Berena Ill Aug 7<sup>th</sup> 1893

Dear Friends and Relatives

After a long delay (longer than it should have been) I will try and answer your letter of Feb 26<sup>th</sup> 1893 we were very glad to hear from you and relatives there. we are all well at present and have had good health since we wrote you last we had a very cold winter last winter and a good deal of snow but <sup>the</sup> hay was plenty stock came through in good condition our spring opened about the last of March we got our crops in in good order and and in fair season. our oats are a fair crops Winter Wheat an average crop Corn is a looking well but is a

2

Suffering for want of Rain  
we have not had any rain  
to wet the ground for about  
a month our Pastures are a  
drying up early Potatoes are  
a fair crop but we fear late  
ones will be a failure a rain  
mite help them some if it  
comes soon. hay was a fair  
crop the month of July has  
been very warm there was  
not a week but the thermome<sup>ter</sup>  
ran as high as 90° some times as  
high as 96° Aug starts a little cool  
People are now a Threshing Oats  
we expect to thresh to morrow  
the Threshing is done mostly  
with Steam power and large  
Mashines our two boys helped  
a neighbor yesterday they  
threshed 55 acres of Oats 1700 and  
some odd bushels this was not  
an extra ordinary days work  
we have about 25 acres to

3

thresh we expect they will do it in  
a half a day they burn coal  
eight to ten hundred pounds will  
run a Mashine a day coal is worth  
\$3.25 per Ton at the station about  
two miles from us we consider  
it cheaper than horse power.  
Grain is cheap Wheat 50<sup>cts</sup> Corn 30  
Oats 20 & 22 Potatoes 50 Apples are  
a failure again this year but  
a very few scattering ones are  
here and there a tree we have  
a few Grape vines that promise  
a good yield Tomatoes and  
Garden <sup>fruit</sup> is a drying up would  
like to see your Garden you  
sake of I have heard my  
father tell how nice Garden  
truck used to grow on Long  
Island he used to tell of  
those wild Grapes and how  
good they were - We have not  
heard if you have taken your  
Wind Mill to Chicago to the  
Fair I think it would have  
been a great curiosity -

We have not been up to  
 the fair yet we may go  
 after we get through with  
 our Summer work probably  
 in course of a month would  
 be glad to see you there and  
 have you come home with us  
 and make us a visit - my Wife  
 is very busy there is but three  
 of us at home now our Youngest  
 Daughter was Married last April  
 and is now a keeping house  
 She Married a young man by  
 the name of Jones they live  
 on a Farm about two mile  
 from us this leaves but three  
 of us at home but one child  
 our youngest Son with us. Wife  
 does all the house work alone  
 which with her Chickens Ducks  
 and Turkeys of which she has  
 over a Hundred in all <sup>her business</sup> she Planted  
 the wild Flower seeds. <sup>Keep</sup> you sent but  
 they failed to grow she was very

Sorry for that as she had hoped to get something new and pretty we have a great many wild flowers here but not as many as when the country was new then the Prairies were a perfect flower garden from June to October we have wild Grapes but they are very sower not good for much some wild Plums and crab Apples rather poor Fruit - Nathaniel must be a natural mechanic and can turn his hand to most any thing I think it is in a measure a family trait - as the Jamnays

have a shop where we

do most of our repairs on our farming tools a hand George for Blacksmithing &c - We have not had a letter from Cousin George Mc Gadden since I wrote you last we would be glad to have your Brothers out there write and I will answer any questions about our country

answer

They may ask - you spoke about  
 a storm last winter and of  
 a ship being drove on shore  
 at Montank luckily there were  
 no lives lost - I have never  
 seen the Ocean or a large Ship  
 as you say it <sup>would</sup> be as good a  
 sight - as many things that  
 at the Fair you wrote of  
 the large wild Grapes and  
 of the Cranbeys and of sending  
 us a few roots wood be glad to  
 have a few of the Grapes if it  
 come handy send me a root  
 and fall

will pay the express  
 and be thankful for them  
 we Raise the Concord Grape  
 they do well here - we have no  
 Marshes where Cranbeys would  
 grow we buy the Berys at the  
 Grocers they grow plenty in  
 Wisconsin and Michigan. Write soon

To Nathaniel & Dreda Deming  
 yours as ever
