Where keys are kept—Keys to open the doors of all boxes are kept in a little box fastened to the pole by the side of the street box, the box having a glass cover.

Directions for sending in fire alarms—In case of fire go to the nearest street box, break the glass cover of the key box, take the key from the hook and place it in the door of the street box, which has a spring lock and is easily worked. The lock being released, open the door. Place the index finger over the little brass hook or lug projecting from the slot near the top of the inner door, pull the hook down quickly, but steadily, to the bottom of the slot and let go immediately. The hook will fly back to its original place and the fire department will do the rest. Persons turning in an alarm should remain at the box until the arrival of the department for the purpose of giving information as to the location of the fire.

Signals given on the fire bell—Two taps on the fire bell, after the alarm from the box has been sounded, calls for one hundred pounds direct pressure. This signal repeated, calls for 125 pounds pressure. Three slow taps after the alarm means "fire out." Twelve taps in regular order, repeated twice, is a signal for the militia to assemble at their armory. Six taps, repeated twice, or "666" is the signal for the call members of the fire department to report at their respective stations. One tap on the bell denotes broken wire.

The steamer responds to alarms from boxes 65 and 67.

The Association of American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are :

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employes.

Second. To provide **protection** to the public against **fraudulent advertising schemes which operate under the name of Directories**, and to drive unprincipled promoters of the same out of the business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

\$100.00 Reward Will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing, for any fraudulent or fake directory.

By means of three well equipped water-powers, we furnish the best light and power on earth at a low cost
