2-7-86

MINUTES OF THE REGULAR MEETING
of the
BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM
Madison, Wisconsin

Held in the Clarke Smith Room, 1820 Van Hise Hall
Friday, February 7, 1986
9:00 a.m.

- President Lawton presiding -

PRESENT: Regents Clusen, Finlayson, Fish, Grover, Hanson, Heckrodt,
Knowles, Lawton, Nikolay, O'Harrow, Saunders, Schenian, Schilling,
Veneman and Weinstein

ABSENT: Regents Gerrard and Vattendahl

Upon motion by Regent Nikolay, seconded by Regent Finlayson, the minutes of the regular meeting of the Board of Regents of the University of Wisconsin System, held on January 10, 1986, were approved as mailed to the members of the Board.

President of the System

- Resolution of commendation to Katharine C. Lyall upon her return to serving as Executive Vice President, from being Acting President, Acting Exec. Vice Pres. & Vice Pres. of Academic Affairs.

REPORT OF THE PRESIDENT OF THE BOARD

Regent President Lawton welcomed Dr. Kenneth A. Shaw, who had taken office as President of the University of Wisconsin System on January 23, 1986.

R 3451, pp 1-2

Resolution of Commendation, Katharine C. Lyall

- Vice President Fish presiding -

Regent Lawton presented the following resolution and moved its adoption:

Resolution 3451: WHEREAS, this February Board meeting marks a period of administrative transition in the life of the University of Wisconsin System, ending months of unprecedented and extraordinary service by Acting President Katharine Lyall with the advent of the new administration of President Kenneth A. Shaw; and

Lyall, Katharine C.

- Resolution of commendation upon return to serving as Exec. Vice Pres., from being Acting President, as well as, at times, Acting Exec. Vice Pres. & Vice Pres. of Academic Affairs, R3451, pp 1-2

WHEREAS, during the summer of 1984, Katharine Lyall had the duties of Acting Executive Vice President for the System added to her assignment as Vice President for Academic Affairs; and

WHEREAS, in October 1984, she was appointed Executive Vice President while continuing her service as Vice President for Academic Affairs; and

WHEREAS, in July 1985, she accepted the addition of Acting President to an already full array of responsibilities; and

WHEREAS, in each administrative position and as System representative on the State Strategic Development Commission, Dr. Lyall has demonstrated outstanding ability to administer this complex organization in times of difficulty, both budgetary and beyond;

NOW THEREFORE, BE IT RESOLVED that the Board expresses particular thanks and appreciation to Katharine Lyall for her capacity to deal effectively with a wide range of academic and administrative issues and to guide chief administrators to systemwide goals within the lines of institutional autonomy; and

FURTHER COMMENDS her for admirably lacing her varied administrative duties with a sense of humor that will remain with the System as she continues her service as Executive Vice President.

The resolution was seconded by the entire board and unanimously adopted, after which Dr. Lyall was given a standing ovation.

*VTAE Board - Report of actions at the last meeting regarding state & federal legislation, uniform reporting for all districts & program fees for 1986-87 pp 2-30
- President Lawton presiding -*

Report of the President of the State Board of Vocational, Technical and Adult Education

Regent Saunders, President of the VTAE Board, summarized the board's meetings on February 4 and 5, which included the following actions regarding legislative matters: acceptance of legislative procedure and policy for the system, as developed by the Joint VTAE System Legislative Committee; support of legislation eliminating the sunset provision from s. 38.15(3), thereby making permanent the exclusion of gift, grant and federal dollars from calculation of referendum limits; direction that staff conduct a study on the issue of student representation on district boards, as well as the state board, in order to enable the board to make a decision regarding potential legislation; opposition to a fully state-funded VTAE System; and support for

legislation calling for the payment of interest on delinquent taxes to the separate municipalities.

The board received a report on the impact of the Gramm-Rudman bill on vocational education in Wisconsin, which amounted to a total cut of \$340,000 next year (\$153,000 from the Department of Public Instruction and \$187,000 from the VTAE System).

In other action, the board concurred with a resolution from the Wisconsin Council on Vocational Education, recommending establishment of a uniform reporting system to be used by all districts in meeting their obligations under statute.

The following program fee rates for fiscal year 1986-87 were set by the board: per credit charge in college parallel programs--\$36.65 for residents, \$91.50 for out-of-state students; per credit charge for postsecondary and vocational adult programs--\$24.60 for residents, \$180.20 for out-of-state students.

Noting that he had the pleasure of attending that meeting, Regent Lawton added that he planned to continue to represent the Board of Regents as a member of the VTAE Board.

Regent Nikolay pointed out that support of vocational education was a considerable burden on property taxpayers and asked why the VTAE Board opposed state funding.

Because of the unique aspects of each institution and the community it served, Regent Saunders explained, there was concern about loss of local control with total state funding. He added, however, that the board would support an increase in state support to the 40 or 50 percent level.

Censorship - Wisconsin Civil Liberties Union Award received for board's stand opposing censorship of magazine sales at UW-Madison student union, p. 3

Award from Wisconsin Civil Liberties Union

Reporting that he represented the Board of Regents at the Wisconsin Civil Liberties Union annual awards ceremony in January, Regent Saunders presented to Regent President Lawton a plaque given to the board by the WCLU in recognition of its stand opposing censorship in magazine sales at the UW-Madison student union.

Approved Wisconsin Civil Liberties Union - Award received from WCLU for board's stand opposing censorship of magazine sales at UW-Madison student union, p. 3

Report on the January 27, 1986, Meeting of the Higher Educational Aids Board

President Lawton referred to the written report on this meeting, which had been distributed with the regent agenda materials. Regent members Finlayson, Weinstein and Nikolay were present.

HEAB - Report on 1/27/86 meeting, pp 3-4

In response to a question by Regent Lawton, Regent Weinstein indicated that negotiations on renewal of the Minnesota-Wisconsin reciprocity agreement would be conducted by the governors of the two states.

Hosp + Clinics Council of Trustees - Report on previous day's meeting, including plans for clinical education center,
Report of the Chairman of the Council of Trustees of the UW Hospital and Clinics *expansion of cardiology program & increase of patients in adult intensive care units, pp 4-5*

Reporting on the February 6 meeting of the Council of Trustees, Regent Finlayson, chairman of the council, said that the hospital experienced a significant increase in patient activity during December 1985, with 16 percent more patients admitted than in the previous December, and that the overall financial position was more favorable than anticipated.

The council was advised by Superintendent Derzon that the continued increase in outpatient activity had created a need for additional parking and also had given rise to new educational needs. Reviewing preliminary plans for a clinical educational center designed to address these educational needs, Associate Dean Charles Lobeck advised that the Medical School, in conjunction with the schools of Nursing, Pharmacy, Allied Health and the hospital, were in the early stages of planning a new facility to provide enhanced educational opportunities in the outpatient setting.

In other business, the council heard a presentation by Dr. James Liedtke about expansion of the cardiology program. Since 1983, the program had experienced a 20 percent increase in patient admissions, a 35 percent increase in clinic visits, and a 40 percent increase in diagnostic catheterization procedures. The number of angioplastic procedures, involving inflation of a tiny balloon to open up clogged arteries, increased from six in 1984 to 123 in 1985. The council then toured the hospital's new cardiology catheterization laboratory--one of the most advanced facilities of its kind in the country.

With regard to recent controversy concerning the need for more intensive-care nurses at the hospital, Regent Finlayson explained that since July 1985 there had been a 20 percent increase in patient occupancy of adult intensive-care units, which reflected growing awareness of the hospital's success in treating critically ill and injured patients, particularly those requiring advanced surgical, trauma and cardiac expertise. In addition, the critical-care helicopter service provided acutely ill patients with rapid, potentially lifesaving access to the hospital's highly sophisticated critical-care units. UW Hospital currently employed 112 registered nurses in its medical, surgical and pediatric intensive-care units and the trauma life support center. In response to the increase in patient volume, a number of measures were being taken to increase staffing in these areas, including authorization of additional nursing positions and an active recruitment campaign at both the regional and national levels. As a result, ten more registered nurses were employed in the intensive-care units than a year ago. There also was a new program to train recent nursing school graduates in intensive-care nursing. Further, the hospital had increased its support personnel, with four new respiratory therapists, six nursing assistants and two unit clerks having been hired, and two new pharmacists now being recruited.

While it was true that the increase in patient volume in intensive-care units placed additional demands on staff, Regent Finlayson stated, "In no way has the quality of care provided to the patients in these units been compromised. In addition to nursing care, patients are cared for 24 hours a day by a health-care team that includes both attending and consulting physicians, respiratory therapists, pharmacists and other skilled personnel. We commend the dedication of our staff in responding to these needs, and we are confident that the hospital will continue to provide the highest quality critical-care service to the citizens of the state."

Legislature - Report regarding Legislative Action on Budget Reduction, p. 5

President Lawton noted that the last month had been occupied with preparing the UW System proposal for the budget-reduction bill, trying to persuade the Legislature to accept it and presenting veto requests to the Governor.

Budget - (same)

While there had been some negative aspects of the process, out of which had come the term "university bashing," Regent Lawton said he would prefer to focus on the positive results which had been achieved. "In all of our dealings with the other end of State Street, we find that we have a huge number of friends there, and we must be grateful to the Governor and the Legislature for avoiding a cut in salary catchup, although it has been delayed somewhat. I hope all of you will take time to commend our supporters and resist the urge to answer 'university bashing' with 'Legislature bashing.'"

REPORT OF THE PRESIDENT OF THE SYSTEM

Approval of Non-Personnel Actions/Informational Items

Upon motion by Regent Weinstein, seconded by Regent Schilling, Resolution 3452 was adopted unanimously.

Resolution 3452: That the report of non-personnel actions by administrative officers to the Board of Regents and informational items reported for the record (copy on file with the papers of this meeting) be received for the record; and that actions included in the report be approved, ratified and confirmed.

Regent Presentations

Presentation on UW-Madison Medical School/Hospital Organ Transplant Program

PP 5-8

President Shaw called upon Chancellor Shain to introduce the presentation.

Medical School - (same)
Hospital - (same)

Remarking that faculty members who would make the presentation exemplified the remarkable team of physicians in the Department of Surgery and the first-rate quality of the Medical School, Chancellor Shain introduced Dr. Folkert Belzer, who had come to UW-Madison in 1974 as professor and chairman of the Department of Surgery, chief of general surgery, and director of the transplant program. Formerly chief of the transplant service at the University of California, one of the leading renal transplant programs in the country, Dr. Belzer had invented a device which revolutionized the field of kidney transplantation by making it possible to preserve donor kidneys for up to 72 hours prior to transplantation. His pioneering efforts in organ preservation continued at UW-Madison, where he received substantial research support from the National Institutes of Health. His current research had been expanded to include improved methods for renal preservation, pancreatic preservation and the preservation of other organs, including the liver.

Since his appointment at UW-Madison, Dr. Belzer had built a particularly strong Department of Surgery, noted for its excellence in patient care and medical student/resident training, as well as its internationally recognized transplant program. In addition, Dr. Belzer was the author of more than 250 publications, along with many abstracts and book chapters. He was the recipient of numerous awards, including appointment in 1982 as the A. R. Curreri Professor of Surgery.

Dr. Belzer spoke about the kidney transplant program, using slides to illustrate his presentation. Because transplantation was the treatment of choice for most patients with kidney failure, there had been great effort over the years to improve results and make the treatment available to all patients who needed it.

Showing a chart on numbers of kidney transplants performed, Dr. Belzer noted that the volume at UW-Madison had increased each year and now was the second largest in the world. While the University of California remained number one, the population of three million in the surrounding area was many times as large as the population in the area around UW-Madison.

It had been known for many years that the perfectly matched sibling (a chance of one-out-of-four) was the ideal donor, except for an identical twin, and 20 years ago 90 percent success was attained with this type of transplant. However, most people did not have a perfectly matched sibling and therefore had to receive a kidney from a father, mother or sibling without a perfect match. Prior to 1980, transplants of this type resulted in a survival rate of about 75 percent. In that year, the San Francisco group introduced a procedure whereby the recipient was given three blood transfusions from the potential donor two weeks apart. If at the end of the transfusion period the patient had not formed antibodies, the transplant was performed. Three hundred transplants in this category had since been made, with a patient survival rate of 95 percent after five years, equaling the survival rate for those with transplants from a perfectly matched sibling. This figure was particularly impressive given the fact that one-third of those receiving transplants were high-risk patients.

About three years ago, Dr. Belzer's team began doing transplants involving unrelated donors. After 25 transplants of this type--the largest single experience in the world--all recipients were living.

Many patients received cadaver kidneys because they did not have a living donor. A chart on availability of kidneys for this type of transplant showed that the federal network which included Wisconsin received 36 kidneys per million population in comparison to the national average of 21 per million. That result was in large part attributable to excellent cooperation from hospitals in Wisconsin in advising UW Hospital of potential donors.

Concluding his remarks, Dr. Belzer explained that the drug, cyclosporin, which became available in 1984, had made possible great improvement in kidney transplantation, increasing the survival rate of patients with cadaver transplants to 95 percent.

Dr. Belzer then introduced Dr. Hans Sollinger, who was head of the pancreatic transplant program. Trained at UW-Madison, where he took his residency, Dr. Sollinger was appointed assistant professor in 1980. In addition to being a surgeon, he had a Ph.D. in immunology and was director of the tissue-typing laboratory.

Speaking about the pancreatic transplant program, Dr. Sollinger noted that kidney transplantation did not always solve the problem for diabetic patients because the disease process continued, the only known cure being transplantation of the pancreas. There had been, however, a survival rate for pancreatic transplants of only 30-35 percent at 12 and 24 months, due to problems caused by rejection, problems with drainage, and surgical complications.

Indicating that the major breakthrough had been made at UW-Madison in developing a new drainage technique, Dr. Sollinger described three procedures being used. In one technique, the pancreatic duct was sutured into a loop of small bowel, with the disadvantage that pancreatic enzymes which became activated by bowel contact could digest the connection between the pancreas and small bowel. This occurred in 30-40 percent of the cases. Another method was injection of latex-type material into the duct in order to obliterate exocrine secretions. However, inflammatory response to this material, resulting in graft loss, was in the range of 50-60 percent. UW-Madison surgeons formulated the technique of converting the exocrine secretions into the urinary bladder, since urine did not contain hormones to activate digestive enzymes. With this procedure, there was a survival rate of 78 percent which was now considered the world's standard in pancreatic transplantation.

Dr. Belzer added that the UW-Madison had the second largest pancreatic transplant program in the United States, with over 40 transplants to its credit. Of those patients, 39 were living.

The final presenter was Dr. Munci Kalayoglu, who received his medical education in Turkey and his general surgery training in New York. He then went to Pittsburgh for pediatric surgical training, after which he returned to Turkey and became a professor and chief of pediatric surgery at the University of Ankara. At the age of 40, he returned to Pittsburgh to treat children with liver disease, and in 1984 he brought his extensive experience in pediatric surgery to UW-Madison, where he became head of the liver transplant program.

Noting that as recently as 1979, the survival rate of liver transplant patients was about 23-25 percent, Dr. Kalayoglu said introduction of cyclosporin increased that rate to 75 percent. From July 1984 through January 1986, 19 liver transplants had been done at UW Hospital, 85 percent of which were emergency cases. The survival rate of 78.5 percent was one of the best in the country. Dr. Kalayoglu showed slides picturing a number of young patients who were now leading normal lives as a result of liver transplants.

Concluding the presentation, Dr. Belzer spoke about research efforts, the results of which could be applied in clinical situations. As examples, he cited Dr. Sollinger's technique of implanting the exocrine function into the bladder and plans for introducing a specialized procedure for highly sensitized patients. His own laboratory had developed an organ preservation method which was very successful in the clinical situation and was in use by many centers in the United States. NIH support for Drs. Belzer and Sollinger was about \$2.4 million annually with another \$500,000 expected. In the last two years, the transplant service published 63 papers which were presented at national meetings, with another 16 papers submitted for publication. Completion within two years of a new surgical module was expected to be a great research asset, not only in transplantation, but also in overall surgical quality.

Regent Weinstein inquired about the problem of rejection in organ transplants.

Dr. Belzer replied that rejection was still the major cause of failure, except in pancreatic transplants, where there were other problems as well. Introduction of cyclosporin and donor-specific transfusions had reduced the rejection rate to about ten percent in kidney transplants. Although liver transplants had been done for 20 years, results were poor until cyclosporin became available. Now the survival rate was 70-75 percent.

Legislature - Report by System president on,
Effects of the Legislative Budget Repair Bill, pp 8-9

Reporting on requests for vetoes in the budget repair bill, President Shaw thanked Regent President Lawton for his assistance in presenting the UW System's case. Noting that he had written to and spoken with Governor Earl about the bill, he said his concerns were not with the magnitude of the cuts, although they would pose great hardships, but rather with certain provisions which would make it difficult for the UW System to manage effectively. In that regard, the president asked for a veto of language

Ref Budget - (same)

which provided that the UW System could not reduce the number of class sections as a result of the proposed budget reductions. While there was agreement that class sections would not be reduced as a result of the proposed \$27 million cut, the Legislature's decision to increase that figure to \$34 million made it impossible to sustain the agreement.

While he did not request reduction in the amount of the system administration cut, he did ask that the separate line item for system administration be vetoed on the basis that line items reduced managerial flexibility at a time when such flexibility was most needed to marshal resources effectively.

Finally, he asked that the shift of \$2.4 million of the prescribed tuition/fee increase from resident to nonresident students be vetoed because of concern about fairness and about the ability of out-of-state students to pay such a large increase.

Noting that the issue of flexibility was not confined to the State of Wisconsin, he quoted as follows from a study commissioned by the Governor of New York about that state's situation: "The statewide process of detailed control . . . thwarts local and laudable educational initiatives. The process is inappropriate for the management of a single campus of higher education and even more inappropriate for a system of campuses. Inevitably, the process takes the responsibility for campus management away from those appointed to do that task. The goal is a worthy one, enforcing public accountability for the expenditure of public funds. But, in practice, the process represents a triumph of technique over purpose. It undercuts the accountability that really matters, namely accountability for the effective delivery of high quality educational services. Great universities are not made by governments. They are made by learned men and women who are free to think and free to dream, and by bright students who are free to learn. Government's first obligation is to trust that freedom, and its second is to help nourish it."

Stating that he would reiterate in the months ahead the theme of providing the system and the universities the flexibility to do the job that needed to be done, Dr. Shaw said, "We are facing difficult budget times in the State of Wisconsin--all the more reason to enable us to run as efficiently and as effectively as we can and to have the necessary authority to go with the responsibility given us."

President Shaw then reported information just received regarding the Governor's decisions on the budget repair bill. The class section closing prohibition had been vetoed, with recognition of the commitment made by President Shaw that no class sections would be closed as a result of the initial reduction. Secondly, the Governor vetoed the section which would have allowed the Board of Regents to close campuses, leaving final authority in the hands of the Legislature.

Governmental Relations -
Development of a Government Relations Position Paper, p. 10

Reporting that a government relations position paper was being prepared and would soon be provided to the regents, President Shaw outlined as follows the principles to which these activities would adhere: "(1) We will set priorities, and they will become the basis of our government relations initiatives. People will know what is most important for this system. (2) We will be honest in our representations. It is essential that we maintain that reputation for dealing forthrightly with various legislative and governmental bodies. We will be assertive; we will be positive; but we will also be truthful. The 'sky is falling' technique has no lasting value. (3) The university relations office, with very close guidance from me, will coordinate government relations activities. Once priorities are set, we will move forward and speak clearly with one voice. We will be asking the campuses to assist in contact with their legislators. We will consult closely with the campuses in the setting of priorities and in the development of strategy, and we will involve the regents all through the process. We will also form a system legislative liaison group, consisting of representatives from each of our units, to give us the coordinated support that we are going to need to move forward. (4) Finally, the paper will call for the development of an advocate system, which will result in the creation of an organized statewide network containing at least 500 citizen advocates who can be called upon to assist us in effectively communicating our strengths and our needs to decision-makers at all levels of government."

Advocate System - Outline for development, p. 10

Report of United Council of UW Student Governments

Ms. Joanna Richard, President of United Council, reported first that the students of UWC-Richland had voted to join United Council, bringing to nine the number of centers included in council membership.

With regard to the issue of tuition, Ms. Richard expressed concern about comparison with Big Ten schools, particularly for university cluster institutions. Her perspective as a student was that the only options available were in the UW System, since she could not afford non-resident tuition in another state. In addition, she felt comparisons with other states could be misleading because taxes and the cost of living in Wisconsin were higher than in some other states, causing parents and students to have less expendable income.

Reporting that she had joined with Madison community leaders in presenting reactions to the federal budget, Ms. Richard said she had expressed dismay, as had students throughout the country, about the proposed financial aid cuts of \$3.2 billion resulting from the Gramm-Rudman Act. Those reductions, she added, would affect middle-class students most severely, with an immediate impact on 8,000 Wisconsin students who would no longer receive Pell Grants. Warning that cuts in the coming years would be massive, she pointed out that increasing reliance on guaranteed student loans would only exacerbate the problem of student indebtedness. On February 26, she added, there would be a United Council fund-raiser for Wisconsin students to participate in the United States Student Association's

United Council of UW Student Govts. - Report on new membership of UW Center - Richland, objection to Big Ten comparison for tuition, & effects on financial aid of federal Gramm-Rudman bill, pp 10-11

annual lobby day in Washington, D.C., at which time students would speak directly with members of Congress and federal officials about these concerns.

REPORT OF THE EDUCATION COMMITTEE

Chairman Clusen presented the committee's report.

Report of the Interim Vice President

Interim Vice President Kuepper commented at the committee meeting on the recent memo from Executive Vice President Lyall to board members about the JACAP agreement between the UW and VTAE systems, pledging enhanced cooperation in transfer of credit. It was noted that a brochure had been developed concerning transfer opportunities in the UW System for VTAE students, as well as a directory listing all non-college-parallel VTAE courses accepted for transfer to specific UW System programs and institutions.

Education for Economic Security Act

The Committee was advised as to disposition of funds granted under Title II of the Education for Economic Security Act of 1984, which provided money to each state for improvement of elementary and secondary instruction in mathematics, science, computers, and foreign languages. The UW System Office of Academic Affairs administered 30 percent of the fund earmarked for improved subject area programming, and the Department of Public Instruction administered 70 percent for conducting elementary/secondary programs. The \$500,000 administered by the system was distributed through a competition in which 39 applications were received and 16 awards made, 14 of them to system institutions.

Impact on Financial Aids of the Federal Gramm-Rudman Act

Assistant Vice President Albert Beaver presented to the committee a status report on the anticipated impact of the Gramm-Rudman Act on a variety of postsecondary financial-aid programs. A 4.3 percent reduction in federal funds for Supplemental Educational Opportunity Grants, College Work Study, National Direct Student Loans and the Pell Grant program was expected for 1986-87. Two programs administered by the Higher Educational Aids Board--the Guaranteed Student Loan Program and Talent Incentive Program--faced similar reductions. While it appeared that the effect of these cuts would be modest in 1986-87, the 1987-88 cuts could be in the 25-35 percent range.

Systemwide Conference on Curriculum for Liberal Arts

The Committee was advised of a systemwide general education conference, planned for March 20-21, to discuss a range of issues pertaining to that

part of the liberal arts curriculum which faculties expected students to complete in addition to their majors. Five delegates from each institution were to attend.

Acceptance of Supplemental Gift
from the William F. Vilas Trust Estate, for UW-Milwaukee

The following resolution, which was approved unanimously by the committee, was moved by Regent Clusen, seconded by Regent Finlayson, and unanimously adopted by the board:

Professor Ihab Hassan, R 3453, p. 12

Resolution 3453: That the Board of Regents of the University of Wisconsin System gratefully accepts the gift from the William F. Vilas Trust Estate of \$10,000 as a supplement to one-time special funding for Professor Ihab Hassan, of the University of Wisconsin-Milwaukee, for Semester II, 1985-86.

UW-Milwaukee - Staff - (same)
Hassan, Ihab - (same)

Academic Programs

Informational Report on Five-Year Review of

UW-Oshkosh - (same) UW-Oshkosh, Master of Public Administration, p. 12

It was reported by Regent Clusen that Vice Chancellor David Ward and Program Director Stephen Hintz gave the committee an overview of this regionally oriented program, designed primarily for working people who had advanced to supervisory positions in public or non-profit agencies and now wished to undertake formal degree work. Ms. Merilee Blanchard, a program graduate with a background in non-profit agency work, and Mr. Larry Belton, a current student who had been a hospital administrator, described the value of the MPA degree to their careers. In discussion, committee members learned that the MPA was considered the terminal degree for practitioners, although some institutions offered a research doctorate in the field. Increasingly, the MPA had become the preferred degree for local government positions.

Academic Programs - Five-year review of
UW-Eau Claire, BA/BS in Comparative Study of Religion, p. 12

Dean Lee Grugel stressed the value of this small program to the general education of students at UW-Eau Claire. One benefit of the five-year review process was that it identified and led to resolution of a significant need for support staff.

UW-Eau Claire - (same)

Regent Clusen pointed out that it had been emphasized by representatives of both programs that the five-year review was a valuable and helpful process which had resulted in improvement of the programs.

Academic Programs - *First reading, on UW-Eau Claire - Master of Music academic program, p. 13*

New Academic Program Proposal: UW-Eau Claire, Master of Music--First Reading

The proposal for a Master of Music degree was presented to the committee by Chancellor Schnack and Dean Lee Grugel, who commented on the high quality of the music faculty at UW-Eau Claire, which had the largest undergraduate music program in the state. Department Chair Paul Hilbrich added that most of the resources were in place to offer a Master of Music degree and that this program would provide students with more opportunities than currently available in the Master of Arts and Master of Science in Teaching programs, which would be phased out upon full implementation of the Master of Music.

In response to committee members' questions, Professor Hilbrich explained that, while the current MAT and MST degrees served only students interested in teaching, the Master of Music would also serve students in a range of other music specializations, particularly in the fields of performance or conducting.

UW-Eau Claire - *First reading of Master of Music academic program proposal, p. 13*

In discussion at the board meeting, Regent Hanson inquired about facilities for performance in Eau Claire.

Chancellor Schnack replied that the UW-Eau Claire Fine Arts Building contained two recital halls and a large performance hall which seated 600 people.

UW-Milwaukee - *Revision of sec. 5.13 of policies & procedures, R 3454, p. 13*

Revision of Section 5.13 of UW-Milwaukee Policies and Procedures (Calculating the Probationary Period for Assistant Professors and Instructors)

Faculty - *Revision of sec. 5.13 of UW-Milwaukee policies & procedures, R 3454, p. 13*
Continuing her report, Regent Clusen said the Education Committee was advised by Acting Chancellor Rees that these revisions were made to correct a discrepancy in the rules between the way prior university service was credited for a newly hired faculty member versus the way experience was credited for an academic staff member who moved to the faculty track.

Resolution 3454, which was unanimously approved by the committee, was moved by Regent Clusen, seconded by Regent Finlayson and adopted unanimously by the board.

Resolution 3454: That upon the recommendation of the President of the University of Wisconsin System and the Acting Chancellor of the University of Wisconsin-Milwaukee, the Amendment of Chapter 5 of the University of Wisconsin-Milwaukee Faculty Policies and Procedures be approved.

Faculty -
Announcement of UW System Faculty Development Awards p. 14

Associate Vice President Peterson presented to the committee a list of UW System faculty development awards for retraining or renewal. Reviewing the origin of funding and the process based on campuswide faculty development plans, he indicated that most of the \$288,000 available in the program supported retraining grants, for which institutions supplied a 50 percent match, whereas the small number of renewal grants required a 75 percent contribution from the institution. Projects ranged from low-cost and short-term to major efforts requiring as many as two or three years. In some instances, faculty were making dramatic changes in their fields. Vice President Kuepper expressed appreciation for establishment of this fund by the Legislature a decade ago, but noted that the fund had not been increased since its inception.

Rewards - (same)
Chancellors -
Authorization to Recruit for Chancellor, UW-Centers R 3455, p. 14

Presenting Resolution 3455, which had been unanimously approved by the committee, Regent Clusen pointed out that the resolution changed the title of the head of the UW Centers from executive dean to chancellor, as well as authorizing recruitment of a chancellor.

It was moved by Regent Clusen and seconded by Regent Hanson that the following resolution be adopted by the board:

UW Centers - (same)
Resolution 3455: That, upon the recommendation of the President of the University of Wisconsin System, the title of Executive Dean, University of Wisconsin Centers be changed to Chancellor, University of Wisconsin Centers, effective July 1, 1986, and that the President be authorized to initiate the search and screen process for a new Chancellor to fill the vacancy created by the resignation of Dr. Lorman Ratner.

Regent Fish recalled that the title had been changed from chancellor to executive dean because it was felt at the time the latter title better described the position and gave the UW Centers a separate status. While he had reluctantly supported that change, he welcomed the return to the title of chancellor.

Stating that he strongly supported changing the title to chancellor, President Shaw noted that the UW Centers had an aggregate enrollment of 10,000 students, making it one of the largest units in the system. He felt it was not fair for the institution to be headed by a chancellor in fact, but not in title.

Put to the vote, Resolution 3455 was adopted unanimously.

Solomon Amendment
Informational Update on Implementation of Solomon Amendment, p.15

Providing the Education Committee with an update on this 1982 law which barred federal financial aid to students who had not registered for the draft, Assistant Vice President Beaver noted that the U.S. Department of Education had recently decided to give lists of aid applicants to the Selective Service. Because students currently had to indicate their draft status on Pell Grant applications, no reporting change at the institutional level was necessary, and the impact on universities was expected to be minimal unless they were requested to become involved in noncompliance action. Committee members recalled earlier debate on issues raised by the Solomon Amendment and expressed interest in whether there was any legal recourse, as well as whether a question of discrimination was involved.

Federal Government - (same)

In discussion at the board meeting, Regent Lawton indicated that nothing could be done about the latest action unless the issue were taken to court.

Regent Weinstein asked if the Association of American Universities had expressed any interest in pursuing the matter.

Responding in the negative, President Shaw noted that in the past universities had been able to argue that implementation of the amendment would place on them a considerable administrative burden, but that this latest step would have minimal impact on the institutions.

Additional Items

Undergraduate Teaching Improvement Grants - 1986-87 grants announced, p.15

Regent Clusen continued the report of the Education Committee, summarizing presentation of 1986-87 Undergraduate Teaching Improvement Grant recipients. The history of UTIG was reviewed by Associate Vice President Peterson, who also pointed out that, of 47 proposals (totaling over \$400,000) submitted for consideration by the system faculty review committee this year, only 22 (47 percent) could be funded within the \$180,000 available. Senior Academic Planner Karen Merritt added that over the years many projects which had begun with a grant had attracted additional funds, and many had led to publications or presentations at professional meetings.

Regulatory - Reports on Legislation, pp 15-16

In a discussion of AB 728, which would transfer powers and duties of the Board of Regents to the system president, the Education Committee expressed interest in hearing reports on pending legislation, either directly or at full board meetings, similar to those presented to the Business and Finance Committee.

In further discussion at the board meeting, President Lawton recalled that the practice of making legislative reports to the Business and Finance

Committee had originated because such activity generally concerned budgetary matters. In the future, he said, all committees would receive reports on bills pertaining to their interests.

✓ Athletic Department - Informational report on student loan violation against UW-Madison Athletic Dept., p. 16
Matter concerning UW-Madison Athletic Department

Regent Clusen reported on a brief discussion by the committee about distribution to board members of information concerning the student loan violation charged against the UW-Madison Athletic Department. While committee members appreciated being informed about such issues, they emphasized that this in no way implied board interference in any institution's internal management.

✓ Professorship - Charles A. Mistretta named
UW-Madison: Change of Status of Charles A. Mistretta
~~to~~ John R. Cameron Professor, Departments of Medical Physics and Radiology, Medical School, R 3456, p. 16

Reporting that in closed session the committee unanimously approved Resolution 3456, Regent Clusen moved its adoption by the board. The motion was seconded by Regent Finlayson and carried unanimously.

✓ Mistretta, Charles A. - named John R. Cameron Professor
 Resolution 3456: ~~That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Madison, the status of Charles A. Mistretta be changed from WARR Professor, Departments of Medical Physics and Radiology, Medical School, to John R. Cameron Professor, Departments of Medical Physics and Radiology, Medical School, University of Wisconsin-Madison, effective immediately.~~ R 3456, p. 16

The Committee reconvened in open session to receive additional materials and discuss its part of the upcoming activities of the Regent Study Group on the Future of the UW System.

REPORT OF THE BUSINESS AND FINANCE COMMITTEE

Chairman Weinstein presented the report of the committee.

Gifts, Grants, and U.S. Government Contracts

Reviewing the monthly list of gifts, grants and contracts, Vice President Case advised the committee that the year-to-date total was \$201.7 million, or \$1.4 million greater than the same period last year (a 0.7 percent increase). The non-federal share was \$46.7 million, a 9.5 percent increase over a year ago, while the federal share decreased 1.7 percent. Although federal receipts had increased through November,

there was a downturn in the last two months. It was noted that month-to-month variations were normal due to changes in timing of awards, but reasons for this recent decline were not yet fully determined. After discussion, the committee unanimously approved Resolution 3457.

Regent Weinstein moved adoption by the board of the following resolution, and the motion was seconded by Regent Veneman:

Resolution 3457: That, upon recommendation of the President of the University of Wisconsin System, the gifts, grants and contracts presented at this meeting (copy on file with the papers of this meeting) be accepted, approved, ratified and confirmed; and that, where signature authority has not been previously delegated, appropriate officers be authorized to sign agreements.

Regent Lawton asked if some funds already granted might be withdrawn, and Regent Fish responded that funds which were authorized, but not yet spent, could be called back.

Put to the vote, Resolution 3457 was adopted unanimously.

✓ Regent Policy - Adopted ✓

Proposed Amendments to University Faculty Association Resolution

changing name to

Chairman Weinstein reported that he had received a letter from the University Faculty Association requesting that the board amend Resolution 1754, adopted October 6, 1978, to change the name from the "University Faculty Association" to the "University Insurance Association," and to extend mandatory participation in the insurance program to all faculty and academic staff beyond the age of 65 who met the test of eligibility, consistent with the Federal Age Discrimination in Employment Act. After being advised that such action did not have any financial impact on the state or the system, and that the request had been reviewed by system legal counsel, the committee unanimously approved Resolution 3458.

University Insurance Assn.

R 3458,

PP 17-19

The following resolution was moved by Regent Weinstein, seconded by Regent Knowles and adopted unanimously by the board:

Resolution 3458: That, upon recommendation of the President of the University of Wisconsin System and the University Faculty Association, Regent Policy document 78-8 (Board Resolution Number 1754, dated October 6, 1978) be amended as follows:

UNIVERSITY/FACULTY/ASSOCIATION

UNIVERSITY INSURANCE ASSOCIATION

Any person now or hereafter holding an appointment by the Board of Regents of the University of Wisconsin System, and a member of the faculty, academic

xref ✓ University Faculty Association - (same)
xref ✓ Insurance - (same)

or limited staff, unless excluded by the provisions below, shall be a member of the University/Faculty/Association University Insurance Association.

- (a) Membership in the University/Faculty/Association University Insurance Association and participation in its plan of group life insurance shall be a condition of employment for all those persons specified in the Membership paragraph who are on the October payroll (payable in November) and whose current rate of compensation is at least the minimum established by the Board of Directors of the Association, in cooperation with the UW System Administration, on an academic year basis or on an annual basis with the following exceptions:
- (1) Persons employed in the former Wisconsin State Universities System who make written Election of Non-participation not later than March 16, 1979. Filing of an Election of Non-participation is irrevocable, meaning that membership in the Association and participation in its plan of group life insurance is waived forever;
 - (2) Persons whose part-time status is included as a part of their appointment titles;
 - (3) All categories of graduate student members of the academic staff as identified by the appropriate UW System office responsible for staff benefits;
 - (4) All categories of interns, externs, residents, and any other groups or titles that by intent relate to similar positions or functions;
and
 - ~~(8) Those who have attained the age of 64 on or before the previous twentieth day of March; and~~
 - ~~(6)~~
 - (5) Faculty members who refused membership on one of the two occasions in 1959 and 1966 when the classes eligible for membership were enlarged.
- (b) Regular membership begins on the twentieth day of September of each year, and the appropriate payroll offices shall deduct the annual premium as determined by the Board of Directors of the Association for the year during which employment occurs from the October payroll (payable in November). The effective date of coverage for persons employed in the former Wisconsin State Universities System who have not filed an Election of Non-Participation shall be March 1, 1979. Duration of employment is not considered in making this deduction. Refunds for parts of years of employment are not allowed because coverage continues for the balance of the year. When a member terminates, coverage may be beyond September 20 at the option of the member by direct payment to the insurance company under contract with the Board of Directors of the Association.

- (c) ~~So/as/not/to/cause~~ To avoid undue financial hardship, ~~for/all~~ otherwise/eligible/persons, those new employees whose current earnings are less than 50% of the average salary of UW System instructors are ~~automatically/excluded~~ not eligible to participate in this program. ~~However,/no~~ No current member shall be dropped from membership in the Association because of ~~these~~ this provisions. The Board of Directors, with the concurrence of UW-System Administration, shall have authority to change the 50% figure if deemed to be in the best interests of the members of the Association.

Legislative - Legislative Report to Business & Finance Committee, p. 19

Vice President Bornstein reviewed with the Business and Finance Committee the legislative summary dated February 6, 1986, which had been provided to all regents.

In discussion at the board meeting, Regent Grover inquired as to the board's plan concerning recently introduced legislation to transfer powers and duties of the Board of Regents to the system president.

In response, President Lawton reported that Vice President Fish had agreed to testify at the following week's hearing before the Assembly Education Committee, and Regent Fish added that other regents were welcome to join him.

It was suggested by Regent Weinstein that President Shaw might wish to testify in order to share his thoughts on the matter with the legislative committee. Regent Saunders concurred with that idea, and Dr. Shaw indicated he would be willing to appear.

Expressing agreement with that approach, Regent Grover observed that what was needed was an enlightened presentation on the issue and that overreaction should be avoided. Regent Fish concurred with Regent Grover's assessment.

Regent O'Harrow pointed out that the hearing provided an opportunity to make positive statements which might also be useful in other contexts.

Report of the Vice President for Business and Finance

Legislative - Financial Impact of the State Budget Repair Bill, pp 19-20

Referring to a document entitled "1985-87 Budget Adjustment Bill, Summary of Legislative Action Affecting the UW System," Regent Weinstein reported that the committee was advised by Vice President Case about provisions of the state budget repair bill for the current biennium. The gross budget reduction of \$3,876,000 for 1985-86 was to be offset by internal system funds of \$1,676,000 and a utility reduction of \$2,200,000. If utilities could not be reduced that much, the difference would be added

ref Budget - (same)

back into the net reduction. For 1986-87, the gross budget reduction was \$29,535,200, to be offset in part by a tuition increase of \$9.4 million, internal reallocation of \$4,253,800 and a proposed utility reduction of \$2,618,000, for a net budget reduction of \$13,263,400. On a continuing annual basis after 1986-87, there would be a permanent cut of \$29,535,200, for a net budget reduction of \$17,517,200.

Other provisions of the bill were as follows: no class sections could be closed as a result of the budget reductions (vetoed by the Governor as reported by President Shaw); the system administration budget was identified in a new line item; the tuition increase of \$9.4 million annually was weighted toward non-resident students; installments of catchup salary increases were delayed for six months each but still would be fully implemented within the biennium; the regents were required to submit to the Joint Committee on Finance an implementation plan for the \$4.5 million additional cut added by the Legislature; and the Board of Regents was given authority to close institutions (vetoed by the Governor).

Financial Aid - Report on NDSL Billing and Collection, p. 20

The committee was advised by Vice President Case that systemwide procedures for the billing and collection of National Direct Student Loan funds receivable had been developed as requested by the Legislative Audit Bureau. A working group, co-chaired by John Tallman (system legal staff) and William Brunkow (system internal audit), had completed a full set of procedures covering the twenty specific actions recommended by the LAB. A report had been provided to the Regent Audit Committee (Regents Veneman and Weinstein) and then to the Legislative Audit Bureau. Approval of that plan by the LAB was pending. Mr. Case expressed appreciation for assistance of institutional financial aid experts in developing the new procedures.

1985-86 Projection Summary Report

Reviewing this report, Vice President Case noted that the reserve for revenue shortfall and other contingencies had been reduced to zero, as part of the Legislature's mandated budget reductions.

Following the regular business meeting, the committee considered matters having to do with tuition policy in accordance with the assignment made by the Regent Study Group on the Future of the UW System.

REPORT OF THE PHYSICAL PLANNING AND DEVELOPMENT COMMITTEE

Chairman Heckrodt presented the committee's report.

UW River Falls - Bldgs + Land - (w/ R 3460, p. 21)

UW Stout - Bldgs + Land - (same, w/ R 3460, p. 21)

UW River Falls and UW Stout: Approval of Major Project Concept and Budget Report for Primary Electrical Distribution System Repairs

R 3459, p. 21

The committee unanimously approved concept and budget reports for primary electrical distribution system repair projects at UW-River Falls and UW-Stout. Planning funds were approved in 1982 to provide for testing and identification of high voltage deficiencies at eight universities, including UW-River Falls and UW-Stout, and studies were then undertaken where conditions of the distribution systems were considered to have potential for failure. The two projects presented in this request provided for repair, adjustment, calibration and specialized maintenance of the high voltage components of the campuses' primary electrical distribution systems. The scope of work was identified by extensive testing, investigation, infrared scanning and calibration performed under the planning project, which generated specific knowledge of equipment conditions, problems and deficiencies. Cost estimates of \$950,000, based on figures developed by the Division of State Facilities Management's electrical engineering section, were to be funded from the general obligation bonding-supported minimum maintenance allocation.

Adoption by the board of Resolutions 3459 and 3460 was moved by Regent Heckrodt and seconded by Regent O'Harrow.

Resolution 3459: That, upon the recommendation of the UW-River Falls Chancellor and the President of the University of Wisconsin System, the concept and budget report be approved for the Primary Electrical Distribution System Repairs project and authority be granted to plan, bid and construct, at a cost of \$950,000 from 1985-87 General Fund Supported Borrowing-Minimum Maintenance Allocation.

Resolution 3460: That, upon the recommendation of the UW-Stout Chancellor and the President of the University of Wisconsin System, the concept and budget report be approved for the Primary Electrical Distribution System Repairs project and authority be granted to plan, bid and construct, at a cost of \$950,000 from 1985-87 General Fund Supported Borrowing-Minimum Maintenance Allocation.

In discussion at the board meeting, Regent Lawton asked how the costs for both projects could be exactly the same, and Regent Heckrodt replied that the figures were estimates but that the projects were very similar.

Put to the vote, Resolutions 3459 and 3460 were adopted unanimously,

UW Eau Claire - Approval of telecommunications systems acquisition, R 3461, pp 21-24
UW Whitewater - Approval of telecommunications system acquisition, R 3462, pp 21-24

UW-Eau Claire and UW-Whitewater: Approval of Telecommunications Systems Acquisitions

Regent Heckrodt reported unanimous approval by the committee of requests to purchase telecommunications systems at UW-Eau Claire and

Telecommunications - Approval of telecommunications systems acquisitions for UW-Eau Claire + UW-Whitewater, R 3461 + 3462, pp 21-24

UW-Whitewater. Proposals were evaluated by system administration staff, after which they were forwarded to the Department of Administration where they were evaluated for technical efficiency, compatibility with the statewide network, and future growth potential. The conclusion of all parties was that the systems offered by Wisconsin Bell were best suited to meeting telecommunications needs of the two campuses. In both instances, by purchasing the recommended systems the universities were retaining their current Centrex service, but at a significantly reduced cost.

The cost of the proposed system for UW-Eau Claire was \$3,482,370--a savings of approximately \$2 million compared to the current system over the seven-year life span. At UW-Whitewater, the cost of \$4,483,370 would result in savings of about \$1.4 million over the seven-year life span. The systems would be financed by Ameritech Credit Corporation at an annual interest rate of 7.75 percent, this lower percentage having been negotiated when it was found that there were discrepancies on that point between the two bids. Due to these favorable bids and interest rates, it was possible for the universities to pay for the new systems from operating budget funds, within their currently budgeted amounts for telecommunications rentals. Thus, for an investment of about \$8 million, it was possible to own a system of substantially higher quality at a cost of about \$500,000 a year less than the current rented system. The only payments continuing after seven years would be for access charges on each Centrex line, plus maintenance. Based on the current access charge of \$3.19 per month, payment would be \$117,634 plus maintenance charges of \$50,000 at UW-Eau Claire and access charges of \$136,085 plus \$100,000 for maintenance at UW-Whitewater.

The bidding results confirmed the assumption that it would be cost effective to purchase new telecommunications systems, and this conclusion was affirmed by Department of Administration staff who recommended proceeding immediately to obtain State Building Commission approval and to negotiate with Wisconsin Bell to secure seven-year contracts. The target for cutover to the new systems was August 1986.

Committee members' questions were answered by Norman Stoner and Mike Yohe, directors of computing and telecommunications at UW-Eau Claire and UW-Whitewater, respectively, along with Francis George, UW System Assistant Vice President for Information Technology Planning. Both universities had committees, composed of those who would be operating and using the new systems, which thoroughly reviewed all of the quotations/specifications and concurred that these were the best systems for their institutions.

It was moved by Regent Heckrodt and seconded by Regent O'Harrow that the following resolutions be adopted by the board:

Resolution 3461: That, upon the recommendation of UW-Eau Claire Chancellor and the President of the University of Wisconsin System, authorization be granted to complete negotiations and to purchase a telecommunication system on the UW-Eau Claire campus.

Resolution 3462: That, upon the recommendation of UW-Whitewater Chancellor and the President of the University of Wisconsin System, authorization be granted to complete negotiations and to purchase a telecommunication system on the UW-Whitewater campus.

In discussion at the board meeting, Regent Saunders asked if the two systems would have the capability to link into area businesses.

In response, Mr. George indicated there would be that capability if the network being developed by the Ameritech Corporation proved successful. It was hoped the network would be operational by 1987.

Regent Saunders inquired as to coordination with the business sector in preparation for using this new network.

Mr. George felt the technology should be proven effective before further steps were taken in that direction. Explaining that the Ameritech network was being tested in the Chicago area and a similar system was being tested on the west coast, he said developments would be followed carefully to see if the technology fulfilled its promise.

In response to a question by Regent Fish, Mr. George said the projected savings were based on current costs plus a six percent inflation factor, with no enhancements.

Regent Fish asked if the ratio between GPR and PR was different at the two institutions due to differing utilization in program revenue sources, such as dormitories, and Mr. George answered in the affirmative.

Regent Saunders asked if there was coordination with the Educational Communications Board in developing the new systems.

Responding in the affirmative, Mr. George said system administration, UW-Madison, UW-Extension and the Educational Communications Board all participated in a state task force which dealt with these matters.

Regent Fish added that the Building Commission would ensure that all state telecommunications systems were compatible.

Regent Saunders asked if the systems would be compatible with those in the VTAE System, and Regent Heckrodt answered in the affirmative, noting that the program was thoroughly researched and well coordinated. In the case of UW-Eau Claire, he added, it was decided not to opt for part of the system at this time because what was in place was adequate to meet present needs.

It was indicated by Mr. George that at UW-Eau Claire there remained two- to three-years' growth on a current data switch which was quite similar to the one proposed. The decision was to take advantage of the remaining growth potential before taking further action.

Regent O'Harrow indicated that in consideration of these and future telecommunication matters, the Physical Planning and Development Committee

would welcome the assistance of other regents with respect to relationships with business and any other concerns that might arise.

President Shaw observed that these telecommunication proposals provided an excellent example of what could be achieved when state agencies, system administration and institutions worked together toward a common goal.

Put to the vote, Resolutions 3461 and 3462 were adopted unanimously.

III. Madison - Advance Planning Funds for Major Project - Camp Randall Stadium Waterproofing, Resurfacing and Structural Repairs

R 3463, pp 24-25

The Physical Planning and Development Committee unanimously approved a request for \$30,000 of advance planning funds for Camp Randall Stadium waterproofing/resurfacing and structural repairs. In May 1984, the board had authorized expenditure of \$50,000 for an evaluation study of the east side of Camp Randall Stadium, the purpose of which was: (1) to identify structural concrete problems existing in the stadium and make recommendations for correcting them; (2) to install test panels to evaluate the effectiveness of the proposed solution; and (3) to recommend a solution, supported by estimates of cost, for rendering the existing exterior surfaces watertight. The extensive report prepared as a result of this study recommended application of a polyurethane coating in Sections P through X, involving about 22,000 seats, in order to provide a waterproof surface. Under these sections, which encompassed almost half of the stadium, were facilities housing offices of the Athletic Department, the W Club concession area and many other activities.

xref Camp Randall Stadium - (same)

Stating that it was essential to find a method for keeping water out of the structure in order to protect the integrity of the stadium and the state's investment in that facility, Regent Heckrodt said development of a concept and budget report would allow an architect to define the approach to be used in correcting the problems, to update the cost estimates reflected in the consultant's report, and to establish a construction schedule.

Committee members expressed concern about making a dollar investment of this magnitude without certainty that the recommended solution would put an end to the problem; however, there did not appear to be any viable alternatives. Associate Director of Athletics Ralph Neale indicated that leaking had been eliminated in areas where the test panels had been treated with polyurethane coating, and Vice President Brown stated that one of the responsibilities of the consultant architect/engineer retained to develop the concept and budget report would be to verify the effectiveness of the recommended approach. Although the estimated cost of \$1.3 million represented a substantial investment in a 64-year-old structure, the expense seemed supportable when balanced against the multi-million dollar cost of constructing a new stadium.

Adoption by the board of Resolution 3463 was moved by Regent Heckrodt and seconded by Regent Nikolay.

Resolution 3463: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, authority be granted to seek the release of \$21,000 of State Building Trust Funds (Planning) and \$9,000 of Program Revenue Funds for development of a concept and budget report for a 1985-87 Camp Randall Stadium Waterproofing/Resurfacing and Structural Repairs project at a total estimated project cost of \$1,300,000 (\$910,000 - General Fund Supported Borrowing - Minimum Maintenance Allocation and \$390,000 - Division of Intercollegiate Athletics Program Revenues).

Regent Knowles asked if the project had any relationship to the proposal for putting a "bubble" over the stadium, and Regent Heckrodt replied in the negative, adding that study of that idea was not yet completed.

In response to a question by Regent Weinstein, Regent Heckrodt explained that the structural integrity of the stadium was satisfactory at this time, but that damage could occur if water continued to seep into the structural steel and joints.

Put to the vote, Resolution 3463 was unanimously adopted.

UW-Superior - Budget Fund -
~~UW-Superior~~ Approval of Curran Residence Hall Handicapped Accessibility project, R 3464, p. 25

Continuing his report, Regent Heckrodt summarized committee consideration of a project to install an elevator and make other facility modifications to provide a readily accessible residence hall for the handicapped at UW-Superior. It was pointed out that at present there were no dormitories on that campus which were accessible to the handicapped and that Curran Residence Hall was considered the most logical facility to modify for accessibility because of its proximity to academic facilities, parking and the student center, in addition to which it housed both men and women students. The major expense would be installation of an elevator system in the building, with other costs involving provision of special furniture and room arrangements. After discussion, the committee unanimously approved Resolution 3464.

Upon motion by Regent Heckrodt, seconded by Regent Fish, the following resolution was adopted unanimously by the board:

Resolution 3464: That, upon the recommendation of the UW-Superior Chancellor and the President of the University of Wisconsin System, the Curran Residence Hall Handicapped Accessibility project be approved and authority granted to plan, bid and construct, at a cost of \$153,500 financed from Program Revenues.

Bldgs & Land - Bids → for UW-Madison Computer Science Center addition, Unit III, received within \$11,706,000 budget, p. 26 - 26
Board of Regents Meeting 2/7/86

Computer Science Center - (same)
Report of the Vice President

Bids on UW-Madison Computer Science Center Addition-Unit III

The committee was advised by Interim Vice President Brown that bids on this project were within the budgeted \$11,706,000.

UW-Milwaukee - Bldgs & Land - Progress report
UW-Milwaukee EMS Indoor Parking Structure, p. 26

In a progress report on structural restoration needs and utilization of this facility, the committee was informed of a meeting held on January 16 with representatives from UW-Milwaukee, system administration and the Division of State Facilities Management, as well as a principal of the consultant engineering firm of Straus-McGuire, the purpose of which was to ascertain the reliability of the structure for continued use in parking and to discuss corrective actions. Several alternatives were considered, after which the university elected to repair and seal the existing upper level slab at an estimated cost of \$207,000, rather than to remove and replace the parking slab at a cost of more than \$1 million--the result being elimination of approximately 75 parking spaces. It was anticipated that a project request would be presented for regent consideration at the March meeting.

Parking Area - Progress report on UW-Milwaukee EMS indoor parking structure, p. 26
In discussion at the board meeting, Regent Fish asked if a way had been found to replace the 75 parking spaces which would be lost.

Acting Chancellor Rees indicated that these spaces eventually would be replaced by providing for parking in several other locations. She added, however, that the shortage of parking space on the campus was so severe that the question of 75 spaces did not affect the overall picture appreciably.

Noting that UW-Milwaukee had the greatest parking problem in the system, Regent Heckrodt commended the university for electing to discontinue parking at the upper level of the EMS facility in the interest of safety; instead, the area would be used for light storage.

Project Progress Report

The committee was advised that there were currently 26 major projects under construction in the system at a total cost of \$55.5 million. In addition, there were 51 major projects, totaling approximately \$120 million, which had been authorized and were at various stages of design development. There were also dozens of minor projects which had been approved and were under construction.

Bldgs & Land - Approval to purchase land in La Crosse, R 3465, pp 26-27
UW-La Crosse
UW-La Crosse: Approval to Purchase Land, R 3465, pp 26-27

Regent Heckrodt moved adoption by the board of Resolution 3465, which was approved in closed session of the Physical Planning and Development Committee. The motion was seconded by Regent O'Harrow .

Resolution 3465: That, upon the recommendation of the University of Wisconsin-La Crosse Chancellor and the President of the University of Wisconsin System, authority be granted to purchase a 0.69 acre parcel of improved land located at 611 19th Street in the City of LaCrosse, at an estimated cost of \$355,000 including relocation, appraisal and legal fees, and closing costs, with the acquisition funded from Program Revenues.

In discussion at the board meeting, Regent Hanson asked why the decision was made to use the higher of two appraisals in determining the purchase price, and Mr. Brown replied that it was the lowest price the seller would accept.

Expressing his support for the resolution, Regent Heckrodt explained that this was a situation which the university had been trying to resolve for 25 years and that purchase of the property was important to the campus. In addition to the 29,952 square feet being purchased, the acquisition included dedication of 58,122 square feet of street to be vacated for use by the university, which demonstrated the City of La Crosse's support for university ownership of that parcel.

Put to the vote, Resolution 3465 was adopted, with Regents Hanson and Nikolay voting "No."

Following the closed session, the Physical Planning and Development Committee reconvened in open session for the purpose of discussing topics for the committee's participation in Regents' Study Group on the Future of the UW System.

UNFINISHED AND ADDITIONAL BUSINESS

Introduction of Guest

Regent O'Harrow introduced Mr. Peter Knigge, of Omro, who was a participant in the Rural Leadership Program.

Discussion of Legal Cases

Regent Schenian inquired as to the procedure for appeal of legal cases on behalf of the board.

Secretary Temby replied that it had been indicated by Mr. Charles Stathas, system senior legal counsel, that the practice was for decisions of

Legal Counsel - Discussion of legal cases & procedures, pp 27-28

that sort to be made by the Attorney General's office, on the basis that they were in the best position to determine whether an appeal was likely to be successful. The board, however, could discuss any such case with the Assistant Attorney General to which it was assigned, within the framework of the 30-day time limit on filing appeals.

Regent Schilling requested that information be provided to the regents by system legal counsel on matters which had been referred to the Attorney General, so that the board would have an opportunity to consider them if it wished to do so.

It was requested by Regent Lawton that the procedure for such matters be outlined for the board.

Regent Knowles suggested that there might be a place on the monthly agenda for a report on legal actions, and Regent Weinstein agreed with that idea.

Regent Lawton indicated that there could be provision for a monthly update in the board's closed session.

At 11:25 a.m., the following resolution, moved by Regent Knowles and properly seconded, was unanimously adopted on a roll call vote, with Regents Clusen, Finlayson, Fish, Grover, Hanson, Heckrodt, Knowles, Lawton, Nikolay, O'Harrow, Saunders, Schenian, Schilling, Veneman and Weinstein voting "Aye" (15), and no regents voting "No."

Resolution 3466: That the Board of Regents recess into closed session to consider personnel matters, as permitted by s. 19.85(1)(c), Wis. Stats., to consider the sale or purchase of land, as permitted by s. 19.85(1)(e), Wis. Stats., to consider personal histories, as permitted by s. 19.85(1)(f), Wis. Stats., and to confer with legal counsel, as permitted by s. 19.85(1)(g), Wis. Stats.

- - -

In closed session, the board considered appointment to the UW-Whitewater Board of Visitors, appointment to the Council of Trustees of the UW Hospital and Clinics, honorary degrees for UW-Madison, and appointment of a chancellor for UW-Parkside.

- - -

UW-Whitewater - Visitors - Appointment of Irv Palmer, for a term ending 6/30/89, R 3467, p. 29

CLOSED SESSION ACTIONS

The board arose from closed session at 12:05 p.m. and made the following announcements:

Resolution 3467: That, upon the recommendation of the UW-Whitewater Chancellor and the President of the University of Wisconsin System, Mr. Irv Palmer, of Milwaukee, be appointed to the UW-Whitewater Board of Visitors for a term ending June 30, 1989, to succeed Mr. Donald Tully, who has resigned.

Hospital & Clinics - Council of Trustees - Appointment of Eugene O. Gehl for term ending 8/89, R 3468, p. 29

Resolution 3468: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, Mr. Eugene O. Gehl be appointed to the Council of Trustees of the UW Hospital and Clinics for a term ending August 1989.

Gehl, Eugene O. - Appointed to UW Hospital & Clinics' Council of Trustees for term ending 8/89, R 3468, p. 29

Resolution 3469: That, upon the recommendation of the President of the University of Wisconsin System and the Regent Selection Committee, Dr. Sheila I. Kaplan be appointed Chancellor of the University of Wisconsin-Parkside, effective July 1, 1986, at an annual salary to be established in the 1986-87 budget.

UW-Parkside - Staff - Dr. Sheila I. Kaplan appointed chancellor, effective 7/1/86, R 3469, p. 29

The meeting was adjourned at 12:05 p.m.

Chancellors - Dr. Sheila I. Kaplan appointed UW-Parkside chancellor, effective 7/1/86, R 3469, p. 29

Kaplan, Dr. Sheila I. - Appointed UW-Parkside chancellor

Judith A. Temby

NORTH DAKOTA
FOR THE PERIOD 11-15-85 THROUGH 04-30-87
AWARD # EAR-8507789
MSN L&S GEOL & GEOPHYSICS (144-X324) 17,300.00
- 10) DOCTORAL DISSERTATION RESEARCH
IN SOCIOLOGY
FOR THE PERIOD 12-01-85 THROUGH 05-31-87
AWARD # SES-8516934
MSN L&S SOCIOLOGY (144-X353) 3,185.00
- 11) APPLICATION OF TRANSILIENT TURBULENCE THEORY
TO NUMERICAL WEATHER FORECASTING
FOR THE PERIOD 12-01-85 THROUGH 05-31-87
AWARD # ATM-8508759
MSN L&S METEOROLOGY (144-X359) 21,000.00
- 12) POINT DEFECT EQUILIBRIA AND ENERGY TRANSFER
BY LASER SPECTROSCOPY
FOR THE PERIOD 11-15-85 THROUGH 04-30-87
AWARD # DMR-8513705
MSN L&S CHEMISTRY (144-X361) 91,000.00
- 13) SEASONAL HEAT BUDGET AND THERMAL STRUCTURE
OF THE TROPICAL OCEANS
FOR THE PERIOD 11-15-85 THROUGH 04-30-88
AWARD # OCE-8515009
MSN L&S METEOROLOGY (144-X370) 120,000.00
- 14) CONTINUED INVESTIGATION OF LOW INTENSITY
EMISSION LINES FORM THE INTERSTELLAR MEDIUM
FOR THE PERIOD 11-15-85 THROUGH 04-30-87
AWARD # AST-8511808
MSN L&S PHYSICS (144-X372) 125,000.00
- 15) DOCTORAL DISSERTATION RESEARCH: REVISION OF THE
DESMOPSIS-SAPRANTHUS ALLIANCE (ANNONACEAE)
FOR THE PERIOD 11-15-85 THROUGH 04-30-87
AWARD # BSR-8511373
MSN L&S BOTANY (144-X426) 4,200.00
- 16) APPLICATIONS OF LINEAR AND NONLINEAR SPECTROSCOPY
TO CHEMICAL MEASUREMENT (CHEMISTRY)
FOR THE PERIOD 12-15-85 THROUGH 05-31-87
AWARD # CHE-8515692
MSN L&S CHEMISTRY (144-X483) 112,755.00
- 17) OBSERVATIONAL AND NUMERICAL STUDIES OF NORTH
ATLANTIC CLOUDINESS
FOR THE PERIOD 01-01-86 THROUGH 06-30-87
AWARD # ATM-8505027
MSN L&S METEOROLOGY (144-X486) 80,000.00

✓ Forest Products Laboratory - General - Collection agreement with the USDA # residence, nonpers. item A

3/7/86

III. REPORT OF ACTIONS TAKEN (MEMO OF AGREEMENT):

A. A Collection Agreement between the Board of Regents and the USDA Forest Service (FP-85-0781) has been signed by the Interim Vice President for Physical Planning and Development. This agreement is required in relation to the Occupancy and Use Permit with the USDA Forest Service for use by the University of the Forest Products Laboratory Facilities at 502 and 503 Walnut Street and provides for the University to advance a portion of the annual rental change to FPL, who provides for the costs of contracting the maintenance work from this advance. The advance, as adjusted for actual maintenance costs, is credited against the annual rental payment by the university at the end of the year. The 1985 agreement is for the replacement of the east half of the roof on the leased building at 502 N. Walnut Street. Approval of the Collection Agreement authorized the advanced payment of \$35,294 by the University to Forest Products Laboratory for the work.

B. A lease between Thomas Dredel and the Board for his occupancy of the Marshfield Experiment Station Residence, Building #314 from October 1, 1985 through June 30, 1986, has been signed by UW-Madison's Vice Chancellor for Administration. This replaces the lease reported in September 1984, due to the retirement of the former Station Superintendent (Garet H. Tenpas).

C. A lease extension for continued access by UW-Madison's Arlington Experimental Farms to Milwaukee Road property "for mowing and grading purposes" has been signed by the Vice President for Physical Planning and Development. The agreement, in effect for more than 20 years, is extended for one year through January 1, 1987. The shorter term is due to the purchase of the properties of the Chicago, Milwaukee and St. Paul and Pacific Railroad Company by the Soo Line Railroad Company and the internal management reorganization that is currently underway in their real estate department. The annual cost continues at \$60.

D. UW-Madison has exercised the first one-year renewal option for the space at 210 North Main Street, DeForest, site of the DeForest Area Medical Center. The option period is from April 1, 1986 to March 31, 1987.

E. Under authority granted by Resolution 518 (June 8, 1973), an easement has been granted to permit Madison Gas and Electric Company to provide underground electric service to the University's Pine Bluff Observatory facility.

A. NONE.

1954 E. Washington Ave. - Agreement for space by Dane County
detoxification treatment facility + OPTIONS in
Community Living, nonpus. item F

III-2

F. The following agreements for use of portions of UW-Madison's facility at 1954 East Washington Avenue (the former Neurological and Rehabilitation Hospital) have been signed by the Vice Chancellor for Administration:

2/17/86
non-pus items

<u>Dane County</u>	7,644 SF	1/1/86 - 12/31/90	\$6.47/SF
(detoxification treatment facility)			(increasing to \$7.86 SF by year 5)
<u>OPTIONS in Community Living</u>	1,470 SF	1/1/86 - 12/31/88	\$8.74/NASF
(office space - Annex Building)			(increasing to \$9.45/NASF by year 3*)

* Includes additional rental fee for improvements requested by the lessee.

Because of the university's interest in selling the building, the renewal agreements provide for cancellation upon 90 days written notice by either party.

Administrative Data Processing - Lease of 714-22 Williamson St. for storage space, nonpus. item G

G. On signature of the Vice President for Physical Planning and Development, space has been leased at 714-22 Williamson Street for 3,300 square feet of environmentally-controlled storage space for use by UW-Madison's Administrative Data Processing from February 1, 1986 through January 31, 1987. This will permit ADP to consolidate off-campus storage activities and close out an approximately equivalent amount of less desirable leased storage space in two locations (1902 East Johnson and 3500 University Avenue). The annual cost is \$10,230.

Williamson Street - Lease of 714-22 Williamson St. for Administrative Data Processing storage space, nonpus. item G

H. A lease covering 2,200 square feet of space at 6602 University Avenue as a site for UW-Madison's UW Hospital and Clinics Women's Health Center has been signed by the Vice President for Physical Planning and Development. The lease term is February 15, 1986 (or date of occupancy) through January 31, 1989 at an annual rate of \$23,621 (\$13.94 per square foot) in year one, increasing to \$24,093 (\$14.22 per square foot) in year two, and to \$24,575 (\$14.51 per square foot) in year three. The lease also includes a lump sum payment of \$44,621 for remodeling by the lessor, with payment to be made from Hospital operating budget funds.

Hospital - Lease of space at 6602 University Ave. for UW-Madison Women's Health Center, nonpus. item H

I. An agreement between the Board of Regents and Agency for Instructional Technology for seven academic years beginning with 1985-86 has been signed. Agency for Instructional Technology will have exclusive rights and license to duplicate and distribute program and print materials for the series entitled: TEACHING FOR THINKING CREATIVELY: IN THE CLASSROOM.

Women's Health Center - Lease of space at 6602 University Ave, nonpus. item H

Instructional Materials - Rights + license to duplicate for 7 years.

TEACHING FOR THINKING CREATIVELY: IN THE CLASSROOM, nonpus. item I

Computing - Agreement with Frank Weinhold for TECHSET computer program, supers. iter J III-3

J. University of Wisconsin Press Agreements:

An agreement with Frank Weinhold for the publication and exploitation of a computer program tentatively entitled TECHSET, in consideration for payment of royalties, has been signed by the Vice Chancellor.

WARF - Agreement for PRINTDOC and PRINTSET computer software supers. iter J

An agreement with the Wisconsin Alumni Research Foundation assigning the University's title to the computer software, PRINTDOC and PRINTSET, in consideration for payment of royalties, has been signed by the Vice Chancellor.

Computing - Agreement with WARF for PRINTDOC and PRINTSET computer software, supers. iter J
