PRESCRIPTION BOTTLE LABELS

(GUMMED UNLESS OTHERWISE ORDERED)

Attractiveness and good appearance compel the respect and confidence of the discriminating purchaser. The quality and accuracy of the dispensing is judged largely by the appearance of the prescription. A customer who has objected to price and been convinced on quality is the most valuable of all advertisements.

DISPENSARY REQUISITES

BOTTLE CAPS

Manufactured from the highest quality of paper made specially for bottle capping in the sizes shown and specified in the diagram below. Carried in stock separately in White, Light Blue and Orange. Sold plain only—not printed or embossed on tops.

FOR PRICES SEE LIST UNDER FRONT COVER

SECTIONAL VIEW OF CASE

SIMPLE—ACCURATE—SAFE

The check is numbered in triplicate as shown on the right. Sections A and B are gummed on the back and section C is not.

When a prescription is received, section A is attached to it by moistening the back with the tongue. Section C is torn off and handed to the customer.

When prescription is dispensed, the dispenser tears off section B and sticks it to the outside of package in which prescription is wrapped. When medicine is called for, package number and customer's check number must correspond.

FOR PRICES SEE LIST UNDER FRONT COVER.

PRESCRIPTION MAILING CASES

Double strawboard spirally cross-wound sides. Covered grey outside and waxed inside to prevent liquid from soaking into mail bag in case of accident. Tin clinched bottoms and tin screw cap tops with corrugated strawboard pad at bottom and felt washer inside top. Just the container for mailing prescriptions—no delay—minimum postage—maximum safety. We have extra heavy bottles made for the purpose to fit all sizes. Carried in stock in 1, 2, 3, 4, 6 and 8 oz. sizes. Sold any quantity, with or without bottles. Specify Bottles and Mailers or Mailing Cases only. Prices on application.

PREScription FILING DEVICES

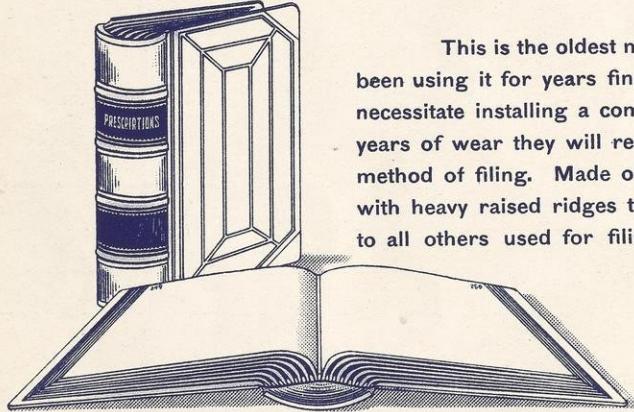

FOR PRICES SEE LIST UNDER FRONT COVER

THE "STAR" PRESCRIPTION FILE

This file is the most economical method in use for filing prescriptions. Prescriptions are filed numerically, the numbers contained in each binder being marked on the end of the file. The accompanying cut will show all details of the file itself. The number of the prescription brought to the dispensary for refill is taken from the old label and the original can be looked up with very little loss of time. The outside box of the file is $3\frac{1}{2} \times 5\frac{1}{2} \times 8\frac{1}{2}$. Weight per dozen, packed, 7 lbs. 6 oz.

PREScription SCRAP BOOK

This is the oldest method in common use for filing prescriptions, and many druggists who have been using it for years find it more convenient to continue its use than to make a change, which would necessitate installing a complete new system throughout. Our scrap books are made to stand the years of wear they will receive and will be found to give the greatest satisfaction to all users of this method of filing. Made of the best manilla paper with extra wide, flexible backs, full canvas bound with heavy raised ridges to protect the backs. For strength and durability these books are superior to all others used for filing away prescriptions.

No. 3—11 x 16, 350 pages
No. 5—13½ x 18, 350 pages

No. 4—11 x 16, 450 pages
No. 6—13½ x 18, 500 pages

DRUGGISTS' DELIVERY RECORDS

A Stock Form bound and padded in 50's, made to fit and punched for filing in the Star Prescription File as shown above. By the use of this form you have a permanent proof of delivery record. Covers for this form are supplied in the best No. 1 black seal grain leather.

DIRECTIONS—Wash the article to be cleaned, with soap and water. Dissolve the
contents of one package in two tablespoonsfuls of soft water. Apply with an old tooth
brush, rubbing until all stain is removed, dry with soft cloth. It is best to remove the
hat band, but if not done and it should become discolored by the cleaner, a little house-
hold ammonia applied to it will restore its color.

PURE

RUSSIAN OIL

PARRAFINE LIQUIDE PURE

Ce produit est inodore et sans goût, et par conséquent très facile à prendre. Si préféré, il peut être pris en le laissant, doit sur de l'eau froide, du jus de raisin ou tout autre jus de fruits.

La dose ordinaire pour adulte employée dans le traitement de la constipation chronique est de une à deux cuillères à soupe plusieurs fois par jour, le repas ou deux à quatre cuillères à soupe au concombre ou selon l'indication du médecin. Les enfants, environ la moitié de ces doses et les jeunes enfants de une demi à une cuillère à thé ; ce produit étant sans aucune action physiologique, peut être administré en plus grande dose si nécessaire.

This product is odorless and tasteless, and therefore readily taken by the patient. If preferred, it may be given floated on cold water, grape juice or other fruit juice.

The ordinary adult dose used in treatment of chronic constipation, is one or two tablespoonfuls given an hour before meals, or two to four tablespoonfuls at bedtime, or as directed by the physician. Children, about half these quantities. Infants, from one-half to one teaspoonful.

This pure product, being without physiological action, may be administered in larger doses if deemed necessary.

Liquid Paraffin

PALATABLE
RUSSIAN OIL
A colorless, odorless, hydrocarbon oil obtained by fractional distillation of petroleum. An effective internal lubricant for use in the treatment of Constipation. Neutral, non-digestible, not absorbed; fulfills all tests for identity and purity of the British Pharmacopoeia, and is free from harmful constituents, sulphur compounds and by-products. Liquid Paraffin is a safe mechanical laxative.

DOSE: Unless otherwise prescribed by the Physician, one or two tablespoonfuls two or three times a day, one hour before meals, or on rising and retiring; children, half the amount; dose to be decreased as the normal action of the bowels is restored.

Liquid Paraffin develops a cloudy appearance when cold, but becomes perfectly clear when warmed slightly.
