The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

AN IMPROVED EYELESS NEEDLE (SOUTTAR)

The improved London Hospital eyeless needle combines the traditional safety of stainless steel with a new standard in the several qualities required by surgeons.

These eyeless needles are the result of new methods of manufacture and are available in the London Hospital standard range.

*Improved temper*

*Sharper points*

*Maximum strength of join*

*No hilt distortion*

*Smallest ratio of needle  
diameter to size of catgut  
— minimizing tissue trauma*
