## THE WISCONSIN SALON OF ART

The Wisconsin Salon of Art coincides this year with the period set aside by proclamation for a nation-wide sponsorship of American art and has as its prime objective in Wisconsin what the national art groups have undertaken for the encouragement of American art and artists broadly,—the cultivation of art in the state and public appreciation for our own artists by adding to the opportunities for seeing and purchasing their works.

Established in 1934 as a medium through which Wisconsin artists might exhibit in the fall season, thus complementing the spring exhibition sponsored by the Wisconsin Painters and Sculptors and the Milwaukee Art Institute, the Salon furnishes another mutually strengthening bond between the University and the art life of the state.

The University has long been a source of instruction and training for the teachers of art and art history in the state's school. Recently it has undertaken the compilation of the first history of art and artists in Wisconsin.

The artists, in their turn, by exhibiting in the Salon afford to students and visitors from all parts of the state the opportunity to observe and to study the contribution the visual arts are making to the culture of our times and place. More than seven hundred persons visit the gallery each day.

Not the least significant part of the whole enterprise is the method of conducting the Salon, which is perhaps unparalleled anywhere in the field of large competitive art exhibitions. From beginning to end the arrangements are conceived and executed by University students, working voluntarily as a committee of The Wisconsin Union and aided by the Union staff.

In this way, the Salon, in company with the multiform music, literary, discussion, and social undertakings of other student groups in the Union, is becoming a fertile seedling ground for a future leadership in the cultural life of the state,—an authentic and influential enactment of the function a university is expected to serve.
