The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

JUDGE JAIRUS H. CARPENTER.

THE
WISCONSIN ALUMNI MAGAZINE.

VOL. III. FEBRUARY, 1902. No. 5.

JAIRUS H. CARPENTER.

The retirement at the beginning of this year of Judge J. H. Carpenter from the bench of the Dane County Court, where he has presided since November, 1885, was made the occasion for commemorating his long and honorable service, in a banquet tendered him by the bar of Dane county. This same occasion may serve as a justification for a brief sketch of Judge Carpenter's connection with the University.

With one exception, Judge Carpenter has had more years of continuous service than any other surviving member of the faculty, Professor Daniels entering the faculty in February, 1868, while Judge Carpenter was elected dean of the Law School and professor of law at the meeting of the Board of Regents in June of the same year. Professor Parkinson's first professorship antedates Judge Carpenter's by a year, but was interrupted for two years, from 1874-1876; so that for continuous service the record is clearly with Professors Daniels and Carpenter.

It was an honor of somewhat uncertain dimensions to which the regents elected Professor Carpenter, the Law School then existing only on paper, and its future being whatever it should

be made. However, when the year opened in September, twelve students (number of good omen) met Professor Carpenter and Colonel William F. Vilas in a little committee-room under the roof of the Capitol, and received instruction from them during the year. For the first year these two were the entire faculty, Professor Carpenter lecturing four days in the week, Colonel Vilas one, and the entire class being graduated at the end of the year.

Professor Carpenter, declining a re-election as dean, was succeeded in that capacity by Justice Harlow S. Orton of the Supreme Court, and the work of instruction was divided between Orton, Carpenter and Vilas.

In 1872, Judge Philip L. Spooner, father of the distinguished senator from Wisconsin, a man of unrivaled keenness of intellect, sweetness of character and modesty of bearing, succeeded Judge Orton in the deanship, which he held until 1876, when he in turn was succeeded by Judge Carpenter, who during Judge Spooner's administration had been a weekly lecturer before the school. In the years intervening between Judge Carpenter's first and second deanship, the school had made progress, graduating thirty-six in 1875 as against twelve and nine in the first two years of its existence. It was during his second administration that the course was lengthened to two years, and the number of the faculty was largely increased.

of it — But with all the mutations in the teaching force Judge Carpenter was always a fit. The law of contracts, with partnership, bailments and agency as branches thereof, was his field from the beginning. In addition thereto he taught for many years the subject of negotiable paper, and even at one time torts and criminal law.

In 1883 he declined re-election as dean and was succeeded by Ithamar C. Sloan. Since the latter date Judge Carpenter's connection with the University has been that of a professor

solely, active until 1900; since that date he has been the *emeritus* incumbent of the Jackson professorship of law, an endowment made by the will of his friend and client Judge Mortimer M. Jackson, whose expressed wish it was that his friend Judge Carpenter should be the beneficiary. But from 1868 to 1900 no week of any school year passed when Judge Carpenter did not deliver at least two lectures in the College of Law.

Such is the bald and inadequate official summary of one phase, and that not the chief one, of a life of eminent and honorable usefulness. It tells but little of the influence that he has exerted upon the great body of lawyers who have graduated out of the institution and into the legal and political life of Wisconsin and of the Northwest in the last thirty-four years. Not the smallest share of his usefulness lay in the hospitality which, until he went upon the bench, his office afforded to students. My own observation would lead me to say that during that period more law students read in his office than in that of any other Madison lawyer, as many as six being at one time admitted. This was certainly an unusual number for those days, whatever the modern rule may be.

To these men who came into more intimate personal contact with him than the general, the beauty and integrity of his character were a daily lesson quite as valuable as any to be derived from his lectures or the pages of the law-books.

As a teacher, Judge Carpenter's distinguishing characteristics were extreme kindness and consideration to students, and, with reference to himself, a modesty that amounted almost to shyness. Emphatically he was one who offered knowledge to the student, but made no attempt forcibly to inject it. Yet his patience was boundless, and, without any limitations of time or personal convenience, he was ever ready to explain and illustrate from the rich store of his knowledge and experience, until only

the hopelessly sluggish and the intellectually deficient had any excuse for failure to understand.

The College of Law has been singularly fortunate in its deans; but without disparagement to any of them, we who are now charged with his work can wish for our students no better future than that they shall be as sound lawyers, as high-minded, honorable men, and as good Christians in no cant sense of the word as our first dean.

HOWARD LESLIE SMITH, '81.

THE SECOND EXHIBIT OF THE MADISON ART ASSOCIATION.

The second exhibit given by the Madison Art Association continued from January 20th to February 5th, and included reproductions of more than two hundred famous paintings representative of the Spanish, Italian, Dutch, Flemish and German schools of the 15th, 16th and 17th centuries.

The exhibit was planned and conducted with one object clearly in view,—to get the students of the University interested in the best art to the exclusion of much of the now popular wall decoration that has little or no merit. With this aim, selections were made from the best photographic reproductions of the Braun company of Paris, of the Berlin Photographic company and of the Hanfstaegnl company, also of Berlin. The reproductions were large and attractively mounted, and were of the most striking, interesting and valuable paintings of the artists of this period. In addition to the photographs, several reproductions were loaned by residents of the city. The loans included four valuable paintings; a detail of Raphael's Sistine Madonna, owned by Professor J. C. Monaghan; Raphael's Madonna della Sedea, the St. Agnes of del Sarto, and The Visitation, by Albertinelli, owned by Mrs. Delia Carson.

The exhibit was large, occupying three rooms of the museum in the Library Building; and its popularity was attested by an increasing attendance, as many as one thousand people having attended on some days. In accordance with the purely educational object of the exhibit, each visitor was requested to cast a vote for the picture he favored. The general trend of the public taste was ascertained in this manner, and fifty of the most popular pictures will be retained and framed suitably, to be rented to students. Each picture will represent a value of seven or eight dollars, and upon the payment of forty cents a student will be entitled to the possession of four pictures during a semester, one each month. It is hoped that the incongruity between a really beautiful picture and the gaudy and inartistic room decoration affected by the majority of students will result in a revolution in favor of true art. One picture dealer in the city is said to have announced an increase in his sales of standard pictures as a result of a previous art exhibit.

In the Italian school, Titian and Raphael are represented by a generous number of reproductions; Velasquez, Rubens, Rembrandt and Hals are also well represented. Of other painters a smaller number of pictures are shown, but the fewer examples have been so carefully chosen that they can but attract attention to the artists. Luini's Betrothal of St. Catherine and Madonna of the Rose Hedge are exquisitely reproduced; Murillo's wonderful versatility is strongly shown in *The Drinkers*, *St. Anthony of Padua*, *Infant Jesus*, and *Rest in Egypt*; the few types of Botticelli's beautiful elongated figures hold one's admiration, and a single picture of del Sarto, the *Portrait of a Sculptor*, holds its own place despite the large number of wonderful Corporation pictures of Franz Hals and the generous revelation of Rembrandt's breadth and *chiaroscuro*. The collection is supplemented by a number of smaller reproductions, and examples of Buonarroti's anatomy and perspective are not lacking.

It would be extremely difficult to single out any picture for especial mention, as all are masterpieces, but the earlier ones are of great developmental interest. One notable provision made by the exhibition committee is the placing of a collection of art books temptingly accessible to the visitors, which forms an important adjunct to a development of interest in art.

The exhibit has attracted so much attention and has been so entirely successful that the Art Association will be well warranted in continuing the series of exhibits.

MILDRED A. CASTLE, '00.

MAKING A LIVING WHILE IN COLLEGE.

A professor in a neighboring university says: "There are just three things that need keep a man from college: sickness, a dependent family, or falling in love." Certainly the financial factor—or the lack of it—has not kept out of college some twenty per cent. of the present student body at the University of Wisconsin, and the number of students applying for work seems even larger this year than in previous years. The pluck and determination shown by the majority of these men is admirable, and deserving of encouragement in whatever way it can be given.

An agency which has proved itself extremely valuable in helping this class of students is the employment bureau conducted by the University Young Men's Christian Association, the object of which is to bring in contact the student wanting work with those having work to be done. The bureau is not a means of dispensing charity. It aims to help only those who are anxious to help themselves, to guarantee good service to those who apply for men, and to require faithful service from those who accept jobs. During the college year 1900-1901 the

bureau furnished 270 jobs, worth over \$5,000, to working students. This year the usefulness of the bureau has increased to such an extent that nearly 200 jobs, including both odd and permanent, have been secured for students during the first semester. No charge is made for this service.

To earn his way the average working student stands ready to do anything respectable. Washing dishes is a job that a man hates, but many a Wisconsin student is to-day braving the terrors of the boarding-club dish-pan in his struggle for the coveted "A. B." or "B. L."

Waiting on table is perhaps the most popular way of earning money, and the man who gets experience and gives good service during his freshman year need not lack for employment during the remainder of his course. Other kinds of common labor sought by students are: Taking care of furnaces, lawns and horses, beating rugs, washing windows, janitor work, clerking in stores, in fact anything that people will pay for having done. The price paid for odd jobs is generally twenty cents per hour.

That it pays for a student to give faithful service was well illustrated at the opening of the college year in the case of a well-known junior. The student in question, because of the excellent service he had given his employers in freshman and sophomore years, was this fall offered more work than he could accept. He reaped his reward by retaining the most lucrative and desirable positions offered, leaving the others for freshmen to make a reputation on, as he had made his. A student who has worked his way through college says the few elements needed for success are "‘rustling’ qualities, faithfulness to the work at hand, systematic study coupled with self-abnegation of needless pleasure, care of body and spirits, and, last but not least, a due regard for the conventional requirements of society."

The employment bureau is not a side issue in the work of the

University Y. M. C. A. Advertising in one way and another has made this department so well known that calls for men are constantly coming throughout the entire year from members of the faculty, business men, and residents of Madison. The association is desirous of extending this branch of its work, and students wanting employment are urged to make free use of the bureau. There are men in college to-day who are supporting themselves almost entirely by work obtained through this branch of the association's service.

L. B. SMITH.

AUDUBON SOCIETY WORK.

The Wisconsin Audubon Society has recently made an important addition to the bird slides which are sent by the society to the schools throughout the state. From a series of photos taken by Robert W. Hegner of Decorah, Iowa, fifty of the best were selected and from the negatives slides have been made. These slides show live birds in a great variety of characteristic attitudes, chiefly in or about their nests, and altogether they are a most valuable commentary on actual bird life and bird homes. The society has now in all about two hundred slides, seventy of which are colored.

All money which the society receives from the use of these slides over and above expenses will be expended in the preparation of additional slides. It is hoped that in this way the children of the state can be made familiar with most of our native birds and an interest be thus aroused which will prove an efficient means of defending them from wanton destruction. Bird study, as a method of interesting both old and young in nature work, can thus be popularized. Mr. Hegner's slides can be procured at the rate of fifty cents each, or forty-five dollars per

Photo by W. O. Richtmann.

ROBIN'S NEST.

ONE OF THE AUDUBON SOCIETY SLIDES.

hundred. If a small admission fee is charged when the slides are shown, any school can soon purchase slides of its own. The society earnestly solicits the aid of all bird lovers in this work. It is the ultimate purpose of the society to have made a number of sets of slides covering the whole range of the animal world. All amateur photographers who have negatives of living animals are asked to aid the society by the loan or gift of such negatives as are available for the making of slides.

In order that the various schools in the state may have convenient access to these slides, the following rules are deemed advisable:

1. The payment of five dollars entitles any school, public or private, to the use of the slides for a period of time not exceeding three days, from the receipt of the slides to their return shipment. Any society or other organization may have the same privilege of using the slides, provided that the schools shall have the preference as to dates.
2. An additional fee of three dollars entitles any school to a further use of the same slides (or of any others which the society may purchase) during the current school year on the same conditions as before.
3. In order to secure the Audubon Society from all loss by accident or otherwise, the school, society, or other organization to which the slides are sent shall furnish a guaranty signed by three responsible citizens that the slides be returned in good condition.
4. The following additional expenses must be paid for the use of the slides:
 - (1) Express charges both ways.
 - (2) In case a lecturer is supplied by the society, his expenses must be paid.

- (3) If a lantern is required to be sent with the slides, the expenses will vary with the kind of lantern desired and whether an operator is furnished by the society.
5. Prompt application to Prof. W. S. Marshall, president of the Wisconsin Audubon Society, will assure preferred dates. The slides are sent out to the schools from December 15th to June 15th of each school year.

HOSPITAL FUND.

The hospital committee having in charge the endowment of a free bed for students in our city hospital, gratefully acknowledges the donation of ten dollars from a prominent professor of the University. In the letter which accompanied the check he endorses our enterprise in the following words: "I see your article in the ALUMNI MAGAZINE relative to a student's bed in the Madison hospital. I sincerely hope your committee will meet with the encouragement it so richly deserves."

Mrs. WILLIAM F. ALLEN, *for hospital committee.*

PROGRESS OF THE UNIVERSITY.

CONVOCAION SUBJECTS.

Speakers at convocations during December and January, and their subjects, were as follows:

December 6—Mrs. Florence Kelley, of Chicago.—The National Consumers' League.

December 13—General singing.

January 10—Poultney Bigelow—Reminiscences of a trip through Germany.

January 17—Prof. Joseph Jastrow—The purpose of art.

January 24—Dean E. E. Bryant—William McKinley.

ATTENDANCE AT THE HOLIDAY MEETINGS.

In addition to the list published last month of faculty members attending the holiday meetings of various societies, the following should be mentioned:

Mr. Rudolph Hartman attended the meeting of the Wisconsin Academy of Sciences, Arts and Letters.

The meeting of the central division of the Modern Language Association, at Champaign, Ill., was attended by Professors E. K. J. H. Voss and A. R. Hohlfeld and Mr. O. E. Lessing.

Prof. Augustus Trowbridge was at the meeting of the American Physical Society, in New York.

Prof. T. S. Adams attended the meetings of the American Economic Association and of the American Historical Association, both held at Washington.

Mr. A. C. L. Brown attended the meeting of the Modern Language Association, at Harvard.

Prof. G. C. Comstock, secretary of the Astronomical and Astrophysical Society of America, was present at the meeting of the society in Washington and read a paper on the "Determination of double star orbits."

PRESIDENT ADAMS' RESIGNATION ACCEPTED.

At the quarterly meeting of the Board of Regents, in January, the resignation of President C. K. Adams was formally accepted.

A letter from him was read at the meeting, in which he said that he was convinced that the climate of California was better for the health of himself and Mrs. Adams than the climate of Wisconsin, and he urged the immediate acceptance of his resignation. The letter was as follows:

"La Casa Loma, Redlands, Cal., January 4, 1902.—To the Honorable the Regents of the University of Wisconsin, E. F. Riley, Secretary, Gentlemen:—I have refrained from making formal acknowledgment and reply to your communication of

October 11th in answer to my letter of resignation until I could form some impression in regard to the influence of the climate of California upon the health of my wife and myself. We have now been here a month, and the beneficial effects of our residence here are in no way doubtful. For the first time in two years my wife has been entirely free from the troublesome ailment which so rapidly undermined her strength, and this fact alone is enough to make it unwise, and, I might say, impossible, to return to Wisconsin for a permanent residence.

"More than this, my own health, though very greatly improved, is not completely restored, and this fact would seem to reinforce reasons already sufficient for a final determination. I am obliged, therefore, to ask you at your coming meeting to accept the resignation which my health constrained me very reluctantly to offer on the 11th of October. It seems to me that the welfare of the University requires that you should no longer hesitate to consider the matter of a successor to the presidency.

"Thanking you most heartily for the considerate and generous manner in which you have treated the matter of my resignation, and hoping for you and the University every measure of happiness and prosperity, I am very truly yours,

"C. K. ADAMS,
"President."

Following were the resolutions as passed:

"Resolved, that this board accept with great regret the resignation of Dr. Charles Kendall Adams, president of the University, upon his communication recently transmitted,

setting forth such action: and in officially parting with President Adams this board expresses again its sense of his great service to the University, in uplifting its aims, unifying and elevating the spirit of all its members, faculty, instructors and students, in increasing its usefulness and augmenting its repute throughout the country and in foreign lands: and tender to him and Mrs. Adams the personal congratulations of the members of this board that in the climate to which he has transferred his residence they have found relief from physical distress and their warm hopes that many and happy years lie before them."

Dr. Alma J. Frisby, chairman of the committee that has been investigating the complaints made about the food at Chadbourne Hall, did not present a written report. She said that the committee would have nothing to report to the board: the trouble had been settled and nothing more would be heard of it.

THE MILITARY DEPARTMENT.

With the outbreak of the war with Spain, Lieutenant John C. W. Brooks was relieved as professor of military science and tactics at the University and ordered to duty in the field. After an interval of one semester without drill, Capt. Charles A. Curtis, a retired infantry officer of the army, was invited to the vacant position, and in due time he was formally detailed by the Secretary of War. Captain Curtis brought with him over twenty-seven years of similar experience in other schools and colleges and was not long in getting the student regiment in hand and inspiring its members with new enthusiasm

Under his administration two hundred additional rifles have been procured, the old infantry arms and equipments exchanged or put in thorough repair, the signal equipments—flags, staffs, wands, heliographs, etc.—doubled, and regular gallery and field target practice has been begun and carried on.

Until 1893 the drill in signals had only been a convenient side-track for placing students claiming to be unable to afford the expense of a uniform, or for those who were obliged to make up drill. Now it is an organized corps, properly officered, and has twice elicited special commendation from the U. S. inspector on his annual visits. The material for target practice—powder, balls, shells and primers, with re-loading tools,—has been in storage for a number of years, but last year a special corps of thirty students was selected by the commandant and placed under continuous instruction, in the galleries in winter and in the field in summer.

It is only in artillery that the University does not now give the required college military instruction. Since the destruction of most of the artillery in the fire which, June 12, 1891, consumed the old armory, it has been impossible to carry it on. Efforts are now being made by the commandant which it is hoped will result, before the opening of another college year, in supplying full artillery equipment.

Interest in the drill appears to be constantly increasing. Fewer attempts are made to secure exemption from it for trivial causes than heretofore, and the number of absences has greatly diminished. Few students, who are not required to

drill, now frequently apply for permission to do so, and the present colonel of the regiment is a law student. All officers and non-commissioned officers are appointed and promoted for merit, and the result has been to inspire orderly conduct, good drill and punctual attendance.

Given time, the University regiment would become a finely drilled body of men; but unfortunately, as the enthusiastic commandant thinks, there are but sixty-five drill days of one hour each, all told, in the year. In that time, however, the improvement is really surprising, and a street parade or review never fails to win the approval of the civil war veterans and national guardsmen who look on as spectators.

Captain Curtis holds weekly recitations of the officers throughout the period of indoor drill and intersperses them with military lectures. The acquisition of a knowledge of drill in our colleges seems not to be entirely without compensation. Each government instructor is required to send yearly to the Adjutant General of the army the names of several of the best drilled cadets of his command. In the long list of appointments of second lieutenants made by President McKinley to the regular army in '98 and '99, many of the selections were made from this list without the nomination of a congressman, and it is said that another batch soon to be made by President Roosevelt will be selected in the same way.

FACULTY GYMNASIUM CLASS.

During the fall and winter months, certain members of the faculty have been regular attend-

ants at a class in gymnastics, which Dr. Elsom has been leading on three days of each week. The class is well attended, and the members seem enthusiastic in their work. The work consists of short, vigorous drills with the bells and wands, and light work on the various gymnastic apparatus. The work of the class is primarily of a recreative character, and is designed to give to the faculty members regular exercise under favorable conditions; and it is found that work in a class of this kind is less irksome than a similar amount of exercise taken alone.

FRESHMAN MEASUREMENTS.

Dr. Elsom has completed some interesting statistics in regard to the measurements and strength tests of the freshman class, and the figures are given below; the '04 class measurements are added for purposes of comparison. It will be noticed that in most respects the class of 1905 surpasses the class of 1904. In certain strength tests, however, '05 seems to fall short.

| | 1905. | 1904. |
|---------------------|-------|-------|
| Weight, | 137.8 | 135.9 |
| Height, | 68.0 | 67.4 |

| Left grip (kilos) | 43.4 | 41.6 |

RECENT LECTURES.

Two lectures were given during the month by speakers sent out under the auspices of the American Archaeological Society. Prof. F. W. Kelsey, of the University of Michigan, spoke January 9th, his subject being “Ten years of excavation at Pompeii, 1892-1901.” Professor Kelsey was during 1901 in charge of the American School of Classical Studies at Rome. On January 23rd, Miss Harriet Boyd, of Smith College, spoke on “Excavations in Crete.” Miss Boyd was for some years connected with the School of Classical Studies at Athens, and so was able to speak with authority on the various phases of the important discoveries now being made in Crete. The most noteworthy result of the excavations was the evidence discovered of a very ancient civilization antedating the Greek and contemporary with one of the most flourishing periods of Egyptian civilization.

Two lectures were given at the University by Poultney Bigelow, the well-known writer and traveler, on January 10th and 14th respectively. The subjects of his addresses were “The German army” and “The Boer.” He was greeted by large audiences on both occasions.

ENGINEERING SOCIAL.
The second of the series of engineering socials was held on Saturday evening, January 11th. An even larger number were in attendance than at the first social, and the affair was in all ways a success.

ART EXHIBIT.
The exhibit of the Madison Art Association in the Historical Library building was opened on Monday, January 20th, by an address by Professor Jastrow. The collection occupied three rooms on the fourth floor of the building. One room was devoted to Italian masterpieces, a second to both Spanish and Italian work, a third entirely to Dutch pictures. The exhibit was open to the public daily during the two succeeding weeks.

FACULTY RECEPTION.
On the evening of Friday, January 24th, the University League, an organization of faculty ladies and the wives of faculty members, gave the first faculty reception of the year at the home of Vice-President and Mrs. J. B. Parkinson. Nearly two hundred guests were present. They were received by Mrs. E. A. Birge, Mrs. J. B. Parkinson and Mrs. W. W. Daniells. Refreshments were served and a short musical program was rendered.

On January 16th, Dr. Toyokichi Iyenaga, recently of the foreign office of Japan, gave the first of two lectures on “The situation in the far East.” In this lecture he dealt with the political conditions and relations of Japan and Russia. Dr. Iyenaga delivered his second lecture January 27th, speaking particularly of conditions in China. Both this and the preceding lecture were excellent first hand accounts of matters of great importance to us, and what

Dr. Iyenaga had to say carried the weight due to the opinions of an active participator in the eastern embroglio.

NEW COURSE IN APPLIED ELECTRO-CHEMISTRY.

The department of applied electro-chemistry offers during the second semester a new course dealing with chemical machinery and appliances used in the chemical industries. The rapid development which industrial chemistry and electro-chemistry are experiencing at the present time is attributable perhaps more to engineering applications than to progress in pure science, and it has appeared therefore desirable to supplement chemical and electro-chemical studies by an engineering course in the mechanisms employed for applying scientific knowledge to the industries in this class of problems. It is the purpose of the course offered to take up this work, which will consist of two hours per week in the class room supplemented by suitable laboratory experimentation.

FACULTY NOTES.

On New Year's day, Prof. F. A. Parker, of the School of Music, acted as judge at the musical competition of the National Eisteddfod at Racine. This is a Welsh society, prominent among the great musical societies of the world; it holds a competitive meeting every year. This is the third time Professor Parker has acted in this capacity.

Prof. W. H. Williams is perfecting an organization whereby lectures in Bible history and the study of the Old and New Testaments may be taken up on about the same plan as a university extension

course. His organization will have as its incorporators one hundred and fifty of the best known and most prominent people of Wisconsin. Eminent divines will be secured as lecturers, and popular literature on the subject will be disseminated. A large number of incorporators have been secured in Milwaukee, Madison, Oshkosh, Janesville, La Crosse and other cities.

Among the speakers at the state convention of buttermakers held at Madison, January 14th-16th, were Dean W. A. Henry, Prof. Storm Bull, Prof. E. H. Farrington, Prof. A. W. Richter, Dean J. B. Johnson, and Prof. W. A. Scott. Professor Farrington was elected secretary of the association for the ensuing year.

At the meeting of the Madison Six O'Clock Club on January 6th, Dr. T. S. Adams spoke on the subject of Henry George's theories of taxation. Dr. Adams read a paper before the Historical and Political Science Association, January 21st, on "Spanish and American financial systems in Porto Rico."

Prof. G. C. Comstock spoke January 10th before the engineers on "Modern study of the stars."

Prof. F. J. Turner read a paper before the Madison Literary Club January 13th on "The diplomatic prelude to the Louisiana purchase." Professor Turner also addressed the Madison Woman's Club January 17th on "The beginnings of the West."

Dean W. A. Henry lectured in Kansas before the convention of the agricultural societies of the state, held January 6th-9th.

Prof. S. M. Babcock is just recovering from a serious attack of illness.

Prof. C. R. Van Hise and family left January 20th for a two months' trip through southern California.

Prof. M. V. O'Shea returned on January 18th from an extended trip through the Western states.

Prof. A. W. Richter will act as a member of the committee to examine the new water-works plant just put in at Janesville.

Prof. J. B. Parkinson spoke at the Unitarian church, Madison, January 19th, on "California and the golden fleece."

Mr. Jerome Dowd spoke at Hanover Street Congregational church, Milwaukee, January 19th, on "Labor conditions in the South."

Mr. E. A. Bredin was called to Chicago recently by the death of his mother.

Mr. M. V. Daggy spoke at West Bend January 14th on "Anglo-Saxon grit."

On January 16th, Prof. H. L. Russell and family left for the South, where they will remain till spring. Dr. Russell spoke in Milwaukee, January 9th and 10th, before the city sanitary board, and at the meeting of the State Cheesemakers' Association. On January 11th, he lectured at Minneapolis to the students of the state agricultural school on dairy bacteriology.

Dean J. B. Johnson will build a residence during the coming summer on North Henry street, overlooking Lake Mendota.

Prof. J. C. Monaghan addressed the students of the Northwestern Business College, Madison, January 16th, on "The opening of a new era in commercial relations."

Mr. U. S. Baer was elected secretary of the State Cheesemakers Association at the recent convention of that organization in Milwaukee.

ON THE HILL.

SENIOR SOCIAL.

On Thursday evening, January 9th, about one hundred members of the class of '02 gathered at Music Hall for the first class party. The evening was spent in dancing to the music furnished by Peterson's orchestra of four pieces. Besides the social committee of the class, Dean and Mrs. J. B. Johnson, Professor and Mrs. B. W. Jones, Professor and Mrs. L. W. Dowling and Miss Abby S. Mayhew formed the reception committee. This is the first of a series of class socials to be given by the present senior class.

NORA SAMLAG.

A meeting of the Norwegian society, well attended by outsiders, was held January 14th. An address in Norwegian was given by Mr. O. J. Saervold, a well-known lecturer and journalist, now a special correspondent of the Chicago *Inter-Ocean*. Mr. Saervold spoke of life in Norway, and of some famous Norwegians, including Bjornsen and Ibsen.

FRESHMAN DEC.

The annual freshman declamatory contest was held in Music Hall January 18th and proved to be one of the most successful contests held

for several years, both in the quality of work done and in the general interest shown. First place in the oratorical division went to Willard S. Griswold, of Waukesha, whose subject was "The Death of Hamilton;" and Darrell O. Hibbard, of Racine, won second by his delivery of "Emmet's Last Speech." In the dramatic division, first place went to Miss Cornelia L. Cooper, of Lake Mills, who spoke "Madeline Braubau," and second to Miss Grace V. Ellis, of Bristol, who rendered "The Angel and the Shepherd."

The judges were Prof. Howard L. Smith, Miss Mary McGovern, and C. E. Allen.

MILITARY HOP.

For the first time three military hops have been given during the first semester of the college year. On Saturday evening, January 18th, the third hop of the year was given. About one hundred couples were in attendance. Captain and Mrs. C. A. Curtis chaperoned.

LECTURE BY W. J. BRYAN.

An audience of fourteen hundred University and town people listened to a lecture by William J. Bryan, January 22nd, on the subject "A conquering nation." The lecture was given under the auspices of the Oratorical Association, which was fortunate in securing the speaker just as he was returning from the East. On the preceding day Mr. Bryan had addressed the students of the University of Chicago. The speaker discussed problems of taxation and of colonial government, adding a word of sympathy for the Boers. Col. W. F. Vilas presided and introduced Mr. Bryan.

SCIENCE CLUB.

The Science Club met on Thursday evening, January 23rd, in the lecture room of the Library Building. The first part of the evening was taken up by a paper presented by Dr. Victor Lenher, on "Some new reactions of tellurium minerals." The remaining time was devoted to ten minute reports on the recent meetings of the various scientific associations. Acting-President E. A. Birge reported for the Society of American Naturalists; Prof. G. C. Comstock for the American Astronomical Society; Prof. Louis Kahlenberg for the American Chemical Society; and Prof. C. S. Slichter for the Wisconsin Academy of Sciences, Arts and Letters.

RED DOMINO PLAYS.

On Friday evening, January 24th, the annual performance of the ladies' dramatic organization, the Red Domino Club, was given at Music Hall. An audience of about three hundred enjoyed the two short plays which made up the evening's program. The various roles were rendered with pleasing stage presence by the members. The casts were as follows:

Nance Oldfield.

Nance Oldfield, a famous London actress of Drury Lane theater, Elizabeth Shepard, '02. Susan Oldfield, her cousin, Fola LaFollette, '04. Nathan Oldworthy, an attorney-at-law, Stephen C. Stuntz, '99. Alexander Oldworthy, an infatuated poet, Donald McDonald, '04.

Barbara.

Lillie, Freda Stolte, '02. Barbara, Charlotte Wasson, '04. Cecil, lover of Lillie, Harry C. Johnson, '03. Dr.

Nathaniel Finnicum, John V. Brennan, '02.

The patronesses were: Mesdames La Follette, Proudfit, Edsall, B. W. Jones, O'Shea, Bardeen, L. M. Hanks, Allen and Frankenburger and Miss Mayhew.

GRADUATE CLUB.

The Graduate Club met on Saturday evening, January 25th, at the residence of Miss Sabena Herfurth. A large number were present, including members of the club and of the faculty as well as invited guests. A short program was rendered, including recitations, by Alfred G. Arvold, '05, and Marie Vaas, and musical selections. The feature of the evening was an old-fashioned "spelling school." Refreshments were served.

NEW SORORITY.

A new Greek letter sorority, including in its charter membership a number of prominent senior co-eds, has entered the social field of the University. The installation ceremony, by which the Nu Chapter of Chi Omega was launched at Wisconsin, was conducted by Miss Louise Stratton-Lake, of Fayetteville, Ark., at the home of Dr. and Mrs. Orin G. Libby, on Tuesday afternoon, January 28th. After the initiation a banquet was served in the parlor, the fraternity colors, cardinal and straw, being used in the decorations. The addition of this sorority completes the list of national sororities at Wisconsin. Chi Omega has chapters at the universities of Mississippi, Arkansas and Tennessee; at Jessamine College, Kentucky; Belmont College, Tennessee; Tulane University, New Orleans, La; Northwestern University, Evanston,

Ill.; the universities of Illinois, Vermont and Virginia.

The charter members of the new chapter are:

Seniors: Bessie E. Cottrell, Spencer, Ia.; Ruth Heaton, Reedsburg; Edna L. Hooley, Wauwatosa; Lorine A. Knauf, Chilton; Bessie M. Krape, Freeport, Ill.; Myrtle N. Morrissey, Glen Haven; Florence H. Ramsay, Reedsburg; Emma S. Witwen, Baraboo; Mary Wright, Petersburg, Ill.

Juniors: Ruth C. Andrews, Hudson; Grace M. Ballantyne, Bloomington.

Sophomores: Murva R. Kelly, Dubuque, Ia.; Georgia M. Shattuck, Medford.

Freshmen: Edith V. Ballantyne, Bloomington; Elizabeth V. Foley, Wauwatosa; Fredrica Shattuck, Medford.

The patronesses of the chapter are Mrs. Storm Bull, Mrs. R.G. Siebecker, Mrs. Orin G. Libby and Mrs. E. H. Pudor. The house at No. 15 West Gilman street will be occupied as a chapter lodge.

GERMANISTISCHE GESELLSCHAFT.

The dramatic section of the Germanistische Gesellschaft made its first public appearance at the meeting of the society on January 28th, when a one-act German play, "Nach dem Flitterwochen," was presented, the parts being taken by Miss Emma M. Roemer and Mr. Charles H. Handschin. Miss Ella Helm gave a vocal solo. During the second semester considerable attention will be paid to dramatic work.

PROHIBITION ADDRESS.

Fred E. Britten, of Michigan, spoke to a small audience at Music Hall, Friday evening, January 31st,

under the auspices of the University Prohibition League. His subject was "The science of politics." Mr. Britten was for some years professor of psychology and ethics at Central University, in Michigan, and is now a member of the prohibition state central committee.

At the meeting of the Prohibition League on January 27th; Mr. John Nicholson spoke on "Some recent attacks on prohibition," and Mr. J. B. Smith discussed "The liquor traffic in the twentieth century."

SMALLPOX.

The case of smallpox which was discovered at a students' boarding house at the corner of Lake and State streets has not been followed by any serious consequences. The patient, Francis B. Hyland, '04 L, of Stoughton, has entirely recovered. The fourteen students rooming in the house were relieved from quarantine after two weeks' confinement.

CHORAL UNION OFFICERS.

The Choral Union at its annual meeting elected the following officers: President, Charles K. Adams; vice-president, E. O. Kney; secretary, O. B. Zimmerman; librarian, W. H. Dudley; director, F. A. Parker.

PROM ARRANGEMENTS.

The Junior Prom this year will be held on the Monday following the close of examinations, February 10th, and will be a most elaborate affair. The price of tickets this year is six dollars, including box and supper.

Many of the out-of-town guests will be entertained by the various fraternities at house parties from Saturday until the Tuesday after

the Prom. There will be many parties Saturday and Tuesday evenings.

The reception committee will include Acting-President and Mrs. E. A. Pirge, Dean and Mrs. J. B. Johnson, Miss Abby S. Mayhew and Mr. and Mrs. L. D. Harvey. The patrons and patronesses will be: Gov. and Mrs. R. M. LaFollette, Mr. and Mrs. George H. Noyes, Mr. and Mrs. A. J. Pettit, Mr. and Mrs. O. D. Brandenburg, Prof. and Mrs. R. M. Bashford, Mr. and Mrs. C. G. Riley, Judge and Mrs. J. V. Bardeen, Judge and Mrs. J. B. Winslow.

INTERCOLLEGIATE DEBATES.

The team to debate with Iowa submitted the following question to their opponents, who had until January 26th to select the side that they wished to debate:

"Is it desirable that the national banking law be so amended as to permit national banks to establish branches?"

The debate will be held at Iowa City not later than April 15th. Iowa has selected E. K. Brown, C. T. Kemmerer and H. E. Spangler to constitute her team. The Iowa men chose the affirmative side of the question.

The uncertainty as to a debate with the University of Minnesota has been ended by the election of debaters to represent that institution. They have until February 1st to submit the question. For a time it was doubtful whether the debate would be held this year on account of the delay in naming a team to represent the Gophers. Messrs. Wedge, Kane and Ladd were finally chosen by Minnesota, and the debate will be held, probably some time in April.

LITERARY SOCIETY INITIATES.

The following is a list of the initiates into each of the various debating societies during the present college year. The list for Olympia, the newly-organized society, includes all the members to date of that organization.

Athenae:—'05: Arthur H. Bartelt, Ft. Atkinson; Charles O. Bergener, Shullsburg; Rudolph E. Bolte, Davenport, Iowa; J. A. Carpenter, Beloit, Iowa; Herbert V. Cowles, Madison; William H. Gilbert, Lake Geneva; Willard S. Griswold, Waukesha; Robert T. Herdegen, Milwaukee; Gerald W. Jamieson, Shullsburg; Alfred L. Klingelhofer, Milwaukee; Henry K. Leonard, Bruce; Elton C. Lowry, Menomonee Falls; Thomas J. Mahon, Milwaukee; Adolph F. Meyer, Cedarburg; Emil Olbrich, Lawrence, Illinois; Ray Schwartz, Troy Center; Walter E. Smith, Tiffany; David O. Thompson, East Troy; Harold K. Weld, Elgin, Ill.; Earl H. Wells, Manawa. '03: Arnold L. Gesell, Alma; Ira O. Hubbard, Westfield; Gustave G. Schmitt, Muscoda. '02: Clough Gates, West Superior.

Hesperia:—'05: Guy W. Crane, Milwaukee; Lester R. Creutz, Moline, Ill.; Ira B. Cross, Moline, Ill.; Harold L. Geisse, Chilton; Victor R. Griggs, Kewanee, Ill.; Ernest S. Hobbs, Aurora, Ill.; Grover Huebner, Manitowoc; John D. Jarvis, La Crosse; Forest L. Parsons, Berlin; Carl F. Pfund, Madison; Richard A. Schmidt, West De Pere; Lucius A. Tarrell, Darlington; Louis H. Turner, Mondovi; Claude M. Vail, Darlington; Chauncey R. Welton, Madison; George Williams, Aurora, Ill. '04: Maurice A. Gaylor, Moline, Ill.; Horatio G. Winslow, Madison.

Philomathia:—'05: Alfred G. Arvold, Whitewater; Thomas J. Berto, Amherst; Harry Breslauer, Milwaukee; Leonard E. Broenniman, Wauertown; Frank O. Brunckhorst, Kewaunee; George L. De Lacy, Madison; John M. Detling, Sheboygan; Albert W. Foster, Milwaukee; Daniel W. Hoan, Waukesha; William J. Millar, Milwaukee; Charles W. Paeschke, Milwaukee; Edwin G. Young, Beaver Dam. '04: John G. Hayden, Milwaukee; Farnham A. Hudson, Waukegan, Ill.; Perry C. Ranney, Bowers; Eugene J. Stephenson, Albany. '03: William L. Davis, Mauston; Stephen J. McMahon, Manitowoc.

Olympia:—'05: William K. Nattinger, Lyons, Ia.; John D. Purcell, Waterloo; Eugene M. Runyard, Antioch, Ill.; Clyde S. Thompson, Argyle; Clayton D. Utter, Caldwell; Guy P. Weatherlow, Madison. '04: Thomas W. Andresen, Medford; Solon J. Buck, Berlin; Ray Broughton, Albany; Julius T. Derge, Eau Claire; Frank J. Eaton, Cudahy; Elmer W. Hamilton, Hyde; Winfred D. Haseltine, Mazomanie; John E. Howley, Madison; James Hutton, Janesville; Henry H. Jebens, Davenport, Ia.; Bartie E. McCormick, Waterloo; Roy E. Noyes, Baraboo; Edwin C. Osthelder, Sheboygan Falls; Elam J. Raymond, Chippewa Falls; Glenn R. Sardeson, Argyle. '03: Alexander O. Corstvet, Deerfield; Robert S. Crawford, Mineral Point; James F. Dougherty, Lyndon Station; Homer C. Hockett, Madison; Alexander Kasberg, Madison; Henry W. Kircher, Madison; Oscar W. Kreutzer, Cedarburg; George A. Perham, Racine; William B. Richards, Racine; S. Miles Thomas, Mineral Point. '02: Horace H. Bass,

Platteville; Paul M. Binzel, Milwaukee; Otto B. Dahle, Mt. Horeb; Edward McGrath, Monroe; Reginald A. Nestos, Rugby, N. D.; Lehman P. Rosenheimer, Kewaskum.

Forum:—'02 l: George E. Larson, Sioux Falls, S. D. '03 l: Arthur A. Baldwin, Marquette; William D. Buchholz, Whitehall; John M. Cochrane, Waupun; George G. Curtis, Madison; James F. Gibson, Burnside, Ill.; Max W. Griffith, Milwaukee; James C. Morgan, Hartford; Seth W. Richardson, Ortonville, Minn.; Frank S. Smith, Geneva, N. Y.; Carl N. Thompson, Sioux Falls, S. D.; Eugene J. Wehmhoff, Burlington. '04 l: Harry E. Bradley, Madison; James B. Du Shane, South Bend, Ia.; Cecil T. Godwin, Berlin; Raymond J. Haggerty, Madison; Frank Kent, Janesville; James E. Malone, La Salle, Ill.; John A. McCormick; Arthur J. Pallansch, Fredonia; Ralph C. Pickering, Superior; Aaron S. Putney, Waukesha; John E. Tracy, Crossville, Tenn.; Fred W. Zabler, Spring Prairie.

Columbia:—'03 l: Adelbert E. Bleekman, La Crosse; Hubert D. Buchanan, Rio; William J. Carr, Aurora, Ill.; Harry E. Carthew, Lancaster; George J. Danforth, Meeme; Robert A. Edgar, Crandon; Gjermund O. Haugan, Madison; Harry F. Herrmann, New London; Harry P. Keith, New London; Ralph G. Plumb, Manitowoc. '04 l: Harry W. Adams, Madison; William H. Brooke, Silver Lake; John R. Cochran, Madison; Louis C. Currier, Stoughton; Guy A. Curry, Viola; Jay C. Davies, Aubrey; Lewis M. Evert, Pewaukee; Carl F. Faulk, Sioux City, Ia.; Fred V. Heinemann, Appleton; Walter C. Hintze, Stoughton; Charles E. Lovett, Chilton; J.

Addison McFarlane, Lodi; James H. McNeel, Madison; Arthur A. Mueller, Milwaukee; Leo Reitman, Milwaukee; Charles D. Rosa, Madison; Henry C. Rowan, Reedsburg; Eugene E. Runkel, Independence; Edward J. B. Schubring, Sauk City; Ashbel V. Smith, Waukegan, Ill.; Charles F. Smith, Milwaukee; Clayton E. Udell, Genoa Junction.

Castalia:—'05: Bessie E. Adams, Madison; Leona B. Fryette, Madison; Isabelle A. Holden, Madison; Carrie B. L. Huggins, Madison; Rebecca W. King, Union, Ore. '04: Mary E. McClure, Mt. Morris, Ill.; Marie G. Miller, Madison. '03: Mina A. Anderson, Argyle; Mary B. McMillan, Grand Rapids. '02: Margaret Kennedy, Madison.

ATHLETICS.

On the question of maintaining a baseball team in 1902, the Board of Directors has decided to try it again in the face of an adverse report of the special committee appointed to consider the matter. When it became known what was to be the report of the committee, the following petition was circulated among the undergraduates:

"We, the undersigned students of the University of Wisconsin, do respectfully petition the Board of Directors of the Athletic Association not to discontinue baseball as a branch of college athletics in the University of Wisconsin. We further promise our financial and moral support to such sport if continued."

The students were enthusiastic in signing and working up an interest in the petition, and the results were satisfactory. The petition won the day, and it was decided to give baseball another chance for its life.

The policy that Wisconsin should pursue with regard to the game is tolerably clear. The things to be avoided are extravagance in management and too heavy a schedule, both from the financial and playing standpoint. I do not mean that the business managers in the past have spent money foolishly, as for example in the matter of luxurious methods of travel or anything of that sort, but rather that, able and well worth their hire as our baseball coaches have been in the past, they have been higher priced men than the game warranted. Baseball in the universities of the West, and particularly at Wisconsin, is not sufficiently popular to justify the hiring of a coach whose salary is anywhere near a thousand dollars. Consequently, the appointment of Oscar Bandelin to the position for the coming season at a salary of \$300 is decidedly a step in the right direction. Bandelin, moreover, is competent to coach the team well, and he is a student of the University in the Law School. Last season he assisted Mr. King regularly, and consequently the coaching proposition is not entirely new to him.

In the matter of arranging a schedule it would seem as if Wisconsin's proper policy would be clearly to acknowledge at the outset that the game is in a critical state in the University and to schedule a smaller number of games than usual with the idea of taking only a few hard ones and those at times when the Varsity would have every *legitimate* advantage. As many home games as possible should be secured, and in these the management ought not to schedule many games with teams which would have to receive

large guarantees. There would be nothing discreditable in taking such a position, and it would be vastly more sensible than the usual one of playing everyone, regardless of the prospects of the team, in order to have a "championship schedule." "Championship schedules" in the past have resulted in Wisconsin's closing the season with about four games out of fourteen on the right side of the percentage column. A few more games won, and the complete ignoring of the infinitely remote and uncertain "western championship" would be far more satisfactory to practically all students and alumni. The schedule is not yet officially announced, but from the number of games thus far known to be under consideration or already scheduled, it looks very much as if the old policy was being pursued without any deviation. According to report, Wisconsin is to play Michigan, Chicago, Illinois, Northwestern, Minnesota and Beloit, not to mention minor games, there are to be five games with Beloit, and apparently a trip beginning May 23rd, to include six games away from Madison within eight days! Wisconsin has not in the last ten years averaged to win one game in six played on trips away from home, and it is not likely to do so this year, despite the good material. If the students fail to support the team, under the circumstances, they can hardly be held entirely blameworthy.

Apparently the only justification for such a schedule is the promise of the material. But Wisconsin has had promising material before. On the face of things it looks as if the candidates for the Varsity this year were the best lot since 1898.

Practically the entire team of 1901 is back in college, and presumably all will again try for the nine. The new material is plentiful, and the men come with fine reputations in many cases. The new candidates are as follows:

Catchers—Campfield, Fries, Judd, Lusk.

Pitchers—Girdler, Mueller, Wild.

Infielders—A. Bandelin, Stroud, Patterson, Brush, A. Bray, Johnson, Rothman, Anderson, Heinemann.

Outfielders—Roberts, Barry, F. Bray, Gates, Wild, Merrill, Osthelder, Haggerty, Parsons, Collmann.

If the same critical spirit prevails as governed in football last year, it is doubtful if all the candidates, new and old, can pass the careful scrutiny to which their records will be submitted, and this may as well be frankly admitted at the start. It is only by the most liberal possible interpretation of the amateur rule that any college in the West maintains a nine to-day, and this it is absolutely futile to deny. There has not been a college nine in the West in recent years that has not had among its members men who have received remuneration—cold, hard coin of the realm, for playing baseball, and there is no use in indulging in euphuistic language when it comes to the national game. These men are professionals, however much their ingenuity may have devised in the way of expense accounts, sinecure "situations," etc. In a word, baseball exists in the West to-day because the *men who know* have adopted a policy of *laissez faire*. If this policy is continued in 1902 all will still be lovely, but the mutual criminations and recriminations of the last football season are a bit disquieting.

Crew work began immediately after the holidays, and, so far as the number of candidates and the interest in rowing are concerned, the showing is the best in the history of the institution. Ten men of 'Varsity experience including all of last year's fast eight are available and are trying for the crew. The candidates for the freshman and law school crews are also at work, and there are enough for eight freshman and two law school crews. The glycerine machines purchased of the Narragansett Machine Co. have been set up in the south end of the ball cage, and the men have been at work on them since January 22nd. They are the most modern and satisfactory device for preliminary rowing training yet devised, better even than the rowing tank, which they have superseded in all the eastern universities. The seats, stretchers and rigging were fitted up by Mr. O'Dea from the "boat" in the tank and other fixtures, so that only the standards had to be purchased.

The 'Varsity candidates are as follows: Lounsbury, Trevarthen, Levisse, Jordan, Gibson, Stevenson, Gaffin (Capt.), McComb, Quigley, Banta, Palmer, Law, Mather, Boland, Potter, Bleekman, Sylvester, Kralovec, Kuenzli, Lyle, Loveland, Abbott, Caskey, Kimball, Murphy, Der- ing.

The freshman and law school candidates row on the machines four times and the 'Varsity twice a week, in addition to which the freshmen are given free movement exercises under the direction of the coxswains, and the 'Varsity do some running on the gymnasium track. This schedule will continue for some time without change—in fact, the men will keep at it until the ice

goes out, the 'Varsity men, however, taking more work during the last few weeks "before navigation opens."

.

Track team training began after the holidays with an encouraging number of men out for almost all of the events. The most interesting item of track athletic news is the return of ex-captain Fred Schule, which thus insures Wisconsin points in the hurdles and broad jump this year. The competition of Schule, Koch, Hueffner and Borresen should bring out the best abilities of all the men. This result will be attained to an even greater degree in the distance events, with the fine bunch of milers and two-mile men. The great weakness of the team appears to be in the sprints. Here the only new candidates of any reputation are Koch, Schoephoester and Hueffner, and none of these men is very fast.

Since last month Mr. Kilpatrick has scheduled two indoor meets with Chicago University, the first to be held in the Chicago gymnasium, February 15th, and the second at Madison, March 15th. The events are: 35-yard dash, 40-yard high hurdles, quarter, half, mile and two-mile runs, high jump, shot put and pole vault; first places to count five points and second places three points. There will probably be no quarter mile event at Madison, owing to the poorly banked turns of the 'Varsity track.

With these events the track team schedule is practically complete and is as follows:

January 25—Local indoor meet.

February 15—Dual indoor meet with Chicago, at Chicago.

February 22—Local indoor meet.

March 1—A. A. U. indoor championships at Milwaukee.

March 15—Dual indoor meet with Chicago, at Madison.

March 29—Local indoor meet (not certain).

April 26—Relay games at Philadelphia.

May 9—Local spring meet.

May 16—Dual meet with Illinois, at Champaign.

May 31—Dual meet with Chicago, at Madison.

June 7—Western conference meet, at Chicago.

This is the best schedule ever arranged for a Wisconsin track team, and there will be added to it a meet with Beloit, probably April 19th, and the date May 24th may be filled by a good dual meet. Such a schedule means a great task for the men and coach, to win out, but it is the opportunity to compete frequently that gets out candidates, makes track training attractive and develops good athletes.

.

The most important football happening of the month has been the scheduling of a game with Michigan to be played in Chicago, November 1st. The Minnesota game will probably be played in Minneapolis, November 15th, but this is contingent upon Minnesota's furnishing a turf field and seating accommodations for 15,000 persons. If this is not possible or is not done, the game is to be played in Madison. The Thanksgiving game will be with Chicago at Marshall Field. October 25th the 'Varsity will meet Nebraska at Milwaukee. These four games, with the others yet to be arranged, will make one of the stiffest

schedules, if not the stiffest, ever laid out for a Wisconsin team.

The question of a coach is as yet undecided, but the choice has narrowed somewhat, the men now receiving most favorable consideration being Edwards, Church and Reiter, all of Princeton. There is no disposition to hurry the matter, and it may be some time before the final selection is made. All of these are competent to teach the Princeton game that Wisconsin has always played. It would be an excellent thing if the head coach were given an assistant from among Wisconsin's former stars. There are several available men who fit the requirements of the place nicely.

It is now stated that the only members of the 1901 team who will be missing in 1902 are Curtis, Larson and Cochems. Within a week Scow and Haumerson are reported to have decided to return next year, and it is also current gossip that Roy Chamberlain, guard in 1898 and 1899, will be back. None of these reports has been verified, but should all of these men return it would make the prospects very encouraging for another strong team.

.

On March 22nd representatives from Chicago, Michigan, Minnesota, Northwestern, Illinois, Beloit and Iowa will participate with Wisconsin in a gymnastic tournament in the University gymnasium, largely through the efforts of Dr. Elsom, and it is highly probable that at that time an intercollegiate gymnastic association will be formed.

.

The basket ball team took a trip during the holidays and was successful against the Armour and

Lewis Institute teams, and the Milwaukee normal school five, but lost to Yale, 35 to 20. The team has been granted recognition to the extent of being allowed to wear caps adorned with "W. B. B.," which it would seem is not unreasonable, but the demand of the team to be allowed to wear the official 'Varsity W is unreasonable, and it is not believed that the Board of Directors will grant the request. At any rate such an action would be little pleasing to the majority of students and alumni.

.

The hand ball tournament which begun before the holidays ended in a victory for Stack and Evans, after a most interesting contest. The tournament this year surpassed all preceding events of the character both in number of entries and in the quality of the play.

.

The first try-out of the track candidates, which took place Saturday evening, January 25th, resulted in a very satisfactory showing by all the men. The results were as follows:

35-yard dash—Schoephoester, first; Hayden, second; Marquissee, third; time, 4 2-5 seconds.

40-yard hurdles—Saridakis, first; McCrossen, second; time, 6 seconds.

440-yard run — Hayden, first; Schoephoester, second; Stroud, third; time, 60 2-5 seconds.

800-yard run — Saridakis, first; Reitman, second; Lindsay, third; time, 2:20.

One-mile run — Bredsteen, first; Breitreutz, second; Hahn, third; time, 4:52.

Two-mile run — Carpenter, first; Smith, second; time, 11:1 1-5.

High-jump—Borresen, first; Carroll, second; height 5 feet, 6 inches.

Shot put—Lindsay, first, 36 feet, 2 inches; Long, second, 35 feet, 7 inches.

Inter-fraternity relay race—First heat: Delta Tau Delta, first; Sigma Chi, second; time 3:19.

Second heat—Phi Rho Beta, first; Phi Kappa Psi, second; Phi Gamma Delta, third; time, 3:17.

Third heat—Delta Upsilon, first; Phi Phi Phi, second; time, 3:24.

Fourth heat—Beta Theta Pi, first; Theta Delta Chi, second; Kappa Sigma, third; time, 3:18 4-5.

Decided by fastest time in two finals. Beta Theta Pi defeated Phi Rho Beta in 3:10 1-5, and Delta Upsilon defeated Delta Tau Delta in 3:09. Race won by Delta Upsilon.

Agriculture—dairy relay race: Dairy students first, with Procter, Ford, Shepard and Howland.

Tug of war—Dairy students won, with Laberee, Larson, Schwantz, Schroeder and Deubner.

Many of the old men did not compete, purposely keeping out to give the new candidates a chance. This was not true of the mile, however, in which Hahn, Keachie, Bredsteen and Breitzkreutz fought it out in a remarkable race, "Iron Joe" Bredsteen finally winning from the freshman Breitzkreutz, who beat out Captain Hahn for the place. The time is regarded as very good for this track and season.

GEO. F. DOWNER.

NEWS FROM THE ALUMNI.

U. W. ALUMNI IN CHICAGO.

The following list of graduates of the University living in Chicago and the immediate vicinity, was obtained through the courtesy of Mr. J. Glenn Wray, '93, secretary of the Chicago Alumni Association:

Edwin H. Ahara, '92, care Deering Harvester Co., 16 Fullerton ave.; Andrews Allen, '91, 1023 Monadnock blk.; Charles Q. Albertson, '79, 110 Rialto bldg.; Charles W. Austin, '94 l, 510 Chamber of Commerce; Mrs. Anna Pickard Atkins, '66 n, 316 LaSalle ave.; Walter Alexander, '97, Armour inst., 420 34th st.; Wilbur A. Austin, '9, 243 S. Winchester ave.; Joseph A. Anderson, '97 p, Normal; Eldreth G. Allen, '99, 413 Brown st., Lafayette, Ind.

Theron W. Bean, '85, 32 Postoffice; Farlin H. Ball, '95, 100 Washington

st., room 1109; Dr. Charles E. Blomgren, '96, 1450 Belmont ave.; Harold N. Bruun, '93 p, 282 Grand ave.; Horace P. Boardman, '94, 1100 Old Colony bldg.; Judge Farlin Q. Ball, '61, Court house; Julius S. Bellack, '91 p, 284 Lincoln ave.; Jesse M. Boorse, '95, Chicago Telephone Co., 203 Washington st.; Ralph E. Blount, '87, 302 South blvd., Oak Park; James H. Brace, '92, 540 Jackson blvd.; Frederick E. Briggs, '78 l, 207 Roanoke bldg.; George T. Burrows, '92 l, 115 Dearborn st.; Richard E. Baus, '00, 286 Ashland blvd.; Samuel M. Brown, '89, Natl. Smelting and Refining Co., Station S; Ben E. Buttles, '00, Ill. Steel Co., South Chicago; John M. Beffel, '95, N. W. Univ., 2400 Indiana ave.; Harry B. Boardman, '93, 116 Racine ave.; Murray C. Beebe, '97, Westinghouse Electric Co.; Alice

I. Bunting, '95; Victor W. Bergenthal, '97, Monadnock blk. care Stanley Electric Co.

Eldon J. Cassoday, '90, 184 La Salle st., room 423; Mrs. Sophie Clawson Cassoday, '92, 4740 Lake ave.; Dr. Fremont E. Max W. Zabel, '98, Brown & Cragg, 1440 Monadnock blk.

"LISTEN TO OUR TALE OF WOE!"

It is the universal testimony of the readers of the ALUMNI MAGAZINE that the pages they read first are those containing the personal notes. The MAGAZINE is now in its third year, and the burden of preparing those pages has been borne by three people, with so little help from the rest of you that, were we not very appreciative persons indeed, it would not be worth mentioning. A half dozen items have been sent us this month, not so many for the January number, and if our memory has not failed us, the first three numbers of the year were prepared without any help outside the editorial staff. In the language of the old *Aegis* editorials, "This ought not to be so."

As you are all aware, your personal editors' salaries consist of "fees and incidentals," no fees having yet appeared, and the incidentals consisting of one ticket per year to the alumni banquet. Moreover, we who have charge of this department are just as busy as are you who are reading this. We are people who have our own living to make, and our place in our little world just as you have, but we are interested to see this prosper, and we intend to *make* it. Indeed, so absorbed are we in it, that the verse one of the personal editors inscribed to the other is nearer truth than it is poetry:

"Ye read one day of a marriage, of
a death, of a birth, all three,—
And ye said to yourself, 'three
items'; it was all it meant to
ve.—

Never a thought of the happiness,
for the sorrow never a sigh;
There is space to fill, with good or
ill, and it's 'news' if someone
die."

Now, this whole article is not written because anyone's kicking but ourselves. You are all most kind in your expressions, but we want these pages to be better and more of them, and we can't make them so without your help. Probably most of you hesitate to send items because you object to blowing your own horn, but if you are interested in the welfare of your friends, aren't they pretty sure to be interested in yours? So, if you get married, send us an invitation. We won't come or send you a present, but it will save us a lot of work in looking the matter up. If you do anything that gets into the paper, send us one plainly marked, so it won't take a half hour of our time hunting for it. And if you die, lay it upon the consciences of your executors that the best obituary notice which appears shall be forwarded to us.

There is no question in our minds but that every one of our subscribers could send us one item about himself or someone else, and if it could be done at once, the issues from now to July would be provided for in a better way than they ever have been before. We want to thank about two dozen of you for the items you have sent us at various times since the beginning of this publication, and we ask now that the rest of you show your gratitude to us *by your works*.

PERSONAL NOTES.

Items of personal news may be sent to Florence E. Baker, 135 W. Gilman st., Madison, Wis.

Prof. Jerome H. Raymond delivered the commencement address at the American College for Girls, in Constantinople, June 19, 1901, discussing "William Morris and the application of art to every day life."

Ex-President T. C. Chamberlin was recently elected for the sixth time as president of the Chicago Academy of Sciences.

'57.

William G. Jenckes died at Terre Haute, Ind., January 28, 1900.

'59.

The address of Leonard S. Clark is now 927 Market st., San Francisco, California.

Right Rev. Samuel Fallows is the editor of two new volumes, "The popular and critical Bible encyclopedia and scriptural dictionary," published by the Howard-Severance company, of Chicago, and a "Life of William McKinley," published by the Regan printing house of Chicago.

'63.

Dwight Tredway is connected with the Cereal Sugar company of St. Louis. His address is 828-834 Gratiot st.

'64.

Captain Pliny Norcross, ('64), was married at Troy, Pa., January 2nd, to Mrs. Frances Spaulding.

Senator John C. Spooner has been chosen as a member of the board of trustees of the new Carnegie Institution.

'66.

Mrs. Abba Gilbert Woodford, '66 n, died at Oak Park, Ill., May 2nd, 1901.

'67.

Mrs. Addie Wadsworth Thorn, '67 n, has been since 1897 deputy postmaster of Welcome, Outagamie county, Wis.

'68.

Rev. Isaac S. Leavitt is assistant superintendent of the Child Saving Institute of Omaha, Neb.

Morgan J. Smith is teaching at East Dubuque, Ill.

Rev. John G. Taylor is now at Arlington Heights, Mass.

Dr. James Turner is practicing medicine at Waupun.

'69.

William C. Damon is now teaching at San Isidro, Luzon, P. I.

'70.

Dr. Willis F. Cobb is mayor of Lyle, Minn.

Dr. George W. Field is now practicing medicine at Humboldt, Iowa. Albert E. Gipson, '70 l, is editor of the *Gem State Rural* at Boise, Idaho.

Patrick O'Meara, '70 l, last month assumed the duties of county judge of Washington county, Wis. Mr. O'Meara practices law at West Bend, has been prominent in local and state politics, and has been district attorney for fourteen years.

'71.

T. L. Cole is president of the Statute Law Book company of Washington, D. C.

'81.

C. N. Brown, '81 l, has been named by Judge R. G. Siebecker as one of the members of a commission to investigate the tax assessment in Columbia county, on application of the city of Portage.

'84.

Lucius Fairchild Bacon, only son of Sallie Fairchild and Selden Bacon, '84 l, died at Flushing, Long

Island, on January 8th, aged eight months. The interment was at Forest Hill cemetery, Madison.

'85.

Elmer Dickinson Matts died of septic meningitis at the Wymore hotel, Chicago, Friday, January 17, 1902. He was born at Paoli, Dane county, October 7, 1863. He was educated at the Madison high school, graduating in 1881, entered the University and graduated from the general science course in 1885. He then took law and finished with the class of 1886. In 1884 he was a member of the Athenaeum joint debate team. He practiced law at St. Paul from 1886 till 1889, and then moved to Montana. Mr. Matts was state senator from 1890 until 1894. He was a member of the Montana house of representatives from 1897 till 1899. In 1896 he was a delegate to the democratic national convention and was one of the platform committee. He traveled with William J. Bryan in the campaign of 1896, and his voice was heard for the silver cause in every part of the union. He was Marcus Daly's right hand man in the famous senatorial struggle that drew to itself the eyes of the whole United States. To Mr. Matts belongs the credit of defeating the aspirations of Senator Clark in that moneyed man's first campaign. It was only after death removed Daly from the stage of action that Matts gave up the fight. In 1901 he left Montana and removed to Chicago to take up the practice of law in that city.

'87.

The engagement of Ida E. Johnson to Prof. George W. Fiske, of Tome institute, Baltimore, Maryland, is announced.

'88.

At a meeting of the City Superintendents' and Supervising Principals' association in Milwaukee in December, Frank E. Doty, '88, was elected president, and Franklin A. Lowell, '95, second vice-president.

'90.

Charles F. Bancroft, '90 *p*, is now located at Madison. His address is 601 South Few st.

John M. Becker, '90 *l*, has been re-elected for a second term as county judge of Green county, Wisconsin.

Dr. William C. Bennett is chemist and bacteriologist to the Milwaukee health department and professor of chemistry in the Wisconsin College of Physicians and Surgeons.

William T. Lathrop is with the firm of Case & Lathrop, bankers, at Plankinton, S. D.

Harriet B. Merrill is now lecturer in the Milwaukee public museum.

August J. Myrland (A. J. Olsen) has been since 1898 district attorney of Burnett county, Wis.

The address of Mrs. Eugenie Naffz Bruning is now 1805 Crotona ave., New York.

W. N. Parker, who was for two years assistant state superintendent of public instruction, is now state high school inspector.

William G. Potter is chief assistant engineer with Alvord & Shields, of Chicago.

Dr. John L. Shepard, surgeon U. S. A., is stationed at Fort Logan, Colo. He has recently returned from the Philippines.

George T. Simpson is county attorney of Winona county, Minn.

Warren D. Tarrant, of Milwaukee, has been appointed circuit judge by Governor LaFollette to fill the vacancy caused by the death of Judge Eugene S. Elliott. Mr. Tarrant graduated on the Hill in '90, and from the College of Law in '92, since which time he has practiced law in Milwaukee. He has been a member of the firm of Tarrant, Kronshage & McGovern. While in the University he was a member of Philomathia and of the Delta Upsilon fraternity. Mr. Tarrant is about thirty-five years of age and is said to be the youngest circuit judge in the state. He took his seat on January 20th.

Dr. Gottlieb Wehrle is physician for the American Smelting and Refining company at El Paso, Texas.

A. G. Zimmerman, '907, Dane county's new judge, took his seat January 6th, Judge Jairus H. Carpenter being the retiring officer. Mr. Zimmerman was born at Elgin, Illinois, in 1862, but has resided in Wisconsin since 1838. He received his education in the public schools and taught for a few years. In 1885 he received the degree of B. S. from the Northern College of Indiana, and that of L.L. B. from Wisconsin in 1890. For four years thereafter he was a member of the law firm of LaFollette, Harper, Roe & Zimmerman, but since that time he has practiced alone.

'91.

George W. Achard, '917, is president of the Mankato Cigar company, Mankato, Minn.

J. M. Bold is a student at Rush Medical College. His address is 5829 Jackson ave., Chicago.

James L. Bonham, '91 *l*, is district attorney of Sauk county, Wis.

Henry W. Brown, '91 *l*, is district attorney of Grant county, Wis.

Dr. W. A. Dennis was married at Coronado, California, October 14, 1901, to Miss Grace Frances Williams, of St. Paul.

W. F. Dockery is advertising agent for the C. B. & Q. R. R. His address is 3411 Morgan et., St. Louis, Mo.

Daniel J. Donahoe is operating a mill and elevator at Ponca City, Oklahoma.

Rev. A. F. Fehlandt is at Lone Rock, Wis.

Henry E. Fitch is practicing law at Nekoosa, Wis.

Joseph C. Freehoff is connected with the Charity Organization Society, and is a student at Columbia University. His address is 521 West 123rd st., New York City.

Edward Hellstern, '91 *p*, is with the San Juan Drug company, at Ouray, Colo.

Frederick A. Kirschman, '91 *l*, is the present city attorney of Mason City, Iowa.

Dr. E. H. Madajefsky, '91 *p*, is health officer of Bessemer, Mich.

E. S. Main is a salesman with the Western Roofing & Supply company, 195 Lake st., Chicago.

F. H. Miller is a teacher in the De Witt Clinton high school, New York City. His address is 85 West 118th st.

Mrs. Frederick C. Cress (Laura Miller) is living at Dillon, Montana.

Dr. G. W. Moorehouse is temporarily acting superintendent of the Lakeside hospital, Cleveland, Ohio.

Arthur F. Oakey is principal of schools at Sherry, Wisconsin.

Andrew B. Oleson, '91 *l*, of Wisner, Neb., is state senator from the seventh district of Nebraska.

Emery H. Powell is assistant professor of mechanical drawing in the University of Kansas, at Lawrence.

George B. Ransom is chief engineer in the navy yard at Portsmouth, N. H.

Dr. W. D. Sheldon is in Vienna, Austria.

William Smieding's term as municipal judge of Racine county, Wisconsin, began January 1st, 1902.

Kirby Thomas was recently appointed postmaster of West Superior.

George G. Thorp is general superintendent of the St. Clair Steel company, Empire building, Pittsburgh, Pa.

'92.

Henry A. Adrian has been appointed by Superintendent Harvey to inspect the schools of Clark, Pepin, Polk, and St. Croix counties and report thereon to the institute school to be held in Madison, March 31st to April 4th.

On January 15th, at Prairie du Chien, Laura Case, ('94), and Edward P. Sherry, '92, were married by the Rev. Arthur Pratt of Prairie du Chien, assisted by Dr. Chapin, of Neenah. Mr. and Mrs. Sherry will be at home after February 15th, at the Hotel Pfister, Milwaukee.

'91.

John F. Donovan, '94 *l*, responded to the toast, "The young democracy," at the Jackson Day banquet in Chicago, January 9th.

Prof. J. B. E. Jonas read a paper before the Modern Language Association of America, which met at Harvard University December 26th-28th, on "A discrepancy in several of Schiller's letters." Another paper by Professor Jonas which was

read by title was on "The life and works of Heinrich der Teichner."

George Malcolm MacGregor, ('94), was married to Miss Charlotte G. Noble, December 27, 1901, at Mondovi, Wisconsin. Mrs. MacGregor was graduated from the University of Michigan in 1895. They will be at home after January 15th, at 1799 Fairmount avenue, Baltimore. Mr. MacGregor is a student at the Johns Hopkins Medical School, in the class of '02.

Helen McMynn Williams, ('94), wife of Chauncey Williams, ('94), of River Forest, Ill., died after a lingering illness at the Palmyra sanitarium, January 24th. Mrs. Williams was the daughter of the late Colonel John G. McMynn. She was a member of Delta Gamma. Besides her husband, she leaves two sons, four and six years old respectively. The funeral services were at Milwaukee.

'96.

Arthur E. Bossingham, '96 *p*, has opened a drug store at Geddes, S. D., the firm name being Bossingham & Jehu.

William J. Conway last month assumed the duties of county judge of Wood county, succeeding Judge John A. Gaynor, '71. Mr. Conway is twenty-six years of age, and is the youngest county judge in the state. He graduated in the civic-historical course in '96, and in law in '98. He was a member of Philomathia, the Forum, and Phi Delta Phi. Since graduation he has practiced law as a member of the firm of Williams & Conway, and later of Conway & Conway.

William Donovan, '96 *l*, is a member of the Chippewa-Gates county commission. The last legislature divided Chippewa county and

created Gates county, and provided for a commission to settle difficulties that might arise. Mr. Donovan is the third member agreed on by both counties.

A newly formed law partnership at Racine is composed of the retiring circuit judge of the first circuit, Frank M. Fish, and Martin J. Gillen, '96, the present city attorney.

PUBLICATIONS.

Notes of publications by or about University men or women, and books and pamphlets for review, may be sent to Florence E. Baker, 135 W. Gilman st., Madison, Wis.

A MEMORIAL VOLUME.

THE STATE HISTORICAL SOCIETY OF WISCONSIN. Exercises at the dedication of its new building, October 19, 1900; together with a description of the building, accounts of the several libraries contained therein, and a brief history of the society. Edited by Reuben Gold Thwaites. Madison, 1901.

The volume is finely illustrated, showing the beautiful edifice in completed form and during its various stages and showing also many rooms and corridors and other interior views. There are portraits of President John Johnston, Senator J. H. Stout, who was head of the building commission, Dr. J. D. Butler, Governor Scofield, President Charles Kendall Adams, the late Secretary Lyman C. Draper, Charles Francis Adams, who spoke at the dedication, James K. Hosmer, of Minneapolis, Prof. A. C. McLaughlin, of Ann Arbor, the architects, G. B. Ferry and A. C. Clas, and D. S. Durrie, for

a long time librarian. An accurate index completes a volume of much historic worth in connection with the society.

EXPERIMENT STATION REPORT.

The eighteenth annual report of the University experiment station, for the year ending June 30, 1901, has just appeared. It makes a volume of 352 pages. The frontispiece is a cut of the medal voted to Prof. S. M. Babcock by the legislature of 1899. The volume is profusely illustrated throughout. In addition to the director's report and an account of the Babcock medal presentation by Prof. W. A. Henry, it includes the following articles:

Whole corn compared with corn meal for fattening swine, W. A. Henry

The comparative value and the effect upon lamb crop of feeding various rations to ewes in winter, W. L. Carlyle.

Effect of feeding various grain rations to growing and fattening hogs, W. F. Carlyle and T. F. McConnell.

The results of a feeding trial to determine the comparative effect of feeding pigs rations of corn meal and of ground peas, W. L. Carlyle.

The feeding value of rape for swine, W. L. Carlyle.

The food requirements of the pig for maintenance and gain, F. D. Taylor.

Official tests of dairy cows, 1900-1901, F. W. Woll and Roscoe H. Shaw.

On the average composition of milk of pure bred cows of different breeds, F. W. Woll.

Annual milk and butter production of cows owned by patrons of the University creamery, E. H. Farrington.

The Trowbridge method of calibrating Babcock test bottles, E. H. Farrington.

Print cheese, E. H. Farrington.

Influence of cold-curing on the quality of cheese, S. M. Babcock, H. L. Russell, A. Vivian and U. S. Baer.

Influence of sugar on the nature of the fermentations occurring in milk and cheese, S. M. Babcock, H. L. Russell, A. Vivian and E. G. Hastings.

Causes operative in the formation of silage, S. M. Babcock and H. L. Russell.

On the increased resistance of bacteria in milk pasteurized in contact with the air, H. L. Russell and E. G. Hastings.

Influence of the right amount and the right distribution of water in crop production, F. H. King.

Influence of close packing of corn in the silo on the unavoidable losses in making silage, F. H. King.

Development and distribution of nitrates in cultivated field soils, F. H. King and A. R. Whitson.

Studies on black marsh soil, F. H. King and A. R. Whitson.

Field experiments with grain and forage plants, A. R. Moore.

Treatment of seed oats to prevent smut, A. R. Moore.

Experiments in sugar beet culture during 1900 and 1901, F. W. Woll and Roscoe H. Shaw.

Analysis of licensed fertilizers in Wisconsin, 1901, F. W. Woll and Alfred Vivian.

An apparatus facilitating the analysis of sugar beets, Roscoe H. Shaw.

Miscellaneous chemical work, Roscoe H. Shaw.

A study of certain conditions affecting the setting of fruits, E. S. Goff.

Third report on experiments in pinching raspberry shoots, F. Crane-field.

Experiments in sub-irrigation of flower beds, F. Cranefield.

The influence of formalin on the germination of oats, F. Cranefield.

The Wisconsin fertilizer law.

The Wisconsin concentrated feeding stuff law.

NOTES.

The United Service for January, 1903, contains "A tangled web," a story of the Civil War by Gen. Charles King.

P. H. Dernehl, '04, contributes to *By the Wayside* for January, "Notes on some of our winter birds."

Col. W. J. Anderson, '96 l, has an article in the *Outlook* for January 11th on "Corporate taxation."

The Forum for January contains a contribution by Prof. Paul S. Reinsch, '92, on "A new era in Mexico."

C. K. Leith, '97, will issue shortly a monograph on the iron mines of Minnesota.

Wardon A. Curtis, '89, contributes to *The Era* for January a story entitled, "When oldest East meets youngest West."

Prof. Edward S. Holden has recently edited "Flowers from Persian gardens; selections from the poems of Saadi, Hafiz, Omar Khayyam and others." It is in the "Wayside series," published by R. H. Russell, New York.

A new book on "Colonial government," by Prof. Paul S. Reinsch, is announced by the MacMillan company as shortly to appear.

Mr. H. G. Timberlake has an article in the *Annals of Botany* for December, 1901, on "Starch forma-

tion in *Hydrodictyon utriculatum*."

Professor Jastrow has an article in the January issue of the *Educational Review* upon "Belief and credulity." The substance of this article was delivered as an address before the Johns Hopkins alumni of the Northwest in February last. Professor Jastrow is president of this organization.

The *Pharmaceutical Review* for January contains a contribution by F. G. Ehlert on "Guaiaform," and one by Dr. Edward Kremers descriptive of various old paintings representing Christ as an apothecary.

The following articles by J. F. Wojta, '98, have appeared recently: "Agricultural training," in the *Wisconsin Agriculturist*, December 26th; "Tendencies of university education," in the *Nordwesten*, Manitowoc, December 26th; and "Training in agriculture," in the *Kewaunsee Listy*.

Olaf Morgan Norlie, M. A. '01, has issued a "Guide to literary study for the teacher, student and general reader." It is intended to be an aid to the intelligent study of literature.
