THE MOST WIDELY APPROVED

SCHOOL TEXT-BOOKS:

THE ECLECTIC EDUCATIONAL SERIES:

WILSON, HINKLE & CO.,

137 Walnut Street, Cincinnati, O.

"THE MOST VALUABLE LITERARY PROPERTY PERHAPS IN THE WORLD."—Atlantic Monthly.

THIS SERIES of School and College Text-books has been recently enlarged by the addition of several valuable works. Founded upon the true basis of **merit** and **economy**, this Series has attained a far wider use and recommendation than any other. It is confidently believed that, in its improved and more complete form, the **Eclectic Educational Series** will more than ever meet with the favor of the educational community.

READERS AND SPELLERS:

DeWolf's Instructive Speller,
New Eclectic Speller,
New First Eclectic Reader,
New Second Eclectic Reader,

New Third Eclectic Reader,
New Fourth Eclectic Reader,
New Fifth Eclectic Reader,
New Sixth Eclectic Reader.

McGuffey's New Eclectic Readers and Spellers have within a few months been introduced into the Public Schools of Toledo, O.; Union City, Ind.; Paducah, Ky.; Madison, Beloit, and Milwaukee, Wis.; Franklin, Pa.; Springfield, Joliet, Morris, Quincy, and Carlinville, Ill.; St. Joseph, Carondelet, and St. Louis, Mo.; and of numerous towns and cities over the country generally;

Including One Thousand Schools in the State of Maryland alone!

The foregoing is sufficient evidence of the rapidly increasing favor in which this **most popular** Series is held.

RAY'S SERIES OF MATHEMATICS:

No SERIES of Mathematics published has received so general commendation and widely approved use as this. The sterling merit of the works is attested by their rapid adoption in many of the first Institutions of the country. The **Rudiments of Arithmetic, Geometry and Trigonometry**, and **Elements of Astronomy** are recent additions to the Series, and make it the best adapted, the most thorough and desirable, now offered. The **Metric System** receives full treatment.

Ray's Primary Arithmetic,
Ray's Intellectual Arithmetic,
Ray's Rudiments of Arithmetic,
Ray's Practical Arithmetic,
Ray's Higher Arithmetic,
Ray's Test Examples (Arithmetic),

Ray's Elementary Algebra,
Ray's Higher Algebra,
Ray's Geometry and Trigonometry,
Ray's Elements of Astronomy,
Ray's Analytic Geometry (in press),
Ray's Differential and Integral Calculus (in preparation).

Ray's Mathematics have been recently introduced, wholly or in part, into the Universities of Michigan and Minnesota, the Public Schools of Philadelphia, Baltimore, Franklin, Pa.; Allegheny City, Pa.; Akron, O.; Lexington, Ky.; Milwaukee, Wis.;

And many other Towns throughout the Union.

Ray's Mathematics are used, wholly or in part, in Yale College, Washington College, Columbia College, the University of Michigan, University of Minnesota, University of Kentucky, University of Missouri, Ohio University, Indiana University; also in the Public Schools of New York City, Philadelphia, Baltimore, Petersburg, Wheeling, Allegheny City, Reading, Meadville, Cleveland, Columbus, Dayton, Cincinnati, Logansport, Terre Haute, Evansville, New Albany, Chicago, Springfield, Jacksonville, Janesville, Cairo, Detroit, Milwaukee, Watertown, Racine, Nebraska City, Des Moines, Keokuk, Iowa City, St. Joseph, Hannibal, Leavenworth, Atchison,

And Thousands of Towns and Cities over the Country at large.

The attention of Teachers and School-Officers is respectfully invited to the above School Text-Books. The increase of circulation of McGuffey's Readers and Spellers and Ray's Mathematics for the year 1869 IS UNEXAMPLED, and indicative of their great GROWING POPULARITY among Educators.

Single Copies for examination, and supplies for first introduction in exchange for similar works not in satisfactory use, will be furnished on most liberal terms.

METHOD OF KEEPING RECORDS.

The following forms present a simple and convenient method of keeping a daily and term record of the attendance of pupils. The term record is made up from the daily record, which, to save space, covers only four weeks, and both are filled and footed to illustrate the method:

DIRECTIONS.—1. **SCHOOL TERMS.**—The successive terms of school taught in the year should be designated *first term*, *second term*, etc. The final term should close on or before the last day of the school year.

2. **PUPILS' NAMES.**—Write the names of the pupils in alphabetical order, with at least one blank space between the names of the two sexes.

3. **AGE.**—The pupil's age, at the close of the final term of the school year, should be recorded. This will make the record the same for each term.

4. **ATTENDANCE.**—An oblique line, made from right to left (/), denotes that a pupil was present in the forenoon; an oblique line, made from left to right (\), that he was present in the afternoon; and two oblique lines crossing each other (X) or meeting each other (^), that he was present both forenoon and afternoon. "W" denotes that the pupil has withdrawn.

5. **TARDINESS.**—A small figure, placed at the upper end of the mark of attendance, denotes the number of minutes of tardiness; thus, $\times^5$ or $\times^5$ denotes that the pupil was tardy 5 minutes in the morning; $\times^5$ or $\times^5$ that he was tardy five minutes in the afternoon; and $\times^{3\wedge5}$ that he was tardy 5 minutes in the morning and 3 minutes in the afternoon. If preferred, the figure may be placed, in each case, just above the mark of attendance.

DIRECTIONS.

- DAYS PRESENT.**—Write in this column the number of days each pupil was in attendance during the term.
- DAYS ABSENT.**—Record only the number of days the pupil was absent while a member of the school. Do not count the days before he entered nor after he was withdrawn.
- TIMES TARDY.**—Write in this column the number of times each pupil was tardy during the term.
- PUPILS ENROLLED PREVIOUS TERM.**—If the report is made for the *second* or final term of the school year, place a star (*) in this column opposite the names of all pupils enrolled the previous term. If the report is made for the *first* term of the school year, this column is not to be filled, since the "previous term" in that case would not be in the current school year. The number of pupils' names thus marked (*) should be entered in the "General Summary" in the proper column.
- BRANCHES OF STUDY.**—To denote that a pupil pursued a given branch of study, place a figure one (1) in the proper column, opposite the pupil's name. If he pursued the same study the previous term of the current school year, place a figure two (2) in the proper column. By "Oral Lessons" is meant all regular oral instruction, whatever the subjects thus taught—book lessons are not included.
- TO FIND THE AVERAGE DAILY ATTENDANCE.**—Add together the number of days the different pupils were in attendance, and divide the sum by the number of days the school was in session. The average daily absence is found in a similar manner.
- TO FIND THE AVERAGE AGE OF PUPILS.**—Divide the sum of the ages of all the pupils by the number of pupils.
