The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

# 'FLAXEDIL' for controlled muscle relaxation

'Flaxedil' has a rapid action, produces a predictable patient response, and possesses a wide safety margin. It can be used with most general anaesthetics, and because of its vagal blocking effect 'Flaxedil' is the relaxant of choice with halothane. Its effect can rapidly be reversed by neostigmine.

'Flaxedil'\* is presented as Gallamine Injection B.P. 4 per cent (40 mg. Gallamine Triethiodide

B.P. per ml.) in 2 ml. and 3 ml. ampoules and 10 ml. multi-dose containers.

An M&B brand Medical Product
