Waterford, Wisconsin  
Volume 25, May 1972

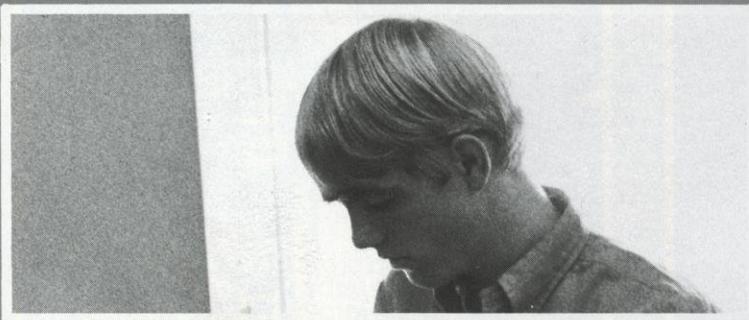

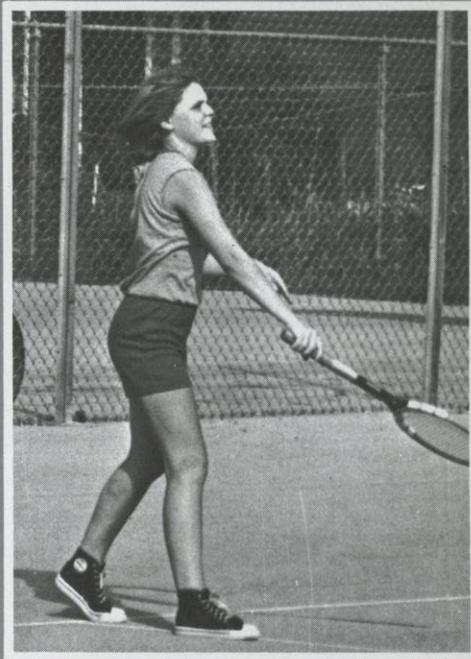

The essence of learning,  
Changing with the times,  
Searching for goals,  
GROWTH!

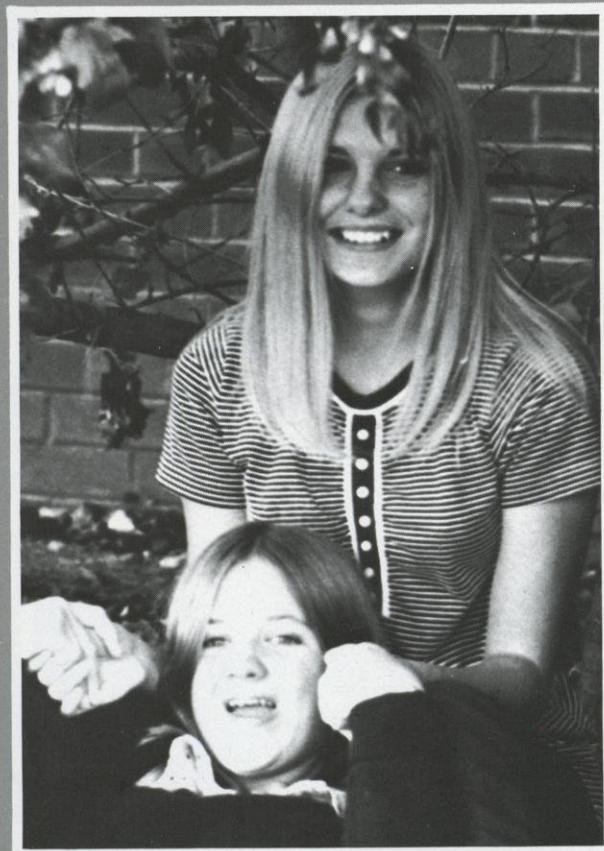

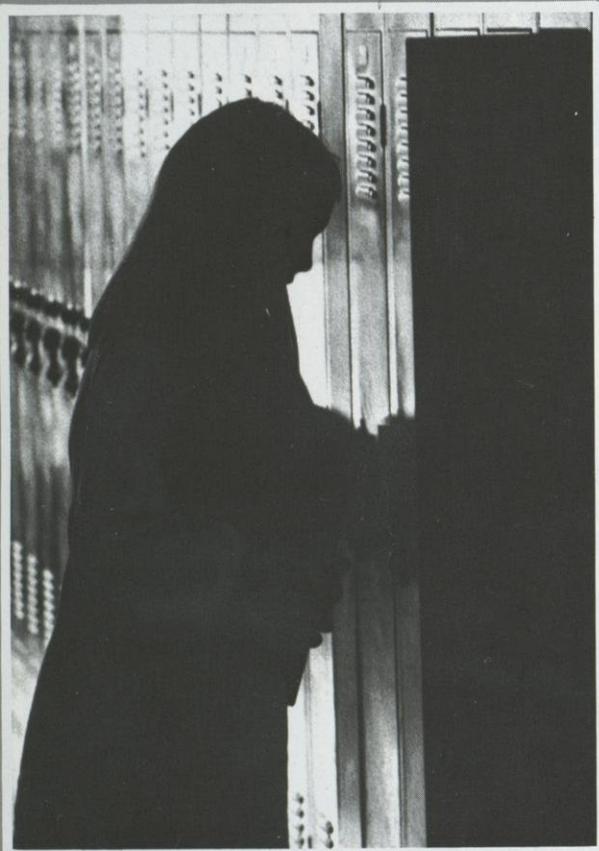

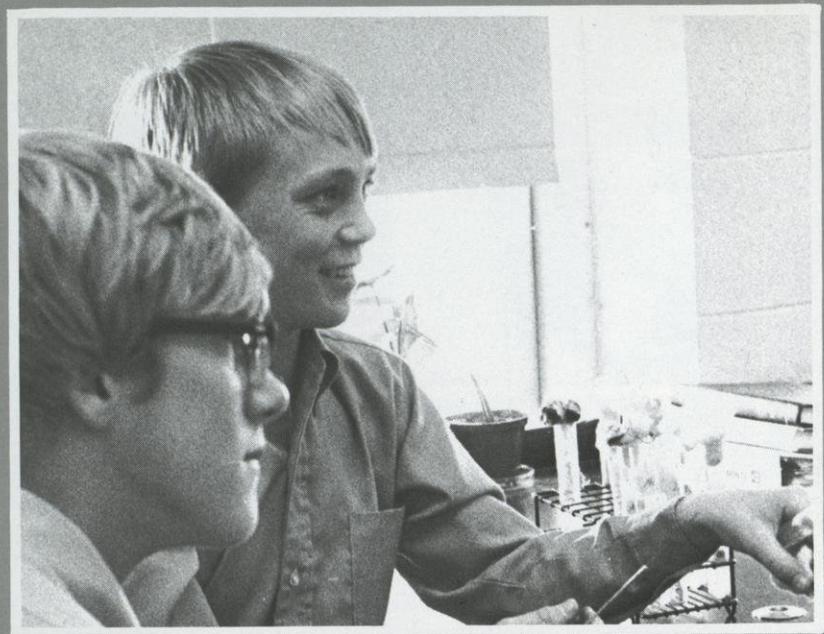

One main accomplishment  
Makes up for many mistakes.  
Never give up trying--  
Our life depends on it!

These four years of our life  
Are spent discovering new experiences.  
Joy, sorrow, happiness, success . . .  
We never stop growing!

## *Growth — A Man of Many Faces*

Once upon a time in a faraway country there was a seed planted with loving care by the son of Willy the Wolverine, named Wally. Wally dug the hole and planted the seed, pressing it carefully with his paw. He watched over the seed and protected it from the birds, squirrels, and other wild animals. Everyday he would water the seed, and wait for it to sprout. He would sit under the sun and talk to the seed, and keep it company as it grew. The seed grew into a tall sturdy tree. Wally stayed its bodyguard. Many a hunter would hide behind it and many children would play around it.

Wally soon discovered the tree was the growing-up tree, for the higher it grew the more it had to share with people of all ages. The trunk was composed of the faculty and administration. The limbs were made up of the student body and each leaf was a single individual joined to the whole tree and kept alive by the nourishment from the trunk. The fruit of the tree was oddly shaped and green and white in color. Wally named the fruit of the tree as it fell. He named it Spirit-Pride-Determination-Self satisfaction-Accomplishment-Knowledge-Wisdom-Experience-Understanding-Leadership-Opportunity-Scholarship and the Love of Life.

As each leaf blew away to find new exciting places, there was another to replace it the next year and as each piece of fruit fell to the ground, he learned to understand his purpose in WHS: to protect it and help it grow strong in mind and body. Wally thought that it might take some people longer to find the growing up tree than others. He gives us in the beginning of each new year a guideline which we should follow and which he hopes will help us to find what we want in life.

THE GROWING UP TREE IS NOT EASY TO FIND,  
YOU MUST HUNT WITH YOUR HEART,  
YOU MUST HUNT WITH YOUR MIND.  
YOU MUST LEARN TO BE PATIENT AND LEARN  
TO BE WISE:  
FOR THE THING THAT YOU SEEK IS A WONDERFUL  
PRIZE!

Every year change proves a necessity and growth is the result. Mr. Kujawa became the new principal with Mr. Zuelsdorf as his right-hand man. The dust was blown off of many of the rules on tardiness and absentees, and a demerit system was put into effect. While these rules were brought out of hibernation, special privileges seemed to suit the tone of the year as seniors were allowed to leave the building if they had study halls either seventh or eighth hours or both. This was not the only change though! A new smiling face was seen bright and early every morning--Miss Favell busied herself with the details of the day. The main office would not be complete without the familiar face of Mrs. Becker. Mr. Carter was found tending to his business both in and out of the office. Though it may be an illusion--the air seems to hold a lighter disposition and the faces--a few more smiles!

## *Preparing for the Future*

EILEEN ALBRIGHT

With the growth in the number of students attending WHS this year, the guidance office personnel had their hands full almost all the time.

From the time the office opened in the morning until the time it closed at the end of the day, students could be seen coming in and out of the office. Many students came to the guidance office seeking information about furthering their education after high school, and still others on matters which concerned themselves personally.

Growth and progress always brings about a few problems when running a department which deals with such large numbers of people. But, even though there were problems, Mrs. Albright, Mr. Edwards and Mrs. Finney kept the guidance office running as smoothly as it was possible.

M. Hammer

"Close enough for all practical purposes" is involved with students from all four years of high school. He will be remembered for all the jokes he sent flying through classes and study halls. It sure seems that humor makes studying easier.

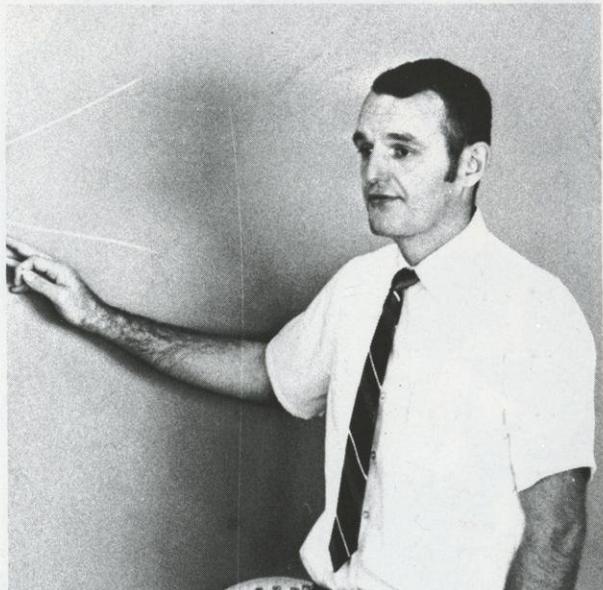

L. S. Chay

Ah!-So you never thought you'd make it? With mod clothes a topic of discussion and notebooks a pain, we all managed to struggle through neck deep in algebraic equations. Though it seemed impossible he led us on our merry way to the end!

## *Mathematics — A "Variable" Situation*

Those who speak of Mr. "C" speak of the overhead projector and its announcement of quizzes, piles of books and papers, and mispronounced names--but as the year closes, let us remember that it was all worth it and if we have to we'll take it with a grain of salt.

Gerald E. Christiansen

Have you ever been to Alaska? If not, a few minutes talking to Mr. Morgenson can enrich your mind with "tales" of adventures in this Northern State and though he masters this well, he also has a fine hand in the mathematics department--only the Seniors know!?

G. Morgenson

Thousands of years have elapsed since man began recording his first scientific observations. Since then, his knowledge has taken him from the simple chore of building a fire to the complex task of unraveling the structure of the atom.

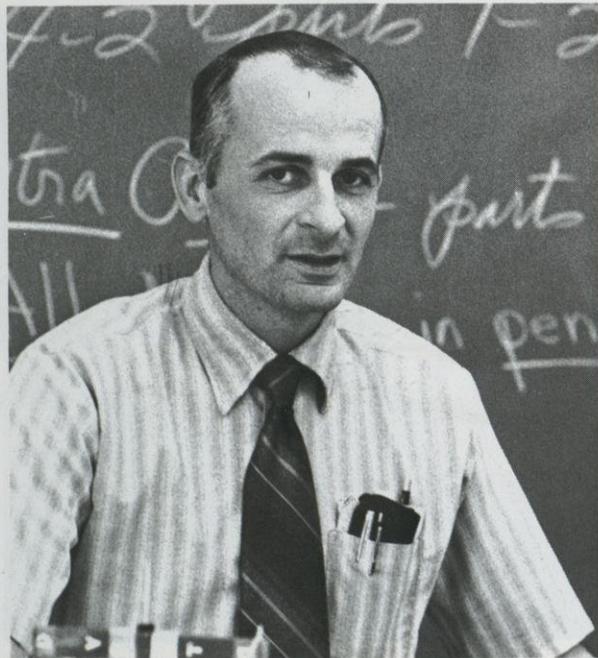

The Science Department of WHS answers the student's need for organization in this seemingly incoherent mass of data -- to read, to understand, to apply. Whether the individual chooses to take only two, or all seven of the courses offered, he is bound to become aware of the essential unity and beauty of science as well as the harmony of the world around him.

As one grows, one develops new skills or improves on old methods. The business courses offered to students this year have helped develop these skills and methods.

When we were small, we all learned how to write, and since that day have writer's cramp. But with the ability to type and the knowledge of shorthand the pain of writing has been lessened.

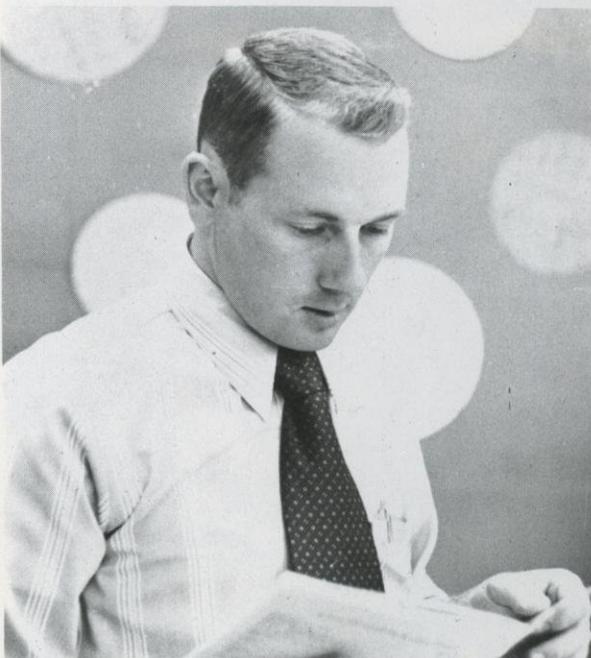

Businesses will be run a little more smoothly now that students have the knowledge of bookkeeping and the ability to use office machines correctly. This was all changing and becoming part of the business world.

Reading, writing, speaking, understanding, teaching--the English department is one of the largest in WHS and seems to encompass the majority of students. From the first day of school till the last, there are authors to understand, essays and term papers to write, and reading galore. Through English, the history of man can be directly related to each person. The sequence of literary forms shows the change from strict style to a more lenient free style of essays, satires, and novels. The reading public has so greatly changed in such a short time that, as students, we need the guidance of an efficient and elastic faculty. The English department is as elastic as is possible, for any designated area and offers everything from poems to novels, from writing to vocabulary tests. Learning was also the tone set on field trips and made it all worth the little time and effort needed to accomplish the task and make it more of an in-depth study of our literary history and that of the world.

The social studies offered at WHS encompassed all of the classes from freshmen to seniors. The freshmen started the course with a World History emphasis dealing with an overall view of the world in which they live. Geography attracted many sophomores as well as upperclassmen who were anxious to learn more about their native land as well as the different cultures of the world. Juniors were required to take U. S. History which taught them about the United States as a world power. Seniors were given the opportunity to study Sociology or Comparative Government; Economics reigned supreme.

The physical education department was also part of the growing trend, with the addition of another girls physical education teacher, Miss Lioliadis.

Keeping the body as well as the mind fit is also part of growing. Physical education classes have helped keep the body in shape, especially the girls diet and weight control program, which was introduced to some of the classes. Though physical education helped keep the body fit it also kept the spirits high when everyone participated in an activity. It's the only class where you can let out all your stored-up energy, which is otherwise wasted throughout a day of just sitting in classrooms.

## *"That Something Special"*

J. JOSEPH WHITFORD

CAROL ROGERS

AS one grows, one discovers that somethings need special care and special training. The child needs a helping hand and love to walk, the senior citizen needs a little understanding and an open heart. In Drivers Education, special care was given so that the students would be capable of operating and handling an automobile safely on the road. Time and patience transformed this natural desire into practical use and proper handling. Special Education also provided a tender touch to the growth of the mind along with special attention to difficulties and the abilities which seem most outstanding in each individual.

Growing up and learning always require that "something special" to make it all worth trying for and memorable. All of us remember a time when someone gave us our own "something special" that helped make our way a little easier. It's that reaching out to help another which makes a difference in our growth. A difference which will last through our lifetimes.

When someone touches your heart,  
They also touch your mind.  
For all the miles we travel apart,  
No closer friend can I find.

You've given me "That Something Special",  
To warm me on a cold winter's night.  
You helped me after my first fall.  
You taught me how to stand and fight.

I've learned to care for people like you,  
To know who I am and what I can be,  
To know what to say and what to do,  
To know what it means to find the  
"GROWING UP TREE"

Two hands, one heart, one mind--in unity with a world. . .through taste and beauty. A little love adds the final touch. Though you may add a pinch of salt or a pinch of color it is the coordination between the limbs of the body and the mind which determines if a master piece shall be projected or not. Without skillful hands nothing can be done, nothing established. Both students and teachers were found putting their hands into their work and getting deep into their material. Looking through a mass of paint brushes and cook books shines a thin line of hope, for the student and teacher alike; maybe his time we will have created that final effect--perfection, not quite--but we're getting there.

Industrial arts is the study of industry. Those that take this course acquire much knowledge of the science and mathematics of industry. These students have a chance to put this knowledge to use as they learn it. When they make a mistake, they can see how easily a whole project may be ruined by not doing things right. These students learn how to operate the various machines they may be working with when they choose their careers. Yet when they walk out of these classes, everyone, no matter how much they have learned, has a great feeling of respect for machines and the men who operate them in industry.

## *And They Said We Couldn't Express Ourselves*

W. A. DAVISON

The voice and the mind have a strange coordination which can be seen in the library, band room, and chorus room. To think, understand, and comprehend become one, and the methods by which they are derived are universal. Mr. Pierce, though a new member of the faculty has proved himself capable of bringing about this type of synchronization that puts words together with the music, and for some odd reason just makes it "seem more interesting". A new face in the library is Miss Longo, an alumnus of WHS. Mr. Davison and Mrs. Daugherty, as in the past, are found in their current surroundings where their jobs different as day and night, (the noise and the quiet), are both involved with the process of helping the mind to grow. The growth is to such an extent that each individual is capable of searching out for himself to find his own answers to any problem.

JOSEPH HYING

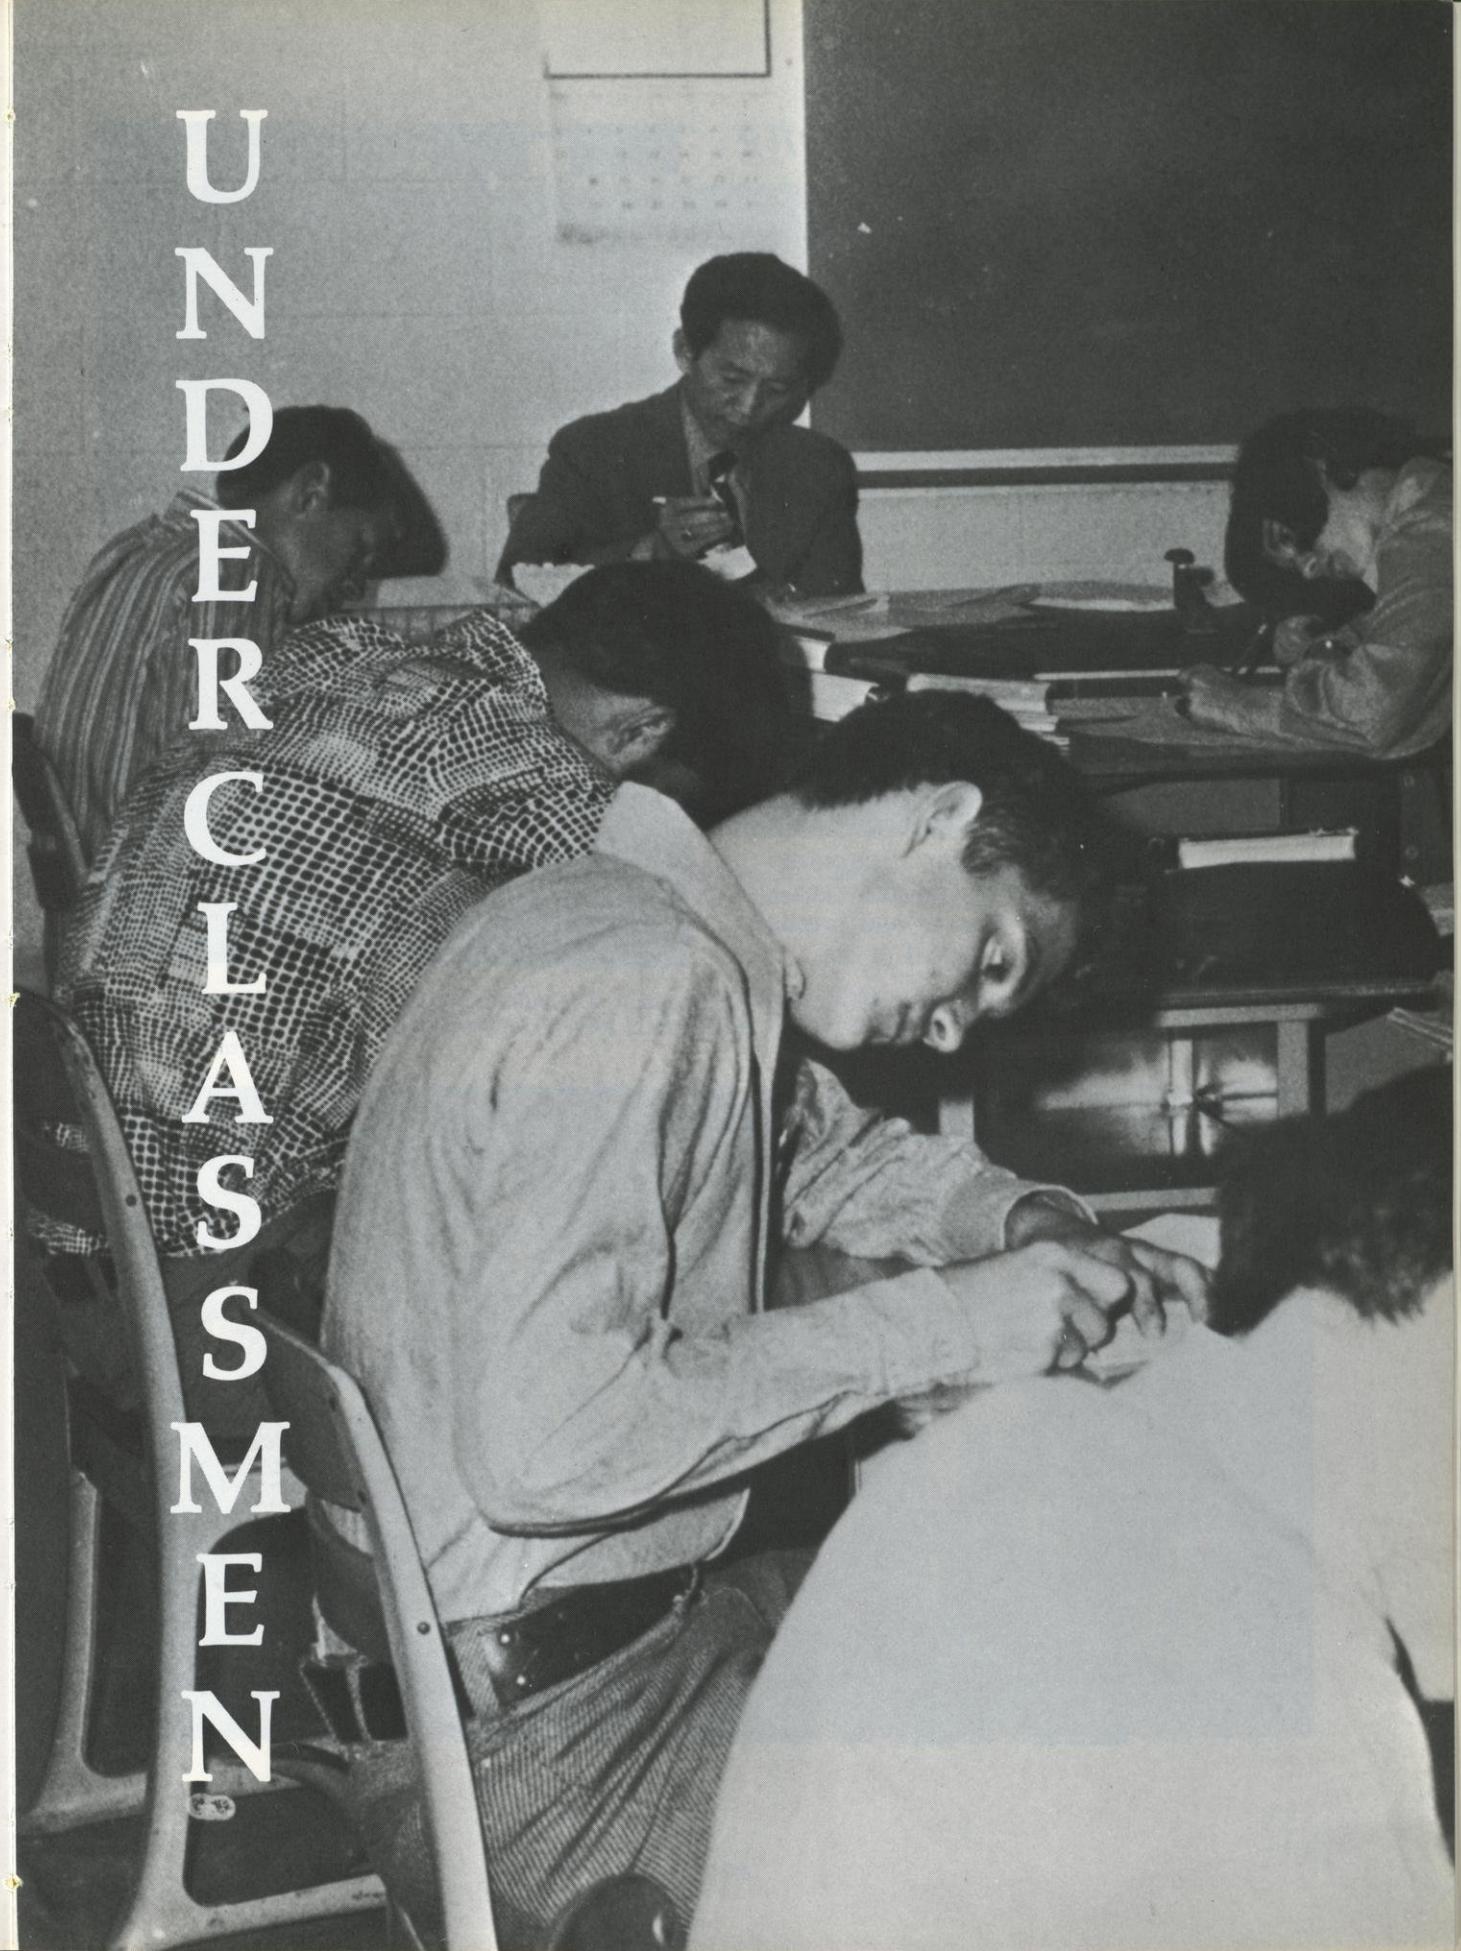

The Foreign Language Department in Waterford High School has played an important role in the lives of the students. French and Latin are just as important to the English language as they are to their own. Latin will never be a dead language as long as Mr. Hying is around to say something about it; he always has a good argument. Latin enables your mind to grow in knowledge of parts of speech and sentence structure. French will always remain a conversational language as long as the Eiffel Tower stands. Miss Ulve will always be teaching the parts of speech and colloquial terms. As each day goes by, knowledge of the language grows and the ability to communicate becomes more important. This brings the significance of the individual and the teacher to a climax and to a point where each incident is a funny circumstance.

# *Freshmen Stand Strong*

I opened my eyes and saw a new world. It was a world of machines and bustling people. I became a freshman and was thrust into the reality of competition. I found out for myself that I must struggle to survive. The year is coming to a close and we have kept up the traditions. The magazine sale proved to be a success! We learned to give our first sales pitch and now realize that we will be using it frequently through the next three years.

It has only begun and we have only begun to fight. Responsibilities and privileges both are a little hard to accept. Soon we will fall in line behind the past Freshman classes. The Freshman class of '71-72 will fall in line behind the rest leaving way for new people; but to each there will be someone or something that will make us want to relive this past year. It has been hard work and fun; a learning experience. We are starting to grow up. We are hunting with our hearts and minds. Soon we will find that wonderful prize.

Success  
Failure  
Recovery  
And the Beginning

The sophomores like everyone else had their problems and difficulties. Yet they had to overcome them. By doing this they just made everything start all over. This was the beginning. From then on, everyone worked together. They started by helping to make our 1971 Homecoming great!

Extending through the year came one thrill after another. One that was always heard about in the Sophomore chatter was drivers education. All the kids were just waiting for their chance to get their license.

We also experience a new feeling this year. We were neither the oldest nor the youngest of the school. We became just in between, but made ourselves known by showing our spirit and letting everyone see we cared for our school. It doesn't end here. Each day held something exciting, something that NO one else had, that NO one else could take away.

## *Class Officers*

# J U N I O R S

The Class of '73 is a flower just about to bloom and see the world around them. They're not quite there, but, with time the final stage of growth will come about.

The class has been growing up a bit since we first set foot in WHS three years ago. We've become more responsible in regard to ourselves as individuals and as a class. Our school spirit and participation in class activities was much better, and so was our initiative to learn and see what was happening around us. From homecoming to prom the class became involved neck deep with the trivialities and formalities of the adult world. Though we find them hard to accept, we're trying and maybe someday (like next year) we'll be ready to face the outside world.

It was a fantastic year! Full of fun and lots of good memories for all those who cared to participate in class activities.

## *Come — Grow With Us*

The little things that we do each day,  
The little tasks they send our way,  
Growing big and growing strong,  
Growing up in the growing-up song;

Trying to understand,  
Lending a helping hand,  
Giving our team a great big cheer,  
Knowing that there's a friend near;

These little things you hardly see,  
Are the little things in your memory,  
These little things that you do  
Make a student, make you -- YOU!

## *Treasury of Knowledge*

A treasury of knowledge--that's what members of the Library Club gained by helping Mrs. Daugherty once or twice a week during their free periods. Besides learning the workings of a library and becoming more familiar with the materials and the resources available to students, Library Club members received the satisfaction of being of invaluable service to their fellow students.

## *A Living Experience*

Obtaining information on teaching opportunities and studying qualities of successful teachers were the activities of this year's Future Teacher's Organization. Future Teachers met once a month and supplemented these meetings with outside activities. In addition to aiding our teachers, members of Future Teachers had the opportunity of "cadet teaching" at Waterford Grade School and Fox River Middle School. This wide range of activities provided the Future Teachers with interesting and helpful ways to carry out their goals of "learning to teach."

## *The Finer Things in Life*

Fine Arts is dedicated to spreading culture to its members. In what ways? We go to plays, museums, art galleries, and concerts in Chicago in Milwaukee. Bake sales, movies and dances were held to raise money for the various activities. Visiting the art museum in Chicago along with seeing musicals proved to be memorable. These things along with many others proved that expansion in mind can be fun and exciting at the same time.

Out of hibernation came one of the most fantastic discoveries in the history of WHS. The EMERALD ECHO does exist! It didn't take long till the first issue of the Echo was hot off the press. Just like everything else which went on so rapidly, the Echo has to keep up the swift moving pace which was set for them. And they did!

The Echo covered topics of interest for the entire student body. New faculty members were interviewed along with student teachers. Clubs and organizational news was brought up to date. Even the pictures seemed to be more plentiful. Anyone who wished to express himself was allowed to with a friendly helping hand by the Echo. Ads were also a new feature to this year's paper.

The existence of the Emerald Echo lies with all those who in some way worked and contributed to the paper. It was with their help, concern and enthusiasm that the Emerald Echo was published during the year. We're constantly growing and changing with the times, and so must the Echo, your voice to the future.

## *What a Build — and Muscles Too?*

The GRA isn't a CLUB! It's more. GRA not only gives each individual self-satisfaction and recreation, but also teaches the meaning of neat words, like homerun, spare, win and strike. Of course the girls already knew the meaning of words like gutterball, strike 3, you're out and foul. Each week as our sports' minded girls "tried" to play ball in GRA, competition between the classes became more popular and strong. From volleyball to baseball, through basketball and bowling, each girl had her victories and losses, but no one ever lost their spirit.

It takes kids to have spirit,  
And spirit makes a team.  
Some kids had fantastic spirit--  
And wanted to shout it  
So-----  
This group of enthusiastic people  
Made up a Club properly titled:  
PEP CLUB!!!

School support for the minor sports  
Could have been more,  
But it will grow in the years to come.

## *WHS Uncovers Camera Bugs*

In every system there is some kind of bug or another. WHS has discovered that they have Camera Bugs hiding out in the dark room. It took awhile to discover that they were around, but now that we know where they are we can avoid them whenever we find necessary. With their trusty cameras they were able to capture moments of funny situations involving both students and teachers. Both proud and tear-filled moments in athletic activities, clubs and "happenings". Because of these bugs the little which has been eaten away from the leaves of our trees will be remembered through photos, the WHS PHOTOGRAPHY CLUB. . .

The Foreign Language Club, in it's second year of existance, got well under way. It grew both in number of members and in variety of activities as the French and Latin students put their heads together in a joint effort to deepen understanding between people of different cultures. Difference in languages posed no problems for the club as the feeling of fellowship among the students was enough to overcome most obstacles and provide the members with fun.

Anyone who participated in AFS this year would tell you it was a heart-warming experience. It meant meeting new faces, sharing with the old, learning ...teaching...understanding and realizing that the only way to learn the truth is to seek it yourself.

Lu, our Brazilian student, added many highlights to this year's activities as her outgoing personality radiated congeniality and concern.

AFS is OUR way of trying to draw the people of the world toward peace and understanding. Experience it and contribute to this great cause!

The National Honor Society in itself is not a very active organization. Why? Because it is composed of students who have outstanding traits in scholarship, leadership, and character. These students are involved in many of the extracurricular activities along with keeping up the grade-point end. It takes more than just simple study habits to be able to obtain and keep up the quality of work which NHS members must demand of themselves. Dependability and sincerity, honesty and the desire to learn are a part of growing and keeping with our vast society. Becoming an adult who is capable of facing the problems of the world, developing them and doing something about them is what we term an honor student.

### *Getting Better — Growing Stronger!*

"We're getting better, growing stronger, warm and wilder, getting better every day." We are growing and getting better as time goes on. Learning, living and leading our own lives. Each day the tree grows stronger and we grow taller, our life bends into the lives of many other people reaching out wide to encompass many aspects of life--its trials and tribulations. Every failure finds that moment of pride and strengthens the individual. At times we may appear wilder but always after the quiet there is a storm. Yet always our tree stands tall!

## WHS Parliament

The 1971-72 school year brought many changes. The student council found it to have one of the most reliable forms of change--the students. Democracy faced the supreme test. With the new method installed in which members were to be elected, the council took a very active stand on school problems, and the welfare of the student body. The meeting with the school board, including a dinner, was held once again and gradually the two are coming closer and closer together. It has been an eventful and successful year, for the school and especially the seniors. The student council took on "objective" approach and discovered that people accept things more easily if they are spelled out explicitly.

Young athletes striving for goals they have set for themselves and realizing what the title of athletes means and demands of them are found in only the greatest of places. W Club provides a chance to get together with guys who have the same interests and desires. It is a place where respect and understanding of the unique problems and joys of an athlete are realized as few other people can. It is a place of fellowship. W-Club has been very much alive this past year. From Homecoming to selling shirts, jackets and sweat-shirts it has had its influence on many of the young men at WHS, the men of tomorrow.

Every day we trotted to Chorus, be it 4th or 7th or whenever we found it difficult to maintain a decent tone with all of the athletic events throughout the year. This year we were able to have a little more variety in our songs and once again Christmas brought the traditional Christmas carols and the songs which never grow old, never out-dated. It took time, patience, and energy to memorize and stretch out the songs from within, but we all managed to maintain some form of musical resemblance throughout the course of the year. The past four years or less have offered us many changes and many different views towards chorus, toward realizing what we are. Though sometimes songs seemed to slip by us the words stuck, and stuck hard. They made us grow up.

## "FIELDS of AUTUMN"

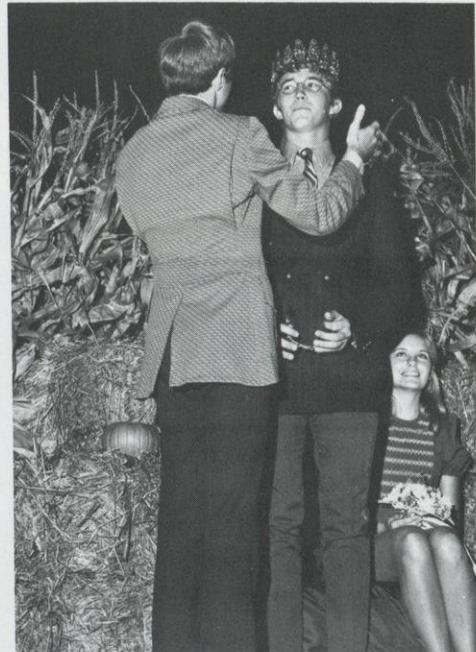

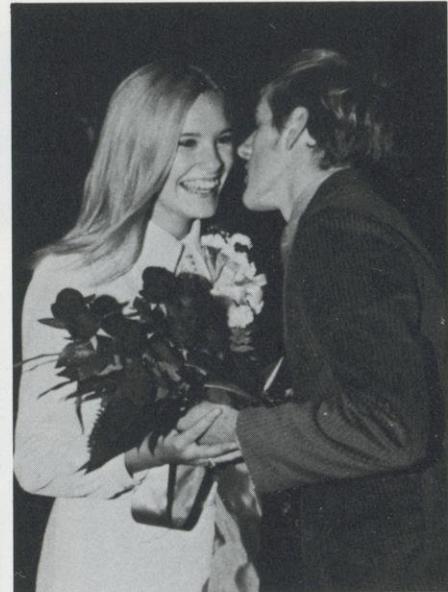

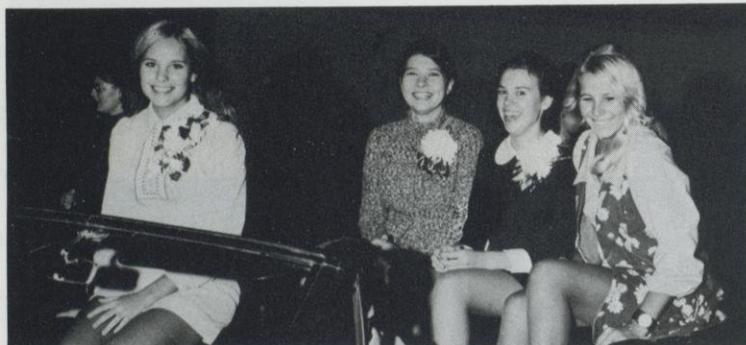

A defeat to Big Foot. The Burning of the WHS. Homecoming week was filled with Bulletin boards, outside decorations, field decorations and the float. Our queen, Shelley--gee she was cute! And our King, Keith, was really a good football player. The Thursday night Pep Rally was hilarious with all those skits. The W-Club deserved First place with all of that imagination flying around at the game Friday, kids yelled at the top of their lungs, But the Big Foot Chiefs were too much for us. The Homecoming Dance was really something to remember. The dinner was good too--especially at 12:00 p.m. It was the highlight of the fall months, leaving fond memories of to all who attended. Homecoming '71 will always be remembered!

### *And Then — It Happened*

And then it happened.  
It took me by surprise.  
I saw it come -- I knew,  
But I didn't realize.  
I gained a little weight.  
My hair grew a little too.  
I wasn't sure just who I was  
Until I met all of you.  
Each one of us is so different,  
In oh so many ways.  
We took to life and to school  
In just a few short days.  
Time goes fast, it waits for none,  
So catch it while you can.  
Each year you grew, though I didn't see  
Then it happened -- you became a man.

"God Bless Kurt".

The Hills fill my heart with the SOUNDS OF MUSIC. . . The gym re-echoed these words and the many more that were part of the SOUND OF MUSIC. Early in September, tryouts were held so the show would be ready by November 4th. Remember how graceful those dancers were--it took hours and hours of practicing the waltz. Those kids were so cute, they really did a good job. As usual, the pit band was great and all the crews overcame their problems. It was lots of work--changing completely in 20 seconds; singing with a sore throat; and trying not to have two left feet. It was loads of fun, try not to forget...never forget!

## *Seeing What We Really Are*

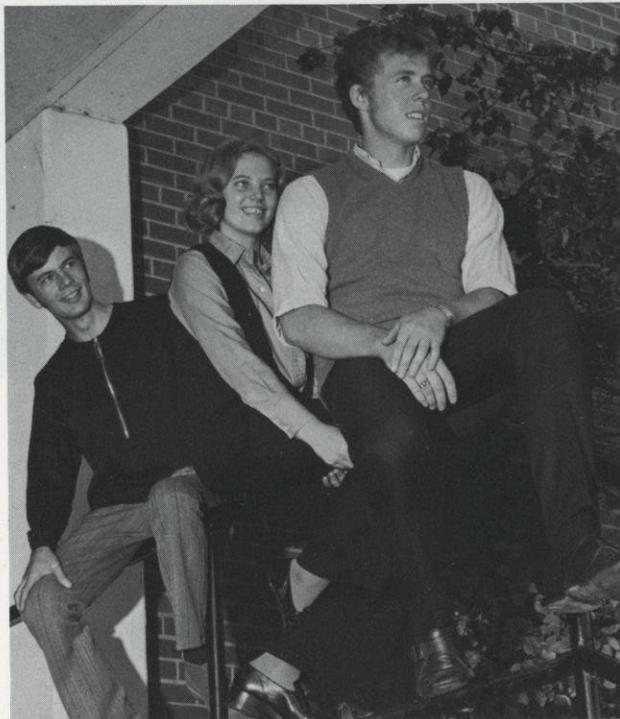

Each year there is one special day on which compliments are exchanged left and right. This is Senior Picture Day. In late August, Seniors dwindle in to have their pictures taken--of course no one likes their own pictures.

First, the passing around of proofs takes place; then comes the great day when the pictures arrive...Mass Confusion! The colors aren't right, the hair is different, or they all did not come! For the next couple of weeks, pictures are seen flying around the halls, and exchanging hands. This is one of the neatest days of the year for seniors and underclassmen. It is the climax of the fall months; soon it will be all over and these will always be fond memories of our high school days.

BADGER BOYS: RICHARD JANTE

BADGER GIRL: BONI ROANHOUSE

Each summer two boys and one girl are sent to Badger State to take part in an imaginary government. It is a week filled with trials and experiences, failures and victories. It is a place where each victory is very personal, yet a part of everyone, and a defeat an experience. Badger State is a place where an individual can stand on his own two feet and speak for or denounce bills which now face the nation. You are not shot down or laughed at for being an individual with a personal view. Each moment is filled with fears and joys, rushing and excitement, knowledge and faith in our government. But just as important it is fun; fun to be an adult--if just for one week. It was great to be the real you--a leader, a responsible young adult!

## *Growth and Change Are Challenge*

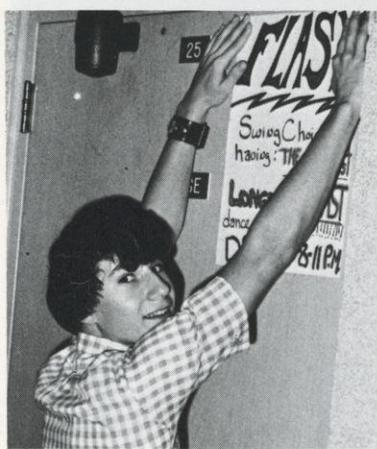

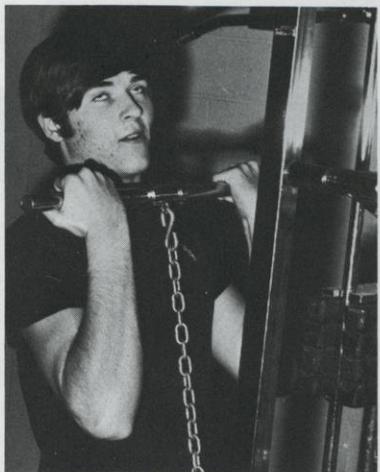

Like it or not, we change from day to day and year to year. We grow up and out, and inside too. We can't always agree with everyone--so we grow in understanding of what we are and can be.

Each school day brings us to things that are challenging. Life is a puzzle of events and times. It is a mosaic display of people in different stages of life, love and politics. To each their own. Many things are taken for granted and these things have been the basis for the four most important years of our lives. The lockers, the rehearsals, the railings, the classrooms, the halls, the assemblies and the pep sessions. All the extras which high school can only provide for the taking. Anyone who wishes to get involved, to gain a new experience, or meet a new face. There is no need to wander aimlessly in high school, for there is a place for every individual, every person who wants and needs to grow!

## *For the Thing That You Seek*

AND SO WE GROW??--Another year has come and gone. Life continues without reminiscing. We must stop and contemplate for a moment. It was worth it, wasn't it? All the things we have done, all the things we have accomplished. We've grown, SURE! But how? We've grown because of every ONE involved. But when? We've grown throughout the past year. But where? We've grown without noticing it in the school year of 1971-72 at Waterford High, Waterford, Wisconsin. It may be that the sign of really growing up is when you don't notice that you've grown at all.

## *Girls' Tennis Attracts Many*

Girls' Tennis has shown that girls are ready, willing and able to get involved and do their thing. Girls do have potential in many areas of athletic competition and, once given a chance to prove themselves can come out on top. It's only just begun! More girls will be caught up by the wave of competition between schools and find another way to express their love for excitement, pride, and their ability to get involved because they care.

The girls involved in tennis this year found it a trying experience to start from the bottom and rise only by their own ambitions. It was an experience that many schools have been instilling in their students. The girls found out how important

practice is and find that everywhere on turns in this world it is the fittest that will survive and be ruler. It is the American way of life, the rules of the game by which we too will be governed.

The WOMAN who will

Help the WORLD be strong!

Cheerleading has always been the foundation of school spirit. Once again, the cheerleaders have backed the team through both victories and losses. At WHS we find that the crowd may not always be responsive, but they try and are one of the best around.

Now that the year draws to a close, and all of the equipment is put under mothballs and locked away, it's hard to say just what is the most important to a cheerleader; practicing, or out on the floor, it all adds up to one thing--seeing the expressions on another's face, knowing that others share your enthusiasm, knowing that you're wanted or needed, being a member of one of the greatest schools around, small and personal. There is no end--except to the year. Though sad, it must come, and it does. We're proud to be cheerleaders at WHS.

## Pom-Pon Girls Add Inspiration

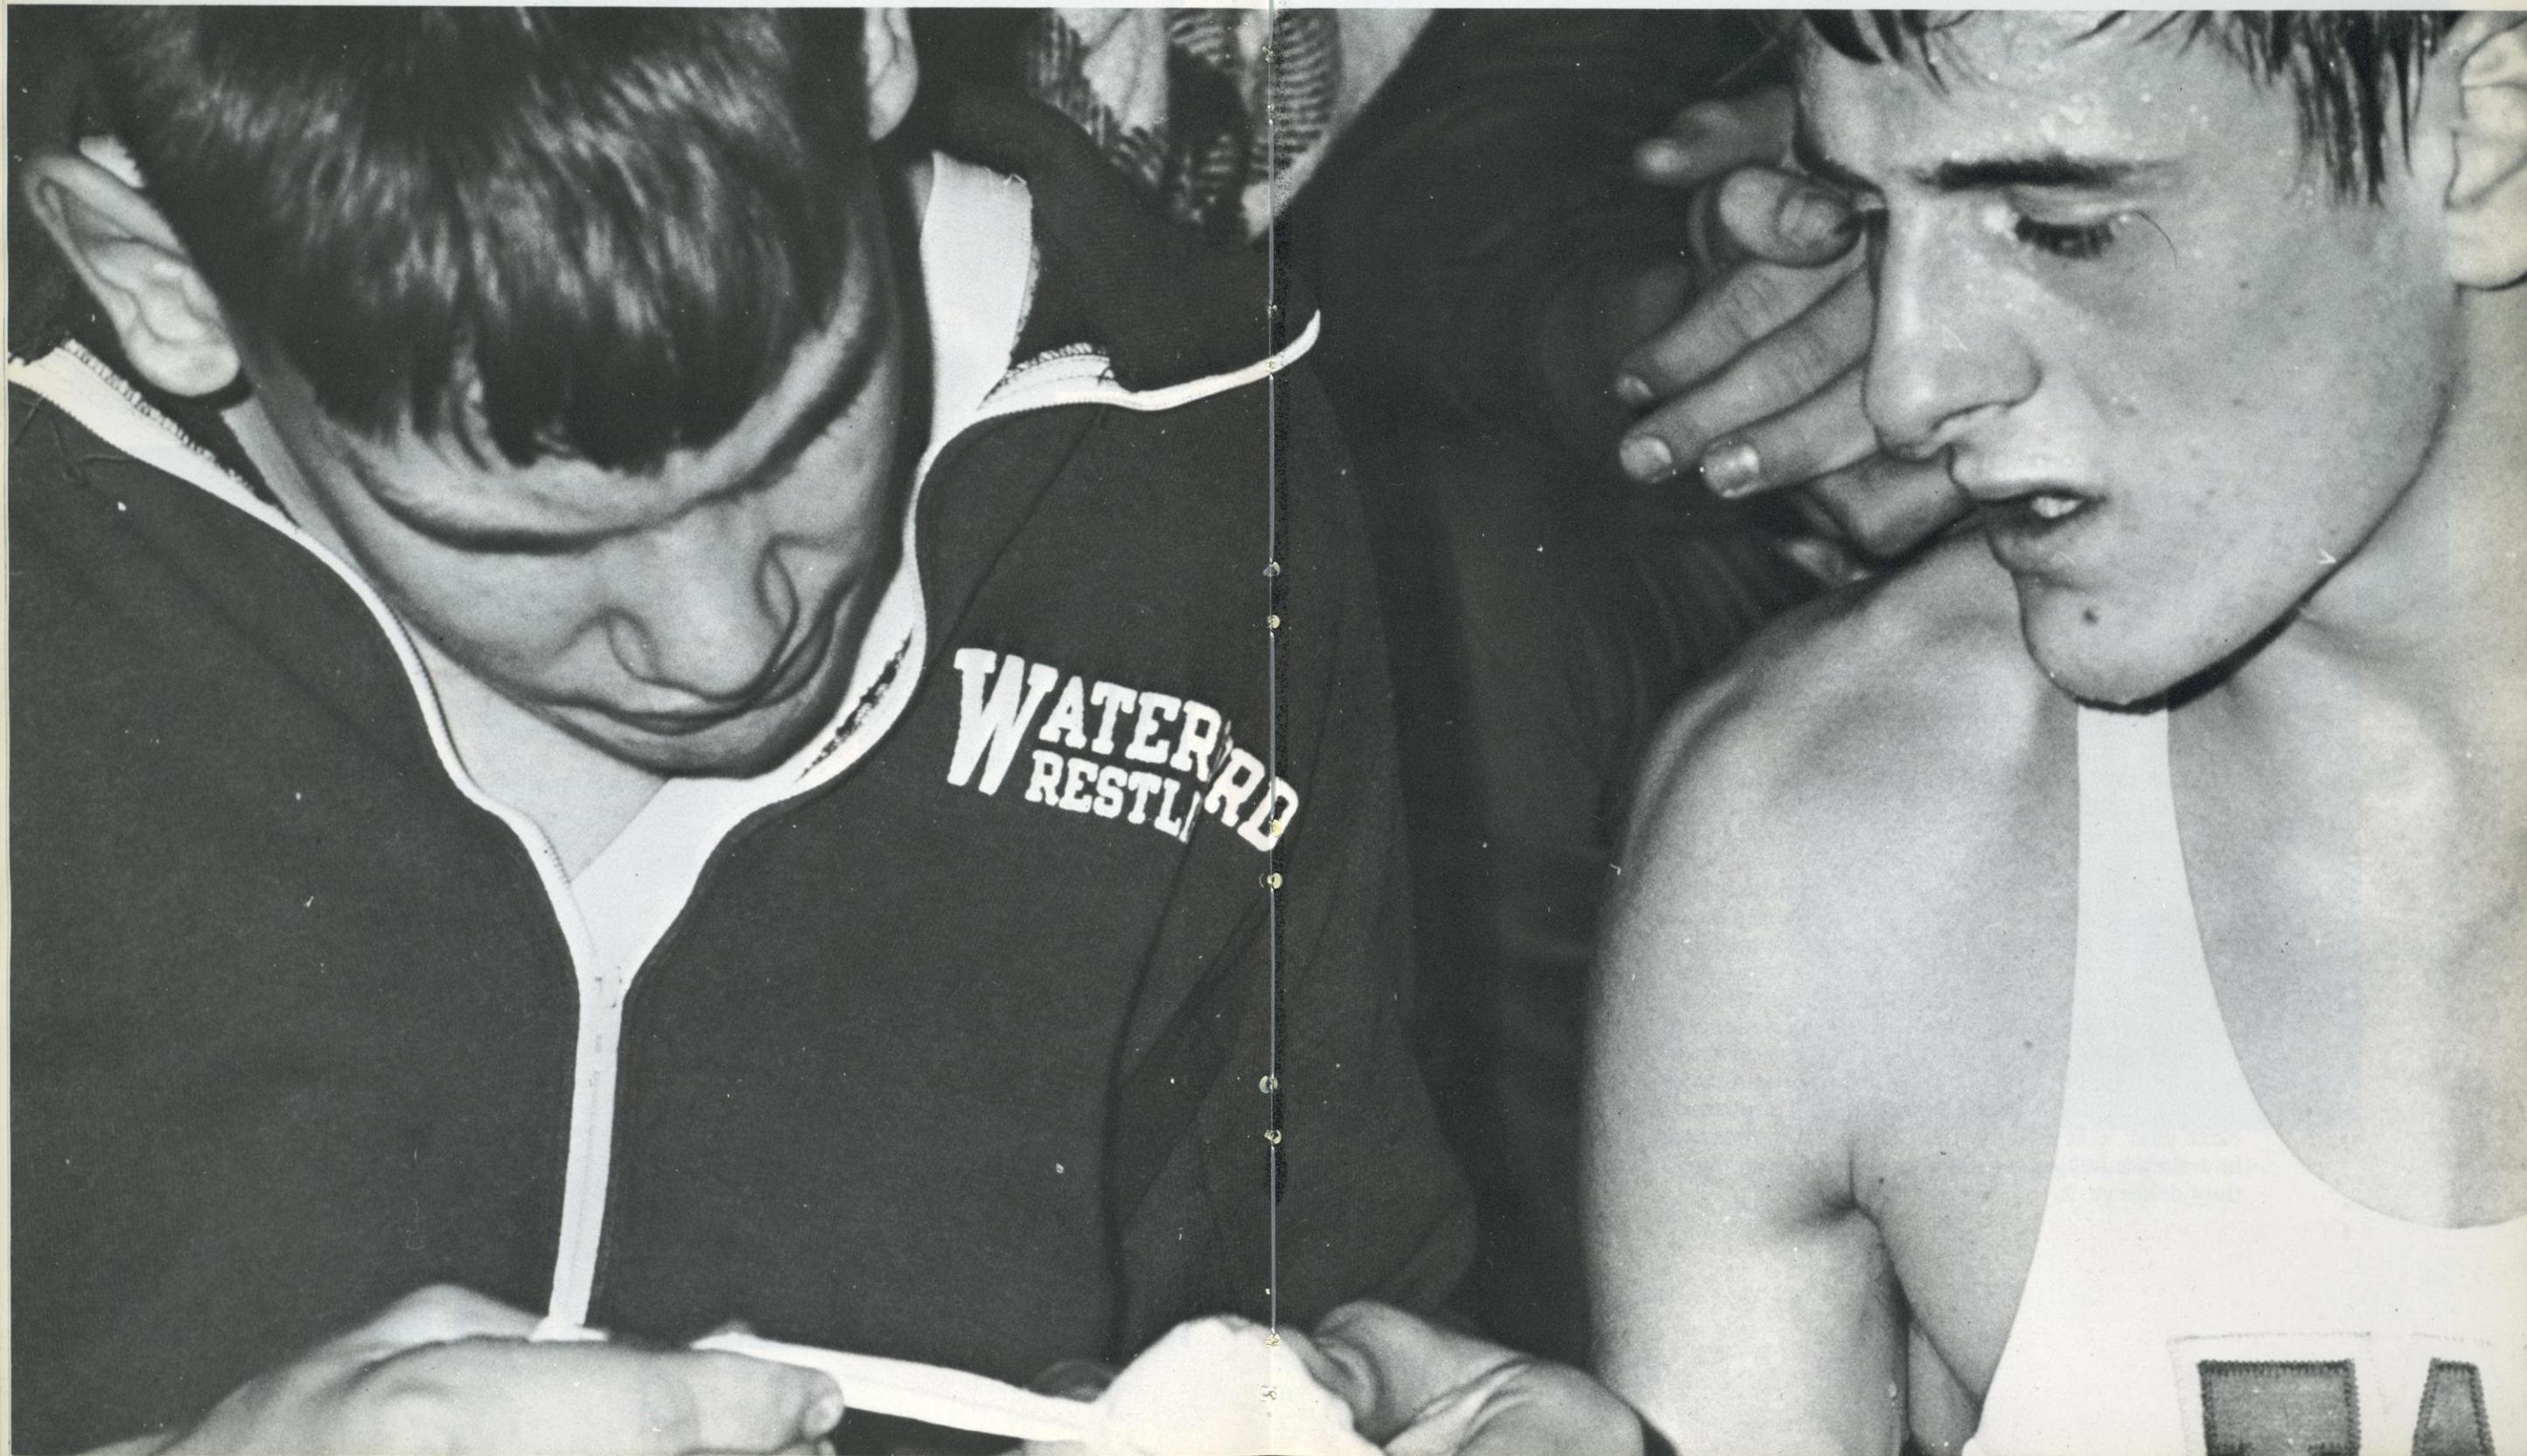

ROW 1: B. Revolinski, P. Graetz, S. Uecker, C. Deak, P. Houghtaling. ROW 2: S. Rupert, L. Schuckman, J. Welch, S. Minor, D. Bellanti. ROW 3: L. Kraft, D. Katzenmiller, K. Kujawa, P. Beck, D. Kitchen, T. Rupert, G. Bartels. ROW 4: P. Geelan, A. Stone, D. Lueneburg, T. Sewell, D. Zick, K. Wendorf, C. Matezevich.

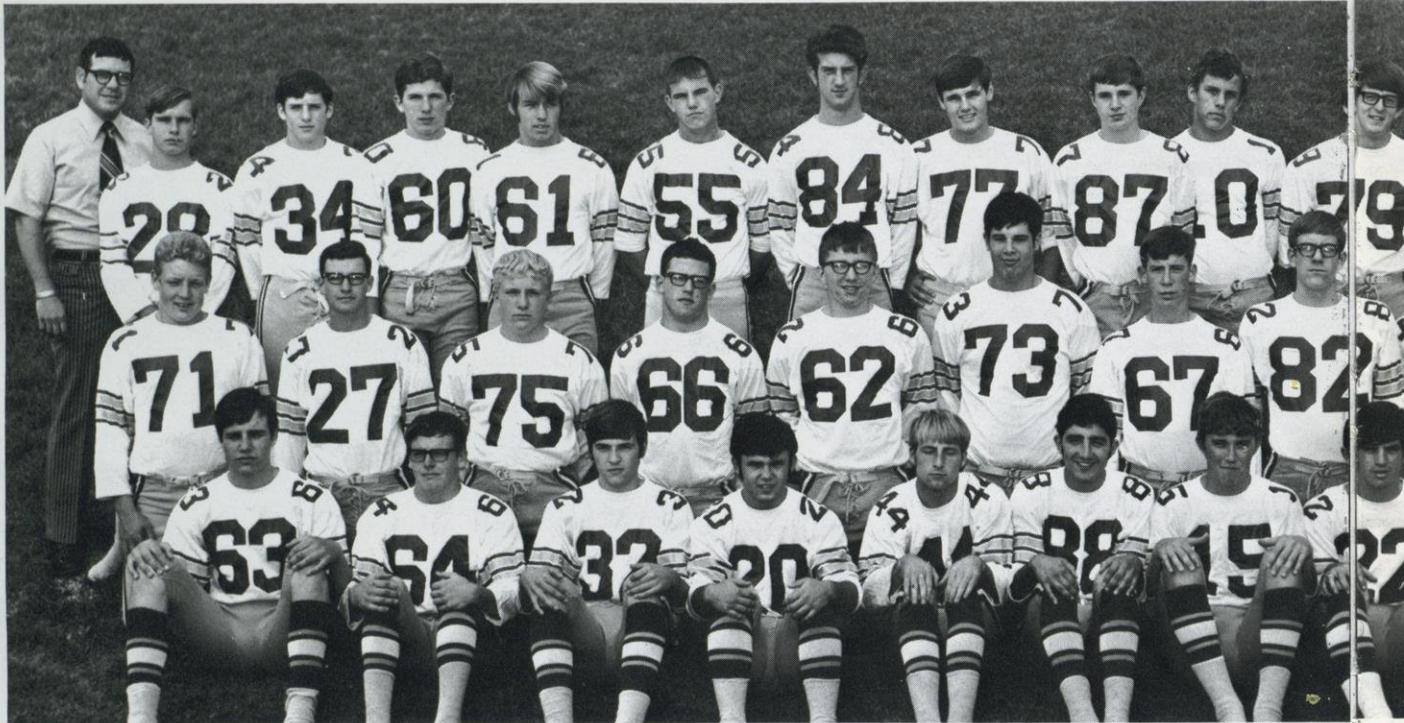

The '71-'72 school year not only brought little changes, it also brought a major change to our home basketball games. During halftime the Pom-Pon girls provided all with the entertainment of their graceful and unique movements to the beat of modern tunes. With the pep band as a background, the mood is set and the routine becomes finished with regret to the spectators. The Pom-Pon girls consist of over 20 girls who coordinate their actions, remarkably. It's just one more way to show that involvement is a process of growth, a part of that which makes high school something worth your while--even a little more exciting. We're proud to have the squad as an addition to our school spirit.

## *WHS Football Players Have —*

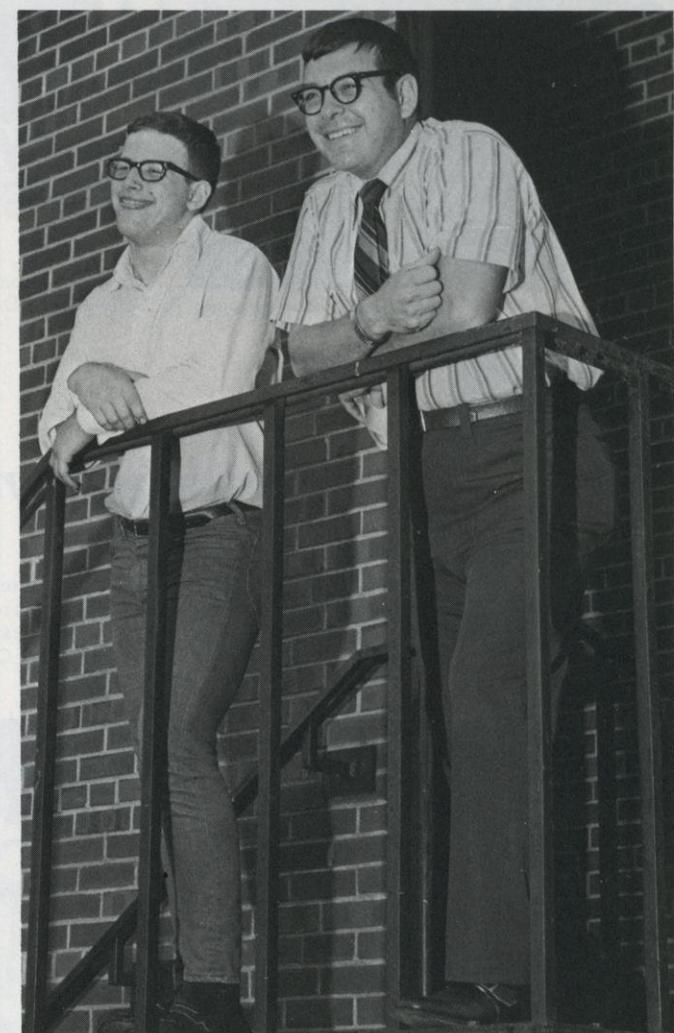

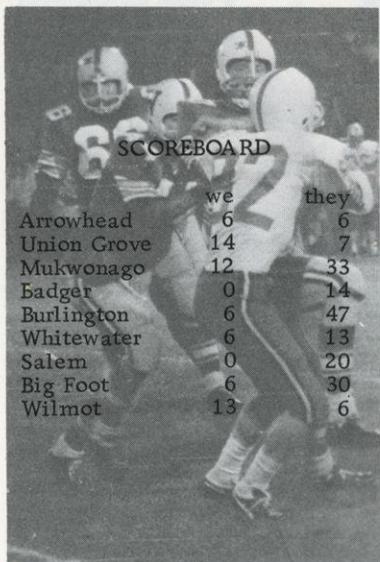

The 1971 Football Season provided a test to the morale of the team as well as the school. Although the hopes were dim the team tried and worked hard to do the best job that they possibly could. The fans believed this too as you could tell by the constant turnout. The season had its exciting moments as Captain Kevin Miles and Coach Baas were determined to keep up the team's spirits. Injuries didn't allow for any extra motivation either. The year conditioned the members of the team--especially the underclassmen. It made them strong mentally and allowed them to build themselves up and have time to mature, and--after all isn't that what high school is supposed to do? Next year will provide the team with a chance to show how they have gained through experience. Back them, they deserve it.

## *Football Builds Bodies "12" Ways*

Mr. Ugly...

"Keep the Peace!", "Let's Smash!" were familiar calls heard by followers of the CC Team. WHS had the best Cross Country teams ever in its history. With such runners as Scott Lewis, Greg Hanson, and Wayne Rhody leading the "Pack" ---How can we fail? Though running the 2.5 mile course isn't the easiest thing, our CC Men showed how to do it. Cross Country is an individualistic sport, the team is still an important factor. Just ask them about their practices, the jogs on Saturday and Sunday and all the running time they put in. Well deserved was the Conference Championship and the third at State was a fantastic end for a fantastic year.

## *CC Men Take 3rd At State*

## *Southern Lakes Conference Champs 1971-2*

After the diets, the daily running around the halls and the calisthenics, our wrestlers were ready to get on the mat and show their opponent they meant business. Our line of business was winning as much as possible and accepting defeat as means of improving their mistakes. Individual wrestlers went far this year, but the whole team contributed to its greatness. Winning a match was an accomplishment but losing made the team closer to each other. Each wrestler realized that it could have been him that lost and how he would have felt. That extra confidence from the team made the loser of one match into a winner in the next. New WIAA rules were introduced this year and many came to our advantage. One of the greatest accomplishments was taking 1st at our own invitational over which Franklin has reigned for the last couple of years, we tried and we did it.

Yea! WRESTLERS!!!

## *From The Bottom Up — They're Grrreat!*

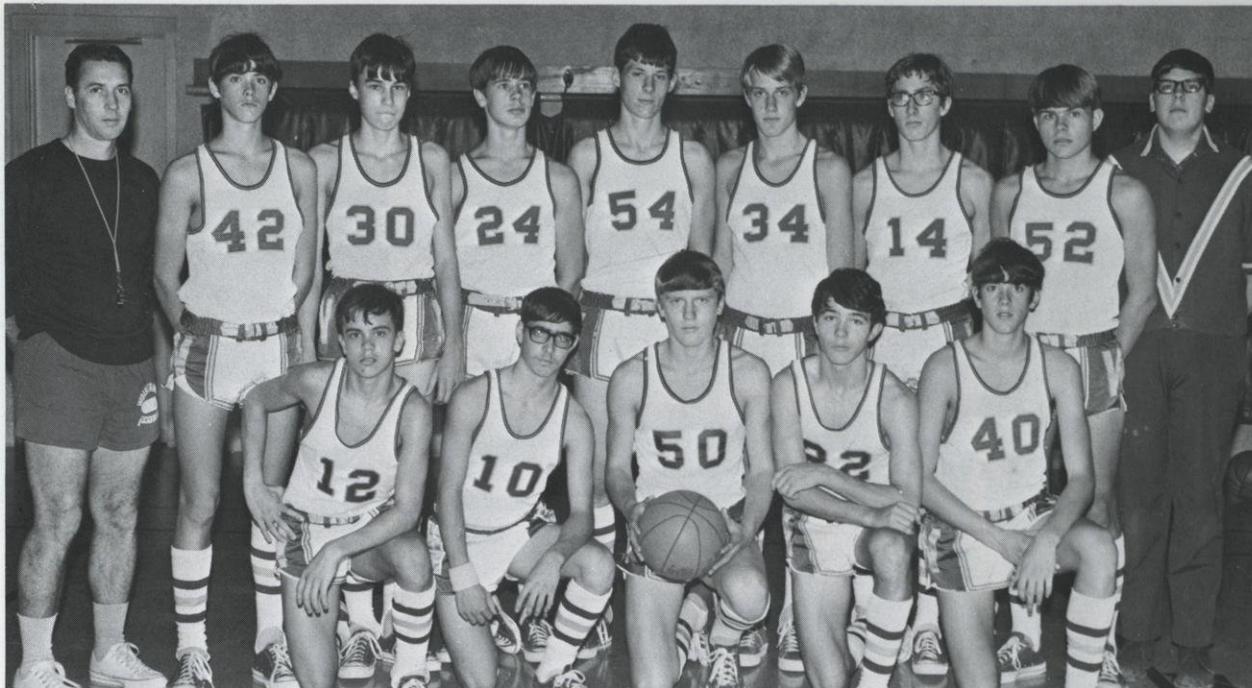

ROW 1: R. Tymus, D. Revolinski, D. Gaspar, K. Hering, D. Huening, D. Wendorf, M. Dropp. ROW 2: Mr. Baas, C. Carter, E. Chart, B. Ludwig, B. McMallen, M. Griel, B. Kordus, S. Chesky, B. Rank, D. Schrader.

The Basketball Season proved to be very exciting with happy victories and sad defeats. It appeared that the Wolverines lacked a little of that old spunk that they needed to pull them through some of the toughest games, but all was not lost. As a result, the defeats were close and very sad. Burlington, Whitewater, Badger, Salem and many of the other teams proved to be tough competitors. It took the inner drive to keep themselves going. With 8 seniors going from the bench to the floor along with the juniors the games never had a dull moment. The team was constantly growing and changing, improving their offense and defense--working on their zones. We all must change in order to grow better and so did the Wolverines improving their moves to the very end.

Greg Hanson gets shot around Scott Nehring, Whitewater.

As the year draws to a close, it's hard to determine just how far we've come. We've been growing up for such a long time that it seems an endless process--it is. People are constantly changing and growing in some way or another. Shortly we will be standing before family and friends in our caps and gowns. "For the thing that you seek is a wonderful prize." At the moment we are handed our diploma, what will we think of? --the Freshman party, homecoming, prom --all that we've been through--flunking tests, the special persons who have made our lives what they are. Maybe some will look to school to a bright future, others will find it a rough road and will wish they had never left high school. Some will marry or travel abroad. No matter, whatever becomes of each of us we will remember. Faces and names will fade into the past But we will remember those things which were most important to us; which shaped us into adults. We can never turn back--we must look ahead, and we will.

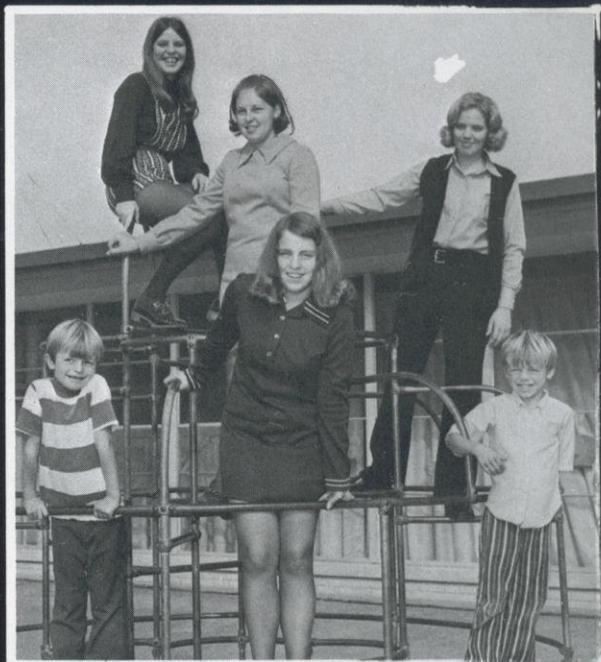

Good-bye Waterford and WHS. It's been nice knowing you but the world asks for more from us. We can not be held down. We will come back someday--SOMEDAY!

WHS, there is one thing we, as Seniors would like to leave to you. Faith in your fellow man, that all will turn out for your benefit... that the growing pains are an experience worth living through... that in this world there will always be someone to help you out. Hope, that the world into which you step offers an abundance of knowledge and a deep sensation of friendship... that the world which we build will make it easier for you. Charity, that you can forgive as easily as you hate... that you can give of yourself to make you, your school and your country better. Through these things will you find that growing up means seeing and realizing the truth.

WHS, may you always see the truth through our eyes and face it boldly and strongly.

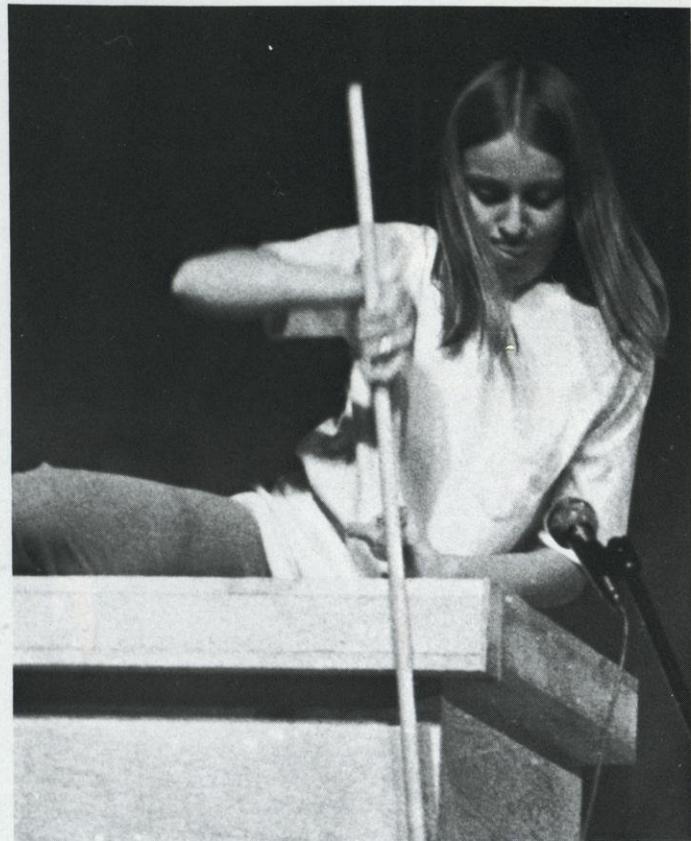

These things we, the Class of '72, leave with you. Never forget us--we are the beginning of a new era--hopefully an era of peace... and justice for all men.

17 well-lived years--  
a lifetime.  
lala knew life had many faces  
so lala looked for hers  
lala found it  
It wore a grin  
Beneath this grin  
was a BIG love of life

## *Annual Staff — Growing Stronger*

Boni Roanhause--Editor

We grow-we change, and we hardly notice it at all. It seems that time goes by so slow and so fast at the same time that we seldom get a chance to stop and think, of anything. Sometimes it doesn't quite seem worth all the trouble to do anything, and at others we can't find enough time to do what we want to. Well, I guess that's all in life. Next year someone will take my place. But no one can take those things from me that have meant so much, all the things that have caused me and many others to react. Now, I believe it is traditional to say good-bye, it's been nice knowing you. This I can't do, and won't. I've found my GROWING UP TREE and am understanding it more and more each day. Thanks To YOU!!

## *A Thurber's Carnival*

Gary Warick and Gail Bartels  
"The Secret Life of Walter Mitty"

The Henpecked husband; A different version of little Red Riding Hood; or General Grant . . .

A THURBER'S CARNIVAL brought a new aspect of theater to us . . . a Readers Theater. It was quite different from the musical or any other play that had been cast. The make-up, setting, and costumes were kept at a minimum leaving the emphasis on the actors and actresses and their lines. Thurber's versatility and excellent sense of humor provided an evening of enjoyment for those people with an open mind for new techniques on stage.

Raggety Ann and Raggety Andy

### Fantasyland--

A place where dreams come true and the "make believe" becomes real. Prom night was very special to the 107 couples that braved the rain; it was also an end of a week of hard work to turn the gym into a lovely ballroom. Their work was rewarded . . . April 29th will hold a lifetime of memories for all who attended.

The Grand March

Breaking a school record is an accomplishment for an individual and usually does not occur that often. However, this season brought six new school records: Greg Sloan pole valuted 13 ft.; Scott Robinson dashed 440 yards in 51.9 sec.; Scott Lewis whizzed through the 880 dash in 1 min. 57 sec.; and the mile in 4 min. 17.1 sec.; Greg Hansen ran the two mile in 9 min. and 40.1 sec.; the mile relay with Scott Robinson, Kevin Dement, Mike Modrak, Scott Lewis set the 3 min. 27.6 sec. record. At the State Track Meet Wayne Rhody set the Class B State Record in the two mile and Scott Lewis set the 4 min. 17.9 sec. record in the one mile. The track team was 1st at regionals, 2nd in sectionals and 3rd in state. Just as this season has left us victorious, a dedicated coach is leaving sports to concentrate on administrative affairs. Mr. Zuelsdorf, WHS salutes you and the 17 years you gave to put Waterford on the map in sports! We thank you!

VARSITY GOLF: ROW 1: D. Nitka, D. Potokar, ROW 2: D. Frost, M. Cornelius, S. Amundson.

The Golf team also had a fantastic season. At the beginning of the season, the golfers set their goal--Regional Champs. This was their accomplished goal. At sectionals, the team met some of the toughest teams in the state, but were able to place fourth. The Varsity set a new team score--157 in Conference meets. WHS also gives a grand salute to Coach Edwards who for seventeen years was a direct and active influence in WHS Sports. Thank You, Coach Edwards!

GOLF: ROW 1: B. Grosshuesch, J. Irwin, B. Heebsh, ROW 2: S. Chesky, D. Dolezal, K. Willick, G. Foat, D. Potokar, T. Towne, D. Pischke, D. Nitka, ROW 3: Mr. Beischer, S. Amundson, C. Carter, R. Stelzner, D. Funk, J. Behling, D. Frost, L. Bucholtz, Mr. Edwards.

## *Girls Track Off to a Running Start*

RADIO CLUB: LEFT GOING UP: L. Schuckman, M. Rechlitz, R. Hanson, A. Brown, J. Hillert, RIGHT GOING UP: A. Kossow, D. Maerzke, B. Lindau, H. Owens, D. Oberhart.

An added event to WHS extra-curricular activities was sending a WHO KNOWS team to WITI TV. The team met Franklin High but was eliminated from further competition. Through the many hours of preparation, the team obtained knowledge comparable to college prep. WHS feels honored that we were selected to enter this competition.

Another first for WHS this year was the Radio Club. Its existence evolved from students interested in ham radios and electronics. Music during the lunch hours was one of the features of this organization.
