"WILLIAMS BAY CONSCIOUS "

A merchant in a neighboring city made the remark " We in the nearby communities are Williams Bay conscious ". Pressed for his reasons for the remark he added " You have had such fine publicity for your Winter Sports Program, you have such fine swimming facilities to which we often go and feel welcome, we like to go to your village to fish and you have such public spirited men who not only talk but do things worthwhile and we cannot forget the Annual Men's Banquet "

It is really true that business men in neighboring communities do look forward to our Annual Men's Banquet in February and the ladies to the Annual Women's Banquet in June. They like to come and meet old friends and new and we like to have them here.

On the other hand our Village is fortunate in having such good neighbors nearby in Lake Geneva, Elkhorn, Delavan, Fontana and Walworth. They take good care of our monies and give us fine entertainment and supply merchandise and services which are not obtainable locally.

We try to be neighborly and are glad you reciprocate. We are glad to share our good things. Come on over any time. We still have time for a toboggan ride.

WHY TAXES ?

That part of the 1937 Village Budget under the headings " Health Conservation and Sanitation " and " Highways " are given this week. In Jan. 4th issue the table of taxes showed that \$70,184.54 was being collected for State, County, Village and School purposes on a property valuation of \$2,752,335. In Jan. 11th number the Village Budget was given as \$44,551.99 with estimated income of \$14,391.20 leaving \$30,160.79 to be raised by taxes.. In Jan. 21st issue the amount (\$4,547.95) placed in the budget under the heading "General Government" was given in detail. "Protection of Person and Property " was given Jan. 28th, as \$8,316.

Two more headings are given this week.

CISCO FISHING FROM FISH HOUSES
ENDS NEXT SUNDAY

Lake Geneva has been especially privileged this past winter in having Cisco Fishing from the comfortable little houses that are clustered here and there on the lake.

These houses made their appearances just as soon as the ice would hold them. Off Congress Club there is a group of eight such houses and they have been busy places since the first hole was chopped and the line with its colored beads was lowered some seventy-five feet to the level where the little ciscos swarmed near the bottom of the lake.

You must be an experienced fisherman to "catch" these little fish with so very odd habits. Some years there do not seem to be any ciscos, while in other years they are multitudinous. So odd are the extremes of scarcity and plenty that some believe there is some underground connection between our Geneva Lake and some other lake. Such can not be however, because if there was such a connection, our lake would be drained as it is higher than Lake Michigan for instance.

Just why they like at beads and do not care for other bait is not explained by the fishermen. They like colored beads but seem to prefer a pearl bead along with some other color as blue, red or gold.

As one fisherman explained, "you learn from experience how to catch them." When the bob shows a nibble, the fisherman makes only a slight pull upward before pulling up the line the rest of the way. The pressure of the 75 feet of water in pulling the little cisco, would tear the hook from its mouth.

The limit for any one day per person is 40 and this winter many have caught the limit. The total "catch" must not weigh more than 12 pounds. Thus you see that they are small, yet some weigh a pound or slightly more.

Those who have fish houses in the little group in the Bay are Ted Johnson, Gus Glauder, Reinhart Stein, Willie Pearson, John Frusner, William Tess, Chet Delap and Chauncey Grimm., but these men have many visitors to keep them company. (Cont)

CISCO FISHING (Con't)

At some time during the winter nearly every man in the village tries his luck at fishing for ciscos. This sport is confined to Wisconsin fishermen as the licenses for fishing sold to those from out of the State expire December 31 and the new licenses are not issued until the season is on for other fishing.

Ciscos can be caught in open water in any season of the year, but try and get them. The editor remembers that some twenty years ago when a group seined the lake for a study of fish diseases, there were many ciscos found in the nets in mid-summer.

Mrs. O. Hermanson who is spending the winter in Fort Myers, Fla., sends the following news item -

"Among the prominent visitors to Fort Myers, Fla. is Mrs. Andrew Berg of Bridgeport, Conn. who entertained a party of friends. Among them were Mrs. M. Thrudy, Chicago; Mr. and Mrs. C. Fraser, Miami, Fla; Mrs. O. Hermanson, Williams Bay, Wis; Mr. and Mrs. W. Morgan, Bridgeport, Conn.

A dinner was given at the Royal Palms Hotel. Decorations were American Beauty roses. Favors in the same color. Bridge followed. It was a beautiful and most enjoyable party."

Mrs. P.O. Holmquist, Chicago and Williams Bay, writes us-

"I have received six copies of your BAY LEAVES and have enjoyed reading the news from Williams Bay very much, especially having my home and very dear friends there."

Enclosing my subscription and will appreciate receiving a copy of BAY LEAVES each week."

I am entertaining two nephews from Stockholm, Sweden, at my home here in Chicago. Two weeks ago they visited my home in Williams Bay and as I was not along, Mr. and Mrs. H. Bodorff entertained them and they enjoyed their visit very much."

Kate Smith has taken to skis, under the tutelage of a famous Olympic champion. But the well known radio personality is not recommending that you and I try any of the "jumps" we see in the news reels.

THE SECRET OF GETTING

Would you know the secret of Getting?
The Source of Abundant Supply?
Would you know how to enter the Storehouse
The House which is ever close by?

Would you taste of the Good that is Added
Unto him who seeks truly the Way?
Would you know the Law of Receiving
As you journey firth each day?

There's a Key to all life's secrets
The Master locks in his breast:
Only he can use it in wisdom
Who has stood life's greatest test.

Only he has learned that "Giving
Of the Good" he enjoys each day
Has found the Secret of Getting
Has Opened the Mystic Way.

So Give what you have of Life's Treasures
Be it Love or Wisdom or Wealth,
Let it flow as free as the sunshine
The Source and Giver of Health.

You cannot exhaust Life's Treasures
There 's no Limit to the Source of Supply;
No matter how generous your giving
The Good still around you doth lie,
But listen --

We only take from the Storehouse of God
The things which are truly our own;
The Result of our Loving and Thinking and Doing
The Fruit of the Seed, we have sown.

HARLEY C. NORRIS PASSES AWAY

Just as " Bay Leaves " was ready for distribution word came that Harley C. Norris, who has been County Treasurer since 1908 had passed away this morning (Thursday).

Mr. Norris was born in Sugar Creek township on February 11, 1855 and has resided continuously in the County. Before taking the County position he had been in the hardware business in Elkhorn. He had been public spirited throughout his life and was the Village president and when the City was incorporated he was the first mayor of Elkhorn.

He was honored a year ago for having been a member of the Elkhorn Lodge of Masons for Fifty Years.

THE BELFRY PLAYERS

On Monday, at 3 o'clock, over WCLO, the Belfry Players presented the first act of "The Gods Laugh", the three-act play by Esther Hotton and Jacqueline Cour, which won a second award in the Wisconsin Dramatic Guild Tournament. The Cast was- Guppy, Joe Diegnan; Maisie, Anna Mae Burnau; Diana, Esther Hotton; David, Bob Birdsall; Gail, Loraine Reynolds; Andy, Frank Segrist; Dolly, Betty Singer.

The story of the play develops as a result of a load of cross-country bus passengers being stranded at a crossroads tavern, The Moosehead Inn, because of a nationwide strike of bus drivers.

Listen in for the second act of the play next Monday, March 1, at 3 P.M.

The Belfry Players are looking for an organist to do the musical parts of their program. Anyone who is interested for auditioning for organ or piano should get in touch with Loraine Reynolds, Walworth, or with any of the Belfry Players, so that an appointment may be made.

Mrs. Louis Rasmussen was the first to report she saw a robin on the top of their garage last Thursday morning, February 18.

will meet on Tuesday afternoon,
March 2 at 2:30 with Mrs. Vanbies-
broeck. Mrs. L. Henyey will give a
paper on the "Transition of Plant
Life and Animal Life."

Mrs. G.W. Moffitt will read
an article "The Worth of Beauty".

All members are urged to be
present.

The Executive Committee of the
Garden Club met with Mrs. G.W.
Moffitt on Wednesday afternoon.
Plans were made for an open meeting
to be held some time during the
summer.

WILLIAMS BAY HAS MINIATURE FLOOD

Not to be different from other
communities, Williams Bay had a
flood last Saturday night, which
might have proved much more seri-
ous than it did if the downpour
did not cease when it did., which
was well into the early morning on
Sunday., and ended up in a blizzard
before that day was over, with a
thirty degree drop in the temper-
ature in a few hours.

The Elkhorn Road along the
celery farm was flooded, the water
flowing high over the road from
the creek on the side. Mike Quin-
cannon had to vacate his house as
the floor was covered several inches.
Such a deep cut was made by
the rushing water in front of R.
Stein's place that four cars could
not be moved until next day.

Ambrose Bros. apartment base-
ment was nearly filled with water
backing up from the creek which
was overflowed. Some water was in
the engine room of the ice-plant
but no serious damage was done.
No damage was done to the Water or
Sewage plants. Supt. Ripley spent
much of the night Saturday pump-
ing the water away from the sewage
plant.

Mike Ambrose and George Krane
worked a great part of Saturday
night warning motorists of the
high water on the Elkhorn road.

Our neighbors, Beloit and Janes-
ville suffered much damage from
the flood waters of the Rock River
and small creeks overflowing and
covering town streets and farm.
