FIRST BASEBALL GAME

'VARSITY VS. ALL-STARS AT CAMP RANDALL TO-MORROW.

Holders of Season Tickets Admitted Free—Diamond in Good Shape—Lawrence Here Saturday.

The first baseball game of the season will be played to-morrow at Camp Randall between the 'Varsity candidates and the All-Star aggregation. The same teams will play again on Thursday and Friday. The first regular college game will be played with the Lawrence University team on Saturday.

The men have been practising at Camp Randall all the week and have been showing up very well. The field has been rolled and is now in fairly good shape, being almost dry. The men have been working hard all the past week, there being great rivalry for the different positions. Nothing definite has been decided as to what positions the various candidates will hold, and this will depend largely upon the showing they make in the three practice games this week. Students who wish to get a line on the team would do well to attend these games with the All-Stars.

Among those who will play with the All-Stars are Bandeline, Check, Wilmot, Henry, Jackson, Arthur Curtiss, Cassibone, and Smith.

A small admission fee of twenty-five cents will be charged. Season tickets admitting holder and a lady to all games to be played this year are on sale at the Co-op and can be obtained from various men about the University.

Professor Hart's Lectures.

Professor Albert Bushnell Hart, of Harvard University, will deliver a course of five lectures on the Monroe Doctrine beginning Tuesday, April 16. These lectures are designed particularly for the students of history, but are open to all members of the University and to any citizens of Madison who may choose to attend. They will be given in room 16, University Hall. The hours and subjects of the lectures are as follows:

1. Tuesday, at 4: Monroe's Monroe Doctrine—Protection of the Weak.
2. Wednesday, at 5: Polk's Monroe Doctrine—Manifest Destiny.
3. Thursday, at 5: Blaine's Doctrine on the Canal of South America—Hege-mony of the United States and the Americas.
4. Friday, at 5: Olney's Monroe Doctrine—Sovereignty of the United States and the Americas.
5. Saturday, at 9: The Doctrine of the Future—National Interest.

Charles H. Haskins.

Notice to Members of the Senior Class.

I have tried to reach every member of the Senior Class. If any have failed for any reason to receive an invitation to the reception on Saturday evening next, if they will kindly send me their names and addresses I shall be pleased to send them cards of invitation.

Mrs. E. A. Birge,
744 Langdon St.

April 8, 1901.

—Edgar J. MacEachron, '04, of Green Bay has resumed his studies after an illness of three weeks.

Marine Band Thursday.

The great United States Marine Band will be here Thursday and will give two concerts in the University gymnasium, one in the afternoon and one in the evening. The sale of seats opened this morning.

The band has met with unexampled success everywhere on this tour. Two concerts given at Kansas City were attended by 10,000 people and at Topeka there was an audience of 5,000 at a single concert.

The enthusiastic editor of a Topeka paper comments as follows: "There is but one George Washington, one Fenton, one Carrie Nation and by the same token but one United States Marine band. It is beyond the criticism of mere man." The band had thirteen encores in a program of nine numbers.

The New York Tribune in a recent issue is authority for the statement that the reorganized United States Marine Band not only maintains its standard at the highest point of excellence in its entire career, but has actually advanced away beyond the best work of any time in its history. This paper states, has been due to the intelligence and energy of the leader, Lieutenant Santelmann, as much as to the wise liberality of congress. The concerts at the White House while they are governed largely by the popular taste which demands popular music, in justice to Lieut. Santelmann and the great band under his direction, it is stated, have conscientiously endeavored by degrees to cultivate in the public an appreciation of the higher forms of music, and to instill in the minds of the light music lovers the notion that music can and ought to be something more than the mere ear tickling process.

With the band now numbering 75 members, and a year's drill under its present musical conductor, such a high perfection has been attained that the officials are really proud to have the band heard by the country at large and this more than anything else has influenced the granting of the leave of absence which will soon bring the band to this city for an exhibition concert.

Y. M. C. A. Subscriptions.

At this time of the year the Y. M. C. A. is taking subscriptions among the male students and faculty of the University. It might be well to state the use and purpose of such subscriptions, as oftentimes unjust remarks and reports are circulated regarding same by those unacquainted with Y. M. C. A. affairs. The subscriptions are used to pay the current expenses of the Association such as rent of their parlors and office, printing, and salaries of general secretary and office secretary. There are also other expenses for the carrying on of their meetings and socials.

The subscriptions are strictly not for the benefit of any particular members as some persons are apt to thoughtlessly remark. The advantages of the association to the male students are many, and at all times their parlors are open to the public.

—A number of the faculty spent a part of the vacation in Milwaukee, among these being Professors Voss, Marshall and Fischer.

—Professor Tressler has been out on a high school inspection trip visiting Eau Claire and other places in that vicinity. He leaves Eau Claire this week for Durand and neighboring cities.

—J. Bartow Patrick, '02, is confined at his home in Oak Park by illness.

PRINCE KROPOTKIN

THE FAMOUS RUSSIAN NIHILIST TO LECTURE HERE.

Will Speak on Turgenev and Tolstoi—A Great Scientist and Literateur—Faculty Auspices.

Prince Kropotkin, the famous Russian scientist and literateur, will deliver a lecture in Library hall next Tuesday evening.

This distinguished lecturer is secured for this occasion by the department of English literature and the lecture will be given under the auspices of the Faculty Lecture Committee.

As the promoters of this lecture have no fund to draw upon the expenses of securing the Prince for a University audience will be met by charging a nominal admission fee. Reserved seats will be 35 cents.

Prince Kropotkin is one of the most distinguished Russians of to-day. His life has been full of remarkable experiences. About 30 years ago he was exiled to Siberia on account of his radical Nihilism. He is a scientist and a literateur. The subject of his lecture here will be Turgenev and Tolstoi. The former is the great Slavic author and the latter is world renowned as a philosopher and novelist.

Reserved seats will be placed on sale at Friday's Convocation. Students may obtain reserved seats for twenty-five cents.

RABBI HIRSCH COMING.

The Great Hebrew Secured by Professor Williams.

Professor Williams of the department of Hebrew and Hellenistic Greek has arranged a remarkable series of lectures to be given in the near future on subjects connected with the Hebrew department. A number of noted speakers from abroad will come and each deliver a lecture.

The most noted of the orators who will speak is Rabbi Hirsch of the Sinai Temple of Chicago. Rabbi Hirsch is the foremost man of his race in America and one of the greatest orators of the country. He is the head of the largest Hebrew congregation in Chicago and receives for his services \$15,000 a year, one of the highest salaries paid to any minister. Besides being Rabbi of Sinai Temple, Dr. Hirsch is also professor of Biblical Hebrew at the University of Chicago. Another speaker will be Dr. Meyer of Temple Emmanuel of Milwaukee. Dr. Meyer is considered an especially brilliant man, and has the reputation of being an eloquent speaker as well. His sermons in Milwaukee are always listened to by large and appreciative audiences.

A lecture will also be given by Dr. George L. Robinson of McCormick Seminary, whose name has been connected with recent discoveries in the Land of Moab. Dr. Robinson who is a strong lecturer will probably talk of his recent explorations in the Holy Land and his lecture will be an interesting one.

The time and place of the lectures has not yet been decided upon but will be announced later. The first lecture will be given by Dr. Meyer in the latter part of this month and Rabbi Hirsch will speak early in May, though no definite arrangements have been made as yet.

NEW LABORATORIES COMPLETE.

Physics Department Has Finest Experimental Rooms in the World.

The Physics laboratory is at last permanently located in room 21, Science Hall. The students have used the room for laboratory purposes for the first time today. The room was formerly occupied by the mechanical engineers as a drafting room until by the building of the Engineering Building the engineers were able to abandon Science Hall to more strictly scientific purposes. Workmen have been engaged for three or four months putting the rooms in readiness for the laboratory; the walls have been calumined thereby greatly adding to the appearance and to the lighting. The room is encased on three sides by large windows. About 120 feet of slate shelving has been mounted about the room to serve as apparatus tables. Six large stone piers are built about the large pillars in the central portion of the room where instruments will be placed for permanent use. The remaining space is occupied with large and handsome laboratory tables. The laboratory is furnished with splendid ventilation. The laboratory will soon be abundantly supplied with gas, electricity and water supplies.

The laboratory room measuring 76 by 47 feet, will, when complete be for general purposes, the largest, best lighted, most convenient and best appointed physical laboratory in the world. Professor Snow in his visits to European laboratories found none that would rival it and is confident that no laboratory in the United States equals it in any appointment.

New apparatus is constantly being placed in the hands of the students and a large order is now on its way from Europe.

A novel arrangement is being made in the method of determining exact time measurements, for a clock circuit is to be run about the room from the main clock to give time of various gravity pendulum and other apparatus. In addition a wire has been run from the Observatory to furnish standard time.

The offices of the laboratory instructors are in an adjoining room to the east. The old room in the tower to the rear and west of the laboratory will be fitted up for a store room for supplies. The old sophomore laboratory in the basement is being fitted to serve as a junior laboratory. Never before have the advanced students had adequate room and Professor Snow has for some time realized the cramped condition of his laboratories but not until now has there been any opportunity of adjusting affairs. This room has also been readjusted adding materially to the beauty and usefulness of the laboratory. This laboratory will be under the direct supervision of Professor R. M. Wood.

Engineers Return.

Last night the last of the Junior Electrical and Mechanical Engineers returned from their trip to Milwaukee and Chicago. The trip occupied five days of the past week, beginning on Monday and ending Friday evening. This annual inspection of large manufacturing establishments was a great success. The party consisted of 26 students and Professors Swenson, Richter, Maurer and Frankenfield. They were met in Milwaukee by Prof. Johnson, of the Johnson Electrical Service Co., whose guests they were throughout their Milwaukee visit. The largest machine shops and manufacturing plants of Milwaukee and Chicago were closely inspected.

First Game To-morrow.
The first baseball game of the
season will take place to-morrow and
some estimate can be made of
whether the long-awaited and often
predicted turn of the wheel has taken
place. We are assured both from the
quantity and excellence of the
material that presented itself for
practice this season and from the
opinions of experts who have super-
intended the work that the forthcoming
team will be a creditable one. Of
course that has been said several
times before but the Cardinal still
cherishes a slight belief in the ex-
istence of something new under the sun
and perchance that something may
be a first class base ball team at
Wisconsin.

Although to-morrow's contest is not
a championship game, yet it will well
repay attendance as the developments
of the first few games will be largely
indicative of the showing of the sea-
son. The straitened condition of the
finances of the athletic association
makes it the duty of every student
who can to attend the various athletic
contests of the spring season and
thus contribute to the resources of the
association. Very little direct solicita-
tion is done here and the response in
point of attendance ought to be cor-
respondingly large.

MEMORIAL SERVICES.

Friday's Convocation Will be Devoted
to Eulogies of the Late Prof.
Whitney.

Next Friday has been decided upon
for the holding of the Memorial Con-
vocation service for the late Professor
Whitney. Two speakers from out
of the city have been secured. Acting
President Birge will preside and the
speakers will be introduced by Dean
Johnson. The speakers at the ser-
vice will be Mr. Isham Randolph,
Chief Engineer of the Sanitary Drain-
age Board of Chicago, Mr. H. P. Bord-
man, Engineer of the Chicago and Al-
ton R. R., and Professor F. E. Turn-
neau of the faculty of the College of
Engineering.

Mr. Randolph has been an intimate
friend of Professor Whitney from the
time they both were railway engi-
neers together in Chicago. He is a
pleasant speaker and an engineer of
national reputation. He will speak
not only as a personal friend of Pro-
fessor Whitney, but as a representa-
tive of the Western Society of En-
gineers of which Professor Whitney
was vice president at the time of his
death.

Mr. Bordman is a former student of
Professor Whitney, having graduated
as a civil engineer in the class of '94.
He also has gained an enviable reputa-
tion for so young a man as a railroad
civil engineer. He has been asked
to take Professor Whitney's work for
the remainder of the year, but has not
as yet accepted the appointment.

Professor Turneaure will speak for
the faculty of the College of Engi-
neering, he being a co-ordinate profes-
sor of civil engineering and having
been associated with Professor Whit-
ney more intimately than any other
member of the faculty. Students in all
classes of the College of Engineering
will be present and a general invita-
tion is extended to citizens and all
other students.

Crew and Track News.

Many of the crew men remained in
town during the Easter vacation, and
when the weather permitted they
rowed each day on the Catfish. Now
that the vacation is over and all can-
didates have returned Coach O'Dea
will put them all into strict training.
Just as soon as the ice is off of the
lake the freshman and law crews will
have a number of races in order to
test their speed and strength. The
ice is beginning to go off of Mendota
and if the warm weather continues it
will be but a few days before all the
crews can row on the lake. The date
for the St. John's-Freshman contest
has not been decided as yet but it will
be on or about June 9th.

Wet weather prevented the track
men from doing much work at Camp
Randall during the vacation. Coach
Kilpatrick called out the candidates
for out door training last week but
owing to the poor condition of the
track not much could be accom-
plished. Yesterday, however, was a
good day for training at Camp Randall
and many of the candidates reported
for work. A number took long cross-
country runs while others kept to the
track. Now that most of the men
have returned from their vacation
Coach Kilpatrick will put all to hard
work in order to get the best results
in picking the ten men who will repre-
sent Wisconsin at the Beloit meet
April 20th.

We take pleasure in announcing
that, at our Annual Opening Sale of
Bicycles and Sundries beginning Wed-
nesday, April 3d, Mr. W. F. Culberson
from the "Pierce" and Mr. D. W.
Shattuck from the "Columbia"
factories will be with us to demon-
strate the merits and improvements
in their chainless and chain bicycles
for 1901.

few days for the purpose of attending the wedding of her sister.

—Delta Delta Delta gave an informal dancing party at their house Thursday evening.

—Morris Moe, '04, of Milwaukee will be unable to come back for several weeks because of illness.

—Professor Slaughter did not meet his classes today, being out of the city. Dr. Fiske took his place.

—Miss Eleanor McCollins of Dubuque is visiting with her sister, Miss Clara McCollins, '04, at the Hall.

—Professor Snow devoted most of his Easter vacation attending to the fitting up of the new physics laboratory in Science Hall.

—The appearance of the interior of the new Library building has been somewhat improved. A fresh coat of paint has been given all of the heating apparatus. The old paint had begun to peal off and lose its color and it was necessary to repaint the pipes in order to keep their appearance in harmony with their surroundings.

—Last Wednesday evening a memorial service for the late Professor Whitney was held at the Congregational church. A large number of friends of the late professor attended and many tributes were paid to his life and character. The meeting was in charge of Rev. E. G. Updike with whom Professor Whitney had been associated for years in church work. Among the speakers were Mr. W. A. Tracy, Dr. L. R. Head and Dean J. B. Johnson.

—Many of the faculty attended the Southern Wisconsin Teachers' Association meeting at Platteville during the Easter vacation and took part in the program. Acting President Birge spoke on the relations of the institutions of the educational association. Professor Stearns also took part in the discussion of the same theme and further spoke on the relations of text book and teacher. A talk on Greek in the high school was given by Professor C. F. Smith. Professor Goff presented a paper bearing on agriculture as connected with the teaching of botany.

Nebraska will not debate with Stanford until next fall, on account of the number of debates the former institution has scheduled for this year.

General Frederick Funston who recently captured Aguinaldo is a graduate of the university of Kansas.

GET A practical
knowledge of
SIGN and HOUSE
Painting,
gold and silver letter-
ing, bronzing, car-
riage and landscape
painting, kalsomining,
mixing colors, contracting, etc., from
our Painter's Book. Our book of 25
years experience in sign and house paint-
ing is so explicit that even boys can
teach themselves the painter's trade in a
short time. 25 illustrated alphabets are
included in our book. Address Val.
Schreier Sign Works, Milwaukee, Wis.

Silverware, Cut Glass | College Pins, Rings
and Art Objects. | Prizes and Trophies.Michigan Etiquette as Viewed by
Minnesota.The following editorial printed
recently in the Minnesota Daily under
the head "Be Decent at Least" shows
how Michigan's attitude is looked
upon by our northern neighbors:"Under the caption 'Unpenned
Hogs' the Saturday issue of the Uni-
versity of Michigan Daily makes a
fierce attack upon the University of
Wisconsin Oratorical Association for
its action in appointing a successor
to President Loeb of the Northern
Oratorical League, instead of allowing
Vice-President Stanley of Michigan to
take the place left vacant by the
resignation of Mr. Loeb. The Daily
proceeds thus: 'The unqualified
hoggishness of Wisconsin University
in gobbling up the presidency of the
Northern League is the most glaring
example of unsportsmanlike spirit
ever seen. Wisconsin has an un-
savory reputation anyway.'"Without entering into the merits
of the controversy between the two
institutions the Daily wishes to ex-
press its regret that such a rancorous
and undignified attack should be made
by the Michigan Daily upon a sister
institution. Unsavory reputations are
surely undesirable, as the article
clearly intimates, and yet the Michi-
gan organ hardly takes the proper
precautions to avoid acquiring one
for itself when it descends to the use
of such scurrilous language as it has
employed in this characterization of
the Wisconsin authorities. If Wis-
consin is wrong she is at least enti-
tled to be remonstrated with respect-
fully and not insulted by having
hurled at her head epithets which
would disgrace a stable-jockey. The
interests of college journalism de-
mand that such an outrage upon its
dignity be noticed and reprobred. If
the Michigan paper is unable to attain
and maintain a proper dignity in the
discussion of inter-university ques-
tions it should at least try to keep
within the bounds of propriety and
decency."

Minnesota's Schedule.

The most important games on the
schedule of Minnesota's baseball team
for this year are as follows:April 24, Notre Dame at Notre
Dame.
