The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

# 4 new features

1. New CROUPETTE pressure gauge eliminates guesswork due to defective flowmeters. To produce optimal cool vapor, simply set flow to proper sector of gauge.

2. All operating instructions are located on the CROUPETTE itself; separate, legible panels at every point concerned. No more booklets to become dirty, dog-eared or lost.

3. New, stainless steel atomizing assembly is easier to clean, more durable, and should never need to be replaced. Adaptable to all earlier CROUPETTE models as well.

4. Wide-mouth, standard glass jar simplifies filling and cleaning, provides easier access to the new, stainless steel atomizer, and may be readily replaced if broken.

## of the No.1 Croup Tent:

Visibility and accessibility are CROUPETTE features. This earlier model is as efficient as the day it was first used, more than seven years ago.

No wonder the CROUPETTE® is standard equipment in over 3,000 hospitals and 96 per cent of U. S. medical schools. First "cool-vapor" therapy tent, the CROUPETTE has no interior obstructions; no cumbersome, high-pressure connections. Ice chamber and controls are out of reach of patient, but easily accessible to the nurse. Fresh, moisture-saturated air

is effectively cooled and oxygenated by exclusive CROUPETTE recirculation. Aerosol or oxygen therapy can be easily administered. Light, compact, portable, easy to set up or to store, and with no moving parts, the new, improved CROUPETTE is as simple as it is safe and efficient. Order now, with 30-day return privilege. Phone us collect: OSborne 5-5200 (Hatboro, Pa.)
