PROGRAMME

for the

Jubilee Celebration of the University of Wisconsin

SUNDAY, JUNE 5

- Morning :* Addresses in the various churches of the city by clergymen from among the Alumni of the University.
- Afternoon :* Baccalaureate address by Dr. John Bascom, of Williamstown, Mass., a former president of the University.

MONDAY, JUNE 6

- Morning :* Class day exercises.
Annual meeting of the Alumni of the University.
- Afternoon :* Reception tendered by President Charles Richard Van Hise to the official guests of the University.
- Evening :* Annual banquet of the Alumni.
Illumination and torchlight procession.

TUESDAY, JUNE 7

- Morning :* Inauguration of President Van Hise.
Address by President William Rainey Harper on behalf of sister universities.
Address by his Excellency, Governor Robert Marion La Follette, on behalf of the State of Wisconsin.
Address for the Alumni of the University, Hon. J. J. Esch representing.
Address by a representative of the Regents of the University.

Address by Professor Frederick Jackson Turner on behalf of
the Faculty of the University.

Address for the students of the University, E. R. Minahan
representing.

Address by the State Superintendent on behalf of the
public school system of the State.

Inaugural address by President C. R. Van Hise.
Music.

Afternoon : Luncheon on the terrace of the State Historical Library Building.
Inspection of the buildings and the grounds of the University.

Evening : Reception by President and Mrs. C. R. Van Hise.
Water fete on Lake Mendota.

WEDNESDAY, JUNE 8

Morning : Jubilee ceremonies.
Presentation of addresses by the visiting delegates.
Addresses by presidents of other universities.
Music.

Afternoon : Inspection of the buildings and grounds of the University.

Evening : University dinner.
Class and society reunions.

THURSDAY, JUNE 9

Morning : Commencement exercises.
Short addresses by distinguished visitors.
Conferring of degrees.
Music.

Evening : Alumni reception.

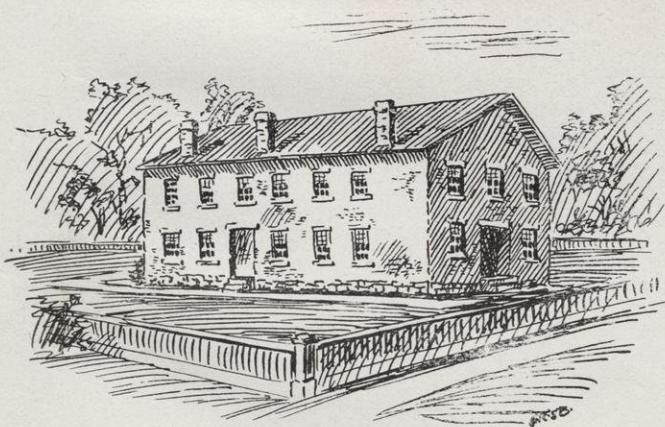

The Progress of Half a Century

ON the fifth of February, 1849, some twenty young men were assembled in a Madison schoolroom to receive the first instruction given by the University of Wisconsin. The class was a preparatory one, the lack of schools being such that up to 1880 the University was obliged to maintain a fitting school. The teacher was a Mr. J. W. Sterling, who now began his thirty-five years of faithful service. It has been said that all institutions are the shadows of men cast across history. From Sterling and from other devoted teachers of the early time it is not a shadow that rests on Wisconsin, rather a light that shines in it. May it constantly be kindled anew and blaze larger through the years.

Soon after the preparatory school was opened the faculty of one was doubled by the arrival of the Chancellor, Dr. J. H. Lathrop, who had been Chancellor of the University of Missouri, and then trebled by the appointment of a tutor—O. M. Conover, afterward Professor of Ancient Languages.

On January 16, 1850, the formal inauguration of Dr. Lathrop took place. The legislature adjourned, the "students" marched in procession, the town gathered to hear the address. At this day it would not easily draw or hold the attention of any but the "painful" reader. "The Orb of Day"—"the rising generation"—"bowing the hoary head in dust"—"that germ of vegetable existence which ages ago was quickened into life on the genial lap of earth":—the conservatory of a sophomore oratorical contest has been pillaged of everything except the upas tree. The good Doctor's style is the highly decorated commonplace. It took many words, and those high-sounding ones, for college presidents to say simple things in Wisconsin in 1850. But in the light of later history some passages of the address have a poignant

interest to those who feel an affection for the University. At the time of its delivery, the sale of the University lands had just begun, and no buildings were yet standing on the "Hill." Says Dr. Lathrop: "It is the sacred duty of Wisconsin, as the guardian of this great interest [the trust for an institution of higher learning] so to preserve and administer these lands [the forty thousand or fifty thousand acres given for the University by the

THE FIRST HOME OF THE UNIVERSITY

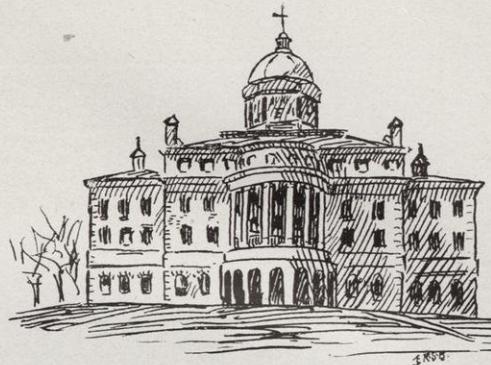

general government], that at the earliest practicable period their *entire value* may be realized. Every act of waste committed on these lands, every sale of an acre for less than its full value, under whatever guise it may take place, is in fraud of the general government, the donor of the land, in fraud of the substantial interests of the young mind of the commonwealth and what is more than all, in fraud of that progressive civilization which alone can realize the hope and accomplish the destiny of man in the world.

"It is the sacred duty of Wisconsin to preserve the *principle* of this fund *inviolate* forever, and so to invest it that it may yield the largest increase compatible with safety, and with ease and economy in collection. * * *

Not only as to this point did Dr. Lathrop perceive the dangers which threatened the University. "To mistake, as many literary incorporations in our land have done, and as the superficial observer is prone to do, the edifice for the University—the shell for the kernel; to erect costly structures; to incur a debt which shall eat up the income of years, leaving little for the machinery of education and still less for the living instructor, would be as far in us, as it has been in others, from realizing any just conception of a sound and discriminating economy. * * *

Are the following words expressive of a foolishly exalted ambition? In any case, they show that a proper estimate of the relative importance of the library was present in the mind of the Chancellor from the very first. "Having provided those buildings and those only which may be needful to the earlier uses of the University, leaving subsequent structures to the occasions and the periods which may demand them, it is our business to proceed with resources unexhausted to the foundation of a library in which the accumulations of this and subsequent generations shall aim to embody *all* that is worth preserving of the literature of every country and of every age."

Within Dr. Lathrop's own period of administration everything that he feared had been done, and practically nothing had been accomplished of what he had hoped for. The story has often been told, but it cannot be too familiar to Wisconsin students. The original land grant of 46,080 acres, obtained from the United States government in 1838 by the solicitation of the territorial legislature, was so undervalued that it sold for about \$150,000, avowedly to encourage settlement, but in effect for the benefit of speculators. A second grant of the same amount was obtained by similar solicitation from the general government, and was sold in the same way, bringing in only \$130,000. A fair comparison as to the value of the lands may be made with the original Michigan grant, of the size of one only of the grants to Wisconsin, which sold for less than might have been made of it, and brought in \$500,000. To make the chapter complete, it may be observed that the grant made in 1862 of 240,000 acres for a college of agriculture and industrial arts, and other purposes, was treated in the same way, producing a fund of only about \$300,000, where two or three millions would have been

OLD MAIN HALL

OLD NORTH HALL

nearer a fair valuation. By the process which Dr. Lathrop so plainly denominates a triple fraud, an amount of at least two million and a half of dollars, which at the time would have netted an annual income of upwards of \$125,000, was taken from the permanent endowment of the University of Wisconsin, though the State obtained two endowments by asking for them, and the third upon a contract for carrying out a sacred trust.

Even these diminished funds were wasted as the Chancellor foresaw. A striking and accurate epitome of the history of the University of Wisconsin from 1848 to 1866 is given in the following quotation from a report for the faculty, drawn up by Professor Sterling in 1865:

"Whatever may have been the diversity of policy adopted by the different States enjoying this bounty of the general government, the State Universities have in their commencement and early progress encountered similar difficulties, and have also fallen into similar errors of policy. So uniform, indeed, have these been, that the careful observer may now with much certainty predict what will be the mistakes in Nevada or Montana, when universities come to be founded in those States. There is first the attempt to lessen the

OLD SOUTH HALL

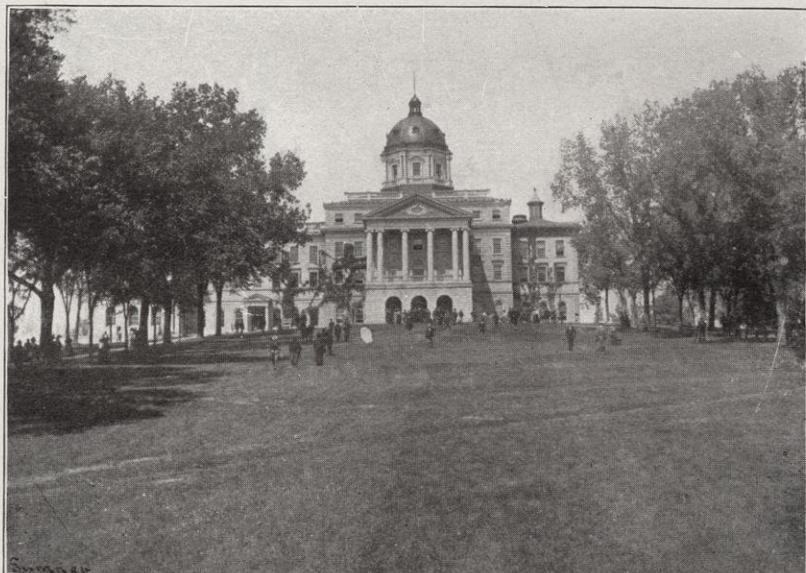

endowment fund by the disposition of the lands at rates below their value, or by the loan of university funds upon inadequate securities. If the vigilance of the friends of the university prevents detriment from these designs, which are commonly concealed under the pretext of benefit to a meritorious class of citizens, there is just at hand a more formidable difficulty arising from the persistent demand of the legislature for the division of the university fund among the several colleges of the State, which are sure to spring up in a new society, from various causes, and some possibly in the hope of obtaining a portion of this fund, which is in popular belief, greatly magnified in amount. * * * * *

"The university, too, in its administration, commits blunders which embarrass its progress. One of these invariably made, and always clearly discerned by a sagacity which comes too late for practical use, is the investment of too large a portion of its funds in dead walls, which require another portion to take care of them. This is a mistake of individuals in their own affairs, apt to occur at a certain age of society, and perhaps corporations can hardly be expected to be wiser than the individuals composing them."

The early history of the University is a record of insufficient means and unwise expend-

iture, of the jealousy and distrust and unkindness of the State. Yet if the weak university of that day had not been, no nucleus of life would have existed in 1866, the year of real beginning, to reach the stately growth of 1904. We must add to the credit of that early time certain sound traditions of administration which are still maintained;—for instance, the University of Wisconsin has never been dominated by one-man power, and no modifications of the established policy of the institution are introduced until after full and free discussion.

In this year of jubilee it is but natural to contrast the present with the past. As has been said, when the first Chancellor delivered his address there was not a college student here. By the autumn of 1850 two had been brought up to the level of the freshman year—Levi Booth and Charles T. Wakeley, the graduating class of 1854, the fiftieth anniversary of whose commencement we this year celebrate. No buildings had yet been erected. Septem-

MAIN HALL WITH THE NEW WING

ber 17, 1851, when "the University went on the Hill," was a day long remembered. On that day the University opened its term in North Hall, which was both dormitory and recitation building. There are now about twenty buildings devoted to the work of the institution. By January, 1856, the faculty had grown from three to seven, all the chairs provided for in the plan of organization being now filled. *Chairs* I have called them: Dr. Holmes' witty suggestion is that the professors of that day occupied settees. For example, there was the professorship of Ethics, Civil Polity, and Political Economy. "It shall be the duty of this chair," the Regents provide, "to render instruction in Theoretical and Practical Morality, in the Science of Government, in International and Constitutional Law, and in the laws regulating the Production, Distribution, Exchange and Consumption of Material Wealth, and to inculcate such knowledge and discipline as may be calculated to prepare liberally educated young men to become good and useful citizens of the Republic. The duties of this chair will be dis-

charged by the Chancellor of the University." To conceive from what the University has grown, strive to imagine the field covered by Professors Parkinson, Ely, Scott, Meyer, Reinsch, Adams, and Sparling, Messrs. Barnett, Dowd and Lorenz, with half of Prof. Sharp's added, to say nothing of Mr. Taylor's, and all of this reduced to the province of a single man, and that man president of the University.

There was the Professor of Mental Philosophy, Logic, Rhetoric, and English Literature; of Ancient Languages and Literature, including Oriental tongues; of Modern Languages and

Literature, who was to give stated instruction in French and German, occasional instruction when desired in other modern languages, and rendered assistance in the department of Ancient Languages when required by the Chancellor to do so. There was the Professor of Mathematics, Natural Philosophy and Astronomy, who included Engineering among his subjects; and finally there was the Professor of Chemistry and Natural History, who taught "Chemistry, Mineralogy, Geology, the Natural History of Plants and Animals and Human Physiology, superintended col-

THE PRESIDENT'S HOUSE

lections, and made and published meteorological observations."

These six professors with a tutor carried on all the work of instruction. There are now ninety-two professors, four resident lecturers, forty-nine instructors, thirty-five assistants, and twenty-one fellows.

In 1854 there were two seniors, one junior, nine sophomores and nine freshmen, besides thirty-five students in preparatory and "English" classes. Last year 2,870 students were in attendance in all departments of the university, or about 2,200, omitting students in music, short course students, and others not strictly to be classed as advanced students in colleges and technical schools. There were 210 seniors in the College of Letters and Science.

In 1854, even in 1866, the university possessed no laboratories. The first laboratory, the chemical, was established by Professor Daniells in the basement of University Hall in 1868. There were some two thousand dollars worth of apparatus in all departments used in illustrating lectures—that was all. At the present time the University has its Observatory, Chemical Laboratory, and Science Hall, to say nothing of the laboratories and instruments in the Engineering and Agricultural Buildings, and in North and South Halls. The instruments and materials within the Engineering building alone represent a sum greater than the entire productive fund of 1854, plus the cost of the whole equipment, all the buildings, and all the books. The yearly expenditure on apparatus for the College of Engineering is double the average annual expenditure from 1854 to 1866 leaving buildings out of consideration. So late as 1865 the engineering equipment consisted of one transit, one leveling rod, one compass, two chains with pins, twelve sets of drawing instruments, and one tape line. All the machinery was a screw press. In 1865 the University owned two sets of *pictures* of a steam engine.

I speak of this growth in mere material equipment, not confusing the "kernel with the shell," but because this growth bears testimony to the greater complexity, subdivision, and

thoroughness of the modern institution. The same story is told by the library. By 1854, there were 1,200 volumes—one-sixth of the number now exposed in the reading room. About half were gifts from A. S. Barnes & Co., and a considerable proportion were public documents and theological works—all of the latter Protestant, nearly all evangelical. The President tells me he read the library about through in 1879. I wonder if he read the theology? and the public documents? If not, his task would not have been very heavy. Now, although Dr. Lathrop's hope of including everything worth preserving in all languages is not quite fulfilled, there are accessible to students 276,000 volumes, or two hundred and thirty times as many as in 1854, and the average usefulness and excellence of the books in the collection is higher than in 1854. In 1854, a candidate for admission to the Freshman class passed an examination covering about three years of Latin, one of Greek, and one of mathematics. Allowing that the discipline of the school made up for any specific separate training in English and any required reading of English literature, this makes about seven units for entrance. Fourteen are now required. During the college course, students kept on with their Latin for two years, their Greek for one, having as an option an additional year in either language or a year of French or German. They rode through a multitude of other subjects, being splashed with them on the way:—Physics and English Literature, Chemistry and Civil Polity, and a half dozen more—thirteen weeks to each. They did not learn to read or write Greek or Latin easily, but read with minute attention to grammatical precision a small number of classic works, historical, dramatic, philosophical, oratorical, and epic. What most astonishes us is the entire absence of any provision for history, except for the classic historians in the course. The existence of Christianity would be inferred from the moral philosophy, and the professors were more uniformly and openly devout than now; but the conception of Christianity and the church as a force in the development of society, the creation of the modern European nations, the Renaissance or the Reformation, were ideas of which the course gave no suggestion. A little later thirteen-weeks' courses in text books on history were added.

We sometimes hear the "Old-fashioned Classical Course" praised as giving a liberal culture and an unequalled discipline. If a student could now elect such a course as was given in Wisconsin fifty years ago, you would call him very lazy. It corresponded, subject for subject to about two years of college work as now carried on. In the quality of the instruction given, it was in the main dry, narrow and superficial in its view, though thorough in enforcing its moderate demands. By its little detached courses, it gave students a notion that they were intelligent in many fields, and as compared with a specialized course nourished vanity. The College Senior is not now usually conceited. He has learned how much too vast for his powers is mastery of the smallest subdivision of the field of knowledge, and he goes into his lifework with humble readiness to begin at a low place in his chosen vocation. Far

THE NEW ENGINEERING BUILDING

CHEMISTRY BUILDING UNIVERSITY OF WIS.

Front View of the New Chemistry Building

more to be rejoiced in than the increase in the size and impressiveness of the University is the enrichment, enlargement, elevation and variety of its curricula. To the old "learned professions" new ones have been added. Within the college of Letters and Science—"the philosophical faculty"—the course of study has been greatly varied and the instruction greatly improved. By the modification of the entrance requirements, the college has been opened to many hundreds who under the old régime would never have profited by its training, and this with a constant elevation of requirements. Whatever one's judgment as to the disciplinary value of Latin and Greek, there can be no doubt that any set of requirements for admission, calling for four years of any language, represents a more thorough education, a more liberal culture, than was obtained in Professor Sterling's preparatory class of 1851. As for the college course itself, the student of to-day is trained for activity in a more complex world, with a thoroughness of real discipline quite beyond any conception of the older time. We lack two things belonging to the old education. The first is a training in the use of the English language derived from a study of foreign languages, which insisted on a delicate rendering of the original. Greek in old times taught English. German nowadays teaches German, and often has bad English as a by-product. Secondly, in the old education students consciously prepared to be men and not merely lawyers.

In 1854 organized athletics did not exist. Some vigorous play was common, though it would seem that students probably exercised less than now. At least there was no exercise by proxy, artificial galvanization of enthusiasm, and monetary exploitation of sport. We have on the whole gained by the cultivation of athletics; but there are weeds still to be rooted out.

A half century ago

"this sacred sod
Could ne'er by woman's feet be trod."

Women began to attend only in 1863, as "normal" students. Then a "female college" was organized, with an easy course, mainly in *belles lettres*. The women students were admitted also to college classes, but in separate recitations. It is a quaint piece of the *ludibria rerum*—the sarcasm of fate—that the name of the President who insisted on this regulation should be given to the women's dormitory.

Fifty years ago the annual charges paid by a student were twelve dollars for tuition, nine dollars for light, heat, and janitor's service, and nothing for incidentals. Total, twenty-one dollars. Next year a charge for fuel was added. North Hall was heated by three furnaces in which wood was burned, at a cost of from twelve to sixteen dollars a year to each inmate of the dormitory. As to the cost of board, the catalogue states that: "Several of the Faculty reside in a portion of the new edifice [North Hall] and take their meals in the hall. Students are admitted to the several tables of the faculty at a charge not exceeding two dollars per week—usually not over \$1.85. Many board themselves in their rooms at rates varying from a dollar to a dollar and a half." These charges have certainly not increased unreasonably, all things considered. The five dollars a week of the present is as easily paid as the two and a half of that day. Yet in the loss of the dormitories much has been lost. Centers of association, they contributed to college friendship and youthful comradeship more healthfully than our very useful modern substitute, the fraternity, for they brought about acquaintance on a broader and better basis. To Cardinal Newman, a university was essentially a gathering place where young men were given the highest kind of instruction, the gathering being of more importance than the instruction. We have lost something in general comradeship and the beneficial attrition of all sorts of men on each other. The dormitories have been outlived by the literary societies, the Athenaean and the Hesperian societies being almost as old as the University itself. We may observe that debating alone soon became the dominant element in them. They have been very deeply rooted in the institution, and profoundly influence the

intellectual tone of the University. When Booth and Wakeley graduated, daily morning prayers were held—with the devotion to be expected in colleges when young men assemble at uncomfortable hours in uncomfortable rooms.

In the fifty years, from 1854 to 1904, the number of students taking work of collegiate grade in the institution has increased a hundred times, the number of instructors thirty times. There are twenty times as many buildings, much more than twenty times as much space being given to purposes of instruction. Two hundred times as many books are at hand. All the enormous and complex mechanical equipment of technical schools has been provided—without luxury or waste, but with sensible liberality. And the soul of the University has grown with its body. In 1854 it was a small college, fitting a few young men for pursuits regarded as élite. Except through them and their careers, the University was in no contact with the life of Wisconsin. Now it is a part of practically every noble activity in the commonwealth. It has improved and is improving the agriculture of the State. It has advanced engineering

THE NEW STATE HISTORICAL LIBRARY BUILDING

practice, and its professors are directly consulted on engineering questions. The influence of University methods of investigation is seen in certain branches of legislation. The specialist is consulted now as to a multitude of matters, where but a few years ago he would have been scoffed at. The schools have been bettered by relations with the University. In a thousand ways beyond analysis the University is a part of our civilization. At the same time, the duty of maintaining the highest tradition of the past, and of contributing to the advance of the present is not only not neglected but is performed with brilliant success. The University is the natural enemy of commonness.

To specify with exactness all that has been achieved is beyond the power of my words. In itself all this is no more wonderful or more encouraging than the tale of human progress everywhere. But it has been achieved within the period of active life for a single man. Several names might be chosen to illustrate this point; but one will suffice. Among the Freshmen at the time of the first commencement was one W. F. Vilas. He shared in the narrow but sound discipline of the time. After the reorganization in 1866 he was instructor

A Bird's-Eye View of the University Grounds

FROM THE EXHIBIT PREPARED FOR
THE ST. LOUIS EXPOSITION

in law. During the great advance of the University he has been a regent. His active association with the University begins at the beginning. He has seen it all. Indeed the actual development of the University covers a much shorter time than a half century. In 1866 the University of to-day was in a sense grounded, but not before 1880 did it begin to be what it is now; not until after 1890 was the Engineering School well organized, or the instruction in economics and history developed. Little over twenty-five years, therefore, have seen the real growth of the University.

Much has been attained; the University of Wisconsin has only begun. This State, some eight times the size of Massachusetts, now supports about an equal population and produces a somewhat smaller amount of wealth annually. I suppose it is not expecting anything very remotely distant to look forward to the time when Wisconsin shall be ten times as densely populated as at present, and shall produce annually ten times as much wealth. We have a right to look forward to doing some such work as Harvard University and the Institute of Technology and the New England Conservatory of Music combined. Or if we compare Wisconsin with Saxony, a tenth as large, with a population half as large again, we should be in the same class with the University of Leipzig, the Freiberg School of Mines, the Dresden Conservatory.

This is no longer a college. But it is only an inchoate University. It does some university work; but not what the future will demand of the chief educational institution of Wisconsin. Already society has become an organism of great complexity, in which the function of the individual is extremely differentiated. But the process has not gone very far yet. New professions will be created; new and finer conceptions of old ones will be developed. The University should lead not follow. It must fit for the profession of to-morrow; provide the science of to-morrow; provide the ideas of to-morrow. Thus the provision for pure scientific research demands an increase proportional to the increase of the provision for technical instruction and research. Still more, the greater complexity of rights and duties in a complex society will require a higher level and a broader preparation for the legal profession than at present. The State of Wisconsin will and must demand and reward a higher education of its teachers, and the University must contribute to giving this education.

The quality of the preparation for the University and of the work done within it are not what they should be. Students half know what they profess to be prepared in. They half learn what they think they learn. They lack disinterested intellectual curiosity. Before the University of Wisconsin is fully entitled to that proud name on the same level with the great foundations of the world, a severer discipline must be enforced in the schools of the State, by teachers of better scholarship than at present; and a nobler zeal must be shown by students for knowledge apart from the obvious professional usefulness of their acquirements.

These ends can come only through and advance throughout the State; an advance proportional to that which has made our present achievement possible. Our next jubilee should be as notable for advance as this one. There is as much to do. The students of to-day, the alumni of to-morrow, must sow the seeds of a noble dissatisfaction with all that has been done; for in these matters not to advance is to retreat.

H. B. LATHROP.

CALENDAR

Academic Year, 1903 - 1904

FIRST SEMESTER

Opens September 30.
Closes February 6.
Examinations for Admission, Tuesday and
Wednesday, September 29 and 30.
Registration Days, September 28 to 30.
First Recitations, Thursday morning,
October 1.
Legal Holiday, Thanksgiving, November 26.
Christmas Recess, Thursday, December 24 to
Monday, January 4, inclusive.
Examination Week, First Semester, January
30 to February 5.
First Semester closes Saturday, February 6.

SECOND SEMESTER

Opens Monday, February 8.
Closes June 9.
Registration Day, Second Semester, Monday,
February 8.
Legal Holiday, Monday, February 22.
Easter Recess, Thursday, March 31 to April
4 inclusive.
Legal Holiday, Monday, May 30.
Examination Week, Second Semester,
May 28 to June 3, inclusive.
Examinations for Admission, June 2 to 3.
Jubilee Week, June 5 to June 9, inclusive.
Inauguration Ceremonies, Tuesday, June 7.
Semi-Centennial Ceremonies, Wednesday,
June 8.
Commencement Exercises, Thursday, June 9.

Vice-President of the University

Professor of Constitutional and International Law

A. B., University of Wisconsin, 1860
 A. M., University of Wisconsin, 1863

THOMAS SEWALL ADAMS, KA, ΦBK

Assistant Professor of Economics and Statistics

Ph. D., Johns Hopkins University, 1899

EDWARD ASAHEL BIRGE, ΦBK

Dean of the College of Letters and Science

Professor of Zoölogy

A. B., Williams College, 1873
 A. M., Williams College, 1876
 Ph. D., Harvard University, 1878

Sc. D. (Honorary), Western University of Pennsylvania, 1897

WILLIAM BOLLES CAIRNS, ΔΤ

Assistant Professor of American Literature

A. B., University of Wisconsin, 1890
 A. M., University of Wisconsin, 1892
 Ph. D., University of Wisconsin, 1897

VICTOR COFFIN

Assistant Professor of European History

A. B., Dalhousie College, 1887
 Ph. D., Cornell University, 1893

GEORGE CARY COMSTOCK

Professor of Astronomy and Director of Washburn Observatory

Ph. B., University of Michigan, 1877
 LL. B., University of Wisconsin, 1893

CHARLES ALBERT CURTIS, ΑΣΠ

Professor of Military Science and Tactics

Captain U. S. A. (Retired)

A. B., Bowdoin College, 1861
 A. B., Military College of Vermont, 1861

WILLIAM WILLARD DANIELLS

Professor of Chemistry

B. S., Michigan Agricultural College, 1864
M. S., Michigan Agricultural College, 1866
Sc. D., Michigan Agricultural College, 1898

ROBERT ELKIN NEIL DODGE, ΦBK

Assistant Professor of English

A. B., Harvard University, 1889
A. M., Harvard University, 1891

LINNAEUS WAYLAND DOWLING, ΣΑΕ

Assistant Professor of Mathematics

Ph. D., Clark University, 1895

JAMES CLAUDE ELSOM

Professor of Physical Culture and Director of the Gymnasium

M. D., Medical College of Virginia, 1886

RICHARD THEODORE ELY, ΑΔΦ, ΦBK

Professor of Political Economy

A. B., Columbia University, 1876
A. M., Columbia University, 1879
Ph. D., University of Heidelberg, 1879
LL. D., Hobart College, 1892

ALBERT BERNHARDT FAUST

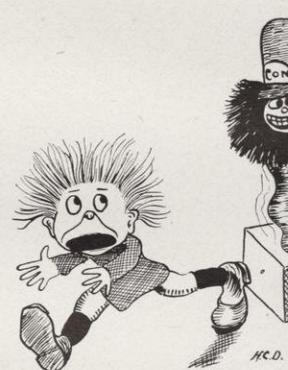

Assistant Professor of German

A. B., Johns Hopkins University, 1889
Ph. D., Johns Hopkins University, 1892

NEVIN M. FENNEMAN, ΣΞ

Professor of General and Physiographic Geology

A. B., Heidelberg College, 1883
A. M., University of Chicago, 1898
Ph. D., University of Chicago, 1901

RICHARD FISCHER, ΦΧ

Assistant Professor of the Theory and Practice of Pharmacy

Ph. C., University of Michigan, 1892
B. S., University of Michigan, 1894
Ph. C., University of Marburg, 1900

CARL RUSSELL FISH, ΒΘΠ, ΦBK

Assistant Professor of American History

A. B., Brown University, 1897
A. M., Harvard University, 1898
Ph. D., Harvard University, 1900

GEORGE CONVERSE FISKE, ΔΤ, ΦBK

Assistant Professor of Latin

Ph. D., Harvard University, 1900

ALBERT STOWELL FLINT, ΦBK

Assistant Astronomer, Washburn Observatory

A. B., Harvard University, 1875
A. M., Harvard University, 1880

DAVID BOWER FRANKENBURGER

Professor of Rhetoric and Oratory

Ph. B., University of Wisconsin, 1864
LL. B., University of Wisconsin, 1871
A. M., University of Wisconsin, 1882

JOHN CHARLES FREEMAN, AΔΦ

Professor of English Literature

B. A., University of Michigan, 1868

M. A., University of Michigan, 1871

B. D., Union Theological Seminary, 1872

LL. D., University of Chicago, 1880

WILLIAM DODGE FROST

Assistant Professor of Bacteriology

B. S., University of Minnesota, 1893

M. S., University of Minnesota, 1894

Ph. D., University of Wisconsin, 1904

LUCY MARIE GAY

Assistant Professor of French

B. S., University of Wisconsin, 1892

WILLIAM FREDERIC GIESE, ΣAE, ΦBK

Assistant Professor of Romance Languages

A. B., Harvard University, 1889

A. M., Harvard University, 1890

ROBERT ALMER HARPER

Professor of Botany

B. A., Oberlin College, 1886

M. A., Oberlin College, 1889

Ph. D., University of Bonn, 1896

GEORGE LINCOLN HENDRICKSON

Non-resident Professor of Latin

A. B., Johns Hopkins University, 1887

L. H. D., University of Wisconsin, 1894

HOMER WINTHROP HILLYER

Assistant Professor of Organic Chemistry

Ph. D., Johns Hopkins University, 1895

WILLIAM HERBERT HOBBS

Professor of Mineralogy and Petrology

B. S., Worcester Polytechnic Institute, 1883

Ph. D., Johns Hopkins University, 1888

ALEXANDER RUDOLPH HOHLFELD

Professor of German

Ph. D., University of Leipzig

FRANK GAYLORD HUBBARD, XΨ, ΦBK

Professor of the English Language

A. B., Williams College, 1880

Ph. D., Johns Hopkins University, 1887

CAROLINE LOUISA HUNT, ΔΓ, ΦBK

Professor of Home Economics

A. B., Northwestern University, 1883

JOSEPH JASTROW, ΦBK

Professor of Psychology

A. B., University of Pennsylvania, 1882

M. A., University of Pennsylvania, 1885

Ph. D., Johns Hopkins University, 1886

LOUIS KAHLENBERG

Professor of Physical Chemistry

B. S., University of Wisconsin, 1892

M. S., University of Wisconsin, 1893

Ph. D., University of Leipzig (summa cum laude), 1895

ALEXANDER KERR

Professor of the Greek Language and Literature

A. M., Beloit College, 1855

EDWARD KREMERS, ΔΤ, ΦΧ

Director of the Course in Pharmacy

Professor of Pharmaceutical Chemistry

Ph. G., University of Wisconsin, 1886

B. S., University of Wisconsin, 1888

Ph. D., University of Gottingen, 1890

ARTHUR GORDON LAIRD

Assistant Professor of Ancient Languages

Ph. D., Cornell University, 1891

HENRY BURROWES LATHROP, ΦΒΚ

Associate Professor of English Literature

A. B., Harvard University, 1889

CHARLES KENNETH LEITH

Professor of Economic and Structural Geology

B. S., University of Wisconsin, 1897

Ph. D., University of Wisconsin, 1901

VICTOR LENHER

Assistant Professor of General and Theoretical Chemistry

Ph. D., University of Pennsylvania, 1898

WILLIAM STANLEY MARSHALL, ΨΤ

Assistant Professor of Zoology

B. S., Swarthmore College, 1888

Ph. D., University of Leipzig, 1892

ABBEY SHAW MAYHEW

Assistant Professor of Physical Culture

Physical Culture, Wellesley College

CHARLES ELWOOD MENDENHALL, ΦΒΚ

Assistant Professor of Physics

B. S., Rose Polytechnic Institute, 1894

Ph. D., Johns Hopkins University, 1898

B

BALTHASAR HENRY MEYER

Professor of Institutes of Commerce

B. L., University of Wisconsin, 1894

Ph. D., University of Wisconsin, 1897

JESSIE MARTHA MEYER

Mistress of Chadbourne Hall

B. S., University of Wisconsin, 1879

WILLIAM SNOW MILLER

Assistant Professor of Anatomy

M. D., Yale University, 1879

DANA CARLETON MUNRO, ΔΦ, ΦΒΚ

Professor of European History

A. B., Brown University, 1887

A. M., Brown University, 1890

JULIUS EMIL OLSON, ΨΤ

Professor of Scandinavian Languages and Literature

B. L., University of Wisconsin, 1884

MICHAEL VINCENT O'SHEA

Professor of the Science and Art of Education

B. L., Cornell University, 1892

EDWARD THOMAS OWEN, ΨΤ, ΦΒΚ

Professor of the French Language and Literature

A. B., Yale University, 1892

JAMES FRANCIS AUGUSTINE PYRE, ΒΘΠ

Assistant Professor of English Literature

B. L., University of Wisconsin, 1892

Ph. D., University of Wisconsin, 1897

PAUL SAMUEL REINSCH, ΔΤ

Professor of Political Science

A. B., University of Wisconsin, 1892

LL. B., University of Wisconsin, 1894

Ph. D., University of Wisconsin, 1898

EDWIN CARL LOTHAR CLEMENS ROEDDER

Assistant Professor of German Philology

A. B., University of Michigan, 1893

A. M., University of Michigan, 1894

Ph. D., University of Michigan, 1898

HARRY LUMAN RUSSELL, ΦΒΚ

Professor of Bacteriology

B. S., University of Wisconsin, 1888

M. S., University of Wisconsin, 1890

Ph. D., Johns Hopkins University, 1892

WILLIAM AMASA SCOTT, ΑΔΦ, ΦΒΚ

Director of the Course in Commerce

Professor of Economic History and Theory

A. B., University of Rochester, 1886

A. M., University of Rochester, 1889

Ph. D., Johns Hopkins University, 1892

FRANK CHAPMAN SHARP, ΧΦ, ΦΒΚ

Assistant Professor of Philosophy

A. B., Amherst College, 1887

Ph. D., University of Berlin, 1892

GRANT SHOWERMAN

Assistant Professor of Latin

A. B., University of Wisconsin, 1896

M. A., University of Wisconsin, 1897

Ph. D., University of Wisconsin, 1900

ERNEST BROWN SKINNER, ΒΘΠ

Assistant Professor of Mathematics

A. B., Ohio University, 1888

Ph. D., University of Chicago, 1900

*MOSES STEPHEN SLAUGHTER, ΔΚΕ, ΦΒΚ

Professor of Latin

A. B., De Pauw University, 1883
Ph. D., Johns Hopkins University, 1891

CHARLES SUMNER SLICHTER, ΣΧ, ΦΒΚ

Professor of Applied Mathematics

M. S., Clark University, 1892

CHARLES FORSTER SMITH, ΧΨ

Professor of Greek and Classical Philology

A. B., Wofford College, 1872
A. M., Wofford College, 1872
Ph. D., Leipzig University, 1881

WALTER McMYNN SMITH, ΔΤ

Librarian

A. B., University of Wisconsin, 1890

BENJAMIN WARNER SNOW, ΔΤ, ΣΙΙ

Professor of Physics

Ph. D., Berlin University, 1892

SAMUEL EDWIN SPARLING, ΣΧ

Assistant Professor of Political Science

Ph. D., University of Wisconsin, 1897

†JOHN WILLIAM STEARNS

Professor of Philosophy and Pedagogy, and Director of the
School of Education

A. B., Harvard University, 1860
A. M., Harvard University, 1864
LL. D., Chicago University, 1875

*SUSAN ADELAIDE STERLING

Assistant Professor of German

B. L., University of Wisconsin, 1879
M. L., University of Wisconsin, 1896

ALBERT WILLIS TRESSLER

Assistant Professor of Pedagogy and Inspector of High Schools
A. B., University of Michigan, 1891

AUGUSTUS TROWBRIDGE, ΔΦ

Professor of Mathematical Physics

Ph. D., Berlin University, 1897-1898

*FREDERICK JACKSON TURNER, ΦΒΚ

Professor of American History

A. B., University of Wisconsin, 1884
A. M., University of Wisconsin, 1888
Ph. D., Johns Hopkins University, 1890

CHARLES AMBROSE VAN VELZER

Professor of Mathematics

Ph. D., Hillsdale College, 1883

ERNST KARL JOHANN HEINRICH VOSS

Professor of German Philology

Ph. D., Leipzig University, 1895

*On leave of absence.

†Resigned.

WILLIAM HOLME WILLIAMS
Professor of Hebrew and Hellenistic Greek
B. A., University of Wisconsin, 1876

*JAMES ALBERT WOODBURN
Professor of American History, $\Phi\Gamma\Delta$, ΦBK
A. B., Indiana University, 1876
A. M., Indiana University, 1885
Ph. D., Johns Hopkins University, 1890

Instructors and Assistants

PHILIP ADAMS
Instructor in English
A. B., Harvard University, 1903

BENNET MILLS ALLEN, ΔKE , ΦBK , ΓA , $\Sigma\Xi$
Instructor in Comparative Anatomy
Ph. B., DePauw University, 1898
Ph. D., University of Chicago, 1903

CHARLES ELMER ALLEN, $\Delta\Upsilon$, ΦBK
Instructor in Botany
B. S., University of Wisconsin, 1899

FLORENCE ELIZA ALLEN, $\Delta\Delta\Delta$, ΦBK
Instructor in Mathematics
B. L., University of Wisconsin, 1900
M. L., University of Wisconsin, 1901

KATHERINE ALLEN, $\Delta\Gamma$
Instructor in Latin
B. L., University of Wisconsin, 1887
Ph. D., University of Wisconsin, 1898

EMMETT DUNN ANGELL
Instructor in Gymnastics
Harvard Summer School of Physical Training

SYDNEY HOBART BALL, $\Psi\Upsilon$
Assistant in Geology
B. A., University of Wisconsin, 1901

GEORGE JOHN BALZER
Assistant in Physics
A. B., University of Michigan, 1902

JAMES DUFF BARNETT
Assistant in Political Science
A. B., College of Emporia, 1890

ARTHUR BEATTY
Instructor in English
B. A., University of Toronto, 1893
Ph. D., Columbia University, 1897

*For the first semester, 1903-04.

RAYMOND C. BENNER
Assistant in Chemistry
B. S., University of Minnesota, 1902

EDWIN SHERWIN BISHOP
Assistant in Physics
B. L., University of Wisconsin, 1903

WILLARD GROSVENOR BLEYER, ΔΤ
Instructor in English
B. L., University of Wisconsin, 1896
M. L., University of Wisconsin, 1898

BOYD HENRY BODE
Instructor in Philosophy
B. A., University of Wisconsin, 1897
Ph. D., Cornell University, 1900

IRVING WALTER BRANDEL, ΑΧΣ
Instructor in Pharmaceutical Technique
M. S., University of Wisconsin, 1899
Ph. G., University of Wisconsin, 1903

HERMAN GUSTAV ADOLPH BRAUER
Instructor in French
Ph. B., Colorado College, 1896
A. B., Colorado College, 1897
A. M., University of Wisconsin, 1899
Ph. D., University of Wisconsin, 1902

ARTHUR CHARLES BROWN, ΦΒΚ
Instructor in English
A. B., Hobart College, 1893
A. B., Harvard University, 1894
A. M., Harvard University, 1895
Ph. D., Harvard University, 1900

PAUL GUSTAV ADOLPH BUSSE
Instructor in German

ARTHUR HENRY CHRISTMAN
Student Assistant in Botany
B. S., University of Wisconsin, 1903

ALLEN LYSANDER COLTON, ΦΔΘ
Instructor in Physics
Ph. B., University of Michigan, 1889
A. B., University of Michigan, 1890
A. M., University of Michigan, 1898

EDWARD ALBERT COOK, ΣΧ
Instructor in English

ARTHUR ROBERT CRATHORNE, ΦΚΣ, ΦΚΦ
Instructor in Mathematics
B. S., University of Illinois, 1898

MAYNARD LEE DAGGY, ΦΓΔ, ΚΦΟΚ
Instructor in Rhetoric and Oratory
Ph. B., DePauw University, 1896

WILLIAM LLOYD DAVIS, ΣΑΕ
Student Assistant in Pedagogy
Ph. B., University of Wisconsin, 1903

New Instructors and Assistants

New Instructors and Assistants

ROLLIN HENRY DENNISTON, ΣAE, ΦX

Instructor in Pharmaceutical Botany

Ph. G., University of Wisconsin, 1897

B. S., University of Wisconsin, 1899

ALBERT RUDOLPH DENU, ΔX

Instructor in Rhetoric and Oratory

B. L., University of Wisconsin, 1894

LL. B., Georgetown University, 1903

THOMAS HERBERT DICKINSON

Instructor in English

A. B., Ohio State University, 1899

A. M., Columbia University, 1900

JEROME DOWD

Resident Lecturer in Sociology

M. A., Trinity College (N. C.), 1899

MARSHALL BLAKEMORE EVANS, ΒΟΙΙ

Instructor in German

A. B., Boston University, 1896

A. M., University of Bonn, 1902

Ph. D., University of Bonn, 1902

MENDAL GARBUZZ FRAMPTON, ΣII

Instructor in English

A. B., Illinois College, 1898

A. M., Illinois College, 1899

A. M., Harvard University, 1900

SCOTT HOLLAND GOODNIGHT, ΗΙΙ

Assistant in German

B. A., Eureka College, 1898

A. M., Eureka College, 1901

CHARLES HART HANDSCHIN

Instructor in German

A. B., German Wallace College, 1897

Ph. D., University of Wisconsin, 1902

EDWIN GEORGE HASTINGS, ΣAE

Instructor in Bacteriology

B. S., Ohio State University, 1898

M. S., University of Wisconsin, 1899

SABENA MILDRED HERFURTH

Assistant in German

B. L., University of Wisconsin, 1893

M. L., University of Wisconsin, 1897

HERBERT PAUL HOLMAN, ΣΝ, ΑΧΣ

Assistant in Inorganic Chemistry

A. B., Indiana University, 1903

JOSEPH GERARD HOLTY, ΑΧΣ

Assistant in Chemistry

B. S., University of Wisconsin, 1903

EDGAR BURTON HUTCHINS, JR.

Assistant in Analytical Chemistry

B. S., Ottawa University (Kansas), 1898

M. S., Ottawa University (Kansas), 1901

FREDERICK THOMAS KELLY
Instructor in Hebrew and Hellenistic Greek
B. S., University of Wisconsin, 1891
Ph. D., University of Chicago, 1901

MARION BELL LAMONT
Instructor in Elocution
Cumnock School of Oratory

MAX OTTO LORENZ
Instructor in Economics
B. A., University of Iowa, 1899

EDITH KATHRYN LYLE
Assistant in History
B. L., University of Wisconsin, 1895
M. L., University of Wisconsin, 1896
Ph. D., University of Pennsylvania, 1903

RALPH BENJAMIN MACNISH, ΦBK
Instructor in French
B. L., University of Wisconsin, 1900

GEORGE JOHN MARQUETTE, ΦBK
Student Assistant in Hygienic Laboratory

WILLIAM GEORGE MARQUETTE, ΦBK
Assistant in Botany
Ph. G., Northwestern University, 1899
B. S., University of Wisconsin, 1903

FRANK COWEN MCKINNEY
Instructor in English
B. A., Ohio State University, 1901
M. A., Ohio State University, 1902

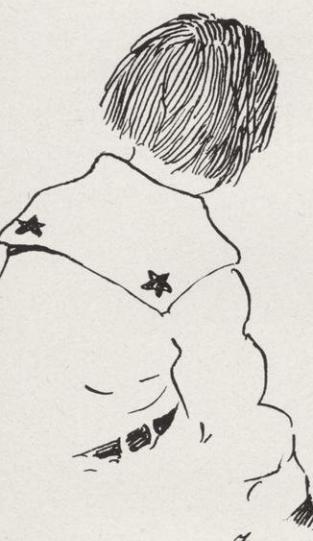

FREDERICK WILLIAM MEISNEST
Instructor in German
B. S., University of Wisconsin, 1893

LONALLEN FREDERICK MILLER, ΣΑΕ
Instructor in Physics
B. S., University of Michigan, 1899
M. A., University of Michigan, 1900

GEORGIANA LEA MORRILL
Instructor in English
A. B., Vassar College, 1882
A. M., Vassar College, 1889
Ph. D., University of Heidelberg, 1896

HARRY BRIGGS NORTH, ΑΧΣ
Student Assistant in Chemistry
Ph. G., University of Wisconsin, 1902

ANDREW M. O'DEA
Instructor in Athletics and Assistant to the Director of the Gymnasium
B. L., Christian Brothers College (Melbourne, Australia), 1883

HARRISON EASTMAN PATTEN

Instructor in Chemistry

A. B., Northwestern University, 1894
A. M., Northwestern University, 1896
Ph. D., University of Wisconsin, 1902

OTTO PATZER

Instructor in French

B. L., University of Wisconsin, 1898
M. L., University of Wisconsin, 1899

WARREN MILTON PERSONS, ΦΚΣ, ΦΒΚ

Instructor in Mathematics

B. S., University of Wisconsin, 1899

ADOLPH PFUND

Assistant in German

B. A., University of Wisconsin, 1903

ULRICH BONNELL PHILLIPS, ΑΤΩ

Instructor in History

A. B., University of Georgia, 1897
A. M., University of Georgia, 1899
Ph. D., Columbia University, 1902

ANNIE MARIA PITMAN, ΚΚΓ

Assistant in Latin

A. B., University of Wisconsin, 1897

JAMES WILLIAM PUTNAM

Assistant in History

M. A., University of Illinois, 1894

FRANK RABAK

Laboratory Assistant in Pharmacognosy

Ph. G., University of Wisconsin, 1903

FERDINAND SCHMITTER

Instructor in Anatomy

A. B., Union College, 1899
M. D., Johns Hopkins University, 1903

GEORGE CLARKE SELLERY, ΔΤ, ΦΒΚ

Instructor in European History

A. B., University of Toronto, 1897
Ph. D., University of Chicago, 1901

ARTHUR ROMEYN SEYMOUR

Instructor in French

B. L., University of Wisconsin, 1894
M. L., University of Wisconsin, 1897

HELEN SHERMAN, ΑΦ

Laboratory Assistant in Botany

B. S., University of Wisconsin, 1902

FREDERICK LAFAYETTE SHINN

Assistant in Physical Chemistry

A. B., Indiana University, 1901
A. M., Indiana University, 1902

JESSE DWIGHT SUTER
Student Assistant in Mathematics

ALBERT HOYT TAYLOR
Instructor in Physics
B. S., Northwestern University, 1902

HENRY CHARLES TAYLOR
Instructor in Commerce
B. S., Iowa Agricultural College, 1896
M. S., Iowa Agricultural College, 1898
Ph. D., in Economics, University of Wisconsin, 1902

EARLE MELVIN TERRY
Assistant in Physics
B. S., University of Michigan, 1902

CHARLES AUSTIN TIBBALS, JR.
Student Assistant in Chemistry and Assaying

ASA CURRIER TILTON, ΦBK
Instructor in European History
B. A., Yale University, 1896
Ph. D., Yale University, 1900

JAMES EDWARD TUTHILL
Assistant in European History
A. B., University of Chicago, 1897
A. M., University of Missouri, 1902

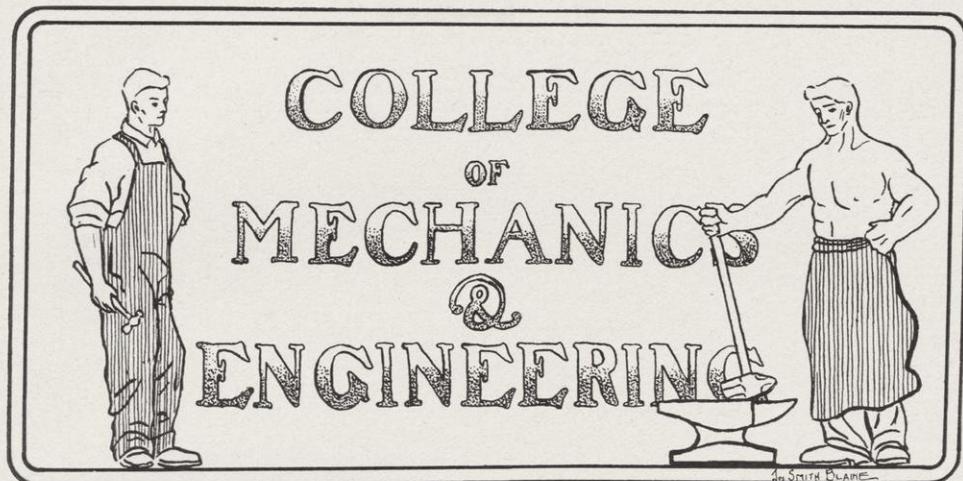

MELVIN EUGENE TWEEDEN
Assistant in Practical Pharmacy
Ph. G., University of Wisconsin, 1901

ELSBETH VEERHUSEN
Assistant in German
B. A., University of Wisconsin, 1891

GEORGE WAGNER, ΦBK, ΣΞ
Instructor in Zoölogy
Ph. C., University of Michigan, 1893
B. A., University of Kansas, 1899
M. A., University of Michigan, 1903

HENRY CHARLES WOLFF
Instructor in Mathematics
B. S., University of Wisconsin, 1897
M. S., University of Wisconsin, 1898

To Smith Blame

FREDERICK EUGENE TURNEAURE, ΣΞ, TBII

Dean of the College of Engineering and
Professor of Bridge and Sanitary Engineering
C. E., Cornell University, 1889

STORM BULL, TBII

Professor of Steam Engineering
M. E., Federal Polytechnic School, Zurich, Switzerland, 1877

CHARLES FREDERICK BURGESS, ΒΘII, TBII

Assistant Professor of Electrical Engineering
E. E., University of Wisconsin, 1897

CHARLES HOWARD BURNSIDE, TBII

Assistant Professor of Mechanics
B. S., Columbia University, 1898
M. A., Columbia University, 1899

FRANK OLIVER DUFOUR, ΘΔX

Acting Professor of Bridge Engineering
C. E., Lehigh University, 1896

DUGALD CALEB JACKSON, ΣΞ, TBII

Professor of Electrical Engineering
B. S., Pennsylvania State College, 1885
C. E., Pennsylvania State College, 1888

CHARLES ISAAC KING

Professor of Mechanical Practice

JOHN GIVAN DAVIS MACK, TBII

Professor of Machine Design
M. E., Cornell University, 1888

EDWARD ROSE MAURER, $\Phi\Delta\Theta$, TBII
Professor of Mechanics
B. C. E., University of Wisconsin, 1890

JAMES DAVID PHILLIPS, TBII
Assistant Professor of Mechanical Drawing
B. S., University of Illinois, 1893

ARTHUR WILLIAM RICHTER, $\Sigma\Xi$, TBII
Professor of Experimental Engineering
M. E., University of Wisconsin, 1889

JOHN WESLEY SHUSTER
Assistant Professor of Electrical Engineering
B. S., South Dakota State University, 1897
B. S., University of Wisconsin, 1899

LEONARD SEWELL SMITH, BOII
Assistant Professor of Topographic and Geodetic Engineering
B. C. E., University of Wisconsin, 1890
C. E., University of Wisconsin, 1895

BERNARD VICTOR SWENSON, $\Phi\Delta\Theta$, TBII
Assistant Professor of Electrical Engineering
B. S., In Electrical Engineering, University of Illinois, 1893
B. S., In Mechanical Engineering, University of Illinois, 1893

WILLIAM DANA TAYLOR
Professor of Railway Engineering
B. E., Alabama Polytechnic Institute, 1881
C. E., Alabama Polytechnic Institute, 1885

OLIVER BRUNNER ZIMMERMAN
Assistant Professor of Machine Design
B. S., University of Wisconsin, 1896
M. E., University of Wisconsin, 1900

Instructors and Assistants

JAMES THOMAS ATWOOD, TBII
Instructor in Mechanical Drawing
B. S., University of Illinois, 1903

ALVIN HAASE, TBII
Assistant in Experimental Engineering
B. S. C. E., University of Wisconsin, 1903

FREDERICK WILLIAM HUELS, TBII
Assistant in Experimental Engineering
B. S. C. E., University of Wisconsin, 1903

FRANCIS MICHAEL McCULLOUGH, TBII
Instructor in Civil Engineering
B. S. C. E., University of Wisconsin, 1903

FREDERICK EUGENE TURNEAURE

HENRY HUME McPHERSON
Instructor in Mechanical Laboratory
M. E., Cornell University, 1903

ADAM VAUSE MILLAR
Instructor in Descriptive Geometry and Mechanical Drawing
B. S., University of Illinois, 1897
M. S., University of Illinois, 1901

LEWIS EUGENE MOORE, TBII
Instructor in Drawing and Mechanics
B. S., University of Wisconsin, 1900

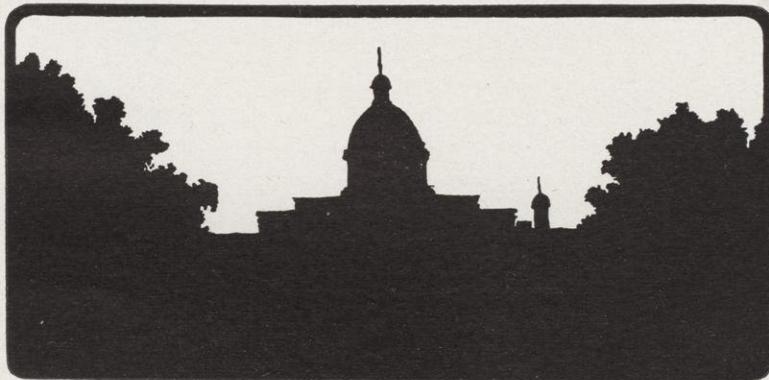

GEORGE CARL SHAAD, ΦΚΦ
Instructor in Electrical Engineering
B. S., Pennsylvania State College, 1900

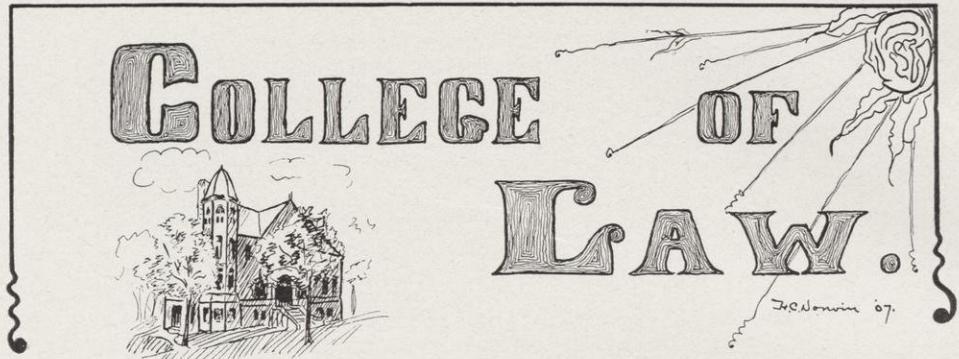

HALSTEN JOSEPH BERFORD THORKELSON
Instructor in Steam Engineering
B. S., University of Wisconsin, 1898
M. E., University of Wisconsin, 1902

JAMES WEBSTER WATSON, TBII
Instructor in Electrical Engineering
B. S., University of Wisconsin, 1902

LESTER DENNISON WILLIAMS, BOII
Instructor in Civil Engineering
B. S. C. E., University of Wisconsin, 1901

JAMES GARFIELD ZIMMERMAN, TBII
Student Assistant in Applied Electro-Chemistry

HARRY SAUGER RICHARDS, ΦBK , $\Phi\Delta\Phi$

Dean of College of Law, Professor of Law

A. B., University of Iowa, 1892

LL. B., Harvard University, 1895

ROBERT MCKEE BASHFORD, $\Phi\Delta\Phi$

Professor of Law

A. B., University of Wisconsin, 1870

LL. B., University of Wisconsin, 1871

A. M., University of Wisconsin, 1873

JAIRUS HARVLIN CARPENTER, $\Phi\Delta\Phi$

Mortimer M. Jackson Professor of Contracts, Emeritus

A. M., Yale University, 1874

LL.D., University of Wisconsin, 1876

EUGENE ALLEN GILMORE, ΦBK , ΔKE

Professor of Law

A. B., DePauw University, 1893

LL. B., Harvard University, 1895

BURR W. JONES, ΨT , $\Phi\Delta\Phi$

Professor of Law

A. M., University of Wisconsin, 1871

LL. D., University of Wisconsin, 1871

EDWIN S. MACK, ΦBK

Lecturer in Law

A. B., Harvard University, 1891

LL. B., Harvard University, 1893

JOHN MYERS OLIN, ΦBK

Professor of Law

A. B., Williams College, 1873

A. M., Williams College, 1876

LL. B., University of Wisconsin, 1879

HOWARD LESLIE SMITH, $\text{B}\Theta\text{II}$, $\Phi\Delta\Phi$

Professor of Law

A. B., University of Wisconsin, 1881

LL. B., University of Wisconsin, 1885

EDMUND RAY STEVENS, ΔT

Lecturer in Criminal Law

B. L., University of Wisconsin, 1893

LL. B., University of Wisconsin, 1895

HARRY SAUGER RICHARDS

COLLEGE OF AGRICULTURE

WILLIAM ARNON HENRY

Dean of the College of Agriculture and Director of the
Agricultural Experiment Station
Professor of Agriculture
B. Agr., Cornell University, 1880

STEPHEN MOULTON BABCOCK, ΘΔΧ

Assistant Director and Chief Chemist of the Agricultural
Experiment Station
Professor of Agricultural Chemistry
Ph. D., University of Gottingen, 1877

EDWARD HOLYOKE FARRINGTON

Professor of Dairy Husbandry
B. S., Maine State College, 1881
M. S., Maine State College, 1883

GEORGE C. HUMPHREY

Assistant Professor of Animal Husbandry
B. S., Michigan Agricultural College

GEORGE NELSON KNAPP

Assistant Professor of Farm Engineering
B. S., University of Wisconsin, 1895

GEORGE MCKERROW

Superintendent of Agricultural Institutes

RANSOM ASA MOORE

Assistant Professor of Agronomy

EMIL PETER SANDSTEN, ΣΞ

Professor of Horticulture

B. S., University of Minnesota, 1895
M. S., University of Minnesota, 1898
Ph. D., Cornell University, 1903

*FRANK JUSTIN WELLS
Assistant Professor of Agricultural Physics
B. S., Lawrence University, 1899

ANDREW ROBINSON WHITSON
Professor of Agricultural Physics
B. S., University of Chicago, 1894

FRITZ WILHELM WOLL
Assistant Professor of Agricultural Chemistry and Chemist of
Experiment Station

New Members of the Faculty

Robert Elkin Neil Dodge, A. M.

ASSISTANT PROFESSOR OF ENGLISH

ROBERT ELKIN NEIL DODGE was born in Washington, D. C., January 24, 1867. He was brought up in the neighborhood of Boston, in Cambridge, and later in Brookline. His preparatory school was the Roxbury Latin School. He passed through Harvard with the class of 1889, and after graduation remained there for two years' study in the modern languages. He then spent three years abroad in travel and reading. On his return he became Instructor in English at Barnard College, and, a year later, at Brown University. He began work at the University of Wisconsin in the autumn of 1898.

Frank Oliver Dufour, C. E.

ACTING PROFESSOR OF BRIDGE ENGINEERING

FRANK OLIVER DUFOUR was born in Washington, D. C., January 1, 1873. He prepared for college at the Washington High and Manual Training Schools, and was graduated from Lehigh University with the degree of C. E. in 1896. For more than a year he was employed by the Lehigh Valley R. R. In 1897 he was appointed instructor in civil engineering in Lehigh University. From 1901 to 1903 he held the position of Professor of Civil Engineering at the University of Cincinnati. He received his call to the University of Wisconsin in July, 1903.

During the last six summers Professor Dufour was actively engaged in railway bridge building. He is a member of the Theta Delta Chi Fraternity, of the American Association for Testing Materials, associate member of the American Society of Civil Engineers and a member of the Engineers' Club, of Cincinnati. Professor Dufour has written a number of articles for engineering periodicals, and is the author of a portion of Mermirun and Jacoby's Bridge Design.

Albert Bernhardt Faust, A. B., Ph. D.

ASSISTANT PROFESSOR OF GERMAN

ALBERT BERNHARDT FAUST was born in Baltimore, Md. He received his degrees of B. A. in 1889 and Ph. D. in 1892 in Johns Hopkins University. He held a fellowship in German at that institution during the college year of 1891-1892. The next two years he spent in study at the University of Berlin and traveled on the continent. He was appointed Instructor in German at Johns Hopkins University upon his return from Europe, and in 1896 was called to Wesleyan University, where he held the position of Associate Professor and Head of the Department of German seven years. He resigned at Wesleyan to accept the Directorship of Modern Languages in the Nautical Preparatory School, Providence, R. I. He accepted the call to the University of Wisconsin in 1903. Dr. Faust has published several books on various subjects.

Nevin M. Fenneman, A. B., A. M., Ph. D.

PROFESSOR OF GENERAL AND PHYSIOGRAPHIC GEOLOGY

NEVIN M. FENNEMAN graduated from Heidelberg College in 1883 with the degree of B. A. From 1888 to 1891 he was principal of the public schools of Greensburg, Pa.; from 1892 to 1900 he held a Professorship in Physical Science in the Colorado State Normal School. During the summer of 1895 he studied geology at Harvard and later at Chicago, receiving his A. M. degree there in 1898. He held a fellowship in the University of Chicago in 1901 and 1902, receiving his Ph. D. degree in 1901. He held the Professorship of Geology at the University of Colorado from 1901 until he accepted a like position at Wisconsin in 1903.

During the last few years Professor Fenneman was in geological survey work as Geologist of the Wisconsin Geological Survey and Assistant Geologist of the U. S. Geological Survey.

He is a member of the National Geographic Society, the Sigma Society, a Fellow of the American Association for the Advancement of Sciences and of the Geological Society of America, and President of the Colorado State Science Teachers' Association in 1899. He has written a number of geological and physiographic books and papers.

William Dodge Frost, B. S., M. S.

ASSISTANT PROFESSOR OF BACTERIOLOGY

WILLIAM DODGE FROST was born September 13, 1867, at Mt. Pleasant, Minn. He was graduated from the University of Minnesota with the degree B. S. in 1893. In 1893-4 he held a scholarship and the same year received his M. S. degree. In 1895 he was made Biologist to the Minnesota State Board of Health and the following year received a call from the University of Wisconsin as Assistant in Bacteriology. In 1898 he was appointed Instructor in Bacteriology. The second semester of the college year—1900-1901—he spent in study at Johns Hopkins Medical School. He was elected Assistant Professor of Bacteriology in 1903.

Professor Frost is author of a number of technical papers in botany and bacteriology, and a Laboratory Guide in Bacteriology. He is a member of the American Bacteriologists and the American Public Health Association.

George C. Humphrey, B. S.

ASSISTANT PROFESSOR OF ANIMAL HUSBANDRY.

GEORGE C. HUMPHREY was born in Lenawee County, Michigan, February 13, 1875. He was brought up on a farm and gained his early schooling at a country school. He entered the Michigan Agricultural College in the fall of 1893 with the idea of fitting himself to become a practical stockman. After completing two years of the four years' course, he managed his father's farm for three years. Having taught one year he returned to college, completing his course in 1901. In the fall he was called back to act as Instructor in Animal Husbandry in the Agricultural Department of his Alma Mater, which office he filled until elected to the position of Animal Husbandman in the College of Agriculture of the University of Wisconsin.

Edwin S. Mack, A. B., A. M., LL. B.

LECTURER IN LAW

EDWIN S. MACK was born in Cincinnati, December 27, 1869. He received his early education in the Milwaukee Public Schools. He attended Harvard University and was graduated in 1891, receiving the degree of A. B. with the distinction *magna cum laude*. Two years later he received the LL. B. degree, which was awarded *cum laude*, and at the same time received the degree of A. M. After graduation Professor Mack was admitted to the bar in Wisconsin. In October, 1895, he entered into practice. He was appointed Lecturer in Law at the University of Wisconsin in September, 1903. Professor Mack is a member of Phi Beta Kappa and the Ames-Gray Law Club (Harvard). While in the law school he was a member of the Board of Editors of the *Harvard Law Review*, and delivered the law oration at the commencement exercises. Several articles by Professor Mack have appeared in law magazines.

Harry Sauger Richards, Ph. B., LL. B.

DEAN OF THE COLLEGE OF LAW AND PROFESSOR OF LAW

HARRY SAUGER RICHARDS was born at Osceola, Iowa, November 20, 1868. He was graduated from the State University of Iowa with the degree of Ph. B. in 1892. He entered the Harvard Law School in the same year and was graduated in 1895. After practicing three years he was elected Professor of Law of the University of Iowa in June, 1898, and appointed Dean of the College of Law, University of Wisconsin, in June, 1903.

Dean Richards is a member of the ΦBK and ΦΚΦ Fraternities. He read a paper in August, 1901, before the Section on Legal Education of the American Bar Association. He was elected a member of the Executive Committee, American Law School Association, in August, 1903.

Caroline Louisa Hunt, A. B.

PROFESSOR OF HOME ECONOMICS

CAROLINE LOUISA HUNT was born in Chicago in 1865. She was graduated from Northwestern University with the degree of A. B. in 1888. In 1888 she accepted the position of Instructor of Physics at the Central High School, Minneapolis. Miss Hunt was then called to teach in the Girls' High School, Brooklyn, New York. In 1893 she returned to her Alma Mater, where she took postgraduate work for one year, and spent the following year at Chicago University. She was in the employ of the United States Department of Agriculture in 1895, and in 1896 was with the Department of Labor. From 1896 to 1901 Miss Hunt was Instructor in Domestic Economy at Lewis Institute, Chicago, and held the same position in John B. Stetson University in 1903. She is a member of ΔΓ, ΦBK, and the American Chemical Society.

Edwin Carl Lothar Clemens Roedder, A. B., A. M., Ph. D.

ASSISTANT PROFESSOR OF GERMAN PHILOLOGY

EDWIN CARL LOTHAR CLEMENS ROEDDER was born at Niederwasser (Black Forest), Germany, April 8, 1873. He attended the Grand Ducal Gymnasium of Tauberbischofsheim from 1886 to 1889, and Bruchsal from 1889 to 1891. He spent the following year at Heidelberg and entered the University of Michigan in 1892, where he graduated with the degree of A. B. He received the degree of A. M. at the same institution the next year. He was appointed assistant in German at Michigan in 1895, filling that position for one year, after which he was called to the Jarvis Hall Military Academy, Montclair, Colorado, as Instructor in Modern Languages. He returned to Michigan the following year to be Instructor in German for three years, receiving his Ph. D. degree. In 1900 he was called to the University of Wisconsin as Instructor in German. He was appointed Assistant Professor of German

Philology in June, 1903. As a writer Dr. Roedder has been particularly active, being a contributor to several journals.

John Wesley Shuster, B. S.

ASSISTANT PROFESSOR OF ELECTRICAL ENGINEERING

JOHN WESLEY SHUSTER was born at Humeston, Iowa, in 1871. He entered the department of Mechanical Engineering of the South Dakota State College at Brookings in 1893, and received the degree of B. S. in M. E. from that institution in 1897. One semester of 1898 was spent in the department of Electrical Engineering of the University of Nebraska. The year 1898-9 was spent at the University of Wisconsin, from which he was graduated in 1899 with the degree of B. S. in E. E. He was appointed to a fellowship in the department of Electrical Engineering of the University of Wisconsin in January, 1901. At the end of that year he was appointed instructor in Electrical Engineering and was promoted to Assistant Professor in 1903. He is an Associate Member of the American Institute of Electrical Engineers.

George Nelson Knapp, B. S.

ASSISTANT PROFESSOR OF FARM ENGINEERING

GEORGE NELSON KNAPP was born December 11, 1867, on a farm near Lodi, Wisconsin. In 1887 he entered the University of Wisconsin, but returned to the farm before the end of the college year. He reentered three years later as a special student in engineering. In 1892 Mr. Knapp attended the University of Chicago working in geology and allied subjects. He returned to Wisconsin and was graduated in June, 1895, with the B. S. degree. In 1895 he took up permanent work on the New Jersey Geological Survey for two years. He married Miss Winifred Case, U. W., '94, in 1897, and rented a farm in Sauk County, Wisconsin. In 1900 he moved to Stanton, Minnesota. Two years later he returned to New Jersey to complete work begun in previous years on the New Jersey Geological Survey, ranking as Assistant Geologist. He received his appointment as Assistant Professor of Farm Engineering in January, 1904.

EDWIN EUSTACE BRYANT

Edwin Eustace Bryant

SINCE the close of the last college year the College of Law has suffered an irreparable loss in the death of its former dean, Gen. E. E. Bryant. Gen. Bryant was born at Milton, Franklin County, Vermont, January 10, 1835. He was educated in the common schools and academies and at Hampton Institute in his native State.

In 1857 he came to Wisconsin, was admitted to the bar at Janesville, but soon removed to Monroe, where he married Miss Louise S. Boynton.

Early in the Civil War he enlisted as a private in the Third Wisconsin Infantry, declining a commission. Afterward he served in the Fiftieth Wisconsin. He became lieutenant, adjutant and lieutenant-colonel, and also acted as judge advocate. After the close of the war he became private secretary to Governor Fairchild and adjutant-general of the State. These duties brought him with his family to Madison to reside. In 1872 he formed a law partnership with Wm. F. Vilas, and in this connection he was employed in constant practice in much of the most important litigation of the State, and won a high reputation for learning, industry and sterling integrity.

In 1885, when his long-time partner and friend became postmaster general, he also went to Washington and became assistant attorney-general of the postoffice department. He remained at this post until 1889, when he became dean of the College of Law.

At the end of the college year of 1903 he resigned his duties as dean, but was willing to continue his connection with the law school and hoped for a little rest from the exacting toil of many years. It was the hope of the board of regents and of the throng of young men who had known and loved him that his connection with the law school might be continued for many years.

Gen. Bryant loved his work and his profession and in the intervals between other labors he wrote several law treatises, most of which related to pleading and practice in Wisconsin courts, and on those subjects he was the highest authority. He also prepared a general work on code pleading which is widely used in law schools throughout the country.

He was at one time a member of the State legislature and was afterward president of the State Commission of Fisheries and vice-president of the State Geological and Natural History Survey.

Gen. Bryant brought gladly to the service of the College of Law all his ripe and varied experience in professional and official life. From boyhood he had studied and loved the best of literature. He was himself a gifted and ready writer and was an entertaining and impressive public speaker. None of his contemporaries had a keener appreciation of humor, a readier wit, or a richer fund of experience and reminiscence from which to draw.

His family, his old comrades in arms, his professional brethren, his associates in public life, his neighbors and hosts of friends, the young law students who came under his guidance, all delighted in his companionship and will cherish the memory of the pure, kind, strong man who never failed to do his full duty in any private or public trust.

BURR W. JONES.

Hamilton Greenwood Timberlake

PERHAPS the news of none of the deaths which have occurred among faculty members within the last few years has come with more of a shock than did that, on July 19, 1903, of Professor H. G. Timberlake. He had been married but a few weeks, and had barely entered upon the work of the summer session, when, with scarcely a moment's warning, the end came. He was almost at the beginning of his active life, yet there was behind him enough of work already accomplished to tell us something of how useful that life was to be. His death meant not only a personal blow to those of us who knew him as a friend, but it involved also a real loss to the University and to the world of science.

Hamilton Greenwood Timberlake was born December 8, 1871, at Medley Springs, Berkeley County, West Virginia. When he was six years of age his father died and shortly after, in November, 1884, the family removed to Port Byron, Illinois, where his early education was received. After graduating from the Port Byron Academy, he taught for two years—during 1891-2 in Coe Township, Rock Island County, and the next year at New Bedford, Illinois. In the fall of 1893 he entered the Lake Forest University. His earlier training had been in classical lines, with the intention of preparing for the ministry, and it was with the same purpose in mind that he took up a classical course at the university. During his college career, however, perhaps under the influence of Professor John M. Coulter, who became president at Lake Forest during Mr. Timberlake's freshman year, he developed a decided liking for scientific studies; and, although he graduated from the classical course with the degree of A. B., he had taken a large proportion of the science then available at that institution. He was active in several lines of undergraduate life, winning considerable prominence as a debater, and being editor of the college weekly during his senior year.

Leaving Lake Forest after his graduation in 1897, he received an appointment as assistant in botany at the University of Michigan, where the next two years were spent in graduate study, and where, in 1899, he received the degree of M. S. In the fall of that year he came to the University of Wisconsin as instructor in botany. In February, 1903, he was elected to a research assistantship by the council of the Carnegie Institution, his work to begin September 1. In June he was promoted to the position of assistant professor of botany in the University, with a year's leave of absence to enable him to carry on his researches under the Carnegie appointment. He had well under way a paper on the processes connected with starch formation in various algae, which was to be presented as a doctor's thesis, and the investigations which he had planned in continuation of the same line of work for the coming year were full of promise of extremely valuable results.

On the 30th of June, 1903, he was married to Miss Violet Slack, of Madison. He is survived also by his mother, one sister, living at La Grange, Illinois, and one brother, Mr. Thomas M. Timberlake, of Chicago.

HAMILTON GREENWOOD TIMBERLAKE

FRANK JUSTIN WELLS

Frank Justin Wells

THE death of Professor Frank J. Wells, which occurred on the first day of March, 1904, came as a great shock to his friends and fellow workers in the College of Agriculture. Although he had not been in perfect health for some time, his final illness, diagnosed as congestion of the brain, was of very short duration, he being ill for less than one week. During the two years of his residence in Madison and of his connection with the University, Professor Wells showed himself to be a man of broad and kindly sympathies and a hard and conscientious worker in his chosen profession.

Professor Wells was born in 1868 on his father's farm, near Omro. At the age of fourteen he entered the Omro High School and later attended a business college. Upon determining to become a teacher he attended first the Oshkosh and then the Milwaukee Normal School, being graduated from the latter in 1895. For two subsequent years he was principal of the Palmyra High School, after which he entered Lawrence University, graduating from that institution with the degree of B. S. Professor Wells served as superintendent of the schools of Depere and as the principal of the High School for two years, when he was offered an instructorship in Agricultural Physics in the University of Wisconsin. Advancing rapidly in his work, last summer he was made Assistant Professor in recognition of his efficiency.

Professor Wells was married in 1896 to Miss Mary J. Bentley, of Appleton, and leaves besides his wife, two children—Justin, aged six years, and an infant daughter. During life Professor Wells was an earnest worker in the Presbyterian Church, where his loss has been greatly felt.

Officers

First Semester

WALLACE J. BENEDICT . . .
ELIZABETH PATTEN . . .

HENRY W. STARK . . .
WILLIAM C. NICHOLS . . .
ELBERT L. JORDAN . . .

GAIUS S. WOOLEDGE . . .

President
First Vice-President
Second Vice-President

Secretary
Treasurer
Sergeant-at-Arms
Historian
Pipe Custodian

Second Semester

ARTHUR E. THIEDE . . .
LUCIE N. CASE . . .
HULDAH B. HAINKE . . .
FLORENCE S. MOFFATT . . .
ARTHUR F. KRIPPNER . . .
JULIUS F. DERGE . . .
HORATIO WINSLOW . . .
GAIUS S. WOOLEDGE . . .

Colors

ROYAL BLUE AND WHITE

Yell

U RAH! U RAH!
U RAH ROAR!
U WISCONSIN!
NINETEEN-FOUR!

ALLEN CROSSMAN ABBOTT, ΑΔΦ

"Abb."

Oshkosh

Letters and Science.

Iron Cross; Yellow Helmet; Football Team (1), (2), (3), (4), Captain (4);
Football "W" 1901; Freshman Crew (1); Track Team (2), (3), (4);
Athletic Council, Athletic Board of Directors; Commercial Club.
Thesis: Legal Tender Decisions and the Power of Congress over the
Currency.

"The name that dwells on every tongue no minstrel needs."

ELMA LUCILLE ADAMS

Milwaukee

Letters and Science.

Thesis: The Conjugatae of Wisconsin.
"Still waters run deep."

GEORGE FINLAY ANDERSON

Maquoketa, Iowa

Letters and Science.

Thesis: Resonance and Phase Variation in Oscillating Circuits.
"Much can be made of a man if he be caught young."

ADEN WRIGHT ANDREWS

Columbus

Civil Engineering.

Athenæ: Society of Civil Engineers.

Thesis: The Cross tie Problem, with Special Reference to the Preser-
vation of Wooden Ties.

"Wee, sleekit, cow'r'n, tim'rous beastie."

JOHN BERTRAM ANDREWS

South Wayne

Letters and Science.

Thesis: Development of Employers' Associations.

"Let the greatest order regulate the actions of your life."

MARGARET ASHMUN

Waupaca

Entered as a Senior from University of Chicago.

Letters and Science.

Thesis: The Child in Modern Literature.

"Her ways are ways of pleasantness and all her paths are peace."

AMELIA ALICE ASKEW, II BΦ

"Aunt Amelia."

Madison

Letters and Science.

$\Sigma\Delta\Sigma$

Thesis: Woman's Status as shown in the Poetical Works of Ludwig Uhland.

"She gives a side-glance and looks down. Beware! Beware!"

ELIZABETH BARBARA AUGUSTINE
Racine

Letters and Science.

Thesis: Suetonius and Tacitus as sources for the life of Tiberius
"And e'en her failings lean to virtue's side."

EDWIN LAMONT BARBER
Kansas City, Missouri

Electrical Engineering.

N. O. Whitney Engineers' Association.

Thesis: Tests on Electric Headlights for Locomotives.

"Oh, if I could only wed a rich and beautiful woman."

ARTHUR HERMAN BARTELT
Fort Atkinson

Letters and Science.

Athenæ; Freshman Crew (1); Varsity Crew (3); Crew "W" 1903;

Sub-tackle Football Team (1), (3).

Thesis: Influence of the Spoils System Upon the Treasury Department from 1825-1842.

"Be not always so positive you are right."

ALFRED HENRY BAUER
Brownsville

Letters and Science; Pharmacy.

Students' Pharmaceutical Society, President (4).

University Band (3), (4).

Thesis: A Study of Powdered Cinnamon Bark.

"Why! Saw you anything more wonderful?"

MRS. CHARLOTTE McCUTCHEON BEATTY
Madison

Letters and Science.

Thesis: The Influence of Theocritus on Tennyson.

"To all she smiles extends."

HERMAN BECKENSTRATER

Seymour

Letters and Science.

Agricultural Club; Grafters' Club.

Thesis: A Study of the Growth of Alfalfa in Different Wisconsin Soils.

"So absent minded, it's a wonder that he ever remembered anything."

WALLACE JAMES BENEDICT, ΔΤ, TBII

"Benny."

Milwaukee

Mechanical Engineering.

Class President (4); Prom. Committee (3).

Thesis: Peat Investigation.

"Did it ever occur to you that he was in some points like Ben Franklin?"

WILLIAM BRYANT BENNETT, ΣAE

"Bill."

Mineral Point

Civil Engineering.

Class Treasurer (3); Chairman Decorating Committee Junior Prom. (3).

Thesis: Ore Dock Construction and Operation.

"I'll steal through life in my own quiet way."

RANSOM DRIPS BERNARD, ΘΔΧ

"Willie."

Madison

Letters and Science.

Athenæ.

Thesis: A Study of the Islands of Langerhause in the Pancreas of the Cat.

"Stiff in opinion, always in the wrong,
Was everything, by starts and nothing long."

ERVIN JOHN BEULE

Fox Lake

Letters and Science.

Athenæ: Recording Scribe (1), Secretary (2); *Daily Cardinal* (1);

Alumni Magazine (4).

Thesis: The Polar Intersection Curves of Systems of Circles.

"Appreciation—how religiously you avoid the truly great."

JOSEPH I. BINGHAM

Lockwood, N. Y.

Sanitary Engineering.

U. W. Band (2).

Thesis: Design of a Sewer System and Filter Bed for Monroe, Wis.

"You may trust him in the dark."

WARREN J. BISHOP, BOII

"Bish."

Milwaukee

General Engineering.

Track Team (1) (2); Basket Ball (1).

Thesis: Methods of Train Sighting.

"Silence is his one great art of conversation."

LOREN DWIGHT BLACKMAN

"Blackie"

Neenah

Letters and Science.

Athenæ: Secretary (2), Treasurer (3), Vice-President (3), President (4), Freshman Dec. (1), Closer Freshman Blow-Out, Closer Semi-Public (2), Closer Joint Debate (3); Class Treasurer (1); U. W. Corps of Cadets: Lieutenant (2); Director University Co-op. Association (1), (2), (3); Vice-President Oratorical and Debating League (4); Y. M. C. A. Cabinet; Board of Directors Co-operative Association (1).

Thesis: Monopoly in Industrial Combinations.

"A grave and somber man, whose beetling brow
O'erhangs the rushing current of his speech as rocks o'er rivers hang."

JAMES BRONSON BLAKE, ΦΔΘ, ΦBK

Winona, Minn.

ΣΔΣ; Iron Cross; *Cardinal*: Associate Editor (4); Badger Board; Interfraternity Base Ball League: Director (2). President (3); Secretary Golf Club (3); Class President (3); Haresfoot Club (3), (4), Vice-President (4).

Thesis: Filibustering in Connection with Southern Expansion.

"Great men are the true men, the men in whom nature succeeded."

ARTHUR JOSEPH BLESER

Manitowoc

General Engineering.

Thesis: Lead and Zinc Deposits, at Potosi, British Hollow and Dutch Hollow, Wisconsin.

"Are we on land or sea now?"

FRANK HERBERT BLOOD

Kenosha

Electrical Engineering.

Thesis: Methods of Obtaining Constant Pressure Under Varying Speeds.

"Will all great Neptune's ocean wash this blood clean from my hand?"

JOHN BAPTIST BOMMERSHEIM

Milwaukee

Letters and Science, Commerce.

Hesperia: Commercial Club.

Thesis: Bank Rates and Why They Fluctuate.

"A thousand things had been planned, and none completed."

WILLIAM BRADFORD, ΣΑΕ, ΤΒII, ΣΤ

"Brad."

Stevens Point

Electrical Engineering.
N. O. Whitney Engineer's Club; Board of Editors *Wisconsin Engineer* (2); Badger Board (3); Class President (3).
Thesis: High Tension Dust Collection.
"Your learning, like the lunar beam, affords light, but not heat; it leaves you undevout, frozen at heart, while speculation shines."

MABEL JOSEPHINE BRADLEY

Madison

Letters and Science.

Thesis: The Vocabulary of Christine de Pisan.
"A step more light, a foot more true,
Ne'er from the heath-flower dashed the dew."

ARTHUR BRESLAUER

"Art."

Milwaukee

Letters and Science.
Philomathia; Closer Freshman Blow-Out (1), Semi-Public, Joint Debate.
Thesis: Industrial Arbitration.
"His is that language of the heart."

RALPH DEXTER BROWN, ΨΤ

"Sliver"

Rhinelander

Letters and Science.
Yellow Helmet; Iron Cross; Philomathia; U. W. Corps of Cadets:
Lieutenant (2), Captain (3).
Thesis: Forestry Conditions in the United States.
"Friend Ralph, thou hast outrun the constable at last."

ETHELWYN BERENICE BUCK, ΑΦ

"Bun."

Platteville

Letters and Science.
Thesis: A Study in the Development of the Social Impulses of Children.
"Peace at any price."

SOLON JUSTUS BUCK

Berlin

Letters and Science.
Olympia: President (4), Critic (4), Treasurer (3), Censor (3), Closer Sophomore Debate (2).
Thesis: The Settlement of Oklahoma.
"Oh, were I as wise as my name!"

LAWRENCE WYLIE BURDICK
Albion

Letters and Science.
Athenae; Greek Play (3).
Thesis: Native Roman Comedy.
"Better late than never."

JOSEPH PATRICK BURNS
Watertown, N. Y.

Civil Engineering.
U. W. Band.
Thesis: The Improvement of the Yahara River.
"Well! What of it?"

WILLIAM PAUL BUSH
Sparta

Letters and Science.
Philomathia: Vice President (3), President (4); Y. M. C. A.; Germanistische Gesellschaft.
Thesis: Jurisdiction disputes.
"He declared he knew nothing, except the fact of his ignorance."

BENTON BAYARD BYERS
Monroe

Letters and Science; Pharmacy.
Thesis: Detection of Adulterants in Piper Nigra by Microscopical Analysis.
"Have held no offices; am not an office seeker."

ORA BUTLER CAHOON
"Orie."
Baraboo

Mechanical Engineering.
Badger Board (3); Class Baseball Team (3); U. W. Corps of Cadets: Lieutenant (2), Captain (3), Lieutenant-Colonel (4).
Thesis: Gas and Gas Engines.
"Where are you going?"

KATHARINE LEE CAREY
Bloomington

Letters and Science.
Castalia; Y. W. C. A.
Thesis: The Study of Nature in the Poetry of Wordsworth.
"She has no faults, or I no faults can spy."

FRED KILBURN CARRICO, ΦΚΣ
Rockford, Ill.

Letters and Science.
U. W. Corps of Cadets: Lieutenant (2), Captain (3), Major (4); Prom. Committee (3).
Thesis: State Legislature of Illinois.
"The same dreams, the same longings, the same aspirations, the same indecision."

WILLIAM PETER CARROLL
Wales

Letters and Science.
Thesis: Causes of Irish Rebellion of 1798.
"We grant that though he had much wit,
He was very shy of using it."

CHARLES EDWARD CARTER
"Chick."
Milwaukee

Electrical Engineering.
Thesis: The Ratio of the Amount of CO₂ Present in the Flue Gases to the Boiler Efficiency.
"There is a lot of deviltry beneath his mild exterior."

PERRY JOHN CARTER, ΘΔΧ
"Peg."
Mauston

Civil Engineering.
Thesis: The Cross-tie Problem, with Special Reference to the Substitutes for Wooden Ties.
"A trained, clear-seeing, unbiased intellect."

LUCIE NELL CASE, ΦBK
Milwaukee

Letters and Science.
Badger Board (3); Secretary Self-Government Association (2).
Thesis: Relations with the Southwestern Indians 1783-1793.
"As quiet as a nun is she."

MATILDA HELEN CASE
"Casey."
Heart Prairie

Letters and Science.
Girl's Basket Ball Team.
Thesis: The Foreign Policy of William Marcy.
"Is that my bell?"

SEYMOUR WYATT CHENEY, TBII

"Sammy."

Fond du Lac

Mechanical Engineering.

U. W. Engineers' Club: President (4); *Wisconsin Engineer*: Assistant Business Manager (3), Business Manager (4); Cap and Gown Committee (4).

Thesis: The Utilization of Peat Gas in a Gas Engine.

"Don't talk anything but business to me."

HERBERT EDGAR CHYNOWETH, ΨΤ

"Chine."

Madison

Letters and Science.

Commercial Club.

Thesis: Savings Banks in the United States since 1893.

"Alas!" said he, with a sigh."

ELSIE LUELLA COERPER

Hartford

Letters and Science.

Y. W. C. A.; S. G. A. (2).

Thesis: Inferences from "Kenilworth" in "Graf Leicester" and

"Amy Robsart."

"Heaven is in thy soul; beauty and virtue shine forever round thee."

MIRAH CONGDON, KAΘ

La Crosse

Letters and Science.

Thesis: Scientific Theories of Lucretius Compared with Modern Theories.

"She was a quiet little lady."

MAUD CONRY

Madison

Letters and Science.

Thesis: The Zygospore of Spirogyra.

"Sweet promptings unto kindest deeds were in her very look."

HENRY ALLEN COOK

Madison

Letters and Science.

Olympia: Corresponding Secretary (4); Choral Union; U. W. Corps of Cadets: First Sergeant (2), First Lieutenant (2), Captain (3), Regimental Quartermaster (4).

Thesis: The Life and Times of St. Columban.

"Soft! Who comes here?"

NETTIE MARY COOK
Lake Mills

Letters and Science.
Castalia; Y. W. C. A.: Cabinet (2), (3), (4). Vice-President (3).
Thesis: The Life History of Tradescantia Virginica.
"She stoops to nothing—but a door."

ELVA COOPER
Milwaukee

Letters and Science.
Pythia: Treasurer (3), Junior Ex. (3); Edwin Booth Play (3); Hares-foot Play (4); Woman's Athletic Association: Athletic Board (3), (4); Basket Ball Manager (3), (4); Class Basket Ball Team (1), (2), (3), Captain (3); Girl's Crew (1); Y. W. C. A.
Thesis: Parabolic Transformations Between Two Planes.
"Second to none."

WILLIAM ALBERT COWELL
"Bill."
Kewaunee

Letters and Science.
Philomathia: Junior Ex. Orator, Winner Junior Open.
Thesis: Development of Legislation in Wisconsin.
"I do know him by his gait; he is a friend."

FRANK BERNARD CREEDEN
Greenleaf

Letters and Science; Pharmacy.
Pharmaceutical Society.
Thesis: Detection of Adulteration of Piper Nigra by Chemical Means.
"The less men think, the more they talk."

WILLIAM JAIRUS CRUMPTON, ΦΚΣ, ΣΤ
Superior

Electrical Engineering.
Thesis: Test of Baraboo Electric Central Station.
"This is the period of my ambition; Oh, this blessed hour."

WILLIAM ALOYSIUS CUNNEEN
Mazomanie

Letters and Science.
Hesperia.
Thesis: Restriction of Output.
"Willie has the will—but will he?"

ISAAC JAMES DAHLE, ΔΤΔ

"Ike."

Mount Horeb

Letters and Science.

Yellow Helmet; Commercial Club; Assistant Manager Baseball Team (3); Manager Baseball Team (4); Chief Musician Bugle Corps (2); Chairman Reception Committee Junior Prom. (3).
Thesis: Development of Inter-Urban Electric Railway in the New England States.

"Sure this gay, fresh *suit*, as seems to me,
Hangs like green ivy on a rotten tree."

LLEWELLYN RHYS DAVIES

Madison

Agriculture.

Hesperia: Vice-President (3); U. W. Agricultural Club; Y. M. C. A.: Republican Club: Treasurer (4).
Thesis: "A Study of Rate of Growth of Pigs."
"A dimpled smile for every man."

HERMAN FERDINAND DERGE

"Doc," "Herm," "Dimples."

Eau Claire

Letters and Science, Pre-Medic.

Thesis: A Study of the Arterial Supply of the Brain of the Cat.
"He was a man, take him for all in all,
I shall not look upon his like again."

JULIUS FERDINAND DERGE

"Jinks," "Chuncey," "Jewels."

Eau Claire

Letters and Science.

Yellow Helmet; Olympia; Class Secretary (3); Commercial Club: President (4), Secretary (3).

Thesis: Fraudulent Investment Companies.
"I've got to go to the library and buck."

FLORENCE ADELE DODGE

Windsor

Letters and Science.

Castalia.

Thesis: The Character of the Old Man in the Plays of Plautus and Terence.

"In virtues, nothing earthly could surpass her."

JULIA DONLEY

Kenosha

Letters and Science.

Thesis: Diplomatic Relations with France During Washington's Administration.

"Her overpowering presence made you feel
It would not be idolatry to kneel."

LAURA EDNA DU FOUR
Racine

Letters and Science.
Thesis: Family Life in the Time of the Colonies with Special Reference to the Position of Women.

"Nought can to peace the busy female charm,
And if she can't do good, she must do harm."

ANDREW GROVER DU MEZ
Cashton

Letters and Science; Pharmacy.
Pharmaceutical Society.
Thesis: Oil of Cedar and Canada Balsam.

"Oh, wearisome condition of humanity."

FRANK WINSOR DUNBAR
Elkhorn

Graduate of Whitewater Normal.
Letters and Science.
Athenae; Mandolin Club (3).
Thesis: Land Legislation of Virginia from 1624-1774.

"Many men are esteemed because they are unknown."

FRANK J. EATON, AXΣ
Cudahy

Letters and Science.
Olympia; Chemical Club.
Thesis: The Action of Picryl Chloride on Nitro Pyrocatechins—A Study of the Effect of Structure on the Reactions of Organic Compounds.
"I am Senator Eaton's son."

ERNEST ALBERT EDWARDS
"Ernie."
Ashland

Letters and Science.
Hesperia; Secretary (2), Vice-President (3), President (4); Reporter *Daily Cardinal* (2), Exchange Editor (3), Associate Editor (4); Commercial Club; Vice-President (3), Board of Directors (4); Nora Samlag; Treasurer (4); Germanistische Gesellschaft; El Circulo Espanol.
Thesis: Development of Express Transportation.
"The History of a man is his character."

MARY AMELIA EGAN, ΔΔΔ
Madison

Letters and Science.
Thesis: The Development of the Literary Magazine in New England, 1833 to 1858.
"They say her smiles are sunbeams—it may be—
But never a sunbeam has she thrown on me."

1904

OLE J. EGGUM
Mount Horeb

Letters and Science.
Hesperia : Semi-public (2), Secretary (2), Treasurer (3), President (4);
Nora Samlag: President (4).
Thesis : The Administration of State and Federal Health Laws.
"Great men are seldom isolated mountain peaks. They are the summits
of ranges."

RALPH BURCHARD ELLIS, SAE
Madison

Letters and Science.
Iron Cross; Philomathia; *Sphinx* (1), (2), (3), Managing Artist
Sphinx (2); Chairman Badger Board (3); Scissors and Paste.
Thesis : The Influence of the Political Cartoon Upon Public Opinion
in America.
"He drew a fine hand."

GEORGE HARVEY ELVIS
Medford

Mechanical Engineering.
Thesis : Determination of Cost of Operating Mechanical Ventilating
Plant in State Asylum.
"Many a man lives a burden to the earth."

CHARLOTTE W. EPSTEIN
"Lottie."
Portage

Letters and Science.
Girls' Glee Club : (2), (3), Secretary and Treasurer (3); Germanistische
Gesellschaft (3).
Thesis : Tiberius and Sijanus.
"Her frowns are fairer far
Than smiles of other maidens are;
And then — her voice!"

ORLANDO RICHARD ERWIN
Milwaukee

Electrical Engineering.
Thesis : The Design of a Rotary Steam Engine.
"So please go 'way and let me sleep."

NELLIE A. ETTER, ΓΦΒ
"Nell."
Monroe

Letters and Science.
Senior "X"; Badger Board (3).
Thesis : Tennyson's Reputation as Shown in the Early Nineteenth
Century.
"The light upon her face shines from the windows of another world."

1904

LILLIAN H. EVANS
Spring Green

Letters and Science.
Thesis: The History of Wordsworth's Reputation as Shown in Periodical Criticism from 1800-1850.
"Infinite riches in a little room."

MAGDALEN EVANS, ΦBK
Madison

Letters and Science.
Thesis: Periodicity in Rate of Growth of Certain Flowering Plants.
"Within her eye the heaven of April with its changing lights."

MARY MARGARET EVANS
Spring Green

Letters and Science.
Girls' Glee Club.
Thesis: On a Certain Cubic Transformation Between Two Planes and Two Spaces.
"Nolle me tangere."

DONALD NIVISON FERGUSON, ΣX
"Don," "Fergie."
Milwaukee

Letters and Science.
Thesis: A Study of the Morale of Molière.
"He knew himself a villain—but he deemed
The rest no better than the thing he seemed."

HENRIETTA FINDEISEN, ΓΦΒ
"Henry."
Chicago

Entered from Northwestern University.
Letters and Science.
Thesis: The Women in Molière's Dramas.
"But thou dost make the very night itself brighter than day."

ERNEST JAMES FISHER
Beaver Dam

Civil Engineering.
Civil Engineering Society.
Thesis: Design of Sewerage System and Disposal Plant for Beaver Dam, Wisconsin.
"My way is to begin with the beginning."

1904

MORRIS FULLER FOX, ΨT

"Grandpa," "Mo."

Madison

Letters and Science.

Yellow Helmet; Commercial Club: Vice-President (4); Commodore Wisconsin Crews (4); U. W. Corps of Cadets: First Lieutenant (2), Captain (3).

Thesis: A History of National Banks for the Decade, 1893-1903.

"The greatest art of an able man is to know to conceal his ability."

DONALD K. FROST, $\Delta T\Delta$, ΣT

"Cupid," "Deke."

Winona, Minn.

Electrical Engineering.

Thesis: Investigation of Carbon Brushes.

"To be great is to be misunderstood."

JAMES G. FULLER

Waterman, Ill.

Letters and Science; Agriculture.

Hesperia; Semi-Public Debate (2); U. W. Agricultural Club: President (4); Y. M. C. A. Treasurer (4).

Thesis: Some Effects of Feeding on the Growth of Young Pigs.

"Will have some half dozen friends—and there an end."

EDWARD W. GALLOWAY

"Stubbs."

Whitewater

Mechanical Engineering.

Thesis: Gas and Gas Engines.

"They say best men are moulded out of faults."

HARRY GARDNER, $A X \Sigma$

"Garry."

Monroe

Sanitary Engineering.

Sphinx: (1), (2), (3), (4), Art Editor *Sphinx* (2); Badger Board (3); U. W. Band (2), (3).

Thesis: Design of a Sewerage System and Disposal Plant for Monroe, Wis.

"Strike up the drum; and let the tongue of war plead for our interest."

GUSTAV WALTER GARVENS

Wauwatosa

Civil Engineering.

Hesperia; U. W. Engineers' Club; Joint Debate Team; Badger Board (3); Y. M. C. A.

Thesis: The construction of the Knoxville and LaFollette Railway.

"What shadows we are and what shadows we pursue."

MINNA EVANGELINE GATH
Madison

Letters and Science; Y. W. C. A.

Thesis: The Women of New Comedy.

"Longing to depart upon the fair journey before her, and yet,
linger on the paternal threshold, as if she wished both to stay
and to go."

MARY ALICE GILLEN, KKG
"May."
Racine

Letters and Science.

Badger Board (3).

Thesis: Development of the American Novel of Adventure.

"Whether in sorrow, or whether in fun
On all she wrote Endymion."

JAMES MOSELEY GILMAN
"Deacon."
Madison

Civil Engineering.

Thesis: An Experimental Investigation of the Various Methods of
Reënforcing Concrete Beams.

"Hit it up, Jim, the folks are watching you."

MABEL GODDARD
Freeport, Ill.

Letters and Science.

Castalia: Secretary (2); Badger Board (3); Self Government Board (3).

Thesis: Nature in Irving and Cooper.

"The beautiful are never desolate; but some one always loves them."

EDGAR A. GOETZ, PKΣ, TBII
Milwaukee

General Engineering.

N. O. Whitney: Joint Debate; U. W. Corps of Cadets: Captain (3),
Major (4).

Thesis: Steel Castings.

"All the world is Duere to him "

GEORGE GOVE, ΣAE
Madison

Letters and Science.

Mandolin Club (1), (2); Regimental Leader (3), (4).

Thesis: A comparison of Dio Cassino and the Epitome Xiphilinus.

"Matchless harmony."

1904

CHRISTIAN FREDERICK GRAFF

"Pa Graff."

Seattle, Wash.

Civil Engineering.

Thesis: Swing Bridges.

"To my wife is due any possible credit of my graduation."

FRANK BURDETT GREEN

Evansville, Wis.

Letters and Science.

Thesis: The Western Insurrection.

"He laid so many books in his head that his brain could not move."

ROBERT GRAY GRISWOLD, TBII

West Salem, Wis.

Mechanical Engineering.

N. O. Whitney Engineers' Association: Vice-President (3), (4);
Alumni Editor *Wisconsin Engineer* (4); J. B. Johnson Memorial
Committee.

Thesis: The Behavior of Flat Steel Plates.

"We are never what we aim to be."

WILLIAM EDWARD GROVE

Madison, Wis.

Letters and Science.

Hesperia: Assistant, State Historical Library.

Thesis: A Study of the Bronchial Artery.

"Sie sind meinige Minna, sie sind ewig meinige."

REGINA EUNICE GROVES

Madison, Wis.

Letters and Science.

Thesis: Victor Hugo's Cromwell and G. von Meyern's Die Cavaliere.

"She studies art."

FREDERIKE B. HAAN

Renville, Minn.

Letters and Science.

Thesis: Jeremias Gotthelf's Imagery.

"Her pretensions to youth, as her dress shows, are not gone."

RUDOLPH E. HAGENAH

"Rudy."

Reedsburg, Wis.

Mechanical Engineering.

N. O. Whitney Engineering Association.

Thesis: Gas and Gas Engines.

"With his words all seemed well pleased."

HOVHAN HAGOPIAN

Van, Armenia

Entered at Junior year.

Letters and Science.

International Club: President (4).

Thesis: The Relations of the Armenians and the Franks During the

Reign of Leon II (1186-1219).

"A dialect beyond our ken, the accents of an unknown tongue."

HULDAH B. HAINKE

Milwaukee

Letters and Science.

Pythia: Treasurer (4); Y. W. C. A.; Class Basket Ball Team (3), (4).

Thesis: Thermo-Conductivity of Alloys.

"I have no skill in woman's changeful moods, tears without grief and smiles without a joy."

NORMA CATHERINE HALBACH

Marinette, Wis.

Letters and Science.

Germanistische Gesellschaft.

Thesis: The Development of the German Ballad in the Second Half
of the Eighteenth Century.

"I know myself now, and I feel within me a peace above all earthly dignities."

BEN SEVERIN HALE

Waupaca

Letters and Science.

Philomathia: Semi-Public.

Thesis: Influence of Henrik Ibsen on German Realism.

"I have arrived at last unto the wished haven of my bliss."

WINIFRED EMMA HALE

Waukesha

Entered from Whitewater Normal.

Letters and Science.

Y. W. C. A.: Cabinet (3), (4).

Thesis: The Attitude of the Early Christian Apologists toward the
Government.

"I detect more good than evil in humanity."

EDWIN MORGAN HALL

"Flossie."

Chicago, Ill.

Electrical Engineering.

Thesis: Efficiency Test of Portage Lighting Plant.

"Hail, thou most sacred venerable thing!"

KATHRYN HALL

Watertown

Letters and Science.

Thesis: The Poetry of Robert Herrick.

"Let me adore with my thrice happy pen
The sweet and sole delight of mortal men."

MARGARET SPENCER HALL

Madison

Letters and Science.

Castalia: Secretary (3); Y. W. C. A.

Thesis: The Foreign Policy of Tiberius.

"Soft peace she brings, wherever she arrives."

MERTON GLENN HALL, TBII

Reedsburg

Sanitary Engineering.

Civil Engineering Society; *Wisconsin Engineer* (3), (4); Basket Ball
(2); Choral Union.

Thesis: Design of a Sewer System for Columbus, Wis.

"The cry is still, 'They come.'"

ELMER WILLIAM HAMILTON

"Hammie."

Arena

Letters and Science.

Secretary Olympia (3), President Olympia (4), Junior Ex (3); Chairman Chronicle Committee Badger Board (3); Class Secretary (2), Vice-President (3); Secretary Commercial Club (4).

Thesis: Pioneer Railways in the U. S. with Contemporary Opinions.
"This is really a great time to live in, but only some of us can catch
the cue of it."

EDWIN A. HANSON

Blair

Letters and Science.

Pharmaceutical Society: Assistant Censor.

Thesis: Assaying of Some of the Pharmaceutical Preparations on

Wisconsin Markets.

"His eye was blue and calm, as is the sky in the serenest moon."

FRANK HERBERT HANSON
Stoughton

Electrical Engineering.
N. O. Whitney Eng. Ass'n. (2), (3), (4).
Thesis: Comparative Tests of Enclosed Fuses.
"His name was, while he liv'd, above all envy."

HARRIET ANNE HARVEY
Racine

Letters and Science.
Castalia: Secretary (2), Treasurer (3); Self Government Association:
Secretary (3), Treasurer (3); Y. W. C. A.: President (4).
Thesis: A Comparison of the Menaechus of Plautus and Comedy of
Errors by Shakespeare.
"Once in my life I made a break."

WINFRED DAVID HASELTINE
Mazomanie

Letters and Science.
Olympia.
Thesis: A Historical Study of Slavery in the Island of Jamaica.
"Innocent Winfred: No one knows whether (s) he is a man or a
woman."

BERNICE CLARA HATCH
Sturgeon Bay

Letters and Science.
Thesis: History of Scott's Reputation as Shown in Periodical Criti-
cism from 1800-1850
"There is nothing so kingly as kindness, and nothing so royal as truth."

WILLIAM HENRY HAUSER
"Bill."
Fargo, N. Dakota

Mechanical Engineering.
Thesis: The ratio of the Amount of CO₂ Present in Flue Gas to the
Boiler Efficiency.
"Which one shall I take this time?"

JOHN GILBERT HAYDEN
"John."
Milwaukee

Letters and Science.
Philomathia: President (4); Semi-Public Orator (2); Treasurer Oratori-
cal and Debating League (4); Badger Board (3); Class Track Team
(1), (2); Varsity Track Team (1), (2), (3); Class Secretary (2).
Thesis: The Relations of the French and the Fox Indians of Wisconsin.
"Young in limb, in judgment old."

WALTER RICHARD HEIDEMANN

"Sol."

Waterloo

Electrical Engineering.

N. O. Whitney Association.

Thesis: Insulation of Wires.

"He bears him like a portly gentleman."

AMY LOUISE HENDRICKSON

Madison

Letters and Science.

Thesis: A History of the Land System in the Northwest from 1812 to 1862.

"Old friends are best."

ROBERT ROY HENRY

Arcadia

Electrical Engineering.

U. W. Engineers' Club.

Thesis: Methods of Obtaining Constant Pressure Under Varying Speeds.

"Men are not all the same."

JOSEPH EDWARD HILLEMEYER

"Heinie,"

Shullsburg

Electrical Engineering.

N. O. Whitney: Charter Member.

Thesis: An Investigation of Carbons for Use in Electric Arc Lamps.

"Was he cut out for an Engineer?"

ALBERT GEORGE HINN, ΣΝ

"Cap't," "Happy."

Fennimore

Letters and Science.

University Band (1), (2), (3), (4), Leader (4); Junior Prom. Committee (3).

Thesis: The Foreign and Domestic Exchanges During the Last Decade.

"Give us the lad whose happy life is one perpetual grin."

JOHN SHERMAN HODGE

Burnett Junction

General Engineer.

Thesis: Efficiency of the Modern Gas Engine of the Wabash Type.

"How few are found with real talents blest,

Fewer with nature's gifts contented rest."

ALBERT JOHN HOFFMANN
Brookfield

Letters and Science.
Thesis: Novel and Drama of "Jürg Jenatsch."
"To do good to men is the greatest work of life."

DON CLEMENT HOLLOWAY
Janesville

Mechanical Engineering.
J. B. Johnson: President, Censor; Y. M. C. A.
Thesis: An Investigation in the Losses in Power Transmission and
an Estimate of the Installation and Maintenance of an Electrically
Driven Plant at the Janesville Machine Company.
"Reputation—oft got without merit and lost without deserving."

CHARLES V. HOPPER
"Chappy."
Eau Claire

Civil Engineering.
Thesis: An Alternate Design for the Michigan Central Railway Bridge
across Niagara River.
"Central! Give me 651."

JOHN EDWARD HOWLEY
Madison

Letters and Science.
Olympia: President (4).
Thesis: The Ante-bellum Cotton Planters in Industry, Society and
Politics.
"Oh, inconstant man! How will you promise, how will you deceive?"

FARNHAM A. HUDSON
Waukegan, Ill.

Letters and Science.
Philomathia.
Thesis: Land Legislation of 1820.
"Shall I never see a bachelor of three score again?"

FRED RALPH HUNT
Sioux City, Iowa

Letters and Science.
Philomathia: Recording Scribe, Secretary, President (4); Gymnastic
Team (3); Captain Gymnastic Team (4).
Thesis: Industrial Employment of Criminals.
"But oh, he dances such a way!"

CARL FREDERICK HUTH

Milwaukee

Entered as Senior from Concordia College.
Letters and Science.

Thesis: Otto von Freising,
"Work never did him any harm."

JAMES HUTTON, ΔΤ

"Squirt," "Scotch."

Waukesha

Letters and Science.

Olympia.

Thesis: Internal Improvements in South Carolina up to 1860.
"If naebody care for me, I'll care for naebody."

FRED CLARENCE INBUSCH, XΨ

"Snick."

Milwaukee.

Letters and Science.

Yellow Helmet; Manager Basket Ball Team (2).

Thesis: Naturalization.

"The elements of being satisfied consist in being just like me."

MARGARET CLARICE JACKMAN, ΔΓ

"Mag."

Janesville

Letters and Science.

ΣΔΣ; Senior "X;" Red Domino.

Thesis: Cicero's De Natura Deorum as Illustrated by Lucretius.
"10,000 angels on her slumbers wait with glorious visions of her future state."

FRANCIS SOPHIA COURtenay JAMES

Eau Claire

Letters and Science.

Thesis: Milton's Religion as Shown in His Works.

"Something between a hindrance and a help."

JAMES CHARLES JAMES, ΦΚΨ

Aurora, Ill.

Letters and Science.

Thesis: Calhoun and South Carolina to 1833.

"This most gallant, illustrious and learned gentleman."

HENRY HANS JEBENS
Davenport, Iowa

Letters and Science.
Olympia: President (4), Critic, Censor, Assistant Censor; International Club: President.
Holder of Lillian Page Allis Scholarship (3).
One-half of Lillian Page Allis Scholarship (4).
Thesis: Laube's Vollendung des Schillerschen Demetrius.
"Strength of limb and policy of mind, ability in means and choice of friends."

IDA ISABELLE JONES
Plymouth

Letters and Science.
Pythia.
Thesis: On Certain Envelopes.
"One of the few immortal names that were not born to die."

ELBERT LEWIS JORDAN
"Pa."
Berlin

Letters and Science.
Iron Cross (4); Varsity Crew (1), (2), (3), (4); Captain Crew (4); Crew "W" 1901; Student Member of Athletic Board (4); Athletic Council (4).
Thesis: The Effect of Stable Temperatures upon Milk Yields of Dairy Cows.
"A plain clothes man on the right trail."

OSMUND MARCELLUS JORSTAD
La Crosse

General Engineering.
Athenae: (1), (2); Gymnasium Instructor (1), (2), (3); *Daily Cardinal* Reporter; 2d Vice-President Class (1); Mandolin Club (1), (2), (3), Manager (3).
Thesis: Artificial Refrigeration.
"I beseech you all, be better known to this gentleman."

GEORGE ALBERT JOSLIN
"Josh."
Allen Grove

Letters and Science.
U. W. Pharmaceutical Society: Corresponding Secretary.
Thesis: Advantage of Ferrum Electrolyse Reductum over Ferrum Hydrogenis Reductum in Pharmaceutical Preparations.
"They call me 'Josh'—I wonder why."

WILLIAM JOSEPH JUNEAU, BOII
"Bill."
Milwaukee

Letters and Science.
Iron Cross; Yellow Helmet; Track Team (1); Track "W" 1900; Football Team (1), (2), (3), (4), Captain Football Team (4); Football "W" 1900.
Thesis: Marginal Seas and Their Status in International Law.
"The faculty took such a liking to me that they asked me to stay another year."

GUSTAVE EDMUND KAHN

"Gus."

Milwaukee

Civil Engineering.

Civil Engineering Society: Pres. (4); Junior Prom. Committee.
Thesis: An Experimental Investigation of the Various Methods of Reinforcing Concrete Beams.

"Like a disabled pitcher, of no use."

GRACE MAYE KEATING

Elgin, Ill.

Letters and Science.

Thesis: Nature Portrayal in Mörike's Poems.
"Win me and wear me."

MAX JOHN KELLING

Milwaukee

Letters and Science.

Philomathia.

Thesis: Political History of Virginia from 1815 to 1860.
"I am the State."

WILLIAM THOMAS KELSEY

"Tecumseh."

Baraboo

Letters and Science.

Athenæ: President (4).

Thesis: The Power of the State Legislature to Control Corporations
of its own Creation.

"He has a way of saying things,
That makes one think of courts and kings."

GEORGE IRVING KEMMERER

Clinton

Letters and Science.

Y. M. C. A.; President Camera Club (2), (3), (4).

Thesis: The Solubility of Gold in the Presence of Oxidizing Agents.
"Nature hath made nothing so base, but can read some instruction
to the wisest man."

ELSIE KING

NEILLSVILLE

Letters and Science.

Castalia: President (3); Girls' Glee Club.

Thesis: The Influence of the Doctrine of Natural Rights on Social
Reform.

"The grass stoops not, she treads on it so light."

BLANCHE MARIE KINNE

Elkhorn

Letters and Science.

Thesis: Literary Influences Traceable in the Works of Heinrich Heine.
"I like above all other things in the world to be loved."

WILLIAM SPAULDING KINNE, TBII

"Rocks."

Winona, Minn.

Civil Engineering.

Thesis: An Investigation of the Stresses in the Stiffener Angles of
Plate Girder Bridges.

"Share the experience I have had, consider all I've seen."

FRED HENRY KNOBEL

Madison

Letters and Science.

Philomathia; Sub. Football Team.

Thesis: Why the Variation in Weight of Dairy Cattle?

"His noblest name deserv'd, and not deriv'd."

ARTHUR FREDERICK KRIPPNER, ΣN

"Kripp."

Lake Mills

Electrical Engineering.

Sigma Upsilon; N. O. Whitney Association; Engineers' Joint Debate
(4); Badger Board (3); Junior Prom. Committee (3); Y. M. C. A.
Cabinet (4).

Thesis: Design of a Telephone Exchange for Deerfield.

"Were I a syndicate like K ——."

HATTIE KUHNS

Madison

Letters and Science.

Castalia; Secretary (3); Y. W. C. A.

Thesis: "ΗΠΑΚΔΗΣ MAINOMENOΣ" of Euripides and "Hercules
Fureus" of Seneca.

"The night shows stars and women in a better light."

WILLIAM KUNERTH

La Crosse

Letters and Science.

Olympia; Y. M. C. A.

Thesis: On the Radiant Efficiency of the Carbon Filament.

"There's no impossibility to him, who stands prepared to conquer
every hazard."

FOLA LA FOLLETTE
Madison

Letters and Science.
Red Domino; Badger Board (3).
Thesis: Social and Economic Life in the Fox River Valley from 1800 to 1840.

"The Ideal of all womanhood—
So kind, so mindful, so strong, so good;
So patient, peaceful, loyal, loving, pure..."

ERNEST WILBER LANDT, KΣ
"Ernie."
MILWAUKEE

Letters and Science.
The Daily Cardinal: Reporter (1), Assistant University Editor (2), University Editor (3), Managing Editor (4); Badger Board (3); Commercial Club.
Thesis: Commercial Agencies; their History, and Use in Present-Day Commercial Activities.
"Behold, a giant am I."

LEIGH HUNT LATHROP
Madison

Electrical Engineering.
U. W. Engineers' Club: Secretary (2); U. W. Band (2); Choral Union.
Thesis: Design of a Power Factor Indicator for a Three Phase Circuit.
"An honest man's the noblest work of God."

CLARA MARY LAUDERDALE
Elkhorn

Letters and Science.
Thesis: The Influence of the Irish Monks on England.
"I am in this earthly world, where, to do harm is often laudable."

DAVID SYDNEY LAW, ΦΔΘ, ΦΔΦ
"Sid."
La Crosse

Letters and Science.
Yellow Helmet; Mandolin Club (2), Manager Mandolin Club (3), (4); Lieutenant U. W. Corps of Cadets (2).
Thesis: The Power of Eminent Domain.
"Men are like money: We must take them for their value, whatever be their effigy."

ALLAN LEE, AXΣ
"Adam."
Cambridge

General Engineering.
School of Music.
Schubert-Liszt Club: Secretary (4).
Thesis: Preparation of Pure Tungsten.
"I'm not Norman."

NORMAN LEE, TBII

"Noah."

Cambridge

Electrical Engineering.

School of Music (1), (2).

Thesis: Gas and Gas Engines.

"You thought I was Allan, didn't you?"

ARTHUR W. LEWIS

"Artie."

Madison

Letters and Science, Geology Group.

Thesis: Geology and Ore Deposits in the Livingston District, Wisconsin.

"Just men are only free, the rest are slaves."

JOHN IRVING LIVER

"Jack."

Hartford

Letters and Science.

Athenae: Luther S. Dixon Law Club: Junior Response Orator (3); Junior Ex. Orator.

Thesis: A Historical Treatise on the After Dinner Speech.

"The census embraces seventeen millions of women—how'd you like to be the census?"

JOHN SOLON LORD

"Sticks."

Dixon, Ill.

Letters and Science.

Athenae.

Thesis: Limitations Imposed Upon the Legislature by the Constitutional Convention in Pennsylvania, 1873

"Whose modest wisdom, therefore, never aims
To find the longitude, or burn the Thames."

MATTIE H. LOVE

Waukesha

Letters and Science.

Thesis: The Arguments for Scientific Literary Education as Represented by Huxley and Arnold.

"I live and love—what would you more?—
As lover never lived before."

WILLIAM FERDINAND LUEBKE

Horicon

Entered as a Senior from Northwestern University.

Letters and Science.

Thesis: The Influence of Laurence Sterne on Heine.

"Do not, for one repulse, forego the purpose that you resolved to effect."

1904

CHARLES ADELBERT LYMAN, ΨΤ

Sun Prairie

Letters and Science.

Philomathia: Closer Freshman Blowout, Semi-Public Debate (2)
Freshman Dec.; Edwin Booth Dramatic Club; Class Secretary
(1), President (2); Mandolin Club (2); President Haresfoot Club
(4); Chairman Program Committee, Pre-jubilee Banquet.

Thesis: State Aid to Agriculture in Wisconsin.

"Give me the luxuries of life and I will dispense with its necessities."

DONALD MACARTHUR

Superior

Mechanical Engineering.

U. W. Engineers' Club: Secretary and Treasurer (3), President (4).

Thesis: Refrigeration: Being a Series of Tests on the Cost and Economy of Refrigeration.

"Yon rock shall fly from its firm basis soon as I."

EDGAR JAMES MAC EACHRON, ΔΤ

West De Pere

Mechanical Engineering.

Athenae: Closer Semi-Public (2), Joint Debate (3), President (4);
Assistant Business Manager *Wisconsin Engineer* (2); Track Team
(1), (2), (3), (4); Captain Track Team (4); Philadelphia Relay Team
(2), (3); Track "W," 1901; Athletic Board (4); Class Treasurer (2);
Secretary Republican Club (4).

Thesis: Test of Steel Plates, Centrally Loaded.

"Swift as a shadow; short as any dream..."

FREDERICK ALEXANDER MANCHESTER, ΦΒΚ

Richland Center

Letters and Science.

Thesis: Influence of Moliere on Dryden's Comedy.

"Buck then to the last hour of thy existence."

GEORGE JOHN MARQUETTE, ΦΒΚ

Watertown

Letters and Science.

Thesis: The Development of the Arcocarp in Aspergillus.

"Buck! Buck! Buck!"

ANNA MAGDALENE MASHEK

La Crosse

Letters and Science.

Castalia.

Thesis: The Development of the Wolf River Valley.

"Her glory is to subdue men."

HARRIETT MASON

"Spooney."

Fond du Lac

Letters and Science.

Thesis: "The Temperature Variation of the Modulus of Rigidity for Alloys.

"Oh, that I may never bite off my tongue at the falling of the elevator!"

EDWARD GUSTAV MATTKE, AXΣ

Baraboo

Letters and Science.

Glee Club (4).

Thesis: Chemistry and Properties of Various Cerium Compounds.

"Unrivaled as thy merit be thy fame."

GUSTAF ADOLPH MATTSON

Lund

Letters and Science.

Y. M. C. A.

Thesis: The Conception of External Reality in Locke, Berkeley and

Hume.

"A man of infinite patience."

EARL VINTON McCOMB, KΣ

"Feeney."

Brillion

Letters and Science.

Freshman Crew (1); Varsity Crew (1), (2), (3); Crew "W" 1901; Athletic Board of Directors (2), (3); Class President (2); Junior Prom. Committee (3).

Thesis: Pathogenic Bacteria in Local Soils.

"A bold stroke."

BARTIE ELDRED MCCORMICK, AXΣ

"Mac."

Waterloo

Letters and Science.

Olympia: Badger Board (3).

Thesis: Synthesis and Chemical Properties of Chromous Chloride.

"Kindness in woman, not her beauteous looks, shall win my love."

HARRY L. McDONALD, TBII

"Mac."

Fond du Lac

Civil Engineering.

Civil Engineering Society; Badger Board; Business Manager (3);

Wisconsin Engineer: Editor-in-Chief (4).

Thesis: Experiments on the Flow of Underground Water.

"I know thee for a man of many thoughts."

1904

AMZI CHAPIN MCLEAN, ΘΔΧ
Eatontown, N. J.

Letters and Science.

Thesis: Soil and Fertilizer Experiments with Lettuce.

"You may depend upon it that he is a good man, whose intimate friends are all good."

CHARLES WILLIAM MEISNEST
"Charlie."
Branch

Letters and Science.

Philomathia: Semi-public (2), President (4); Commercial Club.

Thesis: Private Banking in the U. S. in the last Decade (1893-1903).

"I never did repent for doing good, nor shall not now."

JESSIE BEE MERRICK
Madison

Letters and Science.

Pythia: Vice-President (3), President (4); Basket Ball (3).

Thesis: Relations of England and Venice in the First Half of the 16th Century in Regard to the Papacy.

"A lovely being scarcely formed or moulded;
A rose with all its sweetest leaves yet folded."

ZADOK MERRILL
"Zed."
Madison

Electrical Engineering.

Thesis: Efficiency Test of Portage Lighting Plant.

"Lovers are as punctual as the sun. Office hours 6 A. M. to 6 P. M."

DAVID GALLUS MILBRATH
"Dave."
Milwaukee

Letters and Science.

Philomathia: President (4), Semi-Public, Joint Debate.

Thesis: Industrial Arbitration.

"A sincere lad, we wish him well."

MARIE GRACE MILLER
Madison

Letters and Science.

Castalia: Junior Ex. (3).

Thesis: Influence of Physical Environment upon Primitive Societies.

"To those who know thee not, no words can paint;
And those who know thee, know all words are faint."

NELLE MILLER ΓΦΒ

"Grouch."

Monroe

Letters and Science.

Thesis: Some Aspects of the Psychology and Pedagogy of Mathematics.

"Her beauty makes this vault a feasting presence full of light."

MAURICE WINTER MOE

Milwaukee

Letters and Science.

Athenae: Luther S. Dixon Law Club; Badger Board (3); First Sergeant Signal Corps (2); Captain Signal Corps (3).

Thesis: Employers' Associations.

"The game is up."

FLORENCE SUSANNAH MOFFATT, XΩ

Davenport, Iowa

Letters and Science.

Assistant Managing Editor *Woman's Christmas Cardinal* (3); Basket Ball (1), (2), Captain (3); Class Secretary (4), Class Vice-President (3); Y. W. C. A.; Badger Board (3).

Thesis: The Development of the Plantation System in South Carolina. "Goodness is beauty in its best estate."

LOUIS BENJAMIN MOORHOUSE, TBII

Lake Geneva

Mechanical Engineering.

Thesis: The Utilization of Peat Gas in the Gas Engine.

"Handy is the bird they call the elephant."

ERNEST ANTHONY MORITZ, TBII

Madison

Civil Engineering.

Civil Engineering Society; Mandolin Club (2), (3); Senior Swing-out Committee (4).

Thesis: The Valuation of the Physical Properties of the Railways in Wisconsin.

"Der kleine deutcher."

THORINA ALENA MORTENSON

Racine

Letters and Science.

Castalia: Secretary (3), Vice-President (3), President (4); Y. W. C. A.;

Nora Samlag.

Thesis: Comparative Study of the Anti-Slavery Element in Whittier and Lowell.

"We cannot fight for love as men may do;

We should be woo'd, and were not made to woo."

1904

FRANCIS HAYES MURPHY, ΣΝ
Muscoda

Electrical Engineering.
N. O. Whitney Association.
Thesis: Design of a Telephone Exchange for Deerfield.
"A true friend of man."

LOUIS FREDERICK MUSIL, TBII
Manitowoc

Electrical Engineering.
Thesis: An Investigation as to the Advisability of Electric Transmission in the Malting and Brewing Plant of Wm. Rahr's Sons Co. at Manitowoc, Wis.
"When the heart is light with hope, all pleases, nothing comes amiss."

JAMES MARC MUSSER, ΘΔΧ
"Jim," "Candy Kid."
Madison

Electrical Engineering.
Sigma Upsilon.
Thesis: An Efficiency Test of the Portage Electric Lighting Plant.
"Painted by Raphael, he seemed."

KATE MUTHLER
Madison

Letters and Science.
Thesis: Influence of Sterne on Early American Literature.
"A noble type of good heroic womanhood."

JOSEPHINE AGNES NALTY
Monroe

Letters and Science.
Castalia: Y. W. C. A.
Thesis: Comparison Between Old Norse and Old Celtic Mythologies.
"As pure and sweet her fair brow seemed, eternal as the sky."

JOHN HENRY NEEF
Madison

Civil Engineering.
Choral Union '97; Band '97; Engineers' Minstrel Show (3).
Thesis: Yahara River Improvement.
"We all, my lords, have err'd.
Men may, I find, be honest, though they differ."

MARY LILLIAN NELSON
La Crosse

Letters and Science.
Castalia; Treasurer (3); Y. W. C. A.
Thesis: "The 'Fabula Pallista' in Italy in the Time of the Empire."
"I am a scribbled poem drawn with a pen upon a parchment."

ALMA JOSEPHINE NEUHAUS
Burlington

Letters and Science.
Thesis: History of the Early Roads in Wisconsin.
"For brevity is very good,
When we are, or are not understood."

ROY THEODORE NICHOLS
River Falls

Entered as Junior from River Falls Normal.
Letters and Science.
Y. M. C. A.
Thesis: The Development of Elementary Botany Teaching.
"Man, know thyself."

WILLIAM CRANE NICHOLS, ΔΤΔ
"Gabe," "Nick."
Fargo, North Dakota

Letters and Science.
Thesis: Reconstruction of the Liver Lobule in the Cat.
"Well, it's a funny thing!"

ARTHUR WILLIAM NICOLAUS
Beaver Dam

Civil Engineering.
Thesis: Design of Sewerage System and Disposal Plant for Beaver
Dam.
"I'm from Beaver Dam."

HARRY BRIGGS NORTH, AXΣ
Janesville

Letters and Science.
Assistant in Chemistry; Ph. G.
Thesis: Tellurides of Phosphorus.
"Give him all kindness; I had rather have such men my friends,
than enemies."

JOHN DRAPER NOYES, $\Phi K \Sigma$, ΣT

"Jack, the Knocker."

Baraboo

Electrical Engineering.

Thesis: Efficiency Test of the Baraboo Electric Lighting Plant.
"I heard a gentle knocking at the door."

LOTTIE MAY OGILVIE

Verona

Letters and Science.

Castalia.

Thesis: Political Career of Alexander H. Stephens after 1860.
"On my ear her language fell as if each word dissolved a spell."

SOPHIA HELEN OLMSTED

Boone, Iowa

Letters and Science.

Thesis: Social Phases of the Brontë Novels.
"Oh, were she pitiful as she is fair."

EDWIN HORN OMARA

"Fuzz."

Chicago, Ill.

Civil Engineering.

Civil Engineering Society.

Thesis: Railway Taxation.

"Oh! Fuzz."

EDWIN CLARK OSTHELDER

"Ostie."

Sheboygan Falls

Letters and Science.

Olympia: President (4); Commercial Club.

Thesis: Production and Consumption of the Precious Metals During the Last Decade.

"There never was so wise a man before, he seemed the incarnate of 'Well, I told you so!'"

RAY OWEN, ΣN

"Hodge."

Footville

Civil Engineering.

N. O. Whitney Engineering Association: Secretary, Treasurer; Civil Engineering Society; Class Treasurer (2).

Thesis: Experiments on the Flow of Underground Water.

"I do not like the ladies."

CARRIE PADDOCK
Madison

Letters and Science.
Thesis: Byron's Influence on the Development of Nineteenth Century Literary Taste.
"Cold words that hide the envious thought."

LEWIS WOODWORTH PARKS, ΣX
"Lew."
Watertown

Letters and Science.
Yellow Helmet; Mandolin Club (2), (3), Manager (4); Prom. Committee (3); Commercial Club.
Thesis: Basswood and its Substitutes in the Manufacture of Honey Sections.
"My life is one dern'd horrid grind."

ELIZABETH MAY PATTEN, AXΩ
"Betty."
De Kalb, Ill.

Letters and Science.
Pythia: Secretary (3), Vice-President (4); Class Vice-President (4); Girls' Glee Club (3); Leader (4); Choral Union (4); Y. W. C. A.
Thesis: The Development of Flower and Fruit of the Gentian.
"I teach my lip its sweetest smile, my tongue its softest tone."

BENJAMIN ALEXANDER PAUST, ΣAE
"Bennie."
Milwaukee

Letters and Science.
Edwin Booth Dramatic Club; Philomathia, Semi-Public (2); Badger Board (3); Basket Ball (2), (3), Manager (4); Y. M. C. A.
Thesis: The Department of Commerce and Labor.
"Gone daft over the women! And he an eddicated man."

CLIFFORD COLEMAN PEASE
Madison

Letters and Science.
Hesperia: Treasurer (3), President (4), Semi-Public (2), Junior Ex. (3), Joint Debate (4); Vice-President Oratorical Association; Vice-President Northern Oratorical League.
Thesis: The Settlement of Industrial Disputes.
"Examples demonstrate the possibilities of success."

PETER LAURENCE PEASE, ΘΔX
Cumberland

Letters and Science.
Thesis: Karl Pearson's Conception of Mechanism.
"A soul without a single thought."

DELIA IDELL PENGRA
Madison

Letters and Science.

Thesis: The Influence of His Predecessors on the Works of Robert Burns.

"But I am constant as the northern star."

CHARLES SUMNER PETERS
"Quick Shot," "Rapid Fire."
Dodgeville

Electrical Engineering.

U. W. Engineers' Club.

Thesis: Methods of Train Lighting.

"Yes, a most notorious villain."

FRANK JOSEPH PETURA, AXΣ, TBII
"Pete."
Racine

Electrical Engineering.

U. W. Engineers' Club: Secretary and Treasurer (2), Vice-President (4), Joint Debate (3); U. W. Engineers' Joint Debating League: Secretary and Treasurer.

Thesis: The Application of High Tension to Dust Collection.
"As changeable as the winds."

RUTH MARY PHILLIPS
Madison

Letters and Science.

Castalia; Self-Government Association: Vice-President; Y. W. C. A.

Thesis: Descriptive Art in Henry W. Longfellow.

"Like angels' visits, short and bright."

HARRY RALPH POMEROY
Edgerton

Letters and Science.

Hesperia: Secretary (2), Censor (2).

Thesis: Civil Government in the Philippines under the Commission.
"Heap much talk, cheap wit; come on, show us the goods."

GEORGE GILBERT Post, TBII
Madison

Electrical Engineering.

N. O. Whitney Association: President (3), Censor (4); Varsity, Track Team (2), (3), (4).

Thesis: Brush Discharge Losses on High Tension Transmission Lines.
"I would rather run than eat."

JOHN C. POTTER

"Pot."

Wauwatosa

Electrical Engineering.

U. W. Engineers' Club; Board of Editors *Wisconsin Engineer* (3); Freshman Crew (1); Basket Ball (1), (2), (3). Captain (3); Y. M. C. A.

Thesis: Efficiency of a Modern Gas Engine of the Walruth Type.

"Tis hard, where dullness overrules,

To keep good sense in crowds of fools."

MABEL DEBORAH PRATT

"Pratty."

Milwaukee

Letters and Science.

Thesis: Majestas Trials and other State Public Trials under Tiberius.

"When joy and duty clash

Let duty go to smash."

ETHEL IONE REDFIELD, ΔΔΔ

Racine

Letters and Science.

Secretary Badger Board (3); Self-Government Board (3); Woman's Crew (1); Y. W. C. A.: Vice-President (2); Class Historian (2).

Thesis: The Influence of Fauna upon Primitive Races.

"Her step was royal—queen-like."

WALTER CLARENCE REINEKING

"Billy Bounce," "Walt."

Milwaukee

Letters and Science.

Philomathia: Blow-Out Orator (1), Recording Scribe (1), Censor (2), Vice-President (3); Reporter *Daily Cardinal* (1), (2); Undergraduate Editor of *Wisconsin Alumni Magazine* (4); Class Historian (2); Corps of Cadets: Regimental Sergeant-Major (2), Second Lieutenant Co. C. (2), Captain and Regimental Quartermaster (3), Major and Inspector (4).

Thesis: The Occurrence of the Bacillus of Pneumonia in the Mouths of Healthy Persons under Various Conditions.

"He was a man of an unbounded stomach."

MELINDA CATHERINE RIDER

Madison

Letters and Science; School of Music.

Castalia: Treasurer (3), Vice-President (4); Y. W. C. A.

Thesis: The Slave in Greek Comedy.

"Forbear sharp speeches to her."

AMY EMMA ROBINSON

Wyanet, Ill.

Letters and Science.

Thesis: The Influence of Goethe's Faust on Byron's Manfred, Bailey's Festus, and Longfellow's Golden Legend.

"She knows what's what."

Review of the Football Season of 1903

THE SEASON OF 1903, opening as it did with Wisconsin in possession of a vast amount of unknown, untried and green material, together with the introduction of a new system of coaching, was to those intimately connected with the Wisconsin football team a very great uncertainty. It would seem, as one viewed the men trying for positions, as if there was in them the basis for a winning team. But to a large extent these men were unacquainted with the game as played in college. This fact made it necessary for them to begin on details. Consequently, Coach Arthur H. Curtis, ably aided by Assistant Coach Charles McCarthy, adopted the plan of giving each man individual instruction. The remarkable improvement in the men's ability to play was not slow in showing itself, as was demonstrated in the minor games, and this gladdened the hearts of the team's supporters.

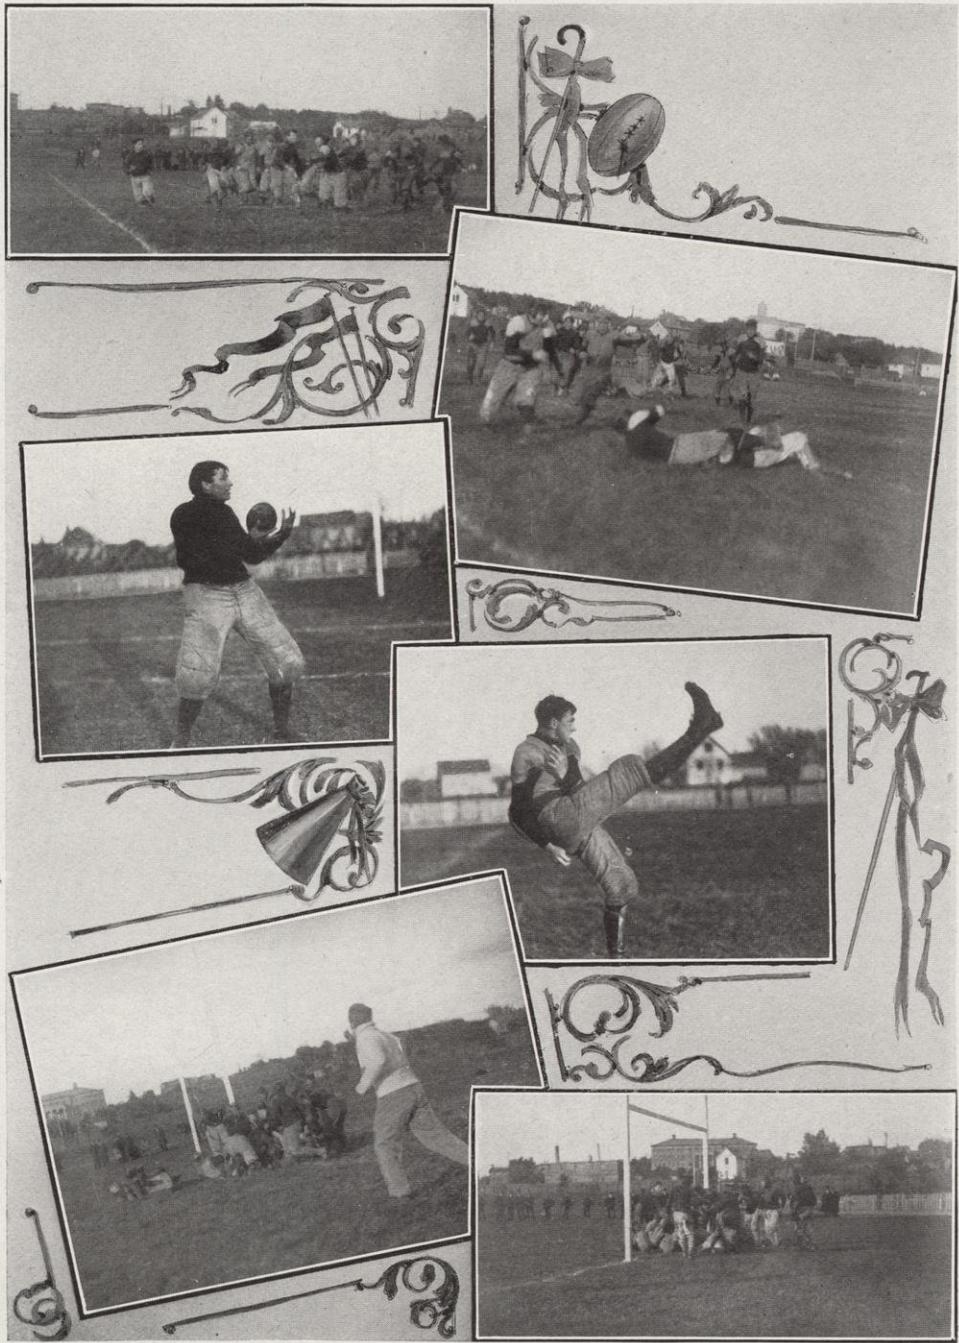

The Chicago game afforded the first opportunity to size up the strength of the eleven. The team was up against the first real proposition of the season, and, being of an unknown quantity, was it any wonder that hearts thumped and faces paled as it made ready for the affray? However, the determination of the players was unbounded. Lack of confidence was very noticeable for the first few moments, but within reasonable time came the opportunity for our men to see what they could do. They soon found that their Chicago opponents were but human, having their weak points, and faith in their own strength quickly came back to them. During the rest of the game their work clearly proved that the coaches had rounded out of a green bunch of men a team able to cope with every department of football except kicking. There was also a lack of headwork among the individual members of the Wisconsin eleven. For the two weeks following instruction in kicking was given first to one man and then to another, but on account of the widely different methods taught by the several friends and alumni, the results were far from satisfactory. The offense was subjected to a number of changes and drilled with untiring energy. The defense was also perfected to a marked degree, and in the second championship struggle the results were forthcoming.

Michigan realized that she had a formidable rival to face on November 14 and she was at her best. On that day the improvement striven for by our players was so great as to enable Wisconsin to hold her own with her honored rival in every point of the game except the well-known weakness in her kicking. It is a question if Wisconsin did not even surpass Michigan in defensive work.

After the accepted Ann Arbor defeat Wisconsin still had two scheduled contests following hard upon each other, which were to be far more difficult than had been estimated by the press and general public earlier in the season. During the few remaining days the harmonious spirit still prevailed among the members of the team, and the fighting, scrapping determination never fell a point. To the very last the men doggedly stuck to the old Badger war-cry—"There are no quitters at Wisconsin."

Review of the Crew Season of 1903

CREW WORK may be considered the best kind of athletics for three reasons: It affords training for more men than all the other branches combined; it builds up and develops the athlete without requiring him to run the risk of being seriously injured; it is conceded by all to be a true, clean and manly sport.

The history of Wisconsin's crew begins properly in 1899. In the spring of that year, what was known as the "Haymakers' crew" first appeared in contest upon the Hudson, and then by its endurance won the respect and admiration of all Eastern sportsmen. In 1900 Wisconsin's rowing standard was raised by the 1903 freshmen, to whose victory the members of that class still point with pride as the only race ever won by a Wisconsin crew upon the Hudson River.

The years 1901, 1902 and 1903 saw our crews, both varsity and freshman, defeated—but the defeats were such that now the East never plans for a race without first taking into consideration the men from the West. To give the reasons for some of these reverses would be a hard and useless task. It is sufficient to say that our men have labored under great and unforeseen disadvantages, which time, practice and experience do not seem to alleviate.

The work of last year cannot be said to have been satisfactory. Starting out in the beginning with a fast crew and high hopes we were destined to disappointment. The trial rows on Lake Mendota showed the men up in excellent form and holders of the record at Wisconsin, but through various circumstances and vicissitudes, which could not be foreseen, they were unable to hold their place with the first crew of the East.

The work of the fall of 1903 began as usual with the men in the shell every day that the weather permitted. During the winter months practice was continued on the rowing machines in the gymnasium and, when spring opened and the lake became free from ice, practice began again upon the water. Here such good showing was made that the coach and older members predicted a winning crew.

The Eastern week was one round of mishaps. The cold, wet weather was so disagreeable that a number of the men contracted severe colds, which greatly reduced their weights and spirits. On the day of the race no less than three of the strongest oarsmen were ill and entered the contest only because there were no others to take their places. In such a condition the race was rowed, and the result was—Cornell first, Georgetown second and Wisconsin third. The first two miles was all the sick men could stand and the remaining distance was made with the help of nerve, sand and will; but when the line was crossed not a man was able to sit erect in his seat and yet, in spite of these facts and in spite of the fact that some of the men were rowing their first race, the crew pulled through to the finish. It serves to add one more instance of the unconquerable, non-quitting Wisconsin spirit, which permeates all her athletics.

Perhaps it would not be out of place to say something concerning the outlook for the coming year. At present there are thirty-six men trying for the Wisconsin crew "W." This is the largest number of candidates ever entered for the Varsity. Besides this, there are one hundred and thirty-six freshmen training for the freshmen race, and out of these there are four squads no man of which is under six feet.

With such an aggregation, Wisconsin's prospects are very bright indeed and if it continues, as we all hope it will, it will not be many years before the aquatic sport will be, what it is in the East, the principal recognized branch of athletics.

Review of the Track Season of 1903

THE OLD ADAGE that "It is a long lane that does not turn" is a fairly good incentive to perseverance. Wisconsin's track team has been trying for a long time to win the Intercollegiate, and though it has not succeeded in doing so since 1898, it is to be hoped that the expected "turn" in our long line of defeats is near at hand. To the credit of the team be it said, however, that in the face of defeat it never has and never will relax its efforts to again take first rank.

The first point to be mentioned in a résumé of the last track season is the fact that we got just one new man from the entering class. Moreover, there seemed to be a lack of the interest shown in former years; the squad did not number more than thirty men. Nearly all the men of the 1902 team returned, however, and it looked as if we ought to have a good chance for second place.

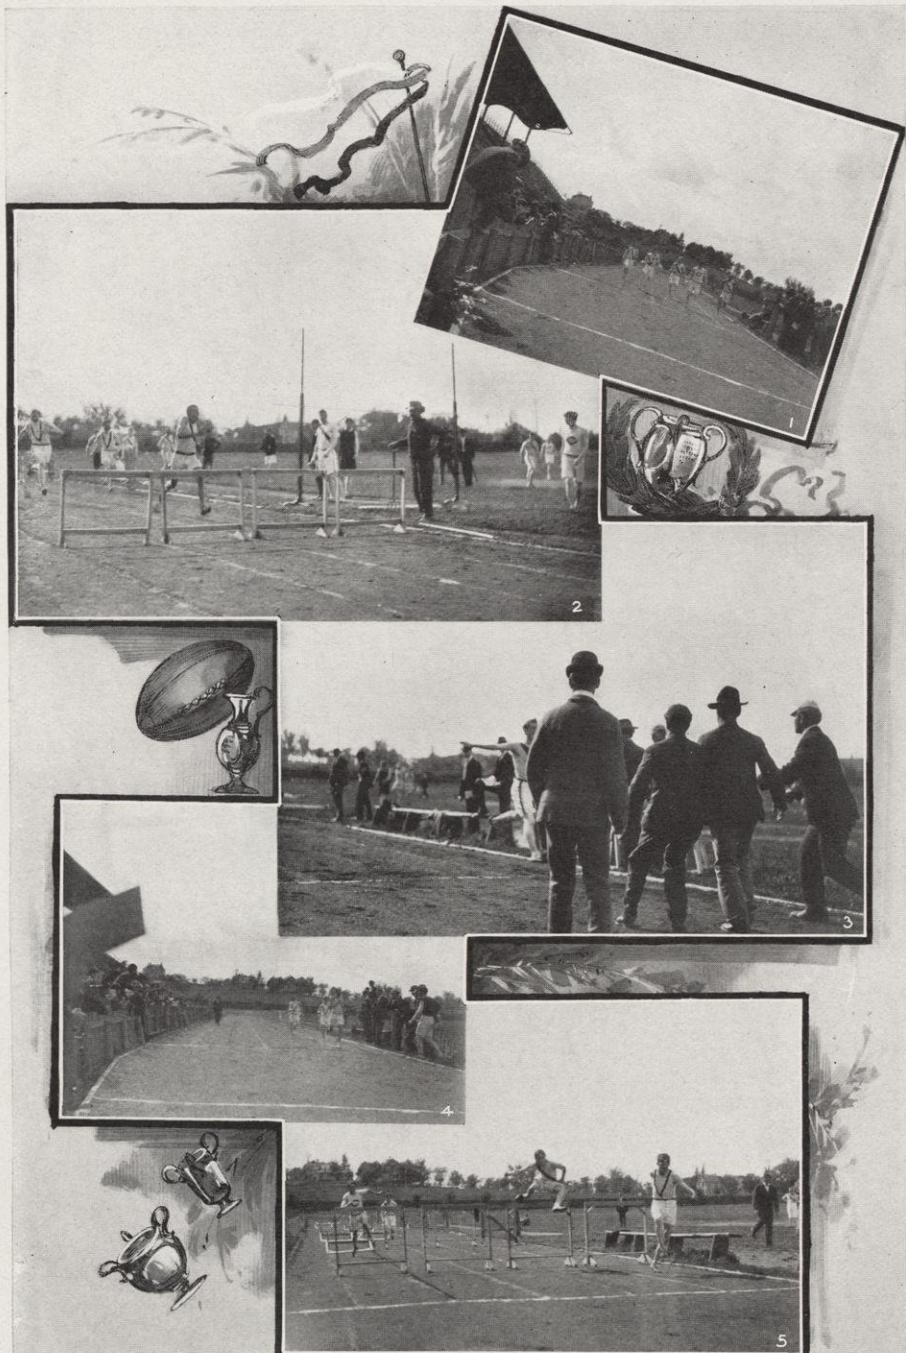

During the season there were held two indoor meets with Chicago, one of which we lost, the meet falling very unfortunately for us on the Saturday of examination week. Two weeks later the same teams met again and Chicago was decisively defeated. We should not forget the two-mile race run that night between Hall, of Chicago, and Smith, which the Chicago man won by a few yards in the remarkable time of 9 min. 56 sec. We held two outdoor meets, one with Chicago, at Madison, which Chicago won, and one at Illinois, a victory for Wisconsin. One of the most notable of all Western track performances was the race run by MacEachron against Hall, the latter being defeated by a few feet in 10 min. $\frac{2}{5}$ sec. The Intercollegiate record for this distance is 10 min. $7\frac{2}{5}$ sec. Good time was also made at Champaign, but not so good as was made the year before, when Poage ran the 100 yard dash in 10 sec. and the quarter in $49\frac{2}{5}$ sec., while Daniells beat Breitkreutz by inches in the half in 1 min. $57\frac{2}{5}$ sec. Saridakis also ran the high hurdles in record time. It should be noticed that the track team seems to have done rather well individually, if not collectively, for the University records for all distances from the quarter up are better than the Intercollegiate records.

We made a very poor showing at the Intercollegiate, though every man tried his hardest. Our team was composed of "old men," "veterans," who had won 28 points the year before, and who were counted upon to do even better the second time. The "veterans," with one or two exceptions, did not get so much as a third place; the team did not get a single first place. This was not due to lack of proper coaching, nor was the team out of condition. We were simply beaten, and beaten for the most part by the freshman members of the other teams. Wisconsin got one man from the freshman class, and only thirty men from the whole University tried for the team. With so few men out it would seem that there is little real interest taken in track athletics here. We cannot reasonably expect to win with a team picked from a squad of thirty; it is true we once had a team of four men, who took the Intercollegiate, but that is not likely to happen again, for us or any other college. We must have large fields in each event to give the competition necessary for complete development before we ought reasonably expect to take first place.

This year there are more men out for the team than ever before, and the freshman class has a number of very promising athletes, who ought to develop into point winners. It is not probable that the team will win the Intercollegiate, but it is certain a better showing than that of last year will be made.

GEO. R. KEACHIE, Captain '03 Team.

1. Finish of the 100-yard dash.
 2. Poage winning the 120-yard hurdles.
3. MacEachron breaking the record in the two-mile run.
 4. Poage winning the 440-yard dash.
 5. Finish of the 220-yard hurdles.

Review of the Baseball Season of 1903

NEVER in the history of baseball in the University of Wisconsin have brighter prospects for a championship team been more ruthlessly blighted than were the prospects of the team of 1903. Starting out under the most auspicious circumstances, with the prestige of the champions of the year before behind them, and with the ambition that every western team has to be "the best team in the West," Wisconsin was destined to be sorely disappointed.

Perhaps the Herculean disadvantages overcome by the team of the year previous led the rooters to higher planes of expectation than good sober calculation would have warranted, but be that as it may, no one can deny the game and plucky qualities that characterized the Badgers of 1903, and these qualities, tempered by cool judgment and powers of execution, are the essentials to capture for Wisconsin that will o' the wisp, "The Western Championship."

Undaunted by defeats, undismayed by their extra share of "hard luck," this team made as plucky and up hill a fight as any team ever made, considering the extremely adverse circumstances under which they labored at home and abroad.

Their eagerness to win was their greatest fault, and this eagerness, coupled with inexperience, on one or two occasions, gave rise to plays that might have merited criticism. But from athletes who understood the situation and who knew the staunch loyalty and courageous manner in which the defeated team was battling, they elicited only admiration.

On the Illinois incident, the writer not having been a witness to the contest, is not in a position to speak authentically, but from his personal knowledge, acquaintance and confidence in each individual of that team, he is absolutely sure that the reports sent out from Champaign were of a most biased nature and more than likely were the asinine productions of inexperienced reporters, whose mistaken ideas of loyalty to their own institutions nearly raised havoc with the friendly relations of two great universities. The strenuousness of the contest may perhaps be deducted from the fact that the courteous home team was wholly unwilling to waive the point at issue and thus allow the contest to proceed. A team that was greatly superior to another could afford to do this, but could Illinois have afforded it? It would have been the magnanimous thing to have done though the Badgers were in error, for errors are to be expected from a ball team. Who threw that egg? Of the subsequent happenings Illinois would be ashamed to have to tell. The 1903 team was a defeated one, a plucky one and a game one, and some members of that team may yet be members of a championship team, which event may serve to compensate them for their most valiant but unappreciated efforts of the past season. And here we hope the 1904 team, whose struggles are yet to be recorded, may be that team.

JULIAN V. WARE,
Captain, 1902-1903

	WILLIAM W. CULVER

Championship Tournament.

In the semi-finals Garnett, Parks, Haugan and Culver qualified. Culver defeated Haugan and Garnett defeated Parks. The four men in the semi-finals composed the team until Seaman, a member of the 1902 team, challenged Parks, defeating him; and Morley, also a member of the 1902 team, challenged Haugan defeating him. This left Seaman, Morley, Garnett and Culver on the team.

Dual Tournament with Chicago

Chicago defeated Wisconsin six matches out of a possible six.

Intercollegiate Tournament at Chicago

Morley and Garnett represented Wisconsin at Chicago. In the singles J. W. Bingham, of Chicago defeated Morley 7-5, 6-2. Garnett defeated Nelson of Chicago 6-4, 5-7, 6-3. In the doubles Morley and Garnett beat Bingham and Nelson 7-5, 6-8, 5-7, 7-5, 8-6 in a five set match. This put the Wisconsin men in the semi-finals against the Minnesota team, Payne and Northrup, whom they also defeated 6-2, 3-6, 6-4, 5-7, 6-4. This victory qualified them for the finals against Danforth and Lee, of Michigan. They won the first two sets 6-3, 7-5 and lost the last three 5-7, 6-8, 5-7.

Pole Vault	A. K. Wheeler, 1899	10 ft. 8 in.
16-lb. Shot	R. Glynn, 1903	42 ft. 5 in.
Hammer Throw	F. A. Long, 1903	138 ft. 10 in.
Discus Throw	C. G. Stangel, 1898	117 ft. 9 in.

Robert C. Syppke

Desiring to correct and complete the list of "W" men in all departments of athletics in the University, as printed in the 1904 Badger, the Badger reprints the names. The following enrollment is given in each case under the year in which the "W" was won. Sometimes, as in the case of football, the award was not made until the following year. The list is complete to the close of the year, 1903:

Football

1889.	F. Kull	1895.	C. Yeager
A. A. Bruce, Captain	G. N. Knapp	J. P. Riordan	Arthur H. Curtis
F. W. Prael		E. S. Anderson	E. B. Cochems
W. C. Brumder	1892.	A. Comstock	Paul Tratt
C. M. Meyers	H. H. Jacobs	John Gregg	Harry Bradley
W. H. Blackburn	T. P. Crenshaw	G. Thompson	Alfred Larson
B. N. Clark	C. H. Hile		George Senn
J. B. Kerr	C. C. Case	1896.	1899.

The Commercial Club

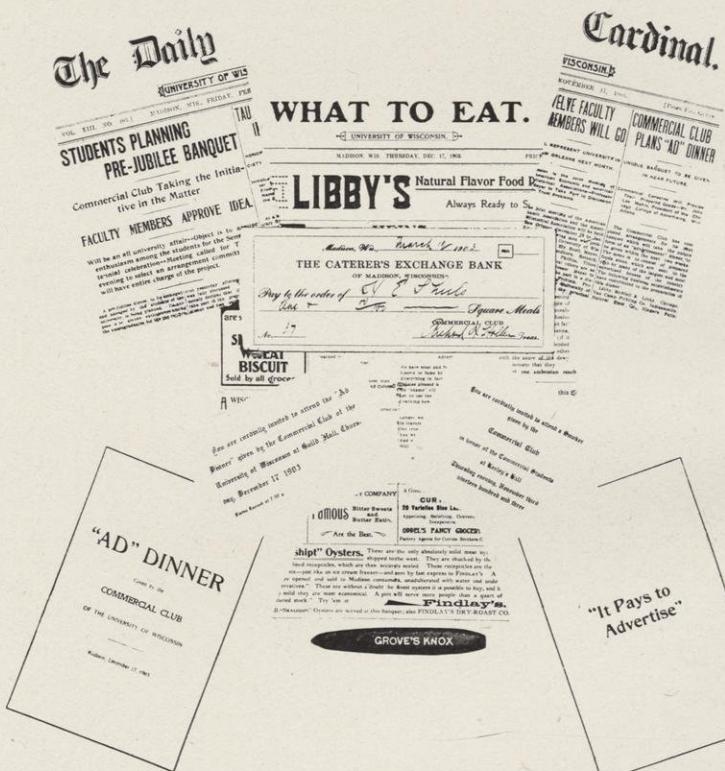

ABOUT mid-autumn, 1902, a few commercial students got the idea that the School of Commerce needed some distinctive and efficient organization among the students of the course, some sort of club or association, which would not only engender an esprit de corps but assist them in their present work and future prospects. The crystallized result of the idea was the formation of the Commercial Club on December 11, 1902, with Herbert F. John, who had worked assiduously in organizing the Club, as its first president.

Since its formal organization the club has been successfully and vigorously working out its destiny according to the object as stated in the constitution, "to create an interest in the School of Commerce, and to bring its members into touch with outside business men." Regular monthly meetings forestall any lapse of interest among the members, and the club is brought into contact with the foremost business men in the country by means of banquets, where by special invitation of the club, such men give talks upon their special work. The most notable of these banquets was the "Ad Dinner" given during the past fall. This was unique in that every article for a seven course meal was donated by the great food companies of the country. In conformity to the spirit of the occasion, John Lee Mahin, of Chicago, a successful advertising man, gave a talk upon the various phases of the publicity business.

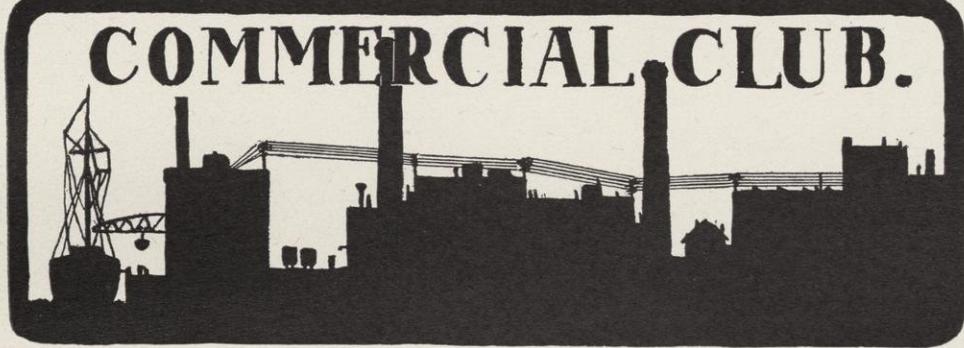

The project of the Pre - Jubilee dinner was originated this winter by the officers of the club, and the carrying out of the work is still largely in their hands.

Despite the fact that the membership is limited to seniors, juniors and sophomores in the School of Commerce, all members of the Commercial course are invited to the smoker, which is given in the fall.

That the Club has greatly increased the interest in the School of Commerce, and enhanced the value of the school to its members and the business world, is indubitable, and its success so far gives bright hopes for a useful development beyond our most sanguine expectations.

COMMERCIAL CLUB.

Hesperia's Victorious Joint Debate Team and Junior Orator

Joint Debate

Thirty-fourth Annual Joint Debate

LIBRARY HALL, JANUARY 15, 1904

Hesperia vs. Philomathia

Program

MAYNARD LEE DAGGY

President of the Evening

Question

Should courts be established as a part of our judicial system, with the power to settle between employers and employees disputes when inimical to the public welfare?

It being mutually conceded: (1) That the question as to where such disputes are inimical to the public welfare is a judicial one, to be determined by such courts in a summary manner. (2) That such courts may act upon their own initiative, or upon petition on behalf of the public or of either of the parties. (3) That the establishment of such courts is constitutional. (4) That labor unions may be required to incorporate, if necessary.

Affirmative: Philomathia

Daniel W. Hoan

David G. Milbrath

Arthur Breslauer

Decision two to one for the negative.

Negative: Hesperia

Clifford C. Pease

Grover G. Huebner

Frank B. Sargent

Judges

Prof. Paul S. Reinsch

Walter Houser

Prof. James A. Woodburn

Intercollegiate Debate

University of Wisconsin vs. Georgetown University

Washington, April 30, 1903

Question

Resolved, "That compulsory arbitration between capital and labor is expedient."

<i>Affirmative:</i> Georgetown	<i>Negative:</i> Wisconsin
Leonard Erickson	Arthur F. Beule
William W. Bride	Edward J. B. Schubring
John F. Murphy, closer	William D. Buckholz, closer

Judges

Senator J. W. Daniels, of Virginia	Judge J. A. Richards, of Sixth Judicial Circuit
Robt. J. Tracewell, Comptroller of U. S. Treasury	
Decision—unanimous for negative	

University of Wisconsin vs. University of Iowa

Madison, May 8, 1903

Question

Resolved, "That under existing conditions in the United States, a protective tariff system would be preferable to a revenue tariff."

<i>Affirmative:</i> Wisconsin	<i>Negative:</i> Iowa
O. W. Kreutzer	H. G. Walker
Tore Teigen	E. H. McCoy
W. J. Hagenah, closer	C. T. Kemmerer, closer

Judges

Hon. J. B. West, St. Paul, Minn.	Hon. M. D. Munn, St. Paul, Minn
Hon. H. R. Brill, U. S. District Judge of Minnesota	
Decision—two to one for affirmative	

University of Wisconsin vs. University of Minnesota

Minneapolis, May 12, 1903

Question

"Would the relinquishment by the federal government of its rights to tax inheritances to the States exclusively, be preferable to the relinquishment by the States of their right to tax inheritances to the federal government."

"It being mutually conceded: (1) That all rights of taxation of inheritances now possessed by the States or by the federal government can and will be transferred by either to the other. (2) That the federal government stands in need of revenue, and that the federal tax can become a law."

<i>Affirmative:</i> Minnesota	<i>Negative:</i> Wisconsin
R. P. Chase	C. H. Stone
Benj. Drake, Jr.	William Ryan
H. J. McClearn, closer	M. B. Olbrich, closer

Judges

Judge Smith, Superior	Judge Elliot, Minneapolis
President Merrifield, of the U. of N. D.	
Decision—two to one for affirmative

CHAPTER TWO.

SPIRIT OF MENDOTA.

Robert Zuppke

Mendota

Kind are thy waters
And kind are thy ways,
Yet sorrow thou hast given
For numberless days.

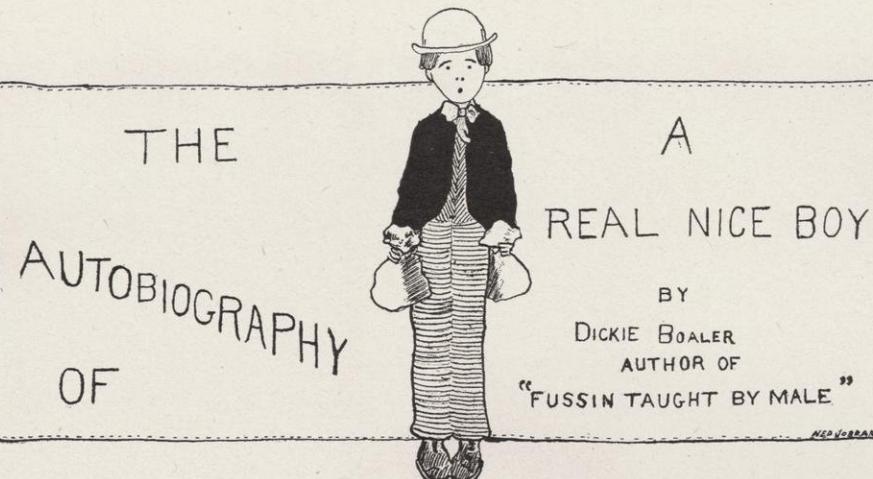

Thou, who be beauty
In abundance possessed,
Hast won all alike
To thy sweet loveliness.

Thou, Oh Mendota,
With sunset so bold,
Shaded with crimson
And purple and gold:

All through the day
Thou hoard'st up the light,
To reflect the fair moon
In the stillness of night.

Amid golden fields
Thou art set like an opal.
We love thee, Mendota,
Oh, thou Lake Immortal.

R. L. J.

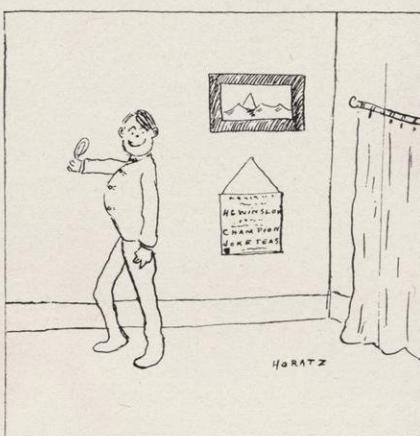

THREE was a soft wind soughing through the daisies when I went to Green Bay. Green Bay is not far from Duck Creek, but they have no corporate connection. When I got out of swaddling clothes my mother put me in kilts and combed my hair smoothly toward my right ear. It has never been mussed except when I was on the stage. I am also an actor, besides being an Alpha Delt. All of us are not actors, except Gay Wooledge. He is a good actor. My favorite actor is Horatio Winslow. I also liked Ellen Terry, though I never saw her. Since early childhood I have been greatly admired by some. This is due to my appearance. There have been no phenomenal events in my life. I went to Kehl's once on Tuesday night, but came away at once. The bunch was leaving. I have never corresponded with Madame Qui Vive or taken issue with Margaret Sangster, because I think they are doing lots for you girls. Some time I am going to be brave and go up on the hill with a real blue shirt on and start gossip. Once I wore a pair of trousers a second time. Sometimes I think that the girls who make remarks about my eyes have designs upon me, so I think that I will take my blocks and playthings and run away to some far off place. For I have a premonition that I am going to be stolen. Some like pistachio. I like a chocolate, nut, strawberry, vanilla Sunday. Here's to you, girls. Now let's eat marguerites, drink hot chocolate, and be merry.

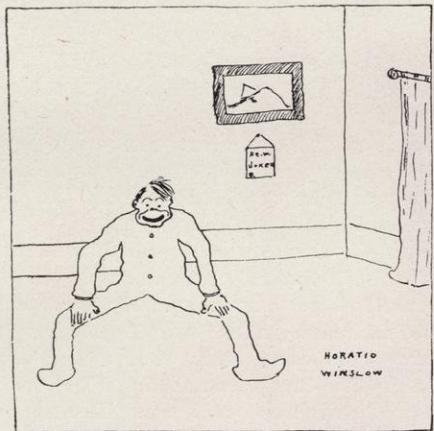

WOULDN'T IT, HORATIO?

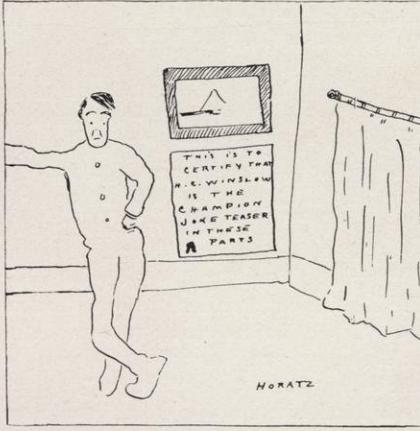

1. — Wouldn't it make you sore if, after winning so many joke medals and saying so many bright things and being such a good actor —

2. — You had stuck out your chest and viewed yourself before the glass, and decided that you were the syndicate genius of the University —

3. — And you had laughed yourself sick over your own jokes, expecting to find every one else in convulsions —

4. — You should find that most of the unappreciative goats were not wise to the point? Wouldn't it jar you?

"Hello, Central, give me the old Alpha Phi house." Central does not understand and gives him the new Alpha Phi house.

"Hello?"

"Hello, is this Gath's?"

"What? Gas?"

"Yaas? All right. Say, what time are you going to have dinner to-day?"

"Why, at the usual time of course. Who is this? Why do you want to know, anyway?"

"Why, because I don't want to have to come down there again and hang around three-quarters of an hour like I did yesterday. This is L——." But we won't give the poor fellow away.

Behind The Asbestos Curtain

by
Rip Alan Dale

The Noted Yellow Dramatic Critic.

There is something sadly funny and uproariously pathetic in the interpretation of "The Cartilage System," or "Would You Like to Be Taller," which has made puns for local goers in these days of tall Thetas and athletic Gamma Phis. Chester Brigham Roberts, who is doing the stellar act with the Hannahs and Roberts Lilliputian Stock Company, has done more funny things than I ever saw in Indianapolis, and Jim Gipe, who was out to dinner at Cronin's with me last night, says he has not seen anything so funny since O'Meara came out of the Gamma Phi house on that cold winter morning of the fire with that — which he —. The damage to the dwelling was slight.

If the local Rogers had a brother and kept his hat on straight and didn't carry books so much and was not suffering from heart disease, and if the asbestos curtain could be relied upon to stand the heat during the impassioned parts, then Pauly, who is doing the center of the stage in "The Old, Old Story," could call at other places than on Henry Street. As the health of the involuntary comedian stands at present he will not last another season as a star attraction. Mr. Rogers is not kept so busy in his new part as he was in his interpretation of "College boy." Paul is the "Darling of The Gallery Gods."

There is something refreshing about the manner in which the now descendant star, "Hungry Hamilton," "does" the roll of "The State of Wisconsin." He has only worked three afternoons this semester—pardon me, gentle reader, I was wandering. Mr. Hamilton shows decided improvement over the last time we saw him leading a troupe of "Parsilly Full." Vocally he is a success. His smile and his laugh are appropriately used, when in the last scene the governor calls "Hungry" in and says, "Hungry, my days are numbered. If I come out this fall with a whole crop and the machines in good order I will retire from the leadership of 'God's Patient Poor' and turn over my property, the State, to you. Take care of your morals, 'Hungry,' and padlock your conscience." The executive breaks into tears and Hungry laughs a loud guffaw, which brings down the lower house.

"The Attack on Poor Arthur," running at Flom's Metropolitan, is the best attack that has been made since Admiral Togo fired the shotsky into the Chop Suey district of Liver-witch. Carrie Jimitch, the talented danseuse, does a clever turn upon which all the Poor Arthurs are glad to smoke up. Several schooners are sunk in the view of the audience, making a very realistic picture. Poor Arthur is shown just after the attack, ablaze with the shine of the Occidental glaze.

"Perhaps you've heard it."

HORACE, ODES III, 9

Donec gratus eram tibi

—
PRIZE TRANSLATION
—

Horace:

So long as I was with your favor graced,
And while no lucky rival gladly pressed
His arm around your dainty little waist,
I was than Persia's king indeed more blest.

Lydia:

While Lydia yet for Chloe was not spurned,—
The Lydia whom your lips so often named,—
And while your heart for other loves ne'er burned,
I was than Roman Ilia more famed.

Horace:

O'er me reigns Chloe now, the Thracian lass,
A mistress of the lyre, and sweet in song;
For her without a fear to death I'd pass,
If her dear life the Fates would but prolong.

Lydia:

Me Calais sets aglow with love's fierce rays,
The son of Ornytus of Thurian line;
If Fate would but prolong on earth his days,
Twice for the youth my life I would resign.

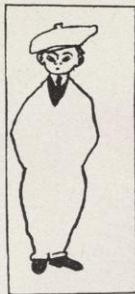

Horace:

What if our old-time love with golden yoke
Come and unite our sundered hearts once more?
If with fair Chloe for your sake I broke,
And oped to once spurned Lydia wide my door?

Lydia:

Though wild your moods as Hadria's billows are,—
And with your fickle ways you sorely try,
And though he is more lovely than a star,
With you I'd love to live, and gladly die!

—Anna G. Birge.

The Wild Oats Sowing of Kalai Wah

or the Jap's "Three-fifths in Boozology."

Kalai Wah, of Tokio,
Slightly backward and sedate,
Lusted for a drink or so—
So began to saturate.

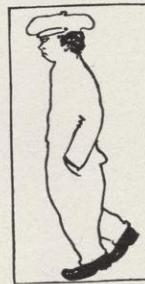

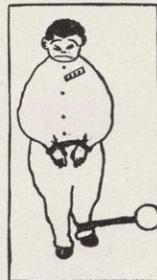

Bought a beer and a high ball too—
Got a foolish little glaze,
Till his almond eyes went wrong
And wabbled divers ways.

Strange adventures had he then—
Yea, feelings stranger still,
Half a dozen Juniors helped
The Jappy break a bill.

Talked of China, treasured high,
Hinted of a future fine,
For the land of the Mikado,
On a strictly western line.

But the Jappy's head went wrong—
The cell doors closed on him,
The judge said thirty days—
And his hopes were mighty slim.

Now the Jappy's on the wagon—
To be there for ever more.
The only time he takes a drink
Is when his throat is sore.

Onito Wished Togo to Stay

Onito from Kito
Once loved a fair Jap,
Who thirsted for knowledge
And Phi Beta Kap.

Onito had pleaded
With Togo to stay,
But a German Lloyd steamer
Had borne him away.

He wrote her a letter
On a monogram sheet
And gave his address
As West Gilman Street.

He told her of "co-eds"
And Races and Tanks,
And said the professors
Were batty old cranks.

She poured o'er the message,
Much jumbled with slang.
She read of the co-eds
With many a pang.

And then in a passion
She threw down the thing
And ran off to marry the son of
a prosperous chop suey manufacturer of Newchwang.

Stanley Doing Well.
Stanley R. Latshaw, son of our esteemed citizen of that name, has made his mark at the University of Wisconsin. Stanley has been elected business manager of the Wisconsin Lit. This is a monthly published frequently. Mr. Latshaw's literary experience has been quite extensive. For several weeks he has hustled copy for this family journal. Wausau is proud of her young men.—(Wausau Record.)

Hugo a Second Davis.
Hugo Rickeman of this city was here for a short sojourn this week. Hugo is taking a course at the University of Wisconsin. Hugo's specialty is English and he ranks among the most clever in his class. Some of his themes have been read before the rest of the students. Perhaps Racine may have a second. Richard Harding Davis in Hugo.—(Racine Times.)

Sleighbing at Shawano.
M. G. Eberlein, '04 law school, returned last night from Shawano where he spent last week with his family. While away Mr. Eberlein purchased an excellent law library of over 1,000 volumes. He was also investigating a case which he will shortly prosecute before the supreme court. This case is attracting unusual attention in Shawano as the evidence will be based largely on some expert testimony regarding some pieces of shoe strings alleged to have been used by the defendant.

He said that there had been excellent sleighbing at home for the last two weeks and that the school children have been enjoying unparalleled facilities for skating the past month, as the ice is at present over a foot thick. Mr. Eberlein is a promising young lawyer, having recently been admitted to the supreme bar of the State.

Success to You, Ike.
Mr. Ike Dahl, one of Mt. Horeb's native sons, paid a visit to the home of his father this week. Isaac says he is one of the leaders of Madison's social set. Ike has also been chosen manager of the baseball team. A chip off the old block. Keep it up, Ike. It's all for Mt. Horeb.—(Mt. Horeb Times.)

The Honorable John.
John Liver, a member of the class of 1900, now a student at the University, has been elected a member of the Luther S. Dixon Law Club at the University. This is an elective honor, and is conferred upon six members of the junior class each year. A similar honor was conferred upon J. Carlos Morgan when a law student. John is the youngest student among the junior lawmen.

Popular Young Man.
David Bogue of this village ran for secretary of the junior class of the University last semester, although 36 to 23 he is still very popular. David says that it was machine politics that did it. Too bad that such a thing nearly in—(Poynette Bugle.)

ST. PETERSBURG, MAY 1

ONE CENT

RUSSIA WREAKS WRATH ON REIN SCH.

Sleuth Wheelocksky Uncovers Source of Knocking.

Germany Put Wise by Schreiber.

(By Ben Pautzky.)

ST. PETERSBURG, May 1.—There is hellsky to pay in the courthouse to-day. The Czar is in a terrible ragevitch and Admiral Itchsomuch has been called up on the carpetsky to explain where Professor Reinsch of the University of Wisconsinsky got so much information about the plans of Russia for the coming century. Harryvitch Wheelocksky, the official Russian sleuth, patrolling American sentiment, in a personal message to the Czar encloses some noteskys taken from the lecture of Professor Reinsch in a coursevitch in Contemporary Politics. The notesky, which is now in the hands of Chief of Police Baker, of the royal guards, follows:

REIN SCH TOLD SCHREIBER.

MADISON, April 13.—Keeping my eye peelsky for our enemy, Reinsch. Told Schreiber, an ally of Germany, to-day that your royal highness was a "despotic old thing" and that you wanted to carry India for your ticket in the spring. At ten A. M. told Chynoweth, son of a friend of our friend La Follette, that you had men working in the fourth ward of China subsidizing newspapers and using real stalwart methods. I'd be sore about this, Nick, if I were you. Don't peach on me, though—I drew a poor in Colonial Politics. He said some worse things

about you then, too. Hold a "te deum" and reassure your people that their heads can only be sacrificed later on condition that they keep them in this great crisis."—"Wheelocksky," Cable Code "Chi Psi.")

St. Petersburg is in an uproarsky since this despatch was made public. Nick is walking hurriedly between the Juneausky and the Park Hotel. He is much wrought up and considerably fussed. Red lights are burning in the streets and America is being condemned by the literary societies. Admiral Itchsomuch has been in hot water all day and part of last night. He will probably be sent to Berlin to see the Chi Psi legation in order to soothe Teutonic sentiment. It is understood that Schreiber, who is mentioned in the despatch, has reported the matter to the Emperor. Last night when the matter appeared in the *State Journalsky* a crowd of students gathered in front of the Coöperative Swindling Bookstoresky and gave the Wisconsin yell. All were immediately sent to Admiral Alexieff with orders to be given work mailing campaign documentsky at twelve and one-half cents an hour. Since then the mob has subsided.

Spend your summer in
Port Arthur. Take the
Japanese Short Line,
if your health is poor

ABBOTT'S HANDY COOKBOOK

The Ritual of Kappa Mu

A COLLECTION OF CHOICE RECIPES FOR TIGHT WADS, SPORTS, GOOD SCOUTS, GOATS, FUSERS, RASSLES, MOLLIES AND TANKS.

*Compiled by the Department of Domestic Science
with the Collaboration of Allan C. Abbott.*

TIGHT WAD—Take one large lobster, well seasoned, remove all bones and other small change. Add one ten cent package of Durham and let the lobster smoke. Pour in some liquid air as to how good a lobster you know it to be. If the Durham comes off without effort the tight wad needs further baking. When done and the Durham cannot be removed then cut the lobster out. That's a tight wad.

MRS. G. PRITCHARD.

SPORT—Take one derby hat, three bids to sorority stunts, a good family and an artificial smile. Throw in a select smattering of telephone numbers, a spring suit and a pair of gloves. Sports are served right when turned down.

MRS. EDWARD HOFFMAN.

GOOD SCOUT—Never prepared but in a damp place. First get the scout, then get it well matriculated. Leave out in the night air during the first semester. Then add three cons and serve with a red card. Now you have the scout. Slice a few recitations, sprinkle in a few fresh stabs and garnish with some homemade checks. Supply a few mixed drinks, a few aluminum chips and a dinky cap. That's a good scout.

MRS. RUFUS SCREIBER.

GOAT—Select a weak heart, a desire to make the Haresfoot and a pair of peg tops. Dilute with a smattering of old puns and add some red pepper. Soak well in the lake without hesitating as to the length of immersion, take the result out to Middleton and lose it. If it comes back add a course in Modern History and let it sizzle well until February. Then beat it.

MRS. JOHN MILLER.

ABBOTT'S HANDY COOKBOOK

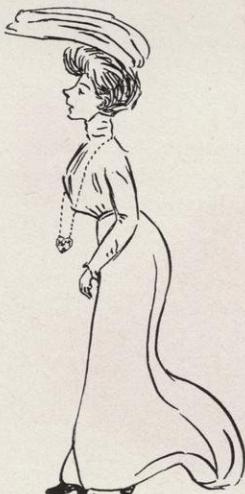

FUSSER—Mix one telephone book with a superabundance of sticktoitiveness and stir well. Prepare evening dressing with pawn ticket attached. Furnish a pinch of intelligence, a half dozen personal experiences and add sweetening to make the consistency of a batter. Put some butter in and bake. When done well, scrape.

MRS. WALTER RICHARDSON.

RASSLES—Select a choice bunch of Chauncey Olcotts and smother with onions. Put in eighteen strains of rag time and stags to the limit. Avoid introductions if they appear and supply a system of signals for end plays. Set out near the back door to smoke and keep tab on your watch until the rassle is done. Not complete without cream puffs.

MRS. WILLIAM CRAIGO.

MOLLIES—A filmy creation of extreme delicacy, comprised of a combination of mouseline de soie, and charlotte russe. Take Carroll Street on Wednesday or Saturday night and stir well. Mix some small talk with a chocolate nut Sunday, cool on the bank of the lake and exclude the arc light while being done. Mollies serve themselves.

MRS. JACK CLIFFORD.

seven times, throw in a sprinkling of creme de menthe and ring for the wagon.

ANONYMOUS.

TANKS—Beat the machine to a stiff froth. Take a graduate of the capacity of four gallons and add ingredients in usual quantities after assembling a foundation of cascade and ginger ale. Divide your life into chapters and after each ingredient, stirring well, tell one chapter. After the tank has raised its salary

A Martyr To The Cause

And they went to the Prom—'twas a peach of a night—
And his hand fairly shook as he helped her alight
From the carriage, that night, at the door.
Her program was full, he had looked out for that
For himself he reserved only one little chat
At refreshment time; that and no more.

But the maiden was blind, as is often the case,
To the deep adoration expressed in his face,
And her thoughts only roused her the more.
"For," said she to herself, "if he really had cared
The least little bit in the world, he'd have spared
At least four dances, out of two score!"

So his kindly intentions were misunderstood
And he lost her forever; for, try as he would,
He could never regain her regard.
The moral is this: Don't try self-sacrifice,
If you'd find yourself favored in maidenly eyes.
If she cares, she'll resent it; if not, she'll despise
Such a course, and you'll find yourself barred.

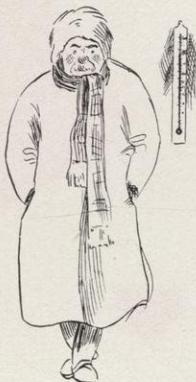

Unacclimate d

Oh, Badisod, sweet Badisod!
Idt fills my heardt with cheer
To thigk of all the days add weegks
Thad I shall still be here.

The barshes all aroudd sedd ub
A boisture rich add rare;
Bododa add Beddodta lakes
Add dabpdess to the air.

By breath has dot cub as idt should
Sidce first I cabe to towd;
Id tryig to keep frob sdeezig
I bake faces like a clowd.

Budt if I ever ged a chadce
To fly the bloobig coob,
You deedd't be surprised
To hear be give a joyous " whoob."

DITTIES

TO
THE

DAINTY
DOZEN

O, she seems so weary—tired of it all
Ennui seems to drearily
Wrap her in a pall,
Judging by her attitude
She is most blasé.
There you're off you're latitude,
That's just Fairy's way.

Wid yer shoulders squarely back,
Wid yer mannish, modish stride,
Yez are quane of all the pack,
Eau Claire's boast and Erin's pride.
Blarney doesn't go wid ye,
Leader of de swagger clan,
If yez had yer way, machree,
Yez would be a daisy man.

Canny, catchy and capricious,
Pretty, too,
That's no reference fictitious—
It is true.
Airy fairy, unsubstantial,
Sort of dainty, cream puff girl.
Verily we freely grant she'll
Set the staidiest heart awhirl.

Earnest, honest, able, "square,"
Given some to melancholy,
Good to look at, frank and fair,
Expert in the gentle jolly.
With her share of fad and folly
(Literary Dramawise)
" Miss La Follette?" no, by Golly!
She's just " Fola " in our eyes.

Dubbed a "perfect stunner,"
But no "dub" I wot,
Underneath the sun her
Equal doesn't trot.
Dashing, "swagger," hearty,
Pious is her pace,
Since for every party
All the boys ask Grace.

Leanings histrionic—
Have you seen her acting—
Attitude ironic,
Which is most distracting.
Serious, imperious,
Flippant, pleasant, chilly.
You're a mental tonic,
Millie.

Stately, dignified and given
Much to running things a bit,
Not so much from having striven
As because she's meant for it.
Likeable and full of humor,
Not unhappy when alone.
Yet, there still persists a rumor
That she has a Chap-her-own !

What can we say of you-Fred ?
The looks and the way of you-Fred ?
You are pretty, and nice and demure
Your smile and your greeting are sure,
We love you, however, because you're-Fred.

Dainty as a Dresden dish is,
Young, ingenuous and fair,
Maid whose one and only wish is
To be free of worldly care,
Changeable she is and human
Witness now her style of dress—
Dearest, bestest, little woman,
How we love her Dickiness.

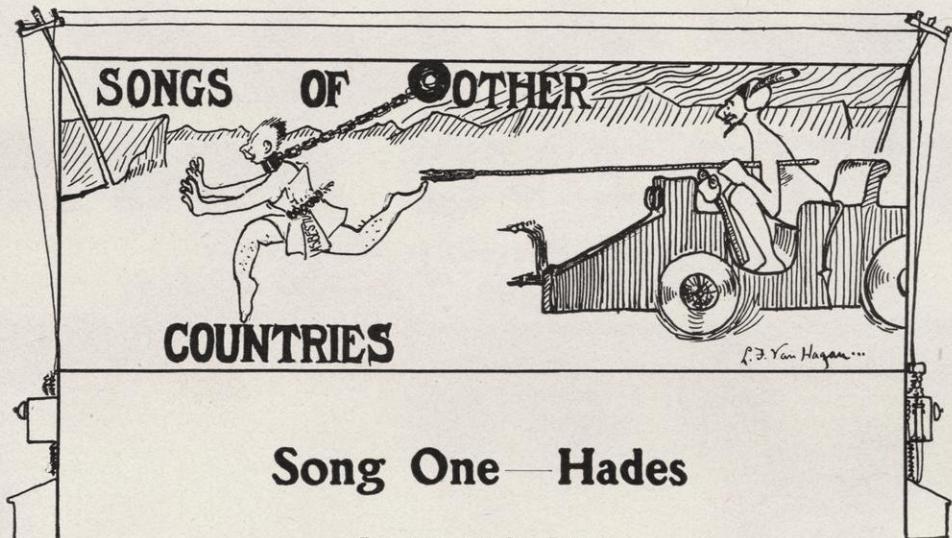

Gifted with a gurgling giggle,
Cheerful, pretty, pert and young,
With an unremitting wiggle
To her tongue,
Teasing, talking, tantalizing—
O, you bet—
You're a peach that's worth the prizing,
Harriet !

Sprightly, golden haired and sunny,
Erudite, refined, vivacious,
With a laugh like liquid honey
And a welcome way and gracious.
When she "back in the beginning "
Called us "kids" it rather tried us,
But her ways are very winning
And they muchly mollyfied us.

Serene and restful, quiet, calm,
Never stirred to burning ire,
Soothing as a drowsy psalm,
Chanted by some sleepy choir.
Soft voiced, tenderhearted, bland,
Noiseless as a mystic fairy.
Who will win this matchless hand ?
Whom at length will Ada Mary ?

Song One—Hades

(*Beg your pardon Bangs*)

I, Buckram Come Again Sawyer 19('87), coming to my room after tea at Johns was drawn hurriedly to the telephone by the clatter of the bell. I took down the receiver and replied gruffly as is my wont.

"Hello."

"Hello," came the answer, "This is Hell."

"Well I should say it was," I returned, "Olin to-morrow and I haven't started yet."

"No, you misunderstand. This is Pete Schram, '06, talking in Hades."

"Glad to meet you, Pete," I returned.

"Take these personals for the *Cardinal*, please. Line to the *Cardinal* office is broken and I've got to get these in before the forms close. If you're too late give them to the *Alumni Magazine*."

"Sure, Pete. But be calm, advise me as to the condition of John Hickey's hot water. Is he getting enough? And pardon me, but is Ike Dahle content without the hot trousers and separated from the girls?"

"Not in my degree, Buck. They're forty flights further down. Ring up South 1,426,364. Here's the personals.

"Eddie McEachron, '04, is forming a syndicate to manufacture a cinder cooling apparatus for track purposes. He has not been successful as not enough water can be found to cover the stock so that the enterprise can be floated.

"Thomas Cataline Mahon has been given a position in the statistical department of the royal monarch. The fall campaign will see Thomas in the field for the election of scientific boodling shades.

"Dick Boaler, '05, has been initiated into Red Domino. They will appear before the royal person next week in the new comedy skit entitled, 'Sanitary Jim.'

"Horatio Gaul Winslow has been substituted for the old model cauldron formerly used for torturing arrivals. His work during the past weeks as joke teaser has put him in high favor in the capitol.

"E. L. Jordan, '04, is rowing 'four' on the Styx crew. His stroke is said by Coach Mather to be better than the Yarra Yarra. Mr. Jordan is working his way by personally conducting some popular Stygian excursions.

"The firm of Binzel and Schmitt failed to-day, liabilities unknown.

"The Tin Helmets gave an informal dancing party at Kehls' Tuesday night. Jack Clifford led the cotillion.

"Rufus Schreiber came up from the German colony to-day to organize a Consumers' League among the fourth degree shades. Good luck to you, Rufus."

A Hill Missionary

H! it's seven minutes of eight!"—"Himmel! How my hair looks!—I'll keep my hat on."—"Let me take your black bow for the back."—"I know my belt-pin shows, but I won't take my jacket off."—"Give me the Source Book."—"Where's my pen?" "Don't forget the mail."—"Gracious! I'll be late!" And the door slammed behind the girl who was always last to answer the summons of the rising bell.

"Five minutes of. I wish some one would waylay my eight o'clock man and hold him awhile" she thought. "Here he is now." And rushing down the steps, she almost ran against him at the walk.

"No need of such haste, Miss Leonard; there can be no funeral till I get there." He was walking beside her.

"Your use of the word 'funeral' makes me think you are going to drill us on verbs this morning," she replied.

Just four minutes more by the library clock. If she could only hold him down perhaps the class could get away. Glorious! The luck, that he's nearsighted and can't see what's on the face of the timepiece! The mail box is a few steps out of the way, she remembers a letter in her book.

"Do you wish to post it, Miss Leonard?" He has turned toward the box with her. She drops the letter in—it stuck a little—and now she must do her best. She knows he loves a story; he told her two good ones at the last hop. There's that Sheeny one she heard yesterday; the girls roared when she told it at dinner, and Jack said that her mimicking was great.

They have passed Library Hall, and he is listening. They have reached the Law Building; he is interested. They are near South Hall; he is laughing, and looks eager. And now for the climax. If he were only a little hard of hearing, for "One" comes from the great clock. He starts forward at a new pace, she keeps up; perhaps the climax will make him forget. "Two." She makes the point. "Three."—"Four."—It has fallen flat. "Five." Something must be done! "Six." There's a little stretch left—"Seven," and third floor has its advantages after all. "Eight!"

"Oh! Oh! It's only my ankle; I sprained it last summer. Yes, it hurts a little, but it will be all right. Truly it will. I won't even limp in a minute. See, I can almost walk; I only turned it. There! I'm sprightly again. Yes, I'll be careful as I go upstairs (I hope the class goes down the other way). I believe I'll sit down before going up to third (that's Millie Jackson just shot past; they must have left). Please don't wait (they're going down the other way! I hear them!) I'll be up in a minute. You'll pardon my tardiness if I—it's a wonder he wouldn't wait till I finish," she commented, as he started off.

Ten minutes later the industrious girls in the rest room were glaring toward a corner where Ethel Leonard was talking to a very merry half dozen; and upstairs a young instructor was realizing that because of an ankle a class was lost.

"It's only my ankle."

The Jarring of the Immortals

LE BANK DE STYX, May 1.

Dear Bonaparte: — Julius Cæsar has been kidding me all day about a little item that appeared in the *Wausau Pilot* on earth some moons ago. He met me at the stalwart headquarters this morning and fussed me considerably by a reference to this man Latshaw, who I find has butted in on us. Our reputations, according to Cæsar, are hanging in the balance. I enclose the clipping. Don't let any of my friends see it, but advise me of the claims of this upstart Latshaw. In fond remembrance of our last booze fight in Moscow, I am,

As ever, WELLINGTON.

A WAUSAU BOY SAVED THE LAW LIBRARY AT THE BURNING OF THE STATE CAPITOL.

He Took in the Situation and by Cool Headed Work Soon
Had a Small Army of Men at Work.

The saving of the law library from the burning capitol at Madison is thus told by the Madison Democrat, viz:

"Keep in line there!"
"This way, to the right."
"Here, where are you going?"
"You. Keep in line!"
"You can't go that way. Get into line!"

These and similar orders were being issued by a tall individual with a stentorian voice in the corridor of the north wing. He might have been a Napoleon or Wellington if one could judge by the promptitude with which his orders were executed but he was not. He was simply a private individual who did not even know the governor but saw only an opportunity to render the state of Wisconsin a service. To him belongs the bulk of the credit for the volumes of the law library which were saved, the balance of the thanks going to the stream of men of all ages and sizes who obeyed his orders and in a military fashion carried out the books. It was not his fault if some coltish youth up in the library threw out into the snow and slush the old English reports which can not be replaced and which were worth more than \$100 each while he loaded himself with the state reports and recent publications and struggled downstairs under a load. This gentleman whom nobody knew and who will be so well remembered by those he impressed into service afterward, modestly refused to give his name and simply stated that he was a stranger and did this 'little bit' voluntarily 'for the fun of the thing.'"

The gentleman mentioned in the above article was one of our Wausau boys who is attending the State Uni-

versity. A friend, in telling of the circumstances, said that the young man in question heard the first alarm of fire and in his haste, put on his military clothes. When he arrived at the scene of the fire, he saw that something had to be done to save the library so he commenced to give orders and soon he was looked upon as one with authority, and he assumed that he was and he soon had an orderly little army of 200 men carrying out his every order. He secured a building in which to place the books and had 30, two-horse teams enlisted in the work, and not a book was lost, though some may have been a little the worse for wear.

The time that our Wausau boy commenced to give orders was 4:30 o'clock a.m., and when the work was completed it was 11 o'clock. To show the reader how fast and furious was the work and how well it was in hand, it is only necessary to say that twenty-two, two-horse team wagons were loaded with books and each started on its way in just twenty-six minutes by the watch. Chief Baker, of Madison, made the remark that the young man "must have been born with a military spoon in his mouth." Inasmuch as the young man did not desire to have his name known, the *Pilot* will not give it to the public; it is sufficient to know that it was a Wausau boy who covered himself with glory at the great fire.

LETTERS OF A CON'D OUT FATHER TO HIS SON.

THE ELLIS
PUBLISHING COMPANY
MADISON, WIS.

IF YOU WANT HONOR
FAME OR NOTORIETY

I CAN GET IT FOR YOU

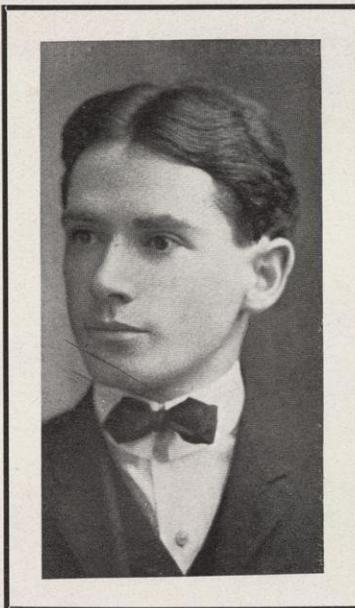

No matter who you are — half-breed or stalwart, on probation
or Phi Beta Kappa — you need an addition
to your summary

If I had not landed many honors for many men I could not afford to pay for this advertisement.

I do not handle any of the side lines carried by the ordinary grafter — I deal in honors, spring honors, sugar-cured, full weight, dyed in the wool honors. In fact, I have a P. H. D. in the art.

I left my last unsuccessful imitator, Irving Fish, in the lurch just six weeks before the big wind.

The information I give you will do you good. Freshmen cry for it; one bawling around here to-day. I told Ike Dahle not to run for the presidency.

At present I have on hand a fine young line of Badger Board Chairmanships, which I am going to have substituted for the electric chair in New York.

I have two class presidencies at frightfully low rates, one joint debate, besides an assortment of captaincies, professorships, etc.

If you want any honor fill out coupon and send to me to-day

THOMAS CATILINE MAHON
540 State Street, MADISON

Please send, without cost to me, a plan for becoming _____ without effort.

I agree to leave the rest to the subject of this sketch.

Letters from a Conned-Out Father to his Son

(Being the specifics recommended by Dennis Rafferty, common carrier, familiarly known as Hiball Rafferty to his son Willie, facetiously known to his intimates as Ji Rafferty.)

Specific No. One

From Dennis Rafferty, at the Rubeton brickyard, to his son Willie, at Wisconsin University. Willie has just unpacked his suit case, hung his high school diploma on the yellow wall paper, and has learned how to roll a cigarette.

Dear Willie:—This is Rafferty's Specific No. 1 and you can take a large swallow whenever you begin to feel that those trousers that Ma cut out of my wedding pants are not of the ten dollar brand. Your father wafted into Madison ignorant of the existence of Bull Durham, hitched some homespuns up around his waist and sat down on the depot platform to look. Just then a bunch of Chauncey Olcotts came along

with a trap, threw their arms around a Willie with a suitcase and a general fight followed, in which Willie was miraculously saved from another assortment of dinky caps and peg tops. Well, Willie, I took to college life just like a lazy man to a crib. I fell in quick, dropped the price of two sacks of middlings for a jaunty pair of tailor mades and swaggered down State Street looking for all the world like John Hickey dressed up.

Willie, you know it, I was a sport. One of the dyed-in-the-wool kind. I got full houses and royal flushes on the machines and got home for breakfast just in time to cut my eight o'clock. I learned how to say, "One with," Otto" at the "dog wagon" with all the nonchalance of a coxswain of the crew. And I was called by my first name by the manager of the vaudeville house on the Rialto. And the cops got to know me. One night I overcalculated my pull and tried to do the Iroquois Theater act with the Rialto show and the faculty got wise. I received a note with something printed on the upper corner, and I went to see the dean. The fellows asked me when I go home whether I was canned. I told them I was pickled. And I was. After that the load seemed awful heavy, and now when I get to the top of the ladder I look back to see whether one of my legs is still there.

Just jot this down in your blue book, Willie.

It takes other ingredients than peg tops to make a college man, but an eight dollar pair, seasoned with good luck on the machine, will make a fine young sport. Professors don't like sports.

Swallow this. If Noah Webster himself had a drag with a bunch of Peter Daily's and the faculty got wise they would "con" him in spelling. So don't be ashamed of your old pair. Remember that the general store is just two "cons" and a few miles from the University. And remember that red neckties, full houses and royal flushes are not intimate with Phi Beta Kappa.

Your father,
DENNIS.

Specific Number Two

On the occasion of Willie's threatened attack of heart disease and the sorority formal.

Dear Willie:—I am glad, Willie, that you drew a bid to that sorority formal, but listen. Much more robust men than you have been hamstrung by heart disease. Not the kind that is cured according to the testimonials in the patent insides, but the kind that builds homes for indigent liverymen, keeps the city boat house populated by moonlight and makes a man dream empty things about the daisies when he ought to be buckling Olin. There are several copies of those fluttering filmy creations in mouseline

"Got Royal Flushes."

THE TUESDAY EVENING POST

"Hamstrung by Heart Disease."

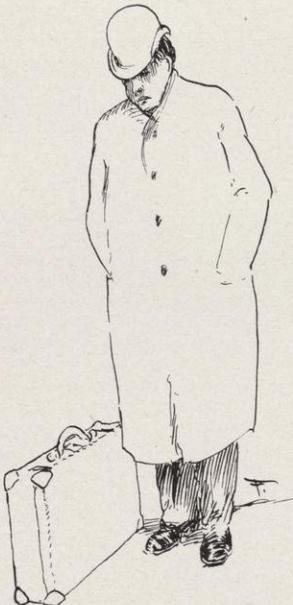

de soie hovering between the lakes down there, who have got Juliet backed into the second balcony and clambering for the roof. So just take an application of this before you smear on the talcum and rent that hat from Sid Rundell. Keep your eye on the main entrance, and when you see something balancing itself before your eyes and making you feel "kinda dizzy," make a race for the exit and get out into the fresh air. Step in a mud puddle. Kick yourself. Anyhow get back to the high spots of the earth.

I met a coy young Clara down there, who carried me off the floor with a series of talks that made me forget that her back and front switches didn't match, and before I could count three minutes on my Dollar Ingersoll, I was telling her that she was leading Sallie Simkins from Jimtown down the home stretch in a winning heat. She did not do the act as Sallie Simkins did it. She had it down to a seminary study and she was using me as a thesis, "Exhibit A." Her powers of wafting the gentle zephyrs had all the electric fans in Madison sadly in need of kilometer. Well she sized me up, listed me and got an illustration of me for her catalogue of bargains, and the

history of her chapter tells us that she sold me to the gullible freshman girl one day for her next dessert.

Listen Willie, when you drop in at that Greek letter formal, see that your asbestos curtain is hanging flush and the aisles are cleared for the grand rush for earth. If you don't you will be back in the general hospital for "Slammed Down Lotharios." You will be hanging around main hall with one of those "lost something" looks in your eyes and your pocket full of personal letters of advice from Margaret Sanger. You will be a bidder for the ownership of a

large livery stable. I owned one when I was there. All the

horses except one. He was a boarder. Look out for the livery men, Willie. Look out for the cars, for some balmy spring afternoon the train will come tooting in from Syene with some gay, young, stall fed

yearling for the interscholastic. He will have on a red streamer tie and trousers that shrink from contact with his shoes. He will carry her off to Camp Randall, and when he leaves, she will give him the calf-like stare in the eyes and drop a tear on her battenberg corsage. Then Willie take the strands and golden wisps out of your Ingersoll and make a note in your diary like this, "If you can't be the bell cow get into another herd."

Your father,
DENNIS.

Specific No. Three

Jotted down on the handle of a hod while getting up to the fifth story. Transmitted to Willie Rafferty before the spring exams.

Dear Willie:—The fact is patent, Willie, that in all the category of sciences, which is the thing that takes the place at times of your "regular work" in society, cribbing is the most intricate. You may teach a man logic and he begins to wear eccentric ties and forget to shine his shoes. You may teach him pedagogy and he begins to use sachet powder and talk about the trend of the infant mind. You may teach him sociology and he has a fine excuse for all his investigations. But teach a man to crib and his suit case begins to yawn for something substantial. Some men were born cribbers, but remember

"Some Men were Born Cribbers."

THE TUESDAY EVENING POST

your ancestry. I put my posters and peg tops in my trunk on the tenth of February in my freshman year.

I have it straight that Socrates cribbed some of his pile of wise things from his roommate, but the man who handed him the blue book dropped dead afterward. So Socrates went bragging down through the alleys of time with a bunch of good honest philosophers who never rolled a paper around a match. That was

card index that your father had to his pockets. My hood was bloomin' heavy to-day. So if it looks as if it were going to be a "fail" just reel it up on one of those automatic kind and get ready to substitute overalls for

those new spring pants. I've got you slated for the general store this summer. If you use the reel, oil it well and then forget that you have it.

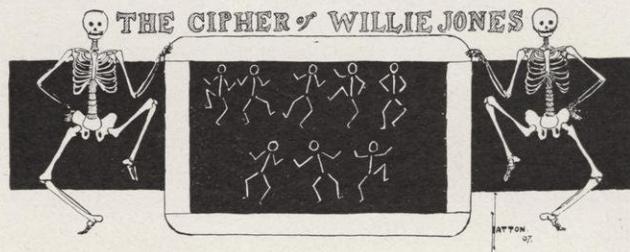

Your father,
DENNIS.

"Substitute Overalls."

luck. William Shakespeare cribbed his plots but the faculty never got wise till this day. Willie may get a red card yet.

I had nerve, Willie, but it disappeared quicker than the string of paper under my seat when the "prof." came galloping down the aisle. I had the history of the British nation down in draughting ink, but they were not looking for contributions to short historical, condensed literature. So don't mar that picture of Phyllis in your watch with the condensed ethics of Plato. Don't try to improve on that

A miss of ten with chubby hands,
Low, side bent head and fast gripped pen,
Perplexedly wrote Sherlock Holmes—
Authority on "Dancing Men."

"Dear Sir :—I wish you'd be so kind,
To tell me what you think these mean,
That Willie Jones wrote on my slate
And greatly 'blige Your Friend, Pauline."

At length the answer came from Holmes,
"By logic I can find no clue
To either crime or felony,
The cipher may mean 'I love you.' "

Poor Richard Remp's Philosophy

¶ Slam thy friends, let not
them slam thee.

¶ Since thou art not sure of an
Ex. throw not away thy crib.

¶ Bucking maketh a wise man,
bluffing a ready man and cribbing a conned man.

¶ It is not all to be the bell
cow. I would rather be a gun
boat than the primitive Scow.

¶ Let every man set a price
upon himself and let there be
no bargain days. Take me
home for \$1.99.

¶ If that Coffin-Sellery Combi-
nation gives you trouble with
your eyes, use a little of Par-
kinson's constitutional ointment.

¶ Detectives and men of genius
are born, not made. Witness
the creation of Sherlock
Holmes. I was born in La
Crosse.

¶ When your enemy smites
you turn the other cheek, but,
while revolving, land and give
the hearse horses a show to
prance.

¶ P. T. McFarland has said
that the American people love
to be humbugged and Petie
got to them all right. So lets
stick out our chests fellows,
and all be sages.

¶ An unusual lecture is one in
which the "Prof." does not
mention his trip abroad. An
artistic lecture is one in which
he just mentions it. A satisfac-
tory lecture is one in which
the trip takes so much time,
that day dreaming and letter
writing are not interrupted by
note taking.

holdings are sacrificed for the
"half Nelson" on Tuesday
evenings and, if Bertha gets
through with the chinaware in
time to put on her picture hat
and hie herself to the race, then
Bertha gets a hunch on the
social whirl that only the gradu-
ation of the competitors can
eliminate. The four-year eligi-
bility rule is not strictly en-
forced.

Playing to Beat the Band

Racing, the Sport of Kings

WHEN Atalanta, head
waitress in the most
pretentious hostelry in
Athens entered into the
matrimonial derby against
Pedro, in which the hostler won
by strategically dropping apples
at her feet, she little fore-
saw the decadence which was
to come to the sport of kings.
She was the daughter of a poor
but honest king, who was com-
pelled to make counterfeit
money to carry on his campaign
in the Third ward of Athens.
The king got two years in the
house of correction and the de-
jected daughter went to drop-
ping plates to reduce the in-
come of the Athenian lodging
house. In Athens races were
State events, held every even-
ing except Tuesday, which
goes to show that modern rac-
ing masters have not adhered
to tradition.

Races in the day of Atalanta
were democratic events. A
bushy-haired professor intro-
duced the competitors to their
running mates without hesita-
tion. This practice has been
tabooed in modern times by
stricter rules of the course. At
Kehl's on West Johnson, be-
tween the two Naides of the late
Mr. Longfellow, introductions
are superfluous. However, this
has not detracted from the
popularity of the events. Social

W HEN Alaric the Goth
led his band down upon
the peace loving citizens
of Rome he got trans-
portation from the Chicago and
Northwestern Railroad. It was
a sunny October morn when
they left the fair Teutonic hills.
The mighty pageant sallied
down State Street to the depot
murdering a pathetic "Hail to
the Bride" and pounding the
drums opposite the Juneau to let
the old men and the boys know
that the spirit was still there.
Alaric rode a fiery steed draped
in gaudy cardinal and carried
his spear at an angle of 34½°
above his right shoulder. Fair
women gathered along the
street strewing orange peelings
and waste paper in his path.
A courier ran at his side and
cried out:

"Michigan, Pa-shaw,
We'll beat you well.
That's all I'll tell
Until Gay Wooledge speaks."

It was a sight fit for the gods
to look upon. None were caught
peaking. And all the while a
priest clad in black at the rear
of the mass of mighty warriors
was offering up thanks to the
Alaric Athletic Association that
Kilpatrick was never elected
manager. The boys came back
from Rome with eleven shat-
tered idols and what was left of
the janitor of the gymnasium.
Jamieson, the historian, tells us
that they did, which can be re-
lied upon.

THE TALE of PETER STERLING.

BY PATSY LOP EAR.

IT was a dull day for dogs down in the Latin Quarter. Smellso was hiding under the porch from a ferocious pussy and Stag was sitting down in front of Theodore's, where he knew the fellows could never find him unless they came out the wrong way. I was in a mood. It was a day for the dashing off of doggerel. But not a dog dashed. Peter Sterling, aristocratic, bowlegged and blasé, waddled down Lake Street, deep in a sullen revery. His feet pattered on the hot pine boards and across the court came the siren song of the singing Sallie, whose wooden shoes clattered on the Chi Psi porch. The waves beat a touching tattoo on the weather warped sides of the fleet Phi Delt boat which rode at anchor under water. The sun scorched and Peter Sterling was a hot dog. Not a more sullen sire ever took a neck hold. The haughty Peter was a doughty diplomat and a clever one. But that day there had been a change in the personnel of the dominant dogs of the Latin Quarter. The downfall of the proud Peter had come and the ring tailed, chop eared, brindle, Brutus had careened off up State Street after the annual meeting of the "Amalgamated Association" carrying the blue ribbon. Political graft had done it. Smellso was responsible. Peter had fallen because he lost caste with the hoi polloi element. Brutus had won because he shared his bones with the yellows and ran with me, "Lop Eared Pat" from Langdon Street. It was a sad tearful tale that Peter carried to the Abbott under the Delta Tau porch,

where the St. Bernard bathed his heated paws with his tongue and sadly sighed as he lay stretched across one of Ike Dahl's old pair of trousers.

"I have something to say to you" said Peter.

"Something to say to me?" said the Abbott.

Peter raised his parched nose to the breezes and swallowed a lump in his throat. "I'm afraid, old man, that the can is on my tail and the cynical Smellso has got me hammered to the mast."

"Well" ventured the Abbott, "what of this butinsky Brutus. Will he be strong, socially. Does he come of a good family? How is he in his studies?"

"Alas and alack a day," howled Peter. "He has the qualifications. You should have howled had you heard Smellso making the nomination howl."

And Peter looked gloomily out across the stretch of placid water.

Thus mused the monarchs of the mundane world of dogs and all because the presidency of the Amalgamated Association had gone democratic. It had been a battle of the machines from the gavel rap. Dogs went in whole souled and fought for the aristocratic Peter. They came out looking like a "Hamburger With." The Honorable Peter had presided by right of office tenure and he pawed the horse block for a rostrum as he outlined the policy of the past administration. And he hoped the republican principles of the Amalgamated dogs would not be severed by dissension. He

"viewed with alarm" the declining standard of fraternity dogs and he "hoped that the voters would not forget that it was not the cut of the ears that made the good dog but the way he wore them, that counted."

Cheer after cheer came from Stag as the Honorable Peter continued and he cleared his throat as he sat down and barked for the nomination speeches for president. Then up rose Smellso, cynical and shrewd, and began.

"In the words of Irving Fish, I come not here to nominate a dog who represents any

The dogs you licked he has licked beside
And when you couldn't he also tried.
Was there aught that he did not share
In sausage, dessert or peas;
One flea or woe that he did not know
And always try to seize?

I have named the dog of my choice
For a fattened kennel's vote
In brindle guise, but you dogs are wise
And you know what the dog is worth."

And cynical Smellso sat down. Ring-tailed Brutus lay in solemn modesty on the curb. A howl rang down Lake Street and reechoed back from the walls of the Phi

dominant faction. I do not rise to name a dog whose name is chi-hi-siled on the dome of the capital. I would name a dog whom we all know. His integrity is unquestionable. His honesty is legion. His enemies may say that he is ambitious. Brutus is not ambitious. I again quote, but this time from Emil Seidenglanz. 'I have known this puppy since his early puppyhood. He was well thought of in Kewaunee, pride of the city in fact. The Honorable Peter has made the issue of this campaign the system of kitchen hand-outs. It is the issue of a sleek dog. We, of the common horde, know no sleekness. We hunt our bones from the yard of Hoven. He has fared even as we.' I now quote from a syndicate :

He has eaten your bones and spud,
He has drunk your water and mud;

Delt house. Peter Sterling was named by a fleshy pug from Frances Street and the cheering was weak. Then the vote was called. The brindle terrier from Frances Street came through with flying colors and erect ears. Peter left the rostrum like a shadow. His ears reddened. He was seen to cast a look into the sea of faces. As he turned the corner into Mendota Court a hair was seen to turn gray and wither. The bunch howled for Brutus, and the delegates immediately went down to get Ike Mather to put their pictures in the *Sentinel*. Jim Blake is going to take Peter east to Harvard, where real blood relationship counts for something. And Brutus lies on the Kappa Sigma porch and makes a mental note of the number of times Jimmie McFarland uses the letter I.

Nature's Inspiration

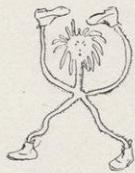

Dame nature, in a happy mood,
Fashioned a hill, and then a wood,
And set the wood upon the hill,
Surveyed her work and tho't it ill.

'Twas beautiful beyond degree,
But not as she had wished to see.

A glowing inspiration came
And set her heart and mind aflame.
She quickly formed a crystal lake
With circling shores on which to break,
Then, stepping back,
surveyed the whole,
And satisfaction filled her soul.

Men call the lake
“Mendota,” and you see
Upon the hill our pride—our Varsity.

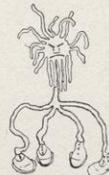

The Cannin' of John Hickey

"What are those lobsters growling for?" said the microbe on parade.
"To turn us out, to turn us out," the wise old microbe said.
"What makes you look so sleek, so sleek?" said the microbe on parade.
"I'm enjoying what I've got to eat," the senior microbe said.
"For they're cannin' Johnnie Hickey, you can hear the dead march play.
Sleek John is down in Elsom's room, they're cannin' him to-day.
They have taken of his sweaters off and borne his snap away
And they're canning Johnnie Hickey like a lobster."

"Is microbe friends were friends of mine," said the microbe on parade.
"His microbe friends are done for now," the wise old microbe said.
"I've stuck to John through thick and thin," said the microbe on parade.
"You'll choose the Jim or Hickey now," the wise old microbe said.
"They are canning Johnnie Hickey, you must mark him to his place.
He killed your comrade sleepin', you, too, must look him in the face.
Ten billion of our kind and the microbial disgrace
While their canning Johnnie Hickey in the morning."

The Dealing of the Dole

Solemnly, mournfully dealing its dole
The eight o'clock bell is beginning to toll.
Put up the curtain and let in the light;
Toil comes with the morning, in spite of last night.
Hustle to breakfast as fast as you can.
If you're an engineer, snatch up a plan,
Rush to the drawing room; then to a class;
Bump into every one whom you must pass;
Slave through the day, and slave all the night.
Gee! This varsity life is a fright.

The Indisposure of Rufus

RUFUS Schreiber, of Oshkosh, was pounding his ear. The bell on his alarm clock was tingling riotously on his dresser, but Rufus rolled over and restlessly muttered, "T'ell with classes." Then he lolled off to a dreamy survey of the Japanese Russian situation, which had filled his mind. He had studied hard the night before. At ten Rufus was up and had taken nourishment from an orange, rolled a cigarette and was scanning the *Cardinal*. The dean had something to say about the last classes before the Easter vacation. Rufus read with trepidation.

"Well, blankety blank," he whispered to the people in the next block. "And me on the verge. Snick, how does it feel to have the appendicitis?"

Snick ventured to say that it felt like gastric irritation, using other synonyms. "Well, it's me to the doctor," said Rufus, and he bounded down the hall for his dinky cap.

"Good morning," said Rufus, as he greeted the doctor.

"Good morning, Rufus," said the doctor.

"I'm sick," said Rufus.

"Wot's matter, Rufus?"

"Appendicitis," said Rufus.

"I find that there is a tendency for appendicitis to emanate from the prevalent germs now invading the Latin Quarter. I suggest that you be operated on at once. Come up to-morrow. How many classes have you cut?"

"Three," said Rufus.

"That is a bad case. Worst in my experience. Take these pills once every three hours and tie a red rag around your neck. Here is your doctor's certificate. What shall I call your malady?"

"Lemme see your samples," said Rufus.

The doctor opened up his sample case. The longer words were high that day.

"Gimme this Russian name," said Rufus.

"Ah, this Gastroduodenalivitch."

"Yaas," said Rufus.

The doctor smiled sardonically.

"Do you feel better, Rufus?"

"Much improved," said Rufus.

"That will cost you five dollars."

"Wo-o-o-ot," said Rufus.

"You took the same one that I gave to Sid Law."

"Oh, that's cheap, then," said Rufus, "Got anything a little better?"

"Not to-day, Rufus."

"Good-bye, doctor."

"Eat Eggosee, Rufus."

"How many classes have you cut?"

A New Student's Plaint

Ich bin von Deutchland neu gekommmt
Ich kenn dot town nicht well.
Ich vundert me if you perhaps
To me some dings could tell.

Ich vundert me long time as yet
On vat did Cudworth Beye?
To hear dot Peter Bray I tink
Would dot make Daisy Dye?

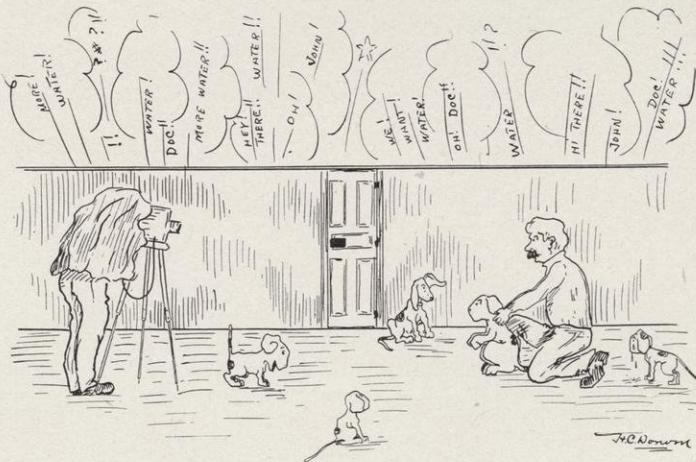

Ich tried to tell once more again
Vot brought dot Albert Hinn?
Ich also could not find dot house
Dot Streeter girl is in.

Iss Ethel Strong und how vas dot?
Und vat turned Mary Gray?
Und vy it vass dot Bernice Buck?
As yet Ich can nicht say.

Ich called Miss Anna King, dot made
Not Ira Cross at all.
Und Howard Savage got at once
Und dot made Sidney Ball.

Und vat it is dot Edgar Gaetz?
Und vere does Sarah Goe?
Und haf you heard dot Ilma Rohr?
Und vot does Maurice Moe?

Dese bin some tings I ask to you
Vas trubling me so sore.
I now vas stop till I up tink
Some oder questions more.

A BUSY DAY AT THE "GYM."

On Being Flunked.

If I should flunk to-day—
If some vile "prof." should take it in his head
To call on me when all my thot's were dead
 To class rooms and their way;
If I should stand
And trying to fix my mind
On what he said, should find
 My thots still in dreamland,
I'd feel ——— cheap.

FRESHMAN TO UPPER CLASSMAN—Who is that fellow who jumped behind the tree when I pulled my handkerchief out of my hip pocket?

UPPER CLASSMAN—Oh, that's Tom Watson, who has been spending the summer with a surveying crew in Kentucky.

Time—1:30 A. M. SLEEPY ROOMMATE—Kit, what are you doing?

KIT—Curling my hair.

S. R. M.—Why are you doing it now?

KIT—Getting ready for an eight o'clock.

WEDNESDAY, JAN. 27: 5 P. M.—"Bob" Davis announces his intention of running for the presidency of the Senior Law Class.

THURSDAY, JAN. 28: 12 M.—Class election.

THURSDAY, JAN. 28: 12:14 P. M.—"Bob" changes his mind.

PROF. ADAMS.—You can find this reference in the Pool(e) room at the library.

PARKS, A SENIOR.—Ha! Ha! Ha!

What more could Wisconsin expect than what she got in the Poughkeepsie races last spring? $\frac{1}{3} + \frac{1}{3} + \frac{1}{3} = 1$.

PROF. OLIN TO MR. FALK.—Will you state 35 Ohio, 65?

MR. FALK.—Have not read it.

PROF. OLIN.—Why?

MR. FALK.—Negligence.

PROF. OLIN.—Are you liable?

The Milk Tester and the Only Joke

THREE is no definite relationship between the cow and the comedian. The Babcock Separator will go clattering, careening, banging down the side entrances of time with the fame of Bob Davis. Both are products of Wisconsin. But there is to be a companion fame, which will share the encomiums of ages to come. It is that fame which the world owes to a real good joke. Nurtured beneath the geological formations of a master mind, harbored through all the scientific investigations, tided over opportunities for springing in the presence of sharks in the rock science, and finally brought forth under the influence of oleomargerine and Chauncey Blake, it looks good to us. Smithsonianians may have excavated in Egypt, Horatio, *only*, may have said some right pert things, but science never came by such a liberal contribution of a really humorous nature as that handed out over the thirty-cent coffee.

The author of "Peck's Bad Boy" had reached out to the unappreciative horde and proffered some clever ones. Bob Davis repeated some fuzzy, mossy pickings from Braley, and Chauncey Blake had explained how he "skinned" through geology.

The critical time had come and the revelation was made. For a moment there was dumbfounded consternation. Then Stanley Latshaw, the first lieutenant, stood up, took the cover off his cardinal tie, and yelled a real vigorously lusty yell.

"No cons and no fails," said Prexie. "'Tis well!" yelled Stanley. He saw the point. Then the rest yelled. And they kept on yelling until the strip of calico came out on Monday. Most suddenly the yelling stopped and a pall settled over the Pan Hellenic neighborhood. Some one snapped a cigarette butt into the grate and whispered, "—— — poor JOKE."

And the reverberations came back, "Poor joke," "Poor joke."

Which Was Wise?

Once two impecunious bros.-in-law
Supported their respective mos.-in-law.
But they firmly declined,
Being of the same mind,
To support all the various os.-in-law.

H. J. Masters insists that he isn't MUCH
on the track.

Ben. Paust at Home.

It Wasn't Her Fault

Mary had a little dog—
I guess that Mary was her name,
But if it wasn't, let it go;
She owned a puppy, just the same.

The dog was mostly nondescript;
His coat was more like wool than hair.
And every time that Mary went
To walk with him the folks would stare.

He followed her to class one day,
And liked the place so very well,
That after that he always went,
Though profs all wished he was at home in his basket.

But when he tried to enter in
Where Reuben G. holds awful sway,
He found himself beneath a ban
That closed the little doggy's day.

And now he's seldom ever seen
Upon the hill or round the town,
And Mary goes her lonely way
With tearful eyes and troubled frown.

What makes the dog love Mary so?
The question set the town agog.
But I would much prefer to know
Why in the deuce she loves that dog.

A Ballad of the Bar

Six cribbers went up to the College of Law—
To the College of Law as the sun rose high;
Each carried what profs would condemn if they saw,
And their friends stared in awe as they hurried by.
For some will crib and others will not,
And some couldn't pass if the choice was by lot.
And the whole State bar is watching.

Six cribbers sat in the Senior room—
In the Senior room, till their task was done.
The air was heavy with fearful gloom,
And the Spotter spotted them, one by one,
For some are foxy and don't get caught,
While the scheming of others must go for naught,
And the shocked State bar is watching.

Six cribbers reported to Richards, the Dean,
Pursuant to things that the spotter had said.
But instead of reporting the things that he'd seen,
He had made it all up in his own silly head.
He played for a graft, but his bluff was called,
And his little project was quickly stalled.
And good-bye to the bar and its watching.

Paradise Lost

Kind Fortune, pity me, I pray !
Thy votary I've been
Since first my hand could hold the cup
They shake the iv'ries in.
And now forsake me not, kind Dame ;
Still let my fortunes rise,
Although I've lost (ain't it a shame ?)
My fav'rite pair o' dice.

BJINKS :—" Where are you going, old man ? "
BJONES :—" Going down to Curtis' studio to get shot."
BJINKS :—" You do look dressed up to kill." —*Sphinx*.

The Lovable Gingham

HEN Mulvaney walked out on the portico of Main Hall that morning just ahead of the scurrying, breathless throng of "eight o'clocks" a girl in a dress of checkered blue and white brushed by and nodded. Mulvaney lazily raised his derby and leaned against the pillar to watch her as she made her way in and out of the maze of students crowding up the hill. He slowly reached into his hip pocket and drew forth a sack. Then he fumbled in his coat pocket for a paper and keeping his eyes on the receding form, leisurely rolled a cigarette. Mulvaney sat down on the stone steps and gazed after the girl in the checkered gown. She passed the engineering building and finally disappeared beneath the hill. For a moment he stared vacantly at the spot where her bobbing hat had passed out of sight and ignored bevy after bevy of girls in filmy summer dresses, whose hair was blown ravishingly about their faces and whose skirts clung to them in the wind.

Dempster came out and sat down, carefully displaying his open work socks above his oxfords. Dempster bothered Mulvaney by continually raising his hat to girls when Jimmie was not looking. The girl had always disappeared before he had recovered sufficiently to show courtesy.

"Dempster," said Mulvaney, turning as the crowd of noisy students edged over toward the sunny portion of the campus, "Juno who is rushin' that fairy with the blue and white dress and the tan shoes?"

"Dunno who you mean," said Dempster. "What is she?"

"Barb' I guess. Entered last February. Met her at an inter-frat, Dexter or something like that."

"Why Ganley had her at that inter-frat. Look good to you does she, Jimmie?"

"Who looks good," interjected Ganley, who stalked across the walk, snapping a cigarette butt into the grass. "Pardon me for buttin' in."

"All right, Tom. Who is first in the running with that Sallie you had at the inter-frat. That one with the blue and the white dress?"

"Oh, you mean Miss Dexter. Just head in you goats. There is a man down at Harvard engaged to that." And Ganley hopped up the steps and disappeared through the throng which jammed the main door.

"Dempster displayed his open work socks."

"Must be some lucky dogs at Harvard," mused Mulvaney, half to himself, as he stuck his hands into his trouser's pockets and wandered off down the hill, leaving Dempster sitting on the steps.

* * * * *

There was something that savored of the historical novel in the manner in which Jimmie Mulvaney paid his first compliment to Dorothy Dexter. Mulvaney had tried for the crew when he entered college, had failed and gone into track athletics. He ran well, but there were too many ten second men and distance cracks for Jimmie to star. Still he stuck to the practice just to keep in condition. The coach sent the bunch for a run over to the bridge one night in May and Jimmie led to the turning place. Then he dropped back to the rear and loafed back as far as the hill behind the chemical building. There while crossing a ditch formed by the spring rains, he turned his ankle and dropped on one knee. He tried to get up and walk, but the ankle pained him and he sank down on the grass to tie a strip from his jersey around his foot. The perspiration, due to his brisk exercise, stood out in large drops on Jimmie's forehead, and he felt the breeze from the lake as he rested. Then he was suddenly conscious of some one being near and he turned from a critical examination of the tendons of his foot to see a girl step out from behind a clump of shrubbery along the bank and gaze dreamily out at the horizon. Her dress was of blue and white, and as she held a palette and brush in her hand, Jimmie decided that she had been painting. Mulvaney liked the way she tilted her nose, and something about the poise of her head made him forget his ankle. She had not seen him sprawled out on the ground in his "Gym." costume. Jimmie half wished that she would and that she wouldn't. Her hair was rakishly drawn about her ears. She appeared far above the earth to Jimmie. She seemed to be living in a higher and more sacred atmosphere. One tan shoe was protruding from beneath the checkered skirt and her hat was tilted back displaying her disheveled brown hair. As she turned she caught Jimmie's eye and overcoming her first feeling of surprise came toward him.

"Oh Mr.—Mr.—Mr. Mulvaney" she said, "what is the matter?"

"Sprained my ankle I guess" replied Jimmie, forcing a grimace out of sheer hypocrisy, always priding himself on his ability to stand pain.

"But can't I do something, telephone, or call some one, or do something?"

"I had forgotten all about my foot until you mentioned it," said Jimmie.

"But it must hurt you. How could you?"

"I was watching you."

Smiling frankly, she sat down on the grass at his side, dropped back on her hands and began.

"If you won't let me help you I am going to keep you company."

"I am going to keep you company."

For a moment they were silent. Jimmie took another twist at the bandage on his ankle and saw her grimace when he drew it tighter. "I've been waiting to get you alone somewhere to ask you to one of our parties," he said, drawing on the twisted ends of the bandage. Jimmie forgot formality, for he was not used to that.

"Do you want to go with me," he queried.

"Why certainly," she replied. There was a frankness about Jimmie that Dorothy Dexter liked.

"You may think I am abrupt, but us fellows here at Wisconsin murder formality. Girls are most all good fellows."

"Then I must learn to be," she ventured.

"Your course is complete," said Mulvaney.

Jimmie rode home from University Hill with Miss Dexter after she had succeeded in calling a cab by telephone, and as she helped him from the carriage at the house, Ganley, who was lounging on the front porch, dropped his cigarette and stared in open mouthed wonder. Then he bounded down the steps, smiled at Dorothy, and took Mulvaney's arm. She gave an order to the driver and the carriage disappeared into Langdon Street.

* * * * *

There was nothing sentimental about Jimmie Mulvaney. Still he was accustomed to loaf around on the front porch in the afternoon until the mail carrier arrived. Sometimes he brought a blue envelope which enclosed a dainty note, cleverly written, and signed "Dorothy." When the letter failed to come Mulvaney scowled and cussed the clothing houses that sent him circulars. On the night of the party he was thoughtful. Dorothy liked him when he was in that mood. She followed him out on the porch, when he sauntered out to smoke, and sank down in a large chair at his side. Nothing appealed to Jimmie more than the satisfaction of being in the company of a girl who was satisfied to muse with him, to be silent when he was silent but still able to be loquacious when he talked. There was some glamour about all of this. As Mulvaney blew long inhalations of smoke into the trellises on the railing he regarded Dorothy's face in the moonlight and ventured to assure himself that her thoughts were not upon him but perhaps off in Cambridge, Massachusetts. The glamour of the intermingled music of the mandolins and the sound of Dorothy's voice, as she hummed through the airs, told on Jimmie, and he drew his chair involuntarily closer to hers.

"Do you know," he confessed, "I am in love with that blue dress of yours?"

"Then I will never wear it again," she retorted.

"But why?" he asked with surprise.

"Because there is nothing in it to love."

"And if there was?"

"Then you would have to love the contents."

"But if some one else had before—"

"The blue dress is not engaged—"

"But the contents—"

"Are just as free."

"But I thought that the man at—"

"He liked the blue dress and admired the contents."

"But never loved—"

"The blue dress rejected him."

"But the contents?"

"Are one and inseparable."

"Then I may—"

"You may take me in to dance that waltz."

And Mulvaney carried the program of Dorothy Dexter in his pocket while Ganley and Dempster thrummed the strains of "Peggy Brady."

The Famous Greek Letter Hold-up

Or, How Professor Cranium Got to the Livery Combine.

THREE was an ugly gash in the side of the roast and a deep hole in the potato dish. The conversation was on the psychic theory and the freshman from Blooming Grove had just scored for the affirmative on the question of its probabilities and the idiosyncrasies of its followers.

"Gimme sum spuds" said the senior. This interrupted the discussion of the freshman for a moment, after which a young Ralph Waldo from Syene spoke up with a vigorous twang.

"It is apparent to one of lofty ideals and logical appreciation that the relation of the early beings to the so-called reincarnated individual of to-day is one of the most definite identification."

"Blankety blank, that's fierce coffee" said an unappreciative junior.

"Sh-h-h—" said the sophomore, "I hear the door bell."

"I was about to remark," continued the freshman with the flowing hair, that—"

"Shut up," gasped the senior, "Maybe its Kentzler."

"Or Regan." "Or Brown."

"Or the F. F. F." went around the table in hushed tones.

The disciple of the psychic theory shoved back his chair, took off his bib and answered the door bell.

There was silence in the dining hall.

The liveryman was in the outer hall.

"Jimkins here?" yelled the theorist.

"Nop," yelled Jimkins from the dining room, "Gone to dinner with his cousin."

"Jones here?" squeaked the well trained boy in the hall.

"Won't be home till the first of the month," called Jones.

"Binks here?" feebly came from the hallway.

"Binks went to his grandmother's to dinner," offered Binks.

"You have a large chapter this year, haven't you," said the liveryman. "One of your freshmen had a small account with me. Let's see, is Chauncey Ibsen here?"

"Gone to Middleton to spend Sunday," said Chauncey as he closed the door wrathfully.

* * * * *

"As I was saying," went on the freshman, "the intricacies of the psychic theory only appeal to those of an elevated capacity for theoretical digestion."

"Sh-h-h-h—" said the sophomore, "I hear the door bell."

"Tell 'em we are all out, Chauncey," said the senior.

The bunch waited. A pall hung over the salad and the raspberry jam.

Professor Cranium, the phrenologist, walked in.

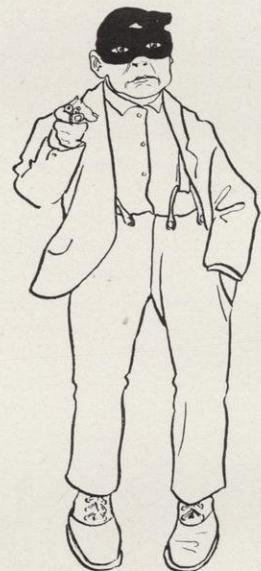

"Gentlemen, I am glad to see you," he said.

"What's your price," said the senior. "Tell us quick. We are wallowing in money."

The poor old decrepit man was showered with a deluge of real hard silver that hurt his bald head when it struck him.

"Never mind our heads," said the senior. "We know you're a fake, but we don't need the money."

And the poor old phrenologist went off rejoicing and lived happily with his family in Oskaloosa, Iowa.

General Offices
192-194 W. Van Buren St.

Chicago Dec. 3rd, 1903.

Paul Binsel,
Madison, Wis.

Dear Sir:-

We have taken the liberty of addressing this letter to you, on the possibility that you may use liquors at this time of the year, particularly for the holidays, and knowing the difficulty or publicity necessary to obtain them in your own locality, we have made up the accompanying assortment as representing in part the quality and variety of goods sold by us, in the hope of persuading you to favor us with a trial order, believing you will be so well pleased that we will secure you as a regular customer.

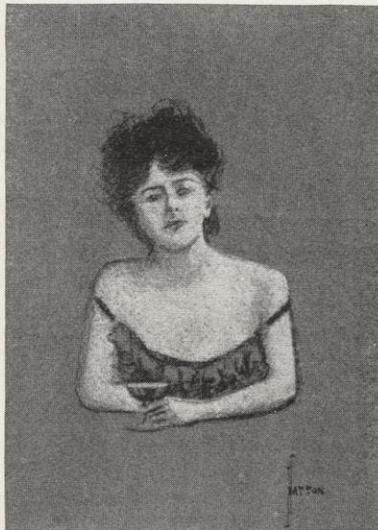

Our 15 year old "Miss Chicago" rye or bourbon is whiskey perfection. It has that smooth, velvety taste and delicate aroma only acquired through long aging under proper conditions, while our wines, brandies etc., are the best the market affords and cannot be purchased in your own locality at anywhere near our price.

We make all shipments in plain sealed packages, with no marks to indicate contents, expressage prepaid, on the understanding that should a test not prove satisfactory, you have only to return them at our expense and we will either exchange them or refund your money.

We refer you to the Colonial Trust and Savings Bank, Chicago, as to our responsibility.

Yours very truly,

Malcolm Distilleries Co.

A small package of "Miss Chicago."

Proverbs

Count that day lost whose low descending sun
Hears from thy mouth one foolish freshman pun.

It isn't the ex you've given, Prof.
It's the ex you've left ungiven
That gives me a bit of a heartache
For all I've pulled and striven.

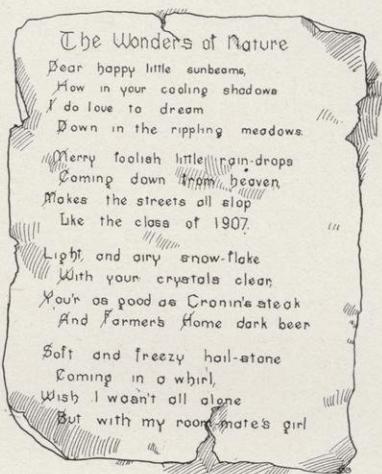

Ignorance makes all things difficult,
Bluffing, all things easy.

Cut a class, you lose your "rep;"
Lose your "rep," you use a crib;
Use a crib, you get a con;
Get a con—then exit John.

Politeness is to tip your hat,
Though fifty more you must speak at.

STUDENT (afraid of a con)—Professor, will you give me my standing?
PROF.—I regret that it is a "poor."
STUDENT—God bless the poor.

The accompanying very ancient manuscript was unearthed in the Alamo when the moon was on the rise. Early chroniclers said to be contemporaries of Leo de Rusche Ludlow fasten the guilt upon the sentimental Leo, who many nights in days of yore ate pretzels and perpetrated punitive puns upon his pals in the classic "Nit De Bum" on the Rialto. For centuries the stolid wit of the jovial Ludlow rested restfully until roused from its excavation by the droll wit, Sunny-Cal Pennyante Win-Slow, and the wag, I.M. Braylee. The original utterances of the droll Ludlow appear whenever the printer is paid for the last issue of the unspeakable *Sphinx*.

PROF. GILMORE :—The next case in the book is Hartmann versus Pender. Will you recite on that case, Mr. B——?"

B—— :—"I did not get that suspender case, professor."

Love Me, Love My Dog

They were talking about "the girl with the dog."

"I understand," said the first, "that when she came here she wanted to take nothing but literature, and yet graduate. Hiestand told her she couldn't do that, and then she asked if she couldn't take all agriculture."

"Well," put in the second, "why didn't she take 'animal husbandry' ?"

PUZZLE PICTURE — Who hired the Stanhope?

All was still, quiet, noiseless. There were no sounds to stab the cold nightiness of the air. Then suddenly a cry rang out. A woman's voice. "Gadzooks, some one in distress." Ike Mather ran to the place from which the sound seemed to come. "A scoop for Charlie Pfister," mused Ike as he feathered his oar into Langdon Street. Alone, miserably alone in the stillness of the night, stood a woman. She was clothed in white. Her hands clutched imploringly at Ike and she moaned, "Lost, lost, lost."

"Wot t'ell," said Ike.

"My only son, a fine young man—with brilliant prospects—"

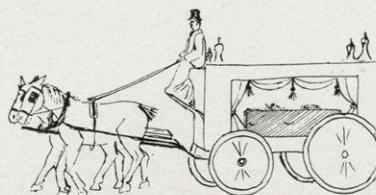

"Wot of it," said Ike, "dead?"

"Worse—far worse—appalling, astounding—cruel, horrible."

"Wot's matter," said Ike.

"Conned by Sellery."

The ambulance drove up, and she was taken away. Far in the distance a lonely bull pup wailed. An owl hooted weirdly out near Mazomanie. A deathlike silence was over all. The soughing zephyrs whispered sadly "Sellery."

Foam From The Brauery

8:07 A. M.—Five students file into the class room. The instructor speaks :

"Breathes there a man with soul so dead
Who never to himself hath said,
'I'll have one minute more in bed'?"

"Little sparrows or in other words—sparrowettes."

"Que dieu vous benisse, monsieur?"
"My God, what have you been drinking, Sir?"

"Tender in a younger day, perhaps, but now tough—like old chickens."

But I suppose if she had married a mason she would have been mortified for the rest of her life.

Holy smoke! Let 'er rip!
Something doing sure, this trip!
That's a cinch now, because
Bash is in among the Laws.

To A Pill Pounder

A druggist, who lived down in Me,
Tried selling Pabst beer, but in ve.
Tho he sold to "the sick"
They locked him up quick.
Now wouldn't that give you a pe?

"Gracious Me"

A maiden bewitching and swt
Was hurrying down Langdon St.
She came to some ice,
And her words weren't nice,
As she got up again on her ft.

The Meeting of the Master Minds

HORATIO slammed the gavel down on the pine table with a vigorous rap.

"Mike," he said, knowing that no syndicate representatives were around to steal his virgin utterances for paltry sale, "are all the members of the Conglomerated Association of Geniuses present?"

"We are both here," said A. Berton.

"Then call the roll."

"Horatio Winslow," called Mike.

"Present in a fine leather covered volume," said Horatio.

Mike took out time to indulge in an uproarious fit of laughter.

"A. Berton Braley," called Berton to himself. "Here," he answered to himself, "in good St. Louis style."

"How's that," tittered Rats, knowing it must be pithy.

"Oh, Fair," said Berton, and Horatio keeled over on the floor in a paroxysm of mirth.

"It being the function of this organization to encourage real good punsters," said Rats, "I move myself that we accept the application of the president."

"But," intercepted Mike, "would this be sanctioned by the older members Chaucer, Shakespeare and Milton, whom we justly rank ourselves above?"

"I think they would all smoke up on that," said Horatio.

"Then let's take him in," said Mike.

"He should commend us officially on that Dean Richards joke," said Berton.

"He is about to do it," said Horatio.

"Then let us roll a Willie."

"Have you the makin's?"

"Have you the makin's?"

"I have no makin's."

"I have no makin's."

"Then that poetical pipe on the spring daisies will have to remain in status quo."

And Horatio put on his slouch hat. And Berton pulled up his shoes.

And they both looked for all the world like real geniuses.

The Con'd.

(Pardonnez moi, Mons. Kipling.)

Open the old cigar box, get me a Cuba stout,
For things are running crossways, and Billie and I are out.

We fought o'er a few conditions, we quarreled about my work,
And I know that he is exacting, and he says that I am a shirk.

Open the old cigar box—let me consider a space;
In the soft blue veil of the vapor, picturing Billie's face.

Bill is a meek old codger, Bill has a fetching grin,
But for all of his mild demeanor Billie will rub it in.

Some of the pros are easy, some of them try to bluff;
With Bill it is somehow diff'rent—he knows when he's stood enough.

The old boy has sent me a notice saying I'm booked for a con,
Unless I proceed to get busy and work like a slave from now on.

Work on the hill in the daytime, work in my room at night ;
Buck hard from dawn till darkness—harder from dark till daylight ;

Work like a Phi Beta Kappa pledgling will work for his key,
Knowing all through that there's nothing ahead but a simple A. B.

Dash this cigar! Where's my makings? Here they are. Now for an hour Let's work it out on the euchre-deck plan. Now, then, he's got the bower

In the shape of a faculty meeting, standings in class, and all such ;
In fact, I guess that makes him two bowers, and dad's an ace trump. There's not much
Of a comforting nature in that game, though I hold the joker. But then,
When I've played that my trump days are over, and I'm at his mercy again.

I guess I'd do better at something that's more right along in my class.
Supposing we call it a jack-pot? Or better yet, "stud?" Good! I pass.

Go ahead now, old boy, with your dealing. Good gad! I was foolish to cut! Well, that's not so worse for a starter, and here comes a jack-spot, too. But—

But why didn't I get that eight-spot? It would go mighty well with my blind,
And I'd feel a lot more like a winner with a nice little pair up behind.

Get onto the grin of the lobster. I wonder what he's holding up?
I? Gad, no! I check. What—he's betting?—I must stay! (Contemptible pup!)

A nine-spot for me, and Billie knocks spots out of that with a queen.
And he's betting another. I'll raise him on the strength of a little pipe-dream.

Ah! here comes an ace. And Billie goes back to the woods with a nine.
I'll check this time, too.—Well, gol darn him! There's two, just to stay in the line.

Well, one more card each, and that ends it, for he's dead sure to call for a show. I don't think he'll raise, but—by Godfrey! if he does raise I'll bluff all I know.

Hello! here's a jack! That looks better. And Billie draws only a six!
Let's see. I'll bet—well, next semester. (He hesitates—what if he sticks?)

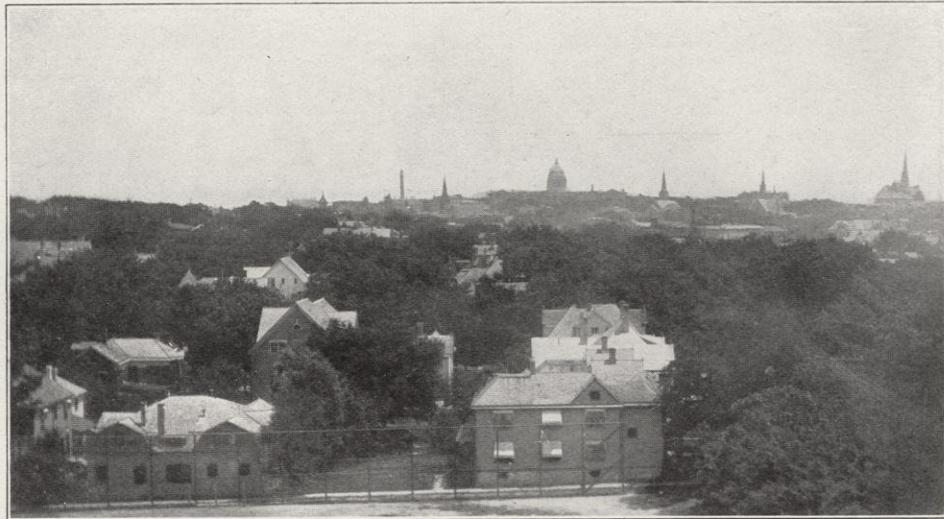

He raises five! (That's the year after. I'll bet that it's only a bluff.)
Here, old man, I'll go you five better. (The whole course, and that is enough.)

Good heavens! He calls me! The devil! The card he held back was a queen! Well, this goes beyond any limit of patience that I've ever seen.

* * * * * * * * * * *
So that's how it stands! Well, there's nothing for me but to buck or vamoose. I guess I'm "too sick" to re-enter this year anyway. What's the use.

Of trying to stay here in college with pains in your head, and all that? I'll write home to-morrow and tell them. (It's true, too, from last evening's bat.)

The girls all will give me their pity, and the old folks will say it's "too bad."
And the fellows—well, five years from this time I'll come back and pass for a Grad.

Madison By Twilight

I stand beneath the dome of old Main Hall,
The sun is slowly sinking to its rest,
And love of beauty holds me in its thrall
As I view the loveliest picture in the West.

I see Mendota's glassy surface, where
The tiny row boats seem to creep along;
And hark! so silent is the summer air,
I hear a frequent snatch of boating song.

The sun, a clear-cut disk of fiery red,
Is dyeing Picnic Point with mellow light;
And as it lower sinks, the glow is spread
Adown the slope of some far western height.

Below me lies the campus strip of green,
Stretching in curved and regular descent;
And just above the hill, the sunlight's sheen
Glances from a surveying instrument.

There where the long, cool, maple-bordered walks
Are darkening, for the sun has nearly set,
Majestic silence near and nearer stalks,
As shadow after shadow turns to jet.

Yet farther on a sea of roof extends
To where the columned State House rears its dome.
And now as night begins and twilight ends,
The lights appear, to mark the shop or home.

The whistles of the distant factories sound,
And six booms loudly from the old clock tower;
It wakes me from a reverie profound,
Reminding of the lateness of the hour.

Ah, Madison! Thy vision hath brought cheer
That shall abide with me, where'er I roam,
Thy memory I'll cherish year by year—
Peace be with thee, my dear old college home!

Vera Luettemeyer
March 4 '04

Mr. Brown

A-

Very dear you show a good
knowledge of your subject
you handle everything smoothly
I have something to say to you
Can you stop and talk with me
sometimes. I like your work.

The Telephone

The telephone is a useful instrument. It is in the form of a box with a receiver on the side and a mouthpiece in front. The receiver is for getting bids and the mouthpiece is for turning them down. The telephone is not as efficient as the newspaper for the publication of facts and other things newspapers are not limited by the number of friends central has. Telephones are if you have a good secret tell it to the phone. Some phones are used to show people where to get off at. Freshmen answer the telephones mostly but it would be mean to make the freshmen answer everything the telephone says. For sometimes it says mean things. I like to telephone for we have one in our house some telephones have drop boxes hung on them. This kind is not used as much or as long as others. If all had drop boxes there would be less jolly transmitted

The Slippery Way

Of all the scares a man is scared of scaring
From out the tank wherein his scares are stored,
The worst's the one he feels when sleet is falling,
And he's afraid he'll next be on the board.

Dante with all his howl about perdition
Hadn't one-half the fear we fellows know,
When our blamed hill, from top to very bottom,
Is just one glare of ice and sleet and snow.

O come out, man, and bring your little bucket.
Sling on the sand—the sidewalks need the grit.
Perhaps if they are given their just quota
Then we can muster up a little bit.

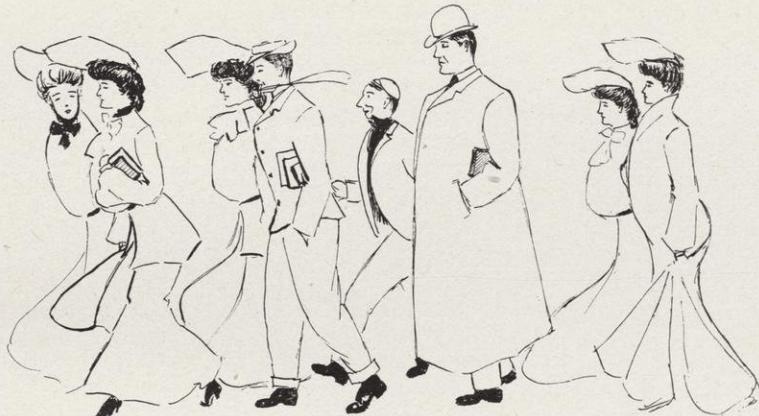

Until then be it said with accents certain,
That the worst course we take against our will
Is that one that pronounces "downs" in order,
When sleet has sleeted our beloved hill.

The Army Of Eight-o'Clocks

Rain or sunshine or snow or sleet,
Tramping, tramping, up the street
In a surging mass of life they go,
Hurrying onward with cheeks aglow.

Block by block as they hasten along,
Like the children drawn by the Piper's song,
Their number increases with each street passed,
Every one swelling it more than the last.

But when the clock in Library Hall
Sends o'er the city its morning call
By eight clear strokes of its iron tongue,
Their march is completed—the day is begun.

Flirting, laughing,

Joking, chaffing,

Dreading, crying

And denying,

Scorning, spurning,

Half returning,

Hating, waiting,

Teasing, baiting,

Wishing, hoping,

Last—Eloping!

Where the Butterflies "Lit"

I Stanley Riddell Latshaw, coming in on the governor's understudy just as he was pasting some newspaper cuts of himself in his scrap book, spoke thusly. "Short two pages, Mike, and that — — Lit will have to be out this week sure."

The orator hesitated a moment, picked out the accents he wanted to put on the various syllables. This followed : "Odds blood, Stanley, have you not hustled ?" "E'en as best I could, Mike. I thought you might turn in another fraternity story." "No, my epic shall not be overshadowed. Get you hence to Moseley's and bring me a copy of some obscure book of poems."

I got hence and the personality went on pasting and grinning to himself about the State situation.

"Here we have it, Mike," I said, coming in breathlessly. "Something from the French," said Mike. "Ah-ha ha," he laughed sarcastically. "The identical requirement. A quaff to my good taste, Stanley."

And the "Lit" came out in March with a poem from the French, signed by Theodore Gautier, who is not any relation to the Theodores we know and whose name cannot be found in the directory. Below is the incriminating evidence.

(See Exhibit A. Moseley's Bookshelf.)

To the Butterflies

From the French.

TH. GAUTIER.

O gay butterflies, color of snow,
Flitting merrily over the hollow,
If you lend me your wings I will go
By the blue airy pathway you follow.

Sweet, where all joys and all beauties dwell,
If the gay butterflies would but try me,
Cannot your wonderful deep eyes tell
As to whether away I would hie me?

Without taking one kiss from the rose,
Over valleys and forests that lie there,
I would go to your lips that half close,
O flower of my soul ! and would die there !

I Guess That Will Hold You for a While

Willie came to college bulging out with hunks of dough,

His father'd made a pile in washing-soap.

Willie started out to set a pace that wasn't slow;

Soon he jerked up short for want of longer rope.
So he scraped up all the rest he had for one more game of poker,

And they hardly let him leave the room alive.

He wrote to dad of crew assessments—Willie was a joker—

Then papa answered back, enclosing five:

Refrain.

I guess that this will hold you for a while,
I'm 'fraid you'll have to mitigate your style.

When I used to go to school,

I never played the fool,

That's how I came to lay up such a pile.

Your crew assessment doesn't work with me,

I know a thing or two myself, you see.

Just cut out those games of "stud,"

They're too heating to the blood—

There ! I guess that will hold you for a while !

Willie tried to butt into the game of politics,

It's a fever a good many of us get,

When the cap'tol got afire, he put in his hardest licks—

He saved a hundred cuspidors, I'll bet.

He tho't that on the strength of this he'd ask them for a job

Of the kind whose hardest work is drawing pay,

But the man he tackled glared at him and said : "Get out, you slob !

Can't you see that this is not my business day ?"

The Wail of the Muse

I sit and gaze at the curling smoke
As it rises and disappears,
And I listen, listen to hear the voice,
That comes to the prophet's ears.
No sage am I, but a troubled look
Comes over my nervous brow,
And I wish and pray that the Muse may come
And inspire me even now.

I do not long for a fiery tongue
To tell of the coming years;
I have no use for the gift of speech
To control men's hopes and fears.
A greater longing is in my heart
As here with my pipe I sit—
To be able to write something really good
And get it into the "Lit."

Billy and Milly

Will decides he'll see the Prom.
With Milly fond and true,
So wastes no time in mailing home
A charming billet-doux.

Milly, when she gets the bid,
Lets out a little coo,
And mails, the same as William did,
A charming, "Billy, do!"

He Sadly Lisped

A fellow who lisped said : " Thith Mo.
I don't think I've flunked more than o.
And it makth me tho thore,
When I look the clath o'er,
And they theem to thay, ' O what a do.' "

The Confessions of Cupid

CUPID drew the hem of his balbriggans closer to his quiver, and puffed a defiant puff to the sighing wind which sighed sassily through the Delta Gamma trees. It was a dull night for love on North Henry Street. Ike Dahle was at Mount Horeb and Gay Wooldge was starring as Seignor Alzetime Buttinski somewhere along the Rialto.

"Pshaw," said Cupid disconsolately and rolled another, while the bell in Library hall tolled ten times.

Two doors slammed up the street and two goats plodded down the Rialto. "Shook at ten," mused his loveship.

"Hard lines for Yours Sincerely."

A patter of feet on the pavement up near the capitol square startled the shivering midget, and the rumble made his arrows clatter in his quiver.

"A rough house at Mattie's," thought Cupid.

"Nixie Rough House, Cupie," cried Duckie Bigelow as he wheeled into Henry from State on his trip from West Wilson. "Gimme the makin's. I'm it, Cupie, old boy, I'll tell you, you got to me for fair. Gotta match?"

"Any saliva ya want?" smiled Cupid, and throwing down his quiver he contracted himself slightly and squeezed under Duckie's vest pocket.

"You are not the limit," confessed the god of love. "There are a few that have got your affection lookin' like a high ball lined up side one of Theodore's." "Do tell," sighed Duckie, reaching into the quiver and taking Cupid's Durham.

"Perhaps you've heard this one afore. I can't tell it as Mrs. Cupid can. It's 'bout Frampton. Juno Frampton?"

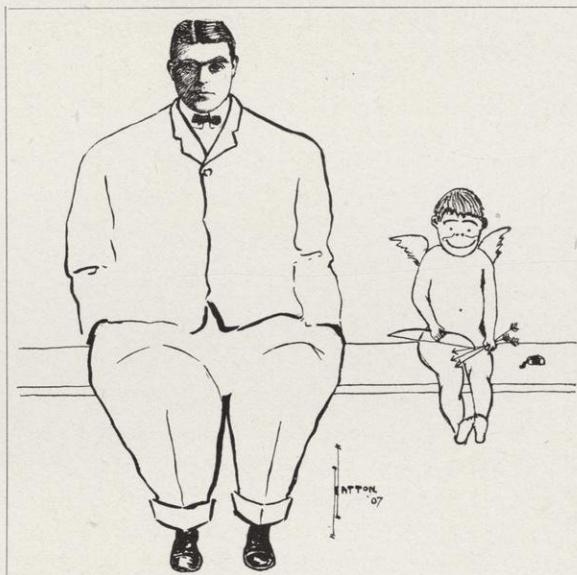

"Intimately! Intimately! Gimme another match."

Cupid wound his shivering hands into the folds of his balbriggans, lit a match, expectorated once for Duckie and continued.

"Well, that man was the hardest proposition I ever speared with an arrow. Why I used to sit in the trees down there on the corner of Gorham and Henry until the leaves began to grow on my balbriggans waiting for a shot, and he hopping around there like a Gilligiloo bird, whistling on his fingers and writing poetry. Made me sore. Wouldn'y be sore?"

"Consumately, Consumately, Dear Cupid, Gimme a paper."

"As I said, I used to sit down there and aim, and aim, and aim, and all the while I could

hear the cooing down at the city boathouse and me wasting arrows shooting at the whiskered candidate on the porch.

"One night things looked favorable and me and Bacchus ambushed together. Then Bacchus was called down to the 'Cafe Nit De Bum' on an emergency call and I stuck it out alone and all the while I was neglecting the sorority houses. Wudya believe it Duck? I used to have to sit around and read those poems about procrastinaton in success, when I got home, just to keep up nerve. He held off all summer and then he took a brace. Quit jumping around ya know and I nailed him. He wriggled around some and squirmed but he stood pat. Now he is a peaceable party. I saw him at a military hop one night when I was campaigning for Buck Sawyer and he was skirting the ends and bucking the line like Norsky Larson. Well behaved lover that."

"Jevver lay for 'Snick' Inbusch?" said Duckie laconically as he cut off one of Cupid's ears, it being the only chattel he had left.

"Pardon me, ask me that in my good ear," said his loveship.

"Head in," said the ungrateful Duckie. "Tell your love affairs to some one else. It's me to the dog wagon."

And he was gone.

The wind sassily sighed through the Delta Gamma trees.

Cupid blew one puff that remained out into the cold and hardened world and threw the match with a thundering crash through the Theta House window.

Crossing the Bar

Dainty little co-ed
Coming down from class;
Sees a red stone building
Which she needs must pass.

Manner somewhat haughty,
Head and nose in air;
Knows full well the "lawyers"
Will be watching there.

Sidewalk rather icy
From the cold and rain.
"Lawyers" stand and rubber
Through the window pane.

Co-ed goes in safety
On her homeward way.
"Lawyers" go to classes,
Encore, day by day.

Chaucer, A La Mode

When drizzlin' drops of April showers
Have started in to fetch May flowers,
An' soaked the ground an' soaked the air
Till the's no dry spot anywhere;
When winds is soft, an' seems to blow
Just easy-like—the kind, you know,
That makes a fellow glad he's 'round
To see things growin', an' the ground
Gits busy too, an' sends up grass
An' other stuff o' that same class;

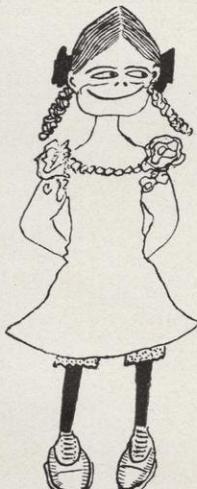

When sunshine ain't so awful hot
That girls are feared their face'll spot;
An' hens, an' ducks, an' turkeys too,
Set up a thunderin' hullabaloo
Because they feel th' same as you
An' me: then people gits possessed.
The' ain't no place that they kin rest
In comfort, so they hit th' trail,
Like Launcelot in Holy Grail,
An' try to cure their sighs an' moans
By touchin' Tommy Beckett's bones.

Invitation to a Military Hop

I cannot remember now whether or no
You said you intended to go to the hop;
But in case
That your Grace
Would be willing to go,
Yours truly has a (not "the") question to pop.

The happy positions of escort and guard,
I humbly beseech you to tender to me;
But in case
That your Grace
Has already a "pard;"
Yours truly begs pardon for voicing his plea.

My duties I'll be very strict to fulfill,
If only you'll send me the answer I'd like;
And in case
That your Grace
Sends the answer, "I will,"
It will please yours respectfully, Reginald Pike.

An Authority on Stevenson

DICK was a Junior and knew the game as he did his alphabet. Dick could recite the batting averages of all the men in the league and he knew the men as well. She was a Kappa Junior and knew Kipling as well as Dick knew the batting averages. She loved the philosophy of Robert Louis Stevenson and she found solace in the apologies that Omar offers. They met at a rushing stunt. She liked his broad shoulders and Dick liked the way she waltzed. When Dick rang her up and asked her for the hop, she smiled to herself and said "I'd be delighted." She looked in the glass more than once on the night of the hop, and she tripped down the stairs to answer the call from the parlor, looking real dainty, Dick thought.

The conversation was inane until they left the crowd under the portico of the "gym." Then she began with Kipling and rambled on while Dick said "Yes," and "No," and nervously dragged at his cigar.

"Men are so queer," she pouted. "They all think that a woman is only a woman and a good cigar is a smoke."

That comforted Dick, until she stabbed him with a pointed question on the Rubaiyat. Dick stammered, and apologized and said that he thought it stupid and had never read it at all. Still she pardoned him and she dreaded the next. Then a happy thought came. Somewhere he had learned that Stevenson looked upon life with the eye of a philosopher and he awaited his opening. "Stevenson hits the nail on the head with his *Virginibus Puerisque*," she mused and Dick saw his chance.

"Yes it always struck me that Stevenson looked upon the world with the eye of a philosopher," said Dick.

She stepped up on the stone step and extended her hand. "You have found out the secret of Stevenson," she said. "I hope that I may be able to talk to you about him at length, some time. Good night."

Dick is rushing a freshman now.

Try An Employment Bureau

I'd like to be a chaperon,
And advise a bunch of fairies,
How to hand out gentle jibes
And pointed, pithy parries.

I'd teach the girls a culture code,
More slang and risque phrases,
And set a social pace so swift
That not a frat could feaze us.

I'd like to bounce the goats at ten
Both fusser and frail lover,
And overhead the man who stuck
A real hard slam would hover.

I'd make a man give references,
Before he drew a Mollie,
And I would quiz him orally
On the gentle art of jolly.

Then, when I had things coming right,
And we were really winners,
I'd build a fence around the house
And denounce the men as sinners.
That's what I'd do, if I were a chaperon.

The Senior Quest

HE was from a woman's college in the East, where she had been taught to take life seriously and herself likewise. She was more than a practical cog in the machine of the universe. A girl with a somber senior cap and a flowing gown was walking up the hill at her side. The cap was perched jauntily above a fluffy pompadour and her companion's cheeks were glowing with health.

"Tell me," said she from the East, "what you intend to do after you are graduated. Will you teach or will you do settlement work?"

"Do?" said the senior, "Do, why I'll go home and look for a husband. What in the world would any sensible girl do? Aren't you going to do the same thing yourself? Own up. Aren't you?"

"Well," said she from the East. Her ideals and her ideas of the visions of the higher life fell and were shattered. For a moment she faltered. "Well,—I—I—hope one will find me."

To My Lady's Picture

Miss Katherine sits on a balmy May morning

Secluded, a picture bewitchingly fair,
In place of a hat a sunbonnet's adorning

Her beautiful tresses of rich auburn hair.

Those lips would the mind of a Stoic unsettle,

Those cheeks would the worst woman-hater beguile,
As she plucks from a daisy the last little petal

And murmurs, "He loveth me," blushing the while.

A man with a camera—Providence guides him—

Comes by and delights in the pose he obtains;
So click goes the shutter, and Katherine chides him,
But still in my keeping her picture remains.

Theme required—

Freshman tired.

Theme due—

Freshman blue.

Theme cribbed—

Freshman fibbed.

Theme suspected—

Fresh. detected.

Theme refused—

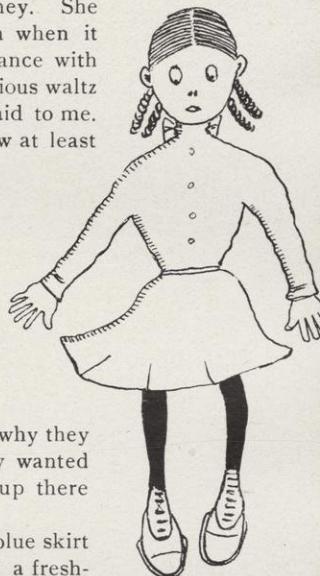

Fresh. "excused!"

His Garment of Repentance

"UH—that gawky, large mouthed goat from the engineering school had her there. From his town I guess. Damme if she isn't the neatest and niftiest little butterfly—and good looking, why she could throw Vera several feet into arclight shadows in a beauty contest. And eyes—why fellows, the regular nonimitation Marguerita Sylva kind. She has the cleverest string of talk and the loveliest thing about it all is that she believes all you tell her. For puns she is all the money. She can cut serrated circles all around that Whittier girl from Boston when it comes to handing out a gentle jolly. You goats needn't laugh. Dance with her once. Get the privilege of holding her program through one glorious waltz as I have and you would be whimsical to look at. This is what she said to me.

"Are you really only a freshman? I am so glad that I know at least one classmate. I have only been here a week. I have met several older girls, but I think I must have made an awful mistake. I got a bid out to one of those sororities that the girls who are masculine like to call 'fraternities,' and I didn't know what to wear. My father runs a bank up here at Sugar River, but he is only worth about fifty thousand, so you see he is hard pressed to pay for my education. I wore my best clothes and went up to eat at that girls' boarding house, where they have a woman who tells the girls when to talk about ethics and when to knock the stuff that my brother calls Feed. They laughed at some things that I said, but I was nervy and asked them all about their sorority, and why they called it that and other things. I told them that I would join if they wanted another member. Then they looked kinda sore and I haven't been up there since. Did anything ever happen to you like that?"

"Then the next dance started and she whirled away with her blue skirt fluttering and her program dangling from the hand of a freshman in a misfit coat. I am going to sit down to compare notes on our freshman experiences to-night, after I do some bucking for my thesis. It's kinda refreshing, anyway, to talk to a new one after four years of——. Oh damme, anyway."

Sapient Sayings of Some of the Sages

Prof. Fish : "Sixty out of sixty-seven of these men embezzled the funds entrusted to them. But they were not really dishonest. They merely lacked honesty."

Prof. Fish : "The steamboat began to expand along the Mississippi with leaps and bounds." (We should like to have been there.)

Prof. Adams : "These questions never grow old. I have no doubt that when I am dead and gone to heaven men will continue to argue them."

Prof. Adams : "We will have a quiz Monday morning But we probably won't have it."

The Tale of Three Engineers

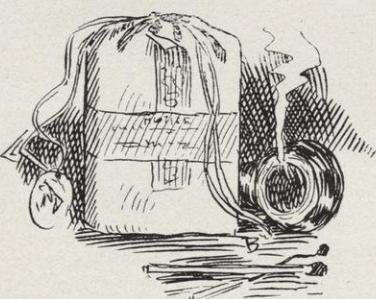

THREE beers stood on the bar
Down at the Farmer's Home;
And they were tall as most beers are,
Down at the Farmer's Home;
Three Engineers were standing there,
And they gazed on that beer with a thirsty stare,
Then each grasped a schooner with, "I don't care
If I do," at the Farmer's Home.

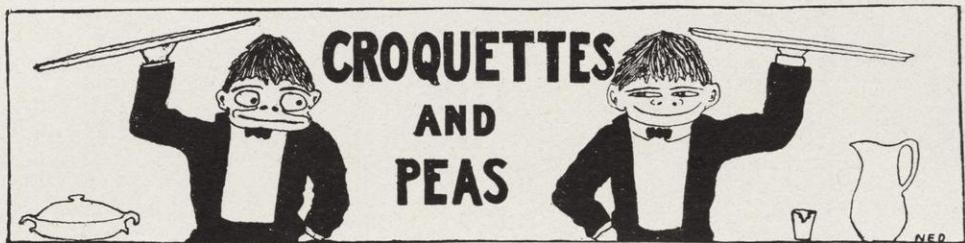

Now, none but an Engineer, you know,
Down at the Farmer's Home;
Can beat a Law in the beer he can throw,
Down at the Farmer's Home;
So up to a table each drew a chair,
And they quaffed the Fauerbach rich and rare,
And many the song that rang on the air
That night at the Farmer's Home.

They toasted the team with a merry shout,
Down at the Farmer's Home;
And they ran their face when their money gave out,
Down at the Farmer's Home;
And they toasted their Profs., and 'twas good to see
That such love exists for the Faculty,
As was vouch'd for them by these students three,
Down at the Farmer's Home.

On the corner at midnight three coppers stood,
Down near the Farmer's Home;
Members of Baker's Brotherhood,
Down near the Farmer's Home;
They ambushed three students with studied care,
With handcuffs they bound them then and there,
And they marched them off to that bad place where
The coppers hang out when at home.

I can sing no more of these students three,
Who were led to the coppers' home;
For the rest of their tale is a mystery
That's lost in the coppers' home;
But I can surmise that Dean Birge came,
And learned of the coppers each student's name,
And that they were "conned out" in mortal shame,
Sing Ho! for the Farmer's Home.

"Jevver pitch spuds at a frat house, De Quincey?" said Flannigan from the Phi Delt house.

"Beg pahdon, suh," said De Quincey from the Delta Gamma lodge.

"Jevver measure feed at a continuous stag party?"

"I must ask the connotation of your clauses, suh."

"I see plainly that you never saw a gay young Lothario put up his corn against two desserts on who had the pole with the airy Lillian from Chicago. It appears that you never saw dances with bewitching creations bartered for a stingy slice of lemon pie with frosting. You have lived a life of bootless humdruminess. You have listened to the merits of Ibsen, and while you swaggered through the dining room the letter R's have been dropped around your feet in a profusion.

"Perhaps you never saw the faculty portrayed in blue smoke, which mingled with the savoring odor from the steaming cabbage and the corn beef. There has never been any comparisons made between John's fare and the brother's fare within your hearing. Has there?"

This from Flannigan, and all the while De Quincey stared in wild eyed wonder.

Then he flaked the ashes from the Turkish trophy and proceeded:

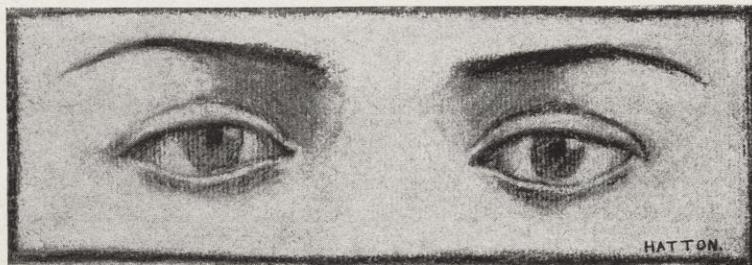

"My deah Flannigan, theh is a manifestation of diah ignowance on youh pawt of what weally constitutes the spice of existence. Have you evuh heahd any of Howatio Winslow's weal good puns wepeated at the table? Have you evuh seen the *Sphinx* laughed at weal haftily? Have you evah witnessed the guillotining of the good scouts who eat off those dishes you haven't bwoken? What have you stored up about the Greek dwama and the higher things of this life?"

"Odds blood, De Quincey, I beg you to head in at once. The drink will be served at my expense." (Raps three times on the table and pulls out a Canada quarter.)

What Happened To Jno

A freshman whose first name was Jno,
When he found he was due for a cno,
Said, "Well, who'd have thunk
I was goin' to flunk,
But then, I don't give a doggno!"

Burr W. J. is a very nice man,
His language is chosen with exquisite care;
He'll give you a fair and square chance if he can,
And his smile is as sweet as the curl of his hair.

Those Beautiful Dreamy Eyes.

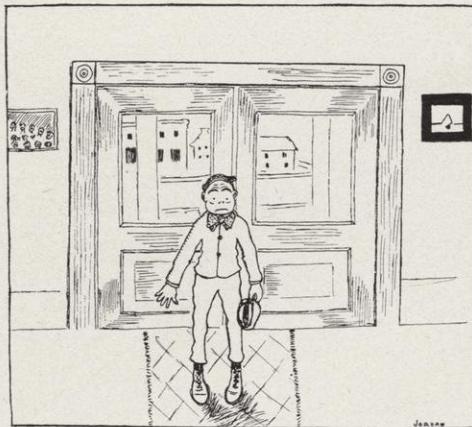

You get up in the morning and feel pretty sore—
 Need a shoe-horn to get on your hat,
 Too much joy down at Tommy's the evening before,
 No doubt is the reason for that.
 You sneak up to class with a face like a hearse,
 When the prof. calls on you to recite,
 And you flunk—then you feel you can add a tenth verse
 To that song you heard t'other night.

Refrain.

'Bout those beautiful, dreamy eyes, dreamy eyes !
 They look you over and seem to say:
 "Young man, you'll be conned if you keep on this way!"'
 Oh those beautiful, dreamy eyes, dreamy eyes!
 Those clear, oh, queer, oh,
 Oh so severe, oh,
 Mark-you-a-zero eyes.

A Chadbourne Call.

Queer sensation,
 Heart a-thumping.
 Quiet giggles overhead,
 Giggles, giggles, yet more giggles—
 Gee! My face is getting red.
 Noise in hall,
 And buzz in parlor;
 A queer roaring in my ears,
 Giggles, snickers, laughs and whispers—
 What a lot of things one hears !
 Swish of skirts,
 Face o'er the railing;
 Faces, faces everywhere.
 Chadbourne Hall? Yes, I've been calling,
 And the inmates all were there.

L'Envoi

The inspiration ceases here,
The puns run out;
We've no more grinds for you to fear
Or fret about.
Our work is over, and we rest
From labors that we trust are blest.

One thing remains to us, you say,
That we should do;
We should apologize straightway
To such of you
As have been marked by turn of phrase
For pleasantry in future days.

Perhaps we ought. We meant no wrong
In what we said;
If wrath has followed jest or song,
Then on our head
Be laid the blame. For you the best
We have is—Liber scriptum est.

Start your annual Right

Remember in preparing your College Annual, that you and your classmates will keep the book in remembrance of your college days, for all the rest of your lives. Do you want your class book to be a good one? Of course you do. THEN START RIGHT by deciding to have the BEST OF ILLUSTRATIONS, which means the best cuts—half-tones, zinc etchings and color plates. WE MAKE THE CUT PROBLEM EASY FOR YOU TO SOLVE. First our quality is the best. The illustrations in this and a large number of the other annuals of this year are our work, and speak for themselves. We will gladly send further samples. Our large experience with College Annuals enables us to handle your work with intelligence and dispatch. We will be glad to give you information of any kind about preparing your book—such as grouping photos, methods of making drawings for reproduction, kinds of photos that reproduce best, etc. Glad to suggest ideas for obtaining new effects, etc. By giving us the order for your engraving, you are assured

HIGH QUALITY ::::::: QUICK SERVICE

ENTERING UPON PROSPERITY

Is easy if you only have the key. Here it is. We say of a man who becomes fore-handed—saves from his income regularly—that he is prosperous. Many find this saving a difficult proposition; they need a motive for saving, and then they can save. Life Assurance furnishes this motive better than anything else. A double motive is offered, that of saving for protection to family in event of death, and saving for self if the assured lives to complete his period.

We invite any one interested to investigate our plans, and will be glad to furnish details.

We would also like to hear from any one contemplating an agency.

THE EQUITABLE LIFE

TWELVE COMPETENT
TEACHERS

¶ Students received at any time. ¶ Courses suited for students of any grade.
¶ Open alike to those who desire to take musical studies only, and to those
who wish to take other studies in the University. ¶ No fee except for musical
tuition. ¶ For extract from the catalogue, or any information, apply to

F. A. PARKER, Director, or
MISS BESSIE BRAND, Secretary,

MADISON, WISCONSIN

The University of Wisconsin

Situation of the University

The University Grounds extend along the north shore of Lake Mendota more than a mile. In point of beauty the site is unsurpassed, if not unequaled. The campus contains 240 acres, besides an athletic field, known as Camp Randall, of 42 acres. On the lower campus are the Gymnasium and the Historical Library building.

The University Embraces

The College of Letters and Science.
The College of Mechanics and Engineering.
The College of Law.
The College of Agriculture.
The Graduate School.

The College of Letters and Science embraces General Courses in Liberal Arts. Special Courses which include Commerce, Premedical Studies, Pharmacy, Education, Music, Home Economics.

Library and Laboratory Facilities

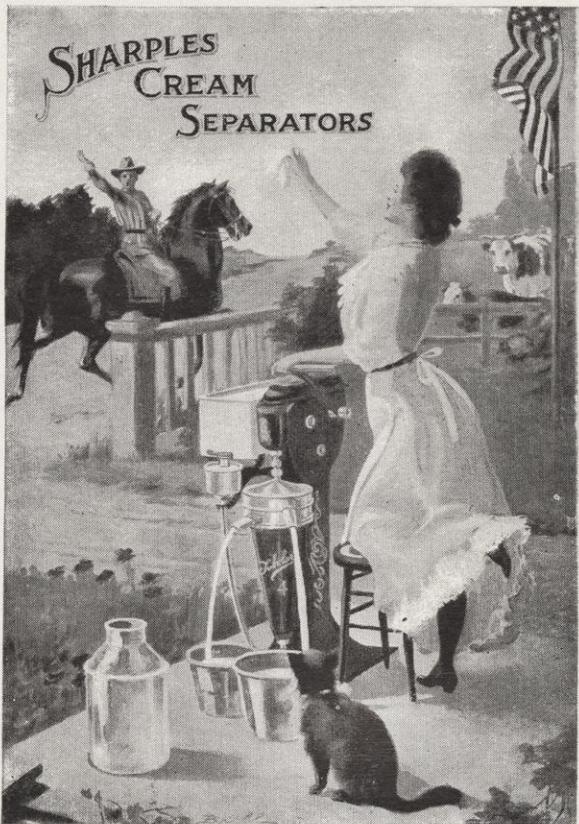

The completion of the new Historical Library building, which also includes the University Library, affords unsurpassed accommodations for the use of students. The number of volumes contained in the Libraries accessible to students is about 276,000. The laboratory facilities of the University are excellent and include well equipped laboratories in chemistry, physics, biology, geology, mineralogy, petrography, psychology, botany, and in engineering, pharmacy, assaying and agriculture.

Facilities for Physical Training

The Gymnasium, 200 feet long, 100 feet wide and three stories high, affords probably the best accommodations to be found in the country. Besides offices, locker rooms, lecture rooms, shower and tub baths and rooms for other special gymnastic work, it contains a swimming tank 80 feet long by 28 feet wide, a running track of eleven laps to the mile, a ball cage, and a general gymnasium 165 feet long by 96 feet wide.

Conditions of Admission

Students are admitted either by certificate of graduation from an accredited high school, or upon examination. For detailed information, address the Deans of the respective colleges, or W. D. HIESTAND, Registrar of the University.

SEPARATION

A copy of the above picture in beautiful colors, size 11 x 14 inches, suitable for framing, will be mailed free on request.

The SHARPLES Tubular Cream Separators

are used in every dairy section of the earth. Guaranteed to skim cleaner, to require less power, to be more simple in construction, more convenient, more easily cleaned, more durable, and to produce a finer quality of cream than any other separator.

FOR DESCRIPTIVE CIRCULARS AND CATALOGUES ADDRESS
THE DEAN, College of Engineering, MADISON, WISCONSIN

THE MASTER STROKE

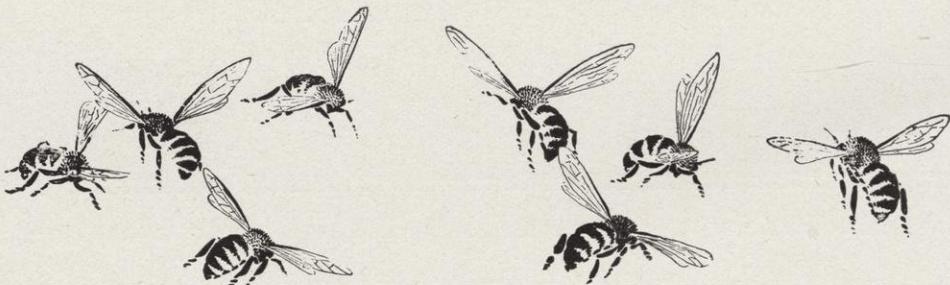

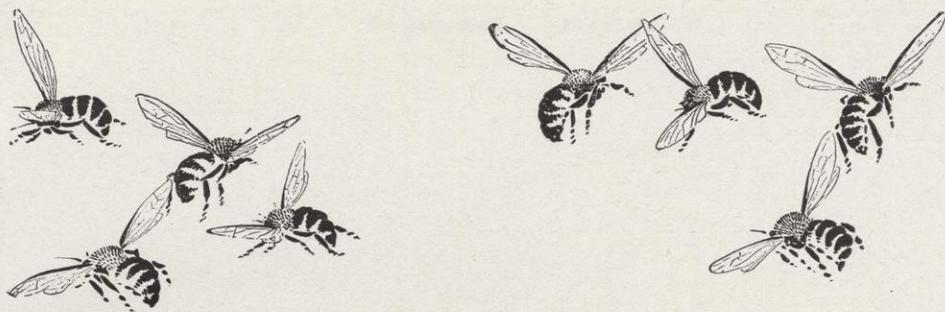

THE highest prizes in life are given to those who take the initiative. Life pulsates with chances. Copyists we shall always have with us. But charter-initiability belongs to the few — those who produce something different—away from the beaten paths and make the world pay them homage.

Trostel's Krom Wax Calf

has been awarded the highest prize in the realm of human gifts—the esteem, enthusiasm and appreciation of all those whose judgment is concise! Because it is initiative in character—it is not like others—it has stepped out from the mass of wax calf leathers advanced to the firing line, delivered the message to Garcia, and the world applauds!

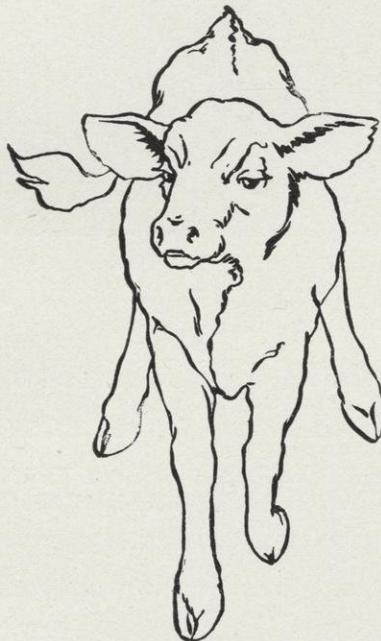

The popularity of Trostel's Krom Wax Calf is standard as

gold—and to-day nearly every one whose judgment isn't dock-tailed is demanding shoes made of Trostel's Krom Wax Calf.

Ask your dealer for Trostel's Krom Wax shoes. He'll then know you want the best and appreciate your judgment. Beware of shoes made from imitation leathers which lack all the positive virtues of the original which we alone know how to produce.

The Farrington Duplex Pasteurizer

IT stands for a long step forward in Dairy Science; an example of the High Grade Apparatus with which Twentieth Century business men are working a revolution in the making and handling of milk and butter. ¶ Practically all the machinery and apparatus which is to-day recognized as standard and necessary has been brought out, perfected, and put into use by us. We spend more money inventing and developing new methods to improve the quality and decrease the labor of handling dairy products than all other concerns combined. ¶ Our specialties lead because they are correct in principle and built on honor. ¶ Our Engineering Department is at your service in planning and equipping Creameries, Cheese Factories, Sanitary Milk Plants, and Private Dairies.

American Balance Valve Co. All kinds of BALANCED MAIN VALVES for any service

Slide Valve perfectly balanced in all positions of stroke and with double admission and double exhaust openings.

The J. T. Wilson High Pressure Slide Valve, balanced on a new principle; balanced area changes; balancing feature is stationary, is fully automatic and positive in action and adjustment, and is indestructible. The valve is the only moving part—least friction—best distribution of steam. IT NEVER COMPLAINS, and NEITHER DO THOSE WHO USE IT.

What is a so-called balanced valve that is without automatic adjustment? Don't be deceived. Stop and think. Then investigate. Our American Automatic Plug-Snap Ring Piston Valve is a snap ring valve when without pressure, but rings are converted into plugs by the pressure, so it is a plug valve in WEAR, and a snap ring valve in adjustment. No "by-pass" or other relief valves required.

We make and sell the NIXON SAFETY STAY BOLT SLEEVE—over a million in use.

THE ONLY

Double Track Railway Between Chicago and the Missouri River

The Overland Limited, daily between Chicago and San Francisco; the Colorado Special between Chicago and Denver, and the North-Western Limited to St. Paul and Minneapolis, are examples of the highest art in train construction and design, possessing the most complete arrangements for the comfort of passengers, and operated on fast and convenient schedules.

An excellent service of fast daily trains between Madison and Chicago makes direct connection with transcontinental service of four fast trains each way daily between Chicago and Omaha, three trains a day between Chicago and San Francisco, Los Angeles, Portland, Salt Lake, Ogden and Denver, four between Chicago and Sioux City, and one between Chicago and the Black Hills. The nine thousand and thirty miles of railway embraced in the North-Western System penetrate to every point of importance in Wisconsin, Iowa, Nebraska, Northern Illinois, Northern Michigan and Southern Minnesota. The system also extends to points in North and South Dakota and Wyoming, with connections to the Pacific Coast.

All Students Should Own the New and Enlarged Edition of the International

It is more universally used by students than any other dictionary. It has been warmly commended by all the State Superintendents of Schools now in office, by nearly all the College Presidents, City and County Superintendents, the Principals of Normal Schools, and a host of teachers. The new edition contains **25,000 new words, etc., New Gazetteer of the World, New Biographical Dictionary**, edited by W. T. Harris, Ph. D., LL. D. New plates, 2,380 pages, 5,000 illustrations.

Also **Webster's Collegiate Dictionary** with 1,100 pages. 1,400 Illustrations. Size: 7 x 10 x 2½ in.

A Special Thin Paper Edition just issued, is printed from the same plates as the regular edition. It has limp covers and round corners. Size: 5¾ x 8¾ x 1½ in.

Specimen pages, etc., of both books sent on application.

"If a man can write a better book, preach a better sermon, or make a better mousetrap than his neighbor, though he build his house in the woods, the world will make a beaten path to his door.—Emerson

¶ We pay especial attention to College and Fraternity Printing. The quality of our work is unsurpassed, and being so far removed from the city is the best evidence that our prices are right. We manufacture our own papers, therefore our prices should be lower than those who do not. We are willing to share this advantage with our patrons.

¶ Please correspond with us when you wish printing of the better kind
