

Dec. 15. 86

Dear friends,

We recieved the recognition papers yesterday and are very proud of it to be also on the list. We thank you for it very much. This time I will answer midway, not that I can forgett again, as the last time when you send us the nice records.

I have been in the hospital 4 weeks and my condition is pitifull. I am diabetic, and lost almost my life this time, what so ever John brought my musik, and when I ^{was} not too much sedated, I sang and the whole hospit al enjoyed it. Even Dr. Riener my Dr. said it's beautifull Elisabeth, now I can show him our honor - certificat.

I am home now and practice my voice. We had so much fun having you here in summer and meet you lovely wife and be. antifull child. We also had great success at Orchestra Hall on July 16. 86 in Min. We are making a tape for you, so you can use some of our lovely musik. We are getting old and you probably can use them ^{tapes} later on sometimes. Big articles were written about us lately by Marshall at Chronotype. When you get home please come and see us, and you can also read them. My writing is anstrian and not so good, but I hope you under stand it.

Christmas is here, and I wish you and
your loved ones a happy good one and a
fine New Year. May God be with you and bless
you work! and your wives too. Kiss the little
one from me!

Sincerely Greetings

The Tills
Elisabeth and John
from Austria.

PS: We have been in New Glarus this su-
mer but the car broke down, and we were
not able to go on to Madison.
A television station recorded us there too
Students who are writing up the history of
New Glarus.
