WISCONSIN STATE COLLEGE
RIVER FALLS
1962

foreword...

This is, finally, the 1962 Meletean, the fiftieth consecutive publication of the book whose Latin name means "Badger," and whose emblem more likely than not, is a Falcon. If this seems strange it should be noted that yearbooks themselves are odd publications. They are neither fur nor feather, not fish, not fin. They rarely carry the information of a bound volume of the year's student newspapers; they at the same time are not the pure pieces of nostalgia of, say, a high school prom program. If yearbooks purport to be records of the academic year they certainly are most shallow ones. When have you seen a college yearbook that published the student's grades alongside his picture and hometown?

Nor does a yearbook cover the year. Generally, a yearbook is usually concerned with only the nine months of the academic year.

This yearbook attempts to do at least two things: (1) It attempts to "cover" the academic year 1961-1962, without discussing "grades", "ideas" or courses of study in detail, and (2) give the reader something of the flavor of some of the forty-nine Meleteans that came before it.

Here, whatever it is, is

The 1912 Meletean Staff

Dedicated to President Crabtree.

It is with pleasure that we dedicate to our president, the first Annual issued by the River Falls State Normal School.

President Crabtree is a scholarly and talented man, admirably prepared for the position which he occupies. His ever-ready word of encouragement, his many helpful suggestions, his sympathy and good will have made him the honored, respected, and beloved friend of the faculty and the entire student body.

The Meletean Staff, of the Senior Class, dedicate to President Crabtree, the Annual of 1912.

... dedication

To the editors of the first forty nine Meleteans

The Editor's job is to plan and design the yearbook and to supervise its detailed construction. The job usually entails much more than meets the eye of the casual observer-and the editor invariably winds up designing covers (never having had an art course) writing and editing copy, scheduling pictures, deciding on layout, and labeling last minute faces. To the past 49 editors of the River Falls Meletean who have shared our experiences we dedicate.

GREETING

To those graduates, who in former years, have accomplished the tasks which we now are accomplishing, who have occupied places which we now occupy and who have loved our Alma Mater as we now love her, greeting!

To those younger classmen, who now frequent the class rooms of our school and whose privilege it is to perpetuate the spirit of progress which is so evident here, greeting!

To those teachers, who have guided us in the duties we had to perform, greeting!

To all those, who may be interested in our Alma Mater, greeting!

The Seniors of 1913.

Comments Heard on the First Appearance of the Annual.

"Got your Meletean? Well, look at mine!"

"What poor taste! Just look at this cover! I never saw one like it before!"
(We know that and realize that you need something new.)

"There is nothing funny in this joke!" (Don't you think so? — Read it again when you are better humored and you will see the point.)

"Not a single color plate in the whole thing!" (Odd, we have noticed that ourselves.)

"It isn't worth what we paid for it!" (Neither is a diamond, but how you long for one.)

"I think they are too hard on the Faculty." (Don't you think the Faculty appreciate a joke as well as the rest of us?)

"See, the staff pictures are all in the front of the book!" (An engine usually heads the train, does it not?)

"What a stiff arrangement of pictures!" (Pause a moment — Could you have done any better yourself?)

(From the 1913 Meletean)

A Place for Learning

**WISCONSIN STATE COLLEGE
AT RIVER FALLS**

A break between classes.

The visitor may be impressed with the many new buildings that dot the campus of the College. For, although the College at River Falls was founded in 1874, only three of its buildings were constructed before 1950.

Yet, one soon senses that these buildings are not the College; that the facilities are merely the setting in which learning takes place.

Enflamed with the study of learning and the admiration of virtue; stirred up with high hopes of living to be brave men and worthy patriots, dear to God, and famous to all ages.

—Milton

THE STUDENT LEARNS

Within the mind, education takes place. For the College acts as the storehouse of the accumulated knowledge of centuries . . . held in its books and in the learning of its faculty.

The student comes, remains but a few years, and departs with much more knowledge than he brought. What is the process, what are the experiences that make the difference?

The freshman comes to a new world when he arrives on campus. While his education started in infancy and continued more formally through 12 years, he has now come to the point where he is more nearly "on his own." The responsibility for learning is his in an ever larger measure.

Responsibility for learning is his.

Providing

The student checks his observation.

IS THE PROFESSOR

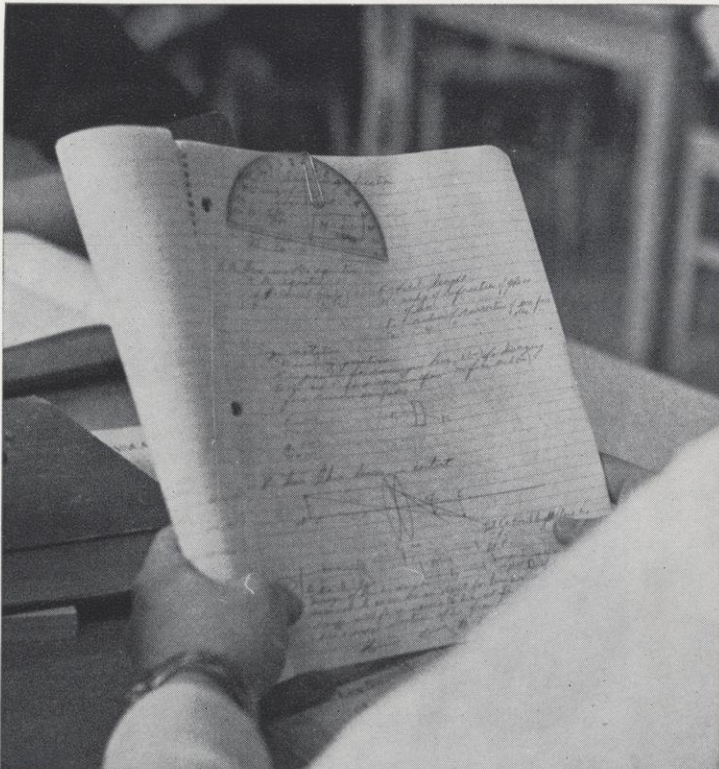

Faculty members at River Falls have always maintained an "honest allegiance to the student." Their interest in young people as men and women, not as statistics, has developed a tradition of inspired teaching. This concern is not only for the academically talented student but extends also to the average student—the student of limited background, the student of broad experience, the rich student, the poor student—all are important to the faculty.

Teachers are stimulated by watching the intellectual growth of the student during his years in college and afterward. Their aim is to bring the student to the point where he develops independently—beginning in very close association with the teacher and gradually relying less and less on supervision.

But throughout all of the student's experiences, the teacher stands ready to give advice, counsel and encouragement.

THE LIBRARY AND THE LABORATORY

Books are the traditional tools of the scholar and laboratory experiences are an essential part of the learning process in scores of subjects.

Knowledge is imparted only when the student of his own will and effort has sought it.

The Chalmer Davee Library at River Falls was constructed in 1954 and provides open shelf access to its many volumes. Special areas are set aside for individual study in the stacks.

Many of the laboratories on campus are in use long after the formal class session has ended. The student continues to test out and prove what he has heard in the lecture session, to try an idea that may have value.

What he sees is recorded.

In varied associations

LEARNING COMES FROM FELLOW STUDENTS

In Hathorn Cottage, students exchange opinions.

A book is recommended.

From association with classmates of differing backgrounds, from trying ideas and defending his point of view with others engaged in study, the student learns.

A review of the day's activities late at night over a cup of coffee, a discussion of a book he has just read, a "bull session" in the dormitory — all of these help to refine ideas, to discover new relationships between seemingly unrelated bits of knowledge. From such activities, a pattern of self-education begins to emerge.

THE CLASSROOM AND LECTURES

The first years in College are spent in sharpening the basic skills that are essential to all learning. The student learns to communicate with others effectively. He is introduced to the great body of knowledge which is common to all educated persons.

The early years are a time of sampling and testing, allowing the student time to discover his special talents, his particular interests.

During this period he is building a base of information, of methods of discovery, of ways of organizing and weighing facts, of the process of decision making.

Having acquired a solid foundation, the student begins to specialize, to delve more deeply into those fields which hold greatest attraction for him, which permit him to best express his individuality.

Precision is essential.

VISITORS TO THE CAMPUS

Contact with the best minds and talents of the world and the opportunity to evaluate the arguments of those who present controversial issues are a major value of education on a college campus.

The student learns first hand of world affairs, not only from intelligent observers, but from those who have taken an active role in shaping events.

He hears noted scientists and philosophers, historians and poets, statesmen and musicians, actors and writers, economists and artists.

In the complex society in which each student must make his way, and to which he must contribute, he must have a knowledge in many areas and take into consideration views contrary to his own.

Through opportunities gained

STUDENTS DEVELOP TALENT AND POISE

Through activities in which they themselves take leadership, students find opportunities for personal development.

In student organizations, including such diverse concerns as religious groups, publications, drama, debate, special interest clubs, athletics, and honorary and professional student societies, the interested student is offered a chance for self expression limited only by his own creativity and energy.

Student government also provides an experience in democratic leadership and lessons in the art of compromise and cooperation.

Planning strategy.

Lights burn late at night in the residence halls, testimony to the need for study.

But despite all else

LEARNING IS AN INDIVIDUAL MATTER

The College has provided the classrooms, the books, the professors, the laboratories and the other tools for learning.

It has created an atmosphere for study, for encouragement, and for individual development. It has offered the student new ideas and has put him in company with others who are in search of knowledge.

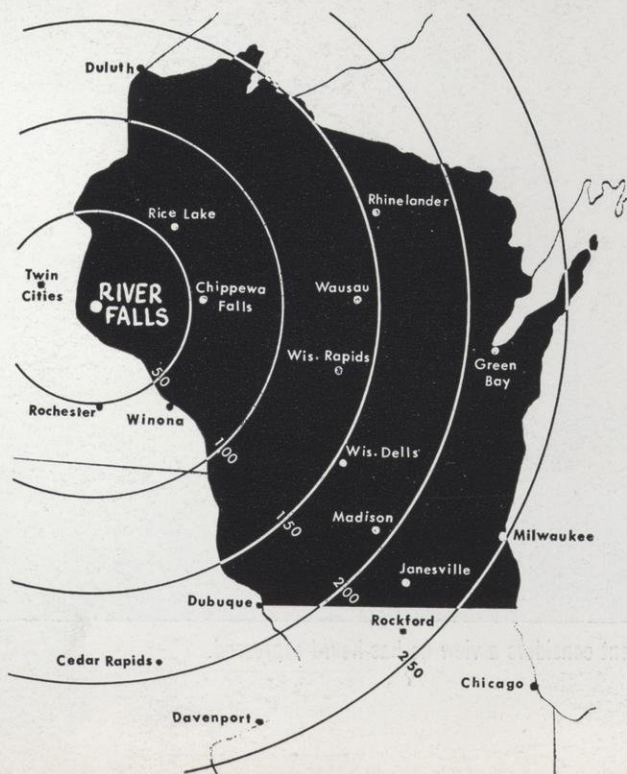

But the only true education is self education. And this the student must gain by thought, reflection, experiment and application.

A student considers a view he has heard expressed.

THE CAMPUS AT RIVER FALLS

Institutions, like individuals, possess character. In a college, character is the degree of excellence with which the institution performs the job assigned to it.

A measure of the character of River Falls is the success of the 18,000 students who have attended it. It is no accident that they are providing leadership in every part of the United States and in many foreign countries.

Their outstanding contribution in teaching, agriculture, in business, industry and in other professions, and their attainments in graduate school and research is living testimony to the character of the College.

50th ANNIVERSARY

administration

president's message . . .

With this issue, the 1962 Meletean marks a half century of continuous publication. Anniversaries are frequently the occasion for recalling the past and perhaps this should be no exception. The oldest of the State Colleges in Western Wisconsin, River Falls has had a long history of service to the state.

Eighty-four years have passed since its first class of six students was graduated. In the intervening years, marked by steady growth in enrollment, faculty, curricula and physical facilities, the College has held to an ideal — a belief in the essential worth of the individual.

Because of this, River Falls has consistently centered its program on the student and has had a tradition of a dedicated faculty striving to encourage individual achievement and excellence. In the words of the Catalog, "The College views the student as the major reason for its existence. Its courses, programs and activities are designed for his benefit."

However, anniversaries also provide a point from which to view the future. After a decade of unprecedented expansion, the College may look forward to an enrollment of more than 3,500 students by 1970. It may anticipate more buildings, a larger faculty and the chance to offer even greater opportunity to young people.

But we may also expect that the College will be loyal to the ideal it has served in the past and will remain a student-centered institution.

STUDENT ADVISORY COUNCIL

Composed of the presidents of all campus organizations, the Student Advisory Council works to coordinate and calendar all student organization sponsored events, and also represent effectively the viewpoints of all campus organizations. The Council meets monthly to help various individual groups solve problems, plan events and to help provide a communication outlet for the groups as they work together toward the betterment of campus relationships and activities.

A.W.S. BOARD

Gloria Grover, Chris Jelen, Vonnie Schmidt, Becky Junkman, Linda Minoski,
Patty Fink, Barb Bunders, Terry Hawthorne, Jill Kampf, Carol Myrvold.

The A.W.S. Board serves the interests of all women students at Wisconsin State College, River Falls. It seeks to promote and protect the interests of its members and strives for friendship among members. Entering Freshman women become a part of A.W.S. as soon as they become a part of the college and remain a member throughout their years in River Falls.

Comprised of representatives from Hathorn Hall, Hathorn Cottage, off-campus housing, commuters, town girls, and elected members-at-large, the A.W.S. Board serves as a governing body for women students. Activities for the year included a Freshman Women's reception, Marriage Conference, House-mothers' Coffee Hour, Valentine Formal, Senior Women's Banquet, Faculty Women's tea, Thanksgiving Banquet and a Mother's Day Banquet.

King of the Valentine Formal

FALCON FILM SOCIETY

One of the least conspicuous organizations on campus is the Falcon Film Society. Despite their relative obscurity, however, this small group renders a considerable service to the campus life of all. The Falcon Film society seeks out and presents those films of feature length and high quality that are not ordinarily made available to the students and faculty. This year's committee was composed of Wayne Wolfe, Tom Brucks and Alan Case.

VET'S CLUB

The college Veteran's Organization is a social group on campus who promote unity and fellowship among the members of the student body who have served in the Armed Forces. The club meets twice a month at the infamous Legion Hall. The members discuss current problems on and off campus and participate actively in Homecoming, Winter Carnival and Foundation Week. The end of each school year is highlighted by a Faculty Smoker. This year's officers were President, Sheldon Schneider, Vice-President, Edward Johnson, Secretary, Ronald Zirbel, and Treasurer Sam Rineck.

STUDENT FOUNDATION COMMITTEE

"Our college is much more and much larger than it appears to the student." So stated the student and faculty members of the Foundation Committee. "We try to instill within student's minds that the reputation they make for the college as a whole will determine the significance their individual education yields."

This year the committee saw the completion, erection and dedication of the controversial "Bronze Bird" on the front of Kargus Center. The committee also sponsored the annual Foundation Week, A College Bowl, and a variety of fund raising events.

Sitzmarkers . . .

Ski enthusiasts, dressed in wild colors for the slopes, are members of the Sitzmarkers, River Falls college ski club. The club introduces beginners to the art (?) of skiing through movies, lectures, lessons and finally an actual ski trip north. Experienced members of the club improve their skiing techniques, argue over the best make of skis, and plan additional trips north.

The Sitzmarkers function as a social organization and participated in Homecoming and winter carnival weekends. The club formed a monopoly on winter carnival with two of its members capturing winter carnival chairwomen posts and another member becoming a winter carnival king candidate.

STUDENT SENATE

The Student Senate is the most important student governing body on the River Falls campus. Its function is to "promote the best interests of the college and to develop a spirit of cooperation and good fellowship throughout the school." Its eleven members, four of which are class presidents, meet every Monday at 6:30 in the Senate Room of the Student Center. The Senators determine policy for the students and set up specific standards for the many organizations which petition the Senate for membership.

This year the point system set up by the 1961 Senate was used successfully to stimulate competition among the larger organizations for major social events on campus.

YOUNG

DEMOCRATS

Semi-secret Welch

A NEW ENTHUSIASM

River Falls Democrats can boast that it now has the largest Young Democratic Club in the state of Wisconsin. The club with over 150 members attempts to give its members a chance to see and discuss politics on a local, state, national and international level. Their aim is to promote better informed citizens and to perpetuate the ideals of the Democratic party.

The young Dems were active in helping with the Grassroots Conference, "The New Conservatism" and in bringing the controversial Robert Welch to speak on our campus. The club also participated in the district and state convention where Bob Agranoff, Frank Urbanz, and Alex Romanowski were elected to various state offices.

REPUBLICANS

Conservative Wilson

. . . IN TODAY'S WORLD

One of the most interesting of the activities held on campus this year was the fifth annual Grassroots Politics Conference. Students and faculty found themselves in the national political spotlight with the conference as the controversial Robert Welch, founder of the semi-secret John Birch Society, came to the campus to discuss the topic "The New Conservatism."

Also among the speakers were Dr. Francis G. Wilson, political conservative and professor of political science at the University of Illinois, Republican candidate for governor Philip Kuehn and state Democratic chairman Pat Lucey.

Much attention was given Mr. Welch who spoke at an all-school convocation held in Karges gymnasium. Mr. Welch spoke for some time.

GOODBYE FRAN

The appointment of Fran Polsfoot as new end coach of the St. Louis Cardinals professional football team has been announced.

Mr. Polsfoot, who has been coaching at Wisconsin State College at River Falls since 1954, has resigned his post here. During the past five years he has been head football coach here, posting a record of 22 wins, 20 defeats and two ties during that time. He reported June 1 to the St. Louis club.

Who's open for a pass?

Henderson blocks for Everson.

FALCON FOOTBALL

In his final year at River Falls, Coach Fran Polsfoot managed another winning season for the Falcons. With only 17 lettermen returning to practice at the first work session, it could have been much worse.

Offensive stalwarts Bob Dawson and Dave Jenson did their part for the departing Fran. Dawson completed 83 passes for 918 yards and was named all-conference quarterback. Jenson gained 375 yards rushing.

Especially effective on defense were Big Jim Blank and team captain and all-conference tackle Larry Julien. The two led the team in total number of tackles made.

Practice makes perfect.

Team Shot—Row 1: Larry Lloyd, Bob Pritchard, Bob Dawson, Jim Norrish, Jim Tichnor, Dave Henderson, Mike Wiskerchen, Ed Vick, Dennis Louks, DeWayne Johnson, and Jim Blank. Row 2: Tom Overman, Pete Bronson, Harold Rivard, Kent Kraft, Larry Julien, Gary Burke, John Doyle, Howard Hof-schild, Roger Pechacek, Mike Bieck, Lief Gigstad, and Bob Fritz. Row 3: Duane Jenson, Duane Tollefson, Jim Schmidt, Ken Miller, Jim Rivard, Dan Hu-bin, John Garrett, Mick Rogers, Wayne Burich, and Reno Rizzo.

Scharf moves into position.

Inconsistency could in many ways sum up the 1961-1962 Falcon Basketball team. When they seemed to jell by winning two or three games in a row, they fell apart and could do nothing.

"Hot and Cold", "On and Off", or any other such name could tab them. At times it seemed if fans were watching a potential conference champion team, and at other times it seemed as though a strong high school team could lick them.

For the season's total of nine wins, only one was won on the road. In the last half of the season, River Falls could manage only three wins while losing seven, leaving them with an over-all record of nine wins and twelve losses. Their conference record was seven wins and five losses.

Armed with three returning lettermen in Gerald Dexter, Mike Lukowicz, and Ray Christianson and one returning player of two years ago, the tennis team looks as if they could improve their record of 1-5 last year. The returning member is Jim Segerstrom who played two years ago before transferring out. Back with the team he helps in rounding things out very well. According to the tennis coach, Byron James, the team is much improved over last year. He says that the team is evenly matched in showing a lot of above average material but no real star.

SWIMMING TEAM

The River Falls swimming team closed the 1961-1962 season with a 56-41 victory over St. Olaf in the Karges pool. The win capped a long hard struggle for Coach Russ Gerber and his squad as they steadily improved throughout the season to cop their final win of the year and the first in the history of River Falls swimming.

In the eleven matches that the Falcons have had this year, Dick Siebold has placed first in the diving competition eight times, second twice, and third once. He placed third behind Winona's Fatchett and Foran. Fatchett placed eighth in the Olympic try-outs last year.

Dick shines for RF.

BASEBALL

Team shot - Row 1: Bob Pritchard, Bob Sommerville, Reno Rizzo, Jim Raether, Thomas Moser, Wayne Johnson, and Frank Brown. Row 2: Coach Don Page, Vern Wanish, DeWayne Johnson, John Durow, Tom Strasser, Bob Nielsen, Lloyd Klapperick, Rolland Reick, and Charlie Moore.

WINNING RUN!

After the first week of official practice, Coach Don Page seems impressed by the fine turn out of the team. There are 32 freshmen and 21 upper classmen that have signed up so far. There are 10 returning lettermen from last year's team which ended the season with a 13-6 overall record and a 5-3 conference record which was second only to the Stout Bluedevils.

This year's team will be built around the pitching arms of John Boortz and Ed Gregorich. Returning outfielders are Jim Tichnor, Glenn Stuve, and Bill Halverson. Bob Nielsen is the only returning catcher. Returning infielders are Jim Norrish, Vern Wanish, Tom Strasser, and Charlie Moore.

Iron Mike.

This year's schedule finds the Falcons playing 21 games, nine of which are at home. The conference has changed from last year in that there will be only one standing and not a north and south split. The conference schedule finds each team playing 10 games and a northern team must play one double header with a southern team. River Falls drew Platteville team as its opposition. The championship will be based on the highest percentage of wins. Mr. Page stated that a team must play at least 10 games to be considered for the championship.

Reno cocks his bat.

Gordy steps over.

TRACK

This year's track team won three and lost one. At the conference track meet at Stevens Point they wound up in seventh place.

La Crosse won the conference title this year followed in order by Platteville, UWM, Oshkosh, Stevens Point, Whitewater, River Falls, and Stout.

School records were set in the 100 yard dash, the 220 yard dash, the low hurdles, the 880 yard relay, and the high jump at the conference track meet.

Flying through the air!

Photo finish.

The outstanding individual Falcon performer this year has been Leon (Butch) Headley, sophomore from the Panama Canal Zone. Headley was beaten in his specialty, the 100 yard dash, only once this season and that was by his teammate, Larry Feltes.

Last season as a freshman, Headley won the conference 100 yard title and placed in the 220. This year as a sophomore he broke all existing state and school records in the 100 as he blistered the track in a brilliant 9.6 seconds, in winning his second straight title. This season he added another feather to his hat as he was the only Falcon to win two events in the state meet, winning the 220 and setting another record in the process with a time of 21 seconds flat.

Where is everyone?

INTRAMURAL SPORTS

War on the Field!

The intramural athletic program at River Falls has become an important part of the college sports program. Under the direction of Ben Bergsrud the intra-mural program offers the average college athlete a chance to participate in competitive individual and team sports.

The Jokers defeated all teams but one on their way to the Volleyball championship. They accumulated five wins and one loss. The first game they won by forfeit, the second by a score of 15-6, the third was lost to the Zabrowski squad in overtime play 10-8, and the fourth through sixth by scores of 18-9, 23-3, and 18-7. The squad members were: Galen Pittman, Dick Pariseau, Dave Emerson, Jim Van Camp, Charlie Moore, and Vern Wanish.

The spring intramural baseball program found these standings as the Meletean went to press:

The Cowards were crowned the 1962 intramural football champions after finishing the season with an unblemished record of 8-0. Only five teams participated in the football intramural season a drop from ten teams, which vied for the title last year. The Lumber Pilers, last year's title winners, finished in second place with a 7-1 record, their only loss going to the Cowards.

Intramural Basketball Champs - Row 1: John Doyle, Jim Tichnor, Roger Beebe and Larry Lloyd. Row 2: Howard Hofschild, referees Con Koepnick and Bill Swartz, Duane Jenson, Larry Greenwold, and Barry Lindsey.

The hard fought intramural basketball championship turned into a sudden frenzy of checking totals on both the score board and official scoring sheet. The score board read 48-47 giving the Untouchables the victory over the Saddlelites. The score sheet counted 48-48. To add to the confusion, the Untouchables still had one free throw left from a foul at the final gun, which was not shot as they thought they had won.

Later on in the week the Intramural Board met and awarded the game to the Untouchables due to the fact that the foul was back court and hence counted one point.

KANGEROO KOURT

Lower than dirt, Frosh, lower than dirt . . . maybe next time a Sophomore says "Button!" you'll . . .

This is like when Alexander the Greek had to undo this funny named knot that was somewhere in Asia or China and . . .

My name is John Drost. I'm a freshman from Rice Lake. I'm dirty.

You know, Mary, this is a heck of a lot more fun than making mud-pies.

**campus

and
the
meletean
1912-
1962**

For fifty years, River Falls students have worked to "capture" the year on campus in pictures and words. Each editor spends, or should spend, hours over his book, making layout and copy, writing, and cropping pictures. The yearbook is as much a record of the year perhaps as it is an extension of the editors' personality, and a reflection of the mind of the times. In these final few pages we would like to reflect some of those reflections. Here are some reproductions of some of the reproductions of the past fifty years: all pictures and words are from the pages of the first forty-nine Meleteans. Our only comments we present in our choices, and, perhaps, in the pictures marked 1962.

GREETING

To the students and faculty of the River Falls State Normal School, and all others who have shown an interest in our book, the Meletean Staff extends a greeting:

We are glad and hope you are glad that the long looked for day has come and with it the Meletean of 1912.

The Staff and the rest of the Seniors wish to thank all who have aided us in making this, the first Annual of the River Falls Normal, a success.

That the succeeding classes may prosper in publishing the following numbers of the Meletean, and that all who read the pages of this book may appreciate the result of our efforts, is the wish of

First game of the season

homecoming

When the old grads came back to their Alma Mater for the Homecoming Celebration of 1927, they found the old River Falls spirit welcoming them. Mammoth crowds, wonderful weather, and a happy co-operative student body merged to make this fiesta the biggest and finest in the history of River Falls...

The entire city was dressed in Homecoming splendor. The streets, store facades, and the college buildings were decorated in the traditional red and white. A host of novel and artistic ideas appeared in the gay decoration of the downtown business establishments . . .

At ten o'clock Saturday morning an exceptionally large parade came into prominence. The variety of floats reflected a quality of beauty, wit, and originality heretofore unseen in this vicinity. The unity with which this school works was expressed in the fact that every organization, many house gangs, and some individuals prepared floats for this big parade . . .

The game was hard fought and very fascinating. Everyone viewed it with keenest interest. However, at no time were the Red and White in very great danger. The cheer leaders and band were in good form and the team got the support that gives them the drive to win.

The evening's events began with the bonfire ceremony, which offered several innovations over previous years in the way of stunts and talks. The bonfire was attended by loyal students and alumni.

The celebration officially ended on the floor of North Hall Gymnasium where the Homecoming Ball was staged. The floor was filled to capacity and a peppy orchestra furnished the kind of music that affects the feet. Here the grads really met each other in the same old River Falls atmosphere. The dance might truly be called a glorious crowning of a great day's festivities.

—M.C.

(From the 1928 Meletean)

(1928)

Homecoming this year was bigger and better than ever. As usual the G.O.P. girls wore "R" sweaters and the Y.M.C.A. float won first prize, but other features of the day were changed. The weather was perfect, and River Falls won the football game, a homecoming combination that is hard to beat.

Some of the girls of the school were behind the team to be sure. They won the comic prize of the parade. The students at the rooming houses put many hours and a few of their hard earned nickels into decorations to win the house prize. Web- stonia won this year . . . (From the 1932 Meletean)

(1942)

First prize to the Math Club for their "Tanks for the Victory"

One of the outstanding events of the college year, 1946-1947, was homecoming — the first real homecoming since pre-war days. And what a homecoming it was! To it came a record-breaking crowd of former students, grads and friends, with an especial welcome to the returning veterans . . .

After the pep rally, over 100 students formed the gigantic snake dance which wound its way downtown to make the traditional crashing of main street.

The parade Saturday morning was one of the largest in the history of the college, with many well designed and original floats. The veterans' float won first place . . .

After the games the Social room in South Hall was literally overrun by alumni and former students.

A dance which packed North Hall gym to capacity concluded the festivities . . .

(From the 1947 Meletean)

(1947)

Opening with the pledge song at the kick-off convocation, the 1960 Homecoming, with its 'Squash Oshkosh' slogan, was a memorable event for students, faculty, friends, and alumni. The entire campus felt the spirit and knew that this was a special time — a week made for Homecoming . . .

(1931)

There are many things we can't forget . . . frosh liming the R.F. on the mound . . . balloons floating over the field after the game kick-off . . . pancake eaters . . . red goblet days . . . putting last-minute touches on a float . . . sitting on the curb as the parade went by . . . beautiful Queen candidates . . . being pulled down Main Street with the snake dance . . . returning alumni . . . and Edi's smile.

(1926)

MELETEAN VAUDEVILLE Rip Wrinkles of 1926

The Meletean vaudeville is an annual performance presented by the Third Year Class and managed by the Meletean staff for the benefit of the year book. The production this year was especially successful. "RIP WRINKLES OF 1926" consisted of a series of acts with a theme. Rip Van Winkle's reaction to the world of today running throughout. The songs and dances were arranged by students and the performance directed most successfully by Sylvia Hunt.

Registration days. How well we remember them — the bustle and the rush to complete the necessary business in order that we might find time to meet all our old friends and perhaps some newcomers too. Thus campus life was begun with pep and vigor and thus it has continued throughout the entire year.

Nate DeLong

The highest scorer in collegiate basketball for the 1947-48 season was none other than our own Nate DeLong. Big Nate was never better as he led his team to a second consecutive conference championship. In doing so, the 6-foot-6-inch sophomore center garnered an amazing total of 618 points in 22 games — an average of 28.1 points per game. This average was by far the leading one in collegiate basketball the past year. The friendly lad from Chippewa Falls nonchalantly tossed in basket after basket to build up his tremendous total. Newspapers all over the country refer to the blond pivot man as "Mr. Basketball," "Mr. Swish," and so forth, but to his mates and fans, he is just "Nate," the same unaffected boy on the basketball court that he is on the school campus.

PICTURE EXHIBIT

About two hundred beautiful pictures were exhibited in the Gym for the benefit of the Normal students on Dec. 14, 15, 16, 1911. Before being allowed to enter the Gym, Miss Pardee gave us many helpful suggestions as to just how we should and shouldn't look at the pictures. She also explained to us the best method of studying a picture.

On the evening of the 16th, Miss Roberts of Minneapolis gave an illustrated lecture in the Assembly Hall. This was especially enjoyed by the students who were taking drawing at that time. Both the lecture and the pictures exhibited were of great educational value.

FACULTY MOTHERS AND FATHERS

Faculty Mothers and Fathers were introduced into our school this year, each member of the faculty being assigned a family of about 12 or 15 students.

Some of their duties are: To call upon their charges; to show an interest in them; and to keep an eye upon them. From all reports they have been kept pretty busy. Telephones, autos, airships are said to have been used to help locate certain people at certain times.
