MINUTES OF THE REGULAR MEETING

of the

BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM

UW-Parkside
Kenosha, Wisconsin

Held in the Wyllie Library/Learning Center, Galbraith Room 363

Friday, October 7, 1988
9:00 a.m.

- President Schilling presiding -

PRESENT: Regents Clusen, Davis, DeLong, Fish, Flores, Gerrard, Gundersen
Jarvis, Lyon, Nicholas, Nikolay, Schilling and Weinstein

ABSENT: Regents Doughty Luckhardt, Grover, Hanson and Vattendahl

Regent - Mountain -

Introduction of Regent Gundersen, p. 1

President Schilling welcomed Regent Adolf Gundersen, Chairman of the Department of Surgery and Past President of the Gundersen Clinic of La Crosse. He was appointed by Governor Thompson for a seven-year term, to succeed Frank Heckrodt, and had been appointed by President Schilling to serve on the Physical Planning and Development Committee.

Gundersen, Regent Adolf - Introduction to Board, p. 1

Regent Gerrard added his welcome to Dr. Gundersen, with whom he had been acquainted for many years. He observed that the medical practice established by Dr. Gundersen's grandfather, who came to La Crosse from Norway, now included more than 250 physicians. A noted surgeon, Dr. Gundersen had headed the clinic for many years. Like former Regent President Ben Lawton, Regent Gundersen was recognized as a highly regarded physician who would contribute greatly to the Board of Regents.

Heckrodt, Regent Frank #1

Resolution of Appreciation to Regent Heckrodt, R 5055, p. 2

Regent Nicholas presented the following resolution, which was unanimously adopted with an ovation for Regent Heckrodt:

Resolution 5055: Whereas, Frank H. Heckrodt is retiring from the Board of Regents of the University of Wisconsin System, having completed a seven-year term of meritorious service; and

Whereas, he brought to the Board a wealth of knowledge and experience based on his career as a top-level corporate executive; and

Whereas, he rendered valuable leadership service as Chairman and Vice Chairman of the Physical Planning and Development Committee, as well as Vice-Chairman of the Council of Trustees of the UW Hospital and Clinics; and

Whereas, the UW System has benefited greatly from his expertise and good counsel;

Therefore, be it resolved that the Board of Regents of the University of Wisconsin System hereby commends Frank H. Heckrodt for the substantial contribution he has made to the UW System and the people of Wisconsin; and

Be it further resolved that, with deep appreciation for his loyal service, the Board of Regents hereby grants to him the status and title of Regent Emeritus.

President Schilling displayed a plaque which was to be presented to Regent Emeritus Heckrodt. It was inscribed as follows: "In appreciation for distinguished service, Frank H. Heckrodt, Board of Regents, UW System, 1981-1988."

Approval of Minutes

Minutes of the regular meeting of the Board of Regents, held on September 9, 1988, were unanimously approved, upon motion by Regent Fish, seconded by Regent Davis.

REPORT OF THE PRESIDENT OF THE BOARD

meeting & budget, p. 3

HEAB

Report on the September 21, 1988, Meeting of the Higher Educational Aids Board

Regent President Schilling referred to the written report of the September 21, 1988, Higher Educational Aids Board (HEAB) meeting, which had been included in the agenda materials. Regents Nicholas and Nikolay were serving as the regent representatives to that board.

Regent Weinstein recalled that at the last meeting, he had requested, for use in budget deliberations, a full report on HEAB's decisions regarding student aid, so that they could be considered in conjunction with tuition recommendations. He asked if those decisions had been formalized at the September 21 meeting.

Replying in the affirmative, Regent Nicholas explained that HEAB essentially approved the Executive Secretary's budget proposal, which called for a 10.7 percent increase in the first year of the biennium and a 4.5 percent increase in the second year. That had been modified, however, by a 5-4 vote of the board in favor of increased capitation for Marquette University dental students, which was not correctly stated in the written report. The 10.7 percent increase did not include the increased capitation amount.

Regent President Schilling suggested that a report be provided at the November regent meetings.

Report on budget, on credit transfers and noncredit programming and on Literacy 2000 Task Force, pp 3-4

Report of the President of the VTAE Board

Regent DeLong, President of the State VTAE Board, reported that much of that board's September meeting was devoted to the VTAE System's 1989-91 biennial budget proposal. Regent Lyon had attended the meeting as the Board of Regents' representative and had raised a number of questions. Included in the approved budget request was funding to allow the VTAE System to share in implementing recommended strategies in the telecommunications report presented to the Board of Regents.

There also had been a report on credit transfer from the VTAE to the UW System and on noncredit programming in the two systems based on the report of the task force co-chaired by Regent Vice President Lyon and former VTAE President Hassett. With the work of that task force, along with formation of a committee on agricultural course offerings, Regent DeLong felt many issues could be resolved to the satisfaction of both systems.

The VTAE Board had received a report from the Literacy 2000 Task Force, which had included university personnel. It was recommended that a statewide literacy task force be appointed by the Governor, and the report was forwarded to the Governor for his information and action.

Finally, the VTAE Board had discussed the problem of inter-district tuition. It was expected that action would be taken in the coming months.

Hospital - Council of Trustees - reopening special meeting for long range planning, p. 4

Special Meeting: Council of Trustees of the UW Hospital and Clinics

Regent Flores, Chair of the Council of Trustees of the UW Hospital and Clinics, announced that there would be a special meeting later in the month primarily devoted to long-range planning but also including some budgetary issues.

UW-Whitewater - Staff

Appointment of Special Regent Committee for Dean of Education

UW-Whitewater

Regent President Schilling announced appointment of a Special Regent Committee to participate in selecting a new Dean of Education at UW-Whitewater. The members of the Special Regent Committee were to be Regent Clusen (Chair), Regent Grover, Regent Jarvis, Regent Schilling (ex officio) and Regent Lyon (ex officio), p. 4

new word
X ref Regent Committee - Special Regent Committee for Dean of Education, UW-Whitewater - Appointments;

Additional Meetings Outside of Madison

Regent President Schilling noted that for the last 16 years, the Board of Regents had the practice of holding two meetings per year outside of Madison--one at UW-Milwaukee and one at another university--on a rotating schedule.

Regent Meetings - Announcement of additional meetings outside of Madison, p. 4

Members of the board were asked for their views on holding an additional meeting per year outside of Madison and the response was very favorable. Regents indicated that they would appreciate the opportunity to visit campuses more frequently.

Under the current rotation, the board met at the comprehensive universities about once every eleven years and had met once at one of the UW Centers (Marathon County). An additional meeting per year outside of Madison would reduce that interval to about once every five or six years, and a periodic meeting at one of the UW Centers would be included in the rotation. Regent Schilling asked President Shaw to work with the chancellors on implementing the plan, with a minimum of added expense.

President Shaw indicated that he expected to present a plan at the December meeting.

REPORT OF THE PRESIDENT OF THE SYSTEM

Approval of Nonpersonnel Actions/Informational Items

Upon motion by Regent Nikolay, seconded by Regent Davis, the following resolution was adopted unanimously by the board:

Resolution 5056: That the report of nonpersonnel actions by administrative officers to the Board of Regents and informational items reported for the record (copy on file with the papers of this meeting) be received for the record; and that actions included in the report be approved, ratified and confirmed.

UW-Parkside Presentation - *Presentation on campus, pp 5-9*

Chancellor Kaplan introduced the following persons who were to make presentations to the board: Gary Grace, Assistant Chancellor for Student Affairs; Barbara Shade, Head of the Education Division; and Esther Letven, Director of the Regional Staff Development Center.

Assistant Chancellor Grace described the characteristics and changing nature of the student body at UW-Parkside, noting first that the traditional image of residential colleges as the norm belied the shift toward commuter institutions in the last two or three decades. It was reported by the National Center for Education Statistics that by the year 2000, the largest segment of the national population would be middle-aged, which would have a definite impact upon college attendance. At the present time, little more than half the college population consisted of traditionally-aged residential students.

At UW-Parkside, the service region was limited mostly to those willing to commute within a 45-minute drive. While residential institutions generally could be expected to draw from a 250-mile range, most commuter institutions drew from a 25- to 50-mile radius. Residential institutions usually had a higher proportion of full-time versus part-time students, which is the reverse of most commuter institutions. Residential institutions tended to have more homogeneous student bodies, while commuter institutions usually had more diversity among their students. Commuting students typically took longer than the norm of four or five years to graduate with a baccalaureate degree--often taking seven or more years to complete a degree.

UW-Parkside's enrollment of about 5,150 students (3,400 full-time equivalent) had remained stable over the last four years. However, there had been shifts in the characteristics of those students. In 1985, several significant events took place. The faculty revised admission standards so that, beginning in 1986, UW-Parkside ceased to be an open admission campus. Also in 1985, the decision was made to build residence halls on the campus. In that same year, the College Board released a study on demographics which showed Kenosha and Racine Counties expecting 28 percent fewer students in 1991 than in 1986, which was of particular significance since three-fourths

of UW-Parkside students came from Racine and Kenosha Counties. (In 1985, 38 percent came from Kenosha County and 51 percent came from Racine County.) In less than three years, there had been a six percent student decline in the two-county area. To compensate, the university had attempted to broaden its commuting radius and to define the urban corridor from Milwaukee to Chicago as a part of its service region. As a result, the Illinois complement had increased from one percent to three percent of UW-Parkside's enrollment in three years and the Milwaukee complement almost had doubled. This trend was expected to continue and would be aided by the Illinois Tuition Assistance Scholarship Program.

The residence halls had provided an opportunity to recruit students from noncommuting distance. Of the 403 students living in the residence halls, three-fourths were from outside of the Racine and Kenosha County areas.

The mix of students at UW-Parkside remained much different from that of residential institutions. Currently, only 53 percent of the students were in the traditional 18- to 22-year-old age group. That percentage had remained stable over time, although this year there had been an increase of about 200 traditional-age, full-time students. While the majority of entering freshmen were traditional students, the majority of reentry and transfer freshmen were nontraditional in age.

About 60 percent of the UW-Parkside enrollment currently was full time and 40 percent was part time. The minority enrollment currently was seven percent and was expected to increase to 10.5 percent by 1993. While there were shortfalls in black student enrollment, Hispanic enrollment had increased by 28 percent since the previous year. This increase mirrored the rapidly growing Hispanic population in Racine and Kenosha Counties--a trend which was expected to continue. In closing, Dr. Grace commented that it was appropriate for UW-Parkside to cultivate and enhance the diversity of the student body.

Speaking about initiatives by the Education Division to address cultural and ethnic diversity in teacher education, Professor Barbara Shade noted first that, in the Racine and Kenosha school districts, approximately 26 percent of the students were ethnic minorities in 1987-1988 and that the percentage was expected to increase to 32 percent by 1990.

As noted from many reports, this population was often cited as one which had not been successful within the traditional school environment. The Division of Education, however, believed that the situation largely related to teachers needing experience, skills, and knowledge to handle individuals whose culture socialized them to different methods of teaching.

While it often was suggested that the problem should be addressed by hiring more minority teachers, Dr. Shade cited statistics showing that the number of minority teachers being trained was too few for this strategy to succeed. For example, UW-Madison currently had 75 minority students enrolled in teacher education but only 12 were certified in 1987-88. UW-Milwaukee had 233 enrolled and certified 59. UW-Parkside had eleven

enrolled and certified two. The situation was no better at private schools, such as Alverno, Marquette and St. Norberts. Of the 95 minorities certified during 1987-1988, 75 came from the UW System and 18 from private schools.

Ninety percent of the teachers trained at UW-Parkside remained in the area. Currently, 57 percent were teaching in schools in which 11 to 90 percent of students were either ethnic minorities or lower income students. To assist these mostly non-minority teachers to work successfully with minority and disadvantaged students, the Division of Education was undertaking special initiatives. First, courses were being reviewed to inculcate concepts about culture and its effect upon teaching and learning. Second, contracts had been made with six clinical centers having high percentages of minority/disadvantaged students. UW-Parkside education students would receive 60 to 65 hours of field experience in these settings.

Beginning the next semester, a UW-Parkside faculty member who had written extensively in this area would begin an ethnographic study of the program, to determine if there were ways of improving teaching strategies and environment to make the division more competitive in attracting minorities into teacher education.

These efforts, which were still in the beginning stage, were considered highly important if non-minority teachers were to be trained to teach minority students successfully in the 21st century.

Ms. Esther Letven described activities of the Regional Staff Development Center, which was charged with encouraging cooperative relationships among educators in the 105 schools and three postsecondary institutions in Kenosha and Racine Counties. The heart of the center's mission was professional growth for educators throughout their careers and across levels of instruction with support, recognition and training all provided.

Over the last three years, the center brought together both small and large groups. Regional Inservice '88 was a major conference, with more than 200 workshops offered in one day. Over 3500 teachers and administrators from 27 school districts met at eight different sites in the two-county area.

This community of educational institutions grew out of a ten-year history of collaboration between UW-Parkside and the surrounding school districts. In response to the "Nation at Risk" report, the Educators' Consortium for Excellence in Southeastern Wisconsin was formed in 1983. The consortium created the Regional Staff Development Center which opened in 1985.

Using a collegial learning model, university faculty and classroom teachers learned together at the center, with center-sponsored academic alliances regularly bringing together school and university faculty who taught the same discipline. As communities of scholars, they sought ways to improve the quality of their intellectual and professional lives.

Study committees provided another means of bringing together university and school level educators to learn from one another. Stating that these study committees and alliances had produced some of the center's most exciting projects, Ms. Letven cited the following examples: A two-year, \$450,000 grant from the National Science Foundation to improve elementary science instruction resulted from a partnership of the university, the industrial community and the schools. With leadership from a biological science professor, this project included a training program to help elementary teachers overcome science anxiety. The skills, attitudes and teaching behaviors of over 150 elementary teachers already had been affected.

From a beginning teacher study committee came Project Assist, a program of support for first-year teachers and their mentors. An eight-month study, conducted by university faculty, teachers and administrators, produced a consortial induction model, funded as a pilot program by the Department of Public Instruction. University faculty assisted with mentor training and beginning teacher support seminars while also conducting research on the impact of the program. The result was a successful first-year teaching experience for beginning teachers, many of whom were trained at UW-Parkside.

Another study committee explored issues related to cross-cultural communication, resulting in development of a human relations handbook and the Multi-Cultural Fellows Program, now funded by the Joyce Foundation. Co-directed by a university faculty member with expertise in multi-cultural education, the fellows training program was providing awareness and classroom strategies for teachers from targeted schools. Research was being conducted to determine its effectiveness as a staff development model.

From the English Department faculty came the Teaching Shakespeare Resource Library and the Collegial Writing Project. The latter program, coordinated by a university lecturer, was developing strategies to improve the teaching of composition. The project, which was opening lines of communication between faculty and teachers, was expected to better prepare students for the university.

The amount of outside funding, from the National Science Foundation and the Joyce Foundation, was due largely to the institutionalized cooperation between the university and the entire educational community. While the center's operating expenses were shared by all the educational institutions, extramural funds supported many specific programs. Consistent with the mission of the center, all grant proposals were developed jointly by teams of university and school personnel. The center's activities reflected the belief that collegial interaction yields professional growth.

In response to a question by Regent Nicholas, Chancellor Kaplan cited a number of steps being taken in response to the declining student population in the Racine/Kenosha area: a marketing plan to define UW-Parkside's service area from Milwaukee into the northern counties of Illinois; the tuition assistance program which enhanced recruitment in Illinois; recruitment in

the southern suburbs of Milwaukee County; initiatives in programming for adult students, such as the Night Owl Program; plans for a major cooperative activity with area businesses to meet their educational needs, including evening and weekend programs; and a major emphasis on student retention. The decline in the student population of Racine and Kenosha Counties was expected to end in the mid-1990s, at which time the numbers again would increase.

Referring to Professor Shade's presentation, Regent Fish inquired as to the definition of the student category termed "immigrant minority."

Dr. Shade replied that the immigrant minority category included all first generation students, because they brought with them different learning styles and different cultures. Those numbers were not included in minority enrollment data.

Regent Weinstein asked what effect the changing demographics of the campus, with heavier recruiting outside of the region, would have on the future of UW-Parkside dormitories.

Chancellor Kaplan replied that there had been preliminary discussions with the UW-Parkside Foundation Board, on the assumption that the state would not construct residence halls and that any additional dormitories would have to be built with private funds, as were the recently completed dorms. An assessment was being conducted on whether there was need for additional residence halls. Given the difficulty of funding residence halls privately, however, she felt that UW-Parkside would have to concentrate efforts on the commuter population. One positive trend was growth in the suburbs just south of the Wisconsin line, which could provide a significant number of students for UW-Parkside.

Report - Study Group on the Future of UW System

Report on Implementation of Planning the Future, pp 9-14

As introduction to his report, President Shaw noted the importance of this document as a strategic plan for the UW System to best utilize available resources in performing its mission.

Referring to the written report which had been distributed, President Shaw summarized a number of major points. Since the February 1988 progress report, many goals had been implemented, with 89 of the total 106 projects now completed. Some objectives had been scaled down, delayed or discontinued, depending upon the ability to obtain needed funding or flexibility. In the area of educational effectiveness, he indicated that the revised freshman admissions policy (Resolutions SG 8 and SG 24) was now in effect for new applicants. Although the ACT test requirement would first be required for freshman applying for the fall of 1989, many of the institutions already required the ACT, and more students were taking the test than ever before. The test requirement was expected to help greatly in making comparisons and diagnosing what students might need in the way of special treatment.

One challenge resulting from the admission policy changes was the need to improve communication with the public schools. In response, a joint UW System/Department of Public Instruction Task Force on Admissions Communications had been established to foster clear communication among high school guidance counselors and university admissions directors about the new standards to ensure that students would be properly advised.

With regard to program reviews, the president reported that there would be a report in December on programs in need of special attention, an annual summary of five-year reviews, and institutional program reviews as well as accreditation. The report was intended to provide a complete picture of what was being done to tighten the curriculum and to ensure effective program review.

Turning to the area of fiscal effectiveness, President Shaw focused his comments on the goal of enrollment management and patterns emerging in fall enrollment statistics.

First, the institutions that were targeted for enrollment increases were doing well in meeting projections. These were UW-Green Bay, the UW Centers, UW-Parkside and UW-Superior. The UW Centers appeared to have exceeded their target.

In attempting to estimate the number of new students needed to meet enrollment targets, it was necessary to make judgments on the basis of historical experience as to how many current students would return. The institutions were reporting increasing retention rates, which made enrollment management more difficult. By way of explanation, he suggested that the UW System's major changes in policy had brought about a change in student behavior, with young people studying more and taking more seriously the need to stay in school.

Noting that the area of equity in education would be covered in his report on implementing the *Design for Diversity*, President Shaw turned to the area of extending university resources to assist in economic development. In this area, many of the recommendations had been funded by the Governor and the Legislature. Money had been provided for ten distinguished professorships which already were established, with seven more under consideration. The 1987-89 biennial budget provided for \$200,000 for applied research projects, with eight such projects funded in one year of the biennium and ten in the next year. There had been four to five times as many requests to do applied research projects as the number that could be funded. This successful program indicated a great deal of interest on the part of faculty in doing the kind of applied research important for economic development.

Other contributions to economic development included publication of the Directory of University Resources for Business and Industry; production of the film "Partners," a video highlighting the UW System's role and importance in economic development; and completion of a survey to determine the UW System's effectiveness in working with business and industry.

In the area of governance and administration, the president noted that the report on improving the capability of management information systems, called for in the strategic plan, was before the board for adoption at this meeting.

Regent Fish, who had chaired the Regent Study Group on the Future of the UW System, commended System Administration and the institutions for the significant progress that had been made in implementing *Planning the Future*, in accordance with the time frame that had been established.

Regent Weinstein asked why the official fall enrollment figures would not be available until mid-December.

In response, President Shaw explained that, in order to have completely accurate figures, it would be necessary to await reports to be submitted after the add/drop process was complete, as well as reports from institutions using the quarter system, and from UW-Oshkosh which had a different calendar. He expected that by November solid data would be available.

Another aspect of enrollment management, Regent Weinstein noted, was capping enrollment in high demand programs. He requested an update on implementation of this objective.

Regent Flores inquired about the Pilot Freshman Tuition Program and asked if the guidelines were available to the regents.

Replying in the affirmative, President Shaw indicated that students were entering the UW System this fall through that program.

Dr. James Sulton, Special Assistant to the President for Minority Affairs, added that the high schools involved were North Division, South Division, Riverside and James Madison in Milwaukee and Menominee Junior and Senior Indian High Schools in Keshena. The actual numbers of students from those high schools that enrolled in each UW System institution were to be reported by October 15. The program was being well received, with excellent cooperation from high school principals and the UW institutions.

Regent Flores noted that the number of high schools could be changed, as experience dictates, and that the program could be enlarged if the Legislature provided additional funding.

President Shaw agreed that there could be an effort to expand the program, assuming that it proved successful.

Regent Flores inquired as to the length of the pilot program, and Dr. Sulton replied that it was viewed as a one-year project, with the results to be evaluated in order to determine whether or not to continue it.

Report on the Implementation of *Design for Diversity*

President Shaw's comments focused on selected items from the written report which had been distributed. He referred first to the appointment of Dr. James Sulton as Special Assistant to the President for Minority Affairs, which was responsive to the need expressed in the plan for a structure which would promote effective implementation. The plan called for the assistant to the president to have a great deal of responsibility and the ability to work with the institutions and with top system officials. There were monthly cabinet meetings of the president, the special assistant and the assistant to the president for equal opportunity programs, to deal with important issues on a regular basis and to ensure coordination.

Referring to the section of the report titled "The Institutional Environment," President Shaw noted that one element emphasized in *Design for Diversity* was the need for integrating ethnic studies into the curriculum. UW-Madison already had decided that the College of Letters and Sciences would have an ethnic studies requirement, beginning with the class entering in fall 1989. The School of Business and the School of Family Resources and Consumer Sciences also had adopted an ethnic studies requirement for the fall of 1989. There was major progress in this area at UW-Milwaukee as well as other institutions, and it was expected that this portion of the plan would be completed by January 1989.

Another element of the plan was the policy statement and guidelines on racist and other discriminatory conduct which were before the Board of Regents for approval. These guidelines would serve as a model for UW institutions to follow in the development of their own codes by January 15, 1989. Several weeks previously, there had been a workshop on this matter for faculty, staff and students throughout the UW System. In addition to the guidelines, UW-Oshkosh had produced a brochure on racism and racial harassment.

In the area of recruitment, institutions were setting goals, and annual reports would be made. Preliminary indications were that fall enrollment of minorities had increased, with UW-Madison reporting an increase of 86 black, Hispanic and American Indian students over last fall. There were 33 minority students in the Law School, an increase of 15 over the previous year's class. The Milwaukee initiative called for substantial increases in the number of new minority freshmen by fall 1990.

UW institutions also were making efforts to strengthen their relationships with local minority communities and schools, as directed in *Design for Diversity*. For example, UW-Eau Claire was enhancing its partnership with Black River Falls High School to better serve American Indian students; UW-La Crosse was using its early outreach tutoring program for recruitment links with minority middle school students at Tomah, Black River Falls and La Crosse; and UW-Green Bay was strengthening its contacts with native American students in the surrounding area. At the UW Centers, there were three programs--the College Sampler, Project Excel, and Puerta Abierta de la Universidad--established to recruit minority students and to make the environment one in which majority students would learn more about minority cultures.

The Minority Information Center continued to provide useful assistance to all UW System institutions by facilitating their contacts with minority communities. Last year, over 2,200 inquiries were handled and more than 3,100 hours of meetings, conferences and fairs were attended by Minority Information Center staff.

With regard to minority faculty and staff, President Shaw announced that he had received the final report of the President's Select Committee on the Status of Minority Faculty and Staff, which contained very helpful suggestions for recruitment and retention of minorities. Further, a sourcebook on minority recruitment and retention had been completed by Dr. Sulton, Dr. Swoboda and their staffs. Preliminary data indicated that even without new funding, which would be very much needed, some progress had been made this year, due to the commitment of the Board of Regents and the institutions. For example, UW-Whitewater increased its number of minority staff by six this fall. In addition, a number of faculty exchanges with historically black, Hispanic and native American institutions had been initiated or renewed. UW-Whitewater was reviving its arrangement with Grambling State University; UW-Eau Claire had initiated an exchange arrangement with Tennessee State University, and UW-Superior would soon finalize a comprehensive cooperative arrangement with Lac Court Orielles Community College.

In the area of articulation, President Shaw noted the importance of ensuring that university efforts mesh with those of the public schools.

With regard to organizing for effectiveness and accountability, the president indicated that staff members in the budget, academic affairs and information services areas were being assigned to support Dr. Sulton in moving the *Design for Diversity* forward.

Regent Weinstein recalled that during the public hearings on the status of minorities, community leaders expressed great interest in working more closely with the UW System, to help assess whether or not the needs of minorities were being met. In response, each campus, as well as the system as a whole, was to develop a community leadership relationship. He inquired about the timetable for establishing a community leadership committee at the system level.

While he expected to meet the January 1, 1989, deadline set forth in the plan, President Shaw indicated that the major activity in the last few months had been to evaluate institutional programs for their impact on retention. When formed, the committee would be carefully constituted to include wide representation of interested persons.

Noting that UW-Madison and UW-Milwaukee each had a separate plan, Regent Jarvis asked how these plans would be coordinated with the system plan.

President Shaw replied that *Design for Diversity* called for each institution to undertake a number of initiatives, including improvement of the campus environment, examination of the curriculum, consideration of ways

to eliminate racial harassment, new efforts in recruitment, and working with minority communities. Differences among campuses would result in differences among plans. For example, UW-Parkside might have higher expectations for minority recruitment than some other institutions, while UW-Superior and UW-Green Bay might plan to recruit more native Americans than other minorities. While the programs would be coordinated, differences were expected in terms of goals for students and faculty. These plans would be incorporated in reaching overall system goals.

Report of United Council of UW Student Governments — *United Council goals for the year summarized, pp 14-15*

Mr. James Smith, President of United Council, summarized goals for the coming year, as set forth in United Council's recently adopted platform. One important goal was improved safety on the campuses. The women's safety directors of United Council and of the institutional student governments were assessing such safety features as lighting of walkways, the intent being to compile a safety analysis of all campuses by the end of the year.

Another goal was to address the needs of nontraditional students in such areas as financial aid. In that regard, United Council intended to monitor interpretation of the budget provision that child care costs should be considered in determining a student parent's financial need.

United Council also planned to assist in implementing the *Design for Diversity*, one means being for students to help in recruitment efforts. As part of Higher Education Awareness Week, United Council sponsored a minority pre-college conference at UW-Oshkosh, which was attended by 35 students, most of whom Mr. Smith expected to enroll in the UW System. Another conference was to be held in the spring. In addition, United Council's minority affairs director, along with student committees throughout the state, planned to assist in retention efforts.

Tuition and financial aid again would be a primary focus of United Council. While it was understood that a substantial tuition increase might be necessary, Mr. Smith commented that it was very important for increases in financial aid to match tuition increases and inflation. In addition, United Council again would support legislation to cap tuition at 33 percent of instructional cost.

Another goal was to address problems caused by the requirement that fall classes could not begin before September 1. One result had been the scheduling of Saturday classes, which created hardships for students with families or with weekend jobs. Because it did not seem likely that the starting date requirement could be repealed, United Council would focus on obtaining waivers from Saturday classes for students with special needs.

Completing his summary of goals, Mr. Smith indicated that copies of the platform would be sent to all regents.

Mr. Smith reported that, with special assistance from the UW-Parkside student government, United Council was setting up a computer network to link student governments throughout the state. Savings of time and money were expected, as well as the benefit of being able to communicate quickly when necessary.

In conclusion, Mr. Smith reported that United Council now represented 24 of the 26 campuses in the UW System--all but the UW Centers at Baraboo and Barron County. Discussions were under way at these campuses, and full membership by the end of the year was the goal. It was felt that representation of students on all UW System campuses would augment United Council's effectiveness.

REPORT OF THE EDUCATION COMMITTEE

Vice Chairman Flores reported for the committee, noting that the joint meeting with the Business and Finance Committee regarding adoption of Report of the President's Task Force on Telecommunications and the Management Information System Report would be included under the report of the Business and Finance Committee.

Students
→ ACT Performance Scores of Wisconsin High School Students, p. 15

Noting that all regents had received copies of the ACT performance scores of Wisconsin high school students, Regent Weinstein commended the Department of Public Instruction for the high quality of preparation reflected in these scores. He also noted the wisdom of the Board of Regents' action requiring applicants for admission to the UW System to take the ACT test. Other committee members joined in commending the Department of Public Instruction.

Report of the Vice President

VW Superior - Report on Interinstitutional Agreement ^{with} at UW Superior

~~Vice President Trani reported to the Education Committee on a cooperative interinstitutional agreement being finalized between UW Superior and Lac Court Orielles Ojibwa Community College. Chancellor MacTaggart characterized the agreement as the first arrangement of its kind in the upper midwest.~~

→ p. 15

Minutes - Establishment ofUW System/State Historical Society Task Force on the Black/Hispanic/Native American Experience, p. 16

X ref Historical Society - (case)
 It was reported that the Joint UW System/State Historical Society Task Force held its first meeting this week. The Task Force was charged with planning a series of programs focusing on the Black/Hispanic/Native American experience. This was one of the programs set forth in *Design for Diversity*.

Education, International - Report of Council on International Education, p. 16

UW-Green Bay Vice Chancellor William Kuepper, outgoing chair of the UW System Council on International Education, reported on current activities of the council.

BusinessReport on Implementation of Strategic Planning in Business Recommendations, p. 16

Vice President Trani reported to the Education Committee on the implementation status of the strategic planning recommendations, which had been adopted by the Board of Regents in September 1987. UW-Madison Chancellor Shalala and UW-Milwaukee Chancellor Smith commented on progress at their institutions and specific plans to upgrade their business schools.

In the discussion that followed, concern was expressed about the long-range implications of some short-range budgetary decisions, and whether the regents would receive planning materials before being asked to make decisions on the first round of allocation decisions in the biennial budget request. Issues included the question of how to define a top-ranked business school or program and how to determine when that status has been achieved. Another question concerned the accreditation status of graduate business programs of the UW System. It was emphasized that reports presented "for information" are for that purpose only and carry no implication of approval or acceptance by the Board of Regents. The report on this item was simply an interim informational report.

UW-ParksideUW-Parkside Presentations on Research and Service Activities and the Engineering Technology Program, p. 16

Reporting on a presentation by UW-Parkside to the Education Committee, Regent Flores stated that UW-Parkside English Professor Alan Shucard described the impressive research, scholarly, creative, public and community service activities at UW-Parkside. Professor Walter Feldt, head of the Engineering Technology Division, discussed the interaction with local industry.

UW-Green BayReport on North Central Association Accreditation, UW-Green Bay pp 16-17

It was reported to the Education Committee that UW-Green Bay recently received reaccreditation by the North Central Association. Chancellor Outcalt described the process for development of the self-study and

summarized the conclusions of the North Central review team. He then introduced three new members of the UW-Green Bay administration, whose appointments responded, in part, to concerns raised in the North Central evaluation: Professor Carol Pollis, Dean of Humanities, Social Science and General Education; Professor Donald Larmouth, Dean of Arts, Science and Graduate Programs; and William Gollnick, Assistant Chancellor for American Intercultural Programs.

North Central Association - Clarification of accreditations, p. 17

In discussion at the Board of Regents meeting, Vice President Trani responded to a question from Regent Gundersen by indicating that institutions normally are reviewed every ten years for reaccreditation by the North Central Association. If a ten-year accreditation were not granted, that could indicate either that an institution had some problems or that an institution was going through the cycle for the first time. All UW System institutions were accredited.

Academic Programs -

Five Year Review: M.S. in Human Kinetics, UW-Milwaukee, R 5057, p. 17

Regent Flores summarized three five-year reviews heard by the Education Committee, the first being the M.S. in Human Kinetics at UW-Milwaukee. In view of the fact that several remaining concerns about the program had been identified, committee members felt that the resolution should provide for future regent review of the program and that the proposed five-year time frame for additional reporting should be shortened. The resolution was amended to provide for an annual report to the Board of Regents and the Vice President for Academic Affairs. The amended resolution was passed unanimously by the Education Committee.

X ref UW-Milwaukee - (same, but drop "UW-Milwaukee")
Resolution 5057 was moved by Regent Flores, seconded by Regent Davis and adopted unanimously by the Board of Regents.

Resolution 5057: That, upon the recommendation of the Chancellor of the University of Wisconsin-Milwaukee and the President of the University of Wisconsin System, the M.S. in Human Kinetics be continued, with the understanding that it will be included within that institution's normal program evaluation process, and that the Vice Chancellor of the University of Wisconsin-Milwaukee will report to the University of Wisconsin System Vice President for Academic Affairs and the Board of Regents annually on actions taken with respect to the several concerns about the program expressed in the five-year review report.

Academic Programs -

Five-Year Review: B.S.N., Nursing Degree Completion Program, UW-Green Bay, R 5058, pp 17-18

The Education Committee considered this an impressive program that provided an important service to employed registered nurses in northeast Wisconsin and that included an active outreach component.

X ref Nursing - (same)
X ref UW-Green Bay - (same, but drop "UW-Green Bay")

Regent Flores moved adoption by the board of the following resolution, which was unanimously approved by the Education Committee. The motion was seconded by Regent Davis and unanimously carried.

Resolution 5058: That, upon the recommendation of the Chancellor of the University of Wisconsin-Green Bay and the President of the University of Wisconsin System, the B.S.N. Program for Registered Nurses (Degree Completion Program), be continued, with the understanding that it will be included within that institution's normal program evaluation process.

Academic Programs

Five-Year Review: B.A., Comparative Study of Religion, UW-Milwaukee R5059, p. 18

Reporting unanimous approval by the Education Committee of Resolution 5059, Regent Flores noted that the program was described as a small, nondepartmental, interdisciplinary program, which was designed to be just that.

Xref UW-Milwaukee - Course, but dup "UW-Milwaukee"

Upon motion by Regent Flores, seconded by Regent Davis, Resolution 5059 was adopted unanimously by the board.

Resolution 5059: That, upon the recommendation of the Chancellor of the University of Wisconsin-Milwaukee and the President of the University of Wisconsin System, the B.A., Comparative Study of Religion, be continued, with the understanding that it will be included within that institution's normal program evaluation process.

Academic Programs

Authorizations to Implement New Programs: UW-Eau Claire, BS in Biochemistry/Molecular Biology; UW-River Falls, UW-Parkside, MS in Applied Molecular Biology, R 5060, 5061 + 5062, pp 18-19

Biology;

Regent Flores reported unanimous approval by the Education Committee of three proposals for new academic programs, which were presented to the committee the previous month for first reading.

Upon motion by Regent Flores, seconded by Regent Davis, the following resolutions were unanimously adopted by the Board of Regents:

UW-Eau Claire - Authorization for new program: BS in

Resolution 5060: That, upon the recommendation of the Chancellor of the University of Wisconsin-Eau Claire and the President of the University of Wisconsin System, the Chancellor of the University of Wisconsin-Eau Claire be authorized to implement the Bachelor of Science in Biochemistry/Molecular Biology, R 5060, p. 18

UW - River Falls - Authorization for new program; BS in Biotechnology, R 5061

Resolution 5061: That, upon the recommendation of the Chancellor of the University of Wisconsin-River Falls and the President of the University of Wisconsin System, the Chancellor of the University of Wisconsin-River Falls be authorized to implement the Bachelor of Science in Biotechnology.

pp 18-19

UW - Parkside - Authorization for new program; MS in

Resolution 5062: That, upon the recommendation of the Chancellor of the University of Wisconsin-Parkside and the President of the University of Wisconsin System, the Chancellor of the University of Wisconsin-Parkside be authorized to implement the Master of Science in

Applied Molecular Biology, R 5062, pp 18-19

Minorities

Racist and other Discriminatory Conduct Policy and Guidelines, R 5063, p. 19 &

Racism - see

"Minorities" Resolution 5063, which was unanimously approved by the Education Committee, was moved by Regent Flores, seconded by Regent Davis and adopted unanimously by the board.

EX A

Regent Policy - (same as "Minorities" above)

Resolution 5063: That, upon recommendation of the President of the University of Wisconsin System, the Board of Regents adopts the Racist and Other Discriminatory Conduct Policy Statement, and accepts the Guidelines for Policy Implementation, dated October 1988.

(A copy of the guidelines is attached as EXHIBIT A.)

VTAE - System

Position Paper on UW/VTAE Relationships, p. 19

President Shaw presented a position paper on the UW/VTAE relationship. Two central themes were addressed by the president: ensuring a smooth transition as students move between the two systems; and working within the premise that the state cannot afford costly duplication. He explained his position on the issues of both credit and non-credit programming, described the essence of his proposals, and stated his intention to bring a more refined proposal to the Board of Regents in the months ahead.

During discussion, it was noted that the major area of disagreement concerned transfer of non-college-parallel general education credits.

Authorizations to Recruit: UW-Madison

Resolutions 5064, 5065, 5066 and 5067, which were unanimously approved by the Education Committee, were moved by Regent Flores, seconded by Regent Jarvis and adopted unanimously by the board.

Authorizations to Recruit - *Authorization to recruit for Vice Chancellor for Academic Affairs, UW-Madison, R 5064, pp 19-20* 20

X ref Chancellors - (same)

Resolution 5064: That, upon the recommendation of the Chancellor of the University of Wisconsin-Madison and the President of the University of Wisconsin System, the request of the Chancellor to recruit for a Vice Chancellor for Academic Affairs be approved.

Resolution 5065: That, upon the recommendation of the Chancellor of the University of Wisconsin-Madison and the President of the University of Wisconsin System, the request of the Chancellor to recruit for a Dean of the Graduate School be approved.

Resolution 5066: That, upon the recommendation of the Chancellor of the University of Wisconsin-Madison and the President of the University of Wisconsin System, the request of the Chancellor to recruit for a Dean of the College of Letters and Science be approved.

Resolution 5067: That, upon the recommendation of the Chancellor of the University of Wisconsin-Madison and the President of the University of Wisconsin System, the request of the Chancellor to recruit for a Dean of International Studies and Programs, ~~be approved~~ *UW-Madison, R 5065, R 5066, R 5067, pp 19-20*

Authorizations to Recruit

Authorization to Recruit: Dean, School of Social Welfare, UW-Milwaukee

Resolution 5068, which was unanimously approved by the Education Committee, was moved by Regent Flores, seconded by Regent Jarvis and adopted unanimously by the board. *R 5068, p. 20*

X ref UW-Milwaukee - Staff - (same, but dep. "UW-Milwaukee")

Resolution 5068: That, upon the recommendation of the Chancellor of the University of Wisconsin-Milwaukee and the President of the University of Wisconsin System, the request of the Chancellor to recruit for a Dean of the School of Social Welfare be approved.

Regent President Schilling inquired as to whether there had been a request for regent participation in any of the final selections for these deanships.

Regent Flores replied that no requests had been made at the Education Committee meeting.

REPORT OF THE BUSINESS AND FINANCE COMMITTEE

Chairman Nicholas presented the report of the committee and noted that the first two agenda items were considered in a joint meeting with the Education Committee.

Telecommunications

Report of the President's Task Force on Telecommunications, R 5069, p. 21

Vice President Bornstein briefly reviewed with the committees the recommendations which had been presented at the September meeting: first, to establish academic and administrative networks; second, to develop video delivery and audiographics conferencing capabilities; third, to establish and provide staff support for a UW System Telecommunications Coordinating Council; and fourth, to develop and implement the telecommunications network plan over a five-year period. Discussion focused on moving forward promptly to secure funding through the biennial budget request to implement the task force recommendations and to coordinate the implementation effort with other state agencies. The resolution was amended to clarify this intent. It was stated that the intent included coordination with the private sector. The committees then unanimously approved Resolution 5069 as amended.

It was moved by Regent Nicholas and seconded by Regent Fish that the following resolution be adopted by the Board of Regents:

Resolution 5069: That, upon recommendation of the President of the University of Wisconsin System, the Board of Regents adopts the report of the University of Wisconsin System Task Force on Telecommunications and directs the President and the University of Wisconsin System Administration to implement as soon as possible the recommendations of the report according to the planning and implementation schedules contained therein and in coordination with appropriate state agencies;

the Board of Regents further directs that the Telecommunications Task Force Report be used to guide telecommunications planning and operations at all University of Wisconsin System institutions.

Regent Weinstein requested that the minutes of the Business and Finance Committee meeting indicate that the regents expressed a desire to move forward as quickly as possible to full implementation of the task force's recommendations and that this be done in cooperation with other agencies. The purpose of the amendment was to reflect that intent.

Put to the vote, Resolution 5069 was adopted unanimously by the board.

Management Information System Report - Approval of Management Information System reports, R 5070, p. 24

Regent Nicholas reported that the recommendations contained in the report of the Strategic Planning Group on Management Information Systems were summarized at the joint committee meeting by Executive Vice President Lyall. Central to the recommendations was use of a distributed approach to management information systems under a central strategic plan. The report identified several key strategies essential to accomplish this objective, some of which could be achieved through the reallocation of existing resources and others which would require additional funding.

Resolution 5070, which was unanimously approved at the joint committee meeting, was moved by Regent Nicholas, seconded by Regent Jarvis and adopted unanimously by the Board of Regents.

Resolution 5070: That, upon recommendation of the President of the University of Wisconsin System, the Board of Regents adopts the report of the University of Wisconsin System Strategic Planning Group on Management Information Systems to be used as a guide for planning and implementing management information systems in the University of Wisconsin System;

further, the Board of Regents directs the President and the University of Wisconsin System to implement the recommendations of the report including the recommendation for the establishment of a technical planning committee and other initiatives contained therein within the limitations of the availability of resources;

the Board of Regents further directs that the Management Information Systems Strategic Planning Group report be used to guide planning of management information systems at all University of Wisconsin System institutions.

Approval of Gifts, Grants and Government Contracts

In the reconvened Business and Finance Committee meeting, Vice President Poellnitz reported that gifts, grants and contracts for the three-month period ending September 16, 1988, totaled \$143.6 million, or \$27.6 million more than the same period last year. The increase was due to timing differences in reporting federal student financial aid. A combination of a \$30.2 million increase in student financial aid and a \$2.3 million decline in instruction accounted for the majority of the change. The non-federal share remained relatively constant.

Resolution 5071, which was unanimously approved by the Business and Finance Committee, was moved by Regent Nicholas, seconded by Regent Jarvis, and adopted unanimously by the Board of Regents.

Resolution 5071: That, upon recommendation of the President of the University of Wisconsin System, the gifts, grants and contracts presented at this meeting (copy on file with the papers of this meeting) be accepted, approved, ratified and confirmed; and that, where signature authority has not been previously delegated, appropriate officers be authorized to sign agreements.

Davis, Regent Enroll - Notation that he would support contract related to

~~Regent Davis noted for the record that the Wisconsin Utility Association was proposing a project at the Badger Army Ordnance depot in Baraboo, which was to be a research activity with no focus on defense systems. Barring an indication of conflict of interest, he intended to support the contract.~~ → p. 23

Fees -

Report on Prepaid Tuition and other Educational Savings Incentives, R 5072,

pp 23-24

Regent Nicholas reported on the Business and Finance Committee review of the Report on Prepaid Tuition and other Educational Savings Incentives, which had been presented at the June meeting. Subsequent to that meeting, the report was forwarded to the State Investment Board and the Department of Revenue for review and comment. Both agencies agreed with the findings and recommendations included in the draft report, and they made relatively few changes to the original draft. The report recommended that the state endorse a federal savings incentive program and that the state further study a state savings bond program. It did not endorse a prepaid tuition plan. The Investment Board and the Department of Revenue believed that a state savings bond program might not be necessary if a federal program were enacted.

Xref Bonds, Savings - (same)

Although a prepaid tuition program was not being recommended, Section 3054(2m) of the 1987 Wisconsin Act 27 required that draft legislation be submitted in the event the Legislature decided to enact a prepaid tuition program. After discussion, the Business and Finance Committee unanimously approved Resolution 5072.

or Savings Bonds?
It was moved by Regent Nicholas and seconded by Regent Jarvis that the following resolution be adopted by the Board of Regents.

Resolution 5072: That, upon the recommendation of the President of the University of Wisconsin System, in compliance with Section 3054(2m) of 1987 Wisconsin Act 27, the Report on Prepaid Tuition Plans and Other Educational Savings Incentives and the accompanying draft legislation for a prepaid tuition plan be accepted and, with the concurrence of the Department of Revenue and the State Investment Board, forwarded to the presiding officer of each house of the Legislature.

Regent Flores pointed out that the U.S. Senate had just voted to approve tax exemption for interest on U.S. Savings Bonds used for higher education. If enacted at the federal level, he asked if that interest would also be exempt from state taxation, and Regent Jarvis replied in the affirmative.

Put to the vote, Resolution 5072 was adopted unanimously.

Audits
Quarterly Internal Audit Report, p. 24

The Business and Finance Committee received a summary by Director of Internal Audit William Brunkow of audits conducted over the past three months throughout the UW System. They included audits of the UW-River Falls parking program, experimental farms and research stations, the UW-Oshkosh Student Center and Book Store, and UW-Stout Vocational Rehabilitation Institute grants. With the transfer of responsibility for federal financial aid audits to the Legislative Audit Bureau, the positions associated with the performance of these audits had been frozen. This might have significant impact on the level of auditing which could be done in the future, especially when combined with the loss of two FTE positions in the past four years due to budget cuts.

In discussion at the board meeting, Regent Weinstein inquired about the UW-River Falls parking audit.

Regent Nicholas explained that the auditors discovered that there had been theft of about \$10,000 from the parking meters.

Approval of Payments from William F. Vilas Estate

*Approval of payments
R 5073, pp 24-25*

Reporting unanimous approval by the Business and Finance Committee of Resolution 5073, Regent Nicholas explained that the Vilas Trust Estate was operating under a resolution passed in 1962 which stated that only the secretary or assistant secretary of the board may approve payments from the trust. In recent years, the Vice President for Business and Finance had been approving payments, even though not technically authorized to do so. The purpose of the resolution was to expand the signature authority to the trust officer and assistant trust officers.

Resolution 5073 was moved by Regent Nicholas, seconded by Regent Fish and voted unanimously by the board.

[Signature]

Policy - Authority to expand signature authority regarding Vilas Trust, R 5073, pp 24-25

Resolution 5073: That, upon the recommendation of the President of the University of Wisconsin System, the Secretary, Assistant Secretary, Trust Officer or Assistant Trust Officers of the Board of Regents of the University of Wisconsin System be authorized to sign certificates and warrants addressed to the Trustees of the Estate of William F. Vilas for payments of amounts payable to the Board of Regents pursuant to proffers made by the Trustees of said Estate to the said Regents in accordance with the Will of said William F. Vilas, deceased.

(This resolution replaces a former resolution adopted May 4, 1962 which only provided that the Secretary or Assistant Secretary could sign such certificates and warrants.)

UW-Parkside Presentation on Reallocation, p. 25

Chancellor Kaplan and Associate Dean Greenebaum presented to the Business and Finance Committee information about the impact on UW-Parkside of shortfalls in supplies/expense (S&E) and capital funding, budget cuts and internal reallocations. Due to the size of the UW System budget, Chancellor Kaplan observed that the severity of budget shortages and reductions at individual institutions was not always apparent. She provided charts and graphs depicting losses over the past ten years due to inflation. This shortfall, for example, had prevented UW-Parkside from improving its computer software and hardware, its language laboratory, and its library materials. After allocating resources needed to keep the plant operational, few S&E and capital dollars remained.

Chancellor Kaplan outlined the impact of state-mandated reductions, institutional reallocation and unfunded inflation, pointing out that the greatest impact had been on educational support services due to the reduction of library staff, student services counselors, financial aid counselors and physical plant staff.

In discussion at the Board of Regents meeting, Regent Weinstein observed that other chancellors could make similar comments. Because shortage of supplies was a serious problem on the campuses, he suggested that a funding request to address the issue should be prominently set forth in the budget.

Investments

Appointment of Investment Manager, R 5074, p. 26

Reporting unanimous approval by the Business and Finance Committee of Resolution 5074, Regent Nicholas reported that the committee was informed by Vice President Poellnitz that one of the investment managers approved at the September meeting--Federated Investment Counseling--was withdrawing because the firm would not agree to comply with state regulations. In order to contract with another equity-value manager, it was required that the contract be offered to the next highest scoring firm of those interviewed, which was Columbia Management Company.

Trust Funds - (same)

Adoption by the Board of Regents of Resolution 5074 was moved by Regent Nicholas and seconded by Regent Fish.

Resolution 5074: That, upon the recommendation of the Business and Finance Committee and the President of the University of Wisconsin System, the authorization to contract Federated Investment Counseling as investment counsel is hereby rescinded and the Trust Officer or Assistant Trust Officers, with the approval of the Department of Administration, be authorized to sign an agreement with Columbia Management Co. for contractual services as investment counsel for the period October 1, 1988, through September 30, 1991, with a one-year renewal option to September 30, 1992 (in accordance with RPA GG-6618).

In response to a question by Regent Davis, Regent Nicholas explained that Federated Investment Counseling did not accept the contract because the contract prohibited discrimination on the basis of sexual orientation.

Put to the vote, Resolution 5074 was adopted unanimously by the board.

Report of the Vice President

Business/Industry - Report of

Task Force on Competition with the Private Sector, pp 26-27

Vice President Poellnitz updated the committee on the activities of the Task Force on Competition with the Private Sector, which had completed a draft policy statement and was to submit a draft report to President Shaw on October 15. The majority of the work remaining was to address concerns expressed in the Legislative Audit Bureau's audit of UW System laboratories. The final report of the task force would be presented to the regents in December.

In discussion at the board meeting, Regent Flores asked if action by the Board of Regents would be requested in December or if there would be more time for consideration of this important issue.

President Shaw replied that the intention was to present it to the board in December but not to request action until February. The reason for the delay from October to December was that the task force had been asked to address certain concerns raised by the Joint Audit Committee that were not in the original charge. Response to those issues was due in November

Budget - Release of funding for last 25 of 341 positions in 1987-89 biennial budget
Release of Positions p. 27

It was reported to the Business and Finance Committee by Vice President Poellnitz that on September 19, the Joint Committee on Finance unanimously approved release of funding for the last 25 of the 341 positions provided in the 1987-89 biennial budget. These positions were authorized for hiring effective January 1, 1989, and would be distributed according to the decision rules approved by the Board of Regents.

In discussion at the board meeting, Chairman Nicholas added that in releasing the 25 positions, the Joint Finance Committee attached additional reporting requirements on add/drop policy, academic fees and course selection incentives. System administration did not foresee any problems in preparing these reports.

Regent Weinstein asked if the Board of Regents would act on the reports before they were forwarded to the Legislature.

Replying in the affirmative, President Shaw added that there were two questions to be addressed. While the Joint Finance Committee accepted the logic that a per-credit fee approach was not necessary to reduce the drop rate, the concern was that the report had not dealt sufficiently with questions of equity and competitiveness. The intent, therefore, would be to address those two issues without assuming either that the report would recommend no change or that it would support per-credit fees. There were a variety of alternatives between those positions, and the plan would be to develop four or five options that addressed the equity and the competitiveness questions, to be shared with the regents and the institutions, after which a recommendation would be made.

REPORT OF THE PHYSICAL PLANNING AND DEVELOPMENT COMMITTEE

The committee's report was presented by Chairman Nikolay.

UW-Madison: Approval of Design Reports for Major Projects

The committee unanimously approved design reports for two major projects at UW-Madison. The first was for the Babcock Hall addition and remodeling at a total cost of \$6,012,000, including the \$3.99 million project as enumerated in the 1987-89 capital budget, plus \$1.6 million for the first phase of a total facilities performance evaluation project and incorporation of two previously approved minor projects to replace the roof and to remodel the Cheese Research Institute. The second was for the

Russell Laboratories addition and remodeling project at a cost of \$2,439,000, to provide the increased space needs for the Department of Forestry and Wildlife Ecology. Both projects were within the approved scope and budget.

Bldg + Land - Approval of Babcock Hall Addition/Remodeling, R 5075, pp 27-28

Adoption by the Board of Regents of Resolution 5075 was moved by Regent Nikolay, seconded by Regent Nicholas and carried unanimously.

Resolution 5075: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, the Design Report be approved and authority granted to prepare final plans and specifications, bid and construct the 1987-89 Babcock Hall Addition/Remodeling - Phase I project on the campus at UW-Madison, at an estimated total project cost of \$3,999,000 (\$3,249,000 General Fund Supporting Borrowing Funds; \$750,000 Gift). Authority is also granted to bid and construct a Phase I Total Facility Performance Evaluation study at an estimated cost of \$1,636,500 from the various all-agency appropriations and to request authority to combine with this project the previously approved Roof Replacement project (\$181,500 GFSB-Maintenance) and the 1987-89 Cheese Research Institute Remodeling (\$195,000 GFSB-Minor Projects) for a total combined project cost of \$6,012,000.

X ref Babcock Hall - (same)

Regent Nikolay moved and Regent Jarvis seconded Resolution 5076, which was adopted unanimously by the board.

Bldg + Land - Approval of

~~Resolution 5076: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, the Design Report be approved and authority granted to bid and construct the 1987-89 Russell Laboratories Addition project, on the campus at the UW-Madison, at an estimated total project cost of \$2,439,000, 1987-89 General Fund Supported Borrowing funds.~~

Hazardous Materials -*

Approval to Contract for Conducting of Comprehensive Asbestos Survey of UW System Buildings, R 5077, pp 28-29

Regent Nikolay reported unanimous approval by the Physical Planning and Development Committee of a request to the State Building Commission to use \$774,000 of program revenues and seek the release of \$1,456,000 of all-agency funds to undertake a comprehensive asbestos survey of University of Wisconsin System facilities. The survey would involve approximately 1,300 buildings and would be conducted by an environmental engineering and testing firm. The committee expressed wholehearted support for this plan.

** Asbestos Materials - see "Hazardous Materials"*

It was moved by Regent Nikolay and seconded by Regent Gerrard that the following resolution be adopted by the Board of Regents:

Resolution 5077: That, upon the recommendation of the UW System Chancellors and the President of the University of Wisconsin System, authority be granted to forward a request to the Wisconsin State Building Commission to use \$774,000 of Program Revenue funds and seek the release of \$1,456,000 of General Fund Supported Borrowing - Health, Safety and Environment Funds, for a total of \$2,230,000, to contract with an environmental engineering and testing firm to conduct a comprehensive asbestos survey of UW System buildings. This survey will include about 1300 facilities on the 13 four-year campuses, 13 two-year centers, and some of the farms and field stations.

In discussion at the board meeting, Regent Fish stated his support for undertaking this action to address the asbestos problem, noting that the report made no reference to encapsulation. He suggested that the testing firm be advised that the board would favor encapsulation only in non-public areas not open to student traffic. His second concern was that in setting up a system for rating asbestos danger, there should be discussions with legal counsel to assure that the method of ranking would not result in vulnerability to legal actions, if there were cases in which areas were rated as dangerous but funds were not adequate to overcome the problem. He thought both system legal counsel and the Attorney General's office should be consulted before a final ranking was made, so that the legal implications would be clearly understood.

Concurring that legal counsel would be consulted, Vice President Brown noted that the ranking established by the Environmental Protection Agency would be used but that the question of liability had not been addressed.

Put to the vote, Resolution 5077 was unanimously adopted by the board.

Annual Release of 1987-89 Advance Land Acquisition Funds;
Authorization to Purchase Specific Parcels

The Physical Planning and Development Committee reviewed a request for annual release of 1987-89 advance land acquisition funds with a total of \$350,000 being requested to acquire eight parcels. All were within the campus boundaries except for UW-Whitewater, where approval of the acquisition would result in expansion of the boundary to encompass the parcel. Any parcel which could not be acquired for a cost at or below the average of two appraisals would be returned to the Board of Regents for further consideration. After discussing these requests, the committee adopted Resolution 5078 on a vote of 2 Ayes, 1 No.

Adoption by the Board of Regents of Resolution 5078 was moved by Regent Gerrard and seconded by Regent Jarvis.

Resolution 5078: That, upon the recommendation of the UW-Madison, Oshkosh, River Falls, Stout and Whitewater Chancellors and the President of the University of Wisconsin System, authority be granted to seek the release of \$350,000 of 1987-89 Advance Land Acquisition Funds to appraise, option and purchase the specified parcels at a price which is at or below the average of a minimum of two appraisals, plus required relocation costs.

Bldg & Land - Authority to purchase land parcels, R 5078, pp 29-32

UW-Oshkosh - Bldg & Land - Authority to purchase land parcel, R 5078, pp 29-32

UW-River Falls - Bldg & Land - (same)

UW-Stout - Bldg & Land - (same)

UW-Whitewater - Bldg & Land - (same)

	<u>Parcels to be Acquired</u>	<u>Estimated Expense Purchase, Relocation and Closing Costs</u>
UW-Madison:	4	\$ 98,000
UW-Oshkosh:	1	85,000
UW-River Falls:	1	45,000
UW-Stout:	1	94,000
UW-Whitewater:	<u>1</u>	<u>28,000</u>
Total:	8	\$350,000

Each parcel acquired under this authority is to be reported in the Report of Non-Personnel Actions by Administrative Officers of the Board.

In discussion at the board meeting, Regent Nikolay stated that he objected to the idea of buying land from owners who had no use for it and sold it to the university as a last resort. In the case of UW-Whitewater, the proposal was to buy a small parcel on the highway so that it could not be purchased for a fast food business, even though the city council could refuse to rezone it for that use. The parcel was too small for a home or other uses.

In response to a question by Regent Davis, Regent Nikolay said the parcel was located adjacent to the campus boundary.

Regent Davis inquired as to the logic of buying any property outside of the campus development plan.

Chancellor Connor replied that the purpose was to keep the land from being put to another use. There was a possibility that Bassett House would at some time revert to the city, in which case the house could be razed and the property, including the parcel in question, could be used for another type of building.

If this parcel were purchased, Regent Fish asked if the university would not then wish to buy the adjacent parcel.

Chancellor Connor did not think that would occur because this purchase would enable the Bassett House to be retained.

Regent Fish commented that there sometimes seemed to be a tendency for the universities to extend boundaries whenever the opportunity arose.

Regent Weinstein asked if there was assurance that the purchase price was fair.

Regent Fish replied that there were two appraisals, and Vice President Brown added that all the prices listed in the resolution were based on the average of two appraisals. In no instance was there a large difference between the appraisals.

In response to a question by Regent Davis, Vice President Brown explained that it was the practice to acquire properties within the campus boundaries when they were offered for sale, but not to use condemnation procedures. The land was used either for project development or for open space. While the UW-Whitewater purchase would expand the boundary by the size of that parcel, the usual practice was to stay within the boundaries which had been endorsed by the Board of Regents.

Regent Davis asked if purchase of the Whitewater property automatically would change the campus boundary, and Vice President Brown replied in the affirmative.

Regent Fish recalled that when the board last reviewed the campus boundaries ten years ago, one chief concern was the impact of the Relocation Assistance Act. It was discovered that if a property were inside the boundary, relocation assistance tended to be higher than if the property were outside the boundary. Therefore, many regents had resisted expansion of the boundaries beyond what was most strongly justified.

Regent Nicholas inquired as to the purposes of the other acquisitions requested in the resolution.

Vice President Brown replied that they were for building purposes, open land purposes or, in the case of UW-Oshkosh, for a parking lot. In the case of UW-Whitewater, there was an historic building on the corner, and the owners wanted to offer the parcel in question for sale so that they would have sufficient finances to continue operation of the house.

Agreeing with Regent Fish as to the matter of relocation assistance, Regent Gerrard explained that the Madison request involved four small houses which had been used for student rental. The owner had passed away and his son was selling the property. To protect the university from relocation costs, he was not renting the houses. In the Whitewater case, the Federation of Women's Clubs, which owned the land, was attempting to sell one parcel in order to maintain a building which could become a national historic site. He urged approval of this and the other proposed acquisitions, all of which he had reviewed in detail and considered justified.

Regent Clusen noted that the Whitewater purchase would fill out part of a notch in the existing campus boundary. The parcel appeared logically to belong within the boundary. Vice President Brown added that the remaining part of the notch was the property on which the historic house was located.

Regent DeLong commented that he would have recommended inclusion of those parcels within the campus boundaries.

Regent Fish thought the owners might have wanted the property excluded at that time, and Chancellor Connor confirmed that was what had occurred.

Put to the vote, Resolution 5078 was adopted by the board, with Regent Nikolay voting "No."

Approval of Minor Projects

Presenting Resolution 5079, which was unanimously approved by the Physical Planning and Development Committee, Regent Nikolay moved its adoption by the Board of Regents. The motion was seconded by Regent Jarvis and carried, with Regent Davis abstaining from the vote.

Resolution 5079: That, upon the recommendation of the UW-Eau Claire, LaCrosse, Madison, Milwaukee, Platteville, Stevens Point and Extension Chancellors and the President of the University of Wisconsin System, the following minor projects be approved, at the budgets and from the funding sources indicated. The funding sources are summarized as follow:

Program Revenues	\$ 141,000
General Fund Supported Borrowing:	
Health, Safety and Environment	203,000
Energy Conservation	143,700
Maintenance Program	87,300
Minor Projects	642,300
Wisconsin Power and Light Co.	19,463
	<u>\$1,236,763</u>

Report of the Vice President

UW-Stevens Point - ~~Bldg & Land~~ - Update to Bid Opening - Treehaven Project, p. 33

Regent Nikolay reported that the Physical Planning and Development Committee was advised by Vice President Brown about a bid opening related to the Treehaven project approved by the board in May. This \$230,000 project, funded by the UW-Stevens Point Foundation, originally contemplated addition to the dining room and classroom portions of the facility and a separate addition to the kitchen. When the budget estimates were made, it did not appear that funds would be adequate to cover the cost of the entire project. Consequently, it was felt that the kitchen addition could be deferred and returned to the board as a program-revenue funded minor project when more funds were available. However, when bids were opened, it was found that the combined bid, which included the kitchen addition, was within the approved budget of \$230,000. Because the work had been planned and previously discussed with the committee and because it would be accomplished within the approved budget, it was concluded that the most prudent course of action was to authorize the award of contracts so that work could proceed. To have requested a separate approval in November would have meant loss of one month of construction time, which the committee did not advocate.

ADDITIONAL RESOLUTION

~~Appreciation to UW-Parkside~~ - *Appreciation for hosting Regent meetings*
R 5080, p. 34

Regent Nikolay presented the following resolution and moved its adoption by the Board of Regents. The motion was seconded by Regent Jarvis and carried unanimously.

Resolution 5080: Whereas, the Board of Regents has had the pleasure of holding its October 1988 meetings at UW-Parkside; and

Whereas, it was a particular privilege to participate in UW-Parkside's 20th anniversary celebration; and

Whereas, we very much appreciate the gracious hospitality extended by Chancellor Kaplan, her staff and the entire campus community, including the special presentations and tour which were provided;

Therefore, be it resolved that the Board of Regents hereby expresses its gratitude to UW-Parkside for a most interesting, enjoyable and memorable occasion.

COMMUNICATIONS, PETITIONS, MEMORIALS

Hanson, Regent Cavello - Hospitalist of husband, Louis, p. 34
Hospital Visit to Louis Hanson

Regent Nikolay reported on his recent hospital visit with Louis Hanson, who was recovering from surgery.

Fitzgerald, Regent Maulyn - Memorial services on passing, p. 34
Memorial Services for Regent Emeritus Fitzgerald

Regent Gerrard indicated that he planned to attend a memorial service on October 8 in Platteville for Regent Emeritus Marilyn Fitzgerald who had recently passed away.

President Schilling added that flowers and condolences had been sent on behalf of the Board of Regents.

UW Centers - setting of hearing on faculty dismissal under vws 4, pp 34-36

UNFINISHED OR ADDITIONAL BUSINESS

x ref Administrative Code - (same, but add "UW Centers")
Dismissal Recommendation, UW Centers, p. 34-36

President Schilling reported that a recommendation had been received from the UW Centers' chancellor for dismissal of a former faculty member.

Because the matter involved a tenured appointment, it must be heard and acted upon by the Board of Regents under Chapter UWS 4, *Wisconsin Administrative Code*. The item was on the agenda for this meeting only for discussion of procedural and scheduling aspects, with the substance of the matter to be considered at a later meeting.

Copies of the recommendation of the chancellor and the Faculty Appeals and Grievances Committee had been distributed to the regents, along with a memo from System Counsel Stathas regarding the procedure to be followed.

Regent Schilling called on Mr. Stathas for advice as to procedure and scheduling of this matter in compliance with UWS 4.

Mr. Stathas recommended that the secretary advise the former faculty member and his counsel that they would have until November 9 to file exceptions to the recommendation and to advise whether or not they wished an opportunity for oral argument before the board. On receipt of those exceptions, the UW Centers would have until November 30 to respond. The Board of Regents could then conduct its hearing in December.

Regent Davis asked if the board had the prerogative of accepting briefs in lieu of oral arguments.

Mr. Stathas replied that the administrative code required that an opportunity to make oral arguments be provided.

Regent Fish asked if there had been any communication with the former faculty member's attorney as to whether that time frame would be acceptable, and Mr. Stathas replied in the negative.

Regent Flores considered the suggested time frame to be reasonable.

In response to a question by Regent Weinstein, Mr. Stathas advised that the time permitted for oral arguments could be limited.

Regent Weinstein suggested that the hearing be scheduled from 10:00 a.m. to 12:00 noon on Thursday, December 8.

Regent Flores noted that the Hospital Council of Trustees was not scheduled to meet in December.

In response to a question by Regent Fish, President Schilling advised that General Counsel Stathas had been asked to make recommendations as to the procedure and schedule to be followed to ensure full compliance with legal requirements.

Because System Counsel Hodulik was representing the UW Centers in this matter, Mr. Stathas recommended that the Attorney General's office be requested to provide counsel for the Board of Regents.

Regent Davis asked if the board members were required to have read the entire record.

President Schilling replied that the regents had an obligation to read the record in its entirety.

President Schilling suggested that each of the two parties be allowed 30 minutes for oral argument, after which the board would have time to deliberate.

Mr. Stathas added that the hearing would be in closed session unless the person recommended for dismissal requested that it be in open session.

It was moved by Regent Fish and seconded by Regent Jarvis that the procedure be adopted as recommended, with the deadline for filing exceptions to be November 9, the deadline for the UW Centers' response to be November 30 and the hearing to be scheduled for December 8 from 10:00 a.m. to 12:00 noon. The motion was adopted unanimously.

Regent Fish suggested that no all-regent committee sessions be scheduled for December 8, in order to ensure adequate time for the hearing and board deliberation.

In reply to a question by Regent Clusen, President Schilling explained that the hearing would consist of oral arguments only, with no examination of witnesses. The regents would be allowed to question the parties.

- - -

At 11:55 a.m., the following resolution was moved by Regent Lyon, seconded by Regent Clusen and unanimously adopted on a roll call vote, with Regents Clusen, Davis, DeLong, Fish, Flores, Gundersen, Jarvis, Lyon, Nikolay, Schilling and Weinstein voting "Aye" (11), and no regents voting "No."

Resolution 5082: That the Board of Regents recess into closed session to consider personnel matters, as permitted by s. 19.85(1)(c), *Wis. Stats.*; to consider an honorary degree at UW-Milwaukee, as permitted by s. 19.85(1)(f), *Wis. Stats.*; and to confer with legal counsel, as permitted by s. 19.85(1)(g), *Wis. Stats.*

- - -

CLOSED SESSION ACTION

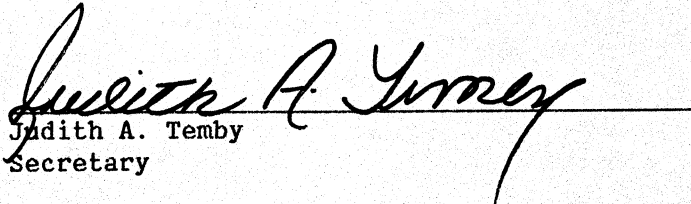

The board arose from closed session at 2:05 p.m. and made the following announcement:

UW - Milwaukee - Approval for Honorary Degree; Dr. of Humanities
Marian Wright Edelman

Resolution 5083: That, upon the recommendation of the UW-Milwaukee
Chancellor and the President of the University of Wisconsin System, approval be granted to award to
Marian Wright Edelman the Honorary Degree of Doctor of Humanities, to be conferred at commencement in
December 1988, subject to acceptance by the nominee. R5083
P. 37

The University of Wisconsin System
Racist and Other Discriminatory Conduct
Policy Statement and Guidelines
October 1988

POLICY STATEMENT

It is the policy of the Board of Regents of the University of Wisconsin System, that racist and other discriminatory conduct toward students, employees, officials and guests in the University of Wisconsin System is conduct which will not be tolerated. Discrimination, discriminatory attitudes, and expressions that reflect discrimination are inconsistent with the efforts of the University of Wisconsin System to foster an environment of respect for the dignity and worth of all members of the university community and to eliminate all manifestations of discrimination within the university.

Racist and other discriminatory conduct encompasses harassing conduct based upon the race, sex, religion, color, creed, disability, sexual orientation, national origin, ancestry or age of an individual or individuals. Harassment of this kind is a form of discrimination. Campus politics and cultures have changed favorably throughout the University of Wisconsin System over the course of years, but not enough to eliminate all forms of discrimination. Incidents of racial harassment and other types of discriminatory conduct continue to occur. All such episodes are harmful to the individuals directly involved, and diminish the university community as a whole. Incidents of racial harassment, for example, may lead minority students, employees, officials and guests to feel isolated or to choose to isolate themselves from the numerically predominant racial/ethnic group within the university. Divisions of this kind, which result from discriminatory harassment, are at variance with the board's purpose of fostering racial understanding and cooperation, and undermine the goal articulated in the UW System's Design for Diversity: ". . .to educate all students for an increasingly multicultural society in Wisconsin, our nation and our world."

Effective policies and procedures are necessary to prevent racist and other discriminatory conduct. Accordingly, all UW System institutions are directed to develop implementing policies and procedures to protect students, faculty, academic staff and classified staff from harassment, and to ensure prompt corrective action whenever it may occur.

GUIDELINES

Each UW System institution is directed to submit, not later than January 15, 1989, policies and procedures to protect students, employees, officials and guests from racist and other discriminatory conduct and to ensure prompt corrective action whenever it may occur. Institutional policies and procedures implementing the Board's policy should, at a minimum, contain the following:

1. A clear statement of the institution's commitment to the elimination of racist and other discriminatory conduct.

This statement may be presented in an existing policy statement concerning general principles of non-discrimination, or articulated in a separate institutional policy. For example, since all institutions currently have in place policies concerning sexual harassment, it may be appropriate to broaden the scope of these provisions to include other forms of discriminatory harassment as well. It would, however, also be appropriate to develop a series of separate statements, each with a narrower focus. Some institutions may choose, for example, not to amend their sexual harassment policies; to focus on racial harassment as a special subject of policy development in response to the Design for Diversity's emphasis on minority problems; and to deal with other forms of discriminatory conduct as discrete policies.

2. A definition of those forms of racist and other discriminatory conduct which will be grounds for disciplinary action.

- a. Definitions consistent with the following statement may be appropriate.

"Racist and other discriminatory conduct" means intentional conduct, either verbal or physical, that explicitly demeans the race, sex, religion, color, creed, disability, sexual orientation, national origin, ancestry, or age of an individual or individuals, and (1) has the purpose or effect of interfering with the education, university-related work, or other university authorized activity of a university student, employee, official or guest; or (2) creates an intimidating, hostile or demeaning environment for education, university-related work, or other university authorized activity.

- b. In addition, institutions may wish to provide specific examples of racist and other discriminatory conduct, to further enhance understanding of the problem. Such examples might include:
- o physical contact or attacks for racial reasons;
 - o intimidation through the threat of force or violence on a person's body, possessions or residence;
 - o verbal assaults based on ethnicity, such as name calling, racial slurs, or "jokes" that demean a victim's color, culture or history.
- c. It is important to note that not every act that may be offensive to an individual or group will be considered to be racist and discriminatory conduct and a violation of system or institutional policy. Whether a specific incident constitutes harassment proscribed by university policy will be decided on a case-by-case basis in accordance with the procedures developed by each institution. Due consideration will be given to the protection of individual First Amendment rights to freedom of expression and academic freedom.

3. A process for informal resolution of complaints of racist and other discriminatory conduct, counseling, and a description of the formal disciplinary procedures, remedies and sanctions available for redress of valid complaints.

The procedures should allow for a person to complain initially to a variety of officials, provide for a thorough investigation, and outline the range of sanctions that may be imposed on offending students, student organizations, faculty, academic staff and classified staff. The policy may include a statement indicating that retaliation for filing a complaint of racist or discriminatory conduct is prohibited. In developing these processes, it is appropriate to incorporate by reference existing grievance and disciplinary procedures applicable to students, student organizations, faculty, academic staff and classified staff.

There may, however, be circumstances where more extensive changes are required to fully implement the board's policy. With respect to the student code of conduct, for example, it may become necessary to amend sections of Chapter UWS 17 of the Administrative Code to effect desired changes. System Administration staff will review all institutional policies and procedures for consistency with these guidelines and existing administrative rules. Those portions of institutional policies that are consistent with the guidelines and rules can be implemented immediately. Those requiring changes in the administrative code will be reviewed and brought to the board for appropriate action after all institutional policies have been submitted.

4. A mechanism for designing educational programs to inform students, student organizations, faculty, academic staff and classified staff of the nature of racist and other discriminatory conduct in order to increase their sensitivity to it, and for publicizing the procedures, sanctions and remedies available against racial harassment.

PROCESS FOR REVIEW LEADING TO APPROVAL OF INSTITUTIONAL POLICIES

System Administration staff will be available to assist the institutions in their efforts to implement this policy, to answer specific legal or policy questions, and to provide information and materials on the subject of racist and other discriminatory conduct that may be useful in the drafting of definitions and procedures or in preparing education programs.

All institutional policies and procedures for students, employees, officials and guests shall be presented to the Special Assistant to the President for Minority Affairs for review and approval not later than January 15, 1989. The institutional policies become effective upon approval by the Board of Regents.

10/88

III. REPORT OF ACTIONS TAKEN (MEMOS OF AGREEMENT)

Check print me

A. A Memorandum of Understanding with Dane County Head Start on behalf of the School of Education, Department of Educational Psychology covering the 1988-89 academic year. This agreement establishes a cooperative relationship whereby the Department's Psychoeducational Clinic provides mental health consultation services to the Dane County Head Start and, at the same time, an essential training experience is provided for students in the Department's graduate program. The 1988-89 agreement has been modified to clarify the activities for which reimbursement will be provided and the reimbursement rate; otherwise, it is similar to the 1987-88 agreement.

B. On signature of the Vice President for Physical Planning and Development, the following lease agreements have been renewed:

Beds + Land - Lease agreement letter
Krupp Tech. School - (same)

Lessee: ~~UW Madison~~ School of Veterinary Medicine and
Lessor: *Fitzgibbon Estate in Waunakee, Wausau, Wis. Item B*
Location: 5942 Highway K, Waunakee, WI
Size: 50 acres (Land and Barn)
Lease term: November 1, 1988 to October 31, 1989
Annual rental \$7,200
Renewal option: None

UW Centers - Beds + Land - Lease agreement for space at

Lessee: UW Centers
Lessor: Madison Metro School District
Location: *545 W. Dayton Street, Madison, Wausau, Wis. Item B*
Size: 5,138 square feet
Lease term: January 1, 1989 to December 31, 1989
Annual rental \$56,144
Renewal option: One-year option from January 1, 1990

Brittingham House - Lease agreement for

Lessee: Diane and Timothy Tautges
Lessor: UW System
Location: *Squash Court Apartment 6010 Old Sauk Road*
Lease term: July 1, 1988 to June 30, 1989
Annual rental: \$1,656 plus a minimum of forth (40) hours performing duties associated with events at Brittingham House.

Lessee: Mary Lou Bacus and Gregory B. Gritzmacher
Lessor: UW System
Location: *Carriage House Apartment, 6022 Old Sauk Road Wausau, Wis. Item B*
Lease term: July 1, 1988 to June 30, 1989
Annual rental: \$2,268
