## Mirro Wears for Many Years

Long life is common to all Mirro utensils. For nothing is left undone that will prolong their wear. Bodies are of one-piece construction. Welds take the place of soldered joints. And welds take the place of rivets wherever possible. Even the aluminum itself is subjected to a process which works it into extraordinary density, and a singular endurance.

But time alone does not measure the service of Mirro Aluminum. It is designed to be as useful as it is long-lived, and as beautiful as it is useful.

Mark, for instance, the many features of convenience that distinguish this handsome Mirro Tea Kettle with boiler inset. You do not find them in ordinary aluminum ware.

(1) Highly ebonized, sure-grip, detachable handle. (2) Slotted ears permit handle to be shifted to any desired position without coming in contact with Kettle. (3) Easy-filling, easy-

pouring spout. (4) Spout welded on.

☆ (5) Rivetless, no-burn, ebonized knob. (6) Hollow steel handle, comfortable to the hand. ☆ (7) Handle ears welded on. (8) Unusually wide heating base.

(9) Rich Colonial design. (10) Famous Mirro finish. ☆ (11) Famous Mirro trade-mark stamped into the bottom of every Mirro utensil, and your guarantee of excellence throughout.

Note that the same cover fits both Kettle and inset.

To appreciate this guarantee at its full worth, remember that back of it is the world's foremost manufacturer of aluminum utensils—a manufacturer with nearly thirty years' experience in the making of better aluminum ware.

You will find Mirro Aluminum at the leading stores everywhere.

Send for miniature Mirro catalog.

## Why is BADGER CEMENT TILE Superior to Other Drain Tile?

**BECAUSE**—It is made from the best washed sand and gravel, mixed with a large proportion of cement. (1 to 2½)

**BECAUSE**—It is uniform in quality. Every tile is exactly like every other tile in size, form and strength.

**BECAUSE**—It is smooth on the inside, thereby reducing friction and permitting the greatest possible flow of water.

**BECAUSE**—It is so dense in character that frost will not affect it. There are no soft ones.

**BECAUSE**—It is permanent. Concrete increases in strength as it grows older. Your drainage system will become better each year if Badger Tile is used.

**BECAUSE**—It is the most economical in the long run, for the first cost is no more than for inferior tile and its durability is greater.

This Field after Tiling Produced 60 Bushels of Corn per Acre

This Field across the Road without Tile, produced only 8 Bushels per Acre

The Kohler Automatic is made complete in our big factories at Kohler, Wis., thus insuring that every unit is built to the well-known Kohler standards of quality and dependability.

The Kohler Automatic is made complete in our big factories at Kohler, Wis., thus insuring that every unit is built to the well-known Kohler standards of quality and dependability.

It has a four-cylinder four-cycle engine, smooth in operation and producing quiet and low-level.

Through a simple automatic control the engine is started and stopped from any remote point in the circuit. The fan lamp or appliance turned on starts the pump and the pump one closed off stops it.

When you connect with these features is a complete unit, ready to pay for way ahead. Thus the Kohler Automatic is a REAL UNIT, able to pay for way ahead on the farm.

Send for your current the same as that used in the city is produced by the Kohler Automatic. The Kohler Automatic is a REAL UNIT, able to pay for way ahead on the farm.

Lower to turn the water pump to operate the milking machine, churn, separator, etc. The Kohler Automatic is a REAL UNIT, able to pay for way ahead on the farm.

Light through the Kohler Automatic.

Light through the Kohler Automatic.

BRANCHES IN PRINCIPAL CITIES  
Shipping Point, Sheboygan, Wis.  
Kohler Co., Founded 1873, Kohler, Wis.

KOHLER OF KOHLER

*Modern plumbing is an important factor, not in comfort alone, but in physical fitness and self-respect. The country home that is equipped with Kohler plumbing fixtures and with a Kohler Automatic to furnish energy for pumping, has the same conveniences that make city life attractive.*

*When darkness gives way to cheerful, bright electric light, and the monotonous drudgery is relieved by the magic of electric power, then does farming become a joyous and wonderful occupation. For marvelous is the transformation which man-made machines has wrought in history's oldest and most important profession.*

## ELECTRIFY YOUR FARM!

*Send today for booklet describing the Kohler Automatic Power and Light 110 Volt Direct Current*

# K O H L E R

## AUTOMATIC POWER & LIGHT 110 VOLTS D. C.

Bright, cheerful electric light for yard, barn, and home are now possible for every farm through the Kohler Automatic.

Power to turn the water pump, to operate the milking machine, churn, separator, washing machine, vacuum cleaner and numerous other time and labor savers is also yours through the Kohler Automatic.

Standard 110 volt current, the same as that used in the city is produced by the Kohler Automatic — AND WITHOUT THE USUAL BANK OF GLASS JAR BATTERIES.

Coupled with these features is a capacity of 1500 watts, twice that of the usual plant. Thus the Kohler Automatic is a REAL POWER UNIT, able to pay its way on the farm.

Through a simple automatic control the engine is started and stopped from anywhere in the circuit. The first lamp or appliance turned on starts the plant and the last one turned off stops it.

It has a four-cylinder, four-cycle engine, smooth in operation and therefore quiet and long-lived.

The Kohler Automatic is made complete in our big factories at Kohler, Wis., thus insuring that every unit is built to the well-known Kohler Standards of quality and dependability.

## From the Queen of America's Dairy Lands

ALL the world knows the enviable reputation achieved by the farm folk of Denmark for the wholesome and unadulterated purity of their dairy products.

Guided by the early traditions of their forefathers, a colony of Danes brought to the heart of America's richest dairy lands the same ideal of scrupulous purity. In the town of Denmark they founded an industry which was destined to grow and become famous for the unusual quality of its product.

## Danish Pride Evaporated Milk

is cow's milk in its richest and purest state, made by the famous *Enz* process. Not a thing is added and nothing taken away except the water. Contains no sugar, no flavoring and no preservative. Danish Pride cows are clean and well cared for. They graze in beautiful, green pastures; they drink only the purest water and breathe the invigorating air of the North Shore lands.

Every facility of modern science insures absolute cleanliness in every operation through the plant, and brings to the American table a milk whose quality is true to the traditions of the world's foremost dairy folk.

All good grocers sell Danish Pride Evaporated Milk. Order from your grocer today.

# Make Farming a Pleasure with a Fordson

Plowing, Disking,  
Harrowing, Seeding,  
Mowing, Reaping,  
Threshing, Silo Filling,  
Corn Shredding,  
Hay Baling, Etc.

Feed Grinding and all  
the multiplied work on  
the Farm is done more  
economically by Ford-  
son Tractors than by  
any other method.

→ **Fordson** ←  
TRADE MARK

The Fordson's first cost is the lowest in the market; and the after or operating cost is the lowest. It is a compact, easily handled tractor, backed by the greatest tractor SERVICE organization in the world. SERVICE and SATISFACTION goes with every FORDSON TRACTOR.

*FORD CARS and FORD  
TRUCKS are the most reliable  
servants in the world*

**Ford**

THE UNIVERSAL CAR

*They SAVE and SERVE  
faithfully many millions of  
owners to-day*

We specialize in Ford and Fordson  
Service and carry a complete stock  
of genuine Ford and Fordson Parts  
at all times.

# BLOCKI DOUBLE WALL SILO

*"THE WARMEST SILO MADE"*

*(Patented)*

An Inside Wall of California Redwood.

An Outside Wall of Oregon Fir.

A continuous Air Space between the two walls from the bottom to the top.

The **Blocki Double Wall Silo** is the warmest silo because the continuous live air space is the best insulator against frost.

The **Blocki Double Wall Silo** is Rot-Proof because fresh, live, dry air circulates between the walls.

The **Blocki Double Wall Silo** is Storm-Proof ---- Stands firm and rigid ---- Is just as safe as the anchor bolts in the foundation. We use no guy wires.

The Double Oak Rings are steamed, bent to shape and dry-kilned **at the factory.**

*"The Warmest Silo Made"*

Piece of Double Oak Ring showing Open Air Space through ring

Showing the continuous Air Space Between the Walls

Manufactured by **F. BLOCKI COMPANY, SHEBOYGAN, WISCONSIN**
