MINUTES OF THE REGULAR MEETING
of the
BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM
Madison, Wisconsin

Held in the Clarke Smith Room, 1820 Van Hise Hall
Friday, July 16, 1982
9:05 a.m.

- President Beckwith Presiding -

PRESENT: Regents Beckwith, Finlayson, Fish, Fitzgerald, Fox, Gerrard, Grover, Heckrodt, Hendrickson, Jesinski, Knowles, Lawton, O'Harrow, Schilling and Veneman

ABSENT: Regent Podlesny

Upon motion by Regent Fitzgerald, seconded by Regent Veneman, it was voted that the minutes of the annual meeting of the Board of Regents of the University of Wisconsin System, held on June 11, 1982, be approved as mailed to the members of the Board.

---

REPORT OF THE PRESIDENT OF THE BOARD

President Beckwith announced that, due to timing of the biennial budget process, it would not be necessary to change the date of the December 1982 Board meeting.

Appeals - Rudy Collum: UW-Parkside, request for review of termination of academic staff appointment assigned to Regent Fox for review.

President Beckwith noted that information regarding regent committee appointments had been distributed to the members of the Board. (A list of standing committee appointments is attached as EXHIBIT A.)
REPORT OF THE PRESIDENT OF THE SYSTEM

It was moved by Regent Fox, seconded by Regent Finlayson and carried unanimously that the following resolution be adopted:

Resolution 2641: That the report of non-personnel actions by administrative officers to the Board of Regents and informational items reported for the record (copy on file with the papers of this meeting) be received for the record; and that actions included in the report be approved, ratified and confirmed.

Speaking with regard to the Instructional Funding Report which had been presented the previous day at the Business and Finance Committee meeting, President O'Neil made the following statement:

"Yesterday afternoon, we devoted a good deal of time to a presentation and discussion of the Instructional Funding Report. At that time, I promised that this morning, with the lights all back on and no charts and graphs, I would offer several conclusions, recommendations and thoughts about next steps. Let me, therefore, start with what is, in effect, part two of my report on the instructional funding study.

"Clearly, the report is not self-executing. It describes conditions and consequences but does not prescribe remedies or solutions. The underfunding we find today is a consequence of a gradual process. If there is blame to be found, it surely rests on no one political party, nor with a single branch of state government. We in the University System may share some of the onus for having failed more forcefully or earlier to present these needs to state government. The solution must also be gradual, bipartisan and cooperative and must reflect a shared realization of the vital importance to the state, its economy and its welfare of a strong University System. The report is also consciously incomplete in certain respects. The instructional funding analysis omits any comparison of the Center System, simply because no appropriate peer group could be found. Neither part of the report deals at all with the critical funding needs or the enormous contribution of UW-Extension. The Committee early recognized that appropriate comparison simply could not be made in the public service or outreach areas. Nor does the report in any way address state support for research, except in that small category of research joint products which Chancellor Penson described yesterday afternoon. In all three of these areas, additional work remains to be done if we are to have a complete analysis of the UW System funding situation and a full projection of our needs."
"Nonetheless, some solutions and recommendations may now be advanced. During our recent discussions, we had considered several possible approaches. One might, for example, have identified a specific target of either a dollar amount or a percentage level improvement in ranking and say that is what the goal ought to be for the next biennial budget request. We rejected that approach, however, partly because we realized there are no easy solutions to such complex problems as this report presents. We also felt that to set a dollar figure or percentage might, to some people, seem to be asking too little, while to others—particularly those outside the University community—a specific goal of that sort might seem unrealistically high in the current economic environment. Thus, as we bring this report to the Board, it does not contain a neat or simple or specific set of proposals. It does not say 'we might be at point "x" this year and point "y" the following year and point "z" the third year,' even though an approach of that sort would, in some ways, be very appealing. Rather, we thought it wiser to address the implications more broadly. Let me do so briefly under several headings.

"First, the eventual, ultimate goal must be nothing less than to remedy the hurtful consequences of this decade of decline. Surely, the UW System of today should be as well funded for its current mission as it was a decade ago for its mission at that time. Some might suggest that simply attaining the average of our respective peer groups would suffice as an objective. I do not believe we should settle merely for being 'average.' Historically, and even today, despite the underfunding, this state values higher education as more than simply 'average,' and support for its University System should reflect that commitment. While the instructional funding model is a high objective, it is a realistic one for us as well as for other states. So I would advocate the model as our goal, our eventual goal, rather than simply seeking to reach the median or the mid-point of our several peer groups.

"Second, while we recognize the serious condition in the state's treasury now and in the immediate future, it should still be possible to make some modest start in the next biennium. If the findings and conclusions of this report are accepted, as I believe they will be, then surely there should be no more talk of 'special' or 'preferential' treatment of the universities that have fared so badly in recent years compared to their peers, or even to themselves a decade earlier. If, in the next biennium, all of state government must again be cut—and that is a real prospect that none of us can avoid—then I would again ask that the special and urgent needs of the UW System receive special and favorable consideration as a probably bleak biennial prospectus is prepared.

"Third, and quite specifically, we will ask consideration and appreciation of the UW System's contribution to the state's economy. Through the committee chaired by Chancellor Swanson, we are now developing an inventory of current service to business and industry. In an environment where sophisticated technology and highly skilled human resources play an absolutely vital role, this University System is not simply another branch of state government. It is a source of solution and prevention to problems with which other branches of government must contend. The potential of our universities, their faculties and their laboratories to the economic revival and welfare of this state is enormous. We will be demonstrating that nexus in somewhat greater detail during the fall, as we bring a biennial budget request to this Board. We will also attempt to describe some ways in which the state's economy could have suffered during this period in part because its universities have
suffered, even though we should emphasize a more hopeful future rather than dwelling upon the past or even the present. Yet, as this state competes increasingly with its peers for domestic and international commerce, the critical contribution of a great university system needs to be better appreciated.

"Fourth, the model and any enrollment funding formulas hereafter used should reflect certain considerations not reflected wholly in the current enrollment funding formula. Specifically, account should be taken of inflationary pressures affecting those elements not specifically covered by the model—salaries, research, public service and physical plant—as well as the categories to which the model is addressed. Further, any formula or model should be expanded to reflect differing instructional costs by discipline and the additional costs of extended-day instruction. The findings of the fixed and variable cost analysis presented to the Board of Regents in the spring of 1980 and the Legislative Council Joint Study Committee that summer should be used to approximate the fixed and variable cost relationships for the instructional support area.

"The model is not static, but should be updated regularly as new data become available from the National Center for Educational Statistics for peer institutions and as new budget expenditure and enrollment data become available for our own institutions. In this ongoing process, it would be helpful to have in existence a permanent committee similar to the one which prepared this study serving in an advisory capacity for the purpose of refining, reexamining and applying the instructional funding model to budget development in this biennium and afterwards.

"Finally, the process of acceptance of this report is itself a major objective. We have distributed copies of the report to all interested persons. In the coming months, I hope that forums across the state—service clubs, alumni groups, community organizations and others—will give us a chance to describe again what we have brought before the Board yesterday and today. In that process, the whole University of Wisconsin System must be actively involved. Regents, chancellors, vice chancellors, deans, faculty, staff members and students all have a vital part to play.

"Let me conclude this part of my report, if I may, by quoting from a particularly eloquent and compelling paragraph in the report of the committee: 'It should be clear,' the committee wrote toward the end of the report, 'that the funding problems revealed by this study are not a recent phenomenon. The accumulated erosion of resources during times of enrollment growth did not occur simultaneously with recent revenue shortages or high unemployment. The financial deficiency of the UW System's universities has evolved over a number of years, some of them relatively prosperous years. Decisions were made to put off, suspend or reduce the funding of higher education. The state and its citizens must now deal with the ramifications of those decisions.'"

Regent Heckrodt stated that the report was a very positive one and that it clearly set forth the UW System's position. Noting, however, that it did not identify options for reaching the funding goals, he observed that means such as raising standards and curtailing access surely would be suggested as alternatives to increasing support, and he inquired as to President O'Neill's thoughts about responding to those types of proposals.
He would first suggest that access already had been limited in various ways, President O'Neil replied, indicating that was the case, for example, in those programs of high cost and high demand where the current resource situation had forced artificial enrollment limits. As Regent Heckrodt pointed out, he continued, the report had taken a positive approach, assuming that the state was once and still is willing to provide a high quality of education to all those students who are qualified and seek it. It did not assume that resources sufficient to that challenge would not be forthcoming. If, on full presentation of the case through the next biennial budget process and perhaps even the following one, it became clear that state government did not intend to provide a positive response, he thought it would be necessary to view the options differently. At this time, he felt one could look to the future with hope, believing that the history even of the recent past lent support to that kind of optimism.

Referring to the suggestion that presentations be made to community organizations, alumni groups and other gatherings, Regent Lawton asked if a condensation of the report and illustrative material could be prepared for such occasions.

President O'Neil indicated that sets of slides and overhead projections would be made available and that the executive summary of the report might be adaptable for that purpose.

Regent Schilling thought Regent Heckrodt had raised what would be an early question by legislators and others. The dilemma he saw in President O'Neil's reply was that a clear response to the report was not likely to be provided. Instead, he foresaw a continued downward spiral in which the University would be expected to maintain the current System with fewer and fewer dollars, and his concern was that continued across-the-board cuts in funding would force the University down the road to mediocrity. "I am wondering what those benchmark points might be when we change course and say, 'well, this is the model, this is what we need to have quality in this System, but if you are clearly saying "no," then we would like to reduce our mission, we would like to reduce our enrollment, if need be, so that we are left with something of quality and not just a large, mediocre System.'"

Speaking to the same point, Regent Beckwith remarked that budget constraints later in the year could be anticipated at this time. Since that would surely be the case, he felt the responsibility of the Board was to examine carefully all the options that might be available to function within the present budget or a smaller one, while at the same time advocating a budget that would restore the mission of the whole System to a higher level of funding. While he recognized that to present options also provided the Legislature with an opportunity to consider a smaller budget, he thought that simply to request what the System required to maintain the quality of its institutions and to fulfill its existing mission, without being prepared to deal with other alternatives, would not meet that responsibility. "The danger is that we will have happen again what has happened the last ten years; namely, that we will have a budget cut and it will not be tailored for the delivery of a different System but for the delivery of the same System in a diminished or a depreciated fashion. Therefore, I would urge that in this process this summer and fall that we be prepared to analyze other ways that we might deliver higher education, and the economic and budgetary implications of those other ways."
It is especially difficult to reduce a higher education budget because of the many interlocking relationships which are not present in other situations, Regent Beckwith remarked, noting that if enrollments were reduced, tuition headcounts would be lost and if access to one university were restricted, the number of students enrolled at another might increase. It seemed to him, however, that the Board was in part responsible for what had happened in the past ten years because of its insistence on selling the mission of the University as it was given to the merged System and selling the budget to support it, while being faced repeatedly with decreases in funding which necessarily impaired fulfillment of that mission.

The funding situation had never really been presented to state government in the way it was set forth in the report, President O'Neil observed, indicating that he therefore did not view in the funding levels of the past decade a conscious decision by state government that this ought to be a less than first-rate university system or that higher education ought to be denied to substantial numbers of students. Secondly, he stated that he would not infer a final policy choice from short-term decisions, because in the next biennium and perhaps the one following, the resource base might not permit government to make the kinds of decisions that a more favorable economic climate sometime later would permit. Third, he felt it was important to bear in mind that enrollments would begin to decline in the second year of the next biennium and would continue to decline for about ten years at a rate between one and two percent per year for a maximum decline in the range of 12 to 15 percent. Therefore, if funding for the System were held essentially constant during that period, he continued, the resources available per student would increase even with no incremental resources in the base, apart from compensation and some other needs. "As we plan for the future and we talk about limited access, as indeed may become necessary, we should bear in mind the inevitable demographics of the period which begins in 1984-85."

Regent Fish recalled that when enrollment funding was presented to the Legislature, the Board of Regents brought up the problem of economy of scale as enrollments increased, and that he had said then if there is no economy of scale on the way up, there is no diseconomy of scale on the way down. Indicating that he was not sure the Legislature would feel that if there were fewer students the base could remain the same, he thought the University would be better served by a new model of funding. "We cannot change our pace constantly so that when enrollments increase we relate funding directly to increased enrollment, but when they decrease we do not deduct for decreases. Everyone wants an A-1 university, a first-class university; they just want it for less money. Our job is to, I think, communicate better that we do not want to limit access either academically or economically, and I think there are some ways to do it."

While he felt there was much to be said for speaking to service clubs and other groups, Regent Fish emphasized that it would be necessary to make the presentations interesting as well as instructional. He noted that slides could be shown which would provide such basic information as location of universities, their enrollments and how the budget was split, after which several illustrations of the funding problem could be given. In conjunction with that, he felt it would be advantageous to seek an outside source of funding--so that state funds would not be used--to have an in-depth, out-of-house survey conducted in order to find out what the people of the state really believe about the educational system. Stating that such a
survey, done in 1970, had been very beneficial, he indicated that another survey which was run some years later—not for the University but with peripheral questions pertaining to the University—showed some dramatic changes in public perceptions. He thought sources could be found to fund a new survey, adding that the results might contain some surprises and rectify misconceptions regarding public views of higher education.

If enrollments declined and funding remained constant, Regent Veneman pointed out, benefits could only be realized if there were budget cuts in programs and personnel. Referring to predictions that inflation would continue, he stated that budgetary difficulties would be even more aggravated without appropriate steps to cope with that problem. "If we are going to sit and expect that because of enrollment declines and demographics we will do some catching up, that just will not occur without additional steps coincident with that action."

Regent Beckwith recalled that when President O'Neil, Regent Knowles and he spoke recently before the Joint Finance Committee about the tuition increase, more than half of the Committee members made reference to access and expressed grave concern that access to University institutions not be limited. The linkage with providing necessary funds, however, had escaped. He thought Regent Fish's suggestion of a survey of public perceptions was an excellent idea and that it also would be helpful to speak to citizen groups. The fundamental point, he stressed, is to make clear the consequences of giving the University the responsibility of maintaining quality, without providing the funding needed to do so. "In the access area, as I said to the Joint Finance Committee, it is not access to deny the funds necessary to have enough class sections so people can graduate in four years. That is phony access."

While the Board of Regents would wish, first of all, for the System to be funded adequately, Regent Schilling said, if those amounts were not forthcoming, concrete examples of the consequences of less money must be provided. In addition, alternatives for maintaining a smaller but high quality system should be set forth, he stated, noting there was a tendency on the part of some legislators to believe that simply by virtue of the System's size, there was always more fat to be cut from budgets. "I think that gives us almost a two-pronged approach in that it not only tells the legislators and the citizens that less money hurts us in this System, but we are prepared to manage and recommend a smaller System, and that, too, will generate a response, because it means less access."

Inasmuch as the funding report was complicated and voluminous, Regent Knowles suggested it be condensed into a more understandable and readable version. "Second, I believe that in the final analysis the people of Wisconsin will decide what kind of university they want, through their duly elected representatives." Indicating that the best budget document he had seen as a regent was one having to do with the School of Veterinary Medicine, he said that it set forth clearly for the Legislature what could be done with given amounts of money. An approach of that kind, he felt, would be worthy of consideration.

(The Instructional Funding Report is on file with the papers of this meeting. A summary of the report is attached as EXHIBIT B.)
Board of Regents Meeting 7/16/82

Turning to matters of federal funding, President O'Neil reported that the Sea Grant Program had received a $1.9 million award for 1982-83 from the National Oceanic and Atmospheric Administration and that an equal award for 1983-84 was under consideration. Despite a 15 percent cut in the national program, this award represented level funding for the Wisconsin program, which is among the four largest in the country, serving through its research, outreach and educational programs the interests of the entire state with respect to Great Lakes resources and environment. Although the program had been targeted for early elimination in the federal budget, it received very strong support in Congress, with the Wisconsin congressional delegation being particularly forceful in that respect. However, he cautioned, it should not be concluded that the program is totally safe for the period beyond the current fiscal year.

On the less bright side, President O'Neil referred to Chancellor Guskin's report to the Education Committee the previous day in which he had described the consequences of decline in support for federal financial aid programs. Indicating that a rather extensive survey of changes in federal funding had been compiled and was to be distributed to the Board the following week, the President said it dealt in considerable detail with the several financial aid programs and also contained a survey of five System institutions with respect to other forms of federal support for research and instructional programs. Reductions in actual awards had occurred in some cases, he said, and would undoubtedly continue in the next several years. While the magnitude of those changes varied considerably by institution, in almost every case the odds facing faculty members seeking research and other federal support would likely increase during the next several years. "The extent to which our institutions manage against these odds to hold their own or to even improve their position reflects the quality of their proposals and the accomplishments of previously funded projects."

Scott Bentley, President of the United Council of UW Student Governments, commented first on the financial aid study. Noting that both federal and state support had declined dramatically while tuition increased, he stated that students commended the effort being made to research all potential financial aid resources but would also like to have the opportunity to share in those efforts through service on appropriate committees. He added that United Council maintained the same perspective with regard to the instructional funding study, stating that the Board of Regents could utilize United Council as a liaison to students while extending the concept of shared governance.

With regard to the United Council funding mechanism, Mr. Bentley thanked the Business and Finance Committee for recommending retention of the mandatory-refundable fee. "This funding formula has allowed us to expand and professionalize our operation. We have existed for more than two decades, but only in the last two years has United Council been able to properly serve the students in the University of Wisconsin System both on the campus and in the Capitol." Other funding alternatives would diminish the organization's role from student advocate to student fund-raiser, he stated, adding that the mandatory-refundable fee had allowed United Council to articulate the needs of
students on both the state and national levels, often enhancing the University's efforts. In conclusion, he indicated he would welcome a future opportunity to meet with the Business and Finance Committee to discuss a summer fee.

Inter-system Coord. - Comments by Regent Hendrickson urging continued cooperation by UW, VTAE & DPI, p. 9.

REPORT OF THE PRESIDENT OF THE BOARD (Continued from page 1)

In his final report as President of the State Board of Vocational, Technical and Adult Education, Regent Hendrickson spoke about cooperation by the UW System, the VTAE System and the Department of Public Instruction. "We have DPI, VTAE, the Center System, Extension and the 13 universities all in place delivering an excellent educational product. I think if you take them collectively, probably one of the best in the total 50 states." With the demand for skills today that were scarcely known 15 years ago, he said, there needs to be even closer cooperation among the systems. Noting that there would be many further changes in education during the coming years, he remarked that the advent of advanced telecommunications could result in development of an entirely new delivery system. Given severe restrictions on budgets for the foreseeable future, he thought there might be decisions ahead by the Legislature which would say "You can have 7 of this instead of 12; you can have 10 of this instead of 14; you can combine this or you have to eliminate that." In closing, he urged continued coordination among the state's educational systems and renewed efforts to increase cooperation. "Certainly, this experience on the Board has been one that I shall cherish, both for the sense of accomplishments that I know we are making, the contributions, and especially the friendships. And I thank you."

On behalf of the Board of Regents, President Beckwith thanked Regent Hendrickson for the outstanding service he had rendered.

As one who had served with Regent Hendrickson on both the Board of Regents and the State VTAE Board, Regent Grover commended him for his leadership of the VTAE System and for his many contributions as a regent. "I want to tell you that, from my standpoint, I can't thank Phil Hendrickson enough for the things that he has done."

Hendrickson - Expressions of appreciation for service as a regent, p. 9.

REPORT OF THE EDUCATION COMMITTEE

Inter-system Coord. - Biennial report of JACCE, p. 94/10 (X-ref VTAE)

Chairman Schilling reported for the Committee.

Presenting to the Committee the Biennial Report of the Joint Administrative Committee on Continuing Education (JACCE), Vice President Lyall noted that the JACCE is one of three interagency joint administrative committees involving the VTAE and the UW systems, the other two being JACAP (Joint Administrative Committee on Academic Programs) and JACPF (Joint Administrative Committee on Physical Facilities). The committees make recommendations on policy to administrators of the systems. Vice President Lyall then introduced the co-chairmen of JACCE, Patrick Boyle, Acting Chancellor of
UW-Extension, and Ronald Anderson, Director of the Southwest Wisconsin VTAE District in Fennimore. Dr. Boyle stated the general purposes of JACCE as improvement of communication between the two systems, cooperation in the use of resources and coordination of programming activities. The Committee, consisting of 18 members, functions at local levels through regional councils which are established with boundaries administratively convenient to the VTAE districts and UW institutions. The six regional councils include representatives from each of the VTAE districts and every UW institution.

Dr. Albert Beaver, System senior academic planner, reviewed in Committee some of the activities and achievements of JACCE during the last two years. In his comments, Dr. Beaver emphasized particularly the interagency committees on agriculture, business, government education/municipal services, home economics, and long distance learning/independent study. He indicated that a major accomplishment of the Joint Committee had been approval and implementation of guidelines specifying areas of responsibility and criteria to be used in the joint resolution of issues. A publication entitled "UW-VTAE Interagency Guideline Communications Model," describing the procedures to be used in the implementation of interagency guidelines, had also been approved and distributed. The biennial report was to be provided to government officials for their information regarding UW-VTAE interaction and communication. In addition, a report similar to that presented to the Education Committee was to be scheduled for presentation in a future meeting of the VTAE Board.

Regent Schilling said it was felt by the Education Committee that the JACCE report was indicative of the much-improved and well-working interaction between the UW and VTAE systems, about which he was especially pleased to report after what had just been said with respect to Regent Hendrickson's contributions in that regard.

A status report concerning the ongoing financial aid study was given to the Committee by UW-Parkside Chancellor Alan Guskin, chairman of the study group. Indicating that the study was approximately 30 percent complete, he outlined the principal issues involved and the actual changes which had occurred in state and federal financial aid policies, relating them to likely effects on students. Implications were that more students would be incurring greater indebtedness due to the decrease in grants, lack of available work (including the work study program) and increases in the cost of attending the University System. Basic questions under discussion included ways to increase grant and work funds and ways to utilize available monies most effectively in maximizing access to university education, along with consideration of low tuition as the most effective means for achieving access. It was noted that there had been discussions between the study group and the Higher Educational Aids Board. The study group on financial aid policies expected to present specific recommendations to the President in the fall regarding proposals for the 1983-85 biennial budget submission, as well as longer-range recommendations.
Regent Schilling stated that the Committee then received the first annual report of the Council on University of Wisconsin Libraries. The Council, consisting of library directors of 15 System institutions and four faculty representatives, was appointed in 1980 by President O'Neill for the purpose of augmenting mechanisms for cooperative library planning and providing a base of expert counsel on library matters. William Roselle, UW-Milwaukee Library Director and Council Chairman during 1980-81, presented the report, which included a summary as well as reports from each of the System institutions, the institutional documents being arranged under headings such as budget, technology, facilities, equipment, collection development, interlibrary lending, cooperation, user services, and others. Outlining major points of the report, he stated that acquisition budgets had not been funded to keep pace with inflation, resulting in a serious erosion of purchasing power to the extent that books, journals and nonprint materials needed by students and faculty were simply not being obtained. In addition, personnel allocations had forced reductions and curtailments of services, needed technological improvements in computer systems and media services were not being funded, and three campuses had severe library space shortages. Accordingly, it was recommended that immediate attention be given to the following three areas: (1) major funding increases for acquisitions budgets to offset inflation; (2) provision of funding to support new technological developments; and (3) funding to resolve the most serious library facility needs on several campuses.

Turning to the successes realized during the past year, Mr. Roselle cited the Wisconsin Interlibrary Loan Service (WILS) through which 49 participating libraries have direct access to all of the libraries of the UW System, with approximately 75,000 requests being filled during 1981. Other accomplishments included participation by all UW libraries (except UW-Extension and the Center System), via computer terminals, in the On-Line Computer Library Center (OCLC), which enabled cataloging of 450,000 titles and inexpensive production of 3.5 million cards for filing in library card catalogs. He also mentioned preparation of recommendations for improved library user instruction, development of a structure for minimizing duplicate purchases by UW System libraries, and a status study on computer applications and planning within the UW System. Discussion by the Education Committee related to the possibility of extending on-line computer services for cataloging and interlibrary loan functions to UW-Extension and the Center System, the impact of library deficiencies on the quality of education, and the relationship of budgeting for library acquisitions to the total UW System budget procedure. The Chairman complimented Mr. Roselle for his comprehensive report and the leadership that he, as well as his entire Council, had provided during the past year.

In discussion at the Board meeting, Regent Fox asked why the Center System and UW-Extension did not participate in OCLC, to which Vice President Lyall replied that it was basically a matter of cost.

Stating that he was impressed with existing interlibrary coordination, Regent Fox asked if there was any way to coordinate purchases of books so as to take advantage of volume orders. Regent Schilling felt that suggestion should be recommended to the Council for consideration.

Noting that for the Center System there was a single coordinated acquisition program through the library at the Fond du Lac Center, President O'Neill indicated that each university library handled virtually all its own acquisitions. He added that, as a consequence of work done by the Library Planning
Study Committee several years previously, there was greatly heightened awareness of areas of acquisition strength and, therefore, complementary collection development among the System libraries. There also was the startling realization that no single volume was represented in all UW System libraries. It might be useful in the next report of the Council, he thought, to reexamine those indicators of nonduplication and of complementary strengths.

A report on the annual Faculty College was presented to the Committee. Describing the College as a program designed to provide leadership and encouragement for the improvement of teaching, Vice President Lyall indicated that selected faculty from all System institutions gathered once a year at UW Center-Marinette County to share experiences and to be exposed to master teachers from other System institutions and instructional leaders of national reputation from outside the System. System senior academic planner Karen Merritt briefly reviewed the background, structure and four-year history of the College, while Professor Peter Hoff, Executive Director of the Undergraduate Teaching Improvement Council, provided additional details about the annual four-day event. The College, he said, provides the opportunity for faculty to study teaching-related subjects with colleagues from other campuses and with four seminar leaders from outside the System. This year's College focused on discussion classes, patterns of problem solving, using computers to teach, and the ethics of reading, writing and teaching. Professors Anthony Ciccone, UW-Milwaukee, and Carolyn Sylvander, UW-Whitewater, added their observations as participants in this year's Faculty College, expressing enthusiasm about the success of the program. Every year four participants from each of the System's 15 institutions are enabled to attend the College, out of an average of 30-40 professors from each institution who volunteer to participate. The Committee concurred that it is unfortunate there are not more opportunities to recognize in this way the fine art of teaching.

Regent Schilling reported that Vice President Lyall had commented at the Committee meeting about expected competencies for students entering System institutions. She distributed and briefly discussed her July 14, 1982, memorandum to chancellors dealing with the responsibility of the UW System, in cooperation with secondary schools, to address the problem of improving the success of students in their college careers and the efficient use of public resources devoted to education at all levels. The memo requested that each institution review and assess the adequacy of its present materials and methods of communicating the competencies it expects of entering students to counselors, parents, and to high school students themselves. Reports which were to be requested from all universities concerning the results of their review efforts would aid in communicating an overview of institutional practices to the regents and to other interested parties. A general statement regarding expected competencies, prepared by the System College Skills Council, had been provided to serve as a possible guide for more detailed consideration by individual institutions. Other widely distributed statements, one from the College Board and one from the California Intersegmental Committee, also were furnished. It was anticipated that a System report on expectations of competency could be completed for Regent review by early 1983.
On the same topic, Dr. Lyall also called attention to the 1982-83 publication, Introduction to the UW System, which is furnished to high school counselors and prospective students. It included a letter from Vice President Lyall stressing that successful college work requires solid academic preparation in high school, emphasizing especially the skills of reading, writing, and mathematics that are essential to learning through the most common modes of college instruction. Similar points were to be the subject of a forthcoming issue of By-Line, a quarterly publication of the Higher Education Location Program, which is distributed throughout the state to high school counselors and others.

In discussion at the Board meeting, Regent Fox indicated he was unaware that the topic was going to be discussed at the Education Committee meeting and had received the materials only that morning. He considered the document prepared by the College Skills Council clearly inadequate, in view of his understanding of the charge the Council was to be given, which was to draw up a specific list of expected competencies in the areas of reading, writing and mathematics. "It seems to me that, when we have one out of four of our entering students requiring some remedial work, we have an obligation to communicate to students and parents what is expected of an entering college freshman in the System, with some specificity and with a unified statement." Noting that the statement produced by the Council was a very general one, he commented that young people and their parents could not get much information from such a document as to what students needed to know to start college. If the individual institutions put out their own lists of expected competencies, public awareness that there is something expected of freshmen throughout the System would be diluted, he pointed out, adding that individual statements also would tend to require students to decide in the eighth or ninth grade which campus they wished to attend in order to determine which list of expectations to consult. He felt it should be possible to provide a specific list of expected competencies on a systemwide basis.

Regent Grover said he could not imagine that expected competencies for freshmen would differ from campus to campus. "We have a System, and it would seem to me that we would expect young people to be brought to a level of competency in fundamental preparation, regardless of the institution they are going to in our System. In that sense, I think it ought to be a System expectation, not a campus expectation. Obviously, there ought to be campus input." It is not enough to indicate simply that entering students should have competency in writing, reading, oral communication, mathematics, and investigative skills, he stated, adding that in California the parents of every eighth grade child in the state were advised by the university systems that students should take science and mathematics for the remainder of their secondary school experience if they were going to be adequately prepared for post-secondary education. He hoped that the competency report would be specific in identifying the courses that should be taken to prepare for university-level work. That kind of document would serve as a guide by which DPI could share meaningful expectations with public elementary and secondary school systems, he emphasized, noting that curricula in local school districts are determined by 432 independent boards of education. As an example of the problem, he referred to an article in which a high school student said that in her senior year she took two English courses, one sociology course and one other course—no science or mathematics—in preparation for college. "Trying to turn that around, we can only use the moral authority of this Board and of this institution, and we are in an unusual situation where we are pressed to teach computer literacy in the third grade and remedial reading in the University."
He stated that there should be a uniform System expectation so that young people could be alerted earlier to what they needed to learn, but that the document prepared by the College Skills Council was not the kind of statement which DPI could utilize for that purpose. He expressed the hope, therefore, that the final document would be more specific and that it would not be done campus by campus.

It was his understanding that what had been presented to the Education Committee was not intended to be a finished product, Regent Beckwith said, adding that it also was his impression that the Board had not yet resolved the question of whether there should be a systemwide statement of competency for incoming students. "We have a long tradition--and I think it an appropriate tradition--of input from faculty and chancellors at the campus level before we resolve matters that we think are of systemwide concern. This is the process we are going through. I have learned that sometimes the process is worth just about as much as the product, so we want to be careful of how we go about it."

Indicating that he, too, regarded the report as an interim step in the process, President O'Neil remarked that he thought much progress had been made since the challenge was first raised by Regents Fox and Grover some months previously. Secondly, as a parent of a student about to begin the eighth grade, it was his impression that secondary schools were doing a considerably better job of counseling parents and students on the expectations of UW System universities than he would have anticipated. If that were not the case across the state, it seemed to him that closer collaboration between the universities and the secondary schools would be required to make such counseling universal. Therefore, he thought the problem, at least in substantial part, was one of communication rather than of substance.

As one who had served on the faculties both of the University of California and of the California State Universities, the President commented on the situation in those systems. Observing that they are homogeneous systems with homogeneous origins, he explained that undergraduate institutions of the University of California accept, under a master plan, only students in the top 12-1/2 percent of their high school graduating classes and, therefore, could speak to schools, students and parents in a way that is different from the experience of UW institutions. The California State University System is also highly homogeneous, he continued, with a tradition quite different from that in Wisconsin, as well as with a central administrative structure and a systemwide senate. "When one comes to an issue of this sort, it is at times tempting to look to other systems and to ask 'Why can't we do it that way?' It's neat. It's simple. It's clean. You can have one document that speaks for all the faculties, for all the administrations of all the campuses comprising the system." In his perception of the way decisions are made by faculties and chancellors in this System, however, the matter was much more complicated, and it would take much more time—if indeed it could ever be done—to achieve the degree of coherence and singleness of statement which was readily attainable in the California systems.

Regent Fox remarked that it was interesting to note that two systems in California could adopt a single statement, while in Wisconsin there seemed to be resistance in one system to doing so. Reading from the document presented to the Education Committee, he cited the following recommendation: "Within the UW System, the Council recommends that the faculty of each institution
specify basic skills and knowledge levels required for success at that institution." That did not appear to be movement toward a joint statement, he observed, adding that he understood the closest the Council had come in that regard was to agree to a short statement by Vice President Lyall in the publication Introduction to the UW System, advising prospective students in very general terms to acquire skills needed for university study.

Regent Beckwith pointed out that the various UW institutions do in fact have different admission requirements, which signal different levels of competency. At one four-year institution, he noted, no high school mathematics is required for admission, while at others high school courses in mathematics and science are needed. Stating that the question was whether that situation should be changed, he said it did not seem to him that those involved should be criticized if they were moving through the process of faculty/chancellor involvement toward resolution of that question. When the issue of sexual harassment was being considered, he added, it would have been much easier for the Board to tell the faculties of all the campuses what sexual harassment is and what is to be done about it. Instead, the faculties were asked to develop their own policies.

In response, Regent Fox emphasized that he was not suggesting that the Board set admission requirements for the institutions, but that there is an obligation to advise parents and students about what is expected of entering freshmen. It seemed to him more rapid movement in that direction would be advisable, inasmuch as remedial courses were being provided for such a large number of students.

Commenting on the process being pursued, Vice President Lyall explained that the questions involved had been discussed by the chancellors, the vice chancellors and the faculty representatives. She said there was strong feeling by those groups that in identifying competency expectations the institutions and the faculties which have responsibility for setting the standards for admission to those universities should be the ones to generate such statements. Therefore, the next step was to ask the institutions to examine their current practices and report on improvements they might wish to make in those requirements. Some institutions, she noted, were already moving in that direction, with UW-Eau Claire, for example, having adopted a new set of admission requirements and others examining the same kinds of issues. She emphasized, however, that faculty and administrators alike felt it must be "a bottom-up process if it is to be more than simply a hollow statement of nice requirements."

Regent Schilling observed that two different matters were being discussed: a set of basic competencies, which could be the product of the Board of Regents after consultation with the institutions, and admission requirements which were the responsibility of individual universities. Expressing agreement with Regents Fox and Grover, he favored developing a statement on basic competencies for the System as a whole, with any institution being able to require more by way of an admission standard if it chose. "We've talked about preserving quality. We can't afford to be doing remedial education at the expense of what the institutions are supposed to be teaching: higher education. We just can't afford that, and if economies are evident—and they are—remedial education should be the first to go."
Regent Beckwith asked Regent Grover if, when speaking of competencies, he meant a statement of what is expected in terms of skill levels and/or in terms of courses taken.

In response, Regent Grover said he was referring both to courses taken and expected content within the course structure. "I led the fight for merger on the Assembly floor, and it would seem to me that we could accomplish these kinds of things, that this does not in any way interfere with faculty governance or admission standards." The alternative, he felt, was to look at admission requirements and rank institutions on a scale of toughness, so that information in that regard could be provided to young people and guidance counselors. The Board should not back away from the fundamental issue of better informing prospective students, he stated, emphasizing that what is needed is to send a clear, informative signal to young people and local school districts. If that is not done, he thought the Board would have to address the matter of open admissions, which would bring up issues conflicting with the principle of access which the Board staunchly defended. "If we are not going to address open admissions, then we ought to send a mighty signal to young people that they ought to take part in what is available out there in a serious fashion. If this can't be accomplished--I think it's the easier way of approaching it--it seems to me then we have to take another avenue."

Expressing support for the process described by Vice President Lyall, Regent Lawton viewed the matter as being necessarily a cooperative venture between the UW System and the Department of Public Instruction, inasmuch as DPI is in the best position to get the message to local school districts and their students.

Regent Grover stated that DPI was firmly committed to doing so but that it would be presumptuous for the agency to attempt to communicate its perception of what University standards are when the University had not spoken to the matter with common voice. "The ordination is in the bringing forth of a strong document like this, and then give me an opportunity to get the road show out there, and we'll share that with every school board member in this state. And we will encourage and plead and give it great visibility." Expressing confidence that school districts would be responsive and that the results would be very positive, he urged the development of systemwide expectations.

Regent Fox added that he had no doubt Regent Grover would carry the message, as soon as he knows what it was. It seemed to him, though, that the Council, "instead of delivering one message, at least is heading in the direction of delivering 15 different messages. And it's just not necessary." While he realized the universities would have to continue teaching some basic skills courses because disadvantaged persons would still need that special attention, he also was aware that one out of every four entering students are not disadvantaged and should not require remedial work. He requested that in the future all materials on the subject of expected competencies be sent to all regents.
Continuing the report of the Education Committee, Regent Schilling stated that the appointment of Patricia M. Ostmoe as Dean of the UW-Eau Claire School of Nursing was announced. She had been serving as a professor of nursing at the University of Iowa.

Noting that appointment of deans had at one time required action by the Board, Regent Fish asked if that process had been changed.

President O'Neil replied that the appointment authority had been delegated, and Regent Beckwith added that regent involvement could be requested, although that was done only rarely.

The Committee then considered assignment of responsibility for soil and water conservation education and research per sec. 36.25(7), Wis. Stats., as revised by Chapter 346, Laws of 1981.

It was moved by Regent Schilling, seconded by Regent Finlayson and carried unanimously that the following resolution be adopted:

Resolution 2642: Whereas, Section 36.25(7), Wis. Stats., as revised by Chapter 346, Laws of 1981, assigned specific responsibilities regarding soil and water conservation education and research to the Board of Regents of the University of Wisconsin, and

Whereas, it is desirable that the UW Cooperative Extension Service and the UW-Madison College of Agricultural and Life Sciences act on behalf of the Board of Regents in carrying out the requirements of Section 36.25(7), Wis. Stats.,

Be It Therefore Resolved:

(1) The UW Cooperative Extension Service and the UW-Madison College of Agricultural and Life Sciences are instructed to act on behalf of the Board of Regents in carrying out the requirements of Section 36.25(7), Wis. Stats., and

(2) The UW System Vice President for Academic Affairs is authorized to sign, on behalf of the Board of Regents, agreements between the UW System and state agencies regarding implementation of Section 36.25(7), Wis. Stats.
Concluding his report, Regent Schilling presented Resolution 2643, which had been approved in closed session of the Education Committee, and moved its adoption. The motion was seconded by Regent Lawton and unanimously voted.

Resolution 2643: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Madison, the status of R. Byron Bird be changed from Vilas Professor, Department of Chemical Engineering, College of Engineering, UW-Madison, to John D. MacArthur Professor and Vilas Professor, Department of Chemical Engineering, College of Engineering, UW-Madison, effective immediately.

REPORT OF THE BUSINESS AND FINANCE COMMITTEE

The Committee's report was presented by Chairman Veneman, who indicated that the first two items of business were considered at a portion of the meeting to which all regents were invited.

In Committee, President O'Neil reviewed the proposed 1982-83 annual budget. Providing information about the reduced level of state support, he observed that while the losses in state appropriations were partially mitigated by a one-time fee increase, a 3 percent base reduction of $12.4 million remained in the general operating budget.

Resolution 2644 was adopted unanimously, upon motion by Regent Veneman, seconded by Regent Fish.

Resolution 2644: That, upon recommendation of the President of the University of Wisconsin System, the University of Wisconsin System operating budget for the fiscal year July 1, 1982 through June 30, 1983, be approved in these estimated amounts:

<table>
<thead>
<tr>
<th>Source</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>State Appropriations</td>
<td>$510,580,818</td>
</tr>
<tr>
<td>Other Funds</td>
<td>$699,335,000</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>$1,209,915,818</strong></td>
</tr>
</tbody>
</table>

That, pending action on the special GPR request of $3,150,000 for permanent property included in the above totals, institutional spending plans shall be held to the appropriately reduced levels.

That System Administration is authorized to make final accounting changes including the distribution of budget supplements for classified compensation in accordance with the legislatively approved plan.
Regent Veneman reported that the next matter presented at the Committee meeting was the Instructional Funding Report, which had been prepared by the Alternative Funding Study Committee, chaired by Chancellor Penson, UW-Oshkosh. President O'Neil, together with Chancellor Penson, highlighted the findings of the report, and the President remarked that it has potentially profound implications for the relationships between higher education, state government and the citizens of Wisconsin. (A summary of the report is attached as EXHIBIT B.)

The Committee then reviewed the monthly list of gifts, grants and U.S. government contracts. While the month's total of $22 million was about $3.4 million greater than in the first month of the previous fiscal year, Vice President Lorenz pointed out that an overall reduction in federal support of 5-10 percent was anticipated for the year as a whole.

It was moved by Regent Veneman, seconded by Regent Fitzgerald and carried unanimously that the following resolution be adopted:

Resolution 2645: That, upon recommendation of the President of the University of Wisconsin System, the gifts, grants and contracts presented at this meeting (copy on file with the papers of this meeting) be accepted, approved, ratified and confirmed; and that, where signature authority has not been previously delegated, appropriate officers be authorized to sign agreements.

Regent Veneman summarized consideration by the Committee of the funding mechanism for United Council of UW Student Governments. The funding history, the Subcommittee of Chancellors' report and four alternatives for future funding were reviewed by Executive Vice President Kauffman, who indicated that any changes would be effective in the fall of 1983. The four alternatives presented by Dr. Kauffman were: (1) continue the present funding mechanism of a mandatory-refundable student fee of one dollar per year per student at those UW institutions where student elections held at least every two years continue to approve referenda supporting this mechanism; (2) fund the United Council through each member institution's Segregated University Fee Allocation Committee (SUFAC) process; (3) change the present mandatory-refundable funding mechanism to a negative checkoff system beginning on July 1, 1983, for those institutions in the UW System where a referendum, held at the time of a regular student government election, approves this mechanism; or (4) change the present mandatory-refundable funding mechanism to a positive checkoff system beginning on July 1, 1983, for those institutions in the UW System where a referendum, held at the time of a regular student government election, approves this mechanism. In all cases, except through SUFAC, a student referendum at least every two years would be required. System Administration favored a checkoff system, either positive or negative, while the Subcommittee of Chancellors preferred the SUFAC process.
The following representatives of student organizations addressed the Committee in support of the current United Council funding mechanism: Michael Chapman, Executive Director, United Council; Kathleen Quinn, President, and Jo Wolverton, Vice President, UW-Oshkosh Student Association; Eric Jernberg, UW-Milwaukee Student Association; Bonny Hawley and Doug Twait, UW-Green Bay Student Association. Written material from the UW-Superior Student Association was distributed to Committee members. Chancellor Shain, UW-Madison, suggested a funding mechanism for United Council and campus-based student organizations which would provide for a positive checkoff system following a student referendum supporting the fee collection, and Chancellor Richards, UW-La Crosse, commented briefly concerning the work of the subcommittee in developing its recommendation for use of the SUFAC funding mechanism.

Members of the Committee expressed the view that the present system was working in a satisfactory manner and that United Council was performing in a positive way. There also was discussion of requiring an annual audit of United Council records and a possible restriction limiting the use of funds for purposes of litigation in opposition to the University or its officers. The Committee Chairman then recommended that United Council continue to have annual audits and that these audits be made available to United Council directors and, through them, to the students on their respective campuses. The Committee was unanimous in its position that the present funding mechanism should not be changed at this time, and therefore, no action was taken to revise current procedures.

In discussion at the Board meeting, Regent Lawton said he thought the matter warranted thorough consideration by the full Board, inasmuch as the issue was a controversial one and many regents had not been able to attend the Committee meeting. Noting that in 1980 the Board had approved the present funding structure over the objection of administrators, he indicated that he felt particularly responsible for that action since he was one of its leading supporters.

For the purpose of discussion, therefore, Regent Lawton moved adoption of alternative 3, as presented in Dr. Kauffman's memorandum of July 6, 1982, to the Business and Finance Committee and other regents:

**Alternative 3** - Change the present mandatory-refundable funding mechanism to a negative checkoff system beginning on July 1, 1983, for those institutions in the UW System where a referendum, held at the time of a regular student government election, approves this mechanism.

Although there was no second to the motion, President Beckwith indicated that there still could be discussion of the Committee's report on this matter.

Regent Lawton stated that he could not believe "an issue as sensitive as this with the chancellors and administration can be just brushed aside."

Regent Veneman pointed out that the matter had been very thoroughly considered by the Committee. "Everyone had an opportunity to appear before the hearing, both sides' positions were very thoroughly presented, and it was the Committee's reaction and conclusion that the mechanism should not be changed. It was not brushed aside. In fact, there was quite a long discussion."
His comment was not intended to reflect on the Committee's action, Regent Lawton responded, explaining that his reference was only to the fact that other regents had not had an opportunity to discuss the matter.

In response to Regent Lawton's concern, Regent Jesinski suggested approval of alternative 1, an action which would permit the full Board to participate in reaffirmation of existing policy. He, therefore, moved adoption of the following resolution, and the motion was seconded by Regent Veneman:

Resolution 2646: That Alternative 1, as stated in Executive Vice President Kauffman's memorandum of July 6, 1982, to the Business and Finance Committee and other regents, be adopted:

Alternative 1 - Continue the present funding mechanism of a mandatory-refundable student fee of one dollar per year per student at those UW institutions where student elections held at least every two years continue to approve referenda supporting this mechanism.

Although he did not consider such action necessary, Regent Fox said he would support the motion. He stated for purposes of the record that, in response to Chairman Veneman's questions about an audit, the Committee was informed by representatives of United Council that an annual audit is required in their constitution and that the audit is distributed to the Board of Directors, which communicates the audit report to the various student bodies.

Regent Beckwith inquired as to the reaction of United Council to distributing the audit to members of the Board of Regents as an informational item only, and Mr. Bentley replied that United Council would have no objection to doing so.

Regent Fish said he did not know why the Board should see an audit of United Council, providing that the audit is properly conducted.

Expressing agreement with Regent Fish, Regent Veneman added, however, that if any individual regent wished to see the audit, that is an option he or she should have.

He was comforted by assurances from the Council that the audit would be available, Regent Fish stated, adding that if complaints were received from students that the audits were not available to them or that the money was being frivolously spent, then might be the proper time for the Board to examine the situation. "Otherwise, it is a student council; it is the student council's funds, and I do not see why we should audit them except in the case of a complaint from the student body."

Indicating that he would like to see a copy of the audit, Regent Beckwith explained that he considered the request appropriate because the University functions as a collection agency for the money received by United Council. While he was not concerned about the type of activity for which the student organization spent its funds, he was concerned about assurance of honesty and protection against any misuse. If the University were not involved in the collection process, he said, he would agree with Regents Fish and Veneman.
Regent Heckrodt observed that one reason for regent support of the funding mechanism was that United Council is the only organization which regularly advises the Board about student views and activities. Indicating that he would like more information in that regard, he thought it would be helpful to have copies of United Council publications and meeting minutes, so as to gain a better understanding of what they were accomplishing.

Regent Beckwith recalled that one of the most eloquent presentations to the Joint Finance Committee in opposition to increasing tuition was made by the legislative representative of United Council. "She did an absolutely splendid job on behalf of the students."

Stating that he supported the motion, Regent Hendrickson complimented President O'Neil for giving United Council a place in his report to the Board. "They are listening to a different drum, and if we sit and listen to our own drum, we will never know what goes on."

Regent Lawton expressed dismay that there would not be compromise on an issue about which there were such widely divergent opinions—the chancellors insisting on funding through the SUFAC process and the students insisting on a mandatory-refundable fee. "I hope the students will not interpret my action here today as being opposed to the Council. I have been very supportive of it." Predicting that the question would be returned to the Board in the months ahead, he thought that at some time the Regents would need to find a compromise position.

Put to the vote, Resolution 2646 was adopted, with Regents Lawton and Fitzgerald voting "No."

Concluding his report, Regent Veneman stated that the Committee was advised by Vice president Lorenz that, with only a few weeks left to close out fiscal year 1981-82, it was quite certain there would be a small systemwide unencumbered balance of $200,000 to $300,000.

REPORT OF THE PHYSICAL PLANNING AND DEVELOPMENT COMMITTEE

The Committee's report was presented by Chairman O'Harrow, who noted first that he had been devoting some time to touring facilities at the various System institutions. Indicating that other regents always were welcome to join in such visits, he announced that arrangements would be made for an all-day tour of the UW-Madison campus, probably in September.

The Committee approved a major project concept and budget report for the UW-Madison Charter Street Heating Plant boilers 1, 2 and 3 flue gas recirculation systems at a cost of $415,000 from GPR-general obligation bonding with authority granted to plan, bid and construct. The proposed modifications had
been studied on an experimental basis in the course of the past two years on boiler #1 under a federal Environmental Protection Agency-funded research program and had proved successful in increasing the overall efficiency of the boilers while reducing particulate emission. The increased boiler efficiency was estimated to result in a reduced fuel need of 1,860 tons of coal which, at the 1982-83 price of $55 per ton, would produce an annual cost avoidance of $102,300 and, therefore, a payback of 4.1 years on the total project cost.

Upon motion by Regent O’Harrow, seconded by Regent Hendrickson, Resolution 2647 was adopted unanimously.

Resolution 2647: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, the concept and budget report for the Charter Street Heating Plant Boilers 1, 2 and 3 Flue Gas Recirculation Systems project be approved at a cost of $415,000 to be funded by GPR-general obligation bonding – energy conservation allocation and authority be granted to plan, bid and construct.

The next item considered by the Committee was a request for approval to sell a 193.5 acre parcel of land from the Starks Farm to the high bidder for $87,500 with the proceeds to be received by the UW-Madison College of Agricultural and Life Sciences and used toward funding of the Starks Potato Farm storage facility which had been approved by the Board in April. The sale would be consistent with intentions discussed at the time this portion of the Starks Farm was acquired in an exchange of shares of common stocks for land and improvements in Oneida County, as approved by the Board in 1979. The property was appraised at $71,600 (November 1980) and $84,275 (January 1981), for an average of $77,398.

Adoption of the following resolution was moved by Regent O’Harrow, seconded by Regent Fitzgerald and unanimously carried:

Resolution 2648: That, upon the recommendation of the Dean of the College of Agricultural and Life Sciences, the UW-Madison Chancellor and the President of the University of Wisconsin System, authority be granted to sell a 193.5 acre parcel of land which is a part of the Starks Farm, to the high bidder, Betty Kuzmarski, Route 3, Rhinelander, Wisconsin. This property is more fully described as:

Part of the NE 1/4 and the SE 1/4 NW 1/4, Section 27, TN 37 N, R 10 E, Town of Stella, Oneida County

The sale price is $87,500, with the proceeds to be received by the UW-Madison College of Agricultural and Life Sciences and used toward funding of the approved Starks Farm Potato Storage facility.
Regent O'Harrow reported that the Committee approved granting authority for the Trust Officer or Assistant Trust Officer to accept a deed from the Wisconsin Alumni Research Foundation conveying to the University approximately 255 acres of agricultural land immediately north and northwest of the UW-Madison's Mandt Farm along Mineral Point Road. The parcel was initially offered to the Board for use by UW-Madison as replacement land for the College of Agricultural and Life Sciences in exchange for approximately 25 acres on the Rieder Farm, which was to be used as the site for a food merchandising center. After UW-Madison staff recommended against proceeding with this offer, the private commercial developer transferred interest in the 255-acre site to the Wisconsin Alumni Research Foundation, which purchased the land as a gift to the University. WARF wished to convey title at the earliest possible time and approval of the requested resolution would allow that to take place at closing on July 21, 1982.

It was moved by Regent O'Harrow and seconded by Regent Fitzgerald that the following resolution be adopted:

Resolutions 2649: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, authorization be granted to the Trust Officer or the Assistant Trust Officer to accept a deed from the Wisconsin Alumni Research Foundation conveying approximately 255 acres of agricultural lands immediately north and northwest of the UW-Madison's Mandt Farm along Mineral Point Road.

Regent Heckrodt commented that such expeditious action probably would not have been possible in private industry. "I think that it is fantastic the way this has gone through and the expediency with which it has been handled." Regent Beckwith added that the result also was extraordinary.

Resolution 2649 then was unanimously adopted.

Approval to exchange title of two parcels of land, one owned by the City of Madison (located between North Park and North Murray Streets) and the other owned by the University (located on College Court), was presented to the Committee. The property to be acquired by the University would be used as the site for fleet car operations, while the property to be acquired by the City of Madison would be utilized for eventual housing development, these uses being consistent with the approved UW-Madison Campus Development Plan. Because both were appraised at nearly identical values, an even exchange of property was recommended. It was noted that the exchange must also be approved by the Madison City Council.

Adoption of the following resolution was moved by Regent O'Harrow and seconded by Regent Hendrickson:
Resolution 2650: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, approval be granted to exchange title with the City of Madison for property located between North Park and North Murray Streets for University-owned property of equal value on College Court. The specific parcels are identified on maps filed with the papers of this meeting.

Regent Fish asked if there were improvements on either of the properties or any opportunity for relocation charges against the state, to which Vice President Winter responded in the negative.

Put to the vote, Resolution 2650 was adopted unanimously.

Regent O'Harrow stated that the Committee then considered a request for approval to lease 2,460 square feet of space (with the option to lease an additional 2,400 square feet) in a building located at 722 Hill Street, Madison, as the site of an anorexia nervosa clinical program conducted by the University Hospital and Clinics. It was indicated in the presentation by Dr. Arnold Brown, Dean of the Medical School, that finding appropriate space to house this program was very important to its success and that the present clinic averages 4,100 patient visits per year, which was expected to increase to 6,000 visits as additional space is available. The readjustment of these patients to normal family living patterns could take place in a halfway house setting such as the one proposed instead of in higher-cost hospital facilities. The lease would cover the period August 16, 1982, through August 14, 1985, with an option to extend the lease on the first 2,460 square feet for two more one-year periods. The option on an additional 2,400 square feet would be effective either October 1, 1982, or April 1, 1983, pending completion of administrative and financial plans for the Continuing Care Program portion of the clinic.

Resolution 2651 was unanimously adopted, upon motion by Regent O'Harrow, seconded by Regents Finlayson and Fitzgerald.

Resolution 2651: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, authority be granted to lease 2,460 square feet of space in a building located at

722 Hill Street
Madison, Wisconsin

University Hill Plaza, Inc., Lessor
C/O Opitz Management, Inc.
502 North Eau Claire Avenue
Madison, Wisconsin 53705
for the period August 15, 1982, through August 14, 1985, and that an option be secured for lease of an additional 2,400 square feet of space on the second floor, for the three-year period beginning either October 1, 1982, or April 1, 1983. Two additional one-year renewal options are anticipated for the total space requested. The per square foot rate will be $6.00 (plus utilities and housekeeping) and will be supported from University Hospital and Clinics Non-GPR Program Revenues.

Two minor projects were approved by the Committee, one each for UW-Madison and UW-Milwaukee. At UW-Madison, a $40,000 non-GPR, program-revenue supported project was to be the first phase of a Memorial Union kitchen drain replacement, while at UW-Milwaukee, the request was for release of $10,000 of GPR-state building trust funds to develop plans for replacing the Central Plaza area in order to prevent leaking which was damaging the reinforced concrete parking structure beneath the plaza. Preliminary plans and estimated costs for a repair project, to be funded from the GPR-statewide appropriation for maintenance/health and safety, would be submitted to the Board in December. Chancellor Horton was present and urged the Committee's support of the request.

Regent O'Harrow moved adoption of the following resolution, and the motion was seconded by Regent Fitzgerald:

Resolution 2652: That, upon the recommendation of the UW-Madison and UW-Milwaukee chancellors and the President of the University of Wisconsin System, the following project requests be approved:

- **Memorial Union Kitchen Drain Replacement Project, R 2652, P 26-27.**
  - **WU-Madison**
  - $40,000, Non-GPR Program Revenues

- **Central Plaza Repair/Replacement Project (Planning), R 2652, P 26-27.**
  - **UW-Milwaukee**
  - $10,000, GPR-State Building Trust Funds - Planning

Regent Lawton asked if any liability had been established for the original plans or installation of the plaza, noting that problems had become evident the first full winter after it was constructed.

Indicating that the plaza was really a flat roof over a parking structure, Regent O'Harrow observed that the difficulties with it were similar to those experienced with other roofs of that type.

It was clear that a mistake was made when the structure was built, Regent Hendrickson said, adding that correction of the problem would be costly.
The question was put on Resolution 2652, and it was adopted unanimously.

Regent O'Harrow reported the Committee approved purchase of a 0.09-acre parcel of land located at 515 West Pine Street in the City of Platteville at a cost of $36,000 (plus $5,000 for incidental expenses and relocation) from GPR-supported land acquisition funds. This parcel, located within the approved campus boundries, was appraised in April 1982 at $35,500 and $37,000 for an average of $36,250.

It was moved by Regent O'Harrow and seconded by Regent Fitzgerald that the following resolution be adopted:

Resolution 2653: That, upon the recommendation of the UW-Platteville Chancellor and the President of the University of Wisconsin System, authorization be granted to purchase a 0.09 acre parcel of land located at 515 West Pine Street, City of Platteville, at a cost of $41,000, including $5,000 for relocation and incidental expenses.

In response to a question by Regent Fish, Vice President Winter explained that the house was occupied by an elderly woman who was going to a nursing home.

Inquiring about how the amount allotted for relocation was determined, Regent Fish pointed out that in other cases relocation costs had turned out to be much higher than anticipated. Mr. Donald Gerhard, System Director of Environmental Affairs and Campus Planning, indicated that because the person involved would not be buying another structure, she would be eligible for a maximum of $4,000. If the individual to be relocated were to buy another home, there would be eligibility for up to $15,000. Through the plan as approved by the Department of Industry, Labor and Human Relations and the city in this case, he said, the woman would be entering a nursing home and the cost would likely be much less than $4,000.

Regent Gerrard asked Chancellor Carrier if he did not consider the cost of the land to be quite expensive, to which the Chancellor responded in the negative.

While he intended to vote for the resolution, Regent Fish said he was still concerned about the relocation matter. "If she changes her mind, it could cost us a lot more money. And we've been down that road many, many times."

Put to the vote, Resolution 2653 was adopted, with Regent Gerrard indicating that his vote was between a "Yes" and a "No."

The next item considered by the Committee was the 1982 Campus Transportation Plan for UW-Oshkosh which was presented by Assistant Chancellor Dayle Balliett, who summarized elements of the plan, the accomplishments which had taken place in 1981, and goals for transportation model shifts and for vehicular and parking reductions.
Regent O'Harrow moved adoption of the following resolution, and the motion was seconded by Regent Fitzgerald:

Resolution 2654: That, upon the recommendation of the UW-Oshkosh Chancellor and the President of the University of Wisconsin System, the 1982 Campus Transportation Plan for the University of Wisconsin-Oshkosh, prepared in response to Resolution 2222 which directed each campus to base its transportation planning efforts upon Section 291 er. 36.11 (8m), Wis. Stats., be adopted.

Regent Lawton asked Chancellor Penson about the expansion of parking space for on-campus students.

Indicating that the parking area would not be expanded, the Chancellor replied that the University wished only to finish off parking spaces already in existence, as a part of the campus plan, and to ease the considerable problem of off-campus parking on city streets.

Regent Fish inquired about whether an increase in parking rates for the parking authority would be involved, to which Chancellor Penson responded that, while there were general increases from time to time, the plan would not trigger such an increase.

The question was put on Resolution 2654, and it was adopted unanimously.

Regent O'Harrow stated that the Committee reviewed a request from UW-Stevens Point to enter into an agreement to sell steam. The proposed agreement, which would run for seven years, was similar to those approved by the Board in July and October 1981 for UW-Eau Claire to sell steam to Sacred Heart Hospital and the District 1 Technical Institute in Eau Claire and in November 1981 to allow UW-Superior to sell steam to the Wisconsin Indianhead VTAE District. The hospital produced steam by the use of gas which, in the Stevens Point area, was approximately 70 percent higher in cost than steam produced by the University with coal. The pay-back of the cost to construct the steam line interconnect to the hospital was approximately seven years. As in the other instances in which such agreements had been developed, the University would benefit primarily by operating boilers at a higher and more efficient steam load during periods of low on-campus steam requirements.

Adoption of the following resolution was moved by Regent O'Harrow and seconded by Regent Fitzgerald:

That, upon the recommendation of the UW-Stevens Point Chancellor and the President of the University of Wisconsin System, approval be granted to the agreement developed between the University and St. Michael's Hospital, Stevens Point, for the sale of steam to the Hospital by the University, including construction by the Hospital of an interconnect for the movement of steam between the Hospital and the University.
Regent Fish asked about potential liability if the University for some reason could not provide steam to the hospital, and Vice President Winter replied that the hospital would then have to put its own unit into operation.

Upon inquiry by Regent Fish as to whether the agreement contained a hold-harmless clause, Legal Counsel Stathas responded in the negative but indicated that language in the proposed agreement was similar to the one in effect with Sacred Heart Hospital in Eau Claire.

Stating that he felt it would be appropriate to consider negotiating with the hospital for a hold-harmless clause, Regent Beckwith asked about the urgency of acting on the matter at this meeting.

While he could not say that it was critical to do so, Chancellor Marshall noted that St. Michael's wished to begin the project as soon as possible in order to make sure that they would be prepared for the coming winter.

Regent Veneman indicated that his company generated steam for many firms and that all agreements included hold-harmless clauses.

It was then suggested by Regent Fish that the motion be amended to approve the resolution, subject to inclusion of a hold-harmless clause.

The amended resolution, as follows, was adopted unanimously:

Resolution 2655: That, upon the recommendation of the UW-Stevens Point Chancellor and the President of the University of Wisconsin System, approval be granted to the agreement developed between the University and St. Michael's Hospital, Stevens Point, for the sale of steam to the Hospital by the University, including construction by the Hospital of an interconnect for the movement of steam between the Hospital and the University.

That approval of this agreement be subject to obtaining agreement by the Hospital to hold the University harmless from any and all claims that may arise under the agreement for sale of steam to the Hospital by the University.

Regent Heckrodt suggested that other such agreements be reviewed to insure that the University was adequately protected.

Energy Conservation — report on building energy management modifications p. 29.

Continuing the report of the Physical Planning and Development Committee, Regent O'Harrow said a brief presentation on the System's progress in major building energy management modifications was made to the Committee.

The Committee also was advised that all regents would be invited to tour the UW-La Crosse campus on Thursday, September 9.
The final matter brought before the Committee related to a request to increase by $193,000 the budget for the Bowman Hall remodeling project at UW-Stout, for a revised total project cost of $2,293,200, with the increase to come from GPR-general fund supported borrowing. The bids which were received on June 29, 1982, produced a post-bid budget which exceeded the previously authorized budget by $193,200, a portion of which ($122,190) represented an alternate which would allow the fourth floor of Bowman Hall to be remodeled to provide 4,163 assignable square feet (8,738 gross square feet) of critically needed office space. The proposed occupants of the fourth floor would be the Graduate College admissions and records office and the Office of Planning and Information Management (both presently located in McCalmont Hall, which was to be remodeled to house clients of the vocational rehabilitation project and for the international programs office which was located in temporary quarters in the Applied Arts Building). It was noted that the overage on this project was more than offset by the bids received for the vocational rehabilitation project, which were $245,000 under budget.

Regent O'Harrow moved adoption of Resolution 2656. The motion was seconded by Regent Hendrickson and unanimously voted.

Resolution 2656: That, upon the recommendation of the UW-Stout Chancellor and the President of the University of Wisconsin System, the budget for the Bowman Hall remodeling project be increased by $193,200 from GPR-General Fund supported borrowing, for a revised total project cost of $2,293,200 and authority be granted to award bids and construct.

With regard to an invitation which had been extended to hold the June 1983 meeting at UW-Milwaukee, President Beckwith said he had suggested that a later date be selected. While he thought the Board should continue to meet at campuses around the System, he noted that there are expenses involved in transporting staff to meetings away from Madison, adding that meetings in La Crosse and Platteville had already been scheduled for the coming year.
It was reported by President Beckwith that Regent Fish had called his attention to a concern which had come before the State Building Commission regarding installation of new telephone facilities in University and other state buildings. The matter was to be referred to the Chairman of the Physical Planning and Development Committee.

At 11:45 a.m., the following resolution, moved by Regent Knowles and seconded by Regent Fox, carried on a unanimous roll call vote, with Regents Beckwith, Finlayson, Fish, Fitzgerald, Fox, Gerrard, Grover, Heckrodt, Hendrickson, Jesinski, Knowles, Lawton, O'Harrow, Schilling, and Veneman voting "Aye" (15), and no regents voting "No."

Resolution 2657: That the Board of Regents recess into closed session to consider personnel matters, as permitted by s. 19.85(1)(c), Wis. Stats., and to consider personal histories, as permitted by s. 19.85(1)(f), Wis. Stats.

CLOSED SESSION ACTIONS

The Board arose from closed session at 12:15 p.m., having adopted the following resolutions:

Resolution 2658: That, upon the recommendation of the University of Wisconsin-Whitewater Chancellor and the President of the University of Wisconsin System, Dr. Donald Mrdjenovich, of Janesville, be appointed to the UW-Whitewater Board of Visitors for a term ending June 30, 1985. R. 2658, p. 31 (X-ref Mrdjenovich)

Resolution 2659: That, upon the recommendation of the University of Wisconsin-Milwaukee Chancellor and the President of the University of Wisconsin System, the following reappointments to the UW-Milwaukee Board of Visitors be approved for terms ending May 31, 1985:

- Mr. Eddie Glorioso, of Milwaukee
- Mr. Filiberto Murguia, of Milwaukee
- Mrs. Sally H. Wells, of Milwaukee
- Mrs. Nannette Winter, of Milwaukee
- That Mrs. Jacquelyn C. Shropshire, of Milwaukee, be appointed to the UW-Milwaukee Board of Visitors for an initial term ending May 31, 1985. R. 2659, p. 31
Resolution 2660: That, upon the recommendation of the University of Wisconsin Center System Acting Chancellor and the President of the University of Wisconsin System, the following appointments to the UW Center System Board of Visitors be approved for terms ending July 1, 1985:

- Mr. James J. Boehm, Marshfield
- Mr. Russell J. Brown, Rice Lake
- Mr. Lloyd H. Hornbostel, Beloit
- Mr. Allan C. Kieckhafer, West Bend

(Secretary's note: The schedules to which Resolutions 2661-2664 refer are on file with the papers of this meeting.)

Resolution 2661: That, upon recommendation of the President, UW System, the Board of Regents approves the salaries of the continuing chancellors of the UW System for 1982-83 at the rates stated in the attached schedule, dated July 16, 1982.

Resolution 2662: That, upon recommendation of the President, UW System, the Board of Regents approves the salary rates for 1982-83 for continuing vice presidents as shown in the attached schedule, dated July 16, 1982.

Resolution 2663: That, upon recommendation of the Chancellor, UW-Madison, and the President, UW System, the Board of Regents approves the salary rates for 1982-83 for Vice Chancellors Kearl and Kindig, as shown in the attached schedule, dated July 16, 1982.

Resolution 2664: That, upon recommendation from their respective chancellors, and with the approval of the President, UW System, the Board of Regents approves the salary rates for the faculty and staff whose 1982-83 salary rates will be above the maximum of range 5, executive pay plan, as shown in the attached schedule, dated July 16, 1982.

Resolution 2665: The Board of Regents establishes the salary for the President of the UW System for 1982-83 at the rate of $12,380 as shown in the attached schedule, dated July 16, 1982.

The meeting was adjourned at 12:15 p.m.

BETHESDA, MD
IN SUPPORT OF THE FOLLOWING:

1) INSULIN DEPENDENT PLACENTAL GLUCOSE TRANSPORT
   FOR THE PERIOD 07-01-82 THROUGH 06-30-83
   AWARD # 5 RO1 HD15091-02
   MSN HS-MED PHYSIOLOGY (144-S072) 69,235.00

2) HUMAN VS RODENT MAMMARY MEDICATED MUTAGENESIS
   ASSAY
   FOR THE PERIOD 07-01-82 THROUGH 06-30-83
   AWARD # 5 RO1 CA30295-02
   MSN HS-MED HUMAN ONCOLOGY RAD BIOL (144-S081) 86,884.00

3) CHOLESTEROL METABOLISM OF HEPATIC NEOPLASMS
   FOR THE PERIOD 07-01-82 THROUGH 06-30-83
   AWARD # 5 RO1 CA15664-03
   MSN HS-MED PATHOL & LAB MED ANAT PATH (144-S083) 104,439.00

4) IN VITRO STUDIES OF THE MOUSE COCHLEAR NUCLEUS
   FOR THE PERIOD 07-01-82 THROUGH 06-30-83
   AWARD # 5 RO1 HS17590-02
   MSN HS-MED NEUROPHYSIOLOGY (144-S084) 44,536.00

5) SOCIAL CHANGE, AG-GRADED LIFE EVENTS AND AGING
   FOR THE PERIOD 06-01-82 THROUGH 05-31-83
   AWARD # 5 RO1 AG02816-02
   MSN L&S INST-RES ON PDV (144-S098) 144,367.00

6) ANTERIOR OCULAR SEGMENT PHYSIOLOGY AND
   PHARMACOLOGY
   FOR THE PERIOD 07-01-82 THROUGH 06-30-83
   AWARD # 2 RO1 EYO2698-04
   MSN HS-MED OPHTHALMOLOGY (144-S104) 132,773.00

7) POSTDOCTORAL FELLOWSHIP AWARD
   FOR THE PERIOD 06-23-82 THROUGH 06-22-83
   AWARD # 5 F32 NS06316-03
   MSN HS-MED PHYSIOLOGY (144-S107) 17,736.00

8) PROTON-TRANSLOCATING SECTOR OF E. COLI
   ATPASE COMPLEX
   FOR THE PERIOD 07-01-82 THROUGH 06-30-83
   AWARD # 5 RO1 GM23105-07
   MSN HS-MED PHYSIOLOG CHEM (144-S108) 76,940.00

9) EVOLUTION AND DEVELOPMENT OF PRIMATE
   SPEECH ANALOGUES
   FOR THE PERIOD 07-01-82 THROUGH 06-30-83
   AWARD # 5 RO1 MH29775-06
   MSN L&S PSYCHOLOGY (144-S110) 53,081.00

10) VISUAL INTEGRATION IN THE BRAIN
    FOR THE PERIOD 07-01-82 THROUGH 06-30-83
    AWARD # 5 RO1 EYO1916-07
    MSN L&S PSYCHOLOGY (144-S113) 139,864.00
UNIVERSITY OF WISCONSIN - MADISON

RESEARCH

11) MOLECULAR CHARACTERIZATION OF BETA-ADRENERGIC RECEPTORS FOR THE PERIOD 07-01-82 THROUGH 06-30-83
AWARD # 5 R01 NS12392-08
MSN HS-MED PHARMACOLOGY (144-S118) 75,563.00

12) POSTDOCTORAL FELLOWSHIP AWARD FOR THE PERIOD 06-29-82 THROUGH 06-28-83
AWARD # 1 F32 NS06887-01
MSN HS-MED NEUROPHYSIOLOGY (144-S120) 18,380.00

13) STATISTICAL PROBLEMS IN CANCER RESEARCH FOR THE PERIOD 07-01-82 THROUGH 06-30-83
AWARD # 5 R01 CA18332-08
MSN L&S STATISTICS (144-S122) 56,137.00

14) COMPUTER-BASED, INTERACTIVE MEDICAL KNOWLEDGE CENTERS FOR THE PERIOD 07-01-82 THROUGH 06-30-83
AWARD # 5 R01 LM03713-03
MSN HS-PSY PSYCHIATRIC INST (144-S123) 104,360.00

15) MECHANICAL PROPERTIES OF CA-ACTIVATED HEART MUSCLE FOR THE PERIOD 07-01-82 THROUGH 06-30-83
AWARD # 5 R01 HL25861-03
MSN HS-MED PHYSIOLOGY (144-S134) 36,134.00

16) PROTEIN AND THROMBUS DEPOSITION ON VASCULAR GRAFTS FOR THE PERIOD 07-01-82 THROUGH 06-30-83
AWARD # 5 R01 HL21001-05
MSN ENGR ENGR EXPER STA CHEM ENGR (144-S138) 115,219.00

17) RESEARCH CAREER AWARD FOR THE PERIOD 07-01-82 THROUGH 06-30-83
AWARD # 5 K06 CA00685-22
MSN HS-MED ONCOLOGY (144-S141) 32,400.00

18) A COMPLETE DISSECTION OF THE ESCHERICHIA COLI GENOME FOR THE PERIOD 07-01-82 THROUGH 06-30-83
AWARD # 5 R01 AI18214-02
MSN AG&LSC GENETICS (144-S142) 73,369.00

19) KINETIC MECHANISMS OF ANTIBIOTIC INACTIVATING ENZYMES FOR THE PERIOD 07-01-82 THROUGH 06-30-83
AWARD # 5 R01 AI11603-07
MSN HS-PHR PHARMACY (144-S145) 42,120.00

20) COMPUTERIZED FLUOROSCOPY IN CAROTID ANGIOGRAPHY FOR THE PERIOD 07-01-82 THROUGH 06-30-83
AWARD # 5 R01 HL26001-03
MSN HS-MED PHYSICS (144-S147) 133,214.00

21) CHEMICAL SYNTHESIS OF OLIGOSACCHARIDES FOR THE PERIOD 07-01-82 THROUGH 06-30-83
AWARD # 2 R01 AM10588-17
MSN AG&LSC BIOCHEMISTRY (144-S155) 111,721.00

RESEARCH

33) ENZYME CATALYSIS OF ELECTRON AND GROUP TRANSFER
   FOR THE PERIOD 07-01-82 THROUGH 06-30-83
   AWARD # 5 RO1 AM28607-02
   MSN GRAD ENZYME INSTITUTE (144-S183) 81,611.00

34) INTESTINAL CARCINOGENICITY OF QUERCETIN
    AND FLAVONOLS
   FOR THE PERIOD 06-01-82 THROUGH 05-31-83
   AWARD # 5 R26 CA31127-02
   MSN HS-MED HUMAN ONCOLOGY CLIN ONCOL (144-S190) 86,542.00

35) ANALYSIS OF THE HIGH FREQUENCY ECG AND
    ARRHYTHMIAS
   FOR THE PERIOD 09-01-82 THROUGH 08-31-83
   AWARD # 5 KO4 HL00765-03
   MSN ENGR ENGR EXPER STA EL&COMPUT (144-S191) 38,977.00

36) POSTDOCTORAL FELLOWSHIP AWARD
   FOR THE PERIOD 07-01-82 THROUGH 06-30-83
   AWARD # 5 F32 GM07739-03
   MSN GRAD MOLECULAR BIDL (144-S192) 17,736.00

28. DHHS, PHS, NATIONAL INSTITUTES OF HEALTH
    SILVER SPRING, MD
    IN SUPPORT OF THE FOLLOWING:

   1) PAIN CONTROL IN CANCER
      FOR THE PERIOD 09-28-79 THROUGH 09-27-82
      AT A TOTAL COST OF $436,809.00
      AWARD # NO1-CN-95491, MOD. 7
      MSN HS-MED ANESTHESIOLOGY (144-N813) 84,362.00

   2) PHASE I STUDIES OF NEW ANTICANCER AGENTS
      FOR THE PERIOD 03-01-82 THROUGH 11-30-82
      AWARD # NO1-CM-27549
      MSN HS-MED HUMAN ONCOLOGY CLIN ONCOL (144-R895) 112,156.00

29. COLUMBIA UNIVERSITY
    NEW YORK, NEW YORK
    PRIME CONTRACTOR WITH DHHS PHS NIH
    PRESBYOPIA: THE AGING PROCESS OF ACCOMMODATIVE
    MECHANISM
   FOR THE PERIOD 04-01-82 THROUGH 03-31-83
   AWARD # CP 7718
   MSN HS-MED OPHTHALMOLOGY (144-S032) 54,147.00

30. MALLORY INSTITUTE OF PATHOLOGY FOUNDATION
    BOSTON, MA
    SUBCONTRACTOR WITH THE BOARD OF REGENTS OF THE
    UW SYSTEM UNDER AGREEMENT FROM DHHS PHS NIH
    EASTERN COOPERATIVE ONCOLOGY GROUP OPERATIONS
    OFFICE (TOTAL ALLOWABLE COSTS OF SUBCONTRACT
    IS INCREASED BY $2,071.00)
   FOR THE PERIOD 06-01-81 THROUGH 05-31-82
   AT A TOTAL COST OF $17,210.00
   AWARD # O307715, MOD. 1
   MSN HS-MED HUMAN ONCOLOGY EAST COOP (144-Q825)
31. BUREAU OF HEALTH STATISTICS,
DIVISION OF HEALTH
MADISON, WI
SUBCONTRACTOR WITH THE BOARD OF REGENTS OF THE
UW SYSTEM UNDER AGREEMENT FROM DHHS PHS NIH
DEVELOPMENTAL CANCER CONTROL PROGRAM-WISCONSIN
FOR THE PERIOD 01-01-82 THROUGH 09-30-82
AT A TOTAL COST OF $4,932.00
AWARD # 527V391
MSN HS-MED HUMAN ONCOLOGY CAN C-REGN (144-R689)

32. WI DEPT OF HEALTH & SOCIAL SERVICES
MADISON, WI
PRIME CONTRACTOR WITH DHHS SSA
EARLY IDENTIFICATION AND TREATMENT OF METABOLIC
DISEASE
FOR THE PERIOD 10-01-81 THROUGH 09-30-82
AT A TOTAL COST OF $90,000.00
AWARD # A-107-82, MOD. 1
MSN GRAD WAISMAN CENTER (144-R433) 60,000.00

33. DOD, AIR FORCE
BOLLING AIR FORCE BASE, DC
VIBRATIONAL RELAXATION RATES AND PATHWAYS IN
HIGHLY EXCITED MOLECULES
FOR THE PERIOD 06-30-82 THROUGH 06-29-83
AWARD # AFOSR-82-0244
MSN LCS CHEMISTRY (144-S117) 125,592.00

34. DOD, AIR FORCE
HANSCOM AIR FORCE BASE, MA
SUPPLEMENTARY SUPPORT FOR THE 11TH INTERNATIONAL
LASER RADAR CONFERENCE
FOR THE PERIOD 06-01-82 THROUGH 08-01-82
AWARD # F19628-82-M-0009
MSN GRAD SPACE SCI&ENG CT (144-S055) 5,000.00

35. DOD, AIR FORCE
WASHINGTON, DC
IN SUPPORT OF THE FOLLOWING:
1) NUMERICAL ANALYSIS
FOR THE PERIOD 06-15-82 THROUGH 06-14-83
AWARD # AFOSR-82-0275
MSN LCS COMPUTER SCI (144-S100) 23,750.00

2) COLLISIONAL EXCITATION AND RADIATION OF ATOMS AND
MOLECULES
FOR THE PERIOD 07-01-82 THROUGH 06-30-83
AWARD # AFOSR-78-3649 #G
MSN LCS PHYSICS (144-S116) 106,000.00

36. DOD, ARMY
FREDERICK, MD
STUDIES ON THE IMMUNOCHEMICAL TECHNIQUES FOR
DETECTION OF SELECTED FUNGAL AND DINOFLAGELLATE
TOXINS
FOR THE PERIOD 11-01-81 THROUGH 10-31-82
AT A TOTAL COST OF $105,724.00
AWARD # DAMD17-82-C-2021, MOD. 1
MSN AG&LSC FOOD MICRO&TOXIC (144-R595) 38,610.00
RESEARCH

37. DOD, ARMY
   RESEARCH TRIANGLE PARK, NC
   IN SUPPORT OF THE FOLLOWING:

   1) PHOTOACOUSTIC AND PHOTOTHERMAL SPECTROSCOPY OF
      IONS IN SOLIDS
      FOR THE PERIOD 02-15-79 THROUGH 02-14-83
      AT A TOTAL COST OF $181,784.00
      AWARD # DAAG29-79-C-0040, MOD. 3
      MSN L&S PHYSICS (144-M695) 30,000.00

   2) EXPERIMENTAL DESIGN FOR QUANTAL RESPONSE MODELS
      FOR THE PERIOD 06-24-82 THROUGH 06-23-83
      AWARD # DAAG29-82-K-0154
      MSN L&S STATISTICS (144-S181) 10,382.00

38. DOD, NAVY
   ARLINGTON, VA
   IN SUPPORT OF THE FOLLOWING:

   1) COLLISIONAL ENERGY TRANSFER IN HIGHLY
      VIBRATIONALLY EXCITED MOLECULES
      FOR THE PERIOD 06-01-79 THROUGH 05-31-83
      AT A TOTAL COST OF $260,021.00
      AWARD # NOOO14-79-C-0415, MOD. 3
      MSN L&S CHEMISTRY (144-N122) 70,052.00

   2) SIGNIFICANCE OF OXYGEN DISSOCIATION CURVE SHIFTS
      FOR THE PERIOD 07-01-80 THROUGH 12-31-82
      AT A TOTAL COST OF $168,694.00
      AWARD # NOOO14-80-C-0734, MOD. 3
      MSN HS-MED MEDICINE HEMATOLOGY (144-P670) 50,459.00

   3) PHOTODELECTRON DIFFRACTION STUDIES OF METAL-
      SEMICONDUCTOR INTERFACES AND OF CHEMISORBED ATOMS
      AND MOLECULES ON SEMICONDUCTOR SURFACES
      FOR THE PERIOD 09-01-80 THROUGH 09-30-83
      AT A TOTAL COST OF $115,841.00
      AWARD # NOOO14-80-C-0908, MOD. 2
      MSN L&S PHYSICS (144-Q108) 45,000.00

39. DOD, NAVY
   WASHINGTON, DC
   PROPERITES OF MULTIPHASE POLYURETHANE SYSTEMS
   FOR THE PERIOD 06-09-82 THROUGH 06-08-83
   AWARD # NOOO19-82-C-0246
   MSN ENGR ENGR EXPER STA CHEM ENGR (144-S133) 82,322.00

40. DEPARTMENT OF ENERGY
    ARGONNE, IL
    IN SUPPORT OF THE FOLLOWING:

   1) MECHANISTIC STUDIES RELATED TO THE METAL CATALYZED
      HYDROGENATION OF CARBON MONOXIDE TO HYDROCARBONS
      FOR THE PERIOD 04-01-80 THROUGH 06-30-82
      AT A TOTAL COST OF $160,095.00
      AWARD # DE-AC02-77ER04222, MOD. 4
      MSN L&S CHEMISTRY (144-P308) 1,000.00
RESEARCH

2) THE DEVELOPMENT OF PROCESS DESIGN AND CONTROL STRATEGIES FOR ENHANCED ENERGY EFFICIENCY IN THE PROCESS INDUSTRIES
FOR THE PERIOD 04-01-80 THROUGH 03-31-83
AT A TOTAL COST OF $307,000.00
AWARD # DE-AC02-80ER10645, MOD. 2
MSN ENGR ENGR EXPER STA CHEM ENGR (144-P461) 130,000.00

3) RADIATION DAMAGE STUDIES FOR FUSION REACTORS
FOR THE PERIOD 10-01-80 THROUGH 09-30-83
AWARD # DE-AC02-78ET52019.A004, MOD. 5
MSN ENGR ENGR EXPER STA NUCL ENGR (144-Q319) 147,000.00

4) INVESTIGATION OF AMORPHOUS METAL FILMS OF SEMI-CONDUCTOR SUBSTRATES
FOR THE PERIOD 06-01-82 THROUGH 05-31-83
AWARD # DE-AC02-82ER12062
MSN ENGR ENGR EXPER STA EL&COMPUT (144-S061) 60,000.00

41. ENERGY, DEPT OF ARGONNE, IL
IN SUPPORT OF THE FOLLOWING:

1) SEARCH FOR CHARGE SYMMETRY VIOLATION IN N-P SCATTERING
FOR THE PERIOD 06-01-82 THROUGH 05-31-83
AWARD # DE-AC02-78ER410, MOD. 3
MSN L&S PHYSICS (144-S111) 75,803.00

2) MICROSTRUCTURAL ANALYSIS OF ION CONTAINING POLYMERS
FOR THE PERIOD 06-16-82 THROUGH 06-15-83
AWARD # DE-AC02-81ER10922, MOD. 1
MSN ENGR ENGR EXPER STA CHEM ENGR (144-S149) 77,600.00

42. SANDIA NATIONAL LABORATORY ALBUQUERQUE, NM
PRIME CONTRACTOR WITH DOE LIGHT ION FUSION PROJECT
FOR THE PERIOD 04-01-82 THROUGH 09-30-82
AWARD # P.O. 16-9850
MSN ENGR ENGR EXPER STA NUCL ENGR (144-S033) 48,000.00

43. ARGONNE NATIONAL LABORATORY ARGONNE, IL
PRIME CONTRACTOR WITH DOE SERVICES TO ASSIST FPP/ANL ON THE SUPERCONDUCTING ENERGY STORAGE AND TRANSFER
FOR THE PERIOD 06-01-82 THROUGH 08-15-82
AWARD # P.O. 052124
MSN ENGR ENGR EXPER STA ENERGY RES (144-S119) 6,000.00

44. ENVIRONMENTAL PROTECTION AGENCY CINCINNATI, OH
FACTORS AFFECTING BIOAVAILABILITY OF CADMIUM
FOR THE PERIOD 07-15-82 THROUGH 07-14-83
AWARD # CR807270-02-0
MSN AG&LSC SOILS (144-S129) 111,002.00
UNIVERSITY OF WISCONSIN - MADISON

RESEARCH

45. INTER-AMERICAN FOUNDATION
ROSSLYN, VA
CHILDREN AND YOUTH IN THE BRAZILIAN LABOR FORCE
FOR THE PERIOD 07-01-82 THROUGH 04-30-83
AWARD # LA-088
MSN AG&LSC SOCIOLOGY(RURAL) (144-S189) 31,000.00

46. LABOR, DEPT. OF
WASHINGTON, DC
THE IMPORT PENETRATION PROBLEM: PAST, PRESENT, FUTURE
FOR THE PERIOD 09-20-79 THROUGH 08-31-82
AT A TOTAL COST OF $118,048.00
AWARD # J9K90005, MOD. 6
MSN L&S ECONOMICS (144-N881) 500.00

47. NATIONAL AERONAUTICS & SPACE ADMIN.
WASHINGTON, DC
PARTICIPATION IN A PROGRAM TO PROVIDE A CENTRALIZED STORM INFORMATION SYSTEM
FOR THE PERIOD 01-19-81 THROUGH 09-30-82
AT A TOTAL COST OF $1,845,039.00
AWARD # NASW-9476, MOD. 4
MSN GRAD SPACE SCI&ENG CT (144-P662) 223,214.00

48. NASA, AMES RESEARCH CENTER
MOFFETT FIELD, CA
IN SUPPORT OF THE FOLLOWING:

1) SKELETAL STATUS AND SOFT TISSUE COMPOSITION OF ASTRONAUTS
FOR THE PERIOD 09-01-69 THROUGH 01-31-82
AT A TOTAL COST OF $614,030.00
AWARD # NGR-50-002-051, MOD. 17
MSN GRAD SPACE SCI&ENG CT (144-A472) 14,025.00

2) MEASUREMENT OF TRABECULAR BONES
ASTRONAUTS
FOR THE PERIOD 01-01-82 THROUGH 09-30-82
AT A TOTAL COST OF $27,974.00
AWARD # NAG 2-166, MOD. 1
MSN GRAD SPACE SCI&ENG CT (144-R733) 6,978.00

49. NASA, GODDARD SPACE FLIGHT CENTER
GREENBELT, MD
IN SUPPORT OF THE FOLLOWING:

1) RESEARCH OF THE EFFECT OF SYNOPTIC SCALE PROCESSES IN GCM MODELLING
FOR THE PERIOD 01-16-78 THROUGH 07-31-83
AT A TOTAL COST OF $257,807.00
AWARD # NSG-5223, MOD. 7
MSN L&S METEOROLOGY (144-L146) 85,059.00

2) ULTRAVIOLET STUDIES WITH THE IUE SATELLITE
FOR THE PERIOD 06-15-81 THROUGH 09-30-82
AT A TOTAL COST OF $92,496.00
AWARD # NAG-186, MOD. 2
MSN L&S ASTRONOMY (144-Q873) 18,120.00
RESEARCH

50. NASA, MARSHALL SPACE FLIGHT CENTER
   HUNTSVILLE, AL
   APPLICATIONS OF THE AVE-SESAME DATA SETS TO
   MESOSCALE STUDIES
   FOR THE PERIOD 05-13-80 THROUGH 12-31-82
   AT A TOTAL COST OF $186,612.00
   AWARD # NAS8-33799, MOD. 4
   MSN GRAD SPACE SCI&ENG CT
   (144-P477) 35,003.00

51. WISCONSIN HUMANITIES COMMITTEE
   MADISON, WI
   PRIME CONTRACTOR WITH NEH
   MICHAEL ROSTOVITZEF AT MADISON
   FOR THE PERIOD 03-19-82 THROUGH 05-31-83
   AWARD # G-FY80-228(L)
   MSN LAS HISTORY
   (144-S170) 4,763.00

52. NATIONAL SCIENCE FOUNDATION
   WASHINGTON, DC
   IN SUPPORT OF THE FOLLOWING:
   1) PUBLIC USE SAMPLE FILES FROM THE 1940 AND 1950
      CENSUS OF POPULATION
      FOR THE PERIOD 03-01-78 THROUGH 04-30-83
      AT A TOTAL COST OF $6,583,548.00
      AWARD # SES-7704135, MOD. 5
      MSN LAS SOCIOLOGY
      (144-L438) 121,000.00
   2) PHOTODELECTRIC SPECTROSCOPY STUDIES OF TRANSITION
      METAL CARBIDES USING SYNCHROTRON RADIATION
      FOR THE PERIOD 04-01-79 THROUGH 05-31-83
      AT A TOTAL COST OF $163,000.00
      AWARD # DMR-7821080, MOD. 3
      MSN LAS PHYS SCIENCES LAB
      (144-M749) 22,100.00
   3) HABITAT, FISH COMMUNITY, AND RESOURCE UTILIZATION
      IN SMALL NORTHERN LAKES
      FOR THE PERIOD 07-01-79 THROUGH 12-31-83
      AT A TOTAL COST OF $239,397.00
      AWARD # DEB-7812337, MOD. 3
      MSN LAS ZOOLOGY
      (144-N260) 62,431.00
   4) AN INVESTIGATION OF THE CHEMISTRY, EXCITATION,
      AND DISTRIBUTION OF INTERSTELLAR AND CIRCUMSTELLAR
      POLYCYANDACETYLENES
      FOR THE PERIOD 09-01-79 THROUGH 10-31-84
      AT A TOTAL COST OF $68,800.00
      AWARD # AST-7905578, MOD. 1
      MSN LAS ASTRONOMY
      (144-N688) 38,800.00
   5) DEVELOPMENT AND APPLICATION OF MATHEMATICAL
      METHODS FOR THE SCIENCES
      FOR THE PERIOD 06-01-80 THROUGH 11-30-83
      AT A TOTAL COST OF $184,102.00
      AWARD # MCS-8001960, MOD. 3
      MSN LAS MATHEMATICS
      (144-P457) 7,950.00
UNIVERSITY OF WISCONSIN - MADISON

RESEARCH

6) ORGANIC MATTER AND NITROGEN DYNAMICS IN FOREST ECOSYSTEMS
   FOR THE PERIOD 06-01-80 THROUGH 11-30-83
   AT A TOTAL COST OF $374,589.00
   AWARD # DEB-BOO5081, MOD. 3
   MSN AG&LSC NAT RESOURCES FORESTRY (144-P463) 60,122.00

7) LEAF STRUCTURE IN RELATION TO SOLUTE TRANSPORT AND PHLOEM LOADING
   FOR THE PERIOD 07-01-80 THROUGH 12-31-83
   AT A TOTAL COST OF $165,000.00
   AWARD # PCM-8003855, MOD. 2
   MSN L&S BOTANY (144-P614) 55,000.00

8) CONVECTION OVER THE INDIAN OCEAN AND THE MONSOON CIRCULATION DURING SUMMER MONEX
   FOR THE PERIOD 08-01-80 THROUGH 01-31-84
   AT A TOTAL COST OF $121,946.00
   AWARD # ATM-7920850, MOD. 2
   MSN GRAD SPACE SCI&ENG CT (144-P687) 52,447.00

9) ENZYMES AND METABOLITES OF CARBOHYDRATE OXIDATION WITHIN VEGETATIVE VIBEB SHOOT APICES
   FOR THE PERIOD 07-15-80 THROUGH 12-31-83
   AT A TOTAL COST OF $89,620.00
   AWARD # PCM-8010957, MOD. 2
   MSN L&S BOTANY (144-P781) 41,188.00

   For the period 11-15-80 THROUGH 10-31-83
   At a total cost of $85,600.00
   Award # EAR-B019699, MOD. 1
   MSN L&S GEOL & GEOPHYSICS (144-Q464) 40,000.00

11) ACQUISITION AND IMPLEMENTATION OF SOFT X-RAY BEAM-LINES ON THE ALADDIN STORAGE RING AT THE SYNCHROTRON RADIATION CENTER
   FOR THE PERIOD 01-15-81 THROUGH 06-30-83
   AT A TOTAL COST OF $392,600.00
   AWARD # DMR-8013703, MOD. 1
   MSN GRAD PHYS SCIENCES LAB (144-Q568) 160,000.00

12) HIGH-RESOLUTION SPECTROSCOPIC STUDIES IN AERONOMY
   FOR THE PERIOD 04-15-81 THROUGH 09-30-83
   AT A TOTAL COST OF $130,000.00
   AWARD # ATM-B021064, MOD. 1
   MSN L&S PHYSICS (144-Q757) 65,000.00

13) IMPROVING THE CHOICE OF PARAMETERS FOR NONLINEAR MODELS
   FOR THE PERIOD 06-15-81 THROUGH 11-30-84
   AT A TOTAL COST OF $34,419.00
   AWARD # MCS-8102732, MOD. 1
   MSN L&S STATISTICS (144-Q840) 23,786.00

14) THE ROLE OF LIPIDS IN MEMBRANE EXCITATION IN PARAMECIUM
FOR THE PERIOD 07-01-81 THROUGH 12-31-83
AT A TOTAL COST OF $162,950.00
AWARD # BNS-8100832, MOD. 1
MSN AG&LSC BIOCHEMISTRY (144-Q945) 82,919.00

15) ENZYMES INVOLVED IN REGULATION OF NITROGENASE ACTIVITY
FOR THE PERIOD 07-01-81 THROUGH 12-31-83
AT A TOTAL COST OF $88,000.00
AWARD # PCM-8140864, MOD. 1
MSN AG&LSC BIOCHEMISTRY (144-Q946) 50,000.00

16) A SOFTWARE-PARTITIONABLE MULTICOMPUTER: TESTBED FOR RESEARCH IN DISTRIBUTED COMPUTING
FOR THE PERIOD 06-15-81 THROUGH 11-30-83
AT A TOTAL COST OF $1,717,495.00
AWARD # MCS-8105904, MOD. 1
MSN L&S COMPUTER SCI (144-Q970) 1,046,967.00

17) MACROLIDE AGLYCONES; MACROCYCLE CHEMISTRY
FOR THE PERIOD 07-01-81 THROUGH 12-31-83
AT A TOTAL COST OF $153,966.00
AWARD # CHE-8113026, MOD. 1
MSN L&S CHEMISTRY (144-R002) 77,000.00

18) MECHANISTIC AND ANALYTICAL STUDIES IN ORGANIC ELECTROCHEMISTRY
FOR THE PERIOD 09-01-81 THROUGH 02-29-84
AT A TOTAL COST OF $197,082.00
AWARD # CHE-8111421, MOD. 1
MSN L&S CHEMISTRY (144-R005) 91,966.00

19) SYNTHETIC APPLICATIONS OF ORGANOMETALLOIDS
FOR THE PERIOD 09-01-81 THROUGH 02-28-84
AT A TOTAL COST OF $125,533.00
AWARD # CHE-8111038, MOD. 1
MSN L&S CHEMISTRY (144-R117) 68,701.00

20) GENETICS OF SEGREGATION DISTORTION IN DROSOPHILA
FOR THE PERIOD 08-01-81 THROUGH 01-31-84
AT A TOTAL COST OF $134,938.00
AWARD # PCM-8102325, MOD. 1
MSN AG&LSC GENETICS (144-R131) 70,000.00

21) QUANTITATIVE GENETIC ASPECTS OF GROWTH AND FORM
FOR THE PERIOD 09-01-81 THROUGH 02-29-84
AT A TOTAL COST OF $139,758.00
AWARD # DEB-8109904, MOD. 1
MSN AG&LSC ENTOMOLOGY (144-R315) 66,891.00

22) SATELLITE DERIVED EARTH AND ATMOSPHERE ENERGY BALANCE DURING SUMMER MONEX
FOR THE PERIOD 06-01-82 THROUGH 11-30-83
AWARD # ATM-8205386

AN EXECUTIVE SUMMARY OF THE INSTRUCTIONAL FUNDING REPORT
July 1982

Introduction

Two years ago the President of the University of Wisconsin System appointed a committee of five chancellors and two members of System Administration to study the level and adequacy of funding for the instructional mission of UW institutions. The committee evaluated the current enrollment funding formula, which for many years has largely directed the state's instructional funding of the UW System, and undertook three major additional tasks to assess the adequacy of current levels of support.

First, the committee developed a "benchmark" model comparing the System's instructional funding levels in 1981-82 and 1973-74. Second, it developed an "Instructional Funding Model" to enable comparison of actual UW instructional budgets with normative standards of adequacy. Finally, the same model enabled comparison of funding levels between UW institutions and their peer universities in other states.

All three studies demonstrate serious instructional underfunding of UW institutions. This problem did not arise suddenly; it has developed over at least the past decade, in response to various complex economic factors and public policy decisions. It now needs redress. The shortfalls documented by the committee threaten to undermine the vitality of Wisconsin's public institutions of higher education at a time when their contributions to the state's economic growth and cultural well being are critical. The report should be of great value in future deliberations over approaches to the System's instructional funding.

The Current Formula

The current enrollment funding formula adjusts instructional funding to increases and declines in student enrollment, and has served both the Regents and state government as a useful tool. The formula, however, also has certain weaknesses. It funds change in enrollments and does not adjust for an inadequate base; underfunding thus compounds itself. It does not recognize special costs of part-time extended day students, inflation, or administration; it does not adequately distinguish fixed from variable instructional costs; and it does not keep up with student shifts to higher-cost disciplines. Other implications about the formula's comparative strengths and weaknesses emerge from the studies the committee conducted.

The Benchmark Model: System Instructional Funding in 1981 and 1973 Compared

In the belief that funding trends over time would be illuminating, the committee first inquired how much instructional funding the System would have received in 1981-82 if it had been funded at a level of support comparable to that which existed in the fall of 1973. To answer this question the
committee developed a "model" 1981 budget based on funding, staffing, and work-load relationships that existed in the "benchmark" year of 1973. The difference between the model 1981 budget and the actual expenditures that year showed:

- The UW System's budget base for instruction (teaching and support activities) has become underfunded from 1973 levels by $34.6 million.
- The doctoral cluster compared with itself over this period has become underfunded for instruction by $19.1 million.
- The university cluster compared with itself over this period has become underfunded for instruction by $31.0 million.
- The Center System compared with itself over this period has become underfunded for instruction by $4.5 million.

Other data confirm the funding decline over the past decade which the benchmark model documents. The budgeted cost per student for instruction and related support, measured in constant 1972-73 dollars, has declined steadily almost every year over the past decade -- from $1,902 in 1972-73 to $1,659 in 1981-82. Moreover, the relative instructional support index has fallen appreciably from 1972 to 1982, failing to keep pace with growing student enrollments.

The Instructional Funding Model: Comparing System Funding with Modeled Standards and Peer Institutions.

To assess System instructional funding against some standards other than trends in Wisconsin's own budgetary experience, the committee then developed a more sophisticated model -- the Instructional Funding Model (IFM) -- from which model budgetary requirements emerge in four instructional categories: direct instruction, student services, academic support, and institutional support. The IFM not only enables comparison of the level of actual funding in UW System institutions with the requirements of the model, but also with the funding level of peer institutions. The model reveals that:

- The System as a whole is funded at 72.3% of model requirements, a shortfall of $148 million. Its peer group is funded at 83.0% of the model.
- UW-Madison is funded at 71.2% of the model, a shortfall of $61 million. Its peer group is at 87.5%.
- UW-Milwaukee is funded at 76.7% of model, a shortfall of $18 million. Its peer group is at 90.2%.
- The university cluster is funded at 72.0% of model, a shortfall of $70 million. Its peer group is at 75.6%.
- The UW System as a whole is funded 13%, or $57 million, below the average of its peer group.
Other data provide some historical context for the current rankings of the UW System revealed by the Model. In 1972-73, Wisconsin ranked sixth among all states in public higher education. By 1981-82, that ranking slipped to thirty-sixth.

The Model also has a number of analytical strengths. By its design, it attempts to encompass and address all instructional budget needs; recognize the impact of changes in instructional workload on funding requirements; recognize the fixed and variable cost behavior associated with institutional size and enrollment changes; and establish a framework for identifying a broad range of budget needs by cost category. The Model also demonstrates the priority UW institutions have placed on direct instruction in allocating scarce resources; other parts of the budget have suffered accordingly.

General Findings and Conclusions

The Benchmark Model shows that every university in the System in both the doctoral and university clusters is less well funded for instruction now that it was in 1973-74. An additional $54.6 million would have been required in 1981-82 to raise instructional funding to the 1973-74 level. Declines over this period in other indices, such as budgeted cost per student and the relative-instructional support index, lend additional support to the Benchmark Model's findings.

The Instructional Funding Model confirms and extends substantially the implications of the Benchmark Model. The System is funded at only 72.3% of the level established by the IFM — a shortfall of $148 million — and falls 13% or $57 million below the average of its peer institutions in other states, a figure that is especially disturbing in light of the historic preeminence of Wisconsin public higher education. Similar shortfalls exist at UW-Madison, UW-Milwaukee, and the university cluster in comparison with their respective peer groups. These findings are bolstered by data such as the evidence of Wisconsin's drop from sixth to thirty-sixth among states over the last decade in the level of support for FTE students in public higher education.

These findings show that Wisconsin has not, in the past decade, maintained its position in respect to other states in support of higher education; it has instead fallen markedly behind at a time when rejuvenation is most needed. The historic ability of the state's public universities to offer qualified applicants an education of respectable quality, and to provide services critical to the state's cultural well-being and economic development, has been seriously compromised. The challenge to the state's leaders is to begin to redress this diminution in the stature and vitality of the System, so that it can undertake a reasonable degree of renaissance.

III. REPORT OF ACTIONS TAKEN (MEMOS OF AGREEMENT).

   A. A renewed agreement between the University of Wisconsin - Madison and the Wisconsin Disability Coalition, Inc., for lease of 197 NASF of space in the Annex Building at 1954 East Washington Avenue, for the period June 1, 1982 to May 31, 1983, has been signed by the Vice Chancellor for Administration. The lease rate has been increased from the present rate of $6.93 to $7.44 per square foot. (K-ref. Hospital Blks 4)

   B. The agreement between the University of Wisconsin - Madison and Access to Independence, Inc., for their continued lease of space at 1954 East Washington Avenue has been signed by the Vice Chancellor for Administration. The space, to be used for programs contributing toward the goal of improved educational, vocational, and social opportunities for the handicapped, consistent with University policies and in cooperation with University programs for the handicapped, will be leased for the period July 1, 1982 through June 30, 1983. The lease rate has been increased from $6.93 to $7.44 per square foot. (K-ref. Hospital Blks 4)

   C. An agreement between Herslof Optical Company and the Board of Regents for provision of optical service at University Hospital and Clinics has been signed by the Vice Chancellor for Administration and covers the period April 1, 1982 to April 1, 1983, with two additional one year renewal options. The rental rate is $5,040 per year. This agreement replaces the one previously reported between the Board and Connelly Optical Service Ltd. since Herslof Optical was the successful bidder in the recent competitive bidding for optical service. (K-ref. Hospital Blks 4)

   D. An agreement has been signed between the Board and Doctors Dennis O. Carey, Robert E. Erickson, and Ronald G. Schmidt for lease of space in the Northeast Family Practice Center for operating a dental practice. This is a continuation of the lease arrangement which existed with Flad and Associates prior to the purchase of the clinic facility by the University. The agreement covers the period March 1, 1982 through February 28, 1985, at an annual rate of $4,950. (K-ref. Hospital Blks 4)

   E. An amendment to the agreement between Ms. Margarita McMorris for operating the University Travel Office in the Randall Towers has been signed by the Vice Chancellor for Administration. The agreement covers space previously leased by Ms. Cheryl Wade for Carbon Ribbon Professional Secretarial Services Office which was terminated, in accordance with terms of the agreement, on May 31, 1982. The amendment covers an additional room (No. 105) for an increased monthly rental of $737. (K-ref. McMorris)
F. An agreement for lease of the UW-Madison Arboretum Security Residence by John Shanklin and Elizabeth Wiederholt (married couple) has been signed by the Vice Chancellor for Administration and covers the period August 1, 1982 through July 31, 1993. In lieu of rent, the lessees will act as Arboretum caretakers during hours the crew is off duty, maintain meteorological records during weekends and holidays, occupy the premises on weekends and holidays or make arrangements for someone else to be present, and handle emergency situations. NPL F (X-ref: Shanklin, Wiederholt)

G. A collection agreement between the Board of Regents and the USDA Forest Service (FP-82-443) has been signed by the Vice President for General Services May 17, 1982. This agreement is required in relation to the Occupancy and Use Permit with the USDA Forest Service for use by the University of the Forest Products Laboratory facilities located at 502 and 503 Walnut Street and provides for the University to advance a portion of the annual rental charge to FPL, who provides for the costs of contracting the maintenance work from this advance. The advance, as adjusted for actual maintenance costs, is credited against the annual rental payment by the University at the end of the year. This agreement provides for the repair and replacement of the roofs of the rental properties. NPL CS (X-ref: Forest Products Lab)

H. The delegation agreement between the Department of Administration and the University of Wisconsin System initially entered into on September 27, 1981, has been modified effective May 20, 1982, to reflect delegated approval authority for the acquisition of all externally-funded research DP acquisitions and for all instructional/academic acquisitions. Administrative acquisitions for $50,000 or more are to be sent to the Office of Information Systems Management, NPL H (Reference Office: Administration, Dept. of)

I. A renewal agreement with Mrs. Sophie Rydzewski for the use of not less than 20 nor more than 40 acres of land (exact acreage to be determined following planting) at the rate of $35 per acre for the potato growing program of the UW-Madison Department of Plant Pathology has been signed by the Vice Chancellor for Administration. Conditions in this agreement are the same as those reflected in previous agreements which have been in effect for several years. NPL I (X-ref: Rydzewski)

The UW-Madison Chancellor has authorized the razing of the following obsolete silos on the Arlington Experimental farms which are in poor condition and no longer needed to be used. They are not of unique construction and have no historical significance. NPL J

Building No. 838  Bodkhout Silo
Building No. 861A Woltman Silo
Building No. 887  Caldwell Silo
Building No. 848A Turkey Farm Silo
Building No. 857  Swalmheim Silo
Building No. 826A Haisor Silo

K. The 1982-83 contractual agreement between Catholic Charities Bureau, Inc., and the University of Wisconsin - River Falls for the continued operation of the child care center at that campus has been signed by the Vice President for General Services. The agreement shall be in effect from July 1, 1982 through June 30, 1983, with an option of the institution to renew for two additional one-year periods. NPL K (X-ref: Catholic Charities Bureau)
L. The lease between the Board and the Presbyterian Student Center Foundation for use of the parking lot at 439 North Murray Street for UW-Madison parking needs in the east area of the campus has been renewed for the period September 1, 1982 through August 31, 1983. The rate of $351.30 per month and other conditions of the agreement are the same as have existed for the past several years. (K-Reg - Presbyterian Student Center Foundation). NPl - M.

N. A land use permit between the Board of Regents and the City of Madison to allow the City to construct a water main across Arboretum lands has been executed. A similar agreement was authorized one year ago, and this permit is part of the same water main project but crosses a second parcel of Arboretum land. The line will reinforce the water supply to this area and will serve the University lands through improved fire protection. (K-Reg - Madison City (Uf)). NPl - M.

An agreement for the lease of approximately 120 square feet of space (Room 644 WARP) to the Medical College of Wisconsin for a research project concerning Computerized Axial Tomography, has been signed by the Vice Chancellor for Administration. The agreement covers the period July 1, 1982 through February 28, 1983, at a total payment of $631.29. NPl - N (K-Reg Medical College of Wis).
