was one of Door county's most public spirited citizens, active in politics and a popular public speaker. He was secretary-treasurer of the Fruit Growers co-

Wins Coveted Trophy

"CHUCK" FENSKE, '38, Wisconsin's great mile runner, now in the air corps at Randolph field, didn't compete in the annual Milrose games in Madison Square Gardens during February, but nevertheless he came into possession of the famous Wanamaker mile trophy.

The cup is awarded every three years to the runner who has won the Wanamaker mile twice, or, if no man has won it twice, to the runner with the best time for the event. No runner had won the trophy two years running so Fenske was awarded permanent possession of the cup on the basis of his record of 4:07.4 in the race several years ago.

Fenske recently gave up a sergeaney in the 135th Medical regiment so he could accept duty with the air corps, even though it meant being reduced to the rank of private.

- operative and vice-president of the Leatham D. Smith Dock Co.
- 1907 Col. Peter M. ANDERSON, retired USA officer, died Jan. 10. He had designed cargo craft for quick building during the first World War and drew plans for a number of buildings in Washington.
- 1908 Newton W. EVANS, Oconomowoc, judge of the western district municipal court of Waukesha county, died Dec. 23. He had been district attorney of the county from 1911 until he was elected municipal judge.
- 1908 William L. BULLOCK, Valier, Mont., attorney, died Dec. 13.
- 1908 Martha Louise VAUGHAN, Wauzeka, died Feb. 6. She was a former mathematics teacher in Madison and Stoughton high schools. The last ten years she lived in Milwaukee.
- 1908 Robert W. HEGNER, Baltimore, Md., died March 12. He was professor of protozoology and head of the department of medical zoology at Johns Hopkins university.
- 1910 Edward Henry SMITH, Milwaukee, died Feb. 2. He was a reporter for state supreme court justices and the Dane county circuit court.
- 1910 Mrs. Herbert A. WALLACE (Una REARDON), Pittsburgh, died Feb. 17. She was formerly of Rhinelander, Wis.
- 1912 Dr. Merle PIERSON, Detroit, Mich., died Jan. 2. She was a member of the staff of the Woman's & Children's Hospitals.
- 1914 Dean K. BRUNDAGE, Arlington, Va., died Jan. 1, at Washington, D. C. He was senior statistician of the U. S. Public Health Service in Washington, Industrial Hygiene Div.; a fellow of the American Public Health Assn., a member of the American Statistical Assn., and author of numerous publications on morbidity and mortality according to occupation.
- 1914 Amos B. KELLOGG, Rapid City, S. Dak., died Dec. 24. He was a native of Elkhorn, Wis.
- 1915 Edgar MELZER, Oshkosh, died Nov. 4. He practiced law in Oshkosh from the time he was admitted to the bar in 1915 until his death. He was an authority on inheritance, probate, estate and corporation tax matters.
- 1915 Thomas L. O'HORA, died suddenly at his home in Cincinnati, O., Dec. 27. He was a chemist, in charge of dyes, at the Cincinnati Chemical Co.
- 1916 Dale A. NEWBURN, Lucerne, Ind., died Nov. 14, 1941, of a heart attack.
- 1916 Joseph W. LEFEVRE, Kaukauna, died March 4. He had served as city attorney from 1918 to 1935.
- 1916 Mrs. David C. MORRIS (Dr. Margaret M. WILSON), Bayside, L. I., N. Y., died March 4.
- 1917 Henry A. YOUMANS, Waukesha, died Feb. 21. He was editor and publisher of the Waukesha DAILY FREEMAN since 1930. He had been associated with the FREEMAN since 1919, when he joined the editorial staff as a reporter.
- 1917 Frank A. BORCHERT, prominent Sturgeon Bay business man, died Jan. 7. He was manager of the Door theater and owned and operated a large farm north of Sturgeon Bay.
- 1918 Morgan E. ROBERTS, Ft. Worth, Tex., died Dec. 31. He was a geologist with the Pure Oil Co., and had spent some time prospecting in Spanish Morocco with the Royal Dutch Shell Co.
- 1918 Sadie E. HOOD, teacher of English in the Racine high school for 15 years, died Jan. 6.
- 1919 Paul R. KENTZLER, formerly of Madison, died Dec. 31 at Davenport, Ia. He had been associated with the Standard Oil co. of Ind. A lieutenant in World War I, he was vice-president of the Fox Motor Co. until 1929 when he joined the Standard Oil Co. at Joliet, Ill.
- 1920 Arthur J. LONSDORF, Iron Mountain, Mich., died March 4. He was the first county agent of Florence County and for the past 19 years county agricultural agent for Dickinson county.
- 1923 George W. BLISS, Mineral Point, died Dec. 5. He was employed in the Wis. Power & Light co. office.

The Japs in 1909

BACK in 1909 members of the University of Wisconsin baseball team made a peaceful invasion of Japan, playing 15 games with Japanese colleges and winning 8 of them. Recalling the events of this trip, John Messmer, '09, superintendent of public construction for Milwaukee county, was quoted last month in the Associated Press as saying:

"If the Japs today are anything like they were then, you've got to credit them with an almost fanatical desire to win. They showed us grand sportsmanship, but on the playing field there wasn't a man of them who would give up before the last player was out. One game went 21 innings before the first score. More than half the games were extra inning affairs.

"At one dinner a Japanese talked to us for two hours on American railroads. Without once referring to notes, he cited the mileage of the systems and their hauling power and discussed their importance to America in peace and war times. He knew more about the Green Bay and Western Road than we did. That was 33 years ago."

- 1925 Howard W. DUMMER, Manitowoc businessman and prominent for years in church and Kiwanis club activities, died Dec. 28.
- 1925 Clarence M. BRESLAUER, Milwaukee, died Feb. 17. He was affiliated with the E. C. Kropp Co., manufacturers of post cards.
- 1927 Maj. Austin A. STRAUBEL, Green Bay, was killed in action in the East Indies battle area. His mother was advised of his death by the War Dept. in Feb. His wife last heard of him from Java. Maj. Straubel joined the air corps in 1928.
- 1927 Ned E. HARTWIG, Monroe, Wis., was shot and killed in his home March 2, by a mysterious killer. He was a well known Monroe cattle buyer.
- 1928 Osear P. SPIELMANN, Park Ridge, Ill., died of coronary thrombosis on Jan. 24.
- 1930 Louise McKENZIE, Black Earth, village treasurer, died March 8.
- 1931 Lyman A. MULLEN, Deerfield, died Oct. 25. He had practiced law in Deerfield since his graduation from the University.
- 1935 David C. TEAGUE, formerly of Beloit, died Feb. 2 in New York City. He was employed in the publicity dept. of the Columbia Broadcasting system.
- 1936 Lt. Melvin W. SCHOEPHOESTER, formerly of Baraboo, died in an army plane crash in Conn. on Feb. 11. He had been a photographer with an observation squadron.
- 1936 Grant WOOD, Iowa City, Ia., an art professor at the University of Ia., died Feb. 12. He was awarded an honorary degree at the University in 1936 and was held in high esteem by Wisconsin as he was a member of the triumvirate responsible for regional art, of which John Steuart Curry was a member.
- 1936 Loren L. BRINDLEY, Richland Center, attorney, died March 13.
- 1937 Martha M. BERRY, Mt. Berry, Ga., died Feb. 27, at Atlanta, Ga. She received an honorary degree of doctor of laws from the University in 1937 for her work as founder of the Berry Schools at Rome, Ga., for southern mountain children.
- 1939 1st Lt. LaVern L. WADE, Milwaukee, was killed in action in the Philippine Islands, Dec. 30, his mother was informed by the War Dept. Lt. Wade entered military service immediately after his graduation from the University.
- 1939 Stanley S. PHELPS, Markesan, died Feb. 7. He was manager and secretary of the River View Canning co., and vice-president of the Markesan Canning co.
- 1939 Virgil D. JACKSON, formerly of Madison, died Feb. 14 in Milwaukee.
- 1940 Lt. Walter C. BOYLE, La Crosse, was killed in an airplane crash Feb. 12, it was announced by Army officials at Bradley Field, Windsor Locks, Conn.
- 1940 Lt. James R. CALDWELL, Lodi, was killed in action in the Philippine Islands on Jan. 16. After graduating from the University he enlisted and completed training at Mich. He served in Denver, Virginia, the Hawaiian islands and at Nichols field in the Philippines.
- 1940 Raymond W. MIESKE, Milwaukee, died Dec. 27 at Alexandria, La. He was a private stationed at Camp Livingston.
- 1941 Corp. Vernon A. LEARMAN, Baraboo, died Jan. 17 in an army plane crash near a Pendleton, Ore. air base. He had been stationed at Lowry Field, Denver, Colo.
- 1941 Robert H. HARDER, Milwaukee, died Jan. 24 of injuries received in an automobile accident. He was employed as dairy laboratory technician at the Rochelle Milk co., Peoria.
- 1942 Charles W. LINES, DuBois, Pa., died Jan. 8, as a result of an automobile accident near Oxford, Miss. He was a graduate student and fellow in botany at the University.
- 1942 Janet B. HERMANN, Excelsior, Minn., died Nov. 8, in an auto accident on the Middleton Rd. She was a member of Kappa Alpha Theta sorority and a home economics senior at the University.

Mrs. Gath Retires

BEFORE the turn of the 20th century, an 18-year-old girl with indomitable energy opened a rooming and boarding house for University students on lower State street. Now nearing 65, the "girl" retired on March 1, after managing student rooming houses for more than 47 years. She is Amelia C. Gath, '00, for 20 years proprietor of Ye Gath Inn, popular dining place for University students, townspeople, and faculty members from 1898 to 1918, and more recently an operator of a rooming house at 151 W. Gilman.

The veteran landlady conceived the idea of opening a boarding house while she was a student in the University. The oldest of six sisters, she realized as she neared the end of her sophomore year that there were no funds to continue her education. Her classmates had told her of their difficulties in finding attractive places to room and eat. So after discussing the idea with her mother, she rented a dwelling at 522 State street and opened her first boarding and rooming house in 1895. Business prospered and she rented a larger house in the 200 block on Langdon the next year. She moved to 636 N. Francis street in 1898.

Ye Gath Inn was named by Miss Abby Marlatt, recently chairman of the Home Economics department and one of the star boarders at the Inn for many years.

Woman's War

(Continued from page 203)

tients. Next she went to St. Mary's hospital in Detroit, to take charge of the dietetic department. There she organized a student dietetic training course, which, through her efforts, was given the official approval of the American Dietetic Association.

Her next position was with the General Foods Corporation in New York City. She experimented with quantity cookery in their well-equipped laboratories, and had the opportunity to work with Bertha E. Nettleton, internationally recognized authority on recipes for large institutions. It was tremendously interesting to her and naturally contributed a great deal to her present status as an authority on quantity cooking.

Early last summer her lawyer husband was sent to Washington, D. C., to represent his New York firm. Meryl Pickering Stone went along. She didn't join the army until December, you remember, so she spent the intervening months obtaining more experience as teacher and lecturer by talking about the science of dietetics to womens' clubs in the national capital.

Her career in the food field is noteworthy. Meryl Pickering Stone, working in Washington on a job that she likes better than any she's had, is adequately and scientifically feeding the country's largest single mass eating unit, the selectees cantonment. And back here in Wisconsin, former teachers and old friends feel sure that her invaluable help will give the soldiers well-balanced and calorically correct menus — the best in the world.

Portland, Oregon

MEMBERS of the Portland club celebrated Founders' Day at their February 28 meeting at the Heathman hotel. Besides plenty of good music in which many Wisconsin songs were sung, the club had as speakers Dr. Calvin Crumbaker, Ph. D. '30, professor of Economics; Dr. N. H. Comish, M. S. '15, professor of Business Administration; and Dr. Earl M. Pallett, '21, executive secretary, all of the University of Oregon.

Because of vital interest in the question of removing aliens from West coast localities, the club also heard a talk by Herbert Roach, field investigator of the Congressional House Committee of Alien Migration.

At the conclusion of the talks, a film, "A Day at the Memorial Union" depicting the

everyday happenings in the Union on the Wisconsin campus, was shown. The members of the club found this film to be so interesting that they petitioned the University to prepare another, more up-to-date filming of the present campus.

Pensacola

WITH only six permanent residents as a nucleus, the alumni living in and about Pensacola, Florida, have organized the youngest, and probably smallest, of the many alumni clubs. There are scores of Wisconsin alumni who are located at the Naval Training Station at Pensacola during the course of a year and it is the intention of the permanent residents of the city to get together with these service groups for an occasional meeting. A picnic is planned for May 3, and persons responsible have been appointed.

Officers of the new club are Sheldon T. Gardner, '31, chairman, and Mrs. Allen Magee, '31, secretary.

St. Paul

THE St. Paul alumni club held its Founders' Day meeting on February 4 at the home of Mr., '16, and Mrs., '18, D. B. Morris. Dr. E. C. LeFort, M. A. '25, M. S. '27, now professor of Romance Languages at the University of Minnesota, gave a very interesting talk, illustrated with colored motion pictures, of his travels in the South American republics. The following officers were elected for the coming year: Victor Feit, '12, president; Mrs. R. F. McCubbin, '22, vice-president; Rudolph E. Low, '28, secretary; and Oscar Hallam, '87, treasurer.

Fond du Lac

THE far-reaching effects of the campus-wide defense program were described to the members of the Fond du Lac alumni club by Extension Division Dean Frank O. Holt at their Founders' Day meeting on February 11. The dinner meeting was held in the Retlaw hotel and was attended by a group of approximately 50 alumni.

At the conclusion of Dean Holt's talk, the members tuned in on the state-wide broadcast sponsored by the Alumni Association. Mrs. John Tonjes was in charge of the meeting.

Elected president of the club for the coming year was Erwin Weinke, '28, and as secretary-treasurer, Mrs. Kenneth Worthing, '26.

Committee Personnel

EXECUTIVE—A. J. Goedjen, '07, chairman; C. F. Van Pelt, '22; Philip H. Falk, '21; F. O. Holt, '07; Mrs. Hugo Kuechenmeister, '13; Mrs. Lucy R. Hawkins, '18; Dr. Gunnar Gundersen, '17.

MEMBERSHIP—A. J. Goedjen, '07, chairman; all members of the Board of Directors.

CONSTITUTION—Myron T. Harshaw, '12, chairman; Franklin L. Orth, '28; Asa G. Briggs, '85; Ernst von Briesen, '00; Charles L. Byron, '08; Rubens F. Clas, '14.

LIFE MEMBERSHIP FUND—Dean F. O. Holt, '07, chairman; A. J. Goedjen, '07; L. M. Hanks, '89.

STATE RELATIONS—Dr. Gunnar Gundersen, '17, chairman; Harry W. Adams, '00; Dr. James P. Dean, '11; Harlan B. Rogers, '09; Jerry Donohue, '07; Joseph W. Jackson, '02; William D. Hoard, Jr., '21; Charles B. Rogers, '93; Ben F. Faast, '09.

SCHOLARSHIP—Judge C. F. Van Pelt, '22, chairman; Mrs. L. D. Barney, '27; William N. Smith, '97; Claude S. Holloway, '05; Robert B. L. Murphy, '29; Ray Black, '41; Richard S. Brazeau, '36; Dr. Sam Boyer, '29; Philip H. Falk, '21; John Archer, '40; H. E. Broadfoot, '17.

MAGAZINE—Mrs. Lucy Rogers Hawkins, '18, chairman; Mrs. O. E. Burns, '11; George L. Ekern, '28; Mrs. H. V. Kline, '36; Donald L. Bell, '25; Arthur Towell, '23; Wallace Meyer, '16.

ATHLETIC—Arthur E. Timm, '25, chairman; Dr. Sam Boyer, '29; Robert Wiley, '22; Dr. H. M. Stang, '16; Dr. Merritt L. Jones, '12; Karl Hagemeister, '30; H. F. McAndrews, '27; Judge C. F. Van Pelt, '22; Earl O. Vits, '14; Dr. A. R. Torney, '14; Walter Weigert, '30; Guy S. Conrad, '30; George B. Nelson, '29; William H. Craig, '05.

ALUMNI AWARDS—F. H. Clausen, '97, chairman; Walter Alexander, '97; Mrs. Hugo Kuechenmeister, '13; Mrs. C. R. Carpenter, '87; Judge Evan A. Evans, '97; Harry A. Bullis, '17; A. M. Keszenich, '16.

GIFTS AND BEQUESTS—Howard T. Greene, '15, chairman; Howard I. Potter, '16; John S. Lord, '04; A. J. Goedjen, '07; George I. Haight, '99.
