NO 17

THE MONROE DOCTRINE

Note: We read a good deal about the Monroe Doctrine. It was in the Message of President Monroe to Congress, December, 1823.

" In the wars of the European powers in matters relating to themselves, we have never taken any part, nor does it comport with our policy so to do. It is only when our rights are invaded, or seriously menaced, that we resent injuries, or make preparations for our defense. With the movements in this hemisphere, we are, of necessity, more immediately connected, and by causes which must be obvious to all enlightened and impartial observers. The political system of the allied powers is essentially different in this respect from that of America. This difference proceeds from that which exists in their respective governments; and to the defense of our own, which has been achieved by the loss of so much blood and treasure, and matured by the wisdom of their most enlightened citizens, and under which we have enjoyed unexampled felicity, this whole nation is devoted.

We owe it, therefore, to candor, and to the amicable relations existing between the United States and those European Powers, to declare that we should consider any attempt on their part to extend their system to any portion of this hemisphere as dangerous to our peace and safety.

With the existing colonies or dependencies of any European Power; we have not interfered, and shall not interfere. But with the governments who have declared their independence and maintained it, and whose independence we have, on great consideration and on just principles, acknowledged, we could not view any interposition for the purpose of oppressing them or controlling in any other manner their destiny by any European power, in any other light than as a manifestation of an unfriendly disposition toward the United States."

Again may I ask you readers to pass on for this page or some other in Bay Leaves some quotations from famous men which have some help in our thinking on the great problems with which we as Americans have to deal today. Or you may have some real opinion on these same subjects. Let's see what you can do in writing an article for " Bay Leaves."

Editor.

MEETING TO FORM COUNCIL NO.1 KNIGHTS OF AMERICA

In last week's "Bay Leaves " the editor placed before the readers a plan for the formation of a National Organization ,the name of which is suggested as " Knights of America ". There has been considerable discussion about it and several newspapers wish to print the story.

They are waiting for it now. I have put them off until after we form Council No. 1 here at Williams Bay. A group at Palatine, Ill. is being formed and wish to be Council No. 1 for Illinois.

Why you should be at the meeting Tuesday eve. The newspapers think it a good thing and wish to take pictures of the group who form the first Council.

You are cordially invited to be present at the formation of Council No. 1 of "Knights of America" at the Community Room, Tuesday eve. May 2nd.

If it grows as planned there will be added glory to our village in being the National Headquarters. While others are talking about it Williams Bay is doing something.

Read over again last week's story about the "Knights of America" and the editorial " Let's Do Something About it". You are earnestly urged to be at the meeting next Tuesday night to hear all about what it will mean to our community if the organization gets under way. We are interested in an industry, this can mean more than a factory in a community such as ours.

Mike Peterson and Bob Burton have promised to be there. All of you are invited to come and be charter members if you find it worth while. " Great Oaks from little acorns grow ". Have you vision to see the great possibilities of a National Organization with Councils all over the United States?

F.M. Van Epps.

Mr. R.G. Hein, Principal of South Milwaukee High School addressed the senior class whose members were guests for the evening of the P.T.A. on the subject "Choosing a job and how to keep it". That wasn't the way it was announced but the advice was very timely and should be valuable for the seniors.

THREE FIRE ALARMS THIS WEEK

On Sunday afternoon the Fire Dept. had two calls at one time for grass fires, one in the village near the Railroad and the other North of the village in Geneva T.

Two on Tuesday. One a grass fire near Gus Johnson farm & the other which caused considerable excitement at Granzow & Peterson store. At the latter a motor which runs the refrigerating plant got off balance when the electricity was off and didn't start when it came on. It burned out the motor and caused considerable smoke which was very thick when the firemen arrived. John Ladd saw the smoke. It was fortunate that it occurred in the early evening instead of late at night.

The damage is slight as now most groceries are in sealed packages.

SEVERAL OF THE VILLAGE BOARD IN MADISON TODAY.

At the special village board meeting Monday evening it was decided that the Village President, Attorney and three members of the board should go to a hearing in Madison today (Thurs.) when a bill giving further exemptions to State Y.M.C.A.'s and Y.W.C.A.'s is being heard before committees. Tho in the present form the bill might not effect our village it might make an opening which would effect our village later.

The opinion of the board was that we have all the exempt property which our village can stand.

Several other matters will be taken up with state officers, such as W.P.A. projects, etc.

TRYING TO GET FISHING SEASON OPEN THE 13th.

WALWORTH COUNTY PEOPLE FOR WALWORTH COUNTY JOBS

During the forthcoming tourist season there will be between 500 and 1000 job opportunities in Walworth County. During the past ten years the majority of these jobs have been filled by people from outside Walworth County. There are enough qualified people in Walworth County to fill at least 80% of the jobs available. Under these circumstances it appears quite simple to place Walworth County people in Walworth County jobs. It will be simple providing we have the cooperation of employers and workers looking for employment.

If people looking for employment will register with the Wisconsin State Employment Service, it will be possible to ascertain their particular qualifications, and it will be of untold value in placing them in positions for which they are best fitted. Employers looking for workers are also asked to consult the State Employment Service to see if there is not a qualified applicant in Walworth County. If it is possible to place 400 people in employment for 16 weeks at an average salary of \$10.00 per week, it will mean that \$64,000 of additional purchasing power will be kept in Walworth County. Lets show them that Walworth County is able to solve its own unemployment situation.
