Book-Keeping and Commercial Calculations.

DAVID H. TULLIS, *Instructor.*

This School was for two years in successful operation in the city of Madison under the denomination of "Bacon's Commercial College." It is now a part of the University. At present rooms are occupied in Klauber's new block. The course of study consists of —

1st. Single and Double Entry Book-Keeping, embracing the various departments of trade and mercantile accounts, viz : Wholesale and Retail, Stock and Partnership Books, Shipping, Steamboating, Railroading, Banking, Manufacturing, Commission, Joint Stock and Company Business.

2d. Commercial Calculations, comprising the system of calculations appertaining to Percentage, Equation of Payments, Compound Equations, Exchange, (Domestic and Foreign,) Arbitration of Exchange, General Average, Arbitration of Merchandise, Tonnage of Vessels, Storage, and Custom House Transactions.

3d. Business Penmanship.

4th. Commercial Forms and Correspondence, including Forms of Invoices, Accounts Current, Account Sales, Bills of Lading, Promissory Notes, Orders, Checks, Drafts, Bills of Exchange, Articles of Copartnership, and Business Letters.

5th. Lectures on Customs of Merchants, Rules of Trade, Commercial Law, Political Economy, &c., &c.

It is the purpose of the Board of Regents in the establishment of this Instructorship, to afford the student an ample opportunity to qualify himself for prosecuting the mercantile profession in any department, and to any extent.

Students are taught separately and not in classes, and can enter at any time they choose.

Preparatory Department.

Experience in this University, as in our Western universities generally, has demonstrated the necessity of provision for instruction in branches which are properly preparatory to the different university courses. Young men of mature age often come to the University for instruction in some of its appropriate subjects, who wish also to per-

XIII.

fect themselves in mere elementary branches. To close the doors of the University upon this class of young men, or not to afford them the facilities of instruction which they need, would be greatly to limit the sphere of its usefulness as a State Institution.

Provision is therefore made for full preparatory instruction at the University Buildings. This instruction, under the direction and supervision of the Faculty, will be rendered by a competent Tutor. Those wishing preparation for the regular classes, merely a business education, or improvement in preparatory studies, with reference to teaching, will find within the University instruction adapted to their especial wants.

Students, of a suitable age, in this department are allowed to occupy rooms in the University buildings.

TERMS OF ADMISSION.

Candidates for admission to the first year of the Classical Course, must pass a satisfactory examination in the common English branches, the Elements of Algebra, (Ray's,) Plane Geometry, (Loomis',) Latin Reader, Cæsar or Cornelius Nepos, Virgil's *Aeneid*, (six books—the edition of Frieze is preferred as far the best,) Crosby's Greek Lessons, and the *Anabasis* of Xenophon.

Instead of these particular works in Latin and Greek, any equivalent will be accepted.

For admission to the first year of the Scientific Course, the requirement is the same as for the Classical Course, omitting the ancient languages.

Candidates for advanced standing are also examined in the studies to which the class they propose to enter have attended.

Such as desire to pursue a select course will be admitted to any of the recitations for which they may be prepared.

Applicants for admission must present testimonials of good moral character. Students are received from other States.

DEGREES.

Those who have satisfactorily completed the Classical Course are entitled to the Degree of *Bachelor of Arts*.

Those who have satisfactorily completed the Scientific Course are entitled to the Degree of *Bachelor of Philosophy*.

LITERARY SOCIETIES.

The Literary Societies, the Hesperian and Athenæan, are valuable aids in the intellectual training of the student. Each has a library of several hundred volumes.

Spacious and commodious rooms have been provided and furnished, and are now occupied by these Societies in University Hall.

MERIT ROLL.

A permanent record is kept of the daily attendance, conduct and recitations of each student; and information of his standing communicated from time to time to his parent or guardian.

RELIGIOUS EXERCISES.

The students are assembled at prayers daily in the chapel of the University, fifteen minutes before the morning hour for commencing study and recitation.

ACCOMMODATIONS.

UNIVERSITY HALL, costing more than \$65,000, contains commodious public rooms for recitation, lecture, library, cabinets, &c. There are also two large buildings provided with pleasant study and lodging rooms for students, and apartments for boarding, &c.

ROOMS, &c.

Private rooms in the University, under certain restrictions, can be secured by application to the locating officer.

No student will be allowed to occupy a room until his bills for the term are settled.

Students in the regular University classes, in previous occupancy, will be allowed to retain their rooms, if on the ground at the opening of the term.

Students from abroad, admitted to the University classes, and intending to complete the Classical or Scientific course, are allowed the choice of rooms.

Rooms are furnished at the expense of the students, who should bring their own bedding, towels, &c.; other furniture can be obtained here second-hand, or new, at moderate prices.

Occupants of rooms are held responsible for all damages to the same.

Students not accommodated in the University, and not residing with their parents in Madison, will lodge and board in town, under such regulations as the Faculty may prescribe.

Students of suitable age, in the Preparatory and Commercial Departments, are allowed to occupy private rooms in the University Building.

LIBRARY, CABINETS, &c.

The University Library, comprises about three thousand volumes.

This institution is provided with valuable Geological and Mineralogical Cabinets and Collections in Natural History; also with well selected Philosophical and Chemical Apparatus.

TERMS AND VACATIONS.

The Commencement Anniversary is on the last Wednesday of June, and is followed by a vacation of nine weeks.

There are three terms of thirteen weeks each in the year; and three vacations, one of nine, and the others of two weeks each.

The First Term, therefore, opens on Wednesday, nine weeks from Commencement; and each of the other terms on Wednesday, two weeks from the close of the preceding term.

CALENDAR FOR 1862-3.

THE ALUMNI ASSOCIATION.

This association was organized by a meeting of the graduates of the University, on the evening of Commencement day, June 26th, 1861. It was at that time resolved that the said association should meet annually and during Commencement week. In accordance with such resolution, the first annual meeting was held on the evening of the 24th day of June, A. D. 1862, at which time an address was delivered to the Alumni present, by Charles T. Wakeley, Esq., the President of the association and a member of the class of 1854, and a poem was read by R. W. Hubbell, Esq., of the class of 1858. The Alumni Dinner was given upon the afternoon of the 25th of June, and a business meeting of the association was held during the evening of the same day.

The following officers were chosen for the ensuing year :

Chas. T. Wakeley, President ; S. Fallows, Vice President ;
J. M. Flower, Cor'g Secretary ; W. F. Vilas, Rec'g Secretary ;
Geo. W. Bird, Treasurer.

Executive Committee.—Messrs. S. Foote, S. W. Botkin, and T. D. Coryell, in addition to the President and Recording Secretary.

J. M. Flower, Esq., of the class of 1856, was selected to deliver the Oration, and W. W. Church, of the class of 1860, to read the Poem at the next annual meeting of the association.
