HISTORICAL PLAY.

TO BE PRESENTED BY HARES
FOOT CLUB, FEB. 8.

Beautiful Story of American Revolution—Comes Friday Evening of
Examination Week.

The Haresfoot Dramatic Club will present "A Colonial Girl" on Friday, Feb. 8 at Fuller Opera House. This is the Friday of examinations and will give the students a pleasant change from the events of that week.

The play is a heavier production than has been undertaken for some years at the University. The story is of the time of the American Revolution and the scene is the historic Remsen Mansion upon the picturesque Hudson. Godfrey Remsen returns from a long absence in Europe and finds his cousin Judith to whom he was engaged about to marry Lord Danvers. In the bitterness of his resentment he vows that he will marry the first pure girl who will accept him. The opportunity soon comes. Molly Heddin, "a colonial girl" who has been Godfrey's playmate as a child comes to town to see the stirring sights of the war and the soldiers occasioned by the British occupancy. She mistakes the Remsen mansion for the village inn and Godfrey rescues her from a crowd of drunken soldiers in front of his door. The first act ends with the marriage of Godfrey to the Colonial Girl.

The remainder of the play is involved in the stirring and adventurous times of the Revolution. Godfrey Remsen undertakes the office of confidential spy to General Washington. Judith Danvers, his cousin, out of revenge for his marriage betrays him to the British, casting suspicion for the action of Molly his wife. Remsen is compelled to flee and the British captain Lovelace takes up quarters in the Remsen House. By the contrivance of the old retainer, Giles, and by a secret passageway Remsen is enabled to revisit the house and learn of a plot of Lovelace against his wife.

He comes in just in time to prevent the carrying out of the plot and compels Lovelace to fight. In the duel which ensues Lovelace wounds Remsen, but continuing the fight, Remsen kills Lovelace.

The story ends with the successes of General Washington in the Hudson valley and the indication of the subsequent safety of Remsen the spy.

The cast will be announced in a few days. Mr. Walton Pyre has the direction of the play and Mr. E. A. Snow the management.

Communication.

To the Editor of Cardinal:

Dear Sir:—

The enclosed clipping is taken from the Charleston, Ill., Daily News, and may be of interest to the students of Madison. Mr. Minton certainly deserves credit for securing such an action as the University is taking in this matter and should receive public thanks.

"Word has just been received that a committee from Madison, Wis., will inspect our school. Robert Minton is Charleston's representative at Wisconsin University."

An Alumnus.

—Miss Elsie Allen has returned to her home at Lake Geneva after a visit at the Tri-Delt house.

SUCCESSFUL U. W. GRADUATE.

Milwaukee Sentinel Prints Article on
Bishop Fallows.

In Sunday's issue of The Milwaukee Sentinel especial mention was made of Bishop Fallows as one of the Badgers who has made his mark in Chicago. It will be remembered that Bishop Fallows is a Wisconsin graduate and also was a member of the Athenaeum literary society. Today the state honors him as a soldier, educator and preacher. But he has won national reputation. After graduating from the University he became president of Galesville University. He then entered the ministry at Oshkosh and soon became known as an eloquent pulpit orator. In the Civil War he served in the capacity of chaplain and later he organized the 40th Wisconsin infantry composed of graduates and students of various institutions.

He resumed his clerical duties at the close of the war, and was soon after chosen as Superintendent of Public Instruction of the public schools of the state. He brought the high and graded schools in a line with the state university. In 1873 Lawrence University conferred upon him the degree of Doctor of Divinity. The University of Wisconsin offered him the chair of logic and rhetoric. This he respectfully declined preferring the pulpit work.

Bishop Fallows is known as an author through his "Synonyms and Antonyms" his "Progressive Supplemental Dictionary" and other books and frequent contributions to various magazines. He is chairman of the University Association, an organization for the diffusion of knowledge among the people. He is now engaged in editing a Biblical encyclopedia embodying the latest results in archeological and geographical discovery.

Prom. Sub-Committees.

The following sub-committees on the Junior Prom. committee have been appointed by Chairman Vogel.

Decoration—Smith, chairman; Cole, Carpenter, Ferris and Vogel.

Music—Ferris, chairman; Curtis, Du Four, Higgins and Smith.

Finance—Cole, chairman; Brennan, Curtis, Bergstrom and Long.

Program—Grindell, chairman; Bergstrom, Vogel, Lennon and Murray.

Refreshment—Brennan, chairman; Du Four, Higgins, Long and Lennon.

Handball Tournament.

Smith and Taylor succeeded in winning three out of five games from Buchholz and Morgan yesterday.

Today the winners of the freshmen and sophomore classes played against one another. The players were Best and Kelsey, freshmen, against Leighton and Erickson, sophomores.

On Wednesday, Gust and Angell play against Moffatt and Hughes, juniors.

On Thursday the law trials will be played at 12 o'clock. The players are Chamberlain and Curtis against Hobbins and Koplin.

On Friday, Curtis and Moffatt will play against Pengra and Kelly.

Epidemic of the Grip.

An epidemic of the "grip" seems to have again started among the students many cases being reported from all quarters. Seven cases are reported from the Psi U house, four from the Beta house, and several others from other fraternities. From present indications it bids fair to equal the great epidemic of two years ago when nearly half the students fell prey to the popular disease.

FEDERAL INCOME TAX.

TO BE ARGUED AT JOINT DEBATE
NEXT FRIDAY NIGHT.

A Hard Fought Contest Assured—
Jury: Dean Johnson, Judge Siebecker and Dr. Reinsch.

The Joint Debate between Philomathia and Hesperia which will be fought out in Library hall Friday night is the absorbing topic in debating circles this week. The contest is looked upon as very close and neither side is so confident as to predict that it will win.

The question that the teams have been investigating is whether the adoption by the U. S. Government of a general income tax would be for the best interests of the people. Several concessions are mutually agreed upon so that there can be no quibbling in the debate and the arguments of the different sides are sure to clash. The question is stated negatively and the Philomathian team has the affirmative, which is the conservative side, usually considered the stronger. The Hesperians defend the proposed tax and it is said their side of the proposition is very materially strengthened by the concessions.

The debaters have agreed that the decision shall be rendered by Dean Johnson, Judge Siebecker and Assistant Professor Reinsch. These three men are well known for their good judgment and fair-mindedness and their decision is sure to be just.

For several weeks past the debaters have had their manuscripts prepared and have been training with Professor Frankenburger so as to insure the best possible delivery. It has been noticeably true in the past that Wisconsin's debates have been emphasized along the line of statistics and authority to the weakness of delivery. This year, however, while the investigation has been fully as far reaching as in the past, the side of delivery will be brought to a higher standard.

In Hesperia and Philomathia enthusiasm runs high, both societies having held rousing ante-joint debate meetings last Friday night. The Athenaeans have taken no sides but hope the best side will win and put up a good fight against Athenaeus' traditional rooster next year.

Committees have been appointed from both of the contesting societies and arrangements are now being made for several musical numbers to be given before the battle begins and while the jury is deliberating upon the verdict.

Drug Cabinet Notes.

A series of photographs have just been received, showing the different stages of rubber production, from the tapping of the trees to the curing of the rubber. These were obtained through the courtesy of Louis M. Ward, U. W., '96 who is with the Gutta Percha and Rubber Mfg. Co. of Chicago.

The firm of Parke, Davis & Co., of New York recently presented the drug cabinet with a fine photographic reproduction of their drug rooms in Bordeaux, France, showing the sorting and picking of choice gums.

While Prof. Kremers was on his trip to the East recently, he succeeded in securing a fine specimen of a loaded sarsaparilla roll, for the drug

cabinet. Although the roll is but sixteen inches in length and four in diameter, it contains in the center, four stones, each nearly the size of a man's fist, their total weight being considerably more than that of the roots which conceal them. It is not often that so crude a method of fraud is practiced at the present day, and the drug cabinet is exceedingly fortunate in securing this specimen.

DATE CHANGED.

"Loan of a Lover" Will be Given
Dec. 18.

The date of the play "The Loan of a Lover," which will be given by the Self-government association in Library Hall, has been changed to Dec. 18. Miss Butt is training the members of the cast and under her direction the play is bound to be a great success. The scene of the play lies in an old Dutch inn, the plot centering about an elderly couple who are in love but don't know it. From this fact many complications arise which are finally straightened out in the last scene. This last scene will be one of the most attractive parts of the play. It will consist of a bridal scene in which the members of the cast dance a minuet.

A large amount of scenery and furniture will be obtained and the stage will present a very pretty appearance. The costumes will be obtained from Chicago.

Besides the play other attractive features of the occasion will be several selections by the Girls' Glee Club and Nitschke's orchestra. A man from each fraternity will act as usher. Many tickets have already been sold so that the affair is already an assured success. The price of tickets has been placed at 25 cents. There are no reserved seats.

Testing of Road Materials.

The Geological Department has purchased an abrading machine and an impact testing machine to be used in determining the value of different stones for macadamizing purposes. The abrading machine is used to determine the wearing quality of stone and the impact testing machine to determine the binding capacity of the stone.

So far tests have been made from seventeen different quarries of the state and it is expected that before the completion of the work all the stone from the more important localities will be tested in similar manner.

The Department has collected considerable data on all the paved streets in Wisconsin. This data supplies some valuable information regarding the kind of material used, mileage, capacity, annual cost of repair and cleaning per mile, the difficulties experienced and the cost of construction. This systematized data is received from the city clerk and engineer. After complete tests have been made the material will all be compiled in form of a report under the auspices of the State Geological Survey.

It will be noticed that the Department is promoting the obtaining of considerable practical knowledge on subjects of interest and improvement about the state.

—Dr. Buckley of the Geological department will go to Superior Wednesday to investigate the copper resources of Douglas Co. He will be accompanied by Prof. U. S. Grant Northwestern University.

—Mrs. Conde, and W. C. A. Sec'y. viewed buildings yesterday.

Regarding Handball.

In spite of the popularity of handball among the students, the attendance at the tournament now on is deplorably small. The games are lively and can not but be interesting to spectators, whether they know the game or not. Besides, a crowd encourages and stimulates the players and gives assurance that winning the championship of the University is something more than a commonplace event.

These tournaments are instituted with a view to reviving interest in the game, and, should they succeed in their aim, intercollegiate tournaments are sure to follow. The game is a splendid one; why should not Wisconsin be the University to bring it again to the front in college circles?

The games are played afternoons and the courts are always open to visitors.

New Tendencies.

The agitation and adoption of the cap and gown last year and its discussion among the seniors, who will graduate next June is certainly, whatever one may think of the custom in itself, an indication of a distinct tendency. That tendency is toward emphasizing University life as such, and towards bringing out all the distinguishing characteristics that are possible in accomplishing that end. Such a movement has long been underway in the east, borrowed there from the ancient institutions of Great Britain and Germany. The differentiation of University, from college and high school life is this accomplished by these gradual insinuating methods and the new existence becomes evident. Tinged with formalism as the later may be, it seems to find a responsive chord in the student heart and mind and we thus see spring up a feeling, at it were of self-consciousness days and sep-

arateness that the old days knew not. Graduates of former decades are most apt to notice this change and one is led often to speculate as to how far and whither such movements will carry us.

Local and Personal.

The enrollment of Short Course students has reached 291.

R. H. Hollen, '03, University editor of the Cardinal, is unable to attend classes owing to an attack of the "grip."

Miss B. Blanche Brigham, '00, leaves Friday for an indefinite stay in California for her health. Her mother, Mrs. Lyman Johnson, accompanies her.

We cannot give a report of the live stock exposition to-day owing to some details in the reports which Prof. Carlyle was unable to acquire. However a full report will appear in to-morrow night's Cardinal.

At the last meeting of the Engineers Club the following officers were elected: President—H. T. Plumb; Vice-President—H. I. Townsend; Sec'y.—F. C. Stieler; 1st Censor—A. Meyers; 2nd Censor—A. A. Nicholaus.

About two years ago a man in Ferryville in the southwestern part of the state found the skull of a mastodon. Upon learning of it two weeks ago the matter was investigated by the University and upon inquiry it was found that the man had by the aid of a heavy mallet broken up the skull in order to get the beautiful enamelled teeth of the upper jaw, thus rendering the skull almost valueless. It is to be hoped hereafter that if any one should find such specimens that with a little forethought they would save the skull and notify the Geological department of the University.

Dr. Reinsch Contributes Articles.

Among the articles that Professor Paul S. Reinsch has contributed to current magazines are the following: "Political Changes of a Century" in the World's Work for December; "China Against the World" in the Forum for September; "Problems of Government in the Philippine Islands," in Arena for September; "The Industrial Conquest of the World," in the World's Work for January 1901; "Changes in the Spirit of Politics from 1850-1900," in the Conservative Review for December; "The Meeting of Occident and Orient," in the Modern Culture for September; "Cultural Factors in the Chinese Crisis," in the Annals of the American Academy for November; "Freidrich Nietzsche," in the Modern Culture for October.

DON'T GO DOWN TOWN.

For your shoes and repair work
Joseph Dunkel at 604 University ave.
can give you as good satisfaction for
less money on patent leathers and
shoes of all sorts. Repairing a
specialty.

Most people think that any old
place is good enough for a bicycle
through the winter, so they dump it in
the basement where it is damp, or
into the coal shed where it is almost
obliterated with coal dust, etc. Of
course they don't think of the con-
sequences until spring, then Oh! My!
they wish they had taken it to Wm. J.
Park Co., 113 State St., successors to
the Madison Cycle Co., and had it
cleaned and stored properly for the
winter for \$1.50, and saved \$5.00.

Excursion Rates for the Holidays.
Via the North-Western Line. Excursion
tickets will be sold at low rates
to points on the North-Western System
east of the Missouri River within 200 miles of selling station, De-
cember 24, 25, 31 and January 1, good
returning until January 2, inclusive.
Apply to agents Chicago & North-
Western R'y.

FINE TAILORING.

We Mean to do Better by you than any other tailor,
We also would not expect to win your trade. We do not compete in price for pressing and never will. The quality of
the work we send out is our best argument for permanent trade. Give us a call.
332 STATE STREET.

L. J. OSTIN, Tailor.
