The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

For Milk Allergy

SMAco HYPO-ALLERGIC MILK

Characteristics of Powdered Hypo-Allergic Whole Milk

- Helps prevent eczema in patients hyper-sensitive to milk protein.
- Use present formulas since this is real cows' milk, not a substitute.
- Convenience. Individual feedings may be made up for infants.
- Lower cost. Powder form costs 25% less than liquid.
- Spray dried in equipment reserved for Hypo-Allergic Milk and Alerdex.
- It keeps. Hermetically sealed in an atmosphere of inert gas (nitrogen) to prevent deterioration.

ALERDEX

PROTEIN-FREE Maltose and Dextrins

Characteristics of Alerdex

- Helps prevent eczemas when used routinely, due to absence of offending protein.
- Use present formulas because Alerdex has same caloric value and percentage of maltose and dextrins.
- Does not cake on exposure to air because it is non-hygroscopic.
- Dissolves readily in warm water or milk.
- Snow white, free-flowing powder.
- Inexpensive—in spite of extra processing under technical control, costs no more.
