MESSAGE

OF

LUCIUS FAIRCHILD,

GOVERNOR OF THE STATE OF WISCONSIN,

AND

ACCOMPANYING DOCUMENTS

FOR 1868.

MADISON, WIS. :

ATWOOD & RUBLEE, STATE PRINTERS. JOURNAL BLOCK.

1869.

TABLE OF DOCUMENTS.

1. Report of Secretary of State.
2. State Treasurer.
3. Bank Comptroller.
4. Commissioners of School and University Lands.
5. Trustees of Institute for Education of Blind.
6. Trustees of Deaf and Dumb Institute.
7. State Prison Commissioner.
8. Managers of State Reform School.
9. Trustees of Soldiers' Orphans' Home.
10. Superintendent of Public Instruction.
1. Adjutant General.
12. Trustees of Hospital for the Insane.

THE GOVERNOR'S MESSAGE.

To the Legislature:

I herewith submit the several annual reports, from an examination of which, you will learn that the affairs to which they relate have been, during the past year, so administered as to reflect great credit upon the gentlemen having them in charge. It seems neither necessary nor proper for me to make lengthy extracts from these reports, as they will be before you for reference, and copies thereof will be by you extensively circulated among your constituents for their information.

There are many reforms which would, in my opinion, contribute to our welfare as a state, but, as they generally involve a change of the constitution, I refrain from recommending them to your present consideration, in the belief that before many years, the people will decide to call a convention to revise that instrument, and change it in several important particulars. For the same reason, and in view of the fact that the last legislature provided for the publication of a full digest of the laws, I do not advise a revision of the statutes at present.

I am glad to be able to say to you that the healthy condition of our state affairs indicates a necessity for but little general legislation, and I trust you will abstain, so far as possible, from that which is purely private and local, when the relief sought can be attained under general laws. Such action on your part will inaugurate a reform which will meet with the hearty approval of the people.

Heretofore it has been customary for the governor to act upon bills at any time within three days after the adjournment of the legislature. I have, upon reflection, come to doubt the

legality of such proceeding, and, in order to avoid the consequences of a hurried adjournment, I deem it my duty to inform you that no bills will be considered by the executive after your honorable body shall have been adjourned. You will therefore see the necessity of perfecting all legislation so as to render such consideration of, and action upon, the same possible before the hour of adjournment. Those who remember the result of the hasty adjournment of the last legislature will see the imperative necessity for this change.

FINANCIAL.

The exhibit made by the financial reports is gratifying:

STATE DEBT.

The present indebtedness of the State is		\$2,252,057 00
Of which there is due to the school fund.....	\$1,594,700 00	
Normal School fund	448,500 00	
University fund.....	101,000 00	
Total due to the educational funds.....	2,084,200 00	
State bonds outstanding.....	167,800 00	
Currency receipts outstanding.....	57 00	
Total.....		<u>\$2,252,057 00</u>

Showing a reduction of \$27,000 during the year.

State bonds, to the amount of \$206,800, have been purchased with trust funds for investment, canceled and certificates of indebtedness issued in lieu of them, according to law. All of the outstanding bonds will undoubtedly be absorbed by these funds this year.

The receipts and disbursements of the general fund, during the last fiscal year, were as follows:

RECEIPTS.

From counties, state tax and tax on suits.....	\$665,809 17
Railroad companies, taxes.....	225,784 51
Planroads, taxes.....	119 47
Telegraph companies, taxes.....	551 75
Insurance companies, taxes and license fees.....	65,737 63
State bonds, dues from banks.....	5,435 00
National banks, taxes.....	948 78
Hawkers and peddlers, licenses.....	9,710 57
Miscellaneous sources.....	9,274 02
Total receipts.....	<u>\$982,870 90</u>

DISBURSEMENTS.

Salaries and permanent appropriations	\$73,678 28	
Legislative expenses for 1868	81,433 76	
State Prison and Charitable institutions	356,559 15	
State Capitol, extension and repairs	60,801 47	
Interest on state debt	167,719 76	
Miscellaneous, printing, clerks, labor, fuel, bounties, publish- ing laws, &c.	206,336 28	
Total		\$946,518 65
Balance in the fund, September 30, 1868		\$44,946 38
Balance in the state treasury, September 30, 1868, belonging to all the va- rious funds		\$153,880 68

Every proper demand against the state has been promptly paid upon presentation, there having been at all times sufficient funds in the treasury.

The Secretary of State estimates the necessary expenditures from the general fund, from October 1, 1868, to December 31, 1869, fifteen months, as follows:

Salaries and permanent appropriations	\$71,200 00
Legislative expenses	80,560 00
State Prison and Charitable institutions	205,000 00
Appropriations for 1868, not paid	208,177 78
Clerks and employees	47,100 00
Interest on state debt	165,000 00
Miscellaneous, printing, publishing laws, stationery, fuel, postage, &c.	96,300 00
Estimated expenditures for last quarter of 1869	43,000 00
Total	\$911,337 78

Estimated revenue for the same period:

Balance in treasury, October 1, 1868	\$44,946 38
State tax for 1868	544,369 12
State tax due for 1867	11,151 79
Railroad companies, license	225,000 00
Telegraph and plankroad companies	700 00
Peddlers' licenses	10,000 00
Tax on suits	2,600 00
Insurance companies, tax and license	65,000 00
Miscellaneous sources	7,000 00
Banks, installments due	1,000 00
Total	\$911,787 29

It will be seen that the estimated expenditures and revenues

are nearly equal in amount. Great care should be exercised in making appropriations, the payment of which, this year, is not provided for, lest such a deficiency be created in the general fund as will embarrass the state finances.

The Secretary also gives an estimate of revenues and expenditures for 1870, it being necessary for you to provide the means for defraying the expenses for that year, by tax or otherwise :

Expenditures	\$658,200 00
Revenues	318,300 00
To be raised by state tax	<u>\$339,900 00</u>

He suggests that a State tax of \$350,000 be levied at the commencement of the session, and that the provisions of section 2, of chapter 112 of the general laws of 1868 be applied, so far as is practicable, to any appropriation in excess of this estimate. That law authorizes him to levy a tax sufficient to provide for the payment of all appropriations. Believing that it will greatly facilitate legislation, I concur in the suggestion.

There was expended from the governor's contingent fund during the past year the sum of \$1,198.20. Balance in the fund January 1, 1869, \$1,112.54.

From the appropriations for the payment of expenses incident to the transportation of the British Patent Office Reports, donated to State Historical Society, there has been expended the sum of \$524.53. The society's collection of books and pamphlets now numbers thirty-five thousand volumes, and is of such character as would reflect great credit upon any community.

The efforts to secure a final settlement of the claim against the Federal government on account of expenses incurred in connection with the war, have not ceased. Explanations have been made answering the objections of the auditing officers at Washington, so far as is now possible, and it is confidently expected that a large portion of the claim will be allowed during this year.

The State Treasurer calls attention to the fact that but \$1,075.78 were paid into the treasury last year, as the clear proceeds of all fines for violations of the penal laws. Several of the most populous counties made no payments of this character. It is believed that full returns have not been made in all cases.

TAXATION.

Your attention is called to the views presented by the Secretary of State in his report relative to proposed amendments to the laws relating to the assessment and collection of taxes. The frequent amendment of these laws in past years has been a source of very great embarrassment to the people. Before they could possibly become conversant with the general working of a law, important changes have been made, rendering those who are affected thereby uncertain as to their duties and responsibilities. Any important amendment which may seem necessary ought to be very carefully considered before enacted, lest we again fall into the same trouble. The valuation of real and personal property, as equalized for 1867, was \$196,851,160.97. Valuation as established by State Board of Assessors for 1868, \$244,440,774.00. Increase in valuation \$47,589,613.03. The actual value is probably not less than \$370,000,000.00, as appears from returns made to the Secretary of State.

BANKS.

The amendment to the banking law, abolishing the office of Bank Comptroller, and devolving the duties thereof upon the State Treasurer, was ratified by the people at the last general election. At the same election there were submitted ten charters, authorizing the establishment of savings banks, which were not ratified. The necessity for savings banks is not denied by any one, and if a general law, providing for undoubted security to depositors, under which such institutions can or-

ganize, shall be by you submitted to the people, there will be little or no opposition to it.

The report of the Bank Comptroller shows that but sixteen banks are now doing business under the banking law, with an aggregate capital of \$525,000,00, and \$15,458 circulation outstanding. Thirty-eight banks with an aggregate circulation of \$40,028,00, are being wound up, and their affairs finally settled. The State Treasurer reports that the sum of \$60,000 will probably be realized by the State, on account of the tax on National banks, under the provisions of chapter 400 of the general laws of 1865, that law having been declared constitutional by the Supreme Court of this State.

EDUCATIONAL.

The people look at the close of each year, with peculiar interest, for the results of our educational system, and no one doubts that those results fully vindicate the wisdom of that system, which offers to every child in the land ample facilities for acquiring knowledge. Those who have during the past year been entrusted with the immediate charge of our educational affairs, school officers and teachers, have not grown weary in well doing, but have labored with unflagging zeal for the benefit of the youth committed to their care. Wisconsin is making commendable progress in this direction. Our common schools are each year steadily improving; our University is now an object of just pride to the people, and the various private institutions of learning are efficiently co-operating with the state schools for the general good.

The cause of education must not languish in this state for want of hearty support, and our efforts must not be relaxed until we occupy a foremost position among the states, famed for successful educational endeavors.

The report of the Superintendent of Public Instruction, always an interesting and valuable document, is very full and complete. I especially call your attention to his recommenda-

tion for a change from the district, to the township system of school government, in which I concur, believing that it will secure a more efficient and economical management of schools. Statistics show that during the past year 50,000 children of the proper age did not attend school. Those who have the guardianship of our youth have no right to allow them to grow up in ignorance. There is no good reason for thus neglecting one of the most important and sacred duties of the citizen. By so doing they are inflicting a positive and lasting injury upon the state and nation. As one means of correcting this great evil, I concur in the suggestion of the Superintendent, that at least one half of the income of the school fund be apportioned upon the basis of attendance upon school. Wherever such a system has been adopted the attendance has greatly increased. There was expended by the people during last year for public school purposes \$1,791,940.52 being \$7.19 for each pupil registered as having attended school.

Total productive school fund.....	\$2,205,486 88
Receipts of the school fund income last fiscal year.....	178,238 78
Apportioned by Superintendent of Public Instruction.....	178,710 47
Number of public schools in the state.....	5,000
Number of children attending public schools.....	249,007
Number of acres of school land held by the state for sale.....	461,461

The Normal Schools at Platteville and Whitewater are meeting the expectations of those interested in education, and from the number of persons who seek admission to the normal departments, the advantages of such schools seem to be justly appreciated by those who are preparing themselves for teaching. The erection of the Normal School building at Oshkosh will be commenced immediately. It will be completed and the school opened as soon as practicable.

The Regents have expended a portion of the funds at their disposal in aiding teachers' institutes, which have been of very great advantage to the teachers of the State.

Total productive Normal School fund.....	\$625,294 11
Receipts of the income fund last fiscal year.....	57,776 20
Balance in the income fund, September 30, 1868.....	21,792 50

There is now held by the State, for sale, 810,667 acres of land belonging to the Normal School fund.

I can best present the condition of the State University by quoting from the report of the Hon. Edward Salomon, President of the Board of University Regents. He says:

"It is with unfeigned pleasure and satisfaction that I make the announcement that the efforts of those to whom the management of the University has been confided have been crowned with success during the past year, and that the condition of the institution is highly favorable, and its affairs, and the results so far attained are satisfactory and full of promise for the future. This is mainly due to the ability, energy and incessant labors of President Chadbourne, to whom the Regents and the people of the State are under lasting obligations, He has had the interests of the institution at heart, in every one of its many and different departments, and he and his corps of professors and instructors have labored zealously, ably and successfully in the discharge of their duties."

During the last collegiate year 394 students have been in attendance. Departments of law, agriculture, and engineering and military tactics have been established, adding greatly to the educational advantages of the institution. As to its needs I again quote from the Regents' report.

"The principal and most pressing need of the University is still felt to be, (more pressingly even than last year, because of the increase of students) an increase of room and accommodations for students. *The University must have another building.* It is impossible to put up such a building from its own resources, and it has therefore to rely upon the generosity of the state to furnish the means. Without another building the University cannot expand, as it surely will with enlarged accommodations."

Gentlemen, the University is on the road to perfect success. It cannot, however, reach the goal without assistance, and for the required aid it can look only to the state. We can make it the peer of any institution of learning in the land by simply giving it the means to perfect its departments, and proper buildings for the accommodation of students. Knowing that you justly appreciate its value to the youth of the state, I commend it to your fostering care, earnestly seconding the recommendations and suggestions of the Regents' report.

Total productive university fund.....	\$199,438 14
Total productive agricultural college fund.....	14,488 40

219,737 acres of agricultural college lands valued at.....	274,671
Remain unsold. Total valuation of these lands.....	<u>\$306,556</u>

BENEVOLENT INSTITUTIONS.

The people have every reason to be well satisfied with the manner in which the various benevolent institutions are answering the purposes for which they were established.

The gentlemen composing the different boards of trustees and managers, have, as usual, displayed great earnestness and zeal in laboring for the well being of their respective institutions.

The work on the new wing of the Institute for the Education of the Blind is progressing satisfactorily, and will probably be completed this year. When so completed the structure will be in all respects such as we may well be proud of. Sixty pupils have been in attendance during the past year, at a cost of \$13,299 95 for current expenses.

The enlargement of the Hospital for the Insane has been completed. The building affords accommodation for 350 patients. It is a magnificent structure, well adapted to the care of its unfortunate inmates. Three hundred and fifty-five patients received treatment therein last year. \$61,320 12 were expended for current expenses. Not less than four hundred insane persons in the state still remain without proper care and treatment. They are in our jails, poor houses and private dwellings. Every sentiment of humanity dictates that there should be another hospital erected for their accommodation; therefore, I recommend that you take the necessary steps to locate the same this year, so that the building may be commenced in 1870.

Ninety-five pupils received instruction in the Institute for the education of the Deaf and Dumb, during the year; fourteen having graduated. An effort is being made to teach the dumb to speak, with encouraging prospects of success. The

institute building is now complete, with the necessary shops and outhouses. The current expenses for 1868 amounted to \$33,365 38.

Upon the Soldiers' Orphans' Home are fixed the warm affections of those who loved the cause for which our army fought. The trustees are endeavoring to have the institution so conducted as to render it as much like a "home" as is possible, and will spare no pains in that direction. By the removal of the school to the new building, completed last month, the capacity of the institution is increased to 300. Contrary to our expectations there are many applications for admission on file, which, for want of room, must be denied. This ought not to be. No orphan of a Wisconsin soldier should be allowed to suffer. The people are anxious and willing to expend any sum of money necessary to prevent it, feeling that in so doing they are paying but a tithe of the debt due to the children of those who fell while defending the Union. Arrangements should be made immediately for the care and education of all such as require it. There was appropriated in 1868 for current expenses, and payment of deficiency \$40,000.

I have heretofore recommended the establishment of a state school for the education of imbecile and idiotic children. The last legislature, after a full investigation of the subject, passed a bill providing for such a school, but, in consequence of the failure to present the same to the presiding officers of the two houses for their signatures, it did not become a law. It has been so completely demonstrated in other states that a vast amount of good can be accomplished by such an institution, that the people of this state, always ready to lead the van in philanthropic enterprises, will heartily endorse similar action by you.

As required by chapter 165, general laws of 1868, I appointed, as members of the "visiting committee of the State," Senators George C. Hazleton, Nelson Williams and Satterlee Clark, and Assemblymen A. G. Kellam, A. J. Turner, Charles Pole,

D. W. Maxon, Luther Buxton and J. B. G. Baxter, all of whom met at the capitol and proceeded to visit the charitable and penal institutions of the State. The report of the committee will be laid before you in due time.

STATE PRISON.

The State Prison Commissioner has initiated a system of manufactures for the employment of the convicts, and reports such a degree of success as warrants the belief that in a short time the institution will be a source of revenue to, instead of a burden upon, the state. An appropriation of \$40,000 is asked for, of which a large part will be used as a manufacturing capital. The religious exercises, the school, the abolition of the parti-colored dress and the general humane treatment of the prisoners alluded to in the Commissioner's report, as among the reformatory measures adopted in the prison, are undoubtedly having a good effect upon the convicts.

It is gratifying to learn from the prison statistics, that, notwithstanding this state has greatly increased in population during the last ten years, commitments to the prison have decreased; but 184 convicts being there confined on the first day of October, 1868.

REFORM SCHOOL.

The Reform School is in excellent condition. The additional buildings are completed, and the school is now prepared to enter more successfully upon the work of reforming such children as may be committed to its care. The number in the school during the past year was 227. The current expenses for the year 1868 amounted to \$26,761.67. All those who are sent to this school are more unfortunate than criminal, and are entitled to our sympathy; but one class of its inmates, in particular, are the innocent victims of a great injustice. They are very young, are guilty of no crime, and are convicted solely because they are homeless and friendless, upon charge

of vagrancy, and sent to an institution intended only for the reformation of evil doers. I trust that you will provide some means for the removal of this class of children to a more appropriate home, and so amend the law as to prevent the repetition of this wrong. The institution is a good school for those who, for any cause, require the healthy discipline there maintained; but it is not the proper place to send those whose misfortune, not crime, is that they are homeless orphans.

INDUSTRIAL.

While this is, in the main, an agricultural state, other important interests are growing rapidly in our midst, and enlisting the energies of a most active and enterprising class of men. The hum of the waterwheel upon our numerous streams, the various manufacturing establishments, springing up in nearly every town, the city of Milwaukee alone having over \$19,000,000.00 invested therein, the vigorous development of our valuable mines and quarries, the activity displayed in our pineries, all tell of a day, not distant, when the labor of the state will be so diversified as to vastly multiply its wealth and resources, and present additional attractions to those seeking homes in the west.

The state and county Agricultural Societies continue to be active agents in furthering all industrial pursuits, and should, as heretofore, receive a reasonable measure of assistance from the state. The State Horticultural Society has entered with energy upon its work, and will be of great benefit to the people, by disseminating valuable information, gathered from discussions and practical experiments. It, also, is entitled to such aid from the state as will enable it to extend its sphere of usefulness.

The Commissioners appointed to represent the state at the Universal Exposition, held at Paris, in 1867, satisfactorily discharged the duties devolved upon them, and the President of the Commission has made a valuable report.

I have received two bronze medals, with diplomas, which were awarded to the state for its collections of cereals and minerals exhibited at the Exposition. The State Agricultural Society was awarded a similar medal and diploma for its display of cereals.

Knowing the people of this state to be deeply interested in the efforts being made, to discover causes and preventives of cattle diseases, now so prevalent in our country, I appointed President Paul A. Chadbourne of the State University, and Hon. B. R. Hinkley, President of the State Agricultural Society, as commissioners to represent the state in the convention recently held at Springfield, Illinois, to consider, and excite interest in the investigation of, that subject. I commend to your attention the suggestions in their report, which is herewith laid before you.

GEOLOGICAL SURVEY.

A thorough geological survey of this state is much needed. Could we present to the world a scientific and comprehensive account of our vast mineral and agricultural resources, it would draw hither, within a few years, millions of dollars of capital for investment. In such an investigation of her hidden sources of wealth, Wisconsin is far behind the neighboring states of the northwest. If it is not deemed best to provide for such a survey without further information, I respectfully suggest that a competent committee be appointed to investigate, and fully report to the next legislature, upon the necessities of the state in this direction. Such investigation and report can probably be had at little or no expense.

IMMIGRATION.

During the past year, Wisconsin has received her full share of those who have come from the old world to find homes in the new. The state board of Immigration has caused to be published, and widely circulated in other states and countries 20,-

000 copies of a pamphlet, in several languages, giving accurate and valuable information regarding the state. The members of the board are assured that by their efforts large numbers of immigrants have been induced to settle in this state, and will energetically continue their labors the present year.

INTERNAL IMPROVEMENTS.

A complete survey of the Wisconsin river by the United States engineer department, under the immediate charge of Major General G. K. Warren, has shown that its channel can be so improved, at a very moderate expense, as to furnish unimpeded navigation to boats of sufficient tonnage to meet the demands of commerce. That the improvement should be completed at as early a day as practicable does not admit of a doubt. It is a work which is clearly national in its character, reaching out to, and affecting the commercial interests of many States, binding together by a navigable channel the Mississippi river and the great lakes, and furnishing the much needed naval highway which will connect nearly all the navigable waters of the Union. This enterprise has received the serious attention of the authorities and people of many States for several years, and it now seems certain that the Federal government will enter in earnest upon the work and complete it. I shall have occasion to communicate with you further upon this important subject.

I again recommend that you give your influence in aid of the immediate construction of the Northern Pacific Railroad. The necessity for this road is apparent without argument.

Seventy miles of the military road from Fort Howard to the Michigan state line have been completed, and accepted by the State.

No further steps have been taken, during the past year, relative to the proposed improvement of Rock river. I regard

this as an enterprise of immense importance to the state, and, as such, commend it to your favorable attention.

The prospect of greatly increased railroad facilities within the state is certainly gratifying. Several roads are being extended, and new ones projected, with every reasonable assurance of completion. The extension of the lines from Sun Prairie to Madison, from Sheboygan to Fond du Lac, from Calamine to Platteville, from Omro to Winneconne, will add much to the convenience of trade and travel. Recently the first division of the West Wisconsin railway has been opened from Tomah to Black River Falls. This is a most important road, and its progress will be watched with great interest by all who are pleased to see the products of the vast and fertile northwest afforded greater facilities for reaching eastern markets. A rapid increase in wealth and population of the counties through which it passes will follow its completion.

There are now nearly 1100 miles of railroad operated within this state, the gross receipts of which, last year, amounted to \$7,531,810,63, as shown by their reports.

The lands granted by Congress in 1856 to aid in the construction of a railroad from Hudson to Lake Superior were by the state granted to the St. Croix & Lake Superior Railroad Company, which corporation has not completed the road, nor any part of it. The settlement of the counties in which the lands thus granted are located has been greatly retarded by reason of their withdrawal from market. In fact the grant has thus far been a positive injury to the state. The interests of the northwestern portion of the state demand that this road should be constructed at the earliest day possible. The time limited by the act of Congress for its construction expires next May, and the lands granted will then revert to the United States, I therefore recommend that you ask Congress to extend the time, and that you take such action as will effectually guard against further delay, and will bring the lands included in the grant immediately into market, for sale to actual set-

tlers. I am un-officially informed that responsible parties are ready to give ample security to the state that the work shall be vigorously pushed. It is due to the people that you insist upon such terms and security as will place the early completion of this road beyond a doubt.

STATE CAPITOL.

The rotunda of the state capitol is now completed, and a contract has been entered into with C. S. Rankin & Co., of Cincinnati, for the erection of the dome, for the sum of \$90,000; the work to be completed on or before the first day of December next. It is now only necessary to provide for the completion of the corridors of the basement, excavation of proper coal vaults, and for finishing off a sufficient number of committee rooms to meet the requirements of the legislative committees. All of which can be accomplished this year, if the requisite authority be conferred upon the building commissioners. When the dome is finished, the capitol will have cost the sum of \$528,315,60. Since 1860 the state has expended \$1,200,000 for the erection of public buildings.

IN MEMORIAM.

The remains of the lamented Governor Louis P. Harvey rest in Forest Hill cemetery, near this city. Governor Harvey died in the prime of his manhood, while ministering, with kindly care, to the wants of the suffering and dying soldiers of Wisconsin; a mission self-imposed and sacredly discharged. The state should erect a monument to his memory, which is very dear to the people. An appropriation for this purpose will, I know, be by all most heartily approved.

CONSTITUTIONAL AMENDMENT.

The last legislature adopted the following joint resolution:

Resolved by the Assembly, the Senate concurring, That section five of article five of the constitution of the state of Wisconsin is amended to read as follows:

SECTION 5. The governor shall receive during his continuance in office an annual compensation of five thousand dollars, which shall be in full for all traveling or other expenses incident to his duties; and

Be it further resolved by the Assembly, the Senate concurring, That section nine of article five of the constitution of the state of Wisconsin is amended to read as follows:

SECTION 9. The lieutenant governor shall receive during his continuance in office an annual compensation of one thousand dollars.

In justice to those who may be hereafter chosen to discharge the duties of the offices named, I recommend that you ratify this resolution, and provide for its submission to the people.

CYRUS W. FIELD.

In obedience to joint resolution number ten, 1867, I have caused to be prepared and transmitted to Cyrus W. Field a suitable gold medal, in recognition of his distinguished services in connection with the successful completion of the Atlantic cable.

NATIONAL.

The people have lately declared, in terms not to be misunderstood, in favor of the perfect maintenance of the nation's faith, by the honest discharge of every dollar of its obligations. The only financial policy which they desire, and the only one which will receive their approbation, is that one, the underlying principle of which is *honesty* and *economy*. Such a policy will soon enable us to return to a specie basis, and will carry us safely through all financial difficulties. Any other will cover the nation with disgrace, and entail upon generations to come a legacy of dishonor. The national debt is a heavy burden upon the people, and now more than ever before retrenchment, and the most rigid economy should be the watch words of those who control our public affairs. Never in the history of this republic was it more necessary.

Congress should, in my opinion, at an early day, submit to the several states an amendment to the Federal constitution, providing for an uniform rule of manhood suffrage

throughout the whole country. I believe such an amendment will be ratified, and be acceptable to the people.

It is a source of satisfaction that the mode and terms of reconstruction of the states lately in rebellion have been so wisely determined upon by congress, and that such determination, embodied in the laws relating thereto, has received the solemn sanction of the people at the ballot box, and now has been supplied, by the popular voice, the only element wanting to the happy consummation of reconstruction, an executive ready and willing to enforce obedience to the laws in all sections, and secure to every person, of whatever grade, hue, or condition, the rights which are inseparable from freedom. We may now consider the most important issues growing out of the rebellion as substantially settled. There is every warrant for the hope that the people of the South, yielding to the properly expressed will of the majority, will now, and henceforth, render a complete obedience to law, and that persecution of freedmen, that murder and social ostracism of loyalists, organized rapine and lawlessness will vanish from that section forever. Should we, however, be disappointed in this just expectation, should the spirit of rebellion and passion continue to show itself, we may rest assured that neither sympathy with treason nor imbecility will rule in the executive councils, but, that the entire power of the nation will be vigorously used to vindicate the majesty of the nation's laws. Further difficulty we would avoid; we desire, *and will have* perfect peace, and if the southern men will meet us in that spirit, friendship will come with it. Let the people of the South, no longer falsely regarding us as their enemies, leave the "lost cause" where the fate of battle left it, let them not only permit, but invite immigration, afford protection and encouragement to every department of industry, apply themselves assiduously to the arts of peace, and speedily repair the ravages of war by developing the almost boundless resources of their beautiful country. Let them join hands with us of the north, in brotherly grasp, ban-

ishing all prejudice and hatred, and heartily co-operate with us in the noble and patriotic endeavor to contribute to the honor, peace, glory and welfare of the whole of our common country.

CONCLUSION.

I cannot conclude this, my last annual message, without expressing, through you, to the people of this state, my heartfelt thanks for the generous confidence with which they have so often honored me. During the several terms of office I have held by their suffrage, I have received from them a support, sympathy and encouragement which has greatly aided me in the discharge of my official duties. If I shall have in the least degree contributed to the welfare and prosperity of the state, during my connection with the administration of its affairs, it will be to me a source of life long gratification.

We have been blessed, as a people, far beyond the average of mankind, and as a state have been prospered to a wonderful degree. Steeled to all sense of gratitude must be the heart of that citizen who does not sincerely thank the Father of the Universe for the rich gifts He has bestowed upon us. Let us so live as to merit the continuance of Divine favor, To His care, and the guidance of His wisdom I commend you in the performance of your duties as legislators and citizens, fervently praying that in the future, as in the past, God's richest blessings may rest upon upon our beloved state and nation.

LUCIUS FAIRCHILD.

EXECUTIVE CHAMBER, January 14, 1869.

DOCUMENTS.

Document No. 1.

ANNUAL REPORT
OF THE
SECRETARY OF STATE
OF THE
STATE OF WISCONSIN,
FOR THE
FISCAL YEAR ENDING SEPTEMBER 30, 1868.

OFFICE OF THE SECRETARY OF STATE,
MADISON, Wis., October 10, 1868.

To His Excellency, LUCIUS FAIRCHILD,

Governor of the State of Wisconsin:

SIR:—As required by law, I have the honor to submit a statement of the several funds, revenues and expenditures of the state for the fiscal year ending on the 30th day of September, 1868, together with such abstracts, tables and matters of general interest, as pertain to the office of secretary of state.

The balance in the treasury belonging to the several funds, was, on the 30th day of September, 1867, \$157,738.21.

The balance in the treasury belonging to the several funds, on the 30th day of September, 1868, was \$153,830.63.

The receipts into and disbursements from the treasury, including balances, during the past year, were as follows:

RECEIPTS.

Balance on hand Sept. 30, 1867.....		\$157,738 21
General fund.....	\$982,870 90

		<u>\$1,602 374 29</u>
Balance in treasury September 30, 1868.....		<u>\$153,830 63</u>

Detailed statements, properly classified as audited by this department, will be found in the appendix to this report, to which the attention of the proper authorities is respectfully solicited.

STATE INDEBTEDNESS.

The amount of state indebtedness will be seen from the following statement, as also the manner in which it has been funded :

Certificates of indebtedness—		
School fund.....	\$1,534,700 00
Normal school fund.....	448,500 00
University fund.....	101,000 00
	\$2,084,200 00	
Bonds due July 1, 1877.....		
July 1, 1878.....	\$2,800 00
July 1, 1879.....	15,000 00
July 1, 1880.....	3,000 00
July 1, 1881.....	13,000 00
July 1, 1882.....	2,000 00
July 1, 1883.....	30,000 00
July 1, 1884.....	26,000 00
July 1, 1885.....	9,000 00
July 1, 1886.....	18,000 00
July 1, 1887.....	8,000 00
July 1, 1888.....	22,000 00
	19,000 00	
	187,800 00	
Currency certificates outstanding.....	57 00	
Total indebtedness.....	\$2,252,057 00	

This statement shows a reduction of indebtedness, as compared with last year of \$27,000. This has been effected under the provisions of chapter 144, general laws of 1868, by withdrawing from the bank comptroller that amount of state bonds, deposited to secure the circulating notes of certain banks, which bonds have been canceled, and a certificate of indebtedness issued to the bank comptroller in lieu thereof. On this certificate has been paid the sum of \$3,076.00, leaving due the sum of \$23,924. This sum has not been included in the indebtedness as stated above, for the reason that it is not probable that circulating notes of any considerable amount will be presented for redemption, and the state will have the benefit of the lost circulation.

As will be seen, the form of the indebtedness has been somewhat changed. Bonds to the amount of \$233,830 have been taken up and canceled, of which amount \$206,800 were purchased with the trust funds, and certificates of indebtedness issued for the same amount. The bonds now outstanding amount to the sum of \$167,800.00 which are mostly held by insurance companies, and will probably all be purchased with the trust funds and canceled during the coming year, leaving the entire debt of the state in the form of certificates of indebtedness to these funds, and forming an irreducible debt, upon which only the annual interest will be required, demanding no provision for the payment of the principal.

The following is a statement of the receipts and disbursements during the last fiscal year of the

GENERAL FUND.

RECEIPTS.

From counties, state tax and tax on suits.....	\$665,309 17
Railroad companies, taxes.....	225,784 51
Plankroads, taxes.....	119 47

Firemen, engineers and laborers.....	10,500 00
Clerks for protecting state lands.....	5,000 00
	<u> </u>	\$47,100 00

VI.—MISCELLANEOUS EXPENSES.

Interest on state debt.....	\$165,000 00
Printing under contract.....	30,000 00
Advertising lands, &c.....	3,000 00
Publishing laws in newspapers.....	9,000 00
Stationery	10,000 00
Postage for state departments.....	3,800 00
State board of assessors.....	1,500 00
County agricultural societies.....	3,000 00
Gas and fuel.....	10,000 00
Board of immigration.....	3,000 00
Repairs on capitol and furniture.....	3,000 00
Contingent expenses and appropriations.....	20,000 00
	<u> </u>	\$261,300 00

Total expenditures estimated to October 1, 1869.....	\$868,337 78
Add for last quarter of 1869.....	43,000 00
	<u> </u>
Total expenditures estimated to December 31, 1869.....	<u>\$911,337 78</u>

REVENUES

Estimated for the year ending December 31, 1869.

Balance in treasury October 1, 1868.....	\$44,946 38
State tax for 1868.....	544,389 12
State tax due for 1867.....	11,151 79
Railroad companies—license.....	225,000 00
Telegraph and plankroad companies.....	700 00
Peddler's licenses.....	10,000 00
Tax on suits.....	2,600 00
Insurance companies—tax and license.....	65,000 00
Miscellaneous sources.....	7,000 00
Banks—installments due.....	1,000 00
Total.....	<u>\$911,787 29</u>

The above estimates are based upon the ordinary receipts and expenditures, and appropriations already made; no allowance being made for additional appropriations for the public institutions. Taxes due from National Banks are not included in the estimate, since this department has no means of information as to the probability of such being paid.

ESTIMATE FOR 1870.

Provision for the current expenses of the state government and state institutions for 1870, must be made by the present Legislature, since the taxes levied will not reach the treasury until February of that year. According to the foregoing estimates, there will be little or no balance in the general fund of the treasury on the first day of January, 1870, so that the whole amount necessary to carry on the government must be provided. My estimates are as follows, for current expenses :

EXPENDITURES.

Salaries and permanent appropriations.....	\$71,200 00
Legislative expenses.....	80,000 00
State prison and charitable institutions.....	205,000 00
Clerks and employees.....	45,000 00
Interest on state indebtedness.....	160,000 00
Printing and advertising.....	45,000 00
Stationery.....	10,000 00
Gas and fuel.....	12,000 00
Contingencies.....	30,000 00
Total.....	<u>\$658,200 00</u>

REVENUES.

From railroad companies.....	\$240,000 00
insurance companies.....	60,000 00
peddlers' licences.....	7,500 00
tax on suits.....	3,000 00
telegraph and plankroads.....	800 00
miscellaneous sources.....	7,000 00
Total.....		<u>\$318,300 00</u>

To be raised by state tax..... \$339,900 00

Any and all appropriations by the Legislature additional to those included in the above estimates must be added to the estimated amount of State Tax. It is respectfully suggested that a State Tax of \$350,000 be levied at the commencement of the session, if the above estimates be found satisfactory, and that the provisions of section 2 of chapter 12, of the General Laws of 1868, be adopted so far as applicable to additional appropriations. This will facilitate legislative action and afford reasonable security for the payment of all liabilities against the State.

WAR FUND.

RECEIPTS.

Banks—semi-annual payment of 1 per cent. on bonds.....	\$1,685 00
Transfer from general fund to close war fund.....	8,256 39
Total.....	\$9,941 39

DISBURSEMENTS.

Adjutant general's salary.....	\$1,000 00	
Clerks, adjutant general's office.....	1,870 45	
Military secretary.....	234 00	
State armory.....	728 00	
Volunteer aid.....	634 50	
	\$9,941 39	\$3,966 95
Over-payment, September 30, 1867.....		5,974 44
	<u>\$9,941 39</u>	<u>\$9,941 39</u>

[Note.—This fund has been closed and transferred to the general fund by chapter 148, G. L. of 1868.]

SCHOOL FUND.

The school fund is composed of :

1. Proceeds of lands granted by the United States for support of schools.
2. All moneys accruing from forfeiture or escheat and trespass penalties on school land.
3. All fines collected in the several counties for breach of the penal laws.
4. All moneys paid as an exemption from military duty, and
5. Five per cent on sale of government lands.

The amount of the productive School Fund on the 30th days of September 1867 and 1868, was as follows :

	1867	1868
Amount due on certificates of sales.....	\$335,015 56	\$520,557 52
Amount due on mortgages.....	166,392 04	150,229 31
Certificates of indebtedness.....	1,394,900 00	1,534,700 00
	\$2,096,307 60	\$2,205,486 83
Total productive fund.....	\$2,096,307 60	\$2,205,486 83

Showing an increase of the productive fund of \$109,179.23, during the past year.

The changes in the first two items of the productive fund as stated above, have been produced as follows :

Amount due on certificates of sales, Sept. 30, 1867	\$535,015 66	
Decreased by forfeitures.....	\$16,655 56	
Decreased by payments.....	54,293 07	
	70,948 63	
Increased by new certificates of sale.....		\$464,067 03
		56,490 49
Amount due on certificates of sale Sept. 30, 1868.....		\$520,557 52
Amount due on mortgages Sept. 30, 1867.....	\$166,392 04	
Decreased by forfeitures.....	\$3,050 00	
payments.....	13,112 73	
	16,162 73	
Amount due on mortgages Sept. 30, 1868.....		\$150,229 31

The receipts and disbursements for the past year have been as follows :

RECEIPTS.

Sales of lands.....	\$33,633 31
Dues on certificates.....	54,293 07
Loans, payments on mortgages.....	13,112 73
Penalties and forfeitures.....	966 67
Taxes.....	626 95
Fines.....	1,075 78
United States, 5 per cent on sales of public lands.....	6,190 68
Estates of persons deceased without heirs.....	420 46
Total receipts.....	<u>\$110,369 65</u>

DISBURSEMENTS.

Invested in state bonds.....		\$139,800 00
Refunded for overpayments.....		1,020 58
	<u>\$110,369 65</u>	<u>\$140,820 58</u>

The various items, in detail, of receipts and disbursements will be found in the appendix to this report, under the proper headings.

UNIVERSITY FUND.

This fund consists of the proceeds of the sales of lands granted by congress for the support of a university.

The amount of this fund which was productive at the end of the fiscal year, ending September 30, 1867, and 1868, respectively, was as follows :

	1867.	1868.
Amount due on certificates of sales.....	\$69,192 88	\$68,341 14
Amount due on mortgages	6,892 00	6,092 00
Certificates of indebtedness.....	101,000 00	101,000 00
Dane county bonds.....	16,800 00	24,000 00
Total productive fund.....	\$193,884 88	\$199,433 14

Showing an increase in the productive fund during the last year of \$5,548 26.

The changes in the first two items of the productive fund, as stated above, have been produced as follows :

Amount due on certificates of sale, Sept. 30, 1867,	\$69,192 88
Decreased by forfeitures.....	\$1,868 74
Decreased by payments	4,959 00
	<u>\$6,827 74</u>
	\$62,365 14
Increased by new certificates of sale	5,976 00
	<u>\$68,341 14</u>
Amount due on certificates of sale, Sept. 30, 1868	\$68,341 14
Amount due on mortgages, Sept. 30, 1867.....	\$6,892 00
Decreased by forfeitures	\$300 00
Decreased by payments.....	500 00
	<u>800 00</u>
Amount due on mortgages, Sept. 30, 1868.....	<u>\$6,092 00</u>

The receipts and disbursements for the past year have been as follows :

RECEIPTS.

Sales of land	\$2,061 13
Dues on certificates	4,959 00
Loans, payments on mortgages	500 00
Penalties on forfeitures.....	45 85
Taxes.....	22 76
Total receipts.....	\$7,588 74

DISBURSEMENTS.

Invested in Dane county bonds.....		\$7,200 00
Refunded on account of over payments.....		72 16
	\$7,588 74	\$7,272 16
Balance, September 30, 1867.....	1,181 56
Balance, September 30, 1868.....		1,498 14
	<u>\$8,770 30</u>	<u>\$8,770 30</u>

UNIVERSITY FUND INCOME.

The University Fund Income consists of the interest on the productive fund and such donations as may from time to time be made.

The amount of receipts and disbursements during the last fiscal year, was as follows :

RECEIPTS.

Interest, on principal due on lands.....	\$5,207 45
Interest, on certificates of indebtedness.....	7,070 00
Interest, on Dane county bonds.....	1,680 00
Students, for tuition and room rent.....	5,903 80
Students, for fuel.....	453 37
Boarding department.....	40 00
Appr'n from general fund, chapter 22, laws 1867.	7,303 76
Total receipts.....	<u>\$27,658 38</u>

DISBURSEMENTS.

AGRICULTURAL COLLEGE FUND.

This fund consists of the proceeds of the sales of lands granted by congress to the state for the support of an institution of learning, where shall be taught the principles of agriculture and the arts. The interest on the productive fund forms the income.

The amount of productive fund, September 30, 1867 and 1868, respectively, was as follows :

	1867.	1868.
Dues on certificates of sale.....	\$12,417 00	\$14,488 40
Dane county bonds.....	6,000 00	11,000 00
	<u>\$18,417 00</u>	<u>\$25,488 40</u>

Showing an increase of the productive fund of \$7,071 40.

The change in the first item of the productive fund, as stated above, has been produced as follows :

Amount due on certificates of sale, Sept. 30, 1867.....	\$12,417 00
Decreased by forfeitures.....	\$2,884 60
Decreased by payments.....	111 00
	<u>2,995 60</u>
Increased by new certificates of sale.....	\$9,421 40
	<u>5,067 00</u>
Amount due on certificates of sale, Sept. 30, 1868.....	<u>\$14,488 40</u>

The receipts and disbursements of this fund for the last fiscal year, have been as follows :

RECEIPTS.

Sales of lands.....	\$3,592 90
Dues on certificates.....	111 00
Penalties on forfeitures.....	7 54
	<u>\$3,711 44</u>
Total receipts.....	\$3,711 44

	<u>\$2,907 97</u>	<u>\$2,907 97</u>

EXPERIMENTAL FARM FUND.

This fund is composed of the proceeds of the sale of Dane county bonds to the amount of forty thousand dollars, which, under the provisions of Chapter 114, Laws of 1866, were to be placed in the hands of the Regents of the University, for the purpose of purchasing a farm in connection with the College of Agriculture. These bonds were all delivered, and all invested in the University and Agricultural College funds, excepting five thousand dollars, which were redeemed by Dane county and the money paid into the fund.

The receipts and disbursements for the last fiscal year have been as follows:

RECEIPTS.

Dane County—Dane county bonds redeemed.....	\$5,000 00
University Fund—.....do.....investment....	7,200 00
Agricultural College Fund—Dane county bonds, investment	5,000 00
Daniel Reed, rent of house.....	190 00
P. A. Chadbourne, building sold.....	30 00

George W. Stoner, extra work.....	397 50
H. J. Saw.....do.....	35 75
	<u>\$9,549 07</u>

The payments include one month of previous year.

STATE OF WISCONSIN.—*Dane County* :

Thomas S. Allen, being duly sworn, says that the foregoing list contains the names of all the clerks employed in the office of Secretary of State during the year ending September 30, 1868, as he verily believes ; that the amount was actually paid to each clerk as stated, and that the same was necessarily expended to enable him to properly discharge the duties of the office of Secretary of State.

THOS. S. ALLEN, *Secretary of State.*

Sworn and subscribed before me this 10th day of October, 1868.

RICHARD LESTER, *Notary Public,*
Dane County, Wisconsin.

STATE TAX.

The State Tax levied for the year 1868, under the provisions of chapter 112, of the General Laws of 1868, amounts to the sum of \$544,389.12, and was apportioned to the several counties upon the valuation fixed by the State Board of Assessment. The rate per cent. is 2 21-100 mills upon the dollar of such valuation. In addition to the revenue tax thus provided, there is an additional amount due the State Reform School for care of inmates, of \$4,273.00. The apportionment to the several counties will be seen by reference to appendix "B."

The State Tax levied for the last three years, and the estimated tax for 1869 are shown in the following table, with the assessed valuation of the State, for each year :

	Valuation.	State tax.	Rate per cent.
For 1866.....	\$162,320,153	\$312,816 34	1 925-1000 mills
1867.....	196,851,161	649,938 86	3 $\frac{3}{4}$do..
1868.....	244,440,774	544,389 12	2 21-100 ..do..
1869, (estimated)	<u>350,000,000</u>	<u>350,000 00</u>	<u>1.....do..</u>

Through an error in the estimate of the Finance Committee, the State Tax of 1866 was too low by the sum of about \$200,000, which caused a deficiency, that was made up by the tax of 1867 and 1868. Large and unexpected appropriations to several of the State institutions, for buildings, have added to the tax for the last two years. Most of these buildings are now completed, and it is reasonable to suppose that for some time to come, no such draft will be made upon the treasury.

Since 1860, there has been expended, as near as can be estimated, for the erection of the public buildings belonging to the State the sum of \$1,200,000. Unless it is considered necessary to erect a new class of buildings, the estimate for this purpose will, in future, be very little, and only to supply the necessary repairs.

STATE UNIVERSITY.

As Secretary *ex-officio* of the Regents of the State University, my report will be included in the annual report of that body. A statement of its funds will be found in detail in the appendix.

PUBLICATION OF LAWS.

In compliance with the provisions of Chapter 131 of the General Laws of 1868, copy of all private and local laws of a general interest, was furnished to the publishers of newspapers in the county or locality to which such laws related, immediately after their publication in the state paper. Most of these laws were city and village charters and amendments to the same. Owing to the unusually large number of this class of laws, the expense somewhat exceeded the estimates, amounting to the sum of \$2,359.33. That it was money well and profitably expended, there can be little doubt.

The cost of publishing the general laws under the law raising the price to sixty dollars, amounts to the sum of \$6,810, they having been published in one hundred and eleven different newspapers of the state. As a general rule, they were promptly and correctly published, thus placing them before the people very soon after their passage.

CHAPTER 158, GENERAL LAWS 1868.

This chapter, relating to the filing of chattel mortgages with the Registers of Deeds of each county, was duly deposited in this office by the Governor, having been approved and signed by the President of the Senate and Speaker of the Assembly, as provided in the case of all laws. It was immediately published in the state paper with other general laws. Some time after the adjournment of the Legislature, my attention was called to the fact, that the bill was erroneously enrolled, it having failed to pass the Senate. Upon an examination of the Senate Journal, this was found to be the case. It not being within my province to determine upon the validity of laws, the law was included in the volume of general laws, thus leaving the question of its validity or non-validity to be determined by the proper authorities. The attention of the Legislature is called to the facts in the case, that such action may be taken as is deemed advisable.

SIMMONS' DIGEST.

In accordance with chapter 137 of the General laws of 1868, I have purchased from James Simmons, Esq., of Walworth county, two hundred and fifty copies of "said Simmons' Digest of Wisconsin Reports," and have distributed them as provided by law. Those remaining on hand have been deposited in the State Library, subject to the same rules as govern the distribution of the Supreme Court Reports.

INVESTMENT OF TRUST FUNDS.

Until all the lands belonging to the School, University, Normal School and Agricultural College funds, shall have been sold, and the amounts due on said lands and on loans shall have been paid into the state treasury, a large sum of money will annually accrue to the credit of the several trust funds, subject to investment in the manner provided by law. Under the provisions of the Revised Statutes, all such moneys were to be loaned to individuals upon real estate security. These provisions have never yet been repealed, although they have been temporarily suspended or modified by subsequent legislation. Chapter 89 of the laws of 1862, and chapter 100 of the laws of 1863, authorized and directed the Commissioners of School and University lands to "invest the principal of the school fund, in preference to all other loans and investments, in the bonds of the state of Wisconsin," at an annual interest of seven per cent. per annum. Chapter 25 of the laws of 1866, provided for the cancellation of the bonds which had been purchased by the trust funds and for the issue of certificates of indebtedness in lieu of the same. Under these several laws the bonds of the state have all been taken up and canceled, with the exception of \$167,800. This amount of bonds will undoubtedly be purchased and canceled within the next two years, if not during the next year. Two methods of investment will then be left open under the law, either of which may be adopted by the Commissioners of School and University lands, at their discretion. In anticipation of the final purchase and cancellation of the outstanding bonds of the state, chapter 111 of the

laws of 1868 was passed, "authorizing" said Commissioners to invest the principal of the several trust funds in "bonds of the United States, and in the bonds of the New England States, New York and Ohio."

It will be borne in mind that the latter means of investment is not mandatory on the commissioners, but simply invests them with discretionary power. Now the provisions of the revised statutes, to wit: section 81 of chapter 28, not having been repealed. I see no reason why the commissioners may not, if they choose, again fall back upon the old system of loaning out the funds to individuals; since all the laws requiring their investment in the bonds of the state will have lost all their force by the purchase and cancellation of said bonds. The provisions of chapter 111 of the laws of 1868, were intended to meet this question; and the method of investment therein authorized, would be far preferable to the old system, which has heretofore entailed so much loss and expense upon the several funds.

But, still, there seem to be some objections to the latter of these systems, which were not anticipated, or which, perhaps, were not taken into consideration. In the first place, the people of this state have no surplus money to loan to citizens of other states, or to eastern holders of state and government bonds. All the money and capital arising from the sale of lands in charge of the state, can find ample sources of use and investment at home. Were this system finally adopted, we should be sending *annually* out of the state, from one hundred to two hundred thousand dollars to purchase bonds—not at their face, but at their par value, which now varies from five to seven per cent, premium. Again, no bonds are in circulation which draw a higher rate of interest than six per cent; and it is highly probable that the rate on government bonds will soon be reduced to from four to four and a half per cent. It is well known that money is in demand in this state at from seven to ten per cent. So that under this system we should lose, not only from one to three per cent. in interest, but also the expense of exchange between here and New York. Now, it having been the settled policy of the state so far, to protect the funds confided to its care for educational purposes, and to secure as large an income as possible from their investment, the question arises as to whether it would be wise to reverse this

policy. Is there not some plan by the adoption of which these several funds may be made secure, and an annual interest of seven per cent be perpetually guaranteed to them, beyond the possibility of failure? If so, the magnitude of the trust accepted by the state and the important results depending upon its proper management, imperatively demand its adoption.

The funds to be invested, as is well known, arise from the sale of lands, payment of balance due on previous sales, and amounts due on loans from these several funds. So fast as moneys come into the treasury from these sources, means of investment must be found. That these amounts will be large in the future, as they have been in the past, the following statements will show :

	Value of lands unsold.	Am't due on previous sales.	Am't due on loans.
School fund.....	\$576,826	\$520,558	\$550,229
University fund.....	31,885	68,341	22,892
Normal school fund.....	1,248,571	76,418	100,376
Agricultural college fund.....	274,671	14,488	6,000
Total	\$2,131,953	\$679,805	\$679,497

The whole amount, then, as appears from the above table, which will be subject to investment within the next four years, will be as follows :

Principal of School Fund.....	\$1,647,613 00
University Fund	123,118 00
Normal School Fund.....	1,425,365 00
Agricultural College Fund.....	295,159 00
Total	<u>\$3,491,255 00</u>

In what manner shall this large amount be invested? The methods authorized under existing laws have been stated above, viz : 1st. In bonds of the state; 2d. In bonds of the United States and of several other states; 3d. On real estate security to individuals. The objections to the first two methods have already been stated, and experience has demonstrated that the last does not afford sufficient security; that it involves expense in clerk hire, books and blanks, and that it has been in the past, as it will be in the future,

if adopted again, an instrument of political persuasion if not of political corruption. A few favored individuals would undoubtedly reap its benefits, but the great mass of the people, for whose use these funds were created, would reap only its evils and losses. The people do not ask a return to this system ; but do desire an investment which shall insure a regular and permanent income.

The only plan which seems to embrace all the desired conditions of safety, of economy in management, of unchangeable value and of prompt payment of interest, is the continuance of the plan now in practice ; that is, to make the state its own banker, and all the people of the state and all the property of the state, security for these funds. Instead of loaning them to a few individuals, upon small individual security, let them be loaned to the whole people, upon the pledged honor of the state, secured by constitutional provision. Since the constitution of this state prohibits the incurring of an indebtedness exceeding one hundred thousand dollars, let an amendment be adopted and submitted to the people, similar to the following :

AMENDMENT TO THE CONSTITUTION.

Section 11 of article 8 of the constitution of this state, is hereby adopted, to read as follows :

“ The principal of the school fund, of the university fund, of the normal school fund and of the agricultural college fund, shall hereafter be invested in the following manner, to wit : at the end of each financial quarter the commissioners of school and university lands shall ascertain the amount of principal of each of said funds remaining in the treasury subject to investment, and shall cause certificates of indebtedness to be executed in duplicate for the amount of said funds, which certificates shall bear interest at the rate of seven per cent. per annum, payable on the 31st day of May, in each year, each of which certificates shall be made payable to the proper fund, and shall, by the terms thereof, be made not negotiable or transferable for any purpose whatever. Said certificates shall be signed by the governor, the secretary of state and the state treasurer. Immediately upon the issue of the said certificates, a duplicate of

each shall be deposited with the state treasurer, and the original with the secretary of state, and thereupon the the several amounts for which said certificates were issued, shall be transferred to the general fund of the treasury."

The amendment might, if deemed advisable, be of this form :

" The Legislature of this State is hereby authorized and empowered, to cause to be issued certificates of indebtedness to the several Trust Funds in the treasury, for the amount of such funds on hand at any time subject to investment, and to transfer said funds to the General Fund of the State : *provided*, that an interest of seven per cent. on the same be provided, payable annually, to the income of said funds."

Among the advantages claimed for this system, are the following :

1st. *Security and permanency of investment.*—As compared with loans to individuals, there will be no loss of title papers, or through poor security and defective title papers. As compared with investment in State and Government bonds, there could be no loss ; while these bonds, purchased at market rates, at perhaps five to ten per cent. premium, would, at maturity, call only for their face, throwing upon our funds the entire loss of the premium paid. Moreover, these bonds are liable to be called in at any time, and exchanges could seldom be made without loss and expense.

2d. *Economy of management.*—This needs no elucidation, since there can be no expense excepting the bare cost of the paper and printing of the blanks to be used.

3d. *It secures a higher rate of interest to the educational funds.*—This is clear, since, as before stated, no bonds in market bear more than six per cent. interest.

4th. *It retains our capital at home.*—The purchase of foreign bonds would drain this state of from one to two hundred thousand dollars per year, upon which we should receive back only from four to six per cent.

5th. *It relieves the people from taxation.*—For, whatever amount is invested in certificates of indebtedness, is at once placed to the credit of the General Fund. As a matter of course, the

State tax for that year would be less by that amount, except so much as is paid as interest on the amount. Were this amount for one year \$100,000, the interest would be \$7,000, leaving in the treasury \$93,000, reducing the State tax by that amount. Thus all the money paid into the treasury for lands, goes back to the people through the various channels by which our circulation is maintained, and thus the whole people, instead of a part, have the benefit of a loan at seven per cent. interest, equally distributing the burdens and the benefits of this system.

6th. *No loss through neglect or fraud.*—The certificates of indebtedness being in duplicate and not negotiable, offer no inducement to abstraction or alteration. Whereas bonds, amounting to perhaps millions of dollars, might appeal strongly to the cupidity of a corrupt public officer. This has happened in other portions of the country, and prudence would seem to demand that occasion for such temptation may be avoided.

It is raised by some as an objection to the plan proposed, that we shall have no School Fund or any other fund—that we shall have only promises without any intention to pay. The same objection lies to every kind of investment. The bonds of the Government or of any State are only promises to pay. The same is true of loans to individuals. Unless the fund consists entirely of money, locked up in the vaults of the treasury, we can have nothing but promises to pay. Every thing depends then on the security. That a State certificate of indebtedness is as good as a State bond, no one can doubt, and the objection is captious rather than legitimate or honest.

But I do not deem it necessary to argue the question further; but lest it may be supposed that the course proposed is without precedent, I will simply state that a plan somewhat similar has been in practice for some time in Ohio. Believing some legislation to be necessary, the above suggestions are respectfully submitted.

STATE PRINTING.

The existing contract for state printing being about to expire on the 31st day of December 1868, the commissioners authorized by

law, advertised for proposals for doing such printing for the term of two years from the first day of January 1869. The following proposals were received and opened on the 5th day of August, last past.

C. Latham Sholes, Milwaukee.....	at 27 per cent. discount.
Cantwell, Robinson & Cantwell, Madison.....	at 39 per cent. discount.
A. E. Gordon, Madison.....	at 46 per cent. discount.
Atwood & Rublee, Madison.....	at 47 per cent. discount.

The bid of Atwood & Rublee, being the lowest and best bid was accepted, and a contract entered into with them for doing the state printing for the term of two years from the first day of January 1869, at the uniform rate of forty-seven per cent. discount from the maximum prices established by law.

STATE CAPITOL.

In accordance with the provisions of Chapter 93, General Laws of 1868, advertisements for proposals were duly published, for the completion of the rotunda and dome of the State Capitol.

The following proposals were received :

A. J. Langworthy, Milwaukee	\$97,000 00
F. Letz & Son, Chicago, for iron work only.....	85,000 00
James Kirtland & Co., New York, for iron work only.....	123,740 00
for the work complete	128,740 00
William Goodnow, Milwaukee	116,000 00
C. S. Rankin & Co, Cincinnati.....	90,000 00
Wm. Pollard, Nelson & Co., painting and glazing	4,985 00
W. P. Towers.....do.....do.....	5,776 00
Thomas Regan, gas pipes and fitting	600 00

The Building Commissioners accepted the proposal of C. S. Rankin & Co., of Cincinnati, and entered into contract with the firm for the completion of the work on or before the first day of December, 1869, in the sum of ninety thousand dollars.

When the work under this contract is completed and paid for, the State Capitol will have cost the sum of \$528,315.60.

DESERTERS FROM MILITARY SERVICE.

It is respectfully recommended that sections 2 and 3 of chapter 67, of the General Laws of 1867, be repealed. These sections require an annual publication and distribution of the large volume

containing a list of deserters from the draft and from the military service of the United States. Some 7,000 copies have already been furnished the town officers of this state, which would seem all that are necessary in order to protect the ballot box and to insure obedience to the law in regard to this class of our population.

RAILROADS.

Reports have been received from all the Railroad Companies transacting business in this state, for the year 1867. These reports together with an abstract of their several items, will be found in the appendix, marked "D." New and improved forms were issued from this department, and the reports will be found more satisfactory than heretofore.

The following summary of several of the principal items will be found interesting:

Whole number of miles operated by all the companies	2,082.37
Number of miles operated in this state	1,012.96
Total cost of roads, including equipment	\$75,161,532 80
Gross receipts, from all sources, in 1867	17,483,475 76
Gross receipts in Wisconsin	7,521,810 36
Gross expenditures for all purposes	14,866,196 44
Amount of taxes paid state of Wisconsin	225,784 51
Number of passengers transported	2,483,448
Number of persons killed	29
Number of persons injured	23

COUNTY AGRICULTURAL SOCIETIES.

Twenty-eight agricultural societies made their annual reports in accordance with law, and received each one hundred dollars from the state treasury. An abstract of their reports will be found in the appendix to this report, marked "B."

The receipts and expenditures of the several societies, as compared with the previous year, were as follows:

	1866	1867
From membership, entries, &c.	\$20,325 69	\$28,378 15
Paid for premiums and expenses	17,342 00	25,344 45
Excess of receipts over expenditures	2,883 69	3,033 70

STATISTICS OF MARRIAGES.

At the date of my last report, the registers of but nineteen counties had made reports to this office, as required by law, of the marriages registered in their respective offices. Thirty-three returns have been received during the last year, showing an aggregate of 6,866 marriages. Knowing that the records of many counties are very incomplete I have so far only called repeated attention to the provisions of the law, but in future shall consider it my duty to enforce its penalties against those officers who wilfully neglect to perform their duties under it.

It is respectfully suggested that the law be so amended as to require an annual instead of a semi-annual report from the Register of Deeds, and that the index now required be dispensed with, since they must be re-indexed in this office. This will save both labor, expense and books, and will promote more promptitude in making returns.

An abstract of the returns made for the last year will be found in appendix, marked "F."

INSURANCE COMPANIES.

Since my last annual report the following Life Insurance Companies have been admitted to transact business in this state, to-wit:

Asbury, New York City.

Guardian Mutual, New York City.

Hartford Life and Annuity, Hartford, Ct.

National, Washington, D. C.

Metropolitan, New York City, formerly "National Travelers"—an accident company.

The following Fire Insurance Companies have also, on complying with the laws, been admitted to transact business within the last year, to-wit:

Ætna, New York City.

American Exchange Fire, New York City.

Astor Fire, New York City.

Excelsior Fire, New York City.

Commercial Mutual, Cleveland, Ohio.
 Detroit Fire & Marine, Detroit, Michigan.
 Pacific, San Francisco, California.
 Republic, Chicago, Ill.
 United States Fire & Marine, Baltimore, Maryland.
 North British & Mercantile, London and Edinburgh.
 Queen Fire, Liverpool and London.

The following named companies have retired from the state, to-wit:

Metropolitan Fire, New York City.

Resolute Fire, New York City.

The following statement shows the number of companies now transacting the business of insurance in this state at the date of this report as compared with the last three years:

	1866.	1867.	1868.
Life insurance companies of Wisconsin.....	1	1	1
other states	15	30	35
Fire & marine insur'ce co's of Wisconsin.....	8	8	9
other states	51	57	66
Casualty insurance comp. of Wisconsin.....		1
other states	5	15	5
Live stock insurance co's ofdo.....		2	2
Total.....	<u>80</u>	<u>104</u>	<u>118</u>

The business of these several companies will appear from abstracts and statements compiled from their reports, which will be found in the appendix. See abstracts marked "N," "O," "P," &c.

The amount paid into the treasury by the several companies in lieu of taxes is as follows:

Fiscal year ending September 30, 1866.....	\$34,729 45
1867.....	52,184 05
1868.....	65,737 63
Increase during last year.....	<u>\$13,553 53</u>

Under the laws of this State, all companies transacting the business of Insurance, are required to file their annual statements on or before the first Monday in February of each year. If these reports are of any value to the public, they should be published as soon as practicable after their reception, in proper form for distribution.

It is respectfully suggested that the Secretary of State be authorized to prepare abstracts of both the reports of insurance and railroad companies, and cause them to be printed as early as the first day of April in each year. Under the present system, they are more than a year old before they can be laid before either the people or the legislature. Nothing will be added to the expense, since they can then very properly be omitted from the annual report of the Secretary of State, as made to the Governor.

ASSESSMENT OF PROPERTY.

The tabular statement found in the appendix, marked "B," shows the valuation of property in each county, as established by the state board of assessors for the year 1868, as also the amount of tax apportioned to each county under the laws in force. The aggregate valuation, as compared with last year, is as follows:

Valuation, as equalized for 1867.....	\$196,851,160 97
Valuation, as established for 1868.....	244,440,774 00
	<hr/>
Increase in valuation.....	\$47,589,613 03

That the valuation, as fixed by the state board, does not approach the real valuation of all the property in the state, is evident from the actual assessment of property in many of the counties of the state for the present year. I have made efforts to ascertain the results of the assessment law passed last winter, and all the facts I have been able to ascertain are embodied in the statement marked "C," of the appendix. The counties not included in said statement have failed to make any return, and as the matter was purely voluntary, no fault can be found.

To substantiate the fact that the valuation fixed by the state board was far below the actual valuation, it is only necessary to refer to several of the returns included in appendix "C." It appears that the assessment of Ashland, Bayfield and Outagamie counties is from 21 to 28 per cent. more than the value fixed by the state board; that the assessment of Jefferson, Milwaukee, Ozaukee, Rock, Sauk, Trempealeau, Walworth, Washington, Waukesha and Wauzara counties, varies from 44 per cent. to 71 per cent. higher than the amount fixed by the state board, while that of Marquette county

is 121 per cent. higher. Assuming the same ratio of increase through all the counties of the state, reported and not reported, and the aggregate valuation of the state should not be less than fifty per cent. higher than the aggregate valuation as fixed by the state board, which was \$244,440,774. Adopting this as correct, and the aggregate valuation of the whole state should be not less than \$366,661,161. Had this valuation been adopted, the state tax would have been less than 11-2 mills on the dollar, instead of 2 21-100 mills, as levied. The decrease in six counties is so small that it does not affect the general result as stated. Moreover, had all the towns and cities in Rock, Milwaukee, and other counties been reported, the percentage of increase would have been still higher.

In relation to the operation of the late assessment law, the returns and statistics are hardly full enough to enable any one to form a very clear idea. Judging from the files of correspondence in my office, I have no doubt that if the question of assessment could be entirely divorced from the question of subsequent taxation, and from its influence in the apportionment of valuation for the following year, it would operate much more uniformly than previous laws. But there is ample evidence that the same influences have governed the majority of assessors as formerly. It is perfectly understood that taxes must be apportioned according to some standard of valuation. And since the law provides for no standard, and for no means of ascertaining the valuation of the several counties and towns, it naturally follows in the minds of assessors, that the state and county boards will and must fall back on previous assessments, as a basis, as they did the present year. And it is for this reason that assessors and clerks of towns and counties have declined to furnish more complete returns of the assessment for 1868.

While I do not presume to advise any change in the general principle upon which the present law is based, it will not be considered improper to suggest one or two points for the consideration of the legislature.

1st. *As to exemptions*—The 11th and 12th exemptions, as found in Chapter 130, Laws of 1868, provide for the exemption from taxation of all "wearing apparel, family portraits and libraries,

kitchen furniture and growing crops;" and also for "six months' provisions and fuel provided by the head of a family to sustain its members for six months." Would it not be more equal to provide for the assessment of all the property described at its actual value, and then allow a uniform deduction of say three hundred or even five hundred dollars from the amount in the way of exemption? Under the present law, while in some cases the exemption would amount to from one two hundred dollars, in others it would amount to as many thousands.

2d. *As to the State assessment.*—With all due respect to the Senate, which constitutes the State Board, my impression is, that a board consisting of not more than one-third the number would work with more facility, correctness and impartiality. Local feelings, interests and prejudices are strong in all minds, and great minds are not an exception. The work, as all are aware, is now done by a committee, as a matter of necessity, not entirely devoid of the fear that opposition will be raised in some quarter, resulting in the total defeat of their recommendations, should strict justice be insisted upon.

Again, *as to statistics.* No provision is made for facts and statistics showing the valuations of the several counties, or their progress in wealth and population. If actual assessments are not to be taken as a basis of valuation, common sense requires that some other means be provided. The only plan which commends itself to my judgment is the following: That the State Board of Assessors meet only once in three years; that previous to each meeting, statistics of population, of manufactures, of improved and unimproved lands, of leading products of the soil, of the forests and the mines, of live stock, of banks and corporations, should be carefully taken by persons appointed for that purpose. In addition to these, let the actual assessment of property of each year be returned, showing the number and value of the different varieties of live stock assessed, the valuation of moneys, bonds, mortgages and other property admitting of comparison, and also the amount of county, town and other taxes levied in each year. By a comparison of all these items, an intelligent board, consisting of a limited number of mem-

bers, would be able to arrive near a correct conclusion of the actual and relative value of the property of the state.

Again, it is suggested that section 6 of chapter 130, laws of 1868 be amended, by providing that the valuation established, and not the state tax, be certified to the several counties at the time specified; since this renders a new apportionment of certain taxes necessary in November following. The same provision should also apply to county boards of assessments as to county and state tax, and for the reason that in the month of May it is too early to determine the amount of county tax necessary to be raised.

3d. *As to the assessment of personal property.*—The experience of the last year confirms my impressions as to the propriety of furnishing blanks for the listing of personal property. In those counties which have used these blanks for the assessment of 1868, is shown the largest increase of personal property. And this has been voluntary instead of compulsory. The defect in the old form of blanks was, that they did not specify a sufficient number of items to insure a complete schedule of property. Under the new form issued from this office in 1867, there was a manifest improvement, and it is not doubted that a continuance of the practice, with an improved form, would have shown still more. If personal property is omitted or undervalued, it is the fault of the assessor and not of the blanks. An affidavit should be required, as to the items of property, but it should still rest with the assessor to fix his own valuation, according to such information as he can obtain from any other source. A full report of all the items in the schedule, with the assessed valuation of each, should be returned through the clerk of the Board of each county to this office, for the use of the State Boards of Assessment.

4th. The assessment law of last session is incomplete, in that it leaves in doubt how much of previous laws remains in force. It would be very difficult, if not impossible, for even a good lawyer to determine in many cases, whether certain provisions not included in that law are operative or not, they not being repealed unless "conflicting," although they may be, in some respects, inconsistent with it. This is particularly the case in the provisions relating to mer-

chants' stock, and to the listing of property. It would seem good policy to repeal all laws, by title and chapter, not intended to be in force, and to codify in one law all the provisions relating to the assessment of property.

The above are thrown out as suggestions, the details of which can better be explained to the proper committee than in the form of a report.

In conclusion, I have only to say that it will be my pleasure to furnish any additional information at my disposal, and that the records of this office are always open to the inspection of those desirous of investigation.

I have the honor to be, respectfully,

Your obedient servant,

THOS. S. ALLEN,

Secretary of State.

Kenosha division railroad, from Genoa to Kenosha....	27 5-10
	<hr/> <hr/>
Weight of rail per yard, 45 @ 60 pounds.	
II. Amount of capital stock subscribed.....
Amount of capital stock paid.....	\$28,021,621 03
	<hr/> <hr/>
III. Cost of 707 miles of road in Illinois, Wisconsin and Michigan, including right of way, bridging, grading, iron, buildings, &c., to date:	
For right of way.....	} \$37,502,098 71
For bridging.....	
For grading.....	
For iron.....	
For buildings.....	
For engines and cars, as follows:	
249 locomotives,	
139 passenger cars.	
111 baggage, mail and exp. cars,	
5511 freight cars, of all descriptions,	
521 iron ore cars,	
Costing in all.....	\$4,971,358 90
	<hr/> <hr/>
	\$42,473,457 61
IV. Amount of indebtedness—	
First mortgage.....	\$14,720,000 00
Second.. do.....	1,531,000 00
Third...do.....
Floating debt.....	900,182 56
	<hr/> <hr/>
	\$17,151,182 56
V. Receipts from the following sources:	
From passengers.....	\$3,345,528 25
From mails.....	168,970 76
From express companies.....	506,859 32
From freight.....	7,486,506 27
From interest.....	13,074 54
From other sources.....	124,874 60
	<hr/> <hr/>
	\$11,645,813 74

VI. Amount of gross earnings in the state of Wisconsin..... \$2,193,571 00

VII. Expenditures:

For repairs of road.....	}	\$7,542,366 97		
For buildings.....					
For engines.....					
For cars.....					
For fuel.....					
For wages of employees.....					
For salaries exceeding \$1,000....	}	404,403 93		
For taxes.....					
For interest on bonds and indebtedness.....					
For indebtedness.....				1,340,376 27
For new construction, included in cost of road, &c., (see sec. 3).				none
For dividends.....				none
For other purposes.....				326,075 37
					<u>\$9,613,222 54</u>

VIII. Value of securities held by the company, material on hand and amount due the corporation..... \$4,731,887 18

IX. Loss to the company from casualty..... none.

X. Amount of freight reduced to tons, except animals:

Lumber.....	371,820
Wheat.....	287,951
Oats, rye and barley.....	126,152
Corn.....	55,648
Flour.....	93,395
Cattle and horses.....	62,228
Hogs and sheep, (hogs live and dressed).....	569,967
Farming implements, included in miscellaneous.	
Lead, included in miscellaneous.	
Iron, bar, pig and ore.....	262,644
Coal.....	70,490
Merchandise.....	211,129
Miscellaneous.....	215,052
Total tonnage.....		<u>1,823,079</u>

XI. No. of through passengers.....	172,506
No. of way passengers.....	1,487,077
Rate per mile of through passengers.....	3 9-10 cents
Rate per mille of way passengers.....	3 9-10 cents

XII. Number of dividends declared..... none.

XIII. Number of passengers killed.....	none.
Number of others killed.....	15
Number of employees killed.....	2
Number of passengers injured.....	3
Number of others injured.....	7
Number of employees injured.....	<u>2</u>

XIV. The cause of deaths is as follows:

Attempting to get on switching engine while in motion.....	1
Coupling cars.....	1
Driving and walking on track.....	7
Crushed by freight cars.....	1
Walking on track, said to have been intoxicated.....	3
Falling from freight train while moving, said to have been intoxicated.....	1
Sleeping on track while drunk.....	1
Attempting to get on moving train.....	1

The cause of injuries is as follows:

Attempting to get on switching engine while in motion.....	1
Driving and walking on track.....	3
Attempting to get on moving train, said to have been intoxicated.....	1
Attempting to get on moving train.....	4
Cars thrown from track by broken rail.....	3

XV. Of the foregoing accidents, none have arisen from carelessness or negligence of employees on the road.

STATE OF ILLINOIS—County of Cook—ss.

We, Joseph B. Redfield, assistant secretary, George P. Lee, local treasurer, and George L. Dunlap, local superintendent of the Chicago and Northwestern railway company, do each of us solemnly swear that the foregoing report has been made from the best sources of information at our disposal, and that the several matters therein set forth, are correct and true, to the best of our knowledge, information and belief. So help us God.

J. B. REDFIELD,
Ass't Secretary.
 GEO. P. LEE,
Local Treasurer.
 GEO. L. DUNLAP,
Gen'l Superintendent.

Subscribed and sworn to before me, this 7th day of February, 1868.
 FRANKLIN HATHAWAY,
Notary Public.

APPENDIX "U."—*Life Insurance Companies*—concluded.*Statement of the National Life Insurance Company of the United States of America, located at Washington in the District of Columbia.*

The undersigned, Clarence H. Clarke, President, and Emerson W. Peet, Secretary of the National Life Ins. Co. of the United States of America, Washington, D. C., in accordance with law, make the following statement of the condition of said company at this date:

The company was incorporated by act of Congress, approved July 25th, 1868, with the capital of one million dollars.

The company was duly organized July 28, 1868, the capital stock was fully subscribed for and in accordance with the requirements of the act of incorporation, twenty per centum (20 per cent.) of the amount of such capital stock, two hundred thousand dollars (\$200,000) was paid in at the time of subscription, and was deposited by the president of the company as follows: on July 28, 1868, in the banking house of Jay Cook & Co., Washington, D. C., sixty-four thousand six hundred dollars (\$64,600) to the credit of the company, and on July 30, 1868, in the First National Bank, Philadelphia, Pennsylvania, one hundred and thirty-five thousand four hundred dollars (\$135,400) to the credit of the company.

In accordance with a vote of the Directors at a meeting held August 10, 1868, there was invested on August 11, 1868, in bonds of the United States of the value of one hundred thousand dollars (\$100,000) and upwards—par value one hundred thousand dollars (\$100,000), market value one hundred and three thousand five hundred and forty-eight 97-100 dollars (\$103,548 97), and said bonds are now on deposit with F. E. Spinner, treasurer of the United States at Washington, D. C., as security for the policy holders of said company, and the balance of the capital stock paid in—two hundred thousand dollars (\$200,000) less about fifteen thousand dollars (\$15,000) expended in salaries to officers and employees, stationery, printing, advertising, &c.—is now held by the President of the company on deposit in the First National Bank, Philadelphia, Penn. The balance of the subscription to the capital stock has been voted to be paid in—forty per centum, four hundred thousand dollars (\$400,000) on the first day of September, 1868, and forty per centum, four hundred thousand dollars (\$400,000) on the first day of October, 1868.

A branch office has been established in Philadelphia, Penn., and the company is now ready to proceed to the transaction of business.

^aThis statement is made for the purpose of complying, as far as possible, to the requirements of the laws of Wisconsin relative to insurance companies in other states.

C. H. CLARK,
President.

E. W. PEET,
Secretary.

^a First statement filed.

ANNUAL REPORT

OF THE

STATE TREASURER,

FOR THE FISCAL YEAR ENDING SEPT. 30, 1868.

To His Excellency, LUCIUS FAIRCHILD,

Governor of the State of Wisconsin :

Sir—In pursuance of the laws defining the duties of State Treasurer, I have the honor of submitting the following report of the financial operations of this department for the fiscal year, ending September 30th, 1868.

The balance remaining in the treasury at the close of the fiscal year 1867, was \$157,738.21, distributed among the several funds as follows :

General fund	\$8,594 13
School fund	31,869 25
Normal school fund.....	8,166 77
University fund.....	1,181 56
Agricultural college fund.....	1,815 39
Drainage fund	18,731 84
Deposit Fund.....	5,539 33
Allotment fund.....	1,951 30
Swamp Land Fund	33 04
Military Road Fund.....	294 98
Commissioners' Contingent Fund.....	157 35
Delinquent tax fund.....	4,448 00
Special Drainage Fund.....	144 20
Fox and Wisconsin river Improvement Co. Fund.....	33,971 15
University Fund Income.....	5,619 54
Normal School Fund Income.....	23,843 84
Agricultural College Fund Income	1,090 08
Whitewater Normal School Building Fund.....	15,003 54
Platteville Normal School Building Fund.....	7,690 00
	<hr/>
	\$170,145 31

Deduct the following funds overpaid :

School Fund Income.....	\$1,962 74	
Swamp Land Fund Income.....	49 00	
Experimental Farm Fund.....	1,920 92	
Sturgeon Bay Canal Fund.....	2,500 00	
War Fund.....	5,974 44	
		<u>\$12,407 10</u>
Total balance as above.....		<u>\$157,738 21</u>

The receipts of the treasury, during the past year, including the above balance, amounted to.....	\$1,756,204 92
And the disbursements to.....	1,602,874 29
	<u>\$153,830 63</u>
Leaving in the treasury, Sept. 30, 1868, the sum of.....	<u>\$153,830 63</u>

To the credit of the several funds, as follows :

General Fund.....	\$44,946 88
School Fund.....	1,418 32
University Fund.....	1,498 14
Agricultural College Fund.....	518 83
Normal School Fund.....	5,416 28
Drainage Fund.....	28,462 08
Swamp Land Fund.....	29 91
Deposit Fund.....	5,656 98
Allotment Fund.....	1,951 30
Commissioners' Contingent Fund.....	356 88
Military Road Fund.....	1,460 67
Experimental Farm Fund.....	4,460 67
Delinquent Tax Fund.....	5,898 10
Special Drainage Fund.....	500 00
Fox and Wisconsin River Improvement Fund.....	23,971 15
Whitewater Normal School Building Fund.....	968 68
Platteville Normal School Building Fund.....	2,175 62
University Fund Income.....	2,148 43
Agricultural College Fund Income.....	2,864 59
Normal School Fund Income.....	21,792 50
	<u>\$156,490.46</u>

Deduct the following Funds overpaid :

School Fund Income.....	\$110 83	
Swamp Land Fund Income.....	49 00	
Sturgeon Bay Canal Fund.....	2,500 00	
		<u>2,659 83</u>
Total balance as above.....		<u>\$153,830 63</u>

The following statement exhibits the gross amount of the revenues of the state, and of the several funds and the disbursements thereof:

RECEIPTS.

Total balance in the treasury Sept. 30, 1867.....	\$157,738 21
For General Fund	982,870 90
School Fund	110,369 65
University Fund	7,588 74
Normal School Fund	74,666 08
Agricultural College Fund.....	3,711 44
Drainage Fund	78,826 14
Military Road Fund	4,654 54
Experimental farm Fund.....	17,695 00
Delinquent Tax Fund.....	30,058 77
Deposit Fund.....	1,583 60
Commissioners' Contingent Fund	199 48
War Fund.....	9,941 39
Swamp land Fund.....	1 87
Special Drainage Fund	500 00
School Fund Income.....	178,127 95
Normal School Fund Income.....	47,776 20
University Fund Income.....	27,658 38
Agricultural College Fund Income.....	1,817 89
Whitewater Normal School Building Fund	12,918 74
Platteville Normal School Building Fund.....	7,500 00
	<hr/>
	\$1,756,204 92

DISBURSEMENTS.

From General Fund	\$946,518 65
School Fund	140,820 58
University Fund	7,272 16
Normal School Fund	77,416 54
Agricultural College Fund.....	5,013 00
Drainage Fund.....	69,095 90

Total disbursements.....	<hr/>
	\$1,602,374 29
Balance in the treasury Sept. 30, 1868	<hr/>
	\$153,830 63

A more detailed statement of each separate fund will be found in a subsequent part of this report, exhibiting the sources of revenue and the objects of expenditure.

Large sums are annually received into and paid from the treasury, whose receipt is no income to the state, and whose disbursement is not an expenditure. In order to show more clearly the sources of revenue, and the nature and amount of the expenses of the state the following statement is submitted, of

REVENUE AND EXPENSES.

The revenue for the year has been derived from

State tax.....	\$662,697 55
Suit tax.....	\$2,611 62
Insurance companies.....	65,737 63
Railroad companies.....	225,784 51
Telegraph companies.....	551 75
Plank and gravel roads.....	119 47
Peddlers and commercial agents.....	9,710 57
Sale of public property.....	818 70
Bank bonds—for sale of wisconsin bonds in 1861.....	5,000 00
Semi annual payments on bank bonds.....	605 00
National bank tax.....	778 78
Sale of Marathon county lands.....	97 70
Penalty for non payment of interest on lands.....	4,419 63
Penalty for trespass on timber lands.....	888 62
Refunded Items.....	27 50
Fees for commissioners of deeds out of state.....	178 00
Surplus fees of secretary's office.....	277 87
Discount on state bonds.....	1,520 00
Boarding U. S. prisoners.....	1,096 00
	<hr/>
	\$982,870 90
Balance in treasury, September 30, 1867.....	8,594 13
	<hr/>
	\$991,465 03
	<hr/>

EXPENSES.

Ordinary expenses.....	\$286,666 68
Other expenses.....	477,740 09
Interest.....	167,719 76
Transfer to School Fund income.....	7,088 36
Transfer to University Fund income.....	7,303 76
	<hr/>
	\$946,518 65
	<hr/>

Balance in General Fund and subject to draft, September 30, 1868, \$44,946 38.

Ordinary expenses include all those which are of yearly occurrence, and whose payment is provided for by general laws. With the exception of salaries, they are not fixed in amount, but vary

with the necessities of the State. During the past year they have been :

For salaries of State officers, and clerk hire of the several State departments.....	\$52,357 19
Supreme Court.....	12,824 98
Circuit Courts.....	27,500 00
State Historical Society.....	3,400 00
State Library.....	1,837 75
engineers, firemen, janitors and laborers employed about capitol.....	15,186 08
gas for use of capitol and capitol park.....	5,277 83
postage for State departments.....	3,807 42
State Board of Assessors.....	1,538 60
percentage on peddler's licenses.....	2,952 51
stationery.....	9,656 01
coal.....	8,775 76
Legislature.....	81,423 76
publishing laws.....	13,451 38
printing and advertising.....	34,247 00
protecting State lands.....	5,171 11
Agricultural Societies.....	2,800 00
Militia.....	924 37
Contingent Fund.....	1,030 00
miscellaneous, the details of which are in report of payments from General Fund.....	2,505 43
	<hr/>
	\$286,666 68
	<hr/>

"Other Expenses," include those which are authorized by special acts of the legislature. With a few exceptions they are limited in amount, and are paid from particular appropriations. These expenses for the year have been :

For current expenses of the State Prison and benevolent institutions.....	\$257,955 97
enlargement of buildings, and permanent improvements ..	88,162 79
private benevolent institutions.....	11,713 25
Gettysburgh and Antietam cemeteries.....	5,871 22
Capitol rotunda and architecture.....	54,757 11
Wisconsin Reports.....	4,975 00
Board of Immigration.....	3,636 00
appraising swamp lands.....	761 00
rewards for arresting certain persons.....	792 70
Commissioners on forest trees.....	600 00
volunteer aid.....	690 32
individual appropriations.....	4,579 25
boarding soldiers at Chicago Eye and Ear Infirmary.....	256 94
medal to Cyrus W. Field.....	970 00
Bank Comptroller, on certificate of indebtedness.....	3,076 00
repairs and contingent expenses about Capitol.....	11,213 15
bounty on wild animals.....	16,660 00
artesian well.....	2,813 00
transfer to War Fund, to close the same.....	8,256 39
	<hr/>
	\$477,740 03
	<hr/>

Interest and transfers to the School and University Fund Incomes might properly be considered an ordinary expense, but they are items of so much importance that they are reported separately.

The following statement shows the amount due from counties at the close of the fiscal year :

ON REVENUE.

Ashland..... County.....	\$80 85
Bayfield..... do.....	73 96
Burnett..... do.....	45 00

PUBLIC LANDS AND TRUST FUNDS.

The magnitude of the interests involved in the proper management of our public lands and educational trust funds, and the deep interest felt by the public in all that relates thereto, seem to justify a more explicit report on this subject than has been usual from this department.

The following statement is therefore submitted, though at the risk of repeating much that may be presented in the annual report of the School Land Commissioners :

The productive educational trust funds are as follows :

Common School Fund.....	\$2,205,486 83
Normal School Fund.....	625,294 11
University Fund.....	199,433 14
Agricultural College Fund.....	25,488 40
Total	\$3,055,702 48

These funds are drawing interest at the rate of seven per cent. per annum, and are invested as follows :

Certificates of State indebtedness.....	\$2,084,200 00
Land Mortgages.....	256,697 31
Land Certificates.....	679,805 17
Dane County Bonds	35,000 00
.....	\$3,055,702 48

The following statement shows the number of acres of land held in trust and for sale by the State, belonging to the educational funds, and the class to which they belong :

School Fund.....	461,461.60
Normal School Fund.....	810,667.00
University Fund	12,753.74
Agricultural College Fund.....	219,737.22
.....	1,504,619.56

In addition to the foregoing, the State owns and offers for sale other lands classified as follows :

Drainage Lands.....	1,863,847.21
Military Road Lands.....	13,324.39
Marathon County Lands	40,408.74
.....

All money received from the sale of Drainage Lands is paid to the County Treasurer of the respective Counties wherein such lands so sold are situated, in accordance with the provisions of chapter 537, Laws of 1865. In a subsequent portion of this report, under the head of "disbursements from the Drainage Fund," will be found the amount apportioned to the several Counties under this act. The money received from the sale of Military Road Lands is disbursed in the manner prescribed by law for services rendered in the construction of the Fort Howard and Michigan State Line Road.

The Marathon County Lands were conveyed to the State by Marathon County in payment of a delinquent State tax. The money received from their sale is paid into the general fund.

Of all classes of lands there were sold during the year 212,662.68 acres, as follows :

School Lands.....	72,275.67
Normal School Lands.....	36,762.14
University Lands.....	3,174.12
Agricultural College Lands.....	6,932.03
Drainage Lands.....	89,663.79
Marathon County Lands.....	131.26
Military Road Lands.....	3,723.62
	<u>212,662.68</u>

The number of acres sold during the year, as compared with the four previous years, is as follows :

Year ending September 30, 1864..	99,795.70
....do.....do.....1865.....	85,521.89
....do.....do.....1866.....	160,432.93
....do.....do.....1867.....	163,451.36
....do.....do.....1868.....	<u>212,662.68</u>

During the year 721,831.62 acres of Swamp lands have been patented to the State by the General Government. These lands have been partitioned equally between the Drainage Fund and Normal School Fund. They have been brought into market and are now subject to private entry. During the year 109,497.24 acres of School Lands have also been brought into market and are subject to private entry.

SCHOOL FUND.

The following statement will show the productive school fund as compared with the amount on the 30th day of September 1867.

	1867.	1868.
Certificates of State indebtedness	\$1,394,900 00	\$1,534,700 00
Mortgages.....	166,392 04	150,229 31
Land certificates.....	535,015 66	520,557 52
	<u>\$2,096,307 70</u>	<u>\$2,205,486 83</u>

The changes in the several items have been produced as follows :

Certificates of indebtedness Sept. 30th 1867.....	\$1,394,900 00
Invested in certificates during the year.....	189,800 00
Amount of certificates September 30th 1868.....	<u>\$1,534,700 00</u>
Amount due on mortgages September 30, 1867.....	\$166,392 04
Decrease by payments.....	\$13,112 73
Decrease by forfeitures.....	3,050 00
	<u>16,162 73</u>
Amount due on mortgages Sept. 30, 1868.....	<u>\$150,229 31</u>
Amount due on certificates of sale Sept. 30 1867.....	\$535,015, 66
Decrease by payments.....	\$54,293 07
Decrease by forfeitures.....	16,655 56
	<u>70,948 63</u>
	<u>\$464,067 03</u>
Increase by new certificates.....	56,490 49
Amount due on certificates September 30, 1868.....	<u>\$520,557 52</u>

The receipts and disbursements of the School Fund during the year have been as follows :

RECEIPTS.

Balance in fund Sept. 30th, 1867.....	\$31,869 25
Sales of land.....	33,492 06
Payments on certificates.....	54,293 07
Payments on mortgages.....	13,112 73
Fines received from counties.....	1,075 78
United States—5 per cent on sales of public lands.....	6,190 68
Delinquent taxes returned previous to 1858.....	711 88
Penalty on delinquent taxes.....	881 74
Sale of material cut on land.....	191 25
Estate of Isaac Case.....	56 35
....do... John Kuntz.....	60 18
....do... Frantz Berner.....	308 93
	<u>\$142,238 90</u>

DISBURSEMENTS.

Invested in Wisconsin bonds.....	\$139,800 00
Refunded over payments.....	1,020 58
Balance in fund.....	1,418 32
	\$142,238 90

The constitution of the state provides that the clear proceeds of all fines collected in the several counties for any breach of the penal laws, shall be paid into the school fund and constitute a part thereof.

The amount of fines received during the past year was only \$1,075 78.

It will be observed from the detailed statement in the appendix that several of the most populous counties in the state do not contribute any part of this small amount.

Attention is respectfully called to this, that the legislature may consider whether further legislation is required on the subject.

SCHOOL FUND INCOME.

The following is a statement of the receipts and disbursements of the School Fund Income.

RECEIPTS.

Interest on Mortgages and Certificates.....	\$51,133 68
Interest on Certificates of indebtedness.....	107,805 00
Interest, chap. 79, laws 1866.....	7,088 86
Twenty-five per cent. of Normal School Fund Income.....	11,925 28
Sale of Dictionaries.....	120 00
Refunded by town of Oak Creek apportionment of 1868.....	55 68
Over-payment Sept. 30, 1868.....	110 83
	\$178,238 78

DISBURSEMENTS,

Paid on apportionment of State Superintendent to the following counties :

Adams.....	\$1,048 32

NORMAL SCHOOL FUND.

The following is a statement of the productive Normal School Fund as compared with Sept. 30, 1867 :

	1867	1868
Certificates of indebtedness	\$381,500 00	\$448,500 00
Mortgages.....	111,269 50	100,376 00
Land certificates.....	110,022 42	76,418 11
	<u>\$602,791 92</u>	<u>\$625,294 11</u>

The changes in the items of this fund have been produced as follows :

Certificates of indebtedness, Sept. 30, 1867	\$381,500 00	
Invested in certificates during the year.....	67,000 00	
Amount due on certificates of indebtedness Sept. 30 1868		<u>\$448,500 00</u>
Amount due on mortgages Sept. 30, 1867.....	\$111,269 50	
Decrease by payments.....	\$9,903 50	
Decrease by forfeitures	990 00	
	<u>\$10,893 50</u>	
Amount of mortgages Sept. 30, 1868		<u>\$100,376 00</u>
Amount due on certificates of sale Sept. 30, 1867	\$110,022 42	
Decrease by forfeitures.....	\$7,321 61	
Decrease by payments	29,288 70	
	<u>\$36,610 31</u>	
		<u>\$73,412 11</u>
Increase by new certificates of sale.....		3,006 00
		<u>\$76,418 11</u>
Amount due on certificates of sale Sept. 30, 1868		<u>\$76,418 11</u>

The receipts and disbursements for the year have been as follows :

RECEIPTS.

Balance in the fund Oct. 1, 1867	\$8,166 79
Payments on lands	61,560 08
Payments on loans	9,903 50
Penalty on delinquent taxes.....	284 72
Sale of material cut on lands.....	79 50
Transfer from Normal School Fund Income to replace that amount paid from the Normal School Fund in 1865, which should have been paid from the income.....	2,838 28
	<u>\$82,832 82</u>

DISBURSEMENTS.

Invested in Wisconsin bonds	\$66,385 00
Refunded payments.....	1,006 75
Transfer to general fund, being discount on bonds.....	615 00
Transfer to Drainage Fund, being balance due on partition of lands and productive fund as provided by section 6, chapter 537, laws of 1865.....	9,409 79
Balance in the fund Sept. 30, 1868.....	5,416 28
	<hr/>
	\$82,832 82
	<hr/>

NORMAL SCHOOL FUND INCOME.

The receipts and disbursements of the income of the Normal School Fund have been as follows :

RECEIPTS.

Balance in the fund, Oct. 1st, 1867.....	\$23,843 84
Interest on lands and loans.....	13,819 20
Interest on certificates of indebtedness.....	33,107 00
Transfer from Whitewater Normal School building fund to replace money paid from Normal School Fund income for architect're	400 00
Transfer from Platteville Normal School Building Fund for same reason given above.....	450 00

Waukesha County Bank.....do.....	500 00
Bank of Fox Lake.....do.....	160 00
Bank of Madison.....do.....	150 00
Bank of Sheboygan.....do.....	310 00
	<u>\$7,290 00</u>

NATIONAL BANKS.

In the years 1865 and 1866, thirty-seven national banking associations, organized under the national currency act, were doing business in Wisconsin with an aggregate capital of \$2,830,000 00. Chapter 400 of the laws of 1865, provided for taxing the shares of these banks at the rate of one and one-half per centum on the par value of such shares.

The opinion prevailed so extensively that this act was unconstitutional and in conflict with the act of Congress, that very few of the assessors complied with its requirements. Sixteen of the thirty-seven banks paid the taxes for 1865. The others did not pay, and not being assessed and returned to this office as the law required, the treasurer could not enforce payment in the manner provided in said law.

No attempt was made to execute the law in 1866. It was understood that steps were being taken to test its validity in the courts. A case was taken to the Supreme Court, and after full argument and consideration thereof, the court sustained the law, and the legislature, at its session of 1868, by chapter 136 of the general laws, provided for the re-assessment and collection of these delinquent taxes. As directed by said act, the State Treasurer forwarded to each assessor of taxes, at places where such banks are located, a copy of this law with all the information obtainable by him on the subject, and also such instructions as were deemed necessary to aid them in the performance of their duties under the same.

At the rate prescribed, the tax for two full years would amount to \$34,900 00
Deduct from this the amount paid in 1865..... 13,793 23

And the amount remaining unpaid would be..... \$71,106 77

But as several of the banks were organized during the year 1865 the tax due from such would be reduced so as to bear such proportion to the rate provided for, as the part of the year unexpired at the date of their organization bore to the whole year. By this, the amount remaining unpaid would probably be reduced to about \$60,000.00.

The National Bank of Beaver Dam has paid into the State Treasury, in accordance with section 12 of this act, the amount of

taxes upon the shares of their respective shareholders for the year 1866. Their taxes for the year 1865 had been paid in said year. This is the only bank which has paid in full. The law requires the town, city or village collector at places where such banks are located to collect the delinquent taxes levied by virtue of the act of 1868, in the same manner as taxes upon other personal property are collected, and, retaining three per cent out of the same for his fees, to pay over the residue to the State Treasurer.

It is believed that in view of the very liberal provisions of section 14 of this law, a large proportion of these delinquent taxes will be received into the treasury during the coming winter.

It may be proper to state, before closing this subject, that since 1866 the shares of stock in both national and state banks are assessed and the taxes thereon are collected and disposed of by the local authorities in the same manner as taxes on other personal property are assessed and collected.

ASSIGNED BANKS.

By chapter 144, Laws of 1868, the State Treasurer was directed to give notice in accordance with the provisions of the banking law, for the redemption of the circulating notes of the twenty-one banks assigned to the State under the provisions of chapter 282, Laws of 1865. This notice has been given, and pursuant to section two of said act, twenty-seven thousand dollars of Wisconsin State Bonds, assigned by said banks and remaining on deposit with the Bank Comptroller to secure the circulating notes of said assigned banks, have been withdrawn and cancelled, and a certificate of indebtedness of the same amount has been issued and deposited in lieu thereof. The currency of such banks had been redeemed at the treasury since the assignment of bonds to the State. When the certificate of indebtedness was issued the amount of such currency on hand was \$2,076.00. This was delivered to the Bank Comptroller and by him destroyed and the amount was endorsed on said certificate. The sum of \$1,000, in legal tender notes, was at the same time paid thereon and is being used by the Bank Comptroller in redeeming such circulating notes of the assigned banks as may be presented.

STATE INDEBTEDNESS.

The present indebtedness of the state is \$2,252,057.00, classified as follows :

Certificates of indebtedness to Trust Funds which are not negotiable or transferable.

To School fund.....	\$1,534,700 00	
Normal school fund.....	448,500 00	
University fund.....	101,000 00	
	<hr/>	2,084,200 00
Bonds maturing in 1877.....	\$2,800 00	
.....do.....do.....1878.....	15,000 00	
.....do.....do.....1879.....	3,000 00	
.....do.....do.....1880.....	13,000 00	
.....do.....do.....1881.....	2,000 00	
.....do.....do.....1882.....	30,000 00	
.....do.....do.....1883.....	26,000 00	
.....do.....do.....1884.....	9,000 00	
.....do.....do.....1885.....	18,000 00	
.....do.....do.....1886.....	8,000 00	
.....do.....do.....1887.....	22,000 00	
.....do.....do.....1888.....	19,000 00	
	<hr/>	\$167,800 00
Currency certificates.....		57 00
		<hr/>
		<u>\$2,252,057 00</u>

This statement as compared with that of the previous year, shows the following :

	1867.	1868
Cert. of indebtedness to School Fund.....	\$1,394,900 00	\$1,534,700 00
.....do.....do.....Normal School Fund.....	881,500 00	448,500 00
.....do.....do.....University Fund.....	101,000 00	101,000 00
Bonds	401,600 00	167,800 00
Currency Certificates	57 00	57 00
	<hr/>	<hr/>
	\$2,279,057 00	\$2,252,057 00

From this it appears that the debt has been reduced during the year from \$2,279,057.00 to \$2,252,057.00.

The bonded debt has been reduced from \$401,600.00 to \$167,800.00—the reduction being \$233,800.00, and the certificates of indebtedness have been increased from \$1,877,400.00 to \$2,084,200.00. the increase being \$206,800.00.

The changes in the form of the debt have been produced as follows :

Certificates of indebtedness, Sept. 30th, 1867.....	\$1,877,400 00
Increase, new certificates for bonds.....	206,800 00
	<hr/>
Amount of certificates, Sept. 30, 1868.....	<u>\$2,084,200 00</u>
State Bonds, Sept. 30th, 1867.....	\$401,600 00
Decrease by investment of Trust Funds.....	\$206,800 00
Certificate of indebtedness issued to Bank Comptroller, by authority of chapter 144, laws of 1868.....	27,000 00— \$233,800 00
	<hr/>
Amount of Bonds Sept. 30th, 1868.....	\$167,800 00

These bonds can nearly, if not quite all, be taken up with the trust funds by the first of January, 1870.

The certificate of indebtedness issued to the Bank Comptroller, referred to above, on which there remains unpaid \$23,924.00, is not included in the foregoing statement of the public debt, as it is not anticipated that much more of the circulating notes of the assigned banks will be presented for redemption; and the law under which it was issued provides for its cancellation at the expiration of three years from its date.

ALLOTMENT FUND.

This fund has been created by virtue of chapter 100, Laws of 1862, which directed the State Treasurer to receive such sums of money as might be placed in his hands by a volunteer making an allotment, and to dispose of the same according to the order and direction of such volunteer.

The amount remaining in this fund on the 30th day of September, 1867, was \$1,951.30. No payments having been made therefrom during the year, the same amount remains on hand now.

It is likely that more or less of this fund will remain in the treasury, as the men to whom the money belongs have, many of them, disappeared by decease, or otherwise, without leaving any information by which their heirs can be discovered.

It will be a question for future consideration, whether some steps should not be taken to ascertain, as far as practicable, to whom the money should be paid, so that finally the accounts may be closed, and justice done to all concerned.

I am, very respectfully,

Your obedient servant,

WM. E. SMITH,
State Treasurer.

APPENDIX.

RECEIPTS, PAYMENTS AND STATEMENTS.

DETAILED STATEMENT
OF THE
RECEIPTS AND EXPENDITURES

OF THE SEVERAL FUNDS

FOR THE FISCAL YEAR ENDING SEPTEMBER 30, 1868.

Document No. 4.

ANNUAL REPORT

OF THE

COMMISSIONERS

OF

SCHOOL AND UNIVERSITY LANDS,

FOR THE FISCAL YEAR ENDING SEPTEMBER 30, 1868.

STATE OF WISCONSIN,
OFFICE OF COMS. OF SCHOOL AND UNIVERSITY LANDS
Madison, October 1, 1868,

His Excellency, LUCIUS FAIRCHILD,

Governor of Wisconsin :

SIR—As required by law, we have the honor to report herewith to you our official proceedings for the year ending September 30, 1868.

The whole amount of lands sold during the year is as follows :

	Acres sold.
School lands	72,275.67
University lands.....	3,174.12
Swamp lands belonging to the Normal School Fund.....	36,762.14
Swamp lands bdlonging to the Drainage Fund.....	89,663.79
Agricultural College lands.....	6,932.03
Military Road lands.....	3,723.62
Marathon county lands	131.26
Making a total of	<u>212,662.63</u>

For a detailed statement of these sales we respectfully refer to the accompanying tables, marked, Exhibit "A," "B," "C," "D," "E," "F," and "G."

These tables show the number of acres sold in each county, the fund to which they belong, the amount sold for, and the amount received on such sales.

The number of acres sold, as compared with the four previous years, is as follows :

Year ending September 30, 1864, acres sold.....	99,795.70
....do.....do.....1865....do.....	85,521.89
....do.....do.....1866....do.....	160,432.93
....do.....do.....1867....do.....	163,451.36
....do.....do.....1868....do.....	<u>212,662.63</u>

The amount of interest moneys, received during the year, is as follows :

School Fund Income.....	\$51,133.68
University Fund Income.....	5,207.45
Normal School Fund Income.....	13,819.20
Drainage Fund Income.....	2,242.74
Agricultural College Fund Income.....	829.14
Total Income.....	<u>\$73,232.21</u>

During the fiscal year, 109,497.24 acres of 16th Section School Lands, heretofore unoffered, and 721,831.62 acres of Swamp Lands patented by the General Government to the State, under the Swamp Land Grant of September 28, 1850, have been put into market, and are now subject to sale at \$1.25 per acre.

The table marked "Exhibit H," shows the number of acres of land belonging to the State at the close of the fiscal year, the class to which they belong and the counties in which they are situated.

The number of acres owned by the State is as follows :

School Lands.....	461,461.60
University Lands.....	12,753.74
Swamp Lands.....	2,174,514.21
Agricultural College Lands.....	219,737.22
Military Road Lands.....	13,324.39
Marathon County Lands.....	40,408.74
Total.....	<u>2,922,199.90</u>

The change in the number of acres owned by the State, as compared with the same, Sept. 30, 1867, has been produced as follows :

Number of acres owned by the State, Sept. 30, 1867.....	2,233,215.12
Decreased by sales.....	212,662.68
	<hr/>
	2,025,552.49
Increased by forfeitures.....	24,909.81
Increased by 16th Section lands offered.....	109,497.24
Increased by Swamp lands offered.....	721,831.62
Increased by Marathon County lands.....	40,408.74
	<hr/>
Total acres owned by the State, Sept. 30, 1868.	<u>2,922,199.90</u>

The "Marathon County Lands," above mentioned, comprise 40,540.00 acres conveyed to the State by Marathon County under the provisions of Chapter 22, General Laws of 1867, in payment of \$20,271.34 delinquent state tax owing to the State from said county. These lands are held at seventy-five cents per acre, are sold for cash and belong to the general fund.

The table marked "Exhibit I" shows the amounts of drainage money apportioned to the several counties June 1, 1868, under the provisions of Chapter 537, General Laws of 1865. Included in the amount apportioned is \$9,409.79 from the Normal School fund, due the Drainage fund in the apportionment of said funds under said Chapter 537.

The amount apportioned is composed of the following items :

Amount apportioned		\$68,839 01
From sale of lands.....	\$51,032 23	
Payments on certificates.....	5,642 00	
Interest on certificates.....	2,498 74	
Trespass—material sold.....	155 02	
Penalty on taxes.....	101 23	
Amount transferred from Normal School to Drainage Fund	9,409 79	
	<hr/>	<u>\$68,839 01</u>

The total amounts of the several productive funds under our supervision, September 30, 1868, were as follows :

SCHOOL FUND.

Amount due on certificates of sale.....	\$520,557 52
Amount due on mortgages.....	150,229 31
Certificates of Indebtedness.....	1,534,700 00
	<hr/>
Total productive fund	<u>\$2,205,486 83</u>

The changes in the first two items of the productive fund, as compared with the same items Sept. 30, 1867, have been produced as follows :

Amount due on certificates of sale, Sept 30, 1867	\$535,015 66
Decreased by payments	\$54,293 07
Decreased by forfeitures.....	16,655 56
	<u>70,948 63</u>
	\$464,067 03
Increased by new certificates of sale	56,490 49
Amount due on certificates of sale Sept. 30, 1868.....	<u>\$520,557 52</u>
Amount due on mortgages, Sept. 30, 1867.....	\$166,392 04
Decreased by payments.....	\$13,112 73
Decreased by forfeitures.....	3,050 00
	<u>16,162 73</u>
Amount due on mortgagss, Sept. 30, 1868.....	<u>\$150,229 31</u>

UNIVERSITY FUND,

Amount due on certificates of sale.....	\$68,341 14
Amount due on mortgages.....	6,092 00
Certificates of indebtedness.....	101,000 00
Dane County bonds.....	24,000 00
	<u>\$199,433 14</u>

The changes in the first two items of the productive fund, as compared with the same items, September 30, 1867, have been produced as follows :

Amount due on certificates of sale, Sept. 30, 1867.....	\$69,192 88
Decreased by payments.....	\$4,959 00
Decreased by forfeitures.....	1,868 74
	<u>6,827 74</u>
Increased by new certificates of sale... ..	62,365 14
	<u>5,976 00</u>
Amount due on certificates of sale, Sept. 30, 1868.....	<u>\$68,341 14</u>
Amount due on mortgages, Sept. 30, 1867.....	\$6,892 00
Decreased by payments.....	\$500 00
Decreased by forfeitures.....	300 00
	<u>800 00</u>
Amount due on mortgages Sept. 30, 1868.....	<u>\$6,092 00</u>

NORMAL SCHOOL FUND.

Amount due on certificates of sale.....	\$76,418 11
Amount due on mortgages.....	100,376 00
Certificates of indebtedness.....	448,500 00
 Total productive fund.....	 <u>\$625,294 11</u>

The changes in the first two items of the productive fund, as compared with the same items Sept. 30, 1867, have been produced as follows :

Amount due on certificates of sale, Sept. 30, 1867.....	\$110,022 42
Decreased by payments.....	\$29,288 70
Decreased by forfeitures.....	7,321 61
	<u>36,610 31</u>
Increased by new certificates of sale.....	\$73,412 11
	<u>3,006 00</u>
 Amt. due on certificates of sale, Sept. 30, 1868	 <u>\$76,418 11</u>
 Amount due on mortgages, Sept. 30, 1867.....	 \$111,269 50
Decreased by payments.....	\$9,903 50
Decreased by forfeitures.....	990 00
	<u>10,893 50</u>
 Amount due on mortgages, Sept. 30, 1868.....	 <u>\$100,376 00</u>

AGRICULTURAL COLLEGE FUND.

Amount due on certificates of sale.....	\$14,488 40
Dane county bonds.....	11,000 00
 Total productive fund.....	 <u>\$25,488 40</u>

The change in the first item of the productive fund, as compared with the same item, Sept. 30, 1867, has been produced, as follows :

Amount due on certificates of sale, Sept. 30, 1867.....	\$12,417 00
Decreased by payments.....	\$111 00
Decreased by forfeitures.....	2,884 60
	<u>2,995 60</u>
Increased by new certificate of sale.....	9,421 40
	<u>5,067 00</u>
 Amount due on certificates of sale, Sept. 30, 1868.....	 <u>\$14,488 40</u>

DRAINAGE FUND.

Amount due on certificates of sale \$30,480 93

The change in this fund, as compared with the same, Sept. 30, 1867, has been produced, as follows :

Amount due on certificates of sale, Sept. 30, 1867.....	\$36,998 62
Decreased by payments.....	\$5,074 00
Decreased by forfeitures.....	1,961 69
	<u>7,035 69</u>
	29,962 93
Increased by new certificates of sale	518 00
Total productive fund, Sept. 30, 1868.....	<u>\$30,480 93</u>

The following statement shows the changes in the several productive funds from Sept. 30, 1867 to Sept. 30, 1868 :

	Sept. 30, 1867.	Sept. 30, 1868.
School Fund	\$2,095,407 70	\$2,206,486 83
University Fund	193,884 88	199,433 14
Normal School Fund.....	602,791 92	625,294 11
Agricultural College Fund	18,417 00	25,488 40
Drainage Fund.....	\$6,998 62	30,480 93
Totals	<u>\$2,947,500 12</u>	<u>\$3,086,183 41</u>

The much vexed question of obtaining title from the General Government by the State to the islands in the Mississippi and Wisconsin Rivers, and other swamp and overflowed lands, is progressing towards a final settlement.

No doubt is entertained by us that these lands rightfully belong to the State under the swamp land grant of Sept. 28, 1850. Application having repeatedly been made to the Commissioner of the General Land Office for the approval of these lands to the State without success, relief is now being sought through Congress by a bill introduced in the House of Representatives by Hon. B. F. Hopkins, of the Committee on Public Lands, which provides : First. That all the islands in the Mississippi River, within the jurisdiction of the State, subject to overflow, and now remaining unsold, together with all the islands in the Wisconsin river shall be transferred to the State. Second. That whenever the State shall show that any lands which were actually swamp and overflowed lands

within the meaning of the act granting the same were not designated on the original plats and field notes as such, the same, if unsold, shall be transferred to the State, or if such lands have been sold by the General Government subsequent to the passage of said Swamp Land Act, for all such lands sold the State shall have the right to select an equal quantity from any of the unsold Government lands in the State.

Through the energy of Congressman Hopkins, assisted by the entire delegation from this State, the passage of this bill has been procured in the House of Representatives, there is also a reasonable assurance of its passage by the Senate and becoming a law, in which event it will give the State a large quantity of lands, and settles the whole question of the swamp land grant.

THOS. S. ALLEN,

WM. E. SMITH,

CHAS. R. GILL

Commissioners of School and University Lands.

Document No. 11.

ANNUAL REPORT
OF THE
ADJUTANT GENERAL,

FOR THE YEAR ENDING SEPT. 30, 1864.

To His Excellency, LUCIUS FAIRCHILD,

Governor of Wisconsin :

GOVERNOR—I have the honor herewith to transmit the annual report of the transactions, &c., of the Adjutant General's Office, for the year ending this day.

Very respectfully, your obedient servant,

ED. E. BRYANT,

Adjutant General.

ANNUAL REPORT.

GOVERNOR—An extensive correspondence has been conducted by this office during the past year. Many requests have been made by the several departments of the general government, as well as by soldiers and their friends, for certificates of military history, transcripts from the records and other information, the furnishing of which has involved, in each case, a careful examination of the records, and has occupied much time and attention.

CORRECTING LIST OF DESERTERS.

Some progress has been made pursuant to the provisions of chapter 154, General Laws of 1868, in removing the charge of desertion in cases erroneously reported in the "List" published by the Secretary of State. The act above referred to required the Adjutant General "to make such regulations, with the approval of the Governor, as shall be necessary and proper to faithfully and fully carry out the provisions of the act." It was found impracticable to make any general regulations upon the subject other than those provided by the act itself, *i. e.* that in each case "the best proof should be required of which it is susceptible, complying in form and substance, as nearly as possible, with the requirements of the various departments of the general government in like cases, all papers filed in evidence to be in duplicate." From the War Department, to which all similar applications are made, it was learned that no general regulations in regard to the form, &c., of applications had been made, and none could be made, so different and varying were the circumstances of the cases where removal of charge of desertion was sought, and that the practice of that Department is to consider each application as presented, and to require, in each case, such evidence

as it seemed to demand and the applicant was able to furnish. The same course has been pursued by this office, and whenever application has been made the applicant has been promptly and fully instructed how to present his case. A list of those who have, in compliance with said act, filed evidence satisfactory to me they are erroneously reported as deserters, and have received my official certificate to that effect, is given in Appendixes "A" and "B," herewith submitted. The evidence presented has been forwarded to the War Department, and a part of the cases have there, also, been considered and the charge removed from the records of that Department, as is shown in said Appendixes, under the head of "Remarks."

It is believed that as the general election draws near the number of applicants will be greatly increased.

BREVET COMMISSIONS.

Under General Order No. 8, General Headquarters, State of Wisconsin, dated Oct. 4, 1866, a few brevet commissions have been issued during the year. A list of names of the persons to whom they were issued is herewith submitted, as Appendix "C."

BURIAL PLACES OF THE WISCONSIN DEAD.

Several lists of the Federal dead, who are buried in the different national cemeteries, and in other places throughout the country, have been published during the year under the direction of the Quartermaster General of the United States Army. From these has been compiled a list of the names and burial places of such soldiers of Wisconsin organizations as were therein given, which list is herewith submitted as Appendix "D," and is given in addition to, and continuation of, the list published in the Adjutant General's Report of last year.

MILITIA.

There has been but little change in the condition of the Militia since the last report. An effort was made by this office, last August, to have a muster of each of the volunteer companies in the State, and rolls and returns rendered to this office as the law requires, but the effort was successful only in disclosing the fact that all but

eight or ten of the companies were virtually disorganized. For want of such rolls and returns I am unable to make a report of the number and strength of the militia.

Under the present law it is impossible to keep up an efficient militia organization. I am satisfied, however, that no substantial improvement in our militia system can be made without a greater expenditure than it is advisable for the State to incur at the present time for such a purpose.

Several companies and batteries have been organized since the last report, designated as follows :

INFANTRY.

Milwaukee, Light Guard, Milwaukee.
Milwaukee Zouaves, Milwaukee.
Alma Rifle Company, Alma.
Manitowoc Volunteers, Manitowoc.

CAVALRY.

Vernon County Volunteers, Viroqua.

ARTILLERY.

Monroe Light Battery, Monroe.

The roster of officers appointed in these organizations, as well as other appointments and resignations in the militia, will be found in Appendix "E" to this report.

During the time that I have had charge of this office, Capt. Angus R. Macdonald, my Aide-de-camp, has rendered me constant and valuable assistance in the discharge of its duties. Upon him has devolved, in addition to his responsibilities in the Quartermaster General's Department, the charge of the records, the daily and almost hourly examination of them in search of desired information, and much clerical labor in making transcripts and certificates, and in conducting correspondence.

Respectfully submitted,

ED. E. BRYANT,
Adjutant General.

SEPT. 30, 1868.

APPENDIX.

APPENDIX "A."

LIST OF NAMES of Men reported as Deserters from the Military service of the United States, who have, in accordance with provisions of Chapter 154, General Laws of 1868, furnished evidence satisfactory to the Adjutant General, that such charge was unfounded.

APPENDIX "C."

LIST OF COMMISSIONS by Brevet Issued, pursuant to General Orders No. 8, from September 30, 1867 to September 30, 1868.

- CHAPMAN, ORANGE H., late sergeant, "I" Co., 29th Wisconsin Infantry, appointed Captain by brevet, Nov. 16, 1867, to rank from May 16, 1863, in recognition of distinguished personal gallantry displayed by him at that date, in the battle of Champion Hills, Miss., where in a charge made by his company and regiment on a battery of the enemy, he captured, unaided, three of the rebels.
- COOK, STEPHEN H., late private, "A" Co., 16th Wisconsin Infantry, appointed Captain by brevet, May 28th, 1868, to rank from April 6, 1862, in recognition of his gallant conduct at the battle of Shiloh, April 6th and 7th, 1862, in remaining with his company during the entire engagement, although wounded severely in the shoulder by a shell early in the action.
- CAMAHAN, A. H., late Corporal "C," Co., 36th Wisconsin Infantry, appointed Captain by brevet, June 9th, 1868, to rank from May 24th, 1864, in recognition of distinguished gallantry exhibited by him on that day at Strawberry Hill, Va., in volunteering on vidette duty, when the danger was known to be very great; also exhibited by him at Cold Harbor, Va., June 3, 1864, in volunteering to go in front of the lines and recover the body of Lieut. Lamberton, of his Regiment, after three different parties had tried to bring in the body and been killed or wounded in the attempt. The body was brought in by him under a very dangerous fire.
- DONOVAN, RICHARD of Manitowoc Wis. late corporal "F" Co. 36th Wisconsin Infantry, appointed Captain by brevet March 19th, 1868 to rank from June 3, 1864, in recognition of distinguished personal gallantry and daring displayed by him at the battle of Cold Harbor, Va, at that date.

FREDERICK, JAMES S, late Sergeant "D" Co. 1st Wis. Cav. ap-
 pointed Captain by brevet December 24th 1867, to rank from
 January 13, 1863, in recognition of distinguished personal gal-
 lantry displayed by him at that date in killing the notorious
 guerrilla Capt. J. F. Crow, and escaping from captivity with
 the horse equipments and arms of said Crow. Also for con-
 spicuous bravery at the capture of Fort Tyler, West point Ga.
 When after his arm was broken by a musket shot he dropped
 his carbine and revolver in hand charged over the parapet with
 the storming party.

HAYFIELD, GEORGE H., late Sergeant "H" Co., 36th Wisconsin
 Infantry, appointed First Lieutenant by brevet, April 18, 1867,
 to rank from June 13, 1865, in recognition of distinguished gal-
 lantry displayed by him at Petersburg, Va.

HALLEN, BERNARD C., of Richland Center, Wis., late private "A"
 Co., 36th Wisconsin Infantry. Appointed First Lieutenant by
 brevet, March 21, 1868, to rank from June 18, 1864, in recog-
 nition of distinguished personal gallantry displayed by him on
 that day, in the charge at the place known as the "Melon Patch,"
 at Petersburg, Va., in which he was severely wounded in the left
 arm, rendering amputation of the same necessary.

LYON, JAMES F., of Fort Howard, Brown county, Wis., late
 corporal "F" Co, 1st Wisconsin Cavalry, appointed first
 lieutenant by brevet Nov. 16, 1867, to rank from April 16,
 1865, in recognition of distinguished personal gallantry and
 coolness manifested in the storming of Fort Tyler at that date,
 where he was severely wounded.

MASS, JOHN W., late sergeant "F" Co., 11th Wisconsin Infantry
 appointed captain by brevet Jan. 6, 1868, to rank from May
 22, 1863, in recognition of gallant and meritorious services
 rendered by him in the charge made by his company and reg-
 iment upon the Confederate works at Vicksburg, Miss.

MCLEROY, ROBERT, of Sun Prairie, Wis., late private "F," Co.,
 36th, Wisconsin Infantry, appointed first Lieutenant by brevet
 May 28th, 1868, to rank from October 27th, 1864, in recogni-

tion of gallant and meritorious conduct at the battle of Hatchers Run, Va, October 27th, 1864, in pursuing a rebel color bearer, by which means the colors which he carried were captured.

PALMER, WILLIAM, late Private "A," Co., 6th Wisconsin Infantry, appointed first Lieutenant by brevet, March 18th, 1868, to rank from August 28th, 1862, in recognition of distinguished personal gallantry displayed by him at that date, at the battle of Gainesville, Va.

PHINNEY, GEORGE D., late Private, "A" Co., 7th Wisconsin Infantry, appointed captain by brevet, July 3d, 1868, to rank from July 12th, 1864, in recognition of gallant conduct displayed by him at Fort du Russy on that day. During a raid of the enemy he left hospital, reported to a Colonel of the 1st Brigade. V. R. C, volunteered as a skirmisher and while upon the skirmish line, received a wound, shattering his left wrist and rendering amputation necessary.

PARTRIDGE, ALFRED W., of Denison, Iowa, late corporal, "L" Co., 1st Wisconsin Cavalry, appointed Captain by brevet, July 6th, 1868, to rank from July 18th, 1862, in recognition of distinguished gallantry displayed by him on that day, at the battle of Oak Creek, Arkansas, and also on the 19th and 20th days of September, 1863, at the battle of Chickamauga.

SEXTON M. E., of Sextonville, Wis., late Sergeant "B" Co., 20th Wisconsin Infantry, appointed captain by Brevet February 7, 1868, to rank from December 7, 1862, in recognition of distinguished personal gallantry and daring displayed by him at the Battle of Prairie Grove Ark of that date where though surrounded by overwhelming numbers he refused to surrender, but upon the near approach of the enemy fired, clubbed his gun, advanced in front of his company, calling upon his comrades to fight to the last, and thus advancing fell pierced by three rebel bullets.

Document No. 3.

ANNUAL REPORT

OF THE

BANK COMPTROLLER,

FOR THE FISCAL YEAR, ENDING SEPT. 30, 1868.

STATE OF WISCONSIN,

OFFICE OF BANK COMPTROLLER,
MADISON, October 1, 1868.

To His Excellency LUCIUS FAIRCHILD,

Governor of the State of Wisconsin :

SIR—I have the honor to transmit to the legislature my annual report as Bank Comptroller.

Very respectfully,

JEREMIAH M. RUSK,
Bank Comptroller.

ANNUAL REPORT.

OFFICE OF BANK COMPTROLLER,
MADISON, Oct. 1, 1868.

In obedience to the requirements of law, I submit the following report of the condition and transactions of this department during the past fiscal year :

The whole number of banks doing business on the first day of October, 1867, according to the last annual report, was fifteen, with an aggregate capital of.....	\$500,000 00
The whole number now doing business is sixteen, with an aggregate capital of.....	525,000 00
Increase of capital in twelve months.....	25,000 00
	25,000 00

The Fifth Ward Bank has voluntarily relinquished business, Capital	\$25,000 00
	25,000 00

Two new banks have been orgaaized during the year, without circulation, viz :

Bank of Cedarburg, capital.....	\$25,000 00
South Side Savings Bank, capital.....	25,000 00
	\$50,000 00

The aggregate amount of securities held in trust for banking associations, Oct. 1st, 1867, was	\$99,894 00
The amount held Oct. 1st, 1868, is	57,598 00
Decrease in twelve months.....	\$42,296 00
	42,296 00

The decrease has been in the following securities :

Wisconsin 6's.....	\$29,500 00
United States 6's.....	500 00
United States 7-30's.....	3,000 00
Treasury Notes.....	9,172 00
Coin.....	124 00
	\$42,296 00

The amount of circulation outstanding on the first day of October, 1867, was	\$96,332 00
The amount on the first day of October, 1868, is.....	55,481 00
Decrease in twelve months.....	<u>40,851 00</u>

For a particular statement of the condition of each individual bank, and a brief summary of the securities held by this department as security for their outstanding circulation, I refer you to schedule hereunto annexed, marked "B."

A monthly statement of the condition of the banks has been published on the first of each month, showing the circulation of each bank, and the stock on which the same is based, the amount of circulation retired, if any, in each month, and such other information as was deemed of importance to the public.

The Legislature of 1861, passed a joint resolution, requiring the Bank Comptroller to make a monthly statement, as above noted. When this resolution was passed the circulation of the banks was large and based upon securities whose value was constantly changing. Now the circulation has nearly all been retired, and what is outstanding is amply secured. I, therefore, respectfully recommend that Joint Resolution No. 8, senate, passed at extra session of 1861, be rescinded.

The Legislature of 1866, passed an act authorizing banks to wind up their circulation without surrendering their charters, or in any manner interfering with their general banking business, which, however, failed to be submitted to the people. The Legislature of 1867, passed a joint resolution submitting the same to the people, and it was by them ratified, and is now a part of the banking law. Under this law the following banks are winding up their circulation:

Bank of Madison.....	Time expires.....	Feb. 26, 1871.
Bank of Racine.....	do.....	Dec. 15, 1870.
Columbia County Bank.....	do.....	Jan. 12, 1871.
State Bank.....	do.....	Jan. 15, 1871.
Summit Bank.....	do.....	Apr. 15, 1871.

The circulation of the following banks, to wit: Bank of Beloit, Bank of Grant County, Bank of Green Bay, Bank of the Interior, Bank of Jefferson, Bank of Manitowoc, Bank of Moneka, Bank of Sparta, Bank of Whitewater, Corn Planter's Bank, Elkhorn Bank,

Frontier Bank, Monroe County Bank, Northern Bank, Prairie City Bank, Rockwell & Co.'s Bank, Sauk County Bank, Shawanaw Bank, St. Croix Valley Bank, Walworth County Bank and Wisconsin Bank of Madison, is being wound up in accordance with the provisions of chapter 144, general laws of 1868, by the State Treasurer, which authorizes him to close up the twenty-one banks assigned to the state under the provisions of chapter 282, general laws of 1865. For a statement of the amount of the circulation outstanding of each of said banks, and the expiration of its time for redemption, see appendix marked "B."

During the year the following banks wound up in accordance with the provisions of the General Banking Law, have withdrawn the surplus belonging to them.

Name of bank.	Amount of surplus paid.
Bank of La Crosse.....	\$80 00
Bank of Milwaukee.....	752 00
Bank of Monroe.....	835 00
Bank of the Northwest.....	1,832 00
Bank of Ripon.....	575 00
Bank of Wisconsin.....	567 00
City Bank of Green Bay.....	133 00
City Bank of Kenosha.....	5,113 00
Dane County Bank.....	1,576 00
Farmers' Bank, Beaver Dam ..	367 00
Forest City Bank.....	1,065 00
Green Bay Bank.....	2,506 00
Jefferson County Bank.....	2,517 00
Oakwood Bank.....	660 00
Rock County Bank.....	1,214 00
Sauk City Bank.....	1,885 00
* Second Ward Bank.....	228 00
State Bank of Wisconsin.....	1,841 00
Union Bank (Columbus).....	195 00
Waukesha County Bank.....	7,762 00
Wheat Growers' Bank.....	75 00
	<hr/>
	\$31,778 00

Surplus is due the following banks, the payment of which cannot be made until legal proceedings, now pending, have been decided :

Bank of Columbus, surplus due.....	\$1,384 00
Bank of Prairie du Chien.....	1,492 00
Kenosha County Bank.....	1,505 00

* Includes both new and old issues. Old issue is \$124 in gold.

The legislature of last winter passed the following law, to wit :

“CHAPTER 110.

“[*Published March 14, 1868.*]

“AN ACT requiring reports from unorganized banks and bankers.

“*The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:*

“SECTION 1. Every person, association of persons, and body corporate, except such bodies coporate as are expressly authorized by the state or national banking law, shall report semi-annually in writing to the bank comptroller, or to such state officer as banks organized under the general banking law of this state are now or may be required hereafter to render their reports; such report to be verified by the affidavit of such person or any member of such association or corporation, and to contain the total amount due depositors, the amount of funds on hand, the names of the person or persons interested in or carrying on said business, the total amount of the capital stock employed in said business, and such other items, so far as practicable, as bankers under the state banking laws are required to report.

“Section 2. That the amount of capital stock so reported by such person, association of persons or body corporate, shall be subject to assessment, and shall be taxed in the locality where such business may be transacted, and such taxes shall be payable and collectable at the same time and in the same manner as now provided by law for the collection of other taxes, and the amount of taxes so collected shall be construed and received as an equivalent for a license to conduct said business.

“Section 3. This act shall take effect from and after the thirtieth day of May next.

“Approved March 6, 1868.”

Under this act only two banks have reported, to-wit: the Bank of Boscobel, located at Boscobel, and owned by F. McSpaden and I. N. Walker; and the German Bank, located at Sheboygan, and owned by Geo. C. Cole.

I am of the opinion that the provisions of this law are not sufficiently explicit. It was undoubtedly intended to apply to parties doing a *banking business* only, but really applies to *all* kinds of business. Another defect is, that there is no penalty for non-compliance with its provisions.

In accordance with the recommendation in my last Annual Report relating to closing this Department, an amendment to the genera

banking law was passed by the last Legislature, and will be submitted to a vote of the people at the next November election. (See Appendix, marked "A.")

On the 15th of April last, my Deputy, D. B. Ramsey, engaging in other business, closed his connection with this Department, and the banking law requiring the appointment of a Deputy, I appointed Capt. R. J. Chase, Deputy, and pay him for his services out of my own salary without expense to the State, and I have appointed L. J. Rusk, Book-keeper; these are the only assistants I now have.

The appendix will show :

"A."—Chapter 28 of General Laws of 1868, entitled, "An Act to abolish the office of bank comptroller, and transfer his duties to the state treasurer."

"B."—Securities, circulation and capital of banks.

"C."—Names of stockholders, and the amount of stock held by each.

"D."—Names of personal bondsmen for each bank.

"E."—List of banks and their officers.

"F."—Bank note impressions destroyed during the year.

"G."—Bank note impressions now on hand.

"H."—Bank note plates now on hand.

"I."—Condition of each bank in the state.

All of which is respectfully submitted.

JEREMIAH M. RUSK,
Bank Comptroller.

APPENDIX.

2000000000

“ A. ”

CHAPTER 28—G. L. 1868.

[Published February 24, 1868.]

AN ACT to abolish the office of Bank Comptroller, and transfer his duties to the State Treasurer.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows :

Section 1. The office of Bank Comptroller is hereby abolished ; to take effect on the first Monday of January, A. D., 1870.

Section 2. The Bank Comptroller is hereby required, on the first Monday of January, A. D., 1870, to turn over to the State Treasurer all the books, records, moneys, safes and furnitures, together with all other appurtenances whatsoever appertaining or belonging to said office which may be in his custody, or for which he shall be held responsible.

Section 3. The state treasurer is hereby authorized and required to receive from the bank comptroller all the property and effects named in section two of this act, and thereafter perform and discharge all duties incident to the office of bank comptroller, and all acts of the state treasurer in pursuance of any requirement of the banking law shall be as valid for all purposes as though done and performed by the bank comptroller.

Section 4. This act shall be submitted to the electors of this state at the general election to be held on the Tuesday next succeeding the first Monday of November, 1868, and if approved by a majority of the votes cast on the subject, the same shall take effect and be in force as provided in section one of this act.

Section 5. The form of ballot for the approval of this act shall be “ for amendment to the banking law ; ” and against approval,

“against amendment to the banking law,” which shall be written or printed on a separate ballot and deposited in a separate box, and the votes cast for and against amendment shall be counted and returned by the inspectors of election, and be canvassed by the state board of canvassers, in the same manner and within the same time as the votes for state officers are required to be counted, returned and canvassed, and the secretary of state shall immediately, on the completion of said canvass, publish a statement of the result thereof in the official state paper, and communicate the same to the governor and he shall also deliver to the bank comptroller and state treasurer each a certified copy thereof.

Section 6. All acts and parts of acts contravening the provisions of this act are hereby repealed.

Approved February 19, 1868.

"B."

The following is a statement in detail of the securities held in trust for each banking association and the amount of circulating notes issued and outstanding on the same, on the first day of October, A. D. 1868.

OFFICE OF BANK COMPTROLLER,
MADISON, July 15th, A. D. 1868.

I certify that the foregoing Statement is an abstract of the Semi-Annual Reports made to this office by the several Banks that made reports (as far as it was practicable to arrange the items under general heads,) in pursuance of the provisions of the 41st section of the act entitled “An Act to authorize the business of Banking.” Approved April 19th, 1852.

J. M. RUSK,
Bank Comptroller.

Document No. 10.

ANNUAL REPORT

OF THE

SUPERINTENDENT

OF

PUBLIC INSTRUCTION

OF THE

STATE OF WISCONSIN,

FOR THE

YEAR ENDING AUGUST 31, 1868.

A. J. CRAIG,

SUPERINTENDENT OF PUBLIC INSTRUCTION.

MADISON, WIS.:

ATWOOD & RUBLEE, STATE PRINTERS, JOURNAL OFFICE.

1868.

OFFICE OF THE SUPERINTENDENT OF PUBLIC INSTRUCTION.

MADISON, December 10, 1868.

To His Excellency, LUCIUS FAIRCHILD,

Governor of Wisconsin :

SIR:—I have the honor to transmit, through you, to the Legislature, the Annual Report of the Department of Public Instruction, for the year ending August 31, 1868.

I am, sir, very respectfully,

Your obedient servant,

A. J. CRAIG,
Superintendent of Public Instruction.

ANNUAL REPORT
OF THE
SUPERINTENDENT
OF
PUBLIC INSTRUCTION.

OFFICE OF THE SUPERINTENDENT OF PUBLIC INSTRUCTION.

MADISON, December 10, 1868.

To the Legislature of Wisconsin :

GENTLEMEN :—Section 67 of Chapter 10, of the Revised Statutes requires the Superintendent of Public Instruction to prepare an annual report, containing :

1. An abstract of all the common school reports received by him from the several clerks of the county boards of supervisors (County Superintendents).
2. A statement of the condition of the common schools of this state.
3. Estimates and accounts of expenditures of the school moneys.
4. Plans for the improvement and management of the common school fund, and for the better organization of the common schools ; and
5. All such matter relating to his office, and the common schools of the state, as he shall deem expedient.

An abstract of the reports of the county superintendents will be found in the appendix, in tables Nos. 2 to 9, which give in detail by

counties and towns full statistics on all important points or subjects embraced in our school system.

The condition of the schools can be ascertained, however, by a consideration of the following summary of the general statistics, which is presented under appropriate heads.

I.—SCHOOL DISTRICTS.

Counting two and one quarter parts of districts as equivalent to one whole district, the whole number now organized is 4,728, a gain of 116 over the number reported last year. The increase does not correctly represent the number formed during the past year, as the process of consolidation has diminished the number existing at its commencement. The evils inherent in the district system are somewhat mitigated by judicious consolidation but they cannot be permanently remedied or removed, except by the adoption of the township system.

The number of districts reporting is 4,647, which is 81 less than the whole number organized.

II.—CHILDREN OVER FOUR AND UNDER TWENTY YEARS OF AGE.

The number of persons returned as over four and under twenty years of age is 386,630, a gain of 15,547 from last year.

III.—NUMBER OF CHILDREN OF SCHOOL AGE IN DISTRICTS MAINTAINING A SCHOOL FIVE OR MORE MONTHS.

The number reported under this heading is 374,749. The number given in the report for 1867 was 330,263, but, as then stated, the item was incorrect, and by application to the reporting officers the number was brought up to 361,759, before the annual appointment was made.

It will be necessary to make some additions to the number reported this year.

IV.—TOTAL NUMBER OF PERSONS ATTENDING THE PUBLIC SCHOOLS.

The number given in the reports for the past year, is 246,440; but this is evidently incorrect, as the number who attended between

the ages of four and twenty years, is 246,105, to which, if we add 1,194 the number who attended under four years of age, and 1,373, the number over twenty years of age, we shall have a sum of 249,007.

The average length of time schools were maintained throughout the State is 141 1-2 days, an increase of 4 1-2 days over 1867.

The following table shows : (1), the total number of children in the state over four and under twenty years of age ; (2), the total number who have attended the public schools some portion of the year ; (3), the per cent. of attendance as compared with the whole number of school age ; and, (4), the average number of days schools have been taught for each year since the organization of the state.

YEAR.	Total number of children in the state over four and under twenty years of age.	Total number who attended school some portion of the year.	Average number in school a portion of the time, of each hundred of school age.	Average number of days schools were
1849,.....	70,457	32,147	45	71
1850,.....	92,047	61,507	66	74
1851,.....	111,431	78,944	70	74
1852,.....	124,783	88,042	71	75
1853,.....	138,279	97,835	69	75
1854,.....	155,125	103,933	65	77
1855,.....	186,960	122,462	64	84
1856,.....	213,886	134,353	64	99
1857,.....	241,545	153,613	60
1858,.....	264,077	171,885	63	122
1859,.....	278,871	188,477	64	121
1860,.....	288,984	194,357	67	136
1861,.....	299,133	198,443	66	132
1862,.....	308,056	191,366	62	109
1863,.....	320,965	215,163	67	120
1864,.....	329,906	211,119	65	120 $\frac{1}{2}$
1865,.....	339,024	223,067	66	134 $\frac{1}{2}$
1866,.....	352,004	234,265	66 $\frac{1}{2}$	128
1867,.....	371,083	239,945	65	137
1868,.....	386,630	249,007	64	141 $\frac{1}{2}$

To ascertain the whole number who have attended schools of all kinds during the year, we add to the number attending the public schools the number reported by other institutions, as follows :

Number attending the public schools....	249,077
private schools.....	14,679
academies.....	981
colleges and universities.....	2,113
Soldiers' Orphans' Home.....	300
Number in Reform School, benevolent institutions, orphan asylums, etc., estimated.....	1,500
Total.....	<u>268,580</u>

After deducting from the whole number of persons over four and under twenty years of age, the number attending public schools, private schools, academies and colleges, and the number in the benevolent institutions ; and making liberal allowance for those living where no schools have been organized, and for those who, for various reasons, could not attend any school, there will remain about 50,000 youth who should have been in school, but who have not attended any part of the year.

The number the public school houses will accommodate is 271,009. Deducting from this 249,007, the whole number who attended, and there remain 22,002, for whom ample provision was made, but who neglected to avail themselves of the privileges furnished.

All thoughtful men regard with serious concern the failure of our system to educate those most needing an education, and some advise a resort to legislation to compel the attendance at school of all children of certain specified ages.

Believing that the State has the same right to the time of the child that it has to the money of the parent, and believing that the end sought through a system of public instruction—the preservation of our government and institutions—cannot be secured so long as a large percentage of our youth are growing up in ignorance, they call upon the representatives of the people to provide that those for whom free schools are maintained shall enjoy the benefits which the schools are designed to confer. It may be well, however, before resorting to compulsory legislation, to ascertain whether a largely increased attendance upon the public schools may not be secured through modifications of the school law, especially in reference to

the organization of districts, the supervision of schools, and the apportionment of the income of the school fund. These topics will not be discussed here, but will be treated of in another part of this report.

GRADED SCHOOLS.

The number reported is 226, which is 131 less than was returned last year ; but this is manifestly incorrect, as there has been no such diminution of this class of schools. On the contrary there is reason to believe that they have increased, and that there are a greater number in operation now than at any previous date. It is certain, however, that outside of cities and villages but few such schools can be established under our present district system, and unless we can secure a change of organization the greater portion of our people must be denied the advantages which such schools furnish.

VI—TEACHERS AND TEACHERS' WAGES.

The number of teachers required in all the schools 5,267, and the number actually employed for some portion of the year is 8,566. This difference between the number required and the number actually employed is partly accounted for by the fact that in a large number of districts female teachers are employed in the summer, and male teachers in the winter, and partly by the almost universal custom of changing teachers every term without regard to the sex of the person engaged. The disadvantages of this plan of changing teachers are so evident that all acknowledge them, yet there is little prospect that under our present system, a different practice will ever prevail. A change of system is the only sure remedy for this wide spread evil.

The average wages of male teachers is \$42,97, a gain of \$2,21 from last year ; and of female teachers \$27,18, a gain of 84 cents.

The following table shows (1) the monthly wages of male teachers, (2) the monthly wages of female teachers, and (3) the ratio of the wages of female to the wages of male teachers, for the past twenty years.

Year.	Male.	Female.	Ratio per cent.
1849.....	\$15 22	\$6 92	45
1850.....	17 14	8 97	52
1851.....	17 15	8 35	48

1854.....	18 75	11 00	60
1855.....	23 10	12 08	52
1856.....	25 38	13 80	54
1857.....	24 60	15 16	62
1858.....	27 02	14 92	55
1859.....	22 93	14 29	63
1860.....	24 20	15 30	63
1861.....	23 01	14 62	63
1862.....	25 82	15 82	61
1863.....	27 11	16 81	62
1864.....	32 39	19 43	60
1865.....	36 45	22 24	61
1866.....	38 63	24 05	62
1867.....	40 76	26 34	64
1868.....	42 97	27 18	63

While the average of wages increases but slowly, the demand for thoroughly qualified teachers is so great that good salaries are paid to principals of the best high and graded schools, and the inducements presented to teachers to fit themselves for the proper performance of their duties, ought in time to secure a full supply of competent instructors. A salary of fifteen hundred dollars is now quite common; many small villages pay their principal teacher from eight to twelve hundred, and in the best country districts from forty to sixty dollars a month is received.

The standard of qualifications is raised year by year, and teachers' wages keep pace, in a good degree, with their attainments. Arrange matters so that they shall have permanent employment, and in the value of the service rendered, our teachers will justify all the outlay made in their behalf.

The number of teachers' certificates granted during the past year is shown by the following statement :

	1st Gr.	2d Gr.	3d Gr.	Total.
Certificates of male teachers	66	109	1,478	1,653
Certificates of female teachers.....	19	165	4,361	4,545
Total	<u>85</u>	<u>274</u>	<u>5,839</u>	<u>6,198</u>

VII.—SCHOOL HOUSES.

The whole number of school houses reported is 4,646. This leaves eighty-two districts without houses. Some of them maintained school in rented houses, so that there are not, probably, more than fifty or sixty districts in which school has not been kept. More than ten per cent. of the houses are built of stone or brick, the number being 487; an increase of thirty-six from last year. It is very gratifying to learn that there are 3,037 outhouses in good condition. Several fine buildings have been erected or completed during the past year. Oshkosh takes the lead with a high school building, which, with the grounds, is valued at \$65,000. It is a fine specimen of architecture, an ornament to the city and a credit to the enterprise and intelligence of its citizens.

Berlin comes next with a house costing \$25,000, followed by Elkhorn with one at \$20,000; Shullsburg one at \$20,000; Lake Mills one at \$15,000; Green Bay one at \$12,000; Appleton one at \$11,000 and Necedah one at \$8,000. Menomonie, Dunn County, has a house nearly finished which will cost \$15,000, and several other places have erected or are erecting substantial, commodious and tasteful structures. The high-school building at Fond du Lac, valued last year at \$34,000, was burned last winter, but the people of that flourishing city will not long remain without a first class house. Below are given the cities and villages having houses valued at \$10,000 or more.

Oshkosh.....	\$65,000
Janesville	45,000
Milwaukee	35,000
Kenosha	28,000
Berlin	25,000
Geneva	20,000
Madison	20,000
Shullsburg.....	20,000
Watertown.....	17,000

Elkhorn.....	16,200
Delavan.....	15,200
Lake Mills.....	15,000
Fort Atkinson.....	14,000
Sheboygan.....	14,000
La Crosse.....	13,000
Beloit.....	12,000
Green Bay.....	12,000
Appleton.....	11,000
Platteville.....	11,000
Chippewa Falls.....	10,000
Waukesha.....	10,000
Waupaca.....	10,000

The total valuation of all the school-houses in the state is \$2,573,393.99. The value of sites is \$358,166.62, making an investment of nearly three millions of dollars.

VII—RECEIPTS AND EXPENDITURES.

The receipts and expenditures on account of public schools for the past year, as reported by the county superintendents, are as follows :

Receipts.

Money on hand August 31st, 1867.....	\$294,588 03
From taxes levied for building and repairing.....	405,774 71
From taxes levied for teachers' wages.....	806,826 38
From taxes levied for apparatus and libraries.....	17,483 72
From taxes levied at annual town meetings.....	112,823 64
From taxes levied by county supervisors.....	188,052 48
From income of state school fund.....	165,413 61
From all other sources.....	325,534 78
Total receipts.....	<u>\$2,226,560 35</u>

Expenditures.

For building and repairing.....	\$452,419 08
For apparatus.....	9,389 66
For teachers' wages.....	1,023,052 66
For old indebtedness.....	78,948 76
For furniture, registers and records.....	68,897 75
For all other purposes.....	159,232 61
Total expenditures.....	<u>\$1,791,940 52</u>
Money on hand August 31st, 1868.....	434,619 83
	<u>\$2,226,560 35</u>

The financial statistics in tables 5 and 6 of the appendix differ in some respects from the figures here given. The total receipts are there stated to be \$2,236,288.82; the total expendi-

tures \$1,774,473.34; and the amount on hand August 31st, 1868, as \$363,276.43; but these figures are manifestly incorrect, as the totals ought to equal the sum of the items, and the money on hand the difference between receipts and expenditures.

The amount expended for all purposes equals \$4.64 for each person reported as between four and twenty years of age, and \$7,19 for each pupil registered as having attended school. The amount expended for tuition, for each pupil registered, is \$4.18.

For convenience of reference a tabular summary of the general statistics is here presented, and for the purpose of comparison, the returns for 1867 are given in connection with those for the past year.

SUMMARY OF GENERAL STATISTICS.*

	1867.	1868.
Whole number of districts in the State.....	3,770	3,881
Number of districts reported.....	3,694	3,807
Whole number of parts of districts.....	1,895	1,907
Number of parts of districts reported.....	1,825	1,865
Number of children over four and under twenty years of age in the State.....	371,083	386,630
Number of children over four and under twenty years of age in districts maintaining school five or more months.....	361,759	374,749
Number over four and under twenty years of age who have attended school.....	233,576	246,105
Total number of different pupils who have attended the public schools during the year.....	239,945	249,007
Average number of days school was maintained ..	137	141½
Number of days attendance of pupils over four and under twenty years of age.....	17,171,137	18,531,906

Whole sum expended for furniture, registers and records	22,127 66	68,897 75
Whole sum expended for all other purposes.....	156,343 82	159,232 61
Total amount expended.....	1520,411 76	1791,940 52
Amount expended for each person of school age.	4 09	4 64
Amount expended for each pupil registered.....	6 34	7 19

IX.— SCHOOL FUND INCOME.

The amount apportioned the past year is, \$173,644 32. The ratio of apportionment was 48 cents per scholar.

A detailed statement, by counties and towns, will be found in table No. I. of the Appendix.

The apportionments from 1850 to 1868, inclusive, are as follows :

Years.	No. of Children	Apportionment.
1850,	92,647	3 8-10 cents per scholar.
1851,	111,481	50.....do.....
1852,	124,783	48.....do.....
1853,	138,279	45.....do.....
1854,	455,125	72.....do.....
1855,	186,960	80 5-10.....do.....
1856,	213,886	70.....do.....
1857,	241,545	66.....do.....
1858,	264,977	75.....do.....
1859,	278,871	64.....do.....
1860,	288,984	64.....do.....
1861,	299,782	32.....do.....
1862,	308,656	50.....do.....
1863,	320,965	44.....do.....
1864,	329,906	47.....do.....
1865,	339,024	46.....do.....
1866,	354,517	45.....do.....
1867,	371,083	47.....do.....
1868,	361,759	48.....do.....

The apportionment for each year is made upon the returns for the preceding year. The law requires that local officers apportion to those districts only which have maintained school for five months; consequently an apportionment by the State Superintendent for the whole number of children returned from a town, in case one or more districts have not maintained a five months' school, gives to the other districts a greater amount than they are entitled to on the ratio per scholar. To correct this discrepancy the town clerks were directed to report, in addition to the whole number of children, the number in the districts maintaining school five or more months. This has been done for two or three years past, but the returns were so imperfect that they could not be acted on until the last apportionment, when the sum of \$173,644.32 was distributed to 361,759 children only, though the whole number reported for 1867 was 371,088. The apportionments will hereafter be made on the same basis, so that the amounts apportioned to towns by the State Superintendent will be the exact sums to which the districts therein, that have maintained five months' school, are entitled.

X.—EDUCATIONAL FUNDS.

By the courtesy of Gen. Allen, Secretary of State, I am permitted to copy from his annual report for 1868, the following exhibit of the condition of our educational trust funds :

SCHOOL FUND.

The school fund is composed of :

1. Proceeds of lands granted by the United States for support of schools.
2. All moneys accruing for forfeiture or escheat and trespass penalties on school land.
3. All fines collected in the several counties for breach of the penal laws.
4. All moneys paid as an exemption from military duty, and
5. Five per cent of sale of government lands.

The amount of the productive School Fund on the 30th day of September 1867 and 1868, was as follows :

	1867	1868
Amount due on certificates of sales.....	\$535,015 56	\$520,557 52
Amount due on mortgages	166,392 04	150,229 31
Certificates of indebtedness.....	1,394,900 00	1,534,700 00
Total productive fund.....	<u>\$2,096,307 60</u>	<u>\$2,205,486 83</u>

Showing an increase of the productive fund of \$109,179.23, during the past year.

The changes in the first two items of the productive fund, as stated above, have been produced as follows :

Amount due on certificates of sales, Sept 30, 1867	\$585,015 66	
Decreased by forfeitures.....	\$16,655 56	
Decreased by payments.....	54,298 07	
	<u>70,948 63</u>	
		\$464,067 03
Increased by new certificates of sales.....	56,490 49	
		<u>\$530,557 52</u>
Amount due on certificates of sales Sept 30, 1868.....		
Amount due on mortgages Sept. 30, 1867.....	\$166,392 04	
Decreased by forfeitures.....	\$3,050 00	
Decreased by payments	13,112 73	
	<u>16,162 73</u>	
Amount due on mortgages Sept. 30, 1868.....		<u>\$150,229 31</u>

The receipts and disbursements for the past year have been as follows :

Receipts.

Sales of lands.....	\$33,683 31	
Dues on certificates.....	54,293 07	
Loans, payments on mortgages.....	13,112 73	
Penalties and forfeitures.....	966 67	
Taxes.....	626 95	
Fines	1,075 78	
United States, 5 per cent on sales of public lands.	6,190 68	
Estates of persons deceased without heirs.....	420 46	
	<u>\$110,369 65</u>	
Total receipts.....		\$110,369 65

Disbursements.

Invested in state bonds.....	\$139,800 00	
Refunded for overpayments	1,020 58	
	<u>\$110,369 65</u>	
		\$140,820 58
Balance, September 30, 1867.....	31,866 25	
Balance, September 30, 1868.....		1,418 32
	<u>\$142,238 90</u>	
		<u>\$142,238 90</u>

SCHOOL FUND INCOME.

Receipts.

Interest on principal due on lands	\$51,133 68
Interest on certificates of indebtedness.....	107,805 00
Interest as per chapter 79, laws of 1866.....	7,088 36
Twenty-five per cent of Normal School fund income, chapter 25, laws 1866.....	11,925 23
Sale of Webster's dictionaries	120 00
Milwaukee county—refunded for over-payment of apportionment.....	55 68
Total receipts	\$178,127 95

Disbursements.

Apportionment by state superintendent.....	*\$173,710 47
Websters's dictionaries.....	1,600 00
Refunded on account of over payment of interest.....	965 57
	<u>\$178,127 95</u>	<u>\$176,276 04</u>
Over payment, September 30, 1867.....	1,962 74
Over payment, September 30, 1868.....	110 83
	<u>\$178,238 78</u>	<u>\$178,238 78</u>

UNIVERSITY FUND.

This fund consists of the proceeds of the sales of lands granted by congress for the support of a university.

The amount of this fund which was productive at the end of the fiscal year, ending September 30, 1867, and 1868, respectively, was as follows :

	1867.	1868.
Amount due on certificates of sales.....	\$69,192 88	\$68,341 14
Amount due on mortgages....	6,892 00	6,092 00
Certificates of indebtedness.....	101,000 00	101,000 00
Dane county bonds.....	16,800 00	24,000 00
Total productive fund.....	<u>\$193,884 88</u>	<u>\$199,433 14</u>

Showing an increase in the productive fund during the last year of \$5,548 26.

*This amount comprises the sum of \$90.71 apportioned to Douglas County last year, but not paid till this, and does not embrace the sum of \$24.96, apportioned to Vernon County, after 1st of October, the real sum apportioned for 1868, being \$172,644.32.

The changes in the first two items of the productive fund, as stated above have been produced as follows :

Amount due on certificates of sales, Sept. 30, 1867.		\$69,192 88
Decreased by forfeitures.....	\$1,868 74
Decreased by payments.....	4,959 00
	<u> </u>	<u>\$6,827 74</u>
Increased by new certificates of sales.....		\$62,865 14
		<u>5,976 00</u>
Amount due on certificates of sales, Sept. 30, 1868		<u>\$68,841 14</u>
Amount due on mortgages, Sept. 30, 1867.....		\$6,892 00
Decreased by forfeitures.....	\$300 00
Decreased by payments.....	500 00
	<u> </u>	<u>800 00</u>
Amount due on mortgages, Sept 30, 1868.....		<u>\$6,092 00</u>

The receipts and disbursements for the past year have been as follows :

Receipts,

Sales of land.....	\$2,061 13
Dues on certificates.....	4,959 00
Loans, payments on mortgages.....	500 00
Penalties on forfeitures.....	45 85
Taxes.....	22 76
	<u> </u>	<u> </u>
Total receipts.....	\$7,588 74

Disbursements.

Invested in Dane county bonds.....		\$7,200 00
Refunded on account of over payments.....		72 16
	<u> </u>	<u>\$7,272 16</u>
Balance, September 30, 1867... ..	1,181 56
Balance, September 30, 1868.....		1,498 14
	<u> </u>	<u>\$8,770 30</u>
		<u>\$7,770 30</u>

UNIVERSITY FUND INCOME.

The University Fund Income consists of the interest on the productive fund, and such donations as may from time to time be made.

The amount of receipts and disbursements during the last fiscal year was as follows :

Receipts.

Interest on principal due on lands	\$5,207 45
Interest on certificates of indebtedness.....	7,070 00
Interest, on Dane county bonds.....	1,680 00
Students, for tuition and room rent.....	5,903 80
Students, for fuel.....	453 37
Boarding department.....	40 00
Appr'n from general fund, chapter 22, laws of 1867	7,803 76
Total receipts.....	<u>\$27,658 38</u>

Disbursements.

Salaries.....		\$22,098 88
Expenses of regents.....		665 30
Insurance		594 25
Repairs		3,110 99
Incidentals.....		2,351 89
Fuel		905 15
Printing and advertising.....		405 95
Library		352 69
Furniture		89 70
Boarding department.....		345 95
Room Rent.....		44 83
Philosophical apparatus.....		19 90
Refunded for over-payment of interest.....		144 01
	<u>\$27,658 38</u>	<u>\$31,129 49</u>
Balance, September 30, 1867.....	5,619 54
Balance, September 30, 1868.....	2,148 43
	<u>\$33,277 92</u>	<u>\$33,277 92</u>

NORMAL SCHOOL FUND.

This fund is composed of the proceeds of the sale of lands set apart for the support of normal schools, by chapter 537, laws of 1865.

Twenty-five per cent. of the income of this fund is annually transferred to the School Fund Income.

The amount of productive fund on the 30th day of September, 1867 and 1868, respectively, was as follows :

	1867.	1868.
Amount due on certificates of sale.....	\$110,022 42	\$76,418 11
Amount due on mortgages.....	111,269 50	100,376 00
Certificates of indebtedness	381,500 00	448,500 00
Total productive fund.....	<u>\$602,791 92</u>	<u>\$625,294 11</u>

Showing an increase in the productive fund during the past year of \$22,502 19.

The changes in the first two items of the productive fund, as stated above, have been produced as follows:

Amount due on certificates of sale, Sept. 30, 1867..	\$110,022 42
Decreased by forfeitures	\$7,321 61
Decreased by payments	29,288 70
	<u> </u>	\$86,610 31
Increased by new certificates of sale.....		\$73,412 11
		<u> </u>
Amount due on certificates of sale, Sept. 30, 1868..	\$76,418 11
Amount due on mortgages, Sept. 30, 1867.....	\$111,269 50
Decreased by forfeitures.....	\$990 00
Decreased by payments.....	9,903 50
	<u> </u>	10,893 50
Amount due on mortgages, Sept. 30, 1868.....	\$100,376 00

The receipts and disbursements for the last fiscal year have been as follows:

Receipts.

Sales of lands.....	\$82,350 83
Dues on certificates.....	29,288 70
Loans, payments on mortgages.....	9,903 50
Penalties on forfeitures.....	284 72
Transfer from normal school fund income.....	2,838 28

AGRICULTURAL COLLEGE FUND.

This fund consists of the proceeds of the sales of lands granted by congress to the state for the support of an institution of learning, in which shall be taught the principles of agriculture and the arts. The interest on the productive fund forms the income.

The amount of productive fund, September 30, 1867 and 1868, respectively, was as follows :

	1867.	1868.
Dues on certificates of sale.....	\$12,417 00	\$14,488 40
Dane county bonds.....	6,000 00	11,000 00
	<u>\$18,417 00</u>	<u>\$25,488 40</u>

Showing an increase of the productive fund of \$7,071 40.

The change in the first item of the productive fund, as stated above, has been produced as follows :

Amount due on certificates of sale, Sept. 30, 1867.....	\$12,174 00
Decreased by forfeitures.....	\$2,884 60
Decreased by payments.....	111 00
	<u>2,995 60</u>

EXPERIMENTAL FARM FUND.

This fund is composed of the proceeds of the sale of Dane county bonds to the amount of forty thousand dollars, which, under the provisions of Chapter 114, Laws of 1866, were to be placed in the hands of the Regents of the University, for the purpose of purchasing a farm in connection with the College of Agriculture. These bonds were all delivered, and all invested in the University and Agricultural College funds, excepting five thousand dollars, which were redeemed by Dane county and the money paid into the fund.

The receipts and disbursements for the last fiscal year have been as follows :

Receipts.

Dane County—Dane county bonds redeemed.....	\$5,000 00
University Fund—....do.....investment....	7,200 00
Agricultural College Fund—Dane county bonds, investment	5,000 00
Daniel Reed, rent of house.....	190 00
P. A. Chadbourne, building sold.....	30 00
N. B. Van Slyke, rent from professor of University lots sold.....	200 00 75 00
Total receipts	\$17,695 00

Disbursements.

Balance, September 30, 1868.....	4,460 67
	<u>\$17,695 00</u>	<u>\$17,695 00</u>

TEXT BOOKS.

The law makes it the duty of the State Superintendent to "recommend the introduction of the most approved text books, and as far as practicable, to secure a uniformity in the use of text books in the common schools throughout the State."

For eleven years past no attempt has been made by the State Superintendent to secure a uniformity of text books, except by making an official recommendation of such works as seemed to be best adapted for use in the schools; and for four years past this recommendation has covered, in the main branches of study pursued, the works of several authors. Section 53 of the school code provides that "the board in each district shall have power, under the advice of the Superintendent of Public Instruction, to determine what school and text books shall be used in the several branches taught in the schools of such district."

This practically puts the whole matter into the hands of the district boards, the State Superintendent having no power to enforce his recommendation; and, as a consequence, uniformity is not secured.

There is a good deal of complaint by parents on account of frequent changes of text books; but there need be no cause for such complaint if the district boards comply with the law. They are required to make out and adopt lists of books to be used in the schools, and the law prescribes that when thus adopted they shall not be changed for the term of three years. In this age of improvement three years is, probably as long a term as it is prudent to compel a district to use a specified list of books, and if parties interested will see that the law is enforced, uniformity may be secured for that length of time, so far as individual districts are concerned.

The objection still remains that persons removing from one town or county to another, are generally obliged to purchase new sets of books for their children because of the lack of a State uniformity. Without stopping to discuss the question whether laws should be enacted for the benefit of so small a part of the people as is comprised in the migratory class, it is believed that a remedy for the evil mentioned can be suggested, which will, at the same time, secure beneficial results in several other directions. It is this—let each district purchase and own its text books. The district builds the school house, pays the teacher, furnishes fuel, blackboards, maps, charts, etc. Is there any good reason why it should not furnish the text books also? Let a sufficient number of books be purchased and put in a suitable case in the school room. Let the teacher take charge of them, and at the commencement of each term distribute them to the pupils.

The advantages of this plan are obvious.

1. Every pupil attending school is supplied with just the books he needs on the first day of his attendance. There is no waiting; no messages to parents; no sending to the store to purchase books; he is assigned to the proper classes, and commences his studies at once.

2. The books being purchased by the quantity would be obtained at wholesale prices, and thus twenty-five per cent. of their cost at retail would be saved.

3. Many parents in straitened circumstances find it very difficult to supply their children with the needed text books, and as a conse-

quence the range of study of those children is much circumscribed, or they are kept from school altogether. It is true the law makes provision for supplying the children of indigent parents with text books, but what parent is willing to be treated as a pauper, or to accept the help thus proffered? This plan meets the difficulty.

4. Persons removing from one locality to another will not be obliged to purchase new text books for their children.

The adoption of the township system of school government will, of itself, tend to produce a town uniformity of books, and the above described plan may be applied to a town as readily as to a district, thus securing nearly every end sought by those who desire relief from the burdens imposed by the present system.

The principal text books used in the State, and the number of districts using them are given in the following table. For purposes of comparison the statement covers the years 1866, 1867 and 1868 :

	1866.	1867.	1868.
No. of Dis'ts using Sanders' Spellers.....	2,417	2,420	2,564
McGuffey's Spellers.....	1,298	1,144	995
Parker & Watson's Spellers... ..	305	337	379
Wilson's Spellers.....	74	69	84
Sanders' Readers.....	2,165	2,063	2,138
McGuffey's Readers.....	1,373	1,159	986

Clark's Grammar.....	1,807	1,856	1,582
Pinneo's Grammar.....	765	852	729
Green's Grammar.....	149	97	119
Brown's Grammar.....	123	122	150
Kerl's Grammar.....	47	77	296
Cutter's Physiology.....	111	92	114
Davies' Algebra.....	180	210	160
Ray's Algebra.....	149	124	113
Robinson's Algebra.....	102	214	151

Several other works are used, to a limited extent, throughout the State, and when making selections for their schools the district board should examine table No. 7, in the appendix, and adopt therefrom such books as will produce absolute uniformity in each school, and, so far as concert of action can effect it, in each town or tract of country supplied from a common center. For reasons previously given a specific list of books is not recommended.

WEBSTER'S DICTIONARY.

There were eight copies of Webster's Dictionary on hand at the date of the last report, and two hundred additional copies were purchased in accordance with the provisions of chapter one of the general laws of 1868.

These have all been distributed, and there are applications for about thirty copies on hand. A detailed account of the distribution of the books will be found in the appendix. Two hundred and fifty copies will be needed to supply the demand for the ensuing year.

TEACHERS' INSTITUTES.

During the year ending August 31st, 1868, institutes were held in thirty-two counties, which were attended by about 1,600 teachers. A part of the institutes held since the 31st day of August were reported by the county superintendents, but they have been omitted and will be carried over to another year. The Board of Regents of normal schools, in pursuance of the plan adopted last year, gave in charge to a committee the disposal of the sum of \$2,000, in aid of the institutes, under rules and regulations prescribed by the board. An account of the expenditures made will be found in the report of the President of the Board, which, in accordance with the provisions of law is published as a part of the annual report of the State Superintendent.

Though not coming within the year covered by this report, it is thought proper to state that during the last fall Robert Graham, Esq., of Kenosha, was employed by the committee of the Board of Regents, and rendered effective service in conducting institutes in ten different counties. Commendations of his work have been re-

ceived from various sources, and it is believed that great good has been accomplished through his instrumentality.

There is no agency in operation in our state which is in advance of the institute as a means of making teachers acquainted with improved methods of instruction and management, and of giving them enlarged views of their work and responsibility.

The Normal Schools will soon begin to give us thoroughly prepared teachers, but they cannot meet the pressing demands of the present, and for years to come we must look mainly to teachers' institutes and associations for the influences which shall invigorate and unify our methods of teaching, and give point and efficiency to the labors of our teachers. To secure the best results the institutes must be organized and conducted on a definite plan, and be continued for a longer time than it is usual to hold them. There are many teachers who cannot take even the one term course in the Normal Schools, and for their benefit institutes of from four to six weeks in length, should be held in the spring and fall, at several accessible points in the central and northern parts of the State.

CONVENTION OF COUNTY AND CITY SUPERINTENDENTS.

A convention of county and city Superintendents of schools was held at Milwaukee, July 21st to 23d. About thirty Superintendents were in attendance, and the proceedings were spirited, harmonious and profitable. The following subjects were reported upon by committees having them in charge.

1. Modification of the county superintendency.
2. Township district system.
3. Teachers' institutes and associations.
4. Methods of examination of teachers.
5. School supervision.
6. Terms of school.
7. School reports and teachers' certificates.

The proceedings are given in full in the documents accompanying this report, and they are commended to the reader as embodying in a brief space much valuable information in reference to the defects and needs of our school system.

STATE TEACHERS' ASSOCIATION.

The Sixteenth Annual Meeting of the Association was held at Milwaukee, July 21st to 23d. The attendance was very large, more than six hundred teachers and school officers being present, and the exercises were varied and interesting. Addresses were given by the President, Prof. O. R. Smith, of Janesville; Rev. G. F. Magoun, D. D., President of Iowa College; Hon. Anthony Van Wyck, of Kenosha; Hon. J. L. Pickard, Superintendent of Schools, Chicago, and Hon. Newton Bateman, Superintendent of Public Instruction, for Illinois.

Papers were read by T. C. Chamberlain, of Delavan; Hon. T. H. Little, Superintendent of the Institute for the Blind, at Janesville; Hon. W. C. Whitford, President of Milton College; W. D. Parker of Geneva; Rev. I. N. Cundall, Superintendent of Soldiers' Orphans' Home at Madison, and Mrs. Mary Howe Smith, of Oswego, N. Y.

In so large a body it was impossible to have a full and complete discussion of the subjects presented for consideration, but the reports and resolutions adopted represent, in the main, the views and opinions of our best, and most enlightened educators, and are entitled to a careful examination by all those who have at heart the cause of popular education. A full report of the proceedings of the Association is given in its appropriate place.

COUNTY SUPERINTENDENCY.

This system has been in operation seven years, and its worth as an educational agency can be approximately ascertained by an examination of what it has accomplished. I can best state the results it has secured by quoting the language used by my predecessor, Hon. Jno. G. McMynn, in the annual report for 1867: "Although there exists some dissatisfaction in connection with this office, in some parts of the State, we feel confident that the objects sought by its creation have been, in some good degree secured. These objects were:

"1. A better supervision of the schools by an officer having the authority and ability to improve their condition.

“ That this object has been secured, is generally acknowledged by those acquainted with the condition of the public schools six years ago, and familiar with their present condition. Improved methods of instruction have been introduced, and better order very generally prevails. Many of them have been well classified, and they have been graded, where circumstances permitted, so as to secure economy and efficiency in their management. Courses of study have been adopted and extended, and in many of the country towns there are facilities for acquiring an education, that could never have been secured without intelligent supervision. That there are towns where the schools are inferior to what they were before this system was adopted, is not only possible, but certain. Under the old system of town superintendency, there were some towns that secured a proper supervision of their schools, but these were the exceptions. And, that there are counties under the present system that have very inefficient superintendents may be asserted, and perhaps proved; but no person, who knows the work that has been done during the past year in our state by these officers, can doubt, that on the whole, all has been accomplished that could reasonably have been expected, and that we owe a debt of gratitude to our County Superintendents, for their patience, self-denial, energy, and industry, that we cannot pay.

“ The schools in our country towns cannot enjoy all the advantages that favor the schools in our cities and villages, but they may be improved by the same means, and among them none is more important than a searching, constant, and intelligent supervision.

“ 2. A careful and thorough examination of teachers.

This has been secured so far as possible. The fact that so many of the teachers in our public schools are not qualified in respect to character, experience and attainments, is not the fault of the examining officer. It has been absolutely necessary to license hundreds who are illy fitted for their important work, or to close many of our schools. The inducements to engage in other and more lucrative employments are so strong as to lead many of our best teachers to abandon a calling that barely affords the means of living, and removes all hope of saving anything for the future. No other class of

persons is so poorly paid, and to no other are there offered so few incentives to aim at excellence and achieve success.

“County Superintendents can not raise the standard of attainments much above what the people demand. Those who do this are almost sure to excite an opposition that is too strong to be withstood. A few disappointed teachers with their sympathizing friends can easily effect a change in officers, and thus a premium is offered to time-serving, incompetent men, who are always ready to avail themselves of every opportunity to secure by chicanery what they cannot obtain by merit.

“But in spite of all adverse circumstances, the standard of attainments has been raised. Our teachers are better qualified than they were six years ago. In some of the counties where county superintendents have been sustained by the people, the change for the better is too marked to be questioned. Salaries have been increased, schools have been taught a longer time during the year, and teachers have found permanent employment. Incompetent men and women have been refused certificates. Character has been made a prerequisite to employment, and ability and acquirements have become the only means of retaining it.”

The experience of another year proves the truth of the foregoing statements, especially as applied to those counties in which the superintendent has faithfully discharged his duty. Still, it must be acknowledged that in the matter of direct supervision of the schools, the system has partially failed. This is not a fault of the system, but a consequence of expecting it to do more than it was capable of doing. It is utterly impossible for the most zealous and faithful superintendent to visit all the schools of a large county as often as they ought to be visited, and the districts must be made smaller, or some other means must be devised to secure the performance of the important work of visitation and supervision. In New York there is a superintendent for each assembly district, but the sparseness of our population, and our limited resources, make such a system impracticable in this state, and on the whole there seems to be no other division of territory so convenient and manageable, for all purposes, as that bounded by county lines. It is true, that in four

counties, Dane, Dodge, Rock and Milwaukee, there is a superintendent for each senate district, but if the whole state were thus districted we should have but thirty-three instead of sixty-one superintendents, and the evil treated of would be magnified, not remedied. These four counties are large, or populous and wealthy, and they can well afford to support two superintendents apiece; and the same may be said of three or four more of the larger counties, but the greater number are too weak to support two officers who shall devote all their time to the educational work. When the county superintendency was established its friends did not expect that it would furnish complete and effectual supervision of the schools by districts, and they are not surprised or disappointed at the results attained, or its failure to succeed in this direction.

Five years ago there was presented in the annual report from this department a detailed and definite statement of the deficiencies of our system of public instruction, and a remedy for its defects was suggested. This remedy was found in what is known as the "township system of school government," and it was believed that the local supervision of the schools which the county superintendency failed to secure would be provided for by this new system, while at the same time it would be productive of great good in many other directions. Owing to various circumstances but little effort was made from 1863 to 1867 to call the attention of the people to the subject; but in the annual report of the state superintendent for the latter year the system was fully presented, and its merits were ably argued. In nearly every lecture and address given by the superintendent before teachers institutes and associations during the past season the system has been explained, and its adaptation to our wants and circumstances pointed out.

When fully understood it secures the approbation of a large majority of all classes of our citizens, and it is believed that its early adoption will materially and rapidly advance the cause of education in our state.

For the benefit of those who are still unacquainted with the system, a brief exposition of its more prominent features is here given.

TOWNSHIP SYSTEM.

In order that the advantages of the township system may be clearly perceived, some of the disadvantages of the present system will be portrayed. Each town is divided into school districts, varying in number from one to sixteen, and averaging about six or seven to the town for the whole state. Each of these districts is a separate, independent republic, accountable to no higher authority, and dependent upon none, except in the matter of the examination of teachers, and the annual receipt and expenditure of a small amount of money. The first result of this isolated condition, and consequent separate action is

UNEQUAL TAXATION.

Adjoining pieces of real estate, valued at the same rate by the assessor, are often taxed for school purposes in the ratio of three to one, simply because the size or character of the districts in which they lie is such that to support a school in one it is necessary to levy a tax, with a percentage three times as great as in the other. state, county and town taxes are assessed upon all property in the town on the same ratio, or percentage, and thus the burden of supporting the government falls equally upon all who have taxes to pay; but in the matter of education inequality is the law, no two school districts in any town having, as a rule, the same percentage.

It is a foundation principle of our system that the public schools shall be free; that the property of the state shall educate the children, but in carrying out this principle it is not necessary to violate another, which prescribes that taxation shall be uniform; and it is hard to understand how our people have submitted for so many years to the evil of unequal taxation consequent upon district organization. Education is a matter of general interest, and it is not to benefit the parent as an individual, or even for the child's own sake that the state establishes free schools. It is because education is necessary to the preservation of our government and institutions—necessary to society and the life of the state, that it claims and has the right to tax the people to support schools; and the burden imposed should be distributed as equally as possible.

Each town is divided into road-districts, but we do not require the people residing in a particular district, through which a river runs, to build a bridge for the use of the town, county or state at large, as well as for themselves; nor is there any justice in compelling the inhabitants of a petty, circumscribed school-district to build the house in which their children are to be educated, so long as education is a matter of public interest, and those children will, in after years, be scattered all over the state.

The second evil inherent in the present system is :

INEQUALITY OF PRIVILEGES.

In one district school will be maintained nine or ten months each year; in an adjoining one only five or six months, and yet the percentage of taxation may be greater in the latter than in the former. In one school competent teachers may be employed, and the range of studies pursued be such as to afford the pupils an education almost academic in its character; while in another only a few primary branches are taught by an inexperienced and incapable instructor. Districts are often organized in such form that a person resides in one while the greater part of his property is situated in another; and many live in close proximity to school-houses to which they would be glad to send their children, but cannot because they are not in the same district, while the houses to which they are compelled to send them are remote and difficult of access.

It often happens that a populous district possesses a small, badly arranged house, while an adjoining district, with few scholars, has a large and convenient one; yet the children of the populous district cannot attend the school in the other without consent of the board and the payment of a tuition fee, and the populous district may have but a limited amount of assessable property, and not be able to erect a suitable school-house for a term of years.

In the third place the present system is a fruitful source or cause of discord and contention. It is natural that a small and weak district should seek to obtain additions to its territory from neighboring districts larger and stronger than itself. Application is made to the town supervisors for a change in the boundaries of certain districts. When the changes asked for are granted, those

individuals removed from old associations appeal to the state superintendent to set aside the action of the supervisors. When the supervisors refuse to make the changes desired, the parties petitioning for such changes take an appeal, and ask that the supervisors be ordered to grant the prayer of the petitioners. Each party uses all the means at command to secure the ends desired, and personalities and vituperation often take the place of fact and argument. Thus neighborhoods and communities are violently agitated, and enmities are engendered which last for years, seriously crippling the schools, and impeding the progress of education,

It is often very difficult to decide cases brought before the state superintendent on appeal, the facts and arguments on one side being about balanced by those on the other, and no matter what the decision may be, it fails to satisfy both sides. Between thirty and forty appeals have been decided since the first of January last, and a large majority of them relate to the organization of districts, or a change in their boundaries.

Again, the district system is unnecessarily expensive. There are nearly five thousand districts in the state, each of which must have a treasurer who is required to give a bond for the faithful discharge of the duties of his office. Besides the expense of the instrument itself, the trouble of getting sureties, etc, the bond must have a revenue stamp affixed of the value of one dollar. The treasurer is elected every three years, but on account of resignations, removals, etc, the office is really filled about once in two years. This makes an average annual expense of between two thousand and two thousand five hundred dollars; an unnecessary expenditure, as every dollar of the money received and paid out by the district treasurers comes through the hands of the town treasurers, who have themselves given bonds for the safe keeping of the funds entrusted to their care, and who might as well pay them out in detail to teachers and others entitled to them. There are many other evils incident to the district system, as all who are familiar with its working are aware, but space will not be taken to enumerate them all. For most of them the township system furnishes a simple and ample remedy, as will be seen when its features are carefully examined.

The fundamental principle of this system is that each town shall

constitute a district for purposes of taxation and general supervision and management. This does away at once with unequal taxation. As all taxes for school purposes are levied upon the town as a whole, every man pays the same per centage on the assessed valuation of his property.

The present districts would constitute sub-districts, in each of which an officer should be elected annually, called a director, and all the directors in a town would constitute a board of directors, which should have the entire control and management of the schools and school interests. The secretary of this board takes the place of the old town superintendent, visits and supervises the schools, grades them, and assists the teachers in classifying the pupils, etc., in a word is the efficient agent of the board and the connecting link between the county superintendent and the schools.

The advantages of this system are many, and evident.

1. Each parent would be permitted to send his children to the school which best accommodated them, and all the expense, trouble and ill-feeling consequent upon the frequent changes in the boundaries of districts would be avoided.

2. School houses would be built when and where they are needed. Many districts are now compelled to suffer, year after year, all the inconvenience and loss occasioned by the use of a small, badly constructed, ill-arranged house, because of difficulties concerning the site, or the indisposition of the voters to furnish the means to erect a new building. Under the township system these difficulties would be avoided, as the board, composed of delegates from all parts of the town, would not be likely to be influenced by local disputes in reference to the site for a house, but would locate it at such point as would best accommodate those for whom it was selected; and as the funds for building the house would be drawn from the whole town, the tax upon each individual would be so small as not to be in the least burdensome, and there would be no necessity for delay.

3. Schools can be graded more easily under the township than under the separate district system. The districts, as now organized, as a general rule, are too feeble in numbers and wealth to

maintain more than one department, and the law of 1858, permitting districts to unite for high school purposes, has been entirely inoperative, no action having been taken by any district in accordance with its provisions. The summer schools, in the country especially, are primary schools in most respects, while the winter schools embrace all grades of pupils from the primary to the grammar or high school. This condition of things necessitates the employment of better educated, more experienced teachers during the winter term, at a cost for their services of about double the amount paid for the same length of time in the summer, while there is not on an average, more than a dozen children in each district whose capacity, advancement, or range of studies, demands a better or more costly teacher than the one employed during the summer; and thus the education of these few costs the districts the difference between the wages paid in summer and winter, amounting, for a four months school, to from thirty to sixty dollars. Now if there were, within the reach of a larger class of pupils in three or four districts, a school of a higher grade, to which they could all have access, the winter school in their respective districts could be continued as a primary or intermediate school, under the charge of the same teacher employed in the summer, and one higher grade teacher would suffice for several districts. By this arrangement all the pupils in a town would be divided into two grades, at a cost for tuition not greater than that now incurred; and the total additional expense would be measured by the cost of erecting a sufficient number of buildings to accommodate the higher grade of pupils. In many instances, by a proper arrangement of the terms of school, the houses already erected would serve for both grades of pupils. In some district, in which the house is so situated as to be easy of access to the larger scholars in several surrounding districts, let there be a term of school commencing so soon as the ground is settled and the weather is pleasant in spring, and continuing to the first of July; and a fall term commencing about the middle of August and continuing till the middle of November; thus affording the primary pupils six months or more of uninterrupted school during the most pleasant season of the year, which would be far more beneficial to them, intellectually and physically, than the usual summer and win-

ter terms, with the extremes of warm and cold weather, producing sickness, tardiness, and irregularity of attendance, and thus wasting a good share of the money expended. The winter term could then be devoted entirely to the grammar or higher grade scholars, who, under a competent instructor, whose whole time was given to them and their studies, would make as much progress in one term as they now do, in the mixed schools, in two or more. Again, whenever a new school house is to be built, its location, size, and internal arrangements can all be adapted to the new order of things, so that, in process of time, without any violent changes, or any appreciable increase of expense, the facilities for maintaining graded schools can be established throughout the state.

4. Better supervision of the schools. The county superintendent, though exercising a general supervision over all the schools in his county, is entirely unable to give, to each school, that personal attention necessary to obtain a complete knowledge of its condition and wants; and some of the most active and efficient superintendents have felt the need of a local officer, to co-operate with and aid them in effecting improvements in the management of the schools. As before stated, the secretary of the town board will be the proper person to have the immediate supervision of the schools, and will have power, under the direction of the board, to grade and arrange them, suggest and enforce rules for their management and government, and advise with and assist the teachers in all cases in which advice and assistance are needed. He should be appointed by the board, and he may be one of their number, or not, so that the best person to fill the place is selected.

We should thus secure all the advantages of the town superintendent system, without losing any of the benefits resulting from the establishment of the county superintendency.

5. Economy of administration. All the expenses now incurred in organizing new districts, and in changing the boundaries of old ones, would be saved. Each child being permitted to attend that school which best accommodated him, and the amount of tax which each person would pay being the same, no matter in what sub-district he resided, there would be no reason for altering districts; consequently very few changes would be made, and those few would

be easily effected, and attended with little or no expense. Again, the liability to a loss of moneys is in proportion to the number of hands through which they pass, and it is no wonder that, with nearly five thousand disbursing officers, there is a good deal of waste of district funds every year.

Under the township system the financial affairs of all the schools in a town being managed by the same board, one treasurer would be sufficient, and, in order not to multiply officers, the town treasurer, who now collects and receives all the school moneys belonging to his town, might be the treasurer of the board, and upon the order of its secretary, countersigned by the president, could pay out such moneys, when needed. Thus the number of disbursing officers would be reduced from nearly five thousand, to less than eight hundred, and besides the diminished liability to loss on account of the decrease in the number of disbursing officers, the expense incurred in executing nearly two thousand treasurers' bonds each year would be saved.

6. There would be an equality of privileges in the different districts, as, the schools being supported by a general tax, justice would require that they be maintained an equal length of time throughout the town, and we should not see, as we now do, so great a disparity in school privileges in adjoining districts.

Free schools are founded upon the principle that it is the duty of the state to see that the children within its limits are educated. To this end a generous public fund is provided, and the people are yearly taxed to support the system; yet the kind and amount of instruction given to the children of different districts depend entirely upon influences which the law does not seek to guide or control. Now common sense and justice demand, that wherever children enough to organize a school are found, one should be established, with all the means and appliances necessary to secure the result desired; the proper education of the children attending it.

7. Employment of Teachers. It being the special duty of the secretary of the town board to visit the schools, become acquainted with their condition and wants, the capacity, tact, and success of the different teachers, he would be better qualified to select the person suited to each school than nine tenths of the district clerks

under the present system possibly can be; thus better teachers would be employed—that is, teachers better adapted to their positions—and they would not be changed each term, as they now are, but would remain in one school so long as they were successful in their work. Incompetent and unsuccessful teachers would be sifted out, the standard of attainments of all those employed would be gradually and surely raised, and the consequent progress of the schools would be certain and uninterrupted.

The new system of examination by the county superintendent has done much to elevate the standard of attainments, and weed out unsuccessful teachers; but, inasmuch as an examination in regard to scholarship is not always a true test of the qualifications of an applicant, and it is not possible for the county superintendent to give that personal attention to each school necessary to enable him to judge correctly in regard to the skill and faithfulness of the teacher, many persons are still employed who have no real fitness for their position, and who are retained through favoritism or indifference on the part of those by whom they are engaged. Such persons would be quietly dropped from the list of teachers, and would engage in other pursuits, or, by the use of proper means, become fitted for their responsible positions as instructors of youth.

I have thus presented some of the main points in which it is believed that the township system is superior to the district system, and it only remains to notice some of the objections urged to it by those who object to change, or who are satisfied with the system as it is.

The first objection is to the raising of taxes for the support of schools by the town at large. Looking at the matter from a personal stand point, many think a general tax would be unjust to different localities, for the reason that children of school age are not proportioned to the valuation of property, and thus a wealthy district, with few children would pay for the education of children residing in other districts. This objection is the same one so often urged against free schools by the childless capitalist, or the wealthy tax-payer whose children are already educated, "I ought not to pay for educating my neighbor's children." As before stated, free schools are established on the assumption that "the property of the

state shall educate the children of the state," and consistency requires that the details of the system shall be so arranged as to carry out this fundamental principle. What justice is there in requiring that a specified portion of territory shall furnish the means to educate the children residing therein, "so long as you withhold from the tax-payers the power to decide who shall inhabit that territory?"

The fact is, that the fairest method of maintaining the schools would be by a tax upon the whole state, and the larger the district embraced in one organization, the more just and equal will be the taxation.

The moneys apportioned yearly by the state superintendent, and those levied upon the towns by the county board of supervisors, are distributed to each district in proportion to the number of children between the ages of four and twenty residing therein; and as the latter moneys are raised by a tax upon each town as a whole, and not by separate districts, the plan advocated is, in fact, in operation already, and only needs to be extended to the levy and collection of all the funds needed to support the schools.

In the second place, many will object to the raising of funds by the whole town, to build a school house in a particular district, who would be willing that the schools should be supported by a general tax, after the houses are built. This objection is removed by considering the town as a single district, which needs several houses to accommodate its pupils. It is true, that, for convenience sake, the town is divided into sub-districts, yet, for general purposes it is a unit, and should be managed accordingly. Each town is divided into road districts, and when a new highway is to be laid out, the whole town is called upon to pay the expense incurred for right of way, etc, though but few of its tax-payers are personally benefited; and when a bridge is to be built no one thinks of asking the citizens residing in the road district in which the bridge is needed, to furnish the funds to pay for erecting it; and it cannot be that the education of the children of Wisconsin, is a matter of less interest to the people than the laying out of highways, and the erection of bridges. Returns made to the state superintendent show that, on an average, in the larger counties, not more than four school houses are built in each year; and this would give to each town but one to

build every three years, and this burden, being borne by all the tax-payers would be so light, as scarcely to be felt. All the children would thus be provided with school privileges, and the protracted effort and struggle now necessary in most districts, in order to secure the erection of a school house, would be avoided.

In order to avoid all seeming injustice, it might be provided, that those districts which had, within a certain limited time, erected good and substantial houses, should be exempted from the payment of the taxes raised for building school houses, for a number of years after the adoption of the township system.

All other inequalities and seeming irregularities can be as well provided for, and it is confidently believed, that a law can be framed, preserving for our school system all its prominent vital and valuable features, and engrafting thereon such additional ones as will give it harmony and completeness, make it a better exponent of our educational standing, more worthy of affection and generous support, and insure the successful accomplishment of its great design, the education and elevation of the whole people.

STATE TEACHERS' CERTIFICATES.

A law was passed last winter authorizing the issuing of State Certificates to teachers of eminent qualifications. The following circular sets forth the preliminary proceedings had under this act :

DEPARTMENT OF PUBLIC INSTRUCTION,
SUPERINTENDENT'S OFFICE,
MADISON, July 15, 1868.

Chapter 169 of the general laws of 1868 reads as follows :

CHAPTER 169.

AN ACT creating a State Board of Examiners to issue State Certificates of High Grade to teachers of eminent qualifications.

The People of the State of Wisconsin, represented in Senate and Assembly, do enact as follows :

Section 1. The State Superintendent of Public Instruction is hereby authorized to grant State Certificates to teachers in the manner hereinafter provided.

Section 2. The State Superintendent shall, before each examination held under the provisions of this act, appoint three competent persons, residents of this State, who shall constitute a Board of Examiners, and who shall, under the rules and regulations to be prescribed by the said Superintendent, thoroughly examine all persons desiring State Certificates in the branches of

study in which applicants are now required to be examined by County Superintendents for a first grade certificate, and in such other branches as the State Superintendent and said Examiners may prescribe.

Section 3. If the Examiners shall be satisfied that an applicant possesses the requisite scholarship in all the branches of study before mentioned, they shall certify the fact to the state superintendent, and if such applicant shall furnish evidence of good moral character, experience and success in teaching, satisfactory to said superintendent, he shall thereupon issue to such applicant a certificate, which shall be valid until revoked, and which shall qualify the holder to teach in any public school in any city, town or school district of this state, without any further examination by the city or county superintendent, or any other person or board whatsoever.

Section 4. Said certificate may be revoked by the state superintendent for incompetency or immoral conduct: *provided*, that before any such revocation, the holder shall be served with a written statement of the charges against him, and shall have an opportunity for defense.

Section 5. A meeting for the examination of applicants for State Certificates shall be held at the Capitol, in the city of Madison, on the second Wednesday of August in each year; and additional meetings may be held at such times and places as the State Superintendent shall prescribe.

Section 6. All moneys actually and necessarily expended by each member of the Board of Examiners in attending meetings for the examination of teachers shall be refunded to him, and he shall also receive three dollars per day for all time actually and necessarily spent in holding said meetings, or going to or returning from the same. Accounts for such services and expenses shall be audited by the Secretary of State, and there is hereby appropriated out of any money in the state treasury not otherwise appropriated, a sufficient sum to pay the amount thus audited.

Section 7. The State Superintendent shall record, in a book kept for that purpose, the date of each certificate issued, and the name, age and residence of the person to whom it was granted, and he shall file in his office, for permanent preservation, all papers relating to the examination of applicants for state Certificates.

In accordance with the provisions of section 2 of this act, the undersigned has appointed the following named gentlemen a board to conduct the first examination held under the law, namely: J. C. Pickard, late Principal of the East-Side High School, Beloit; O. R. Smith, Principal of Janesville High School; and S. D. Gaylord, Principal of Milwaukee High School.

The examination will be held at the office of the superintendent of public instruction, at Madison, on Wednesday, the 12th day of August next, commencing at 9 o'clock A. M.

Applicants for state certificates will be required to comply with the following

TERMS AND CONDITIONS:

1. To furnish satisfactory evidence of good moral character.
2. To furnish satisfactory evidence of having taught, with decided success, not less than three years, at least one of which shall have been in this state. To pass a *thorough* examination in Orthography, Orthoepy, Reading, Penmanship, Mental and Written Arithmetic, English Grammar, Modern Geography in all its departments, History of the United States, Algebra, Natural Philosophy, Geometry, and Theory and Practice of Teaching.
3. To pass a *satisfactory* examination in the elementary principles of Physiology, Botany, Zoology, Chemistry, Geology, Political Economy and Mental Philosophy.
4. To pass a satisfactory examination in the constitution and organization of the government of the United States and of the State of Wisconsin, and in the school laws of this State, so far as they relate to the rights and duties of teachers.

CREDENTIALS.

When an applicant is personally known to the state superintendent, or to either member of the board of examiners, as having a good moral character no specific testimony will be required; but when not thus known, written testimonials from one or more responsible persons acquainted with the applicant must be presented.

In respect to the length of time that an applicant has taught, his own declaration giving the time, place and kind of school, will be sufficient.

The proof of success in teaching must be clear and explicit. Written testimonials from employers, or other responsible and competent persons, will be required.

MODE OF EXAMINATION.

The examination will be conducted by both oral and printed questions, in such a manner that exact justice will be done to each applicant.

The necessary stationery, &c., will be furnished by the State Superintendent, and no fee will be charged for certificates.

A state certificate entitles the holder to teach in any public school in the State, and it will be valid during life, unless revoked for incompetency or immorality.

It is the object of the law to recognize and honor those experienced and successful teachers who have given character to their profession, and to furnish to young teachers a proper incentive to honorable exertion.

It is hoped that through the hearty co-operation of all persons interested in the subject, the objects of law may be fully realized, and that the standard of teachers' qualifications may be essentially raised, and more clearly defined.

A. J. CRAIG,
Superintendent Public Instruction.

Examination questions were prepared by the examiners, and the examination was held at the time appointed, and in the manner notified. It occupied three days, and was thorough and searching. But three applicants presented themselves, and upon the recommendation of the board of examiners certificates were issued to Charles F. Viebahn of Sauk City, and Herman Studer of Milwaukee.

Another examination will be held in this city on the 11th day of August next, under the conditions stated in the foregoing circular. In the mean time if not less than six teachers shall certify their desire to be examined at some other time and place, a meeting of the board of examiners will be appointed in accordance with their suggestions.

NORMAL SCHOOLS.

The school at Platteville continues in successful operation and meets the expectations of its friends as to the number attending, and the quality of the instruction given therein.

The total number enrolled in all the departments during the last year is 316. Of these 143 were in the normal department proper,

and 173 in the academic and model departments. So great has been the demand for teachers however, that the average attendance in the normal department has been but 91; a large number remaining but one term, or during the recess of the public schools. The academic and model departments are mainly self-sustaining, and they add greatly to the power and efficiency of the school, as in addition to meeting a local demand for a higher education than the public schools afford, in the former the pupils are prepared for the normal department, and in the latter normal pupils are taught how to teach others. A fine new building was completed in August last, and extensive changes have been made in the old one, so that accommodations can now be furnished for an increased number of pupils. The building was dedicated with appropriate ceremonies, at the commencement of the fall term of school on the 9th of September last. A large number of people from Platteville and vicinity attended the exercises, and additional interest was given to the occasion by the presence of our great military leader and future president, General Grant.

In accordance with the provisions of section 10, of chapter 116, of the general laws of 1866, in May last a committee was appointed to examine into the condition, organization and management of the school at Platteville. The committee consisted of the Superintendents of Schools for the counties of Crawford, Green and Sauk, Messrs. C. W. Clinton, D. H. Morgan and R. B. Crandall. Mr. Morgan was unable to be present, but a very thorough examination was made by the other gentlemen named, and their report is given herewith, to which those interested are referred for information in regard to what the school is accomplishing.

The new Normal School building at Whitewater was dedicated on the 21st of April last, at which time the school was opened under the charge of Prof. Oliver Arey, a successful and experienced educator, late of the Brockport Normal School and the State Normal School at Albany, N. Y.

The dedicatory exercises were under the direction of Hon. Wm. Starr of Ripon, President of the Board of Regents of Normal Schools, and comprised a history of the Normal School enterprise in this State by Mr. Starr, an address by the Principal showing what

a Normal School ought to be and do, and short addresses by Hon. J. L. Pickard, Superintendent of Schools, Chicago; Hon. Hamner Robbins, of Platteville, Vice President of the Board of Regents; F. C. Pomeroy, Esq., Superintendent of Schools, Milwaukee; S. D. Gaylord, Esq., Principal of Milwaukee High School; Rev. J. McNamara, of Whitewater, the State Superintendent and others; interspersed with vocal and instrumental music under the lead of Prof. Greenman, of Whitewater. President Starr's history of the Normal School work is given with the documents accompanying this report, as is also the report of Prof. Arey, the Principal, to which reference may be made for special information as to the condition and prospects of the school. The first term seems to have been a success, and the second term commenced under favorable auspices.

STATE UNIVERSITY.

This Institution is in a flourishing condition, and there is a fair prospect that the anticipations of its friends in regard to its future growth and development, will be realized. The whole number of students in all the departments during the first term of the current scholastic year is 318; a large increase upon the attendance for the same term in any previous year: and there is abundant evidence, in the life and activity prevailing in every department that the professors and teachers are devoted to their work, and that the university has a competent and efficient head. There is a better state of feeling in the state toward the university than formerly existed, and a disposition is manifested to encourage and sustain it in all proper and legitimate ways. Attention is called to the suggestions of President Chadbourne which accompany his statistical report, especially those which relate to the part our graded and high schools ought to take in preparing young men for the university course. It is a question worthy of the serious consideration of the legislature whether something cannot be done to connect our high schools and academies with the university in such a way as to make them feeders to it, while at the same time they will be improved and strengthened. The statistics of the university are fully given in the report of President Chadbourne, and the report of the president of the board of Regents, which will be found with "accompanying documents."

ACADEMIES.

Only seven academies have forwarded reports for the past year. The returns indicate that they are reasonably prosperous, as is shown by the following comparative statements for the years 1867 and 1868 :

	1867.	1868.
Number of institutions reporting.....	9	7
Number of teachers employed.....	38
Number graduated at last commencement.....	5	7
Whole number of graduates.....	56	68
Number of students in senior classes.....	9	16
Number of students in junior classes.....	6	47
Number of students in freshman classes.....	8	66
Total number in academic studies.....	329	295
Number in preparatory departments.....	1,166	358
Total number in attendance.....	1,495	981
Number of acres of land owned by the institutions.....	90	187
Estimated cash value of lands.....	\$ 18,000	\$ 18,880
Estimated cash value of buildings.....	114,800	100,000
Amount of endowments.....	53,500	8,750
Income from tuition.....	15,232	18,617
Income from other sources.....	1,687	5,980

COLLEGES.

Reports have been received from the following institutions : Beloit College, Carroll College, Galesville University, Lawrence University, Milton College, Milwaukee Female College, Prairie du Chien College, Racine College, Ripon College and the Wisconsin Female University. Two of these, Beloit and Racine Colleges, are for gentlemen only ; two others, as their title indicate, are for ladies alone ; while the remaining six are open to both sexes.

The following comparative summary presents the most important statistics given in the reports :

	1867.	1868.
No. of colleges reported (not including state university)	6	10
Number of members of faculties.....	45	73
Number graduated at last commencement.....	41	35
Total number who have graduated.....	301	393
Number of students in senior classes.....	29	42
Number of students in junior classes.....	37	57
Number of students in sophomore classes.....	74	115
Number of students in freshman classes.....	137	167
Number of students not in the regular classes.....	184	25
Number of students in preparatory departments.....	682	1,545
Total number in the institutions reported.....	1,143	1,951
Number of acres of land owned by the institution.....	5,385	6,745
Estimated cash value of lands.....	\$63,300	\$84,500
Estimated cash value of buildings.....	\$278,000	\$386,000
Amount of endowment funds except real estate.....	\$184,550	\$195,000
Amount of income from tuition.....	\$16,905	\$35,495
Amount of income from other sources.....	\$24,782	\$23,451

The reports are published in full elsewhere, and give evidence of prosperity and steady advancement on the part of these higher institutions which is gratifying to every true friend of education. Notwithstanding the multiplication of high schools and academies, and the establishment of normal schools, we must depend, in a good degree, upon colleges for that wide scholarship and thorough culture which, combined with other qualifications, make the first class teacher.

OFFICE WORK, TRAVEL, ETC.

The work of the office increases from year to year in consequence of the growth and development of our school system, and there is no limit to the outside labor that ought to be done if time could be spared for its performance. Fortunate in securing a competent and faithful assistant, Rev. J. B. Pratt, who has conducted the greater part of the correspondence, distributed dictionaries, attended to proof reading, and other detail work, I have still been obliged to spend eight months of the year in the office, in continuous, persistent labor. Between the 6th of January last and the date of this report thirty-seven appeals have been decided, some of them being lengthy and complicated, and requiring a large amount of time for their consideration.

A member of the board of regents of normal schools, and secretary of the board, a great deal of time has been spent in attending meetings of the board, and of committees, arranging for teachers institutes, keeping records, drawing warrants, etc.

Still the outside work has not been neglected. Section 62 of chapter 10 of the Revised statutes provides that the state superintendent "shall have a general supervision over the common schools in this state, and it shall be his duty, as far as practicable, to visit every county in the state, for the purpose of inspecting the schools, awakening an interest favorable to the cause of education, and diffusing as widely as possible, by public addresses and personal communication with school officers, teachers and parents, a knowledge of existing defects, and of desirable improvements in the government and the instruction of the schools." In compliance with the requirements of the statute, and the general expectation and desire

of the people, I have spent about four months in outside work, have traveled nearly five thousand miles, have visited twenty-four counties, and delivered twenty-seven public addresses and lectures. I have attended teachers' institutes or associations in the counties of Adams, Crawford, Door, Green, Jackson, Jefferson, Juneau, Kenosha, Milwaukee, Monroe, Pepin, Polk, Racine, Rock, St. Croix, Sauk, Sheboygan, Waukesha, Waupaca, Winnebago and Wood. In addition to this my assistant has attended institutes in the counties of Dane, Iowa and Jefferson, and has delivered five public addresses.

No request for assistance, by whomsoever made, has been denied, unless previous engagements, or the pressure of office work made it absolutely impossible to grant it; and *every* appointment made has been faithfully kept. Taking no time for recreation other than the usual holidays, losing only one half day by sickness, and giving but one day to private business, my whole time and strength have been devoted to my proper work. Commencing the year with poor health and an enfeebled constitution, I have great cause for gratitude to God that I have been enabled, however imperfectly, to discharge the duties devolving upon me, and that I have gained in strength notwithstanding necessary overwork and exposure.

The cordial reception everywhere extended to me, and the earnest support and encouragement given me in every county that I have visited, assure me that labor in this direction is wisely expended, and I propose during the ensuing year to spend still more time in traveling than has been devoted to it in the past, and to visit several counties hitherto unvisited by the state superintendent.

NEEDED LEGISLATION.

Township System.—Our first great want is the township system of school government. This subject has been quite fully discussed in the preceding pages of this report, and nothing further will be added here. In the proceedings of the State Teachers' Association, and of the convention of city and county superintendents, and in the special reports of the latter officers will be found the expression of the matured opinions of our ablest educators upon this topic. The attention of the legislature is called to these documents.

County Superintendency.—Some modifications of the system of county superintendency seem to be needed. Many thoughtful men, who have closely watched the working of the system, recommend that the plan of electing the superintendents be abandoned, and that they be appointed by the state superintendent, or by a board constituted for that purpose. There is no doubt that in some cases better officers might be selected, but the objections to the appointment system are, first, that the people have no opportunity to express their wishes; and, second, that the appointing power has no means of determining the qualifications of applicants. In Pennsylvania, where the township system of school government is in operation, the town boards of school directors nominate the county superintendent and he is commissioned by the state superintendent. If a person known to be incapable or unworthy is nominated, the superintendent may refuse to commission him, and thus, while the people are represented, there is a check upon hasty and unwise action. If the township system were in operation in this state, a similar plan might be pursued, but under present arrangements it is questionable whether, on the whole, better officers would be secured by appointment than are now elected by the people.

Complaints are made, in some counties, that persons accept the office of county superintendent, and then, while receiving the full salary allowed by law, fail to discharge its duties. It is believed that to change the compensation of the superintendent from a fixed salary to a per diem, to be paid only upon the presentation of an account, verified by affidavit, specifying the exact number of days actually and necessarily spent in the performance of his duties, would measurably cure the evil referred to. A minimum per diem being established by statute, it may be left to the county board of supervisors to determine the exact sum which should be paid in each county; and perhaps it may be wise to authorize the supervisors to determine for each county whether the compensation of the superintendent shall be a per diem or a salary.

School Month.—It has been a common practice in this state for many years to reckon teachers' wages by the month, and custom, derived from New York and New England, has decided that twenty-two days constitute a school month. This custom has been gradu-

ally changing for some years past; many districts paying their teachers a month's salary for twenty days work; and in some sections the latter practice is now the rule. There being no statute law bearing upon the subject, a district board may contract with a teacher to labor any given number of days for a month, and such contract can be enforced, but difficulty often arises when the specific number of days that shall constitute a month is not inserted in the contract, the board interpreting the agreement in accordance with one practice, and the teacher in accordance with the other. Under these circumstances it is recommended that a law be passed specifying the number of days that shall constitute a school month when the contract with a teacher is silent on the subject.

Apportionment of school moneys.—The law provides that the income of the school fund shall be distributed to all districts which have maintained a school for five months during the year preceding the apportionment, in proportion to the number of children between the ages of four and twenty years residing therein. The injustice of this method of distribution is readily perceived. Here are two districts lying side by side, and having the same number of children. In one of them a commodious school-house has been erected and a good school is maintained eight months each year, with an average attendance of seventy-five per cent. of all the children of school age. In the other, in a miserable apology for a school-house, a school is maintained just the number of months prescribed by the statute, and but thirty per cent. of the children are in attendance thereon. Yet each of these districts receives exactly the same sum annually from the school fund income that the other does. Instead of being an incentive to action, and a reward for faithful educational work, the school moneys are a premium upon ignorance and inefficiency, or, at least, have but a slight stimulating and elevating effect upon the districts.

The subject has often been discussed in teachers' associations and conventions, and there is a general agreement of opinion among intelligent men, who have carefully considered the matter, that the moneys should be distributed upon some other basis; but all action looking to a change in the method of distribution, and in some instances discussion itself has been precluded by the idea that the

Constitution of the state prescribed the method of apportionment embodied in the statutes. It is difficult to discover the origin of this opinion in reference to the constitutional requirement, but it has been generally entertained, and it has governed the action and recommendations of the state superintendent for some years past. A careful examination of the constitution, however, shows that this opinion has no foundation. The subject is treated of in section 5 of article 10, which reads as follows: "Provision shall be made by law for the distribution of the income of the school fund among the several towns and cities of the state, for the support of common schools therein, in some just proportion to the number of children and youth resident therein between the ages of four and twenty years." It will be seen that the constitution provides for the distribution of moneys to towns and cities only, and does not prescribe the method of distribution to districts at all. It would be, then, no infringement of the constitution for the legislature to provide for a distribution to districts upon a basis entirely different from that on which it is distributed to towns and cities.

Again, a careful examination of the language of the constitution shows that it was not intended to prescribe the method that has been adopted for distribution to towns and cities. The language is "in some just proportion to the number of children and youth resident therein between the ages of four and twenty years." If it had been the intention of the framers of the constitution to provide that the income of the school fund should be distributed to towns and cities in the exact ratio of the number of children between the ages of four and twenty years residing therein, such intention would have been expressed in unmistakable terms; but the phrase, "*some just proportion*," shows that it was intended to leave the specific ratio of distribution to the discretion of the legislature; and the requirement of the constitution will be complied with if the school moneys are apportioned to all towns and cities on the same basis with reference to children of the specified ages. But, however this may be with respect to towns and cities, it is evident that the legislature has full power to prescribe the basis of distribution to districts. The plan pursued by New York, Connecticut and some other states, and which seems to be most equitable, everything con-

sidered, is to give to each organized district that maintains a school the number of months required by law, an equal amount of the income, which should be either a specified sum, or a certain proportion of the moneys distributed to the town; the remainder to be apportioned to the same districts in accordance with the average attendance of pupils at school for the year preceding the apportionment. This plan recognizes the fact that up to a certain point the expenses incurred in different districts in supporting schools are about equal, and that weak districts should be aided and encouraged. It also rewards those districts which secure a large attendance, and thus accomplish the work for which they are organized. It is believed that the adoption of the above described plan of distribution of the school moneys, or of one similar to it, will largely augment the attendance of pupils, and thus materially increase the efficiency of our schools.

The management of the school fund.—The State Superintendent is required to suggest “plans for the improvement and management of the common school fund.” Under this head is presented the following statement of the condition of the educational trust funds and plans for their investment, taken from the report of the secretary of state for 1868.

INVESTMENT OF TRUST FUNDS.

“Until all the lands belonging to the School, Unniversity, Normal School and Agricultural College funds, shall have been sold, and the amounts due on said lands and on loans shall have been paid into the state treasury, a large sum of money will annually accrue to the credit of the several trust funds, subject to investment in the manner provided by law. Under the provisions of the revised Statutes, all such moneys were to be loaned to individuals upon real estate security. These provisions have never yet been repealed, although they have been temporarily suspended or modified by subsequent legislation. Chapter 89 of the laws of 1862, and chapter 100 of the laws of 1863, authorized and directed the Commissioners of School and University lands to “invest the principal of the school fund, in preference to all other loans and investments in the bonds of the state of Wisconsin,” at an annual interest of seven per cent. per annum. Chapter 25 of the laws of 1866, provided for the cancellation of the bonds which had been purchased by the trust funds, and for the issue of certificates of indebtedness in lieu of the same. Under these several laws the bonds of the state have all been taken up and canceled, with the exception of \$167,800. This amount of bonds will undoubtedly be pur-

chased and canceled within the next two years, if not during the next year. Two methods of investment will then be left open under the law, either of which may be adopted by the Commissioners of School and University Lands, at their discretion. In anticipation of the final purchase and cancellation of the outstanding bonds of this state, chapter 111 of the laws of 1868 was passed, "authorizing" said Commissioners to invest the principal of the several trust funds in "bonds of the United States, and in bonds of the New England States, New York and Ohio"

"It will be borne in mind that the latter means of investment is not mandatory on the Commissioners, but simply invests them with discretionary power. Now the provisions of the revised statutes, to wit: section 81 of chapter 28, not having been repealed, I see no reason why the Commissioners may not, if they choose, again fall back on the old system of loaning out the funds to individuals; since all the laws requiring their investment in the bonds of the state will have lost all their force by the purchase and cancellation of said bonds. The provisions of chapter 111 of the laws of 1868, were intended to meet this question; and the method of investment therein authorized, would be far preferable to the old system, which has heretofore entailed so much loss and expense upon the several funds.

"But, still, there seem to be some objections to the latter of these systems, which were not anticipated, or which, perhaps, were not taken into consideration. In the first place, the people of this state have no surplus money to loan to citizens of other states, or to eastern holders of state and government bonds. All the money and capital arising from the sale of lands in charge of the state, can find ample sources of use and investment at home. Were this system finally adopted, we should be sending *annually* out of the state, from one hundred to two hundred thousand dollars to purchase bonds—not at their face, but at their par value, which now varies from five to seven per cent. premium. Again, no bonds are in circulation which draw a higher rate of interest than six per cent; and it is highly probable that the rate on government bonds will soon be reduced to from four to four and a half per cent. It is well known that money is in demand in this state at from seven to ten per cent. So that under this system we should loose, not only from one to three per cent. in interest, but also the expense of exchange between here and New York. Now, it having been the settled policy of the state so far, to protect the funds confided to its care for educational purposes, and to secure as large an income as possible from their investment, the question arises as to whether it would be wise to reverse this policy. Is there not some plan by the adoption of which these several funds may be made secure and an annual interest of seven per cent. be perpetually guaranteed to them beyond the possibility of failure? If so, the magnitude of the trust accepted by the state and the important results depending upon its proper management, imperatively demand its adoption.

"The funds to be invested, as is well known, arise from the sale of lands, payments of balance due on previous sales, and amounts due on loans from these several funds. So fast as moneys come into the treasury from these sources, means of investment must be found. That these amounts will be large in the future, as they have been in the past, the following statements will show :

	Value of lands unsold.	Am't due on previous sales.	Am't due on loans.
School fund.....	\$576,826	\$520,558	\$550,229
University fund.....	31,885	68,341	22,892
Normal school fund.....	1,248,571	76,418	100,376
Agricultural college fund.....	274,671	14,488	6,000
Total.....	\$2,131,953	\$679,805	\$679,497

"The whole amount, then, as appears from the above table, which will be subject to investment within the next few years, will be as follows:

Principal of School Fund.....	\$1,647,613 00
University Fund.....	123,118 00
Normal School Fund.....	1,425,365 00
Agricultural College Fund.....	295,159 00
Total.....	<u>\$3,491,255 00</u>

"In what manner shall this large amount be invested? The methods authorized under existing laws have been stated above, viz: 1st. In bonds of the state; 2d. In bonds of the United States and of several other states; 3d. On real estate security to individuals. The objections to the first two methods have already been stated, and experience has demonstrated that the last does not afford sufficient security; that it involves expense in clerk hire, books and blanks, and that it has been in the past, as it will be in the future, if adopted again, an instrument of political persuasion if not of political corruption. A few favored individuals would undoubtedly reap its benefits, but the great mass of people, for whose use these funds were created, would reap only its evils and losses. The people do not ask a return to this system; but do desire an investment which shall insure a regular and permanent income.

"The only plan which seems to embrace all the desired conditions of safety, of economy in management, of unchangeable value and of prompt payment of interest, is the continuance of the plan now in practice; that is, to make the state its own banker, and all the people of the state and all the property of the state, security for these funds. Instead of loaning them to a few individuals, upon small individual security, let them be loaned to the

whole people, upon the plighted honor of the state, secured by constitutional provision. Since the constitution of this state prohibits the incurring of an indebtedness exceeding one hundred thousand dollars, let an amendment be adopted and submitted to the people, similar to the following :

AMENDMENT TO THE CONSTITUTION.

"Section 11 of article 8 of the constitution of this state, is hereby amended so as to read as follows:

"The principal of the school fund, of the university fund, of the normal school fund and of the agricultural college fund, shall hereafter be invested in the following manner, to wit: at the end of each financial quarter the commissioners of school and university lands shall ascertain the amount of principal of each of said funds remaining in the treasury subject to investment, and shall cause certificates of indebtedness to be executed in duplicate for the amount of said funds, which certificates shall bear interest at the rate of seven per cent. per annum, payable on the 31st day of May, in each year, each of which certificates shall be made payable to the proper fund, and shall, by the terms thereof, be made not negotiable or transferable for any purpose whatever. Said certificates shall be signed by the governor, the secretary of state and the state treasurer. Immediately upon the issue of the said certificates, a duplicate of each shall be deposited with the state treasurer, and the original with the secretary of state, and thereupon the several amounts for which said certificates were issued, shall be transferred to the general fund of the treasury."

The amendment might, if deemed advisable, be of this form :

"The Legislature of this State is hereby authorized and empowered, to cause to be issued certificates of indebtedness to the several Trust Funds in the treasury, for the amount of such funds on hand at any time subject to investment, and to transfer said funds to the General Fund of the State: *provided*, that an interest of seven per cent. on the same be provided, payable annually, to the income of said funds."

Among the advantages claimed for this system are the following :

"1st. *Security and permanency of investment.*—As compared with loans to individuals, there will be no loss of title papers, or through poor security and defective title papers. As compared with investment in State and Government bonds, there could be no loss; while these bonds, purchased at market rates, at perhaps five to ten per cent. premium, would, at maturity, call only for their face, throwing upon our funds the entire loss of the premium paid. Moreover, these bonds are liable to be called in at any time, and exchanges could seldom be made without loss and expense.

2d. *Economy of management.*—This needs no elucidation, since there can

be no expense excepting the bare cost of the paper and printing of the blanks to be used.

“3d. *It secures a higher rate of interest to the educational funds.*—This is clear since, as before stated, no bonds in market bear more than six per cent. interest.

“4th. *It retains our capital at home.*—The purchase of foreign bonds would drain this state of from one to two hundred thousand dollars per year, upon which we should receive back only from four to six per cent.

“5th. *It relieves the people from taxation.*—For, whatever amount is invested in certificates of indebtedness, is at once placed to the credit of the General Fund. As a matter of course, the State tax for that year would be less by that amount, except so much as is paid as interest on the amount. Were this amount for one year \$100,000, the interest would be \$7,000, leaving in the treasury \$93,000, reducing the State tax by that amount. Thus all the money paid into the treasury for lands, goes back to the people through the various channels by which our circulation is maintained, and thus the whole people, instead of a part, have the benefit of a loan at seven per cent. interest, equally distributing the burdens and the benefits of this system.

“6th. *No loss through neglect or fraud.*—The certificates of indebtedness being in duplicate and not negotiable, offer no inducement to abstraction or alteration. Whereas bonds, amounting to perhaps millions of dollars, might appeal strongly to the cupidity of a corrupt public officer. This has happened in other portions of the country, and prudence would seem to demand that occasion for such temptation may be avoided.

“It is raised by some as an objection to the plan proposed, that we shall have no School Fund or any other fund—that we shall have only promises without any intention to pay. The same objection lies to every kind of investment. The bonds of the Government or of any State are only promises to pay. The same is true of loans to individuals. Unless the fund consists entirely of money, locked up in the vaults of the treasury, we can have nothing but promises to pay. Every thing depends then on the security. That a State certificate of indebtedness is as good as a State bond, no one can doubt, and the objection is captious rather than legitimate or honest.

“But I do not deem it necessary to argue the question further; but lest it may be supposed that the course proposed is without precedent, I will simply state that a plan somewhat similar has been in practice for some time in Ohio. Believing some legislation to be necessary, the above suggestions are respectfully submitted.”

The arguments presented by the secretary in favor of the plan recommended by him are very strong, but they do not seem to be conclusive. The question has two aspects; one as viewed from the

stand point of the people, the other from the stand point of the funds. Supposing that the funds are the property of the people, is it wise, is it a good business transaction for them to use up their capital in meeting their yearly expenses; especially as before it is thus used it produces an income, and afterwards represents a debt, on which interest must be paid? On the other hand, supposing that the funds are not absolutely the property of the people, but only a trust to be managed for the benefit of certain specified objects, is it wise for the trustee to convert them to his own use for the sake of lightening present burdens, and of avoiding some care and risk in their investment and management? It is said that in any case these funds will be invested in, and represented by "promises to pay;" that there are no actual moneys on hand, and that it is better to have the promise of all the people and property of our own state, as represented by a "certificate of indebtedness," than a state or United States bond, or the promises of individuals. But it must be remembered that a state or United States bond is a promise to pay into the peoples' pocket a certain sum annually, while a certificate of indebtedness is only a means of transferring a certain sum from one pocket to another.

The present indebtedness of the state to the trust funds is \$2,084,200. Adding to this the sum that must be invested within the next few years, \$3,491,255, and we have a total of \$5,575,455, the interest on which at seven per cent. is \$390,281.85, an amount exceeding the ordinary current expenses for the past year.

This method of investment is more objectionable when applied to the school fund, than it is in its application to the other funds. When the incomes of the university, agricultural college and normal school funds reach the state treasury they remain there subject to the demands of the institutions supported by them; but the income of the school fund goes back to the people and is distributed all over the state. A given town has to raise \$100.00 as its share of the interest due this fund. The money is collected by the town treasurer, by him paid to the county treasurer, who sends or carries it to Madison to the state treasurer. It is then apportioned by the state superintendent, and it returns to the people through the same channels by which it found its way to the state treasury, except that

the town treasurer pays it to the school district treasurers, who pay it to the school teachers. Is not this rather a round about unbusiness like way of providing funds to remunerate our teachers? But supposing that the moneys never leave the town treasury, that a system of credits is established; the state treasurer crediting the county treasurer, upon the state tax due from his county, the amount to be returned as school moneys; and the county treasurer crediting the town treasurer in like manner, it would then be simply a cumbersome method of levying a state tax for the support of schools; a measure unobjectionable in itself, but which can be carried out in a much simpler way, and which can be reached without annihilating the school fund or creating a permanent state debt. The exigencies of the case justified the appropriation of these funds to meet the extraordinary expenses incurred by the state in assisting to put down rebellion and save the union, but it seems to be the wiser course, now that we "have peace" to create a sinking fund to pay our debts, and to invest our trust funds in securities that will, in a few years, annually put three or four hundred thousand dollars into the state treasury for the benefit of our public schools and other educational institutions.

CONCLUSION.

Looking back over the past year it is not difficult to discover evidence of progress in the educational work. The facts and statistics presented in this report are, of themselves, sufficient to prove that our people are still active and zealous in their efforts to furnish facilities for the education of their children; and my personal intercourse with teachers, school officers and parents corroborates the inferences drawn from the statistics, and intensifies the conviction that our course in the future is onward and upward. The necessity of education to the state and the individual is better understood, and broad and comprehensive views as to what constitutes a true education are held by a greater number than ever before. How best to develop the physical, mental and moral natures of those committed to their charge, is the problem which our earnest, devoted teachers are trying to solve; and they look to you gentlemen of the legislature to aid them in their arduous and responsible work. This

you can do by perfecting and sustaining our system of public instruction. While not neglecting other important duties, let a good share of your time be devoted to the consideration of the means for developing and improving that system which the intelligence of the country recognizes as the best agency for educating the youth, and the most potent instrument for promoting general progress and enlightenment. That your action may be wise and salutary, and that your labors may be crowned with success is the earnest wish of all true friends of education in this State.

Respectfully submitted,

A. J. CRAIG,
Superintendent of Public Instruction.

DOCUMENTS
ACCOMPANYING THE REPORT.

RRPORTS OF COUNTY SUPERINTENDENTS.

BROWN.

OSCAR GRAY, SUPERINTENDENT..

The people of this county are taking quite an interest in the schools, and are generally liberal in their support. In some of the towns, where the county is comparatively new, school buildings and the schools are not what I could wish; indeed I might say the same of many of the older towns. I find it difficult to get teachers experienced and qualified in their profession, there are so many other openings for the active and intelligent; still there is a healthy, encouraging feeling, and a determination to have good schools, if possible.

BUFFALO.

JAMES IMRIE, SUPERINTENDENT.

Within the last three years there has been a marked improvement in the condition of our schools; the *live* teachers are becoming more numerous in our ranks, diffusing a healthy invigorating influence wherever they go. There is a large and handsome building nearly completed at Fountain City, which, when finished, will cost about \$7,000. It occupies a commanding position, and is truly an ornament to the city; it is an edifice of which the inhabitants may well be proud. There are to be three departments. We expect to have another soon in Alma, with two or more departments. Our hills and valleys are exhibiting the interest of our people in the common school, in the large commodious school houses. In Gilman Valley, town of Gilmanton, a commodious frame school house is nearly completed.

I think that the plan of reporting monthly the condition of the schools is having a beneficial effect, creating emulation in school and a deeper interest at home; and in publishing these reports, I can perceive the beneficial effects.

On the 19, 20th and 21st of October we had an Institute at Alma, which was both a pleasant and profitable meeting. The teachers have resolved to establish it on a permanent basis.

There is more uniformity in our text books this year, and the pupils are better supplied with them.

BURNETT.

WM. H. PECK, SUPERINTENDENT.

Burnett County being young, and as yet thinly settled, we are very far from arriving to what older counties usually attain, but still there is a general good feeling for making improvement as speedily as the means will permit. In District No. 1, the school house is in a very poor condition, but the school officers have promised to have the necessary inside and outside fittings completed early next year. In District No. 2 a good and substantial school house is completed and well fitted. There is also a much greater interest among the parents for the education of their children, and the attendance at both schools has been considerably better than before; and as the people get acquainted with the country (most of them are from Norway and Sweden), a still further progress and improvement will be made, so that each annual report will be that of prosperity from this young county.

CHIPPEWA.

THEO. COLEMAN, SUPERINTENDENT.

This county contains 120 townships embracing 4,320 square miles of territory, a great part of which is thinly settled, the northern part being a region of pine forests and tamarack swamps. There are thirty-six entire school districts in the county, and two parts of

districts. Four new districts have been organized since January last, two of which are joint.

BUILDINGS.

The buildings are for the most part log structures, which answer the purpose for which they were built without being elegant. Those erected lately are frame, however, and are far better buildings. I have frequently and earnestly called the attention of district officers to the matter of putting their school houses in good repair, and there has been a little improvement in a few cases, which is, I think, the beginning of a general overhauling throughout the county. I have tried to impress upon officers the importance of having their school grounds well inclosed, out-houses built, the building tightly floored and well ventilated, &c. Their attention has been called also, to the advantage of having the school room hung with maps, and otherwise made attractive.

VISITATIONS.

Thirty-two of the schools have been visited by the Superintendent this year, some of them twice and others much oftener. In these visits (which have been quite informal), particular attention has been given to thoroughness in teaching, and I am happy in being able to report considerable improvement in this respect. Our teachers are, mainly, a class of young girls, many of them with but one or two terms experience in teaching, and a great amount of work is to be done in bringing them up to a fair standing in their profession. Their schools are not so far advanced as to require high scholarship for their successful instruction, but the necessity for thorough scholarship is none the less urgent, and the importance of continual study on the part of teachers is great. I have generally consulted with the district officers, in these visits, in regard to the improvement of their school-houses and their adornment, the payment of good wages to teachers, the length of school terms, &c. As a general rule district officers are anxious to do whatever is best calculated to benefit the cause of education in their district; but it is a fact patent to a common observer that greater intelligence must be brought to bear in the administration of school affairs before a con-

siderable number of our districts can make much headway in educating their children.

TEXT BOOKS.

Circular letters have been addressed to school officers in regard to the evil of mixed text-books, of which teachers have complained a great deal. We do not attempt to establish uniformity in books throughout the county, but only in each school. I can report the work of introducing one series of books as accomplished this summer in several districts, and can speak encouragingly of the prospect in other districts.

EXAMINATIONS AND CERTIFICATES.

Four examinations are held each year in the county—two in the spring and two in the fall. This year the fall examinations were held (by my predecessor in office) in November, and the spring examinations in April. Besides the regular spring examinations, I have had thirteen special examinations since January, of teachers who, from various causes, were unable to attend in the spring. Thirty-nine third-grade certificates have been issued by me; twenty-six at regular examinations, and thirteen at special examinations—nineteen of which were full one-year licenses, and twenty limited to particular districts and for a shorter time. No second or third grade certificates have been applied for.

IN CONCLUSION,

It must be observed that very much is to be done in this county in order to bring our educational affairs out of darkness into light. We have been a lumbering people to the extent of bringing in as settlers many single men, whose interest in the cause of common education is necessarily less than that of heads of families. In Chippewa Falls, the county seat, splendid service has been rendered the cause by the erection of an \$8,000 school house, of four departments, and the introduction therein of a good corps of teachers. Needing just such an institution to take the lead in all matters of reform in methods of teaching, &c., it cannot but exert a beneficial influence upon all our schools.

We do not yet participate in the almost universal effort which is

being made to introduce into the art of teaching the Pestalozzian principle ; yet we are aware that there is a necessity for attention being given to the subject, to the end that this grand method may work out its beneficial results here as elsewhere.

COLUMBIA.

REV. LEVI BATH, SUPERINTENDENT.

In sending you my report, permit me to say that I have made it as accurate as possible. Reports came in late, and some of them were very imperfect, with no possible means of correcting them. On all essential points I think you will find it correct. As to teachers and school visitation, my report extends only to January last, as at that time I first came upon the ground. There has been no "Institute" as yet. I find it impossible to get the teachers together. Other things seem to engross the whole attention. I made an appointment at Lodi, but no teachers were present.

I have spent the past winter and summer in school visitation, deeming it of the first importance to become acquainted with the condition and wants of the schools, and to learn from personal observation the manner in which the teachers were doing their work. I have found, for the most part, the schools in successful operation ; and the teachers, as a class, faithful in their work. In some districts, things were a little loose ; not having been visited by a superintendent for years ; in others, there was some restlessness occasioned by official pressure. These occasional indications of friction I have sought to obviate by a just regard to the local interests of the districts. Where any interference has seemed necessary, I have worked through the school board, and, in all cases, the intercourse has been friendly. I have labored to cultivate harmony in the districts, and have met with the most encouraging success. My intercourse with the teachers has been friendly and cordial, and my earnest wish has been to assist them in their work. In the examination of teachers I have used great care—having regard to ability and success in teaching, as well as to the simple item of intellectual qualification. I have consulted with practical teachers, and used

my best judgment, so as not to bring the standard too high, or too low, believing the school-room the only practical test of a teacher's ability. In my visitation of schools, while I have not lost sight of methods, I have given special attention to *results*. If the pupils are orderly—if they give evidence that they are trained to habits of study—if by their recitations and reviews, they show that they are thoroughly instructed in the several branches of study pursued in the school, then I mark that teacher as a success; and this fact will have its influence in future examinations. Eight new school houses have been erected the past season,—some of them are fine specimens of architecture; and *all* are well adapted to meet the wants of the districts in which they are situated. Old buildings have been repaired and enlarged, and others are to be built the coming year.

With all these indications of progress, there are yet many houses utterly unfit for school purposes. Time is needed to remove these obstructions, and clear the field for a full measure of success. In many of the districts the country is new,—the schools are small and the people are poor. In not a few localities the people are indifferent to the importance of common school instruction. Many districts are nearly all composed of foreign population. In a few years, these are to move on a line with our best citizens; but at present, as a class, they are unacquainted with our school system. Time and patience are needed to direct this element, and make it available, and thus develop and mature this great work, which I think is now in successful progress.

DANE, 1st Dist.

J. Q. EMERY, SUPERINTENDENT.

Compliant with your request I send you the following special report:

I—THE WORK DONE.

1. *Visiting Schools*.—Since the first of January I have made two hundred visits to schools through all the seventeen towns in this superintendent district. I have striven to make these visits a means of stirring teachers, scholars and parents to greater ac-

tivity in the work of education. I have endeavored to present some of the necessities, benefits, and beauties of education, and the best means of securing the same. District boards have generally been consulted and advised with in reference to the work.

2. *Town Teachers' Association.*—Entering upon the duties of the office of county superintendent on the first of January last, attention was immediately given to the organization of town teachers' associations; and during the winter term I succeeded in organizing associations in five different towns. During the summer they were quite successfully maintained in nearly every town in the district. Have met the teachers at the associations at least once, after visiting the schools in the town, and there pointed out in a general way the errors observed while visiting the schools, and suggested how these errors might be corrected. Economy of time has thus been secured. Teachers have become interested in these associations as a means of self-improvement, and good has come of them. The plan is liked and will be continued with still greater vigor.

3. *Examinations.*—The examinations last fall were conducted by my predecessor, Rev. O. O. Stearns. The spring examinations were conducted in accordance with the idea that after the ability of the applicant is tested, the examination is to be a place for disseminating new and more approved ideas and methods, a sort of radiating centre. The teachers were instructed how the superintendent wished the schools conducted, that the *necessity* of making suggestions personally at the time of visiting the school might, so far as possible, be *avoided*. The results have proven all that could be expected. About sixty per cent. of the applicants received certificates. Having confidence in the public examination as an educator, private examinations have been almost wholly avoided by means of supplementary examinations. The loose and illegal practice of endorsing or transferring certificates is not countenanced in this district,

4. *Addresses, Lectures.*—Addresses have been given evenings in various parts of the district by the superintendent, upon matters pertaining to the welfare and advancement of the common schools.

Evenings at the examinations were also devoted to lectures from prominent educators. Lectures have also been given in connection with the teachers' associations. In this matter Prof. A. R. Cornwall, Principal of Albion Academy; Prof. Edward Searing, of Milton College; Rev. J. J. McIntyre, Principal of Marshall Academy, and Hon. A. J. Craig, Superintendent of Public Instruction, have given valuable aid.

5. *Monthly Reports.*—Teachers are required to submit monthly reports. Very nearly all have complied. An abstract from these reports has been published each month. In these abstracts the following items were given:

1. The names of the teachers and the town in which they teach.
2. No. of school children in the district.
3. No. enrolled this month.
4. Largest daily attendance.
5. Smallest.
6. Average.
7. No. of hours lost by tardiness.
8. No. present every day and good behavior approved by the teacher.

No. text books needed.

These abstracts were made from the January, and February, May and July reports. These abstract reports furnish opportunity for making needed remarks. In these remarks among others have:

1. Kept the district informed with reference to the more important of the superintendent's labors.
2. Mentioned names of teachers deserving special commendation.
3. Urged the organization of town teachers associations.
4. Urged parents and district officers, to visit their schools,
5. Called upon teachers to avail themselves of the advantages of the normal schools.
6. Asked for improvements needed with reference to school houses, school grounds, fences, shade trees, facilities, &c.
7. Advised districts to procure the *best* teachers, as being *true economy*. The results of this course induce a continuance of *its* practice.

6. *Improvements.*—To induce backward districts to make suitable provision in the matter of school houses, school grounds, fences, maps, charts, globes, seats ventilation, out buildings, has occupied much time and toil. Every available means has been employed.

7. *Correspondence.*—The correspondence forms no small part of the superintendent's labors. In addition to a large number of circulars, notices and teachers monthly reports, (in all about nine hundred distinct mail packages) not less than two hundred and fifty written communications have been sent out.

8. *State Teachers' Association and Convention of County Superintendents.*—One week during the latter part of July was spent in attending the state teachers association and convention of county superintendents at Milwaukee.

9. *Circular to District Clerks.*—To be read by District Clerks at the Annual School Meeting, Sept. 28, 1868.

To the Electors assembled in Annual School Meeting :

GENTLEMEN :—By section 92 of the School Code, of 1867, it is made the duty, in part, of the county superintendents of schools to advise in the construction, warming and ventilation of school houses, the improving and adorning the grounds connected therewith, to recommend the proper management of schools, and to direct the making of any alteration or repairs which shall, in his opinion, be necessary to the health, comfort, or progress of the pupils.

I cannot here enter into as extended remarks as I would wish. Want of space necessitates brevity. But permit me, in conformity with the duties above expressed, to call your attention to the following :

1.—*Election of Officers.*—All vacancies in offices should now be filled. One officer is to be elected for three years. Very much of the success of the school for the ensuing three years depends on your choice of a man to fill the responsible, though many times thankless and pecuniarily unrequited office of district clerk. To perform its duties successfully requires practical knowledge ; an interest in the cause of education ; force of character. Above all a man should

be chosen who not only knows his duties, but *will perform them*. All things being equal, one is to be preferred who has had experience.

2.—*Out Buildings*.—The neglect in providing suitable out-buildings upon school grounds, is an alarming evil. Two should in all cases be provided, one for the boys and one for the girls, under separate and distinct roofs, located in the rear and opposite corners of the yard, with a tight, high board fence between, from the rear center of the school house to the fence in the rear of the yard. These out houses should be made *spacious* and should be thoroughly renovated at least before the opening of each term of school. Nothing less than this can be called decent. Let me ask you, gentlemen, to examine into the condition of the out buildings at this meeting, and as you value the purity of your sons and the chastity of your daughters, see to it that suitable provision be made in this matter.

3. *Seats and Desks*.—The seats and desks in many school rooms, even where new school houses are not needed, are so illy constructed and badly arranged, as to require in many instances a total tearing up and re-arranging. The seats should in all cases be with backs, and of varying height, so that the youngest and eldest scholar can be comfortably seated. In this matter there exists a great fault. Due regard is not had to the health and comfort of the small scholars. Take this home. How would it be in case you were required to sit upon a seat six hours each day for three consecutive months, from which you could not touch your feet to the floor, and perhaps with no support for the back. This is required of many children. But it is an evil and ought to be abolished, and with little effort the desirable change can be brought about. Let me ask you to cause your seats to be made what they ought to be. The arrangement of the seats and desks should be such as to allow of an aisle or free passage of at least two feet around the outside of the room, and between each range of seats for two scholars, and to bring each pupil under the supervision of the teacher. They should face the rear end of the room. The many advantages of such an arrangement overbalance the few objections which may be urged against it.

The stove should then be placed between the two doors at the entrance.

4. *Maps, Globes, &c.*—By section 18, of the school code, you are empowered to raise any amount of money not to exceed seventy-five dollars, for the purchase of maps, globes and such apparatus as is necessary for the good of the school. No money can be more judiciously expended. These are indispensable requisites to a properly conducted school. I trust this matter will receive your favorable consideration. Maps can be bought for from twenty to twenty-five dollars. No district can afford to be without these facilities.

5.—*Blackboards.*—All admit the importance of sufficient black board surface. But in many school rooms the black board is entirely inadequate to the wants of the school. The supposition that a 5 feet by 3 black board stuck in behind the “pulpit,” or so-called “teachers’ desk,” is sufficient for the accommodation of a school of twenty or thirty scholars, not to say fifty or sixty, stands opposed to common sense. The black board should extend at least across one entire end of the room, (the rear end is preferable and the seats should face it,) and should be about five feet in width and not more than two and a half feet from the floor. The best way for making this board is by spreading “liquid slating” on the wall, or what is better, on seasoned, matched, white pine boards. The “pulpit” or “teacher’s desk” should be torn out, for it is simply a hindrance, and in its stead there should be a small table and chair. Platforms are also hindrances unless they extend across the entire end of the room, just beneath the black board.

6.—*School Grounds, Fences, &c.*—It is confidently hoped that at this meeting, in cases where it has not already been done, provision will be made for enclosing the school grounds with a substantial and tasteful fence, also for making some improvement by way of adorning the grounds. The expense of doing this must be comparatively trifling. School rooms should not only be comfortable, but every thing connected therewith should be pleasing and attractive. In a word, every thing about the school premises is an educator, and that either for good or for evil, and here your children spend the greatest part of their youth.

7.—*Division of School Terms and Employment of Teachers.*—

A better arrangement of school terms would be to have a Fall term of twelve weeks, commencing the last of September or the first of October, a Winter term commencing the first of January and a Spring term commencing the last of April, and closing before the Fourth of July. Thus there would be vacations during the holidays, the muddy weather of April and the hot weather of July and August, during which months schools are of scarcely any benefit. By such an arrangement teachers could be employed by the year, a thing which of itself would justify such an arrangement, as the frequent change of teachers works great detriment to the schools.

8.—*Change of Annual School Meeting*—Section 17 of the school code authorizes you to change the time of holding the annual school meeting from the last Monday of September to the last Monday of August. Such a change would greatly facilitate the carrying out of the above suggestions in regard to school terms. It is also desirable that this change should be made in order that the report of the treasurer and clerk may be laid before the people previous to the time of making the annual reports to the town clerk.

9.—*Conclusion.*—In conclusion permit me to say that you are met to deliberate and take action upon matters of vital importance to the children committed to your care, to our commonwealth and to the entire nation. “True economy shuns both niggardliness and prodigality.” To you it is committed to give your children the blessed boon of an education. To do this well fear no toil, no sacrifice however great, and many hearts shall beat more joyous on account of your having lived. May wisdom, liberality, peace and harmony characterize your meeting.

II. NEW SCHOOL HOUSES.

Since the last report from this office there have been completed or will be completed before the winter term of school, twenty new school houses; many of these are constructed upon the more improved plans.

III. TEACHERS.

It is believed that the general qualifications of the teachers compare favorably with those of any other portion of the State. Albion

and Marshall Academies in this district, and the State University at Madison, furnish most of the teachers. What is still needed is *permanency* and *special training* for the work. The hitherto Normal Department of the State University exerted a beneficial influence upon the teachers of this district.

IV. THE NORMAL SCHOOLS.

The influence of the Normal Schools is not yet much felt here ; but one appointment has been made—that one to Whitewater. To make the Normal Schools of service they must be placed within reach of the masses.

V. THE COUNTY SUPERINTENDENCY.

From my visits through the various towns of the district, I am convinced that the system of County Superintendency would, if submitted to a vote of the people, be sustained by a large majority.

VI. THE TOWNSHIP DISTRICT SYSTEM,

As supplementary to the County Superintendency, is favored by nearly all the leading men in this district.

DANE—2d Dist.

N. E. GOLDTHWAITE, SUPERINTENDENT.

THE TOWNSHIP DISTRICT SYSTEM.

For every other purpose, both social and political, the town is the unit in our system ; why should it not be in the matter of education ? Let each town organize a Board of Education of three members ; let the President of the Board, in connection with the county superintendent, exercise the power of supervision of the schools. Let the board have power to alter or abolish present districts, to hire suitable teachers and arrange the terms of school ; in short to do every thing possible for the interests of sound morals and education in their respective towns. This system might bring up the efficiency of the rural schools to an equality with those of our cities and larger towns. It is an indisputable fact that these latter schools in our own country are equal to those of any country

in the world. But in the language of the Ohio State Commissioner, "no one can visit the country schools, hear the recitations, observe the discipline, examine the teachers' records and look upon the cheerless exterior and interior of the school rooms, without a most depressing conviction of the inferior advantages enjoyed by the pupils, and the unfavorable educational influences by which they are surrounded."

To show that this state of things need not, and ought not to exist in our rural schools, I wish to quote from a recent report of Rev. Dr. Ryerson, superintendent of schools for Ontario or Upper Canada:—"In Ontario there is much room for improvement in these respects; but we have a national programme for the examination and distinct classification of teachers, and nearly uniform methods of examination; our teachers, except in comparatively few cases of trial, are almost universally employed *by the year*, in the *township* equally with the *cities* and *towns*.

By our method of giving aid to no school, unless kept open six months of the year, and aiding all schools in proportion to the average attendance of pupils and length of time the school is kept open; we have succeeded in getting our schools throughout the whole country kept open nearly eleven months out of the twelve; the teachers are thus kept *constantly employed* and paid *annual salaries*; and are as well paid, all things considered, in perhaps a majority of country schools as in cities and towns. Some of our *best* teachers are employed in the country schools, a very large proportion of which will *favorably compare*, in style and fittings of school houses and efficiency of teaching, with the schools in cities and towns. Indeed, for several years, at the commencement of our school system, the country parts of Upper Canada *took the lead*, with few exceptions, of our cities, towns and villages."

These results are produced under the combined influence of the County Superintendency and the Township system.

I wish here to present a few reasons for the adoption of this latter system.

The first result of the township versus the present district system would be an increase of the size and consequent diminution of the number of separate schools in most of the towns. For instance,

the town of F. in Dane County keeps open ten separate schools at an annual expense, for teachers, of \$184,40 for each school. Suppose instead of this division of the town, four school houses were built in the four quarters of the township, and a central high school at the centre of the town. The larger and more advanced pupils would be able to attend the high school, none of them being more than three miles distant and a great majority much nearer, while the primary scholars would none of them be more than a mile and a half from school. The result would be this; each of these five schools, embracing in the plan the graded system, could be kept open ten months in the year at exactly the same cost as the ten schools now in operation, giving the teachers steady employment and better wages than the present system gives them. The primary schools, taught by ladies, would each be able to pay \$300 a year to its teacher, and the central high school could pay a gentleman principal \$645, making a total of \$1845—exactly the present expenditure. This salary in the country would adequately support a gentleman capable of teaching all the higher English branches, with Latin, Greek and German.

The only possible objection to this vast improvement in the school system of the town is the fact that some of the pupils would have a little farther to go to school. This seems a very small objection to be set against the immense advantage of having an excellent system of graded schools open ten months in the year.

Another advantage of the township system would be the securing of more thorough inspection of the schools. To manage these schools a central board, like those in our cities and larger towns, would be appointed, and it should be the duty of the president of this board to visit as often as necessary the several schools in the town. This officer should be paid a per diem for time actually spent in the performance of his duties. It is useless to waste time in enforcing the argument that a teacher will do better when under a proper system of inspection and encouragement, than when left to the hap hazard visitation of school patrons and district boards. In the next place this system should secure permanent and well qualified teachers. Teachers would be hired by the *year* and not by the *month*, and when found to give good satisfaction, would be kept in

the same school for a series of years, thus stimulating the professional pride of the teacher, and carrying forward the pupils in their studies to a point wholly unattained and unattainable under the present system. It is not only surprising but perfectly disheartening to the friends of free schools to see the fickle and precarious tenure by which the teacher retains his position in the (same) school. In four of the towns of the 2d District of Dane county there was, during the past year, a change of teachers in *every school* from the summer to the winter term. In seven other towns there was but *one* exception to this change in each town, and of the entire eighteen towns not one retained all its teachers for a single year. To teach all the schools in the district requires 119 teachers; the number actually employed was 204; making a change of teachers in 85 districts out of 119 in the brief space of one year! This is perfectly childish, and will never make our country schools what they ought to be, and what they might be under a different system.

The last argument I will use in favor of this system is the tendency it would have to form a class of professional teachers, both male and female, whose lives would be spent in the service of our common schools. Our present teachers in the rural districts are mostly boys and girls; boys and girls of most excellent character, and of very commendable attainments for persons of their age; but they lack that maturity of judgment and experience that the exigencies of the school room require. It is an actual fact that 97 teachers out of 169 examined and licensed at the last examinations were *under* 20 years of age, and are actually drawing money from the state for the benefit of their respective districts. Thirteen more are just 20, leaving 59 out of 169 that are of legal age. This vast majority of licensed and legal teachers are children, both in the eye of the school code and of the statute law. Our plan of setting children to teach children is far worse than the famous Lancasterian system of England, which has long since been given up as an utter failure.

I have shown by the example of the town of F. that by a judicious division of the towns into proper sections, the same amount of money now expended will furnish adequate salaries for profes-

gional teachers. These adequate salaries would not fail to produce a supply, and we should have men and women of experience and judgment, with permanent positions, in place of youths constantly changing from term to term and from school to school. Our country schools would soon be on a par with those of our cities, and the idea of parents moving into town to educate their children would become obsolete.

In conclusion, let me say I am far from despising or disparaging our schools as they now are; but when I seem to see the way open for such a brilliant future of improvement, I should be untrue to myself, and untrue to the cause of education, to which I have devoted my life, if I were to remain silent. Least of all would I leave the impression that any particular code or system will, of itself, produce the object desired. The price of Liberty is "eternal vigilance." Unceasing interest and activity on the part of the people is the minimum price we must pay for the grand success of popular education.

DODGE—*West Dist.*

LORENZO MERRILL, SUPERINTENDENT.

It gives me pleasure to note an increasing interest in our public schools for the year just closed. As results of this interest it may be stated that the number of school-houses has decreased in this district, owing to the consolidation of school districts for the purpose of maintaining better schools. Quite a large number of new and commodious houses have been erected during the year; three of which are substantial structures of brick or stone. In the village of Lowell a large and beautiful wooden building has been erected for school purposes, which reflects credit upon the people of that locality and promises to be of incalculable advantage to the rising generation. The village of Westford has also invested several thousand dollars in a school house, the people having determined that no place in the county shall surpass theirs in facilities for schooling. Six school-house sites have been enlarged during the year, and eleven enclosed and several tastefully planted with shade

and ornamental trees. In consequence of new buildings and improvements, our school-houses have increased in value \$11,662.

There have been over three hundred applications for certificates, two hundred and twenty-nine of which were successful. I have issued none of the first grade, and but ten of the second. I deem it best to place the standard of qualifications so high that none but the truly capable and meritorious can obtain certificates of the higher grades.

I have visited one hundred and sixty-seven schools during the year, and have endeavored to make these visits not mere matter of form but of practical benefit to the schools visited.

It was my design to have held an Institute in the latter part of August, immediately after harvest, but I found that large numbers of my female teachers were on the point of leaving for the hop regions, and for that reason I postponed the Institute until October, trusting at that time to witness a general gathering of the teachers of this district.

In conclusion allow me to express the opinion that what the people want is not so much change as faithfulness in the discharge of duty, upon the part of every one connected with our public schools.

DOOR.

R. M. WRIGHT, SUPERINTENDENT.

I have made forty-two visits to the schools of the county, having visited them once in the winter, and once in the summer; and have found a good general interest manifested.

There has been a scarcity of good teachers; the average wages paid male teachers, is \$45.51; average paid female teachers, \$26.95; average attendance of pupils, residing in school districts reporting, 71 per cent. There is but little uniformity in text books, and a great many improvements are required in our school houses, which will be made as soon as the people are able. We live in a timbered county, over fifty miles long, sparsely settled by small farmers; we have expensive roads which must be built, incomes are small yet, and taxes are large,

The first teachers' institute ever held in this county commenced October 15, 1867 and continued four days; conducted by Geo. H. Demmon, under the supervision of my predecessor, Wm. H. Warren.

DUNN.

T. C. GOLDEN, SUPERINTENDENT.

I regret exceedingly that so little should be done in the way of school visitation, but I have done the best I could, and expect soon to resign the office to other hands, unless I shall be able to give more time to this part of the work.

The Institute is to be held next month, of which I will send report in due time.

There is a constantly increasing interest in matters of education in this county, but especially in the village of Menomonie. A fine school-house, that will cost when completed the sum of \$15,000, is in process of erection. The school of this village requires three teachers. Prof. E. W. Gurley, Miss Elmira C. Wheeler and Mrs. M. L. Church are the teachers. They are worthy of the confidence which is reposed in them.

EAU CLAIRE.

REV. W. H. LOCKWOOD, SUPERINTENDENT.

The schools have been, during the year, prosperous—that is if you do not put the standard too high. They are gaining slowly. The interest felt by the people in this new country in education is strong. There are many districts where the population is sparse, and their means limited. But I believe I can bear testimony to the fact that there is much heartfelt enthusiasm in the cause of education. Much of this, I honestly believe, is due to the indefatigable labors of the former superintendent, Rev. A. Kidder.

There are many improvements which are exceedingly desirable. The people seem to feel the necessity of having good comfortable school-houses, but when it comes to the matter of furnishing them

with apparatus, such as maps, &c., there seems to be much hesitancy. I have been urging this matter, as I regard it of prime importance.

The variety of text books is also, in many schools, a great evil. The thought continually suggests itself, can this evil be remedied in any other way than through state action?

Another practical abuse, is the direct result of the text-book plan, which in matters of education, we regard as almost divine. I have felt sometimes, in visiting schools, that I was almost sorry printing had been discovered. As the worthy Indian said, "White man too much book—know nothing." The minds of our children are constipated, with heavy doses of text-book. The teachers, many of them, regard that as the way. They are routine ridden. The children recite—they do not learn. I have been astonished at the results of some examinations which I held—banishing the text-book, for the time, as a nightmare. Scholars, "nearly through the book," as was joyfully announced by them, could hardly answer the simplest questions. Many of the teachers seem to think that there is only one method of teaching, viz., "hearing a recitation."

Our teachers need much instruction on the theory and practice of teaching—more than they do on the plain elementary branches.

GREEN.

D. H. MORGAN, SUPERINTENDENT.

SHORT SCHOOL TERMS.

One of the difficulties we all have to contend with is the necessity of employing so large a proportion of young teachers. I think one of the principal causes of this is, our terms of school are too short; so short that many of our best teachers cannot afford to make it a business, because of being out of employment so long a time during the year; six to seven months being about the average time during the year in this, as in most other counties. The wages, though not what they should be, would secure good teachers, if they were paid for a longer time. Our best teachers soon find employment by the year and we lose them. Being compelled to take a new class of teachers or none, as a matter of course keeps the standard of qualifications low, the new beginners seldom going above 60 per cent.

JACKSON.

J. R. MOSHER, SUPERINTENDENT.

There are twenty-eight regular townships and fifty-three organized school districts in the county—a considerable territory not being yet organized into districts. The number of children reported between the ages of four and twenty as in the county on the 31st of August, is 2,741; 1,986 have attended school sometime during the year, leaving 755 who have not attended. Ninety different teachers have been employed during the year, at an average cost of \$31 per month. Total expense, less sums paid on old indebtedness and for building purposes, \$10,144. From these items we find the cost per scholar enrolled to be \$5.10.

Of the fifty-three school houses five are built of logs, the remainder are frame. Only six lots are reported as well enclosed, and this figure even is too large, for the site whose fence is in a dilapidated condition, or fenced in with a cultivated field or pasture, cannot be called well enclosed. I regret to say that only sixteen are reported as having outbuildings, and some of these are constructed without any regard to decency. Some of them are open to the public highway, are looked upon as places of impurity in the estimation of the pupils, and ought to be regarded as nuisances.

Much improvement has been made in the school-houses of the county; six entirely new buildings have been erected during the last year; two of which, viz., at Alma Corners and at the village of Melrose are intended for graded schools; and in every instance the districts have made good choice in the location of their school-house sites, with a view of making them pleasant places for their children, and have tried to construct upon the most improved mode, having the comfort and convenience of pupils as much in view as their funds would permit.

One third of the districts still really need new houses and others very extensive improvements and repairs in the old, to accommodate their pupils. Among the former are Irving District, No. 2, Springfield, No. 2 and 4, and Second and Third wards in village of Black River Falls. No one of these districts has school room enough of any kind to accommodate the scholars, and in all excepting one, it

it is very inferior in quality. It is, however, gratifying to be permitted to state that the people in each of the above named districts contemplate building new houses during the next school year. There are two partially graded schools at the Falls, but these are quite insufficient to meet even the present demands of the people. There is manifest an increasing desire on the part of parents and guardians to educate their children within the reach of home influences. In order to do this, preparatory steps were taken a year ago to form a Union district for high school purposes; but in making an estimate of their present and prospective future wants, the electors felt unable (?) to erect suitable buildings for the completion of this enterprise. There is, however, reason to believe that the enterprising citizens of that prosperous and rapidly growing village will not long permit their school matters in this respect to lag behind their other improvements.

Contrary to what might be expected, the school houses in the lumbering districts are usually most inferior in size and quality. Lumbermen as a class seem to be delinquent in school matters, thinking that money paid for education is the least economical of all expenditures.

Since the commencement of my term in January last, I have made 120 school visits and examined 500 classes—giving such advice and counsel in regard to the mode of teaching and school discipline as the occasion seemed to require; and I am happy in being permitted to say that these suggestions have always been kindly received and I believe generally followed.

We lack professional teachers; a large majority of those now engaged in our schools consider the work as only temporary employment, expecting some more lucrative field of labor will soon be open to them.

It is gratifying to know that we have two normal schools already in successful operation, and we hope the board of regents will soon find it to be for the interest of education to establish a third, and locate its site some where in this part of the state.

Our teachers' institutes, I am compelled to say, have not generally been well attended; and it affords us pleasure to know that

the state has made provisions whereby these important association will be rendered more attractive and profitable.

The genius of our state government has not yet enjoined upon us any compulsory system of education; and I must confess for one that in my opinion we are not yet fully prepared for it. Let us first make our school houses what they should be—pleasant, comfortable, convenient and consequently attractive places for children to go to. Let the school room be supplied with the necessary furniture and apparatus for the success of the school, and only as a final resort require compulsory attendance.

In view of the fact that the population of our county is less than 7000, and also that it has been but little more than twelve years since the organization of the first school district, the friends of education have great reason to be encouraged. During this short period we have accumulated \$16,000 worth of school property, and expended during the last year alone, exclusive of the state fund, \$13,421 for the benefit of our public schools; and a large majority of the people feel that the initiatory steps have scarcely yet been taken. It is pretty generally admitted that education is a public duty and ought to be provided for by taxation. The people are pouring out their money freely, upon the principle that it is cheaper to educate two children in the school room than one in the streets. But we want a system by which these burdens will be more uniform upon tax payers; we want to see parents and guardians contribute to the cause of education by their more frequent school visitations, and by permitting and requiring their children to be more punctual and regular in their daily school attendance; we want to see better qualified and more thoroughly trained teachers; we want to see every school house site handsomely enclosed by a good substantial fence; we want to see every school house, as it should, present the handsomest exterior, and be the best finished and best furnished building there is in the district.

JUNEAU.

G. P. KENYON, SUPERINTENDENT..

SCHOOLS.

During five years of labor in the schools of this county, it is truly gratifying to note the changes that have taken place for the better. The teachers in the county, as a class, are growing better each year, and the demand for *good teachers* is steadily increasing. Many districts have abandoned that "niggardly policy" of allowing dollars and cents to outweigh the intelligence of their children and righted themselves upon the basis of true economy in school administration. It is not uncommon to receive letters from district officers asking for *good teachers*. They say, "we want good schools let them cost what they may." This is the spirit of true economy—it has the ring of the pure metal. Would that I could say as much for all, but alas for the influence of the "almighty dollar;" many are still inclined to encourage the spirit that characterized the young adventurer, who set out with a spelling-book in one hand, and a halberd in the other, ready to teach school or steal a horse, as circumstances favored the one scheme or the other. A small reduction in wages will atone for a multitude of imperfections in a teacher. Cheapness is the great *desideratum*. They are strong advocates of *special certificates*, as these imply *cheapness*. Yet, I am satisfied that generally, the schools of this county and the cause of education are gradually advancing. During the year I have made one hundred and twenty visits to schools, and observe among other things, a marked improvement in discipline and modes of instruction. I find, also, better attendance and more visits from patrons. In every instance, when practicable, I have called on district officers, and if possible, secured their cooperation in the work of visitation. These visits seemed to please teachers, and interest pupils. The teachers generally have shown themselves masters of their profession by the success that has attended their labors. Few cases of insubordination have occurred, and in these few cases district boards have been prompt to exercise their authority in putting things to rights. A few have failed in school government and been obliged to close their schools before the expiration of the time for which they were employed.

SCHOOL HOUSES.

I am happy to report considerable improvements in the line of school houses. We have in this county eighty-five school houses at an aggregate value of about \$35,186, and an average value of about \$414. The best school house in the county is valued at \$8,000, and the poorest at \$25.

About twelve new school houses have been built during the year. First among these is the house in the village of Necedah, at a cost of \$8,000. The building is well constructed and suited to the wants of the educational interests of Necedah. A smaller building for primary purposes, has also been erected at the same place. These in addition to the old school house afford ample provision for the accomodation of the children of Necedah.

I understand that the school will soon open under the supervision of Prof. H. C. Wood, who for many years has been strongly identified with the educational interests of Juneau county. New Lisbon is not behind her sister village in educational improvements. A new school house has been built at that place at a cost of \$3,000. The old school building (which originally cost about \$3,000) has been thoroughly repaired, repainted and reseated with Andrews's first-class seats (chair and desk including ink wells) furnished with a new supply of black board surface, new stoves and out-line maps. The two buildings stand upon the same site, well enclosed—provided with good walks and out buildings. About \$1500 have been expended in improving the site, and repairing the old building.

The school opened the 5th inst. under the supervision of Prof. John Breckenridge, of Dekorah, Iowa. Much credit is due the citizens of New Lisbon for the very liberal provisions made for schools in their village. I would note further that a school house has been built in each of the following districts, viz ; district No. 2, Orange ; district No. 5, Fountain ; district No. 6, Lemonweir ; district No. 4, Seven Mile Creek ; district No. 8, Lemonweir and Kildare ; also one in the village of Germantown. All of these districts have given evidence of educational interest by the very liberal plan upon which the school houses have been constructed. About twenty sets of outline maps have been purchased by the districts during year.

EXAMINATIONS.

There were present at my examinations (including special examinations) 161 candidates ; of these 131 received certificates,—3 of the first, 15 of the second and 113 of the third grade. Very few local certificates have been granted, and these almost exclusively upon application from school boards for such license. The number examined last fall at private examinations exceeded the number examined at the public examinations. To remedy this evil I published a circular to teachers, stating that a fee of five dollars would be charged for private examinations (except as provided for by law.) A few knowing ones said that “ the superintendent had converted his office into a machine for coining money,” But the plan succeeded well ; the teachers were all out, and the undersigned failed to receive a single fee.

GRADED SCHOOLS.

In this county there are three graded schools, viz : New Lisbon, 5 departments ; Mauston 4, and Necedah 3. There are two districts more where graded schools would be of great benefit, viz : Wonewoc and Lyndon Station.

TEACHERS.

To teach the schools of Juneau county requires 90 teachers ; 146 different persons have been employed during the year, 41 male and 105 female ; the average wages of male teachers have been about \$44.00 and the average wages of female teachers about \$23.00 per month. About 25 have been retained in the same schools the entire year.

PUPILS.

There are in the county 4,930 legal scholars, or children over four and under twenty years of age, Had all the districts maintained five months' school, in compliance with the law, the public money would be apportioned on this number ; but 180 of these children reside in districts maintaining schools less than five months, leaving 4,750 as the number for the apportionment. The following are the districts maintaining school less than five months, with the number of children in each district, viz. : district 6, Germantown,

14 children ; district 7, Kildare, 23 children ; district 7, Plymouth, 49 children ; district 4, Clearfield, 26 children ; district 3, Lyndon, 58 children ; district 3, Necedah, 10 children. Thus six districts have lost the public money for 180 children by failing to comply with the law,

Of the 4,930 children in the county, 3,835 only have attended school during the year ; 1,041, or about 20 per cent. of the whole, have not attended school at all. It is a matter of no little regret, and one that ought to alarm teachers, school officers, parents, and all who feel an interest in the future welfare of the rising generation, that in the small area of sixteen townships over one thousand children have been totally deprived of the benefits of schools for one year.

CONCLUSION.

In relation to my own labors, I have only to say that it has been my endeavor to promote the interest of the schools of the county. In visiting schools attention has chiefly been given to the classification of the school, the order maintained and the teacher's method of instruction. The condition of the school furniture and house and outbuildings, together with the manner in which they are treated, are matters of great importance, and have not escaped my notice. These visits have usually been unannounced, that I might be the better enabled to judge of the true condition of the school.

I have endeavored to make my office one of suggestion and assistance, rather than espionage and fault-finding. Although I am satisfied that the schools are gradually improving, yet there is not that co-operation on the part of the people that there should be, nor the interest manifested that the importance of the work demands.

This fact calls for greater effort on the part of school officers and teachers. Let us continue to labor with more zeal, until public attention is excited to this subject, and an interest awakened which will never slumber.

LA FAYETTE.

C. B. JENNINGS, SUPERINTENDENT.

SCHOOLS.

The most noticeable feature in the direction of progress in the educational interests of this county, since I had the honor of transmitting my last annual report to the educational department of the State Government, is an increase in the percentage of pupils attending the schools. As may be seen from the statistical branch of my report, the percentage of attendance has materially increased during the past year, though the evil of non-attendance still exists in proportions demanding the earnest attention of those interested in the success of popular education.

SCHOOL BUILDINGS.

Five new school buildings have been erected during the past year, in which, in point of general design and construction, I discover an enhanced public appreciation of the advantages of ample space and agreeable surroundings. Prominent among these, is a union school building recently completed by the citizens of the village of Shullsburg, and at present in successful operation under a full corps of teachers. At the village of Darlington, there is under contract a building for common school purposes, which, when completed, will approximate a cost of \$20,000.

NORMAL SCHOOL AT PLATTEVILLE.

The normal school at Platteville is, in our judgment, destined to prove eminently successful as an efficient adjunct to our common school system in this section of the State. I have had some observation of the working of this institution, in the matter of training and disciplining teachers for the common schools, and take great pleasure in testifying to its success in furnishing a realization of the object and purposes for which it was founded by the wisdom and munificence of the State government. In a circular address to the citizens of my county, issued within the current year, I took occasion to invite special attention to the benefits conferred upon teachers by the normal method of training. Indeed, I regard these methods as indispensable to the success of "graded schools."

COUNTY SUPERINTENDENCY.

It may be expected that I shall say something in addition to what I have already said in former communications, of the present superintendency system. Enough, however, I think, and more than sufficient has been said upon this subject, both in and out of the legislature, for all practical purposes. My firm conviction is, that evil rather than good has been the fruit of its extended discussion. What is now demanded at the hands of the legislature is action in the premises. The question, to my mind, is a simple one, and assuredly must be such to the leading educational minds of the state. Let this class of individuals be consulted by the legislature, and let such be chosen as have no direct pecuniary interest in the maintenance of this system. If, upon this action being taken, the county superintendency be deemed to require modification, or supplementation, or abolition, let one or the other of these measures be at once adopted. If, on the other hand, it should seem to subserve the purposes for which it was created, let it receive a cordial support from the representatives of the people in the legislature, and both "priests and people" will find that the cheerful spirit thus begotten will tend to promote its success, in a measure, equal at least, I trust, to the discouragement and demoralization which have resulted from its discussion hereaway.

MANITOWOC.

JERE CROWLEY, SUPERINTENDENT.

SCHOOLS.

The cause of education throughout this county is receiving more attention from the people, and occupies a higher position than formerly. Many new school houses have been erected, and old ones repaired in a manner to meet the wants, and add to the convenience and comfort of scholars and teachers.

The people more fully realize than in former years the importance of good schools, and their views upon the subject have become materially liberalized. They demand the best teachers at advanced

wages, and there is good reason to believe that most of our schools will be kept for much longer terms than heretofore.

In a number of districts the subject of the establishment of schools of a higher grade, and of the erection of elegant and commodious structures for that purpose, is being agitated, and with a prospect of the most encouraging results.

I trust you will pardon me for not giving you the names, ages &c, of teachers, as my book containing them was mislaid during my illness. The state of my health also forbade me holding an institute during the season.

MARATHON.

REV. THOS. GREENE, SUPERINTENDENT.

Great improvement has been made in the qualifications of teachers during the last year. This has been clearly manifested, not only in the late public examinations of teachers, but also in the good order, discipline, and mode of instruction in the schools which I have visited.

In the German districts, the English language is being taught with success.

The school in the village of Wausau has three departments, and is provided with a set of Pelton's maps. A Teachers' Institute was organized in Wausau, in September last, and will meet again in January next.

The school in district No. 1, town of Mosinee, has been supplied with a good ten inch globe, and a set of Cornell's outline maps.

I gladly report that much interest has lately been excited throughout the whole county in respect to educational matters.

MILWAUKEE—1st District.

J. F. DEVINE, SUPERINTENDENT.

My annual report, which you have already received, is unreliable in many respects. This is particularly true with regard to that portion of it relating to the "Financial Statement." On more

than one occasion since my coming into office, I have, by circular and otherwise, called the attention of town clerks to the necessity for accurate reports; yet from my last annual report you can judge of my success in that direction. I consider the failure as an additional argument in favor of the "township system." The town clerks complain, and justly, that several school district clerks come in with reports that are quite unintelligible, even to those making them.

From these reports, it would appear that several school district treasurers had expended for school purposes considerable sums which they had never received; while others, on the contrary, would seem to have pocketed no inconsiderable amount of the school fund.

If the foregoing was the only fault to be found with district school boards it might be excusable, as, notwithstanding the apparent discrepancy in their accounts, a single instance has not come to my knowledge where it has been shown that school boards fraudulently applied school monies to their own private uses. But the same incapacity is, perhaps, more discernible, it certainly is more injurious to school interests, in several other instances, which are too obvious to need any comment here.

It might, I think with propriety be asked here, to what particular cause is the foregoing state of things chargeable? Certainly not to the people. The present school system is evidently to blame. As the law now stands, each district must elect its school board. It makes no difference whether there are men in the district capable of performing the duties of the office or not. Perhaps not an individual in the entire district is capable of any higher effort in the way of literature than that of reading a little and writing his own name; nevertheless work is to be done from which there is no escape, and which requires no ordinary share of intelligence and culture for its proper performance; a teacher must be selected and employed; rules and regulations for the government and management of the school must be adopted; the course of study designated; and the school visited and examined. Taking all these things into consideration, is it to be wondered at, if at present, the duties of school district boards are sadly neglected, or

so badly performed, as to call loudly for reform? It would, no doubt, be a matter of surprise, if the condition of our schools was at all different from what it is, when we take into consideration, that the several school district boards of the state, generally number from twenty to forty individuals in each town,

In connection with the foregoing, I do not deem it at all necessary to apologize for the introduction here, of the following extract from the last able report of our former state superintendent, Hon. John G. McMynn. In speaking of our present school system, he says: "Nineteen officers to manage any other branch of public business for a town would be declared to be at least three times as many as necessary. Every man knows that one-third the number would manage the educational affairs of a town three times as well." But Superintendent McMynn, in the foregoing extract, supposes an average of nineteen school officers for each town; a goodly number, it must be admitted; but I know of towns in this county that have nearly fifty! The thing is absurd. Such testimony could be multiplied to any extent, but it is not necessary. There is not a man in the entire state, whose mind is unprejudiced, and who will read Mr. McMynn's article in favor of the "township system of schools," as contained in his last annual report, but must admit that our present system is faulty in many respects, and needs a radical change. Such, in my opinion, can only be effected by the adoption of the "town system," through which our present system will become simplified, and our schools graded.

While the inhabitants of the cities and most of the villages of the state, have it in their power to give their children the highest education through means of their "graded schools," I would wish to know, how it is that the inhabitants of the country are not equally entitled to the advantages resulting from the adoption of the "graded system," especially in those towns where the number of inhabitants and the advanced state of wealth and culture on the part of the people would warrant its adoption?

If the present legislature, in its desire to do justice to the country, would adopt the "town system," I cannot conceive how it could afford any just ground of complaint or alarm; provided its

adoption would not be rendered compulsory for at least a few years ; thus affording an opportunity of having its merits fairly tested.

Under our present system, faulty as it is, the cause of education has made considerable progress within the past two years. Teachers appear to feel a greater interest, and to have more accountability. They have improved considerably in point of scholarship, and as a consequence, I find better schools and improved methods of instruction. I know to my positive knowledge, that School Boards manifest a greater degree of interest in school matters than a year or two since. They not only hearken to, and endeavor to carry out the requirements of the superintendent, but, in all difficult cases relating to school matters, ask his opinion and advice, and act in accordance thereto. A great change has come over the people in regard to voting supplies for schools. It is remarkable with what unanimity the people vote large sums for building and school purposes generally, where, only a few years since, they begrudgingly voted the smallest necessary sums for the same purposes. These and other considerations too numerous to mention here, induce me to believe that the people are prepared for any change in our present school system, provided it affords increased facilities for giving their children a better education than can be at present obtained.

In this Supt. district, there have been two brick school houses built within the past year, at an average cost of about twelve hundred dollars. Arrangements are being made for the erection of others.

During the year I have held six meetings for the examination of teachers. These meetings were attended by seventy-five applicants for examination. Of this number forty-eight received third grade certificates, four received second grade and twenty-three were rejected. I have also granted nine special or limited certificates, making a total of sixty-one certificates granted within the year.

Also within the past year I have made ninety-seven visits to thirty-five schools, spending at least one half day in each school.

My views in regard to the value of "teachers' monthly reports," are the same as expressed in my last annual report. I consider them as invaluable to the superintendent not only as a means of ascer-

taining the condition of the schools, but also serving as a sort of index to the character and ability of the teachers. I find no difficulty in bringing my teachers to report to me at the close of each month.

An institute has been held this year at Hales' Corners. It commenced Sept. 21st, and continued five days. With few exceptions, every teacher in the district was present. The exercises were conducted chiefly by S. D. Gaylord, principal of the Milwaukee high school. Superintendents Pomeroy, of the city of Milwaukee, and Hannan, of Kenosha county, assisted. R. C. Spencer, of the National Business College, Milwaukee, gave instructions in penmanship in his usual interesting manner. Evening lectures were delivered by F. C. Pomeroy, S. D. Gaylord and by the state superintendent, Hon. A. J. Craig. Teachers and people were highly gratified at the result.

Notwithstanding the highest testimony in favor of the good resulting from the county superintendency, still it would seem that considerable dissatisfaction exists in regard to it. Witness the bill introduced during the last session of the legislature, for the abolishment of the office. I have been informed, on good authority, that the bill met with considerable favor from the members of the house. If our legislature has, during the past few years, surpassed our most sanguine expectations in their liberal and comprehensive legislation, as evinced in the case of our normal schools, and our other literary institutions, is it, then, to be for a moment supposed that they will stop in this good work, and set about to undo what they have been years in doing? But in the event of the abolition of the county superintendency—a thing by no means probable—the question that naturally presents itself is, what organization should be substituted in its stead? Some are in favor of the old township superintendency, for there is a considerable portion of mankind who are filled with love and admiration for old and long established customs, no matter how ill adapted or unsuited they may be to the present wants of society. I can not conceive how any sane body of men could, for a moment, think of returning to the "town superintendency," which I don't hesitate to pronounce one of the greatest failures of the age. It did nothing in the way of supervision;

nothing in the way of elevating the teacher ; nothing in the way of creating a public school sentiment. It was merely nominal in its character ; without influence, and without respect. The justness of the foregoing remarks, becomes evident from the following considerations :

1. As there was hardly any thing to be gained, in a pecuniary point of view, by the office of town superintendent, the men who were elected to that office had generally to give their attention to some other calling whereby they earned a subsistence ; and, although some competent men were elected to the office, yet they failed in nearly every instance to devote either time or labor to the performance of its duties. There were, it is true, some honorable exceptions to the foregoing, but they were few indeed.

2. In the great majority of cases, men were elected to the office who felt no interest in schools, or school matters, and, even if they did, they were too ignorant to be capable of effecting any improvement. Under the old town superintendent system, there were no public nor hardly any private examinations ; because the ignorance of the great bulk of the town superintendents, precluded the possibility of having any. Men and women of the most limited attainments were thrust into the public schools of the country, to conduct them according to their different whims and caprices ; as the teacher rarely ever saw the man, miscalled superintendent, after he scratched his name to the certificate authorizing him to teach ; and in most cases, the teacher was obliged to write his own certificate, for reasons that are too palpable to need explanation.

But it would seem that some favor the appointment of a superintendent for each assembly district. This is only one step removed from the town superintendency, and the objections to both are in reality the same. It would, I am convinced, work incalculable mischief in the older and thickly settled portions of the state.

The principal objection urged to the county superintendency is, that it fails in securing a proper supervision of the schools. This would, in a great measure, be obviated by the adoption of the township system. However, it must be admitted that there are some cases which, as far as supervision is concerned, the contemplated change would not entirely remedy. For instance, those superintendent districts, where

the superintendents are unable to visit all the schools in their respective districts, even, once in each year. To remedy this, the state should be so apportioned (at least in the thickly settled parts) as to insure full employment to each superintendent, and not as at present, some having more to do than they can possibly accomplish, while others, on the contrary, are not more than half their time employed in performing the duties of the office. Districts should be so arranged that each superintendent could, and should be obliged by law, to visit each school in his entire district, at least twice in each year; once in the winter, and once in the summer season; and, also, that at each visitation, the superintendent should spend, at least half a day in each school. Any plan of supervision that will discard the principle of visiting the school while in session, must be faulty. In my opinion, the work of supervision is one of the most important and delicate duties the superintendent has to perform; not second even to the examination and licensing of teachers. Supervision under the "township system" would, perhaps, only be valuable in having the views and requirements of the county superintendent carried out. Without the controlling and directing agency of a higher power, I am strongly inclined to the belief that, for very obvious reasons, the new proposed township system would, for the purpose of supervision, be as inefficient as the old town superintendency proved itself to be.

I have never for a moment seriously entertained the belief that our legislative bodies would so far disregard the public sentiment of the country, as to abolish the county superintendency, which has, in so short a period, done so much toward elevating our school system.

MARQUETTE.

A. BOYNTON, SUPERINTENDENT.

I entered upon the duties of my office, on the 1st of January last, and during the winter term visited fifty-five schools. I found some of them in fair condition; in others the teachers were trying to go through with the motions, or in other words killing time to the best of their ability. School officers and patrons seldom if ever visited

their schools, and when they did, it was sometimes for the purpose of getting up a row with the teacher, *especially*, if the teacher undertook to punish their children for swearing at them, or like causes. It was very seldom that I could prevail upon a school officer to visit the school with me. With a great many teachers, it seemed to me that they were more concerned whether they were obliged to teach twenty or twenty-two days in a month, than they were in regard to the welfare of education in their schools. And in some instances I did not blame them so much. For how can a parent expect that a stranger will take more interest in the welfare of his children, than he does himself in a great many instances.

I found the school houses, or *things* which were called school-houses, totally unfit for school purposes. Yet amidst all this I saw some bright spots; and again, I saw the anxious, upturned faces of the three thousand school children of this county, and I nerved myself for the struggle, and determined to do my duty, my whole duty. And I felt sure that if I endeavored to remedy these great evils, I would gain the sympathy and good will of these children, if I did of no one else; and I have labored thus far, and feel assured that success has partially crowned my efforts. I feel a satisfaction when I think that in some places soon a portion of these children will find new, warm and comfortable school-houses, instead of the old rickety, cold and bare concerns in which they formerly tried to study. In other places they will find that their houses have been repaired and made more comfortable, which has been done with but little expense and trouble.

I am happy to state that our teachers are exhibiting now far more energy, more system, and certainly more practical work. They are showing a disposition to attain to a higher standard; in fact they are advancing from keeping school to teaching school. In some schools there are indications of the Yankee spirit, in the whittling and embellishing line. Perhaps Young America, when looking at some of the seats and desks, is inspired with a desire to carve and finish them off; and then again, perhaps, rough seats, rickety desks, partially demolished stoves, with brick legs, surrounded by large and small knotty logs, do not inspire in the minds of irreverent boys a love of "the good, the beautiful, or the true."

I believe the parents are more interested and inclined to encourage the teacher, and are showing a commendable zeal by increased visitation. In some districts there is a *general* interest manifested, but I am sorry to relate, *too general*—rarely going beyond the raising of a meager sum for the support of their schools, or “the vigorous prosecution” of every difficulty, which may happen to exist in the district. In a great many districts of this county there is a German element. In some districts the population is entirely German. In these districts English schools have been, heretofore, a total failure. I am intending to get teachers in these schools who understand both languages, and will require of them, in the first place, to teach those children to talk the English language. Indeed, I am now trying an experiment of the kind, and believe it works admirably.

There is one thing that must not be omitted. There are facts which may be gathered from all parts of the county, that if made plain in their true light, would cause the cheeks of any good person to crimson for shame. I allude to the absence in many districts of proper out-houses, to screen the young of either sex while attending to the inevitable calls of nature. Of course a few dollars are saved, but can this economy compensate for the lack of refinement and virtue? Will it quench the flames of passion, which may be enkindled in the breasts of the young, at a time when impure imaginations often bear sway? The efforts of all true men and women should be such as to assist in eradicating this plague spot.

I have required, during the year, monthly reports from teachers, and find that great good has been accomplished by them. Yet some teachers think it is unjust to be required to make them out, and feel that it is too great a task for their feeble minds to accomplish.

A teachers' association was re-organized last spring, and is in good working order now. It has held two meetings. Those who have attended have received great benefit, enjoying them as rich intellectual feasts.

A teachers' institute was appointed to meet at Westfield, on the 10th of November, but owing to the absence of expected assistance from abroad, the inclemencies of the season, and the almost impas-

sable state of the roads, whereby many were deterred from being in attendance, it did not prove a complete success.

In conclusion I would beg leave to state that I believe the people of this part of the State are quite well satisfied with our present school system, and are not desirous of any modification of the county superintendency; and I hope that, with the sympathy and support of all good people, the county superintendency will be enabled to make a mark in Marquette County, and one that "Time's effacing fingers" will not soon wear out.

OUTAGAMIE.

D. J. BROTHERS, SUPERINTENDENT.

In this county, the cause of education has been greatly improved during the past year. Three new districts have been formed, and new frame buildings are taking the place of many of the *log heaps* which have heretofore been designated as school houses. Some confusion exists about the formation of new districts and the division of old ones. Some districts embrace a large extent of territory, making the school houses inaccessible to some of the inhabitants, while the house in the adjoining district is near enough. In such cases the children are deprived of schooling, unless they pay a regular tuition fee, but as the country is settling up rapidly, I think this difficulty will soon be overcome.

Adams' system of school record has been partially introduced in this county, which I hope will have a tendency to improve school reports in the future.

OZAUKEE.

P. K. GANNON, SUPERINTENDENT.

In visiting the schools of this county, each one twice within the year ending August 31, I have noted down my observations regarding the efficiency of teachers, the attendance of scholars, and the condition of the school houses.

A good number of teachers make laudable efforts to improve

themselves, both in the government of the school and a more thorough mode of instruction; qualities which I have at no time omitted to inculcate at the public examinations and other meetings of teachers. This improvement and desire to improve are more apparent in those districts where there is a disposition to make the compensation, in some measure, worthy of a good teacher. I may here observe that the great necessity of our common schools can be supplied only by the increase of thorough scholarship and thorough scholars. Whether new organizations are needed is a point on which we may not agree, but we are of one mind that the old organizations need a new inspiration. High culture is to the intellectual life what a pure atmosphere is to the physical; and just as it fails or abounds, the school will struggle or flourish. Local self-government being the main-spring of our school system, if this works badly the school cannot possibly work well; but there can be no question that the schools often suffer, and suffer terribly, from the failure of the community, through a short-sighted regard for a nominal economy, or through indifference to the cause of education, to afford them a liberal and intelligent support. We must pay our teachers well, or we shall have none worth paying; none will be trained as they ought to be; none, trained or untrained, will continue in a calling with which poverty walks hand in hand. So long as the teacher is paid, not according to the value of his or her services, but at the lowest rate at which any one can be found to do the required work, the administration of our schools is as unjust as it is unwise. We shall have teachers who have not learned to teach; oftentimes who have not learned to learn; thus not only crippling our schools, but blinding them, making them deaf and mute and senseless; for if a school has eye or speech or sense, it is through its teachers.

In many districts the per centage of attendance in school is very far below what it should be. In some, the teacher, either with the consent or expressed wish of the large majority, does a good deal of his work and talking in the German language; very soon you find no other than the children of German parentage in the school. The reason, you will be told at once, is that the teacher is incapable of properly teaching the English language. And here let me add, the

more you take away from the school English talking children, the more you retard the progress of the others in the acquirement of an English education ; because when unmixed, there is scarcely an effort to speak an English word. In other schools where the work is done exclusively in the English language, you will find a great number of German children absent, some inconsiderate parents saying they want their children to learn German not English, but the more intelligent urging that they can learn English only through the medium of German. The trite observation applies here, these squabbles may be fun for the old, but they are death to the young, whose golden opportunity of acquiring even the rudiments of an education will have irrecoverably passed away before these trifling difficulties are adjusted. I call them trifling, because a sufficient number of intelligent men, who ought to take an interest in the education of the youth, may be found in every district, who, by slight mutual concessions upon either side, could propose and carry out a harmonious remedy.

The progress and advancement of pupils, I need not say, I found to be in direct proportion with the capability, efficiency and experience of the teacher ; while in some school districts, either from favoritism, or a tenacious adherence to old erroneous ideas of economy, you may hear such a plea for the hiring of this or that teacher as this : " Our school is backward, such a boy or girl can get along very well with the children." And I invariably answer, " and your school will continue backward until you make some exertion to procure a teacher capable of advancing it."

Our school houses for the most part, are in pretty good condition ; four or five new ones, stone, have been built this year, and there are only about seven in the county with which we can't get along tolerably well for some time. During the year I have issued eighty-seven certificates of license to teach ; seventy of the third grade, five of the second, and two of the first. Some five or six young men of this county have attended one or more terms in the university at Madison, and one is at the normal school at Whitewater. I hope the number of those desirous to properly qualify themselves for teachers may increase, so that the old order of things in that profession may give way to a new and better one.

RICHLAND.

G. W. PUTNAM, SUPERINTENDENT.

I immediately commenced visiting the schools of this county upon assuming the duties of the office of county superintendent, January 1st, 1868.

During the remainder of the winter term I visited one hundred and five school districts, in ninety of which I found schools in session. The condition of the schools was various; the majority, however, seemed to be making progress more or less rapidly in the right direction.

The original school houses in this county were nearly all built of logs, about 60 per cent. of which still remain; consequently very many houses are in a bad condition. The log houses are yearly disappearing, and comfortable frame ones are taking their places. I think the people are beginning to realize the importance of having the school room so attractive that their children can derive proper benefit from the money expended for school purposes.

Several new houses have been built in the county the past year that would do credit to any community, and preparations are being made for building others another season.

The absence of many male teachers in the service of our country and circumstances incident to a new region, caused a deficiency of well qualified teachers in the county; hence originated the practice of granting limited third grade certificates upon the request of district boards, which practice still prevails, to the detriment of our schools. A demand by many districts for cheap teachers has tended to continue this practice; while those who have enjoyed the benefit of a cheap school are quite apt to complain of the school system generally.

It is hoped however that a more healthy state of public feeling is being manifested; teachers are beginning to see the necessity of thorough education, and district officers are demanding well qualified teachers. And I trust the day is not far distant when nothing less than a full third grade certificate will be demanded by applicants, or accepted by the people.

I found upon visiting the schools last summer that they were

generally very small, as nearly all the children who were large enough to tie a hop vine, or give the parent any assistance about the farm work, were kept at home. But since the hop business has collapsed, and the prospect of becoming suddenly wealthy has vanished, it is hoped that parents will give more attention to the education of their children.

Teachers were furnished with blank monthly reports last summer, and they very generally reported to me.

An abstract of monthly reports was published in the county paper.

I think that good results are already manifest from requiring monthly reports, and I propose to continue the practice.

A Teachers' Institute was held this fall at Richland Centre, which was well attended. A commendable degree of interest was manifested, and I trust that teachers have gone forth and entered upon the discharge of their duties with renewed zeal. It is fondly hoped that teachers are yearly advancing in point of education and facility of imparting instruction.

I have contemplated forming Teachers' Associations this winter, but the sparseness of our population and the difficulty of finding central points that are accessible to any considerable number of teachers, may prevent the general adoption of the plan.

The people are observing the defects in our present school system, and seem to desire some improvement. Wherever the Township School System has been presented and explained, it appears to be favorably received; and I think that when its workings are fully understood the people will be ready to adopt it.

I hope that some well digested plan will be presented to the legislature and its adoption urged the coming winter, as I believe the general education of our children can be better accomplished by that system than by our present one.

ST. CROIX.

A. H. WELD, SUPERINTENDENT.

SCHOOL HOUSES.

No less than ten school houses have been built in this county during the past year, one in Troy (Mann Valley), the first stone

school house built in the county ; one in the town of Hudson (German Settlement) ; two in Hammond ; two in Saint Joseph ; one in Somerset ; one in Richmond ; and two in Erin Prairie. School houses in different parts of the county have been repaired, yards enclosed, and out-buildings put in good condition. A few however yet remain with little to recommend them save a free ventilation. They cannot, however long survive. The liberal spirit which has removed so many of this kind during the past two years will soon sweep away these relics of early necessity and hardships.

Some of the new school houses are well planned and suitably furnished ; others show the want of care and good judgment in their construction and finish. They seem to have been planned, if planned at all, with but little regard to durability or to the comfort of the future occupants.

Districts about to build school houses, will find it to be good economy in the end to procure plans and specifications from some reliable architect, or at least from some one who has had experience in planning such buildings ; and then confine the builders strictly to the plans and specifications. Special attention should be given to seating and furnishing the school rooms. Desks with iron supports can now be procured at a cost not much exceeding that of ordinary desks, including the expense of graining and varnishing. Such desks are much superior to those in common use, and occupy less room.

Outline maps have been procured by nearly one third of all the districts in the county, and their usefulness is very apparent in the schools which have been furnished with them. Other means of illustration in the school room are much needed ; such as terrestrial globes, blocks for representing the different forms of solids ; charts for illustrating the principles of penmanship, and other kinds of charts suited to primary instruction, in reading and orthography.

An annual appropriation by every school district, for such useful adornments of the school room, is earnestly recommended. They are suggestive, convenient for the teacher, and contribute much to the interest and spirit of school exercises, constantly exhibiting to the eye of the pupil outlines and leading topics which greatly facilitate his progress in knowledge.

TEACHERS—INSTITUTES—ASSOCIATIONS.

Our school districts during the past year have generally been fortunate in securing competent and faithful teachers. Several gentlemen who had once been teachers, but who had retired to their farms, or engaged in other business, have been persuaded to resume the calling which they had laid aside, and to teach some of the most important winter schools.

To the services, ability and experience of these gentlemen, and to some female teachers of long and successful experience, we owe much of the prosperity of our principal schools. They have encouraged our institutes and associations, by their attendance and efficient co-operation, and in the localities where they have labored, they have inculcated correct views, and awakened just interest in popular education.

Our annual teachers' institute, held in the city of Hudson, was well attended, and although disappointed by the unexpected detention of Supt. McMynn, the exercises and interest of the institute were well sustained. During the winter term of our schools, teachers' associations were held in Pleasant Valley, Hammond and New Richmond. On these occasions teachers exhibited classes of their own pupils, as in their customary recitations. So general was the interest in these associations, that teachers went with their pupils a long distance to attend them, in cold blustering weather.

Some teachers however are habitually absent from both institutes and associations; and those, too, who need these benefits the most. The influence of neglecting such means of instruction, is painfully evident in the common place, inefficient management of some of our schools. To be progressive, and to maintain a high stand in their calling, teachers should be studious, and avail themselves, as far as possible, of the suggestions and experience of others in the same calling. It is true that institutes and associations are but poor substitutes for systematic instruction; but at present they are the only means of normal training within the reach of the majority of our teachers, and on this account especially should be encouraged and sustained by the presence and assistance of every teacher in the county.

Our examinations have been as thorough and extended as circum-

stances would admit ; still, in order to keep up the necessary supply of teachers' licenses have been sometimes granted on a scale of merit so low as to do but little credit to the applicant, and to diminish the respect and confidence which high qualifications ought to command.

DISTRICT OFFICERS.

It has heretofore been suggested that school district officers be compensated for their official services. Without compensation they cannot justly be held accountable ; nor can good business men be induced to accept an office which confers neither distinction nor profit. Some of our districts are embarrassed and nearly disorganized by the refusal of any elector to serve as a district officer. In some districts, however, there are public spirited citizens who faithfully discharge the duties of these thankless offices out of regard to the public welfare, as well as for the interest of their own families. Unfortunately there are few districts so highly favored. Some lose their part of the public money by the failure of their clerks to report seasonably to the town clerks. Not a few district officers appear to use no discrimination in the selection of teachers, offering wages disproportionate to their experience or qualifications ; they also in too many instances neglect to provide suitable fuel or things needful for the comfort and convenience of the school, or to make the necessary repairs on the school-house and its premises ; and very few exercise that inspection and care of the schools under their charge which the duties of their offices imply.

SCHOOL DISTRICT SYSTEM.

Our school district system as it now exists is too defective to admit of a complete remedy. No other system of supervision requires so many officers for so simple duties ; and no other requires its officers to serve without compensation.

Its power is too much diffused and too feeble to control discordant elements, or to secure justice. The teacher under this system is too much at the mercy of popular caprice, and often suffers and fails for the want of that support in the hour of persecution, which a stronger government would afford.

That part of the system which regulates the formation and alteration of school districts, is especially backward and unsatisfactory. In forming some joint school districts, no less than fifteen signatures of different functionaries are required to complete the work which one person of common sense could do more to the satisfaction of the parties concerned. The "red tape" system is here found in perfection, and its vexations are insufferable. No wonder that under such a system, the state department of public instruction is flooded with appeals, and that the school district is the theatre of discord; that friends and neighbors are set at variance, that the school is a bone of contention, and that its usefulness is so often destroyed in the midst of contending parties. A substitute for such a system may perhaps be found in the township system of school government, which is now in successful operation in several states, and which has been so ably explained and advocated by our present state superintendent and his predecessors in office.

WORK OF THE SUPERINTENDENT.

The superintendent has made one hundred and fourteen official visits to the different schools in the county during the past year. In his rounds it has happened, as usual, that some schools, either on account of local holidays or short vacations, were not in session, and could not at the time be inspected. Nearly every school district, however, has been visited twice, at the expense of much exposure and tedious travel, oftentimes in storms, and over rough and drifted roads.

He has been present at all the teachers' associations, conducted the annual teachers' institute, held ten public examinations, and has occasionally lectured in different parts of the county. In the duties mentioned above, and in those of reporting to the state department, official correspondence and private examinations, are comprised the labors of the county superintendent.

By teachers, parents and district officers he has been treated with kindness, forbearance and hospitality, and he hopes that the results of his labors may be commensurate with his good intentions.

CONCLUSION.

From the statements above, it may be inferred that as our popu-

lation increases and the people become better able to bear the burdens of taxation, more liberal provisions are made for schools.

Old school-houses are giving place to more expensive and more commodious structures.

Nothing seems to be so much desired by every intelligent parent, as the education of his children, nor can any good citizen regard popular education as second to any other public interest. Our most successful teachers are dissatisfied with their present attainments, and are seeking opportunities for higher culture. Two from this county have already applied for admission to the State Normal School in Platteville, and have been accepted. Others, it is hoped, stimulated by their example, will soon apply to one or the other of our excellent State Normal Schools, now in successful operation, in Whitewater and Platteville.

We greatly need a Normal or Academic institution in the Saint Croix Valley, and we hope the time may not be far distant when the people of this section of the state shall become almoners of the magnificent Normal School Fund recently set apart by wise and liberal legislators for the education of teachers for our public schools.

SHEBOYGAN.

J. E. THOMAS, SUPERINTENDENT.

In addition to the statistical report already forwarded to you, I have to say that, soon after entering upon the duties of superintendent of schools for this county, January 1st, 1868, I discovered a marked degree of discouragement on the part of some and indifference on the part of others, in reference to our educational interests. A wide spread dissatisfaction prevailed and much prejudice existed in regard to the county superintendent system. Teachers had grown lethargic and school patrons had become despondent. A teachers association had existed in years gone by, but had long since passed into oblivion. Four years had gone by since an institute had been held, and, to make a long story short, the educational forces had become "fearfully demoralized." To attempt to bring order out of chaos, and to reinvigorate and marshal such undisciplined

forces looked like a herculean task. Early in January the state superintendent was earnestly urged to visit this county, and to take the lead in "striking the first blow." Circulars were posted throughout the county, inviting teachers, district officers and friends of education generally, to meet at Sheboygan Falls, for the purpose of consulting together in regard to our common school interests, and to listen to words of advice and instruction from our superintendent of public instruction. The day came and with it a good attendance from all parts of the county. The Rip Van Winkle slumber was broken. The state superintendent gave us an admirable lecture suited to the occasion. Dr. J. J. Brown, now of Whitewater normal school, followed with a lecture upon physical culture. Prof. Cushman, of New York, gave us an excellent address upon education, and the county superintendent closed with some plain talk to teachers and district boards. A teachers' association was organized at once by the adoption of constitution and by-laws and the election of officers. The "convention" was a success, and that one day's work swept away a mountain of prejudice against the county superintendent system.

But little time for visitation of schools has yet been found. Of the 114 schools but 29 have been visited—most of the time having been employed in organizing, in settling the numerous matters of difference as they have arisen in the various districts, and in examination of applicants for certificates. 176 attended regular examinations, and 15 applied at the office. 126 certificates have been granted. Letters have been addressed to each teacher, urging devotion to the work and co-operation with the superintendent.

A teachers' institute was held at Plymouth, commencing March 31st, and continuing two days. We had a good attendance. At least nine-tenths of those present participated in the exercises; the older teachers taking the lead. Some of the citizens took part, and one of the resident physicians (Dr. Morehouse) delivered an address upon physical training. Permanent officers of the teachers' association were elected, after which the institute was closed by a lecture from the county superintendent upon the different methods of teaching.

Thus new life has been infused into educational matters throughout the county,

Upon the ten branches required by law in the examination of applicants, an aggregate of 60 correct answers entitles to a certificate for six months, and an aggregate of 75 to a certificate for one year. This rule applies to 3d grade. No applications have been made for 1st or 2d grades. This raising of the standard has caused some grumbling, but the results have demonstrated the wisdom of the change, and teachers and scholars are coming up to the advanced line with certainty and celerity. *We are determined to stand in the front rank.*

With few exceptions the various districts are rapidly warming up to the good work, and we trust by another year our school officers will become more familiar with their duties, and the school patrons still more interested in our common school system.

Several comfortable school houses have been erected during the year, and it is confidently expected that many more will take the place of old ones another year.

The salary of the office is \$800.00; less than one half the actual value of a faithful and efficient incumbent; and when one possessing such qualities is elected, we trust the county board will raise the salary to \$2,000.00 at least.

TREMPEALEAU.

S. S. LUCE, SUPERINTENDENT.

Trempealeau county has now sixty school districts; nine new districts having been organized during the year. Many of the districts are small and weak, and the people are taxed heavily for the support of the schools, but the natural features of the country seem, in most cases, to necessitate divisions as made by the supervisors.

TEACHERS.

One hundred and three teachers were examined during the year, 73 of whom received certificates. 70 were of the third and three of the second grade. Seventeen were given to males and fifty six were given to females. In addition to the above, six district licenses were given. Of the eighty-nine different persons employed in the schools six showed an aptness for their work, and the same number made

partial failures. The remainder did well considering their youth and inexperience.

IRREGULAR ATTENDANCE.

Nothing retards the progress of education more than the irregular attendance of the pupils. It is noticeable that there is a great falling off during the summer term, commencing about the first of July. At this time many of the larger ones are called to the harvest field, and the debilitating effects of the warm weather are perceptible in both teacher and scholars. I am of the opinion expressed by many other superintendents that there should be a vacation during the months of July and August.

PRIVATE SCHOOLS.

In two or three districts, the inhabitants of which are mostly Polanders, private schools are taught by the Catholic priest, which makes the attendance at the public schools very small. The Polanders do not object to paying taxes for the support of English schools, but keeping their children from them has a discouraging effect, partially defeating the object of our free schools.

SCHOOL-HOUSES.

Two very good school-houses have been built in the county during the year, besides two or three inferior ones. Something has also been done in the way of improving school grounds but not so much as desirable.

TEACHERS' INSTITUTES.

A teachers' institute, occupying three days, was held in September. Forty teachers were in attendance, and the session was a profitable one for those who participated in the exercises, and beneficial results were manifest in the improved system of the teachers.

In conclusion, I may say that although the year has been marked by no extraordinary educational progress, there has been a steady advancement. The people have voted liberal taxes for the support of schools and have encouraged teachers and pupils by their presence in the school-room oftener than during the two previous years.

WALWORTH.

W. H. BRIGHT, SUPERINTENDENT.

The progress made in the buildings, and in the gradation of many of the schools in this county since the last report from this office, is marked, and the credit redounds to the people for the fine edifices erected, and to the teachers for the noble influence exercised for a better system and more thorough instruction.

The spirit of advancement has been among the people, and the argument for reforms and more solid improvement has been used and adopted by nearly every school organization in the county.

Several fine buildings have been erected, and the march of similar improvements has been rapid in some of the villages. Several houses have been finished and furnished in a style comparing proudly with the best in the country.

A house has been built in La Grange, and one in Lyons, each costing \$2,000, having two departments, and intended for occupation this Winter. A new house has also been erected in Sugar Creek. Many buildings heretofore dilapidated have been made comfortable, and many have been thoroughly repaired.

A house 40x90, with front projection of 18x40, and costing \$18,000, was practically dedicated at Geneva, last December, and has since been occupied by from five to six teachers, and from 250 to 350 children. The house is of white brick, two stories, contains four study rooms and two recitation rooms, and has a maximum capacity for 400 pupils. It is finished in white paint and inside blinds, and furnished with Andrew's furniture, single desks throughout, thoroughly ventilated, and is comfortable in all seasons. This school is thoroughly graded and is in good working order. It has 30 foreign pupils this term. Current expenses this year \$3,200.

A fine brown brick house 41x62, with front projection 10x40, was formally dedicated at Elkhorn, Sept. 4th, and has been since occupied by 260 pupils and five teachers. It is two stories high, has four study rooms, one recitation room, is finished in graining, heated by coal stoves and furnished with Andrew's single seats throughout, is well ventilated, and cost, with grounds, \$16,200, and has a maximum capacity for 350 pupils. The grounds surrounding this house are nearly three acres in extent, securely fenced, and ac-

knowledged to be the best public school property in the State. The school is thoroughly graded, and is doing fine work. Current expenses this year \$3,000.

The house dedicated at Delavan, in 1866, is a fine model, and seats 400 pupils; the whole school is graded. Whitewater has enlarged and repaired its high school buildings. The schools are progressing. East Troy has a good school of two departments, and is doing a good work. Darien has two departments, is partially graded, and is progressing. Geneva has a mixed school of two departments, and Troy also.

There have been many changes in the teachers of the village schools during the year. Some of them have been salutary, but most of them have been a positive detriment to the children. The fact that changes of teachers are disastrous—in that pupils and teachers require from two to four months to form such acquaintance as will make the intercourse profitable to pupils in the direction of the studies actually pursued—cannot be too often presented to the people. Other things being equal, would the farmer as readily employ a blacksmith as another farmer, to superintend his harvesting? Would he set a merchant as readily as another farmer to care for his herd? Would the district clerk employ the novice as readily as the experienced teacher, to instruct the children in the sciences—and in the much more important topics of morals and rational religion? The most sacred trust reposed in a government is the education of its children; and that so sacred, so delicate, so arduous a trust should be confided to the best men and women in the country, is a fact affecting not only the destinies of the present generation, but influencing forever those who come after us.

When conducting a teachers' class in examination recently, a district sought a teacher of me; I learned that one of the candidates for a certificate before, had taught the school in question the entire preceding term, and while granting her entire fitness, her general popularity, and his own unlimited confidence in her as an instructor, he did not wish to employ her for fear "*something* might happen."

The remedy then for the gross failures, for the awful blunders and the criminal profligacy of time and energy in school exhibited by some teachers, is not so much in the reach of superintendents who license

them, nor with schools that insure miserable instruction to students who subsequently become teachers—but it does devolve upon district clerks, who can employ and decline to employ those worthless time-servers who have only the power to squander the time and dissipate the energies of pupils by reason of their total lack of managing ability and skillfully directed activity. Let the people then elect to their school district offices those men who know what a good school is by reason of having been taught in one, and who are willing to employ all necessary time to secure qualified teachers, and otherwise to properly provide for and supervise the schools. Let the people no longer elect for clerks, men who are entirely unable to discharge even the clerical duties of the office, much less to manage a school district's funds and property, to superintend its school and school interests.

The county superintendency is a decided success here; in that the standard of qualifications of teachers has been raised from thirty per cent. of correctness at examinations, to sixty per cent.—now required to entitle applicants to certificates. It is also a success in that it has, by securing better qualified teachers, and by means of active supervision, created an ambition among the people for better schools, and in many places they have taken steps necessary to carry their ambition practically to a result.

Those who are interested in the educational work of the county, feel deeply the importance of preserving all of the present county superintendency and of supplementing it with the town district system; and if found elsewhere as here, that more supervision is needed, we hope the system of town supervision may prevail.

There are from this county nineteen persons holding third grade certificates who are students in the Normal School at Whitewater. We hope to receive stimulus in our beloved educational work from this school.

There has been organized and maintained during the year a county association of teachers, holding meetings monthly, which has awakened a lively interest among the communities in school work, as well as having done much valuable institute work and class instruction.

The following is the result of the examinations just finished in this county :

Whole number applying	114
Of which the following passed :	
For first grade	2
second grade	5
third grade	<u>45</u>

The remainder were refused, but owing to the scarcity of teachers I have been obliged to grant permits to 28.

Total licensed to teach	
refused	<u> </u>

I find it impossible to supply the schools with teachers who can come up to the sixty per cent. standing. Some of those I have licensed for six months come but little short of it.

WASHINGTON.

F. REGENFUSS, SUPERINTENDENT.

The past year has been one of prosperity to the majority of the schools of this county. The teachers as well as the patrons of schools have shown a great zeal toward the duty they have to discharge. New school houses, and the union of small districts into larger ones, the increase of teachers' wages, the length of the school terms and the utensils necessary to teaching, as blackboards, maps, &c., found now in a majority of the schools, prove that the people of this county appreciate the services of the teachers and show their love to our "free school system."

During the coming winter we shall have teachers' associations in each town every fortnight, to instruct each other in the different methods of teaching, as well as to create a social feeling among themselves. The teachers' institutes commonly held four days, will be changed in this county to a kind of normal school, having a term of 3 or 4 weeks in the spring, and also in the fall before the commencing of the winter schools, and the teachers will find places for such instructions at Hartford and West Bend, under the conduct of two prominent teachers and my supervision. In the evenings, lec-

tures, essays &c., will be held and read, and we hope the state will allow the same amount of money to these institutes as it does for those held in the old fashioned way. We prefer "practice," but not given for a few days, while a majority of the teachers are too bashful to show their methods &c., but by training them for weeks in the same way as in our state normal schools; the more so as not all the teachers can be accommodated there, and others have not means enough in the first years of their teaching to attend these normal schools.

"Forward" is our motto, but we like in this matter to go our own way—a way found out and acknowledged by a conference and agreement of the most capable and practical teachers in the county.

There are many points, sections &c., in our present school code that ought to be altered, as, for instance, the term of winter schools; it ought to be five months of "winter school," and not merely five months' school during a year. Private examinations ought not to be allowed, for they can not be made so thorough and extended at such a time as a public examination. The county superintendents ought to be allowed to hold their public examinations at any place in the county, and not be confined to a number of towns; for there may be no convenient place in such towns where the superintendent and teachers can find accommodations, and the superintendent is compelled to go through an examination in about 5 or 6 hours, even if he has to examine a large number of candidates.

Generally, we have every reason to be encouraged, and engage in the work of education with renewed vigor for the ensuing year, for there is every prospect of making the schools of this county satisfying to every body; for we have talent, industry, wealth and best of all, a "good will." Under these circumstances we are sure that the principles of our great Republic will find a foundation in the hearts of the young ones that never will be destroyed, but upon which the temple of liberty will stand firm for many future centuries.

WAUKESHA.

W. S. GREEN, SUPERINTENDENT.

I herewith submit the second annual report of the County Superintendent of Schools, showing the condition of the schools under my care.

FIELD OF LABOR.

There are sixteen townships in the county, containing 576 square miles of territory, divided into 81 entire, and 103 parts of districts. There are 120 school houses; of these, one employs six teachers, one four, and five two each; the rest employ but one each. It requires 133 to supply all the schools at the same time.

The number of children reported between the ages of four and 20 is 10,465, a decrease of 172 from last year. Of these, 7,412 are reported as having attended school during the year, an increase of 315 over last year, leaving 3,053 who have not attended school during the year, which is 487 less than last year.

The aggregate number of days taught by qualified teachers is 17,919, which is 2,179 less than last year. To do this work 228 different teachers have been employed—nine more than last year. The total number of days' attendance is reported at 587,750, which is 52,693 more than last year.

The cost of this work is as follows: Average wages of male teachers, per month, \$46.45, which is \$3.33 more than last year; of females, \$26.13, which is 67 cents more than last year. Total amount less sum paid on old indebtedness and for building purposes is \$34,975.04, which is \$5,355 75 more than last year. The average number of days taught is 157, which is eleven less than last year. Cost per scholar enrolled, \$4.71, an increase of 54 cents over last year. The average daily attendance of each scholar enrolled is 78 days—two and one-half more than last year, being 57 per cent., which is six per cent. more than last year. This shows a loss, occasioned by irregular attendance, of 43 per cent. It is truly gratifying to see an improvement in the daily attendance of scholars, and it is earnestly hoped that a much greater improvement will be made in this respect; yet a loss of nearly one-half is a serious matter, and should arrest the attention of every one.

SCHOOL HOUSES.

Of the 120 school houses in the county, 27 are built of brick or stone, three of logs, and the remainder are frame; 30 are reported as being well enclosed, 97 with outhouses, 84 in good condition, and 39 furnished with outline maps—leaving 90 not enclosed, 41 with no outhouses, and 82 with no outline maps. The most of those reported as not being in good repair, might well exclaim, “Oh! that I were a barn!” Yet nearly all of them could be made quite convenient and comfortable with very little expense, by changing the seats so as to have the scholars face the back part of the room, the stove in front, and blackboard and rostrum across the entire back part of the room.

Two new school houses have been built during the past season—one of brick and one of stone. The house in Delafield village has also been repaired, an additional room built and two teachers employed—a much needed improvement.

SCHOOL DISTRICT RECORDS AND REPORTS.

Great improvements have been made in the reports of town and district clerks, still there is room for more. District clerks should see that the teacher makes his report out properly before paying him, and then be very careful himself in making his report to the town clerk. The town clerk should be prompt and accurate in making out his report to the county superintendent, so that no district may fail in obtaining its share of the public money.

TEACHERS' REPORTS.

The system of teachers' reports, adopted by my predecessor, has been continued by me, and I am satisfied that great good has been accomplished by it. Nearly all the teachers reported during the summer term, and I trust a still greater number will report the coming winter.

INSTITUTES.

It is made the duty of the Superintendent to hold at least one institute each year, for the benefit of teachers. The State generously furnishes \$50 to each county each year for the purpose of

defraying expenses. One institute has been held this year in the village of Waukesha. The exercises were conducted principally by Hon. J. G. McMynn. Lectures were given by Hon. A. J. Craig the present State Superintendent, and Hon. J. G. McMynn. 127, teachers were present, besides a large number of citizens. The institute was productive of much good.

NORMAL SCHOOLS.

The normal school at Whitewater is now in operation, affording an excellent opportunity to all who wish to prepare themselves for teaching. This county has the privilege of sending 18, who are allowed the favor of attending free of tuition. Eight or ten have already availed themselves of the privilege, and I trust the balance of the number will be made out.

TEACHERS' EXAMINATIONS.

During the present year ten public examinations have been held, at which there were 327 applicants. Of these, eight received first-grade certificates, 14 second grade, 166 third grade, and 63 limited certificates. Besides these, 22 special examinations have been held. Many of these were held merely to accommodate those who wished to commence teaching before the public examination. Of the applicants at the public examinations, 65 were gentlemen and 262 ladies. It must be remembered that all the limited certificates granted last spring (68) have expired, leaving but 203 now holding certificates granted at a public examination. Eight special examinations have been held since the public, making the total number now holding certificates, 211.

Many of these do not intend to teach, so that at present we have not a large surplus of teachers; enough, however, to supply all the schools in the county.

SUPERINTENDENT'S WORK.

• The examination of 327 applicants, writing an average of nine pages each, involves the reading and marking of 2943 pages. This with the 22 special examinations, the copying, enrolling the names, filling out certificates, getting up questions, making out reports and the office correspondence, occupies the entire time of the superinten-

dent during the vacancies between the usual terms of school. One hundred and nine schools have been visited, many of them twice. It has been my purpose generally, to visit but two schools a day, staying in each half a day; a shorter time would be productive of but little good.

IN CONCLUSION.

I think I can safely say that at no former period has there been so much interest manifested in the cause of education by the people of this county, and in having good schools, as at this time. Never has there been such a call for good teachers, and especially male—Good wages have been offered, and the best class of teachers employed. I think we have as good a class of teachers as can be found in any county in the State. Permit me to again return my sincere thanks to all who have so generously assisted me in the laborious duties of this office.

WAUSHARA.

THEO. S. CHIPMAN, SUPERINTENDENT.

In visitation of schools, all the schools of the county have been visited once, all but four twice, during the year, and a number twice during each term. I have found district officers generally willing and ready to co-operate with me for the advancement of the schools.

During the year some improvement has been made, in the erection of new school-houses, but we still have many poor houses.

During the year there has been held one normal school or school for teachers, consisting of a term of seven weeks, closing April 17th, 1868, just before the institute—held at Wautoma with an attendance of fifty-six. A tuition fee of \$3 per term was charged. Byron S. Williams was employed as assistant teacher and heartily co-operated with me for the advancement of the school.

WINNEBAGO.

S. SHAW, SUPERINTENDENT.

I shall confine myself to a statement of a few of the facts that are not contained in the statistical columns of my annual report.

EXAMINATIONS.

Among all the duties of a county superintendent, I believe there is none other so absolutely important as a careful inspection of those who desire to fill the difficult and responsible position of teacher. I am aware that many attach more importance to the number and length of his school visits; but how far can his diligence in this respect remedy the injuries inflicted upon a district by an incompetent teacher licensed on account of his carelessness?

It is to his skillful and thorough examinations that the people must look for a selection of only those who are best qualified among the applicants for the significant work of the school room. It is to his prudence and inflexibility that those who obtain certificates must look for the maintaining of so high a standard of qualifications that they, upon the relation of demand and supply, may receive an adequate remuneration for their labor.

With this in view I have endeavored to secure the presence of all our teachers at the regular examinations, but have not succeeded. I am convinced that many remained away from them unnecessarily, upon various excuses, frivolous and false, and subsequently applied for special examination, expecting to be questioned on a few branches in a superficial manner, and licensed without having any standing of scholarship marked upon their certificate.

While instances may arise where a teacher can not attend the regular examinations, especially in the case of those living out of the county, yet there is neither sense nor justice in so many remaining away as have done in Winnebago during the present year.

Two courses have been left open for me to pursue in seeking to discountenance and remedy this evil. 1st. To insist upon satisfactory proof of unavoidable absence from the regular examinations, and refuse special inspection if it be not given. This I consider of but little practical value, because all who applied late here, had some show of excuse, satisfactory to themselves and friends at least, so that a superintendent would hardly be sustained in refusing them special examination. 2d. To make these special examinations as searching, and, if need be, as lengthy as the regular examinations. This course has been invariably pursued—with what effect can be better told in another year.

Would it not be well if those that apply late were compelled to pay a snug sum for the privilege of special inspection? It is my opinion that some such plan would materially lessen the number of those who as they say, had not quite concluded to teach at the time of the regular examination; or who found it so all-important to go off visiting then; or who actually did not know when and where the examinations were to be held. Would it not serve as a powerful tonic also to strengthen many, fearfully subject to semi annual epidemics.

LICENSES.

Many school boards, upon the plea that their school was small and not far advanced, have requested a license for some favorite, incapable of obtaining a certificate. I have acted on such occasions with a great deal of caution and stringency, realizing that while no one kind of test of a teacher's ability is infallible, yet in case of a stranger, scholarship is the best that can be had.

Accordingly, when circumstances compelled me to license, I did it only with the unanimous consent of the Board, and upon a standard of scholarship just a trifle lower than that required for a regular third grade certificate. Thus licenses are really limited certificates rather than a blind submission to the opinion of any set of school officers unable to estimate the ability of a teacher with any degree of certainty. I have never granted blank licenses, as I believe they are detrimental to both teacher and superintendent.

ENDORISING CERTIFICATES.

Many teachers residing in other counties have asked me to endorse their certificates, urging the inconvenience and expense of of further examination. I have invariably refused to accede to their request, for reasons well known to you. My experience is that generally the best teachers of any county remain in, it while the poorest have to look elsewhere for employment. I wish it could be generally understood that endorsing certificates is not recommended by our state Superintendent.

MONTHLY REPORTS.

The teachers in this county have been requested to transmit mon-

thly reports and most of these have complied. Data have been found in these of much interest and value to me; but I think the plan adopted by several county superintendents of collecting them and making a monthly abstract to be printed and distributed throughout the county, is the best means of making them an entire succes. I expect to make such an arrangement with our board of supervisors as to do that in this county.

Is the committee appointed at Milwaukee last summer likely to agree upon some form of monthly reports that will be uniform throughout the state?

INSTITUTE.

We were disappointed in not having a larger attendance of teachers, especially as those who need such work most were numbered among the missing. In every other respect, the institute was all that could have been desired. Still I think more good can be done to the weaker teachers in a town association than a county institute. We have none of the former yet in Winnebago, but expect to report some next year.

NORMAL PUPILS.

Six applicants have been sent from this county to Whitewater since the first of January. Efforts are being made to secure a more numerous delegation than this in the future. We stand in great need of a larger number of teachers that have received such instruction as can be best obtained in our normal schools. Teachers who are so well versed in the constitution and laws of our land that the next generation of voters cannot possibly be so profoundly ignorant as the present of their own form of government. Teachers who have obtained such a knowledge of the principles of hygiene, that physical culture will not be so entirely ignored as it is now in most school-rooms. Teachers who, above all, are competent and willing to give instruction to their pupils which must act as a balance wheel upon their future conduct, and without which all mere mental training becomes a positive injury.

WORK.

This report is so extended already that I shall not enter into a minute statement of what has been done for the various districts.

Such a report has been submitted to the county board of supervisors who ought naturally to be more interested in it than our state department.

Suffice it to say that much has necessarily been left undone that ought to have been done; and permit me to express the hope that our next legislature will not retrograde, as many of our educators fear; but, acting upon your advice, will go on to perfect our educational system now so well begun, until Wisconsin shall rank second to none of her sister states in the excellence of her common schools.

REPORTS OF CITY SUPERINTENDENTS.

BELOIT.

RUFUS KING, SUPERINTENDENT.

I am happy to state that the public schools of this city are in excellent condition, and the scholars in every grade making satisfactory progress.

We have in this city two graded schools, each having three departments, Primary, Intermediate and Grammar. An outline of the course of study in the different grades is as follows :

Tenth Grade.—Reading from cards and blackboard. Printing and writing the reading and spelling lessons, and the Arabic numbers as far as twenty.

Ninth Grade.—Reading cards reviewed. McGuffey's First Reader, com. Oral Arithmetic through 4 plus 10. Writing exercises on slate and blackboard.

Eighth Grade.—McGuffey's First Reader, completed. Spelling from the Reader. Oral Arithmetic through addition and subtraction. Writing exercises on slate and blackboard.

Seventh Grade.—McGuffey's Second Reader. Spelling all the words of the Reader. Robinson's Table Book to page 50. Instruction in music. Writing on slate and blackboard.

Sixth Grade.—McGuffey's Third Reader. *Spelling the words of the Reader. Writing on slate and blackboard. Robinson's Table Book, completed. Mitchell's First Lessons in Geography. Singing.

Fifth Grade.—Sanders' Union Third Reader. Spelling lessons from the Reader. Spencerian Penmanship. Robinson's Primary

Arithmetic to page 60. Mitchell's Primary Geography to page 53. Vocal music.

Fourth Grade.—Sanders' Union Fourth Reader to page 200. Spelling Lessons from the Reader. Spencerian Penmanship. Robinson's Primary Arithmetic, completed. Robinson's Rudiments of Written Arithmetic to page 74. Mitchell's Primary Geography, from page 53 through. Instruction in vocal music.

Third Grade.—Sanders' Union Fourth Reader, from page 201 through. Spelling lessons from the reader. Spencerian Penmanship. Robinson's Intellectual Arithmetic to page 118. Robinson's rudiments of Written Arithmetic, from page 74 through the book. Greene's Introduction to the study of English Grammar, to page 88. Mitchell's Intermediate Geography to page 57. Instruction in vocal music.

Second Grade.—Sanders' Union Fifth Reader, to page 220. Spelling lessons from the Reader. Spencerian penmanship. Robinson's Intellectual Arithmetic, completed from page 118. Robinson's Practical Arithmetic, from beginning to page 231. Mitchell's Intermediate Geography, from page 57 to 88. Greene's Introduction to the study of English Grammar, from page 88 to 152. Anderson's Grammar School History of the United States, to page 105. Instruction in music.

First Grade.—Sanders' Union Fifth Reader, completed. Spelling lessons from the Reader. Spencerian Penmanship. Robinson's Intellectual Arithmetic, reviewed. Robinson's Practical Arithmetic, completed and reviewed. Mitchell's Intermediate Geography, completed and reviewed. Greene's Introduction to English Grammar, completed and reviewed. Anderson's Grammar School History of the United States, completed and reviewed. Instruction in vocal music.

The foregoing is a mere synopsis of the revised course of instruction, and will give a general idea of the plan pursued. Connected with this there is a regular system of oral teaching. Many useful and practical subjects, which are not treated in the text books named above, are thus brought before the minds of the pupils.

The number of scholars between the ages of four and twenty is nine hundred.

The number of teachers employed in the schools is eighteen, who discharge their duties in the most efficient and satisfactory manner.

The organization of the High School is being perfected and I feel safe in promising a most favorable and satisfactory report for your next publication.

A very fine location has been purchased for the High School building, which is expected to be in readiness for occupation by next September.

BERLIN.

W. A. BUGH, SUPERINTENDENT.

I am pleased to report that our schools are in a very excellent and flourishing condition, excelled perhaps by few in the State, bringing from the surrounding country a large number of tuition scholars, who prefer these schools to the more advanced Collegiate Institutions. We employ a corps of 11 teachers, with salaries varying from 25 to 100 dollars per month, according to the grade of the school taught. The High School is under the charge of Rev. D. E. Holmes and his lady, and the Grammar School under the charge of Mr. J. L. Marsh; and all of our teachers are, of superior ability, and excellent instructors, under whose industrious services the pupils have been making rapid progress, highly creditable to themselves and their teachers.

Our people have recently completed two large and commodious buildings for school purposes—one at a cost of \$7,000, and another, the High School building, at a cost of \$24,000. The latter building is located in one of the most elevated positions in our city, commanding a fine view of the adjacent country, and is surrounded by a fine *campus* of 13 acres. The plan of the building was drawn by that celebrated architect, Mr. Randall, of Chicago, and for comfort, convenience and elegance is not surpassed by any public school edifice in the State.

The Board of Education of the city has recently adopted the following Text Books :

High School.—Physiology, Jarvis'. Orthography, Wright's. Analysis of English Sentences, Welsh's. Physical Geography, Warren's. Rhetoric and English Composition, Quackenbos'. Philosophy, Wells'. Geology, Wells' Chemistry, Youman's. Astronomy, Robinson's. English Literature, Shaw's. Botany, Gray's. Intellectual and Moral Science and Political Economy, Wayland's. Logic, Whately's. Latin Series, Andrews & Stoddard's.

Grammar and Intermediate.—Mathematics, Robinson's Series—entire. Geography, Mitchell's Series—taught Topically. Grammar, Quackenbos'. Readers and Spellers, Sanders' Union—entire. Histories, Goodrich's and Wilson's series. Readers and Spellers, Saunders' Union—entire. Writing, Spencerian System.

The grade or course of study for the several departments of the schools, as recently adopted by the Board of Education, is as follows :

Primary Department.—No scholar admitted under five years of age. Studies—Primer, First Reader, Second Reader, Spelling, Printing, Oral Arithmetic, Oral Geography, Writing Numbers, Singing, Object Lessons and Gymnastics.

Secondary Department.—Terms of admission.—Spell seventy-five out of one hundred words from the First Reader. Write any number up to one thousand. Multiplication table to sixes. Print and write the alphabet. Read simple sentences in writing and qualified to read in Second Reader. Studies—Second Reader, Third Reader, Spelling, Printing, Finish Primary Arithmetic, Intellectual Arithmetic to Division, Primary Geography, Intermediate Geography, Map Drawing, Oral Instruction in Natural History, Singing and Physical exercises.

Intermediate Department.—Terms of admission.—Spell seventy-five out of one hundred words from the Second Reader, qualified to read in Third Reader, in Geography give definitions, bound each of the United States and give their Capitals, have completed Primary Arithmetic. Studies—Third Reader, Fourth Reader, Inter-

mediate Geography, Intellectual Arithmetic, Rudiments of Arithmetic, Practical Arithmetic, Map Drawing, Oral instruction in Natural History, Singing, Physical exercises and Declamation.

Grammar School.—Terms of admission—Spell seventy-five out of one hundred words from Third Reader, Practical Arithmetic through fundamental principles to fractions, qualified to read in Fourth Reader Studies—C grade—Fourth Reader, Practical Arithmetic, Mental Arithmetic, Intermediate Geography (completed) Orthography with reading and spelling, Declamation, Lessons in Composition once a week. B grade—Practical Arithmetic, Mental Arithmetic, Fourth Reader, Orthography with reading and spelling, Declamation, Composition, History of the United States and English Grammar. A grade—Fourth Reader (completed), Practical Arithmetic (completed), Speller (completed), History of the United States (completed), English Grammar (completed), Oral Instruction, each term as teacher may direct.

High School.—First Year, First Term—Higher Arithmetic, Physiology and Hygiene. Analysis of English sentence and Orthography. Second Term—Higher Arithmetic, Physiology and Hygiene, Analysis of English sentence and Orthography. Third Term—Higher Arithmetic, Elementary Algebra, Analysis of English sentence and Agricultural Chemistry. Second Year, First Term—Elementary Algebra, Universal History, Physical Geography and English Composition. Second Term—Universal Algebra, Universal History, Physical Geography and English Composition. Third Term—Geometry, Rhetoric, Natural History and English Composition. Third Year, First Term—Geometry, Rhetoric, Natural History and Latin. Second Term—Geometry, Natural Philosophy, Geology and Latin. Third Term—Natural Philosophy, Chemistry, Geology and Latin. Fourth Year, First Term—Chemistry, Intellectual Philosophy, Astronomy and Latin. Second Term—English Literature, Intellectual Philosophy, Astronomy and Latin. Third Term—Moral Philosophy, Logic, Botany and Latin. Composition and Declamation throughout the entire course, and Reading and Spelling every week.

Public examinations in all the grades when the classes complete their studies, and when they advance from one department to another,

ENUMERATION.

According to the recent enumeration, we have in the city a total of 1,114 scholars—535 male. and 579 female.

 FOND DU LAC.

G. H. BRONSON, SUPERINTENDENT.

The schools of our city are graded. We have first, second and third, primary, intermediate, grammar and high schools, all of which have a two years' course of instruction except the High School, which is four years.

Our teachers are all females from the principal down, and probably the schools were never under better discipline, mental and physical, than at this time. The reason for it may be our board have taken great pains to get well educated ladies for teachers and therein have had regard to refinement of manners, capacity to govern and impart knowledge, as well as a suitable education. The board have also given the several schools much of their personal attention. They believe the schools should be often visited by parents and the authorities; that it strengthens and encourages the teachers and animates the scholars.

We exclude from our schools all corporal punishment of females, believing it barbarous and useless.

The principal of our High School is Miss L. H. Eaton, a graduate of Glenwood Seminary, Brattleboro, Vermont. She is well-qualified for her position, possessing the rare faculty of imparting instruction with ease and pleasantness, and of governing with grace and dignity of manners, instead of the old method of the rod and ferule. The two head teachers of our Grammar Schools are also graduates, and well-qualified for their positions. Until the present year our principal teacher has been a male, his salary varying from twelve to seventeen hundred dollars. We now secure the same service, much better performed, for seven hundred. The salaries of our other teachers range from three to five hundred dollars.

We have thirty-six teachers—two in the High School, three in the Grammar, eight in the Intermediate Department, and twenty-

three in the other schools. We also have sixteen school houses and four rented buildings for school purposes.

Within the past year our High School building proper has been burned, and, a few days ago, the same misfortune befel the building rented for that purpose. In the first fire, all our records were destroyed, also all our school books, including those belonging to the scholars; together with our philosophical apparatus. In the last fire we saved nearly all the books and apparatus, but again lost our records. Our grammar school was in the same building. By the active energy of our Board, new rooms were procured and both schools going again in less than a week.

Before closing, it may not be amiss to present the following general summary :

The number of children within school age.....	5,501
The number enrolled, about.....	3,000
Average number attending, about.....	2,000
We have seats for about.....	2,000

I would also report that we have already commenced a new building for a High School, on the ground on which the old one was burned, about 75 by 93 feet, with three stories and a basement; and it is intended to have four school rooms to a story. It is to be of brick and stone. Estimated cost, from \$35,000 to \$40,000; and calculated to accommodate between seven and eight hundred students.

Our present school buildings are of wood—certainly not the best material—and they are not as commodious as they should be; but I trust and hope, time and good judgment, with the intelligence and characteristic energy of our people, will soon correct these deficiencies.

HUDSON.

E. P. HUGHES, SUPERINTENDENT.

Our schools are, by a special act of the legislature, under the control of a board of trustees, consisting of two commissioners from each ward, and a city superintendent, chosen by the school commis-

sioners, at their annual meeting in April, in each year. The whole control, supervision and management of the schools are in the school board, with the burden of management falling on the superintendent.

I am sorry to say that our schools are, in a measure, retrograding—that is, in the matter of grade. Until a couple of years ago we adhered strictly to the graded system, but of late, on account of the great lack of school room, we have been compelled almost entirely to abandon the strictness in grade to which we have heretofore adhered, by reason of having to promote scholars from one department to another, before they had attained sufficient advancement to make room for others.

The following will show something of the condition and wants of our schools in the matter of buildings. We have in this city about seven hundred children who ought to attend school every day. We have three houses to accommodate them; two of them are of brick, and one, the union school house, a wooden building. The brick houses were built last year, and are very good buildings. The three houses will accommodate, all told, three hundred and seventy-five scholars. We have no room for the rest of the seven hundred children. We have but one private school in the city. I am in hopes that before another annual report is due, the superintendent can make a better report on school buildings.

As to the schools, I will say those in the union (2d ward.) building, are divided into four departments, each one independent of the rest. Number four is the high school, number three the intermediate, and the rest, together with those in the first and third wards, are primary schools. We have an excellent corps of teachers in the schools, with the exception of the high school. We have no teacher for that at this writing, having concluded to employ a new principal to commence next term.

We have a choice library of about eighty volumes, and some very good philosophical apparatus in the high school. We pay our teachers from three hundred and sixty to one thousand dollars a year, according to the position they hold.

One of the greatest obstacles the board and teachers have to overcome in Hudson, is the lack of interest, on the part of many of the

parents, in the welfare of the schools. There is also a disposition to find fault with the teachers, upon the "ipse dixit" of their own children, without visiting the schools to see for themselves how they are conducted. But notwithstanding this, I think the great majority of the people of Hudson are justly proud of our schools, believing we have as good schools in Hudson as any other town of its size in the north-west, and it is the determination of the board and those who can take time to interest themselves in the schools, to keep them so.

JANESVILLE.

O. R. SMITH, PRINCIPAL OF HIGH SCHOOL.

In compliance with your request I send you the following report of the condition of our public schools.

Our schools are organized upon the graded system. There are twenty-four grades, four divisions, and fourteen departments :

High School division, six grades, one department.

Grammar division, eight grades, two departments.

Intermediate division, four grades, five departments.

Primary division, six grades, six departments.

The course of study is carefully graded, requiring twelve years for its completion. Promotions are made semi-annually on a written examination. The gradation is kept clear by a monthly written examination of all except the primary division, which is examined orally. The attendance during the year just closed has been 92 per cent. of the members of the schools. The instruction in the schools has generally been good; each teacher is required to make preparation in writing for the work of the day. This has been in practice for more than a year, with gratifying results; it has met opposition only from inefficient teachers.

We have been able to get along with little or no corporal punishment. The use of it has been discouraged, and teachers who formerly would whip for a trivial offence, have learned to be prudent and thoughtful in their modes of punishment, and a better feeling towards our schools has been the result.

Our school-buildings are not in a good condition. We are tied by limitations in our city charter, in such way that we cannot buy a dipper from which the children may drink without most carefully estimating whether it is not an extravagance in the present condition of our funds. Much less can we make repairs upon our buildings unless we close the schools to save money for the purpose. During the year the grounds of the high school building have been fenced and graded, and the out-buildings put in a decent condition. By a special act of the last legislature we have been enabled to make an appropriation for a school building in the First ward. The plans have been prepared and the contracts let. It will be ready for occupancy next fall. The estimated cost is \$16,000. I think the building will be a model of convenience for a ward school.

There is an increasing feeling among our citizens that by some means more liberal provisions must be made for the support of our public schools. I confidently hope that it will ripen into action.

We hold teachers' meetings weekly, and through this agency are enabled to secure harmony of action in school management.

At your request I send the daily programmes of the intermediate and primary divisions for the last term.

Programme of Intermediate Division, Janesville Public Schools.

Time.	No. min.	Principal.	Assistant.
9	5	Opening Exercises.	
9.10	10	General Business.	
9.15	20	Reading, A.	Spelling, C.
9.35	25	Practical Ari'th, B.	Mental Arithmetic, D.
10	20	Mental Ari'th, A.	Reading, C.
10.20	10	General Exercise, Oral Instruction, General Topics.	
10.30	15	Recess.	
10.45	5	Study.	
10.50	20	Geography, B.	Reading, D.
11.10	5	Physical Exercise.	
11.15	20	Spelling, A.	Mental Arithmetic, C.
11.35	15	Writing.	
12	90	Intermission.	
1.30	10	General Exercise, American Biography.	
1.40	20	Reading, B.	Spelling, D.
2	5	Singing.	
2.5	25	Practical Ari'th, A	Map Drawing, C.
2.30	20	Mental Ari'th. B.	Map Drawing, D.
2.50	10	General Exercise.	
3.00	15	Recess.	
3.16	45	Study.	
3 20	25	Geography, A.	Geography, C.
3.45	10	General Exercise, Object Lessons.	
3.50	20	Spelling, B.	Geography, D.
4.10	10	Reports.	
4.20	10	Singing.	
4.30	Dismissal.	

Friday, P. M., after recess, will be devoted to composition and declamations. Divide the school into two divisions. 1st division, A and C. 2d division, B and D. Have the pupils rehearse and drill them carefully. Let all write compositions.

The general exercises must be carefully prepared, writing out. Standard works upon biography should be selected for preparation.

Object lessons should be carefully prepared. Minerals, trades and professions, animals, plants, &c., will furnish topics.

N. B.—The above programme is to be rigidly adhered to.

Programme Primary Division Janesville Public Schools

Time.	No. min.	Principal.	Assistant.

3.40	15	Geography, A.	Geography, B.
3.55	05	Physical Exercise.	
4.00	15	Spelling, A.	Spelling, B.
4.15	10	Object Lessons—Tools and Materials, and Divisions of Time.	
4.25	05	Singing.	

N. B.—This programme is to be rigidly adhered to. Every exercise must be carefully prepared by the teacher. Oral instruction and Object lessons must be carefully studied and judiciously adapted to the needs of the school. Care must be taken in singing that the songs are suitable in sentiment and in tune. There is danger of injuring the voices of children by having them sing with so violent an energy as is too often done. The Physical Exercises must not be violent. Lessons upon neatness should be given, by having the pupils arrange your table, their desks, the things in the room, &c. Moral lessons can be given by telling some story which will teach love to parents and others; friendship, kindness, gentleness, obedience, honesty, truthfulness, generosity, self-denial, diligence, courage, patience, &c.

Teachers must be careful of the language which they use in school; let it be pure English, spoken in gentle terms. Never fret nor scold.

Despite the obstacles in the way of the teacher in this city, I feel that some progress has been made in the right direction during the past two years, and the indications are favorable for the work in the future. I go to it confident of heart, doubting not that the next report will show an educational advance in this city.

LA CROSSE.

N. C. CHAPIN, SUPERINTENDENT.

Our Board of Education was organized early in the year 1867. Five Commissioners chosen annually by the City Council constitute the Board, viz.: one from each ward, and one for the city at large. The whole management of the public schools is committed to this board. The commissioners elect a city superintendent who is also clerk of the board. They also determine, with certain limitations, the amount to be received by taxes for school purposes. Under this direction the schools of this city have risen very materially in character and value. A much larger amount of money than ever before has been expended on the schools. Higher wages have been paid to teachers, who, as a natural consequence, have done their work better. The schools have been carefully graded, in accordance with a definite plan of progressive studies. Some decided improvements have been made in the buildings and furniture. Good rules of order and discipline have been adopted and enforced. A larger number of children have received instruction and *better* instruction.

We have as yet no High School. Our departments are Primary, Intermediate and Grammar, with four grades or classes in each department. We are in great need of larger accommodations. A new building, it is hoped, will be provided very soon. A high school will also be organized as soon as possible. Fifteen teachers are now employed, three men and twelve women. The scholars enrolled are nearly eight hundred. Irregularity in attendance affects the schools very unfavorably. How to remedy this evil is with us a grave and difficult problem. The correction of the evil lies very much with parents and guardians, who seem generally to have no fit appreciation of its magnitude and mischief.

MADISON.

B. M. REYNOLDS, SUPERINTENDENT.

I have nothing particular to report in regard to the schools of this city, except that they continue to prosper, and appear to meet the wants of our citizens.

We have seats very comfortably arranged for upwards of eleven hundred pupils, and these seats are nearly all occupied. The schools are under the charge of twenty-two teachers, including the superintendent, who acts as principal of the high school and is the only male teacher in the corps.

The teachers are discharging their duties with a zeal, fidelity and ability worthy of commendation.

Efforts have been made to improve the penmanship of our pupils, which heretofore has been very poor. Much valuable assistance has been rendered by Prof. B. M. Worthington, of the Northwestern Commercial College in this city, and we have also had one very excellent lecture before our teachers, on this branch, from Prof. Spencer, of Milwaukee. I think that we have made a good beginning in this art, and that in the coming year much progress will be made.

The discipline of the schools, on the whole, is good, there being but few cases of corporal punishment reported. Our board has a regulation requiring teachers to report all cases of corporal punishment, with the causes thereof, and all attending circumstances. This regulation has reduced the number of such punishments without injuring the good order of the schools. I think the order is better than it was before the regulation was adopted.

Two years since I transmitted to your department our programme of studies. Since then it has been somewhat modified, but is still very defective. Ours is a programme by text-books instead of a programme by subjects without regard to text-books, as it should be. A programme judiciously arranged by subjects will be more definite, and in passing over it less time will be frittered away upon things comparatively useless. Corresponding classes in the different schools will be kept more nearly together, with a view to their being brought into the same classes in higher grades, and more oral

teaching may be secured, and teachers will be debarred from spending an undue amount of time and attention upon favorite studies.

I am not certain but that in the lower grades of our schools, we aim too much toward a high average per cent. of scholarship, and consequently remain too long on a given subject, and thus discourage those pupils who learn their lessons well and do not need to re-view them so much as is required of them. In passing through a book or over any subject for the first time, I would suggest whether fifty or sixty per cent. may not be an average high enough. In going over the subject the second time, a higher per cent. may be aimed at.

Another point on which I fear we make a mistake in our graded schools, is the tendency of teachers and boards to arrange their programme and conduct their instruction as if all the children under their care were to enter the various learned professions. Only a very small proportion of them are to enter the professions, and the studies in the various grades should be thoroughly practical and have more direct reference to practical life, while at the same time they afford sufficient mental discipline.

The large majority of the children are to engage in manual labor, and the education furnished should have this fact fully in view.

Could we act according to this consideration we should modify our system of instruction very materially.

In furnishing school accommodations, our Board have been more anxious to provide seats for the Primary Grades than for the High School Grade, and consequently they have built their school houses with a view to provide for the smaller children, and our high school house is yet to be built. We have, however, good accommodations for the lower grades. I think the policy of the board is the correct one; and had it been more carefully pursued by all the cities and towns of the Northwest, it would have been better for the cause of primary education.

MILWAUKEE.

F. C. POMEROY, SUPERINTENDENT.

The number of children of school age in the city August 31, 1868, was 23,660. This is an increase of about seven per cent.

on the number returned by school census in August, 1867. The increase in the number enrolled in our schools is over eleven per cent.; in average number belonging, over twelve, and in average daily attendance over nineteen per cent. The average increase on number enrolled since 1864 has been over one hundred per cent. While these figures show that our schools are becoming every year better appreciated by our people, yet they fail to show the real improvement—improvement in class room work. In this important particular we think we can report a per cent. of improvement far beyond that of average daily attendance. The amount expended during the past year was \$73,819.20. Of this amount \$61,674.31 was expended for salaries, the remainder for fuel, repairs, supplies, printing, &c. The cost of instruction per child, estimated on the number enrolled was \$7.04; estimated on the daily attendance, was \$12.62.

The High School was opened January 1, 1868. The number of applicants 192; number admitted 128—all but 17 from the public schools. The examining committee appointed by the Mayor use the following language in their report of this school: “The committee’s attention was at once attracted to the *deep, earnest work* that appeared, both on the part of teachers and pupils. Earnest study and close attention on the part of the pupils to the instruction of the teachers strikes a visitor as the leading feature of the school.”

The number of days the schools were in session, 199. Per cent. of attendance on number belonging, 94. On punctual attendance 96. Number of teachers examined 98. Number of certificates granted 59. The number of suspensions during the year is as follows: absence 361, truancy 11, defacing furniture 1, bad conduct 1, disobedience 9, communication 3, improper language 2, fighting 3. Number of visitors 6,012.

In June the Board adopted a list of text-books in compliance with special act of legislature, which list cannot be changed for five years. The Board in August established a new grade for the schools. This grade went into effect in September; it works well and the schools are improving under the same.

GRADE OF MILWAUKEE PUBLIC SCHOOLS.

Grade 10.—Pupils in this grade must thoroughly learn the charts—not only to read but also to spell the words; to form simple sentences and print or write the same on their slates: notation and numeration to one hundred; drawing simple forms. Oral instruction—Common objects, their size, color and more observable qualities.

Grade 9.—Pupils in this grade must learn to read readily the lessons in the First Reader; to spell any of the words in the same; to perform correctly any example in addition not exceeding five places of figures; notation and numeration to tens of thousands; writing on slates simple sentences; drawing familiar objects. Oral Instruction—Domestic animals, trees and primary colors.

Grade 8.—Second reader begun and finished; particular attention to punctuation marks; spelling both by letter and sound; dictation; notation and numeration to millions; subtraction, with an occasional review of addition; writing simple sentences with capital letters; drawing. Oral Instruction—Wild animals, secondary colors, plants and vegetables.

Grade 7.—Third Reader begun and finished; dictation exercises; arithmetic through multiplication; oral lessons in geography; primary geography to North America; mental arithmetic to multiplication; writing; drawing. Oral Instruction—Trades, tools and materials; divisions of time.

Grade 6.—Fourth Reader as far as lesson forty; dictation exercises; arithmetic through division; primary geography to South America; mental arithmetic to parts of numbers; writing; drawing. Oral Instruction—Parts of the body; five senses; kingdoms of nature.

Grade 5.—Fourth Reader finished; arithmetic to fractions; primary geography finished; mental arithmetic to fractions; map drawing; writing; spelling, oral and from dictation. Oral Instruction—Air, light, heat; agricultural and mineral productions.

Grade 4.—Fifth Reader to lesson fifty; arithmetic to ratio; mental arithmetic through fractions; grammar to verbs; inter-

mediate geography to South America; map drawing and drawing lessons; composition; writing. Oral Instruction—Biography-(national); solar system.

Grade 3.—Fifth Reader finished; Arithmetic to alligation; Mental Arithmetic completed; Grammar to syntax; Intermediate Geography completed; spelling, oral and from dictation; declamation; composition; writing; drawing. Oral Instruction—Biography, (foreign).

Grade 2.—Arithmetic completed; Geography reviewed; Map drawing from memory; Grammar finished; History to Washington's administration; declamation; composition; drawing; writing. Oral Instruction—Bone and muscles; digestive organs.

Grade 1.—Higher Arithmetic; English analysis; Physical Geography; History completed; Algebra through simple equations; declamations; composition; drawing; writing. Oral instruction—Respiration and circulation; nervous system.

GERMAN GRADE.

Grade 9.—Reading from charts; writing small letters.

Grade 8.—First Reader; writing capital letters.

Grade 7.—First Reader; writing words.

Grade 6.—Second Reader; writing sentences with capitals.

Grade 5. Second Reader; writing.

Grade 4.—Third Reader; writing; written translations.

Grade 3.—Third Reader; writing; grammar; written translations.

Grade 2.—Fourth Reader; writing; written translations; grammar

Grade 1.—Fourth Reader; grammar; written translations.

LIST OF TEXT BOOKS ADOPTED FOR USE IN THE PUBLIC SCHOOLS OF MILWAUKEE.

Readers.—McGuffey's First, Second, Third, Fourth and Fifth Readers, and McGuffey's Speller.

Arithmetics.—Ray's Mental Arithmetic, Ray's Practical Arithmetic and Ray's Higher Arithmetic.

Grammar.—Kerl's Common School Grammar.

Geography.—Mitchell's Primary, Mitchell's Intermediate, and Mitchell's Physical Geography.

History.—Goodrich's United States History.

Penmanship.—Spencerian System and Spencerian Copy Books. Alden's Young Citizen's Manual.

German.—Raffler's First, Second, Third and Fourth Readers; Ahn's German Course, First and Second Books; Hey's (small) German Grammar and Oelschlager's Dictionary.

OSHKOSH.

H. B. DALE, SUPERINTENDENT.

Our census shows a trifle over 4000 persons between the ages of four and twenty residing in the city. Of this number about 2,000 have been enrolled in the public schools during the year as follows: high school 60; "A" grammar school 60; "B" grammar school 130. The balance, intermediate and primary, being about evenly distributed in the five wards of the city.

Probably about 500 are in attendance upon the various private and church schools, leaving a balance of about 35 per cent. out of the schools. We employ twenty-eight teachers all ladies, except principal of high school and one German teacher. Average salary of ward teachers \$35 per month. Principal of high school \$180 per month. German teacher \$100 per month.

During the past year we have completed a high school building than which there is probably no finer of the kind in the state. We have also erected a building for fourth ward school, accommodating 500 pupils, at an expense of \$10,000.

Herewith I send you a copy of our general regulations, together with plan and courses of instruction, text books, etc.

COURSE OF INSTRUCTION.

SECOND PRIMARY, *Class "F.," 1st year.*—The class shall be subdivided into as many sections as the teacher may deem necessary.

Oral instruction.—Lessons on the human body; five senses; common things; size, color, and prominent qualities; habits of order; morals and manners; reading from charts and blackboards.

with exercises in spelling, both by letters and sounds, until the child can spell correctly, at least one hundred words, in the first half of the primer (Hillard's Primer); counting from one to sixty; singing, and physical exercises, four times per day.

FIRST PRIMARY, *Class "E.," 2d year.*—*Oral instruction.*—Animals, colors, and classification of objects, as belonging to either the animal, vegetable, or mineral, kingdoms; morals and manners; reading and spelling, (Hillard's Primer and First Reader, completed, Second Reader begun); the names and forms of the different pauses, with the proper use of the period; spelling; counting, from one to one hundred; reading and writing Arabic numbers, to one hundred; Roman numbers to "L."; exercises in adding series of small numbers; oral geography; writing, on slates, and blackboard; singing and physical exercises.

Class "D.," 3d year.—Object lessons continued. Reading and spelling, (Hillard's Second Reader, continued and completed), with particular attention to punctuation, definitions and illustrations; spelling the reading lesson. Addition and subtraction, (Robinson's Primary); reading and writing Roman numerals, to one hundred; Arabic numerals to five hundred. Writing and printing on slates and blackboard. Geography, (Mitchell's Primary), to page 54. Singing and physical exercises.

SECOND INTERMEDIATE, *Class "C.," 4th year.*—Reading and spelling, (Hillard's Third Reader), three terms, with strict attention to punctuation, definitions and illustrations; spelling the reading lessons, both by letters and sounds. Arithmetic, (Robinson's Primary), completed and reviewed; three terms. Writing, on slates and blackboard, Roman numerals to 500; Arabic numerals to 10,000; words from the reading lessons; three terms. Geography, (Mitchell's Primary), completed and reviewed, with constant use of the globe and maps; three terms. Singing, and physical exercises.

FIRST INTERMEDIATE.—*Class "B."*—*Fifth Year.*—Reading and spelling, (Hillard's Third Reader), 1st and 2d terms, completed; (Hillard's Fourth Reader), 3d term; close attention to

punctuation, definitions, and illustrations; written and oral spelling from reading lessons. Arithmetic, (Robinson's Intellectual, to page 118, three terms; (Robinson's Practical Arithmetic), to page 28, third term. Writing with ink, (Spencerian Penmanship), three terms. Geography, (Mitchell's Intermediate), to page 58, three terms, with constant use of globe and maps. Singing and physical exercises.

Class "A," Sixth Year.—Reading and spelling, (Hillard's Fourth Reader), 1st and 2d term; (Goodrich's Child's History), 3d term—close attention to punctuation, definitions, and illustrations; written and oral spelling from reading lessons. Arithmetic, (Robinson's Intellectual), completed, twice a week, three terms; (Robinson's Practical), to page 116, three terms. Writing with ink, (Spencerian Penmanship), three terms; writing with ink, from dictation, once a week. Geography, (Mitchell's Intermediate), completed and reviewed, with constant use of globe and maps, three terms. History, (Goodrich's Child's History,) three times a week, three terms. Declamations and recitations. Singing and physical exercises.

GRAMMAR DEPARTMENT.—*Class "B."*—Reading and spelling, (Hillard's Fifth Reader); written and oral spelling from reading lessons, three terms. Geography, (Mitchell's High School Geography)—First term, to page 92; second term, to page 207; third term, to page 341. Map drawing during the three terms. Grammar, (Greene's Grammar), to Syntax, page 139, three terms. Writing with ink, (Spencerian Penmanship), and from dictation. Arithmetic, (Robinson's Practical), to page 237, three terms. Declamations and recitations.

Class "A."—Reading and spelling, (Hillard's Sixth Reader); written and oral spelling from reading lessons, three terms. During the last term, Goodrich's U. S. History may be used as a reading book. Geography, (Mitchell's High School Geography), from page 341 to the end, one term. History, (Goodrich's U. S. History), two terms, after Geography completed. Grammar, (Greene's Grammar), completed, two terms. English composition, (Quackenboss), one term, after grammar. Arithmetic, (Robinson's Prac-

tical), from page 237 to the end, three terms. Declamations and recitations. In place of Grammar and English composition, pupils may be permitted to take either Latin or German.

HIGH SCHOOL DEPARTMENT.

First Year—"D" Class.—Higher Arithmetic, three terms; Greene's Analysis, three terms; Warren's Physical Geography, two terms; Elementary Algebra, one term.

Second Year—"C" Class.—Elementary and Higher Algebra, three terms; Natural Philosophy, Peck's Ganot, two terms; Hitchcock's Physiology, two terms; Quackenbos's Rhetoric, one; any optional study, one term.

Third Year—"B" Class.—Geometry, two terms; Youmans' Chemistry, two terms; Wilson's General History, three terms; Gray's Botany, one term; Shaw's English Literature, one term.

Fourth Year—"A" Class.—Alden's Mental Science, one term; English Literature, continued, one term; Geology, one term; Haven's Moral Science, two terms; Political Economy, or Trigonometry, one term; Robinson's Common School Astronomy, two terms; General Review of studies, previous to graduation, one term. Hillard's Sixth Reader.

CLASSICAL COURSE.—*First Year*.—Harkness' Latin Lessons, two terms; Harkness' Latin Grammar, and Reader, one term.

Second Year.—Harkness' Latin Reader, continued, one term; Cæsar, and Dictation Prose exercises, two terms; Hadley's Greek Grammar, one term; Whiton's Lessons, last term; Ancient Geography.

Third Year.—Johnston's Cicero, and Arnold's Latin Prose, three terms; Greek Grammar, and Lessons, one term; Boise's Anabasis, and Arnold's Greek Prose Composition, two terms.

Fourth Year.—Frieze's Virgil, and Arnold's Latin Prose, three terms; Greek Prose, three terms.

German shall be an optional study, for scholars in "A" Grammar School and High School. The course of instruction therein shall extend during three years, and shall be such as may hereafter

be directed by the Board. The text-books to be used, shall hereafter be fixed by the Board.

SHEBOYGAN.

A. MARSCHNER, SUPERINTENDENT.

The city forms one school district, containing one large union school and two ward schools. The union school has six departments and seven grades. The three primary, one intermediate and one grammar department represent each one grade, while the high school department embraces two grades.

Seventh Grade.—The third primary department, Miss Ruthie Edwards, principal, is divided into A. and B. classes.

B class, Studies—Alphabet and general exercises in geography arithmetic and object lessons. Text-book, Watson's National Primer.

A class, Studies—Reading, spelling and general exercises in object lessons, arithmetic and geography, with declamations. Text-book, National Primer.

THE SECOND PRIMARY DEPARTMENT.—*Sixth Grade.*—Miss Mary Jenkins, principal, is also divided into A. and B. classes.

"B," Class, Studies—Reading, spelling and general exercises in arithmetic, geography and object lessons. Text book: Watson's National Primer.

"A" Class, Studies.—Reading, spelling and general exercises in arithmetic, geography and object lessons, with declamations. Text-book: Parker's National First Reader.

THE THIRD PRIMARY DEPARTMENT.—*Fifth Grade.*—Miss Kate Sullivan, principal, Miss Agnes Cassidy, assistant, is divided into A. B. and C. classes.

"C" Class, Studies.—Reading, spelling, mental arithmetic and general exercises in geography and object lessons. Text-books: National Second Reader and Davies's Primary Arithmetic.

"B" Class, Studies and Text-books as above.

"A" Class, Studies and Text-books as above.

Writing and drawing are taught to the three classes by Mr. Dunker, teacher of that specialty.

THE INTERMEDIATE DEPARTMENT—4th grade—Miss Sara Fairweather principal, is divided into "A" and "B" classes.

"B" Class—Studies: Spelling, reading, geography, rhetorical exercises, arithmetic—mental and practical. Text books: National primary speller, third reader, and Davies' intermediate and practical arithmetics.

"B" Class—Studies and text books as above.

Both classes are taught writing and drawing by Mr. Dunker. German optional.

THE GRAMMAR DEPARTMENT—3d grade—Mr. O. F. Weed, principal, Miss Mary Cole, assistant, embraces "A," "B," and "C" classes.

"C" Class.—Studies: Spelling, reading, arithmetic (mental and practical) and geography. Text books: National Elementary speller, National fourth reader, Davies's Intellectual and elements of written arithmetic, and Mitchell's intermediate geography.

"B" Class.—Studies and text books as above.

"A" Class.—Studies: Spelling, reading, grammar, mental and practical arithmetic, and geography. Text books: National Pronouncing Speller; National Fourth Reader; Kerl's First Lesson's in Grammar; Davies's Intellectual and Practical Arithmetic, and Mitchell's Intermediate Geography; writing and drawing, all classes, by Mr. Dunker. Map-drawing, rhetorical exercises, composition and declamations are also taught. German optional.

HIGH SCHOOL DEPARTMENT.—Mr. A. H. Gaylord, principal; Miss Ellen Weeks, assistant.

Second Grade, B class, Studies.—Arithmetic (Practical completed); Grammar to Prosody; United States History completed; reading and spelling. Text-books, Griffith's Elocution; Sander's

Speller; Willard's History; Davies' Arithmetic; Kerl's Grammar.

A Class, Studies.—Arithmetic, Practical, completed; Grammar to Prosody; Physiology; reading; spelling. Text-books, Davies's Practical Arithmetic; Kerl's Grammar; Loomis' Physiology; National Fifth Reader; Sander's Speller; composition and declamation; German optional; writing and drawing in both classes.

First Grade—D Class. Studies: Natural Philosophy, Algebra, Physical Geography, U. S. government. English Analysis continued. Text books; Peck's Ganot, Davis' University Arithmetic, Warren's Physical Geography' Alden's Government, Paradise Lost.

C Class, Studies—Geomtry, (begun and completed); Chemistry; Universal History. Text books: Davies' Lgendre; Youman's Chemistry; Willard's History.

A and B Classes. Studies: Trigonometry, (completed) and Geometry (reviewed); Astronomy; Geology. Text books: Davies's Lgendre; Brocklesby's Astronomy.

Latin. Three classes: Elementry, Grammar, Cieronis Orationes.

German Optional; Rhetorical Exercises.

Gymnastics for all departments—Mr. Dunker, teacher.

GERMAN DEPARTMENT OF UNION SCHOOL.

Grade 1, Class A.—Reading, (Oehlschlaeger III); writing and grammar, (Meunsen.)

Grade 2. Class A.—Reading, writing and grammar. Text books as above.

Grade 1, Class B.—Translation, (Ahn's method II), grammar and writing.

Grade 2, Class B.—Reading, Oehlschlaeger II), and writing.

Grade 1, Class C.—Translation (Ahn's method I), and writing.

Grades 1, 2 and 3, Class C.—Reading (Oehschlaeger I), writing and spelling.

The above classes are formed of pupils from the five upper grades

of the Union School, and have an average attendance of 52 boys and 74 girls, total 126. The membership of the different grades of Union school is as follows:

Grade 1	Boys.....	6	Girls.....	16	Total.....	22
2	do.....	28	do.....	27	do.....	55
3	do.....	48	do.....	48	do.....	96
4	do.....	29	do.....	39	do.....	68
5	do.....	50	do.....	48	do.....	98
6	do.....	48	do.....	32	do.....	80

WARD SCHOOLS.

Third Ward School.—Miss H. Ashby, principal, Miss Ellen Martin, assistant.

Fourth Ward School.—Mr. Wm. Wolk, principal, Miss Tilda Brown, assistant.

The grades of these schools correspond with grades 7, 6, 5, 4 and 3 of the Union School, so as to fit their graduates for the High School Room of the Union School. The average attendance of both schools 250.

GENERAL REMARKS.

In a city like Sheboygan, chiefly inhabited by citizens of foreign birth, officers and teachers of public schools have to contend with disadvantages entirely unknown to districts purely American. A great portion of our adopted citizens, especially Germans, give preference to schools in which the dogmas of their respective churches and branches of public instruction are taught in their native tongue. The building of a church and the foundation of a parish school are unavoidable in most cases. Owing to this cause we find sectarian schools abound in most every county of this state, even where the foreign element is but small. This ought not to be so. Our public school system is the very corner stone of our liberty. The existence of private schools is only justifiable where the public schools do not supply the wants of a community. This public schools should do in all places of significance. The munificence of the state and the liberality of our citizens enable public schools to sustain a superiority not within the reach of sectarian

schools. While religious instruction must be excluded from public schools, and exclusively left to churches and Sunday schools, their educational platform must be made so firm and spacious as to allow the entire people to stand upon it.

Where public and business life require the knowledge of a certain language, that language must be taught thoroughly in public schools. In districts where maritime interests prevail, Geography, Arithmetic, and even the use of nautical instruments must be made a specialty. In rural districts the rudiments of rational agriculture, chemistry, geology, &c., should be among the studies. All public schools, however, should excel by efficiency, thoroughness and rapidity in the teaching of reading, speaking, writing and arithmetic—the *sine qua nons* of common school education. Children should not be allowed to spend years at the alphabet; writing should supersede the printing of letters as soon as possible, and be taught judiciously, simultaneously with writing and reading, and books like the National Pronouncing Speller should be confined to the High School room.

As it would fill volumes to enumerate all the attainments desirable for a public school, allow me to close by the assurance that teachers and scholars in our public schools are wide awake and trying hard to maintain and preserve the rank and reputation among the public schools of the State, for years established and conceded by good judges.

CONVENTION

OF

CITY AND COUNTY SCHOOL SUPERINTENDENTS.

The City and County Superintendents of the State of Wisconsin met pursuant to the call of the State Superintendent, in Milwaukee, at Harmony Hall, Tuesday the 21st day of July, 1868, at nine o'clock, A. M. State Superintendent CRAIG was appointed chairman, and S. H. CARPENTER, secretary.

The roll being called, the following superintendents answered to their names :

State Superintendent—Hon. A. J. Craig.

Assistant—J. B. Pradt,

County Superintendents—J. Q. Emery and S. H. Carpenter, of Dane; L. Merrill, of Dodge; R. M. Wright, of Door; Jas. Hannan, of Kenosha; A. Boynton, of Marquette; J. F. Devine, of Milwaukee; John Megrin, jr., of Portage; G. W. Putnam, of Richland; R. B. Candall, of Sauk; T. J. Shear, of Vernon; W. S. Green, of Waukesha; T. S. Chipman, of Waushara; S. Shaw, of Winnebago; L. Bath, of Columbia.

City Superintendents—O. R. Smith, Janesville; B. M. Reynolds, Madison; F. C. Pomeroy, Milwaukee; Wm. Bieber, Watertown.

A business committee, consisting of EMERY, MERRILL, and SHAW was appointed to present topics of discussion.

Said committee reported the following :

1. Modification of the County Superintendency.
2. Township District System.
3. Teachers' Institutes and Associations.
4. Methods of Examination of Teachers.
5. School Supervision.
6. Terms of School.
7. School Reports and Teachers' Certificates.

Which topics were referred to sub-committees for report.

The chair appointed the following committees, after which adjournment was taken till two o'clock :

Modification of School Superintendency—Boynton, Shear and Carpenter.

Town District System—Emery, Crandall, Green and Pradt.

Teachers' Institutes and Associations—Hannan, Wright and Devine.

Methods of Examination of Teachers—Pomeroy, Putnam, Reynolds, Crandall and Carpenter.

School Supervision—Merrill, Megran, Chipman and Bath.

Terms of School—Shaw, Bieber and Goldthwaite.

Monthly Reports and Teachers' Certificates—Chipman, Emery and Pomeroy.

AFTERNOON SESSION.

The convention was called to order at 2 o'clock in the afternoon, and the following additional superintendents reported: W. H. LOCKWOOD, of Eau Claire; A. A. SPENCER, of Green Lake; O. T. BRIGHT, of Walworth; J. BURNHAM, of Waupaca; P. H. GANNON, of Ozaukee; C. M. TREAT, of Rock; D. B. LYON, of Fond du Lac; M. DRESSER, City of Kenosha.

Mr. F. C. POMEROY, for the committee on methods of examination of teachers, made the following report :

Your committee on methods of examination of teachers would respectfully report as follows:

1. We would recommend such a modification of the school law as to provide for holding regular monthly examinations at some central point in each district, such examination to be held on stated days to be designated by law, not less in any case than two days, instead of holding examinations in each four townships as at present required.

2. We would also recommend that the examination be written upon Arithmetic, Geography, Grammar and Orthography, to be followed by an oral examination upon all the studies now required by law, together with an examination on such other topics as will test the applicant's general knowledge.

F. C. POMEROY,
B. M. REYNOLDS,
GEO. W. PUTMAN,
S. H. CARPENTER,
R. B. CRANDALL.

Committee.

The above resolution was discussed by Superintendents Boynton, Emery, Carpenter, Spencer, Lockwood, Bath, Gannon, Bright and ex-superintendents Graham and Goldthwait.

The recommendations of the committee were not adopted.

Mr. Hannan, from committee on Institutes and Associations, presented the following report :

Your committee on institutes and teachers' associations recommend: that in view of the lack of trained teachers the institute should be made for the time to take the place of the Normal School, and those subjects presented which are to be taught in the schools; that the superintendent should have a definite plan of the work to be accomplished; should call to his aid as much of the local talent of his county as possible; should conduct the exercises promptly according to a programme, and should make the great object of the

institute to be the formation for each teacher of a proper course of instruction and the acquisition of practical methods of teaching, thus sending out a corps of teachers having a definite idea of the work to be done and the manner of doing it.

Y our committee further recommend the organization of county and town teachers' associations holding frequent meetings, as a great means of arousing and instructing teachers.

JAMES HANNAN,
R. M. WRIGHT,
JAS. F. DEVINE,

Committee.

Report adopted.

Mr. Boynton, for the committee on school supervision, made a report which was recommitted with instructions to report whether any further supervision is needed and for what purpose.

Mr. Emery, for committee on the town district system, presented the following report :

Your committee to whom was referred the township district system of schools respectfully submit the following report :

There exists in our present school system, among others, the following.

DEFECTS :

1. Want of uniformity in the school and school-houses.
2. Inequality of the burden of the support of the schools.
3. Lack of immediate and uniform supervision.
4. Evils of mixed, ungraded schools, impracticability of grading the schools, or establishing high schools.
5. Loss of advantages of associations and co-operation of teachers.
6. Loss of advantages of town school libraries.
7. Lack of uniformity and proper adaptation of text books.
8. Evils of fixed school boundaries—quarrels, appeals, &c.
9. Lack of accurate and uniform reporting.
10. Superfluity of school officers.
11. The unnecessary multiplicity of separate schools.

These defects can be remedied by the adoption of the "township district system," embracing essentially the following features :

1. Each town a unit for school purposes ; a provision may be made for special cases
2. The existing school districts to remain as they are until changed by a town board.
3. The school interests to be controlled by a town board to which shall be assigned a maximum and minimum limit.
4. Each local district to be represented on the board until the maximum is reached after which smaller districts may be jointly represented.
5. Taxation to the amount required by law to be on the town—but may be supplemented by limited local tax.
6. Equalization to be provided for in regard to the erection of new school houses till all districts are equally provided.
7. Towns containing parts of joint districts to pay their proportionate share of the expense of the school to the town containing the school-house.
8. The board to organize with an executive committee, if needed, and the secretary of the board to act as local inspector of the schools with reasonable remuneration, reporting to the county superintendent and chairman of town teachers' association.

9. Provision to be made as far as practicable for graded schools, with a high school if needed.

Your committee would suggest that the adoption of this system should be permissory rather than obligatory.

In conclusion, your committee would recommend the appointment of a committee of three from this convention, to act with a committee from the State Teachers' Association, the State Superintendent as chairman, who shall present this matter in due form to the next Legislature, and urge its adoption.

J. Q. EMERY,
R. B. CRANDALL,
W. S. GREEN,
J. B. PRADT,
Committee.

Mr. Smith, of Janesville offered the following resolution :

Resolved, That we are in favor of the adoption of the township system, and that so much of the report as relates to the appointment of a committee be adopted, and that the remainder of the report be referred to that committee.

After some discussion by Messrs. Smith, Pomeroy and Emery, the resolution was adopted.

Mr. Shaw, for Committee on Terms of School, made the following report :

Your committee on Terms of School beg leave to report :

That in the majority of country districts the present arrangements of terms and vacations is radically defective ; that the defect is the chief cause for so poor an attendance during a great part of the summer term.

Your committee would therefore respectfully recommend that at least eight months of school be held each year in said districts ; that this term be divided as follows : A fall term of three months, to begin about the middle of September, bringing a short vacation through the holidays. A winter term of three months, commencing early in January, vacation through the muddy season. A summer term of two months through May and June, bringing the close of the school year previous to the 4th of July.

Your committee would further report that whenever, from local causes, the best interests of any school district are not subserved by the before mentioned number of months, or division of terms, we would still insist upon having a school vacation through the months of July and August.

SAMUEL SHAW,
WM. BIEBER,
N. E. GOLDTHWAIT,
Committee.

After discussion by Messrs. Boynton, Goldthwait and Bieber, the report was adopted.

Mr. Boynton offered the following resolution :

Resolved, That in the opinion of the Convention, a better distribution of laws, circulars, papers, &c., to school officers by the State Department can be effected by distributing through the County Superintendents instead of Town Clerks.

The resolution was not adopted.

On motion of Mr. Reynolds, the Chair was authorized to appoint a business committee of three to prepare matter for discussion and to assign the same to different persons to prepare reports for the next Convention of the County Superintendents.

After some consultation regarding the *Milwaukee School Monthly*, in which all agreed that this educational monthly should be supported throughout the State, the Convention adjourned until eight o'clock to-morrow morning at the Skating Rink.

WEDNESDAY.

The Convention assembled at the "Rink" at 8 A. M.

The following additional Superintendents reported :

J. P. Hubbard, of Grant; and L. M. Hawes, of Racine.

A general discussion was had upon the question of School Supervision, which was participated in by Supts. Bath, Spencer, Boynton, Gannon, Putnam, Green, Shaw, Carpenter, Emery and Pomeroy.

On motion of Mr. Reynolds, of Madison, the Convention adjourned until 1:45 P. M.

EVENING SESSION.

Discussion upon school supervision resumed, and participated in by Crandall, Pomeroy, Spencer, Devine, Emery, Craig, Green, Chipman, Boynton and Bright.

Moved by Supt. Chipman that the convention adjourn till to-morrow morning at 8 o'clock, and that the discussion be resumed at that time. Carried.

THURSDAY.

The Convention met at 8 o'clock at the Rink. Mr Pradt offered the following resolutions, which were laid aside to await the report from the committee on modifications of the county superintendent system :

Resolved, That more immediate local supervision of the schools is necessary, than is practicable under the present system.

Resolved, That some form of town supervision is the best method of securing the needed local oversight of the schools.

Mr. Chipman, from the committee on Teachers' Certificates and Monthly Report, made the following report :

Your committee on Teachers' Certificates and School Reports beg leave to submit the following report :

That sec. 42 of the school law should be so amended as to require a *copy* of a teacher's certificate to be filed with the district clerk, instead of the certificate, as the law now is.

That in addition to the standing required in teacher's certificates as recommended by the last meeting of County Superintendents, a minimum standard of five in each branch should be required in limited third grade certificates for six months.

That the practice of County Superintendents, in some portions of the State, of indorsing or approving teacher's certificates from other counties, without an examination of the applicant, is illegal, and ought to be discontinued.

THEO. S. CHIPMAN,
F. C. POMEROY,
J. Q. EMERY,
Committee.

The report was adopted, and on motion of Mr. Bright, the chair was directed to appoint a committee to prepare a blank for monthly reports.

Mr. Emery offered the following resolution, which was adopted :

Resolved, That, in the opinion of this convention, educational interests would be better subserved if schools were taught only five days in each week, and teachers were required to attend monthly or weekly town or district teacher's associations.

Mr. Shaw offered the following resolutions :

Resolved, 1.—That while we are highly gratified with the success of our system of county school superintendence, in raising and maintaining a proper standard of qualifications for teachers, we yet feel the urgent necessity for more thorough supervision than the arduous duties of county superintendents will permit.

Resolved, 2.—That in our opinion no other plan than a well perfected township system, will fully secure that efficient local supervision so desirable and essential to the school interests of our State.

Resolved, 3.—That if a township system cannot be speedily secured, we would recommend as a substitute that a law be passed authorizing town clerks to act as local school supervisors.

Adjourned to 7 o'clock P. M.

EVENING SESSION,

Mr. Boynton, from the committee on Modification of County Superintendency, presented the following report :

Your committee, to whom the above topic was referred, beg leave to report as follows :

We believe the system to be complete ; that if the intent and spirit of the law were carried out by County Boards of Supervisors in dividing their counties into suitable superintendent districts, and if County Superintendents would well perform their duties, the system would be entirely satisfactory to the people of this State. Yet, in view of the lack of suitable action by County Boards of Supervisors in the past, whereby the people have become

justly dissatisfied with the inefficiency of the system in some parts of the State, we would respectfully recommend, to the favorable consideration of the honorable houses composing the Legislature of this State, the following resolution :

Resolved, That in the opinion of this convention, that part of section 86 of the school code which reads as follows: "When a county contains more than one senate district, each such senate district shall constitute a superintendent district, to be numbered as above provided, except senate districts lying wholly within incorporated cities, &c.," be amended as follows: "When a county contains more than one assembly district, each such assembly district shall constitute a superintendent district, to be numbered as above provided, except assembly districts lying wholly within incorporated cities, &c."

A. BOYNTON,
THOS. J. SHEAR,
Committee.

Mr. Emery moved that the resolutions heretofore presented by Mr. Shaw be adopted as a substitute for the report of the committee just read. Motion adopted.

On motion of Mr. Crandall a rule was adopted that no person shall speak more than five minutes at one time, and not more than twice on the same subject.

The Chair announced the following committees, which had been previously ordered :

On Business for next meeting—Reynolds, Spencer, Treat.

On Legislation—Emery and Green.

On Reports—Hannan, Shaw and Pomeroy.

Mr. Emery offered the following resolution, which was adopted :

Resolved, That the efficient prompt and earnest manner in which our Superintendent of Public Instruction, A. J. Craig, has hitherto performed the duties of his office, merits our acknowledgments; that he has our sympathy and confidence; and that we hereby pledge him our co-operation.

On motion of Mr. Shaw the thanks of the Convention were given to Superintendent Pomeroy for his valuable labors in providing a place of meeting for the Convention and in furthering the objects of the meeting.

On Motion of Mr. Boyton, the following resolution was adopted :

Resolved, That the thanks of this convention are due to the papers of this city for kindly reporting and publishing the proceedings of our several meetings.

On motion the Convention adjourned.

A. J. CRAIG,
Chairman.

S. H. CARPENTER,
Secretary.

PROCEEDINGS
OF THE SIXTEENTH ANNUAL SESSION
OF THE
WISCONSIN TEACHERS' ASSOCIATION.

MILWAUKEE, July 21, 1868.

The association convened at Milwaukee Skating Rink, at 8 o'clock, Tuesday evening, and after being called to order by the President, O. R. SMITH, of Janesville, was cordially welcomed in behalf of the citizens, Board of Education and teachers of Milwaukee, by Mayor O'NEIL, Hon. C. L. SHOLES and Supt. F. C. POMEROY, respectively, to which a response was made on the part of the Association by the President, followed by a lecture from Hon. ANTHONY VAN WYCK, of Kenosha, upon "Education in Republics," which was highly applauded.

MORNING SESSION.

WEDNESDAY, July 22, 1868.

The Association was called to order by the President, and the exercises opened by prayer, by Rev. SAMUEL FALLOWS, of Milwaukee, followed by the President's address, which, on motion of W. D. PARKER, of Geneva, was referred to a committee consisting of I. N. CUNDALL, D. GRAY PURMAN and N. E. GOLDTHWAIT, which committee were instructed to refer the various topics presented in the address to sub-committees for report.

The following committees were then appointed by the chair :

On Music.—J. T. Lovewell, S. H. Carpenter, O. T. Bright.
On Rules.—W. C. Whitford, C. H. Allen, Alexander Kerr.

The following officers were then appointed :

Assistant Secretaries—E. E. Woodman, Albert Earthman.

Clerk.—G. W. Heath.

Treasurer.—W. A. De La Matyr.

The reports of standing committees being declared in order, Mr. S. D. GAYLORD, of the committee on "Ventilation of School-Houses," reported that the committee had neither time nor funds necessary for an investigation, and requested that another committee be appointed.

The report was adopted and the committee discharged.

Mr. I. N. CUNDALL, chairman of the committee to whom was referred the President's Address, reported sub-committees as follows :

Qualifications of Teachers.—C. H. Allen, M. Montague, F. C. Pomeroy.

County Superintendency.—I. N. Cundall, O. T. Bright, E. E. Woodman.

Township System.—W. C. Whitford, D. G. Purman, N. E. Goldthwait.

Normal Schools.—Alex. Kerr, G. S. Albee, T. N. Haskell.

Teachers' Institutes.—A. J. Craig, R. Graham, J. T. Lovewell.

The report was adopted.

After a recess of ten minutes for completing the enrollment, a paper was read by T. C. Chamberlain, of Delavan, upon "Mental Philosophy, as an aid in teaching."

Another intermission was had, followed by a paper from T. H. Little, of Janesville, upon the "Education of Idiots."

Adjourned to 2 o'clock P. M.

AFTERNOON SESSION.

The Association was called to order by the President, who made the following appointments of committees :

Nominations.—W. A. De La Matyr, E. P. Brooks, T. C. Chamberlain, Miss C. E. Bruce, Miss A. Curtis.

Resolutions.—W. D. Parker, W. C. Whitford, E. E. Woodman.

Finance.—G. W. Heath, C. M. Treat, B. M. Reynolds.

Honorary Members.—G. S. Albee, T. H. Little, A. R. Cornwall.

Mr. W. C. Whitford made the following report on rules, which was adopted.

Your committee would respectfully report the following rules for the government of the association at the present session :

RULE 1.—No person shall speak more than five minutes at one time, upon any motion or question, nor more than twice, without the unanimous consent of the association.

RULE 2.—No person, not a member, shall be allowed to vote upon any question or motion, or to speak, except by invitation of the association.

RULE 3.—In the discussion of all questions of order, Cushing's manual is adopted as the standard.

W. C. WHITFORD,
C. H. ALLEN,
ALEX. KERR,
Committee.

On motion of Mr. B. M. Reynolds, the following substitute for article 1st of the constitution was adopted :

The constitution may be amended at any regular meeting of the association, provided the proposed amendment shall have been submitted in writing at least one regular meeting previous to its adoption.

Mr. S. D. Gaylord offered the following resolution as an amendment to the constitution, which will lie over to the next regular meeting :

Resolved, That article 2d of the constitution be so amended as to read "school officers and teachers of this State may become members of this association by the payment of one dollar."

A paper upon the "History of School Supervision in the State," was then presented by W. C. Whitford, President of Milton College.

After a short recess, the exercises were opened by music from the Glee Club.

The "Township System of Schools" was next discussed by J. B. Pradt, Assistant State Superintendent, followed by remarks from Supt. Craig, which were endorsed by Supt. Pomeroy.

Mr. J. B. Pradt then offered the following resolution, which was adopted :

Resolved, That a committee of five be appointed by the chair to report at the next session of the association, upon school-house architecture, including the subjects of heating, ventilation, lighting and seating, and with more especial reference to the wants of country schools; the report to be accompanied with suitable plans and specifications, at an expense not to exceed fifty dollars.

Mr. Montague, from the committee on qualifications of teachers presented the following report, which was adopted :

Your committee to whom was referred so much of the president's address as relates to the qualifications of teachers, beg leave, respectfully, to report as follows :

In common with our president, and all other thoughtful educators, we have felt the necessity of higher and broader qualifications on the part of the teachers of our schools. We look anxiously for the time when a knowledge of the "laws of health," the "science of government," and the general laws of mental development shall be required even for the lowest grade of certificates.

Therefore we recommend the adoption of the following resolution :

Resolved, That, as the sense of the association, applicants for any grade of certificate should be examined in physiology, and the constitutions of the United States and the State of Wisconsin.

C. H. ALLEN,
M. MONTAGUE,
F. C. POMEROY,
Committee.

The association then adjourned to 8 o'clock in the evening.

EVENING SESSION.

The association was called to order by the president, and then listened to music by the male chorus of the Milwaukee Musical Society, after which Rev. G. F. Magoun, D. D., President of Iowa College, was presented, and delivered an able lecture upon the "Education of Woman."

After listening to another chorus from the Musical Society, the association adjourned to 9 o'clock the next morning.

MORNING SESSION.

THURSDAY, July 23, 1868.

The Association was called to order by the President, and the exercises opened with prayer by Rev. J. B. Pradt, after which a paper upon "Educational Fallacies" was read by W. D. Parker, of Geneva.

The chair then appointed the following committees :

School Architecture.—J. B. Pradt, C. H. Allen, S. D. Gaylord, W. D. Parker, I. N. Stewart.

Legislation.—Alex. Kerr, S. H. Carpenter, W. C. Whitford, T. H. Little, W. A. De La Matyr.

Mrs. M. A. McGonegal, Principal of the Lavenport Training School, then conducted an exercise in Primary Moral Instruction.

A recess was taken, followed by an address from Rev. I. N. Cundall, Superintendent of the Orphans' Home, at Madison, upon the "Educational Lessons of the War."

Mr. Alex. Kerr, of the Committee on Normal Schools, presented the following report which was adopted :

The committee to whom was referred so much of the president's address as relates to normal schools, report that they approve the same and recommend the following resolutions :

Resolved, 1st, That we regard with the highest satisfaction the progress made in the development of the normal school system in Wisconsin.

2d, That we commend the efficiency of the normal schools already established at Platteville and Whitewater, and that we take great pleasure in the interest which they have awakened among the people, and that we wish them for the future a hearty God-speed.

3d, That the public schools of the commonwealth, to accomplish the ends required of them, and to meet the wants of an advancing civilization, imperatively demand teachers qualified and trained for their work.

4th, That it should be the aim of the normal school, without essentially shortening the curriculum of academic studies, to send forth teachers who shall be thoroughly acquainted with the science and art of their profession, and who shall, by their practical skill, bring into general use the most important methods of instruction.

ALEX. KERR,
G. S. ALBEE,
T. N. HASKELL,
Committee.

Mr. W. C. Whitford, of the Committee on Township System offered the following report which was adopted :

Your committee to whom was referred so much of the president's address as relates to the Township system of School Government would respectfully submit the following report :

That it is evident to them that a large majority of the teachers and other educational men in the state, are already convinced that the township system of schools furnishes superior advantages above the district system now in operation among us ; and that, therefore, no argument need be presented by the committee setting forth the merits of that system. But they are of the opinion, from such observation as they have been able to make, that the mass of the people throughout the state cannot be induced at present to adopt the system as a whole, while they might be willing to accept certain features of it, which would probably lead, in the end, to the introduction of such others as could be made to harmonize with those general opinions and usages which our existing school laws have inculcated and established.

They would recommend that the Legislative Committee of the association be authorized to take into consideration, in connection with the state superintendent and the committee appointed by the county superintendents for the same purpose, the preparation of a bill, embracing such provisions of the township system as in their opinion will receive the support of the members of our legislature, present it to that body at their next session, and memorialize them on the subject.

W. C. WHITFORD,
D. GRAY PURMAN,
N. E. GOLDTHWAIT,
Committee.

Adjourned till 2 1-2 p. m.

AFTERNOON SESSION.

The President called the Association to order and introduced Mrs. Mary Howe Smith, of Oswego, N. Y., who read a paper upon "Geographical Teaching."

Mr. G. S. Albee, Chairman of Committee on Honorary Members, made the following report, which was adopted :

Your committee would respectfully offer, as Honorary members of this Association, the names of the following distinguished Educators and friends

of Educational progress, who have rendered their own names illustrious, while dignifying our profession:

Hon. Anthony Van Wyck, of Kenosha;
 Hon. Newton Bateman, State Supt., Ill.;
 Mayor E. Neil, Milwaukee;
 Hon. C. L. Sholes, Milwaukee;
 Rev. Samuel Fallows, Milwaukee;
 Rev. G. F. Magoun, D. D., Pres. Iowa College;
 Supt. W. A. Bemis, Davenport, Iowa;
 Mrs. M. A. McGonegal, Davenport, Iowa;
 Mrs. Mary Howe Smith, Oswego, N. Y.

G. S. ALBEE,
 T. H. LITTLE,
 A. R. CORNWALL,
Committee.

The following report was then received and adopted:

The Committee on School Supervision report as follows:

Resolved, That the results of the system of county superintendency during the past seven years in raising and maintaining a higher standard of qualifications on the part of teachers, warrant a continuance of the office.

Resolved, That the too extended fields of labor given to County superintendents prevent that thorough supervision which is so essential to the progress of our school.

Resolved, That we recommend such a supplementing of the present system as shall make school visitation more frequent, general supervision more thorough, institute work more extensive and practical, and secure a more uniform distribution of good school buildings and appliances; and, in the opinion of your committee, these results can best be accomplished by the adoption of a township system of schools.

Resolved, That County Superintendents should be practical teachers; that they should be subject to examination by the State Board of Examiners; that their entire time and energies should be devoted to school work; that only such an amount of work as can be accomplished should be assigned to each; and that they should be paid accordingly.

Respectfully submitted,

I. N. CUNDALL,
 O. T. BRIGHT,
 E. E. WOODMAN,
Committee.

Mr. W. A. De La Matyr, Chairman of the Committee on Nominations, made the following report:

Your committee would respectfully recommend the following named persons as officers of this Association for the ensuing year:

President—Alexander Kerr, Beloit.

Vice-Presidents—C. E. Spinney, Miss R. W. Mason, Miss Frances Taylor.

Secretary—S. H. Carpenter, Madison.

Treasurer—Samuel Shaw, Omro.

Executive Committee—W. D. Parker, Geneva; D. G. Purman, Platteville; O. R. Smith, Janesville; E. E. Woodman, Monroe; G. W. Heath, Racine.

W. A. DE LA MATYR,
 E. P. BROOKS,
 T. C. CHAMBERLAIN,
Committee.

After some discussion, the report was accepted and C. H. Allen instructed to cast the ballot of the Association, which resulted in the election of the officers as recommended by the committee.

Hon. J. L. Pickard, City Superintendent, Chicago, Ill., was presented to the Association, and, after extending a happy greeting to the teachers of Wisconsin, made some timely and appropriate remarks.

Rev. Dr. Magoun, President of the Iowa College, was next introduced and made some interesting remarks in relation to Iowa schools, paying a high tribute to Wisconsin teachers.

Prof. T. N. Haskell offered the following resolution which was adopted :

Resolved, That we congratulate the State on the establishment of a State University with male and female colleges, seeking the highest culture of its attendants, that they may be fitted for any learned calling in the commonwealth.

Adjourned to 7 1-2 o'clock in the evening.

EVENING SESSION.

The Association was called to order by the President.

George W. Heath, chairman of the committee on finance, presented the following report, which was accepted and adopted :

The committee on finance would make the following report :

Amount of cash on hand from last year.....	\$74 33	
Amount received from membership fees this year.....	114 00	
		\$188 33
The committee have audited bills to the amount of		93 21
		<hr/>
Leaving a balance on hand, with some bills yet to be paid, of.....		\$95 12

GEO. W. HEATH,
C. M. TREAT,
B. M. REYNOLDS,
Committee.

A. J. Cheney, chairman of the committee on enrollment, made a report, showing that over 600 teachers were present during the session. This report was accepted and adopted.

A. J. Craig, chairman of the committee to whom was referred that portion of the president's address relating to teachers' institutes, read the following report, which was accepted and adopted :

The committee to whom was referred that portion of the President's address which relates to Teachers' Institutes, respectfully report, that

WHEREAS, The normal schools cannot afford immediate aid to any considerable number of actual teachers; and

WHEREAS, We recognize the Teachers' Institute as a valuable and efficient instrument in preparing teachers for their work; therefore

Resolved, That the statute requiring each county superintendent to hold an annual institute should be rigidly enforced.

Resolved, That the Board of Regents of Normal Schools are earnestly requested to expend annually the whole sum at their disposal for holding institutes, in furnishing agents to conduct the same, and in meeting the expenses incurred by the county superintendents in connection therewith.

A. J. CRAIG,
R. GRAHAM,
J. T. LOVEWELL,
Committee.

T. H. Little, chairman of the committee to whom was referred that part of the president's address in relation to the education of feeble-minded children, made the following report, which was accepted and adopted :

The committee to whom was referred that portion of the address which relates to the education of feeble-minded children, respectfully report that they find the opinions on that subject expressed in the address to be in accordance with sound principles of educational policy, and with the sentiments of true Christian philanthropy, and as such, to be worthy of the endorsement of the association.

They submit for the action of the association the following resolutions :

Resolved, That we re-affirm our belief in the pressing necessity of a school for the education of the feeble-minded and idiotic children of Wisconsin, and of the duty of the Legislature to provide one at the earliest possible moment.

Resolved, That we have observed with much gratification the recommendation of Gov. Fairchild, upon the subject, and we highly commend the late Legislature for its good intention, while we deeply lament the blunder which rendered that intention ineffectual.

Resolved, That we gratefully acknowledge the services of the press in this good cause, and trust that they will continue to be rendered so long as the necessity exists.

T. H. LITTLE,
E. P. BROOKS,
T. C. CHAMBERLAIN,
Committee.

The following resolution was unanimously adopted :

Resolved, That all the courses of instruction in the University and other higher educational institutions should, and of right ought to be, open in all respects equally to males and females.

Upon motion of W. D. Parker the chair appointed committees to attend the National Teachers' Association, at Nashville, Tenn., and the State Associations, of Iowa, Kansas, Nebraska and Illinois, as follows :

National Association—C. H. Allen, A. J. Craig, Alex. Kerr.
Iowa Association—W. C. Whitford, W. D. Parker, C. W. Cutler.
Kansas Association—F. C. Pomeroy, G. S. Albee, W. A. DeLaMatyr.

Nebraska Association—N. E. Goldthwait, A. J. Cheney, J. K. Purdy.
Illinois Association—J. C. Pickard, B. M. Reynolds, J. T. Lovewell.

The business session being over, the exercises of the evening were opened with music from the male chorus of the Philharmonic society, which was enthusiastically encored.

Gov. Fairchild was then introduced, and in a neat and happy speech paid a high tribute to the teachers of Wisconsin and the association for their energy, expressing his own deep sympathy with them in their noble work.

Hon. Newton Bateman, of Illinois, followed with an elaborate and exhaustive history of "Industrial Education in this country."

The lecture was followed by a guitar solo by Hernandez.

Mr. E. E. Woodman, of the committee on resolutions, presented the following, which were adopted :

Resolved, That the entertainment which the citizens of Milwaukee have extended to the Association has caused the great and general enjoyment, and now excites the lively gratitude which the number and generosity of the attentions bestowed upon it might be expected to occasion; that we terminate with regret an intercourse so delightful, and take with us a kindly and enduring remembrance of a hospitality as munificent as it has been spontaneous and unaffected.

Resolved, That the municipal officers, the Board of Education, the City Superintendent and teachers have contributed to the success of our present convention by laborious and continued efforts in many directions, and that we acknowledge our obligations to them with great fullness, proportionate to the extent of their labor in providing the various accommodations for the Association.

Resolved, That we thank the Milwaukee Musical Society and the Philharmonic Society for their choice musical entertainments, which have been a source, not only of exquisite pleasure, but valuable instruction, as exemplifying in a signal manner the possibilities of vocal culture.

Resolved, That we tender our grateful acknowledgments to the Hon. Anthony Van Wyck, of Kenosha; Rev. G. F. Magoun, D. D., President of Iowa College; Hon. Newton Bateman, State Superintendent of Illinois; His Excellency Gov. L. Fairchild; Mrs. Mary Howe Smith, of the Oswego Normal School of New York, and Mrs. M. A. McGonegal, of the Davenport Training School, Iowa, for the honor which their presence has lent to our assembly, and the pleasure and instruction derived from their addresses.

Resolved, That in the presence of the visiting delegates from Iowa, we recognize a warm fraternal feeling existing between the Iowa and Wisconsin associations, and that we reciprocate the favor of the presence of Superintendent, W. A. Bemis, of Davenport, in the appointment of a similar committee from this association.

Resolved, That we are under obligations to the Western Union, Milwaukee and St. Paul, and the Chicago and Northwestern railway companies, and to the Goodrich Line of Steamers and the Wolf River Navigation Company, for such reduction in the rate of fare and attention to the comfort of the members as have been the means of swelling our numbers and of evincing in those corporations a large public interest and an active sympathy with the cause in which we labor.

Resolved, That our thanks are due to W. H. Sherman, Esq., for the use of a Bradbury grand piano.

Resolved, That the press is a powerful educator and the strongest ally of the teacher: that the newspaper press of the state is doing a valuable work in connection with our educational interests; and that the thanks of the association are due to the presses of Milwaukee for the manner in which they have promoted the success of the 16th session of the association, and are especially due to the Milwaukee *Sentinel* and the Milwaukee *News* for the full and accurate reports of our proceedings which they have published.

Resolved, That the thanks of the Association are due to its officers for the prompt and efficient manner in which they have conducted the proceedings of the session.

Resolved, That the secretary of the Association be instructed to furnish the State Superintendent with a copy of the proceedings of this session of the association for publication and distribution throughout the state.

W. D. PARKER,
W. C. WHITFORD,
E. E. WOODMAN.

Committee.

After another piece of music from the Philharmonic Society, the President declared the sixteenth annual session of the Wisconsin Teachers' Association ended.

O. R. SMITH, *President.*

C. W. CUTLER, *Secretary.*

EXECUTIVE SESSION
OF THE
WISCONSIN TEACHERS' ASSOCIATION.

The Wisconsin Teachers' Association met in executive session at the rooms of the Young Men's Association, Janesville, at 7 1-2 o'clock P. M., Dec. 28, 1868.

The Association was called to order by President Alex. Kerr, of Beloit, who briefly stated the object of the meeting.

On motion of Mr. Reynolds, of Madison, O. R. Smith, of Janesville, was elected secretary *pro tem*.

The President announced the following committees.

County Superintendency.—Or. R. Smith, Janesville; W. C. Whitford, Milton, W. D. Parker, Geneva.

Education of Feeble-minded Children.—W. C. Whitford, Milton; T. H. Little, Janesville; R. Graham, Kenosha.

Normal Schools.—Oliver Arey, Whitewater; J. T. Loyewell, Whitewater; E. C. Stone, Delavan.

Teachers' Institutes.—W. D. Parker, Geneva; B. M. Reynolds, Madison; F. C. Pomeroy, Milwaukee.

Township Organization of Schools.—I. N. Cundall, Madison; S. D. Gaylord, Milwaukee; A. J. Cheney, Delavan.

The committees not being ready to report, a discussion upon the education of feeble-minded children ensued, participated in by President Whitford, of Milton College, Superintendent Little, and W. D. Parker of Geneva, and others.

Mr. Parker presented a communication from Walworth County Teachers' Institute, which, on motion, was received and placed on file.

Adjourned until 9 o'clock Tuesday morning.

MORNING SESSION.

Association called to order by President Kerr.

W. D. Parker, chairman of Committee on Teachers' Institutes, made the following report :

The committee to whom was referred the subject of institutes, have had the same under consideration, and beg leave to report the following resolutions embodying their sentiments :

WHEREAS, The system of teachers' institutes as now held, has proved a valuable auxiliary to the teacher's profession ; and,

WHEREAS, The law recognizing institutes is, in some cases, not executed ; therefore, be it

Resolved, 1st. That it is the sense of the Wisconsin Teachers' Association that the institute should be made a permanent organization in every superintendent district, holding at least one annual session of at least one week's duration.

Resolved, 2d. That the observance of the law establishing an annual county institute, should be enforced by a proper penalty.

Resolved, 3d. That the Board of Normal School Regents be, and hereby are, respectfully requested to organize a series of institutes, under an agent in connection with the state superintendent and competent instructors, to be held throughout the state.

W. D. PARKER,
B. M. REYNOLDS,
F. C. POMEROY,

Committee.

On motion of Mr. Cheney, the report was accepted and the committee discharged.

After an animated discussion by Messrs. Whitford, Parker, Lovewell, Reynolds, Gaylord, Cundall and Smith, the report was adopted.

President Whitford, chairman of the Committee on the Education of Feeble-minded Children, made the following report :

Your committee, to whom was referred the subject of the education of the feeble-minded children of the state, would report the following resolutions for your consideration :

Resolved, That it is gratifying to perceive the progress made in public opinion during the past year, in favor of the establishment of an institution by the state for the instruction of this class of unfortunate children.

Resolved, That we re-affirm our conviction that our state, in order to be true to herself and just to all classes of her citizens, while supporting her excellent system of free schools, and her benevolent institutions for the education of the blind, the deaf and dumb, the children of soldiers who perished during the war, and for the reform of the vicious youth, should, as soon as practicable, recognize the needs of her feeble-minded children, and found and conduct by ample means a school for their development and training.

Resolved, That in our opinion the legislature of our state should take steps at their session this winter, toward the opening of a school for these children as soon as the proper arrangements can be effected.

Respectfully submitted,

W. C. WHITFORD,
T. H. LITTLE,
R. GRAHAM,

Committee.

On motion of Mr. Reynolds the report was accepted and adopted. Professor Arey, chairman of the Committee on Normal Schools, made the following report, which was adopted :

The committee to whom was referred the subject of normal schools beg leave to report the following resolutions:

Resolved, 1st. That the normal school does its best work when it produces the best men and women, and to this end intellectual, moral and physical culture should run parallel with methods of instruction through the course.

2d. In admitting students to normal instruction regard should be had rather to "a fitness for the work of teaching," than to age and scholarship; and that the earlier such students are put under such instruction the better the teachers produced.

3d. That the course of study should be such that graduates shall be competent to instruct in graded schools; and their diplomas should be a sufficient warrant of their fitness for teaching.

4th. That instruction should be mainly individual, and that classes should not exceed twenty in number.

OLIVER AREY,
J. T. LOVEWELL,
EDWARD C. STONE.

Mr. Smith introduced the following resolution and moved its adoption :

Resolved. That we recognize in Superintendent R. A. Graham, who has been conducting the institutes during the past autumn, an efficient educator, and that we confidently hope he may be continued in the work.

After remarks from Messrs. Whitford, Parker, Cheney and others, strongly endorsing it, the resolution was unanimously adopted.

Adjourned to 2 o'clock P. M.

AFTERNOON SESSION.

2 P. M.

O. R. Smith, chairman of committee on County Superintendency, made the following report :

Your committee to whom was referred the subject of the County Superintendency have had the same under consideration, and beg leave to submit the following report:

This system of school supervision has been in operation in several states for the past twenty-five years with uniformly successful results. The demand for it in our own state proceeded from the feeling of a want to be supplied in the direction of more efficient work in the examination and licensing of teachers, in the holding of institutes, in the dissemination of educational information among the people, in the improvement of school buildings and the arousing of a general interest in all that pertains to good schools. Encountering at the outset an opposition from many educators, which, in many cases, has been persistent, and meeting the dislike of the people to the adoption of new modes of conducting business, it has, nevertheless, accomplished in the space of seven years far more than the fondest anticipations of its friends.

We are now able to judge somewhat of the merits and defects of the system as applied to our State, and we would submit the following facts as exhibiting the comparative merits of the two systems of county and town supervision.

It is economical.—Towns sometimes had as many as six superintendents in a year under the old system, and as many as \$100 were paid these officers in a town in a single year. This frequent change of officers and excessive prices paid are extravagant beyond parallel.

During the last six years of the town superintendency, there was an average of 102 days of school taught per year in each district in the state; during the first six years of the county superintendency there was an average of 127.6 days of school taught per year in each district in the state, or a gain of 25.6 days schooling in each district. This result follows from an increased interest in educational circles, accomplished mainly by county superintendents.

Applied to 1867, the increase is equivalent to a gain of 6,142,592 days schooling for one child, or sufficient to educate 2,802 children from alphabet through high school grades, or sixteen years' schooling, or the education of the children of a city the size of Janesville during their entire school life.

The last six years of the town superintendency there was an average attendance of pupils on the school sessions of 62 per cent.; under the first six years of the county superintendency there was an average attendance of 67 per cent., showing a gain of five per cent. under the present system. This item applied to 1867 is adequate to educate 1,200 children from alphabet through high school, or sixteen years' schooling. Thus, in 1867 the additional interest awakened mainly by county superintendents, secured a result greater than the town superintendency ever accomplished, by an equivalent of educating 4,200 children from alphabet through high school, or the entire education of the children of a community of 1,300 people for sixteen years. The average cost of the town superintendent's office may be set down at \$35 per town, and a total of \$27,325 for the state. The average cost per county for the county superintendency for 1867 was \$554.73, and a total for the state of \$31,620, which added to a total incidental expense of \$7,125 is \$38,745. The town superintendency would have made available but 62 per cent. of the gross cost of the schools; the county superintendency made 67 per cent. of the gross cost available, or the latter system saved five per cent. more of \$1,521,412, or \$76,070.60 in one year than the town superintendency, or twice the total cost of the county superintendency for one year, and more than sufficient to pay excess of cost of the present system over the old system for 6½ years, besides the innumerable benefits accruing from the greater regularity in attendance and increased length of terms.

The following balance sheet shows the financial statements at a glance:

<i>County Superintendency to State,</i>		Dr.
1867. To total cost of Schools, cash.....		<u>\$1,521,412</u>
	Cr.	
By 67 per cent. of cost made available.....	\$1,019,346 04	
By loss in irregular attendance.....	502,065 96	
<i>Town Superintendency to State,</i>		Dr.
To total cost Schools, cash.....		<u>\$1,521,412</u>
	Cr.	
By 62 per cent. of cost made available.....	\$943,275 44	
By loss in irregular attendance.....	578,136 56	
Loss by Town Superintendents.....	\$578,136 56	
Loss by County Superintendents.....	502,065 96	
Excess.....		<u>\$76,070 00</u>

This showing is largely in favor of the county supervision, and the economy of this system, as regards efficiency, having already been shown, it is clear that in no sense can we return to the town system of superintendency economically.

One of the objections urged against the County Superintendency is that we are unable to get competent men in the position. The average salary paid last year, the most expensive year under the system, was \$554. When we consider the amount and nature of the work the County Superintendent is called upon to perform, can it be a matter of wonder that our best educators cannot be induced to accept the position and give all their time and energies to the discharge of its duties, for such a pittance?

It seems to your committee that the law needs an amendment here, giving a per diem of at least \$5, and an allowance of at least \$150 per annum for traveling expenses. We would recommend accordingly. Our County Superintendents find it impossible to properly examine and visit schools, the number under their charge generally being too great. We believe this visitation and supervision of prime importance to our schools, and that it can be best gained by the adoption of the township system.

We believe that the County Superintendency has accomplished, and is accomplishing, notwithstanding the embarrassments under which it has labored, untold good for our schools, and that it would be disastrous to the educational interests of the State to go back to the Town Superintendency. We would, therefore, summon all educators in the State, and all who are interested in the best good of our schools to stand by the system, and do all that is possible to render it more efficient; and we beg leave to report, as the sense of this association, the following resolutions:

Resolved, That we hereby re-affirm our oft-expressed conviction of the advantage and efficiency of the system of County Superintendency of schools, and earnestly request our present legislature to supplement it by a township organization of schools.

Resolved, That to our County Superintendents we tender our sympathy in their work and our abiding determination to give them our confidence and support.

O. R. SMITH,
W. C. WHITFORD,
W. D. PARKER.

Upon motion of Mr. Reynolds, the report was adopted.

Superintendent Cundall, chairman of committee on Township System, reported verbally that as the ground had been covered by the report on County Superintendency, the committee had no further report to make.

On motion, committee discharged.

Mr. Parker moved the adoption of the following resolution:

Resolved, That a committee of three be appointed by the President, whose duty it shall be to prepare matter upon educational topics for publication, and that the School Monthly is hereby invited to publish the same without expense to the Association.

Mr. Smith moved to amend by adding, "and that the committee get the reports published in as many papers of the State as possible."

Amendment prevailed, and resolution as amended adopted.

The President appointed the following committee: O. R. Smith, W. D. Parker, T. H. Little.

Mr. Smith moved the adoption of the following resolution:

Resolved, That the legislative committee of the Association is hereby instructed to present the reports of the several committees to the legislature at the coming session and to urge the embodiment of the views therein expressed in legislation.

Resolution unanimously adopted.

Superintendent Little, of the Institution for the Blind, extended an invitation to spend the evening at the Institution. On motion the invitation was accepted and the convention adjourned *sine die*.

ALEX KERR, Pres't.

S. H. CARPENTER, Sec'y.

REPORT
OF THE
PRESIDENT OF THE BOARD
OF
REGENTS OF NORMAL SCHOOLS.

HON. A. J. CRAIG,

Superintendent of Public Instruction :

SIR : In accordance with the requirements of law, I have the honor to submit the following report of the doings of the Board of Regents, and the condition of the Normal Schools, for the year ending August 31st, 1868. There were four meetings of the board during the year, as follows : At Whitewater September 24th, 1867; at Madison, November 12th, 1867, and January 27th, 1868, and at Platteville, June 27th, 1868.

Without attempting to give in detail the specific action had at each meeting, the work accomplished and results secured will be briefly presented. But before proceeding further, it is fitting and proper that I should allude to the severe loss sustained by the board in the early part of the year by the death of its honored president, Hon. C. C. SHOLES. He died at his residence in Kenosha, on the 5th day of October, 1867. The President of the Board from its organization, his courtesy, wisdom, prudence and zealous devotion to the cause of education, made him one of its most efficient members, and won for him the affectionate respect of all his associates. At the meeting held at Madison, November 12th, 1867,

Regent McMynn announced his decease, whereupon a committee consisting of Regents McMynn, Lines and Whitford was appointed to draft resolutions expressive of the feelings of the members of the board, in view of the sad event. The following resolutions were reported and adopted :

Resolved, That by the death of the Hon. C. C. Sholes, the president of the board since its organization in 1858, the state has lost one of its most honored citizens, and the cause of education a sagacious and devoted friend.

Resolved, That by his patriotic devotion to the welfare of his country, he has associated his name with the development of the material and educational interests of the Northwest, and left his impress upon every enterprise calculated to promote the prosperity of our own state.

Resolved, That to his forecast, energy and influence, our normal school system is largely indebted for its present and prospective influence.

Resolved, That the members of this board retain a vivid recollection of his ability and courtesy as a presiding officer, and of his uniform courtesy towards all associated with him.

Resolved, That we tender our respectful sympathy to his sorrow-stricken wife, who, in these dark hours, can find consolation only by trusting in Him "who doeth all things well," and we commend to his children the practice of the virtues of patience, charity and industry which their father's life so well illustrated, and which will fit them to be useful members of society.

Resolved, That a copy of these resolutions be furnished to Mrs. C. C. Sholes by the secretary of the board.

In January last the committee having the matter in charge, engaged as principal of the Normal school at Whitewater, Prof. Oliver Arey, of Brockport, New York, an experienced and successful educator, under whose charge the school was opened on the 22d day of April last; the building having been dedicated with appropriate exercises on the 21st. The complete faculty for the first term, which closed the scholastic year, was as follows :

NORMAL DEPARTMENT.

OLIVER AREY, A. M.,

Principal, and Professor of Mental and Moral Philosophy and Theory and Practice of Teaching.

J. T. LOVEWELL, A. B.,

Professor of Mathematics and the Latin Language.

Mrs. H. E. G. AREY, A. M.,

Preceptress, and Teacher of English Literature, French and Drawing.

Miss EMILY J. BRYANT,

Teacher of History, Grammar and Geography.

MODEL SCHOOL.

Miss CATHARINE H. LILLY,
Teacher and Critic in Grammar Department.

Miss ADA HAMILTON,
Teacher and Critic in Intermediate Department.

Miss SARAH A. STEWART,
Teacher and Critic in Primary Department.

HARVEY H. GREENMAN, M. D.,
Teacher of Vocal Music.

Miss VIRGINIA DEICHMAN,
Teacher of Instrumental Music.

The attendance of pupils during the first term was as large as could have been expected, and the future prospects of the school are very encouraging. The building is not completed externally, but the rooms are finished, and furnished with the necessary appliances for prosecuting the work of preparing teachers for our public schols.

The new building at Platteville was completed in August last, and extensive changes and improvements having been made in the old one, about four hundred pupils can now be accommodated in its commodious study and recitation rooms.

The faculty for 1867-8 was as follows :

CHARLES H. ALLEN,
Principal.

JACOB WERNLI,
Assistant Principal.

DUNCAN MCGREGOR,
Professor of Mathematics.

FANNY S. JOSLYN,
Preceptress.

EURETTA A. GRAHAM,
Principal of Model School.

CHARLES ZIMMERMAN,
Teacher of Drawing.

In addition to the regular faculties of the schools, Mrs. A. T. Randall, of Oswego, N. Y., was employed the greater part of the

last term of the year, to give instruction in reading and elocution. She devoted a portion of her time to each school, and also attended a few teachers' institutes and associations. She was well qualified for the work, and her labors were quite successful and well appreciated by her pupils.

At the meeting of the board at Platteville, in June last, the salary of Professor Allen was raised to \$2,500, and the following maximum salaries for all teachers employed was established: For principals, \$2,500; for associate professors, \$1,500; for lady teachers, \$700, except that in each school one lady teacher may be employed at a higher salary.

At this meeting arrangements were made for procuring plans for a building for the Normal School, located at Oshkosh, and it is expected its erection will be commenced early next spring.

Courses of study for the Normal Schools were established at this meeting. The courses for both schools are essentially the same, but inasmuch as the principals preferred to arrange the specific studies, in a somewhat different order, the courses for each school will be given.

PLATTEVILLE NORMAL SCHOOL.

COURSES OF STUDY AND TRAINING.

Three courses of study have been adopted by the board:

- I. An Institute Course.*
- II. An Elementary Course,*
- III. An Advanced Course.*

The Institute course is designed to meet the wants of those teachers who, possessing the necessary scholastic acquirements, yet feel the need of professional training. It will consist of a rapid review of the various subjects taught in our common schools, with lectures upon the best methods of teaching the same; lectures upon the organization, classification and government of schools, and the school law.

The object of the Elementary course is to fit students to become teachers in the common schools of our State, and will consist of a thorough drill in the studies pursued, experimental lectures on methods of instruction, and if practicable, practice in the Model School.

The advanced course should fit teachers for the Higher Departments of Graded Schools in the State, and as will be seen from the detail statement of the courses of study is both thorough and practical. Students in the advanced course will have extended practice in the Model School, under the eye of experienced teachers, who will, by kindly criticisms and pointed suggestions, strive to make the practice conform to the theory of instruction.

COURSE OF STUDY.

	Preparatory.	FIRST YEAR.			SECOND YEAR.			THIRD YEAR.		
		1st Term.	2d Term.	3d Term.	1st Term.	2d Term.	3d Term.	1st Term.	2d Term.	3d Term.
MATHEMATICS....	Ment. & Written Arithmetic.	Higher Arithmetic.	El. Algebra.	El. Geometry.	Higher Arithmetic comp't.	Higher Algebra.	Higher Algebra.	Geometry.	Trigonometry and Surv'g.	Astronomy.
LANGUAGE.....	Gram. orthography and etymology.	Syntax and Analysis.	Composition.	Rhetoric.	Criticism.	Latin or German.	Latin or German.	Latin or German.	Eng. Literature and science of Language.	Essays.
NAT. SCIENCE....	Geography.	Geography & Mapping.	Physiology.	Physical Geography.	Natural Philosophy.	Zoology.	Botany.	Chemistry.	Chemistry.	Geology.
MISCELLANEOUS.	Reading and Spelling.	Reading and Spelling.	U. S. History.	Constitution and science of Government.	Pol'cal Economy.	Gen. History.	Mental Philosophy.	Moral Philosophy.	Essays.	
PROFESSIONAL. . .		Theory and Art of Teaching.			Theory and Art of teaching.			Educat'l His. & prac. in mod'l sch'l.		

In addition to the above, Students will receive instruction and drill in Penmanship, Vocal Music, Outline and Perspective Drawing and the use of the Dictionary and Calendar.

The Elementary course comprises the studies of the first two years, with the following exceptions: Higher Algebra, Latin or German, and Criticism omitted: Professional training, Extemporaneous Composition and Essays taking their place.

WHITEWATER NORMAL SCHOOL.

COURSES OF STUDY.

Three Courses of Study are established—

- 1st. *An Institute Course of one term.*
- 2d. *An Elementary Course of two years.*
- 3d. *An Advanced Course of three years.*

The INSTITUTE COURSE is designed to meet the wants of those teachers who desire to familiarize themselves with the most approved methods of teaching the subjects mentioned in the course.

The ELEMENTARY and ADVANCED COURSES will have for their object, thorough drill in the branches pursued, accompanied with instruction in the best methods of teaching them.

INSTITUTE COURSE.

- 1st. ORTHOGRAPHY.—Consisting of drill in nature and properties of letters. Rules of spelling with illustrations.
- 2d. ORTHOEPY.—Principles of pronunciation.
- 3d. GRAMMAR.—Oral grammar, verbal and sentential analysis, correcting false syntax, impromptu composition, essays, declamation, use of dictionaries.
- 4th. READING.
- 5th. MENTAL ARITHMETIC.—Methods of analysis, elementary combinations, &c.
- 6th. WRITTEN ARITHMETIC.—Demonstration of principles.
- 7th. ELEMENTS OF PENMANSHIP, with systematic drill in muscular action.
- 8th. GEOGRAPHY.—Map drawing on Guyot's and Apgar's principles, and mathematical geography,
- 9th. Outlines of United States History, Government of United States, School Laws of Wisconsin, School Economy, Gymnastics, Vocal Music.

ELEMENTARY COURSE.

Class B.—First Year.

First Term—Higher arithmetic, grammar and analysis, geography, use of globes, map drawing, readings, orthography and impromptu composition, select reading, declamation and gymnastics.

Second Term—Algebra, history of the United States, chemistry, penmanship and reading, essays, select readings, declamations and gymnastics, lectures on practice of teaching twice a week, criticism lessons before the school daily.

Third Term—Geometry, physiology, civil government, impromptu composition, essays, select readings, declamations and gymnastics, weekly lectures by the preceptress to the ladies on practical life, criticism lessons daily.

CLASS A.—SECOND YEAR.

First Term—Natural philosophy, rhetoric, drawing and book-keeping, practice in training department, essays, declamations, select readings, gymnastics.

Second Term—Universal history, higher algebra, school economy, zoology, essays, declamations, select readings, gymnastics.

Third Term—Moral philosophy, botany, geology, impromptu composition, reading and penmanship, essays, select readings, declamations.

ADVANCED COURSE.

JUNIOR CLASS—FIRST YEAR.

First Term—Higher arithmetic, grammar and analysis, geography, use of globes, map drawing, reading, orthography, impromptu composition, select readings, declamations and gymnastics, lectures on practice of teaching twice a week, criticism lessons before the school daily.

Second Term—Elementary algebra, history of United States, chemistry, reading and penmanship, select readings, declamations, essays and gymnastics, lectures on practice of teaching twice a week, criticism lessons before the school daily.

Third Term—Geometry, physiology, civil government, impromptu composition, essays, select readings, declamations and gymnastics, lectures by preceptress to the ladies, criticism lessons before the school daily.

MIDDLE CLASS—SECOND YEAR.

First Term—Geometry, Universal History, Rhetoric and Impromptu Composition, Drawing, Select Readings, Declamations, Essays and Gymnastics.

Second Term—Higher Algebra, Natural Philosophy, Latin, German or French, English Grammar Reviewed, Select Readings, Declamations, Essays and Gymnastics.

Third Term—Botany, Zoology, Latin, German or French, Arithmetic Reviewed, Select Readings, Declamations, Essays and Gymnastics.

SENIOR CLASS—THIRD YEAR.

First Term—Geometry and Trigonometry, Chemistry, Latin, French or German, Perspective Drawing, and Practice in Training School, Select Readings, Extempore Speaking, Essays.

Second Term—Geology, Latin, German or French, Astronomy, Practice in Training School, Impromptu Composition, Extempore Speaking, Lectures by Students before the class on Practice of Teaching.

Third Term—Mental Philosophy, Moral Philosophy, School Economy, Practice in Training School, Lectures by Students before the School on Practice of Teaching.

The board has continued its aid to teachers' institutes, in accordance with the plan adopted last year, and has audited accounts for expenses incurred by County Superintendents in holding the same; the amount allowed for each institute being limited to \$50. The sum of \$704.85 has been thus expended.

The whole expenditure of the board is given in detail below :

Warrants drawn by order of the Board during the year ending August 31, 1868.

Date.	No.	To whome paid.	For what paid.	Amount.
1868.				
Jan. 31	418	N. M. Littlejohn	Work and materials, Whitewater Normal School.....	\$4,931 34

The action of the board during the year has been harmonious, and all the members seem to have been actuated by an earnest desire to promote the cause of normal instruction, and at the same time to jealously guard and husband the fund committed to their charge. They look forward, hopefully, to the establishment, at no distant day, of four or five normal schools, which shall furnish thoroughly prepared teachers for our public schools, and advance the cause of popular education in every part of the state.

WILLIAM STARR,
Pres't. Board Regents Normal Schools.

TERMS OF ADMISSION

TO THE STATE NORMAL SCHOOL.

1. Each Assembly district in the state shall be entitled to six representatives in the normal schools, and in case vacancies exist in the representation to which any Assembly district is entitled, such vacancies may be filled by the President and Secretary of the Board of Regents.

2. Candidates for admission shall be nominated by the county superintendent of the county (or if the county superintendent has not jurisdiction, then the nomination shall be made by the city superintendent of the city,) in which such candidates may reside, and they shall be at least sixteen years of age, of sound bodily health and good moral character. Each person, so nominated, shall receive a certificate setting forth his name, age, health and character, and a duplicate of such certificate shall be immediately sent by mail, by the superintendent, to the Secretary of the Board.

3. Upon the presentation of such certificate to the principal of a state normal school, the candidate shall be examined, under the direction of said principal, in the branches required by law for a third grade certificate, except History and Theory and Practice of Teaching, and if found qualified to enter the normal school in respect to learning, he may be admitted, after furnishing such evidence as the principal may require, of good health and good moral character, and after subscribing the following declaration :

I, _____, do hereby declare that my purpose in entering this state normal school is to fit myself for the profession of teaching, and that it is my intention to engage in teaching in the public schools of this state.

4. No person shall be entitled to a diploma who has not been a member of the school in which such diploma is granted, at least one year, nor who is less than nineteen years of age; but a certificate of attendance may be granted by the principal of a normal school to any person who shall have been a member of such school for one term, provided, that in his judgment such certificate is deserved.

Normal pupils receive their tuition free, and all necessary textbooks are furnished for a charge of one dollar, or one dollar and a half per term.

Board can be obtained at from \$2.50 to \$3.50 per week.

The scholastic year is divided into three terms: The first to commence on the first Tuesday of September, and to consist of sixteen weeks; the second to commence on the Tuesday succeeding New Year's day, and to consist of fourteen weeks; and the third to consist of ten weeks, and to end on the last day of June.

REPORT OF THE PRINCIPAL OF THE STATE NORMAL SCHOOL AT PLATTEVILLE.

STATE NORMAL SCHOOL, PLATTEVILLE,
December 1, 1868.

Hon. A. J. CRAIG,

Superintendent of Public Instruction.

DEAR SIR: In compliance with your request, I have the honor to transmit to you the following report of the Normal School under my charge, for the past year.

1. The total number enrolled as in attendance upon the Normal School in all departments was 316.

2. Of this number, 143 were regularly admitted upon nominations from County Superintendents, having passed the required examinations. The remainder, 173, were either in the preparatory, academic, or model departments. The average attendance in the Normal School proper was 91.

3. No class was graduated, although there was a small elementary class prepared; the class preferring to remain another year, completing the full course.

During two terms of the year all the pupils were in attendance that could be accommodated in the building, and indeed more than could be furnished with seats in the study rooms. The completion of the new building enables us to receive more pupils and afford better accommodations than heretofore; yet even with the increased facilities, but forty more could have been accommodated the present term.

The Fall attendance upon the school is much above the average, as the demand for teachers is so great that many pupils attend only during the recess of the public schools, and others only long enough to fit themselves to obtain certificates. Out of an average attendance of ninety-one, less than twenty have been members of the school during the whole year. More than forty have left the school during the present term and are engaged in teaching in the winter schools.

The opening of the Normal School at Whitewater has diminished the representation in this school from remote counties in the state. As many counties, however, have no representatives in either school, it would seem to be policy to have a slight appropriation for a "traveling fund" to equalize the benefits of the schools throughout the state. This seems especially necessary until the other schools are opened. The State of New York paid sufficient mileage to students attending the Normal School to bring the school at Albany virtually within twenty miles of each pupil in the State.

I have again to call attention to the fact that not sufficient care is exercised by county superintendents in making nominations. Some candidates have come to us entirely unfitted in bodily health, capacity, qualifications, or habits, for admission into the school. This forces a very unpleasant duty upon those in charge. Thus far we have assigned such to the Preparatory or Academic departments, or rejected them entirely.

By the liberal provisions of the Board of Regents, one school is now fully equipped. With our increased accommodations, excellent apparatus, and additional members of the Faculty, we are looking forward to a year's work that shall far surpass in effectiveness what has heretofore been done.

Thanking you for your sympathy and hearty co-operation in everything tending to advance the interests of the school under my charge,

I am very respectfully,

Your obedient servant,

CHAS. H. ALLEN, *Principal.*

REPORT OF THE BOARD OF EXAMINERS FOR THE YEARS 1867-8.

HON. A. J. CRAIG,

State Superintendent of Public Instruction:

SIR:—The undersigned having been appointed as Visitors and Examiners to the State Normal School at Platteville, and having performed the duty assigned to them, beg leave to present the following report:

Number of days taught during the year.

First Term.....	79
Second Term.....	67
Third Term.....	52
	198

Number of pupils in attendance during the year.....	316
	316

The percentage of regular attendance was—

Normal Department.....	99½
Academical....do.....	99
	99½

The percentage of punctuality was—

Normal Department.....	99½
Academical....do.....	99½
	99½

Average age—

Ladies.....	19½
Gentlemen.....	20½
	20½

Studies pursued during the year.

Reading, Spelling, Arithmetic (Practical and Mental), English Grammar, Penmanship, Physical Geography, German, Latin, Algebra (Higher and Elementary), Trigonometry, Surveying, U. S. History, Political Economy, Botany, Natural History, Drawing, Geometry, Descriptive Geography, Rhetoric, Criticism, Physiology, Philosophy of Natural History, Training, or Lectures on Theory and Practice of Teaching, and Vocal Music.

The time of the committee being somewhat limited, they could not review all the classes, but after careful consideration they concluded to examine the following, viz:

United States History, Practical Arithmetic, English Grammar, Mental Arithmetic, Penmanship, Physical Geography, Descriptive Geography, Elementary Algebra, Government, Training, Philosophy of Natural History, Natural History, Botany, Spelling and Latin.

Nearly all the branches, although not all the classes, were examined, and the students exhibited a very thorough acquaintance with the subjects under review, leaving the committee very justly to conclude that in the branches of study which had not passed under review, they were equally proficient.

From experience in the examination of teachers the committee would judge that the qualifications of the pupils are much in advance of those who have not attended this or similar institutions, and they would urge upon

teachers the necessity of availing themselves of such advantages as far as possible.

The committee were also impressed with the manner of recitation, with the thoroughness of the drill, the self-reliance, the facility of expression, and the knowledge of principles and causes as well as facts and minute details, exhibited by the scholars. The work had evidently not been cursorily or superficially done; but there was a manifest desire on the part of the professors to show to the committee that the students had been carefully and systematically trained in the noble work of the future.

The visit of the committee was entirely unexpected, and hence no time had been allowed for particular preparation, even if such had been wished for, making the examination more impartial, just and satisfactory.

The examination was conducted orally and not by written questions; and was topical. To each student was assigned a particular branch in the study under examination, and he was expected to discuss it as thoroughly and as rapidly as the time would permit. The professors took charge of their own classes during review, leaving to the committee the work of asking questions at such places and on such points as they might think necessary.

The Model School, which is under the immediate supervision of an efficient disciplinarian, is principally intended for the training of teachers in the Normal Department in the theory and practice of teaching. This has not hitherto been done; but it is understood to be the design of the faculty, on the completion of the new buildings, to carry out this plan in a proper and effectual manner.

The new buildings, which will be completed for the opening of the next term, are in every way adapted to the purpose for which they are intended. The recitation rooms are large, airy and well ventilated; the latter requisite of all buildings having been lost sight of in the erection of the older portion. Six hot-air furnaces are being placed in the basement, thereby securing full and ample warmth and comfort.

The discipline of the school is perfect, and bears a noble contrast to many of our highest institutions of learning in the state. Punishment of all kinds is unknown, and the students, free from personal restraint, have that manly bearing and that honesty of purpose in their deportment which are not only commendable but actually praiseworthy.

The committee were also impressed with the fact that the professors in the different departments are overworked. The committee would suggest the necessity of increasing the corps of teachers, so as to relieve those having charge of such a burden as each is now obliged to bear. The efficiency, the dignity, and the future of such a noble institution seem to call for additional assistance in the work to be performed.

In conclusion, the committee cannot but congratulate the State on the perfection which the Normal School, at Platteville, has already attained, and the grand and hopeful future which lies before it. Supervised by a gentleman whose large experience, practical knowledge and social qualities make him *facile princeps*, in the educational ranks, aided in his efforts by a body of teachers whose souls are alive to their work, and who possess those intellectual, moral and social qualities which rouse in their pupils a love for study and their future profession; situated in a charming and healthy locality, the state may confidently look forward to the time when all our public schools in this district shall be presided over by teachers who will have obtained their training and experience in this Institution, which the large-heartedness and liberality of the State have provided for them.

With the hope that our visit was as pleasant to our friends of the school as it was to us, and that this report will meet with approval, we have the honor to subscribe ourselves, my dear sir,

Your obedient servants,

R. B. CRANDALL,
CHAS. W. CLINTON.

OPENING ADDRESS

AT THE

DEDICATION OF THE STATE NORMAL SCHOOL AT WHITEWATER.

BY WM. STARR, ESQ., PRESIDENT OF THE BOARD OF NORMAL REGENTS.

We have met here to-day, friends, to mingle congratulations and rejoicings, over the progress that has been made in the establishment of this school.

When we review the history of normal schools in this state, there is truly much of encouragement in the fact, that *to-day* witnesses the opening of the *second* normal school in Wisconsin.

It is not long, since the friends of a system of normal instruction regarded the establishment of the normal school, distinct and independent in our state, as a something to be earnestly desired and striven for, yet so dimly seen in the future, as to be a subject of hope, rather than realization.

But, discouraged by no obstacle, the true friends have worked on, with a wisdom and zeal that is bearing early fruitage of their hopes, and to-day, this fine structure is one of the mile stones that mark a new station and a new advance in the educational history of our fair young state.

To those who have been dwellers in Wisconsin since its organization, it is perhaps unnecessary to recapitulate the history of the normal school movement in this state; but, to those younger children of the commonwealth, who were not present at its christening, some brief sketch of leading land-marks, may be useful, in making up the judgment, as to how much the footsteps of the *past*, give promise and hope for the *future*.

Let us, then, devote a few moments, in this, the opening of our exercises, to a brief narration of some of the leading facts in the earlier history of normal schools in this state.

In this narration I can make no mention of individuals and their labors, but must, in the few moments I occupy, confine myself to *results only*, which have become the policy of the state, by the enactments of the legislature.

For these dry statements I must crave your indulgence, and from me you must expect only the mile stones of the journey, while from others (present,) who have traveled along the pathway, we may hear of the beautiful landscapes, the fresh flowers, and the singing birds that have gladdened and quickened them in their toil.

Among the provisions for education in the constitution of the state, adopted twenty years since, it was provided

“That the revenues of the school fund should be exclusively applied to the following objects :”

1st, “To the support and maintenance of common schools in each school district, and the purchase of suitable libraries and appurtenances therefor.”

2d, “That the residue of the income of the school fund should be appropriated to the support of academies and normal schools, and suitable libraries and appurtenances therefor.”

Nothing was however accomplished for normal instruction until in 1867, an act was passed, providing “That the income of twenty-five per cent. of the proceeds arising from the sale of swamps and overflowed lands, should be appropriated to normal institutes and academies, under the supervision and direction of a board of regents of normal schools,” who were to be appointed in pursuance of the provisions of that act.

Under this law, somewhat of good was accomplished—as much perhaps as could be expected with means so limited, and methods so experimental and desultory as necessarily grew out of this first attempt upon normal instruction the fostering care of the state.

Enough, however, was accomplished, to direct public attention to the subject, and stimulate a wish for better methods and more comprehensive results than had been or could be attained under this law.

Meantime, the swamp lands had become a bone of contention, subject as they were to the raids of sharpers, under the cover of benefits to various enterprises and localities.

In 1865 the legislature divided the swamp lands and swamp land fund, into two equal parts—one set apart for drainage purposes, the other to constitute a Normal School fund—the increase of which should be applied to establishing, supporting and maintaining normal schools, under the direction and management of the Board of Regents of normal schools, with a proviso, that one-fourth of such income should be transferred to the common school fund, until the annual income of the school shall reach \$200,000. This was followed in 1866 by an act incorporating the Board of Regents of Normal Schools.

The division of the fund and lands having been made, and it becoming apparent that a productive fund of about \$600,000 with a net income of over \$30,000, was already in hand, with a prospect of a steady increase as fast as lands were sold; the Board, after a careful investigation and consideration of different methods, decided upon the policy of establishing several schools, and of locating them in various parts of the state.

At a meeting held on the 2d day of May in that year, the Board designated Whitewater as the point for the south-eastern section of the state, and selected the site upon which we now stand for the building.

The school at Platteville, located at the same meeting, was opened in October ensuing, the building donated being considered suitable, with some alterations, for immediate use.

Some time was necessarily consumed in procuring, revising and adopting a plan for the building at this place; and, after advertising for proposals to construct the building in accordance with the plan adopted, the Board met at Madison, on the 5th of September, 1866, to consider said proposals.

But here arose a question of practical difficulty. The organic law provides that no more than \$10,000 from the income fund, shall be used for the completion of the buildings of any Normal School, and for the furniture and fixtures pertaining to the same, in addition to the sums donated by the locality where established.

Whitewater donated \$25,000—the addition of \$10,000 from the income fund, made the sum of \$35,000 at the disposal of the Board, for the erection and completion of this building and the furnishing thereof.

The Board had expressly instructed the architect to furnish a plan for a building which, *with heating apparatus*, should not in cost exceed \$33,000, leaving \$2,000 for furniture.

No bids were received, coming within the limits, and hence none that the Board felt authorized to accept.

After full deliberation, it was thought best to proceed with the erection of the building; and the board instructed their building committee to employ a superintendent, and proceed to construct the building according to the plans and specifications of the architect.

The committee employed Hon. N. M. Littlejohn as superintendent. The foundation was laid, and the basement story built before winter stopped the work.

Much of the wood work was made ready during the winter; work upon the walls of the building was resumed in the spring, and, with some delays for want of brick, the building was pushed rapidly towards completion.

The original plan provided for heating the building with hot-air furnaces. After a full investigation of the different methods of heating, the committee finally decided to heat by steam. The board approved the decision, and a contract was made for that purpose.

The contractor was behind time in his work, and the completion of the building was further delayed thereby.

The committee had expected to have the building ready for the opening of a winter term in January last, but the delays for want of brick had already hindered the work, and this delay in heating the building before cold weather came on, had so much further delayed the plastering and other inside work as to render this impracticable.

But the work has been pressed steadily forward, and has reached its present condition. Twice has it become necessary for the board to make application to the legislature, for permission to use additional means from the income fund to complete the work. The legislature, acting for the state, and impressed with the urgent

necessity of an early opening of the school, has granted each request, and the building is here before us; not yet finished and polished in all its completeness and surroundings, but ready to receive its animated life.

I have thus rapidly run over some of the leading incidents which have culminated in our meeting here to-day. Imperfect and roughly sketched, they have no merit, unless brevity, no use, except to indicate the path we have traveled to reach this occasion.

Of the school in all its fair proportions, which shall spring up within these walls, I must not linger to speak. I trust some abler tongue will delight you with that theme.

But what avails it to erect this costly structure, laying deep and firm its foundation, so that frost and rain shall not move it—as firm as the everlasting hill which upholds it—to rear its walls with care and nice design, fashioning the rough and uncouth elements into forms of use and beauty, filling it with books and maps, and charts and apparatus, with all the appliances needed to furnish implements for the school within?

Of what avail to collect here the sons and daughters of the State, unless some skilled artificer shall be found to use these tools, and with them to fashion the living stones that shall go to make up that great temple of popular education, which is to gladden the eyes and satisfy the taste of the future?

To *you*, sir, whom the Board of Regents of Normal Schools have selected as Principal to take charge of this Institution, and mould its opening career, and to the co-adjutors with your full approval called around you, the State confides this important trust. In the name of the Board of Regents of Normal Schools, I tender you this edifice, with all its containings and surroundings, that you may welcome within its walls, those sons and daughters of the State, who here enroll themselves in the noble army of teachers—an army whose mission is peace, and whose battle-cry is progress.

Not to the Board of Regents of Normal Schools alone are you responsible for faithfulness to this high trust, but to every earnest young man or young woman who may come to you for inspiration and discipline in the high and holy mission of the teacher, and to every child whose spirit is to be quickened or deadened by the agen-

cies which you shall set in motion. The work of education requires infinite patience, and well it may, for it bears infinite results.

To you, and to each of your faculty, is opened a career of usefulness, as illimitable as desire, as lofty as ambition, as satisfactory as the consciousness of work well done.

Most gladly, and without any misgivings we confide to you this responsible trust, confident that hereafter, when inquest is made for the results of your labor, you can point to the primary schools of the State, renovated, revived and thoroughly imbued with the leaven of a better life, as the first fruits of this day's beginning.

Be not weary in well-doing; for, no richer or riper fruit can age pluck from the fruitage of life, than the consciousness of lasting good accomplished *in* the present and *for* the future.

REPORT OF THE PRINCIPAL

OF THE STATE NORMAL SCHOOL AT WHITEWATER.

Hon. A. J. CRAIG,

Superintendent of Public Instruction :

SIR :—In accordance with your request I send you herewith a report of the condition of the normal school under my charge. This school building was dedicated with appropriate exercises by the Board of Regents on the 21st of April, 1868, and the school was opened on the following day for work.

The inside of the building was not yet completed and the object in opening a preliminary session at this time, was that the organization of the school might shape itself more completely for the opening of the fall term. Thirty-five pupils were registered on the first day in the normal department, and one hundred and two in the training department.

Notwithstanding the disadvantages caused by the unfinished state of the building, the work of the session was carried on successfully ; the number of normal pupils running up directly to forty-eight ; making the whole number in attendance during the first term one hundred and fifty.

A class of earnest workers presented themselves among the first pupils of the school, giving to it a strength and character from which the faculty have had reason to draw much encouragement.

The second term was opened the first day of September with a registration during the session of one hundred and five pupils in the normal department, thus showing a gain of over one hundred per cent. in the attendance of normal pupils the second term. Ninety-six pupils were registered in the training department, making the registration in all the departments two hundred and one.

The following table will show the attendance in each department.

First Term.

	Lad's.	Gent.	Total.
Normal department.....	28	20	48
Academic department.....	15	27	42
	Misses.	Lads.	
Intermediate department.....	18	10	28
Primary department.....	13	19	32

Second Term.

	Lad's.	Gent.	Total.
Normal department.....	63	42	105
Academic department.....	23	23	46
	Misses.	Lads.	
Intermediate department.....	12	13	25
Primary department.....	9	16	25

LIBRARIES.

Since the opening of the school a text book library, containing four thousand five hundred volumes, and a well selected reference library containing two hundred and fifty volumes, have been secured for the use of the pupils.

LITERARY SOCIETY.

A literary society has been in active operation since the opening of the institution. Lectures have been given before it, and discussions have been held, both public and private, together with such other exercises as is usual in such organizations. The society gives promise of much usefulness.

APPARATUS.

The Regents have purchased a well assorted apparatus, sufficiently extensive to illustrate the principles of Chemistry, Natural Philosophy, Astronomy and Physiology. Large additions will be made to the apparatus and the library during the coming year.

OLIVER AREY,
Principal.

ANNUAL REPORT
OF THE
BOARD OF REGENTS
OF THE
UNIVERSITY OF WISCONSIN,
FOR THE YEAR ENDING SEPTEMBER 30, 1868.

To His Excellency, LUCIUS FAIRCHILD,

Governor of Wisconsin:

I have the honor, on behalf of the Regents of the University of Wisconsin, to submit to you the following annual report for the fiscal year ending September 30, 1868. It is with unfeigned pleasure and satisfaction that I make the announcement that the efforts of those to whom the management of the University has been confided have been crowned with success during the past year, that the present condition of the institution is highly favorable and its affairs and the results so far attained are satisfactory and full of promise for the future. This is mainly due to the ability, energy and incessant labors of President Chadbourne, to whom the Regents and the people of the State are under lasting obligations. He has had the interests of the institution at heart in every one of its many and different departments, and he and his corps of professors and instructors have labored zealously, ably and successfully in the discharge of their duties.

The Faculty and Instructors are now as follows :

PAUL A. CHADBOURNE, M. D., LL.D.,
President and Professor of Mental and Moral Philosophy.

JOHN W. STERLING, LL.D.,
Professor of Natural Philosophy and Astronomy.

JOHN B. PARKINSON, A. M.,
Professor of Mathematics.

S. H. CARPENTER, A. M.,
Professor of Rhetoric and English Literature.

WILLIAM F. ALLEN, A. M.,
Professor of Ancient Languages and History.

JOHN B. FEULING, PH. D.,
Professor of Modern Languages and Comparative Philology.

COL. W. R. PEASE, U. S. ARMY,
Professor of Military Engineering and Tactics.

W. W. DANIELLS, M. S.,
Professor of Agriculture.

JOHN E. DAVIES, M. D.,
Professor of Chemistry and Natural History.

ADDISON E. VERRILL, A. M.,
Professor of Comparative Anatomy and Entomology.

HON. L. S. DIXON,
Chief Justice of the Supreme Court of Wisconsin, Professor of Law.

HON. ORSAMUS COLE,
Associate Justice of the Supreme Court of Wisconsin, Professor of Law.

HON. BYRON PAINE,
Associate Justice of the Supreme Court of Wisconsin, Professor of Law.

J. H. CARPENTER, Esq.,
Dean of the Faculty and Professor of Law.

WM. F. VILAS, LL.B.,
Professor of Law.

AMOS H. THOMPSON, A. B.,
Tutor.

ISAAC S. LEAVITT, P. B.,
Instructor in English Branches.

MISS ELIZABETH EARLE,
Preceptress.

MISS CLARISSA L. WARE,
Associate Preceptress.

MISS FRANCES BROWN,
Teacher of Music.

MISS LOUISA BREWSTER,
Teacher of Drawing and Painting.

I.—THE COLLEGE OF ARTS.

Candidates for admission to the College of Arts, are examined in English Grammar, Geography, Mental and Written Arithmetic, Plane and Solid Geometry, and Algebra to Quadratic Equations, and must be at least sixteen years of age.

The following is the course of instruction in this department :

FIRST YEAR.

First Term.

- MATHEMATICS..... Higher Algebra—Loomis.
 GERMAN..... Otto's Conversation Grammar.
 NATURAL HISTORY.. Botany.
 HISTORY..... Roman Empire—Student's Gibbon.

ELECTIVE STUDIES.. Practical Botany and Agriculture, French and Latin.

Second Term.

- MATHEMATICS..... Algebra Completed—Loomis.
 Conic Sections.
 GERMAN..... Otto's Conversation Grammar.
 HISTORY..... Mediæval—Student's Gibbon.

ELECTIVE STUDIES.. History of useful Plants, Physical Geography, Climatology, French and Latin.

Third Term.

- MATHEMATICS..... Plane Trigonometry, Mensuration, Surveying and Navigation—Loomis.
 GERMAN..... Select Prose and Poetry.
 NATURAL HISTORY.. Botanical Analysis—Gray's Manual.
 HISTORY..... Modern—Student's France.

ELECTIVE STUDIES.. Horticulture, French, Latin.

Themes and Declamations weekly during the year.

SECOND YEAR.

First Term.

MATHEMATICS	Spherical Trigonometry—Loomis. Analytical Geometry—Loomis.
RHETORIC	Day.
CHEMISTRY	Youmans.
NATURAL HISTORY	Mineralogy—Dana.
HUMAN ANATOMY	Lectures.

ELECTIVE STUDIES Laboratory Practice, *Qualitative Analysis*,
Blowpipe Analysis.

Second Term.

PHYSICS	Snell's Olmsted begun—Lectures.
CIVIL POLITY	Political Economy—Perry.
CHEMISTRY	Organic and applied.
NATURAL HISTORY	Zoology begun—Agassiz.
HISTORY	United States—Eliot.

ELECTIVE STUDIES Laboratory Practice, *Quantitative Analysis*.

Third Term.

PHYSICS	Snell's Olmsted completed—Lectures.
CIVIL POLITY	International Law, Constitution of the United States,
NATURAL HISTORY	Zoology completed. General Physiology.
HISTORY	England—Student's Hume.

ELECTIVE STUDIES Differential and Integral Calculus, Natural History of Domestic Animals, Entomology.

Themes and Declamations weekly during the year.

THIRD YEAR.

First Term.

ASTRONOMY.....	Snell's Olmsted.
MENTAL PHILOSOPHY.	Haven.
ENG. LITERATURE...	Shaw, begun.
RHETORIC.....	Bascom.
ÆSTHETICS.....	Bascom.

ELECTIVE STUDIES.. Examination of soils—Forestry.

Second Term.

LOGIC.....	Whately.
MORAL PHILOSOPHY.	Hopkins.
ENG. LITERATURE...	Shaw, completed.
NATURAL HISTORY..	Geology and Mining.

ELECTIVE STUDIES.. Modern Languages, Chemical Analysis, Determinative Mineralogy.

Third Term.

NATURAL THEOLOGY.	Chadbourne.
EVIDENCES.....	Hopkins—Lectures.
HISTORY.....	Guizot's History of Civilization. General Review.

ELECTIVE STUDIES.. Reviews.

Critical Essays, Declamations, and Forensic Disputations, weekly during the year.

DEPARTMENT OF AGRICULTURE.

This department is a part of the College of Arts; it has been put in practical operation since my last annual report, and the following is the course of study therein:

FIRST YEAR.

First Term.

BOTANY.—Structural Botany, including microscopic examination of tissues and other minute structures. Physiological Botany, including the germination and growth of plants. Systematic Botany, or classification of plants, including a discussion of the general principles of classification in the different departments of Natural History. The limitation of species and origin of varieties, with exercises in Botanical Analysis.

Second Term.

PRACTICAL AGRICULTURE.—Location of farm. Division into fields. Arrangement and planning of farm buildings. Farm implements. General principles of tillage. Principles of drainage. Laying out and construction of drains. Methods of seeding. Harvesting of crops.

PHYSICAL GEOGRAPHY AND CLIMATOLOGY.—Dews, Frost, Fog, Clouds, Rain, Hail, Snows, Winds and local causes affecting climate, as proximity to mountain chains, to forests, or to bodies of water. Effect produced by the removal of forests, or by planting screens of timber. Meteorological instruments; their methods of use and advantages to the agriculturist.

Third Term.

PRACTICAL BOTANY.—Botanical characteristics and geographical distribution of the natural orders, with their relative importance. The genera and species having agricultural value, those having commercial or medical value, those having ornamental value, and those which are noxious or detrimental—as weeds or poisonous plants.

HORTICULTURE.—Hot-beds; their construction and use. Methods of propagation of plants by layers, by cuttings, by budding, by grafting, &c. Transplanting. Varieties of small fruits and best means of cultivating them. General management of nurseries. Production of new varieties. Landscape gardening.

SECOND YEAR.

First Term.

CHEMISTRY.—The forces, Heat, Light, Electricity and Magnetism.

Chemical Affinity and the laws of chemical combination. The Elements, their history, properties, combinations and uses. Applications of Chemistry to the arts and manufactures. Laboratory practice will be begun, as soon as the student has become sufficiently advanced, taking up the special reactions of the elements, and the laws of chemical decomposition and precipitation.

Second Term.

ZOOLOGY.—Principles of classification. Descriptive Zoology, comprising the systematic arrangement of animals in accordance with their natural affinities, into classes, orders, families, &c. Natural History of Domestic Animals.

ORGANIC CHEMISTRY.—Composition of organic bodies, and their special characteristics. Chemistry of germination, of nutrition, of vegetable growth, of decomposition, of fermentation, of saponification.

ANALYTICAL CHEMISTRY. Including general analysis, analysis of minerals, Blowpipe analysis, analysis of soils, manures and ashes of plants. Volumetric analysis, and its applications to acidimetry and alkalimetry.

Third Term.

PRACTICAL AGRICULTURE.—General principles of farm economy. Manures, animal, vegetable and mineral, their management and mode of application. Preparation of the soil for particular crops. Cultivation of crops. Management of grass lands. Improvement of soils by physical means, as Draining, Subsoiling, &c. Conducting experiments. Industrial Statistics.

ZOOLOGY.—General Physiology, Comparative Anatomy, and Embryology. Entomology, including classification of Insects. Habits of noxious species and best means of checking their ravages. Habits of beneficial species.

THIRD YEAR.

First Term.

FORESTRY.—Planting and management of Forest Trees. Soils adapted to their growth. Value of different kinds of trees for fuel, building and other purposes.

GEOLOGY.—Dynamical and descriptive. Origin of soils. Building Materials. Coal and Metals.

Second Term.

AGRICULTURAL CHEMISTRY.—Composition of soils. The relations of air and moisture to vegetable growth. Connection of light, heat and electricity with growth of plants. Chemical changes attending vegetable growth. Chemistry of the various processes of the farm, as plowing, fallowing, draining, &c. Preparation, preservation and composting of manures. Artificial manures. Methods of improving soils by chemical means, by mineral manures, by vegetable manures, by animal manures, Chemical composition, of the various crops. Chemistry of the dairy.

Third Term.

ANIMAL HUSBANDRY.—Breeds of domestic animals, their characteristics, and adaptation to particular purposes. Principles of stock breeding. Veterinary surgery and medicine.

HISTORY OF AGRICULTURAL EDUCATION.

A great deal of labor has been performed in this department during the past summer, especially upon the grounds purchased for the experimental farm. The stumps and stones have been removed, experiments have been made with the planting of corn and potatoes, a vineyard has been commenced, an arbor-vitæ hedge, a row of Norway spruce and 1,600 evergreens have been planted, drives and roads have been constructed, fences have been removed and put up, throwing the entire land in one enclosure; land has been prepared for future crops and experiments, a large and substantial barn has been built, and a good farm-house for the superintendent is in process of erection. The land given to the State Horticultural

Society for horticultural experiments has been prepared for cultivation and partly planted. This department being entirely new, I beg to refer, for more particular information to the annexed report of W. W. Daniells, M. S., Professor of Agriculture, kindly prepared by him for this purpose.

DEPARTMENT OF ENGINEERING & MILITARY TACTICS.

This department forms also a part of the College of Arts. It has been put in full operation during the past year under the direction of the President of the University, and more particularly under that of Col. W. R. Pease, U. S. Army, Professor of Engineering and Military Tactics, who has been assigned to that duty by the general government, and has fulfilled the same with great ability and satisfaction to the Regents. An armory has been established and put in proper condition, and a uniform has been prescribed by the Regents.

The following military exercises and course of study have been adopted :

MILITARY EXERCISES.

I. There shall be a drill in some one of the different arms of the service, at least three times each week when the weather permits.

II. *Drills.* The drills shall comprise practical instruction in the Schools of the Soldier, Company and Battalion, Field Artillery and dismounted Cavalry.

III. *Dress Parades.* There shall be an evening Dress Parade of the Battalion at such times as may be deemed necessary for instruction and exercise.

IV. *Undress Parades.* Parades without arms shall be made at such times as may be found necessary.

V. *Guard Mounting.* The ceremony of mounting and turning off guards will occur as often as may be deemed necessary for instruction. Students will be instructed in the duties of Officer of the Day, Officer of the Guard and Sentinel.

VI. Practical instruction in the Field, in laying out and constructing Field Fortifications and other military works, will be given the class pursuing the study of Military Engineering.

COURSE OF STUDY AND MILITARY EXERCISES.

I. The Course of Study will comprise Civil and Military Engineering, Infantry, Cavalry, Field, Garrison and Siege Artillery Tactics, Advanced Guard and Out Post &c., Ordnance and Gunnery, Military Law and Practice of Courts Martial, and Army Regulations.

II.—*Seniors.**First Term.*

Civil and Military Engineering, Practical instruction in the Schools of the soldier, Company and Battalion, and Field Artillery.

Second Term.

Civil and Military Engineering.

Third Term.

Civil and Military Engineering, Review of Studies of preceding terms. Practical instruction in the Schools of the Soldier, Company and Battalion, and Dismounted Cavalry.

III.—*Juniors.**First Term.*

Infantry Tactics.

Practical instruction in the School of the Soldier, Company and Battalion, and Field Artillery.

Second Term.

Cavalry, Field, Garrison and Siege Artillery Tactics, Ordnance and Gunnery.

Practical instruction in the School of the Soldier.

Third Term.

Company, Battalion and Dismounted Cavalry.

Military Law and Practice of Courts Martial, and Army Regulation.

Practical instruction in the School of the Soldier.

IV. *Sophomores.**First Term.*

Practical instruction in the School of the Soldier, Company and Battalion.

Second Term.

Practical instruction in the School of the Soldier.

Third Term.

Practical instruction in the School of the Soldier, Company and Battalion, and Dismounted Cavalry.

V.----*Freshmen.**First Term.*

Practical instruction in the School of the Soldier, Company and Battalion.

Second Term.

Practical instruction in the School of the Soldier.

Third Term.

Practical instruction in the School of the Soldier, Company and Battalion.

While the military department is an important, necessary and eminently useful feature of the University, giving to our young men an opportunity to obtain a military education under an able and accomplished military instructor, I believe that some change of the organic law of the University will be necessary in regard to this branch of instruction. As the law now stands, "*all able-bodied male students of the University, in whatever college, shall receive instruction and discipline in military tactics.*" This rigid rule may prove detrimental to the development of the institution in some of its departments. The Regents have already established a Law College, they have in contemplation the establishment of a Medical College, and may create other professional colleges. It is not probable that many young men, pursuing strictly professional studies only, would be willing to submit to the military training and instruction contemplated by this law, and many students might rather seek other institutions than be subjected to this military training. These professional colleges, while *connected* with the University, may be in different parts of the State and might therefore require separate military instructors; and many instances may occur of young men who, without being members of any particular

prescribed course at the University, desire to pursue special studies only for a limited period of time, and who may have neither time nor inclination to pursue these military studies. As the law stands, the Regents cannot exempt any able-bodied male students of the University from this military instruction and discipline. I would suggest therefore that the organic law be so changed as to place this subject of requiring military instruction and discipline at the University entirely in the hands of the Board of Regents, that, subject to the requirements of the act of Congress concerning agricultural colleges, they may be enabled to adopt such regulations as circumstances may seem to require.

II.—THE COLLEGE OF LETTERS.

Candidates for admission to the Freshman Class are examined in Geography, Arithmetic and Algebra to Quadratic Equations, in English, Latin and Greek Grammar; in Cæsar, Virgil, Cicero's Orations and in three books of Xenophon's Anabasis, and must be at least fifteen years of age. The following is the course of instruction in this department, which is intended to be equal to that of the best colleges in the country.

FRESHMAN CLASS.

First Term.

MATHEMATICS	Geometry begun—Loomis.
LATIN	Livy—Lincoln.
GREEK	Xenophon's Anabasis—Boise.
FRENCH	Otto's Conversation Grammar.
LECTURES	Laws of Health and Methods of Study.

Second Term.

MATHEMATICS	Geometry continued.
LATIN	Cicero de Senectute and de Amicitia.
GREEK	Xenophon's Memorabilia—Robbins,
FRENCH	Otto's Conversation Grammar.
HISTORY	Greece—Smith.

Third Term.

MATHEMATICS	Geometry completed.
LATIN	Horace—Odes,
GREEK	Memorabilia continued,
FRENCH	Select Prose and Poetry.
ANTIQUITIES	Greek and Roman.
HISTORY	Rome—Liddell or Smith.

Themes and Declamations during the year. Latin and Greek Composition through the year.

SOPHOMORE YEAR.

First Term.

MATHEMATICS	Higher Algebra—Loomis.
LATIN	Horace—Satires.
GREEK	Homer—Iliad.
GERMAN	Otto's Conversation Grammar.
NATURAL HISTORY	Botany.
HISTORY	Roman Empire—Student's Gibbon.

Second Term.

MATHEMATICS	Algebra completed—Loomis. Conic Sections,
LATIN	Horace—Epistles.
GREEK	Æschylus Prometheus—Woolsey.
GERMAN	Otto's Conversation Grammar.
HISTORY	Medieval—Student's Gibbon.

Third Term.

MATHEMATICS	Plane Trigonometry, Mensuration, Surveying and Navigation—Loomis.
LATIN	Tacitus—Histories. Tyler.
GREEK	Demosthenes—Olynthiacs and Philippics. Champlin.
GERMAN	Select Prose and Poetry.
NATURAL HISTORY	Botanical Analysis—Gray's Manual.
HISTORY	Modern—Student's France.

Themes and declamations weekly during the year. Latin composition through the year.

JUNIOR YEAR.

First Term.

RHETORIC	Day.
MATHEMATICS	Spherical Trigonometry—Loomis. Analytical Geometry.
CHEMISTRY	Youman's and Lectures.
NATURAL HISTORY	Mineralogy—Dana.
HUMAN ANATOMY	Lectures.

Second Term.

PHYSICS	Snell's Olmsted begun, with Lectures.
CIVIL POLITY	Political Economy—Perry.
CHEMISTRY	Organic and Applied.
NATURAL HISTORY	Zoology begun—Agassiz.
HISTORY	England.—Student's Hume.

Third Term.

PHYSICS	Snell's Olmstead completed, with Lectures.
CIVIL POLITY	International Law, Constitution of U. S.
NATURAL HISTORY	Zoology completed. General Physiology.
HISTORY	United States—Eliot.

ELECTIVE Calculus.

Themes and Declamations weekly during the year.

SENIOR YEAR.

First Term.

ASTRONOMY	Snell's Olmsted.
MENTAL PHILOSOPHY	Haven.
ENG. LITERATURE	Shaw, begun.
RHETORIC	Bascom.
AESTHETICS	Bascom.

Second Term.

LOGIC.....	Whately.
MORAL PHILOSOPHY..	Hopkins.
ENG. LITERATURE. .	Shaw, completed.
NATURAL HISTORY...	Geology and Mining.

Third Term.

NATURAL THEOLOGY.	Chadbourne.
EVIDENCES	Hopkins' Lectures.
HISTORY.	Guizot's History of Civilization.
	General Review.

Critical Essays, Declamations and Disputations weekly during the year.

III. PROFESSIONAL AND OTHER COLLEGES.

THE LAW DEPARTMENT.

This important department has been organized since the last annual report of the Regents and will probably soon present one of the most attractive and successful branches of the University. J. H. Carpenter, Esq, has been appointed Dean of the Faculty, and Wm. F. Vilas, LL. B., another of its professors, while the Judges of the Supreme court have kindly consented to accept professorships in this department and to lecture therein gratuitously when their other duties will permit. A better opportunity than this cannot be furnished to the young men of the state, who desire to become members of the legal profession. Students may graduate in this department after completing a year's course and passing the requisite examination.

The following is the prescribed course of study :

First Term.

- Reeves' Domestic Relations.
- Parsons on Contracts.
- Bishop on Criminal Law.
- Story on Bailments.
- Edwards on Bills and Notes.
- Williams on Personal Property.
- Greenleaf on Evidence.

Second Term.

Greenleaf on Evidence.
 Angell and Ames on Corporations.
 Story on Agency.
 Parsons on Partnership.
 Parsons on Mercantile Law.
 Chitty on Pleading.

Third Term.

Chitty on Pleading.
 Washburn on real Property,
 Redfield's Edition of Story's Equity Jurisprudence.
 Story's Equity Pleadings.
 American Leading Cases.
 Story's Constitutional Law.
 Story's Conflict of Laws.

THE FEMALE COLLEGE.

This was formerly known as the Normal Department. Its object is to furnish a thorough education for ladies. It has its own building and public rooms, and a separate board of instruction, and is under the special direction of the Preceptress. The President of the University and the Professors give instruction in their several departments, and the students have the privilege of attending University lectures, but the recitations and other exercises are distinct from those in the other colleges. The following is the adopted course of study :

FIRST YEAR.

First Term.

Higher Arithmetic—Mental and Written.
 Grammar—Verbal and Sentential Analysis.
 Geography and Map Drawing.
 General Exercises.

Second Term.

Arithmetic completed.
 Grammar—Verbal and Sentential Analysis.
 Geography and Map Drawing.
 General Exercises.

Third Term.

Elementary Algebra begun.
 Physical Geography.
 History United States.
 General Exercises.
 Reviews.

SECOND YEAR.

First Term.

Elementary Algebra completed.
 Analysis.
 Botany.
 History.
 ELECTIVE—French or Latin.

Second Term.

Plane Geometry.
 Physiology.
 History.
 General Exercises.

 ELECTIVE—French or Latin.

Third Term.

Solid Geometry and Plane Trigonometry.
 Rhetoric.
 History.
 Botanical Analysis.
 Reviews.

 ELECTIVE—French or Latin.

THIRD YEAR.

First Term.

Higher Algebra.
 Criticism and Eng. Literature.
 Zoology.
 General Exercises.

 ELECTIVE—Latin or German.

Second Term.

Higher Algebra completed.
 English Literature.
 Constitution and Science of Government.
 Political Economy.

ELECTIVE—Latin or German.

Third Term.

Natural Philosophy.
 Mental Philosophy.
 Evidences.
 Reviews.

ELECTIVE—Latin or German.

FOURTH YEAR.

First Term.

Spherical Trigonometry.
 Chemistry.
 Moral Philosophy.

Second Term.

Astronomy,
 Geology.
 Moral Philosophy.
 History of Civilization.

Third Term.

Aesthetics.
 Natural Theology.
 Essays and Reviews.

Ancient and Modern Languages elective during the year.

POST GRADUATE COURSE.

The object of this course is to secure a higher degree of scholarship in literature and science, than can be attained in our colleges under the ordinary class system. The studies are optional and are embraced in the following course of instruction :

SECTION I. NATURAL HISTORY.

Botany.
 Mineralogy.
 Geology.
 Mining.

II. CHEMISTRY.

Chemical Philosophy and Physics.
 Qualitative and Quantitative Analysis.
 Applied Chemistry.

III. MATHEMATICS AND PHYSICS.

Pure Mathematics.
 Mechanics and Physics.
 Astronomy.
 Engineering.

IV. PHILOSOPHY AND HISTORY.

History and International Law.
 Psychology and History of Philosophy.
 History and Criticism of English Literature.

V. PHILOLOGY.

Latin and Greek Languages and Literatures.
 Comparative Philology.
 Modern European Languages.

PREPARATORY DEPARTMENT.

It has been and will continue to be necessary to keep this department so long as the high schools in the State are not sufficiently developed to furnish the necessary preparation for students at the University. The principal studies are English Grammar, Geography, Arithmetic, Algebra, Geometry, Latin and Greek. The sole object of this department is to prepare students for the regular classes of the University.

NUMBER OF STUDENTS.

There was during the past Collegiate year the following number of students in attendance upon the University :

Students in College classes.....	66
University students	64
Students in Preparatory department	124
Students in Female College.....	140
Total.....	<u>394</u>

FINANCIAL CONDITION.

I beg to refer to the annexed annual report of the Secretary of the Board of Regents for the receipts and disbursements of the different funds, and their respective resources appropriated for the support of the University. From that report it appears that the total receipts of the University Fund Income during the past year were \$27,658.38, and the total disbursements for expenses of that year were \$26,643.61, while the estimated income of the ensuing year is \$29,303.76. Considering the large and increasing demands now made upon the institution, its income is still far below that of many similar institutions in other states.

MISCELLANEOUS MATTERS.

The principal and most pressing need of the University is still felt to be (more pressingly even than last year because of the increase of students) an increase of room and of accommodations for students. *The University must have another building.* It is impossible to put up such a building from its own resources, and it has, therefore, to rely upon the generosity of the state to furnish the means. Without another building the University cannot expand as it surely will with enlarged accommodations. The President of the University, in his last report to the Regents, makes the following statement: "*We have no proper laboratory, no telescope, no observatory, no room for public meetings, no building suitable for the Female College.*" From their resources the Regents may supply some of these and other pressing wants in time, but they cannot erect a new building. For that they can only appeal to the state.

Under the direction of President Chadbourne a room has, for the present, been fitted up in the basement of the University building for students' work in practical chemistry, and another room is being prepared by him for metallurgy, which will have to answer the purpose until we have a new building and can fit up a proper laboratory.

The University is now fairly on the road to success; with a little more encouragement and assistance from the people and the legislature, it will soon be a pride to the state.

EDWARD SALOMON,

President of the Board of Regents of the University of Wis.

APPENDIX.

REPORT OF PROFESSOR W. W. DANIELLS.

TO THE HONORABLE EDWARD SALOMON,

Pres. of the Board of Regents of the University of Wis.:

SIR: The following brief report of operations upon the University farm during the past summer is respectfully submitted:

I received my appointment to the chair of Agriculture on the 24th day of February last, when there were neither teams, buildings, nor tools of any kind upon the farm. None of the land had ever been in cultivation, and although a portion of the farm was partially cleared, much work was necessary to fit it for the plow. The stumps, stones, and also the trees, except those left for ornament, have been removed from all land that has been plowed. In all cases where it was practicable the stone have been drawn to the lake to prevent farther washing away of the bank.

Four acres of corn have been in cultivation. Experiments that were begun upon this crop in different methods of preparing the seed, were necessarily abandoned, as the unusually heavy rains immediately after planting caused a portion of it to decay before germinating.

Two acres of potatoes have also been in cultivation. A report of the experiments in the different methods of preparing the seed will be found below. This crop was chosen as an excellent one to subdue the sward, and the experiments were merely incidental to this process.

The plat of ground selected for a vineyard was plowed in June. A portion of it was sowed to corn for soiling purposes, and another portion to ruta-bagas.

The northward slope, next the lake, containing nearly ten acres, to be used as an apple orchard, is also plowed.

That portion of the University grounds that had once been in cultivation as a garden, has been laid down to grass for a lawn. The worthless appletrees upon this piece have been removed. The remaining ones have been pruned and otherwise cared for.

The work of clearing up the University grounds, has been continued. The groves have been thinned where thinning was necessary, and the dead limbs removed from the remaining trees. The stumps and stone have been so far removed as to admit of the entire grounds being mowed, with the exception of that portion along the bank of the lake, which is left in its wild state for botanical purposes. Two hundred evergreens, from three to six feet in height, have been set upon the grounds. Although the summer has been exceedingly dry, not more than six of these show any signs of dying. This may be attributed to the following method of treating them. The holes were dug of good size, before the trees were delivered, that the plants might be kept out of the ground as short a time as possible, and no trees were taken from the nursery, that had not a good supply of fibrous roots. The time of setting was the last week of April and the first of May. The earth in the hole was made to conform as nearly as possible to the under surface of the mass of roots. In setting, after thoroughly wetting the roots, a man held the tree in its place with one hand, and with the other placed the roots as nearly as possible in their natural position, while a second man shoveled the earth in, putting the richest soil next the roots. The trees were then firmly tied to stakes, and well mulched to a distance of three feet from the body. Those that needed it were mulched a second time at the beginning of the dry season. No care has since been given them, yet I have seldom seen evergreens do better the first season after planting.

An arbor-vitæ hedge has been planted between the stiles in front of the University.

A row of Norway spruce, intended as a future protection against

south and southwest winds, has been planted on the south line of the farm, running west one hundred rods from the University grounds.

There are in cultivation for future use fourteen hundred seedling evergreens of two years growth. These plants were donated to the University by Robert Douglas, Esq., of Waukegan, Illinois.

Drives have been constructed from the buildings to each of the front entrances. The danger of washing, in the gutters of the steeper portions of these drives, has been obviated by seeding thickly to June grass.

The avenue leading from the farm buildings to the University has been graded two rods in width, one-fourth of a mile.

The fence between the farm and University grounds, and that about the President's house, have been removed, throwing the entire land into one enclosure.

About fifteen tons of hay were cut upon ground that had never been in cultivation, and was so rough as to require the work to be done by hand. A few acres of this land have since been as well prepared for mowing as is practicable, without first subjecting it to thorough tillage.

A farm barn 50x60 feet, with 24 feet posts, is completed. This barn contains horse and cattle stables, a granary, a carriage and tool room, besides bays for hay and grain. The stone basement, eight feet in height, has a fine fruit and root cellar 30x36 feet, a manure cellar 20x60 feet, and an apartment 24x30 feet, to be used for the present as a sheep fold.

A farm house, 20x38 feet, with a wing 22x24 feet, to be finished the 1st of January, 1869, is in process of erection.

Students who desire it are furnished with labor, whenever it is possible to do so, at a maximum price of 12 1-2 cents per hour. During the summer and fall terms of the present year, work has been done by them to the amount of over three hundred dollars.

The land given to the Wisconsin State Horticultural Society for the purpose of experimenting in horticulture has been prepared for cultivation. A portion only has been in use the past summer. They already have growing fruit trees and grapes of different kinds, various varieties of small fruits and shrubbery, and a barberry hedge. A part of the ground has also been set with evergreens and deciduous trees of choice varieties.

After receiving the appropriation of the land, the society issued a circular soliciting donations, which was sent to the leading nurserymen and horticulturists of the country. Many valuable collections of seeds, plants and shrubbery, have been received in answer to this circular.

The following is a list of the donors as furnished to the Wisconsin Farmer, by O. S. Willey, Esq., Secretary of the Society :

Kinseley & Gaines, Dayton, Ohio.
 Samuel Edward, La Moil, Illinois.
 Chas. Andrews, Marengo, Illinois.
 David Landreth, Philadelphia, Pennsylvania.
 M. De Wolf, Delavan, Wisconsin.
 J. C. Plumb, Milton, Wisconsin.
 M. B. Lum, Sandusky, Ohio.
 Ingraham Gould, Beaver Dam, Wisconsin.
 Joseph Hobbins—President of the Society—Madison.
 W. W. Beebe, Dubuque, Iowa.
 Suel Foster, Muscatine, Iowa.
 Stickney & Baumbach, Wauwatosa, Wisconsin.
 G. J. Kellogg, Janesville, Wisconsin.
 R. O. Thompson, Brookfield, Missouri.
 John Howie, Madison, Wisconsin.
 Plattman & Sprague, Erie, Pennsylvania.
 C. H. & J. H. Greenman, Milton, Wisconsin.
 A. G. Tuttle, Baraboo, Wisconsin.
 O. S. Willey, Madison, Wisconsin.
 A. S. Fuller, Ridgewood, New York.
 And one package from an unknown source.

This enterprise seems to be flourishing, and bids fair to meet with the success it so justly deserves.

EXPERIMENTS WITH POTATOES.

The ground, thirty-five rods in length, and nine in breadth, was divided longitudinally, into 8 parallel subdivisions of 5 rows each.

Planted May 23, in rows three and one-half feet apart each way, three inches in depth, with seed prepared as follows :

Subdi- vis'n.	Method of preparing seed.	Bushs. per acre.
No. 1	Seed whole, and of large size, one potatoe to a hill,.....	20
No. 2	Seed of large size, cut into four pieces, three pieces in a hill, 4 inches apart.....	15
No. 3	One small potatoe in a hill.....	8
No. 4	Small potatoes cut into thirds, three pieces to a hill, 4 inches apart.....	8
No. 5	One seed end of medium-sized potatoe to a hill.....
No. 6	Half a medium sized potatoe, without seed end, to a hill.....	5½
No. 7	The same as No. 2.....	15
No. 8	Single eyes, three in a hill.....

• Planted on June grass sward, with clay sub-soil, plowed 4 1-2 inches in depth.

June 11th, first leaves above ground. Showed general signs of coming up uniformly.

June 20th, plants in sub-division No. 1, largest and most vigorous. Those in No. 8 small and most weakly.

July 6th, No. 1 still most vigorous. Nos. 3 and 6 next in size. No. 8 weakest, plants short and spindling. The same relative size was visible throughout the remainder of the season.

• At the time of digging, Oct. 14th to 17th, five plats, of fifty hills each, were taken from each subdivision in various parts of the field the potatoes weighed, and the mean taken as the average yield for that subdivision, giving the following results :

Sub-division.	Yield in lbs. on plat No.					Total.	Size.	Bushels per acre.
	1	2	3	4	5			
No. 1	115	96½	125½	102	80½	519½	Large.....	123
2	110½	84	90	74	92	460½	..do.....	110
3	108½	99½	92½	86	92	478½	..do.....	113
4	100	100½	95½	96	86	478	Medium.....	113
5	87	91	93½	98	84	453½	Large.....	107
6	118½	123½	119	104	94	559	..do.....	132
7	124	97½	100	94	93	508½	Medium.....	120
8	109½	56	66½	57	66	355	Small.....	84

No. 6, one half a medium sized potato to a hill, gave a larger yield than No. 1—large potatoes planted entire, showing the yield does not always depend upon the size or amount of the seed Seed ends alone, with the exception of single eyes, yield least. From this it may be inferred that the eyes of seed ends do not produce as vigorous plants as those on the body of the potato.

The appearance of the plants throughout the season, and the small yields in No. 8, tends to prove that it is necessary to plant a portion of the potato besides the mere bud to produce vigorous plants and a good yield.

Although the appearance of the plants in subdivision No. 1, showed them to be the most thrifty of all, the yield did not correspond to this difference in the growth of the tops. Again, the tops

of subdivision No. 3, were largest of all, excepting Nos. 1 and 6. Yet No. 7 gave a large yield, and No. 4 equally as large, showing that the weight of tubers is not always in proportion to the size of the tops. More experiments are necessary to establish any one of these points, but the evidence of these, bears in the directions here indicated.

The point of greatest interest in these experiments is the difference in the yield of two adjacent plats, where all the circumstances under which they were grown were apparently the same.

Follow the line in the above table, opposite any one of the subdivisions, and it will at once be seen that the yield of hardly any two of the plats corresponds. In subdivision No. 8, plat No. 2 yields but a trifle more than half as much as plat No. 1. Yet the method and time of planting were the same, the soil the same, so far as any one could judge, and the distance between them not more than forty feet.

This shows that conclusions cannot safely be drawn from a single series of experiments, and goes far to prove the necessity of carefully testing the ground, before using it at all for experimental purposes.

These potatoes were of the peach-blow variety. The method of cultivation was the same on all parts of the field. The soil upon which they grew had the appearance of being uniform, and no crop had ever before been raised upon the land.

The cost of cultivating potatoes, is, I think, usually underrated. As the above crop affords an excellent opportunity for illustrating this, I give below its debit and credit accounts.

It is to be remembered that every hour's work done upon the field, from the commencement of the plowing to the completion of the harvest, is charged at the current rates, where the hands and teams board themselves. Hands at \$1.50 per day. Hand and team \$3.50.

DEBIT.

To 20 bushels seed @ 75 cents.....	\$15 0
Breaking, harrowing, marking the ground and planting	23 72
Cultivating and hoeing	17 67
Picking beetles by hand	15 75
Harvesting.....	18 70
Total debit.....	<u>\$91 01</u>

CREDIT.

By 200 bushels, worth at time of harvesting 80 cents per bushel....	\$160 00
Profit.....	<u>\$68 99</u>

All experiments with insect destroying solutions proved of no avail when used upon the potato beetle.

White hellebore when used at the rate of a pound to one hundred hills, also had no visible effect. Hand picking proved to be the most available method of preventing their ravages.

This process was followed up so persistently, that the insects did little or no damage to the crop. But it will be seen by reference to the above account, that it added largely to the cost of production.

The yield though small, is believed to be more than an average for the year, in this vicinity.

W. W. DANIELLS,
Professor of Agriculture.

REPORT OF THE SECRETARY.

MADISON, WIS., November 1, 1868.

HON. EDWARD SALOMON,

President of the Regents of the University of Wisconsin:

SIR:—I have the honor to submit the following statement of the Funds pertaining to the University, in my capacity as Secretary of the Regents, under the provisions of chapter 114 of the General Laws of 1866.

Under the provisions of said chapter the proceeds of the Agricultural College grant of public lands were placed under the control of the University for the purpose of sustaining an agricultural and scientific department in connection with it. A separate account is kept with each fund, the productive capital of each being on the 30th day of September, 1867 and 1868, as follows:

UNIVERSITY FUND.

	1867.	1868.
Amount due on certificates of sales.....	\$69,192 88	\$68,341 14
Amount due on mortgages.....	6,892 00	6,092 00
Certificates of indebtedness.....	101,000 00	101,000 00
Dane county bonds.....	16,800 00	24,000 00
Total productive fund.....	<u>\$193,884 88</u>	<u>\$199,433 14</u>

Showing an increase in the productive fund during the last year of \$5,548.26.

AGRICULTURAL COLLEGE FUND.

	1867.	1868.
Dues on certificates of sale	\$12,417 00	\$14,488 40
Dane county bonds.....	6,000 00	11,000 00
Total	<u>\$18,417 00</u>	<u>\$25,488 40</u>

Showing an increase of the productive fund of \$7,071.40.

	1867.	1868.
Total principal of both funds.....	<u>\$212,301 83</u>	<u>\$224,921 54</u>

The amount and value of lands remaining unsold at the close of the last fiscal year, as near as can be ascertained, is as follows :

	<i>Acres.</i>	<i>Value.</i>
University fund.....	12,755	\$31,885 00
Agricultural college fund.....	219,737	274,671 00
Total	<u>232,492</u>	<u>\$306,556 00</u>

The changes in the first two items of the productive University fund, as stated above, have been produced as follows :

Amount due on certificates of sale, Sept. 30, 1867.....	\$69,192 88
Decreased by forfeitures.....	\$1,868 74
Decreased by payments.....	4,953 00
	<u>\$6,827 74</u>
Increase by new certificates of sale.....	\$62,365 14
	5,976 00
Amount due on certificates of sale, Sept. 30, 1868	<u>\$68,341 15</u>
Amount due on mortgages, Sept. 30, 1867.....	\$6,892 00
Decreased by forfeitures	\$300 00
Decreased by payments.....	500 00
	<u>800 00</u>
Amount due on mortgages, Sept. 30, 1868.....	<u>\$6,092 00</u>

The change in the first item of the productive Agricultural College Fund, as stated above, has been produced as follows :

Amount due on certificates of sale, Sept. 30, 1867	\$12,417 00
Decreased by forfeitures.....	\$2,884 60
Decreased by payments.....	111 00
	<u>2,995 60</u>
Increased by new certificates of sale.....	\$9,421 40
	5,067 00
Amount due on certificates of sale, Sept. 30, 1868.....	<u>\$14,488 40</u>

The receipts and disbursements for the last fiscal year have been as follows :

UNIVERSITY FUND.

Receipts.

Sales of land.....	\$2,061 18
Dues on certificates.....	4,959 00
Loans, payments on mortgages.....	500 00
Penalties on forfeitures.....	45 85
Taxes.....	22 76
Total receipts.....	<u>\$7,588 74</u>

Disbursements.

Invested in Dane county bonds.....	\$7,200 00
Refunded on account of over payments.....	72 16
	<u>\$7,588 74</u>	<u>\$7,272 16</u>
Balance, September 30, 1867.....	1,181 56
Balance, September 30, 1868.....	1,498 14
	<u>\$8,770 30</u>	<u>\$8,770 30</u>

AGRICULTURAL COLLEGE FUND.

Receipts.

Sales of lands.....	\$3,592 00
Dues on certificates.....	111 00
Penalties on forfeitures.....	7 54
Total receipts.....	<u>\$3,711 44</u>

Disbursements.

Invested in Dane county bonds.....	\$5,000 00
Refunded, on account of over payments.....	13 00
	<u>\$3,711 44</u>	<u>\$5,013 00</u>
Balance, September 30, 1867.....	1,815 39
Balance, September 30, 1868.....	513 83
	<u>\$5,526 83</u>	<u>\$5,526 83</u>

UNIVERSITY FUND INCOME.

Receipts.

Interest, on principal due on lands.....	\$5,207 45
Interest, on certificates of indebtedness.....	7,070 00
Interest, on Dane county bonds.....	1,680 00
Students, for tuition and room rent.....	5,903 80
Students, for fuel.....	453 37
Boarding department.....	40 00
Appr'n from general fund, chapter 22, laws 1867..	7,303 76
Total receipts.....	<u>\$27,658 38</u>

Disbursements.

Salaries.....		\$22,098 88
Expenses of regents.....		665 30
Insurance.....		594 25
Repairs.....		3,110 99
Incidentals.....		2,351 89
Fuel.....		905 15
Printing and advertising.....		405 95
Library.....		352 69
Furniture.....		89 70
Boarding department.....		345 95
Room rent.....		44 83
Philosophical apparatus.....		19 90
Refunded for over-payment of interest.....		144 01
	\$27,658 38	\$31,129 49
Balance, September 30, 1867.....	5,619 54	
Balance, September 30, 1868.....		2,148 43
	<u>\$33,277 92</u>	<u>\$33,277 92</u>

The accounts audited and paid from the income of the University fund, were, in detail as follows :

Salaries of President and Instructional force—

P. A. Chadbourne, president.....	\$4,000 00	
Wm. F. Allen, professor.....	2,250 00	
J. P. Fuchs.....do.....	1,800 00	
J. W. Sterling.....do.....	2,250 00	
J. B. Parkinson.....do.....	2,250 00	
E. S. Carr.....do.....	900 00	
T. N. Haskall.....do.....	2,210 88	
W. W. Daniells.....do.....	1,075 00	
J. B. Feuling.....db.....	300 00	
J. H. Carpenter.....do.....	490 00	
W. F. Vilas.....do.....	100 00	
J. E. Davies.....do.....	300 00	
A. H. Thompson, instructor.....	1,300 00	
R. E. Harmon.....do.....	1,000 00	
J. P. Leavitt.....do.....	50 00	
Miss E. Earle, preceptress.....	900 00	
Miss C. L. Ware instructress.....	750 00	
A. E. Verrell, course of lectures.....	263 00	
		<u>\$22,098 88</u>

Expenses of Regents—

R. B. Sanderson.....	58 25	
Samuel Fallows.....	45 75

P. A. Chadbourne, incidentals.....	432 44
T. D. Plumb, trees.....	125 50
N. B. Cramtcn, blacksmithing.....	69 05
L. P. Drake, surveying.....	3 00
W. W. Daniells, expenses.....	43 70
E. Morden, pump.....	15 30
Stevens & Somers, seeds.....	15 81
N. B. Van Slyke, paint.....	10 75
	<hr/>	
		\$1,840 23
First National Bank—Dane co. bonds hypothecated.		6,000 00
		<hr/>
Total disbursements.....		\$11,318 41.

The available funds for the current year belonging to the University Fund Income and the Agricultural Fund Income, may be estimated as follows:

Balance University Fund Income.....	\$2,148 43
Balance Agricultural College Fund Income.....	2,864 59
Interest on production fund.....	16,000 00
Appropriation by State.....	7,303 76
Tuition and rent.....	6,000 00
	<hr/>
Total.....	\$34,316 78

Believing the foregoing statement to comprise all the facts required to be communicated at the present time, I am

Respectfully your obedient servant,

THOS. S. ALLEN,

*Secretary of State and ex-officio Sec. of
Regents of University.*

SPECIAL REPORT OF PRESIDENT CHADBOURNE.

Hon. A. J. CRAIG,

Superintendent of Public Instruction.

SIR: I herewith hand to you a statistical report of the University of Wisconsin for the collegiate year ending June 24, 1868, and beg leave to refer you to the Report of Hon. Edward Salomon, President of the Board of Regents for 1868, for a full statement of the financial affairs of the institution for the past year.

As important additions were made to the Faculty of the University at the last commencement as well as increased facilities provided for giving instruction in the different departments of science, I avail myself of your permission to make a brief statement of the present condition of the University.

The Board of Instruction in all the colleges and departments is for the present year as follows:

(See Regents' Report, page 208.)

The University as now organized, embraces the following Colleges and Departments:

I. COLLEGE OF ARTS.

In this College, the course of study consists of Modern Languages, Literature and Natural Sciences, together with such other studies as are usually pursued in colleges, excepting the Ancient Languages. Neither Latin nor Greek is required for entrance or graduation, but they may both be pursued to any extent as optional studies.

II. DEPARTMENT OF MILITARY TACTICS AND CIVIL ENGINEERING.

This Department is a branch of the College of Arts for special instruction in Engineering, and also for the thorough study of Mili-

ary Tactics by those who wish to qualify themselves for entering the army. The Department is in charge of General W. R. Pease, a graduate of West Point, detailed by the Secretary of War for this duty. All arms are furnished by the State. The armory is now complete.

III. DEPARTMENT OF AGRICULTURE.

This branch of the College of Arts is now well organized under the special direction of Prof. W. W. Daniells, lately of the Michigan Agricultural College. The University owns 235 acres of land for an experimental farm. The land is worked under the direction of the Professor of Agriculture. The Wisconsin State Horticultural Society is also conducting experiments on a portion of the land set apart by the Regents for this purpose. Valuable farm buildings have been erected the past summer.

The course of study in this department may be completed in a single year by advanced students, or it may require three years for its completion, according to the time spent in the laboratory and in practical agriculture.

Professor Daniells also has charge of the new Analytical Laboratory, which now offers excellent advantages to students in agriculture and to others who wish to make practical chemistry a special study.

IV. COLLEGE OF LETTERS.

The course of study in this College is intended to be the same as in the best colleges of the country, embracing Ancient and Modern Languages, Mathematics, Literature and Science.

V. PREPARATORY DEPARTMENT.

In which young men are fitted for entering either the College of Letters or the College of Arts, and its Departments.

VI. POST GRADUATE COURSE.

Students who have graduated at either college of the University, or at any other college of equal rank, can remain in the University as resident graduates, and have the privilege of attending any lectures or other exercises of the under graduate course. They can

also pursue any branch of Literature or science under the direction of the President and Faculty. If they devote two whole years to study, they may, on examination and recommendation of the Faculty, be admitted to the degree of Doctor of Philosophy.

VII. UNIVERSITY STUDENTS.

Students who do not desire to enter either College, may attend such lectures and recitations as they are prepared for in either College for such time as they may choose, but they are under the same regulations as to attendance and punctuality as those belonging to the College classes.

VIII. DEPARTMENT OF LAW.

This department is now fully organized, with a faculty consisting of the Judges of the Supreme Court of the State, and other gentlemen eminently qualified for their position. The peculiar advantages of Madison for a law school are unsurpassed, and every effort will be made to offer the best facilities possible to students. They can be admitted at any time, and be graduated after one year's study. Tuition, \$20 for the first term and \$15 for each succeeding term.

The first term has opened with a class of ten students, and there is every prospect that this department will soon become one of great importance and usefulness.

IX. FEMALE COLLEGE.

What was formerly the Normal Department, has been constituted, by the regents, a Female College, with its own building and public rooms and a separate board of instruction. The building, and everything relating to the government of this college, is under the special direction of the preceptress. The president of the university and the professors, give instruction in their several departments, and the students have the privilege of attending the university lectures, but all recitations and other exercises are entirely distinct from those in the other colleges. The course of study requires four years for its completion.

To increase the efficiency of the above colleges and departments, great improvements are making in the laboratory for chemical analy-

sis and research, and the reduction and assay of metals. In addition to the lectures delivered by the faculty, others will be secured from men engaged in horticulture and agriculture, as well as from those eminent in science. As the funds increase from the sale of lands, constant additions will be made to the board of instruction and to the means of teaching the sciences in all their applications to the arts. It is believed that the university is now ready to meet any demands that can be made upon it for instruction, and that it will be able to increase its facilities as new demands are made.

The number of students in all the colleges and departments for the present term, is 318; for the corresponding term of last year, it was 236. There has been a very gratifying increase of numbers in the higher classes, but there is still a great want of preparation on the part of the students who present themselves for examination. When the high schools increase in number and take higher rank, this defect will be remedied. A stream must have fountains to fill its channels, and no university advantages can supply the want of proper preparatory schools. The success of university education in this State must depend much upon the character of the men who have charge of the high schools.

Very truly yours,

P. A. CHADBOURNE.

MADISON, Oct. 27, 1868.

The institution having been given up to the sole management of the principal, and he leaving before the expiration of the second term, no official report was made to the Board of Trustees, hence my inability to make a full report.

E. W. PELTON,
President Board of Trustees.

PRAIRIE DU CHIEN, Oct. 20, 1868.

A. J. CRAIG, Esq.,

Superintendent Public Instruction:

DEAR SIR:—In reply to your request of September 30, I send the inclosed imperfect report of our embryo college, the best I could do under the circumstances, and have been somewhat delayed in making this by my personal business. There were only two of the three terms of the current year that we had any principal or teachers previous to August 31, 1868. The institution is again opened under Professor Perry, as principal, assisted by competent teachers, in accordance with the prospectus herewith forwarded, and we hope to make it a success.

Respectfully yours,

E. W. PELTON.

RACINE COLLEGE.

11. Number of students in the Preparatory Department, and in optional studies..... 206.....

12. Number of acres of land owned by the institution, besides college grounds.....	320
13. Estimated cash value of land owned by the institution, site excepted.....	\$700 00
14. Estimated cash value of buildings owned by the institution with site.....	60,000 00
15. Amount of endowments and funds except real estate.....	5,000 00
16. Amount of income for the current year from all sources except tuition.....	400 00
17. Amount received for tuition during the current year.....	4,000 00
18. Rates of tuition in Collegiate department, not including board.....	24 00
19. Rates of tuition in Preparatory department, not including board.....	21 00
20. Amount paid on account of expenses of the institution, exclusive of building and repairs, during the year ending August 31, 1868.....

Spring Term, 1869, begins April 19, continues 12 weeks.

Fall Term, 1869, begins Sept. 15, continues 14 weeks.

Winter Term, 1870, begins Jan. 5, continues 13 weeks.

W. E. MERRIMAN,
President of the Board of Trustees.

WISCONSIN FEMALE COLLEGE.

Annual Report of the President of the Board of Trustees of the Wisconsin Female College, for the year ending August 31, 1868.

1. Corporate name of the institution, The Wisconsin Female College.
2. Name of the place where the institution is located, Fox Lake.
3. Year when the institution was founded, on its present basis, 1863.

4. Names of members of the faculty with their respective salaries:

Names.	Departments of Instruction.	Salaries.
Mary L. Crowell	Principal	\$300 00
Maria L. Stevens	200 00
Sarah C. Horne	200 00
Annie P. Sewell	200 00
Lucinda S. Hulbert	200 00
Emma J. Kelly	Music

	Male.	Female.
5. Total number who have graduated		
6. Number who graduated at last commencement		2
7. Number of students in the Senior Class		4
8. Number of students in the Junior Class		8
9. Number of students in the Sophomore Class		
10. Number of students in the Freshman Class		
11. Number of students in the Preparatory Department		78

12. Number of acres of land owned by the institution	About 4
13. Estimated cash value of land owned by the institution	\$2,000 00
14. Estimated cash value of buildings owned by the institution ..	30,000 00
15. Amount of endowments and funds except real estate
16. Amount of income for the current year from all sources except tuition
17. Amount received for tuition during the current year
18. Rates of tuition in Collegiate department per annum, not including board	\$26 00
19. Rates of tuition in Preparatory department per annum, not including board	26 00
20. Amount paid on account of expenses of the institution, exclusive of building and repairs, during the year ending August 31, 1868

The teachers are boarded in the Seminary, and the salaries are in addition to board.

As to the entire income of the institution, I presume it is nearly the same as the previous year, but I have not the exact data.

Spring Term, (1869) begins April 15, continues 15 weeks.

Fall Term, (1869) begins September 9, continues 12 weeks.

Winter Term, (1870) begins January 6, continues 13 weeks.

JASON DOWNER,
President of Board of Trustees.

DANIEL JOHNSON,

President of Board of Trustees.

EVANSVILLE SEMINARY, EVANSVILLE, Wis., Oct. 9, 1868.

Hon. A. J. CRAIG,

Superintendent of Public Instruction, State of Wisconsin.

DEAR SIR: Evansville Seminary has not been as prosperous this season as its officers had desired. Several causes contributed to that effect, among which its financial embarrassment was the most weighty. This institution has been laboring under financial difficulties since its foundation, and it was feared for a time it would have to succumb under its heavy burden. This season an earnest and pressing appeal was made by the Board of Trustees to the friends of the institution and it proved a success. All claims were removed and provisions made to erect another building for seminary purposes. The institution is now undergoing repairs and is to be newly refitted, in order to make it as inviting and attractive as any in the State. With the increased facilities, added to our other advantages, we trust to report next year a complete success.

Yours, very truly,

DANIEL JOHNSON,

President of Board of Trustees.

GERMAN AND ENGLISH ACADEMY.

Annual Report of the President of the Board of Trustees of the German and English Academy, of Milwaukee, for the year ending August 31, 1868.

1. Corporate name of the institution, the German and English Academy, (Milwaukee Schul Verein.)

DAVID STILLWELL,
President of Board of Trustees.

*The whole income or nominal salary of \$600 dollars a year.

KILBOURN CITY, September 8th.

Mr. CRAIG,

DEAR SIR: I am unable to make a report of the affairs of Kilbourn Institute. Our building was burned the 30th of January last, and all the records of the same. In the latter part of July we commenced to rebuild a smaller building of brick, 34x90, two stories, which we do not expect to have completed for occupied for school this winter, for want of sufficient means to finish it.

Yours respectfully,

DAVID STILLWELL,
President of Board of Trustees.

J. H. UTTER,
President of Board of Trustees.

INDORSING CERTIFICATES.

The following opinion of the Attorney General is published for the benefit of teachers and county superintendents, who wish information in regard to the legality of the practice of indorsing certificates:

OFFICE OF ATTORNEY GENERAL,

Madison, Jan. 8, 1869.

Hon. A. J. CRAIG,

Superintendent of Public Instruction, Madison, Wis :

DEAR SIR:—Under date of 22d ultimo you ask official opinion upon the following question:

“Does the indorsement by a county superintendent of schools of a teacher’s certificate given by the superintendent of another county, render such certificate valid for the county where the superintendent so indorsing it resides?”

In reply, I have to say to you that in the opinion of this office such indorsement is not authorized by law, and is not such a compliance with the statutory provisions upon the subject, as to render the certificate valid for the county where the indorser resides.

Section 92 of the school code provides that “Every county superintendent shall have power, and it shall be his duty (among other things), to examine and license teachers, and to annul certificates, as hereinafter provided.”

Section 93 provides that “It shall be the duty of county superintendents of schools in each county, to divide his county into inspection districts, to be bounded,” &c., and to hold in each inspection district at least two meetings in each year, for the examination and licensing of teachers, thirty days’ notice of such meeting to be given,” &c. * * * “The examination of teachers thus held shall be public, and shall be conducted by written and oral questions and answers. They shall be uniform for the county in which they are held, AND NO CERTIFICATE OF QUALIFICATION SHALL BE GIVEN, except in accordance with the provisions of law respecting teachers’ certificates.”

Section 49 provides that upon proof that an applicant for a teacher's certificate was *unavoidably absent* from the *public examination*, the superintendent may give a private examination *though the certificate given in such cases is only of very limited duration*. It remains in force "until the next regular meeting for examination of teachers in the inspection district in which such teacher is engaged in teaching," and when that meeting comes the teacher must be *publicly examined* in accordance with law.

It is very evident from the language employed in section 93, above quoted, that the legislature considered the *examination of teachers as of the first importance*, and that they deemed "a *public examination conducted upon written and oral questions and answers* as the one best adapted to the end in view. It is also evident that they intended that *certificates of qualification* should not be mere matters of form, to be obtained by any one who thought proper to make a request therefor. Such a certificate is *evidence of qualification*, and no superintendent can honestly make one unless he *knows* what he certifies to be true—that is—the qualification of the person to teach; and the legislature has provided a mode of ascertaining that fact, and it is obviously the best mode, and it must be followed as *provided*—by examination, &c., by the person who is to certify the result thereof. The provisions of section 94 show too, how much significance was attached by the legislature to the public and thorough examination indicated in section 93. For it is fair to presume that the *private examination* contemplated in that section, (94), would be conducted by the superintendent as strictly as would any other, and yet the certificate given upon such private examination does not obviate the necessity, under the law, of the *regular public examination*, and lasts only until the time for such regular examination arrives. *In no case* is any certificate authorized to be given, "except in accordance with the provisions of law respecting teachers' certificates." Now, what are those provisions? Section 100 provides that: "Every applicant for a situation as a teacher in any of the common schools of this state, shall be examined by the county superintendent of schools of his county, in regard to moral character, learning and ability to teach, and if found qualified, shall receive a certificate as hereinafter provided.

Section 101 establishes three grades of certificates, 1st, 2d and 3d. "Each certificate shall show the branches of study in which the holder has been examined, also the relative attainment of the applicant in each.

Section 102 provides that every applicant for a certificate of the 3d grade shall be examined in certain designated branches, &c.

Section 103 provides that applicants for certificates of the 2d grade shall be examined in certain branches, and if found qualified shall receive a certificate which shall entitle the holder to teach *in any town in the County in which he is examined*.

Section 105 provides that applicants for certificates of the 1st grade shall also be examined in certain additional branches, and that "if found qualified, shall receive a certificate, which shall entitle the holder to teach in any town, in the County in which he is examined, &c." It will be observed that where parties receive 1st and 2d grade certificates, they are by the terms of the law only entitled by such certificate, "to teach in any town in the County in which they are examined. The effect of the certificate is expressly limited to the County in which he is examined, and the holder of such certificate is not entitled thereby to teach in any other County. This construction is greatly strengthened by the last clause of section 107, viz: "and when a district is composed of parts of two or more counties the Clerk of said district shall not have power to contract with a teacher unless such teacher shall have a certificate of qualification signed by the Superintendent of the County in which the school house is situated, &c." This language clearly implies that each Superintendent was expected and intended to sign the certificate of teachers within his jurisdiction, and that it was to be of no avail beyond that jurisdiction. And if it be true that a certificate by one Superintendent is not of any effect in the district or County of another Superintendent, it is not easy to see how

the *examination*, which it represents, can be of any greater effect in that district.

The language of the sections quoted would seem to settle the question presented. The duty of each superintendent, as to examination of applicants for certificates of qualifications, seems clearly and accurately defined. The object sought to be accomplished by the law is plain and of the utmost importance. It was thought that by a strict observance of the provisions of the law, efficient and accomplished laborers in the cause of common school education, in this state, could and would be secured. This is of vital importance to the success of our system. *Incapable* teachers are *capable* of doing irreparable injury, and it is impossible, without great care on the part of County Superintendents, to keep the corps of instructors free from such. The framers of the law seem to have kept in view the *end* to be accomplished, and, as an important *means* to that end, have carefully defined the duty of examiners. *Each* county superintendent has *his* individual duty to perform in this regard, and it surely was not intended that the duty of one superintendent should be performed by the superintendent of another county. The duty is such, under the law, that it cannot be shifted. No superintendent is authorized, as before remarked, to give a certificate without the examination indicated by the law. When a certificate is given, the person signing it certifies that *he has examined the teacher in accordance with law*, and has found him capable of teaching in the grade named. When a superintendent endorses the certificate of another he attempts to do what the law does not do—to give effect to a certificate beyond the jurisdiction of the superintendent signing the same. If his endorsement can be held in any sense as a *certificate*, it is simply a certificate that *some one else* has performed the duty which he is, by law, required to perform himself. This is clearly not what the law requires, nor is it *equivalent to the certificate which is required by law*. If the legislature had intended that the certificate of one superintendent might be *adopted* (by endorsement) by another, it would have so provided.

Such a practice would inevitably violate the rule of uniformity as to standard of attainments. Each superintendent is authorized to fix, under the advice and direction of the State Superintendent, for his county, the standard of attainments in each branch of study which must be reached by each applicant before receiving a certificate of either grade. This standard is different in different counties, and the certificate of one superintendent is frequently based upon a different standard than that of another for the same grade. Now, the public and private examinations in each district are to be conducted with reference to the standard adopted and established in and for that district. If a certificate of one superintendent is held to obviate the necessity of examination in the district of another, the uniformity of standard would be frequently violated, and injustice would be done to those teachers examined at the public and private examinations. In order to preserve uniformity of standard it seems necessary that each superintendent should examine in accordance with law every person who applies for a certificate in his district.

It may be and is said that this practice of endorsement saves expense and trouble, and that where a teacher has a certificate showing an examination in another county, it does not seem necessary to have a new one. These are considerations which might be, perhaps, properly addressed to the law-making power in favor of a modification of the law upon the subject, but are no warrant for departing from the law as it now stands.

Very truly yours,

JOHN C. SPOONER,

Asst. Attorney General.
