MINUTES OF THE REGULAR MEETING  
of the  
BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM  
Madison, Wisconsin

Held in the Clarke Smith Room, 1820 Van Hise Hall  
Friday, March 7, 1980  
9:00 a.m.

President Grover Presiding

PRESENT: Regents Barkla, Beckwith, DeBardleben, Elliott, Erdman, Fitzgerald, Fox, Grover, Lawton, McNamara, O'Harrow, Thompson, Veneman, Walter

ABSENT: Regents Gerrard and Majerus

It was moved by Regent Fitzgerald, seconded by Regent Walter, and voted, that the minutes of the regular meeting of the Board of Regents of the University of Wisconsin System, held on February 8, 1980, be approved as mailed to the members of the Board.

REPORT OF THE PRESIDENT OF THE BOARD

President Grover stated that Regent Bertram McNamara had agreed to accept appointment for another three-year term as a Director of the Milwaukee Regional Medical Center. Regent Fox moved, Regent Fitzgerald seconded, and it was unanimously carried, that the following resolution be adopted:

Resolution 2098: That Regent Bertram N. McNamara be reappointed as a Director of the Milwaukee Regional Medical Center for a three-year term, ending December 31, 1982.

✓  
 Heading: Regent Officers Note: Status Report on

Reporting on the status of recruitment for Secretary of the Board of Regents, President Grover stated that a total of 177 applications were received by the February 15, 1980 deadline, 108 of which were female and 69 male applicants. As a follow-up to the Board's action in February, a three-person administrative committee (consisting of Charles Stathas, Vicki Kenyon-Durtschi, and Marian Swoboda) had been appointed to do the initial screening to reduce the candidate pool to 20-25. A target date of March 18 has been set for this committee to complete its assignment and to present its report and recommendations to the Board President. If this time frame can be met, it would allow an opportunity for meetings by the Executive Committee to review the administrative committee's recommendations and further reduce the candidate pool. It is possible that personal interviews could be conducted with finalists immediately preceding the April meeting; and, that the Executive Committee could make its recommendations to the Board in a closed session on April 11.

Upon motion of Regent DeBardleben, seconded by Regent Fitzgerald, the report of the Higher Educational Aids Board meeting of February 22, 1980, was approved (EXHIBIT A). An informational document relating to HEAB's Office of Collection was distributed by Regent O'Harrow and is included with Exhibit A.

Regent DeBardleben reported that, upon the request of the Board President, he had reviewed correspondence from attorney Jerome A. Maeder representing Professor Walter Blaedel, UW-Madison, requesting the Board to "grant a review on the record of the proceedings to date" involving Professor Blaedel. Having considered the request, Regent DeBardleben moved and Regent McNamara seconded the following resolution which was adopted unanimously:

by Prof. Walter J. Blaedel

✓ Headings - Appeals Not: Denial of request for review of personnel decision, R 2099

✓ Headings: Blaedel, Walter J. - Notation - same.

Resolution 2099: The Board of Regents of the University of Wisconsin System has considered the request of Professor Walter Blaedel that the Board "grant a review on the record of the proceedings to date" involving him. The Board does have authority, at its option, to grant a review on the record of a decision by a chancellor on the recommendation of the appropriate committee or on the complaint in the absence of committee recommendation. Because the request for review does not specify either the decision as to which a review is requested or any ground or reason for the granting of a review, the request is denied.

Report on Advisory Comm for VP - Univ. Relations, p. 4

President O'Neil announced the formation of search and screen committees for the UW System Vice President for Academic Affairs and for the UW System Executive Vice President, with the initial meeting of these two committees scheduled for the week of March 10. He stated that a smaller and less formal advisory committee was being formed for the position of the UW System Vice President for University Relations, and that the composition of this committee will be consistent with the discussion and views expressed by several Regents in the February, 1980 meeting. "I continue to hope that we may have all three positions filled by the start of the next academic year, even though I realize that target places a very substantial time pressure on the committees."

The search committee for the UW System Vice President for Academic Affairs includes: Phyllis Kritek, Associate Professor, Nursing, UW-Milwaukee (Chairperson); Bernard Cohen, Professor, Political Science, UW-Madison; Egal Feldman, Dean, College of Letters and Science, UW-Superior; Alan Guskin, Chancellor, UW-Parkside; Thom Henninger, student, UW-Madison; Dallas Peterson, Associate Vice President, UW System; Leslie Polk, Associate Professor, Journalism, UW-Eau Claire; Douglas Radtke, Associate Professor, Chemistry, UW-Stevens Point; Kim Robinson, student, UW-Oshkosh; John Schoenemann, Professor, Horticulture, UW-Extension; MaryAnn Yodelis-Smith, Associate Vice Chancellor, UW-Madison; Carolyn Sylvander, Associate Professor, English, UW-Whitewater; and Winston Van Horne, Associate Professor, Afro-American Studies, UW-Milwaukee.

For the UW System Executive Vice President, the search committee consists of: J. Ray Bowen, Professor, Chemical Engineering, UW-Madison (Chairperson); David Cole, Professor, English, UW Center-Baraboo/Sauk County; Stanley Harris, student, UW-Whitewater; Reuben Lorenz, Vice President and Controller, UW System; Elaine McIntosh, Associate Professor, Biochemistry, UW-Green Bay; Cora Marrett, Professor, Sociology/Afro-American Studies, UW-Madison; Richard Peter, Professor, Industrial Teacher Education, UW-Stout; Noel Richards, Chancellor, UW-La Crosse; James Stoltenberg, Dean, College of Education, UW-Platteville; Roger Swanson, Professor, Agriculture, UW-River Falls; Suzanne Waller, Associate Professor, Educ. Psychology, UW-Milwaukee; Tammy Walters, student, UW-Superior; and Meredith Watts, Assistant Chancellor, UW-Milwaukee.

President O'Neil reported that for his visit to UW-Superior on February 28, the weather was cold as promised, but the hospitality was extremely warm and gracious. He had an opportunity to meet with many members of the faculty, including a meeting with the University Senate; a large number of community people, including the Board of Visitors; and much of the administrative, clerical, and physical plant staff. He expressed regret that the ending of the examination period on the day of his visit reduced the number of students available for the meeting. However, "I came away from the visit with a sense of optimism and confidence about the capacity of that University and of the community to face the challenge before them, with the task force process seeming to have the confidence both of the campus and of the community." He indicated that the November 30 Report assures there will be ample opportunity for discussion in Superior of the Task Force conclusions and recommendations between the June 1 deadline date for the Task Force Report to him and the time he presents recommendations to the Board in November.

✓  
Headings - UW-Superior.

Report on visit by Pres. re: task force study.

✓ *Headings: United Council notation: Report on financial aid & funding for UC., p. 5*

President O'Neil introduced Tim Fleming, President of the United Council of Student Governments, and expressed special appreciation to Mr. Fleming for having expedited the appointment of the students to the search and screen committees, which allowed appointment of the committees with minimal delay.

In his report, Mr. Fleming: (1) expressed thanks to Regent O'Harrow for his great interest in several of the programs; (2) reported on what can be expected to happen on campuses in the fall in areas such as financial aid, expressing concern about the rapidly climbing interest rate which could result in students not being able to obtain loans because the money won't be available; and (3) stated that the United Council has encountered fiscal problems since he assumed office in June and said the organization is affected when some campuses drop their membership. He had consulted with Attorney General LaFollette regarding future funding programs for an organization such as United Council and decisions as to the kind of help required from the students, noting that the whole fiscal base of the organization could disintegrate. In response to Regent DeBardeleben's question as to whether consideration was being given to coming to the Regents with a request for direct financial aid, Mr. Fleming replied in the negative, stating the Board would act as a collection agent only. More detailed information would be provided after additional consultation with the Attorney General and there would be some type of referendum. He also stated he would discuss this with Regent DeBardeleben at a later date.

---

REPORT OF THE EDUCATION COMMITTEE

The report of the Education Committee was presented by Regent Lawton who stated that the request for approval of UW-Platteville Faculty Personnel Policies and Procedures was deferred to the April meeting of the Board to allow committee members adequate time to familiarize themselves with them.

*Headings: Broadcasting - WNT Report on WHA-WHA-AM transmitter relocation*

*X-Reg. Radio*  
*Headings UW-Ext - Not: same, pp 5 & 6*  
Regent Lawton stated that an informational report on WHA-AM transmitter relocation was made to the Education Committee in response to a condition of the Regents' action at its February 8, 1980 meeting approving a resolution authorizing UW-Extension to seek an option or other agreement to acquire use of a parcel of land for possible relocation of this transmitter. The purpose of this informational report was to clarify matters regarding operational and programming costs and also projections about potential audiences to be served. UW-Extension's Dean Luke Lamb informed the committee that the addition of evening programming would have the effect of reaching new audiences not presently served and would include the repetition of some current daytime programming. When questioned about the possibility of extending programming from the Madison area to the entire state, Senior Vice President Smith noted that, in response to the request of the Reverend Richard Wisnewski, chairperson of the Educational Communications Board, President O'Neil appointed four UW System staff members as participants in a joint Educational Communications Board-UW System Radio Study Planning Committee to consider the nature and extent of radio programming throughout the state, determining if the state is making maximum use of these facilities. The committee, which will make its report by the end of the calendar year, will start its work immediately with Reverend Wisnewski as its initial chairperson. UW System representatives are: Vice Chancellor Wesley Face, UW-Stout; Associate Dean G. Michael Riley, UW-Milwaukee; Senior

Staff Associate Kenneth Warren, System Administration; and Ronald Bornstein, Director of the Telecommunications Center, UW-Extension.

Resolution 2102 regarding adoption of the first thirteen recommendations of the Statewide Study of Nursing and Nursing Education was moved by Regent Lawton. This resolution would reserve endorsement of Recommendation XIV, which calls for a legislatively-created Wisconsin Commission on Nursing, pending review of pertinent draft legislation. It was noted that Senior Vice President Smith had expressed appreciation to Associate Vice President Dallas Peterson, UW-Eau Claire Vice Chancellor John Morris, the entire Nursing Study Committee and its staff and subcommittees, and the various organizations they represent, for their parts "in addressing an extraordinarily complex long-range problem in as skillful a manner as it has been addressed anywhere in the nation." He also acknowledged the major funding support for the study provided by the W. K. Kellogg Foundation, along with the funding supplied by the State Board of Vocational, Technical, and Adult Education, the State Division of Health, and the UW System in support of the initial phases of the study. There being no further discussion, the resolution was seconded by Regent Fitzgerald, and passed unanimously:

✓  
Headings: Nursing -  
Statewide study of  
Nursing & Nursing  
Ednc.

Resolution 2102: That the Board of Regents expresses its appreciation to the Nursing Study Committee and all of those who participated directly and indirectly in the comprehensive two-year study of nursing, and to the Health Science Advisory Council for their advisory recommendations on the study;

NOTE: Action ON  
RECS. OF ~~STUDY~~  
STUDY ~~COMMITTEE~~.

That the Board accepts the Report of the Nursing Study Committee as a long range planning document for nursing;

✓ R 2102

That the Board endorses the first thirteen recommendations and encourages institutions to be responsive to them;

That the Board reserves endorsement of Recommendation XIV (Wisconsin Commission on Nursing) pending review of draft legislation;

And, finally, That the Board recognizes the public service provided in a very substantial way to the State of Wisconsin by the W. K. Kellogg Foundation in recognizing the merits and need for a statewide study of nursing and nursing education and making available the funding support to carry it out.

Regent Lawton reported on the first reading of academic program proposals for UW-Green Bay, UW-La Crosse, UW-Milwaukee, and UW-Platteville, stating that action would be requested at the April 11 meeting of the Board to authorize the institutions to proceed with the final planning and implementation steps.

Vice Chancellor William Kuepper explained to the committee that in UW-Green Bay's proposal for a BS, Nursing Degree Completion program, graduates of the Bellin Hospital in the Green Bay nursing diploma program during the last

✓  
Headings: UW-GB Degrees & Progs.  
NOTATION: First readings - BS, Nursing Degree Completion Progs.

ten years would be admitted to the proposed program with an advanced standing of 95 semester credits, 41 of which represent UW-Green Bay courses completed in connection with the hospital diploma program. Fifty-four credits would also be awarded in recognition of prior experience in the Bellin Hospital diploma program based upon the university faculty's knowledge and acceptance of that program. All other diploma nurse applicants and those seeking advanced standing in the Nursing Degree Completion program would be subject to individual evaluation by a faculty admissions committee. Vice Chancellor Kuepper also stated that no arbitrary ceiling was placed upon the amount of prior credit which could be accepted.

*(Reading UW-Milw degrees & PROGS. Note: first reading - BS Afro Am. Studies)*

Acting Chancellor Leon Schur reported that five new faculty were recruited to serve the proposed UW-Milwaukee program for a BS, Afro-American Studies.

*(Reading UW-Platte degrees & PROGS. Note - first reading - BS)*

In presenting the proposed UW-Platteville BS program in Electrical Engineering, question was raised as to the need for it in view of existing programs at UW-Madison and UW-Milwaukee. UW-Platteville College of Engineering Dean Edward Busby stated that the need for graduates is well established and the demand is expected to increase during the foreseeable future--nationwide as well as state-wide. Chancellor Warren Carrier expressed UW-Platteville's intent to provide the necessary new faculty positions by reallocation from presently underenrolled programs. Dean Busby estimated a needed capital expenditure of \$50,000 per year for the first six years and the addition of five faculty by the beginning of the sixth year. Because a question was raised regarding the ability of the UW-Milwaukee electrical engineering program to accommodate additional students, System staff was asked to check into that matter prior to the April Education Committee meeting.

*disc. of need.*

Regent Beckwith stated that he wished to be assured that the non-salary budget for the Electrical Engineering program was adequate and asked that this be considered prior to granting final approval in April, noting that the UW-Madison and UW-Milwaukee Electrical Engineering programs were very costly to establish. Dean Busby said the staff would not want to start with an inadequate budget and that reallocation of existing funds would assure proper levels of funding support. Chancellor Carrier said the University was in the process of reallocating positions, with other campuses likely to be faced with having to do the same thing. "Simply because of enrollment declines, we are not limiting our opportunities to be innovative. We also are aware of the difficulty of taking from some programs to give to others." He assured Regent Erdman that there was no intent to go to the Governor with a request for more funds in the next biennium to support the program.

Regent Beckwith informed the Board of several calls he received about the proposed Electrical Engineering program from individuals at other campuses, citing an earlier task force study of engineering education in the System. Callers had implied that one recommendation was that no new programs in Engineering be established because of excess capacity in existing Schools of Engineering. He was now advised that the recommendation was that there be no new departments or colleges and that it did not limit the development of programs within existing departments or colleges. However, he did feel it was advisable, in cases such as this where substantial commitments were being made, that there be consultation with Deans of Engineering at Madison and Milwaukee. Such consultation would resolve any concerns instead of allowing them to build up. "These individuals should not learn about these proposals by reading of job openings for Professors and Assistant Professors at UW-Platteville in the Chronicle."

Regent DeBardleben said it was made clear in the discussion in the committee meeting that there would be another report coming before the Board on what impact there might be on UW-Milwaukee and any excess capacity which might exist.

The Board was told by Regent Lawton that people on both sides of the issue believe that electrical engineering is a very basic part of any engineering school. Noting that he had raised similar questions during the Education Committee's consideration of the topic, Regent McNamara said his questions were adequately answered by Chancellor Carrier and his staff. It was also his understanding that UW-Madison has had to turn away students in this field because of space problems while UW-Milwaukee has seen some lessening of interest. He felt that future needs of industry in this field would expand greatly because there is a technological explosion in the whole field of electrical technology. He said that American industry is rapidly moving into this so, for all practical purposes, most of the equipment used in this field is obsolete. He had begun with some reservations, but the more it was explained, the more he was convinced that this is a needed program and, if UW-Platteville was willing to eliminate programs of lesser priority to support Electrical Engineering, he felt this was commendable. It was Regent O'Harrow's view that the Board should be conscious of the autonomy of each institution. While multiple programs may generate some competition at times, he felt such competition should be encouraged.

Dr. Smith said that, while it was not directly germane to the discussion, the Board should be aware that "the questions being discussed are good and will be back before the Board periodically in the 1980s. The Board is on record in support of applying job market information to higher education planning. The effort to apply job market analysis can contribute greatly." He said that there are many areas where it is incumbent, in planning, to rely on student demand in the job market, with that specifically applying to engineering. The System has a very strong and growing demand for this program and, if it is to be a dynamic System of dynamic institutions and "we fail to respond where there is a present and strong societal need, then we have a different kind of problem." He felt Chancellor Carrier was well aware of the fact there is no pool of money in the System, and he is facing extremely difficult decisions. However, Dr. Smith felt certain the System would be looking at this situation in other professional fields before the end of the decade.

*Headings (UW-Platteville Degree & Progs) Notation - First readings*  
Chancellor Carrier commented that UW-Platteville's BS program in Reclamation was proposed in response to a national need for such opportunities, with members of the Education Committee concurring that the program is timely.

Regent Lawton reported that Senior Staff Associate James Kolka presented to the Education Committee the Annual Report to the Regents on 1978-79 Progress and Achievement of Goals for American Racial and Ethnic Minority Students, the third update by the degree-granting universities since the Regents received the January, 1977 Report on Contingency Plans to Improve Services to American Racial/Ethnic Minority Students for the Period 1976-81. It was pointed out in committee that the overall report was not much more encouraging than that of a year ago.

*Head*  
✓ Affirmative action - *Note* - Presentation of 1978-79 report on \* and report of system Comm on minority student enrollment, pp. 8-11  
X-Rep - Equal Opportunity & Minorities.

The above-mentioned report is an informational document which accompanied the Report of the System Committee to Review Minority Student Enrollment History and Projections in the UW System, to Propose New Long-Range Goals (beyond 1981), and to Propose Implementation Steps Relative to 1981 Goals. UW-Milwaukee Professor Rodolfo Cortina, chairman of the committee that produced the latter report, stated that it represented a reasoned approach to a difficult issue, designed to help create an environment for change on each campus which would make it possible to move to the solution of minority student enrollment problems. His remarks focused mainly upon the section of the report dealing with student retention and the section entitled "A Design for the 1980s." Regarding this section, he stressed the need for development and implementation of incentive plans and the adoption of a resource allocation structure which would promote recruitment, retention, and graduation of minority students. He called for the appointment of a System Vice President for Minority Student Affairs and creation of a System Advisory Committee on Minority Student Affairs.

Education Committee members discussed the effectiveness of the recommended financial incentives as well as the strengthening of existing activities such as pre-college and basic skills programs. Regent McNamara described the report as well-reasoned and thorough and noted that no one is satisfied with results thus far, but he commended the report as the most thorough to date and one offering positive approaches to solving the problem. Chancellor Alan Guskin, speaking for the Chancellors and Vice Chancellors of the Urban Corridor Consortium universities of UW-Parkside, Milwaukee, Oshkosh, and Green Bay, spoke of the particular responsibility of those universities as the ones serving the largest concentrations of minority students. He stated their collective judgment that the key elements in serving minority youth are to: (1) reduce the high attrition rates of minority youth in high school; (2) motivate minority youth to aspire to continue education beyond high school; and (3) reduce skill deficiencies which many minority youth bring to college. Regent Grover observed that the report appeared to assert the responsibility to be basically that of individual institutions but needing firm direction at the System level. Chairman Lawton complimented Professor Cortina and members of that committee upon the submission of a useful report.

Regent Erdman felt both reports were extremely helpful to the Regents. The report clearly showed the needs and where the System should be headed. However, she did not feel the Legislative and Executive branches of the government had supported the UW System in this area. "The report does highlight that money helps. When we have support for them, many students who come inadequately prepared are able to be retained and graduate. When the Governor took out \$1.2 million of our budget in the last biennial request for academic basic skills programs and took out nearly \$500,000 of our request for the minority and disadvantaged special programs, leaving us with only about \$280,000 for the biennium for 27 campuses encompassing about 6,500 minority students, you can see we had very little money spread in a very large area, thus producing very thin results."

Regent DeBardleben did not feel a lack of funding was adequate justification for the relatively poor showing made in the System on retention of students. A need over and above anything that money could provide would be an evidence of dedication and determination on the part of each individual staff member and on the part of the Board of Regents to inspire these students to succeed and to help them succeed on a daily basis. "I can't believe that money could do that. It seems to me that by appealing to the selfish instincts of the staff members,

some incentive could be given to them that would make them see, on an individual basis, the importance of daily effort in this area. I just don't believe we're getting that, but I don't think it is a problem which can be solved just by throwing money at it. While I am not certain how to solve the problem, I do not think the System can blame its failure on the Governor and the Legislature. Lack of funding may be part of it, but I don't think it is the biggest part."

Regent Lawton, too, was skeptical of money alone solving the problem, "but it sure helps." He pointed out the successes which had been attained in some parts of the System--at UW Center-Rock County and at UW-Parkside--along with the advanced opportunity programs at UW-Madison and UW-Milwaukee. "Undoubtedly, a lot of dedication and effort was put into these small examples, but it took money too. Personally, I think that money is a very important part of whatever we propose, and to have fine words about dedication and so forth isn't going to help a bit." He also expressed objection to the proposed system of financial incentives for retaining students (\$100 for each freshman, \$200 for each sophomore, etc.), finding such an approach distasteful. "It's bounty hunting that I don't think we need to do. I think there are other ways of stimulating faculty to keep those people in school."

Retention of these minority students is very critical when they get to the university, according to Regent Grover, which he felt spoke to Regent DeBardeleben's question of commitment. However, he also had been impressed by comments of Chancellor Guskin and Professor Cortina who felt the problem is in the elementary/secondary system. "The University has to bridge that gap and improve their basic skill level development and ultimately focus on University growth and commitment in their own personal life. I think that that will require resources."

Regent Barkla related the difficulties encountered by UW-River Falls in recruiting for a Native American to serve as Director of Native American Studies. In addition to having a small pool from which to draw, limited financial resources resulted in an inability to offer a salary level adequate to attract qualified candidates. "I don't know if they've found a person to fill the position or not, but when you're talking about commitment and money, money certainly is very important."

Regent Walter observed that, aside from the money itself, the idea that the Governor and the Legislature do not appear to think it is an important issue is also troublesome.

It was Regent Beckwith's view that the Board might appropriately remind itself that many of the teachers and administrators in the primary and secondary school systems in the State of Wisconsin that are producing the students for the UW System were trained by that same System. If those secondary and primary schools are failing, the Board should have an interest in why they are failing and do something about it. He also felt that, when additional funds are sought for basic skills or for support of minority programs, it isn't always made clear that the System has a broader commitment than that. He felt the System was unfairly characterized as wanting to get into the secondary school business. "It seems to me that we don't want that; we want to get out of it as quickly as possible. But we don't want to condemn a generation of students who are doomed to failure in higher education simply because they are poorly prepared so, therefore, we're forced into providing some support."

Another point he raised was that there is very little information available to show where minority students go when they leave the UW System prior to graduation. He felt it was conceivable that many of these students graduate from other institutions or they might secure employment which is entirely appropriate for them. He felt it would be helpful to have some analysis of this, even though it would be difficult and costly. "I don't know what has happened to minority students, for instance, who enrolled at UW-Parkside and did not receive a degree. Maybe some of them came from the Waukegan area and couldn't afford the tuition and went back to get a degree in Illinois. I don't know whether it is possible for Chancellor Guskin to find that out."

Regent Thompson stated that the Department of Public Instruction would use the report as a basis for the review of services and programs for minorities in elementary and secondary schools and would be happy to bring such a report to either the Education Committee or the full Board of Regents at a future date.

The Board was informed by Senior Vice President Smith that President O'Neil wished to be deeply involved in the review of this report and its recommendations and would hope to be able to bring back System recommendations and commentary at the April meeting. There will be interaction with Chancellors, faculty representatives, and others prior to bringing forward the System recommendations. Following these discussions, System staff will then give its best judgment as to what should or can be implemented and what shouldn't or can't be brought for further development. "I think the report is a superb step forward, for, in trying to come to grips with solution of our problems and some of the ways which we can handle them."

President O'Neil said that, since he had been quite closely involved in minority student recruitment and retention for the past several years, he had read the report with particular interest. During the committee and Board discussions, he said there were many things that he was tempted to say but felt it would be more orderly if he waited until some specific proposals were available for implementation of "what I also find to be an admirable analysis and set of specific proposals in the committee report. Having had an opportunity to talk further with Chancellors and others, we will come back with recommendations on the best way in which to make use of and carry forward the exemplary work, careful thought, and very timely proposals of the committee report. I have seen many studies on minority recruitment and retention; however, I cannot think of any one that I have seen which addressed more specifically and constructively these extremely difficult and, at times, almost intractable problems than does this one."

Regent Lawton stated the following changes had been made in the UW-Superior 1980-81 academic year calendar as follows:

Spring Recess:	from: April 17 through 20, 1981
	to: April 17 through 21, 1981

Final Day of Spring Quarter:	from: May 27, 1981
	to: May 29, 1981

✓ Head-UW-Superior

Not: 1980-81 calendar changes announced.

It was moved by Regent Lawton, seconded by Regent Fitzgerald, and voted, that the following resolution be adopted:

Resolution 2103: That, upon recommendation of the University of Wisconsin-Madison Chancellor and the Board of Directors of the State Laboratory of Hygiene, the status of Ronald H. Laessig be changed from Acting Director, State Laboratory of Hygiene and Professor of Preventive Medicine, Medical School, to Director, State Laboratory of Hygiene and Professor of Preventive Medicine, Medical School, UW-Madison, effective March 7, 1980 at an annual salary of \$38,600.

*Handwritten notes:*  
 ✓ Head - Hygiene State Lab ap.  
 Ronald H. Laessig  
 named Director.  
 ✓ X-Reg Laessig (new and)

Upon motion of Regent Lawton, seconded by Regent DeBardeleben, the following resolution was adopted:

Resolution 2104: That, upon recommendation of the President of the University of Wisconsin System, the Chancellor of the University of Wisconsin-Madison and the Executive Committee of the School of Pharmacy, Dr. August P. Lemberger be appointed Dean and Professor, School of Pharmacy, UW-Madison, beginning July 1, 1980 (or as soon thereafter as feasible), at an annual salary of \$57,500.

*Handwritten notes:*  
 ✓ Head - Pharmacy, School of - August P. Lemberger apptd Dean.  
 ✓ X-Reg Lemberger.

Regent Lawton related Chancellor Shain's great pleasure, on behalf of the School of Pharmacy and the University at having Dr. Lemberger, formerly a professor in the department, return to UW-Madison.

REPORT OF THE BUSINESS AND FINANCE COMMITTEE

Regent Fox, Chairman of the Business and Finance Committee, reported for the committee. *Budget*  
 Head - UW-Ext. - ~~Report~~ *Report on legislatively mandated studies*  
 ✓ Head: legislature - *Report on studies mandated by*

Discussion in the committee's morning session on special studies of UW-Extension, in response to secs. 2054(2) and 2054(3) of Chapter 34, Laws of 1979, centered on a set of documents which were summarized by Chancellor Evans, Associate Chancellor Pere, Dr. Thiede and Senior Vice President Smith. Policies and procedures in formulating and implementing long-range plans for Extension, along with details of how program evaluations will be conducted and how these evaluations will influence decision making were outlined. This will involve the appointment of an Academic Program Advisory Council and a series of Program Task Forces to serve in an advisory capacity to the Chancellor. Further details were presented with the evaluation plans for the Dairy Extension Program and the Recreation Resource Program which will be finalized for the June meeting of the Board. There was also discussion on the advance documents UW-Extension Faculty and Academic Staff Profile and Academic Program Evaluation. System Administration will prepare a detailed report on the personnel and tenure practices related to community faculty in Extension. At the April 10 Education Committee meeting, continuing education fee policies will be addressed.

In committee, Vice President Lorenz briefly summarized the gifts, grants, and contracts for the month, noting that activity was nearly \$3 million more than the same period a year earlier. The cumulative totals for the fiscal year to date were \$19 million greater than a year ago. Major increases were \$15 million in student aid and \$10 million in research; a \$6.7 million reduction in instruction grants was reported for this period.

It was moved by Regent Fox, seconded by Regent Beckwith, and carried, that Resolution 2105 be adopted:

Resolution 2105: That, upon the recommendation of the President of the University of Wisconsin System, the gifts, grants and contracts presented at this meeting (copy filed with the papers of this meeting) be accepted, approved, ratified and confirmed; and that, where signature authority has not been previously delegated, appropriate officers be authorized to sign agreements.

The following bequests were accepted, upon motion of Regent Fox, second of

Regent Veneman:

*Dredge*  
Resolution 2106:

*Head - Kissimee, Thomas*

That the bequest of the late Thomas J. Dredge, Kissimee, Florida, be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the Will and that the Trust Officer or Assistant Trust Officer be authorized to sign receipts and do all things necessary to effect the transfer for the benefit of the University of Wisconsin-Madison.

*Request for Medical School*

*accepted, R 2106*

*Head - Med Sch.*

*Note Request of Thomas*

*Kissimee, Dredge accepted, R 2106*

*Head Mill-bee*

*Request for student assist. in uw-mad dept.*

*POI sci accepted, R 2106*

*x-Ref. POI Sci Dept.*

That the bequest of the late Virginia Mill, of Los Angeles, California be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the Will; and that the Trust Officer or Assistant Trust Officer be authorized to sign receipts and do all things necessary to effect the transfer for the benefit of the University of Wisconsin-Madison.

*Head - Tenenbaum*

*Request for UW-Milw Sch of Social Welfare library fund*

*accepted, R 2106*

*x-Ref UW-Milw - gifts, etc.*

That the bequest of the late Rebecca B. Tenenbaum of Milwaukee, Wisconsin be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the Will; and that the Trust Officer or Assistant Trust Officer be authorized to sign receipts and do all things necessary to effect the transfer for the benefit of the University of Wisconsin-Milwaukee.

*Head: Ulmer, Jane*

*Request for cancer research*

*accepted, R 2106*

*x-Ref - Med Sch.*

That the bequest of the late Jane Sherwood Ulmer, of Clearwater, Florida be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the Will; and that the Trust Officer or Assistant Trust Officer be authorized to sign receipts and do all things necessary to effect the transfer for the benefit of the University of Wisconsin-Madison.

Thomas J. Dredge bequeathed \$2,000 plus one-half of the rest, residue and remainder of his estate, which will amount to between \$75,000 and \$100,000, with funds to be used for student loans in the UW-Madison Medical School.

The bequest from the late Virginia Mill provides an estimated \$30,000 for the University of Wisconsin-Madison, to be invested and the income going to an outstanding and needy student in the Department of Political Science.

The Rebecca B. Tenenbaum bequest provides \$2,000 for the UW-Milwaukee School of Social Welfare Library Fund.

The Jane Sherwood Ulmer, Clearwater, Florida bequest leaves one-half of the rest, residue and remainder of her estate, totaling \$228,425, for cancer research work. This bequest will be administered by the Research Committee of the UW-Madison Medical School.

✓ head - Financial Aid - Not: discussion on *Student Loans*  
x Ref - Student Financial Aid.

The committee discussed the functions and costs of administering the National Direct Student Loan Program. The respective institutions handle the billing of NDSL accounts and, when an institution cannot collect a delinquent account, it is referred to the Higher Educational Aids Board for collection. If HEAB also is unsuccessful in collecting the debt, it is returned to the institution which then refers the account to the Federal Office of Education for action. This procedure appears to be working well with only three campuses having a default rate in excess of ten percent at the end of the 1978-79 academic year. Significant improvements are anticipated at two of these institutions in the 1979-80 academic year.

In committee, Vice President Lorenz reported that the projected 1979-80 year-end general operations balances available for future revenue shortfall and other contingencies is now estimated at in excess of \$1,541,000.

A resolution, moved and seconded, which would have provided direction to the Business and Finance Committee relating to voting a proxy, was later withdrawn as being an issue properly before the Business and Finance Committee and not the full Board. The present proxy guidelines, however, will require reexamination and modification in view of responsibility changes which have taken place since the death of the Board Secretary and Trust Officer.

REPORT OF THE PHYSICAL PLANNING AND DEVELOPMENT COMMITTEE

Regent Barkla, Vice Chairman of the Physical Planning and Development Committee, reported.

Five concept and budget reports were presented for projects at UW-La Crosse, Madison, Superior, and River Falls. The UW-La Crosse project involves energy conservation modifications in three buildings. At UW-Madison, one project involves the replacement of the Field House Roof and the other is for an office addition and remodeling project in Camp Randall Stadium. The project at UW-Superior is a handicapped accessibility project for two buildings, while the project at UW-River Falls involves energy conservation modifications for two buildings. The Regents have previously authorized funding for these projects, as has the State Building Commission, and the concept and budget reports request authority to complete the planning, bid and construct at the cost and from the funding source indicated in the resolution.

It was moved by Regent Barkla, seconded by Regent O'Harrow, and carried, that the following resolution be adopted:

Resolution 2107: That, upon the recommendation of the UW-La Crosse, Madison, Superior and River Falls Chancellors and the President of the University of Wisconsin System, the concept and budget reports for the following projects be approved and authority be granted to plan, bid and construct at the cost and from the funding source indicated:

- Head (1) UW-La Crosse - bldgs.  
 Note: C&B report approved for  
 Energy Conservation Modifications,  
 North Hall/Mitchell Hall/Maintenance  
 Building, R 2107 \$364,000 - SBTF-GPR

 X-Reg/Union bldgs.  
 Camp Randall Stadium Office Addition and Remodeling \$830,000 - Gift Funds - Non-GPR  
 Root problems  
 relation! Concept & Budget report approved for Field House Roof Replacement, R 2107
- Head (4) UW-Superior Bldgs.  
 Note: C&B report approved for  
 Handicapped Accessibility (Gates  
 Physical Education Building and  
 Erlanson Hall), R 2107 \$295,900 - GOB-GPR
- Head (5) UW-River Falls Bldgs  
 Note C&B Report approved  
 Energy Conservation Modifications,  
 Karges Physical Education and Health  
 Center/Agricultural Science Building \$272,000 - SBTF-GPR  
 R 2107

Five minor projects totaling \$779,600 were considered. Three of these projects involve energy conservation funded from GPR-supported funds. The other two projects are Program Revenue-supported projects at UW-Eau Claire and UW-La Crosse. Regent Barkla pointed out to Regent Erdman, because of her special interest in the handicapped, that the project at Eau Claire provides for living facilities for handicapped students on that campus in apartments that will completely meet their needs.

The only facilities there now are in the high-rise dormitories which are a long way from the academic campus.

Upon motion of Regent Barkla and seconded by Regent O'Harrow, the following resolution was adopted:

Resolution 2108: That, upon the recommendation of the UW-Parkside, Platteville, Madison, Eau Claire and La Crosse, Green Bay, Oshkosh, River Falls, Stevens Point, Stout, Superior and Whitewater Chancellors and the President of the University of Wisconsin System, authorization be granted to plan, bid and construct the following minor projects, at the cost and from the funding source indicated:

- Head → UW-Parkside Bldgs. ✓
- Note → Insulation of the Main Steam and Condensate Return Distribution System, \$109,800, State Building Trust Funds, GPR approved, R 2108
- Head Buildings (Madison) ✓  
UW-Platteville Bldgs ✓ → UW-Madison and Platteville
- Note → Wind Energy Demonstration Projects, \$154,000, State Building Trust Funds, GPR approved, R 2108
- one card for each univ. bldgs  
Note → UW Eau Claire, Green Bay, La Crosse, Oshkosh, Parkside, Platteville, River Falls, Stevens Point, Stout, Superior and Whitewater approved, R 2108
- Head → UW-Eau Claire bldgs. ✓
- Note → Meeting and Living Areas for Handicapped Students, \$80,000, Program Revenues, Non-GPR project approved, R 2108
- Head UW-La Crosse - bldgs ✓
- Note → Cable TV Distribution System, \$90,000, Program Revenues, Non-GPR approved, R 2108

Regent Barkla reported that the next request was to purchase a 7/10-acre parcel of land from the City of La Crosse to provide a site for the relocation of the UW-La Crosse Geography Department Climatological Station for \$3,500. Appraisals in April and May, 1979 were for \$14,300 and \$14,100. This is a filled area, level with the Maintenance/Stores Building and is not part of the wetlands area. Acquisition of this parcel will also allow easier movement of University vehicles around the Maintenance/Stores Building, in addition to providing a site for the Climatological Station.

It was moved by Regent Barkla, seconded by Regent O'Harrow, and carried, that the following resolution be adopted:

Resolution 2109: That, upon the recommendation of the UW-La Crosse Chancellor and the President of the University of Wisconsin System, authorization be granted to purchase a parcel of land from the City of La Crosse as a site for a climatological station at a cost of \$3,500. The site is more fully described as:

*Head UW-La Crosse Bldgs.*

*Note: Approval of purchase of land for climatological station; R2109*

Part of the SW $\frac{1}{4}$  of the NW $\frac{1}{4}$  of Section 33 Township 16 North of Range 7 West described as follows: Beginning at the northwest corner of said SW $\frac{1}{4}$  of the NW $\frac{1}{4}$ ; thence south along the west line thereof 396 feet; thence at an angle of 101 $^{\circ}$  04' 19" to the left to the westerly right of way line of East Avenue; thence northerly along said right of way line to a point on the north line of said SW $\frac{1}{4}$  of the NW $\frac{1}{4}$  92 feet east of the point of beginning; thence west along said north line 92 feet to the point of beginning.

*Head UW-La Crosse Bldgs & Land*

*Note: Discussion of purchase of marsh land by DNR, p.17*

Regent Beckwith asked whether the Business and Finance Committee or the Regents had, in fact, received an offer from the DNR to purchase the wetlands area, as promised some months back. Vice President Winter replied that an offer had been received but that it was unacceptable, based on the amount the System has invested. At present, the highest and best use for this property has not been agreed upon--a position which Regent Fox felt was unchanged from that of a year ago. Regent Grover said he had recently received a letter from Tony Earl regarding this issue and had been attempting to determine how to respond to it, although he felt there should be renewed efforts to get the matter resolved. It was his hope that by the April meeting he would be in a position to make some report.

Asked by Regent Barkla why he was so anxious for the DNR to acquire this parcel, Regent Fox said it was his position that if these are wetlands and the System would not be building on it, there was no reason to have an investment in it. If it can be sold, the funds could be used for educational purposes instead of holding land which, he felt, someone would like to develop. "I'm told by people at DNR that they're willing to up their offer; and I'm told by people here that they don't want to try to arrange a meeting--this has been over nine months. I'm fairly patient--in fact, I didn't even bring it up today!"

Regent Barkla presented the next item which involved the sale of the 6.1 acre former Sherman Property, for the UW Center-Waukesha County for \$170,000. The Board previously approved the sale of this property in October, 1979 for \$211,003. After this approval, the high bid was withdrawn and the bidder forfeited the \$10,500 in earnest money. The property has been appraised at \$135,000 and \$149,500. The acreage in this sale has been increased slightly (by 0.16 acre) to assure that the buyer has the required two-acre-per-lot minimum should it be his future desire to subdivide this parcel. The property is not being used at the present time and the Center does not anticipate having any use for it.

Upon motion of Regent Barkla, seconded by Regent O'Harrow, the following resolution was adopted:

Resolution 2110: That, upon the recommendation of the UW Center System Chancellor, the UW Center-Waukesha Dean and the President of the University of Wisconsin System, authorization be granted to sell the 6.1 acre "Sherman Property", with improvements, located in the Town of Summit, Waukesha County, at a price of \$170,000 to the high bidder, Russell G. Jung, P.O. Box 1109, Milwaukee, WI

Head  
UWC-Waukesha  
Authorization granted to sell Sherman Property to Russell G. Jung, Milw. R 2110  
X-Ref. Jungs

The property is further described as:

That part of the SW 1/4 of Section 36, T7N, R17E, in the Town of Summit, Waukesha County, Wisconsin, which is bounded and described as follows:

Commencing at the Southwest corner of said SW 1/4 Section; thence N 29° 11' E along the centerline of County Highway "C", 70.80 feet; thence N 41° 28' E along said centerline 76.06 feet; thence N 52° 57' E along said centerline 117.90 feet; thence N 66° 51' E along said centerline 483.51 feet; thence N 60° 38' E along said centerline 39.11 feet to the point of beginning of this parcel, thence continuing N68°38E 85 feet along said centerline,

Thence continuing N 57° 02' E along said centerline 121.30 feet; thence N 38° 06' E along said centerline 373.24 feet to the centerline of State Highway 18; thence N 56° 24' W along the centerline of said State Highway 18, 364.98 feet; thence N 75° 01' W along said centerline 256.07 feet; thence S 16° 53' W 318 feet; thence N 75° 01' W, 30.00 feet; thence S 16° 53' W, 84.18 feet to a point on the meander line of Henrietta Lake, said point being 23 feet, more or less, from the shore of said Henrietta Lake; thence S 63° 12' E along said meander line 145.09 feet; thence S 6° 09' E along said meander line 127.75 feet; thence southeasterly to the point of beginning. Said parcel contains 6.1 acres, more or less.

"Sherman" Gertrude

Regent Barkla presented the proposal for exchange of land at UW-Oshkosh which requested approval from the Board to convey one remote-from-campus 43.43 acre parcel of unimproved land in exchange for \$20,000 and one contiguous 1.22 acre parcel of improved land. The 43.43 acre parcel of unimproved land was identified as surplus in the campus development plan approved by the Board in March, 1979. The smaller parcel, on the northern edge of the campus adjacent to the Fine Arts Building, is improved with a large residence which will ultimately be razed to create open space around the Fine Arts Building.

Upon motion of Regent Barkla, seconded by Regent O'Harrow, the following resolution was adopted:

Resolution 2111 that, upon the recommendation of the UW-Oshkosh Chancellor and the President of the University of Wisconsin System, authorization be granted to deed a 43.43 acre parcel of land located on the northwest edge of the City of Oshkosh (Turner Property) for a 1.22 parcel of land with improvements, located at 1052 Algoma Boulevard, Oshkosh (Kronzer Property) and \$20,000 in cash.

✓ Head-UW-Osh  
Auth. granted.  
to exchange Turner  
Property for  
Kronzer property.

2111

Regent Barkla presented a resolution to revise the Board policy on the naming of buildings. The proposed resolution recommended that the full Board, in addition to the Physical Planning and Development Committee, discuss in closed session requests to name buildings after a person at least one month prior to a university requesting formal Board action. Regent Barkla further reported that the committee had discussed this issue rather thoroughly and, while it supported the addition of full Board consideration of requests in closed session, it could not see a reason for differentiating between requests to name buildings after living persons and those to name buildings after individuals who are deceased. The revised resolution presented to the Board would bring all requests for naming buildings after individuals to both the Physical Planning and Development Committee and the full Board in closed session.

Regent DeBardeleben questioned whether there was statutory authority for bringing to closed session proposals to name a building after a deceased person. There was considerable discussion as to the need to protect the personal history of all individuals and their families, and Regent Barkla did not feel the statute differentiated between the personal history of a living person or a deceased person. Mr. Stathas offered the Board his interpretation of the statutes as allowing the Board to go into closed session to discuss the naming of buildings after persons, living or dead.

In discussing the substance of the resolution, Regent DeBardeleben reiterated his previous position that the Board should have a policy that would be uniform and easy to follow, and he did not feel the resolution under consideration accomplished that goal. He continued to feel that the Board should not name buildings after living persons, after ex-Regents, or after politicians. If buildings were to be named after people, it should be limited to deceased faculty members, deceased university administrators, or deceased educators who have served this System. It was his view that this is a sound policy which can be easily administered. He felt the proposed resolution sought to avoid possible embarrassment to someone who is proposed for the naming of the building where the Board may not be supportive. It was his judgment that that problem would still exist because, if a name is proposed, there will be considerable discussion before it reached the Physical Planning and Development Committee and the Board. Thus, the problem still would exist. He considered it a bad resolution which should be voted down and the subject sent back to the committee for further consideration.

Regent Barkla said her personal preference was not to name buildings after any person but, after consulting with the individual Chancellors who, in turn, consulted with the various campus committees about this policy, the concensus was a desire to be able to continue the policy of naming buildings after persons, living or deceased, on a case-by-case basis. If that is the preference on the campuses, she did not believe the Board should be so inflexible that namings would be limited to faculty members or a certain category of people. Her

experience had been that the campus committees are very careful when discussing proposed namings to assure that there is no publicity, so she did not consider that a real concern.

Regent Beckwith said he shared concerns similar to those of Regent DeBardeleben, feeling there are certain persons or defined groups of persons that would be easily suited by a majority of the Regents as eligible for building names. At present, however, the Board does not give any guidance to the Chancellors, relying upon the good judgment of the campus committees and Chancellors to submit only fully appropriate names. "Maybe that's a part of the decentralized System, but this is a non-policy as I see it. It simply says that you make your choices and bring them to us, and we will consider them in closed session. Maybe the closed session aspect of it solves the problem, but I remind you that, in my short term with the Regents, we never turned down one of these things. Every time it has been proposed to name a building after an individual, the Board has accepted it. Perhaps we did it because we were concerned about the embarrassment, or perhaps we did it because we thought it was a good idea."

It was Regent Lawton's opinion that the reason for this could possibly be attributed to the careful scrutiny such requests receive at the campus level. He said he was personally aware of occasions where recommendations were not approved by the campus committee or the Chancellor, even though there was considerable pressure to approve them. "Therefore, we don't have occasion to consider ones that are immediately questionable."

In reviewing the listing of building namings since 1971, Regent Barkla said there were a few instances where buildings were named after people who do not fit into the categories proposed by Regent DeBardeleben, but not that many. Many buildings are named for people who have a connection in the respective community with the institution, either as a faculty member or someone very much interested in education. Although she personally opposed naming buildings after persons, she felt the community should have some latitude. "The building is in that community; people live there; and I think the choice should be left to the community."

The resolution was a very good one, in Regent Erdman's view. She felt it was a policy and one which gave to the individual campus a sense of its own individuality and uniqueness. In such a large System, she felt it was essential for each school to have a sense of its own autonomy. She felt building naming is one aspect which does aid that sense of uniqueness and gives each a sense of guiding its own destiny. Also, she felt some of the categories raised by Regent DeBardeleben create extreme difficulties in relation to definitions; i.e., how does one define a politician? Attempting to establish inflexible categories merely opens the Board to an unusual set of difficulties. "I think this is an individual matter for the individual campus, the foundations, the administrators, the educators on that campus, and that it is up to the Regents to foster that sense of uniqueness."

Regent Veneman shared Regent Erdman's view, having no reservations about naming buildings after persons or different categories of persons, and he said he liked the proposed resolution because of its flexibility.

On a roll call vote, the following resolution, moved by Regent Barkla and seconded by Regent O'Harrow, was adopted, with Regents Barkla, Beckwith, Elliott, Erdman, Fitzgerald, Fox, Grover, Lawton, McNamara, O'Harrow, Thompson, Veneman, and Walter voting "Aye" (13), Regent DeBardeleben voting "No" (1), and Regents Gerrard and Majerus absent (2):

Resolution 2112: ~~That requests to name a building or facility after a person to be brought both to the Physical Planning and Development Committee and the full Board of Regents for discussion in closed session at least one month prior to requesting formal Regent action.~~  
*Head - Buildings, NAMING of Request to name facilities*  
*X-Reg. Regent policies*  
*See: Del. to the policies, BB*  
 ) R 2112

Regent Barkla stated that Vice President Winter had reported: (1) on the status of projects and the State Building Commission actions of February 1 and 19; (2) that the System recommendations relating to the consultant's report on the UW System parking program will be brought to the Board in April. Additionally, there is considerable legislative action being proposed which, if adopted, could have significant impact on the System's parking program; and (3) that, based on seven months of operation, the System is continuing to increase the percentage of energy savings. Regent Barkla urged the Board members to look at the statistics on energy savings, stating that it is an outstanding program in terms of what this System has done and "the University of Wisconsin System must be a leader in the entire country in saving energy."

*Head - energy conservation Note: Report on energy savings, p. 2/*  
~~Head - parking~~

Prior to concluding her report, Regent Barkla informed the Board that she and Chancellor Weidner had been present during the Joint Finance Committee consideration of its recommendation to take from the annual budget review recommendations the proposed purchase of the Bay Apartments Complex at UW-Green Bay. The proposal was defeated by a tie vote, retaining the project in the budget.

*Head - UW-SB bldgs.*  
*Note - Report re: purchase of Bay Apartment Complex, p. 2/*

At 11:05 a.m., the following motion by Regent DeBardeleben, seconded by Regent Fox, was adopted on a unanimous roll call vote of those in attendance as follows: Regents Barkla, Beckwith, DeBardeleben, Elliott, Erdman, Fitzgerald, Fox, Grover, Lawton, McNamara, O'Harrow, Thompson, Veneman, and Walter voting "Aye" (14); Regents Gerrard and Majerus absent (2).

Resolution 2113: That the meeting recess into closed session to consider personnel matters as permitted by sec. 19.85 (1)(c), Wis. Stats., and to consider personal histories, as permitted by sec. 19.85 (1)(f), Wis. Stats.

The Board arose from closed session at 11:45 a.m.

CLOSED SESSION ACTIONS

President Grover announced the following action which had been taken in the closed session:

Resolution 2114: That, upon the recommendation of the President of the University of Wisconsin System and the Regent Selection Committee, the Board of Regents approves the appointment of Dr. Frank E. Horton as Chancellor, University of Wisconsin-Milwaukee, with appointment to begin on or about June 1, 1980, at an annual salary rate of \$59,000.

*Handwritten notes:*
