The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

KIDS LOVE 'EM*

* WORMS HATE 'EM

No fasting • No special diets • No purging

The new Piperazate Wafers, utilizing less toxic, insoluble piperazine *phosphate*, provide the shortest, most pleasant piperazine treatment yet developed for intestinal helminths. For pinworm, *only one dose a day* for just *one week* is required; for roundworm, a *single dose*.

Kids love the cool, tasty mint flavor of Piperazate Wafers. There is no possibility of spillage or variation in the size of the dose. And the use of Piperazate avoids the high incidence—35-50%—of nausea, vomiting and diarrhea associated with gentian violet therapy.¹

Piperazate assures a 90% cure rate in one week's treatment of pinworm² and an 85% cure rate in one day's treatment of roundworm.³

**One Week Dosage
for Pinworm**

Children 15-30 lbs. 1 Wafer
 Children 31-60 lbs. 2 Wafers
 Children 61 lbs.
 and over 4 Wafers

To be sucked or chewed before
 breakfast for 7 consecutive days.

**One Day Dosage
for Roundworm**

Children 20-30 lbs. 3 Wafers
 Children 31-40 lbs. 4 Wafers
 Children over 40 lbs.
 and adults 7 Wafers

To be taken at one time on one day
 only.
