WISCONSIN DAIRY STATISTICS FOR THE YEAR 1925

| | Pounds | Received for or valued at |
|---|---------------|------------------------------|
| Cheese produced in factories, other than cottage, skim milk, cheese curd, cooked, buttermilk and cream cheese ----- | 362,677,940 | \$79,595,515.23 |
| Cottage, skim milk, cheese curd, cooked, buttermilk and cream cheese ----- | 6,199,248 | 287,843.94 |
| Cheese produced on farms ----- | 308,117 | 98,599.00 |
| Butter produced in factories ----- | 168,617,861 | 73,758,913.73 |
| Farm made butter ----- | 8,666,037 | 4,733,556.00 |
| Condensary products: | | |
| Evaporated, condensed, powdered, concentrated milk and evaporated cream ----- | 563,831,798 | 44,009,776.23 |
| Evaporated, concentrated, powdered and condensed skim milk ----- | 6,270,787 | 189,465.06 |
| Value of milk used in manufacture of malted milk, etc. ----- | | 637,035.94 |
| Ice cream (gallons) ----- | 6,616,388 | 6,944,520.31 |
| Milk produced other than furnished cheese factories, butter factories, condenseries, and ice cream plants, (pints) ----- | 960,621,235 | 28,818,637.05 |
| Skim milk ----- | 3,203,738,365 | 16,499,252.58 |
| Whey ----- | 3,155,297,965 | 8,124,892.26 |
| Estimated value of milk and cream shipped to Chicago, St. Paul, Minneapolis, Dubuque, and other points outside of Wisconsin ----- | 307,676,431 | 5,845,852.19 |
| Total ----- | | \$269,543,859.52 |

According to the figures given out by the Wisconsin Monthly Crop and Live Stock Reporter issued by the United States Department of Agriculture, and the Wisconsin State Department of Agriculture, the average price received by producers for milk in 1925 was \$1.90 per hundredweight and the average production per cow in 1925 was 5,092 pounds. The average number of cows in 1925 was 1,974,200. At the average production of 5,092 pounds of milk per cow during the year 1925, there was produced 10,052,626,400 pounds of milk.

The data for cheese, butter, condensary products and ice cream were obtained from blanks filled out by the operators of these plants.

The figures used for cheese and butter produced on farms were taken from the fourteenth census of the United States for 1920.

The value of milk produced other than that furnished cheese and butter factories and condenseries and ice cream plants was estimated as the amount used for family consumption by the total population of

the state, which population is taken as 2,631,839 (census for 1920). In estimating this amount, one pint per capita per day was used and the milk valued at 3 cents per pint.

In obtaining the estimate for the value of milk and cream shipped to Chicago, St. Paul, Minneapolis, Dubuque and other points, the number of pounds as reported in the bulletin of Wisconsin Dairy statistics for 1925 was increased by the average per cent of increase of butter and cheese and the value of such milk was placed at \$1.90 per hundred-weight, being the value reported by the Wisconsin Monthly Crop and Live Stock Reporter.

Skim milk was valued at one-half as much per hundred pounds as shelled corn is per bushel; and the value of whey at one-half of skim milk. The value of shelled corn was placed at \$1.03 per bushel, being figures given by the Crop and Live Stock Department at Washington, D. C.

Following is a tabulation by counties of statistics for cheese and butter factories in Wisconsin for the calendar year 1925 as compared with the years 1917, 1919, 1921 and 1923 and a tabulation showing the number of pounds of American, Brick, Limburger and Swiss cheese by counties as well as the value of cheese, cottage cheese, butter and other dairy products which includes condensery products, ice cream, skim milk and whey.
