## ILLINI TEAMS TO BID STRONG FOR VICTORIES

### Diamond and Track Squads Here Saturday for Two Battles

With the coming of Illinois in baseball and track and Michigan in tennis Saturday for the biggest day on the athletic schedule this spring, student interest is running high and attention of conference fans is being focused on Camp Randall this week.

Much depends upon the showing that Wisconsin makes in all three of these meets in respect to its standing in the race for conference titles, and the Badger teams need the support of every student in the rooters' stands.

#### Kent Rebuilds Nine

In spite of the fact that the ranks of the baseball squad have been depleted by the loss of several men, causing numerous shifts in the line up so far this season, Coach Kent has been working his men hard this week to build up a machine which will hold the Illini nine to the short end of the score.

Next Saturday will be the only time that Wisconsin students will have opportunity to see the Badger cinder men perform on the home track. The two remaining meets on the schedule before the conference clash, are with Minnesota at Minneapolis, May 15, and with Chicago at Chicago the following week.

#### Illini Star on Track

The Illinois track team is without doubt one of the strongest aggregations of cinder stars in the country. It won the indoor conference meet and is traveling fast in the race for the outdoor title. However, with the well-balanced team that he has, Coach Tom Jones will make the

## RED ARROW MEN SET JUNE 5 AS DATE FOR DANCE

### Twenty-second Division Mem- bers Organize and Elect Officers

From the mud and bullets of France to the waxed floor of Lathrop hall, from marching Fritzi's in quick time back to prison pens to tripping the fantastic toe with a beautiful co-ed—these are some of the transitions to be completed in the Red Arrow dance to be given in Lathrop hall June 5, according to plans completed by veterans of the Thirty-second division yesterday noon.

Buddies will get together and have a chance to tell their best stories, meet other members of the old outfit who they didn't know before, but who fought under the same insignia, forget rank and drill, and "rag" the captain and the mess sergeant all they like.

Final plans for a permanent organization of the former members of the division were also completed and the following officers elected: Bruce McCoy, president; Anson Perkins, vice-president; Luther North, secretary; John Baker, treasurer.

It is hoped to include in the new club every man on the campus who saw service at any time with the Thirty-second division. Several social affairs are being planned, the success of which depends largely on getting co-operation of all who are eligible for membership.

## SHE MAY WEEP

And Male Escort'll be Fussed  
If He Can't Find Dime  
for Prom Extra

The guy who had forgotten his spare change was fussed. In fact he was exceedingly fussed. And the cause of it was this: He was being attacked, flanked, surrounded, held up, and besieged by a horde of youths who offered to sell him papers.

They were newspapers. Moreover, they were a special brand of newspapers, namely Prom extras of The Daily Cardinal, published by Sigma Delta Chi.

The guy who was fussed wanted to buy a paper. He wanted very much to buy one. It was not that he wanted the paper, but that maid at his side longed for it, sighed, eyed, wept, plead, hungered and thirsted for it. But in vain.

The maid who desired in vain for a Prom extra knew well what she was missing. She also knew that it was because her honorable escort lacked the wherewithall to purchase it. Still more she knew that it was only one thin dime that he lacked. But he lacked it; therefore the special Prom picture, the whole page of rare and racy Skyrockets, the columns and columns of gore, the last minute scandal notes, the cuts of prominent Prom people, and the lists of Prom attendants were lost to her. She wept.

She continued to weep. Moral: Negative quantities of thin dimes produce tears, positive quantities produce the Prom extra, subsequent smiles, chuckles and happiness.

## CIRCUS BILLS 27 BIG ACTS

### Clowns Galore for Campus Attraction Coming on May 22

"The most gorgeous, stupendous, and original show of the year," is the way the committee has billed the circus and allied attractions, which will be given on the lower campus May 22.

After a careful process of elimination, the committee has chosen 27 unique acts, "guaranteed to hold the audience spellbound for hours." Although a good supply of clowns has enlisted, there is still a chance for those who can "tickle the funny bone" to get into the program. No new acts or stunts will be listed after Saturday.

A film showing a few of the circus surprises will be shown next week at the Strand theater.

There will be two performances, one at 7:30 and the other probably at 10:30 in the morning. Elaborate plans have been completed for a parade. Eight side-shows have been contracted but more are expected before the tent mounts skyward.

Tickets are going rapidly and large blocks of seats have been taken. All mail order requests should be addressed to the circus committee, care of the gym.

## ALPHA ZETA HOLDS INITIATION FOR FIVE

Alpha Zeta, honorary agricultural fraternity, last night initiated the following men: Seniors—Francis E. Whitney, and Ralph O. Nafziger; Juniors—Archie Black, Harold M. Kuckuk, and George H. Clapp.

Initiation was followed by a formal banquet at Agricultural hall.

## REVIEW FIXES CADET RATING

### General Staff Officers to In- spect R. O. T. C. Today and Tomorrow

Three general staff officers, Col. F. J. Morrow, Major J. F. Kinley, and Capt. E. Hunt, arrived this morning at 7:30 for the annual inspection and review of the Wisconsin R. O. T. C. regiment, which will determine the efficiency rating of the Wisconsin unit. The inspection will occupy all of today and tomorrow.

The regimental review and command system drill will be held this afternoon at 2 o'clock on the lower campus. This will be followed by an infantry field problem which will extend from the armory to Observatory hill. At the same time the signal corps will put down lines of communication, and there will be a demonstration of rifle, machine gun, and automatic rifle firing on the range at the foot of Muir Knoll.

The department of physical culture will also give an exhibition of physical training methods, consisting of boxing, wrestling, and swimming. This morning and tomorrow morning will be occupied with inspection of infantry, artillery, and signal corps classes.

The individual drill competition to determine the best drilled man in the military department will be held at 3:30 tomorrow on the lower campus. The winner will be awarded an automatic pistol. Thirty-nine men will take part in the contest, three having been chosen from each company. The judges will be Capt. Orlando Ward, Capt. John Keliher, and Sergt. W. K. Atkins. During the contest the regimental band will give a concert on the library steps.

## HARESFOOT PUTS FIVE ALUMNI ON DIRECTING BOARD

### C. F. Richter Elected President of Club for Year; Set Prize Play Rules

Officers elected for the coming year by the Haresfoot club last night are C. F. Richter, president; Horace J. Carver, vice-president; William H. Purnell, secretary; A. H. Fee, treasurer; Reginald W. Garstang, keeper of the Haresfoot; Walter K. Schwinn, publicity manager; Norbert W. Markus, general manager. All of the men elected have taken an active part in the 1920 show, "Mary's Lamb."

In addition to the student officers of the active club, five old Haresfoot men were elected as members of the alumni board of the club. All of the men chosen are Madison business and professional men who have been connected with former Haresfoot productions. They are John S. Main, of the Main Real Estate company, president; Burdette I. Kinne, of the university faculty, vice-president; Don Tyrrell, French Battery company, secretary; H. J. Coe, vice-president of the First National bank, treasurer; Frank E. Dooney, member-at-large. These men with the officers of the active club, form the executive council of the Haresfoot club, which directs each production and administers the funds of the organization.

Plans for the coming 1921 show are now under consideration. A prize of \$100 has been offered for the best original show offered to the club by any student or alumnus. Notification of entrance into the contest must be mailed to the Haresfoot club at the Union building before June 8, the contest closing Nov. 1, 1920.

## PROM GAJETIES START TONIGHT WITH CONCERT

### Glee Club Program at the High School to be Informal

The 1921 Prom will be ushered in with all its glory tonight when the Glee club gives its program at the Madison high school at 8:15 o'clock. The concert is to be informal.

Many dinner parties are to precede the concert, while picnics and dinner dances have been planned by other Prom-goers. The Glee club is under the direction of E. Earle Swinney of the Music school.

This concert will be the only one that the Glee club gives in Madison this year. The program follows closely the one rendered on the recent trip of the club, when nine Wisconsin cities were visited. Many good seats are still available and may be procured at Hook Brothers' Music company at \$1.65, \$1.10, and 83 cents.

## MARKETING EXPERT IN COMMERCE TALK

C. P. Ufford, manager of the trade extension and research division of the B. F. Goodrich Rubber company, will lecture today at 4:30 in the Physics auditorium. He will tell of his work in the sales department of the Goodrich company. The lecture is open to the public.

Mr. Ufford has made an exhaustive study of marketing, and by extensive research and effort has built up an enormous business. His talk will concern methods of organization and research in the automobile tire industry, and should be of special interest to all commerce students. It will illustrate the importance of a knowledge of economic geography.

G'MORNING, people. We have to open our service this morning, one little hymn, which follows. It's quite neat; must have been written by someone who knows Burdette well, oh, very well. Better than us.

**DON'T YOU KNOW HIM?**

"Give us a sketch, a portrait, I pray,  
Of this notorious B. I. K."  
Spearmint gum is Kinne's chew,  
Cabbage a la boiled his stew;  
His favorite sport both night and day  
Is the-dansanteing, perfumed with Azure.

His rank in the U is Professor,  
And who could be his successor?  
He says to his class in accents bored  
"Oh, man,"—But maybe it's, "Oh, Lord."

He knows what's what in dress  
He writes, oh my dear, for the press.  
Elsie Ferguson is his constant dream,  
To him "The Harvester" is a perfect scream.

He surely is a religious pest;  
Always praying before the rest.  
His motto in this world of sham,  
Though naughty, is "Privacy Be Damned."

**BEE LEAVE ME.**

Oh, Long May It Wave—"

yesterday afternoon.

Alpha Phi opens its doors to the general public after a day or two of rest. Then announce that they are now prepared to enter into the Prom festivities with unparalleled zip.

Evelyn Lee, the lady Buffalo Bill, is recovering nicely from her bronco busting last Saturday.

Helen Shipley is spending the week-end in Chicago, and will return after Prom.

Sophie Blaul got a high G in a philosophy topic yesterday. Everyone else flunked. Looks like a robbery.

RETURNING from a professional engagement in Marshall last week-end, "Sparks" Dodge reports that the prize waiter at the dance was won by a girl with a wooden leg.

WE guess her name was Peg.

BUT Bert, the Phi Beta, says it was not.

THAT'S a hard one.

AIN'T SCIENCE WONDERFUL?

(From the deet)  
"By destroying the emulsifier, the emulsifying may be broken. In the case of soap, this is called ammo ETAOINshrdlughdlub."

THAT was the first drink that Cullie, the linotype operator, has had for some time.

COME on, Cullie, give us a hint. We ain't goin' to Prom.

**Famous Last Lines**

"The price is perfectly outlandish....Um..... Well, I'll have to have it. Wrap it up."

**HOUSEWIVES BENEFIT FROM NEW COURSE**

The needs of brides, housewives, and mothers are the reason behind several correspondence courses now available through the University Extension division to the women of the state.

Among those of particular interest to the brides are Food Study for the Housekeeper, The House and Its Equipment, Spending the Income, Sewing and Home Furnishing and Decoration.

For the housekeeper are: Planning the Family Dietary, Dietetics, Study of Fabrics, Dressmaking and Designing, The House and Its Management, and Food and Nutrition.

For mothers, there are such courses as Home Nursing, The Prospective Mother, The Child in Health and in Disease, and Infants' Clothes.

A course in The Problem of Health of Children from the Standpoint of Malnutrition, is designed for mothers, teachers, nurses, and social workers. Cooking for Rural Schools is intended for teachers who wish to serve hot lunches at school.

We have gone to immense expense to produce this history. It will contain about sixty pages with several hundred pictures, art work, data, written history, etc., dating back to the first Prom in 1905. A large number of the pictures were copied from old Badgers.

The story of the first Prom has been written for the book by Prof. Willard G. Bleyer. There is also a history being written of the "First Twenty-five Years of Prom at Wisconsin."

The 1921 Prom will enjoy a separate section with specially designed frontispiece by Herbert Brockhausen, '23. It will contain the big picture of this year's Prom, committee people, views of the Capitol and University, Pres. E. A. Birge's photograph and the pictures of all Prom past made by us.

This history is our donation to the Union, but will remain in our control as we shall keep it up to date from year to year.

We are very proud of our efforts in getting it up and trust that it will be received with welcome by the Union and the student body.

## FRAT TEAMS TO MEET IN TRACK

Three Cups Offered for  
Winners in Contest  
June 4

An inter-fraternity track meet and relay race is being planned to take place at Camp Randall Saturday, June 4.

The athletic committee of the inter-fraternity council has charge of the meet and will offer a cup for first and second place in the track meet and a cup to the winning team in the relay.

The track meet will include the following events: 100 yard dash, 220 yard dash, 440 yard dash, half mile, mile, 110 yard low hurdles, high jump, broad jump, shot put, and javelin.

The relay race will be six men running 110 yard dash and will not count for points in the meet. Fraternities may enter either or both. Entry blanks will be sent out by the committee next week.

"W" men in track and men on the varsity squad will not be allowed to compete in the meet.

## SENIOR CAST HOLDS FIRST REHEARSAL

The preliminary rehearsal for the senior play will be held this afternoon at 4:30 in Lathrop hall. The entire cast has not been chosen but the following people are asked to be present to go over parts which have been tentatively assigned to them: Janet Durrie, Louise Sammons, Dorothy Dennett, Ralph Scheinpfug, Clarence Schubert, John Warren, Harold Taylor, Goodwin Watson, and Lawrence Chapman.

As soon as these parts are definitely selected further tryouts will be held. Some positions are still open for publicity, property, and business assistants. Applicants are asked to see Ray Holcombe.

## SMALL TO ADDRESS FELLOWSHIP MEET

Prof. A. K. Small, of the English department, will address the Fellowship meeting at the Y. M. C. A. tonight at 7 o'clock on "Harvard and Wisconsin Spirit."

Professor Small is a graduate of Harvard university and in his talk will tell just what he thinks is lacking here and how conditions are different than at the eastern university.

Special musical features are also being planned for the meeting.

## NOTICE TO SENIORS AND CANDIDATES FOR HIGHER DEGREES

Attention is called to the fact that the catalog list of names is now at the Registrar's Office. Candidates for graduation in June are requested to call within the next ten days (before May 21st) and examine this list with reference to the correct spelling of their names. The printed list will be followed in writing the diplomas. Any changes made after the diplomas have been engrossed will involve an expense of five dollars, which the candidate will be required to pay if the diploma is to be corrected.

## MICHIGAN STUDENTS WEAR OLD CLOTHES

ANN ARBOR, Mich.—More than 2,500 Michigan students pinned on the little green tag and signed the pledge to wear old clothes. Several hundred of the signers were women. Except for perhaps a small patch or a little shininess every old suit seemed to be in good condition and well kept, and in many cases were it not for the green tag it would have been difficult to tell that the person was really wearing old clothes.

The campus took a very favorable attitude toward the wearing of old clothes, according to the opinion of the committee in charge. They wish to emphasize that the wearing of the green tag and the signing of

## A WORD OF WARNING

IT IS reported that a movement is under way on the part of a small group of students to urge the next legislature to abolish fraternities and sororities at Wisconsin. There is no necessity or desirability to thrash out the merits of the question now in this column.

However, the general situation presents certain immediate problems which should be faced at once. The most pressing of these is the prospects of seeing the student body uselessly involved in a bitter controversy, causing hard feelings on all sides and creating a condition altogether out of harmony with the spirit which has prevailed at Wisconsin for many years.

The danger is that extremists on either side will monopolize the center of the stage and push their contentions in the spirit of blind factionalism.

This situation must not arise. The price is too big to pay. The unity of university life is too valuable an asset to be toyed with by radicals either supporting or opposing the contemplated move. Regardless of the outcome of the particular issue in question, the stirring up of wrangling, discord, and needless prejudices can result in nothing but lasting harm.

After all, the good of the whole university stands ahead of any individual group or interest. The mass of the students realize this and they have exemplified the principle time and time again. They may be safely counted on to prevent any injury to their Alma Mater from the campus Bolsheviks on one hand and the campus Bourbons on the other.

\* \* \*

## HOUSING CONDITIONS

ON discounting the future and looking ahead to the housing situation next semester it is found that the problem of how to get rooms and keep the price of them on a normal level is going to be a real job. Should the enrollment increase, as it doubtless will, the problem will be more involved than ever. The present enrollment taxes the housing facilities of Madison to such an extent that any increase in attendance will result in serious difficulties.

Luckily, there has been no appreciable increase in rents during the past year in the university district. The absence of profiteering has also been an additional means of bringing many persons other than students within the district. The temptation has been a hard one for property owners to resist. In the face of a still greater demand next semester the possibility of their falling in line on higher rates is entirely probable.

Given the advantage of advance information on the problem something must be done at once to remedy it. Dormitories for men were needed long before the housing question approached the acute stage. Here is a chance for the legislature to foster a worthwhile accomplishment in its forthcoming special. It can now head off the bad situation of students being turned away from the university for lack of rooms. There can be no worse commentary on the foresight of our lawmakers if such a state of affairs arises.

The liberal offerings of the educational bonus bill are bound to bring a great influx of students to Wisconsin next year. They

come at the invitation of the state to take advantage of the best step that has been taken toward universal education in the past decade. We owe it to these men and women adequately to provide for their housing near the university. Affording education to as many as possible and increasing enrollment can only be possible with a full quota of rooms.

Today's games are: Lambda Chi Alpha vs. Awema, place to be determined. Sigma Nu vs. Psi Upsilon, freshman field. Chi Psi vs. Alpha Tau Omega, varsity field. Sigma Chi vs. Theta Chi, varsity grass.

## MINNESOTA FOLLOWS WISCONSIN SYSTEM

When Minnesota sends out its first land clearing train the advice and counsel of John Swenchart of the agricultural engineering department of the University of Wisconsin will be used. Wisconsin has already run the land clearing specials in making an active campaign to clear more land.

Since the College of Agriculture ran the first train demonstrations have been held at 92 strategic points and general meetings held at 300 places. Special land clearing demonstration schools are being held in the cut-over country this summer by Mr. Swenchart.

## COMMUNICATIONS

### THE FRENCH ORPHAN FUND

To the Editor the The Cardinal:

The Wisconsin Literary Magazine in its May, 1920, issue has published under the signature of "Alexander G. Fite, Grad," an article which in my capacity as French citizen, soldier, and honest man I cannot allow to go unchallenged. It is not my intention to protest at the present time against the accusations that Mr. Fite raises against the French nation, her workmen and peasants, her ideals, her "Militarist" aims, her government, and particularly against Georges Clemenceau, who I am proud to name again one of our national heroes; but I must protest strongly against his infamous and wicked accusation that money contributed to the French Orphans' fund did not reach its destination.

Contributions are still being solicited for that worthy cause, and I, confident in the true and sound feelings of those among whom I now live, have taken the direction of a "Soiree Francaise," the proceeds of which are to go directly to those same orphans whose fathers died, shoulder to shoulder, with the boys of the A. E. F.

On what basis Mr. Fite established his statement we are not informed, but he should have remembered the old legal formula, "actori incumbit probatio" when he attacks an institution which grew up as a result of the misery and suffering of little children, and whose affairs are directly under the supervision of the French government. An attack such as this, unsubstantiated by fact, is a direct attack upon the honor of the whole French people which I do not believe true Americans will call upon them to defend.

GASTON CHABAUD.

## MILWAUKEE BRANCH HAS 1,288 ENROLLED

About 1,208 night-school students and 80 day-school students now are enrolled in the new Milwaukee branch, which is being conducted this year by the University Extension division.

The 80 day-school men, all of whom are ex-service men, are mainly regular freshman engineering students and adult special students who are taking commerce courses, such as economics, business English, business law, accounting, advertising, and sales letters; thirty-five of the 80 are first-year engineers.

Of the 1,208 enrolled in night-school subjects, 798 men, or 66 per cent, are studying business courses. About 308 are learning accounting. Twenty-nine per cent of the business students and 21 per cent of all the other students are soldier bonus men. Of all the students in the Milwaukee branch, 26 per cent are receiving the educational bonus.

## FACULTY MEN SPEAK AT COMMENCEMENTS

About 30 speakers for high school commencement addresses in various Wisconsin cities have been scheduled so far this spring by the University Extension division. Some 25 are members of the university faculty.

Among the subjects offered by the university speakers are: Education and the New World, Vocational Selection, The Out-of-Doors and Character Building, American Democracy, Social Waste and Wealth, Personality and Success, The Practical Education, Graduates and Educates, Preparedness for Citizenship, Intelligence and Stupidity, A Square Deal in Education, The Strife of Classes, The Challenge to Youth, Dreams, The High School and the Community, The Challenge of the Future, Program of Social Reconstruction, Democracy and Education, and Conservation of Spiritual Resources.

## MEDIC SCHOOL URGENT NEED, SAYS BARDEEN

### Wisconsin Lagging in State Support for Medical Education

The establishment of a medical school at the University of Wisconsin and a clinic that will be able to give medical advice and treatment at a fixed cost will be one of the principal proposals of Gov. Philipp in his message to the special session of the legislature which will be convened here late in May or early in June. The situation is outlined by Dean C. R. Bardeen in the following statement.

"Wisconsin is far behind neighboring states in state support for medical education," declares Dr. Bardeen.

"At the last session of the state legislatures in Iowa and in Michigan appropriation bills calling for large sums for the extension of hospital facilities at the state universities were passed without dissenting votes. In Michigan, which already has a 450-bed university hospital, the legislature made provision for the erection of a new 850-bed hospital. This will probably cost in the neighborhood of \$3,000,000 when completed.

"At the University of Wisconsin, but little has been done for clinical medicine. By act of legislature in 1848 a department of medicine was authorized at the state university.

"Over half a century passed after the opening of the university before facilities were offered for laboratory teaching in the specialized branches of laboratory sciences. In 1907 the legislature authorized the establishment of a medical school at the university. Since that date the growth of the medical school has been vigorous. But as yet no buildings have been specifically designed and erected for teaching and research in the medical sciences, with the exception of a small research hospital provided by private funds.

### MEMORIAL TREES FOR ILLINI DEAD

URBANA, Ill.—To perpetuate the names of the gold star Illini, those 173 men who gave their lives in the service of their country, and to show the honor in which their memory is held, the student body at the University of Illinois will plant an avenue of trees about the parade ground south of the new armory. Soon the committee in charge of the memorial will begin its campaign for funds. Pots, similar to those used by the Salvation Army, will be placed at all entrances to the campus.

### Music Memory Contest

TO SPRING  
By Edward Hagerup Grieg

Grieg's To Spring and MacDowell's To a Wild Rose are not, as was noted in speaking of the American composition, attempts to relate a story or paint a picture about something which the composer has seen. They seek rather to express in music something of the mood which events in nature inspire in a composer.

Edward Grieg, born in 1843, succeeded in his lifetime in making for himself and his country a firm place in the world's music. He is the great representative Norwegian composer. While he has a lighter, more lyrical touch than some of the more profound writers, such as Beethoven and Tchaikovsky, his bright, original melodies, short, queerly turned phrases, quaint rhythms, and most striking of all, daring and unusual harmonies make his work in many vocal and instrumental lines a constant delight. To know Grieg's music is to love it.

To Spring is an excellent example of his piano music. The rising of the emotional content to the splendid climax at the end is so vivid as to suggest the words of a song. The mixed rhythms—often incorrectly played—in the opening page when two tones against three appear frequently, the sudden and delightful changes in harmony, tone color, and expression are all characteristic of his inexhaustible inventive powers.

### TRACK MEN WILL BE FRATERNITY GUESTS

The fraternities are being asked again to care for the visiting high school athletes at the State Inter-scholastic meet, May 22. Although it is impossible to determine at present how many will be here it is estimated that each fraternity will be asked to care for about four men on Saturday and Saturday night.

All fraternities that wish to entertain men are asked to communicate with the athletic committee of the Inter-fraternity council of which Allen Spafford is chairman. All visiting men are to be handled through this committee in order to comply with the rushing rules of the council.

### AT THE FULLER

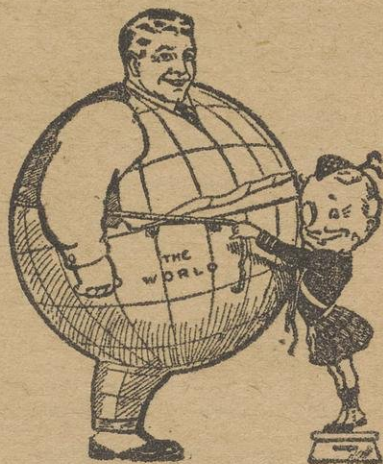

"Should a Woman Tell?" the unusual photodrama which has been on view at the Fuller for the past two days, playing to crowded houses at all performances, will be shown today, afternoon and night for the last times. This picture story featuring Alice Lake, Jack Mulhall, Frank Currier and other favorites is a tense human and infinitely appealing story of a woman confronted with one of life's greatest dilemmas. How this woman chose to act is told with all the skill and

finished characteristics of a Metro production. Matinees today will be at 2 and 3:30, with three evening performances at 7, 8:30 and 10 o'clock.

Earle Williams starring in a film production of Eugene Walter's great stage success "The Wolf" will be the attraction at the Fuller, for Friday and Saturday. George Ovey in a new comedy, "Jerry's Roundup," will also be shown on this program.

Sunday brings to the Fuller screen Fatty Arbuckle in one of his former comedy successes "The Sheriff" and Madge Evans in the drama "Home Wanted."

The next road attraction for the Fuller, and possibly the last of the season, will be the musical comedy, "The Gumps" which comes Monday and Tuesday, with a Tuesday matinee. Box office seat sale will open tomorrow.

# BOX MAKERS TO MEET HERE

Open Two-Day Convention  
in Madison On  
Thursday

About 75 members of the 4-One Box association are coming to Madison tomorrow to hold a two days' convention.

The 4-One association includes a group of wood box manufacturers whose products include a patented knock-down container, widely used for canned goods.

The box makers have chosen Madison for their meeting on account of the opportunities here for research work in their line, by the Forest Products laboratory. The box testing work of the laboratory will be a prominent feature of the two days' program.

At the morning sessions, at the Park hotel, there will be talks by representatives of the laboratory. Dr. C. P. Winslow will discuss the value of research work, C. A. Platt, the value of strapping boxes, and Arthur Koehler speaks on the identification of woods.

## Board of Education to Inspect Saturday

Members of the board of education and R. B. Dudgeon, superintendent of schools, will resume their inspection of the city schools Saturday morning at 9 o'clock, inspecting three schools each week until the tour is completed, when the board will authorize repairs to be made during the summer.

## MRS. POTTER BUYS PLANE OWNED BY SENATOR CONANT

A one-passenger Curtiss flying machine, purchased by Mrs. H. L. Potter, arrived in the city Wednesday noon, and is ready for any kind of flying, according to an announcement by Mrs. Potter early this afternoon.

Lieut. L. M. Mathewson of Chicago is to pilot the machine. He received his training in Texas previous to our entrance into the war, and afterwards enlisted with the British Royal Flying Corps.

The machine formerly belonged to State Senator Conant, with whom Mrs. Potter is now doing business. Senator Conant made several trips to Madison from his home in Westfield during the past year, as a passenger of his brother, an aviator.

Cross country trips can be made, and the machine will respond to emergency calls where time is a factor. It is now at the Wingra flying field.

## Dr. Hunt to Attend Church Assembly

Rev. George E. Hunt of Christ Presbyterian church goes to Philadelphia next week to attend the 132d annual meeting of the general assembly of the Presbyterian church which convenes May 20.

Among the problems to be discussed are that of church union and of whether or not women should be allowed to become elders.

Dr. Hunt leaves a little early to attend a committee meeting on church union. He was the prime instigator of this movement and hopes to see the time when there will be no orthodox sectarian churches.

He approves allowing women of the church to become elders.

## S. G. A. TO OPEN BOOK EXCHANGE

Co-eds to Dispose of Used  
Volumes Starting

June 1

Plans for the disposal of second-hand books among university women were discussed yesterday at the S. G. A. executive council meeting. Miriam Doan was put in charge of the work.

Miss Doan has had experience in this work at other schools and from reports which she made the following plan was worked out: The exchange will open June 1 in the Physics building. No book may be marked higher than two-thirds of its original cost, and a commission of 10 per cent will be charged. A system of keeping lists of the books and of notifying the owners has been planned, and any women interested in earning money by helping with this clerical work should apply at the S. G. A. office.

"This is the first time that an exchange of this sort for women has been tried out at the university," said Marie Bodden, president of S. G. A. "We hope that the women will co-operate with us in making it a success, and instead of packing up their old books bring them around to the exchange."

If the exchange is successful this year S. G. A. plans to offer the men its benefits next year.

At the meeting of the executive council Della Donald was appointed head of vocational conference, and Hazel Wright chairman of the district plan. Their subordinate committees will be announced later.

### PROTESTED GAME TO BE RE-PLAYED

At a meeting of the inter-fraternity athletic committee last night the protested game between Lambda Chi Alpha and Delta Tau Delta was ordered to be played over again. The game was protested as a result of the participation of "Rowdy" Elliot, who was not declared eligible for varsity baseball until the next day.

The committee held that inasmuch as Elliot had been practicing with the varsity and was working under the direction of the coach he was a member of the squad, although he was not on the varsity team at the time.

The protested game between the Alpha Deltas and Theta Chi was allowed to stand, the committee ruling that in case of rain or darkness prevented the completion of a game, unless otherwise agreed beforehand by the captains, three innings constituted a game.

### DENTIST'S OFFICES ARE OPENED TODAY

Dr. J. E. Scheurell today resumes his dental practice at new offices at the corner of State and Lake streets, above the University pharmacy. He has recently been associated with Dr. J. A. Bancroft in offices at 901 University avenue.

Dr. Scheurell, who is a graduate of Marquette and Columbia universities, began his practice in the university district about a year ago.

WASHINGTON—Pres. Wilson today began receiving foreign diplomats who have been waiting improvement of his health in order to formally present their credentials.

### EXPLAINS NEW FUEL PROCESS

Coal Dust Suspended in Oil  
Cheap Product, Says  
Dr. Holmes

The grinding of coal into fine dust and its suspension in fuel oil, to increase the supply of fuel was explained as one of the "Industrial Applications of Colloidal Chemistry," presented in Prof. Harry N. Holmes' lecture last night. It has been estimated that resources in fuel have been nearly doubled by this process. It is very practical since cheap coal can be used, and the product has a great demand.

Commercial greases, lithograph ink and photography are all problems in colloid chemistry. The tremendous importance of this branch of science was brought out in Professor Holmes' last lecture.

"There is a close connection between gels and ordinary fruit jelly, as naturally would be expected," said Professor Holmes in his lecture on "Gels" yesterday afternoon. "The latter is merely a subdivision of the large class of gels. When colloidal material in suspended units with water and comes down as a precipitate, a gel is formed. A jelly is a gel with very regular, continuous, smooth structure hydrated sometimes with water and sometimes with alcohol or hydrocarbons."

"The tendency of certain jellies to contract and the resulting high tension with the walls of the container, produce vibration and a noticeable tone," he pointed out. This was illustrated by a jelly in a test tube which gave off a definite tone when struck gently. Jellies which set in a few seconds and those which take longer periods of time, as well as clear and clouded ones were discussed in this lecture.

### "SOIREE" FEATURES OLD FRENCH FARCE

The first of the two plays to be presented by the French students at the "Soiree Franaise," May 19, in the concert room of Lathrop, is a fifteenth century comedy, written by an unknown author and lately adjusted to verse form. It is the

story of the unhappy Jaquinot who is forced by his wife and his mother-in-law to perform many disagreeable tasks. He finally succeeds in subduing them to submission by a clever strategy.

The program, which will also include another French play, will be given for the benefit of the French war orphans' fund. Both pieces will be presented by experienced and carefully trained casts. Fifteenth century costumes will be worn by the actors.

Besides the two playlets, the program will contain songs and music by the girls from the French house. Tickets can be secured for 35 cents from any member of the department.

MANITOWOC —People of Manitowoc county took advantage of the free clinic being given by the Wisconsin Anti-Tuberculosis society. At the first session 20 persons were examined and two positive cases were discovered.
