The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

## Armour against pain . . .

Three thousand years of seeking added little else but "Sweet Vitriol" and the poppy to man's armoury against pain. Today, medical science has at hand the widest range of apparatus—for anæsthesia in the theatre, analgesia and oxygen therapy in the ward—perfected and made by THE BRITISH OXYGEN COMPANY.

With the apparatus the B.O.C produces the gases, and with the gases, a service which responds promptly to any need.
