*We are now making chairs that will bear the most critical inspection. We have changed nearly all our styles as well as added many new designs. By fair treatment and reasonable prices to our patrons, we were enabled to run our factory on full time through the entire year of 1893. We believe no other chair factory in the West have a record of full time for the same period. We are adding new and improved machinery, greatly increasing our facilities for producing more and better goods, and are employing more skilled labor (according to the number employed) than any other chair factory in the West. A sample order will convince you, that we are making **STANDARD** chairs only. Thanking you for your very liberal patronage and Guaranteeing you a good article at a price as low as is consistent with the times in which we live, we hope to be favored with your liberal orders.*
