MINUTES OF THE REGULAR MEETING

of the

BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM

Madison, Wisconsin

Held in the Clarke Smith Room, 1820 Van Hise Hall Friday, April 11, 1986 9:00 a.m.

- President Lawton presiding -

PRESENT: Regents Clusen, Fish, Gerrard, Hanson, Heckrodt, Knowles, Lawton, Nikolay, O'Harrow, Saunders, Schenian, Schilling and Weinstein

ABSENT: Regents Finlayson, Grover, Vattendahl and Veneman

Upon motion by Regent Nikolay, seconded by Regent Saunders, the minutes of the regular meeting of the Board of Regents of the University of Wisconsin System, held on March 7, 1986, were approved as mailed to the members of the Board. , Regult Flomas X, - Introduction to Board as Regul-Designate, to succeed Regul Pussed O'Hanno a 5/1/86, p.1

REPORT OF THE PRESIDENT OF THE BOARD

Introduction of Regent-Designate Thomas Lyon

Regent President Lawton introduced Mr. Thomas Lyon, of Shawano, who had been appointed to the board to succeed Regent Russell O'Harrow, whose term was to be completed on May 1, 1986.

UN Hopital - Council of Trustees, UW Hospital and <u>Report of the Vice Chairman, Council of Trustees</u>, UW Hospital and <u>Clinics</u> For surgery & rodiclogy & proving need for

<u>Clinics</u> Summarizing the council's April 10 meeting, Vice Chairman Heckrodt strends reported first that patient activity through February showed a slight strends downward trend from previous months. The number of surgical procedures was pp 1-2

ahead of last year, due in part to a 10 percent increase in ambulatory surgery over the previous year and a 25 percent growth in the last two years.

In response to a question by Regent Lawton, Regent Heckrodt explained that the leveling off in numbers of bed-days followed an unanticipated increase in December and January.

It was reported to the council that budget preparations for 1986-87 were underway, with indications pointing toward need for a rate increase during the fiscal year.

In response to patient demand, the hospital opened a women's health center at 6602 University Avenue. Among the services currently available were general internal medicine, obstetrics, gynecology, and nutrition/fitness counseling.

The council was given an update on the hospital's proposal for a joint venture with the other Madison hospitals to acquire a lithotripter for treatment of kidney stones. This plan had been approved by the Board of Regents in March. The proposal was progressing on schedule, with expectation that the equipment would be installed in the Veterans Administration Hospital by the first quarter of 1987.

A status report on plans for two new modules for the hospital was presented by Dr. Jay Noren, Acting Vice Chancellor for Health Sciences, who noted that the modules, one for surgery and one for radiology, were needed to meet increased demand for services and to consolidate facilities. Both projects were on schedule, although the surgical module would need special legislative approval in order to be completed by the earliest possible date.

The council received a report on the hospital's Neurology Department, in which many changes were occurring as a result of technological advances. Among new programs being developed were an epilepsy center and a sleep disorder center. A report on the Department of Pediatrics identified five areas of expansion, including the regional pediatrics intensive care service, pediatrics cardiology, and an emphasis on adolescent medicine.

A presentation was made to the council on the hospital's growing need of accommodations for relatives of patients who were seriously ill and hospitalized for extended periods. It was noted that demand for low-cost housing close to the hospital was outgrowing space in the Friedrick Center. While fundraising programs were helping to subsidize rooms now available, it seemed unlikely that more rooms could be acquired.

In response to a question by Regent Lawton, Regent Heckrodt explained there had not been further discussion of prospects for a Ronald McDonald house because the arrangement with the Friedrick Center had been working well. The problem occurred during times when space in the center was occupied by conferences and there was not enough room for use by patients' families. Alternatives for meeting demand during these peak periods were to be considered.

Board of Regents Meeting 4/11/86 VTAE Board - for and adaptement of credit transfer - fim VTAE Report of the President of the State VTAE Board development, recommenda-up on increasing state

Reporting on the March 26 meeting of the State VTAE Board, Regent and Saunders summarized three items of particular interest to the UW System. First, the VTAE Board unanimously endorsed a proposed resolution on transfer of credit from VTAE to UW institutions. This was one of the resolutions before the Regent Study Group on the Future of the UW System. concerning hagent O'Hann' about VTAE / UW Steman aquement on deleptication

Secondly, the VTAE Board received an update on Commission '85, a task force charged with producing a statewide plan for economic development, which would identify new areas of cooperation and reaffirm existing linkages \wp , \Im among business, industry, labor and the VTAE System. The board then charged staff to review the current economic development policy for possible modification, including new cooperative efforts with the UW System.

Finally, the VTAE Board received the report of a study committee which recommended that the 1.5 mill levy limit should remain in effect and that the level of state aids should be increased to 50 percent. Final recommendations were to be presented for board action at the May meeting.

Regent O'Harrow commented that there was some perception among county board members and legislators that tax funds were being used to provide duplicative services by the VTAE System and UW-Extension. In his view, the joint agreement between the two systems failed to address the real issue. While economic conditions resulted in upgrading the caliber of personnel in the private sector due to intense competition for jobs, he felt such competition was lacking in the UW and VTAE systems -- a situation which promoted negative perceptions of both systems by the public. Expressing his hope that the VTAE Board and the Board of Regents would address that issue, he said "the solution of dividing the territory is the poorest one and would not last five minutes in the private sector, where there would be charges of collusion or monopoly. It is not a good policy in my judgment." Collusion or monopoly. It is not a good policy in my judgment." Collusion or monopoly. It is not a good policy in my judgment." Collusion or monopoly. It is not a good policy in my judgment." Collusion or monopoly. It is not a good policy in my judgment." Collusion or monopoly. It is not a good policy in my judgment." Collusion or monopoly. It is not a good policy in my judgment." Collusion or monopoly. It is not a good policy in my judgment." Collusion or monopoly. It is not a good policy in my judgment." Collusion or monopoly. It is not a good policy in my judgment." Collusion or monopoly. It is not a good policy in my judgment." Collusion or monopoly. It is not a good policy in my judgment." Collusion or monopoly. It is not a good policy in my judgment." Collusion or monopoly. It is not a good policy in my judgment." Collusion or monopoly. It is not a good policy in my judgment." Collusion or monopoly. commercialo a public TV and

Making her first report as a member of this board, Regent Clusen noted nadie that the ECB was charged with operating the state's public radio and television networks, and that the UW System had been represented previously $p \gtrsim 3-4$ on that board by Vice President Bornstein. The 1985-87 biennial budget act had changed the composition of the ECB and added a representative of the Board of Regents. She had been appointed by President Lawton for a four-year term and served on the programming committee. The ECB schedule was for committees to meet one month and the board to meet the next month, with no meeting the third month.

Calling attention to topics of particular interest, Regent Clusen reported that the ECB had purchased the building, located on the West Beltline Highway, in which the agency was housed. The ECB previously had rented a major part of the building. Queser, Regut Putt C. - First reput as request Commenceation Board, pp 3-4

Noting that like all other state agencies, the ECB was required to cut its budget, she said these reductions would have an impact on the UW-Green Bay and UW-Stout teleproduction centers, which probably would be able to do less local-origin programming, and there was concern in the two communities about more centralization of programs emanating primarily from Madison. UW-Extension was to work with the institutions involved in making decisions about the budget cuts.

_ A

Regent Lawton commented that he was distressed by the continuing increase in commercial advertising on public stations.

Although she felt the ECB would agree on a philosophical basis that this trend should not be encouraged, Regent Clusen noted that money from sponsors was very much needed. While those who funded radio and television programs formely were satisfied with a dignified notation of their contribution, they now seemed to want greater recognition.

Interpreting the situation another way, Regent Heckrodt felt the stations might be increasing recognition of sponsors in the hope of soliciting more contributions.

Vice President Bornstein added that regulation of this area by the Federal Communications Commission had been vague but now was becoming more explicit, with fines being levied against some stations. While there had been a problem with lack of uniformity throughout the country, he felt it was possible to reach a happy medium whereby attribution to an underwriter would be provided without crossing the line into explicit advertising.

Noting that there had been a proposal some time ago that the Board of Regents surrender its public radio and television licenses, Regent Fish asked if there were any further developments concerning that issue.

In reply, Mr. Bornstein said the question seemed closed at this point, with no further initiatives coming forward from the state executive branch. Concerns leading to that proposal had been addressed by broadening representation on the ECB.

Regent Clusen added that the Secretary of the Department of Administration was now an active member of that board. Rosay Kovaring Boardes - Report by Degent Clusen on March 16-18 cohference, pp 4-5

Report on Association of Governing Boards Conference

Reporting on the March 16-18 conference, Regent Clusen referred to two documents which had been distributed to the regents, the first being a newspaper account of a controversial speech given by the Secretary of the Department of Education, and the second being a compilation of survey results on the composition of governing boards.

She considered a high point of the conference to have been presentations by such major speakers as John Gardner, who gave a thoughtful

statement focusing on the need for colleges and universities to do more to train new leaders for the country. The best speech of the conference, she felt, was given by Clark Kerr, who reported on his second volume about the presidency. In it, he quoted UW-Madison Professor Joseph Kauffman, a leading national expert on the presidency and the presidential search process.

Approximately 1,500 people attended the conference, with more representatives from private than from public institutions. One of the most interesting aspects of the conference, Regent Clusen remarked, was having the opportunity to talk with members of other governing boards. She came away with the feeling that the UW System was unlike any other, although there were certain points of similarity with some other systems. Because of that difference, she found much misunderstanding about the UW System and how it was operated.

Expressing disappointment that there was little common meeting ground even in small-group sessions on multi-campus systems, she noted that the leaders of one such session exhibited a strong bias in favor of coordinating boards and against system governing boards. Another problem with the conference, she observed, was that the panels involved too much speech making and not enough well-led discussion.

Noting that conference participants came from 49 states and all but one of the Big Ten universities, Regent Clusen commented that it was useful for the UW System to be represented at such a gathering and that the AGB was making an effort to become more oriented toward public universities. ig Ven Colleges - Remaden of September & Realing Meeting of Big Ten Regents of Dig Ven relegente in Bloomington

Regent Clusen called attention to a memorandum sent to all regents by Secretary Temby, concerning the meeting of Big Ten regents to be held in Bloomington, Indiana, on June 1 and 2, 1986. Urging members of the board to attend this meeting, she observed that it was with these boards that the UW System board had most in common in terms of size, geography, financial problems and other issues -- in spite of the fact that some of the Big Ten boards represented single campuses. Those regents interested in attending were asked to advise the secretary by April 18.

Commission on the Future of State Colleges and Universities

Regent Clusen reported that she and Regent Schenian would be attending a hearing by the commission, of which she was a member, to be held in Chicago on April 13 and 14. Hann, Regul Russell - Resolution / appreciation Hann, Regul Russell - Resolution / platus, R 3487,

Resolution of Appreciation to Regent Russell O'Harrow

Regent Hanson presented the following resolution and moved its adoption. The motion was seconded by Regent Weinstein and unanimously voted with a standing ovation for Regent O'Harrow.

Whereas, on May 1, 1986, Russell J. O'Harrow will Resolution 3487: complete his seven-year term as a member of the Board of Regents of the University of Wisconsin System; and

> Whereas, a valuable dimension has been added to the Board by his knowledge and perspective based on 40 years of experience in farming and many years of leadership in agricultural and educational organizations; and

Whereas, the diligent service he rendered as a member, vice-chairman and chairman of the Physical Planning and Development Committee has significantly benefited the University of Wisconsin System; and

Whereas, Regent O'Harrow's interest in furthering the Wisconsin Idea and the university system's outreach mission was demonstrated particularly in his chairmanship of the Special Regent Committee whose recommendations brought about a landmark reorganization of the UW System extension function; and

Whereas, his concern for the future of Wisconsin agriculture and the family farm prompted him to promote energetically the universities' role in helping to maintain the competitiveness of the state's agricultural economy; and

Whereas, in addition to participating in numerous university functions, he generously devoted further time and effort to organizing tours and other activities designed to enhance public knowledge of university facilities and services;

Therefore, be it resolved that the Board of Regents hereby commends Russell J. O'Harrow for his special contributions to the University of Wisconsin System and, with deep gratitude for his dedicated service, grants to him as of May 1, 1986 the status and title of Regent Emeritus.

Meneman, Regent General - Resolution of appreciation + Regent Emeritus status, R=34/88, pp 6-7

Resolution of Appreciation to Regent Gerard Venemar

Regent Schilling presented the following resolution and moved its adoption. The motion was seconded by Regent Heckrodt and unanimously voted, with a standing ovation for Regent Veneman.

Resolution 3488:

Whereas, Gerard E. Veneman has served meritoriously as a member of the Board of Regents of the University of Wisconsin System since his appointment in 1979; and

Whereas, this meeting marks the completion of his seven-year term of office as a Regent; and

Whereas, he brought to the Board valuable managerial and financial expertise, based on his career as a top-level corporate executive; and

Whereas, his wealth of knowledge and experience were of particular benefit to the Business and Finance Committee, on which he served as a member, vice chairman and chairman; and

Whereas, he also chaired special regent committees, including Regent Selection Committees for the positions of Vice President for University Relations and Vice President for Business and Finance; and

Whereas, Regent deliberations have been enhanced by the sound judgment and good counsel he provided;

Therefore, be it resolved that the Board of Regents of the University of Wisconsin System hereby recognizes Gerard E. Veneman for the significant service he has rendered to public higher education in Wisconsin; and

Be it further resolved that with great appreciation for his many contributions to the University of Wisconsin System, the Board of Regents grants to him the status and title of Regent Emeritus.

REPORT OF THE PRESIDENT OF THE SYSTEM

Report of non-personnel actions/informational items

Regent Fish moved and Regent Heckrodt seconded Resolution 3489, which was adopted unanimously.

Resolution 3489:

489: That the report of non-personnel actions by administrative officers to the Board of Regents and informational items reported for the record (copy on file with the papers of this meeting) be received for the record; and that actions included in the report be approved, ratified and confirmed. Board of Regents Meeting 4/11/86 Regul - Presentation - Presentation on Project - 8 Presentation on Project Success, UW-Oshkosh Presentation on Project Success, UW-Oshkosh

Introducing the presentation, Chancellor Penson noted that Project Success was a program of treatment and education for adults with dyslexia--a learning disability which until recently was considered by many to be virtually untreatable. What Project Success proved was that dyslectic students not only could learn but could learn well.

In these days of assessing the quality of a university by applying the concept of value added, the chancellor observed, Project Success provided an excellent example of high quantity of value added between admission and graduation. When the university admitted dyslectic students (who were frequently in the lower 35 or 40 percent of their classes) and graduated them in the top 30 percent, the value added was both electrifying and gratifying. Noting that UW-Oshkosh was one of five universities in the country to sponsor such a program, he said there was much work to be done to generated throughout the country to address dyslectic problems at an earlier stage. -OALASL - Presentation to the found on Project Success, prepare teachers for all levels of education so that programs could be

The chancellor then introduced Dr. Robert Nash, director of Project pp 8-10 Success. Dr. Nash and his students had been featured in the New York Times, with a glowing tribute to the program. He also had been interviewed recently by Time magazine. A dyslectic himself, Dr. Nash knew first-hand the frustration and effort involved in overcoming that condition. His students saw the respect he earned from his colleagues and learned that there were many fewer limits to what they could do than they had first believed.

Dr. Nash described the Project Success program which was in the College of Education and Human Services at UW-Oshkosh. Beginning in September 1979 with six students, the program now served 132 students from 18-20 states. While applicants were assessed for eligibility by Project Success personnel, their involvement in the program was dependent upon admission to the university itself.

Participants began their university work in the summer, during which time they took a language remediation course. For the first academic year, they were given five hours of individual tutoring per week, the number of hours being steadily reduced to none during the following two or three years. The intent of the project was to provide remedial training rather than simply to provide assistance, and the goal was for students to become language independent.

Noting that the concept of dyslexia as a congenital condition was first introduced to the United States medical field in 1928, Dr. Nash explained that the condition was defined as a deficit in integration of various language functions. The language functions that could be affected were reading, spelling, and using syntax while talking, reading, writing and thinking. In 1933, a manual of educational instruction on remediation of dyslexia was published. The National Dyslexia Society was later incorporated, with the goal being study and treatment of the condition.

Indicating that treatment was given primarily by private tutors, Dr. Nash said acceptance by public schools and teacher training institutions of the concept of dyslexia remediation still was not a reality. It was this lack of attention to dyslexia that made Project Success an all-but-unique program with a two- to three-year waiting list.

There was a need to serve dyslectic and other language-handicapped individuals at the college level, Dr. Nash continued, because of the many students of this type who were inefficiently educated at earlier stages. Estimates of the number of illiterate, functionally illiterate, learning disabled and/or dyslectic individuals varied from a low of 24-26 million to a high of 72 million in the United States. However, he said, the majority of teacher training institutions did not prepare either regular or special education teachers to deal efficiently with the language needs of these people.

Dr. Nash then introduced three Project Success students: freshman Patrick Quaintance, freshman Robin Lampert, and senior Erv Carpenter.

Mr. Quaintance said his inability to read and spell resulted in deep frustration and subsequent behavior problems. At the age of nine, he started to use alcohol and drugs as a way of dealing with his unhappiness. At no time in grade school or high school was it recognized that he had a learning disability, and he graduated from high school without being able to read. He found a factory job, but low self esteem affected his attitude, causing him to be fired.

It was after this episode that a friend referred him to Project Success. Stating that the program had given him a grip on his life, he said that although learning to read and spell still was not easy, he now understood his disability and his self esteem was returning with time.

The next speaker, Ms. Robin Lampert, said her parents were advised when she was four years old that she would always have difficulty talking, and she received speech therapy at age five. In third grade, she was diagnosed as learning disabled and placed in a special program, the goal of which was to catch her up to her peers in reading and spelling. However, her first special education teacher did not remediate, but instead she gave her first grade course material to cover again.

In sixth grade, a different special education teacher used the Orton-Gillingham method, and her reading level advanced three grades in one year. In junior high school, however, she did not receive the same type of effective help and did not make rapid progress. In high school, special education teachers encouraged her to take non-academic classes, to use tapes for the blind and simply to accept her inability to read. She was told that going to college was not a realistic goal.

Even so, she persisted and was accepted into Project Success. During summer school at UW-Oshkosh, she did not realize how much her reading was improved until she got home and found that she could read a newspaper. "Robin Lampert, the one could never read anything--I was reading the

- 9

Wall Street Journal!" Now that she understood her disability, she realized that she was not prevented from accomplishing what she wanted in life.

Describing his experience, Mr. Carpenter compared illiteracy to an anchor that restrained an individual at the bottom of the social ladder. After dropping out of high school at the age of sixteen, he joined the army, from which he was medically retired in 1982, after 14 years of service. At that time, he became desperate because he did not know how he could support his family without being able to read, spell or do mathematics. His wife convinced him to use his VA benefits for college, but his first semester at UW-Oshkosh was a failure, even though he studied very hard. Comparing his experience to the ease with which others learned only reconfirmed his feeling of stupidity and led him to contemplate suicide.

He then was referred to Dr. Nash, who diagnosed his disability and accepted him into Project Success. "The anchor was finally broken," he said, "I wasn't stupid; I was just dyslectic." In the next four years, his life changed completely. Now only two semesters from graduation, he planned a career as a special education teacher, using Dr. Nash's remedial process to help as many students as he could.

Regent Lawton thanked Dr. Nash and his students for their inspiring presentation.

Regent Clusen asked if it was difficult to diagnose dyslexia.

Dr. Nash replied that there was much ignorance about dyslexia, but that the diagnosis itself was not extremely difficult.

In response to a further question by Regent Clusen, Dr. Nash indicated there were 40-50 people on the Project Success waiting list and that there was no similar program in Wisconsin to which they could turn.

If funding were adequate, Regent Fish asked if faculty could be found to teach that many additional students, and Dr. Nash answered in the affirmative.

In response to a question by Regent Knowles, Dr. Nash said the Project Success staff consisted of two faculty, a secretary, and 45-50 student tutors. While the student tutoring was on a one-to-one basis, the language remediation was a group class experience.

Regent Saunders inquired as to the percentage of people with dyslexia in the general population.

Dr. Nash replied that evidence indicated 7-10 percent of the population were dyslectic.

Personnel - Reput by Pres, Ahur a progress of Report on Personnel Matters Scarches, p. 11

Advising the board as to progress of ongoing searches, President Shaw noted that the position of vice president for physical planning and development had been advertised in The Chronicle of Higher Education, with a May 5 deadline for applications. He planned to consult with Chairman Heckrodt of the Physical Planning and Development Committee, as well as others, before bringing a recommendation to the board.

In the search for a vice president for academic affairs, the deadline for applications was March 31, and the Search and Screen Committee, chaired by UW-Madison Professor M. Crawford Young, was in the process of evaluating candidates. The president expected to have both vice presidential searches completed in June.

On April 7, he met with the Search and Screen Committee for the position of chancellor of the UW Centers, chaired by Professor Dion Kempthorne of the Washington County Center.

Reporting that search committees for chancellors at UW-Milwaukee and UW-Green Bay were nearing the end of their work, the president said he expected to make recommendations to the board this spring for appointments

Vw center - marshfuld / ord county - Ennouncement by Pres, that that President Shaw introduced Dr. Nancy Aumann, who was to take office on July 1 as Dean of the UW Center-Marshfield/Wood County. Currently serving as associate academic dean and associate professor of history at Bethany College in Kansas, she received both her master's and Ph.D. degrees in

UW Central European history from UW-Madison. UW Central Finally, the president reported that Dean Rue Johnson, of the Standard resign UW Center-Fox Valley, had announced his resignation effective on June 30, 7 1987. He thanked Dr. Johnson for his many contributions to higher effective education, to the state, and to the region he served. It was expected that 6/3d/87the board would be asked in May for authorization to begin a search to fill the board would be associated in the position. that position. that position. that effect anning in Business administration - Review of committees works. Final report <u>Report on Progress of the Steering Committee for Strategic Planning</u> due spring 91483

President Shaw noted that near the end of the last academic year, a steering committee for strategic planning in business administration had pp pr = 12been appointed to determine the current state of business administration programming in the system and to make recommendations for the future. The committee's final report was due in the spring of 1987. The first year's activities were concentrated on gathering information and study of national trends and creative ideas from across the country. The committee had met with UW System business dean and chairpersons, as well as with representatives of major statewide business associations, to gather as much information as possible about current practices.

The year's work was to culminate in a conference sponsored by the Johnson Foundation at the Wingspread Center in Racine. Entitled "Business and Education," the conference was to feature five national experts on the various aspects of business education, who would present discussion papers to an audience of business, academic, state government and community people. The speakers were: Dr. Richard Cyert, President of Carnegie-Mellon, who was to comment on the new technology and business programming; Dr. Harold Hodgkinson, Senior Fellow at the American Council on Education, whose topic was strategic planning and business programming; Dr. Ann Howard, Director of Human Resources Research for AT&T, whose topic was career patterns in a major corporation; Dr. Gilbert Whitaker, Dean of Business at the University of Michigan, whose topic was the business curriculum; and Dr. Jerry Zoffer, Dean of Business at the University of Pittsburgh and president of the accrediting agency, AACSB, whose topic was qualities of a good business program. The steering committee intended to use the proceedings of this conference as a major portion of the advice it received for the second half of the study, which was to focus on future directions and recommendations.

President Shaw observed that he wished to draw attention to this study as a good example of the strategic planning process.

Report of the United Council of UW Student Governments - Review y Gundla activities & introduction of Buyes Volepee, President as of Ms. JoAnna Richard, President of United Council, reported that the Council was to hold a rally in Madison against federal financial aid cuts, with students from throughout the state participating in one of the largest activities of its kind in the nation.

At the April United Council meeting, there would be a public hearing on tuition, testimony from which would be compiled for the Regent Study Group on the Future of the UW System. While there was concern about decisions being made by the study group during the summer, when few students were on campus, Ms. Richard felt the two-reading format for study group resolutions would provide adequate time for reaction.

Reporting that on April 26 United Council would give awards at its end-of-the-year banquet at UW-Green Bay, Ms. Richard noted that Regent President Lawton had agreed to be one of the presenters, and that other regents, chancellors and deans of students also would participate.

Ms. Richard introduced Bryce Tolefree, of UW-Oshkosh, who had been elected President of United Council effective June 1.

On behalf of United Council, Ms. Richard expressed appreciation to Regent O'Harrow for the caring attitude toward students he had conveyed as a member of the board.

In conclusion, Ms. Richard announced that UW-Platteville students had voted in a recent referendum to join United Council.

Noting that the Business and Finance Committee was charged with making recommendations on tuition to the Regent Study Group, Regent Weinstein suggested that Ms. Richard meet with Vice President Case before the United Council hearing to discuss the outline for the committee's review.

Regent Heckrodt complimented Ms. Richard on the dignified manner in which she had presented United Council's position to the board during her term as president.

Legislature - Report on Legislature activities, p. 13

REPORT OF THE EDUCATION COMMITTEE

Chairman Clusen presented the committee's report.

Legislative Report

Vice President Bornstein reviewed with the committee seven bills passed by the Legislature since the board last met, as summarized in the legislative report distributed to all regents. He expressed doubt that the academic staff collective bargaining bill would be brought forward during the upcoming special session and concluded by expressing appreciation to all those throughout the UW System who lent assistance to the Office of University Relations during the legislative process this year. We full that the American to Edm. Comm. M. WC Manuf farlin, p.13

Report of the Interim Vice President

Reporting that Interim Vice President Kuepper had introduced to the Education Committee UW-River Falls' new Vice Chancellor Nancy Parlin, Regent Clusen called on Chancellor Thibodeau, who introduced her at the board meeting. Dr. Parlin, who took office at UW-River Falls on March 1, had previously been Dean of Natural and Social Sciences at Moorhead State University in Minnesota.

Dr. Kuepper reported to the committee on the arts expansion program, which helped to support short-term faculty exchanges in the arts and humanities. He acknowledged Dean Robert Garwell of UW-Whitewater, Dean Paul Palombo of UW-Stevens Point, and Fine Arts Division Chair Rhoda Gale Pollock of UW-Parkside, for their leadership in this exchange program.

Finally, the committee was advised by Dr. Kuepper that the recently enacted AB 438 included language exempting student teaching from the prohibition against beginning instruction before Labor Day. He expressed appreciation to Representative Potter for his help in achieving this clarification in the statutes. Calcudar Example, Aladent teaching from mothleguming instruction before Xata Pay, p. 13 Maturity of Aladent Actor Pay, p. 13

minorities -

UW-Eau Claire -)

Informational Report on Academic Staff Professional Development Awards

Noting that regent agenda materials contained a list of those selected for academic staff professional development awards, Regent Clusen indicated that system funding for the program was \$150,000 per year, with institutional match requirements bringing the total to \$225,000. Committee members noted that while women were well-represented on the list, there was no information on minority recipients, and it was requested this information be provided in the future. Vice President Kuepper described the program and compared it with the faculty development program. The institutional match requirement for the academic staff program was less than for faculty development, as an incentive for getting the program started. Committee comments reflected the view that there was as great a need for the academic staff development program as for the faculty development program.

SInformational Report on Minority Pre-College Programs, p,14

Recognizing Senior Academic Planner Shirley Williams, who had led the evaluation of grant proposals for minority and pre-college programs, Dr. Lattin reviewed with the Education Committee the biennial budget request to support cooperative programs with middle schools and high schools, in order to recruit more minority students and assure that they were adequately prepared for college. The Department of Public Instruction had worked jointly with the UW System on these programs. Committee members discussed with Dr. Lattin the balancing needed to spread the funds widely enough to encourage all institutions to meet their minority student goals without spreading them too thin to be effective.

Approval of change in UW-Eau Claire Faculty Personnel Rules

R 3490 PP 14-15 Regent Clusen reported unanimous approval by the committee of Resolution 3490, which added to the faculty rules the words "academic advising" as an area to be considered in reviewing faculty performance. While academic advising had been part of the expectations of faculty at UW-Eau Claire, no specific mention of this responsibility had been included previously in the personnel rules.

Upon motion by Regent Clusen, seconded by Regent Schilling, Resolution 3490 was adopted unanimously by the board.

That, upon the recommendation of the President of the Resolution 3490: University of Wisconsin System and the Chancellor of the University of Wisconsin-Eau Claire, the University of Wisconsin-Eau Claire's Faculty Personnel Rules, UWEC 3.05 (2)(b) be revised to read as follows:

- 14

"(b) Department Personnel Committee

The Department Personnel Committee of each department or functional equivalent shall develop and approve a written faculty evaluation plan which includes criteria and procedures for the committee's periodic review of faculty performance. The Committee shall periodically meet with all instructional staff of the department for the purpose of discussing the criteria and procedures of the evaluation plan. The review of faculty performance shall include, but is not limited to, consideration of teaching effectiveness, academic advising, scholarly and professional activity, service to the department and the University, and public service. The departmental faculty evaluation plan shall provide for peer judgments of faculty performance and shall include consideration of student evaluations. For non-teaching faculty, the plan shall follow the principles reflected in these guidelines with appropriate modifications based on the responsibilities and duties of the individual."

Approval of Request to the Trustees of the William F. Vilas Trust Estate for Support of Scholarships, Fellowships, Professorships, and Special Programs in Arts and Humanities and Music, R 3491, Pp 15-18

Adoption by the board of Resolution 3491, which was unanimously approved by the committee, was moved by Regent Clusen, seconded by Regent Saunders, and carried unanimously.

- Resolution 3491: That, upon recommendation of the President of the University of Wisconsin System, the Chancellor of the University of Wisconsin-Madison, and the Chancellor of the University of Wisconsin-Milwaukee, the Board of Regents requests that the Trustees of the William F. Vilas Trust Estate supply the following funds for the fiscal year July 1, 1986 to June 30, 1987, subject to the availability of funds, as provided by the terms of the William F. Vilas Trust:

REPORT OF THE PHYSICAL PLANNING AND DEVELOPMENT COMMITTEE

Chairman Heckrodt reported for the committee.

Committee Resolution of Commendation to Regent Russell O'Harrow

The following resolution of appreciation to Regent O'Harrow was introduced by Regent Nikolay, seconded by Regent Heckrodt, and adopted unanimously by the committee:

Resolution:

Whereas, Russell J. O'Harrow has served as a member of the Board of Regents since 1979 and,

Hanar, Regul Russell - Resolution y commendation by Physical flanning Whereas, during his seven-year term as a member of the Physical Planning and Development Committee, he commutee, has provided thoughtful and reasoned leadership to the deliberations of this committee through his service as Vice Chairman and Chairman; and

> Whereas, throughout this period of time, his fellow committee members have noted his diligent and conscientious attention to detail, his knowledge of the problems facing the University of Wisconsin System, and his determined effort to provide a full measure of service to the committee on behalf of the faculty, staff and students of the University of Wisconsin System and to the citizens of the State of Wisconsin;

> Now Therefore Be It Resolved that, by this action, the members of the Physical Planning and Development Committee extend their best wishes to their retiring colleague, affirm the laudatory statements reflected in the Board's resolution, and express their gratitude and thanks to him for his loyalty, dedication and service to the Physical Planning and Development Committee.

The change in scope and cost increase related to three primary factors: (1) extension of air conditioning to a basement rathskeller; (2) addition of equipment to link this building to the campus energy management system; and (3) re-estimate of cost by the consultant based on more detailed information. It was moved by Regent Heckrodt, seconded by Regent Nikolay and voted

It was moved by Regent Heckrodt, seconded by Regent Nikolay and voted unanimously that Resolution 3500 be adopted by the board.

Resolution 3500:

That, upon the recommendation of the UW-Oshkosh Chancellor and the President of the University of Wisconsin System, the Concept and Budget Report for the 1985-87 Reeve Memorial Union Air Conditioning project be approved and authority granted to change the project scope and increase the budget by \$110,000, and to plan, bid, and construct at a revised total project cost of \$950,000, to be funded with Program Revenues. Board of Regents Meeting 4/11/86 project concept t todget - 22 /UW-Superior-Bedge + Rood - appricately and the Ereanson Hall remodely, R 3501 UW-Superior: Approval of Major Project Concept and Budget Report P. 22

> The committee unanimously approved the concept and budget report for the Erlanson Hall remodeling project at UW-Superior at a cost of \$974,000 from general fund-supported borrowing. Planning for this project, which would remodel the building to support programs in business and economics, was proceeding within the scope and budget approved by the board when it adopted the 1985-87 capital building program budget.

Resolution 3501 was moved by Regent Heckrodt, seconded by Regent Nikolay and unanimously adopted by the board.

Resolution 3501: That, upon the recommendation of the UW-Superior Chancellor and the President of the University of Wisconsin System, the Concept and Budget Report be approved and authority granted to plan, bid and construct the 1985-87 Erlanson Hall Remodeling project, on the campus at UW-Superior, for an estimated total project cost of \$974,000, to be funded with 1985-87 General Fund Supported Borrowing.

> UW-Platteville: Approval of Change in Scope and Budget Increase for Student Center Addition/Remodeling/Atrium, R 3502, pp 22-23

Regent Heckrodt reported unanimous committee approval of a change in scope and an increase in the budget of the UW-Platteville Student Center addition and remodeling project. As approved in the capital budget, the project was to provide for a small addition and some remodeling. As the design was begun, however, it was determined that a better solution would be to add a two-and-one-half-story atrium and make other modifications. This change in scope increased the cost to \$754,700 from the originally approved \$506,400. The 49 percent budget increase of \$248,300 would remodel 1,740 gross square feet of space and provide 6,180 gross square feet of additional space, at an approximate cost of \$27 per square foot. There also was provision in the new design for better access by handicapped persons.

In support of the consultant's proposed solution, campus staff indicated that the atrium would provide a focal point for the building which currently was lacking. Interim Vice President Brown considered it likely that the State Building Commission would require the project to be re-enumerated in the 1987-89 biennium because of the changed scope and increase in cost, even though it was to be funded from program revenues. This process would delay the project for about a year.

Adoption by the board of the following resolution was moved by Regent Heckrodt and seconded by Regent Nikolay: Resolution 3502: That, upon the recommendation of the UW-Platteville Chancellor and the President of the University of Wisconsin System, authority be granted to change the scope-of-work for the 1985-87 Student Center Addition/Remodeling/Atrium project and to increase the budget from \$506,400 to \$754,700 and to prepare a Concept and Budget Report based on the amended scope and increased budget.

In response to a question by Regent Gerrard, Mr. Brown said he thought the proposal provided a good solution to the problem. Noting that the resolution would give approval only to redesigning the project, he added that the concept and budget report also would be subject to regent review and approval at a later time.

Regent Heckrodt explained that the increased cost included \$126,000 for space to house student service and organization offices, \$130,000 for the atrium, and \$60,000 to provide access for handicapped persons.

Regent Fish asked if it were possible to secure all-agency funds for handicapped access in a program-revenue project.

Replying that it was not a policy of the Building Commission to do so, Mr. Brown indicated, however, that it might be possible to split the project and separately identify the handicapped access, there being \$3 million left for bonding in the self-amortized program for that purpose.

Regent Fish suggested that avenue be explored and discussed with Chairman Heckrodt.

Regent Heckrodt agreed that it would be beneficial to have the handicapped access work enumerated as a special project for funding by the state for that purpose.

Put to the vote, <u>Resolution 3502 was unanimously adopted</u>. <u>Keldge & Kard</u> - <u>Reprivaly lessed Aprile at 810 university</u> Bay Price for, <u>UW-Madison: Lease of Space at 810 University Bay Drive</u>

Continuing his report, Regent Heckrodt stated that the committee unanimously approved UW-Madison's request for a three-year lease of 3,815 square feet of space for the University of Wisconsin Hospital and Clinics Regional Services Department in a building located at 810 University Bay Drive. This lease would allow consolidation of staff presently housed in several locations within the hospital and would provide space to accommodate expanded services of the department.

Resolution 3503 was moved by Regent Heckrodt, seconded by Regent Nikolay and adopted unanimously by the board.

(xref UW Hospital + Clinica - (some) (xref & community Bay Drive - (some)

Resolution 3503: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, authority be granted to lease 3,815 square feet of office space in the following location:

> 810 University Bay Drive Shorewood Hills, Wisconsin

Wisconsin Economic Research Institute, Lessor c/o Christensen Associates Suite 700 4610 University Avenue Madison, Wisconsin 53705

The term of the lease covers an initial three year period from May 1, 1986 through April 30, 1989 at an annual rate of \$37,800 (\$9.91 per square foot) the first year, \$38,850 (\$10.18 per square foot) the second year, and \$39,900 (\$10.46 per square foot) the third year. The lease also provides for a three-year renewal option at an annual rent of \$40,950 for the first year, \$42,000 for the second year, and \$43,050 for the third year. The lessor is responsible for the cost of snow removal, care of grounds, building exterior, and equipment maintenance. Funding for this lease will be provided from University of Wisconsin Hospital and Clinics (UWHC) program revenues.

Bedget Rand - approval of lease of space for supter administration at 11920/200 mm ve the, R3504, pp 24-25

UW System: Lease of Space at 1920/30 Monroe Street, Madison

The committee unanimously approved lease of 19,353 square feet of office space for system administration staff at 1920 and 1930 Monroe Street from July 1, 1986 through June 30, 1989. Including approximately 4,000 square feet more than the present lease that was to expire on June 30, 1986, this space would alleviate some severe overcrowding and would allow consolidation of staff from other rented quarters. Cost of the lease and necessary remodeling for the additional space would come from the system administration operating budget. The proposed rental rates included all utilities, services and maintenance of the facility.

Regent Heckrodt moved and Regent Nikolay seconded adoption by the board of the following resolution:

Ix up mono that - (some)

- 24

Resolution 3504:

That, upon the recommendation of the University of Wisconsin System President, authorization be granted to lease approximately 19,353 square feet of space located at 1920 and 1930 Monroe Street, Madison, Wisconsin for System Administration office space

Kenneth L. Luedtke, Lessor 6002 South Hill Drive Madison, Wisconsin 53705

The term of the lease will be July 1, 1986 through June 30, 1989, with one, two-year renewal option. The first year lease cost will be \$10.00 per square foot (\$193,530); year two will be \$10.40 per square foot (\$201,271); and year three will be \$10.82 per square foot (\$209,399). If the renewal option is exercised, the year four cost will be \$11.25 per square foot (\$217,721) and year five, \$11.70 per square foot (\$226,430).

In discussion at the board meeting, Regent Clusen asked what functions were housed at that location, and Regent Heckrodt replied that most of the physical planning staff had offices there.

Responding to a further question by Regent Clusen, Mr. Brown explained that system administration was currently housed in eight locations, including Van Hise Hall. The additional space on Monroe Street would allow termination of a lease on Dayton Street.

Expressing concern about the escalating cost of leases in Resolutions 3503 and 3504, Regent Nikolay commented that Madison landlords seemed to be taking advantage of the university's need for space.

Regent Heckrodt felt the rates reflected supply and demand factors in the Madison market.

Mr. Brown agreed, adding that the Department of Administration determined the conditions of the lease and that an escalator clause was built into the process.

Bedget Rand - authorization 3504 was unanimously adopted by the board. Redget Rand - authorization to leave portion of banew Park to City of Madisin for telecommunications equipments, R 3505, V

> UW-Madison: Authorization to Lease Portion of Garner Park to City of pp 15-26 Madison for Non-Park Use

Regent Heckrodt reported unanimous committee approval of a request from the City of Madison for authority to lease to Wisconsin Bell, Inc., approximately 1,375 square feet of land located in Garner Park to allow construction of a building to house telecommunications equipment and related appliances. Regent approval was required by terms of original sale of land to the city by the university.

y - (core)

It was moved by Regent Heckrodt and seconded by Regent Nikolay that Resolution 3505 be adopted by the board.

Resolution 3505: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, the Board of Regents of the University of Wisconsin System hereby approves the lease by the City of Madison to Wisconsin Bell, Inc., of approximately 1,375 square feet of land located in Garner Park to permit the construction and maintenance of a building to house telecommunications equipment and related appliances, subject to the approval of building and landscaping plans by the Hill Farms Architectural Control Committee.

In discussion at the board meeting, Regent Fish asked if the lease would result in any fiscal impact on the university, and Mr. Brown responded in the negative.

Replying to a question by Regent Lawton, Regent Heckrodt explained that the building would conform to area landscaping and the park environment. If vacated by the Bell Company, the building would revert to the city. It would be constructed in a manner which would be usable for park purposes.

Put to the vote, <u>Resolution 3505 was adopted unanimously</u>. Senter-Wankashe County - approval of classroom addition, rendeling + movater equipment equipments R 3506, PP 36-2

UW Center-Waukesha County and UW Center-Sheboygan County: Approval of Construction Projects and of Requests for Movable Equipment

The committee unanimously approved construction projects and funding of movable equipment for UW Center-Waukesha County and UW Center-Sheboygan County. Executive Dean Lorman Ratner introduced Waukesha County Center Dean Mary Knudten and Sheboygan County Center Dean Barbara Losty, who described their respective projects to the committee. Statements also were made by Betty Cooper, Chair of the Waukesha County Board, and by Charlotte Williams, a member of the Sheboygan County Board, both of whom emphasized local government financing of the construction projects, commended the educational programs of the centers, and urged regent support of the resolutions.

Noting that, in each instance, the projects would be constructed and equipped subject to review and approval of preliminary plans by system administration and the Division of State Facilities Management, Regent Heckrodt reported that the Physical Planning and Development Committee was taking a lead role in developing a paper for regent consideration which would define a protocol for more comprehensive, long-range review of such projects. Concern was expressed that the State Building Commission's action on the UW Center-Manitowoc County request required the system to fund movable equipment from residual bonding authority instead of from state building trust funds.

Resolutions 3506 and 3507 were moved by Regent Heckrodt, seconded by Regent Nikolay and unanimously adopted by the board.

Resolution 3506: That, upon the recommendation of the UW Center Executive Dean and the President of the University of Wisconsin System, authority be granted to construct a 23,300 square foot performance area/ classroom addition and to remodel the existing Southview Hall at the UW Center - Waukesha County, at an estimated cost of \$1.93 million to be funded by Waukesha County;

> That a request for funding \$192,000 of movable equipment from State Building Trust Funds be approved for submission to the State Building Commission; and

> That the project be constructed and equipped, subject to the review and approval of the preliminary plans by UW System Administration and the Division of State

> That a request for funding \$48,060 of movable equipment from State Building Trust Funds be approved for submission to the State Building Commission; and

> That the project be constructed and equipped, subject to the review and approval of the preliminary plans by UW System Administration and the Division of State

Vw-Platteville - Bedger Kand -) -

Platteville: Authorization for Athletic Field Site Work to be Performed by the Wisconsin Army National Guard, R 3508, pp 27-28

Regent Heckrodt reported unanimous committee approval of a request from UW-Platteville to authorize board officers to execute agreements associated with previously planned athletic field site work development which would be performed by the Platteville Army National Guard unit. It was agreed that this proposed arrangement would be mutually beneficial, inasmuch as the university would have a completed project sooner and at much less cost than through minor project funding, while the project would provide valuable training for the National Guard engineering unit.

Upon motion by Regent Heckrodt, seconded by Regent Nikolay, the following resolution was adopted unanimously by the board:

Resolution 3508:

That, upon the recommendation of the UW-Platteville Chancellor and the President of the University of Wisconsin System, authority be granted for the President or Vice President and Secretary or Assistant Secretary of the Board to execute agreements with the Platteville Wisconsin Army National Guard Unit to provide engineering assistance to construct a 1986 Athletic Field Site Development project, on the campus at UW-Platteville, and to furnish fuels, supplies, materials, design and supervision as required for completion of this project, at a total cost not to exceed \$30,000, to be funded with Program Revenues.

UW System: Authorization to Increase pelegated Authority to Chancellors relating to Removal/Razing of Obsolete or Unneeded University Structures, R 3509, PP 28-30

The committee considered a request to increase the authority delegated to the chancellors to permit them to approve removal and/or razing of obsolete or unneeded university structures with replacement values of less than \$100,000, subject to compliance with policies of the State Building Commission. Their present authority was limited to those structures having an insured value of \$25,000 or less, and under certain circumstances, State Building Commission approval also was required.

When asked if the Building Commission would extend the regent established delegation level to the chancellors, the commission secretary stated that such delegation would be considered only if the system criteria were changed from insured value to replacement value. The request to expand authority to the \$100,000 replacement-value threshold was made because it would be consistent with the dollar level of signature authority delegated by Resolution 2791 for contracts, leases and agreements. Authorized demolitions would be included in the monthly report of non-personnel actions by administrative officers of the board.

The committee expressed concern that this proposed change might grant more authority to the chancellors than was desirable and unanimously adopted a resolution which would limit the authority to structures with replacement values not exceeding \$50,000.

It was moved by Regent Heckrodt and seconded by Regent Saunders that the following resolution be adopted by the board:

Resolution:

Kry Workicies

That, upon the recommendation of the President of the University of Wisconsin System, approval be granted to increase the authority delegated to the Chancellors to permit their approval of the removal/razing of obsolete or unneeded University structures when the structure's replacement value does not exceed \$50,000, subject to compliance with policies of the State Building Commission.

In discussion at the board meeting, Regent Lawton asked if most of those structures were homes that had been acquired along with land purchases.

While most homes were covered by special resolutions, Regent Heckrodt replied, it would be the committee's recommendation that, in the future, authorization be given to demolish or dispose of them at the time of purchase. The committee felt the \$50,000 restriction should be tried, with the understanding that the limit could be raised later if it proved to be too low.

Regent Schenian inquired about the procedure to be followed for a building with a replacement value over \$50,000.

It was explained by Regent Heckrodt that such requests would require action by the Board of Regents, after which verbal approval by the secretary of the Building Commission would be sought.

In response to a question by Regent Gerrard, Mr. Brown said the Building Commission had authorized the secretary of the commission or the administrator of the Division of State Facilities Management to authorize demolition of any building with a replacement value under \$250,000. If the value were more than that, approval by the full Building Commission was required.

Replying to a question by Regent Weinstein, Mr. Brown explained that replacement value was stated on the official building inventory kept by the Department of Administration.

Regent Weinstein <u>moved that the resolution be amended</u> to add the words "as determined by the State Department of Administration" after the words "replacement value" in the sixth line. The motion was seconded by Regent Heckrodt.

Regent Fish asked if the dollar limit would include relocation costs.

Replying in the negative, Mr. Brown explained that this resolution would apply to facilities which were already owned by the university. Relocation costs would be involved primarily in new acquisitions, which would come to the board as advance acquisition requests, at which stage that cost would be determined.

Regent Saunders inquired as to why the proposed amendment was needed, since the figure determined by the DOA was the official state replacement value.

Regent Weinstein replied that the resolution as now written did not make clear that the replacement value was established by DOA rather than by the chancellor or another party.

Put to the vote, the amendment was passed, with Regent Saunders voting "No."

Regent Fish moved that the resolution be amended further to change the figure in the second last line from \$50,000 to \$100,000. The motion was seconded by Regent Hanson.

Noting that the higher figure was preferred by the chancellors and system administration, Regent Fish added that a \$100,000 limit would be consistent with the delegation level for contracts, leases and agreements.

Speaking in favor of the proposed amendment, Chancellor Shain pointed out that, although a dilapidated farm building might have almost no actual value, it still could have a replacement value of \$100,000. He felt a limit lower than that figure would create much unnecessary paperwork.

President Shaw added his support for the amendment on the basis that the system and its institutions needed more management flexibility. In view of the Building Commission's \$250,000 limit, he suggested that the regents might at a later time wish to consider raising the delegation level above \$100,000.

Regent Nikolay stated that he would vote against the amendment because he felt too much authority already had been delegated to the chancellors.

Put to the vote, the amendment to raise the amount from \$50,000 to \$100,000 was carried, with Regent Nikolay voting "No."

The amended resolution was then put to the vote and adopted, with Regent Nikolay voting "No."

Resolution 3509: That, upon the recommendation of the President of the University of Wisconsin System, approval be granted to increase the authority delegated to the Chancellors to permit their approval of the removal/razing of obsolete or unneeded University structures when the structure's replacement value, as determined by the State Department of Administration, does not exceed \$100,000, subject to compliance with policies of the State Building Commission.

Approval of Minor Projects

Continuing the report of the Physical Planning and Development Committee, Regent Heckrodt stated the committee unanimously approved eight minor projects at a cost of \$1,615,000. Included were projects at UW-Green Bay, UW-La Crosse, UW-Madison, UW-Milwaukee, UW-Oshkosh, and UW-Stevens Point, plus a systemwide request for hazardous waste removal at each system university. Information relating to state and federal requirements associated with hazardous waste disposal was presented by the system's hazardous materials management coordinator, Mike Schmoldt, who advised the committee that, while this initial expenditure would relieve some severe problems on the UW-Madison campus, there was a substantial backlog of substances which required proper disposal. Therefore, a supplemental request would be submitted at the May meeting.

Legislative Report

Vice President Bornstein reviewed with the committee the legislative summary which had been distributed to all regents.

Report of the Interim Vice President

Regent Heckrodt reported that the committee was informed by Interim Vice President Brown that four major projects were bid at \$1.3 million below budget. Included were the UW-Eau Claire McPhee Physical Education Center, the UW-River Falls Robert P. Knowles Physical Education Center, the UW-Madison linear accelerator addition and the UW-Madison Helen C. White Parking Ramp repair and asbestos removal project. The result of these favorable bids was that \$1.3 million of the UW System's residual bonding authority would not be required.

authority would not be required. pulling approved by the indoor athletic practice facility for UW-Madison was essently of approved by the Joint Committee on Finance and by the State Senate, the Legislature adjourned without action by the assembly. Therefore, new p.32

Finally the committee was advised that the closing on the Waterman property acquisition in La Crosse took place on March 31, 1986.

REPORT OF THE BUSINESS AND FINANCE COMMITTEE

Chairman Weinstein presented the report of the committee.

Gifts, Grants and U.S. Government Contracts

Reporting to the committee on gifts, grants and contracts, Vice President Case noted that the total for the first ten months of this year was \$257.1 million, or \$24.2 million greater than the same period last year (a 10.4 percent increase). The non-federal share was \$56.4 million--10.3 percent more than a year ago. Major increases in the federal share were in research/student aid, and it was pointed out by Regent Fish that federal receipts for student aid were up almost 20 percent over a year ago. The committee unanimously approved Resolution 3511.

Upon motion by Regent Weinstein, seconded by Regent Schenian, Resolution 3511 was adopted unanimously by the board. - 32

Resolution 3511:

That, upon recommendation of the President of the University of Wisconsin System, the gifts, grants and contracts presented at this meeting (copy on file with the papers of this meeting) be accepted, approved, ratified and confirmed; and that, where signature authority has not been previously delegated, appropriate officers be authorized to sign agreements.

Auxiliary Reserve Reduction Recommendations

Presenting this issue which had been discussed by the Business and Finance Committee, Regent Weinstein called upon Vice President Case to provide to the board a brief history of how the matter had evolved.

Mr. Case recalled that in February 1985, the Legislative Audit Bureau released a report which stated the finding that from \$16 million to \$22.5 million in auxiliary reserves could be made available for other purposes because, in the opinion of the auditors, these reserves were in excess of what was required. In response, the board contended that all the reserves were necessary and submitted a needs analysis to demonstrate the correctness of that conclusion. The board also contended that, because students had paid the funds, the resulting reserves should be used for the benefit of students. However, the Legislature decided to appropriate \$22.5 million in auxiliary funds to the UW System operating budget to maintain a lower tuition schedule and to improve libraries. All chancellors and system administration recommended that the funds be replaced with a uniform systemwide segregated fee, and the Board of Regents adopted the recommendation at its December 1985 meeting. In February 1986, however, the co-chairs of the Legislature's Joint Audit Committee advised Regent President Lawton that the Legislature intended the reserves to be reduced by \$22.5 million and not to be replaced. Another meeting of system administrative staff and the chancellors had produced the recommendation contained in Resolution 3512.

Regent Weinstein reported that the committee then heard from President Shaw who presented Resolution 3512 and gave the rationale for the recommended solution. At the suggestion of Chancellor Shain, point #4 of the resolution had been amended in committee to require, rather than to permit, a segregated fee assessment and to make the fee non-allocable.

Resolution 3512:

That, upon recommendation of the President of the University of Wisconsin System, Section 8.0 of the <u>University of Wisconsin System Policy Statement on</u> <u>Auxiliary Enterprise Reserves</u>, approved by Regent Resolution Number 3436, dated December 6, 1985, be amended as follows:

ices, legregited - (care) ogieletive Qubit Bureau (LHB) - (come) h - (same) - (same)

- 33

8.0 RESPONSE TO THE AUXILIARY RESERVE REDUCTION AS REQUIRED BY WISCONSIN STATUTES

The legislative decision, to appropriate \$22.5 million of auxiliary funds for tuition subsidies and library acquisitions, requires the removal of funds from auxiliary reserves that are assigned to, accounted for, and generated by the institutions. The funds, however, are pooled for investment at a system level.

The goal is to make the \$22.5 million removal in a manner that is equitable and feasible for the University and also responsive to the legislative mandates. The final resolution must be fair to students while allowing institutions to retain adequate resources: students must be assured that they and their institutions will be treated fairly, and those responsible for managing auxiliary operations must have the resources needed to assure continued financial solvency. This can be achieved by implementing the following recommendation: (1) transfer \$22.5 million to the State general fund pursuant to Act 29, laws of 1985, (2)/establish/a systemwide/ligbility/to/teedsnite/the/withdrawall/and [3]/liduidate/the/liability/through/a/systemwide/fee when/cash/balances/of/the/institutions/fall/below/the levels/provided/in/Section/8/0/ (2) the initial drawdown of institution reserve accounts will be based upon the original LAB estimated liability, (3) the final resolution of the \$22.5 million obligation will be assigned in proportion to Fall 1985 FTE enrollments at each institution, (4) institutions which have a larger obligation based upon FTE enrollment than the LAB estimate will be required to make a segregated fee assessment, as necessary, to satisfy that obligation within a ten-year period, with such segregated fee being non-allocable, and (5) under no circumstances will receiving institutions be allowed to use the funds to replenish reserves beyond that permitted in the Policy Statement on Auxiliary Enterprise Reserves. Section 8.0 will terminate upon final settlement of the liability.

Restating at the board meeting the comments he made to the committee, President Shaw noted there had been no legislative directive as to how to deal with this problem. Instead, the Legislature appropriately left that decision to the regents, since it was a matter internal to the UW System. When it was believed that these reserves would be paid back, it was agreed that the fairest approach would be to do so on a full-time-equivalent basis. The later statement of the Joint Audit Committee--that they saw no need to replenish those reserves--was not being disputed, however, and the resolution did not call for replenishing the reserves.

It should be kept in mind, the President emphasized, that the \$22.5 million had been used to the UW System's benefit, having been placed in the operating budget for library enhancement and to keep down the level

of student fees. Had the Legislature not made that decision, the system's budget could have been \$22 million less.

Noting that the problem was how best to reconcile the allocations to the institutions for library funds/tuition forgiveness with the charges that would be ascribed for those benefits, President Shaw explained that his recommendations were based on four premises: (1) that there was no approach which would satisfy everyone; (2) that the decision should be as fair as possible, so that allocations to the institutions would be close to payments by the institutions; (3) that no reserves would be built up since that would violate the intent of the Joint Audit Committee and invite taking of the reserves; and (4) that those institutions which had financial obligations--UW-Madison, UW-Whitewater and UW-Parkside--should be allowed sufficient time for repayment to minimize hardship on students.

The other options that had been presented provided different ways of solving the problem, with greater emphasis on the various definitions of excess reserves. They entailed larger divergences from the allocations received by each institution and what it would cost those institutions. Indicating that any of those options would satisfy the first, third and fourth premises, the president noted that discussion at the committee meeting had focused on the second premise--the question of fairness. In his view, the option embodied in Resolution 3512 came closest to being fair to all concerned.

Concerning references in the media to "lost" reserves, President Shaw emphasized that the \$22.5 million were not lost but instead were placed in the operating budget. All institutions had reserves which were used for operating expenses, renovation, and various capital initiatives. What was at question was not the availability of reserves anywhere in the system, but rather the equitable use of the \$22.5 million and how to reconcile the allocations/payment question. The obligation for the operating budget had been paid from the reserve accounts, consonant with the spirit of the "excess reserves" definition applied in the LAB report. The report, however, was not specific enough to identify the \$22.5 million. Thus, some campuses had paid far in excess of what they would receive in allocations, while others received greater appropriations than had been taken from their reserve accounts. The purpose of this resolution was to ensure that the benefits and charges to the universities over time were as consistent as possible.

In order to avoid building up reserves, the institutions would be required to have an approved plan as to how they would utilize any monies they received. That plan might include lowering fees, keeping fees constant, holding down fee increases, or taking other approved initiatives. The recommended approach would not go into effect until the beginning of the next biennium, in order to ensure that all campus plans were well formulated and approved.

Regent Weinstein added that the \$22.5 million came back to the system as \$9 million for library enhancement and \$13.5 million for tuition decreases; therefore, the universities with the greatest number of students received the greatest benefit. Regent Fish asked if the institutions would be given guidelines as to what could be included in their plans.

- 36

While he envisioned there being general guidelines, President Shaw thought it would be necessary to see the campus proposals before formulating a definitive statement about what would be permissible uses for the funds.

Regent Weinstein reported that the Business and Finance Committee heard the following testimony. JoAnna Richard, President of the United Council of UW Student Governments, indicated that in response to the regents' December action, United Council had passed a resolution that recommended leaving fee assessment decisions up to each campus rather than recouping auxiliary reserves systemwide. However, the council had not taken a stand on the resolution currently before the board.

Bryce Tolefree, president of the UW-Oshkosh Student Association and president-elect of United Council, urged support for Resolution 3512 in the interest of fairness to all students. While UW-Oshkosh students realized the proposal was not ideal, they considered it the best available alternative.

Regent Schenian contended that although the proposal might be fair to the institutions, it was not fair to past students who had been charged too high a fee. While it was not possible to return the money to those students, he felt this proposal would compound the problem by taxing future students at selected institutions in order to lower fees for students at other campuses, with neither group benefiting from the \$22.5 million. Mr. Tolefree responded that future students would benefit through library improvements.

Don Gerhardt and Paul Secraw, President and Vice President, respectively, of the UW-Eau Claire Student Association, reported that students at that institution were not convinced that surplus reserve funds existed in the first place, and they questioned why they were asked to pay \$2.5 million while only receiving \$1.3 million in benefits. Although the proposed solution was not ideal, they thought it was the best option available. Chairman Weinstein reiterated the board's position that there were no surplus reserves, the current problem being caused by reallocation of funds.

Chancellor Weidner advised the committee that the amount being lost by UW-Green Bay was to be used for a Student Center addition and that it now would be necessary to borrow the money and assess a fee of \$15-20 per student for the next several years to repay the debt. Chancellor Conner reported that UW-Whitewater was losing \$1.3 million and would have to borrow \$1.4 million to pay for an addition to the Student Center. However, he considered Resolution 3512 to be a fair solution.

Bob Seitz, representing the UW-La Crosse Student Association, reported their support for the proposed solution to distribute the liability as equally as possible across the system. UW-La Crosse students also disagreed that excess reserves existed; rather, those monies were collected to support the development of recreational, intramural, child care, and student health

Board of Regents Meeting 4/11/86

facilities. The Child Care Center had been housed in temporary quarters since the early 1970s in the expectation that new facilities would be provided when funding was adequate. UW-La Crosse students realized that they must pay their fair share of the liability, although it meant that fees would have to be raised to recover the funds required for needed facilities.

Brian Fielkow, Co-President of the UW-Madison Wisconsin Student Association, and Nicole Dombrosky, Chair of the Segregated University Fee Allocation Committee, reported that UW-Madison students were opposed to the proposed resolution on the basis that it would result in taxing UW-Madison students \$9.00 per student per semester for the next ten years to collect the \$5.8 million required as payment to other institutions. In their view, the proposal would perpetuate the illogical redistribution of funds started by the Legislature. As an ideal solution, they urged that the state make amends for its action. As an alternative, however, they recommended as most fair a systemwide fee assessed in a manner that would tax all students equally when funds were needed in the future.

The last person to testify was Wes Chapin, President of the UW-River Falls Student Association, who said students at that institution supported the proposed resolution. In trying to establish fairness, he felt what must be considered was that past, present and future students all contributed to the support of their campuses. The benefits should be realized where the money was collected, he commented, and the proposal was an effort to achieve that goal.

Chairman Weinstein thanked the students who spoke for their understanding of this complex issue and for their thoughtful presentations.

During committee discussion, Regent Vattendahl spoke in support of the resolution, pointing out that segregated fees were not necessarily expended when collected. Since the projects they supported did not come on line immediately, there could not be a direct match between benefits and payments within any given time period. After discussing the matter further, the committee unanimously approved Resolution 3512.

It was moved by Regent Weinstein and seconded by Regent Fish that Resolution 3512 be adopted by the board.

In discussion at the board meeting, Regent Schenian reiterated that students on many campuses had been adversely affected in the past and that students of the future at all institutions would be adversely affected. Current students would receive benefits in the form of a tuition reduction, and some future students would benefit from the library acquisitions. "My concern is that students on individual campuses will be paying an excess fee to reduce the fees on other campuses, when they have received no benefit. And I don't really think that is fair." He also was concerned about how the Legislature might respond to this proposal when their original intent had been simply to reduce the reserves as they existed on the campuses.

Regent Schenian moved to amend the resolution by substituting the following language in points 2-5. Regent Fish seconded the motion for the purpose of discussion.

- 37

(2) the initial drawdown of institution funded reserve accounts will be based upon the original LAB estimated liability and will be withdrawn from each institution's auxiliary cash balances in proportion to the original LAB estimated liability. (3) as part of the annual auxiliary budget process, each institution can apply for recovery of its original share of the withdrawal provided its auxiliary cash resources do not exceed or are less than the financial solvency guidelines and reserve funding requirements as permitted in the Policy Statement on Auxiliary Enterprise Reserves, (4) the recovery and repayment of the withdrawals to each institution shall be accomplished through the assessment of a systemwide, non-allocable fee based on total systemwide FTE student enrollments and shall be reviewed on an annual basis, and (5) the ability for each institution to apply for recovery of its original withdrawal shall be limited to the ten-year period ending June 30, 1996.

In support of the amendment, Regent Schenian atated that it would solve several problems: First, it would follow the original intent of the LAB report, with each campus being responsible for liabilities in accordance with the LAB estimate. Second, it would spread the collection of any fees systemwide, so that of all students in the future would share equally in the payment; and third, it would allow institutions which felt shortchanged by the Legislature's decision to request specific projects, with funds to be assessed on a systemwide basis.

While he appreciated Regent Schenian's effort to find a better solution, President Shaw had a number of reservations about the proposed amendment. If there were a systemwide fee, he thought institutions which lost money in the "excess" fund definition would have little incentive to keep fees down since they would be sharing the cost with all other institutions. Under Resolution 3512, however, there was motivation for an institution to keep fees down because students at that campus would have to pay for the benefits they wanted. He also was concerned that the amendment would cause building up reserves before plans could be approved, resulting in situations where reserves could be considered "excess." His final reservation was that the amendment would provide for annual debate, whereas the intent of Resolution 3512 was to reach closure on the issue.

Regent Hanson expressed concern that the chancellors had not had an opportunity to analyze the ramifications of the proposed amendment. Rather than further complicate the issue, she felt it was preferable to approve the recommendations contained in Resolution 3512.

Chancellor Shain indicated that the proposed amendment had the advantage of providing a mechanism for resolving the question of whether or not the fees were really excess, by requiring each project to be justified on the basis of a solvency analysis. On the other hand, he added, it would create a new set of requirements which had not yet been analyzed and it would generate one-tenth of the money every year for the next ten years, whether or not need were demonstrated. Noting that no solution was perfect, he urged that the matter be settled promptly. Board of Regents Meeting 4/11/86

Regent Schenian commented that reference to amounts to be received by the institutions was misleading, since it would be individual students who would receive benefits in terms of paying less tuition. The institutions would benefit from library acquisitions to be used by future students.

Regent Schilling inquired as to what the result would be if the regents took no action on this matter.

In response, President Shaw indicated that if no action were taken, UW-Eau Claire, for example, would get \$814,000 less than under Resolution 3512, since \$2.5 million was taken from that institution's funds, while \$1.7 million would be owed on an FTE basis. On the other hand, the original LAB audit estimate for UW-Parkside's liability was \$335,000, while that institution would owe \$593,000 on an FTE basis. Although taking no action would not result in any insolvency, the question of equity would not be addressed.

Since there would be no insolvency, Regent Schilling observed, fees would be required only for projects as needed, which related to the issue of whether or not there were surplus funds. He felt the proposed resolution might only complicate matters by trying to make the situation logical when it was not.

Regent Weinstein recalled that the study done for the Business and Finance Committee, which projected need six years in advance, demonstrated that not only were there no excess reserves, there was really a deficit in reserves. "That means that those campuses that needed those funds will assess fees much earlier and at a higher level. But you can't undo the fact that there were no excess reserves; so, not doing anything actually is doing quite a lot."

Regent Schilling commented that the board had the option to take no action since previous decisions had been made by the Legislature and not by the board. "We are trying now to make it fair, which may be what we ought to do. But I wondered whether there really was an option to do nothing and say, 'it is unfortunate, but they have done this to us and now each campus, to the extent that those funds were really needed, is going to have to raise them back.'"

Regent Schenian pointed out that the liability would have to be divided among the institutions because the money was taken at the system level.

Vice President Case explained that action was required to provide a basis for distributing the \$22.5 million liability. The audit report did not contain such a basis, since the figures in that document were only estimates made before the report was final, and it was not claimed that they should be used as a basis for distribution. What was recommended in Resolution 3512 was use of an FTE basis for making the distribution.

JoAnna Richard, President of United Council, noted that before graduating from UW-Oshkosh, she had paid fees at a rate which the audit report considered too high. The goal of Resolution 3512, she said, was to recoup money from students at institutions where excess payments were not made in the past. Institutions which wished to raise their fees would have Board of Regents Meeting 4/11/86

to do so in accordance with shared governance procedures, rather than through a systemwide fee as proposed by the amendment. She indicated that United Council was opposed to the concept of systemwide fees.

While he agreed that past students had been harmed, Regent Schenian felt Resolution 3512 would continue the inequity by requiring students on some campuses to pay more while other students would be paying less, with neither group receiving any benefit.

Put to the vote, the amendment failed on a showing of hands, with Regents Schenian and Schilling voting "Aye."

The question then was put on Resolution 3512 and it was adopted with Regent Hanson abstaining from the vote. Fundraising - Deview of institutions fundraising quideloner, p.40

Report on Institutional Guidelines for Fundraising

Continuing the report of the Business and Finance Committee, Regent Weinstein stated that the committee reviewed fundraising guidelines developed by each institution in response to the Board of Regents resolution of November 8, 1985.
