The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

The Daily Cardinal.

UNIVERSITY OF WISCONSIN.

VOL. IV.—No. 8.]

MADISON, WIS., THURSDAY, SEPTEMBER 20, 1894.

[PRICE THREE CENTS.]

THE DEMOCRATS ORGANIZE.

AN EXCITING POLITICAL CAMPAIGN PROMISED.

OFFICERS AND COMMITTEES ELECTED.

Active Campaign Work to Be Done by Students.

A number of the democratic students of the university, principally from the law department, met at the municipal court room last night and organized a democratic club. M. K. Riley, '95, was elected temporary chairman and Max Nohl, '95, temporary secretary. Benjamin Richmond, '95, was elected president and upon motion appointed Messrs. Kroncke, Lee and Kull a committee to draw up a constitution for the club. Max Nohl, '95, was elected permanent secretary and J. M. Cantwell, '97, treasurer. Enthusiastic speeches were made by Messrs. Riley, Sawyer, Kroncke and others.

The following vice presidents were elected:

Senior Law—George Kroncke.
Junior Law—Fred Kull.
Senior—Wilson Cunningham.
Junior—J. L. McNab.
Sophomore—Henry Lockney.

Vice president for the freshman class was deferred to the next meeting.

It is expected that the club will do some active work for the democratic party both in and out of the university. Several of the members will go out and stump this fall.

SYNOPTICAL LECTURE IN BIOLOGY.

Dr. Barnes gave his first synoptical lecture on biology yesterday in room 29, Science hall. The title of his lecture was "The Plant Cell." He said that he proposed in his lectures to study plants in their dynamic relations especially and hoped to make his course replete with interest. He spoke in brief as follows:

"Plants are living things. Some plants consist wholly of living matter but the greater number consist of combinations of living and dead matter. Life is not a material property of matter. Life and death are simply two states of matter and it can be changed from one to the other, but dead matter cannot become living matter without the exercise of living agencies. Thus food (dead matter) becomes living matter through the action of the body. The essence of living matter is called the protoplasm, from two Greek words proto (first) and plasm (form). It was first discovered by Dujardin, a French scientist in 1835, who in examining the foraminifera found a slimy substance in the shell which he called sarcode, meaning in Greek flesh. In 1846 Von Moke, a German botanist, found a slimy substance in the cells of plants and gave it the name of protoplasm. In 1850 Cohn, a German botanist, proved them the same and in 1860, Schultz showed that the protoplasm was the important thing in life.

"All plant work depends on the protoplasm. Under favorable conditions it is always changing its form. It has many powers, the most remarkable one being that of contractibility, which in animal life attains its highest degree in the muscles. The next most noticeable power is that of irritability, most strikingly shown in nerves. Another power is the automatic or initiative by which protoplasm changes without stimulus of any kind. The other changes such as those of waste and repair are called metabolic from the Greek word metabola (change).

In analyzing plants we find the various organs made up of tissues of cells. The plant cell is like a base ball of which the leather is the cell wall and the inside the protoplasm or live working part. These cells reproduce their kind by dividing and forming new ones. This process is called segmentation. Slender filaments are supposed to connect the protoplasm of the cells one with another."

The next lecture will be on One Cell Plants or the lowest form of plant life. Outlines of the lectures will be distributed to the class.

FRESHMAN BASEBALL.

The freshmen clearly out-generated the sophomores yesterday—holding their class meeting. Immediately after drill the freshmen gave an alleged class yell and as prearranged made a rush up the back stairs to the 'cage' on the top floor of the gym. L. F. Goddard was elected temporary chairman. On motion Messrs. Sidney Smith, Stanley Parkinson and Ray Willets and D. Swatty were appointed a committee to draft a constitution. This took only a few minutes as one had been previously prepared. This constitution was read and immediately adopted by the class. Stanley Parkinson was elected president and Ray Willets first vice president.

The meeting then adjourned to Library hall at 4 o'clock this afternoon.

BOWLING ALLEYS.

One department of the new gymnasium of which we have heard but little is the bowling alleys. They are located on the west side of the building in the back room or the room directly west of the natatorium. They are not yet completed and it will probably be five or six weeks before they will be opened for use. There will be four alleys, made of hard maple strips, seven-eighths of an inch wide, bolted together every four feet. These are also fastened to the floor every four feet by large screws which pass through a heavy strip to which the maple strips are fastened. This will prevent the alley from becoming uneven in any way. This sport will probably be as popular as any department of the gymnasium. A fee of five cents will be charged from each player. This is levied to prevent a few students from monopolizing the alleys.

—Last night the Fuller opera house was crowded, the occasion being the presentation of Fisher & Scott's consolidated Cold Day company and Chip 'o the Old Block company. Two comedies were presented. A number of interesting scenes were presented. As a whole the entertainment was passable.

THEY THINK THEY ARE SMART.

FRESHMEN OCCUPY THE BASE BALL CAGE.

AND ELECT THEIR OFFICERS IN PEACE.

Stanley Parkinson for President—Another Meeting Today.

The freshmen are showing great interest in athletics, especially in the line of base ball. They have been out at Randall Field several times for practice already. There are about thirty candidates for the class team and most of them are showing up well. Several pitchers are trying for that coveted position and it is expected that '98 will have a strong battery. Without organization it is hard to draw out the best men and place them in the positions they can fill to advantage. There has been so little time for practice that the men have not become acquainted with each other. But they will meet again Friday for the final practice before the game with the Sophomores, after which the nine men will be chosen. They will meet the Sophomores on Saturday afternoon at Camp Randall. It looks now as if the victor's would have to fight pretty hard for their laurels.

LIBRARY TALKS.

During the next few weeks the university librarian will give a series of talks upon the library and methods in library work. These talks will be elementary in character and especially designed to aid new students in an intelligent use of the book collections at Madison.

The first talk will be given three times, viz., at 7 p. m. on Monday, Wednesday and Friday, Sept. 24, 26 and 28, in the university library. Freshmen in the classical and scientific courses will preferably attend the Monday evening lecture; those in the English civic-historical courses, the Wednesday evening lecture, and those in the engineering courses the Friday evening lecture.

The first talk will treat of the new card catalogue and classification system of the university library.

The library will be closed to general readers on the evenings above mentioned from 7 to 8 p. m. On those days reserved books may be drawn at 6 p. m., to be returned on the following mornings at the opening of the library.

—F. M. Tisdell, formerly instructor in elocution at Wisconsin, is visiting Mr. Heistand at 18 W. Gilman street. Mr. Tisdell has been doing graduate work at Harvard during the past year and will continue his work there this year.

—The Delta Tau Delta Fraternity gives a reception and ball at the Chapter lodge this evening.

—F. W. Peterson, '95, returned to the university yesterday.

GYMNASTICS FOR OFFICERS OF THE BATTALION.

On account of the close proximity of sophomore gymnastics and freshman drill on Tuesdays and Thursdays, which is very inconvenient for the non-commissioned officers of the sophomore class, Dr. Elsom will permit the latter to join the freshman class on Mondays and Wednesdays.

Those officers who desire to make this change will hold much the same position in the freshman gymnasium squad as they do in the battalion, and will be expected to assist the directors in keeping order, calling the roll, etc. Most of the officers will undoubtedly avail themselves of this privilege and a meeting to discuss the matter will soon be called by Dr. Elsom.

DEBATING PROGRAM.

Athena.

1st Debate—Resolved, that the present English house of lords should be abolished.

Recess.

2d Debate—Resolved, that raw material should be placed on the free list.

Hesperia.

1st Debate—Resolved, that the A. R. U. was justified in calling out the members of the A. R. U. in support of the Pullman strikers.

Recess.

2d Debate—Resolved, that national prohibition is a true solution of the liquor problem.

Philomathia.

1st Debate—Would it be expedient to subsidize our Merchant Marine?

Recess.

2d Debate—Are labor organizations beneficial to society.

—Jesse Craig, '96, returned to the university today.

—Matthew Wortner, law '95, came back yesterday.

—J. W. Page of the class of '96 is visiting at the Delta Upsilon lodge.

—Martin Lewis, '96, is teaching school at Georgetown, Minn., and will not return this year.

—The world's record for the 120 yard hurdle has been lowered to 15.3-5 seconds by Stephen Chase, of Dartmouth.

—F. M. Crowley, '96, will not return to the university this year. He has accepted the position of chief clerk at the Indiana Mineral Springs hotel.

—The announcement is made by Dr. Birge that students desiring may take the two-fifths histology under Dr. Miller with the three-fifths physiology and the two constitute a full study.

—Dr. A. L. Wilkinson, late pastor of the Baptist church, was in the city yesterday, and was warmly greeted by his old friends. His son, Cleaver, has entered the law class and will spend two years here.

—The following clipped from the daily Palo Alto explains the plan for disposing of second-hand books there: Any books likely to be used during the semester can be placed for sale on the Co-op. counters. The vendor marks his own price upon the book, and the volume is displayed where everyone can see and examine it. Fifteen per cent. of the selling price is the Co-op. manager's commission. This arrangement is a decidedly welcome innovation. A good number of books have been sold already.

The Daily Cardinal.

PUBLISHED DAILY (SUNDAYS EXCEPTED)
DURING THE COLLEGE YEAR.

BY THE STUDENTS OF THE
UNIVERSITY OF WISCONSIN

Subscription price \$1.00 per term, \$2.50 per year
in advance.

THE CARDINAL cordially solicits contributions
from all members of the University.

All communications must be accompanied by
the name and address of the writer and must be
received at our office not later than 8:30 p. m. of
the day before they are intended to appear.

Address all matter intended for publication to
the editor-in-chief. All business communications
should be sent to the business manager.

Address,

The Daily Cardinal,

Madison, Wis.

Room 7, Democrat Building.

Tomorrow's Cardinal will be a boat-
ing number, devoted to that branch of
Wisconsin athletics. A complete ac-
count of last spring's race will be
given, the history of aquatics at Wis-
consin reviewed and other articles in
regard to boating published.

CO-EDUCATION AT THE UNIVER- SITY.

Milwaukee Sentinel:—An interesting
article entitled Co-education in the
Wisconsin State University is contrib-
uted to the September number of
Woman's Progress by Helen R. Olin.
It is a strong plea for the admission
of women to equal educational privi-
leges with men, based on a careful ac-
count of the success that the co-educational
system has met with at Madi-
son. From the earliest beginnings of
the university it is shown that woman
had her place here. At that time the
absence of normal schools caused the
establishment of a normal department
in the university in which women took
part. Many women availed themselves
of the opportunity and in the fall of
1863 there were more women than men
attending the university. In 1864
there were over one hundred young
women in attendance. It was in 1866
that the state law declared that "the
university in all its departments shall
be open to male and female students."
From that time on to the present there
has been a full and uninterrupted en-
joyment of all the departments of the
university by the women students.

Mrs. Olin refers with evident pride
to the high standing taken by women
in comparison with the men students.
Taking the classes from 1876 to 1888
she says: "Three per cent. of the men
and ten per cent. of the women gradu-
ated during this time received honors
of the first grade; ten per cent. of the
men and sixteen per cent. of the
women received honors of the second
grade." She also mentions the fact
that four of the university's alumnae
are members of its faculty, one as a
professor. These facts are given to
disprove the theory advanced by some
people that the admission of women

to an institution of learning will lower
its standard of culture.

One of the strongest proofs that
Mrs. Olin offers for her claim that co-
education is a great success at the
Wisconsin state university is contained
in the following statement towards the
close of her article: "It is not too
much to say that co-education is very
generally approved by all who are con-
nected with the University of Wiscon-
sin. No member of its faculty, where
all the leading eastern colleges and
universities are represented, is known
to be opposed to it; and those among
its leading alumni, who in early days
regarded it as a doubtful experiment
now lose no opportunity of publicly
testifying to their conversion." There
are many people in this state who be-
lieve with Mrs. Olin that co-education
at the state university has been at-
tended with conspicuously favorable
results, which well deserve to be
brought to general attention.

THE NAPOLEON REVIVAL.

Notable Prints to Appear in a New
Magazine.

The publishers of McClure's Maga-
zine have secured the use of Gard-
ner G. Hubbard's great collection of
Napoleon prints. This is one of the
most important collections of its kind
in the world and represents the results
of many years of collecting.

One hundred and fifty of these pic-
tures have been selected and will be
published in six issues of McClure's
Magazine, beginning with November.
Most of the pictures will be full page,
and the series will constitute the
most important and most complete
collection of Napoleon ever published.
There are about seventy-five portraits
of Napoleon, comprising the most im-
portant examples of the various
painters who made his portraits and
presenting him at every stage of his
career from the time of his youth to
the end of his life, also his death mask
and a copy of a lithograph showing
the appearance of his body twenty
years after his death, on the occasion
of the removal of his body to France.
No such series of portraits (constituting
a complete series of "Human Docu-
ments") have ever been presented be-
fore. Most of these portraits will be
new to the public, especially those
showing him as a young man with his
face thin and sorrowful and eager.
The portraits published in the Novem-
ber number will be extremely interest-
ing. There are also portraits of his
mother, father, brothers and sisters,
and of Josephine and Marie Louise,
and a complete series of his son; with
portraits of his generals, marshals and
others who served him in field and
cabinet; also portraits of some of his
great opponents. There are also re-
productions of paintings of battle
scenes and of places connected with
his career. This remarkable collection
will make a pictorial history of Napo-
leon. Mr. Hubbard furnished interest-
ing notes, giving authentic information
as to the painters and the history of
many of the pictures.

The life of Napoleon will also be
told with especial reference to the
mass of new material which is now
available. Napoleon became famous
so young, and he retained around him
so many who knew him from his early
youth, and he was so remarkable a
man, that memoirs without end have
been written about him. But many
of these of great importance have
only just been published. The pictures
and the text will present Napoleon in
a most complete and accurate manner.
The series will be completed in six
months.

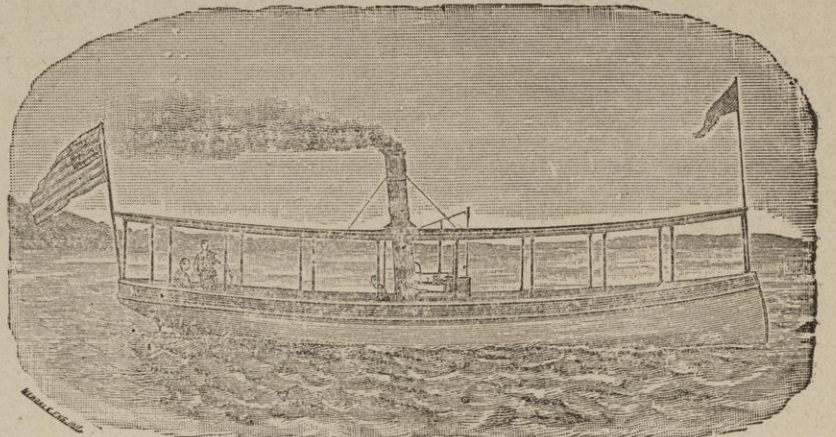

—Prof. F. H. King, of the experi-
ment station, was called to Whitewater
Tuesday on account of the condition of
his father, who fell from a fourteen-
foot ladder and received injuries that
it is feared will prove fatal, being hurt
internally. The old gentleman is sev-
enty years of age.

Rules for the Guidance of Students Using the Gymnasium.

I. Fees.
Students using the gymnasium shall pay an annual fee of two dollars. The rent of a locker (which is optional) is one dollar extra; and a key deposit of fifty cents is required, returnable on surrender of key at the regents' office at the end of the session.

II. Hours.
The gymnasium will be open daily, excepting Sunday, from 9 a. m. to 6 p. m., and during the evening in such way as the executive committee may elect.

III. Deportment.
Gentlemanly language and deportment is invariably required of all. Gymnasium tickets must be shown before the student can use the privileges of the building, and at any other time when required. The use of tobacco in the building is forbidden.

IV. Class Hours.
Schedules of the classes will be found on the bulletin board. During class hours the large floor of the gymnasium is for the exclusive use of the class; and students not exercising will not be allowed to remain on the gymnasium floor.

V. Executive.
The director of the gymnasium and his assistant will have entire charge of the gymnasium, baths, natatorium, and bowling alleys. The military commandant will be given charge of the drill hall, at such hours as are determined by the faculty and are scheduled on the bulletin board.

VI. Valuables.
All articles of value should be kept in the lockers during class work, and other exercise in the gymnasium. The institution will not be responsible for articles lost.

VII. Costumes.
Neat and suitable gymnasium clothing must be worn, which shall extend at least from the shoulder to the knee. Soft-soled shoes must be worn; shoes with heels and nails are not permitted.

VIII. Required Work.
1st. Freshmen and sophomores are required to exercise in classes two hours each week during the college year.

2nd. Classes for other students are voluntary, and will be held according to the schedule on the bulletin board.

3rd. All students using the gymnasium are required to make an engagement with the professor of physical culture for an examination as soon as practicable after matriculation.

4th. If the health of a student makes it advisable, he may be excused from class work to do special work, at the discretion of the director.

5th. Students who live out of town while attending college, and those who perform manual labor for their support, may, at the discretion of the faculty, be excused from the regular class drills.

IX. Boxing and Fencing, etc.
Boxing and fencing, etc., will not be allowed on the main floor. Special rooms are provided for that purpose, and exercise of this kind will be allowed only during certain hours, as posted on the bulletin board.

X. Natatorium and Baths.
1. Students are required to furnish their own towels and soap.

2. All students using the natatorium are first required to use shower or tub baths.

3. A fee of ten cents per bath shall be charged for the use of the natatorium. Trunks must be worn in the natatorium, and must be thoroughly wrung out into a vessel provided for that purpose before leaving the room.

4. Throwing water or other disorderly conduct in the natatorium and baths will be strictly prohibited.

XI. Bowling Alleys.
1. A fee of five cents per game shall be charged each player; the fee to be paid by each person playing.

2. The alleys must not be used whenever in the judgment of the director, the use of them would interfere with instruction on the gymnasium floor.

3. Students must not monopolize the alleys to the exclusion of others.
C. K. Adams, President.
Adopted by the Regents,
September 18, 1894.

FOR EMBRYO MATHEMATICIANS.

If a goose weighs 10 pounds and a half its own weight, what is the weight of the goose? Who has not been tempted to reply on the instant 15 pounds?—the correct answer being, of course, 20 pounds. It is astonishing what a very simple query will sometimes catch a wise man napping. Even the following have been known to succeed:—

How many days would it take to cut up a piece of cloth 50 yards long, one yard being cut off every day?

A snail climbing up a pole 20 feet high ascends five feet every day and slips down four feet every night. How long will the snail take to reach the top of the post?

A wise man having a window one yard high and one yard wide, requiring more light, enlarged his window to twice its former size, yet the window was still only one yard high and one yard wide. How was this done? This is a catch question in geometry, as the preceding were catch questions in arithmetic. The window was diamond shaped at first, and was afterward made square.

As to the two former, perhaps it is scarcely necessary seriously to point out that the answer to the first is not 50 days, but 49; and to the second not 20 days, but 16—since the snail which gains one foot each day for 15 days, climbs on the 16th day to the top of the pole and there remains.—New York Home Journal.

THE HINDU WIFE.

An impression seems to prevail in western countries that there is no love between the Hindu wife and husband. The truth is, the Hindu families are the happiest in the world. The Hindu woman, having been tried to the lot of the man early, thinks only of him. His happiness is her happiness. She loves her husband devotedly. In the western nations I observe that the man works from morning to late in the night to earn money. He has no rest. Who enjoys the benefits of his money? His wife. While he is struggling to get the almighty dollar, his wife is enjoying the luxuries and the leisure it buys. If she cannot get the newest fashion of ornaments or clothing, she is often unhappy, and consequently, if the husband cannot buy them, he, too, is made unhappy. Moreover, the women in America seem to have greater liberty than the men. The young girl is brought up by her mother to think that she is equal to man and in some respects superior to him. She reads love novels, spends much time at her toilet; she wears in her bonnet flowers, feathers, dead birds, seaweeds, moss, horns, thorns, big needles, and in her dress, pins, hooks, ties, iron and brass bars, clips, stitches, and what not; and on her bosom I have seen her wear a living lizard fastened with a thin chain. Her waist is laced tight by a corset, which makes her pant for breath. Thus equipped she sallies forth to make conquests of young men's hearts. She seems to me (pardon me, I write without offence) to lack the mild and delicately sweet look that even the commonest Hindu woman has. Her look is bold and defying to man. This is all owing to the innate feeling that she is equal to the man. In her pride she has forgotten woman's part.

UNIVERSITY BULLETIN.

U. W. BAND:—All persons wishing to join the University Band are requested to meet at Library hall at 7 o'clock Thursday evening, and make arrangements with the manager. Everybody who is able to play an instrument is requested to be present.

FRESHMAN GREEK: The freshman Greek class will meet in room 4, University hall, for the present.

GEOLOGY: The general course in geology will not begin until Wednesday, Oct. 1. Dr. Hobbs will give any information that may be desired concerning the course.

SENIOR MEETING: There will be a meeting of the senior class at 10 p. m. Saturday, for the election of officers and other important business.

FRESHMAN BASEBALL: Candidates for the freshman nine are requested to meet at Randall field at 2 p. m. Friday for final practice.

FORTUNATE.

New York Herald: Briggs—I had an awfully lucky thing happen to me yesterday. I was riding on my wheel when I ran into a man and broke two of his legs.

Griggs—I don't see anything lucky about that.

Griggs—I got away before any one came.

A NEW BOARDING CLUB.

A first-class Boarding club will be started at 714 State street—2 doors east of the campus. Club will be run first-class in every respect. Will run from \$2.75 to \$3 per week. For particulars inquire of Geo. P. Hambrecht, 703 State street.

STEAMER SATIRIO.

Steamer Satirio will leave pier foot of N. Canal street as follows: 2:30 a. m. to State Hospital and around lake; 5 p. m. to State Hospital except Sunday. Round trip 40 cents. Boat leaves promptly on time.

—University students wishing to take preparatory work in Latin would do well to call at the Wisconsin academy on State street opposite Lewis' drug store.

BRENK BROS., THE IMPORTING TAILORS.

"Mr. Joseph Brenk of the firm of Brenk Bros. Importing Tailors, Milwaukee, will be at the Park hotel Thursday and Friday, Sept. 20th and 21st, with a complete line of samples representing their stock for the coming season."

If you want to be "in it," clean a window a minute—BON AMI the MODERN CLEANER. Cleans windows, show-cases, silver, copper and brass. Warranted not to scratch and contains no acid. Leave order at 118 North Henry street. H. Caesar, agent.

ATTENTION, STUDENTS.

The new clothing store at 228 State street with an entire new stock of clothing and gent's furnishing goods, is the headquarters for the students. Special rates will be given to all of them. Call and convince yourself. Chas. J. Speth.

NOTICE.

'95 Badgers are on sale in the book stores for the benefit of those who have not yet secured a copy.

SINGERS, ATTENTION!!

There are vacancies to be filled in every part of the U. W. Glee club. Applicants are requested to apply to Prof. Parker, room 15, or to Prof. Sired, room, 5 Ladies' hall. G. H. Greenbank,

—A few printed copies of the Class Pageant as acted by the senior class last spring, may be obtained of W. W. Allen, 228 Langdon street, for twenty cents each.

—The College Book Store has an immense stock of second-hand books this fall. You will do well to call and look them over.
