The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

GOLD therapy

has yielded far more beneficial results in rheumatoid arthritis than any other chemotherapeutic agent¹

and

Among the most outstanding gold salts for therapeutic efficiency and diminished toxicity is

SOLGANAL-B OLEOSUM*

Aurothioglucose, a water soluble compound, containing approximately 50 per cent of monovalent gold suspended in oil for slow absorption.
