INTRODUCTORY.

IN presenting our first Directory of the City of Madison to our patrons and the public generally, we desire to say, that although the utmost care has been taken in its preparation, we do not expect to find it perfect, but we believe it will be found as correct as such works can be made. In a city where the population consists of so many nationalities, it is a very difficult matter to obtain the necessary information, as the first appearance of a canvasser with a book, pen and paper is a signal for closing the doors and shutters; and in the next place a knowledge of all languages that have ever existed since the building of Babel, or that ever will exist, is absolutely necessary. We hope, therefore, that our friends will bear these things in mind if they should, perchance, be unable to obtain the information sought.

The Classified Business Directory is a complete mirror of the business and manufacturing interests. The Miscellaneous Department shows the list of the city, county, state and federal officers, a complete Street Directory, the system of house numbering, and the name and location of all churches, schools, secret and benevolent societies. The population has increased more than the average during the last year. From a most critical computation we find that we have 5,461 names on our pages, from which we estimate the population of the city to be 13,652.

To our advertising patrons we return our sincere thanks for their support, and confidently present our first Madison City Directory to a discriminating public, trusting that the care and attention bestowed upon its preparation, and the improvements we have made in its arrangement, will, in the eyes of a generous community, atone for these errors which are inseparable from a compilation of this nature.

The Public's Obedient Servants,
DONNELLON & KAIN.

Washington avenue, in case said streets intersect said avenues; and such numbers runs continuously from those avenues, one hundred numbers being assigned to the length of the block, so that the first number on the first block should be number one, the second block one hundred, and so on, the odd number should be on the southerly and easterly sides of the street, and the even numbers on the opposite side. All streets intersecting Washington avenue are known as north ——— street in that part which lies northerly of said avenue, and south ——— street in that part which lies southerly of said avenue, and all streets which intersect Wisconsin and Monona avenues, are known as west ——— street, in that part lying westerly of said avenues, and east ——— street, in that part lying easterly of said avenues. Blocks upon streets running in the directions which do not intersect said avenues should bear like numbers with the blocks upon streets which do intersect, at like distances from those avenues, so far as practicable. It is the duty of each owner and occupant of any building or tenement fronting upon any street in the city of Madison to securely attach or apply to the front of such building or tenement, in a conspicuous position, and not higher than the first or ground story of said building, so that the same can be plainly seen from the street, the proper number of such building or tenement, as inscribed upon the map prepared by the City Engineer, and on file in the office of the City Clerk, in figures not less than two inches and a half in height.

CITY BOUNDARIES.

All of section six (6), except the east half of the southeast quarter; all of section seven (7), except the east half of the northeast fractional quarter, in township number seven (7) north, of range number ten (10) east; lots three (3) and four (4) in the southeast quarter of section twelve (12); also the southeast quarter of the southeast quarter of section twelve (12); all of sections thirteen (13) and fourteen (14), twenty-three (23) and twenty-four (24); all of the south fractional half of section fifteen (15); the northeast quarter of section twenty-two (22); the east half of the southeast quarter of section twenty-two (22), and that part of the northwest quarter of section twenty-two (22), that lies north of the Milwaukee and Prairie du Chien railroad; so much of the north part of the west half of the northwest quarter of section twenty-six (26), as is covered by the recorded plat of "Greenbush addition to the village of Madison," and the north-

east fractional quarter of section twenty-seven (27), in township number seven (7) north, of range number nine (9) east, of the fourth principal meridian, in the state of Wisconsin, together with the entire surface of Lakes Mendota and Monona to the shores at high water mark around the same, are included in and constitutes the limits of the city of Madison.

WARD BOUNDARIES.

The city of Madison is divided into five wards, as follows, to-wit: All that part of the city lying north and west of lines drawn through the center of Wisconsin and Washington avenues, Washington street and the Mineral Point road, as far as Francis street, constitutes and is known as the First ward. All that part of the city lying north and east of lines drawn through the center of Wisconsin and Washington avenues and Winnebago road, to the city limits, constitutes and is known as the Second ward. All that part of the city lying south and east of a line drawn through the center of Monona and Washington avenues and Winnebago road, constitutes and is known as the Third ward. All that part of the city lying south and west of a line drawn through the center of Washington and Monona avenues, Washington street and Mineral Point road, constitutes and is known as the Fourth ward; and all that part of the city lying west of Francis street, bounded north by the Fourth lake and south by the Mineral Point road, west to the city limits, constitutes and is known as the Fifth ward.
