MINUTES OF THE REGULAR MEETING

of the

BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM

Wausau, Wisconsin

Held in the University Theater, UW Center-Marathon County
Friday, October 5, 1984
9:05 a.m.

- President Lawton presiding -

PRESENT: Regents Clusen, Conroy, Finlayson, Fish, Gerrard, Grover, Hanson, Knowles, Lawton, Nikolay, O'Harrow, Saunders, Schilling and Weinstein

ABSENT: Regents Heckrodt and Veneman

Upon motion by Regent Weinstein, seconded by Regent Finlayson, the minutes of the regular meeting of the Board of Regents of the University of Wisconsin System, held on September 7, 1984, were approved as mailed to the members of the Board.

✓ UW Centers - statement of appreciation from Pres. Lawton for UW Center - Marathon County & people of Wausau for hospitality in hosting meeting, p. 11
✓ UW Center - Marathon County

REPORT OF THE PRESIDENT OF THE BOARD

Statement of Appreciation to the UW Centers and UWC-Marathon County

Expressing appreciation for the gracious hospitality extended by the UW Center-Marathon County and the people of Wausau, President Lawton said, "I hope it will be symbolic of what we know about the excellence of the Centers and the support that we have given and will continue to give them. All of the Centers should be complimented by this performance, and we are most grateful."

✓ VTAE Board - Report of budget decisions, new programs & programs evaluating and enrollment status, pp 1+2

Report of the President of the Vocational, Technical and Adult Education Board

Regent Saunders, President of the State Vocational, Technical and Adult Education Board, reported first on the biennial budget decisions made at the

September VTAE Board meeting. The budget request would be for a 15.4 percent increase over the base year doubled, which would amount to \$21,523,000. In a new budgetary approach, the Board was asking for an additional \$10,344,000 in general incentive aids and \$3,350,000 in targeted aids.

In addition to budget actions, the VTAE Board approved five programs: a one-year vocational diploma auto body program at Fox Valley Technical Institute; a one-year vocational diploma health unit coordinator program at Mid-State Technical Institute; a one-year vocational diploma word processor specialist course at Mid-State; a one-year basic horticulture program at MATC District Four; and a one-year basic police program at MATC District Four.

There was also a report on program evaluation, in which the VTAE System's 1,092 programs all were monitored and screened. During the course of the year, 63 were evaluated in depth, including six new programs. In 1984-85, 82 district-identified programs were to be evaluated, along with a number of new programs.

In conclusion, Regent Saunders reported that VTAE System enrollment increases were expected to moderate through 1990, with postsecondary enrollments projected to increase 2.9 percent per year and adult enrollments to increase 1.4 percent per year. Total enrollments for 1982-83 were 481,178, of which 146,379 were postsecondary. In 1989 to 1990 total enrollments of 536,000 were projected, of which 170,800 would be postsecondary.

With respect to strengthening bonds between the University and VTAE systems, Regent Lawton acknowledged the significant contributions which VTAE Board presidents had made to the Board of Regents and expressed appreciation to Regent Vice President Knowles, who had been serving as the Regent representative to the VTAE Board.

Regent - meetings -
Change in April 1985 Meeting Date *from April 12 to April 5, p. 2*

Requesting the change identified in Resolution 3166, President Lawton noted that the meeting date of April 12 caused a difficult conflict in his schedule.

It was moved by Regent O'Harrow, seconded by Regent Grover and unanimously carried that the following resolution be adopted:

Resolution 3166: That the Board of Regents meeting scheduled for April 12, 1985, be changed to April 5, 1985.

REPORT OF THE PRESIDENT OF THE SYSTEM

Report of Non-personnel Actions/Informational Items

Presenting Resolution 3167, President O'Neil noted that the report included the razing of several old buildings on the Rieder Farm in Madison, which represented an early phase in development of the University Research Park.

The following resolution was adopted unanimously upon motion by Regent Knowles, and seconded by Regent O'Harrow:

Resolution 3167: That the report of non-personnel actions by administrative officers to the Board of Regents and informational items reported for the record (copy on file with the papers of this meeting) be received for the record; and that actions included in the report be approved, ratified and confirmed.

✓ UW-Milwaukee - staff - Announcement of retirement of Asst. Chan. Gilbert Lee & introduction of Asst. Chan. Donald G. Melkus, p. 3

Retirement of Assistant Chancellor Gilbert L. Lee, UW-Milwaukee and Introduction of Assistant Chancellor Donald G. Melkus

✓ xref - Lee, Gilbert L. - Retirement as Asst. Vice Chancellor, UW-Milwaukee, announced, p. 3

It was announced by Chancellor Horton that Mr. Gilbert Lee, UW-Milwaukee Assistant Chancellor for Administrative Affairs, was to retire at the end of the month. Before coming to Milwaukee, he had served in senior administrative posts at the University of Michigan and the University of Chicago. The Chancellor noted that Mr. Lee was an extremely supportive and knowledgeable person whose expertise would be much missed, and those sentiments were underscored by President Lawton and President O'Neil.

✓ xref - Melkus, Donald - Introduction to Board as Asst. Chan. for Admin. Affairs UW-Milwaukee, p. 3

Chancellor Horton then introduced Mr. Donald Melkus, who had been appointed Assistant Chancellor for Administrative Affairs to succeed Mr. Lee. Mr. Melkus, who held undergraduate and M.B.A. degrees from UW-Milwaukee, had served in a number of administrative capacities at that institution.

✓ UW-Stevens Point - staff -

Introduction of Dr. Irving Buchen, Vice Chancellor, UW-Stevens Point

Dr. Irving Buchen, who had been appointed to succeed Dr. Patrick McDonough, as Vice Chancellor, UW-Stevens Point, was introduced by Chancellor Marshall, who noted that Dr. Buchen came to Stevens Point from California State University-San Bernardino, prior to which he had served at Fairleigh Dickinson University. Dr. Buchen held degrees from New York and Johns Hopkins universities.

✓ xref - Buchen, Dr. Irving - Introduced to Board as Vice Chancellor, UW-Stevens Point, p. 3

Presentation: The Current Status of the UW Centers, pp 3-9

President O'Neil called upon UW Centers Executive Dean Lorman Ratner, who introduced the following members of the Centers Board of Visitors:

✓ UW Centers -

Mr. Jacob Hilpertshauer of Sheboygan, President of the Board of Visitors; Ms. Kay Levin of Manitowoc; Mr. Allan Kieckhafer of West Bend; Mr. James Boehm of Marshfield; Mr. William Draves of Fond du Lac; Mr. Russell Brown of Rice Lake; and Mr. Lloyd Hornbostel of Janesville.

The following UW Centers deans were then introduced: Jerry Bower, Acting Dean of the UW Center-Richland; Thomas Waltermann, Dean of the UW Center-Rock County; Norbert Koopman, Dean of the UW Center-Marshfield/Wood County; Robert Thompson, Dean of the UW Center-Washington County; Mary Knudten, Dean of the UW Center-Waukesha County; Rue Johnson, Dean of the UW Center-Fox Valley; John Meggers, Dean of the UW Center-Barron County; William Schmidtke, Dean of the UW Center-Marinette County; Willard Henken, Dean of the UW Center-Fond du Lac; Kenneth Bailey, Dean of the UW Center-Sheboygan County; Aural Umhoefer, Dean of the UW Center-Baraboo/Sauk County; and Roland Baldwin, Dean of the UW Center-Manitowoc County.

Explaining that the intent of the presentation was to give a feeling for the Centers as an entire institution, Dean Ratner spoke first about enrollment in the Centers, which had grown from some 8,000 students in 1978 to over 10,000 currently, resulting from an increase of both nontraditional and traditional-age students. In the case of the nontraditional students, a large number of whom were women, the Centers were the starting or reentry point for those who now aspired to a profession and recognized the need to develop college-level skills. Nearly all of those people, he pointed out, had to remain close to their homes, jobs and families, so that the local UW Center was for them the only source of higher educational opportunity. In addition, growing numbers of traditional college-age students were attending the Centers, which allowed them to complete two years of higher education at low cost and to adjust to the intellectual level of college in the setting of a relatively small institution.

In addition to offering vital access to higher education, Dean Ratner continued, the Centers provided education of high quality, which enabled their students to be well prepared when transferring to four-year institutions.

Noting that the UW Centers were also the focus of community educational life, he pointed out that, in partnership with the UW-Extension, they offered to the public noncredit courses in areas ranging from the arts, to Shakespeare, to computer use. "The Centers are truly the focal point for the cultural, intellectual and often social and economic life for the communities they serve. The loyalties of local people toward their Center, their arm of the University of Wisconsin, runs strong indeed." A public university should find as many ways as possible to bring the benefits of education to the maximum number of people, he stated, adding that the communities which built the Centers wanted and expected this type of service.

Dr. Ratner then called on Dean Stephen Portch, of the UW Center-Marathon County, for introduction of a number of speakers who were to provide various perspectives on what the Centers meant to higher education in Wisconsin.

Dean Portch first introduced Ms. Kathleen Roth, who started college at the new Washington County Center in 1968. After two years at the Center, she went on to Marquette University and then to Marquette's Dental School, where she was one of only two women in a class of 127. She graduated with honors, taught for two years at Marquette, and then established a practice in West Bend.

Stating that she would have been unable to aspire to her chosen profession without beginning at the UW Center in West Bend, Ms. Roth explained that she came from a family of five children and could not afford to attend a four-year residential university. Living at home, she was able to continue her part-time job as a dental assistant and to benefit from the Center's low tuition. She felt the greatest advantage of being a student at the Center was the faculty's dedication to excellence in teaching, which prepared her and others well for the often rigorous programs into which they transferred. Noting that the Wisconsin Idea pledged opportunity for all within the state's borders, she stated that comments by many alumni made it clear that realization of this goal would not be possible without the quality and convenience of education offered at the UW Centers.

The next presenter was Ms. Pamela Queoff, from Menominee, Michigan. After graduating from high school in 1970, she worked as an accounting clerk and took some courses at the UW Center-Marquette County and then at UW-Green Bay. In 1981 she entered the UWC-Marathon County where she achieved sophomore honors and received the first Wausau Insurance T. A. Duckworth scholarship of \$2,500. After completing the requirements for her associate degree, she transferred to the UW-Madison School of Business, where she graduated with honors in May 1984. With a \$5,000 scholarship, she was now attending the UW-Madison Graduate School of Business to continue her study of risk management and insurance.

Commenting that she felt the majority of people considered the UW Centers to be valuable assets and great sources of community pride, Ms. Queoff recalled that the UWC-Marquette County provided such activities as ethnic festivals and theater on the bay, both of which brought more of the world to a small town. By the time she enrolled at UWC-Marathon County, she had waited ten years to fulfill the goal of furthering her education, and the faculty respected her determination. The rigorous honors program, she continued, afforded students the opportunity to challenge themselves and provided encouragement to continue the program wherever they chose to complete their degrees.

To Ms. Queoff, the most important benefit of a school like the UWC-Marathon County was the individual attention given to students by faculty who were always willing to offer assistance and support.

Dean Portch then introduced Mr. Dennis Held, who had returned to school at UWC-Waukesha County after earning a GED certificate. A self-styled "late bloomer," Mr. Held had dropped out of high school in 1976, but now was a

communication arts major at the Center and planned to complete his bachelor's degree at UW-Milwaukee. While maintaining an outstanding academic record, he also was a feature writer and commentator for a local radio station, president of the philosophy club, a member of student government, a tutor, and a staff member of the student literary magazine and of the campus newspaper. In addition, he was a free lance writer and was collaborating on a play with a faculty member at the Waukesha Center.

Mr. Held noted that he had quit high school in his senior year, bored with education and believing that once he got into the working world an exciting career would present itself. Still waiting for that to happen at age 25, he realized that he was afraid of going back to school and unsure of whether he could succeed. At the time he decided to continue his education, he was caring for his aging grandfather and needed to continue living with him. The local UW Center, therefore, provided the only opportunity he had for higher education. Once he began attending UWC-Waukesha County, he found that the staff was attentive to his needs as a nontraditional student and that the academic programs and other activities were stimulating.

Especially since the number of traditional-age college students was declining, he urged continued attention to counseling and weekend/evening classes for adult students.

The next speaker was Ms. Mary Ann Maricle, a student at UWC-Fox Valley, who intended to seek a degree in engineering. She had come to the Fox Valley campus through the articulation program between the Center and the high school she attended. A 1984 winner of the "student of the year award" and a recipient of several scholarships, she was also student representative on the collegium and a student member of a campus study committee.

Ms. Maricle explained that each year UWC-Fox Valley offered high school students in the top 25 percent of their class a chance to take one college course per semester during their senior year--a program which gave her a head start on her college education, as well as an opportunity to become familiar with what the Center had to offer. When it came time to choose a college campus, she selected the UWC-Fox Valley for several reasons: her choice of courses for the first two years were the same as at UW-Madison; classes were small, providing much opportunity for individual attention; by living at home, she was able to save on housing costs and keep her job as a draftsman; and fees at the Center were lower than at other universities. Noting that the Center offered the opportunity to participate in many activities, she credited involvement in student government with helping her to become a more well-rounded person and to better understand her school. In conclusion, she said the Center had aided her adjustment to college life, and when the time came to transfer to UW-Madison, she felt she would be as well prepared as students who had spent their first two years on that campus.

Dean Portch then introduced Mr. Roy Valitchka, of the UW Centers Board of Visitors, to speak about community services provided by the Centers.

Stating that Charles Van Hise would have applauded the contribution of the UW Centers to the Wisconsin Idea, Mr. Valitchka cited a wide variety of Center activities rendered to people of all ages, to business, to industry, to health care providers and to farmers across the state.

Giving specific examples, he reported that in Richland Center an associate professor of economics was to conduct a survey and analysis to determine nonresident ownership of rural land and the economic impact of that ownership. When the City of Ripon required expertise on sludge samples and when the City of Appleton needed advice on a secondary treatment system, their engineers turned to a noted UWC-Marathon County expert on waste-water treatment. A weed harvesting experiment, which was part of a lake project spearheaded by a UWC-Marinette County faculty member, had nationwide ecological implications. At the UW Center-Baraboo/Sauk County, the first camping elderhostel in the United States was begun in the fall of 1982, and similar programs were now being established at other locations.

Because of the Centers, he continued, students like Ms. Maricle were able to benefit from articulation programs with local high schools. At seven centers, through cooperation with UW-Extension, a program called "College for Kids" allowed young students to study with talented teachers from Center faculties and surrounding high schools.

Referring to relationships with the VTAE System, Mr. Valitchka observed that an excellent example of cooperation existed at Rice Lake, where the UWC-Barron County and Wisconsin Indianhead Technical Institute shared the same property with buildings similar in design. While each school conducted its own programs, they shared such services as a student center, food service, book store, library, resource center, audio-visual center and health services. UWC-Fox Valley also was involved in a program of coordination with the area VTAE institute which he felt would set a precedent beneficial to students and taxpayers alike.

Turning to other types of contributions, Mr. Valitchka indicated that a faculty member from UWC-Sheboygan County, who was an expert in plants, had assisted a local family by identifying potentially harmful berries ingested by their child. At UWC-Marathon County, a faculty member donated waste-water consulting fees for the purchase of laboratory equipment and for scholarships. Several Centers had formed community bands of students and area residents, who played challenging music together; and there was similar collaboration at a number of Centers where campus/community theater groups had been formed. Finally, he cited the example of a Sauk County farmer who berated a group of students about being on his property--until he found out they were on a UW Center field trip. He had nothing but praise for the Baraboo Center and the benefits he had received from its programs.

In conclusion, Mr. Valitchka stated: "From farmer to industrialist, youngster to aged across our state, our Centers do provide excellence, opportunity and scholarship. I as a layman see that scholarship and that dimension of enlightened, priceless service."

The final speaker was Dr. Kerry Trask, Chair of the UW Centers Faculty Senate.

Dr. Trask began his remarks with a general profile of the Centers' faculty. There were 345 faculty members, two-thirds of whom held PhDs or other terminal degrees. Most of them were white, middle-class, middle-aged people who received some of their education in Wisconsin, and until recently, most of them were men. During the past few years, however, those characteristics had begun to change. Women now comprised 27 percent of the faculty, with that proportion still growing, and an increasing number of faculty had come from other universities around the world, bringing to Wisconsin a rich slice of human diversity.

What made the UW Centers' faculty distinctive, he commented, was commitment to a kind of excellence characterized by balance and wholeness. First, their primary dedication was to teaching, rather than to research or scholarly writing. Secondly, while colleagues at larger schools engaged in ever-growing degrees of specialization, faculty at the Centers concentrated on introducing students to entire fields of knowledge, leading them to look at broad perspectives and interrelationships of ideas or developments.

This emphasis on teaching and on introductory courses had not deterred the faculty from scholarship, he pointed out, adding that especially in recent years there had been an increase in their productivity as scholars. Along with winning teaching awards, Centers' faculty were now writing more books and articles, presenting more papers and lectures, and receiving more grants and fellowships than ever before. Included in their ranks were respected authorities in such areas as computer science, Chinese communes, literature of science fiction, health care services in East Africa, the ecological effects of waste treatment, and the public careers of prominent Wisconsin citizens. Some Centers' academic departments, he noted, were now third only to UW-Madison and UW-Milwaukee in scholarly productivity.

Stating that this pursuit of excellence served to enhance faculty enthusiasm for teaching, Dr. Trask said that the Centers had opened the doors of learning to everyone, through invitations to lectures, plays, concerts, poetry readings, workshops and discussions, and that people had responded by the thousands. Faculty members also went outside the campus to speak at meetings, to act as unpaid consultants, and to serve on local boards. In short, they had become an easily accessible and much-used community resource. Because faculty members were so directly involved in their communities, he stated, the Centers had become the people's universities--the ones which the citizenry identified most as their own.

In summary, Dr. Trask made the following statement: "What the University of Wisconsin Centers have become is perhaps one of the clearest expressions of the promise made to the people of Wisconsin at the very beginning of the state--the promise that, within Wisconsin, higher education would not be kept the exclusive privilege of the wealthy and the well-born, but that here within these boundaries there would be a great democratization of learning so that everyone would be offered an open and equal opportunity to discover and develop their talents and abilities no matter how far down the social ladder they started life. In keeping faith with that promise and in carrying out that part of the university's mission, the faculty members of the University Centers are among the state's most militant servants."

Concluding the presentation, Dean Portch expressed appreciation for the opportunity to tell the story of the UW Centers and thanked his staff for their efforts in helping to arrange these meetings.

In response to a question by Regent Conroy, Executive Dean Ratner said approximately three percent of Centers' students were minority persons.

Regent Conroy asked if housing would be a serious problem for minority students who did not live near a Center.

Responding in the affirmative, Dr. Ratner noted the UWC-Marathon County was the only Center with dormitory space and that facility was shared with the local VTAE institute. The student body, he indicated, primarily mirrored the population of the areas around the Centers.

Regent Finlayson added her expression of appreciation for the excellent presentation and the hospitality offered by the UW Centers and UWC-Marathon County.

It was noted by President O'Neil that the occasion had been a testament not only to the hospitality which a university like this one could provide, but also to exceptional hospitality from the surrounding community of Wausau.

In addition to being the first time since merger that the Regents had met at a Center, President O'Neil observed that the date also marked almost exactly two years since the Board addressed issues regarding structure of the Centers and set in motion changes which had been substantially implemented since that time, with great benefit to the Centers and the University System as a whole. Enrollment had grown, while costs had been significantly reduced, particularly through streamlining of administrative operations in the central office. As a result, the resident undergraduate fee at the Centers was now well below the University Cluster fee--rather than being artificially pegged, as it was several years ago, in order to prevent a higher fee which would have come from actual costs at the Centers being distributed across what was then a smaller enrollment.

In closing, he recalled that the Board of Visitors of the UW Centers had come into being during that earlier period of serious introspection about the future of the Centers. When conditions improved, several of the visitors wondered whether their board should continue to exist, but the President had responded that such a group was needed to advise and guide the Centers no less in better times than in worse ones. The Board of Visitors had then decided to remain a vital force within the university and continued to provide valuable counsel to Executive Dean Ratner. A special debt of appreciation was owed to the visitors, President O'Neil observed, for their commitment as busy citizens in their communities to the whole University System and the cause of higher education.

UW System Advisory Committee on Alcohol Education

Announcing appointment of this Committee, President O'Neil recalled that in his last annual report to the Board, he expressed the hope that such a group might be convened in order to contribute to solutions for a critical and growing social problem. The Committee, which included students, faculty, counselors and other professional persons, was to be chaired by UW-Whitewater Chancellor James Connor and was to hold its first meeting on October 18. Staff support would be provided by Ms. Jane Coleman, of System Administration.

Appointment of Committee announced with UW-Whitewater Chancellor James Connor, Chair, & Jane Coleman providing System Admin. staff support.
The Committee's charge was to look primarily within the university community for ways to respond constructively and build on significant existing efforts in addressing this critical need. Noting that National Collegiate Alcohol Awareness Week began the following Monday, President O'Neil observed that the Committee's appointment also paralleled a strong declaration by Governor Earl of state concern about the same issue. Since society's response must be largely educational and since the problem affected young people with special poignancy, he thought it appropriate for the UW System to be among the first to accept the Governor's challenge. The Committee was to report by May 1985.

*Connor, James - Appointed Chair of UW System Advisory Committee on Alcohol Education, p. 10
Coleman, Jane - To provide System Admin. staff support to*

Regent Saunders asked why the Committee's charge was limited to alcohol abuse, rather than encompassing the broader area of substance abuse.

UW System Advisory Committee on Alcohol Education, p. 10

In reply, President O'Neil said it was felt that the subject of alcohol abuse would provide an ample challenge for the Committee and that what was learned might well be transferrable to other forms of drug abuse.

Having had five years of experience with operating a substance abuse program, Regent Saunders thought it might be difficult to separate drug abuse from alcohol abuse.

Chancellor Connor agreed that the problems were similar in that both were concerned with mind-altering chemicals. He cautioned, however, that the issues were so complex that the Committee might become bogged down if it attempted to cover the whole area.

Of the hundreds of programs nationally at the high school and college levels, Regent Weinstein said he was not aware of any that distinguished between alcohol and other substance abuse.

It was indicated by President O'Neil that this question of scope could be considered again when the Committee convened.

United Council - Report supporting implementation of recommendations by Regents Task Force on the Status of Women, increased compensation and categories for academic staff, and proposed revisions to Ch. VWS & Wis. Report of the United Council of UW Student Governments Admin. Code, pp 10-12

Mr. Scott Dacey, President of United Council, began his comments by expressing support for implementation of the recommendations made by the Regents' Task Force on the Status of Women (see pp 15-16). He felt these efforts, in conjunction with policy regarding comparable worth, should

provide the tools needed to employ women in a fair and equitable manner throughout the University System.

With respect to compensation for academic staff (see pp 17-19), he said that, as a member of the Academic Staff Salary Study Committee, he learned that the disparity between UW System and peer institutions around the country was great. Although he was concerned at the outset about the difficulties of placing academic staff into categories because of the many differences among institutional classifications, he now felt comfortable with the seven categories which were utilized to encompass a wide range of positions with very little overlap. As was the case with the faculty salary study, he thought some students would have concerns about distribution of funds to the individual campuses on the basis that certain institutions might not fare as well as might be warranted by their actual circumstances. In that regard, he felt it was necessary to emphasize that the Committee's report was not designed to provide a method of distribution, but simply to illustrate the situation on individual campuses. It was his suggestion that the University Cluster institutions be viewed in an aggregate sense and provided for as such, but that the UW Centers, UW-Madison and UW-Milwaukee each be considered separately because of their independent missions.

Academic Staff - State out of United Council's views regarding compensation & categories, p. 11

Turning to proposed revisions to Chapter UWS 8, Wisconsin Administrative Code (see pp 19-20), Mr. Dacey commented that the suggested changes would strengthen existing ethics policies on faculty reports of outside activities, and that the arguments against reporting compensation for these activities seemed persuasive. He suggested, however, that the revisions go further in protecting students against plagiarism.

Administrative Code - United Council's support of proposed revisions to UWS 8, p. 11

With respect to activities of United Council, Mr. Dacey reported that he had recently visited UW-Eau Claire, UW-La Crosse, UW-Stevens Point, UW-Stout, UW-Parkside, and UW-Whitewater. In addition, the effort was continuing to bring UW Centers students into United Council.

Compensation - Statement of United Council's views regarding academic staff compensation & categories, p. 11

In conclusion, he expressed appreciation for appointment of the Committee on Alcohol Education and stated United Council's commitment to addressing that problem.

Nuclear War - Discussion of subject as a course of study, pp 11-12

Regent Lawton asked if there was any student activity on the issue of nuclear war.

Mr. Dacey responded in the negative, adding that the Council was limiting their concerns to classroom aspects of education.

Noting that the point was moot if there were no classrooms, Regent Lawton said he was puzzled that students would ignore an issue as important as nuclear war and yet devote themselves to efforts such as the one at UW-Madison to bring "Batman" back to television. "I think you and your colleagues should rethink this", he said. "It is a number one imperative in the world, and I have been waiting for some years for students to present something to us here to suggest that they are concerned about it."

Indicating that United Council was not involved with WSA's "Batman" effort, Mr. Dacey said he would report Regent Lawton's concern to the

United Council - Request by Pres. Lawton that the Council consider the issue of nuclear war as a classroom issue, pp 11-12

Council. He indicated that United Council was involved in the drinking-age issue because of its direct effect on socialization opportunities for students.

It was noted by President O'Neil that there was to be an all-day session on the teaching and study of nuclear war on November 17 at UW-Green Bay. That session was expected to provide more information on what was being done across the UW System.

Regent Schilling added that, when he was a student body president in the 1960s, one problem was that students devoted so much time talking about the Vietnam War that educational issues were sometimes neglected. While he agreed that nuclear war was a paramount issue, he thought United Council was wise in dealing first with immediate classroom needs.

Dr. Sam Yarger, the new Dean of the School of Education at UW-Milwaukee, was introduced to the Committee by Chancellor Horton.

✓ *Teacher Education Task Force - Informational report by Prof. Joseph Kauffman, Chair, pp 12-13.*

Informational Report of the UW System Teacher Education Task Force

All Regents were invited to hear the report's presentation, which was made by Professor Joseph Kauffman, UW-Madison, who chaired the Task Force. Emphasizing that the university did not have full control of teacher education programs, he noted that these programs were also influenced by the Department of Public Instruction, local school systems, and teacher organizations. The focus of the report, therefore, was on those areas in which the university had authority and responsibility. Recognizing that primary responsibility for academic programs and degree requirements was vested in the faculty of each institution, Dr. Kauffman discussed a number of the recommendations made in the report and indicated that ways to address the problems faced by teachers were both complex and interrelated. He also referred to an essay preceding the recommendations which provided an overview of the history and status of teacher education.

During Committee discussion, Regent Clusen noted the current emphasis on educating teachers in discipline areas and questioned whether enough attention was being given to the technique of teaching. Professor Kauffman commented that teaching was perhaps the only profession which relied on a "sink or swim" approach, with no apprenticeship or internship programs. Because teachers were placed in that situation, he indicated, many left the profession without giving it a full chance.

Regent Saunders expressed interest in the recruitment of minority students into teaching programs and specific plans for enlarging the number of minority persons in that field.

Commending the Task Force for its report, Regent Lawton remarked that emphasis on liberal arts might well result in five-year programs and asked whether the Task Force had considered pilot projects such as the one at UW-Oshkosh. In reply, Professor Kauffman noted that low starting salaries for teachers militated against extending undergraduate work by another year and questioned whether five-year graduates would be recognized over four-year graduates in the job market.

Regent Schilling raised the issue of whether some graduate education degrees were not in fact continuing education or inservice programs, inasmuch as degree programs often were fueled by local school district salary plans based on graduate credits. All too frequently, he commented, simple continuing education programs (perhaps including teaching technique courses) were not taken by teachers because they would not receive the credits needed for salary increases in their school district pay packages. Acknowledging some tension in that regard, Dr. Kauffman agreed that teachers were subject to economic incentives to pursue graduate degrees, rather than inservice training. Regent Schilling questioned whether MEPDs were not actually well-conceived continuing education programs which were labeled graduate degrees to accommodate teacher salary progression. In response to an inquiry about whether System institutions offered non-degree inservice programs for teachers, Chancellor Horton said virtually all of them provided such courses.

Regent Weinstein asked if low starting pay was the major disincentive in attracting the best students to the teaching profession. In response, Dr. Kauffman indicated that, while low starting pay and pay progression issues were major factors, it was also important to consider other economic incentives, such as loan forgiveness, as well as the whole matter of restoring the honor and dignity to the teaching profession which some believed had been lost.

Thanking the Task Force for its outstanding report, which was submitted two months earlier than required, President O'Neil commented on the voluntary nature of this effort in contrast to comparable but mandated studies in other states and emphasized that the teacher education origins of System universities made this report especially significant. In conclusion, he referred to continuing efforts to develop stronger ties with local elementary and secondary school systems.

UW Centers - Film presentation at meeting at UW Center - Marathon County, pp 13-14

UW Centers Presentation

Regent Schilling reported that the Education Committee viewed a slide tape on the history of the UW Centers and their unique relationship to cities and counties throughout the state. After the film, Executive Dean Ratner introduced Arnold Ellison, Chairman of the Barron County Board of Supervisors and Chairman of the Wisconsin County Boards Association. Mr. Ellison, who was involved in establishment of the Center in Rice Lake, emphasized the importance of the Centers in providing access to higher

education and noted that the Centers contributed greatly to the cultural, social and economic progress of the communities in which they were located. The Committee thanked Mr. Ellison for his long-time support of the UW Centers.

In Committee discussion, Regent Saunders mentioned that the State VTAE Board had recently met at the Wisconsin Indianhead Technical Institute, which shared facilities with the UW Center-Barron County, and asked if there were efforts to expand such cooperative ventures in facilities' use around the state. In reply, Executive Dean Ratner indicated that such cooperation was encouraged and that there was some progress in that regard.

Members of the UW Centers Board of Visitors were introduced to the Committee by Executive Dean Ratner.

✓ UW-Whitewater -

Informational Report on the Five-Year Review of Management and Computer Systems (BBA/BS), UW-Whitewater

p. 14

The report was presented to the Education Committee by Vice President Lyall, who noted that since the program was implemented in 1978, it had experienced a great increase in enrollments, with nearly 800 majors in 1984. Despite problems associated with this rapid growth rate, System Administration recognized the program as a strong one which should be continued.

✓ x ref - Academic Programs - (same as above, adding UW-Whitewater)

Dr. Lyall then introduced UW-Whitewater Chancellor James Connor, Vice Chancellor Gaylon Greenhill and Professor Robert L. Horton, coordinator of the program. It was indicated by Professor Horton that support and guidance from industry had increased the effectiveness of the program and that, of 139 graduates in the last five years, all but five had found employment in their field. He read letters from various financial and other organizations around the state praising the graduates of the program, and he announced that the National Data Processing Management Association had chosen the MCS program at UW-Whitewater to receive its Four-Year Institution Award for 1984, recognizing it as the top-ranked, four-year program in the country. A plaque and a \$2,000 check were to be presented to Dr. Horton on behalf of the program at the Association's national convention.

In Committee discussion, Regent Clusen inquired whether such growth had been expected when the program was initiated. Chancellor Connor replied that the large enrollments were not surprising and that the university was encouraged by the high level of interest they reflected. Members of the Committee congratulated Professor Horton and UW-Whitewater on this fine program.

✓ UW-La Crosse -

Second Reading of New Academic Program: B.S. Microbiology, R 3168, pp 14-15
UW-La Crosse

Noting that the proposed degree had been presented to the Regents in September for a first reading, Regent Schilling explained that it was initially offered as a minor but had grown rapidly, with over 100 students

currently enrolled. System Administration concurred with the UW-La Crosse proposal for creation of a major.

Upon motion by Regent Schilling, seconded by Regent O'Harrow, Resolution 3168 was adopted by the Board, with Regent Nikolay voting "No."

Resolution 3168: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-La Crosse, the Chancellor of the University of Wisconsin-La Crosse be authorized to plan and implement the Bachelor of Science in Microbiology.

Women, Regents Task Force on Status of - Report on

Task Force on the Status of Women: Recommendations 25-29 pp 15-16

Regent Schilling reported that this matter was presented to the Education Committee pursuant to the Board's 1981 request that the recommendations of the Regents' Task Force on the Status of Women be sent to the institutions and that System Administration report back on their implementation. The last such recommendations to be returned to the Board were those numbered 25-29, concerning search processes for women to fill senior administrative positions, promotions, nontraditional career patterns, internship programs in administration, and career development.

Affirmative Action - Recommendations 25-29 of the Regents Task Force on the Status of Women reported.

In discussion at the Committee meeting, Regent Lawton asked about how active the internship program had been. Dr. Marian Swoboda, Director of the System Office of Women and Equal Opportunity Programs, replied that there had been 30 interns over the last ten years and that the women involved had made significant progress in administration after completing their internships. The expanded Systemwide program operated in lieu of individual institutional programs. In response to Regent Finlayson's inquiry about the number of minority women who had held internships and the recruitment process for bringing minority women into the program, Dr. Swoboda indicated there had been five minority women in the program, all of whom were enjoying considerable professional success. The process was under study to make sure that recruitment of minority women was maximized, the current system being that chancellors nominated individuals for internships.

pp 15-16

Discussion of employment & tenure of women & minorities

Chairman Schilling then called on Chancellor Meyer for introduction of two interns at UW-Superior who were present at the Board meeting. The Chancellor introduced Dr. Cecilia Schrenker, who had been an intern two years ago and now served as director of planning and analysis at UW-Superior; and Dr. Gloria Toivola, a political scientist who this fall began her administrative internship in Vice Chancellor Haugland's office.

Resuming his report, Regent Schilling said concern was expressed by Regent Conroy that few women and minority persons emerged from search and screen efforts or through the tenure review process. Noting that System and Board policies seemed adequate, she wondered whether there was a breakdown

at the institutional level. In response, Dr. Lyall indicated that it was possible to determine how many applications were received from women and minorities, but that the tenure question depended on the pool of faculty hired and their progression through the ranks. Regent Conroy requested that the Regents be given such information so that they could ascertain whether the recommendations of the Task Force were being followed. In reply to a question by Regent Saunders as to what effect the recommendations had, Dr. Lyall explained how the Task Force report evolved, and Dr. Swoboda added that many of the recommendations were carried out through affirmative action requirements and reporting at the institutions. Regent Saunders requested that System Administration provide annual reports of progress in these areas, and it was agreed that such reports would be forthcoming.

The Committee thanked Dr. Swoboda for her efforts throughout the lengthy process during which the Task Force recommendations were developed and implemented.

In discussion at the Board meeting, Regent Weinstein asked if Recommendation 27 (on relevancy of nontraditional career patterns) and Recommendation 28 (on internships) should be read together.

Replying that she felt they should be viewed separately, Dr. Swoboda said the intent of Recommendation 27 was for search and screen committees to take care that nontraditional career patterns did not exclude otherwise qualified candidates for administrative positions.

Regent Weinstein pointed out, however, that the way the recommendations were written made it appear that ~~non~~^{MS} traditional career patterns were not relevant.

President O'Neil agreed that Regent Weinstein had detected a fault in structure of the recommendations which had not been noticed previously. While the language of the recommendations themselves came from the Task Force, he noted that the language which followed was System Administration's attempt at refinement and that, by use of negatives, the intent may have become obscured. His understanding was that in Recommendation 27 the Task Force was cautioning that women candidates often did not come through the traditionally recognized avenues to administrative pools and that, in part, Recommendation 28 was designed to help improve the situation and expand the pool. He suggested that the implementing language of Recommendation 27 be rewritten to make clear its connection to Recommendation 28, and that perhaps the two recommendations should be reversed in order.

Report of the Vice President

It was reported by Vice President Lyall that, at the November meeting of the Education Committee, she would respond to questions which had been raised concerning the balancing of curriculum and shifting of resources and enrollments.

✓ UW - River Falls - staff - Authorization to recruit Chancellor, R 3169, P. 17

Authorization to Recruit Chancellor, UW-River Falls

The following resolution was moved by Regent Schilling, seconded by Regents Finlayson and Saunders, and unanimously adopted by the Board:

✓ x ref - Chancellor - Authorization to recruit Chancellor, UW-River Falls, R 3169, P. 17

Resolution 3169: That, upon the recommendation of the President of the University of Wisconsin System, the Board of Regents approves the Request for Authorization to Recruit for a Chancellor at the University of Wisconsin-River Falls.

✓ UW - Oshkosh - staff

Authorization to Recruit Dean, College of Letters and Science, UW-Oshkosh, R 3170, P. 17

Resolution 3170 was adopted unanimously by the Board, upon motion by Regent Schilling, seconded by Regent Nikolay.

Resolution 3170: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Oshkosh, the Board of Regents approves the Request for Authorization to Recruit for a Dean, College of Letters and Science, University of Wisconsin-Oshkosh.

REPORT OF THE BUSINESS AND FINANCE COMMITTEE

Chairman Weinstein reported for the Committee, noting that all Regents were invited to attend that portion of the meeting at which the first two agenda items were considered.

-

Before beginning his report, Regent Weinstein commended Regent President Lawton for his comments on student involvement in nuclear war issues (see p.11).

-

✓ Report on Academic Staff Salary Study Committee - Report endorsed & direction given to Systems Administration for further recommendations

At the Business and Finance Committee meeting, Vice President Ronald Bornstein, Chairman of the Academic Staff Salary Study Committee, presented the report of that group, which was charged with considering current levels of academic staff salaries and determining whether there was need for adjustments to bring them to a competitive level. After completing its study, the Committee found that additional funds for that purpose were needed. Chairman Weinstein expressed appreciation to Dr. Bornstein and the Committee members for their efforts.

R 3171, PP 17-19

✓ x ref Compensation - Report of the Academic Staff Salary Study Committee endorsed & direction given to Systems Administration for further recommendations, R 3171, PP 17-19

Also appearing to speak before the Business and Finance Committee on that issue were Ed Muzik, Executive Secretary of the Association of UW Faculties; Larry Morse, UW-Eau Claire, Chairman of TAUWF's Academic Staff Committee; and Kathy Pletcher, Chair of the UW-Green Bay Academic Staff Committee.

After a motion in Committee by Regent Nikolay to amend Resolution 3171 failed, the Committee approved the Resolution, with Regent Nikolay voting "No."

Adoption by the Board of Resolution 3171 was moved by Regent Weinstein and seconded by Regent Knowles:

Resolution 3171: That the Board of Regents endorses the report and recommendations of the University of Wisconsin System's Academic Staff Salary Study Committee and directs System Administration to consider its recommendations in the development and submission of the UWS 1985-1987 biennial budget. It is urgent that the competitive shortfall in academic staff salaries illustrated in the Committee report be addressed as quickly as possible if the UW System is to be sustained as a distinguished academic institution.

Consistent with that report, the Board directs System Administration to examine and recommend, with appropriate Systemwide consultation, objectives and guidelines for the development of a compensation system that recognizes institutional and geographic differences, assures internal and external equity, responds to emerging equal opportunity issues, and effectively communicates compensation policies and practices to all UWS institutions and academic staff.

The Board extends its appreciation to all those who served on the Committee for an exceptionally fine report.

In discussion at the Board meeting, Regent Lawton emphasized that this report, like the report of the Faculty Compensation Committee, did not itself contain figures regarding specific amounts; rather, those estimates were made afterwards. "They are not cast in stone, and presumptions that these are just going to be passed through to the Governor should not be made," he said, adding that it would be necessary first to carefully evaluate the figures.

If that were the case, Regent Nikolay asked how the Board could endorse the report at this time.

It was Regent Lawton's understanding that by endorsing the report itself, the Board was not endorsing numbers that might or might not be valid in the final analysis. It would be up to the Regents and administration to make that determination later.

What the Academic Staff Salary Study Committee said, Regent Weinstein observed, was that given certain assumptions, there would be certain results; and the Regents were being asked to endorse that concept. He saw no inconsistency in endorsing the report, with the understanding that those assumptions might or might not change.

Regent Clusen pointed out that the figures were provided as an addendum and not as part of the report itself. It seemed to her that the report could be presented without the addendum.

President Lawton agreed, stating that would be his intention. He noted that figures were not submitted in presenting the Faculty Compensation Committee report.

That point was underscored by President O'Neil, who cautioned that what was presented in the addendum was a report on methodology and approach. Since questions were expected about possible cost implications, it was assumed that a rough estimate, separate from the report, would be helpful. "Lest there would be any doubt in the presentation", he said, "certainly we would want to make clear that no particular figures have been chosen. What we understand is that we are now to work with the implications and methodology of this report, as with the Faculty Compensation Report; and later, and only at that time, to bring to you any specific dollar amounts."

Stating that he would vote against the resolution on the strength of his original argument, Regent Nikolay added that, "I think we are spinning our wheels in the sand anyway because those two reports will probably find their way to the bottom of the pile somewhere."

Put to the vote, Resolution 3171 was adopted, with Regent Nikolay voting "No."

Administrative Code

Amendments to Ch. UWS 8, Wisconsin Administrative Code, and Repeal of Ch. UWS 7 and Ch. UWS 14, R 3172, pp 19-20

Continuing the report of the Business and Finance Committee, Regent Weinstein stated that the next agenda item concerned proposed amendments to Chapter UWS 8, Wisconsin Administrative Code. Dr. Marvin Ebel, Chairman of the Committee to Review UWS 8 and Associate Dean of the UW-Madison Graduate School, presented the report to the Regents, pointing out that the most significant change from the Committee's last report was addition of ^{to the reporting form} ~~the~~ ^{the HS} requirement for reporting time spent on outside activities. Two other modifications were: (1) Addition of the word "personnel" to s. UWS 8.025(3)(a), which in effect required institutions to set standards for the use of personnel in outside activities; and (2) deletion of the "whistleblowing" section, since that matter was already fully covered by state statute. Chapters UWS 7 and 14 of the Administrative Code would be repealed under the suggested revisions.

In Committee action, Chairman Weinstein presented an amendment to the proposed resolution, and the amendment was adopted. The amended resolution then was unanimously approved by the Business and Finance Committee.

It was moved by Regent Weinstein, seconded by Regent Hanson, and carried unanimously that Resolution 3172, as approved in Committee, be adopted by the Board.

Resolution 3172: That the Board of Regents endorses the Report of the Committee to Revise UWS 8, dated October 5, 1984, as amended; and

That the Secretary of the Board of Regents, pursuant to s. 227.018(2), Wis. Stats., notify the presiding officer of each house of the Legislature that proposed amendments to Chapter UWS 8, Wis. Admin. Code, are in final draft form and cause a statement to appear in the Wisconsin Administrative Register that said proposed amendments have been submitted to the presiding officer of each house of the Legislature; and

That it is the Board's intention to review Chapter UWS 8, Wis. Admin. Code, within one year from the date of its final promulgation as an administrative rule.

Chairman Weinstein explained that the Committee had also voted to send the statement of rationale to the UWS 8 Review Committee for consideration of a suggested amendment. He hesitated to introduce the resolution at this meeting, however, because the UWS 8 Committee had already met later the previous day and had taken action to amend the rationale, as suggested at the Business and Finance Committee meeting.

President Lawton asked unanimous consent that the rules be suspended and that Dr. Ebel be allowed to make his Committee report at this time. There being no objection, consent was granted.

Dr. Ebel reported that the UWS 8 Committee met shortly after the Business and Finance Committee meeting and agreed there was some confusion among members of the UWS 8 Committee regarding the level of reporting required of elected officials and members of the Board of Regents. As a consequence, they decided to submit a report revised to delete rationale number three, which addressed that question.

In view of the Committee's report, President Lawton ruled that no action was needed on the Business and Finance Committee's resolution to refer the statement of rationale back to the UWS 8 Committee.

Approval of Gifts, Grants and U.S. Government Contracts

Vice President Case next reported to the Committee on gifts, grants and U.S. government contracts, indicating that this year's activity continued to be greater than a year ago. Research support was up about \$2.4 million, of which half was from federal and half from non-federal sources.

Student aid of \$34 million was \$3.3 million behind last year, due to a change in award dates, while awards for instructional purposes had increased by \$4.1 million. It was pointed out that UW-Madison received a \$2.5 million award to train Indonesian students in agriculture and engineering--a joint project with Harvard University funded originally by the State Department's Agency for Informational Development. UW-Madison also received its annual Sea Grant award which totaled \$1.9 million, and UW-Superior received \$218,000 from the Environmental Protection Agency to conduct research assessing the risk potential of chemicals discharged into the lower Fox River in order to determine what adverse effects such discharge might have on human and aquatic life.

Vice President Case drew the Committee's attention to a \$47,700 National Institutes of Health grant reduction at UW-Milwaukee, caused by departure of the project director who was leaving the University for a higher salary at another institution. It was noted that this was an example of a campus being unable to meet competition. As a result, a \$24,000 assistant professor of Nursing left UW-Milwaukee for a \$40,000 position as a full professor at Case Western Reserve, and the grant money followed.

Adoption by the Board of the following resolution was moved by Regent Weinstein and seconded by Regent Nikolay:

Resolution 3173: That, upon recommendation of the President of the University of Wisconsin System, the gifts, grants and contracts presented at this meeting (copy on file with the papers of this meeting) be accepted, approved, ratified and confirmed; and that, where signature authority has not been previously delegated, appropriate officers be authorized to sign agreements.

✓ UW Foundation - Discussion regarding large contributions made by the Foundation pp 21-22

In discussion at the Board meeting, Regent Lawton pointed out that spread throughout the list of gifts and grants were approximately three quarters of a million dollars from the Madison campus UW Foundation. He felt the significant support from that group and foundations at other campuses should be more prominently highlighted and recognized. However, he added, it was important that the inference not be drawn that these monies could in any way take the place of state support.

Chairman Weinstein indicated that, on Regent Lawton's advice, the Business and Finance Committee was drawing attention not only to total figures, but also to some of the more unusual and larger gifts. That emphasis could be expanded to include foundation support.

As a former member of the Business and Finance Committee, Regent Clusen thought it might be useful to review annually the list of contributions from the various campus foundations. By that means, she felt proper recognition could be given without providing so much visibility that unwarranted assumptions might be made.

Noting that he served on the Executive Committee of the UW Foundation, Regent Fish said that kind of information could be gathered easily since many of the other campuses permitted the UW Foundation to administer their

funds for investment purposes. It was true, he emphasized, that the Foundation administered a very substantial sum of money for a great variety of worthy university purposes. While he agreed that these contributions should be recognized periodically, he cautioned that care should be taken to avoid a tendency by some who might believe that either the Regents or the Legislature ought to determine how these funds should be spent, particularly since many of them involved bequests for specific purposes.

The question was put on Resolution 3173, and it was unanimously adopted.

Budget -
Status Report on Biennial Budget Issues, p. 22

Regent Weinstein reported that a timetable of the budget process for the UW System was provided to the Business and Finance Committee by Associate Vice President Gene Arnn, who noted that planning for the 1985-87 biennial budget began in the latter part of 1983. The biennial budget proposal, which was to be presented for approval at the November meeting, would combine requests for faculty and academic staff compensation adjustments with requests to recognize cost increases for continuing programs and funding for select new initiatives. It was emphasized, however, that faculty and academic staff compensation would continue to receive the highest priority in the budget.

Utilities - Vice President Case's recommendation on utility budgets, p. 22
Report of the Vice President

In his report to the Committee, Vice President Case presented a response to Regent Knowles' request for further information regarding funding for utilities. After explaining the issues involved, he recommended that System utility budgets be continued on a sum-certain lapsing basis, with two considerations added: first, that there be agreement to cover severe budget shortfalls by special additional appropriations; and second, that any unspent balances attributable to student fees not be lapsed. The Committee indicated general agreement with the recommendations, which were to be incorporated into the 1985-87 biennial budget request.

Budget - (same as above)
 - - -

REPORT OF THE PHYSICAL PLANNING AND DEVELOPMENT COMMITTEE

Vice Chairman Nikolay presented the Committee's report.

Approval of Roof Repair/Replacement projects, UW System

Presenting Resolution 3174, Regent Nikolay commented on the recurring problem of roof repairs which was exemplified by this substantial request. "I hope I am on the Board of Regents long enough to cure this problem. I am not sure that it does not belong on the other end of State Street, with the Division of Facilities Management. We get it when it is a fait accompli, and we have no choice but to repair the roofs."

Roof Repairs/Replacement

Authority to plan, bid & construct projects at

Included in this request were twenty-five roofs at eight campuses to be funded from \$2,250,000 of general fund supported borrowing and an additional four roofs at three campuses to be funded from \$478,100 of program revenues. This was a semiannual request for roof repair and replacement projects, with related masonry repair and roof drain work also included.

Upon motion by Regent Nikolay, seconded by Regent O'Harrow, Resolution 3174 was adopted unanimously by the Board.

Resolution 3174: That, upon the recommendation of the UW-Eau Claire, LaCrosse, Madison, Milwaukee, Oshkosh, Platteville, River Falls, Stevens Point and Stout Chancellors and the President of the University of Wisconsin System, authority be granted to plan, bid and construct roof replacement projects as indicated below, at a total cost of \$2,728,100 (\$2,250,000 from General Fund Supported Borrowing-Minimum Maintenance/Health and Safety Allocation funds and \$478,100 of Program Revenues).

*General Fund Supported Borrowing - Minimum Maintenance/Health and Safety Allocation

W/ notation - Authority to plan bid & construct roof replacement project, R 3174, pp 22-23

Approval of Deferred Maintenance Projects, UW System

The second item before the Committee concerned eleven GPR-funded deferred maintenance projects, including a running track replacement project at UW-Eau Claire; a window replacement project at UW-LaCrosse; heating plant turbine repair projects at UW-Madison and UW-Milwaukee; tennis court repair projects at UW-Parkside and UW-Stevens Point; masonry repairs to the Kenilworth Building and an animal care compliance project at UW-Milwaukee; two floor repair projects at UW-Madison; and piping replacement projects at UW-Platteville and UW-Madison. Each was to be funded from general fund supported borrowing - minimum maintenance/health and safety allocation.

It was moved by Regent Nikolay and seconded by Regent O'Harrow that the following resolution be adopted by the Board:

Resolution 3175: That, on the recommendation of the UW-Eau Claire, LaCrosse, Madison, Milwaukee, Parkside, Platteville and Stevens Point Chancellors and the President of the University of Wisconsin System, the following minor projects be approved, and authority granted to plan, bid and construct, at the costs indicated, from General Fund Supported Borrowing - Minimum Maintenance/Health and Safety Allocation.

- ✓ UW-Eau Claire ^{Bldgs + Land} Outdoor Running Track Replacement *project*
\$209,500 approved, R 3175, pp 23-25
- ✓ UW-LaCrosse ^{Bldgs + Land} Wilder Hall Window Replacement, \$105,300 *project*
discussed & approved, R 3175, pp 23-25
- ✓ UW-Madison ^{Bldgs + Land} Brogden Psychology Building Condenser Water Piping Replacement, \$72,000 *project approved, R 3175, pp 23-25*
- ✓ Charter Street Heating Plant Turbine Overhaul, \$141,000 *project approved, R 3175, pp 23-25*
- ✓ Bardeen/Medical Science Mechanical Penthouse Floor Repair - Clinical Science Center Animal Cage Washing Room Floor Repair, \$76,000 *projects approved, R 3175, pp 23-25*
- ✓ UW-Milwaukee ^{Bldgs + Land} Lapham Hall Animal Care Compliance *project*
\$54,000 approved, R 3175, pp 23-25
- ✓ UW-Milwaukee ^{Bldgs + Land} Kenilworth Building Masonry Repairs, \$125,900 *project*
discussed & approved, R 3175, pp 23-25
- ✓ UW-Milwaukee ^{Bldgs + Land} Heating Plant Turbines Repair, \$108,000 *project approved, R 3175, pp 23-25*
- ✓ UW-Parkside ^{Bldgs + Land} UW-Parkside/Stevens Point: Tennis Courts Repair/Resurfacing, \$15,000 and \$46,000 *project approved, R 3175, pp 23-25*
- ✓ UW-Platteville ^{Bldgs + Land} Swimming Pool Pipes Replacement *project*
\$30,000 approved, R 3175, pp 23-25

In discussion at the Board meeting, Regent Fish recalled that the Board had previously approved a roof repair for the Kenilworth Building, at which time it had been indicated that the building was to be razed or sold in a few years.

Chancellor Horton confirmed that the university's intention was to dispose of the building as quickly as possible. Indicating that the proposed repair was necessary to maintain safety while the university still occupied the facility, he explained that three alternatives had been considered, the most expensive being a \$1.5 million total repair and the least costly being slightly below the recommended figure. The decision as to a repair which would provide maximum safety at a minimum cost was made with advice from consultants.

Regent Fish asked if the Chancellor could insure that the proposed amount was the least they felt could be spent in order to maintain safety, and Chancellor Horton responded in the affirmative.

- ✓ Brogden Psychology Bldg - Approval of condenser water piping replacement project, R 3175, pp 23-25
- ✓ Psychology Bldg - Approval of condenser water piping replacement project in the Brogden Psychology Bldg, R 3175, pp 23-25
- ✓ Charter Street Plant - Approval of turbine overhaul, R 3175, pp 23-25
- ✓ Bardeen Bldg - Approval of Bardeen/Medical Science mechanical penthouse floor repair, R 3175, pp 23-25
- ✓ Hospitals - Bldgs - Approval of Clinical Science Center animal cage washing room floor repair project, R 3175, pp 23-25

Since the intent was still to dispose of the facility, Regent Fish hoped that the point was not being reached at which so much money was being put into the building that an argument could be made for keeping it.

Chancellor Horton affirmed that was not the case and that the university wished only to maintain the building until the time came to dispose of it.

Turning to the UW-La Crosse Wilder Hall window replacement project, Regent Fish pointed out that the cost for 150 windows amounted to \$702 per window and asked what accounted for so high a price.

Acting Vice President Bert Anderson explained that the project actually involved taking out 233 windows and putting windows back in 137 masonry openings. There also were about 504 square feet of single-glazed areas in six masonry openings which would require some additional windows, although the effort would be made to cover most of that area with insulated or masonry wall.

Pointing out that the project description as furnished to the Regents was erroneous, Regent Fish stated that, while he supported replacing the windows, accurate information should have been provided and the description should be corrected before taking the project to the Building Commission.

Mr. Anderson said the description had been written from a draft request, and Vice President Winter indicated the error occurred through failure to include updated information.

Put to the vote, Resolution 3175 was unanimously adopted.

Approval of Minor Projects, UW System

Continuing the report of the Physical Planning and Development Committee, Regent Nikolay presented Resolution 3176, which concerned six minor projects at five campuses. Included were redevelopment of a vacated street at UW-LaCrosse; replacement of the Educational Center at UW-Platteville's Pioneer Farm; a greenhouse expansion project at UW-River Falls; a site clearance project and remodeling of the Applied Arts Building at UW-Stout; and construction of an observatory facility at UW-Whitewater.

The following resolution was adopted unanimously by the Board, upon motion by Regent Nikolay, seconded by Regent O'Harrow:

Resolution 3176: That, upon the recommendation of the UW-LaCrosse, Platteville, River Falls, Stout and Whitewater Chancellors and the President of the University of Wisconsin System, the following minor projects be approved and authority granted to plan, bid and construct, at the costs indicated, from State Building Trust Funds - Minor Projects Allocation:

- ✓ UW-LaCrosse - Bldgs. + Land - Approval of UW-LaCrosse Vacated Street (Farwell) Redevelopment, \$158,000 R 3176, pp 25-26
- ✓ UW-Platteville - Bldgs. + Land - Approval of UW-Platteville Pioneer Prairie Farm Educational Center Replacement, \$195,000 R 3176, pp 25-26
- ✓ UW-River Falls - Bldgs. + Land - Approval of UW-River Falls Greenhouse Expansion, \$222,600 project R 3176, pp 25-26
- ✓ UW-Stout - Bldgs. + Land - Approval of UW-Stout Site Clearance (South Broadway), \$38,000 and Applied Arts Building Remodeling, \$171,600 projects R 3176, pp 25-26
- ✓ UW-Whitewater - Bldgs. + Land - Approval of UW-Whitewater Observatory Facility, \$198,200 project, R 3176, pp 25-26

Approval of Easement, UW-Madison

✓ Fahrenbrook Court - Approval of driveway easement for Allen N. + Kathleen R. Beauchaine, R 3177, p. 26

The next item on the Committee's agenda was a request from UW-Madison for authority to grant a driveway easement for ingress to and egress from Fahrenbrook Court. The Board's approval of a land exchange related to acquiring the site for the Computer Science addition project had been given with the understanding that improvements on the parcel would be moved to the new location for continued use as student housing. City approval had been received for side and front yard variances, but an easement across university property was needed to give the owner access to parking at the rear of the lot.

✓ Beauchaine, Allen N. + Kathleen R. - Granted driveway easement to Fahrenbrook Court, R 3177, p. 26
Regent Nikolay moved adoption by the Board of Resolution 3177. The motion was seconded by Regent O'Harrow and unanimously voted.

Resolution 3177: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, a driveway easement be granted to Allen N. Beauchaine and Kathleen A. Beauchaine, and to subsequent owners of Lot Four (4), Block Two (2), Central Home Addition, in the City of Madison for ingress and egress to Fahrenbrook Court over the following described lands:

The North 27 feet and the East 10 feet of the South 53 feet of Lot Fifteen (15) Block Two (2), Central Home Addition, in the City of Madison

Approval of Library Addition Project and Movable Equipment Request, UW Center-Fox Valley

Regent Nikolay reported that the Committee recommended approval of a 10,000-square-foot, \$635,000 library addition project and a \$131,000 movable equipment request for the UW Center-Fox Valley. The Winnebago and Outagamie County Boards had jointly approved allocation of construction funding, and consistent with Board and State Building Commission statutory authority and policies, the movable equipment would be acquired using state building trust

funds. The Committee discussed the request with Dean Rue Johnson, of the UW Center-Fox Valley, and Roy Valitchka, of the UW Centers Board of Visitors.

It was moved by Regent Nikolay and seconded by Regent O'Harrow that the following resolution be adopted by the Board:

✓ UW Center - Fox Valley - Authority for construction & movable equipment for Library addition
Resolution 3178: That upon the recommendation of the UW Centers Executive Dean and the President of the University of Wisconsin System, authority be granted to construct a Library Addition Project at the UW Center-Fox Valley at an estimated cost of \$635,000; *R 3178, pp 26-27*

That a request for funding \$131,000 of movable equipment be approved for submission to the State Building Commission; and

That the project be constructed and equipped, subject to the review and approval of the preliminary plans by UW System and State Division of Energy Staff.

In response to a question by Regent Lawton, Regent Nikolay explained that movable equipment was defined as any equipment not attached permanently to fixed real estate.

UW Centers - Bldg & Land - Authority for construction & movable equipment for Library addition at UW Centers - Fox Valley, R 3178, pp 26-27
Put to the vote, Resolution 3178 was adopted unanimously.

Debt Service - Informational Report on UW System Debt Service Costs
Informational Report of UW System Debt Service Costs *debt service costs, p. 27*

The final item on the Physical Planning and Development Committee's agenda was an informational report on the UW System's general-purpose-revenue debt service costs and their relationship to overall debt service costs of the state for the past ten years. Although the total of bonds outstanding remained relatively level, the System's annual debt service costs had grown from \$40 million to \$50.3 million, primarily due to substantial increases in state tax exempt bond interest rates. State bonding required to finance the construction cost of new state correctional facilities and municipal pollution abatement facilities increased debt service costs for other state agencies during this same period from \$28.6 million to \$75.1 million.

The UW System's annual GPR-supported debt service costs were expected to peak at approximately \$60 million per annum in the next four to five years and then decline, due to full payment of all of the Wisconsin State Agencies' Building Corporation bonds issued prior to 1970 and full payment of \$244 million of general obligation bonds issued from 1970 to 1974.

The percentage of the UW System total costs required for debt service decreased from 7.5 percent in 1973-74 to 4.9 percent in 1983-84 and was projected to continue declining in the next decade.

MISCELLANEOUS RESOLUTIONS

Regent Knowles moved that a suitable resolution be sent to express appreciation for the warm hospitality extended during the Board's visit to Wausau. The motion was seconded by Regent O'Harrow and unanimously carried.

Regent Lawton added that personal notes of appreciation also would be appropriate.

UW Center - Marathon County - Request that resolution be sent to Center for hospitality at meeting, p. 28.

UW Centers - Request for resolution to UW Center - Marathon County for hospitality at meeting, p. 28

At 11:30 a.m., the following resolution, moved by Regent Schilling and seconded by Regent Fish, was unanimously adopted on a roll call vote, with Regents Clusen, Conroy, Finlayson, Fish, Gerrard, Grover, Hanson, Knowles, Lawton, Nikolay, Saunders, Schilling and Weinstein voting "Aye" (13), and no Regents voting "No."

Resolution 3179: That the Board of Regents recess into closed session to consider personnel matters, as permitted by s. 19.85(1)(c), Wis. Stats., to consider personal histories, as permitted by s. 19.85(1)(f), Wis. Stats., and to confer with legal counsel, as permitted by s. 19.85(1)(g), Wis. Stats.

Board of Visitors - Personnel - Appointments to UW-Whitewater Board of Visitors for terms ending 6/30/87
UW-Whitewater - Bd of Visitors - (same)

CLOSED SESSION ACTIONS

The Board arose from closed session at 11:50 a.m., and adoption of the following resolutions was announced:

Resolution 3180: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of UW-Whitewater, the following persons be appointed to the UW-Whitewater Board of Visitors for terms ending June 30, 1987:

- Appointed to UW-Whitewater Board of Visitors for term ending 6/30/87, R 3180, pp 28-29

- Robert Brown, Fort Atkinson
- Gilbert Dosemagen, Kenosha

That the following persons be reappointed to the UW-Whitewater Board of Visitors for terms ending June 30, 1987:

reappointments for terms ending 6/30/87

- Reappointed to UW-Whitewater Board of Visitors for term ending 6/30/87, R 3180, pp 28-29

- Doris Highsmith, Fort Atkinson
- Marvin Patrick, Jr., De Forest
- Joseph Schopen, Jefferson, and

II. CONTRACT CHANGE ORDERS IN EXCESS OF \$30,000.

There are none to report this month.

III. REPORT OF ACTIONS TAKEN (MEMOS OF AGREEMENT).

Hospitals - Bldgs - Amendment to

A. ~~The current agreement with Access to Independence, providing for their continued lease of office space in the Annex at 1954 East Washington Avenue, (reported to the Board in June), has been amended to add one additional office of 136 square feet (for a total of 1,780 square feet) on signature of the Vice Chancellor for Administration. The term of the lease is from July 1, 1984 through June 30, 1987.~~ *non personnel item A*

See ref 1954 E. Washington Ave - same

B. ~~An agreement between Mr. William O'Brien and the University of Wisconsin-Madison renewing a "Permit for Use of University Land" has been signed by the Vice Chancellor for Administration. Under terms of this agreement, limited use of a University parking area adjacent to a business operated by Mr. O'Brien is authorized during the days of 1984 home football games. The City and the University have been concerned about patrons of Mr. O'Brien's business interfering with the free flow of pedestrians and vehicular traffic on Monroe Street before and after football games, and this arrangement has worked well to alleviate the situation since its implementation during the 1982 football season.~~ *non personnel item B*

Parking Area - as above - Agreement between, etc.

O'Brien, William same

*Bldgs + Land - UW-Madison - Authority to raze or remove
 ✓ unneeded bldgs, valued at less than \$25,000 on the
 Rieder Farm for first phase of University Research Park, ^{III - 2} _{unpers. ~~item~~}*

C. Under authority granted to the Chancellor to approve the razing or removal of unneeded buildings with an individual insurance value of less than \$25,000, the following buildings on the Rieder Farm will be razed in order to proceed with the development of the first phase of the University Research Park *(same)* ✓
x ref

Building Nos.: 0232, 0235, 0236, Milk house, house, dairy barn,
 0237, 0241, and feed shed, tool shed, and
 0242 poultry house

If the use of these buildings was to be continued, the buildings would require a considerable investment of resources for deferred maintenance needs.

UW-LaCrosse - Bldgs + Land
 D. A parking agreement between the City of La Crosse and UW-La Crosse for the use of a parcel of land on Pine Street (adjacent to the Stadium) for parking of 35 vehicles for university students and others has been signed by the Chancellor and the Vice President for General Services. *nonpersonal item* ✓
 The annual rent is \$150, and this is a renewal of an agreement which has been in effect since 1971 -- with no change in rate. The agreement runs from October 15, 1984 to October 14, 1985.

x ref - Parking (same)
 E. The Student Health Service contract between UW-River Falls and the River Falls Medical Clinic, LTD of River Falls has been signed by the Vice President for General Services. The agreement covers the period August 1, 1984 through July 31, 1985, for which the university will pay the total sum of \$88,212 based on the schedule of costs included in the agreement. ✓

UW-River Falls - Bldgs + Land - nonpersonal item F
 F. The agreement between UW-Madison and OPTIONS in Community Living, Inc., to continue the lease of space at 1954 East Washington Avenue for calendar 1985 has been signed by the Vice Chancellor for Administration. This renewal reflects an adjustment in the rental rate from \$7.93 per square foot to \$8.406 (\$11,331.29 per year) and the inclusion of an additional 101 square feet of office space. ✓

1954 E. Washington Ave. - nonpersonal item F
