# THE AEROFLITE

**HEADLIGHTS**  
recessed in the body,  
as in aero-dynamic  
automobiles.

**NEW STEERING PRINCIPLE.** Patented construction provides for steering through slot in body. Gives positive, direct, accurate steering for the first time, with handle resting almost flat against the body—and a stronger, more rigid front end than ever before. Large fifth wheel is die-formed, turntable style; no front braces required.

**ONE PIECE BODY.** Drawn from a single piece of metal correctly reinforced; not welded. Practically indestructible.

**QUICK DETACHABLE FEATURE.** The one-piece body is attached to the running gear with eight bolts. The undergearing is die-formed and completely assembled at the factory.

**RUBBER KNEELING PAD** now available at extra price. Snug fit around steering device holds pad firmly in place.

**2750**

**Body** — Stamped from one piece heavy auto body steel, correctly reinforced, not welded. Size overall 20 x 48 inches Usable top surface 14 x 38 inches. **Gear** — Massive stamped gear.
