The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

# SHARPEN YOUR NURSING SKILLS IN THESE SPECIALTY AREAS

## pediatrics

Leifer / A New Book

### PEDIATRIC NURSING

By GLORIA LEIFER, R.N., M.A., *City University of New York at Hunter College*

Here is practical, down to earth instruction in 141 specific procedures used *exclusively* in nursing care of pediatric patients. Miss Leifer tells and shows you how to "milk" the trachea of mucus—how to feed a baby in an incubator—how to calculate safe drug dosages—how to measure hourly urine output—how to feed infants with cleft palate—how to manage the poisoned child. Whether you are now practicing as a pediatric nurse, preparing for the specialty, or simply want to improve your skill in care of children, you'll find this new guidebook invaluable. Order your copy today!

About 205 pp.      about 120 illus.      about \$5.00.  
New—Ready Fall!

## gynecology

Miller & Avery / New (5th) Edition

### GYNECOLOGY and GYNECOLOGIC NURSING

By NORMAN F. MILLER, M.D., *U. of Michigan Medical School* and HAZEL AVERY, R.N., *U. of Michigan School of Nursing*

This *New (5th) Edition* gives you valuable guidance on fundamentals and fine points of nursing care for the gynecologic patient. Virtually every gynecologic disorder is discussed, with nursing aspects interlaced wherever possible. Nursing techniques are related to both physical and psychologic needs of the patient. In addition to a new chapter on endocrine gynecology, this extensive revision offers new material on care of the patient with carcinoma, venereal disease, vesicovaginal fistula—on pre- and postoperative duties—on psychosomatic problems—and many others.

About 450 pp.    253 illus.    about \$6.50    Ready August!

## for personal review

Jacob & Francone / A New Book

### STRUCTURE and FUNCTION in MAN

By STANLEY W. JACOB, M.D., and CLARICE ASHWORTH FRANCONI, both of *U. of Oregon Medical School*

A beautifully illustrated presentation of anatomy and physiology as a single integrated subject.

538 pp.    over 600 illus.    about \$7.50    New—Just Ready!

## for training the aide

Abdallah / A New Book

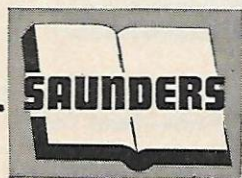

### NURSE'S AIDE STUDY MANUAL

By MARY C. ABDALLAH, R.N., *Ventura College, California*

Covers virtually every clinical hospital procedure an aide might be called upon to perform.

182 pp.    illustrated    \$2.75    New—January, 1965!
