The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

WELL, I'LL BE
A MONKEY'S UNCLE!

IT DOES TASTE LIKE BANANAS!

For acute, non-specific diarrheas

DONNAGEL®-PG

Donnagel with paregoric equivalent

For children of all ages, banana-flavored Donnagel®-PG offers the benefits of paregoric without the unpleasant taste. Donnagel®-PG treats not only diarrhea, but accompanying cramping, tenesmus, and nausea as well. Instead of unpleasant-tasting paregoric, it contains the therapeutic equivalent, powdered opium, to promote the production of formed stools and lessen the urge. It provides the demulcent-detoxicant effects of kaolin and pectin plus the antispasmodic benefits of belladonna alkaloids. But it's the great banana flavor that your patients will understand. No matter how small—or big—they are.

Each 30 cc. contains: kaolin, 6.0 Gm.; pectin, 142.8 mg.; Hyoscyamine sulfate, 0.1037 mg.; Atropine sulfate, 0.0194 mg.; Hyoscine hydrobromide, 0.0065 mg.; Powdered opium, USP, 24.0 mg. (equivalent to paregoric 6 ml.) (Warning: may be habit forming.); Sodium benzoate (preservative), 60.0 mg.; Alcohol, 5%. A. H. Robins Company, Richmond, Va. 23220

A-H-ROBINS
