The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

Automate and Individualize Continuing Education

"I needed this review."

"Excellent fun-type study."

"Educational and stimulating."

These are typical of the comments written by RN's, LPN's, and aides when our concept of medical review to update and upgrade personnel was tested. Self-testing, self-teaching programs were administered by teaching machines at nursing stations during all shifts.

Equipment and programs of this effective and cost-saving system are the concept of Didactics Corporation, whose sole business since 1964 has been branched, computerized teaching machines.

The editorial reviewers for our 25 programs are Marta Reeder R.N., B.S., Director of Nursing, Mansfield General Hospital; and Reatha Westrope R.N., M.A., Chairman, Department of

Nursing, North Central Technical College, Mansfield, Ohio.

For full details and descriptive literature, call or write today. No obligation.
