The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

---

now you can help  
your patient take  
the menopause in  
stride, before re-  
sorting to estrogens

---

## **Bellergal<sup>®</sup>** SPACETABS<sup>®</sup>

relieves hot flashes  
sweating • headache  
fatigue • irritability  
palpitations • insomnia

---

The menopausal syndrome involves instability of all three levels of the autonomic nervous system. By stabilizing the entire autonomic system, Bellergal relieves functional disorders of the menopause, without disturbing endocrine balance.

---

**BELLERGA SPACETABS** (long-acting tablets)—  
Bellafoline 0.2 mg., ergotamine tartrate 0.6  
mg., phenobarbital 40.0 mg.

Dosage: 1 in the morning, and 1 in the evening.

**BELLERGA TABLETS** — Bellafoline 0.1 mg.,  
ergotamine tartrate 0.3 mg., phenobarbital  
20.0 mg.

Dosage: 3 to 4 daily. In more resistant cases,  
dosage begins with 6 tablets daily and is  
slowly reduced.

**PRECAUTIONS:** Contraindicated in advanced  
peripheral vascular disease, 3rd trimester of  
pregnancy and glaucoma. Due to presence of  
a barbiturate, may be habit forming.
