Recommendations of Special Committee on Admissions

The policy of admission which has prevailed is that Wisconsin students, out-of-state veterans, present and former students who are in good standing will have priority over new non-resident non-veteran students. It is assumed that this policy will be continued. It is the policy upon which the following recommendations are made.

I. Recommendations upon Admission Procedures

- A. That no change be made in the admission of Wisconsin students, or at present, of out-of-state veterans.
- B. That, subject to the exceptions outlined in C, D and E below:
  - 1. No new non-resident non-veteran students be permitted to enter the second semester of 1945-46.
  - 2. Permits granted to new non-resident students for the summer semester or for the 8-week summer session carry no commitment for permission to register in the fall semester of 1946-47.
  - 3. Applications of new non-resident non-veteran students for permission to register in the fall semester of 1946-47 be held until July 1, 1946, at which time better knowledge of housing and enrollment prospects should enable the University to determine the admission requirements which will yield a student load which the University can handle. Applicants should be informed of this action. (if increased housing accommodations become available, the date of July 1 may be moved to an earlier date.)
  - 4. Permits to register issued for previous semesters, but not used, be cancelled.
- C. That there be the following exceptions from the regulations described in B above.
  - 1. Students appointed to teaching or research assistantships.
  - 2. Students appointed to University scholarships and fellowships carrying compensation, where the appointment is made primarily on the basis of scholarship.
  - 3. Students appointed to legislator's scholarships.
  - 4. Students with a bachelor's degree entering the University with a G. P. A. of 1.75 or above.

5. Wives or husbands of students who are admitted.
  6. Students of high quality who are resident in foreign countries and who enter the University directly from those countries.
- D. That the Registrar and / or his officers and the Deans of the college compose a committee which will be empowered to make individual exceptions as the total circumstances require. In general the Registrar and Dean of the college concerned will act for the committee. This regulation will permit allowing students of very exceptional promise to enter.
  - E. That the Registrar may make exceptions in the case of students where commitments have been already made.

## II. Other Recommendations

- A. That the faculty suggest to the Deans of the various colleges and schools that it would be appropriate at this time to be stricter in the matter of dropping and readmitting students who have been doing unsatisfactory work.
- B. That, in view of the housing shortage, high school principals of Wisconsin be urged to recommend for entrance only those students who have shown aptitude for college work.
- C. That the administration of the policies contained herein be placed in the hands of the Administrative Committee of the University with a request to report changes in these policies to the University Faculty.

- III. That the Faculty feels that the above measures insofar as they diminish opportunity for out-of-state students to attend the University, tend in an unhappy fashion to deprive Wisconsin's own young men and young women of the educational values which derive from broadly international personal acquaintanceships on the Campus.
