## **BIENNIAL REPORT**

OF THE

# Commissioners of the Public Lands

OF THE

## STATE OF WISCONSIN,

**For the Biennial Fiscal Term Ending June 30, 1904.**

---

OFFICE OF THE COMMISSIONERS OF PUBLIC LANDS,  
MADISON, WISCONSIN, Sept. 1, 1904.

*To His Excellency, ROBERT M. LaFOLLETTE,  
Governor of the State of Wisconsin:*

As required by law we have the honor to submit the following report of the transactions of this office during the biennial fiscal term ending June 30, 1904. The reports of the secretary of state and state treasurer exhibit detailed statements of the receipts and disbursements on account of the several funds affected by our action and to them we respectfully refer.

All sales reported herein were made either through forfeiture or under law applicable to each case.

The table herein marked, exhibit "A", shows in detail the sale of lands from June 30th, 1902 to June 30th, 1904, the number of acres sold in each county, the several classes of such lands, and amount sold for.

Most of these sales were made between January 11, 1904, and June 30, pursuant to chapter 450, laws of 1903. The

---

*General Report.*

---

"amount sold for" means the total price of the lands. In many cases only partial payment was made at the time of purchase, leaving balances due, much of which is outstanding at the date of this report. All these balances, however, are payable within six months from date of purchase, with interest at the rate of 7 per cent. per annum.

Preliminary to these sales, each tract was appraised, and a complete list thereof published. Said appraisal was based on reports of official examiners and other information obtainable as to character of soil, quantity and kind of timber, etc., of each tract. The appraisal was in most cases higher than the price at which the lands were held prior to the time they were withdrawn from market in 1899, yet in several cases purchasers bid more than the appraised value. This and the further fact that about 40,000 acres were sold within six months, indicate that the prices fixed are generally regarded as reasonable. The average price of lands sold since January 11th, 1904, when sales under the law of 1903 began, is \$3.81 per acre, exclusive of city and village lots. The average price at which these lands were held when withdrawn from market in 1899, was less than \$2.00 per acre.

State Lands Sold.

EXHIBIT "A."—Statement of various classes of state lands sold during the two years ended June 30, 1904. Includes sales on which partial payments were made, and also fully paid sales.

*Total Dues.*

---

## TOTAL DUES.

The following table shows the amounts due the several funds upon lands held on certificates in the different counties outstanding for the fiscal term ending June 30, 1904, on which the state receives annually seven per centum interest.

This statement, compared with same in former reports, shows a large and continuous decrease of principal and income from this source, which is accounted for by annual payments on outstanding certificates.

LOANS TO SCHOOL DISTRICTS.

There is a constantly increasing demand from school districts for loans from the trust funds, to build or enlarge school houses. This class of investment of the trust funds has grown during the past two years, from July 1st, 1902, to June 30, 1904, from \$582,175 to \$873,526; and there are now many applications on file, awaiting the time when funds will be available for other loans of this class. These loans generally being of small amounts, from \$100 to \$1,000 and the interest and installments of the principal being payable annually, the clerical labor in connection therewith required of this office increases yearly in volume and importance.

Following are tables showing amounts of loans to districts in various counties, payments of principal and interest during the years from June 30, 1902, to June 30, 1904, and amount now outstanding in each district.

*Trespass Charges Collected.*

TRESPASS CHARGES COLLECTED.

The following table shows the amount of moneys received and collected in the different counties and credited to the different funds from trespass on vacant and contracted state lands. All expenses incurred in looking up and a survey of such lands were collected of the trespassers and turned into the general fund. Moneys received from sales of material and stumpage have been turned into the treasury and placed to the credit of the funds entitled thereto:

\*Including lands reserved for forestry.

---

*Recommendations.*

---

The foregoing tables show the transactions of the land department for the fiscal term ending June 30th, 1904. We renew the recommendation made in the last biennial report that power be given to the Commissioners to sell timber separate from the land when such timber has been damaged by fire or wind.

For more than thirty years prior to Jan. 11, 1904, lands classed as swamp lands were sold only on full payment being made at the time of purchase, no distinction has been made by chapter 450 of the laws of 1903, in the terms upon which any State lands are to be sold. We recommend that all sales in the future be for cash only.

Respectfully submitted,

W. L. HOUSER,

Secretary of State,

JOHN J. KEMPF,

State Treasurer,

L. M. STURDEVANT,

Attorney General,

*Commissioners of the Public Lands.*
