Section 3, chapter 332, laws of 1883, provides that any lands the state owns may be entered by actual settlers at \$1.25 per acre, in quantities not exceeding two hundred acres, under such rules, requirements, restrictions, conditions and provisions as the Commissioners of Public Lands may establish to be approved by the Governor.

### THE LANDS HELD BY THE STATE.

Exhibit "O" shows the number of acres of land in the several counties held in trust by the state and subject to sale.

In addition to these, the state has lately received patents for about 4,000 acres of swamp lands, which have not yet been offered at public sale. There are also included in Exhibit "O," 55,932.75 acres reserved, under Chapter 324 of the Laws of 1878, for a state park, in Oneida county, and are therefore not subject to entry.

The following table shows the number of acres of land held by the state, and the classification thereof, on the 30th day of September, 1888:

Of these forfeitures a considerable portion are annually redeemed before sale, and a portion even after sale under the law.

This statement, compared with same in former reports, shows a large and continuous decrease of principal and income from this source which is accounted for by the increase of full payments on outstanding certificates and fewer purchases of lands on contract.

## LOANS TO INDIVIDUALS.

Exhibit "Q" shows the amount due the Trust Funds September 30, 1888, on account of loans to individuals to be \$42,771.70, and showing a decrease by payments during the fiscal term of \$9,963.40, and by forfeitures, \$600.00.

No loans to individuals have been made since 1865, and the amount is gradually diminishing by payments and forfeitures, as shown in the exhibit.

## FEES AND CHARGES.

During the fiscal term ending September 30, 1888, there has been paid into the General Fund for certificate and patent fees, diagrams showing vacant state lands, plats, field notes, and other services the sum of \$4,331.35. The income from this source shows a considerable increase over former years, although a great deal of this kind of work has been done without charge, especially when of slight cost in time and material, and a nominal charge only has been made in any case, as it is our opinion that the public should be served at the least possible expense.

*The Non-Productive Trust Funds.*

THE NON-PRODUCTIVE TRUST FUNDS.

The non-productive capital of the several funds consists of the lands which have been offered for sale and are unsold, and cash in the treasury. School lands are estimated at the average price of \$1.10 per acre; University lands, \$2.50; Agricultural College, \$1.25; Normal School, at \$1.40; Drainage lands, at \$1.30, and Indemnity, at \$3.

The following is an exhibit of the Non-productive Trust Funds September 30, 1888, compared with the figures for September 30, 1886.

The above estimate of the value of lands held by the state takes into account the same lands taken into this account in former reports, which also includes 55,932.75 acres reserved, under chapter 324, laws of 1878, for a State Park in the county of Oneida.

The 4,000 acres of swamp lands lately patented to the state, and not yet offered at public sale have been omitted in the above statement.

Respectfully submitted,
